BRITISH HOLD MILE OF HINDENBURG LINE

Have Two Villages With Few Other Strong Points to Carry Before Reaching Drocourt-Queant Line-- Haig's Artillery Bombardment Completely Blows Away Three Thousand Yards of New German Concrete Defences--French Capture Valuable Strategic Positions in Champagne--Italians Make Further Progress

BRITISH HOLD MILE OF LINE TOWARD ARRAS

With Exception of About Two Thousand Yards of Trenches. GREAT AIR ACTIVITY Number of Successful Bombing Raids Mentioned in Official Report.

London, May 21.—The British troops are now holding the entire Hindenburg line from the east of Bullecourt to Arras, with the exception of trench elements on a front of about 2000 yards west of Bullecourt, according to the official communication issued tonight. The recent gains northwest of Bullecourt have been consolidated. The statement says: "Our new positions in the Hindenburg line northwest of Bullecourt have been secured during the day with little interference from the enemy. All information received confirms the severity of the German losses in the recent fighting in this area. "With the exception of a sector about 2000 yards long immediately west of Bullecourt, we now hold the whole of the Hindenburg line from a point one mile east of Bullecourt to Arras. "The hostile artillery has again shown considerable activity on the north bank of the Scarpe. "There was great aerial activity yesterday. A number of successful bombing raids were carried out, and our airplanes co-operated excellently with our infantry in the attacks, engaging the enemy troops in the enemy's front line trenches with machine gun fire. "In the air fighting seven German airplanes were downed, of which one fell inside our lines. Eight others were driven down out of control, and four of our anti-aircraft guns. Four of our airplanes are missing."

HAS PERFECT ANSWER TO SUBMARINE TERROR

United States Inventors Develop Large Merchant Submarine.

Philadelphia, May 21.—The Philadelphia Press will publish a story tomorrow to the effect that "America has found the perfect answer to the German submarine terror." It is said to be a merchant submarine, standard at about 7,500 or 8,000 tons dead weight, of such speed that it can, even when submerged, easily elude any surface pursuer, and non-sinkable. "The craft, the invention of Simon Lake, according to The Press, is capable of submerging within half a minute, and has been so standardized and simplified that the first one may be turned out in four months, and others after that at the rate of three or four a week. It will run on heavy oil, and the construction is said to be such that its parts can be made simultaneously in many widely scattered steel plants and assembled in a central plant in a few days. "The vessels are to be built and operated, the story says, by the Merchant Submarine Company under governmental supervision. The company is capitalized at \$10,000,000 and incorporated under the laws of the State of Maine.

APRIL CASUALTY LIST OF GERMANS MODERATE

Enemy Gives Nearly Forty-Four Thousand Names for Month.

London, May 21.—German official lists of killed, wounded and missing, issued during the month of April but not necessarily referring to the casualties occurring in April, show: Killed or died of wounds or diseases 10,273 Prisoners and missing 4,208 Severely or badly wounded 9,744 Slightly wounded or wounded remaining with units 18,575

Hops Increase in Britain Has Been Greatly Reduced

London, May 21.—By an order-in-council the hop crop to be devoted to the growing of hops in 1917 is to be reduced to 75 per cent of the 1914 crop.

Wheatland in 1914, 27,000 acres were devoted to the growing of hops. The order-in-council therefore will limit only 20,250 acres to be used in this crop during the present year.

"EAT GRASS" IS ADVICE OF BAVARIAN PROFESSOR

Berlin Feels Potato Shortage Keenly—Cut in Meat Ration Impends. Copenhagen, via London, May 21.—Berlin is now feeling the potato shortage. The residents of the capital have been warned that it may be impossible to supply five pounds 20 to everybody this week, but that those who are unable to obtain the full ration will be given cakes. The supply of pork is short and it will be sold only on Thursdays. Another announcement says that a reduction in the present meat ration after August 15 is being considered. In view of the food shortage Prof. Wildner, and agricultural expert at Passau, Bavaria, advises the people to follow the example of Nebuchadnezzar and eat grass. He informs them that the red clover and lucerne (alfalfa) both may be used for the making of tasty dishes for human consumption.

FEAR COLONIAN IS TOTAL LOSS

Leyland Liner Has Been Wrecked on South Coast of England. CARRIES BIG CARGO

Munitions and Grain Are Included—Fate of Crew Remains Uncertain. Boston, May 21.—The Leyland liner Colonian was wrecked last night on the south coast of England, according to a cablegram received today by John H. Thomas, agent of the line. The message stated that the steamer, which was carrying a cargo of munitions, grain, lumber and cotton from the port, probably would be a total loss. The cause of the accident and the fate of the crew were not mentioned. It was believed in shipping circles at this port that the Colonian had lost her bearings and that the wreck was due to a mishap not connected with the war. The steamer with her cargo was valued at \$2,000,000. It was considered probable that the Colonian landed part of her cargo, including munitions, at Plymouth, before the accident, which occurred probably while she was bound for London. The Colonian, a steamer of 6400 tons register, was built at Newcastle in 1901. She was commanded by Captain John McDonald.

BEEF SELLS IN PARIS AT DOLLAR A POUND

Vegetables and Fish Respond Also to Meatless Days' Program.

Paris, May 21.—With the inauguration of the regime of two meatless days a week, beef went to one dollar a pound today and vegetables and fish followed the upward tendency. The rush for meat supplies to carry over until Wednesday swamped the butchers, and they had to bid in extra amounts. There was a good deal of crowding, and some sharp talk was heard against fish buyers, who paid any price the dealers asked, sending the quotations too high for modest purposes. Beef on the hoof at the stock yards was higher than last week, also the receipts were larger. Wholesalers appear to take the view that the new regulations will not reduce consumption.

NO CANADIAN WHEAT TO NEUTRAL COUNTRIES

Holland Will No Longer Obtain Supplies From Canada.

Ottawa, May 21.—One of the reasons for the high cost of wheat and flour is that large quantities have been going to neutral countries, particularly to Holland. This has diminished the supply to such an extent as to provide an excuse for increasing the price in this country. The premier has come to the decision to prohibit in the meantime the exportation of wheat and wheat flour to other than British and allied countries. It is felt that this action will have an immediate effect upon the prices prevailing in this country with regard to these commodities.

German Airplane Bombers Bessarabia Railway Station

Petrograd, via London, May 21.—A German aeroplane has dropped bombs on the railroad station at Bessarabia, capital of the province of Bessarabia. A soldier and two children were killed and five wounded.

ENEMY IS DRIVEN FROM STRONG PLACES

French Plans, Brilliantly Concealed, Executed Without a Hitch. EIGHT HUNDRED TAKEN Hundreds of Bodies of Germans Strew Ground and Shelters.

With the French armies on the French front, May 21.—While the Germans were throwing masses of men against the French positions along the Chemin-des-Dames only to suffer defeat with terrific losses, the French last night effected an attack in the Moronvilliers section and drove the Germans from some of their strongest positions. The French plans were brilliantly conceived and executed without a hitch. The objective was most difficult, a hill range filled with deep caverns afforded shelter to hundreds of men and machine guns, but the French infantry stormed the heights of Casque and Teton, 756 and 754 feet in height, respectively, and carried them with a rush while other columns captured the trenches lying in the northern slopes of Mount Carnillet. The result of these operations gives the French a commanding view on their left. The value placed on the possession of these hills is shown by the violence of the German counter-attacks in the course of the early morning, which everywhere broke down. They left more than 800 prisoners in the hands of the French, while hundreds of bodies of Germans strew the ground and lie in the cavernous shelters. "The war office statement tonight reads: "The day was comparatively calm. The artillery action was intermittent but of the greater part of the front, except in Champagne, where the enemy violently bombarded the positions we occupied yesterday in the region south of Moronvilliers. There was no infantry action. "On the night of May 19-20, our airplanes dropped 2200 kilos of explosives on railroad stations and bivouacs in the region of Epoye and Bethenville. On May 20, the aviation ground at Habheim and bivouacs at Pont-Favarger and Bethenville were likewise bombarded with numerous projectiles. "The same day two German airplanes were brought down by our pilots, and a third by the fire of our special guns. Three other enemy machines were completely destroyed, landing, having been seriously damaged. "Belgian communications yesterday reported that the afternoon violent bomb fighting took place in the region of Dixmude. Today the artillery activity was comparatively slight. "Eastern theatre, May 20.—An intermittent artillery action occurred along the whole front. The enemy attempted to rain five times on the night of May 19-20, to capture a post occupied by the Serbians in their latest attacks."

FOOD CONTROL ISSUE IN HOUSE THURSDAY

Borden Makes Statement After Hearing Arguments Against Conscription.

Ottawa, May 21.—J. C. Watters, president of the Dominion Trades and Labor Congress; P. M. Draper, the secretary, and James Simpson, one of the executive, had a conference with Sir Robert Borden this evening regarding the question of conscription. A few labor men, including Mr. Simpson, have been expressing themselves as unalterably opposed to compulsory military service. However, after they had heard the views of Sir Robert Borden on the subject, the labor representatives announced that they were revising their opinions on the matter, and would not be able to state definitely what their views would be until they had time to consider the question further. The appointment of a food controller was urged and resolutions of labor bodies presented. The premier announced that the whole matter would come up in the House Thursday. The government had sought to postpone the issue of the question of food control.

TRADE OF CANADA STILL EXPANDING

Big Increases Shown in Exports and Imports for April.

Ottawa, May 21.—Hon. J. D. Reid, minister of customs, made public today the trade report for April, the first month of the 1917-18 fiscal year. These figures show that Canada's trade is still on the incline. The exports for April show an increase of no less than forty-eight million dollars over April of 1916. The feature of the month's trade was the big increase in imports, which jumped from \$50,147,839 in April, 1916, to \$86,807,809 last month. The exports showed an increase not so correspondingly great. The exports for April, 1916, were \$58,929,296, and the exports for April, 1917, \$65,145,443. The exports in manufactures for 1917 showed an increase of over nineteen million dollars, the figures being \$49,859,646 for 1917, as against \$31,575,975 for 1916. On the other hand, there was a big slump in the agricultural exports, which dropped from \$21,665,972 in 1916 to \$14,443,141 in 1917. Exports of the mine, forests, etc., showed slight increases. There was a slight decrease in fisheries exports.

Mine Strike at Springhill Has Been Entirely Settled

Ottawa, May 21.—Important information was conveyed to the minister of labor this evening from Nova Scotia, to the effect that the miners' troubles at Springhill had been settled. The agreement arrived at by the board of inquiry, appointed by him under the Liquor Act, has been accepted by both the miners and the coal operators.

ALLIES TO INSIST UPON ANNEXATION

Premier of Australia Says Peace on Other Terms is Impossible. MUST BE REPARATION

Melbourne, Australia, May 21.—(via Reuter's Ottawa Agency)—Premier Hughes, commenting on Lloyd-George's statement in the house of commons, regarding the imperial conference, said: "The whole empire, the very nature of the local self-government enjoyed by every part of the empire seems to render impracticable an attempt to graft upon this system, a council having plenary jurisdiction over the entire empire." "The whole empire," declares Premier Hughes, "will accept Lord Cecil's statement that a peace is impossible unless the opportunity at the very door to make onslaughts on Australia."

FIRE LOSS AT ATLANTA RUNS INTO MILLIONS

Flames Sweep Broad Path Thru Finest Residential Section of City.

Atlanta, Ga., May 21.—Fire that started late this afternoon in an obscure negro section, swept a broad path thru the residential section of Atlanta, devastating scores of blocks and destroying many of the city's finest homes and hundreds of negro houses. Also the flames were not entirely under control tonight, they had been checked half-way thru the exclusive Ponce de Leon avenue residence section, and fire officials believed there was little danger of a level there spread. First estimates of the damage placed it at between \$2,000,000 and \$3,000,000. So far as could be learned the only life lost was that of a woman who died from shock. The fire was confined to the northern eastern part of the city, and the only business houses burned were several warehouses near the point of origin.

Rintelen and Associates Must Serve Year in Jail

New York, May 21.—One year in jail was the sentence imposed today upon Captain Franz Rintelen, of the German navy, David Lamar, and H. B. Martin, convicted yesterday in the federal court of conspiracy to interfere with shipment of munitions to the entente allies in 1915.

PARTS OF ENEMY LINE ARE TOTALLY MISSING

Three Thousand Yards of Hindenburg's Trenches Completely Wiped Out by Efficiency of British Artillery Fire.

By R. T. Small, Staff Correspondent of The Associated Press. British Headquarters in France, May 21.—via London.—So completely did the British artillery do its work before the attack between Croisilles and Bullecourt that 3000 yards of the Hindenburg line are totally missing. This segment of the German defences was completely wiped out. Aeroplane photographs taken May 21, show beautifully symmetrical zig-zags, but the latest pictures taken contain no traces of the trenches. The support line also was badly "strafed," some 6000 yards of it now being in British hands, leaving the Germans holding the remaining 2000 yards. The Hindenburg front line between the south end of the captured trenches and Bullecourt is in dire danger, as it is flanked on both sides by the British. The engagement was really made up of two attacks, one in the early morning, when seventy prisoners were taken, and the second, late in the afternoon, the two netting 150 prisoners for the day's work in this sector. The German artillery's response was very feeble and the counter-barrage during the attack was particularly weak. The prisoners taken came mostly from the Forty-Ninth reserve division which was recruited in the region of Posen and Breslau. It came to the west front from Rumania in February. Three officers are among the prisoners. The men showed by word and action that they were thoroughly tired of war. They had been in the line 21 months and constantly under the British shell fire. All of them said they had never seen anything like the artillery fire, nor did they desire to experience it again. The trenches were concreted, all that remains of the captured portions of the Hindenburg line are cement and concrete machine gun emplacements. An underground corridor parallels the support trench 35 feet below the surface. Several isolated posts are still standing between the scene of the latest smash and the Queant-Drocourt line. These include the villages of Reincourt and Hendecourt, and other strong points in which the Germans are capable of putting up strong resistance.

NEWFOUNDLAND TO HAVE CONSCRIPTION

Premier Morris Favors Selective Draft to Fill Up Gaps. WILL HASTEN ACTION

Bill to Be Introduced in Legislature Which Meets Next Week. St. John's, Nfld., May 21.—A selective conscription law in Newfoundland, along the lines of that now in force in the United States, and proposed in Canada, will probably be introduced at the annual session of the legislature, which opens May 29. Such action was forecast today in a statement by Premier Sir Edward Morris, who returned yesterday from England, where he had been for three months attending sessions of the imperial war conference. In speaking with the newspaper men today, Sir Edward announced that he would immediately take up with the leader of the opposition the question of concerted action to secure enough men to maintain the Newfoundland regiment on the firing line till the end of the war. The Newfoundland regiment has been in the thickest of the fighting on the continent. At Gallipoli it received special mention for gallantry, and more recently in the Arras fighting an official announcement from British Headquarters paid tribute to the gallant leaders for winning and maintaining against violent counter-attacks particularly important positions.

IRISH PEOPLE WILL DECIDE OWN DESTINY

Convention Called to Draft Constitution Will Represent All Classes. MIRACLE HOPED FOR

London, May 21.—For the first time in modern history, the destinies of Ireland are to be placed in the hands of Irishmen alone. The British prime minister, David Lloyd George, announced to the house of commons today that the government will call a convention of Irishmen to frame a constitution for Ireland, and, if Irishmen are able to agree upon any scheme for the administration of their country, will attempt to enact it into legislation without delay. All sections, parties, and creeds, with clergymen and laymen, as well as politicians and revolutionaries of the Sinn Fein society, will be invited to get together. "Miracle if Successful. "If this final attempt succeeds a political miracle will have been accomplished. There is no great optimism respecting the success of the plan, but the exclusion of six Irish counties, which has always stood, Sir John Lonsdale, whip of the Irish Unionists, predicted men would be deadlocked during the first session of the parliament and predicting that the Nationalists will not consent to the exclusion of six Irish counties. "But if the attempt fails, the failure will deprive the ancient charge that John Bull's greatest glory is "the oppressor" of much of its force and it, as pointed out that Ireland can hardly be held before another Poland, while America and the colonies can no longer reproach Great Britain with having neglected to set her own house in order. "Tranquil Discussion. "Both houses of parliament discussed Ireland today with hardly a ripple of the old animosities and feuds disturbing their harmony. "The patient must administer to himself," said Lloyd George, and a noteworthy feature of the discussion was an agreement that politicians must play a secondary part to the ordinary men of other walks of life. The premier specified the Nationalist factions, of which John Redmond and William Hibbert are the leaders, and the Ulster Unionists, the southern Unionists and the Sinn Feiners as the political bodies which should be represented in the convention, but said that the government considered it most important that representatives of local governing bodies, the churches, trades unions, and commercial and educational interests should participate. "Signs of Amity. "Mr. Redmond agreed in this policy and the veteran leader even offered to obliterate himself in the interests of harmony. But the house refused loudly to accept his offer. "Even Lord Lonsdale, who has been charged by some with the wreckage of Mr. Lloyd George's previous work of reconciliation, told the lords that the road to home rule had been travelled too far for turning back, and referred to the importance of facilitating the task of those who are our friends in America. "The conception of the convention for all Ireland finds its inspiration in the making of the union of South Africa after the Boer war, when the British and the Afrikaners, whose enmity then certainly equaled that of the Irish factions, were able to throw out a constitution. "The factions represented therein were almost antagonistic as the Irish factions. The Sinn Feiners have already announced their decision to stand aloof from such convention, but may decide to enter it largely in the hope of preventing an agreement. "Shaughnessy Mentioned. "For the position of chairman of the convention, a colonial might wield strong influence. Shaughnessy, president of the Baron Shaughnessy, president of the (Continued on Page 4, Column 4). Charming Gabardine Wash Suits for Misses, at \$13.75

Dainty and smart they are, with the added advantage of being always that, since they launder well. In one style, the skirt is of white gabardine, plainly made, with two patch pockets; the coat contrasts in that it has that smart block pattern so popular this season in pretty colors of rose, blue and green on white, with square sailor collar, belt, patch pockets and turn-back cuffs of plain white to correspond with skirt. Another smart model is fashioned of the new "Palmbro" material, a cloth which launders and wears well and is similar in appearance to a fancy crepe. It is tailored in a style similar to that of gabardine, but patterned in circular "Khaki-Kool" and stripe patterns. Sizes 14 to 20. Price, \$13.75

Pretty Wash Skirts For Victoria Day Jaunts

VIVID FILM RECORD OF GREAT ADVANCE

Official Pictures Portray the Latest Phases of World Conflict.

CAPTURE OF PERONNE

Australians Seen Entering Ruined City on Heels of Beaten Huns.

The great new war film, soon to be shown in Toronto under the auspices of the World as the latest production of the British Government, brings the vivid moving picture record of the war up to date as far as the taking of Peronne and Bapaume, France, is concerned. These were the immediate objectives of the advance which began July 1, 1916, and which have cost millions of lives and thousands of lives to win back for France from the invading barbarians.

The offensive of last year which began in the middle of the summer was held up by an unseasonably wet and early fall. At the beginning of the movement, Peronne was the objective of the French, and Bapaume was the British objective. The Canadians were moved into this area of operations in September, and took part in the great battle of the Arras. All winter the struggle went on, the allies creeping steadily forward, leading back the German line in a huge salient. German official despatches said that Hindenburg had declared that the German line would hold but it would not break. The British would not get thru. But slowly it sagged back under the succession of bombardments and infantry attacks and charges until in March Peronne was partly encircled, and Peronne was similarly threatened.

Out Communications. The significance of Bapaume and Peronne will be understood when it is pointed out that these were strategic points in the German system of communication of communication from the front line. Bapaume was the centre of a number of highways and Peronne was a railway centre. For these two reasons were taken it was inevitable that a large section of the German line would be cut off from their supplies of ammunition and food, and would have to fall back or surrender.

On March 17 this happened in the section centring on Bapaume, and on the following day the Australians got into Peronne. Steady pressure, concentrated artillery fire, and constant infantry aggressiveness wore the German resistance down and the British fell after a constant series of battles dating from the commencement of the battle of the Somme on July 1 last.

The British line had been extended before this to take in a considerable section of the front hitherto held by the French and to the Australians fell the honor of walking into the town of the heels, practically, of the retreating enemy. Fires had been opened for seven days previously both in Bapaume and Peronne, and it developed later that the enemy, furious at being forced to retreat before the allied British, had set fires and blown up buildings previous to the evacuation. When the British arrived they found both places almost utterly ruined, the fronts being blown out of the houses and stores, and even the churches demolished.

These dramatic and historic scenes have been filmed with a fidelity to the action which could only be duplicated upon the stage by witnessing the actual occurrences. When the pictures are shown here everybody should make a point of seeing them, not only for the better understanding of great events in the history of the world, but for the thrill and the emotion that the sight of heroism and the hearing of the names of the bravely and successfully inspire in the hearts of all loyal British people. They are being presented under the auspices of leading newspapers throughout Canada by Messrs. Jules and Jay J. Allen.

THOUSANDS BUY CARS DURING WORLD WAR

With Seventy Thousand Owners, Department Quits Printing Annual List.

The Ontario department of highways is not issuing a booklet this year containing the names and license number of automobile owners in the province. This announcement was made yesterday by W. A. McLean, deputy minister of highways, who stated that in the past these books had been used by constables and police in looking up the names of auto owners whose licenses they wanted to summon them. Many transfers had been made during the season and it often happened that the wrong man was summoned. In order to avoid such mistakes the books will not be issued this year, and any person desiring to know the owner of any automobile will be able to get this information from the department at once by telephone or mail.

Wife of Rev. Dr. Wallace Dies at Westmount, Que.

Pneumonia, following a burning accident a few weeks ago, and grief at the loss of her son, Lieut. Clifford A. Wallace, resulted in the death of Mrs. Wallace, wife of Rev. Dr. Wallace, formerly chaplain of the Canadian College, Toronto, in Westmount, Que., last morning. Mrs. Wallace was well known as Mrs. Wallace, principal of the Ladies' College, and widow of the late Rev. Prof. Wallace, Rev. Dr. Wallace, her husband, pastor of Westmount Baptist Church, Que.

GUILTY OF INDECENCY.

In the sessions yesterday afternoon Judge Havelock, Esq., presiding, James Doane was found guilty of gross indecency. Judge Doane will impose a sentence this morning.

THREATENS AN ACTION AGAINST AUTHORITIES

Building Inspector Insists That Fire Escapes Be Placed on City Hall.

Chief Building Inspector James T. Burke informed the property committee yesterday that unless fire escapes were erected on the city hall within 30 days he would take proceedings to enforce the requirements of the factory, shops and offices act. He asked that the correspondence be placed before the mayor, as he intended to proceed against the chief executive if the order were not obeyed.

Property Commissioner Chisholm reported against the fire escapes, stating that they would spoil the appearance of the building, and the committee filed the correspondence. Before any action is taken on the application of Mr. C. Routhy for permission to erect an apartment house on Triller avenue the property department will take a poll of the residents in the district.

Commissioner Chisholm recommended that residential restrictions be placed on portions of Pape, Withrow, Balm, Digswell, Frizzell, Wroster, Strathmore, Maplewood, Harcourt and Hazelwood avenues. Aldermen Hiltz and Penwick objected to restrictions on Pape avenue, and Ald. Dunn favored the recommendations, and stated that if objections were made a poll could be taken.

With the exception of Pape avenue all the streets named will be restricted.

MAN-POWER FIGURES SHOW LARGE MARGIN

Men Can Be Obtained Easily Without Dislocating Important Industries.

According to statistics compiled for the Dominion Government, the conscription of from 50,000 to 100,000 men could be accomplished without seriously hindering the industries of the country. ONTARIO DENTISTS OPEN ANNUAL CONVENTION

Heard Lecture by F. H. Orton of St. Paul on "Crown and Bridge Work."

The Ontario Dental Society opened its 21st annual convention yesterday afternoon in the Oddfellows' Temple, College street, with over 200 members present, including delegates from American cities. The convention, which is on the basis of a post-graduate course, will include lectures from notable dental professors of the United States and Canada, exhibits of the most modern dental appliances and clinical films. The first lecture was delivered yesterday afternoon by Professor H. Orton, D.D.S., St. Paul, Minn., professor in University of Minnesota Dental College, on crown and bridge work.

Today Dr. M. L. Rhein, M.D., D.D.S., of New York, will lecture on "Paralysing Infections." The doctor is a professor of dental pathology in the University of Pennsylvania, and is a pioneer in dental radiography. Professor Orton will lecture again today at 9 a.m. and 2 p.m.

EDWIN ROGERS ESTATE.

An estate valued at \$58,100 was left by Edwin Robert Rogers, who died on April 21. By his will, dated January 15, 1917, Rogers left an annuity of \$500 to his daughter and bequeathed the balance of his estate to his widow. Upon her death the estate is to be divided by his two daughters, Beattie and Rita. Beattie is to receive nine-tenths of the estate and Rita one-tenth. Rebecca Hunter, who died on April 21, left an estate worth \$5788. The estate is to be divided amongst her five children.

OLD CHARGE REVIVED.

Max Stone appeared in the police court yesterday on a two-year-old charge of having attempted to do bodily harm to Robert Swyer. He was remanded till May 28. The charge arose out of a strike which occurred in a Phoebe street tailoring establishment at that time.

From Jack's Letter

"Somewhere in France." Dear Bill, "What good are the 'Tanks' anyway?" A fair amount, old fellow, a fair amount! What we are dead sure of is they help us to lick the Germans, and so does the Y.M.C.A. "How's the Y.M.C.A. helping?" From the time we leave the old home town right up to the wee dug-out back of the front trench, it keeps us happy all along! Besides, it rains a lot. You just cop the blues when the skies weep. Say, the big Y.M.C.A. 'hut' is a godsend! You find it everywhere you go. My mates and I crawl through the mud of an evening and settle down there for a game of checkers. And then the 'Movies' some nights are a rare treat; we haven't lost 'Charlie' yet. Say, old fellow, if you could have seen the —th come out of the trenches last night; well, you would understand how these chaps would appreciate a change, let the change be grub, drink or music. You can bet most of them made a bee-line for the 'hut'.

"You are sorry you can't come out and help us." So am I, old fellow. But there is a way to do something, after all! You can help the bloke that helps us (the Y.M.C.A.) with your silver pills (dollars). As Kipling said when we were out on the African Veldt, "You can pass the 'at for your credit's sake, and pay, pay, pay." Jack.

But the Y.M.C.A. secretary prevailed upon the reluctant Colonel to remain awhile for a bit of a sing-song. The men slowly filed in and pretty soon the air was filled with one merry ragtime tune after another. What did it matter that that busy old battered piano had seen better days! When the boys were tired of ragtime, they listened to "Annie Laurie" and "Home Sweet Home" and there was a film over many an eye. Then they passed on to "Rock of Ages" and "Abide With Me."

That was all. No time this for addresses to the men. Bivouacs must be reached—but oh, how differently they resumed the road. They were marching and whistling now! On the way they halted. Said the Colonel to his adjutant, "That Y.M.C.A. secretary must be thanked again," so back he went through the mud to emphasize his grateful appreciation of what the Y.M.C.A. meant to his men.

Give! Give! Give!

IT happened on the Somme. It was a bad night. After enduring their "spell" of several eventful days in the muddy trenches the —th Canadians were dragging themselves in the rain along the dreary four mile mud trail back to bivouacs. They stopped at the Y.M.C.A. "hut," and many thanked God for this visible sign that the good folks at home cared. Tea, coffee, biscuits, etc., were gratefully received, and they were about to resume their trudge to billets and - - REST!

Those were your own precious Canadian boys, and we are appealing to you for their sake. Be generous according to your means. The Y.M.C.A. "huts" cost in money from \$2,500 to \$5,500 each to build. There are over fifty Y.M.C.A. centres, including "huts," marquees, in France. Then there are the "dug-outs" hidden as close as possible to the front line. Very often as the wounded are taken out of the trenches they are supplied with hot cocoa. Think of the immensity of the task of keeping all these centres supplied with refreshments, pianos, gramophones, letter paper, games, etc., and the large staff of men to keep this vast organization running. Remember that in France, the men are supplied free with hot tea, coffee, writing paper and athletic equipment.

FLOUR MILLS WIN SUIT OVER CONTRACT
Judgment for Over Twelve Thousand Dollars Awarded Montreal Company.

Judgment for \$12,700 and costs was awarded the Ogilvie Flour Mills Company of Montreal, by Justice Latchford in the non-jury amize court at the city hall yesterday afternoon. In their action against Frank K. Morrow, Morrow conducts a business under the name of Morrow Cereal Company, and the action against him arose over his failure to deliver to the defendants 6000 bags of flour contracted for. Plaintiffs asked for \$20,000 damages, alleging that on October 12 last, Morrow agreed to deliver 10,000 bags of flour. Only 4,000 bags were delivered, defendant denying that he entered into any contract to forward the remaining 6000 bags.

TAILOR UNDER ARREST.
Arthur King, tailor, of 101 Yonge street, was arrested yesterday afternoon by Acting Detective McConnell on a charge of fraud. The complainant is Michael McGarry, 200 Franklin avenue. The police allege that King sold a suit of clothes to McGarry which were not as represented when the order was given, being inferior in quality to the sample submitted to McGarry.

CAME BACK TO FACE TRIAL.
Arrested some time ago on a charge of keeping a common betting-house on West Bloor street, James Toroutie feared to face trial and ran away. Recently he surrendered himself to the police. When he appeared in the police court yesterday he was fined \$100.

G.T.R. STATION BURNED.
Special to The Toronto World, Woodstock, May 21.—The G.T.R. station at Burgessville was burned to the ground last night. Saturday night the building was struck by lightning, but the fire was extinguished. Sunday evening it broke out again and the building was totally destroyed. It is thought that some piles of waste had been left smoldering from the Saturday night blaze.

BOTH HEAVILY FINED.
In the police court yesterday, Joseph O'Hara, Harry Steadman, James Reynolds, Samuel Sauter, Fred C. Barker and Thos. Sullivan each were fined \$300 and costs for having liquor in their possession.

ONTARIO-QUEBEC BAPTISTS.
Special to The Toronto World, Woodstock, May 21.—The annual Ontario-Quebec convention of the Baptist Church of Canada will be held here October 17 to 22. This place was selected by the executive committee of the convention from among a number of other cities in Ontario and Quebec from which invitations had been received. Over six hundred delegates are expected.

NO RACE SUICIDE.
Special to The Toronto World, Brantford, May 21.—In Terrace Hill district there are two families which show no sign of race suicide. The assessors in making their round found one family with 14 children and another with 12, none being twins. The parents are in both cases Franco-Canadian.

AVIATION AID CONCERT.
Auxiliary of Flying Corps Arranges Fine Program in Aid of Work.
Under the auspices of the Canadian Aviation Aid Club, a concert was given last evening in the Foresters' Hall, its object being to raise funds for the Canadian Royal Flying Corps. The musical director was E. W. Schuch, and the president of the Aid Club, Mrs. E. H. Duggan, was responsible for much of the success of the occasion. The following artists contributed to an excellent program: Robert Herdman, whose mellow bass voice was heard to great advantage in "Fear No Fear." Miss Jessie McAlpine, piano solo; Miss Florence McNair, Arthur Ely, violin; Miss Marcia Boss; Stanley Adamson; Frederick Manning and Albert Dowling, whose clear tenor voice was heard to the best advantage in his rendering of "Till Sing Thee Songs of Amby."

CITY HALL NOTES

Regarding the proposal of Controller Cameron to erect the city's garbage to Long Street Commissioners Wilson states that the collection and separation of garbage for this purpose would be too expensive. Dr. Hastings M. O. H. has no objection to the scheme if the garbage is thoroughly boiled before being fed to the pigs.

Asked what progress the Toronto Street Railway was making toward complying with the order of the Ontario Railway Board for more cars on the lines, Works Commissioner Harris states that the company is making efforts to obtain the cars. He stated that the cars for the city lines were being built as rapidly as possible.

The city's local improvement obligations are now estimated at \$9,000,000, and the finance commissioner has reported that he cannot raise funds for the paving of Davenport road. He will likely advise the council on Monday to authorize the issue of debentures for \$5,000,000 worth of work which has been completed.

WOMAN BADLY BURNED

While lighting a gas stove in her home last night, Mrs. Eliza Brown, aged 50 years, of 98 Wood street, set fire to her clothing. Her screams attracted the attention of other inmates of the house, and the flames were extinguished, but not before she had been terribly burned about the upper part of the body. She was removed to the General Hospital, and her condition is critical.

MOULDERS ON STRIKE.

Special to The Toronto World. Brantford, May 21.—Three hundred moulders and coremakers employed in various shops throughout the city failed to turn up for work today, carrying out their threat that if the manufacturers did not grant them the nine-hour day with a ten-hour rate of pay they would go out on strike. The manufacturers are willing to put it into effect at the close of the war, but are unwilling to do so at present because of the greater production is absolutely essential owing to the shortage of men.

MILITARY OFFICIALS EAGER FOR ACTION

Impatiently Await Passing of Conscription Bill—Equipment All Ready.

BATTALION PLAN FADES

Men Will Likely Be Sent Overseas in Larger Drafts.

Anxiously awaiting the passage of the conscription measure thru parliament, military officials are, in a sense, marking time. The secrecy with which the officials at the capital have been formulating plans is quite apparent from the fact that those who might be expected to know something of the government's proposals are the least likely to hear the reply.

SUGGESTS PROBE INTO NEWSPAPER "WASTE"
Winnipeg Publishers Said to Be Prodigal in Use of Paper.

Ottawa, May 21.—Commissioner E. O. Pringle, K.C., resumed the investigation into the paper manufacturing industry this morning, and the question of curtailing the waste of newsprint by publishers was under discussion. Mr. Pringle was emphatic in asserting that newspapers must curtail waste, which he said he had no doubt was going on. He referred to the extravagant use of newsprint paper by Winnipeg publishers.

Mr. J. F. Orde, K.C., for the E. B. Sedey Company, of Hull, said that in order to determine if the allegations in regard to the excessive use of newsprint paper were true the investigation would have to include a probe into the conduct of newspapers to find out if they were being conducted properly, if they were charging enough for their papers and advertisements.

Mr. Pringle said he would like to see the manufacturers and publishers get together on the question of a new agreement for June 1. If no agreement was reached, the government would have to make one.

CAN BAKE JUST ONE FOR WORLD CONTEST

Chance for Grandma to Prove That She Remembers How to Bake.

SEE DEMONSTRATION

Competition Open All Week—Final Decision on Saturday.

This afternoon from three until five o'clock, those wishing to take part in the World bread-baking contest, may bring their loaves to that office where they will be received and judged. It is hoped that the number of contestants will be large and that as the days of the contest go on, the number will increase.

Many saw the demonstration of bread-making at Loew's yesterday afternoon. Others may see it today. Others again, will, in all likelihood, depend upon the ways and methods which mother used away back on the farm, or perhaps in the city home a decade or two back, when the art of baking in the home had not fallen into disuse. Loaves made according to either recipe will be received, and as interest on a large scale seems to have been awakened by the advance news of the contest, the competition promises to be keen.

Want Everybody.

We want all who possibly can to enter. Old experienced bakers, may bring away the custom should "get back to the land" in vision, and recall the great batches which used to come forth from the big brick oven, the golden crust tempting the palate and the smell of the fresh bread going out to meet the men as they came in hungry from the "chores." For the housekeeper just starting there is the experience of attempting a new, attractive and economical phase of house-keeping, and for all, there is the opportunity to put forth one's best effort to meet the men as they will take part, and in which three will each win a handsome prize.

You may be one of the three. Get to work, make your loaf, bring it in, and let it be amongst those that will contend for the prizes and later to go to those in the city who will be benefited by the gift of a loaf from those better situated than they.

The contest is open to all whether living in the city or elsewhere, and will continue through the week. The final judgment will be given on Saturday.

THREE ALDERMEN FACE VERY SERIOUS CHARGES

Leaders in Fight to Oust Kitchen Engineer Are Summoned For Friday.

Kitchener, May 21.—Three members of the city council are charged with attempted bribery in connection with the recent controversy in the council over the employing of B. G. Michel as city engineer and the dismissing of Herbert Johnston, who held the position of the aldermen against whom charges have been made are W. V. Uttley, H. M. Bowman and A. L. Bittzer. Bowman, who is the alderman who was ousted from the office of Magistrate Weir today. The case will be heard in police court Friday morning, May 25.

It is alleged in the charges that the three aldermen offered to pay Ald. Held's railway fare and his wages if he would return to Kitchener from Owe Sound, where he was working, to vote against retaining Johnston as engineer. It is also alleged in a separate information that Ald. Bowman offered to aid in securing a reduction in the tax assessment of Ald. Brubacher's farm if he would come out against Engineer Johnston.

The charge is laid by Daniel T. Helsey, secretary of the British League. Ald. Uttley is editor of The News-Record, the office of which was smashed in election riots, and Ald. Bowman is the man who was severely injured by the mob during the riot. Ald. Bittzer is a well known as a barrister. He became prominent in his endeavor before the general sessions to defend the right of alien enemies to vote.

FOOD PRODUCTION AND THRIFT

ANOTHER CALL FOR CONTROL OF FOOD

Housewives' League Told That There is Too Much Buying for Export.

Mrs. F. S. Mearns presided at the annual meeting of the Housewives' League which was held in Willard Hall yesterday afternoon. In her address the president stated that at the beginning of the year it had been decided that as many of the members were engaged in patriotic work of some kind no special department would be opened within the society, but that it would devote itself to the study of food conditions and food production. The secretary reported that there were now 75 paid up members, and that several open meetings had been held during the year at which expert speakers had given lectures on thrift, gas economy, home gardens, vegetable gardens, and a demonstration in breadmaking.

The treasurer reported receipts for the year \$128.83; expenses \$105.52. Mrs. A. B. Williams reported on the markets, where she had found in many instances that things were selling at higher prices than in the stores; as, for example, the market asked 42 cents for eggs when they could be got from the street for 40 cents. Another member stated that she had learned that shippers had been buying up eggs direct from the farmers at 45 and 47c a dozen for the purpose of exporting them. This kept up the price, she thought the government should be asked to put a stop to this. Miss Lucy Doyle gave a short address, in which she said that the "burden" of winning the war is on the housewives. She told of nutrition classes in the United States, of market campaigns having the object of encouraging housekeepers to patronize the market, and stated that 700 stores in Brooklyn, N.Y., had abolished the middleman and as a consequence were able to sell from 7 to 8 per cent. cheaper.

Expressions of regret at the death of two of the members, Mrs. Brereton, first vice-president, and Mrs. Lindsay, one of the auditors, were voiced by the president. Mrs. Mearns refused to take the presidency again owing to pressure of work. The election resulted as follows: Hon. president, Mrs. F. S. Mearns; vice-president, Mrs. A. R. Williams; first vice-president, Mrs. W. S. Kirkland; second vice-president, Mrs. Luke; recording secretary, Mrs. J. E. Miller; treasurer, Mrs. J. L. Trethewey; executive, Mesdames Hastings, Powell, Pepsal, Stevenson, Cameron, Fairer, Frawley.

WANT GIRLS ON FARMS.

The Ontario Government employment bureau reports for the past week, 270 applications, 258 of which were for munitions. Of the 55 applications for employment 55 were for munition work, 20 were for clerical positions, one for housework, one for canteen work, three for machines, and one for a paper-box factory and one for milking. Girls and women are still wanted to help with the housework on farms.

OPEN CLUB TO VETERANS.

The Toronto Hunt Club will extend the privilege of the club grounds, arm-room and verandah to convalescent soldiers on the first and third Mondays in June, the entertainment being left to the ladies of the club. The entertainment committee includes: Mrs. Wallace Nesbitt, Mrs. A. E. Gooderham, Mrs. F. H. Chappin, Mrs. Edmond Brundt, Mrs. Allan Case, Mrs. R. A. Smith, Mrs. J. J. Dixon, Mrs. A. Lyon, Mrs. A. P. Burrett, Mrs. W. W. Moore, Mrs. Frank McCarthy, and Miss Delia Davies.

INDIANS STIMULATE PRODUCTION

Special to The Toronto World.
Brantford, May 21.—The Production League, working among the Six Nation Indians, reports that much progress is being made in the work of stimulating production. They have advanced grain and other seed to the total value of \$12,000, proving the keen interest that the Iroquois farmers are taking in the empire's call for greater production. In addition over 400 men have gone from the reserve to the firing line.

ANOTHER BREAD RAISE

Special to The Toronto World.
Kitchener, May 21.—The price of bread was raised two cents here today, the price of a 24-ounce loaf being twelve cents now instead of ten cents, to which figure bread advanced about ten days ago. Prominent bakers estimate that bread will reach as high as fifteen cents for a 24-ounce loaf before the close of summer.

Kingston, May 21.—Dr. William Spratlen, of Wolfe Island, secured a carload of potatoes for the islanders from Winnipeg today, and they will be sold at a price of 12 cents a pound, just 12 cents cheaper than the greater production committee are selling their potatoes and as a result have considerable of their stock left on their hands.

CANADIAN SOLDIER'S LETTER

Says Dr. Cassell's Tablets Have Kept Him Fit Through Two Wars

Esper A. Hartley of the A. Company, Canadian Engineers, whose home address is 808 Trafalgar Street, London, Ontario, is one of many who have written in praise of Dr. Cassell's Tablets. He says: "I would like to add my testimony to the constant use of Dr. Cassell's Tablets. I would like to add my testimony to the benefit of them. I have taken them since whenever I felt tired, I always recommend them, for I know that they do all that is claimed for them. In my opinion they are the best tonic anyone can take for loss of appetite, poorness of the blood, or general weakness of the system."

Provincial Secretary Tells Earl-convict Conservatives Why Returned Men Were Not Chosen.

Advice as to the newly-enfranchised voters of Ontario to prepare for an impending Dominion election contest, in order that votes might be cast intelligently in favor of progressive government was offered freely by the speaker at the concert of the Earl-convict Conservative Club, Loblaw's Hall, Earlscourt last night. Hon. W. D. McPherson, provincial secretary, and A. S. Donovan, M.P. for Earlscourt, who addressed the gathering, both urged the women, of whom there were many in the audience, to become acquainted with the political matters of the day, by reading political news and editorials touching on political themes, and by organization.

"JUST anything" will not do for baby. "I don't need to be told that," perhaps you say. Yet how many mothers there are who are not as particular as they might be. Especially is this so in the selection of milk.

Milk forms an important part of the baby's food. It will do them a world of good if it is rich in food value and safe. Therefore because many mothers realize the importance of good milk they insist on milk that comes from the Farmers' Dairy. Down on the farms of our shareholders the first steps are taken to make the Farmers' Dairy milk the most beneficial for children. Healthy cows graze quietly under conditions that are ideal. Milk- ing is done in sanitary barns by clean, careful milkmen. At the modern white-walled dairy the milk which comes in from the farms in sealed cans is scientifically pasteurized. The men who look after the milk at the dairy are all interested in preserving the high quality of the milk because they have the health of the children of Toronto at heart. Because they intend to maintain the good name of the Farmers' Dairy. When they scientifically pasteurize the milk it makes it safe. It increases its digestibility and keeping power. This milk that goes out from The Farmers' Dairy to thousands of people in Toronto is extra rich in cream. Is fresh, is pure.

What better milk than this could you desire for your children? It is the ideal food for the baby. It will help the baby grow healthy and strong. One mother wrote as follows (and she is only one of many): "My baby weighed 4 lbs. when born, 8 months old weighed 32 lbs.—was raised on Farmers' Dairy milk." Why not give your children the benefit of this better milk? Get a trial bottle. Order tickets today. Stop one of our salesmen or write or phone us.

Live Stock Market

Seldon has the Union Stock Yards seen a very much heavier run of uniformly good cattle at this season of the year than that of yesterday. When 112 cars, comprising 3222 head of cattle, 237 calves, 844 hogs and 85 sheep were offered for sale. Following is a summary of the receipts of last Monday and average deliveries of the week, the market failed to absorb all the offerings, and there was a marked decline in some lines, chiefly the butcher class, from 15c to 35c per cwt. In some cases the decline was more marked, and from 50c to 75c per cwt.

Tenders for Coal

Sealed tenders, addressed to Mr. Edward G. Galt, Chairman of Executive Committee, will be received until 12 o'clock noon, Tuesday next, the 23rd inst., for the following supplies: Anthracite and Bituminous Coal, 500 tons Egg and Grate (more or less); 100 tons Steeve and Nut (more or less); 50 tons Soft (more or less), well screened and delivered at the House.

Tenders for Portland Cement

Sealed tenders will be received by the undersigned until noon, May 22, 1917, for the construction of the above building. Each tender must be accompanied by an accepted check or cashed bank payable to the Minister of Public Works, for a sum not less than five per cent. of the amount of the tender, which will be forfeited if the parties tendering decline to enter into a contract when called upon to do so.

Winnipeg Wheat Market, Winnipeg, May 21.—The markets were slow at the opening. Winnipeg October was not officially open until after 10 o'clock, when it opened down 1/4, sold up to 1/4 over Saturday's close and closed 1/4 down for the day on very limited trading. The closing showed a general decline in all markets for wheat. Winnipeg May oats dropped 1/4, July and October 1/4, barley was unchanged, and flax dropped 1/4 for May and July. The feature of the cash market was an advance of 1/8 in the price of No. 2 special wheat, for which no one seemed able to account. The cash market is just "joggling along," with little or no change from day to day.

U.S. STEEL LEADS STRONG MARKET

Industrial and Utilities Register Smart Gains at New York.

New York, May 21.—Industrial, notably the steel and iron stocks, ruled to-day's active but relatively restricted market to an extraordinary degree. Enquiry for issues seemed to be prompted by additional trade advice of a highly favorable tenor. Extensive short covering and growing public participation were outstanding factors.

U.S. Steel occupied its customary dominant position and contributed almost 50 per cent. to the total of 850,000 shares. All its extreme rise of 1 1/2 points, to 13 1/2, came within four points of its record in the latter part of 1916.

Among the other strong stocks, Republic Iron and Steel, Fuel, took rank among the other strong stocks, with an advance of 3/4 of a point, to 3 1/2.

TORONTO MARKET QUITE STAGNANT

Few Buyers in Sight and Only a Few Issues Have Any Responsible Support.

Monday's Toronto market was almost stagnant. There were few buyers and except in a very few issues many more purchasers could have been supplied without influencing prices. Everyone is looking for the next turn in commercial circles. Some are of the opinion that the heyday of war expenditures is past, but others go to see this. There is unanimity of opinion, however, that companies with munitions business will have to turn to other channels to keep things going. Content in the steel and iron stocks and is one of the companies whose business is expected to hold under any conditions. Content is one of the firm issues and the support for the shares is at all times responsible. Dominion Steel and Nova Scotia are also well supported, as much on paper records as on current outlook. The market closed positively stagnant, and a fairly buoyant Wall Street failed to stimulate prices even an eighth. On the face of it, however, the Canadian market can only improve by the aid of insiders, and the latter can only be given if there is a chance of selling stocks at higher prices.

HOLLIGER OUTPUT SHOWS REDUCTION

Result of Curtailed Production Evidenced in Latest Monthly Report.

The Holliger statement covering the period ending April 22, just published, shows a decided falling off in production from the previous four weeks. The effect of the curtailed output, due to labor shortage evidently became more acute during the four-weekly period under review, and accounts for the fact that gross profits ran at \$194,683, as against \$210,749 in the preceding month, showing a decrease of \$16,066, or approximately 7 1/2 per cent. It must be remembered, however, that dividend requirements are only \$123,000, leaving a comfortable margin which is being devoted to wipe out the deficit incurred by the payment of the former dividend.

The decrease in output is explained by the fact that the mill ran only 72.6 per cent. of the possible running time, during 42,849 tons of ore as against 47,872 tons in the previous period. The average grade of ore, however, was the highest since last August, being given as \$2.90 per ton. Milling costs were reduced to \$1.09, but general working costs, including taxes and bonuses, increased to \$4.287 per ton, against \$3.37.

The balance sheet shows current assets of \$396,802, as against \$304,837; gold assets as \$426,148, versus \$569,176. Current liabilities consist of accounts payable \$430,505, and unpaid wages \$3,055. Owing to the payment of the dividend, which comes every eight weeks, the deficit shown has increased to \$174,184, but the net assets, which should show this amount almost wiped out.

PROMISING VEIN AT AURUM DISCOVERED

Believed to be Extension of Croesus Ore Body.

Porcupine, May 21.—It is reported that an important strike has been made on the Aurum property, which adjoins the Croesus, in Munro Township. Prospecting on the surface has revealed the presence of what those who have seen it describe as the best looking vein in Munro Township. The vein has been traced for a distance of 250 feet, and averages from four to five feet in width. It has a north-westerly-southeasterly strike and is believed by the management to be an extension of the famous Croesus vein. Work will be commenced immediately on the vein.

BROMPTON ACTIVE

Heron and Company report: Montreal, May 21.—The local market displays a firmer tone today. Brompton was the most active issue and showed an advance in price. There were few other issues to show any movement, but most of them closed at the best price of day.

WEAKNESS SHOWN IN MINING LIST

Further Selling of McIntyre Brought Lower Prices—Holly at Low Record.

The mining market yesterday was generally weaker, with breaks in McIntyre and Hollinger to new low records the outstanding feature. The liquidity in McIntyre, which commenced on Saturday, was continued yesterday, resulting in a drop in price to 18 1/2, eight points from the opening. A firm selling set in, with an attendant rally to the opening price, but this move was in turn followed by a relapse to 18 1/2, with the close at 18 1/2, a net loss for the day of five points.

There seemed to be no news to account for the selling, as good progress has been reported from the property and the annual statement, which will make its appearance within a month or two, is expected to show extraordinary increases in ore reserves. The liquidation had the appearance of the marketing of a large holding of stock. Inside support has lately been withdrawn from McIntyre and the market left to its own devices, with the result that stock offerings were made down to \$4.40, which constituted a new low record, the former low point being \$4.60. The four-weekly report published yesterday, for the period ending April 22, shows earnings considerably lower than for the previous month.

Big Dome was easier at \$11.75, although reports from the north reflect a bright future for McIntyre. A number of men have been taken on at this mine and that the daily production, which was down around 600 tons, has jumped to over 900 tons. Apex formed a fraction to five. Dome Extension was about steady at 13 1/2 to 14 1/2. West Dome sold at 11. Thompson sold at 11. Vipond at 38.

WHOLESALE FRUITS AND VEGETABLES

Watermelons. The first car of watermelons for this season came yesterday to Ontario, consisting of over eleven hundred melons, which are selling at 75c to \$1.00 per crate, according to quality. An extremely early date for them to arrive is the first time in history for this car to come in before the 24th of May.

Asparagus was very heavy, and while there were a very few 11-quart baskets sold at \$1.75 to \$2.00, the demand was very poor, and there were large quantities left unsold, therefore, the market price yesterday was \$1.50 per bushel, with some poorer quality going at \$1.25.

Florida celery (the green top variety) came back on the market again and sold at 85c per crate, with some better quality going at \$1.00.
