Special knowledge, the most skilled workmen, the finest quality of stock, are all employed in your service when work is placed in our hands. A simple Visiting Card or the most elaborate Wedding Invitation receive equal thought and care.

There is just one other important thing—that's price—and you will find this as good a reason as any for giving the work to us.

PREFACE

IN presenting this, the 1902 edition of TYRRELL'S SOCIETY BLUE BOOK, to our numerous patrons, we are confident of their approval. No comment is necessary to call attention to the superiority of this over previous publications. The list has been thoroughly revised and corrected and features most appropriately published in a social register have been included, so that in its present form it excels any book of its kind. Each successive edition will show a marked improvement and it is our intention to have the entries conform to that which properly constitutes a Blue Book. Errors and omissions are certain to occur, but with the co-operation we are now receiving, these will be reduced to a minimum.

We thank those who have so kindly furnished us with the information contained in these pages.

EXPLANATION

TO avoid increasing the size of this book beyond the limits of a handy directory for ladies use, and at the same time include all information desirable and valuable in a Blue Book, necessitates the use of a system of abbreviations, to which some slight explanation may be necessary.

The figures in parentheses represent the clubs to which the party belongs, the index to which will be found in the beginning of this book.

Mrs., *nee* Jones, signifies that the maiden surname of the lady is Jones.

The telephone number is readily distinguished by its prefix - Tel.

The receiving day is given where such a day is fixed.

Other members of the family, if of the same name, are added in small type. If of a different surname, they are alphabetically arranged without reference to their relationship.

NOTE.—You are requested to make a careful examination of this book and immediately communicate all errors of whatever nature you may find, so that the correctness of future editions may be secured. Please send any information you may gather that will aid in keeping the records correct, to

OFFICE HOURS: 9 to 5

The highest technical and artistic
excellence in . . .

Spectacles and Eye-Glasses

We are now making up, day by day, singularly beautiful glasses in spectacles and pince-nez—high grade in quality—accurate in lenses—exquisite in design—comfortable in fit—and in models, as far as possible, appropriate to the faces of the prospective wearers.

And for prescription glasses, we do not, as in the past, send to New York and other cities for special lenses, involving tedious delays; the surface grinding machinery now installed in our shop produces these day by day on short notice, with much satisfaction to ourselves and customers.

We respectfully solicit your prescription and other orders; our workers, technical knowledge and admirable facilities generally, being at your service.

Dress Making and Designing

The advantages of this store as regards dress making will appeal especially to women who love to express individuality in their gowns. Expert modistes trained by experience in the designing of costumes and the harmonizing of fabrics, take your own idea about your dress, and adapt it perfectly to the mode as dictated by Paris and New York.

We keep, moreover, closely in touch with the fashion centres of the world, our head designers visiting the great cities from where styles originate, every season.

Our Dress Making Department, in short, is second to none in the Dominion. And when you consider that you can select the materials from our own Silk and Dress Goods Departments, arranging every detail under the one roof, taking advantage from first to last of the economies afforded by this great department store—you will realize the service this department extends to you.
