FIVE FAVORITES IN FRONT

AND AGAIN FURNISHED THE
SECOND CHOICE THAT WON.

The Jockey Club Handicap Made the Only Close Contest of the Day—Fields Were Generally Small—Maiden, Maiden, Maiden, All Blue, and a Kanaga Colt the Winner.

Holiday weather arrived yesterday, and although it was a day behind time, it was none the less a day to be remembered. High winds and a warm sun had dried the Woodbine track out admirably, and the only effect of the rain to be seen was a freshening up of the park. The track was fast, and although five favorites won, the street cars were liberally patronized. There was a good deal of speculation, considering the size of the crowd, and although five favorites won, the bookies were not hard hit, as in several of the races three or four horses were not up to the top notch; nevertheless there was a large turnout of tandems and carriages, and the street cars were liberally patronized.

LAKE AND HARBOR.

Little Boats Along the Docks After the Holiday—Marine Notes.

Comparative inactivity succeeded the bustle of the holiday along the waterfront yesterday, and but little was doing. The regular boats made their trips as usual, and brought a good many passengers home.

Commissioner Costarworth has not yet finished his work on the city wharf. There are no lights on the dock, and insufficient life-saving apparatus, while other conveniences are wanting. The authorities are now busy preparing the returns.

The R. and O. steamer City of Hamilton arrived from Hamilton and cleared for Montreal, with passengers and freight.

Ferries arrived from St. Catharines and cleared for Montreal.

The coal schooner Fulton and Allen cleared yesterday for Charlotte and Oswego respectively.

University Notes.

The annual convocation of Toronto University will take place on July 12. Yesterday was the last day of the examinations at Varsity. The corridors of the College are quiet and most of the students are away. The authorities are now busy preparing the returns.

Mr. E. Griffith, who is here from London, Eng., in connection with the British Association for the Advancement of Science, was accompanied by President London, viewed the University yesterday morning.

Visitors to the Races.

Never before has the store of E. Moore & Son, high-class cash tailors, 7 King-street west, Toronto, been so crowded with visitors to the races. They recognize plainly that it is impossible to purchase better or handsomer garments, and they see the wisdom of saving money through buying at low cash prices. Everyone seems delighted with the large and decidedly selected range of imported West of England worsteds and genuine Scotch tweeds. In fact, Mr. Moore personally buys these goods direct from the factory, and this accounts chiefly for his excellence in pattern and quality. This is a splendid opportunity for visitors, and they should make it point to visit this well-known establishment, the greatest tailoring store in Canada.

More Time for Desperados.

Cobourg, May 26.—The three desperados, Martin, Davis, Jas. Burns and James Darroch, were committed for trial before Police Magistrate Dumble this morning on the charge of attempting to break jail. They were held in the County Jail's Criminal Court, which will be held here in a few days.

Farmer Struck Dead.

Elora, May 26.—John McLeod, a farmer living near the village, was killed by lightning about 9 o'clock Monday night, during the heavy storm; also a number of barns burned. Six capes and 11 persons were drowned.

Eleven Men Drowned.

Cairo, Ill., May 26.—This morning shortly after 8 o'clock a storm struck the ferryboat "Kauka," which capsized and 11 persons were drowned.

THEY ALL WANT CITY HELP

THE CHARITABLE SHOULD SUPPORT THE CHARITIES.

So says the Mayor, and he agrees to several increases—striking differences between present and past—Ladies Relief Committee Must Amalgamate With House of Industry Board.

The meeting of the Board of Control to deal with the estimates for charities yesterday was protracted and at some points amusing, owing to the corners which members occasionally turned during the discussion.

Throughout the proceedings the Mayor maintained strong ground against the burden of supporting the various charitable institutions being thrown upon the city. He contended that with a few notable exceptions, the grants had been originally started and maintained by private subscription, and that the city should not be burdened with the entire revenue by which they are maintained. This was unjust to the general taxpayer and those who took an interest in the work should keep it up by voluntary subscription.

The net result of a four hours' session of the board was a reduction of about \$300 in the estimates. Some \$8000 will still have to be shaved off somewhere in order to bring the rate down to 16-1-4 mills, the only item yet remaining for consideration, that of "salaries," which will probably suffer on Thursday.

The first item of \$3500 for the Children's Aid Society provoked some discussion, in which the question as to its overlapping the work of the Municipal Industrial School was threshed out. Aid Jolliffe, chairman of the Special Committee, argued that the Children's Aid Society is relieving the city by placing children in foster homes, instead of allowing them to go to the Industrial School, and becoming a public charge. Aid J. J. Graham also asserted the board in support of the claims of the society. He stated that in April last no less than 38 cases of truancy were handed over to them by the magistrate.

The Mayor, while admitting the good work done by the society, claimed that the work should be supported largely by private subscription. "They have no right to come here expecting us to bear the whole cost," said the Mayor, "the public should support it."

Aid Lamb's motion to reduce the grant by \$1000 aroused Aid Jolliffe's anger. He asserted that the children would never be transplanted to foster homes by the Board of the Industrial School, because they were anxious to retain the boys there as long as possible, in order to secure the payment of \$25 from the city for each boy.

The board reduced the grant by \$500, and instructed the secretary to ask the Industrial School Board for an explanation of Aid Jolliffe's statement.

Better Supervision of Free Dispensaries. During the discussion on the item for free dispensaries, it was stated by the City Relief Officer that many, if not all of these are under the management of small boards of physicians, who have apparently full control.

The Mayor strongly urged that all these free dispensaries should be located at and placed under the control of some recognized hospital or hospital association. He stated that the city had a right to expect that these institutions, as at present, were falling into the hands of a few men, who might manipulate them to their own advantage.

Consideration of these items was deferred in order to give the members a chance to evolve some scheme of better supervision.

The Board Must Amalgamate.

The House of Industry suffered to the extent of \$500 in its appropriation, making the total \$12,000. When the item for the Ladies' Relief Society—\$1000—was reached, it was pointed out that the society is doing the same ground as the House of Industry, but the two boards had not seen fit to amalgamate, although the council for several years had made the grant conditional on that event. The Mayor was in favor of striking off \$500 from the House of Industry grant and the \$1000 of the Ladies' Relief Society until they amalgamated.

Aid Lamb and Graham favored making the grants, with a recommendation that the ladies amalgamate, and their views prevailed against the Mayor. The Haven will receive a per capita grant for the ladies, and the city of Toronto, instead of a lump sum.

Some Increased Grants.

The House of Providence will receive the same grant as last year, of \$750 over last year.

Aid Lamb ridiculed the proposal to give the New York Home a grant of \$65, based upon a rate of 2 cents per capita, which was not enough, he said, to buy a hungry boy a bun. He moved that the grant be \$200.

The motion carried, and the grant to the Nicholas Home was increased to \$500 as a set-off.

Loss for the Incubators.

The estimates recommended that the Home for Incubators should on the City's books receive \$3962.80. This was, after a long discussion, fixed at \$3000.

The Britannia Naval Brigade's application for a grant will not be entertained until the lifeboat is manned.

The Montreal Society, which had been left off the list, was given \$300.

Parcels Sent Here.

Some of the property-owners on Yonge-street, north of Bloor, have written to the Board of Works, urging that the Board of Works proceed to lay an asphalt pavement from Bloor to Davenport-road. They are opposed to the work being blocked by a few.

Sufficiently signed petitions have been received for the following works: Woodside, Eastern-avenue, Sackville to Sunnyside, macadam roadway for Eglinton-place. A sufficiently signed petition against the cedar block pavement on Station-street has also been presented.

The Street Commissioner has rented a stone crusher and set it in operation to get the stone ready for macadamizing James-street between King and Queen. The crusher forwarded to the city as a sample for trial has been found unsuitable.

Park Commissioner Chambers has been received for the following works: Woodside, Eastern-avenue, Sackville to Sunnyside, macadam roadway for Eglinton-place. A sufficiently signed petition against the cedar block pavement on Station-street has also been presented.

The recent amendments to the Act respecting registration of deaths has increased materially the duties of the Medical Health Officer. Some of the certificates returned to Dr. Sheard are very carefully prepared, and he has received a few days since giving neither the name nor sex of the person, and "Parity," resulting from old age, occupied the space assigned for the physician's signature.

Rooms No. 1 and 3 in the Hospital School have been closed by order of Dr. Sheard on account of the number of cases of diphtheria in the neighborhood. The number of cases in the rooms is considerable, and it was deemed advisable as a precautionary measure to close the rooms.

And other cases entered or heard at the Court of Appeal yesterday.

Chief Justice Haggarty, in the Court of Appeal yesterday, complained of the delay in the hearing of the appeal cases, and said that some of the cases were not being heard, and that the court was not being kept in session.

Two alimony suits were instituted at Osgoode Hall yesterday. Mrs. Margaret Green of Kingston, Ontario, brought an action against her husband, R. G. Green, telegraph operator, and Mrs. Jane Paulkner against her husband, Francis Paulkner, of Peel.

Bridget McBride is suing Toronto Junction for \$4000 damages sustained in a fall on an icy sidewalk, and her husband, Thomas, is seeking, on similar grounds, to recover \$1000 from the same corporation.

Dr. Fred J. Dawson of Brunswick-avenue, some months ago set a new record for Edward Pawcett and now the latter wants \$5000 damages from the former for alleged malpractice.

W. H. Murphy's action for specific performance against A. S. Balogh has been dismissed for want of due diligence.

Engineer John I. Booth of St. Catharines is asking the Divisional Court to increase the amount of his verdict against Thomas Nihan, owner of the Garden City, for \$1000.

In the railway case of Delap v. Charlebois, the Divisional Court yesterday laid over the appeal for argument out of court of money paid in as security for costs in the appeal to the Privy Council.

BUSINESS EMBARRASMENTS.
A large manufacturing firm in Ireland appointed a Receiver.

A receiver has been appointed in the person of Mr. J. Atkinson for the firm of Holmes, Moore & Cartwright of Ireland. This firm did a large general business, and were manufacturers of shoes and also of leather goods.

In June, 1894, they owned about 1800 acres of land in the vicinity, valued by them at \$85,000, but subject to an encumbrance of \$25,000. In July, 1895, the firm claimed a surplus of over \$90,000. Recently the Dublin and Cork branch of the firm, and in business generally caused the company considerable trouble, and in January of this year Mr. Moore, continuing, retired from the business, and the firm at the time of dissolution showed a surplus of \$70,000 to \$80,000. The company is now in liquidation.

The provision stock of Dickson & Co., Market-street, is to be sold on the 31st inst.
