## WATERMADOPEDE REODE TEST WAS MADE

Inventor of Lindsay Ozone Plant Explains Why There Was Such a Difference Between Two Examinations That Were Made.

LINDSAY, June 17.—(Special).—An extraordinary conclusion has been brought to the Lindsay ozone plant mystery by the admission of J. Howard Bridge, who installed it, that he "doped" the water before it had undergone bacteriological analysis.

It will be remembered that the Lindsay waterworks plant has been the subject of much contention and investigation, and many Ontario towns were awaiting the outcome of the enquiries instituted before adopting the system which was said to have such purifying effects upon the water. The Town of Lindsay was divided into two camps on the question, and leading citizens have been on terms of armed neutrality over it.

Dr. Archibald, who made the tests for the Town of Lindsay, worked solely from a bacteriological point of view, and his tests could show no evidence of chemical tampering. All of his tests, which were, of course, made in perfectly good faith, showed the water to be sterile, or free from any bacterial trace.

There were rumors and doubts however that all was not right. As a result, the provincial government sent two expert analysts, who built an laboratory, and conducted exhaustive experiments over three months. These were G. G. Nesmith, M.A., Ph. D., chemist of the province, and Dr. J. H. Nesmith, M.B., assistant bacteriologist of the same board.

What the Tests Proved. As Dr. Nesmith's tests were chemical, no sterilizing agent could be introduced into the water, and the tests showed that the water was practically no effect upon the water after it left the rough sand filter, which had to be credited with all the purification which the water showed.

J. Howard Bridge has now written to Dr. Archibald a letter, which he has also communicated to the Lindsay people, giving as a reason that Dr. Nesmith in his report suggests "improper procedure during our tests," as Dr. Nesmith had impugned Dr. Archibald's good faith, which, of course, is preposterous. The letter proceeds to "throw some light on the cause of the difference" in the tests, and a great deal is made of changes in the plant, which could not affect the real issue. And then at the end of the long letter he says:

"There is another difference which may account for some of the difference in the result attained. Two days prior to your test the entire plant was sterilized by allowing a weak solution of chloride of lime to pass through the stand for half an hour in the sterilizing tank."

It is deemed it due to you," he adds, "that you should be fully informed of the facts." Mr. Bridge writes from the safe distance of Philadelphia, on 14th day. He has been paid for his plant, and the Lindsay people will have to make the best of it.

Critics who have felt assured of the value of the system will feel that they have another guess coming. Meanwhile the provincial health board has been thoroughly vindicated. Dr. Nesmith and Dr. Archibald have been shown to have gauged the situation correctly, and sand-filtering receives a warm testimonial.

**VICAR-GENERAL TO OFFICIATE**  
Corner Stone of New Lady of Lourdes Church Will Be Laid on Sunday.

The corner stone laying of the reconstructed and enlarged Lady of Lourdes Church, Sherbourne-street, will take place at 3 o'clock Sunday afternoon.

Vicar-General McCann will lay the stone. Father Walsh of St. Helen's formerly pastor of Lady of Lourdes will act as deacon, and Father McCann as sub-deacon. Father Morrow will be master of ceremonies, and Rev. Dean Morrow, St. Catharines, will deliver the sermon.

The church has been extended by taking in the property on the south, formerly occupied by the archbishop, and is practically a new structure, the old church having been converted into a sanctuary. The cost of the new church will be about \$30,000. Father Canning is the architect.

**MILITIA DEPT. INTERESTED**  
Will Make Tests at Aeroplane Meet in Montreal.

OTTAWA, June 17.—(Special).—An announcement is made at the militia department that expert officials of the department will attend the aviation meet to be held in Montreal beginning on June 25, with the object of making observations as to the adaptability of aeroplanes for military purposes. Tests will be made by shooting and dropping explosives from the aeroplanes on objects below.

## YOUNG GIRL IS MISSING AND MAY BE DROWNED

Hannah Christensen, Whose Home Is in Toronto, Disappears From Boston.

BOSTON, Mass., June 17.—(Special).—At a late hour to-night no trace of the missing Hannah Christensen, the sixteen-year-old daughter of Mrs. Peter Christensen, of 28 Wright-avenue, Toronto, had been found, and the public believe that she has made good her threats to commit suicide. They will drag the Charles River to-morrow.

A musician playing at one of the local vaudeville houses, who is said to have been friendly with the girl, is being sought. On Wednesday, when she left her home, she left letters at the home of Mrs. Christensen. In a letter, one letter read: "Dear mother, I am in trouble, and cannot stand the strain longer. I am going to do away with myself. Farewell to you all." (Signed) Hannah. The other to Anderson was in similar strain.

Hannah is described as being five feet in height, weighing 120 pounds. She is of dark complexion, with dark brown hair and blue eyes. When she left Wednesday she wore a white plaid skirt and white sailor blouse with blue collar and white lace trimmings. She wore no hat. She had on black patent leather pumps and blue stockings. The girl wore a wedding ring with a plain black diamond stone on the left hand. She also had on a white coat sweater.

When The World called at the girl's home her parents had not yet heard of the report of her disappearance. The father said that the family moved here last October from Boston, where the girl went about two weeks ago for a holiday. He said that he could think of no reason why the girl should suicide, as they had had a letter from her on Tuesday in which she appeared cheerful, and spoke of going to get work in Boston. She, like her parents, is Danish by birth.

The police here had not been notified of the supposed suicide, but remembered that on the night of May 19 a soldier named E. D. Smith from Stanley Barracks had reported that the evening five men had taken the girl from him in Garrison Commons and had brutally assaulted her.

## NOW IT'S THE PLUMBERS WHO TALK OF A STRIKE

Refusal of Employers to Make Agreement is Cause—Will Affect 400 Men.

Trouble is brewing among the plumbers and steam fitters and indications are that a strike of that union is near. The strike committee met at the Labor Temple last night to discuss the situation, and although no decision was arrived at, it is highly probable that the committee's report at the next meeting of the union will recommend a strike if the master plumbers continue much longer their refusal to give the union an agreement.

Ever since the lockout of plumbers by the employers four years ago the union has been trying to get an agreement with the master plumbers. "We'll take more money if we can get it, but it is the agreement we are more particular to get," said one of the men. "If we can get an agreement, we would have a certain wage stipulated."

Should any strike occur about 400 plumbers would be affected, as there are at least 300 of them in the union. The union is stronger now than it ever was.

**MAY AGREE TO-DA.**

He said he had a feeling that a settlement would be reached to-day.

## \$100,000 REWARD FOR PROVING HONESTY

U. S. Government Handsomely Remunerated Former Customs Clerk Who Exposed Sugar Trust Frauds in Spite of Bribes and Threats.

WASHINGTON, June 17.—Richard Parr, the customs department deputy at New York, who assisted the government in recovering over \$2,000,000 in the sugar underweighting frauds, is to receive a reward of \$100,000.

This is in addition to the promotion in the department given some time ago, at a salary increased from \$3000 to \$3500 a year.

Parr, a native of Albany, N.Y., was a sampler of sugar on the piers about New York in 1904 at a salary of \$1000 a year, a comfortable salary for a young man, but Parr had to support his mother and his sister also.

While serving in this capacity he discovered that the government was being cheated by the sugar trust by a system of false weights. Parr happened to know Wm. Loeb, Jr., who at that time was secretary to President Roosevelt. Loeb was a Washington and told Parr of his discovery. Loeb carried the matter to Roosevelt, and this resulted in Parr's appointment as special agent of the treasury department.

Roosevelt sent the young man out to penetrate the evil of the Haverley Trust. Largely as a result of his work the government now knows that the sugar trust has stolen some \$20,000,000. The trust has restored \$2,000,000 of stolen money to the government treasury.

Henry O. Haverley died of fear of prosecution, several subordinate officers are now under indictment, and jail and disgrace have cast black shadows over half a dozen rich and influential heads of the trust.

It was Parr who discovered that the trust's checkers and weighers on the Brooklyn docks used a false weight system, and by it cheated the government out of \$180 per ton raw sugar duty, and some idea of the enormity of the fraud may be had from the fact that during six years the trust passed more than 75,000 pounds of sugar over the docks on which not a cent of duty was paid.

It came to the knowledge of the head of the trust that Parr had this information, and immediately an "it was a roundabout way" Parr was informed that if he would protect the trust he could have \$100,000 in cash and the trust would protect him from the police around the world. He indignantly put the attempt at bribery behind him and informed Roosevelt of the occurrence.

He says he got instructions to continue his efforts with increased zeal, and he did. At the time the glittering bribe was offered Parr was receiving from the government a salary of only \$3000 per year.

Later he was offered a second bribe of \$25,000 cash if he would give up a little steel spring that Parr had taken from one of the trust's scales, the function of which was to prevent the scales from weighing the full measure of sugar. He replied by having the fellow who offered the bribe arrested, but the evidence was "lost" and the law's net was not cast.

Later Parr heard of threats against his life. He laughed at these. The daring of the trust is shown by the fact that a burglar was sent to Parr's office to the customs house and succeeded in making away with some of the evidence the young agent had left in his desk.

Parr lives with his family at 414 W. 114th-street, New York City.

## SHOCK UPSETS REASON

Printer in Montreal Crazed by Fire Experiences.

MONTREAL, Que., June 17.—With a terrible cry of "Keep back the flames, boys," John O'Callaghan, 70 years old, printer in The Herald, felt unconscious over his case in the paper's temporary office this morning.

O'Callaghan had a narrow escape from death in Monday's holocaust, and the scene so preyed on his mind that he temporarily lost his reason. He kept shouting to those about him to run from the fire.

He visited the morgue yesterday and ever since viewing the blackened corpses has complained of feeling ill. The doctor thinks he will recover after a rest.

**Don't Talk About the Weather.**  
Nowadays people talk altogether too much about the weather. If a hot day comes the entire community has something disrespectful to say about the heat. Talking doesn't make you any cooler, for the more you talk the hotter you get. The wise thing to do is to buy a two-piece suit and keep as cool as the proverbial cucumber. Speaking about two pieces reminds me that a big shipment of two-piece suits was received this week at Oak Hall's big new store, corner of Yonge and Adelaide-streets. They are very nobby flannels and English homespun affairs, with style sticking out all over them.

## LAUNCH COLLIDES WITH FERRY TWO YOUNG MEN RESCUED—A TRAGEDY IN THE DARK TWO SISTERS DROWNED IN BAY

CROSSED TO SAFETY A MOMENT BEFORE

**THE DEAD**  
MRS. MABEL MELRICK, widow, aged 25, Queen and Elizabeth-streets.  
MISS EMMA CARLAW, her sister, aged 25, same address.

**RESCUED**  
REGINALD COOPER, 1774 Dundas-street.  
FRANK LOGAN, 105 O'Hara-avenue.

Two young women drowned, their sisters rescued, is the result of the first fatality of the season in Toronto harbor.

The tragedy came as a terrible climax to a pleasant evening spent by the four young persons in the 18-foot motor launch "Cecilia," which, returning to the city about 10.45 p.m., came into collision with the ferry "John Hanlan." Captain Joyce of the ferry declares that the launch had safely crossed the river and was heading back to the city when it was struck.

A few minutes later Reginald Cooper and Frank Logan were taken from the water when it was learned that their companions, Mrs. Mabel Melrick and her sister, Miss Emma Carlaw, had perished.

**The Victims.**  
Mrs. Melrick was the widow of James Melrick, nephew of James B. Melrick, proprietor of the Alexandra House, at the corner of Queen and Elizabeth-streets. Since last September, when her husband, who was associated in the business, died, she had continued to reside at the hotel. She was about 25 years of age. Miss Carlaw was about twenty years of age. Her home is at Hastings Mills, where her father is a well-known miller, but for the past year she had been staying at the hotel, where she is a married sister living in the city.

Cooper, on reaching the city, was whisked away to his boarding house at 1774 Dundas-street in an automobile. The Canadian Company, which had a bicycle to the Alexandra House, to impart the sad news of the drowning, but found that it had preceded him. Cooper was unaware of his male-companion, Frank Logan, had been saved, until so informed by a little group, and speculated: "Thank God for that."

**What the Men Say.**  
He appeared to be in a partially dazed condition, and had little to say regarding the accident.

"Were you carrying a light?" he was asked.

"Yes, a big one," he said, adding that it seemed about twenty minutes before he was picked up by the ferryboat. Then he told his story.

Mr. Melrick said he was not aware that the two young women had gone on a boating trip until word of the tragedy came to him. He believed it was the first time in a launch they had taken this summer.

**Rescued Men Won't Talk.**  
At 1.30 this morning a World reporter called on the John Hanlan at O'Hara-avenue. The house was in darkness, but two young men were in front, evidently Cooper and Logan, who were waiting for a launch. One, evidently Cooper, had wet hair, and wore a sweater and, in an excited sort of way, was inclined first to deny any knowledge of the affair, then to attempt to give explanations, while his companion continually urged him not to talk, lest he say too much.

Cooper said at first he had heard of the drowning from a passing automobile; then said that the ferry boat lights were dim and that after it had hit the launch it had blown a signal of distress.

Then he asked if it was reporters he was talking to, and added that if so he was "as wise a guinea" as any of them. Then he said he didn't know any more about the accident than his interrogator; then, that as far as he knew all were safe; then, that the two boys were safe anyway.

Cooper and Logan are employed at the Bartholomew Piano Action Works on Niagara-street. Cooper has owned the launch for two months, and according to friends was an expert operator, having operated a launch last summer at least. Cooper is 23 years of age and Logan about the same.

**Ferry Captain's Story.**  
Capt. William Joyce of the John Hanlan gave a detailed account of the accident. He said:

"We were about half-way across the bay coming from Island Park when I saw a boat—a launch—about 40 or 50 feet in length. They were going pretty fast and were approaching from the southwest, and heading to cross our bow. They did not cross about 40 or 50 feet ahead of us, and had reached a point about 30 or 40 feet past us to the east, when the launch suddenly stopped and then began to back right in front of us."

"I rang for full speed reverse at once and then jammed, but my wheel had over in an effort to avoid a collision. It was too late. We struck them when we had slowed down to about half speed and they drifted astern."

"I whistled and whistled for help and began backing slowly to the point where the partly sunken hull of the launch appeared. I did not dare back

## TO CELEBRATE PEACE CENTENARY IN 1915

At an informal meeting at Niagara Falls, the movement for celebrating the century of peace between the United States and the British Empire was advanced a stage. The meeting was attended by representatives of educational, historical and patriotic societies from Buffalo and Toronto, and from the towns and villages on both sides of the Niagara River. Major Collins of the Army and Navy Veterans was present from Toronto.

It was agreed that the natural attractions of Niagara Falls for travelers from all quarters of the globe, and the central position of the Niagara River on the international boundary would make this a most suitable place for a memorial of the hundred years of peace between these two peoples.

It was decided to form a joint committee of organization, composed of representatives from the local municipalities and associations on both sides of the river, to draw up a constitution for "The Hundred Years' Peace Association," which, when formed, would consult as to the character of the proposed memorial, and when plans were agreed on, would wait upon the provincial, state and federal governments to enlist support.

The treaty of peace between Great Britain and the United States was signed on Christmas Eve, in 1813, but as the news was not known in the United States or Canada till 1815, and as there is no national or international celebration known to be booked for 1915, it was decided to commemorate the peace centenary in that year.

It was thought that a bridge of some kind would be a most fitting symbol of the linking of the two nations in peaceful intercourse for all time, but the form of the memorial was not settled.

Those in the fear of striking some of those in the water with the screw. Threw Out Life Buoy. As soon as we could reach them we threw out life-preservers and life-buoys, so that they could have something to hold to.

"I saw the boat quite plainly before it crossed, but did not notice how many there were in her, or what they were doing, as there was no danger at that time. Afterward I was too busy trying to avoid the collision to notice details, and after we struck them I did not see them again."

"We stayed about the spot for about half an hour, and we had our boat partly lowered, when there was such a swarm of small craft that it would not have helped any to put it in the water. Before leaving we marked the spot with a life-buoy."

Mate A. L. Tessari was very unwilling to talk. He pulled one of the men rescued from the water at the end of a life line. This was done while all the members of the crew were diligently casting about in the hope of rescuing some of those thrown into the water.

**To Drag for Bodies.**  
The boat was later towed to the Marine Club, and the bodies were taken to the foot of York-street. She is an 18-foot launch, and she shows the force of the impact, being smashed and splintered at the stern. Maf Aikroyd left with a crew of eight men at 12.30 this morning in two rowboats to drag for the bodies. The launch, which is usually employed in such emergencies, was running on gasoline and could not be brought into action.

## THE SUNDAY WORLD

Of more than ordinary interest will be The Sunday World, which will be on the street by six o'clock to-night. Of the first importance will be a new standpoint in the return of Theodore Roosevelt from the African jungle and his triumphal tour of Europe. The Sunday World will have the complete story of the welcome home to-day embellished with pictorial features.

In the realm of sport there is always "something doing" on Saturday afternoon. The Capitals will try conclusions with the Tecumsehs at the Island Stadium; the Maple Leafs will be at Providence; the Hamilton races will open. These are the chief events, but The Sunday World will cover all the sports on every field.

Alex. Pringle, The Sunday World's special commissioner in England, reports an interesting interview with "Fighting Joe" Martin, M.P., in which the member for St. Pancras tells what he thinks of the chiefs of the Liberal party. It is good stuff.

## C. N. R. INVITES THE INVESTING PUBLIC

One-Third of \$15,000,000 Bonds Convertible Into Common Stock at Par in 1916 Offered for Subscription in Canada—Prospects Good.

It is characteristic of Mr. William Mackenzie that he should slip away to the Pacific coast immediately after arranging for the first quotation of a Canadian Northern Railway stock on the Toronto Exchange, without telling the Canadian public that there was a last chance to get a look in at the common stock of the company.

During the week there have been several transactions in the five per cent. income charge convertible debenture stock of the Canadian Northern Railway. One-third of the total issue of \$15,000,000 is available to the Canadian investor, and has been very largely underwritten by several of our leading houses.

The interest on the stock is payable after the fixed charges and operating expenses of the railway have been met, and as there is an accumulated surplus of \$3,843,000, and the net earnings of the ten months ending April 30 of this current fiscal year show an increase of \$100,000 over those for the corresponding period of last year, the interest on \$15,000,000 is assured for several years, even if the railway were to earn no more surplus.

The stock, which is redeemable at par, will be convertible on January 1, 1916, and during the three subsequent years, at the holder's option, into common stock of the company at dollar for dollar face value.

**Six Years to Complete Road.**  
It seems pretty certain that by 1916 the Canadian Northern will be a transcontinental line. For it has contracted to reach Vancouver in four years, and six years seems an abundant period in which to complete the five hundred mile link between Sudbury and Port Arthur, which is the heaviest work yet to do to connect the prairie provinces with tide-water by an all-Canadian Northern line.

This history of Canadian Northern debenture stock in the Toronto market is an example in the history of this transcontinental railway, which has already aroused considerable interest among Canadian investors. The enormous return which C. N. R. stock has made to investors, has gone largely to old country people who had more confidence in Canada than they had in the United States, and in the hands of Mr. Mackenzie and his associates have endeavored to make their C. N. R. enterprises as purely Canadian as possible, and in securing what can be called a Canadian stock market.

Prompt action will have to be taken, as the C.N.R.'s plans will be up for approval of the Dominion Railway Commission before the end of the month.

**SALES OF THE STOCK WERE MADE ON THE TORONTO EXCHANGE DURING THE WEEK AT 8 1/2.** but they carry a debenture interest at the rate of 5 per cent. annum. It is presumed it will not be long before they reach a much higher figure, and more particularly on account of the convertible privilege which the debenture stock will have.

**Earnings Ensure Success.**  
The present earnings of the railway are largely in excess of the fixed charges and the interest on the debenture stock is therefore assured.

The success of Mr. Mackenzie's various enterprises which have been anticipated by Canadians will attract a big following for this issue and as there are only \$5,000,000 of the Canadian Northern debenture stock available for Canadian investors, a brisk demand will no doubt develop for these securities.

**COTTON POOL INDICTMENTS**  
Patten and Seven Others to Be Tried for Conspiracy.

NEW YORK, June 17.—The government came out in the open to-day and in its attempt to prove manipulation of the cotton market, James A. Patten of Chicago and seven lesser figures in the speculative fields have been indicted, charged with conspiracy in restraint of trade under the Sherman anti-trust law. The indictment was returned by a special federal grand jury late this afternoon. Five of those indicted, Patten, Eugene B. Scates, Frank B. Hayne, Wm. P. Brown and M. H. Rothschild, gave bail of \$500. For the other three bench warrants were issued. They are Sydney J. Herman, Robert M. Thompson and Chas. A. Kittle.

Immediately the indictment was announced there was an excited break on the New York Cotton Exchange, July and August deliveries declining about \$1.50 a bale.

Five counts are embraced in the indictment, including conspiracy, with certain corporations not therein indicted to demand "arbitrary excessive and monopolistic prices for cotton."

**YOUR STRAW HAT TO-DAY.**  
Don't let to-day go over your head without purchasing your summer hat. Just now you will have the privilege of a very wide choice and get satisfaction in the comfort of the hat wearing. The Dineen Company have made special provision for a big men's hat Saturday by importing special lines by all the big makers. Don't purchase a Panama without first looking over Dineen's superb assortment. Store open every evening until ten o'clock.

### INCREASED PROTECTION

To Make Up for the Loss of Bounties.

MONTREAL, June 17.—(Special.)—The Dominion Iron and Steel Co. held its annual meeting yesterday. J. H. Plummer, president, in discussing the annual report referred to the purchase of the fifty thousand shares of the Dominion Coal Co., and pointed out that, though there might be some criticism on the part of a few shareholders, it must be remembered that, when

a thing is wanted, "you have to pay the price." Mr. Plummer stated that the bounty on pig iron will cease in December next and that on wire in June of next year. To make up for this he had every reason to believe that at the next session of parliament increased protection would be given. It was a matter of congratulation that the company held ninety per cent. of the shares of the company. He said with a smile that if there were any shareholders holding out for an increased offer they would be disappointed, as the ninety per cent. was very satisfactory. The consolidation of the two companies had removed all chance of trouble.

**Are You Planning a Vacation Trip?**  
If so, why not take advantage of the delightful outings offered by the Richelieu and Ontario Navigation Co. to Montreal, Quebec (the ancient and historical) and the famous Saguenay River. Steamers Toronto and Kingston leave daily except Sunday at 3 p.m., and after July 1 daily, passing through the 1000 Islands in daylight and connecting with observation steamers running the Rapids of the St. Lawrence. For further particulars call at new ticket office, 46 Yonge-street, corner Wellington-street.

**St. James' Cathedral.**  
The preacher to-morrow (Sunday) morning at St. James' Cathedral will be the Rev. J. P. D. Livi, vice-president of Trinity College, who has just returned to Toronto, after a very successful visit to the old land, on behalf of the interests of Trinity, where he has succeeded in obtaining the services of a distinguished English university graduate to join the staff of the great old College of Trinity. The Rev. Gore M. Barrow will preach at evening service.

## HAMILTON HAPPENINGS

### COUNCILLORS DECIDE TO BUY MOTTE FARM

For Location of County Poor House—Will Stave Off Issue of a Mandamus.

HAMILTON, June 17.—(Special.)—With only one day in which to forestall the threatened mandamus to compel the city to take some action towards establishing a county poor house, the Wentworth County Council yesterday decided on the Motte farm at Ancaster as the site for such an institution. Their choice lay between the Motte farm, the Newitt farm, near Dundas, and the Bower farm, near Waterdown. The prices asked were \$8000, \$14,000 and \$18,000 respectively, but the motion to buy the Motte farm was carried by only one vote, and that was the vote of the approval of Dr. Bruce Smith has to be secured before the purchase can be completed, but J. L. Council, collector for the county, will report the action of the council at the goods Hall to-morrow as a reason why the mandamus should not be issued.

**To Jail for Safety.**  
Jack Burke, was again arrested to-night by Detective Sawyer on a charge of vagrancy. As Burke generally makes it exciting for the officers at No. 8 police station, whenever he is run in, by threatening suicide, he was taken direct to the jail.

The trades and labor council tonight passed a resolution endorsing the proposal of the parks board to establish a new park in the east end and to enlarge the present ones.

As the result of one of his hands being caught in a pulley at Patterson Tilley's lumber yard this afternoon, James Binney, 304 North Catharine-street, lost four fingers.

**Where's John Leader?**  
Mrs. John Leader of Port Hope is searching for her husband. The information which she has given to the police is that he has not contributed to her support for the last sixteen months. She thinks he must be in or around Hamilton, and intimates that he is posing as a single man.

Altho the Street Railway Company has given up hope of receiving their nine new pay-as-you-enter cars from the Ottawa Car Company before late in the fall, they still intend to install the system as soon as possible.

Considerable discontent exists among the policemen over the smallness of the remuneration they receive while on special duty and a number of them threaten to refuse special work unless \$3 be made the minimum.

The last chance of the Radial Railway being permitted to connect with the Hamilton, Grimsby and Lake Simcoe road for the purpose of accommodating the fruit growers and preserving manufacturers has been killed as a result of the discovery that the city would not limit the freight traffic to fruit shipments.

**Will Be Deported.**  
John Silver, a Russian Jew, charged in court today with conspiring to support his wife and four young children, admitted leaving them penniless in Philadelphia and coming to Canada with another woman who is holding him in New York with their two-month-old child. Silver and his family will be deported.

For home comfort and Regal Hotel. Newly remodeled, up-to-date. Arrangements can plan: \$1.25, \$1.50 a day. D. Smith, prop. 154 King W.

### A SPLENDID RECORD

Showing Reliable Grand Truck Service to Montreal.

During every one of the 31 days of May, the two fast express trains of the Grand Trunk, leaving Toronto 9 a.m. and 10:15 p.m., arrived at Montreal on time.

With a splendid roadbed and the only double-track line (which contributes to safety), it is no wonder that this company find it necessary to run in addition to four regular Pullmans, extra cars almost every night. Tourists visiting Toronto should not fail to visit Montreal and Quebec.

**At the Queen's Royal.**  
The latest Toronto arrivals at the Queen's Royal, Niagara-on-the-Lake, include: Mr. J. B. Gibson, Mr. W. C. Lee, Mr. Gordon Miller, Mr. and Mrs. W. C. ### WILL BE GALA EXCURSION

Brace Old Boys Will Celebrate Eleventh Annual Outing.

The Bruce Old Boys completed arrangements for their eleventh annual outing to be held on Friday, July 8. The committee reported that two special trains had been secured, one to go to Wharfedale and one to Southampton, and the excursionists will return by any regular trains on the following Monday. An order was given for 1200 souvenir buttons, bearing the crest of the association, with purple ribbon attached, to be distributed free of charge on the train. Several hundred flags will also be provided for the children.

### IDENTIFIED 26 BODIES

Four Victims of Montreal Disaster Still Under Debris.

MONTREAL, June 17.—(Special.)—One by one the blackened remains of the victims of the Herold fire are being identified. Two more were recognized to-day, making a total of 24. Two other bodies are still at the morgue, and four more are yet in the ruins.

The city authorities ceased to-night the work of hunting for more victims, and beginning to-morrow The Herald Publishing Co. will make over the task to-morrow a public funeral will be held by the Typographical Union on behalf of 18 members.

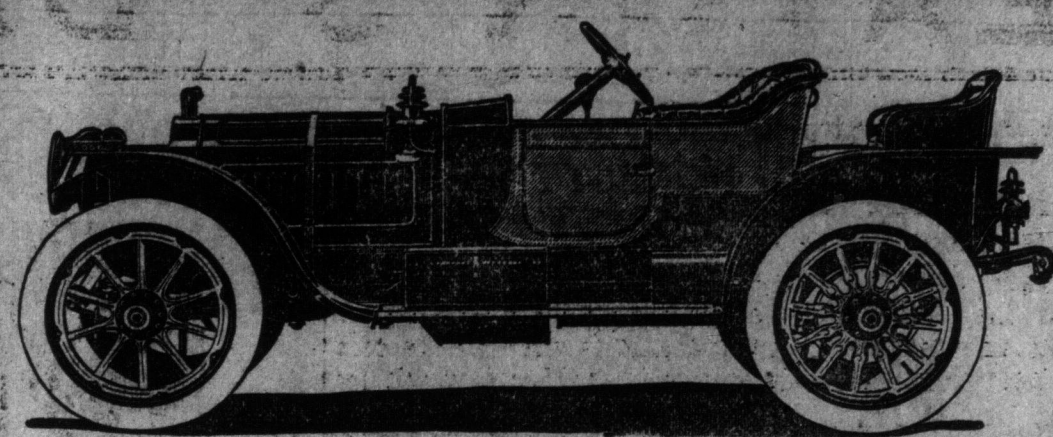

**MISSIONARIES NOT TROUBLE MAKERS.**  
EDINBURGH, June 17.—William J. Bryan addressed the evening session of the World's Missionary Conference. He refuted many of the objections to missions and said that missionaries were much less apt to get nations into trouble than persons who went abroad for the purpose of making money.

**FREDERICK SHIPMAN IN CITY.**  
Frederick Shipman, an old Toronto boy, who has now the sole direction of the concert tour in America of Madame Melba and Madame Nordica, arrived here last night.

Madame Melba has arranged that she will appear here Sept. 21, and that Madame Nordica sing under the auspices of the Schubert Choir Feb. 29, 21.

## Silk and Cotton Wash Fabrics Clearing Monday at 19c

Here's a combination that makes the best value-giving that can possibly occur—goods in the very height of fashion at the very time they're wanted most, and what makes this an event of the rarest kind is that you're offered these beautiful materials at mostly half and much less.

*Silk and cotton mixtures belong to this season—some of the most beautiful effects ever produced in wash fabrics are seen in this weave, and in Monday's lot the choicest designs are well represented. A few pretty shades in novelty pongee, in self colored cotton spots and fine woollen stripes; also some very pretty plain effects.*

Beautiful sheer voiles, with three hairlines in a bar or stripe effect, very pretty for dresses, nice Paisley and pout de frie effects in a satin-finished material, used exclusively for waists, dressing jackets and dresses; also a few odd lengths of a fine silk and cotton fabric called "tussore"; really beautiful goods that make dresses suitable for any function, and some very pretty floral designs in silk organdies. Quantities are limited—it's a case of hurry. See Yonge Street windows. Can't promise mail or phone orders. Per yard ..... 19c

### Opportunity for an Inexpensive Muslin Dress, 9½c

Certainly no need for any woman to be without as many pretty muslin dresses as she desires, for we've never sold prettier or more desirable designs than this year's. Here's a most interesting lot for Monday—'twill add enthusiasm to the big early business effort on foot. Fabrics worth many times the price, sheer organdies or pretty batiste for dresses for the canoe, the beach or at the picnic, in fact anywhere you wish. Per yard ..... 9½c

### Lightweight Black Silks, 49c

For warm weather wear, soft, rich finish, lustrous blacks, qualities that will give every wearing satisfaction, paillette de soie, paillette de Chine, chiffon, taffetas, satins de Chine and peau de cygne, excellent fabric for dresses, waists and linings; cool and durable; come early for these. Monday, per yard ..... 49c

### Here's Fashion's Favorite, Chiffon, Yard, 50c

Everywhere the most fashionable dressers show partiality to the gauzy, filmy chiffon; it's used for millinery trimming, overwaists, even cape effects; especially effective when worn over brightly-colored patterns or Paisley designs; useful also for sleeves, yokes, etc.; Monday we offer a special price on this much-wanted goods; fine, soft-finished quality, 41 inches wide, with imitation tucks; white, ivory, sky blue, amethyst, rose and grey shades, but a limited amount of each, special, yard ..... 50c

## After 50 Years

At the time the *Queen's Own Rifles* was struggling through its infancy Canada was pondering upon the important step that was to form our coast-to-coast "Dominion." *Confederacy* was just emerging from the experimental form when the *Store* planted its roots firmly into Canadian life.

After two score years and more we draw aside the curtains and witness three healthy, vigorous forces in the Empire's life. "The Twentieth Century belongs to Canada." The *Store* is the largest of its kind in the British Empire—the dominant power for a better class of living wherever its broad arm reaches—gathering the merchandise of the world and placing it at your door. And the big *Regiment* has won fame from coast to coast.

## The Queen-Mother's Message to the Nation

It has been learned that the Queen-Mother wrote the message expressive of her sorrow without the knowledge of her secretaries or of any members of the Royal household. Later on she commanded the firm of Raphael Turk to publish facsimiles of this autographed letter.

We have been fortunate enough to secure a number of these facsimiles, and the manner in which they have been executed will make them eagerly sought after and appreciated; the facsimile bears a symbolic border designed by Sir Edward Blynter, President of the Royal Academy, expressive of the Empire's grief, and is worthy of the artist's great reputation; the plates are printed in engraving sepia. Prices, 25c each (popular issue), \$5.00 each, \$10.00, \$15.00. —Main Floor, James St.

## Ready With Hot Weather Wear for the Boys

No woman who studies the health and comfort of her children would gainsay the advantage of the thin, cool wash suit for the warm Summer months.

For the same reason that grown-ups take to lawn blouses and muslin dresses, the small boy requires suits that are light and thin and loose.

*The few items that follow give some idea of the extensive preparations the Store has made to clothe the young folks properly for Summer.*

**Boys' Wash Suits**, nicely made, in the sailor and Russian styles, from exclusive stripe and check designs of galateas, prints, duck and natural linen, in a great variety of colors; bloomer knickers and knee pants; for ages 3 to 7 years. Price ..... \$1.00

**Boys' Man-o'-War Suits**, of plain white duck, loose-fitting blouse effect, deep sailor collar and cuffs of navy blue, regulation long pants and wide bloomers; for ages 8 to 10 years. Prices ..... \$1.50, \$2.00 and \$3.00

**Boys' Sailor Wash Suits**, with loose-fitting blouse, deep sailor collar and adjustable front, in many pretty striped patterns of blue, white, pink and natural linen shades, bloomer pants, for ages 3 to 10 years. Price ..... \$1.25

At \$1.50 and \$1.75—Loose suits, in the Russian and sailor styles, in such materials as chambrays, galateas, prints and white ducks; also the natural and grass linen shades; smartly designed, numerous styles; colors are pink and white, blue and white, linen and white, grey and white, and plain linen, with blue and red piping and braid; bloomer and knee pants; for ages 3 to 10 years.

At \$2.00—Sailor and Russian wash suits, in handsome patterns of repps, chambrays and galateas, in plain navy, pale blue, linen and fawn shades, with and without the deep sailor collars, and finished with piping, braid and insertions; for ages 3 to 10.

We'd have to go right back to the January Sale to tell the story of these wonderful values, because the goods were planned for that big event. But the mill failed in delivery, and we duplicated the order with other makers. Now, months after we have any special call for the goods, the original order is piling in on us.

Qualities are really fine, even above the ordinary, and the mill is one of our chief supply sources; besides, we had bought as favorably as ever such staples were laid down in Toronto for. So, instead of exercising our right to return the whole big consignment, we shall make a determined effort to sell it all in four days at

## Practically What We Paid For It

### Linen Crash Roller Toweling, 6c Yard

A strong, even quality, that bespeaks an excellent wearer; 17 inches wide, and red-bordered. Thousands of yards of it—plenty for everybody—and large savings on every yard.

## Fancy Ribbons to Hold Forth in a Three Days' Tremendous Selling

Monday will open what we believe will prove the most significant ribbon event of the season. Though lasting but three days, it will involve a quantity of goods that might well have called for a full week of special selling but for the wondrous nature of the values.

*The big consignment has just arrived from world-renowned Swiss and French looms, where we gathered it in at practically our own price, relieving the mills of their overplus from the season's output.*

The goods are of the most desirable character, new and perfect, the color schemes and designs all high in Fashion's favor. The savings are one-third, one-half, and sometimes more. Whatever fancy ribbons are needed between now and Christmas, this is your great buying opportunity. No stronger incentive to start right in on the first day's allotment could be given than the brief descriptions and prices that follow:—

**At 15c a yard**—An assortment of dainty Dresden patterns, on a pure silk quality ribbon. Admirably suitable for misses' wear, and is most serviceable; excellent combinations of such colors as pink, green, turquoise, Alice, wine, cream, champagne, navy, sky, black and white; full 5 inches wide. Three-day clearance price, yard, 15c

**At 19c a yard**—A 5¼-inch pure silk ribbon, with a Dresden design of wild flowers; handsome for Summer sashes and hat trimmings; a good list of colors, including combinations of mauve, pink, Nile, Tuscan, moss, sky, navy, myrtle, black and white. Three-day clearance price, yard ..... 19c

**At 25c a yard**—This popular price has been fixed to a range of designs which are among the finest shown this season at any price; a highly-finished taffeta ribbon, full

of life and good wearing qualities; the patterns show an artistic design of floral and leaf arrangement, beautiful rose patterns, etc.; colors include navy, Alice, sky, brown, wine, rose, pink, mauve, purple, reseda, myrtle, moss; 6 inches wide. Three-day clearance price, yard ..... 25c

**At 33c a yard**—We could not become more enthusiastic about a fancy ribbon than when we offer this lot at 33c a yard; some of the most exquisite color tones are found in rich combinations, shades of cream, champagne, pink, rose, old rose, red, wine, sky, turquoise, navy, reseda, moss, Nile and mauve are blinding harmoniously in elegant vine, foliage and floral shadow patterns; a vibrant taffeta ribbon, heavy and firm, full 6 inches wide. Three-day clearance price, yard ..... 33c

SATURDAY MORNING, JUNE 18, 1910.

WHY HE IS GREAT AND GROWING GREATER.

Mr. Roosevelt is the central personality in the United States today. He grows of greater importance daily. All the people of that country are turning to him. Why?

Because in him they see the only hope of relief from a set of conditions that make life more and more a struggle in that country.

The price of food, of clothing, of raising children, of the necessities of life, let alone the ordinary comforts of life, is steadily rising. Wages and salaries do not advance, or only slowly compared with the other.

In contrast with this are the enormous fortunes that are being concentrated in the hands of the few who control the necessities of life, the public services.

Political power is concentrating in the hands of the few or the interests; the lawyers are most of them working for the interests; the press is passing into the hands of the interests.

The savings of the people, whether in insurance companies, banks, trust companies, or in stocks, are all in the control of the interests and are used to oppress the very people who made them.

Morgan, Ryan, Harriman have used the money of the insurance companies to compel higher passenger and freight rates out of the people who paid the premiums! Wall-street gambling is carried on by the savings of the people all over the Union! The sugar and the beef trusts, all the trusts, use the newspaper press to justify their methods, to the people who suffer support this same press.

The people are becoming maddened. The Republican party is discovered to be a tool in the hands of the interests. The people distrust Taft.

The people are looking to Roosevelt for relief. If it does not come it is our belief, then, that revolution, social disorder will.

The worst governed country in the world to-day is the United States. There is little respect, little reverence, little confidence in the government. And in some way the people think that the only way out is a strong man who will smash some of the growing evils and those behind them.

Roosevelt is great because of the greater social and economic disturbances that exist across the line.

The great American republic is today distrustful of its own people and they are looking for a Moses, a deliverer.

### THE MAYOR'S RETURN.

Mayor Geary must not be too puffed up over the suggestion of The Mail and Empire that he may be gratified when he perceives that he has been missed. Perhaps he will not be able to perceive as much as that.

But he will at least be able to perceive that the appointment of a medical health officer, which rumor credited him with a desire to see made in his absence, still remains to be dealt with. And with this perception will come the knowledge that responsibilities cannot be shirked. The alliances by which Mayor Geary was elected will now have to be appeased, and the controllers evidently perceived that this was none of their business. The Mail and Empire, in its innocence, is not aware what can have prevented the "city administration from choosing" Dr. Sheard's successor. Any ward heeler of the party could have informed the organ.

Another matter that Mayor Geary will be able to perceive without the aid of double-barrelled gas-magnifying glasses is the fact that the Toronto Electric Light Co., under Sir Henry Pellatt, is perturbed in its conduct and otherwise over the severe competition which the citizens are engaged in putting up against its high schedule lighting tariff.

It is only a little while ago that the heavens were being rent by Sir Henry and his agents, warning us of the horrible mess the city was getting into, and how the rates that Toronto citizens then had the privilege of paying were the lowest that could possibly be made. Now Sir Henry tells us that he is willing to give the citizens the much lower rates proposed by the city department, and will yet be able to make ten per cent. out of them, too; only he wants the city to let itself up not to go still lower, which, in spite of his previous protestations, he now fears the city may.

And the city will. There is no doubt about that, as Mayor Geary may also perceive, if he can get the salt sea spray out of his eyes. And this fact may lead Sir Henry yet to the point where he would be willing to consider an offer

for his light company at not more than Joseph Oliver made for the stock when mayor last year.

### ST. ALBAN'S CATHEDRAL.

Bishop Sweeney showed a fine burst of speed, if we may be permitted the liberty, in his appeal on behalf of St. Alban's Cathedral. It may be that the cathedral idea in the Episcopal Church does not appeal as such to those who call themselves Episcopalians in Toronto in the same way as it does to Episcopalians in other parts of the world. There may be other causes which have hindered the interest and retarded the active sympathy which might have been expected from Anglicans in the great Toronto diocese.

Whatever be the cause, the Episcopalians have not apparently been so generous as other church bodies in the complaints of non-support of important funds are well founded. At the same time much consideration is necessary for a new land, where the people have many demands made upon them.

In the huge and wealthy city of New York the magnificent cathedral of St. John is not making any greater progress comparatively than St. Alban's has made in Toronto. In fact Toronto has done rather better proportionately than New York.

A great deal of misunderstanding has been responsible, perhaps, for the lack of interest taken in St. Alban's. There is an impression abroad that it is only for the well-to-do and the especially distinguished. This is, of course, absolutely erroneous. A properly conducted cathedral is above all places the poor man's church.

The impression exists that the cathedral would become a stagnant resort for church officialdom. This is surely a misconception. It ought to become a centre of the most intense and earnest church life, from which inspiration would flow to all other churches throughout the diocese.

So far the cathedral has been hampered by lack of means, but this may be remedied. If Bishop Sweeney can combine his cathedral with the modern need of an institutional church, and make St. Alban's an ardent centre for church life in the great district in which it is situated, he will need to make very few more appeals for its support.

### CANADIAN CLUBS AND DOMINION DAY.

Moncton, N. B., Canadian Club has adopted a resolution which says:

"Whereas the first of July is recognized by statute, custom and observance as Canada's natal day, the anniversary of her birth as a Dominion;

"And whereas it is the aim and purpose of the Canadian Club to foster patriotism and develop an intelligent national spirit;

"Resolved, that Canadian Clubs wherever located be requested to more fully emphasize the historical importance of 'Dominion Day' and suitably commemorate the anniversary, with greater significance to the history, institutions, literature and resources of our country."

Acting upon it, the club will this year hold an excursion to Fort Beauséjour, one of the historic places of eastern Canada, where patriotic and historical addresses will be delivered.

The idea is to be heartily commended to the other Canadian Clubs throughout the country. As the Moncton Club points out, "this matter is of transcendent importance at a time when so many thousands of new citizens are being absorbed into our national life; citizens who are wholly ignorant of the history, constitution, laws, government and aspirations of our glorious Dominion."

Earl Grey is certainly the greatest of Canadian missionaries. The more he knows of Canada the greater is his confidence in her future, and in the quality of her people.

The decision of the railroads to make no reservations of sleeping berths except for cash down is in the public interest. But had it not been for the comments of the railway commission it would never have been made. Public service corporations are all desperately unwilling to adopt reforms which are not of their own initiative. That is an idiosyncrasy characteristic of officialdom in authority.

The Globe offers a very lame defence of the Quebec bridge blunder. To say that nowhere had a bridge of the span required been attempted is misleading, since the two main spans of the Forth bridge are each only some ninety feet less than the single Quebec span, and its large margin of safety could easily have carried the addition had it been necessary. American engineers laughed at the excessive strength of the Scottish structure, but the Quebec design erred seriously in the other direction. As in the case of the Tay bridge, stability was sacrificed to cheapness.

Canadian Catholics Overjoyed. LONDON, June 17.—(Rt. Rev. Francis Bourne, Archbishop of Canterbury, has received the following cable from Archbishop Bruchési of Montreal: "Canadian Catholics are overjoyed at Premier Asquith's announcement that he is confident the house of commons will modify the declaration to be taken by King George at his coronation. We hope the Eucharistic Congress, to be held at Montreal, may acknowledge the event."

## "I FEEL IT MY DUTY

### To Give You a Statement In Regard to 'Fruit-a-tives'"

Hardwick, Miramichi, N.B., Jan. 17th, 1910.

"I feel it my duty to give to you and the world an unsolicited statement in respect to the wonderful cure I received by taking 'Fruit-a-tives.' Chronic Constipation was the complaint I suffered with for years. My general health was miserable as a result of this disease, and I became depressed and alarmed. I was treated by physicians without the slightest permanent benefit, and I tried all kinds of pills and tablets, but nothing did me any good.

"I saw the strong testimonial in favor of 'Fruit-a-tives' by New Brunswick's 'Grand Old Man,' the Hon. John Costigan, and I knew that anything he stated was honest and true, and given only to help his fellow-men. I tried 'Fruit-a-tives,' and the effects were most marvelous, and now I am entirely well from all my Chronic Constipation that I suffered from for so many years. My general health is once more excellent, and I cannot say too much to express my thanks for the great benefits derived from taking 'Fruit-a-tives.'"

A. G. WILLISTON.

"'Fruit-a-tives' is not gotten up by druggists or expert chemists—who know nothing about disease and the needs of the human body—but is the scientific discovery of a well-known physician, and is the only medicine in the world made of fruit juices. 50c a box, 6 for \$2.50, or trial size, 25c. At all dealers, or sent, post-paid, on receipt of price by Fruit-a-tives, Limited, Ottawa.

### SAVE HENDERSON FROM ROPE

Court of Appeal Affords Last Hope to Peterboro Murderer.

Whether Robert Henderson is to be hanged on June 23 for the murder of an aged woman, Margaret Macpherson, will be decided by the court of appeal on Monday morning, the sitting starting at 11 a.m.

Judge Riddell, yesterday, in granting a stay of execution, intimated that he would ask the court of appeal: (1) Was I right in my charge as to insanity, and the onus of proof thereof?

(2) Should there, for any of the statements in my charge, be a new trial? At Henderson's trial, Dr. Clarke and Dr. Bruce Smith, called by the defence, swore that the prisoner was capable of appreciating the nature and quality of the act committed. Judge Riddell charged the jury that to reach a verdict of not guilty, it must be proved that the prisoner was laboring under disease of mind which prevented his knowing his act to be wrong.

Henderson, on March 30, went to a house near Peterboro, where the Misses Macpherson, aged sisters, lived, and attacked them with an ax. Miss Margaret Macpherson succumbed.

Re D. Kerr, K.C., for Peterboro, counsel for Henderson, claims that Judge Riddell misdirected the jury. Mr. Kerr emphasizes the fact that, after the jury had been out an hour, Judge Riddell called them back to give reminder that, if they found Henderson guilty, they could add a recommendation to mercy. In five minutes the jury returned with a strong recommendation for mercy.

Crown Sues for Property. Because Mrs. J. R. Gibson of 23 Crocker-avenue, when she died, left \$2000 worth of property to her husband, the attorney-general claims that the property escheats to the crown.

Mr. Gibson left the property to Thomas P. Stewart and Marjory Stewart, who are defendants in an action which was to have been tried in the non-jury assize court yesterday, but which is set for Wednesday.

### Rapid Progress Made in the Toronto Annexes.

The history of Toronto's progress has been almost one continuous advance in property values. The various annexations which have occurred since Toronto first became a city have all resulted in material advantages to the outlying districts which have through force of circumstances been compelled to coalesce with the larger municipality.

North Toronto is in a pretty much similar position to that of Parkdale before its annexation. The older citizens of Toronto will remember the remarkable progress made by the suburb after its entrance into the city, getting as it did at that time the benefit of the city's water supply. The development of Yorkville tells practically the same story and Old Brockton and other small portions of York Township which have been taken into the city are repetitions of the same thing.

With the large immigration now coming into Canada, promising extraordinary development in the Canadian West and in New Ontario, it is quite possible that the population of Toronto within the next five years may reach or surpass the half million mark. This would add at least 25 per cent. to the present population of the city and there must in such an event be a large overflow into the territory adjacent to the present city limits. Much of this would necessarily go into North Toronto, and under the circumstances the town's population could readily grow from its present number of nearly five thousand to twenty thousand. An increase of four times in North Toronto's population would create numerous civic problems such as only confront large municipalities.

With an eventuality of this kind in prospective there can be only one course, namely, that the responsibility of handling such a body of people should be with the Toronto authorities. A small municipality cannot undertake to carry out its obligations as cheaply as a much larger one, and it would be in the interests of the North Toronto people to become citizens of Toronto, thereby doing away with the dual civic administration.

### Single Court.

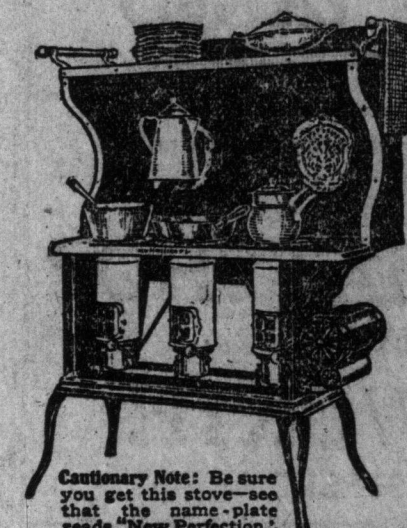

Before the Chancellor.  
Re Stokes—W. M. Charlton (Brantford), for executors. Grayson Smith, for Mrs. Stokes and Mrs. Anderson. J. E. Jones, for Mrs. Ayres. Motion by executors for order construing will of John Henry Stokes. Judgment: The question is whether Mrs. Anderson is devisee of the whole of the lot on Banfield-street, Paris, or whether there is an intestacy as to part of that lot. The interests of the widow are concerned. She is life tenant of the whole real property, but she may have additional rights if there is partial intestacy as to land. I think jurisdiction attaches under the rule to construe this will. At the date of the will the testator and wife lived in his house on Banfield-street, and the description would cover the dwelling and the land occupied therewith. Between making his will and his death he added two rooms to original house and removed a barn from rear of lot and turned it into a house. These changes do not change the area of the property described and identified in the will; he was still at his death living in the dwelling on Banfield-

### AN UP-TO-DATE STOVE

Do you realize there is no longer any reason why you should use a coal range? Oil is cheaper than coal; it is lighter and easier to handle, and gives an intense heat. Provided you have the right stove, oil is more economical, cleaner and less trouble. Have you seen the

## New Perfection Oil Cook-stove

The accompanying illustration gives you only a rough idea of its appearance. You really can't appreciate it until you either use it yourself, or talk to someone who has used it. It does everything that a coal range will do—except heat the room. The New Perfection Oil Cook-stove will do anything, from heating a

kettle of water to cooking a course dinner, but it won't heat a room. It doesn't "smell," it doesn't smoke. It can't get out of order. Light it and it is ready. Turn it down and it is out. Only a woman who knows the trouble of carrying coal and cooking in a hot kitchen can appreciate what it means to have a clean, perfect stove that will cook anything, boil, bake or roast, and yet won't heat the kitchen. How is it done? The flame is controlled in turquoise-blue enamel chimneys, and directed against the bottom of pot, pan, kettle or anything, only three. The flame operates exactly where it is needed—and nowhere else. With this stove your kitchen is cool.

The nickel finish with the bright blue of the chimneys makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

STORM AT PETAWAWA  
Also Couple of Accidents and Outbreak of Measles.

PETAWAWA MILITARY CAMP  
Ont., June 17.—(Special.)—General Sir John French and Major-General Sir Percy Lake will inspect Petawawa Camp to-morrow.

The Toronto company of engineers have connected their camp with Petawawa by telephone, and it is now possible to telephone between there and Toronto by long distance.

The camp was visited by a terrible thunder shower and high wind to-day, which put a stop to all drill and blew down many tents. The large marquee of the Y.M.C.A. was blown down, but no one was injured, nor was the stock damaged.

The Toronto Field Battery made good practice with shrapnel-shell to-day, at the ranges.

A trooper of the 4th Hussars was kicked by a horse and has his leg broken. The ambulance of the Army Medical Corps was on hand in a short time.

Measles have broken out in camp, but of a very mild type.

A wagon of the Army Medical Corps of Kingston was dashed to pieces against a boulder whilst traveling at a gallop. The corporal in charge of the cart was seriously injured.

QUEEN'S OWN OLD BOYS  
FLOCKING TO THE CITY

Already About a Thousand Have Registered—Route of To-morrow's Church Parade.

Ex-members of the Q.O.R. will register at headquarters, 68 East King-street.

Every member in Toronto is asked to parade on Sunday at the armories at 2 p.m. for divine service.

An invitation is extended to all to visit the smoker at the armories, to-night.

Former members of the Queen's Own, about 250 in number, called in at the new office opened up by the reunion committee at 68 East King-street yesterday in order to register, and to be present at the coming pageant, which celebrates the first fifty years history of the Queen's Own Rifles.

The register shows ex-officers and privates returned from all parts of Canada, and the States to be present at the semi-centennial celebration. Altogether about 1000 men had registered by 9 o'clock last evening.

Probably the oldest of the members who registered yesterday was John Cody, of 1202 York-street. He was a member of an independent company in 1859, before it affiliated with the Queen's Own.

A great number arrived yesterday from the west on the afternoon train. Among these were Capt. P. D. Hughes, who was with the company from 1880 to 1888; Corp. G. Macenzie, Fort William, with Company D, from 1893 to 1898; Corp. E. H. Peters, Winnipeg, with Company F, from 1891 to 1896; and E. H. McAnnis, Boise, Idaho, with Company H, in 1893.

The route of the parade will be as follows: From armories south to Queen, west on Queen to Spadina, north on Spadina to College, east on College to University-crescent, north on University-crescent to the campus, where the service will be held. Re-turning thru the university gates into Queen's Park and south thru the park to University-avenue to the armories.

A feature of this service will be the roll call of the Queen's Own men who have been killed in service during the last 50 years. The solemn strains of "Last Post" will be played, and the list of the dead.

STRATHCONA'S GENEROSITY  
Gives Large Sum to Assist Winnipeg Fair.

WINNIPEG, June 17.—(Special.)—The Winnipeg Industrial Exhibition Association to-day received the largest individual money gift in its history from Lord Strathcona, the amount has been withheld by the directors at the desire of the donor. It is understood, however, that the gift marks a unique record of its kind.

Only a few months ago Portage la Prairie Fair was remembered by Canada's high commissioner to the extent of \$2000.

GLOBE EDITOR MEETS BORDEN  
And Wishes Him Luck—Incident at Garden Party.

ST. THOMAS, June 17.—(Special.)—When this afternoon's picnic in Avonlea Park was concluded, R. B. Borden, Judge Doherty and party were taken in tow by Tom Crothers, M.P., and David Marshall, M.P., and driven in automobiles to St. Thomas. Ten cars were required to carry the contingent.

The rural telephone spread the news along the Talbot-road and here and there salutes were exchanged with groups of admirers.

On arriving in St. Thomas, the party were driven to the residence of Mr. Crothers, where a garden party had been arranged, and as Mr. Borden approached, the band started up "See the Conquering Hero Comes."

The unexpected arrival of J. A. Macdonald, editor of The Globe, caused the remark to be passed with a laugh that "the lion and the lamb lie down together."

"Good luck to you, Mr. Borden," said the editor, as he grasped his hand.

The adjoining home of Dr. Kennedy was also thrown open to accommodate the crowd of several hundred.

The King Edward Hotel are serving excellent lunch or dinner at one dollar.

Splendid orchestra playing during meal.

## SYNOD NOT OF MIND ON SUNDAY TOBOGGANING

Dean Cayley Leads an Opposition to Resolution Asking That Amusement Be Prohibited.

The High Park toboggan slides, usually associated with winter sport and zero weather, yesterday afternoon provided the Anglican Synod with one of the most heated debates in the closing hours of the session. Sunday tobogganing has long been a popular pastime with many people, and even the clergy could not agree yesterday on the recommendation that precipitated the discussion.

In view of the growing use of High Park toboggan slides on Sunday, your committee would urge upon the synod the necessity for a strong protest being made to the proper authorities that this winter sport be not permitted on this public property on the Lord's Day. During the past winter, at the hour of morning service, a great and ever-growing number of young people, in toboggan suits and with toboggans and non-sleighs, etc., could be seen winding their way from every direction to the slides, where, under police protection, they spent the most of Sunday in this regard. We feel sure that the Christian sentiment of the people, and if we remain so it must be by holiness not by humbug. If Mr. Blake had lived during the inquiry he could have made a peculiar people, and if we remain so it must be by holiness not by humbug. If Mr. Blake had lived during the inquiry he could have made a peculiar people, and if we remain so it must be by holiness not by humbug.

Called It Humbug.  
"This is humbug," said Rural Dean Cayley in criticizing Hon. S. H. Blake's support of the resolution. "We are a peculiar people, and if we remain so it must be by holiness not by humbug. If Mr. Blake had lived during the inquiry he could have made a peculiar people, and if we remain so it must be by holiness not by humbug. If Mr. Blake had lived during the inquiry he could have made a peculiar people, and if we remain so it must be by holiness not by humbug."

His lordship intimated, and urged that anything in the nature of personalities be kept out of the discussion.

Would Make Things Worse.  
"We are simply wasting the time of the synod discussing trivialities," Dean Cayley continued.

A voice: "They're not trivialities," Dean Cayley said. "They are trivialities. I would not say such a resolution as this would only result in even more un-Christian conduct on the Lord's Day than there is at present. We shall not say that people shall not use our property on our toboggan slides on Sunday."

Rev. Frank Vipond: "I hate to be a hypocrite, and I must object to this. Why pick out one particular evil and then violate the Sabbath in other and worse ways?"

Dean Cayley then moved an amendment that the clause referring to the High Park slides be struck out, but on being put to a vote the amendment was lost. Turning to Dean Cayley, Mr. Blake extended his hand, saying: "Here's a hand, I don't make a fool of myself again."

Should Clubs Have Liquor?  
The question of club licenses was another source of dissension, and many of the clergy opposed the abolition of the club license, which was a moral reform committee objecting to all club licenses," said H. **Ford's Great Record.**  
The following is Russell Ford's great work in the box for New York this year. In all his games but one, the former Skeeter twirler has been handled by Sweeney, who caught him while with Atlanta. With Sweeney catching Ford has won all his games, six eight, while the only one he lost was at Detroit last Sunday, when errors behind him lost the game in ten innings. Fred Mitchell did the catching in this game. The record: Teams, Dates and Batteries. R.H.E.

## OLAMBALA THE WINNER SHEEPSHEAD SUBURBAN

Prince Imperial Second With the Favorite, Ballot, Third  
—Summary.

SHEEPSHEAD BAY, June 17.—In the presence of a crowd numbering a little over 500 persons, R. T. Wilson Jr.'s Olambala easily won the Suburban Handicap, 1 1/2 miles, here today, defeating a very high-class field of horses. Six lengths behind the winner came the Woodhaven Stables' Prince Imperial, with Ballot, belonging to J. R. Keene, the favorite, third, a nose away.

The pace was remarkably fast from start to finish and when the time, 2:04 2/5, was being out, many thought the time was wrong, as the track was wetlock deep in mud.

The start was poor, Olambala and Ballot breaking in a close bunch behind. At the turn into a close bunch behind. At the turn into the stretch Ballot was joined by Prince Imperial, but almost immediately Archibald began to ride Olambala and the bay horse, responding gamely, came with a rush on the outside, and catching the leaders at the furlong pole, took the lead and won galloping by six lengths. Archibald and Olambala were given a great reception when they returned to the scales. Summary:

FIRST RACE, 1 1/2 miles, handicap, 2-year-olds and up, \$500 added, 5 1/2 furlongs, main track.

FINE TRIP ON LAKE.  
Hamilton Steamboat Company Offer Fifty Cent Rate on All Boats.

For the Saturday holiday the Hamilton Steamboat Company have arranged special trips on the Modjeska and Macassa in order to accommodate the special traffic. These fine Clyde built boats will leave Toronto at 9 and 11 a.m., and 3.30 and 5.30 p.m., with an extra trip returning from Hamilton at 8.30 and arriving at Toronto at 11 p.m. On all the trips the fifty-cent return fare will obtain. Passengers on the 5.30 p.m. trip can enjoy a moonlight sail and still be able to return to their homes at 11 p.m. at the fifty-cent return fare.

Will Lease Hudson Bay Railway.  
OTTAWA, June 17.—While the Dominion Government will build the Hudson Bay Railway it is more than probable that it will be leased to one of the existing railway companies. Owing to the climatic conditions the road cannot be operated for many months of the year, and the rolling stock in that period would be idle if the line were run by the government itself.

## SPLENDID PRODUCTION OF SHAKSPEARE COMEDY

Promised at the Royal Alexandra  
Next Week by the Percy  
Haswell Players.

The Percy Haswell Players are  
building much upon their presentation  
of Shakspeare's delightful comedy, "As  
You Like It," which will be seen at  
the Royal Alexandra Theatre next  
week.

The members of the company know  
that they are capable of giving this  
comedy in a manner which will be  
satisfactory to all who witness the  
performance. It is not a new thing  
for a try-out with them because all  
of them have had experience not only  
in "As You Like It," but in other  
plays of Shakspeare. Miss Haswell,  
who will play the role of Rosalind,  
has been praised enthusiastically by  
the press and public in all the larger  
cities in the United States for her  
capable interpretation of the role.

For the past two weeks a score or  
more of scenic artists and stage me-  
chanics have been busy preparing the  
production, which will equal any ever  
given in Toronto.

Miss Haswell uses the version of the  
late Augustin Daly, which calls for  
more fore detail than do others which  
have been presented here. "As You  
Like It" is so well known that it is  
needless to dwell upon the story. All  
lovers of Shakspeare remember the  
characters: Jacques, Charles, the  
wrestler, Orlando, and Touchstone,  
and there are also the "Seven Ages  
of Man," those noted soliloquies, which  
will be quoted as long as the English  
language lives.

The players' production of "As You  
Like It" will probably be one of the  
most realistic which has been seen  
here, as nothing has been left un-  
done to make it so. A novelty will be  
a flock of sheep, which will add much  
to the sylvan and idyllic atmosphere  
of the forest, and another feature  
which will add realism will be the  
wrestler, who is not only a capable  
actor, but also a trained athlete, and  
the wrestling bouts should make the  
scene one of the features of the play.

Another special feature will be the  
incidental music, and the old English  
songs which will be fittingly staged  
and carry with them traditions as laid  
down by the author. The prices for  
next week will remain the same;  
evenings and Saturday matinees  
at \$2.00 (reserved seats both balconies  
25c). For the Wednesday matinee  
every seat in the theatre will be 25c.

**Langford-Flynn Fight Pictures.**  
Toronto fight fans will be given an  
opportunity next week, when the Star  
opens for a week with the Langford-  
Flynn fight pictures. The pictures are  
training camp, to figure out what kind  
of a chance Tommy Burns, Canada's  
greatest exponent of pugilism, has  
against Sam Langford, the Boston tar  
baby. They will also have an oppor-  
tunity of seeing just what condition  
Jack Johnson, the heavyweight cham-  
pion of the world, is in and how he  
stacks up with James J. Fiske, the  
big brawler. The pictures of the  
Langford-Flynn contest show every-  
thing from the training quarters to the  
knockout in the eighth round, when  
the Puerto Rican fighter, Fiske, de-  
feats, while the Johnson pictures, taken  
ten days ago, show the big champion  
just about as he will be when he en-  
ters the ring July 1 to defend the  
championship title.

## WHAT STATE IS DOING IN CARE OF CHILDREN

Seventeenth Annual Report of the  
Ontario Department of  
Neglected Children.

The 17th annual report of the depart-  
ment of Neglected and Dependent  
Children of Ontario has just been is-  
sued, and with its 185 pages, liberally  
illustrated, is the largest report of its  
kind published anywhere. Supt. J. J.  
Kelso, in his preface, says in part:

"While endeavoring to protect every  
child in this province from neglect,  
cruelty and harmful training, and re-  
moving them, where necessary, to  
more favorable environments, the ex-  
perience of many years leads inevitably  
to the belief that to secure the most  
satisfactory and permanent results, the  
child must be considered as an integral  
part of the family, and all be helped  
together.

"Some of the matters that have been  
considered and discussed in various  
ways have been the following: The  
abolition of promiscuous charity; a  
view to the elimination of pauperism;  
the interesting of the public in the  
conditions of the country, such as the mu-  
nicipality, the church, the police force  
and business men in the modern con-  
ception of social service; the wiping  
out of slums; the providing of a better  
type of working men's homes with san-  
itary conveniences; the closing of alleys  
and by-laws; the securing of a better  
type of proper living space; the es-  
tablishment of numerous small super-  
vised playgrounds; the medical and  
dental inspection of children; more  
practical instruction in public schools,  
having in view the vocation in life of  
the pupil; suppression of child labor  
and at the same time, the inauguration  
of an apprenticeship system and the  
requiring of children over school age  
to learn some trade or useful industry.

"The report of the department is  
divided into two parts. The first part  
contains a summary of the work of the  
department during the year, and the  
second part contains a detailed account  
of the work of the department during  
the year, and a summary of the work  
of the department during the year.

"The main object of the Children's  
Aid Society is not to take children  
from their parents, but by kindly ef-  
fort, and, if necessary, legal action, to  
bring about sobriety, cleanliness and  
moral living for the sake of the child-  
ren of the future. But there are occasions  
when these efforts are of no avail and  
the children have to be removed for  
the sake of their own future and for  
the protection of society. Some five thou-  
sand and five hundred children have  
been received under the society's guard-  
ianship from the lowest possible surround-  
ings and transferred to comfortable  
homes, and less than two per cent. of  
these children have gone back to the con-  
ditions from which they were rescued.

"As showing the need for continued  
activity in rescuing such children, a  
family might be mentioned in which  
two parents and a brother and sister  
were all in penal institutions for vari-  
ous crimes, and the society had been  
asked to take the younger children so  
that they might not grow up in the  
same way."

**Next Week's Conference.**  
Next week the eleventh annual meet-  
ing of the Canadian Conference of  
Churches and Correction will be held  
in Guelph, opening on Tuesday, and  
concluding Friday morning. On Thurs-  
day evening, Sir Louis Davies, judge of  
the supreme court at Ottawa, will pre-  
side.

Other speakers during the confer-  
ence will be J. P. Downey, M.L.A., Har-  
ber, Bowness, and others. The confer-  
ence is being held at the Hotel  
"Commitment to a House of Refuge."  
Mr. O'Sullivan, superintendent of the  
Mercer reformatory, on "Importance of  
protecting 'frivolous' and 'immoral'  
girls." Mr. Albert Chamberlain on "The  
immigrant as a future citizen." Hon.  
W. J. Hanna, Dr. Harris Cooley of  
Cleveland, O., on "The poor and crim-  
inal of a great city." Warden Gilmore  
of the Central Prison, Rev. Dr. Chown  
on "The church member's responsibil-  
ity for social conditions." Police Chief  
Stuart of Hamilton and Supt. Inspector  
Kennedy of Toronto on "The police  
force as a social reform agency." Sec-  
retary Spence of the Dominion Alliance  
on "After prohibition, what?" Mr. Col-  
purne, S.A. on "The reformation of  
the criminal." Hon. Adam Beck on  
"The fight against tuberculosis." Dr.  
Roberts, M.H.O., Hamilton, on  
"Serving the health of a city." Miss  
Nelson of Toronto, on "The work of  
a visiting nurse amongst the tubercu-  
lous poor." Rev. Dr. Turnbull of To-  
ronto on "Charity, its use and abuse."  
Rev. Dr. Strachan of Toronto, "The un-  
deserving poor." J. H. Crocker on "Su-  
pervised playgrounds." A. W. Beall,  
Whitby, on "Hegality of education."  
Mr. J. L. Rogers, Toronto, on "Work  
among children." Dr. Williams,  
Woodstock, on "What the province is  
doing for epileptics." and Dr. Con-  
woodstock on "Need of organized  
charity."

**BARGAINS AT SCARBORO BEACH**  
Series of Commutation Tickets for  
Amusement Devices.

Hereafter every day will be bargain  
day at Scarboro Beach, for there will  
be immediately placed on sale at the  
entrance gates four different commu-  
tation tickets, any one of which will be  
found a profitable investment. One  
ticket, which sells at 25 cents, entitles  
the bearer to admission to the park  
itself, the scenic railway, the carousel,  
the Johnstown flood, the cascades and  
the trolley. Another ticket at the same  
price provides the purchaser with ad-  
mission to the amusement devices, the  
electroscop, the carousel, the trolley  
and the human butterfly.

The 35 cents ticket includes the at-  
tractions specified, with the aerial  
swings and the house of nonsense in  
addition.

The 50 cent ticket permits the visitor  
to see the very best of the park's  
features, as it includes the attractions  
already mentioned, together with sev-  
eral additional ones, giving practically  
a dollar's worth of amusement for half  
price. Freddie Cunningham, the boy  
wonder, will twice each day give his  
thrilling performance on the high wire  
at Scarboro Beach next week. This  
youthful artist has shown a fearless-  
ness of an experienced and a fear-  
lessness that the envy of his older com-  
petitors. His feats are of the most  
difficult and dangerous character.

## TONIC TREATMENT FOR INDIGESTION

The Process of Digestion is Con-  
trolled by the Blood and Nerves

If you have indigestion and you be-  
gin a course of treatment to make  
your stomach stronger, you are on the  
right track for a real cure. You can  
never cure yourself by eating predig-  
ested foods, or by taking purgative  
medicines. The stomach is not doing  
its own work under these treatments  
and there can be no real cure until  
the stomach is strong enough to di-  
gest all the food necessary to main-  
tain the body in normal health. The  
great aim of the tonic treatment for  
indigestion in all forms is to strength-  
en the stomach to a point where all  
foods eaten will digest easily and nour-  
ish the body. A tonic that will  
strengthen the stomach is what is  
needed, as the process of digestion is  
controlled by the blood and nerves.  
Dr. Williams' Pink Pills are an ideal  
tonic. They actually make new, rich  
blood, and thus bring strength and  
tone to the stomach. This has been  
proved over and over again, and thou-  
sands of grateful people have not hesi-  
tated to say so. Here is an instance:  
Miss Eva Tocher, Balmoral, Man.,  
says:—"I am writing this letter on be-  
half of my mother, who wishes you to  
know how much Dr. Williams' Pink  
Pills have done for her. For several  
years she has been greatly troubled  
with indigestion, and notwithstanding  
the medicine she was taking the trou-  
ble was growing worse. Every meal  
was dreaded, and left behind it a feel-  
ing of nausea and severe pains. As  
this continued she began to lose  
strength and energy, and was hardly  
able to do any housework. Acting on  
the advice of a friend she began to  
take Dr. Williams' Pink Pills, and soon  
began to feel better. She continued  
taking the Pills until she had used ten  
boxes, when her health was fully re-  
stored, and she could take any kind  
of food without the least discomfort.  
Since that time she has not had the  
slightest return of the trouble.

Thousands of cured men and women  
speak from experience of the benefits  
derived from Dr. Williams' Pink Pills  
in cases of indigestion, anaemia,  
rheumatism, general weakness, pains in  
the back and side, neuritis, St. Vitus'  
dance, and the troubles that afflict  
women and growing girls. These pills  
are sold by all medicine dealers or by  
mail at 50 cents a box, or six boxes  
for \$2.50 from Dr. Williams'  
Medicine Co., Brockville, Ont.

**A DARING PERFORMER**  
The Great Holden Does Death Defying  
Stunts at Hanlan's.

"He is the most wonderful performer  
I ever saw." This is the unanimous  
verdict of the immense crowds who  
have seen the sensational perform-  
ance of "The Great Holden" at Han-  
lan's Point this week, where this  
sensational performer is giving his ex-  
hibition free every afternoon and even-  
ing. Holden, on a bicycle, rides down  
a long and narrow pathway from a  
high height, and the finish, with a  
terrific leap he makes a large wheel,  
around which he flies with such a speed  
that it is almost impossible to watch  
his course.

Shortly afterwards, this same daring  
chap, not satisfied with what he has  
already accomplished, ascends to a  
small platform at a height of great-  
ly over 100 feet, from which he dives  
backwards, turning a somersault in  
midair, into a small tank of shallow  
water. Both these feats are not only  
thrilling, but easily be termed  
death-defying. Owing to Holden's great  
success, and the large crowds he has  
drawn this week to Hanlan's Point, he

"I save money each year for  
'Economy' owners—the coal bill shows it."

My "Economy" employers are the lucky ones. Why I have attended one "Economy" Furnace for 10 years. No expense for repairs, no bother, no worry—just absolute heating satisfaction, year in and year out. It's because it's built right—every section from heavy, durable material, in the most scientific design. Take the firepot—its peculiar shape makes for fuel saving. It widens slightly at the bottom. The fuel cannot become congested, smothering the fire. It settles evenly and loosely on the grate. Every particle is consumed—every possible heat unit extracted. No waste—no ashes to sift—the "Economy" cuts out that dirty, disagreeable, expensive job. For economy sake you should know more about the Pease heating system. Investigate "Economy" features. ### MUSICIAN SUICIDES

Former Kingston Man Puts Bullet in His Head.

KINGSTON, June 17.—(Special.)—Leaving a note saying he was in financial difficulties, Frederick Wistz, aged 40, of Ogdensburg, N.Y., a former Kingstonian, fired a bullet into his head at the Troquois Hotel at noon, and died three hours later. His wife is in Beaverton, N.Y. Deceased was a shoemaker, and musician, playing in the Grand Opera House orchestra and in the 14th Regiment band.

"Sorry for you, my dear wife, but think this is the only thing I can do," read a note left to his wife. He pray-

ed that God would have mercy on his soul, and asked that the Oddfellows take charge of the funeral.

The intense heat is felt at Barfield camp, and several men have been prostrated by it.

### NEWMARKET.

Heavy Electrical and Rainstorm Sweep Over Town.

NEWMARKET, June 17.—(Special.)—A heavy electrical storm, accompanied by a deluge of rain, swept over the town and a large district of country here this afternoon. The lightning was especially vivid, and during the progress of the storm, lasting about half an hour, a number of cellars in town were more or less flooded. To the north and east many of the telephone lines were temporarily disorganized, and it is not known whether any damage resulted to crops and buildings.

ACTING MAYOR WARD  
SAYS 'GIVE THEM WATER'

Holds Out Olive Branch to North-  
ern Suburb—Sentiment Fav-  
ors Union—County.

NORTH TORONTO, June 17.—(Special.)—The annexation movement gathers weight and momentum from hour to hour and to-day's expression of approval from Controller Ward favoring the sale of water to the town, coupled with Engineer Rust's statement that the city is in a position to give service on the laying of the main, has led to a feeling of satisfaction.

The movement, which originally contemplated that it looks now as though an overwhelming sentiment would encourage the council and committee to go even further than originally contemplated and treat with the city along annexation lines.

Mayor Brown could not be reached to-night, but the will of the acting mayor and the city engineer to grant the committee's request is understood to have given his worship a good deal of satisfaction. There never was a time in the history of the two municipalities when conditions were so favorable for annexation.

Commenting on the matter yesterday Acting Mayor Ward said the union was only a matter of time, and it would be wise to proceed in the meantime with the plan for connecting the two systems.

A well-known citizen, commenting to-day on Councilman Murphy's statement that the defeat of the Stubbard bylaw was a bad day's work for the town, said: "It looks to me and lots of others now that Councilman Murphy did a good thing for the town when he threw down the sewerage bylaw on the third reading, and an equally good thing was done by the ratepayers when they threw down Councilman Murphy's pet scheme for buying the Stubbard property. The only logical solution is for us to join forces with the city and round off the north end as a suburb, instead of going to the top of the big hill. It's bound to come, and that in the immediate future."

A business man, who knows the town like a book, said: "At the joint conference on Tuesday the town committee ought to go a little further than the question of water supply and sound the city along annexation lines. Sentiment in the town would undoubtedly support them. Let us get down to business at once."

The town was shocked to-day when the news became generally known that Francis Robinson, a well-known and highly respected citizen, had died suddenly in head office of the Bank of Commerce in the city. Deceased was head bookkeeper at the Russell Hardware Company on King street and had only left the store a few moments previously. Heart failure was given as the cause. Deceased leaves a widow, but no family.

Daviesville Fire Co. No. 2 to-night elected Frank Murphy as captain and F. Ludford, lieutenant, to replace two resignations. Seven new members were enrolled. In connection with the firemen's tournament at Welland on Aug. 2 it is proposed to take the band along. The date of the annual picnic was fixed for Saturday, Aug. 1, in the Waterworks Park, and the various competitions were arranged. Chief Collins presided.

On Monday at 10 a.m. Magistrate Ramsden will dispose of about eleven minor indictments of muzzling and other bylaws.

Messrs. Waddington and Grundy report the sale of 50 feet at the corner of Eglinton and Bessborough to Joe Edward, 50 feet at Sherwood avenue to Mr. Maude of Toronto and house on Montgomery avenue, formerly owned by Leonard Horle. Part of the Smith property at the corner of Yonge and Woodward has been sold to Mr. R. G. McMurry, but the latest big deal reported is the sale of two houses on Emerald crescent and a vacant lot, all for \$10,200.

Miss Mabel A. Burnham was tendered a surprise party by a number of her friends last Thursday evening.

On Monday in the Masonic Hall the supreme grand secretary of the Maine and Daughters of England, Lemoine, will open a branch lodge, and will be assisted by Past Supreme Grand President Sister Alice Lloyd.

On Saturday afternoon the Eglinton Presbyterian Church will hold their annual picnic at Duncan's Flats, 3 miles east of York Mills.

Tuesday evening the Comet Tennis Club will convene to discuss applications for membership, and also the question of holding tournaments during the season.

ACTING MAYOR WARD  
SAYS 'GIVE THEM WATER'

Holds Out Olive Branch to North-  
ern Suburb—Sentiment Fav-  
ors Union—County.

NORTH TORONTO, June 17.—(Special.)—The annexation movement gathers weight and momentum from hour to hour and to-day's expression of approval from Controller Ward favoring the sale of water to the town, coupled with Engineer Rust's statement that the city is in a position to give service on the laying of the main, has led to a feeling of satisfaction.

The movement, which originally contemplated that it looks now as though an overwhelming sentiment would encourage the council and committee to go even further than originally contemplated and treat with the city along annexation lines.

Mayor Brown could not be reached to-night, but the will of the acting mayor and the city engineer to grant the committee's request is understood to have given his worship a good deal of satisfaction. There never was a time in the history of the two municipalities when conditions were so favorable for annexation.

Commenting on the matter yesterday Acting Mayor Ward said the union was only a matter of time, and it would be wise to proceed in the meantime with the plan for connecting the two systems.

A well-known citizen, commenting to-day on Councilman Murphy's statement that the defeat of the Stubbard bylaw was a bad day's work for the town, said: "It looks to me and lots of others now that Councilman Murphy did a good thing for the town when he threw down the sewerage bylaw on the third reading, and an equally good thing was done by the ratepayers when they threw down Councilman Murphy's pet scheme for buying the Stubbard property. The only logical solution is for us to join forces with the city and round off the north end as a suburb, instead of going to the top of the big hill. It's bound to come, and that in the immediate future."

## SHELBOURNE FARMER KILLED

**John Marshall Fatally Hurt in a Runaway.**

SHELBOURNE, June 17.—John Marshall, a well-to-do farmer, living about one mile north of Shelburne, lost his life as a result of a runaway this afternoon.  
He was working on the road unloading gravel, when an automobile approached, owned by Dr. Cowan of Hornings Mills. The horses became frightened and ran away.  
Marshall, who was standing on the whiffletrees at the time, was thrown on the tongue of the wagon and dragged for some distance. He only lived a short time after the accident.

## C.P.R. TELEGRAPHERS' WAGES

Deputation at Montreal to Ask for an Increase.

MONTREAL, June 17.—A large deputation of operators in the employ of the Canadian Pacific Telegraph department, waited on D. McNeill at the C. P. R. headquarters to-day in regard to a dispute between the company and the men over wages and other matters.

The delegates asked for increases amounting to about 17 per cent. That offered by the company represented from 8 to 10 per cent., and made no discrimination for length of service. The company further maintained that even now it is paying five per cent. more than any other telegraph organization in the Dominion and a rate equal to that in the United States.

## Realty and Building

The Toronto Western Hospital. The board of governors of the Toronto Western Hospital have awarded the contracts for the central wing of the entire plan for their new building and they expect the building to be commenced within the next few days and the building to be completed before the end of the year. The new wing will consist of a semi-basement and four stories and will contain a number of very attractive private wards, the offices and two well equipped operating rooms. It is expected the wing will cost \$50,000.

June is proving a very lively month in building circles in Toronto as this list of permits issued by City Architect McCallum shows. On Thursday of this week no less than 150 permits were issued. This is a record day, the average number being between 45 and 50 a week as a whole will also show up well.

It has been rumored for some days that some big interest has been buying property in South Parkdale in the vicinity of the Grand Trunk Railway tracks, and it has now been announced that it is the railway itself. The building has been done very quietly but it is stated the railway have secured all the land necessary for their traction extension to Sunnyside west of Dufferin-street, with the exception of six properties. It is known that large prices have been paid in certain instances and the general opinion is that some property owners have been trying to hold up the company in their demands. Some turnovers, however, were quite reasonable.

The purchase on both the north and south sides of the tracks amounts altogether to about half a million dollars. The new plans, to accomplish which the company has bought up the property, will greatly reduce the curve, and it is stated that the new track starting at Dufferin-street will be considerably more to the south than the one at present in use.

Wayward Son's Punishment. OTTAWA, June 17.—For stealing a \$100 gold watch from his mother, Jos. A. Chevrier will spend the next two years in Kingston penitentiary. His mother said in court to-day that the boy had been working for four months, that all told she had given him \$4000, but that he persisted in loitering around and would not work.

## ITALIAN WHO SHOT A MAN IS ARRESTED IN TORONTO

Admits Having Killed Comapatriot in Bury Near Parry Sound. In Progress of Quarrel.

While Inspector of Detectives Duncan will divulge no more of the statement made to him thru Interpreter Frank Motta by an Italian, Joseph Pisani, arrested at the Union Station upon arrival of the C.P.R. train from Muskoka yesterday, charged with the murder of Raphael Domestico, a fellow countryman, during a quarrel near Poote's Bay Wednesday afternoon, than that he is the man wanted, it is learned that Pisani admitted that he shot Domestico during the progress of a fight between Pisani and Bias Felucio, known as "Rocio." He declared that this "Rocio" and the dead man were staying in the camp on a visit, that there was considerable drinking and that about 3 o'clock Wednesday afternoon a fight began. Domestico intervened during the fight, for his own life, he grabbed a shotgun to shoot "Rocio," but the charge struck the peace-maker, who dropped to the ground dead.

Pisani fled into a nearby wood and a couple of hours later made his way to a still greater wood, where he wandered about all Wednesday night and all Thursday, and until about 5 o'clock Friday morning, when he came upon the railway track and made his way to a little station. There he boarded the train and came to the city, when he was arrested by Policeman Reburn at the conductor's suggestion. He was very first and weak, having had only some bread and tea, which he got at a little shanty during his long tramp.

Inspector of Provincial Police Rogers was surprised to learn that a man was so soon in custody, as Constable Connors of Parry Sound, with a posse, was still surrounding the first woods entered by the fugitive. Pisani had no weapons. He was roughly dressed and was very badly bitten by black flies. He was well provided with money, having nearly \$100. He is understood and about 35 years of age. He says that he comes from Serbia, Santa Bruno, in the Province of Cattaro, Italy, and that he came to Canada a year and nine months ago, leaving a wife and two children in Italy. Since then he has lived near Huntsville, near Poote's Bay. He is a woodcutter.

Certificate Will Save Them From Cross-Examination.

OTTAWA, June 17.—(Special.)—A new departmental regulation has been devised which will have effect of relieving Canadians returning from Great Britain from having to answer questions asked. Under the new regulations the agent of steamship companies on this side, when selling a ticket to a Canadian, will issue to the purchaser a certificate to the effect that he is a resident of this country. On the return journey all that will be necessary for a Canadian to do is to present this certificate.

A Brother's Heroism. CHEATAM, June 17.—The residence of Mr. Bell of Tupperville was burned to the ground last night, and Bell's two sons, who were sleeping in the house at the time, had a narrow escape from death.

The elder boy awoke to find the place in flames. He rushed to the room where his brother was sleeping and got him out safely, although he may lose his own eyesight.

Poisoned by Horse's Breath. LONDON, Ont., June 17.—Dr. Jos. L. Scott, V.S., one of the best known horsemen in western Canada, died this morning after three months' illness with blood poisoning in throat. While attending to a sick horse he inhaled its breath, and infection immediately developed in his throat.

Dry Transfers at Ottawa. OTTAWA, June 17.—A free distribution of saliva on Ottawa streets is to cease. Superintendent Hutchison has ordered the conductors not to wet their finger tips when drawing a ticket or a transfer from a bunch. This order is being made at the request of the board of health.

## Andrews Gardens The Classic Residence Park

Choice home sites for the man who desires to live within easy striking distance of the business district—are daily becoming scarcer. This is the last of the Rosedale. Everything to the south is practically built up.

The Gardens with a central island surrounded by a boulevard roadway with approaches at the eastern and western boundaries, embellished by ornamental stone and iron gateways.

These magnificent lots of various frontages and depths—subject to suitable building restrictions—are but a few minutes' walk from the Church Street cars over the Glen Road bridge.

Water—gas—electric light—sewer—sidewalks and roadways are all arranged for and work of installation will be begun in July.

To the discriminating purchaser—St. Andrews Gardens leaves nothing to be desired in the way of advantages or price. If you are interested—make an appointment for us to motor you up to the property. Send us your name and full particulars.

## MR. BORDEN AT AYLMER HAD A GREAT MEETING

Three Thousand at Park to Hear  
Him Condemn Government Ex-  
travagance in Transcontinental.

AYLMER, June 17.—(Special.)—East Elgin furnished to-day the largest meeting so far in the present tour thru Ontario of R. L. Borden. The crowd which thronged around the platform in the town park numbered fully three thousand. Besides an elaborate display of flags and bunting, political mottoes were hung at different places in the park, such as "Honest administration of public affairs," and "Unswerving loyalty to the British Crown." A band was in attendance and the schools were closed.

Mr. Borden's speech to-day was mainly centered upon the tremendous cost of the transcontinental railway, the discrepancy between Sir Wilfrid Laurier's original estimate of \$13,000,000, and an ultimate expenditure of \$28,000,000, together with a review of the various geological phenomena whereby the contractors found a few thousand cubic yards of gravel increase in a short time to millions of cubic yards of loose and hard rock.

Four Times More Than Estimated. He was not disposed to deny the advantages of the transcontinental railway, but the money involved, in view of the estimate, coupled with obvious mismanagement and incompetence, were circumstances for which the Laurier Government should be called upon to answer.

"The road will cost the country at least four times the amount estimated by the government when the contract was forced thru parliament. No reasonable explanation, nor indeed any explanation has been given of this enormous increase," declared Mr. Borden, who, after a reference to the numerous enquiries made of the last session, said: "Those charges and other equally important matters have up to the present remained absolutely uninvestigated to the infinite discredit of the government and of the commission itself."

J. P. Martyn, president of East Elgin Conservative Association, was chairman, and on the platform were Hon. R. A. Pyne, minister of education; T. W. Crothers, M.L.A.; David Marshall, M.L.A.; F. McDermid, M.L.A.; C. A. Brower, M.L.A.; and T. McCall, Dr. Pyne's Advice.

Dr. Pyne congratulated East Elgin on the demonstration. To young men he said they should think well before they made a choice of a party. The Conservative party was the party of progress. The promises contained in the confederation contract had been fulfilled by the Conservative party.

The minister of education went over a number of reforms effected by the Whitney Government. His reference to the completion of the hydro-electric cheap power scheme was received with applause.

"If you like the way things are in Ontario to-day, if you believe in a government by the people and for the people, and want to see that repeated, keep on sending Mr. Crothers and Mr. Marshall to strengthen the hands of Mr. Borden in the great fight in Dominion affairs," he said in conclusion.

Hon. C. J. Doherty declared those who are in the fight behind Mr. Borden do not feel that they need any encouragement, because they have the confidence of the people of Canada.

Duty of Public Men. His own presence with Mr. Borden was a refutation of the "imputation that there is anything narrow in the Liberal-Conservative party, or that it is influenced in any way by the conservation of dissensions of religion, race or creed," and he hoped the public would not be led astray by any such sophistry.

Mr. Borden was presented with an address of welcome by the Conservative Association. In reply he said: "It is so good to know what is going on in the country to-day, and it is the duty of the public men to acquaint the people with the policy of their party and with the record of their opponents, if it appears to merit criticism."

T. W. Crothers, M.P., was the last speaker. He condemned the action of the government in regard to the swindle at St. Peter's Indian reserve in Manitoba, whereby a number of Liberals secured a rich tract of land near Winnipeg at a minimal price. He criticized Sir Wilfrid Laurier's management for building the transcontinental railway from Quebec to Montreal, on the pretext of shortening the distance by about 150 miles, instead of utilizing the Intercolonial. The actual shortening, if effected, only amounted to 25 miles, and thus the Intercolonial, which cost the country \$80,000,000, was being paralleled and rendered useless.

## Had Weak Back. Would Often Lie in Bed for Days Scarcely Able to Turn Herself.

Weak back comes from the kidneys, and when the kidneys are out of order the whole system becomes deranged. Those who have never been troubled with kidney trouble do not know of the suffering and misery which those afflicted undergo. Doan's Kidney Pills are a specific for all kidney troubles.

They begin by helping the kidneys to flush out all the acid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and all the urinary passages, carrying away the uric acid, the chief cause of rheumatism, from the blood.

Mrs. Arch. Schnare, Black Point, N.B., writes: "For years I was troubled with weak back. Oftentimes I have lain in bed for days, being scarcely able to turn myself, and I have also been a great sufferer while trying to perform my household duties. I was about to give up when I was told to try Doan's Kidney Pills, and after using two boxes I am now well and able to do my work. I am positive Doan's Kidney Pills are all that you claim for them, and I would advise all kidney sufferers to give them a fair trial."

Price, 50 cents per box, or 3 for \$1.25, at all dealers or by T. M. Milburn Co., Limited, Toronto, Ont.

In ordering specify "Doan's."

### BEWARE OF EVIL WORKERS

Keynote of Pamphlet Issued by Hon. S. H. Blake.

"An Anglo-Roman Priesthood v. an Anglo-Protestant Laity" is the title of a pamphlet issued yesterday by Hon. S. H. Blake. He protests especially against the sacerdotal tendencies which he deems obnoxious in regard to "The Lord's Supper," "The Altar," "The Eucharist," "The Sacrament," "The Consecration," and "The Elevation." One paragraph says: "While the Ritualist and Sacerdotalist seek to make the unwary believe that they have ceased to exist, the periodical outburst of the rabies that seeks to poison our church shows this not to be the case, and that they had again dropped their muzzles and were ready, when unexpected and therefore unobserved, to persecute the church afresh. The warning of the apostle must ever be heeded until the church militant ends in the church triumphant. Beware of dogs, beware of evil workers."

Another says: "They tell you that all differences are removed and that all members of the church should now work together in harmony, and at the same time you are handed a circular for the present season of Lent, which contains—

"Additional Service."  
"Vespers of the Departed."  
"Stations of the Cross."

"Confessions will be heard, etc. (at named hours)."

"It is a good thing that the people in our church are being aroused to these evils, which are now so widely attacking the Church of England. It is an insult to the intelligence of the true members of our church for these persecutors childishly to cry out 'You did it when we are simply defending ourselves against the attacks, divisions, and treasons caused by those who virtually are outside our Reformed Church.'"

And, seemingly in reference to the effort being made to unite Trinity and Wycliffe Colleges, he says: "When it is intended to make some further Romanist attack on our church by the Anglo-Roman party, there is an ominous circulation of the now stereotyped statement that 'all differences in our church are now buried, that we are one church and therefore all should agree in taking the further step indicated—which, however, will bring us one day's march nearer Rome.'"

### BOARD WON'T VARY ORDER

Street Railway's Application Turned Down and Deadline is Reached.

The threatened deadlock between the city and street railway became a certainty yesterday, when the company demanded of the Ontario Railway Commission that it order the railway to be built on the terms proposed by the city. The board refused to do so, and the deadline for the construction of the line was set for June 25.

### SIX FREIGHT CARS DERAILED

Passengers on Teeswater Train Delayed by Mishap.

The C.P.R. Teeswater train, due at 8.50 p.m., was three hours late last night owing to the derailment of six freight cars at Meadowvale Junction, near Streetsville.

The passengers, about 24 in number, were transported to Streetsville Junction, where they boarded No. 6 from Detroit, due in Toronto at 9.30.

The derailment of the cars is thought to have been due to a defective car wheel in the switch. Little damage to rolling stock was done.

\$2.60 to Muskoka Lakes and Return, Saturday, June 25.

The Grand Trunk Railway System offers for the opening tourist season a popular excursion via the favorite way, viz.: Muskoka Wharf to all points on the Muskoka Lakes, passing Lakes Simcoe and Couchiching, the Severn and the delightful ride from Gravenhurst, via Beaufort, Carleton Place, and Port Carleton. All points may be visited for above price, and tickets will be good for four days. The new "Muskoka Express" makes its first trip June 25, leaving Toronto 12.05 noon. Select the Grand Trunk route and no other.

### SUICIDE AT THE FALLS

Unknown Man Leaps to His Death—Had Been on Spree.

NIAGARA FALLS, Ont., June 17.—(Special.)—An unidentified man, between 35 and 40 years of age, this morning jumped into the river from Green Island bridge and was carried over the falls. Arthur Wells, Leeds, England, a tourist, saw the suicide jump into the water, and describes him as being above medium height, of light complexion and garbed in light colored clothing. The suicide wore a thin straw colored moustache and had on a black derby. Wells thought that the man's appearance indicated that he had been on a protracted spree.

The funeral of the twelve Hungarian fire victims was held this morning. About five hundred people attended. The coffins were taken to the cemetery on four draped cars.

### TELEGRAPHIC BRIEFS.

At New York—Walking in his sleep, P. T. Brudger, retired business man, 70 years of age, fell thru an open window in his sixth floor apartment and was instantly killed. Brudger had been a somnambulist since childhood.

The teachers of the Iroquois High School, like Oliver Twist, have asked for more money, and the board will advertise for an entire new staff. They may also try to get on with four instead of five teachers for the balance of the year.

## Building Again

SOON the sound of the  
giant rivetter will be  
heard again on our part  
of Yonge Street. Soon again  
we'll see those mid-air feats  
by which the steel construc-  
tion men earn their daily  
bread. For the Simpson block  
is to have its last section com-  
pleted this summer, when it  
will stand at last four square,  
uniform and entire.

The Wanless store must  
first, of course, be taken  
down. We are even now  
conducting a sale of the  
stock of Men's Furnishings  
at present on display there.

On Monday we particularly  
emphasize:—
