SEMI WEEKLY

VOLUME V.

OPENING OF THE THIRD SESSION

Brilliant Ceremonies Mark Formal Opening of Provincial Legislature This Afternoon.

The third session of the first Legislature of Alberta was opened this afternoon at three o'clock by His Honor Lieutenant-Governor Bulvey. As this is the first session to be held in the new temporary Legislative Hall, erected beside the departmental block on Capitol Hill, the occasion was all the more interesting to the citizens who attended in particularly large numbers. The plan of the temporary legislative chamber is simple, but affording every convenience for the conducting of legislative functions.

The speech from the Throne, delivered by His Honor as representative in this province of His Majesty the King, forecasts several important legislative measures. These include the workman's compensation act, providing compensation to workmen injured while engaged in their industrial duties. Another bill to ameliorate the condition of workmen will impose a limit on the hours of labor in mines. An act to establish a government drainage system in the province will also be submitted to the consideration of the House, while financial provision will be asked to establish an industrial school for the care and treatment of boys in need of such supervision and restraint.

The industrial school will be the treatment of boys in need of such supervision and restraint. The industrial school will be the treatment of boys in need of such supervision and restraint. The industrial school will be the treatment of boys in need of such supervision and restraint.

EDMONTON BULLETIN FRIDAY, JANUARY 17, 1907.

NUMBER 121.

HE EXPOSED MR. W. F. COCKSHUTT

Minister of Interior Turns Light on Political Game of Member for Brant.

Ottawa, Jan. 15.—W. F. Cockshutt, Conservative member for Brantford, had a hard time of it in the House today. For political purposes he was trying to show that a friend he had made in the past year over one million people had entered the country. A policy should be adopted which would bring in a class of settlers that would not be a drag to the country.

Some months ago, Mr. Cockshutt was endeavoring to form an information bureau in Brantford, which had for its purpose the object of relieving the congested districts of Europe to come to Brantford City. He wanted the Minister of the Interior to get his minister to assist, and now that Mr. Oliver has exposed him he tries to wiggle out of it by saying that an officer of the same letter, back from the association of these workmen, instead of informing the Minister, and now gets the same letter back from the association for political purposes to get a slap at the government if possible.

The debate which ensued followed closely the lines of a migration policy which would bring in a class of settlers that would not be a drag to the country. The debate which ensued followed closely the lines of a migration policy which would bring in a class of settlers that would not be a drag to the country.

RECONCILIATION OF OLD TIME FOES

This is What Earl Grey's Project Will Symbolize Says Sir Wilfrid

Ottawa, Jan. 16.—The first step was taken yesterday afternoon towards the reconciliation of the old time foes of the Dominion to co-operate in forwarding the project outlined by Earl Grey for contribution next August of the centenary of Quebec, and the preservation of the battlefields of the Plains of Abraham and La Poye. The nucleus of a central committee drawn from the various Canadian clubs, was appointed to co-operate with another large body in charge of the Quebec memorial project.

The Premier, Sir Wilfrid Laurier, heartily approved of Earl Grey's project, and said he would give it his best support. The idea of the reconciliation of the old time foes, the British and French, is absolutely unworthy of that here and unworthy of Canada. Nothing could be more fitting than to erect a monument to the memory of peace and reconciliation of the old time foes, the British and French, is absolutely unworthy of that here and unworthy of Canada.

The Premier, Sir Wilfrid Laurier, heartily approved of Earl Grey's project, and said he would give it his best support. IS THAW INSANE?

Defence is Making Strenuous Effort to Prove He Is

New York, Jan. 15.—Insane acts of Thaw immediately preceding the murder of White were testified to at length today by Christopher Brigan, steward of the whist club where Thaw often played. He testified to a half-dozen instances that he said insensate Thaw's insanity upon him.

Here are some of Thaw's crazy acts testified to by Brigan as occurring the day before the murder. Thaw complained of cold at the whist club though the temperature was eighty and it was June. He called for a screen and carried it around him at the club to shield him from the cold blasts.

While at the club, he got up, walked downstairs and walked up again, handing the steward a package of cigars, asking him to put it in the safe. Dr. Horatio Wood, the first witness for the defence, scored when he was allowed to testify that he existed from a distance that he found her insane in 1894. Then he whist club steward took the stand, and after him Miss Shein, a telephone operator at the Grand Hotel, told more about Thaw's strange actions.

Canada and Champlain Fish International Negotiations in Province of Quebec With United States. Washington, D.C., Jan. 15.—Senator Proctor of Vermont, called at the White House today to discuss the negotiations which are being carried on with Canada looking to an agreement whereby the Canadian will deposit from the Lake Champlain regarding this lake are disputes between the Canadian government and the United States regarding fishing rights.

THE STARVATION REPORT IS FALSE

Men at Immigration Hall Refuse to Accept Work on Farms. Are Young and Able.

The report that from twenty or twenty-five men are in a starving condition at the Immigration Hall and unable to procure work is absolutely untrue. This morning a representative of the Bulletin visited the Immigration Hall and heard the stories told by the men, as well as by the immigration officers, who have carefully investigated the report that had been current and have given it an emphatic denial.

There are at the present time several deceiving cusses where men are ill, that the authorities are providing for, and are giving food till the men are able to look after themselves. In the bulk of the cases the men now given it an emphatic denial, and refused any kind of work, even for a month or two, except what they can get at good wages in the city. Farmers are looking for men, but many have refused to go to the country and work on farms, even for a month or so, till the spring opens up.

"I would rather go to prison," said one of the men at the hall to the Bulletin representative, "than go and work on a farm for my board." Farmers looking for men, but many have refused to go to the country and work on farms, even for a month or so, till the spring opens up.

WILL NOT MAKE COAL WEIGHING COMPULSORY

Committee Fears to Impose Harshship on Coal Dealers—Committees of Council Meet—Auditor's Salary Fixed at \$2,000—Question of Manufacturers' Assessment Not Yet Decided.

The first regular committee meeting of the year was held in the council chamber last evening, Mayor McDougall and all the aldermen being present, with the exception of Alderman Garney. Several matters were discussed at some length by the various committees, but they were prevented from handling these matters extensively owing to the fact that the members of one committee were usually members of two or three others, and thus the committees had to meet one after another.

The first subject for discussion last evening was regarding the minutes of the council meeting of the 12th inst. The matter had been brought up at the last regular council meeting, when Alderman Garney favored omitting the reading of these minutes, as each alderman suggested having a copy of the minutes published in the newspapers. The matter was referred to the special committee, consisting of Alderman Armstrong (chairman), Alderman Anderson, Manson and Fraser.

After a short discussion it was decided that the minutes should be read as usual at the council meetings, as provided for in the charter. With regard to having the minutes published, the committee decided to see the management of the various city newspapers regarding the price.

Auditor's Salary Fixed. The most important work of the evening was done by the Finance Committee, composed of Alderman Bellamy (chairman), Alderman McLennan, Lee and Garney. The question of whether the city should have a permanent auditor, fixing of his salary, and the method of securing one, were discussed by this committee. It was unanimously agreed that the city should have a permanent auditor, and the method of securing one was discussed by this committee. It was unanimously agreed that the city should have a permanent auditor, and the method of securing one was discussed by this committee.

Will Test Scales. The question of the compulsory weighing of all coal by the city scales was discussed by the Finance Committee, composed of Alderman Garney (chairman), Alderman Manson, Bellamy, Armstrong. It was suggested that if all coal and other produce brought into the city were weighed, the city scales would be used. Working finally from the information that the auditor of the city government received \$2,700 per year, the committee decided that the salary of the official city auditor should be \$2,000 per year. Advertisements for application for this position will be inserted in the Bulletin, Journal, Morning Star, Press, Toronto Globe and Toronto Mail and Empire, all applications to be in by February 15th.

G.T.P. TO BUILD EAST FROM PRINCE RUPERT

This Will Be Expensive Section to Construct—Red River to Saskatoon—Road to Be Open for Traffic Next Fall—New Shops at Winnipeg.

Montreal, Jan. 13.—The Grand Trunk Pacific Company has decided to call for tenders for the construction of a section of one hundred miles from British Columbia, from Prince Rupert eastward through the coast range. The idea of the management is to get this work in hand as soon as possible, as the section will bring into immediate connection with the Pacific coast, a very rich and fertile agricultural, mineral and lumber country.

Experts declare that the cost of a great part of this section will be about \$100,000 per mile, and that some miles will even exceed this figure, as there will be a large amount of rock-cutting, tunnel and side-hill work. It is now thought that the line from Red River to Saskatchewan, over eight hundred miles, will be completed before the end of the winter. With- in two years the new transcontinental railway experts think that if the road between New York and the Pacific was completed in 1930 those in charge will have done as well as could be expected.

Spring will also see work started on the extensive shops to be erected by the Grand Trunk Pacific at Winnipeg. Building operations will get well ahead as fast as possible, and it is expected that many of the shops will be finished before next winter. Within two years the new transcontinental railway experts think that if the road between New York and the Pacific was completed in 1930 those in charge will have done as well as could be expected.

FAVOR PORKING PLANT. Red Deer Board of Trade Endorses Government Pork Packing Project.

Red Deer, Alta., Jan. 12.—At the annual meeting of the Alberta Farmers' association held at the Red Deer hotel, the resolution was passed to favor the establishment of a pork packing plant at some central point midway between Calgary and Winnipeg. The resolution was unanimously carried. It was considered that such a plant would be of material benefit to the farmers of this district, providing a market for live hogs and increasing the price. It was considered that a pork packing plant established on the line between the government creameries would benefit the farmers greatly.

(From Monday's Bulletin.) The application of Arch. York to sustain C. T. Pinfold as receiver in charge of the Alberta and King Edward hotels, Windsor and King Edward Hotels is granted by Judge Scott.

On Tuesday, Jan. 7th, the motions in two actions between McDougall & Secord as plaintiffs and Archibald York, defendant, were brought up by the Supreme court. In the first action the plaintiffs claim judgment against the defendant for the sum of \$2,885.15, in respect of a mortgage on Mr. York's one-third interest in the Alberta hotel property. In the second action the plaintiffs claim judgment against the defendant for the sum of \$3,333.33 for principal, \$308.23, being one-third of taxes paid and \$2.73 being interest on the payment made on account of taxes. Emery, Newell & Bellamy appeared for the plaintiffs and J. McNeil for the defendant.

The litigation between Messrs. McDougall & Secord and Mr. York was commenced some time ago. It was stated that Mr. Secord commenced by rowing Mr. York in connection with the Alberta hotel property. Mr. Secord was in connection with the Alberta hotel property. Mr. Secord was in connection with the Alberta hotel property.

When the motions came before the judge, affidavits were made by Mr. Secord, W. C. Inglis, John A. McDougall, John C. McDougall and others, and were filed on behalf of the plaintiffs. The defendant, Archibald York, made affidavit that since the institution of these actions Messrs. McDougall & Secord had rendered an account to the Alberta and Windsor hotel companies for the full amount of the taxes paid by them, which Mr. York stated was the arrangement among the three as to how the taxes were to be paid, and that the same day that the account for taxes was received they were handed to Mr. Pinfold, the receiver, and chequed for the full amount, were given to Messrs. McDougall & Secord.

The motions were granted for three weeks and will be resumed before Mr. Justice Harvey on January 20th. Another action, in which it was claimed that together with Mr. York they purchased the Windsor hotel property, the plaintiffs putting up \$24,833 for Mr. York, for which sum they took a mortgage. Again in March they purchased the Alberta hotel, the plaintiffs putting up \$85,000 for Mr. York, and being again secured by a mortgage. In the statement of claim the plaintiffs state that the lands are only suitable for an hotel and that in regard to the nature and extent of the said lands and premises and the number of persons entitled to shares, they would be prepared to advance out for all party the same lands and premises would be sold and the proceeds divided amongst the parties entitled thereto.

MODERN MEDICINES. No sane mother would wish herself trodden under the conditions of medicine or surgery half a century ago. Why then should she give her little one the old-fashioned medicines of half a century ago, which more likely than not contain poisonous poisons that cannot cure the child, but merely drive it into temporary insensibility. Baby's Own Tablets is a modern medicine prepared with all the care and skill of modern medical science. And the mother who gives this medicine to her child has the guarantee of a Government Analyst that it does not contain one particle of opiate or poisonous coating. Sold by all medicine dealers and makes a baby healthy, laughing happy child. Sold by all medicine dealers and makes a baby healthy, laughing happy child. Sold by all medicine dealers and makes a baby healthy, laughing happy child.

INJURED IN THEATRE FIRE. Panic Caused by Explosion of Films of Moving Pictures. St. Catharines, Jan. 16.—Fire broke out this afternoon caused by the explosion of films used in moving pictures, gutting the Little Hippodrome theatre and damaging adjoining premises. There were about fifty people in the building, which has two small exits. The lights went out immediately, and a panic ensued in which several were knocked off their feet and injured. A picture operator named McDonald, fifteen years of age, could not easily escape from the building, but was rescued by a fireman. He was taken to a nearby hospital and after temporary treatment removed to the Marine hospital, where he is resting well. The loss is several thousand dollars, with fair insurance.

IS BOARD A COURT? On This Depends Liberty of Toronto World Editor. Toronto, Jan. 15.—If W. H. Greenwood is not committed for contempt for certain editorials in the Toronto World with regard to the Ontario Railway Board and the Toronto Junction Railway dispute, which was recently before the board, he can thank his stars that the board is not a court or not a tribunal. To decide whether the board is a court or not, Justice Riddell reserved judgment. He declared he would have no doubt the highest bench in making an order for contempt of court if similar remarks had been made of himself or brother justices or the high court. Greenwood wrote which caused the railway to move for his committal this morning.

AMERICAN JINGOSISM. Fear Felt of Invasion by Japs from Pacific Coast States, this Report Says.

Washington, Jan. 13.—The activity of the Pacific coast delegations which have called at the White House and War Office, puts a new and grave phase on the Japanese question. Taken jointly the conclusions drawn from the conference is that the Pacific Coast states have combined to demand either an exclusion law or that the Pacific Coast be fortified. Either course would be inopportune at the present moment from a government point of view, for the Japanese government might be inclined to take advantage of the consequence that a conflict would be precipitated months before the American battle ship fleet could arrive on the scene.

As to fortifying the coast, that would cost immense sums, especially that of Fort Arthur, have shaken faith in the coast fortifications liable to isolation by sea attack or by a superior invading army from inland. The government fully realizes that the only efficient way to protect the coast is to have a military fleet ready to strike hard at any possible enemy on the opening of hostilities. The delegation conferred with Assistant Secretary of War Oliver, was made up of Adjutant General's Lanck, of California, Hamilton of Washington and Pinzer of Oregon.

They said the Pacific coast states would be willing to organize companies for coast defence if the Federal government would bear the initial cost of equipment. The weakest spot on the Pacific coast is Puget Sound. A rumor that Admiral Evans will proceed to the Sound when he reaches "Prisco" is the basis for the assumption that this important point will not be left in its present defenceless condition. It is reported that the fleet is to remain on the Pacific until great numbers of the United States fleet are in the Philippine archipelago.

YOUNG FIREMAN KILLED. Tragic Fatality at Small Fire in Montreal—One Killed, Two Injured. Montreal, Jan. 12.—A fatal fire occurred tonight at 7:30 at the corner of Notre Dame and Charlevoix streets, Guegnone, when by a sudden explosion, fireman Paul Gagnon, 26 years old, and only two years married, was instantly killed by the falling of the front brick wall. Two other firemen were seriously injured and are lying at the general hospital. The coroner will hold an inquest tomorrow.

Regulating Architecture. Ottawa, Jan. 13.—Calixa Leboeuf, who represents the Quebec Government before the insurance commission last year, will become circuit court judge at Montreal.

ONLY ONE LOAD IN FIFTY IS WEIGHED. Unless Purchaser Demands It Coal Is Not Weighed on City Scales—Market Clerk Grierson Says Scales Are Accurate. (From Monday's Bulletin.) The recent case in the police court for alleged shortage in weights of coal sold by city dealers has created considerable discussion among citizens as to the advisability of having all coal weighed on the city scales.

At the present time, according to W. E. Grierson, the city weigher, a very small part of the coal sold here is weighed at the city scale, more perhaps than one load in fifty. "If it all came here citizens would have better protection," Mr. Grierson asserted. At the present time coal only is weighed at the city scales when the buyer requests that such be done for his own protection.

Mr. Grierson was decided in affirming that the scales are correct despite numerous assertions to the contrary. They were tested on the 6th of November last by Mr. Goshier, a Calgary, Dominion inspector, who made a special trip here to inspect those at the C.N.R. and the city square.

"Last summer," said Mr. Grierson, "when a concrete foundation was put down, and other improvements made, Mr. George Sanderson adjusted the scales. There were some complaints and Mr. Ostello came up from Calgary and found them all right.

"I am practically certain that our scales are correct and I believe they are the C.N.R. are the latest inspected in Canada. The result is that those that have not been so recently adjusted.

The action necessary for the protection of citizens in the matter of making it compulsory for the dealers to weigh coal before delivery, whether or not a demand is made by the purchaser would be for the council to pass a by-law to that effect."

PREACHER'S OPINIONS. Rev. P. K. McKee, Forks Baddeck, C. B.: "I always count it a pleasure to recommend the Dr. Slocum Benedict to my parishioners. I believe there is nothing better for throat and lung troubles or weakness or run-down system. For speaker's sore throat I have found Psychine very beneficial."

Rev. W. H. Stevens, Paisley, Ont.: "Psychine seemed just the stimulant my system needed. I shall add my testimony as to its efficacy at every opportunity."

Rev. R. M. Browne, Amberst Head, N.S.: "I have often recommended Psychine since taking it myself, for it is a cure for the troubles you specify."

Rev. Chas. Stirling, Bath, N.B.: "I have used Psychine in my family; the results were marvelous. I have visited people who state that they never used its equal. I strongly recommend it."

Rev. J. S. L. Wilson, Markdale, Ont.: "I have taken two bottles of Psychine and am pleased to say that I am greatly improved in health. I was troubled with my throat, but now I find it about restored to its normal condition. I find my work very much less taxing. I believe Psychine is all I needed for it."

These are earnest prophets of the gospel of Psychine. They know whereof they speak. Psychine cures all throat, lung and stomach troubles. It is a great voice strengthener, acting directly on the vocal, respiratory and digestive organs. Thus specially adapted to public speakers. At all drug stores, \$2.00 and \$1.00, or Dr. T. A. Slocum, Ltd., Toronto.

THE MINE OPERATORS REFUSE TO MEET C.P.R.

In Demand for Lower Prices for Coal and as Result 1,100 Miners Are Idle in South—Railway is Overstocked With Coal.

F. H. Sherman, of Taber, the Alberta president of the United Mine Workers of America, came to the city on Saturday and will spend some time here in connection with proposed coal legislation that is to come up at the session of the Alberta legislature.

"There are at the present time," said Mr. Sherman, a Bulletin representative, "about 1,100 miners out of work as a result of the closing of the Frank, Bellevue and Hillcrest mines and the small mines in the Taber district."

"What is the cause of the men being idle?" the reporter asked. "The trouble arises from a dispute between the C. P. R. and the operators. The C. P. R. claim they are overstocked and are endeavoring to lower the prices. Rather than do this the operators resolved to close their mines. Mr. Sherman thinks the enforced idleness may last for a month or six weeks. The coal business is in a very slack in the south country at the present time, on account of the mild weather that has prevailed almost all this winter."

Special Request Made to Congress for the Purchase of Arms and Equipment—Request Significant in View of Present Strained Relations. Washington, D.C., Jan. 14.—Major-General W. D. Duvell, assistant chief of the staff of the U. S. army, in a special request to congress today, asked for an appropriation of \$10,000,000 for the purchase of arms and equipment for an army of 250,000 men. This is the substance of the Grand Trunk Pacific bridge across the North Saskatchewan River at Clover Bar. The pier cost approximately \$50,000 and contains about 4,900 cubic yards of concrete. The first largest pier in the world was the first large pier of this bridge, completed last May or June.

This immense support for a railway bridge is of unusual height. It tapers upwards for 52 feet from the river bed, and the bottom pier is 32 feet below the river bed. Within contains as much concrete as was used in all the piers of the C.N.R. bridge at Fort Saskatchewan. About 350 men are employed on the G.T.P. bridge, and the work of completing the sub-structure is being pushed forward as rapidly as possible. There still remains two large piers to be completed. The four serious drawbacks the one should be completed in about four weeks and the other in about three weeks. Twenty smaller piers have all been completed, and all the forces of the company are bent upon completing these two large piers. A force of 380 men is now at work on the bridge, and some of the men are being off by the company this week, as there is no work for them.

It is estimated that the sub-structure of the bridge will be completed by the middle of March. The steel for this bridge will probably be brought to Edmonton on some other line of railway and taken out to the Clover Bar bridge on the Grand Trunk Pacific. This way the bridge will be ready for traffic long before the completion of the G.T.P. to Edmonton next summer.

EXPLOSION KILLS FIVE. Accident at G.T.P. Construction Camp Near Kenora. Kenora, Ont., Jan. 16.—Five men were killed in a dynamite explosion yesterday afternoon. The accident took place on Thompson and Egan's sub-contract of the National transcontinental north of Hawk. The four men were part of a station gang employed in taking out a small rock cut. The explosion was a premature one and took place while seven of the gang were at work. Two were thrown out of the cut but were not injured. The other two others were blown to atoms and the remaining three escaped with serious injuries. The station gang were all Russians and in their excitement and terror of the moment the survivors were not able to give the names of those killed.

PREACHER'S OPINIONS. Rev. P. K. McKee, Forks Baddeck, C. B.: "I always count it a pleasure to recommend the Dr. Slocum Benedict to my parishioners. I believe there is nothing better for throat and lung troubles or weakness or run-down system. For speaker's sore throat I have found Psychine very beneficial."

Rev. W. H. Stevens, Paisley, Ont.: "Psychine seemed just the stimulant my system needed. I shall add my testimony as to its efficacy at every opportunity."

Rev. R. M. Browne, Amberst Head, N.S.: "I have often recommended Psychine since taking it myself, for it is a cure for the troubles you specify."

Rev. Chas. Stirling, Bath, N.B.: "I have used Psychine in my family; the results were marvelous. I have visited people who state that they never used its equal. I strongly recommend it."

WITH THE FARMERS

LIVE STOCK CONVENTION.

The second convention of the national live stock convention of Canada called for February 5 to 7 in Ottawa gives promise of being one of the most interesting and profitable live stock gatherings in the history of Canada.

One of the matters of importance will be the suggestions to the government as to the rearrangement of the regulations permitting the entry free of pure bred stock from the United States. The United States will not recognize the Canadian head books and many breeders feel that Canada has no reason to recognize theirs. If Canada wants improved stock, Great Britain is the place she should go for it and not the United States.

Another matter is the reconstruction of the constitution, which at present is somewhat unwieldy. The question of representation will also come up for consideration, as at present arranged it does not work with entire fairness.

In addition to routine matters, an excellent programme of addresses and subjects for discussion has been prepared. The first draft of programme is as follows:

"British Columbia as a market for pure bred stock," by Dr. S. F. Tolmie, Dominion Live Stock Branch, Victoria, B.C.

"The live stock industry in Quebec," by Dr. J. A. Coulter, Quebec Live Stock Association, Quebec.

"The live stock industry in the Maritime Provinces," by Prof. Cummings, B.S.A., principal agricultural officer, Truro, N.S. Discussion led by Theodore Ross, secretary of agriculture, Charlottetown, P.E.I.

"The future of the ranching country and of the live stock industry in the prairie provinces," by H. H. Matthews, secretary Western Stock Growers' Association, Macleod, Alta.

"The live stock industry in the prairie provinces," by H. H. Matthews, secretary Western Stock Growers' Association, Macleod, Alta.

"The best means of retaining for Canadian breeders the Canadian market for pure bred stock," by John Cardhouse, Highland, Ont. Discussion led by H. L. Logan, secretary Live Stock Association, Victoria, B.C.

"Regulations governing the admission to Canada of pure bred stock," by Robert Miller, Stratford, Ont. Discussion led by Hon. W. C. Edwards, Ottawa.

"The health of Canadian live stock and its preservation," by Dr. A. G. Hopkins, health of animals branch, Ottawa.

"The Scotch premium system of hiring stallions," by John Graham, Calgary, Man. Discussion led by Robert Ness, Hovick, Que.

LIVERPOOL LIVE STOCK.

Liverpool, January 14.—Cables from London for the trade in cattle, the prices being half cent up at 11 to 12 per lb. for Canadian, 10 to 11 for ranch and native cows, and 9 1/2 for bullocks. London cables had Canadian 1/2 up at 11 1/2 to 12 and ranchers at 11 1/2 to 12.

TODAY'S GRAIN MARKETS.

Winnipeg, January 14.—The wheat market was mostly steady and firm to-day. Although Liverpool closed 1/4 cent lower than yesterday the American markets have been buoyant. Chicago closed 1/4 cent higher and Minneapolis 1/4 cent lower than yesterday. The Winnipeg market was generally 1/4 cent higher. Today's prices are: No. 1 Northern, 1.05 1/2; No. 2 Northern, 1.03 1/2; No. 3 Northern, 99 1/2; No. 4 feed, 97 1/2; No. 5 feed, 95 1/2; No. 6 feed, 93 1/2; No. 7 feed, 91 1/2; No. 8 feed, 89 1/2; No. 9 feed, 87 1/2; No. 10 feed, 85 1/2; No. 11 feed, 83 1/2; No. 12 feed, 81 1/2; No. 13 feed, 79 1/2; No. 14 feed, 77 1/2; No. 15 feed, 75 1/2; No. 16 feed, 73 1/2; No. 17 feed, 71 1/2; No. 18 feed, 69 1/2; No. 19 feed, 67 1/2; No. 20 feed, 65 1/2; No. 21 feed, 63 1/2; No. 22 feed, 61 1/2; No. 23 feed, 59 1/2; No. 24 feed, 57 1/2; No. 25 feed, 55 1/2; No. 26 feed, 53 1/2; No. 27 feed, 51 1/2; No. 28 feed, 49 1/2; No. 29 feed, 47 1/2; No. 30 feed, 45 1/2; No. 31 feed, 43 1/2; No. 32 feed, 41 1/2; No. 33 feed, 39 1/2; No. 34 feed, 37 1/2; No. 35 feed, 35 1/2; No. 36 feed, 33 1/2; No. 37 feed, 31 1/2; No. 38 feed, 29 1/2; No. 39 feed, 27 1/2; No. 40 feed, 25 1/2; No. 41 feed, 23 1/2; No. 42 feed, 21 1/2; No. 43 feed, 19 1/2; No. 44 feed, 17 1/2; No. 45 feed, 15 1/2; No. 46 feed, 13 1/2; No. 47 feed, 11 1/2; No. 48 feed, 9 1/2; No. 49 feed, 7 1/2; AROUND THE CITY

LOCALS.

(From Monday's Bulletin.)
Dr. J. A. Tierney, of St. Albert, has been appointed coroner.

Mrs. Whiteley and her son Alec returned on Saturday from a lengthy stay in Toronto.

Mrs. A. W. Wheeler and son left this morning for Winnipeg on a three months' visit to Mr. Wheeler's parents.

Rev. Mr. Minoff, of Winnipeg, has come to the city to take charge of the Independent Greek church on Kintinno avenue.

O. M. Biggar, of the law firm of Short, Cross & Biggar, returned to the city yesterday from a trip to Toronto and other eastern cities.

The northern mail leaves the city in charge of Hudson's Bay officials on Friday, February 7th, for Fort Resolution and intervening points.

Angus McLellan and Herbert Bowen formed a partnership in the real estate business, and will conduct an office at Mr. Bowen's old stand on Jasper ave.

Mr. W. B. Poncher has just received the sad news of the death of his brother, Mr. Daniel Poncher, of Picher, Mo., Ont., which occurred suddenly.

The various committees of the city council will meet this evening at eight o'clock to arrange the work which has come to their consideration during the past week.

Potter & McDougall have installed a ten horse-power electric motor at their warehouse on Fraser avenue.

The assessment committee of the city council had a conference on Saturday afternoon with the city assessor and will meet again this afternoon to discuss the assessment for the coming year.

The horse attached to Williamson Bros' delivery rig became frightened by a passing automobile this morning and made an attempt to run away, returning the rig, breaking the shaft but was caught before getting away.

The engagement is announced of Miss Lottie Thompson, B.A., younger daughter of the late David Thompson, Pictou, Ont., to Walter Smith, B.Sc., of Vancouver, B.C. The wedding will take place shortly.

C. Van Arsdol, divisional engineer of the Grand Trunk Pacific, returned on Saturday from a business trip to the Pacific coast. Mr. Van Arsdol has been in Prince Rupert since he left Edmonton.

Barriester H. McKie left on Friday for Deland to conduct the preliminary inquiry for the defence in the case of the Kinross telegraph charges, being seduction of a girl under fourteen years.

Mrs. A. E. Jackson, 25 Jasper avenue west, will receive on Wednesday, January 15, and afterwards on the third Wednesday of each month. Her guests, Mrs. Mahoney, of Winnipeg, will receive with her this week.

The case against Erick Lordlund, charged with the theft of a sheep at the Edmonton hotel, was dismissed at the police court Saturday as it appeared the accused was under the influence at the time he removed the coat.

Harry A. Woodard, the well-known elevator contractor on the C.N.E.R. C.P.R. lines, returned yesterday afternoon from a visit to St. Paul and other cities of the United States. Mr. Woodard says that during the past ten days there has been a wonderful change in business conditions which will reach their normal state in a few months.

Louis Kneip, of Viking, who was brought to the Misericordia Hospital a few days ago in the last stages of a lingering disease, died yesterday. The deceased, who was 34 years of age, leaves two children, a husband, and his wife died not long ago. The body was removed to the offices of the Moffatt Undertaking Company, awaiting the arrival of his father-in-law in the city.

A veteran fur trader from the north in the person of Guillaume Desjarlais with his son arrived in the city yesterday from Lesser Slave Lake. He says a large number of settlers came in last summer and all the homesteads near the Lake will be taken up by next summer. The fur trade is very poor he says and he never had a smaller catch or lower prices. McDougall and Scott obtained his furs.

A local lodge of the Brotherhood of Railroad Trainmen was organized in the city yesterday with about twenty members. Its jurisdiction is from Edmonton to Vermilion for freight and yard men and to Battleford for passenger men. The officers elected are as follows: Past Master, W. O. Fowler; Master, W. C. Sterling; Vice Master, H. J. Smith; Secretary, L. C. Kiler; Financier, W. J. Lee; Agent of Official Organ, O. S. Lewis; Local committee, F. Brindle, W. C. Sterling, H. J. Smith; Legislative Representative, J. M. Brown.

A. Williamson Taylor and Mrs. Taylor returned to the city on Saturday from a trip to the Pacific coast. Mr. Taylor is very optimistic over the future of Edmonton and expressed the opinion that this city had no great cause for financial depression. He believed the action of the Bank of Montreal in Spokane and the Bank of Commerce in Seattle had attracted the attention of a large number of Americans, who would come to Alberta and British Columbia at an early date. These people have shown their appreciation of Canadian banks by depositing their money in them, and they argue that if Canadian banks are good enough for them to put their money in, Canada must be good enough for them to live in. Mr. Taylor thinks, stands high in the estimation of these people, and he believes that the year 1908 would see the termination of dull days to the business man and the dawn of a brighter era.

K.O.F.C. INITIATION.

The initiation of new members in the Edmonton Council of the Knights of Columbus, being completed, most of the visiting delegates return to their homes today. The records were signed and Regina. Twenty-eight of the new candidates were from Edmonton, the others from Calgary, J. A. Ross, province and Saskatchewan, thirty-five in all being received.

On Saturday evening the work of initiation and conferring degrees was brought to a close by a capital supper catered for by Mrs. Gaurran. As at every supper of the order, no order of liquor was excluded from this affair, a rule which extends to every club house of the order in America.

Yesterday morning they attended in a body at eight o'clock at St. Joseph's church, Rev. Father York, of Saskatchewan celebrating mass. In the afternoon a number of the visitors drove out to St. Albert, the synagogical seat of the diocese. T. D. Deegan, territorial deputy of the order, and others of the order were present in the initiation. State Deputy Martin Wiseman, who presided at the supper last, was unable to come on this occasion.

Some of the visiting delegates were: J. Gorman, J. McCarty, D. Murphy, J. John, T. Sleekman, F. McFleury, Regina; J. Ball, Duluth; W. Waters, J. Murray, J. A. McPhee, P. J. Bergeron, C. F. Becha, E. G. Cullen, W. K. Thompson, M. J. Shueley, M. Gilmore, E. McCornick, J. E. Rice, M. Delehanly, Jas. Hickey, Adam H. Esch, Dr. E. J. Madigan, J. D. Cassin, J. H. G. Macdonald, Dr. A. V. Cashman, Mr. Fitzgerald, Wm. Gorman, E. J. Dugan, J. Gardner, W. C. Dunlop, and E. C. Corbett, of the method, of the local association, and prominent delegates from other districts, as well as from Edmonton, are expected to be in attendance. Any wishing to go to the initiation should communicate with P. E. Lissard or Jas. McGee.

John Stocks, deputy minister of public works, with Engineers' Chamber, of the department, City Engineer Keely, of Edmonton, and City Engineer, of the city, will be present, considering the question of the placing of traffic section of the bridge. There are two proposals which the C.P.R. has submitted to the authorities, viz., to place it on the same level with the rails, or to place it underneath. The finding of the engineers will be embodied in a report which they will submit to the government and the two cities.

Judge Taylor sat in chambers this morning, and a large number of cases of minor importance were brought to his attention by various lawyers. The finding of the settlement of dates of trial were fixed by him. The district court will meet on Jan. 21st.

At the R. N. W. M. P. barracks this morning Albert Pierpont, of Morinville, was brought up for trial before the Kinross telegraph charges, being seduction of a girl under fourteen years.

Mrs. A. E. Jackson, 25 Jasper avenue west, will receive on Wednesday, January 15, and afterwards on the third Wednesday of each month. Her guests, Mrs. Mahoney, of Winnipeg, will receive with her this week.

BUSINESS GOOD, SAYS BURNS.

(From Monday's Bulletin.)
Pat Burns, the cattle king of western Canada, is in the city today, a guest at the Alberta hotel. Mr. Burns will stay in Edmonton for a few days. He is here looking into the branches of his business in Edmonton and Strathcona.

When seen this morning by a representative of the Bulletin, Mr. Burns expressed himself as pleased to find business in a rather good condition throughout Alberta, notwithstanding the fact that the year was one of some depression.

"Business is, of course, quieter than last year," said Mr. Burns. "But that is to be expected. And as credit is good and the outlook bright we have not much to complain about as a province."

"What do you think of the best commission that you have seen the government build three cattle-feeding experiment stations in the province?" he asked. "It will only tend to improve the cattle offered for sale."

And what do you think of their finding that there is no combine existing for restraint of trade in meat shops?

"Why, that was what we told them before they began. They might have found that out with less trouble than they have."

Mr. Burns would express no opinion upon the present system of brand inspection which has been condemned by the commission. When asked if he agreed with the report that stock yards were not systematically maintained upon where the unsystematic stock yards were supposed to be. Some of his remarks were properly managed, some of them were not.

At the finding that "cattle should be sold in lots without brands," Mr. Burns laughed with amusement. Let the people who come to that conclusion say to the business men that they should run it on that principle. Every man has a right to exercise his own judgment in his business, and it might be amusing to see how that policy would work out.

Every man has a right to exercise his own judgment in his business, and it might be amusing to see how that policy would work out.

At the finding that "cattle should be sold in lots without brands," Mr. Burns laughed with amusement. Let the people who come to that conclusion say to the business men that they should run it on that principle. Every man has a right to exercise his own judgment in his business, and it might be amusing to see how that policy would work out.

AT R. N. W. M. P. BARRACKS.

(From Monday's Bulletin.)
At the R. N. W. M. P. barracks on Saturday case came on before Inspector Worley, in which the C. N. R. charged a conductor named Dolson with theft of money by connection with the fares received. The prosecution did not have their case completed until the 18th.

A man named T. J. Finner, wanted at Red Deer on charges of perjury and fraud, was arrested here by Sergeant Munroe and has been sent down to Red Deer, where he will stand trial.

On Saturday the proprietors of two north-end resorts were arranged before Inspector Worley and fined \$50 each for selling liquor without license. The prosecution was the result of a raid on the previous night.

Tomorrow morning two charges of perjury will be heard against Albert Pierpont, of Morinville. The prosecution is led by Robert Alexander, Edmonton, attorney for the Western Canada Land Co., and the defendant is charged with taking time from his duties as a member of the company. The alleged offences were committed near Morinville at which place the defendant resides.

Inspector's Evidence.
Norman Fraser, provincial inspector of mines, when seen, stated, "I examined the Parkdale mines about the middle of December, 1907, and again after the accident, accompanied by the manager and the pit boss. I examined the north entry of the mine through the stoppings in the mine blown out, the cause of the accident must have been a gas explosion. I found several of the stoppings in the mine blown out. We could not get farther than the last cross-cut on account of gas which is very explosive. The fire boss' report books at the mine show that small quantities of gas have been found from time to time at the stoppings of the mine. Judging from the weak caused in the mine the amount of gas which exploded must have been considerable volume. The Parkdale mine is the only lignite mine in the province where such a volume of gas was evidently there has ever been given to my knowledge. All the lignite mines in this province are working with nitre and light."

"The cause of this accumulation of gas may be due to two reasons. One, that a stopping had become damaged by the pressure of the strata thus short circuiting the air; or some movement in the strata had liberated a considerable feeder of gas in the north entry. I think that this gas came from the face of the north entry as was shown by the fact that the side entrance were clear of gas while the north entry remained full a considerable distance back from the face of the mine."

"The law states that in any place where there is any work approaching a stoppage, there shall be an accumulation of gas no other lamp than a lock safety lamp may be used. I do not think the Parkdale mine would comply with this rule as usually there is very little gas given out in lignite mines."

The jury returned its verdict after being out only 15 minutes.

W. R. Martin, oil expert of the Canadian Northern Railway, arrived in the city yesterday to look into the question of commencing oil boring operations for the C.N.R. near Morinville. He has gone out to Morinville today and will go south on the C.P.R. tomorrow morning.

The Canadian Northern have for some time been considering the question of commencing oil boring operations near Morinville, and they have even gone so far as to purchase a 40,000 plant and bring it to the city ready for work at Morinville. It is understood, however, that they have experienced some difficulty in getting sufficient land. They tried to buy some land from the American-Canadian Oil Company that is conducting oil boring operations there, but failing in this they entered into negotiations with the C.P.R. for the purchase of some of their land in this district. This deal fell through also, and the plans of the company are tied up for the present.

The oil-boring operations of the American-Canadian Oil Company, near Morinville, are being carried forward throughout the winter. They have now reached a depth of 1,000 feet, and the promoters of the company state that they will go down 3,000 feet if necessary, for they are confident that they will strike oil.

The verdict was as follows:— The jury empanelled on the death of James Taylor, who was killed in the Parkdale mine, viewed the remains and find that the deceased came to his death by an explosion of gas in the Parkdale mine and do not attach blame to anyone connected with the management of the mine.

"We further recommend that the regulations covering the use of covered lamps in lignite mines be more strictly adhered to."

Chas. Hamilton, fire boss at the Parkdale mine, was immediately notified of the verdict in getting word of the explosion. He was immediately notified of the verdict in getting word of the explosion. He was immediately notified of the verdict in getting word of the explosion.

OPTION ON COLLEGE SITE.

(From Tuesday's Bulletin.)
The Board of Management of the Presbyterian College have secured an option on two acres of land on the west side of the property secured by the Provincial government as a site for the Alberta University, Strathcona. The property, if purchased, will be used for the erection of a Presbyterian College, which will be an affiliation with the University. The property is owned by John McFadden.

It is probable that nothing will be done in this matter before the end of April. On the last Wednesday in April, the Synod of Alberta will meet in the Alberta University Strathcona. The property, if purchased, will be used for the erection of a Presbyterian College, which will be an affiliation with the University. The property is owned by John McFadden.
