JOHN LEEMING.

## THE COURIER

THURSDAY, OCTOBER 24, 1850.

The Industrial Exhibition. made, by parties exhibiting, against the decisions of the Judges, whose list of awarded prizes will be found in our paper to-day. Certainly some of their awards do appear to us of the most extraordi nery character, though we do not think it expe dient to enter into any details. However, great allowances must be made; this is the first Exhibition of the kind we have had, and gentlemen may be presumed not to have quite so much experience as they may hereafter attain; of one thing we are satisfied, which is, that the Judges have acted with our and rectitude of intention, and though they may have erred in some instances, we are convinced that if a clear case of error is made

out, and laid before them, they will be quite ready ready to blame men who have acted according t the best of their judgment.

In our hurried enumeration of the various articles sent to this Exhibition, we believe that we quite forgot to notice the works of various fair contributors, in the shape of fancy work, embroidery, Berlin work, and various other elegant pro ductions of the needle. There was a screen on which was most beautifully worked of some

strange bright b.rd, with starry wings," surrounded by a wreath of exquisite flowers, which d to be the work of a young lady in the Congregational Numery. We saw also a very fine chair, worked, we believe, by Mrs. Walton, and in a glass-case there were some pretty things of this kind, but we could not learn the names of the ladies who sent them. A table, intended for the centre of a drawing-room, ornamented with flowers, by Miss Emeline Warren, attracted great

We had almost forgotten to notice an exquising integ\_ or mg my enasen renel in all ver on a gold ground,—the work of our neighbor, M. weathin, but the only wonder is that we saw it at all, or, although one of the prettiest things in the room, at was hung in such a place that one had to go down on one's knies to look at it.

Bostom, Peb. 15, 1867.

Mr. Wst. Bostom, Sit.—The preparation invented by you for the hair, has been extensively used in my family, sund they give it the decided preference over all other compositions of the kind. It invaporates and beautifies the hair, and clears the skin of all imparities, without producing any ultimate deleterious effects, which are so frequently the result of many well-known patented compounds.

WINSLOW LEWIS.

h is an indepensable article for the Lades, as it keeps the hair in place and durf, and the skin or parting of the hair free from dandruff and sourt. For children, it lays he foundation of a good head of hair.

THE GENUINE BALM OF COLUMBIA FOR BESTORING THE MAIR.

"Long hart is a glory to woman," may Paul, And all feel the truth of the pious quotation; Preserve it then, ladies—your glory may fail, Unless you protect it with this preparation. If you wish a rich, luxuriant head of hair, free from dandred and sourf, do not fail to precure the genuine Balm of Columbias. In cases of indiness, it will more than exceed your expectations. Many who have lost their hur for twenty years, have had it restored to its original perfection by the use of this balm. Afe, suite, or condition, appears to be no obstacle wintever; it also causes the fluid to flow with which the delicate hair tubes is filled, by which means thousands (whose hair was gray as the Asiatic engle) have had their hair restored to its natural color by this invaluable remedy. In all cases of fever it will be found the most pleasant wash that can be used,—A few applications only are uccessary to keep the hair from falling out. It strengthens the roots, it never fails to impart a rich glossy appearance, and as a perfume for the toilet it is unequalled. It holds three times as much as other miscatled hair restoratives, and is more effectual.

ET CAUTION,—Never buy it unless you find the name of Comnteck & Co., Proprietors, on the wrapper of each bottle, or you are cheated with a counterfeit article.

MINERAL WATERS OINT DE HOUR, PARISH OF LASSOMPTIO

FOINT DL JOUR, PARISH OF DASSORPTION.

THESE, truly valuable WATERS are distinguished for the large quantity of Brunnian and lodine they contain, and are acknowledged imperior to all other Medicinal Waters. They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the greatest degree in the most oppressive heat of Summer, and that without altering or affecting injuriously the health of the person using them, upon the contrary, they are found to improve and strengthen. The large number of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent by the use of the above waters, enable us to re-commend them to the public as an excellent remedy in a very great number of cases. The names of a few only of the persons of celebrity, who have given their written recommendation of the Waters, are here given. These, however, show the happy results arising from their applica-tion:—

Riverra Des Palairs, March 1, 1850.

Ser,—Since you are desirons in ascertain the effect which the Waters of the Point du Jour aprings have produced on myself, I must inform you, that I have used them medicinally at their Source, and have found them highly salubrions. I was at the time so affected by the consequence of a severe disease of the Digestive Organs that my Physician judged it right to suspend for a time all active remedies, even for the repression of Dyspepan and an absolute Retention of the Howeis, under both of which I was suffering severely. He prescribed for my relief the Mineral Waters, and I made use of those of the Point du Jour, as heing the waters of a gascous mure, outsining a large quantity of adhine particles, and agreeable in the teste—siden is a large does they are strongly laxative, but their purgation of three weeks, I was restored by using the Waters.
