

Notes and Comments

The outlook all over Canada is for a greater yield from the soil in 1920 than for years.

It isn't the rooster's early rising that makes him popular; its crowing so much about it.

Eight papers have been forced out of business in Lambton County, Ontario, within a short time.

A Michigan man named Carr has wedded a Miss Ford. The occurrence may interest Luther Burbank.

The population of the United States based on the results from 1,406 cities and towns will run up to 105,000,000.

In some cities clothing is now being offered at from 20 to 50 per cent. off. At bathing beaches it promises to be 99 per cent. off.

The 1920 wheat crop in Australia has been a failure and that in Argentina is scarcely normal, so good prices are assured for any surplus we have in Canada. Last year Canada's wheat crop was 193,206,400 bushels.

The news of the death of Mrs. Eleanor H. Porter, the author of "Pollyanna", was received with deep regret by the thousands who knew her as the author of the "Glad book".

The news that several pastors are sending women home from church for not being properly dressed should do much to stimulate attendance. We may be missing something.

Mr. Meighen is the youngest Canadian Prime Minister since Confederation, yet he is nearly double the age at which the younger Pitt, then 24, became Prime Minister of Great Britain.

President Wilson's war record—humbly submitted by an occasional contributor—too old to go to the Spanish War; but he did his bit in the boudoir.

There are 7,972 post offices in Canada, in which the postmasters are paid the magnificent sum of 19c. a day. There are 670 in which they are paid 24c. a day, and 1,450 in which they are paid 48c. a day.

An additional increase in freight rates will be applied for by the Canadian Railway Association on behalf of the roads in the Dominion in order to meet the cost of raising the rates of those of railwaymen in the United States. The application for the freight rates increase will be filed with the Dominion Railway Commission, which received a request for permission to increase rates by thirty per cent on July 10.

WAS HUGE CROP

Regina, Sask.—According to government figures slightly over 90,000,000 bushels of wheat were raised in the province of Saskatchewan last year, of which about 10,000,000 bushels were held off the market for seed and other purposes on the farm. An initial payment of \$172,000,000 was made for this by the Wheat Board, and the wheat farmers stand to receive approximately \$32,000,000 over and above this.

Evangeline Statue

Addresses Given at Unveiling.

In his address at the unveiling of the statue of Evangeline, at Grand Pre, last Thursday, Dr. Cutten said in part:

"We are apt to think of the emotions as fleeting and unstable, and of the intellectual qualities as steadfast and lasting. Nothing could be further from the truth. The intellectual elements of three thousand years ago are gone; the religious creeds, the dogmatic science, and the hard fought debates are subjects for the antiquarians, but the emotional experiences and strivings of the Twenty-Third Psalm are as fresh and as true today in America as they were on the rocky hills of Judea one thousand years before the Christian era. History, the history which we remember, is a series of emotional experience and appeals; panis and fear, sorrow and calamity, courage and heroism, joy and contentment.

"We are met here today to remind ourselves of another emotional experience. The intellectual element in the historical event is forgotten. We have ceased to argue about the justice and the cause of the expulsion of the Canadians, and we remember the sorrow in the hearts of the friends of the murdered English, and the pathos of the people wandering in a foreign land with their eyes turned toward their old home. The historian has recorded the fact, but the poet has put the emotion into words of touching appeal, and now the sculptor has breathed this same emotion into deathless bronze.

"Some may ask if the poem 'Evangeline' accords with historical fact. Of course it does not. But poetry is always truer than history, and sculpture than biography. Poetry touches the unseen and eternal, history the seen and temporal. Sculpture is the snapshot of a heart-beat, biography the distorted account of real events. Of course Evangeline is true, and as we look at the statue today the appeal to the heart is real and lasting.

"Did Evangeline live? Evangeline did live, and still lives. This statue represents the longing of a departed people for the old home—one last lingering look at the beloved scene before leaving it forever. Wherever today men and women long for lost homes, and long for the old days, and the feeling of loss and sorrow, wherever the innocence of youth, the virtue of middle life and the contentment of old age have been lost, or the joy of a richer life appeals to us as the might have been, Evangeline still lives and touches our hearts even more than the maid of Grand Pre.

"But now times have changed. We have met with this distinguished company today when the gentle hand of an English lady will unveil the statue of a French peasant girl. No longer are the French our enemies. Here today we think not of the conflicts of the past, but of the fact that in the late war our drum beats, heart beats, kept time. Now today we would forget strife and conflict. They end in these scenes of peace and plenty. We hope that the time may soon come when equal peace and prosperity will be found throughout the whole world."

Lady Burnham's Graceful Address.

Lady Burnham, who was warmly applauded, said:

"I am deeply conscious of the great honor you have done me by asking me to unveil your beautiful statue of a woman who has become the type of a devoted ministrant that has contributed its full share to the strength and sweetness of the British Empire. Evangeline is the beautiful conception of an American poet whose verses we learned to read when we were children on both sides of the Atlantic. History has shed another light on the Acadian story. We see today that British policy was not as black as it was painted. Whatever may be the truth of the story, as a woman, and as a English woman, I shall always regard it as one of the most painful episodes in our annals. Thank God those cruel days lie behind us forever and from the fate of Evangeline has sprung a great wave of sympathy which has carried on the healing hand of time. The British Empire stands today in fast friendship with France, firmer during the last few years than it has ever stood before. (applause). The war with all its horrors and sadness has bound us through the deeds of our beloved and heroic sons with bands of steel. Ypres, Vimy, the Somme, and all those other deeds of glorious heroism lie deep down in our hearts, never, never to be forgotten. If those dear ones should speak to us today their message would be:

Frequent Headaches

A SURE SIGN THAT THE BLOOD IS WATERY AND IMPURE

People with thin blood are much more subject to headaches than full-blooded persons and the form of anaemia that affects growing girls is almost always accompanied by headache, together with disturbance of the digestive organs.

Whenever you have constant or recurring headaches and pallor of the face, they show that the blood is thin and your efforts should be directed toward building up your blood. A fair treatment with Dr. Williams' Pink Pills will do this effectively, and the rich red blood made by these pills will remove the headache.

More disturbances to the health are caused by their blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment, and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Muscles subject to strain are undernourished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills, and as the blood is restored to its normal condition every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

Stand fast together and let not our sacrifice have made been in vain. To Evangeline let us say:

Thou art the sun of other days,
That shine by giving out their rays,
It is a good omen that your beautiful sun, God's healing hand, should be resting upon us who are here to do honor to that sweet woman. Under those rays the old hatred is dead in your wonderful land so full of beauty and promise. Only the old character remains, and both characters are worthy of the respect and admiration of all mankind. I have now the great honor and pleasure of unveiling the statue of

Lady Burnham then pulled the cord which held the shroud that veiled the statue, and as the beautiful proportions of the creation of Hebert's genius were revealed the spectators renewed their applause.

Sir Gilbert Parker's Address.

Sir Gilbert Parker, M.P., said in part: "I am glad to think that we are assembled on this historic ground to pay tribute, as the representative of a great people to a great people. There never was a time in the history of the world when France and England were so close together as they are now." Referring to Quebec Sir Gilbert said he thanked God that when in 1759 Britain gave to Quebec her constitution, it was the finest constitution that ever was given. "In that great people of French Canada we have those who love the soil of Canada as well as we. If they do not share in our Imperial aspirations they do share in our local endeavors." Sir Gilbert believed that the British race, including the United States, is the surest guarantee of the peace of the world.

In referring to the enterprise of the Dominion Atlantic Railway and Canadian Pacific in laying out the Evangeline Park, Sir Gilbert said that the nation owed a debt of gratitude to the railway companies. He had seen works of Philip Hebert, the sculptor in whom he believed the nation had possessed a sculptural genius—alas he was now dead. In him and Louis Honore Frechette, the French Canadians had shown how their race had contributed to the influence of Canada throughout the world.

In fixing the price of sugar no thought is given to the purse of the consumer.

TO THE WORKERS OF CANADA

As a natural consequence of the great war, there is a certain amount of unrest in this and other countries, but in CANADA conditions are fundamentally sound.

The wise Canadian worker will not listen to those who would disturb the economic system which is at the basis of our general prosperity.

If conditions are fair keep working steadily and store up some of the fruits of your labor by saving systematically and depositing regularly in a savings account.

 Press and Willard Hall—Mrs. M. P. Freeman.
 White Ribbon Bulletin—Mrs. Hutchinson.
 Temperance in Sabbath-schools—Mr. C. A. Patriquin.

W. C. T. U. NOTES FROM HALIFAX

Excellent results are forthcoming from the faithful services rendered by the members of the Frances Willard and Halifax W. C. T. Unions, through their weekly visits to the county jail. They have found that the Gospel can be as effectively sung in these places, as preached. The prisoners take the keenest interest in the services and are right ready with Hymns to suggest. After the Bible story is given one is always ready with a Hymn to suggest, bearing on the line of thought brought out in the story. The Bible is always used because it is the Word of God—the all-powerful sword of the Spirit. We don't read it because it is customary to read a passage at such services. We read it expecting to accomplish something by it. We believe God when He says of His Word: "It shall not return unto Me void." "The seed is the Word of God." We sow it expecting an harvest as surely as the farmer expects to reap when he sows his field with grain.

CANADA'S TRADE INCREASING.

The Trade returns for the year ending June 30th show a favorable trade balance of over \$66,000,000. The exports for the year were \$1,276,311,542 and the imports \$1,210,204,323.
 The excess of imports over exports, which has been an unfavorable feature of the returns in recent months is not evident in the yearly returns.
 The United States continues to lead as Canada's greatest trade connection, both in export and import trade. Our imports from the States showed an increase of \$165,000,000 and our exports of \$49,000,000. In trade with Great Britain our imports increased \$102,000,000.
 Our imports show an increase from nearly all the principal countries notably from those which are sugar producing. Imports of sugar and molasses increased over \$40,000,000. The imports from Cuba alone increased from four to \$28,000,000 dollars.
 In addition to Great Britain, there were declines in exports to France, Italy, Japan, and Australia. There was a big increase in exports to Newfoundland, New Zealand, East and West Indies and to the countries in Europe which imported very little during the war years, particularly Belgium, Greece and Roumania.
 Some of the striking increases in imports were in furs, chocolate, silk (over \$20,000,000), hides and skins (\$19,000,000), leathers, and iron and steel, paper, rubber, wood, meats and wool. The decrease in imports were few the largest being in military and naval supplies.
 In exports the main increases were in animals, (\$10,000,000), wood (\$54,000,000) pulp (\$19,000,000), rubber (\$6,900,000), textiles (\$8,000,000), automobiles (\$8,000,000), paper (\$19,000,000), hides and skins (\$10,000,000), wheat (\$53,000,000), and other grains (\$14,000,000).
 Iron and steel exports decreased \$3,000,000 and flour \$16,000,000.

Figures compiled show forty-six drownings in the Maritime Provinces this year up to July 15th. Most of the victims were bathers. In New Brunswick, there were seventeen; Nova Scotia twenty-five and Prince Edward Island four.

SUMMER COMPLAINTS KILL LITTLE ONES.

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"Your Teeth"

FILLINGS

A filling is a repair in a tooth. There are many kinds of filling materials; each one has some special quality that causes it to be selected for a certain cavity.

A cavity is a hole in a tooth usually caused by caries, which is decay of the teeth. To prepare a cavity for filling, the dentist must remove all decay, and all of the tooth structure that had been invaded by decay. If a tooth could successfully be filled by simply removing the actual decayed portion, and then

placing the filling, the job would be a very easy one both for the patient and the dentist.

The hard part of a tooth you know is composed of enamel and dentine.

The dentine is similar to bone and has a great many little tubes, called tubuli, running from the pulp canal in the center of the tooth to the outer surface of the dentine just inside of the enamel.

The bacteria of decay work along these tubuli and go far ahead of the actually destroyed portion of the tooth. To receive a filling that will stay, this infected dentine must be cut away.

Then the cavity must be given shape that will give the filling as much support as possible, that will allow the filling to protect the margins of the enamel,

and that will retain the filling in the tooth.

Even a small cavity will have a much larger area of infected dentine than you would imagine. If you allow your teeth to decay until you can find the cavity yourself, the chances are that the pulp, or nerve, as it is incorrectly called, will become inflamed.

Then there is real trouble.

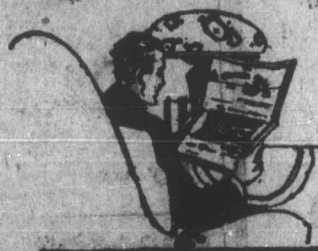

The best filling is a small one, because if there has been very little destruction of the tooth there has been very little loss of contour and of strength and most important of all, where the cavity is small the pulp is safe.

Do not neglect your teeth until large fillings are necessary.

Keep Minard's Lintiment in the house.

A Man's Estate

There is but one certain way of having an Estate, and that is through life insurance.

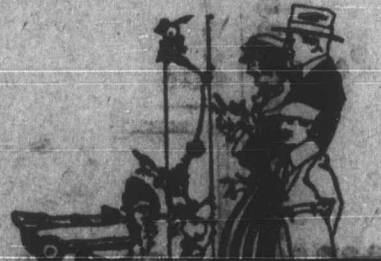

At age 21 "twas all the Estate he had."

At age 30 he wisely increases his insurance.

At age 40 he finds the security of his Estate unquestioned by his Banker.

At age 50 he has no fear of hardship for himself or his family.

At age 60 his "Estate" fully paid for becomes a substantial fund, earning dividends.

"The records of the Surrogate Office of New York County, covering a period of five years, showed that the average number of deaths among adults for those years was 27,011. Of these:
 25,051 or 93 per cent. left no estate at all.
 1,171, or over 4 per cent. left estates valued at \$200 to \$1,000.
 1,428, or over 5 per cent. left estates of more than \$1,000, but less than \$5,000.
 476, or nearly 2 per cent. left estates of more than \$5,000, but less than \$10,000.
 490, or nearly 2 per cent. left estates of more than \$10,000, but less than \$25,000."

The Canada Life Way

This Company will guarantee to provide at your death an Estate which is twenty or thirty times greater than the amount of your annual deposit. And if you live—

Every dollar of regular annual deposit will be returned at the end of twenty years, along with substantial dividends.

Fifty dollars a month will be paid to you while living if you should become totally and permanently disabled before reaching the age of sixty.

Our "Capital Return" Policy

1st. Deposits are made yearly. This is what you are saving, and at the end of 20 years the Canada Life guarantees the return of every dollar paid in.

2nd. Your life is insured from the day you make the first deposit,—for \$5,000, or whatever amount you decide.

3rd. Dividends are paid at stated intervals in addition to the return of all deposits at the end of 20 years.

4th. These dividends may be used to increase the amount of your insurance, or be allowed to accumulate at interest for 20 years.

5th. The cash value of Policy and Dividends represents a valuable asset, useful in business, and your "estate" is protected by the insurance.

6th. At the end of Twenty Years you can draw out all you have paid in, along with the accrued dividends—

you can draw a Special Cash Guarantee, together with the Accumulated Dividends, making a substantial sum, and leave the \$5,000 Policy fully paid for and continuing to earn Dividends as long as you live—

this Special Cash Guarantee may be applied to increase the amount of your policy to more than \$7500.

Editorial Notes

In the endeavor to make the equipment of THE ACADIAN thoroughly up-to-date in every particular, the present publishers have gone to heavy expense since taking over the business last October. New and fast presses, electric power and other devices, calculated to make the plant more efficient and better able to turn out first-class work at short notice have been put in from time to time. Our office has been so busy that we have been unable to make mention of these improvements in regular order, but we hope before long to be in a position to open our doors and invite our friends to come in and inspect for themselves our right to the claim of being able to handle anything in the printing line to your satisfaction. The latest addition to our plant is that wonderful invention of the age—the Monotype. By the operation of this wonderful machine, which has just been installed, we are now able to print THE ACADIAN with new type made in our own office each week. In a future issue we shall endeavor to give our readers a full description of the Monotype, which is the latest word in the printing art, and is the only one in Nova Scotia, outside of Halifax, Sydney, Glace Bay and Truro.

In pre-war days Wolfville was one of the most popular summer resorts in Nova Scotia and every year numerous visitors, particularly from the United States, came to Wolfville to enjoy the advantages offered. During the war days this travel was almost entirely discontinued and our friends from the States were much missed. Now that normal conditions are again being regained the inflow of summer visitors is again becoming much in evidence. Already this summer many tourists have visited Wolfville and as of old expressed themselves as highly pleased with our pretty town. It is expected that the present month will see a still greater number of visitors. With judicious advertising and a little more effort put forth in the direction of furnishing suitable recreation and accommodation for visitors we may expect that during future years Wolfville's popularity as a tourist resort will continue and increase. The centre of the Evangeline county, there is so much of natural beauty and historic interest on every hand that the best class of summer travel is bound to be attracted here.

The by-election in Colchester county, necessitated by the appointment of Hon. F. B. McCurdy to the new government, will be held on Sept. 20th. Nominations will be on Sept. 6th.

It is estimated that the amount of money which comes into Montreal for liquor is somewhat around \$10,000,000 per month.

Publishers' Notice

Renew your subscription to The Acadian while the renewing is easy. With the greatly increased cost of newsprint and in view of the fact that the price of the next shipment will be still higher, we may be forced to raise the price to \$2.00, or 5 cents a copy. Until further notice we will take renewals of new subscriptions at \$1.50.

Items of Local Interest

Camp Meeting is being held at Berwick this week.

Rev. Guy G. Bleakney will occupy the pulpit of the Baptist church on Sunday next.

The Windsor cricket team was defeated by the West India cricket team at Halifax last week.

For Sale—A Two-Burner Perfection Oil Stove in good condition. Apply to Box 262.

WANTED—A second hand Baby Carriage, in good condition. Apply to Box 63, Wolfville.

Board Wanted.—By two young ladies for the first two weeks in September. For further particulars apply to THE ACADIAN.

Mr. W. C. L. Bauld has purchased the H. C. Collins house on Locust avenue in which he has been residing since coming to Wolfville.

Be sure to take advantage of Waterbury & Co's big mid-summer clearance sale which begins to-day and lasts until Aug. 17th.

Five building lots on Westwood ave. for sale, trees bearing, splendid situation, will be sold at reasonable price for immediate purchase.

J. D. CHAMBERS.

Two hours after THE ACADIAN was published last week Rev. Noble Crandall had two applications for his refrigerator. It pays to advertise in THE ACADIAN.

The next tennis tea will be held on Saturday afternoon. The hostesses will be Mrs. Cox, Mrs. Tutta, Mrs. Hatfield, Mrs. Churchill and Miss Ruth MacDonald.

Rev. G. W. Miller, of St. Andrew's church, is now enjoying his summer vacation. His pulpit will be occupied on Sunday next by Rev. Mr. Campbell of St. Croix.

The death of Mr. David H. Eaton, of Kentville, one of the best known residents of this county, occurred at the Infirmary at Halifax, on Wednesday, following an operation. The funeral takes place today from the residence of his daughter, Mrs. Sherman Belcher, Upper Dyke Village.

The new manager of the Bank of Montreal, Mr. W. H. G. Phipps, took charge at the beginning of the present month. THE ACADIAN gladly gives him a welcome to our town with the hope that his residence here may be both pleasant and profitable. Mrs. Phipps and family will arrive later.

To accommodate its increasing business, the Royal Bank has just had a second "cage" installed in its branch here. This will allow of two tellers working at the same time and will be a great convenience to patrons. The increased service will only be in operation on Saturdays and Mondays for the present.

The King's County S. S. Convention will be held in Wolfville on August 12th and 13th. The delegation to the convention will be entertained at the Seminary building at \$1.50 per day. Those intending coming please send their names to Rev. H. T. DeWolfe, Wolfville. The convention meetings will be held in the Seminary building. All interested in this great work are invited to these sessions. Watch for posters.

Mrs. Cora P. Richmond announces that some of the strangers within our gates will give a grand Concert at the Opera House, on Thursday, August 19th. It will be remembered that a delightful Concert was given a year ago to a large and highly appreciative audience. It is expected that the Concert this season will be as good or better, and we are sure that this announcement will be enthusiastically welcomed by the people of Wolfville and vicinity, especially as the financial object in view is not for the personal aggrandizement of the participants but for a most worthy object.

NORTH GRAND PRE NOTES

Miss Violet Black spent the week end, July 31-Aug. 2, with Miss Evelyn Palmer.

Mr. Roy Smith, of Halifax, is spending his vacation with Mr. and Mrs. M. L. Dimock.

Miss Eva Hill and Miss Marion Thompson, of Halifax, are visiting Mrs. Maurice Dimock.

Miss Bertha Curry, of Wilmot, Annapolis county, spent a week recently with Mrs. E. V. Gould.

Miss Blanch Palmer spent last week with the Mines, Mary and Hazel Taylor, of Hortonville.

Miss Lillian Hiltz, of Kentville, spent last week end with Mrs. Ross Pullerton. Miss Hiltz is leaving for Alberta within a week and we prophesy success for her in her work out there.

Interesting Weddings

THE ACADIAN has received the announcement of the marriage of one of Wolfville's most popular and accomplished daughters, Miss Evelyn Starr, daughter of Mr. and Mrs. C. R. H. Starr, to Mr. George Boggs, of New York. The ceremony took place at Grace church, New York City, on Wednesday, June 9th, but Wolfville friends did not learn of the happy affair until this week. THE ACADIAN joins with a host of home friends in the very best wishes for the happiness and prosperity of Mr. and Mrs. Boggs, the only regret being that our community must bear the loss of a most highly esteemed and talented member.

News of a peculiarly interesting nature to Kings County people was the announcement of the marriage on Wednesday, July 14th, of Prof. Everett W. Sawyer, D. C. L., a former valued resident of Wolfville, now of the teaching staff of Woodstock College, to Miss Ada Pearl Parker, of Woodstock, Ont. The bride has filled the position of bursar and secretary of the board of Woodstock College and is a very popular and talented lady. The very wide circle of Prof. Sawyer's friends and admirers in these provinces and particularly in this county will join THE ACADIAN in wishing for him and his bride many years of happiness and usefulness.

An important property change occurred in town this week when Mr. H. W. Phinney sold his fine residence on Main Street to Mr. W. C. B. Harris, and purchased from Mr. Harris the equally fine residence now occupied by the latter on Acadia street.

DANCE OF THE SEASON

This evening at Jodrey's Apple House, a Dance has been arranged, which promises to be a very enjoyable affair. The building has been neatly decorated for the occasion and presents a fine appearance. Music will be furnished by the Boston Jazz Orchestra, comprised of piano, violin, piccolo, saxophone, and side drum. Dancing will start at 8 p.m. sharp.

MOTORS AND MOTORING: A Page Full of Interest to the Owner or Prospective Owner of an Automobile.

A Substitute For Gasoline

Remarkable New Fuel Invention.

Increasing costs of gasoline and repeated stories of the shortage of this universally used commodity makes any invention that promises to supplant gasoline of interest to everyone. The following article taken from an authentic publication in Webster City, Iowa, will be particularly interesting:

Without one drop of gasoline or oil of any kind and securing all power from the oxygen of the air, Arthur Bundy yesterday drove an Overland truck about the entire city the entire day and thus demonstrated beyond question the practicability of his invention—using the oxygen of the air for all power. The oxygen is drawn from the air by certain chemicals, which Mr. Bundy has compounded, and not only will it produce power but light and heat also are obtained by the same process.

The chemicals are inexpensive, and running the truck the entire day cost just 5 cents. "The chemicals are taken from the natural resources that are all about us," declared Mr. Bundy this morning. "They cost practically nothing, but they are not inflammable unless there is air pressure; not explosive, and a child may drink them and it will not hurt him."

Runs Smoothly

The generator containing the chemicals was placed on the side of the Overland truck and a small tube connects it with the large tubes of the car engine. A small air-hole in one of these tubes allows the air to pass in and a cap over this opening is regulated by the throttle of the machine. The more the cap is raised and the more air that is allowed to pass into the tubes, the faster the engine runs. There is not one drop of oil of any description used in this new process and the Overland which Mr. Bundy used yesterday, a model of about 10 years ago, runs as smoothly and evenly as the most expensive model car on the market to day.

At present the regular car engine is

being used, but the inventor now has under way an engine which will occupy only about one-third as much space and which is especially adapted to the oxygen power process. It will weigh not over eighty pounds, will have no spark plugs, no carburetor and the numerous other contrivances necessary on the gasoline motor. The engine is a series of rotary cells through which the air is forced by the chemicals and will occupy a space not more than 9x18 inches and will furnish one horsepower for each pound of weight.

Used As Heat

With the same chemicals to draw the air qualities, a flame with sufficient heat to cook over, or to warm a house, is produced and Mr. Bundy this morning also demonstrated this process. A. J. Peterson, cashier of the Webster City Savings Bank, and one of the promoters of the Bundy invention, plans to use these chemicals in his furnace this winter, and will order no coal if it is found sufficient heat can be produced to warm the house. The cost of heating with chemicals will be only a fraction of per cent. of that for heating with coal.

Making Heat

Demonstrating the heating method, Mr. Bundy took a small tank containing the chemicals, and over the end of this held a lighted match. There was no ignition. The inventor then attached a gas burner to one end of the tank and placed the other end to his lips, drawing the air in, and holding a lighted match over the gas burner, a clear blue blaze immediately leaped up. The burner itself, the iron frame, does not become hot from the blaze, but only above the blaze, where the oxygen is separated from the air by the chemicals, there is heat.

The benefits which will be derived from this invention, the saving which will be realized by its practical use will be invaluable to the world, and the fact that Mr. Bundy has a "real thing" is recognized now by those who at first scoffed at the idea.

"Of course it is not perfect," he declares. "There are numerous details

CLEAN VALVE CAP ESSENTIAL TO LONG LIFE OF AUTO TIRE

One part of an automobile tire which comes in for too little attention is the valve. Treated properly this inexpensive but highly important part of a tire's mechanism will function satisfactorily throughout the life of the tire, but when mistreated it often causes annoyance.

When a valve begins to give trouble it may be assumed in nearly every case as a practical certainty that dirt has worked into the valve and is the main cause for improper functioning, says the United States Tire company. This being the case, the principal attention a motorist need give the valve is simply to see that all dust and dirt are excluded from the interior of the valve.

There is a rather common belief that the valve cap is an unessential thing and that it makes little difference whether a cap is used or not. But this idea is entirely erroneous and motorists who do not use the valve cap are in danger of valve trouble. When the cap is not used there is a strong likelihood that dirt will work down into the valve and ultimately produce a valve leak.

LEAKING VALVES

Loss of power is not the only trouble that is caused by leaking valves. The hot flame which escapes past the valves distempers the valve stems, softens the valve springs, corrodes the stem bearing and forms a sediment that prevents free action.

The average length of life of an automobile is 6 1/2 years.

TRUCK LONGEVITY

Automobile records show that some old motor trucks, still running, have travelled in excess of 300,000 miles, more than six times the distance around the world.

to be worked out and perfected, but it will not be long before people will be cooking with air, heating their homes with air, and running automobiles and motors of every kind with air."

SPARK PLUG ILLS

It will sometimes be found that a certain cylinder is missing fire. If the plug has been examined and cleaned, and seems to spark well when the car is running on the level or down hill, but refuses to do duty when a hill is reached, it is an almost certain sign that the plug in that particular cylinder is short-circuiting, either from dirt or oil on the inside, or perhaps because it is cracked. The remedy is to change the plug for a new one.

HOW TO CLEAN VALVE STEMS

A very simple way of cleaning valve stems which are under suspicion of harboring carbon deposits is to inject a little kerosene in the air valve of a carburetor while the engine is running. In this way a little of the kerosene finds its way down the valve stems and softens and washes off the carbon. It is no bad idea to do this once a month or so.

MONTHLY INSPECTION

A man really ought to go over his car about once a month, inspecting all the nuts and bolts to see that everything is tight and shipshape. It doesn't take long and is insurance against breakdown or accident that is about as cheap as anything will ever be.

Keep up the proper air pressure in your tires. Underinflation and overloading together account for nine-tenths of the trouble.

OUR APPLE CROP WAS WORTH TEN MILLIONS

That 3,334,660 barrels of apples, valued at \$24,396,210, were produced and sold in Canada during the year 1919 is stated in a preliminary bulletin on last season's Canadian apple crop issued last week by the Dominion Bureau of Statistics and based upon information gathered by the fruit branches of the Dominion.

Nova Scotia, Ontario and British Columbia, in the order named, are the great apple producing provinces of the Dominion.

Nova Scotia produced 1,600,000 barrels valued at \$9,989,680; Toronto 876,860 barrels, valued at \$7,030,880; while British Columbia's production was 2,236,000 boxes, equivalent to 745,300 barrels, and valued at \$6,540,000.

The Quebec apple crop amounted to 70,500 barrels, valued at \$527,950, while New Brunswick produced for sale forty thousand barrels, worth \$307,400.

Overland

Riding Comfort Made-in-Canada

WHY let rough roads interfere with your motoring comfort?

In this Overland you need not let bad roads spoil good rides.

Triplex Springs make every mile you ride a more enjoyable mile.

Light weight makes every mile a more economical mile.

This rare combination of riding luxury with driving economy accounts for the tremendous enthusiasm which is greeting the Overland all over Canada.

Its equipment is of the most modern type. Its stamina is a credit to the Canadian institution which created this car.

Let us show you the Overland.

WOLFVILLE'S WELCOME TO IMPERIAL PRESS DELEGATION

Each member of the Imperial Press Delegation which visited Wolfville last Thursday was presented with a folder containing the following message:

The Town of Wolfville, Nova Scotia, extends to the British Empire Press Delegation a cordial greeting and a hearty greeting. It seems most fitting that the bonds between the mother country and the Dominions, sanctified by the shedding of our sacrificial blood and glorified by victory over our common enemy, should now be strengthened, and that those who have so much to do with the moulding of public opinion in Great Britain should visit us so that Canada might in the future be no unknown land.

In this country, especially, our export trade is almost wholly with the mother country. Historic English names are commonly attached to our towns and rivers, and we have, probably, in this province the purest and least contaminat-

ed British stock in America. With the bonds of trade, language, race, and historic associations to strengthen those of empire consciousness, common interests, general ideals, the relations between the mother land and this Dominion were never closer.

We welcome you to a country of unsurpassed beauty, fertility, and historic interests. You have already looked upon the wonderful landscape, the beautiful valleys, the rugged mountains, and the winding rivers; new forms of natural beauty will be continually presented to you. You have seen evidence of the fertility of the soil, and you will be interested to know that this county alone, produced one million barrels of apples last year.

Our own town, beautiful for situation, attractive as a residential district, a centre for fruit growing, and noted for its educational facilities, is drawing many persons as visitors and residents, and pleasing all who come. We wish that your stay might be longer, and we hope that in the memories of your Canadian visit none may be clearer or

REPORT OF ADVERTISING COMMITTEE

The special committee of the National Editorial Association appointed to study the selling price of advertising space in weekly newspapers based on known costs of production, recommends the following rates per inch:

Newspapers of 500 or less circulation 20c.
Newspapers of 1000 or less circulation 25c.
Newspapers of 1500 or less circulation 30c.
Newspapers of 2000 or less circulation 35c.
Newspapers of 2500 or less circulation 40c.
Newspapers of 3000 or less circulation 43c.
Newspapers of 3500 or less circulation 49c.
Newspapers of 4000 or less circulation 49c.
Newspapers of 4500 or less circulation 52c.
Newspapers of 5500 or less circulation 55c.

After a thorough study of the present situation, the members of the committee were unanimous in the opinion that the prevailing rates for advertising in community newspapers are much too low and that these rates do not compare with the increased costs of other commodities.

After studying the costs of production as reported from newspaper offices in the different parts of the country, the committee finds that only a small percentage of country newspaper publishers realize the perils which confront their future paper publishers. In the mechanical departments labor costs have increased from 50 per cent. to 150 per cent.; machinery and materials have advanced in keeping with the rising costs and the newspaper publishers have been deluding themselves into the belief that they are making a profit and that their future is as secure as their past apparently has been. It was found upon investigation that most publishers have a very inadequate idea of the cost of producing their publications. Most of them have considered that the increased price of paper stock was the one item which should principally concern them. It is the one subject over which they have been especially alarmed. Since the circulation of most country newspapers is from 500 to 2500 copies per week, the committee has felt that although the item of increased cost of print paper should have serious consideration, it is of minor importance as compared to the increased costs of labor, machinery, materials, rent, insurance and the other items of expense which are standard. It was found that a number of publishers who own their own buildings are not charging the item of rent in figuring what their publications are worth. There have any considerable number been including interest upon the money invested in their plants as a part of the production cost of their newspapers. Others have been failing to put themselves upon their own payrolls for any adequate salary such as they might easily earn themselves, and from year to year have been laboring under the false delusion that they were making money. They have not taken into consideration the depreciation of plants and of the tremendously increased cost of replacement of machinery and still they have continued to sell space in their publications at rates which have prevailed for years.

After Sickness

when the body is weakened, the best restorative is an easily assimilated tonic-food.

Scott's Emulsion

Scott & Bowne, Toronto, Ont.

more pleasant than those of our town. This district known to the French as Minas, and later to the English as Horton, was afterwards named as a town for the then prominent family of deWolfe, and still retains that name.

The chief feature of the town is Acadia University, which last year with its affiliated institutions had a gross registration of 1087, the largest student body in the Maritime Provinces. Founded in 1838 at a time of bitter religious controversy, as a protest against religious exclusiveness, in the two then existing colleges, it has kept on its democratic way and added much to the training and scholarship of our young people. We wish you a pleasant trip all through Canada, and that in your further acquaintance with our great Dominion you may be so impressed with its grandeur, with its agricultural and industrial possibilities, and with the sterling worth of its inhabitants, that nothing but another visit in the near future will satisfy you.

Personal Paragraphs

Miss Hilda Fielding is visiting friends at Amherst and Sackville, N. B.

Mr. Wadsworth Provandie arrived in Wolfville on Wednesday for a few weeks visit.

Miss Mona Harris, of Kentville, has been visiting at the home of Mrs. E. L. Gould.

Mrs. F. M. Young left on Saturday for Needham, Mass., where she will make her home.

Mr. A. J. Mason left on Saturday for New York where he will continue his musical studies.

Mrs. Ella K. Wilson, of Winchester, Mass., is the guest of Mr. Chas. Pickford's family, of Grand Pre.

Miss Ethel Miller, of the local telephone exchange, is spending her vacation at her home in Annapolis Royal.

Capt. and Mrs. Henshaw arrived in town on Wednesday and are occupying their residence on Acadia street.

Miss Daisy Sleep, of Boston, Mass., arrived on Wednesday to visit her parents, Mr. and Mrs. L. W. Sleep.

Dr. J. T. Roach expects to be travelling with the Red Cross Caravan next week and consequently will not be at his office.

Miss Dorothy Mitchell, who has been spending some months in Boston visiting relatives, returned home on Saturday.

Mrs. Herbert Gardner, son and daughter, of Brooklyn, N. Y., are visiting at the home of Rev. Noble Crandall.

Miss Margurite Christie, of the staff of N. H. Phinney Co. Ltd., Halifax, is visiting her parents, Mr. and Mrs. F. H. Christie.

Mrs. W. C. B. Harris and family, accompanied by Mrs. J. W. Beckwith, are spending a few weeks at Port Lorne, Annapolis county.

Mr. and Mrs. N. B. Kilcup went to Berwick yesterday to attend the Camp Meeting, which lasts until Wednesday of next week.

Miss Georgia Baird, of River Herbert, is spending her vacation at Wolfville, visiting at the home of her uncle, Mr. J. F. Calkin.

Col. J. W. Margeson and Mrs. Margeson, of Ottawa, were in town on Wednesday and paid THE ACADIAN a friendly call.

Mr. and Mrs. Frank Godfrey and Mr. and Mrs. P. W. Davidson left Wednesday on a motor trip to Digby, expecting to return to-day.

Miss Elizabeth Barnaby, chief librarian at the Citizens' Library, Halifax, has been spending her vacation with her cousin, Mrs. A. V. Rand.

Mrs. J. W. Manning was in Halifax last week attending the Woman's Missionary Jubilee of Nova Scotia. Mrs. Manning was one of the speakers.

Mrs. C. P. Richmond is entertaining her sister Miss Grace Pierce, of Boston; Miss Lena Shaw, of Boston; and her son, Lyxandee Richmond, of Springvale, Maine.

Mrs. R. H. Tweedell and Miss Nellie Tweedell, of Brookline, Mass., are visiting in Wolfville, guests at the home of Prof. and Mrs. Sutherland, Locust avenue.

Rev. E. M. A. Bleakney preached at Billtown on Sunday morning last and at Port Williams in the evening. Next Sunday he will preach at Billtown and Lakeville.

Mr. and Mrs. W. C. Bleakney and little son, who have been spending some weeks on an automobile trip to New Brunswick, returned home via Parrsboro on Friday afternoon.

Mrs. H. F. LaPlante, of New York City, and her daughter, Mrs. H. Park Harding, of Belmont, Mass., are visiting at the home of Mrs. George R. Fitch, Seaview Avenue.

Mrs. Leverett Eaton, of Milton, Mass., who is spending the summer at Canard, was an over Sunday visitor in Wolfville at the home of Mr. and Mrs. P. W. Davidson, Seaview avenue.

Mr. W. G. Mould, of Toronto, has been in town during the past few weeks, superintending the installation of the Monotype in the office of this paper. Mr. Mould is an expert, both in construction and operation of this machine.

Rev. E. D. Webber, of Haverhill, Mass., formerly pastor of the Wolfville Baptist church, is spending a few weeks at Starr's Point. He is recovering from a prolonged attack of throat trouble which has kept him from his pulpit for several months.

The Annual Picnic of the Methodist Sunday School was held at Evangeline Beach on Wednesday, when a very enjoyable time was had.
