To Our Clients

THE Publishers wish to gratefully acknowledge the assistance they have received from various Departments of the Government and the representatives in Canada of Foreign Governments. They wish especially to mention and thank the Department of Trade and Commerce, the Consul-General for Belgium at Ottawa, the Consul-General of the French Republic at Montreal, and the Consul-General for the Argentine Republic at Ottawa. The British Chamber of Commerce for Italy also very kindly allowed us to use their list of members.

Special attention is called to the extracts from letters received from recipients of the First Series of "British Industries," as these contain, in many instances, not only valuable information, but also requests that Canadian manufacturers desiring representation abroad communicate direct with the writers. The names and addresses of any such firms, together with any information we may have regarding them, will be cheerfully furnished to any of our clients on request.

The Consuls, Trade Commissioners and others to whom the publication was sent were requested to have a notice inserted in the press of the district stating where copies might be seen. Many papers in various parts of the world were kind enough to review our publication at some length and on another page we give a few extracts from clippings received.

By advising us of any firms who write to them for particulars, our clients would assist us to confine our mailing lists to those who would be interested in the publication.

ATLAS RECORD CO. LIMITED

IN REPLY PLEASE QUOTE

LJH/T.

New South Wales Government,
Immigration & Publicity Bureau,
Australia House,
Strand, London, W.C.2

24th July, 1919.

Dear Sirs,

I am in receipt of your extraordinarily fine
publication entitled "British Industries" and the only regret
I have is that each Dominion and Section of the British Empire
is not capable of producing a similar publication.

Will you please accept my appreciation for the copy
and my congratulation for the manner in which it has been pre-
duced.

Yours faithfully,

Trade Commissioner for New South Wales.

THE CANADIAN TRADE COMMISSION
OTTAWA

June 20, 1919.

Dear Sirs,-

I have been very much interested in examining your trade index entitled, "British Industries", which gives a list of manufacturers of various products in Canada.

In connection with the work of the Canadian Mission in London, which organization is created for the purpose of developing Canadian Export Trade, your publication will be of very great value.

The idea you have carried out in having the description of the various articles advertised published in three different languages will make the publication of very great practical use to Purchasers and Consumers in various countries.

I wish to congratulate you upon the enterprise shown by you.

Yours very truly,

Chairman, Canadian Mission in London.

H/EL.

Commercial Intelligence Service

Canadian Trade Commissioners and Commercial Agents should be kept well supplied with catalogues, price lists, discount rates, etc., and the names and addresses of trade representatives by Canadian exporters. Catalogues should state whether prices are at factory point, f.o.b. at point of shipment, or which is preferable, c.i.f. at foreign port.

The purpose of the Commercial Intelligence Service is to promote the sale of Canadian products abroad and to provide Canadian Manufacturers and exporters with information regarding trade conditions and opportunities in countries in which Canadian goods are likely to find a market.

The Department gathers, compiles and publishes in the Weekly Bulletin and supplements thereto a large volume of useful commercial information. Persons desiring it and interested in Canadian production or export may have their names placed on the regular mailing list on application to the Department of Trade and Commerce, Ottawa.

The Department invites correspondence from Canadian manufacturers and exporters upon all trade matters.

CANADIAN TRADE COMMISSIONERS

Argentine Republic

B. S. WEBB, Canadian Government Trade Commissioner, Reconquista No. 46, Buenos Aires. *Cable Address, Canadian.*

Australia

D. H. ROSS, Canadian Government Trade Commissioner. Address for letters—Box 140, G.P.O., Melbourne; office: Stock Exchange Building, Melbourne. *Cable Address, Canadian.*

Brazil

CANADIAN HIGH COMMISSIONER'S OFFICE

United Kingdom

W. L. GRIFFITH, Secretary, 19 Victoria Street, London, S.W., England.
Cable Address, Dominion, London.

**Valuable Suggestions from
The Acting Canadian Trade Commissioner,
Bridgetown, Barbados, B.W.I.**

Space does not permit of the publication of the full letter, but the essential parts are given below.

" . . . I consider the publication a very creditable production. Special attention appears to have been given to the illustrations, which is one of the principal features. The index of firms and also of their various products makes it of easy reference. The compilation of such a large number of trade announcements in book form is a distinct advantage, even to those Trade Commissioners and Consuls who receive from time to time catalogues from individual firms, and to those who do not receive them, the Directory is of great value. Its chief merit lies in the fact that it is published in the three principal foreign languages. . . .

" . . . it would be well if greater attention were given by some of the firms to the clerical work, as I am informed that it sometimes happens that invoices are forwarded without the Bill of Lading, and vice-versa, which causes delay in obtaining the goods. I have heard it frequently stated that West Indian firms invariably obtain shipments of Canadian goods through New York commission houses with far greater promptness than they can get them from Canadian shipping points. It is also very necessary when giving quotations to let them be f.o.b., or better yet, c.i.f., whenever the latter is possible.

"Another point which calls for comment is that Canadian firms frequently give quotations for car-load lots, and in the majority of cases, West Indian merchants have no knowledge of what this means; it is therefore necessary when giving such quotations, to give some idea of the quantity thereby implied. It is hardly necessary to add that, whenever possible, samples should be sent when soliciting business, as it very often happens that catalogues alone are not sufficient for buyers to go by."

An English Firm in Calcutta writes

"The first remark we feel inclined to make is to express our surprise to find that Canada manufactures such a large variety of goods of general utility. We think we are right in saying that Canadian goods are not well known here, and arrangements should be made, we think, for the people of this country to become well acquainted with them."

Translation from a Letter Received from Lyons, France

"I cannot compliment you too highly on the intelligent manner in which this book has been compiled; the translations into French, Spanish and Russian are a great aid, and there is no doubt you will succeed in giving an unprecedented stimulus to Canadian industry."

From the Rangoon Office of a Glasgow Firm

"We are much impressed with the energy of purpose which the compilation of such a comprehensive volume evinces and wish your Canadian clients every success."

The Secretary-General of the British Chamber of Commerce for Italy, writes as follows

"Your very splendid publication, 'British Industries,' has been received by this Chamber of Commerce and has been already perused by many Italian merchants and agents who are greatly interested in Canada and Canadian products. . . . I have no doubt that your magnificent production will powerfully aid us in our effort to extend British trade connections in this part of Europe. Kindly advise me if I can be of service to you in your future work."

The Chief Canadian Government Trade Commissioner in London, writes

"The publication contains more elaborate details about the business of the enterprises included than is possible in a publication like the . . . and the additional information will be useful to an office like this, so we have pleasure in adding 'British Industries' to our file."

A Firm in Melbourne, Australia, writes

So impressed were we with the possibilities of Canada as a country whose export business can be readily developed, that ideas we have had for some time have taken definite shape and we have decided to enter the field as Manufacturers' Representatives, selling Canadian manufactures only.

Our first decision was to seek English and United States agencies, but your volume changed our ideas, with the result stated. Our knowledge of Canadian goods already on this market causes us firmly to believe that Canadian productions are the equal, and possibly in many instances superior, to the manufactures of the United States, and it is with this belief we are launching out.

We desire to get in touch with any Canadian Manufacturers who seek extension of overseas business, and we can handle any lines other than Steam, Hydraulic or Electrical Machinery. Of special interest would be Builders' and Domestic Hardware, Tools, Sheet Iron, Paper, Compressed and Vulcanized Fibre, Calcium Carbide, Clocks, Oils, Colors, Paints and Varnishes, Cotton and Woollen goods, Hosiery, Neckwear, Canned Foods, Dried Fish, etc.

(The name and address of the above firm will be supplied by the Publishers to any clients interested)

**Merchant in Malta Wishing to Form Connections
With Canadian Firms**

(Name and address on request)

"We have been established for many years as Manufacturers' and Export Houses' selling agents on a commission basis. We are conversant with the general Malta import and export trade and we place our 46 years personal experience as principals at the disposal of any house desiring our services."

Consulate of Belgium
at Boston

Boston, June 17th 1919.

Atlas Record Co. Limited

Ottawa, Ontario.
Canada.

Dear Sirs

You are very kind and very courteous to send me a copy of "British Industries." I thank you most heartily. It assuredly is invaluable to me and it is precisely what every Consul ought to have. Having been Consul of Belgium at this City for the past twenty-five years and in receipt of countless circulars and catalogues and trade Indexes published in many countries, I assure you that nothing could more effectively accomplish results than "British Industries."

I have the honor to be

Your obedient servant

E. Sumner Mansfield
Consul of Belgium.

From an Australian Buyer

"It is just the kind of book that we are glad to have on our shelves for reference from time to time We have already gone through the book, and as a result are writing to quite a number of houses in Canada for catalogues and prices."

Advice from a Large Merchant in Antwerp, Belgium

"If you could convince your manufacturers to send goods on consignment or to install their branches over here, with a stock of goods to supply on receipt of orders, the market would be theirs."

WOODWORKING MACHINERY IMPORTERS

Antwerp Engine Co.....
Minerva Automobile Factory.....

**Firm of Manufacturers' Representatives in British
Guiana Desiring to Form Connections with
Canadian Manufacturers**

(Name and address on request)

"As we are very much interested in representing Canadian manufacturers, we shall be very pleased if you will put us in touch with those manufacturers, who are desirous of opening up their export trade by appointing an agent in British and Dutch Guianas and the British West Indies. We have very good connections with the large wholesale buyers in the territories which we cover, especially in British Guiana, where we have our resident office, and are regularly in touch with them, which puts us in an excellent position to place the lines of any manufacturer in these markets to their entire satisfaction."

From Suva, Fiji, comes this encouraging letter

"We are more than pleased to receive this volume as it is the first one containing such abundant information that we have received from any part of the British Empire. We buy the greater percentage of our manufactured goods from Great Britain, but it is with the greatest difficulty that we get these manufacturers to assist us with catalogues and specifications. We think in this move you are going far to assist in getting quite a lot of the British trade which has been going to other countries."

**His Britannic Majesty's Consul-General
at Valparaiso, Chili, has a notice
inserted in the press**

"The volume will be kept available for consultations by enquiries at this office, and in a notice of it which has been sent for publication in the 'South Pacific Mail,' Valparaiso. Attention is called to the remarkable evidence which the volume embodies of the high position attained by Canada as an industrial and manufacturing country. The volume seems to be admirably designed for the purpose it is intended to meet."

**From the Secretary of the Canadian Mission in
London**

"I am sure that this book will be exceedingly useful in providing information to foreign buyers with respect to sources of supply for the most important classes of Canadian manufactured products. We wish you every success in the effort which you are making through this publication to assist Canada's export trade and we recognize the great care which you have taken and the ability which you have shown in producing this first volume."

**The British-Consul at Oporto Forwards us the
Following Letter Addressed to Himself, from
the Commercial Circle of Oporto**

"We beg to gratefully acknowledge the kind gift of a copy of 'British Industries.' It is in every respect a neat and interesting publication, which will be of great value in the reading room of this Association for the information of the members. May I ask you to have the goodness to convey our thanks to the Atlas Record Co., Limited, Ottawa, Canada."

**Cuban Merchant Desiring Representation of
Canadian Manufacturer**

(Name and address on application)

"As our business extends all through this Island, we would like to represent or become agents for some Canadian manufacturers in the line of Rubber Goods, Pharmaceutical and Chemical Products and several other articles of a kindred nature. We can give them any guarantee and for references we would refer you to the Banco Espanol de la Isla de Cuba, Belascoain Branch, or the Banco Comercial of this city (Havana)."

The Manager of a firm in Johannesburg writes as follows

"We have carefully gone through the book and would like to express our appreciation of your very excellent work. The book will have constant reference by us and wherever we can obtain Canadian goods you may be sure we will do our best to push the sale of these . . . There is no reason whatever why such an important Dominion as Canada should not get a larger portion of trade in this great and wonderful Sunny South Africa."

**Agent in Bogota, Columbia, Anxious to Represent
Canadian Firms**

(Name and address on request)

(Translation)

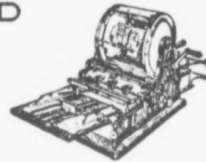

"As agent for foreign firms I wish to become acquainted with Canadian industries and if possible to get established relations with some export firms who wish to do business in this country." (References on application.)

OTTAWA, ONT. CANADA.

Gentlemen,

We thank you for the complimentary copy of
 "British Industries" which duly came to hand.

On the desk of the writer are half a dozen
 large Trade Directories, but yours appears to be the most
 interesting as it is got up attractively and the information
 is given in such a manner as to attract instant attention.

The word "British" has been used by manufacturers
 in England as if it referred particularly to their products,
 but it is interesting to know that it is equally applicable
 to the manufactures of Canada and Australia. The preference
 duty in Australia is in favor of "British" made goods, meaning
 apparently English made goods.

The title you have adopted is a very good one
 indeed and makes us feel we are dealing with our next of kin.
 We have asked a few of the manufacturers mentioned in your
 book for price-lists and quotations and if business eventuates
 you will deserve the thanks of all concerned.

Yours truly,

SS/MJ.

Canadian Government

War Purchasing Commission, Booth Building, Ottawa

Technical Agent in Bukarest, Roumania, Desires to Secure Representation of Canadian Firm

(Name and address on request)

"I am interested in technical products and machinery and I am willing to accept an agency for this branch of articles. For more than thirty years I have been working in the technical branch. For reference I can give you any one of the principal banks of this city. Kindly send draught of contract without delay."

The Crown Agents for the Colonies, in Acknowledging the Book,

state

"We are pleased to receive particulars of Canadian manufacturers and catalogues of their productions. As we have occasionally to purchase machinery, agricultural implements, etc., of Canadian manufacture such catalogues are particularly useful in this office."

The Collector of Customs and Officer in Charge of the Commercial Intelligence Branch of the Board of Trade of Malta, Offers Some Valuable Information to Canadian Firms

"The book, which is of great value to local buyers of Canadian-made goods, will be brought to the notice of the local Chamber of Commerce as well as of the leading firms interested in those goods. As regards the question of extending Canadian trade in Malta, I would point out that the primary requirements are:—

- (a) *Being prepared to adapt goods to local needs, in some cases.*
- (b) *Long credit—30 to 90 days.*
- (c) *Acceptance of even small orders.*

From Port of Spain, Trinidad, comes the following request

(Name and address on request)

"We will be glad if you will put us in touch with dealers in Heavy Canadian Oats, Bran, Stock Feed, Oilmeal, Sardines, Bloaters or Smoked Herrings, Pollards, Cube Sugar in cases of 50 pounds, Confectionery in bottles, Biscuits in barrels, Candles in cases of 25 pounds, Macaroni and Soap in cases of 50 pounds."

His Britannic Majesty's Acting Consul-General at Mexico City, writes

"In my opinion and in that of the British Trade Board, Mexico City, whom I have consulted on the subject, the compilation is a very valuable one. The Trade Board would like a copy for their reading room."

**A Patriotic British Firm in Belize, British Honduras
Writes**

"We are the largest importers in this Colony, and it has always been the aim of our Directors to keep as much of the business as possible within the bounds of the British Empire; so that your catalogue of manufacturers will be extremely useful."

**From a British Firm in Naples, Italy, Comes This
Friendly Note**

"We will keep your work at hand for reference and as a British firm do all in our power to promote and extend our trade."

A Firm in Lisbon, Portugal, writes

"We are writing to some firms which advertised in said publication and hope business will result."

A Firm in Lisbon, Portugal, writes:

"The idea of publishing the work in various languages is an excellent one, as British goods are heavily handicapped owing to the advertisements in connection with same being generally published in the English language only."

From The Weekly Telegraph, Port Elizabeth

"An idea of the wonderful range and extent of Canadian industries is to be gained from a valuable publication recently issued by the Atlas Record Co., of Ontario. A large-leafed bulky volume printed on high class paper, the whole of its 550 pages are composed exclusively of advertisements for various businesses of the Dominion; and having thus had brought home to one illustrations and particulars of some of the great factories and other concerns over there, one can better grasp how it was that that portion of the British Empire was able to afford in the war such vast help to the Motherland.

As showing the spirit of enterprise behind its publication, the book has been compiled in all the more generally spoken languages and sent gratuitously to all H.M. Consuls, Trade Commissioners, foreign buyers, and others, the object being, of course, to bring purchasers into closer relation with Canada's leading manufacturers. We all want to foster trade within the Empire and between the different parts of the Empire as much as possible, and there can be no doubt that such books as that under notice will prove a most potent means to that end. May it soon be that we can have one in regard to South African manufactures."

■

From Buluwayo Chronicle, Buluwayo, Rhodesia

"While Rhodesian importers are waiting for the British manufacturer to produce his goods at a somewhat lower cost, and to get them away with greater facility than is possible under present conditions in Great Britain, it might be well to call upon the local representative of the British Board of Trade (Rhodesian Customs Department, Municipal Buildings), and see rather a remarkable volume that he has just received from Canada. This is a large book of 550 pages, giving particulars of about that number of firms who are producing the leading lines of goods required for export. The variety is about as complete as the whole range of modern manufacture, and the achievements range in size from a big steamship down to a brace button. The work, a striking piece of printing and illustration, is produced in several languages for the convenience of traders all over the world, and the object is further to develop Canada's already extensive overseas trade. The volume not only gives information that will be valuable to commercial men, but should contain many hints for those who are rightly keen on the advancement of our own production."

From Barbadoes Standard, Bridgetown, B.W.I.

"We have been asked by the Acting Canadian Trade Commissioner to state that he has received from the Atlas Record Co., Ltd., of Ottawa, a copy of 'British Industries' which is a modern Directory of leading Canadian firms who desire to do an export business. It has been described as a 'Register in various languages of Canadian Firms and their Products.' The Directory contains both an alphabetical list of firms and also of their various products, which makes it very easy for reference. In addition to this, there is a trade announcement by each firm, setting out in detail the particulars of their line, and in the majority of cases the advertisements are illustrated, and special attention appears to have been given to this matter. On the whole, the publication is a very creditable production. The avowed object of the work is to bring Canadian manufacturers into closer touch with foreign buyers, and copies have been gratuitously supplied to all the Canadian Trade Commissioners and British Consul wherever stationed. Anyone who desires to get in touch with Canadian Firms through this means can do so by calling at the Trade Commissioner's Office, when the Directory will be at their disposal."

Messrs. Atlas Record Co. Ltd.,
Castle Building,
OTTAWA, Ont.

Dear Sirs:-

I beg to acknowledge with many thanks the receipt of one complimentary copy of "British Industries".

I have looked over this book carefully and can assure you that it will receive much attention in this office where people interested in purchasing Canadian Goods, are calling every day.

"British Industries" represents a most important link in Canada's efforts for overseas trade expansion and I am sure will be the means of bringing new business into the country.

Yours faithfully,

CANADIAN TRADE COMMISSIONER.

From The Daily Telegraph, Launceston, Tasmania

"Striking evidence of industrial development in Canada is contained in a copy of 'British Industries' received by Messrs. P. O. Fysh and Co., Launceston, from the Atlas Record Co., Ottawa. The book is a fine specimen of printing and advertising. There are 550 pages of announcements of firms engaged in the many and varied kinds of industry carried on in the Dominion. It conveys a vivid impression of the manner in and extent to which Canadians are putting forth efforts to supply not only themselves but people in other countries with manufactured goods. The communications to the public by the firms represented in it are printed in four languages. It is the avowed object of this handsome volume of testimony to industrial progress in the oversea Dominion of the British Empire geographically nearest to its mother country to bring buyers into closer relation with a selected number of Canada's leading manufacturers. The publication is of a class that will assuredly enable it to achieve its purpose."

Endorsed by the Canadian Manufacturers' Association—Extract from a Letter from the General Manager

"The publication of each advertisement in this book in four languages is a useful feature . . . I think this book should perform a useful service to Canadian exporters, and wish to congratulate you for your enterprise in compiling it."

From a Manufacturers' Sales Agent in Georgetown, British Guiana

(Name and address on request)

"We solicit business on a commission basis and your publication will be the means of enlarging trade between these colonies."

From the Office of the High Commissioner for Canada

"The work you are issuing would seem to be a most useful one, especially at this period of commercial reconstruction, and we are pleased to have the opportunity of placing it among our books of reference."
