This Book helped me improve my Farm.

It is the most valuable book I own and it cost me nothing. It has saved me time, labor and money and I've got better looking, more durable and more serviceable buildings than I ever had before.

The first cost of concrete farm improvements is also the first cost. There's no after expense for paint or repair—no danger from fire, rot or rust—no trouble of any kind. Besides they lower the insurance rate. If you haven't a copy of "What the Farmer can do with Concrete" send for one today. There's more than 150 pages of valuable building information, 52 printed plates, illustrated by diagrams and photographs, and dozens of other interesting farm facts.

A copy will be sent to you free of charge, immediately upon receipt of coupon below.

The Maples.

Sir Robert Borden, it will be remembered, planted maple seeds on the graves of Canadians killed in Flanders. Twenty years hence, when the last trench has crumbled, and Time has lifted Belgium from her knees, the wind that cools her hills and stirs her corn-fields will sing through maple trees. And the old peasant, resting by the roadside, will pass beneath their shade with lowered head, holding the grove as delicate and sacred to the soil as if it were his own. Since here shall lie, far from the land they loved, where they had fallen in the battle, the bones of those who died for their country. Though they may slumber in a foreign country, Mother shall break their rest or trouble them. For stately symbols of their great Dominion will sigh their requiem. —CAPTAIN HARWOOD STEELE.

Mother's Duty to Her Daughter

HEALTH MUST BE CAREFULLY GUARDED AS SHE APPROACHES WOMANHOOD. The mother who calls to mind her girlhood knows how urgently health is likely to need help in the years between school days and womanhood. It is the mother's duty to see that growing girls drop no feeble, bloodless and nervous habits which are more noxious than the blindest and most unskilful medical prescriptions.

Ventilation and Fresh Air.

SUPPLYING OF PURE AIR TO HOMES IN WINTER OF UTMOST IMPORTANCE. Live night and day as far as possible in the fresh air. With the advent of the winter season, and consequent lower temperatures, comes the usual sealing up process in the home. A supply of fresh and pure air becomes secondary in importance to the exclusion of the cold atmosphere. The consequence is insufficient pure air to properly sustain life at its best.

"Roast Him."

Never a day passes that the newspaper man is not stopped by someone who wants somebody or something "roasted." And always the newspaper man is expected to do the "roasting" on his own responsibility. Always he is urged under no circumstances to use the name of the person who demands that the roasting be done. It may be that at some time in the past, the newspaper was considered the official "roaster" of the community and there have been newspaper men who considered that "roasting" as many people and things as possible was their sacred duty. They fell to the task with avidity and derived much greater pleasure from it than most people derive from performing what they consider their duty.

It is even possible that a number of the readers like that sort of stuff. They get into the habit of scanning the paper with that very thing in view, and are disappointed if there is no "roast" in the issue of their favorite sheet.

After all, that is an entirely wrong view. It is not the duty of the newspaper to be a common scold, a personal fault finder, and after all nothing is accomplished by trying to be that. And then it is ever so much more pleasant to find things to praise. And that is easy. It is a happy duty to attract the attention of the news gatherer, and that makes for the better things in life. And he who follows this course, after all comes nearer to building the reputation of the newspaper of everyday life of the community, the state and the world. The "roaster" inclines to the mistaken view, that almost everything is bad and is growing worse, whereas in fact the world is growing brighter and better every day. Instead of asking the newspaper man to "roast" this or that person or this or that state of affairs, how much better to call his attention to some laudable enterprise, to something that merits praise. And by so doing, no doubt, better results are reached in the long run and the very things may be accomplished that cannot be done through mere fault-finding and "roasting."

The World's Cables.

The various governments of the world own together 880 cables, having a total length of 14,480 miles and containing 21,560 miles of conductors. The French government, which takes the lead as to length of cables, has a total length of fifty-four cables. As to the Norwegian government comes first with 255 cables, having a total length of 248 miles. Finally, as to the length of conductors, the English government comes first, with 5,468 miles of conductors, divided among 115 cables, having a total length of 1,588 miles. Private companies to the number of twenty-eight own 288 cables, having a length of 126,864 miles and containing 127,632 miles of conductors.

Stirred Up.

Uncle Sam reclined upon a divan in the drawing room of his luxurious apartments. A servant entered, at his signal, with the evening papers. "What's happened to-day?" asked Uncle Sam.

"A few factories have been bombed," said the servant. "Several thousand women and children have been drowned, the Government has been insulted, the capital has been partially desolated."

"Oh, yes, yes—but anything of importance?"

"A foreign power has detained our other merchant vessel, causing us a loss of \$431 money."

The old gentleman leaped to his feet. "Enough of this lawlessness!" he roared. "Four dollars and thirty-one cents in money! Before heaven—and one could not mistake the determination that animated the man—before heaven, I swear that I shall give the foreign power no rest neither by day nor night until I have recovered with legal interest, my \$431!"—New York Life.

A Word of Gratitude.

"In justice to humanity I want to tell you that I was a great sufferer from itching piles, and have found Dr. Chase's best treatment obtainable," writes Mr. Fred Hinz, Brodway, Ont. "It gives instant relief and I can recommend it to any sufferer from this dreadful disease."

What the British Fleet Has Done.

The British fleet has guarded the transport of 2,500,000 men. It has brought home more than half a million invalids. It has protected the carrying of 2,000,000 tons of food and supplies for Great Britain. It has made safe the conveying of 800,000 horses. It has insured the Allies' supplies and munitions to the value of \$1,500,000,000. It has patrolled and policed the sea lanes of the world for a year and a half, so though the most colossal war that ever shook the world is in progress, the remotest sea lane outside the mine areas is safe as in times of peace.

In Shadow.

"Give umbra nihil," runs the old Latin saying—"without shadow, nothing." It is just as true in America as it is in nature, and the same in all ages. Light without shadow has not yet been found. Indeed the more intense the light the deeper the shadow. There can be no joy without the possibility of sorrow.

What Britain Has Done.

A contemporary very well says that Lord Derby is not idly boasting when he tells us that the military measures taken by the United Kingdom have been a complete surprise to Germany. They have been a surprise to the people of the United Kingdom themselves. There have been mistakes a grave one—no country ever made war without blundering—but altogether what has been accomplished in little more than a year has been nothing short of marvellous. The nation which relied for its defence chiefly on its great navy has raised and equipped an army of several millions of men. The vast majority of these soldiers have stepped from places in civil life, which before the summer of 1914 they never dreamt of leaving, for the field of battle. They have been drilled and furnished with all articles necessary for their comfort. Vast quantities of munitions have been manufactured and the machinery for further unlimited supplies is all the time being increased and perfected. Hundreds of thousands of troops have been transported across the sea in some instances for thousands of miles, with very few mishaps. The outstanding parts of the Empire have voluntarily sent armies to their share and are preparing others. All these accomplishments overshadow the imperfections and blunders that are inseparable from such tremendous effort.

Locomotor Ataxia.

"My nerves were very bad, and I could not sleep at night, nor could I control my arms or legs," writes Mrs. Robert W. Allen, of New York. "I was in the early stages of locomotor ataxia or paralysis. I cannot describe what I suffered, but now I am entirely cured."

Greatest Crop in Canada's History.

Final returns of "the most abundant harvest in the history of Canada" were given out at Ottawa on the 19th ult. The total value of the field crops of the Dominion last year is estimated at the huge figure of \$800,000,000. New high records are established both as to quantity, quality and market value. The estimates as to the grain yields of the prairie provinces have had to be revised upwards. Canada's total wheat yield is now estimated at 375,300,000 bushels, or 215,023,000 bushels more than the previous year, with an average yield per acre of 28.98 bus., as compared with 15.67 bushels per acre in 1914. The average yield of oats, rye and other cereal shows similar results.

Preparing for Peace.

The changes which the war is inflicting upon the civilized world are multitudinous and serious. When it ends, the nations engaged will have to recast business. Trade and commerce will require to seek new avenues and channels. Economists predict that it will be hard sledding in all the countries immediately shoring in the conflict and that the reconstruction period will be extremely trying and prolonged. Also they declare that Canada and Russia stand to gain most afterwards, because they alone possess large areas of fertile soil, ready for settlement. Millions of persons will desire to seek homes in new countries, in order to escape the heavy taxation which assuredly will follow the cessation of hostilities. Having the land and opportunity to do so, the nations concerned in the early stages of locomotor ataxia or paralysis. I cannot describe what I suffered, but now I am entirely cured."

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine—Here is More Proof.

To women who are suffering from some form of woman's special ill, and have a constant fear of breaking down, the three following letters ought to bring hope:—

North Cranston, Wis.—"When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened me so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. MAYBE ASHAGH, North Cranston, Wis.

Testimony from Oklahoma. Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I dried easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to alling women because it has done so much for me."—Mrs. A. L. McCASLAND, 606 Howe St., Lawton, Okla.

From a Grateful Massachusetts Woman. Roxbury, Mass.—"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it."—Mrs. B. M. OSOON, 1 Haynes Park, Roxbury, Mass.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

How He Knew. "Don't you want to be on the winning side?" said the sold to a group of civilians whom, he was suggesting, should don khaki. "How do you know ours will be the winning side?" asked a prospective recruit. "Well, my lad, said the sergeant, you know the Germans have been trying for more than a year and a half to win and have failed, don't you?" "Yes," replied the questioner. "Well, then, we've been trying to lose during the same period, and we couldn't."

WOLFVILLE, N. S., FEB. 4, 1916.

Town Elections.

Unusual interest attended the civic elections which took place on Tuesday of this week. Mayor Fitch was a candidate for re-election for a second term, and was opposed by Mr. I. B. Oakes. The vote resulted:

Fitch	126
Oakes	61

For the regular two years term of Councilor there were six candidates. Messrs. W. C. B. Harris and William Regan were nominated for re-election the other candidates being Messrs. J. D. Sherwood, Charles Wright, Prof. Perry and J. B. Tingley. An active campaign was put up by all, the result being:

Harris	134
Regan	119
Sherwood	100
Wright	77
Perry	62
Tingley	54

An additional election was necessary this year to fill the vacancy caused by the retirement of Mr. F. J. Porter on account of his appointment as Sheriff. For this term the candidates were Capt. S. M. Beardsley and Mr. J. G. VanBaskirk. The vote resulted:

Beardsley	123
VanBaskirk	52

The Council as now constituted should be a strong one and the affairs of the town ought to be well attended to. Councilor Sherwood has already served in the Council and is familiar with the duties. The only new man is Capt. Beardsley, and the town is fortunate in securing his excellent business ability.

Considerable regret is felt that Prof. Perry and Mr. Wright could not have been members of the Council. The former, from his acquaintance with educational matters, would have been a most valuable man on the School Board. Mr. Wright would also have proved a strength to the Council. Probably, however, the town may have the services of these gentlemen in the future.

Killed in Action.

The sad news of the death of Private Lloyd Dorman, of Newtontown, who has been serving with the 25th Battalion in Belgium, was received last week by his parents, Mr. and Mrs. Burpee Dorman, now residing in Margarettville, and by his sister, Miss Ina Dorman, who is a student at Acadia. The message read only, "Killed in action," and it is presumed he was shot while in the trenches where he has been serving since last October. He was 20 years of age, and was one of the first volunteers from this vicinity for the 25th. He was one of the bravest of our boys. He wrote, referring to someone from his company who had been changed to an "easy job" outside the firing line, "It's all right for those who want to go, but my place is right here among the bullets, until..." And again, speaking of the muddy country, "I owned all Belgium I would give any one fifty cents to take it off my hands. It's Canada I'm fighting for! The heroism of such men is saving our country for us. Private Dorman was an only son, and he was giving his sister her college course.

A Day at the Front.

There is a sketch in The Canadian Magazine for February entitled, "Fragments from a Modern Pompeii" by Britton B. Cooke, which gives one a vivid impression of what it is like in the shell-devastated area in France. Mr. Cooke is a graphic descriptive writer, and one feels after reading his sketch of a day passed in a ruined French town that one has had an actual glimpse at the ravage of war. There is also a capital war story entitled, "In the Shadow of St. Ives," by Leslie Floyd, an illuminating article, "A Student Duel in Germany," by John D. Robins; "Royal Castles in France," a beautifully illustrated article by Estelle M. Kerr, as well as several other excellent articles and short stories.

Britain's new Shiba.

Toronto Globe.—Britain's new shallow draft, submarine proof, monitors are being turned out in considerable numbers. They can mount guns of the heaviest calibre, and for either coast defence or the battering of German land batteries along the Belgian coast are most formidable vessels. In the matter of super-dreadnoughts Britain's supremacy cannot be challenged. She has added ships enough since the war began, provided with 15-inch guns, to fight the entire German battle fleet, and they are undoubtedly other great ships in process of construction of which nothing has been or will be said. On the ocean the Allies are supreme. Their problem is how to establish a like supremacy on land. John Bull is working at that, but he is less familiar with the conditions than he is with those of sea fighting and results are not yet satisfactory.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form. Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good. To correct catarrh you should treat the cause by enriching your blood with the oil found in Scott's Emulsion which is a medicinal food and a building-tonic, free from any harmful drugs. Try it.

Council Meeting.

The regular meeting of the Council was held on Wednesday evening. There was first a meeting of the old board for the clearing up of unfinished business, after which the Recorder administered the oath of office to Mayor Fitch and Couns. Harris, Regan, Sherwood and Beardsley.

Kettinging Coun. Haycock made a few appropriate remarks as did also the new Councilors. The following accounts were read and ordered to be paid:

Registry of Deeds	75
J. C. Mitchell	1.50
C. H. Wright	3.75
E. J. Delaney	4.55
J. W. Selbridge	4.00
Wood & Mahoney	3.00
Ellouise Black	68.75
Acadia Electric Light Co.	52.75
A. M. Wheaton	40.00

Resolved that the accounts of the Town Clerk for the year 1915, having been reported accurate and in good order by the auditors, be accepted and passed by the Council.

Petition from E. F. Mahoney and others asking for a light on the street on which they reside, leading off Gaspareau avenue, was referred to the proper committee, to report at next meeting.

The clerk was instructed to write the N. S. Farmers' Association, inviting them to hold their next annual session in Wolfville.

Following are the standing committees and officers for the ensuing year:

Presiding Councilor: Coun. Hales. Health Officer: G. E. DeWitt. School Board: Mayor Fitch, Couns. A. V. Rand, S. M. Beardsley. Public Accounts, Finance and Tenders: Couns. Harris, Hales, Regan. License and Police: Couns. Regan, Harris, Rand. Public Property, Roads, Streets and Bridges: Couns. Hales, Regan, Sherwood. Water and Fire: Couns. Rand, Harris, Beardsley. Poor: Couns. Regan, Hales, Beardsley. Sewerage: Couns. Sherwood, Hales, Rand. Electric Light and Power: Couns. Beardsley, Sherwood, Hales. Court of Appeals: Couns. Sherwood, Hales and Rand. Arbitration: The Mayor, Recorder and Coun. Hales.

Revisors of the Jury Lists: The Mayor, Town Clerk, and Coun. Regan. Public Health: The whole Council. Sanitary Inspector: Police Officer Policeman, and N. S. Temp. Inspector under N. S. Temperance Act: Freeman S. Crowell.

Supt. of Streets, Water and Sewers, and Inspector of Plumbing and Sewers: A. C. Johnson. Revisors: J. W. Wallace, M. W. Wallace.

Board of Fire Escapes: J. F. Herbin, A. M. Wheaton, E. W. Eagles. Measurer of Cord Wood: J. C. Bishop. Surveyor of Lumber: Chas. Wright. Inspector of trains, etc.: T. E. Hutchison. Fence Viewers: W. H. Evans, J. B. Tingley. Fish and Meat: F. P. Rockwell. Flour and Feed: A. M. Wheaton. Port Warden: R. E. Harris. Pound Keeper: Police Officer. Fire Wardens: L. W. Sleep, Chas. Wright, J. C. Bishop, Chas. Stewart. Fire Constables: J. W. Vaughn, J. W. Selbridge, Frank Regan. Town Weigher: A. M. Wheaton.

Winter Hard on Baby.

The winter season is a hard one on the shell-devastated area in France. Mr. Cooke is a graphic descriptive writer, and one feels after reading his sketch of a day passed in a ruined French town that one has had an actual glimpse at the ravage of war. There is also a capital war story entitled, "In the Shadow of St. Ives," by Leslie Floyd, an illuminating article, "A Student Duel in Germany," by John D. Robins; "Royal Castles in France," a beautifully illustrated article by Estelle M. Kerr, as well as several other excellent articles and short stories.

Rod and Gun.

Bonnycastle Dale contributes the leading article to the February issue of Rod and Gun in Canada, published by W. J. Taylor, Limited, Woodstock, Ont., writing with his usual skill on observations which he has made of wild animals in British Columbia. "Roughing it de Luxe" by Judson Gaylord is an account of a visit to a Quebec club for millionaires as set down by one who was successful in invading the millionaire's stronghold. "Wilhelm the Hawk: A Tragedy of the Prairies," by James B. Jones is the biography of a hawk whose dominant characteristics are analogous to those of a human. Wilhelm saw much in the public eye. "The Home Trail" is the tale of a heart breaking trek to Oxford House and is related by R. J. Fraser. F. V. Williams contributes a story, "The Ranger's Friend," and a cover design illustrating the story, which portrays a fight to the death between a moose and a pack of wolves. The regular departments are well maintained and the number as a whole an attractive one particularly to sportsmen and lovers of out-door life in its various phases.

L. W. PORTER

SEALED TENDERS additional tenders for Lock Gates at East River Lock, N. S., will be received at this office until 4.00 P. M., on Monday, February 22, 1916, for the construction of Timber Lock Gates and their equipment for the East River Lock, near New Glasgow, Pictou County, N. S.

Plans and forms of contract can be seen and specification and forms of tender obtained at this Department and at the office of the District Engineer at Antigonish, N. S.; Halifax, N. S.; Shinghuway Building, Montreal, P. Q.; Confederation Life Building, Toronto, Ont., and on application to the Postmaster at New Glasgow, N. S.

Persons tendering are notified that tenders will not be considered unless made on printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence in each member of the firm must be given.

Each tender must be accompanied by accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 per cent) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fails to complete the work contracted for. If the tender is not accepted the cheque will be returned.

The Department does not hold itself to accept the lowest or any tender.

Local Happenings.

The snow yesterday has made good sleighing.

Mrs. Auel Rockville, of Cambridge, was a visitor last week at the home of Mrs. S. C. Dunkie.

Prof. Coit returned on Saturday last from a business trip to Boston, New York and other cities in New England.

The Rev. Mr. Wright, of the Kingsport Congregational church, will preach in the Canning Methodist church next Sunday evening, Feb. 6th.

Mrs. Cranston has handed to the Red Cross Society the sum of \$10.00, the proceeds of sale of an embroidered centrepiece. The lucky number was 75.

It is expected that Canning Division, and "Evangeline" Division, of Grand Pre, will pay a fraternal visit to Wolfville Division, next Monday evening.

WANTED.—A capable girl for household and plain cooking.—Mrs. S. F. BRNJAMIN.

The regular meeting of the W. C. T. U. will be held at 3:30 o'clock sharp this afternoon at the home of the president, Mrs. L. W. Sleep, Summer street.

The name of Claude P. Smith, 17, Wolfville, N. S., 112th Batt., as published in the Advertiser, of Kentville, should have read Claude P. Smith, 15, Baptist Student.

Mr. Nathan O. Benjamin, of Gaspeau, announces the engagement of his daughter, Blanche Anville, to Mr. William E. Allen, of Melanseau. The marriage takes place Feb. 9th.

The first quarterly session of the Grand Division of the Sons of Temperance, will be held at Shubenacadie next week beginning on Tuesday morning, Feb. 8th, at 10 o'clock.

To LET.—Eight room dwelling over my store, all conveniences.—J. F. HERRIN.

An excellent program has been prepared for the concert to be given in College Hall this evening by the Acadia Orchestral Club. No one who enjoys good music can afford to miss it.

Mrs. Pratt wishes through THE ACADIAN to convey her thanks to the many friends for sympathy and kindness during the illness and death of her husband, the late Captain Rodman Pratt.

Mr. Reginald Black is home from New Glasgow, where he has been engaged in an ammunitions factory. We understand that he has enlisted in the Motor Car division and expects soon to be in active service.

The carnival at Evangeline rink last Saturday was rather a small affair, the result no doubt of insufficient advertising. The ice was in good condition and some of the costumes displayed considerable taste.

The United Mission Study Class will meet in the Baptist church next Monday evening at 7:30 o'clock. The Methodist ladies will have charge of the program. A cordial invitation is extended to all the ladies of the town.

THE ACADIAN has been asked to correct an item which appeared in last issue with reference to an acknowledgment by the Red Cross Society. The credit should have been given to Mrs. (Dr.) Elliott instead of to Mrs. (Dr.) DeWitt for the sum of \$28.35, the proceeds of teas.

The ninth mid-winter session of the Valley Medical Society was held at Bridgetown this week. Dr. C. E. Avery DeWitt is the vice-president for Kings county. Among the papers given was one "Medicine, Then and Now," by Dr. G. R. DeWitt, of this town; and one on "Notes on Blood Poisoning," by Dr. W. B. Moore, of Kentville.

Mr. Gerald Bauld had an accident which might have been attended with very serious results last Sunday afternoon. He was returning from Kentville and when at Willow Hollow his car ran into a rut and got beyond control. The car went into the ditch and turned over. Fortunately the top rested on a small bridge across the ditch which prevented it falling upon the occupants of the car, who escaped considerably bruised. Mrs. Stone, of Kentville, however, had her face considerably cut and was quite badly injured. Her sister, Miss Bleakney, and Mr. Bauld escaped with less injury.

The next big sporting event of the season will be the Fancy Dress Carnival in the big new Arena at Kentville, on Feb. 8th. Special prizes will be given for the best and most original costumes. A special train will leave Wolfville at 7:13 p. m., and arrangements have been made with the railway tickets along with the railway tickets. The fare from Wolfville including rink tickets will be fifty cents. The management have made special arrangements to overcome the congestion at the entrance which occurred when the 85th band was there. The large ball room in connection with the rink will be opened to those who prefer dancing to skating. Admission to all parts of the rink including dancing and skating will be 25 cents.

Church Street Players.

The Church Street players are meeting with full houses, enthusiastic audiences, and plaudits for their drama, "A Southern Cinderella." And the repr. gathering at the Armours at Canning on the night of the 25th of January, was particularly demonstrative, and although 'between acts,' efficiently entertained 'with sweet strains of heavenly music, by the kindness of Canning's orchestra of selected musicians, under the direction of the rise of the curtain upon the next act or scene. Almost begrudging the time taken for the changing of the robes which in themselves were a surprise, and wonderful creations of the "Tonsorial Art," as Mammy Judy would tell us. And truly, Miss Shirley Kidston, as this same Mammy, has control of a wonderful vocabulary at the tip of her tongue, and kept everybody longing to laugh outright all the time and yet not daring to do so for fear of missing one of the elaborate speeches of this dusky dame. Mrs. Hermon, as the wealthy old aristocrat, Madame Charteris, was perfect in her role, but there—which of the seven was not? It was hard to believe that all were amateurs, for, except in the matter of rapid fire changing of costumes, they had many an old stage beaten to the wall.

Card of Thanks.

I desire to tender my sincere thanks to the ladies and gentlemen of the Town of Wolfville who honored me with their votes and support in Tuesday's election. Respectfully yours, W. C. B. HARRIS.

Town of Wolfville.

Death's Harvest.

Through the passing away of Mr. Donald A. Munro, whose death occurred on Friday of last week, Wolfville has lost a citizen who was probably more closely identified with the business life of the town than any other. The deceased was 86 years of age on the day of his death. He was a native of Pictou county and came to Wolfville when a young man. He carried on the business of carriage making for some years, finally taking up contracting and building and mill work. Mr. Munro was a most public spirited citizen and was always a leader in anything that made for the interest of the community. He was one of the commissioners of the water system when it was installed and filled important offices from time to time. A member of St. Andrew's church he was always active in securing its prosperity. Mr. Munro was a good citizen who will be greatly missed. He is survived by three sons, Messrs. D. R. and G. W. of Wolfville, and Dr. D. J., of Cambridge, Mass., and three daughters, Mrs. C. M. Murray and Mrs. A. J. Woodman, of Wolfville, and Mrs. L. S. Goss, now living in the West.

WILL WE EVER WALK ON AIR?

Trial Of Thought Inspired by a Letter About 'Fruit-A-Lives'

Worry has come to be a question of hygiene rather than of religion. Whether moral or not, it is certain, says the doctors, that whatever its effect upon the soul, it is known to injure the body. If the medical man is correct in his latest deductions, many of the most distressing of our physical ailments are due to worry alone.

The pulse of a worried man is irregular. It beats intermittently and its force varies greatly. His sight frequently. His respiration is irregular. He is likely to be pale. His extremities are cold. There is but one meaning to this. Through the marvellous influence which mind exercises upon matter the worry has gripped the heart, the circulation is impaired, and chronic heart disease is to be feared unless the worry ceases. The stomach is likely to suffer also. The same worry disturbs the heart's functions, plays havoc with digestion often. Recent observations demonstrate that when one is in extreme anxiety there is relation and decreased motility throughout the entire alimentary tract. The appetite falls. The secretions are disturbed. The subject is almost certain to become a confirmed dyspeptic.

WHY BLACK IS WARMER

It is extraordinary how obediently we conform to certain customs without in the least knowing, or caring, why we do so.

Light colors, especially white, deflect the sun's rays, and are therefore cooler. Hence the regulation color for cricketing, tennis, boating, etc. Also, in a way that is hardly understood, colors themselves affect us some more than others. You could wear a white suit in winter, or equal to a dark suit, and in the former you would "feel" cold.

But for indoor workers light-colored clothing gives greater warmth. The fixed idea that to keep warm we must "wrap up well"—which means "lightly"—is, according to certain specialists, entirely wrong. Loose garments are declared to be much warmer. A test would be to try the effect of a loosely fitting neck-muffler and a light one.

Chorea or St. Vitus' Dance

Mrs. Geo. Chisholm, R.R. No. 1, Grafton, Ont., writes: "I have used Dr. Chase's Nerve Food for my little girl for what the doctors pronounced Chorea, a disease of the nerves. I consulted our family doctor, and he gave her a liquid medicine, but do what we would, we could not get her to swallow it. A neighbor advised the use of Dr. Chase's Nerve Food, and, being in pill form, she took it without any trouble. She was seven years old, and got pale and run down. The muscles of the face were affected, and she became a pitiful sight. This treatment, and was entirely cured by using six boxes. She is nine years old, healthy-looking child for her age. I shall always be grateful for what Dr. Chase's Nerve Food has done for us, and I can recommend it to all nervous people. You are at liberty to use this statement, so that others may benefit."

In children nervous exhaustion frequently takes the form of rickets, St. Vitus' dance or fits. In less advanced stages there are nervousness, excitability and irritability. All such conditions indicate the need of Dr. Chase's Nerve Food to enrich the blood and nourish the starved and depleted nerve cells. Being natural and gentle in action, and at the same time powerful in its restorative and reconstructive influence, this food cure is admirably suited as a treatment for weak, puny, nervous girls and boys. It makes them strong, hearty and robust, and enables them to develop into healthy and useful men and women.

Note the color of your flour—And the Bread it makes for you. Delicately creamy is FIVE ROSES flour. Because it is not bleached, don't you see. Clear—Immaculate—Desirable. A pure Manitoba wheat flour—FIVE ROSES. And the healthy sun-ripened spring wheat berries are naturally of a golden glow. And the meaty heart of the polished kernels is creamy. Milled from this cream, FIVE ROSES is delicately "creamy."

Children Cry FOR FLETCHER'S CASTORIA

"The word 'stan' at the end of a word," announced the teacher, "meant 'place of.' Thus we have Afghanistan, the place of the Afghans; also Hindustan, the place of the Hindus. Can anyone give me another instance?" "I can," said one of the children, "Castoria—the place for castor-oil."

There is a cheerful Irishwoman whose husband is a confirmed hypochondriac.
"Good morning, Mrs. Clancy," said a friend, as they met at market. "An how's the family?"
"They're all doing well," said Mrs. Clancy, with the exception of me old man. He's been enjoyin' poor health for some time, but this mornin' he complained of feelin' better."

A pupil in the aeroplane school was out for a spin in his biplane and in attempting a dip got caught in a tall tree.
"Where are you going up there," called a passing farmer. "Gittin' education."
"I'm working out a problem in the higher branches," the student found time to say before the limb broke.
A Sunday school teacher had been telling her class of little boys about crowns of glory and heavenly rewards for good people.
"Now, tell me," she said, "who will get the biggest crown?"
"There was a fellow for a minute or two, then a bright little chap piped out: 'Him who's got 't biggest 'ead.'"
