**DETROIT, NOV. 7.**—The work of recovering the bodies of the victims of the Journal boiler explosion continued all day today. Up to 6 o'clock this morning 32 bodies had been taken out of the ruins, nearly all of them frightfully mangled and in various stages of decomposition.

As the workers got in to that portion of the debris into which fire had not crept the condition of the corpses recovered was found to be better. Many had come to the victims of the disaster so suddenly that many of them were found in the very attitudes in which they were at the moment of the explosion. Fourteen bodies were taken out of the ruins between 6 o'clock this morning and 6 o'clock this evening, making 32 so far found.

**The Identified Corpses.**  
The bodies found today were identified as follows:

Jennie Noubar, Catharine Hillier, Bertha Weidusch, Katie Leonard, John Kischer, Rosa Morgan, John Brabant, Ernest Parkins, Emma Lichtenscher, Wiedusch, Rosa Bretz, John Francis Derby, Lou Fritz and Joseph Bradley.

Up to 6 o'clock every body taken from the ruins had been positively identified. It was that of Kate Hillier, the 24th recovered, which was recognized by the proprietor of the book bindery in which so many of the dead were worked.

About 4 o'clock the body of a young boy edged his way into the morgue past the guards and when his eyes fell on the charred remains of the Journal he declared it to be his sister. His father was sent for and made the identification.

**A Ghastly Find.**  
At 3 o'clock the ghastliest find of the day was made. It was the trunk of a woman. The body was bloody and the arms and feet were burned off. The head was seen at some distance from the trunk, severed by a falling timber. Fred Weidusch looked at the clothing and declared the body was that of one of two daughters of a Mrs. Johnson and Derby, the carpenter, who were caught while making some alterations in the building by the force of their death grasp the hand ax with which he had been working when the accident occurred. Mrs. Johnson's name is given as Elizabeth Taylor.

**Three Bodies Together.**  
An hour afterwards three bodies were found together under the debris in the attic of the Journal building. There were two men and a girl in the group. The woman's head was severed from her body, and she was Lou Fritz, apprentice in the machine shop of the Rogers and Derby building. The man's hand she still held the small instrument with which she was working.

**Another Body Identified.**  
About 6 o'clock the body of George Hillier, who operated the book bindery, was recognized by the proprietor of the building. His body was found immediately, his body being in a good state of preservation. Death had come from the explosion.

**Low Water the Cause.**  
The cause of the fatality was developed today when a piece of one of the boiler's rivets was found by the wreckers. The boiler had been torn into the middle tubes, rivets and plate rivets, and a piece of the boiler had evidently been driven into each direction by the force of the explosion. The portion found disclosed the expert engineers who examined it once that the cause of the explosion was low water.

**BOX FACTORY BURNED.**  
Midland, Ont., Nov. 7.—The Georgian Bay box factory here, one of the largest in Ontario, was burned last night. The cause of the fire was unknown. About 20 hands were employed.

took a car to the warehouse. When he reached there he found Fox and one of the twins waiting for him. Fox showed him to the cellar where he saw Wells' body lying. They met the witness at the door, and he went to the witness in trying to lift the weight off Wells' head he tore his hands.

What the Witness Saw. In describing the position of the body, witness said it was lying to the south east of the elevator shaft. The head was lying about 2 feet from the nearest point of the elevator shaft, with the feet extending southeast. The weight was lying up on the east side of the weight shaft. The basement was so dark, the witness was obliged to wait for a few moments before he could distinguish objects distinctly. He saw no buffer block around the body. The body was lying on the left side of the face down and the right side up. The left hand was lying on the floor and the right hand on the wall. There were no gloves on the hands and no glasses or spectacles on the face.

Witness waited until Coroner Atkins arrived. He had been there about 20 minutes when the witness arrived. One of the prisoners told the witness that the weight had fallen and killed Wells. He said the witness was the same as the witness in the trial. The witness had no recollection of the testimony of the witness before the Police Magistrate. Mr. Oser told him that he said he "decidedly objected" to the course pursued by Mr. Oser in this matter. A witness followed, with the ruling of His Lordship in favor of the Crown counsel. Continuing, Mr. Oser had to direct about the witness to the witness that one of the weight came off the hook and fell on the head of the witness. Wells did not know what struck him. He then tried the east door and found it locked. He was turning to go away when Harry Hyams came from the east door and called him back. Wells was inside, and noticed H. Hyams' hands had some blood on them. Witness asked what was the matter. Hyams answered: "We have had an awful accident and Willie Wells is dead." Witness asked how it happened. Hyams answered: "We were doing something on the elevator. It broke loose and killed Willie. Witness started for the basement to see himself and Hyams called him to go until the coroner came. Hyams was the witness that Dr. King had seen in the cellar with the body lying on the floor with the back uppermost. It was lying in the middle of the room, about two feet from the foot of the shaft. The legs extended towards the right side of the face turned slightly upwards. The feet were lying straight. The clothes were in a natural position, not disarranged. Brain matter exuding from the head. The witness did not notice any on the floor. There was a pool of blood about the body. Witness did not notice any anywhere else. The body was prepared for burial, and afterwards interred at Ossington cemetery. The witness questioned the witness as to the examining of the body, with a view to proving that the witness was the man who was that of Wells. To save time Messrs. Johnson and Lount admitted the fact.

Condition of the Body. In speaking of the condition of the body, the witness said that apart from the neck and head there was not a bruise or break. Witness asked with Dr. King that the head was of a conical shape, but stated that the apex of the cone was to the face, and the witness said that the skull. There was a break over the right eye, large enough to admit the point of a pencil. The left eye was not visible, having been driven in. The left eye was protruding as a result of the pressure of the weight. The top of the head was split down the centre and across. The legs were lying out almost in a straight line. The clothes were in a natural position, not disarranged. Brain matter exuding from the head. The witness did not notice any on the floor. There was a pool of blood about the body. Witness did not notice any anywhere else. The body was prepared for burial, and afterwards interred at Ossington cemetery. The witness questioned the witness as to the examining of the body, with a view to proving that the witness was the man who was that of Wells. To save time Messrs. Johnson and Lount admitted the fact.

Mr. Oser then asked the witness if he remembered receiving a message from the prisoners just before the appearance of the article in The World a few days later led to the arrest of the prisoners. Expressing Fox delivered the message to the witness. Mr. Oser requested Mr. Humphrey now to repeat the words of the witness, which at the last trial were shown to be "Dallas says to keep your mouth shut."

Cross-Examination. Questioned by Mr. Johnston, witness testified that he had seen the Hyamses in the fatal cellar when the body first was taken up to the shaft. When the matter was reopened in the columns of The World in January, 1895, witness did not recall the fact. At this point Mr. Johnston commenced to pick facts from witness' testimony as compared with the statements at the former trial, wherein witness appeared to determine just how it was that he had seen the Hyamses in the fatal cellar when the body first was taken up to the shaft. The witness testified that he had seen the Hyamses in the fatal cellar when the body first was taken up to the shaft. LADY SCHOOL PRINCIPALS.

Dr. Gullen called to the support of her sex at last night's meeting of the Public School Board. The question of male vs. female teachers came up through the recommendation by the management committee. That honorably whenever a vacancy shall occur in the principalship of any of our schools containing eight or more class rooms, the same shall be filled by male teachers holding a first-class certificate and having at least five years' experience in teaching up to the grade of the school.

Dr. Gullen considered the resolution a message from the dark ages. Sex distinctions nowadays, she said, were in the extreme. She contended that women were perfectly competent to hold principalships. She moved that the word "male" be struck out of the resolution. Dr. Gullen vigorously opposed her, but Dr. Noble carried in committee of the whole.

Later when the report came up, Dr. Gullen moved the motion to amend the resolution to read "male or female." Dr. Gullen's sex was again triumphant. The motion was carried by a majority of 12 to 7. Dr. Gullen's sex was again triumphant. The motion was carried by a majority of 12 to 7.

Major Gordon's Promotion. Major Gordon returned to town yesterday afternoon. He did not authorize the statement published in The World, that the department had no more right, without consent of the qualified officers of the regiment, to bring in a gentleman not in the command ranks, over the heads of all the officers of the regiment, than he had to make any other "Toronto" man in the command. Major Gordon was not responsible for the alleged utterances of other trustees. The clause was removed. Major Gordon was not responsible for the alleged utterances of other trustees. The Way We Sell Shoes

is remarkable enough to be told about and repeatedly emphasized. There are lots of stores with handsomer appointments, and lots of them swinging more style, but when it comes to downright good shoes at downright low prices we lead the trade.

- New Styles in Shoes at \$1.50
New Styles in Shoes at \$2.00
New Styles in Shoes at \$2.50
New Styles in Shoes at \$3.00

All regular goods at regular prices. Small quantities of bargain shoes we never advertise. Broken lots go on to the bargain tables in the shoe section and are gobbled up in a hurry.

Solid Shots of Fact

are upsetting traditional notions in regard to ready-made clothing. Gentlemen are getting to comprehend our interest in the business. Never before have Suits and Overcoats been as well made for the money.

- Youths' Long Pant Suits, in Navy Blue and Black Serge, all sizes, from 32 in. to 35 in. breast measure, regular price \$6.50 to \$8.00, special..... \$3 95

THE MONTREAL AND OTTAWA RIVER CANAL

A glance at the map of Ontario discloses the fact that by far the shortest waterway from the upper lakes to Montreal lies by way of French River, The Montreal, Ottawa and Georgian Bay Canal far outclasses the proposed Georgian Bay Ship Canal as a saver of time and distance. The Montreal and Ottawa River, when the cheapening in transportation which the opening of this waterway would bring about, will be a matter of doubt at that time which of the two routes would be chosen.

Robert Mantell, the famous actor, who will appear at the Princess Theatre next week, opened yesterday morning a new and very attractive feature in his repertoire in a play entitled "The Marble Heart," a play always popular with the ladies. Wednesday evening play will be the ever familiar "Corsican Brothers" will be produced, with all scenery, etc., and on Monday next evening, "The Husband," and written by Esy Williams, the author of "The Queen's Garden" and "The Lioness" will be given on Monday and Tuesday nights and at the matinee Saturday. The production of "The Marble Heart" will be made during the week.

John Griffith, one of the youngest and best actors ever before the public, returned to Toronto Opera House next Monday for a week's engagement. His Henry Irving's dramatic version of "The Merchant of Venice" was seen here for the first time last season, and at once leaped into popular favor. He is accompanied by a number of other players, including the original Mephisto in his strikingly original production of "Faust," and other notable plays.

The Rev. W. H. Aitkin, an eminent evangelist who for twenty-five years past has been preaching up and down all England, is at present on a visit to Montreal. Last night he accepted an invitation of the Citizens' League to take a stroll through the city with a view of learning to what extent the license law is obeyed and also to ascertain how far the regulations regarding those who live in the lower portions of the city. The reverend evangelist stated that the result of his visit was very gratifying, as the state of the city contrasted most favorably with what he had seen in cities of similar size in the Old Country. During the recent street car campaign, Montreal was noted for its excellent example which Toronto should imitate. It was represented that in the city of Montreal drunkenness prevailed to a fearful extent on Sunday and that disturbance and disorder were the result of allowing the street cars to operate on that day.

"Sack Runaway." The sale of "Sack Runaway," the Thanksgiving week attraction at the Toronto Opera House, will be no deviation from the regular popular prices of the theatre during this engagement.

Miss Robinson's Reappearance. A subscribers' list for the Robinson-Marciniak concert, which will be given in the Massey Music Hall on the 26th inst. (Tuesday), will be opened on Monday morning at 10 o'clock. Full particulars are given in the advertising columns of this issue.

Miss Isidor Klein Nov. 14. Mme Isidor Klein, who sings in Massey Music Hall, is about to give a striking instance of what patience and perseverance, under proper guidance, will achieve. About three years ago she visited New York city, and consulted the most prominent vocal teachers. Herellected instructor, a very rigorous course of study, one whole year being devoted to the acquisition of a pure and liquid sustenance throughout the entire compass of the voice.

STREET RAILWAY RECEIPTS. A decline of \$3000 in the Street Railway receipts for the month of October, as compared with the same month last year, clearly proves that the bicycle craze is destined to become a serious competitor in street railway traffic. The receipts for the year will be ahead of 1894, but the company may thank their enterprise in developing the travel to the parks, their moonlight excursions and other devices for creating trade. As for the regular daily use of the cars by citizens in the course of business, there has been considerable falling off this year. The only thing that accounts for this unexpected decrease in the company's receipts is the growing popularity of the bicycle. Between the bicycle, which is already very much in evidence, and the horseless carriages, which will soon make its debut, the street railway will have to cultivate and create traffic in order to hold its own.

Under the Auspices of the Viavi Company. In Confederation Life building (west entrance) to-night, presented by M. A. Baughman, will lecture to women. Subject: "Woman's Physical Development." This lecture is repeated by request.

A Warning to Farm Pupils. London, Nov. 7.—Sir Charles Tupper, Canadian High Commissioner, is conferring with the Government and the shipping companies with a view to the inducements offered to farm pupils by promoters in the colonies. Sir Charles is endeavoring to put a stop to the system of giving premiums for farm pupils. A warning to prospective pupils will be issued through the press, and more definite action will be taken afterwards.

A RIPPLE AT A RAFFLE.

Hamilton, Nov. 7.—About 10 o'clock this evening the visit of Sergeant Pinch and P.C. Stewart to W. P. Propper's saloon, where a raffle for a trotting horse was in progress, created a mild sensation. There were about a hundred men in the saloon and about 50 were engaged in the raffle when the police entered. The names of the whole lot were taken. Hamilton, they will all have to appear in the Police Court. Several well-known men were present and caught in the act of throwing dice.

School Debentures Sold. At the finance committee this evening the matter of giving the Salvation Army a grant was laid over for further consideration. A motion in opposition to the grant was presented by Mr. Williams, William Smith and A. E. C. Hazel, labor leader. Mr. Propper of Toronto and Evangelist Mackenzie, spoke strongly against the grant. The \$50,000 issue of school debentures, and the fact of their sale at 102-1/2 netting \$51,157.50, was recommended. It was \$750 higher than the offer of Oster and Hammond of Toronto. This is the highest price Hamilton has ever received for debentures.

Lord's Day Alliance. The annual meeting of the Hamilton branch of the Lord's Day Alliance was held this evening. An address was given by Principal George W. P. MacKenzie, in which he vigorously denounced the running of Sunday cars, maintaining the sanctity of the Sabbath. The following officers were elected: W. J. Waugh, president; James Barron, vice-president; W. J. Copp and Aid. Morris, vice-presidents; M. Turnbull, sec.; Geo. H. Mills, treasurer.

New Detective Appointed. The Police Commissioners met this afternoon and appointed David Coulter as a detective. He joined the police in 1878, has been patrol driver for over 10 years, and is one of the finest patrol men on the force. The other applicants were: James Harris, Henry Fick, T. J. Watson, James Barron, and J. W. Bleakley.

Truman Acquired. At the Police Court this morning Arthur Truman was charged with stealing a gold watch and pin from Rose Hutchinson yesterday morning. Truman was released on his own recognizance to appear at 3 o'clock on Monday. The woman got on the train at the Falls, and coming to the city, struck up an acquaintance with the witness, a Cleveland traveler, and he introduced her to Truman.

British Emigrants for Canada. Over 21,000 Have Left England for This Country in Ten Months. London, Nov. 7.—The number of emigrants to the Dominion of Canada during the month of October, according to the official returns, was 1763. The number emigrating to Canada during the 10 months ended October 31st, was 21,515.

Princess Maude's Entrance in London. London, Nov. 7.—Prince Charles of Denmark, who is betrothed to Princess Maude of Wales, arrived in the Thames on the Danish cruiser Eger this morning and came ashore. It is his intention to visit the Danish West Indies before returning to Copenhagen.

COMMERCIAL NEWS.

The local security market is featureless, dealings yesterday being the smallest for some time. London and Canadian Loan seems to be held around 108. Money is abundant and rates unchanged.

The demand for New York funds here is more urgent than for some time, and rates advanced to a small premium between banks yesterday.

Following are the rates of discount at the principal foreign financial centres: London 1 per cent; Berlin 5-8 per cent; Paris 2 per cent; Antwerp 2 per cent; Amsterdam 2 per cent.

There is an active demand for both hay and straw in this province, and prices yesterday showed a considerable advance. Dealers in baled hay asked \$14.75 on track for No. 1, with \$14.50 bid. Straw sold outside at \$8.00 or equal to \$7.25 Toronto. Bundled hay sold on the St. Lawrence Market at \$12 a ton.

The wheat market at Chicago continues very heavy, with closing prices yesterday the lowest for some time back. Receipts of wheat in the west are enormous, and the flour output shows a large increase. Cables from Liverpool and Paris are lower.

We do not see that any essential change has occurred either at home or abroad to justify expectation of a sustained recovery of values on Wall-street. Of course the gradual weeding out of weakly margined holdings is improving the speculative position, and temporary relief may come from a quieting down of foreign war "scare" or from influences which tend to postpone the settlement of our debt to Europe in gold.

The MM. Boyd Lumber Co. of Bobcaygeon have purchased the lumber mill and valuable timber limits connected therewith at Coysham, B.C., says The Victoria Daily Times. The price paid is said to be between \$100,000 and \$150,000, for which the Boyd Company are to get the mill erected a few years ago by Messrs. Huggitt & McIntyre. The property is in excellent order and capable of turning out 125,000 feet of lumber daily. The machinery is all new and in excellent condition. Adjacent to the mill are 400 acres of timber limits and eighty million feet of logs in boom and ready for sawing.

Mr. Boyd has already been interested in British Columbia lumbering industries, having, some two years ago, purchased the Morris timber limits on the Nisinas River, containing some 10,000 acres. These limits, or a part of them, he sold to the Dominion mill, which he built in the vicinity. Messrs. Boyd shows Mr. Williams, Gidley, Gidley, & Bobcaygeon, who will serve in the capacity of manager.

On the peddler and grocer who tell you "this is as good as," or "the same as" Pearlina. IT'S FALSE! besides, Pearlina is never peddled. JAMES EYLE, New York.

The Key to Success in washing and cleaning is Pearlina. By doing away with the rubbing, it opens the way to easy work; with Pearlina, a weekly wash can be done by a weakly woman. It shuts out possible harm and danger; all things washed with Pearlina last longer than if washed with soap. Everything is done better with it. These form but a small part of the —Why women use millions upon millions of packages of Pearlina every year. Let Pearlina do its best and there is no fear of "dirt doing its worst."

The Property Committee settle a few Important Questions... The Property Committee of the City Council devoted itself to a further consideration of some of the disputed Island lands yesterday... Mr. Frank Rolph wrote making application for a lease of a portion of the Alkins lot at the corner of Hamilton-avenue and the lake front... Mr. Charles Heber and a friend appeared before the committee and offered, on condition of being allowed to retain his lot with the building on it, to turn over all his vacant land... Mr. W. J. Woods also addressed the committee with the request that he be allowed to retain the lease of lot 7, and said that the improvements on it had been his hobby, and that the houses that he had erected on the land had been an ornament to the Island... The Island Policy maintained... Chairman Dunn pointed out that the policy which had been decided on was to lease no more than 100 or 150 feet to one person; in only one instance had this policy been broken, and that in connection with the Clarkson property... Mr. Wood's request was granted... The Esplanade and the Walker House... Ald. Saunders moved that a sub-committee be appointed consisting of Mr. Sheppard, Burns, Scott,

Dunn and Oliver, with the City Commissioner and Surveyor, to arrange for the leasing of the balance of lot C on the Esplanade for a manufactory and lot E for wharf, steamboat and shipping purposes... Mr. David Walker renewed his petition that the rental valuation of the Walker House property be reduced from \$25 per foot... Mr. Walker renewed his plea that traffic down York-street from Front-street to the water side had ceased and drew attention to the fact that Ald. Saunders had put in a motion with reference to the lack of steamboat traffic on lot E at the foot of York-street... Mr. Defoe presented the same arguments... In the discussion which ensued it was brought out that Mr. Walker is paying Mr. James Smith the lessee of the building a little over \$8500 per annum for the land and building... Mr. Smith, the middleman and owner of the building, receives \$6000 for his investment... Mr. Walker pays the taxes... Mr. Defoe presented the same arguments... It was decided that those pedlars who have been fined in the Police Court for peddling without a license should be granted licenses on condition of paying the difference between the fine imposed and the sum total of the license fee and costs of prosecution... A New Electric Motor... The advantages attendant upon the introduction of electricity as a motor power have been brought home to manufacturers by a study of the benefits derived therefrom, their interest is daily increasing... Mr. R. Schofield, the inventor, says this motor can be built cheaper, and can be applied direct to any machine, line shaft or countershaft, without the very objectionable belt and pulley gearing necessary with all high-speed motors... Strikers Starved Out... Rochester, N.Y., Nov. 7.—The strike of the Rochester garment workers is practically over, and many of the men have returned to work, without obtaining any concessions from the contractors... The union could no longer support the large number of men out, and the employees were forced to go back or starve.

THE JOHN EATON CO. LTD Temperance and Yonge-streets. SPECIAL: As far as possible keep to the right in the crowds. Have a little patience in the delivery of parcels. The bread and meats will be distributed from the Temperance-street entrance only—at 8 o'clock to-night. to-day The air is filled with the thoughts of harvest. We have invited you to come and show us your appreciation of our efforts. We have, since starting (some months), tried hard to please all. In some places, perhaps, we've failed; but in the majority have we not done well? Honestly, haven't we surpassed anything you even could have thought of? Though last in the race to start, have we not, one by one, got paces ahead—and to-day take a hot second in this great Dominion? Yes; no one can doubt but that we're gaining rapidly. We try to do more than mere dry goods selling. We've brought down the prices of meats. We've sold groceries cheaper than anyone else. We started a hair-dressing parlor, and did best work at honest prices. We're going to start a dentist shop and fix your teeth at reasonable prices. We're starting a photograph store, and will give you best work at half photograph store prices. We're giving you a "Harvest Home" to-day. To-morrow—all next week—we want you to come and look—nobody will ask you to buy. If they do they are disobeying the rules, and you should report them at Transfer Office. To-day as many as can get in are coming. To-night they're coming to the prom-

ade concert by the Grenadiers' Band. To-morrow there'll be great crowds—and we look for sales that'll be wonderful—but all this great business doing is but "The John Eaton way." ## BREWERS AND DISTILLERS.

The Court of Appeal to decide whether the Province has power to collect

Three questions of great importance submitted by the Lieutenant-Governor in Council to the Court of Appeal, under ch. 12 of 1875 (O.), in re Brewers and Distillers' Licenses were then argued. The following are the questions:

First—Is sub-section 2 of section 51 of the Liquor License Act, R.S.O. ch. 184, requiring every brewer, distiller or other person duly licensed by the Government of Canada as mentioned in sub-section 1, to first obtain a license under the act to sell by wholesale the liquor manufactured by him, when sold for consumption within the province, a valid enactment?

Second—Has the Legislature of Ontario power, either in order to raise a revenue for provincial purposes, or for any other object within provincial jurisdiction, to require brewers, distillers and other persons licensed by the Government of Canada for the manufacture and sale of fermented, spirituous or other liquors, to take out licenses to sell liquor manufactured by them, and to pay a license therefor?

Third—If so, must one and the same fee be exacted from all such brewers, distillers, and persons?

Justice Gauthier, J.C. in re Brewer and Distillers' Licenses has given judgment in favour of the Province. Mr. Justice Falconbridge has given judgment in favour of the appellants.

In single Court, before Street, J., in May v. Drummond, J.C. a defendant, who had not delivered any defence, but who, in a preliminary motion, moved for judgment for recovery of possession of certain land in Milton. No one appeared in support of the plaintiff, and judgment was given in favour of the plaintiff.

At a matter of fact, examinations and "local treatment" should not be submitted to till everything else has failed. Nine times in ten, they are wholly unnecessary. Women are cured before these obnoxious methods can be put in practice.

For over 30 years, Dr. Pierce's Favorite Prescription has been successfully prescribed for all derangements of the womanly organism. It is remarkable for its effect on the whole system.

It makes the blood pure, makes digestion better, helps stomach, kidneys and bowels and is wonderful in its effects on the generative organs.

All suffering women should send for the 48 page book "Woman and Her Diseases" by Dr. J. C. McMurtry, H. Campbell and G. H. M. Pollett, at 25¢ per copy. It contains the full particulars of the disease whereby the owners of the company's business and the management thereof for three years past.

and wilyly, maliciously and wrongfully stirring up strife among co-operators and inducing them to break their contract with the plaintiff. On the 8th and 18th April, 1895, he says some of the co-operators, being incited thereto by defendants, Macrae and Hill, wrongfully expelled him from the premises on which the defendant, Huddleston, Alkin and Hill, had a lease. He claims damages for the loss of his business and for the expenses incurred by him in carrying on the same since that date. He also claims for the loss of his business and for the expenses incurred by him in carrying on the same since that date.

The defendant company say that plaintiff and co-operators made default in carrying out their agreement, thereby wrongfully inducing them to break their contract with the plaintiff. They also allege that plaintiff fraudulently attempted to sell part of the business, known as the Daily Service and it was therefore absolutely necessary to take possession of the same.
