No. 193---An Humble Aid to Beauty By Mme. Lina Cavalieri, the Most Famous Living Beauty

MySecretsoffe

ME. CAVALIERI writes to-day of the aid a broomstick may become to beauty. "Jesting?" she writes. "Not at all. I wish to convince you that that everyday tool for keeping your home clean is a means of making yourself handsomer."

She explains that to sweep vigorously and thoroughly is to cause the blood to rush to the muscles of the forearm and shoulders and back. "More valuable than any of these," she adds, "is that sweeping causes you to" bend the body at the waist, thus strengthening the muscles that are weak in most women-those of the abdomen."

The proper use of the broomstick will straighten a bent back and round shoulders."

By Mme. Lina Cavalieri. TAVE you ever thought, dear sirl or woman reader, that the broomstick is an aid to beauty? Jesting? Not at all. I wish to convince you that that everyday tool for keeping your home clean is a means of making yourself handsomer. Indeed, yes.

SUNDAY MORNING

Sweeping itself is an admirable exercise. It gives a variety of activity by causing several of the least used muscles to stretch and contract. Sweep vigorously and thoroughly and you will feel the rush of blood to the muscles of your forearm, to the muscles surrounding your shoulder blades and to those at the small

of the back. And, more valuable than any of these, it causes you to bend the body at the waist, thus strengthening the muscles which are weak in nearly all women, those of the abdomen, muscles which, allowed to become weak and flaccid, cause that part of the body to sag, giving an unlovely prominence with the ugly bulge at the hips which caused a visiting artist from Europe to sneer:

"Ah, the great American figure is not, as I thought, the Almighty dollar. No, it is the unexercised forms of the women."

The American woman has learned to develop and keep in control the upper half of her figure. Fine chests, with a graceful line from the shoulder to the bust, have grown common among American women. Many of them have mas-

to bend at the waist to the floor will keep the hips and abdomen in control, and in time diminish their size.

breathing aro these: Sensitiveness to all the conditions that cause colds, and a disposition to allow colds to deepen into consumption or widen into pneumonia. Shallow breathing makes the liver lazy, and seen the body is bile flooded, the eyes becoming dull and the complexion yellow and lifeless, Clogged stomach and intestines are the marks of the shallow breather, for the body engine has not enough oxygen draught to burn up the fuel that has been thrown into it as food. It is only the deep breather who enjoys life to its full and shows her enjoyment of it.

Beauty Questions Answered.

L. S. says her face ha been disfigured with liver spots for a year and asks counsel as to their treatment.

Liver spots are often caused by senemia. Physicians term it chloasma. They are more common in men than in women. Often at the time they begin to appear in the complexion the skin exudes more oll than usual. Besides a "rundown" condition of the system, they may be caused by extreme heat or excessive cold. Often a radical change of climate may oc-casion them. An undue pressure that disturbs the inculation, as a tight hat band, may be the chief cause. This lotion, applied with a sponge or camel's hair brush once or twice daily to the spots, is effective in many instances:

Witch hazel..... 3 ounces One of the stronger sex also makes appeal in this letter:

"Will you kindly tell me what is good for pimples? I haven't many, good for pumples. I haven't many, but fear an outbreak. I use per-oxide of hydrogen undiluted on my face and it has turned my hair light in front. I'm going to take my first shave soon and I'm afraid that will spread the humors be-neath the skin all over my face." I advise internal remedies. Drink water freely, ten to twelve glasses a day, and eat much fruit and vegetables. That will drive from the system the humors which, cause eruptions on the face. A week of this self-treatment will cause improvement. A month of it will work wonders for your com-

For this reason, if not for that of neatness, never lose an opportunity, if your figure has the defect I mention, to stoop to pick up a hit of paper or lint, or a scrap of cloth, Stoop from the waist. Don't resort to that trick of the indolent or the awkward, falling upon the knees when you pick up anything. Stoop ig is a graceful posture. Learn it. If the defect in your figure is the other sort, the broomstick is still your friend. But use it in a differ-

In This Pose Djeli's Hip Partly Dislocated, Producing an Effect Which Fascinates Her Paris Audiences. 1.1 |電影時神

HEN Paderewski had each of his tep value each of his ten valuable fingers insured against fracture or dislocation that would interfere with his piano playing, the procedure was so novel that news of it was flashed around the world. Now what would you think of a situation exactly the reverse-of a

celebrated public performer who infured hard and signification dislocation, but against the efforts of nature to restore joints already dislocated to their normal state? That is actually what the celebrated Paris dancer, Sahary Djeli,

has done. It is as though she had said to i' insurance agent: "My dislocated joints-my dislo-cated shoulders, elbows, wrists, neck, knees and ankles-are my fortune. If accident or nature puts me together again I am lost! My vocation is gone! I shall starve. For without my valuable dislocations I would be as a hundred other dancers-no noyelty, no big salary pull left in me!"

pull left in me!" At 1 so Lanary Djoll, who is a very pretty and graceful, dark-eyed girl, with a well-trained gift for cancing, las ... tout an accident poll y for each of her joints. She made her to k in Paris as a "initesuse Hindoue"-that is a Hindo dameer-because of is a Hindo danger-because of certain extraordinary poses and gestures she used while dancing in Oriental costume. "Salome," as

dance and as opera, was then the rage, and Saha ry Djeli did as all the other character dancers did-interpreted the scene where the daughter of Herodias dances before King Herod Artipas, and finally receives John the Baptist's papier mache head upon a charger.

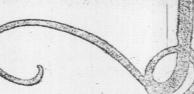

She rather outdie the other Salome dancers by adding her dislocations to the conventional category of poses and contortions. In that scant costume. after throwing off the last of the sc en veils, her special hip dislocation added a ve-riation which the Parisians found fascinating. This emboldened her to present wriz's and eibows without their customary ratural align-

Alas: soon she discovered that these charming dislocations exacted a penalty from nature. Nature made reprisa's in certain painful inflammations-nature's rreliminary to healing those abnormalities which had come to be Sahary Djeli's bread and butter.

"Mon Dieu!" said she to her maid, "if I lose n. serious disloca-tions I sh: .ose my engagement! Come quick! Dislocate me, or we

And so Sahary Djell is the only dancer frobably the only woman woman dancer in the world whore joints ar insured against "acci-dents" that will cender them normal and like the joints of the rest of hus

3 Carsof Hoosier Cabinets

For Those Who Missed the Club

Realizing that 500 Cabinets were too few, and two weeks all too short to satisfy the great demand sure to be made on us by those wishing to join the "Model Kitchen Club," we prevailed upon makers to let us have these three extra cars of Hoosier Kitchen Cabinets, so that we could be certain to make happy those of our friends who might miss joining the club, which came to a close noon at Saturday.

Therefore, it is with pleasure we are enabled to annouuce that 180 CABINETS will be ready Monday for those who wish to avail themselves of this extra opportunity, and we are sure there will be another rush.

The Same Liberal Terms---\$1 Down and \$1 Weekly as Well as the Big Gift of Groceries

We have no promise of another Hoosier Club. The Hoosier Company has complete control. You may have to wait months-a year for this lightening of your household labor-if you miss this opportunity to save miles of steps, hours of time, hours of weary standing.

You are needlessly wasting strength and sapping health and spirits every hour you go without a Hoosier.

THE TORONTO SUNDAY WORLD

Call tomorrow early and you can have one delivered by night-all for payment of \$1.00. And only \$1.00 a week required in dues-the dues that pay for your Hoosier.

Remember the low fixed price is established everywhere by The Hoosier Company to give you full benefit of the cost saving from enormous output. Half a million progressive house-wives have already installed this greatest of all household conveniences in their kitchen. For all of these kitchen work now is easy.

No more walking back and forth between table and pantry and cupboard-spending time and getting exhausted in miles of useless steps.

Everything they need in cooking is within reach of their arm—they sit instead of stand. Result—happy, rested women, with time and inclination for the pleasure that makes life worth living.

Unless you come in early next week we cannot promise you a Hoosier.

literary quality. It is, indeed, as fine a piece of poetic writing on poetic criticism as I have ever had the pleasure of reading. Here is the opening paragraph:-"One morning in September I was strolling toward the gray waterfront of Montreal. It was a morning to make one polite, and I was on busi-pess of no particular in was on business of no particular importance. Pas-sing a fruit-stall, I saw a little boy coking wistfully at a heap of August apples. They were streaked with red and pale green, and to a knowing eye well advertised the delicious tart juiciness between the core and the peel. In my mood I asked the boy to have some. He filled his pockets, and I took a couple myself. They smelt good and we ate them as two comgood and we ate them as two comrades, with much smacking of our lips, on our way down a quiet side threet."

Now, this doesn't sound much like he introduction to an essay on the 'ballade.' But it is quite the natural THE TORONTO SUNDAY WORLD

Announcement

New HUDSON

A 54-Horsepower Six \$2800 A HUDSON Four \$2300

These are sensational values. The cars are fully equipped with Delco system of electric selfcranking, lighting and ignition device, demountable rims, speedometer, clock, top, windshield and all other details that make the car complete.

See this \$2800 Hudson Six Today

Within one year we have become the world's largest builders of Sixes.

This enormous output has taken us out of the costly development period. The days of a premium on Sixes are over.

You can get a HUDSON Six at four-cylinder prices. It's the first time that a high powered Six—a big, roomy five-passenger Six, with every detail the finest, could be bought under \$3200.

You who have wanted a Six, but were unwilling to pay more than \$3000 for your car, can now realize your wish.

This HUDSON Six is the natural successor to the Six which last season outsold every Six in the world. It will do more than a mile a minute, and on high will throttle down to three miles an hour.

JULY 6 1913

It is powerful enough to meet every road demand. It is so

quiet you can scarcely hear the motor. And the price—think of it—is only \$2800. Good fours of other makes cost that much.

Come see this HUDSON Six.

Let us demonstrate it to you. We'll show its mettle against any motor car at any price.

A New Low Price Level for Fours

There have been many startling values in HUDSON cars in the past.

This Four at \$2300; we think by far outdistances any HUDSON car ever before offered. Remember the "33" at \$2150.

It was the great car of its day.

nothing about

ON YOUR HOLIDAYS.

are contained in this

Thousands now daily prove the stuff of which it was built. This HUDSON four, built more sturdily even, with more powerful mator-almost 40 horsepower-with electric self-cranking device, electric lights, roomler body-a \$500 greater value As only \$2300.

Contrast such value with any four on the market. Compare performance, design, workmanship, etc., with \$2600 cars. That's the kind of competition we seek. It's the kind that will convince you that truly a new low price leval has been found for reliable four-cylinder cars, The car is here for your inspection to-day.

Both Cars Built by Coffin

These cars are the product of an engineering corps, the largest in the whole motor car industry. At its head is Howard E. Coffin, long regarded as the

foremost engineer in America. Working with him are 47 experts. | Each has beeen chosen

because he excelled in some important particular. Most of them devote their whole time to the HUDSON.

Others are free lance experts brought in to perfect some part.

The result is that HUDSON cars in every detail reveal the utmost in car building.

uccessful Six ever built.

And that Howard E. Coffin has more four cylinder successes to his credit than any other engineer in America.

Each has brought to the HUDSON the very best he knows,

FASHIONABLE SUMMER COSTUMES.

NEVER were children's styles prettier than at the present time. All sorts of beautiful fabrics are used for their making and they are marvelously attractive both in style and cut. The two illustrations give excellent examples of correct dress for the tiny boy and for the slightly older girl. The boy's suit is especially well adapted to summer materials for it can be worn with or without the separate shield. The blouse is closed down the front, boo, so that it is easy to adjust. In the illustration, galatea is trimmed with banding.

For the 4 year size, the suit will require 41/2 yards of material 27, 31/2 yards 36 or 24 yards 44 inches wide, with 1 yard 27 to trim as shown in back view. The May Manton pattern of the suit 7830 is cut in sizes for boys from 2 to 6

7837 DESIGNS BY MAY MANTON.

7837 Girl's Dress, 8 to 14 years.

7830 Boy's Suit, 2 to 6 years.

The girl's dress is made with straight skirt and bretelles that have straight The ght's dress is made with straight skirt and bretelles that have straight edges and, consequently, is especially adapted to bordered materials while it always can be used for plain ones trimmed with banding or in any other pretty fashion. The skirt can be either tucked or gathered at the upper edge and the front portion of the blouse can be made gathered or tucked and the neck can be made round or square and the sleeves longer or shorter. The design is of bordered voile or some similar material or for the plain lawn or batiste with equal success. In one view, it is shown without the bretelles and with simple trimming.

For the 12 year size, the dress will require 2 yards of flouncing 30 inches wide with 2% yards 10 inches wide, 1 yard of plain material 36, ½ yard of all-over 18 inches wide to make as shown on the figure; or, 5½ yards 27, 4 yards 36 or 3% yards 44 inches wide, with 9 yards of insertion to make as shown in the

The May Manton pattern of the dress 7837 is cut in sizes for girls from 8 to 14 years of age.

The above patterns will be mailed to any address by the Fashion Department of this paper, upon receipt of 15: cents for each.

lery or a table d'hote dinner. The things presented mix in spite of me; they acquire a composite, inferior flavor from each other; I get stuffed Address

without any distinct satisfaction. In an anthology there is nothing to match; one poem jars with another; there is not that harmonizing undertone imparted to a volume by a single author, whose manner and personality prevails thrue every line from the first

to the last page." Some very apt remarks upon poetic form are found in this essay:-"To me some verse-forms are destinate some verse-forms are destinate vehicles of poetic emotion; so much so as to appear in the order of nature. For just as various minerals strive to crystal according to the pattern chosen by their informing spirit, so certain mods will seek formal, verbal expres-tion will seek to crystalize and in so sion, will seek to crystalize, and in so dcing achieve and effect beyond the mere meaning of the words." Again, "my theory is that certain emotions, ranging from ribald to sacred, if awakened in men of certain brain and temperament, will manifest fixed ver-bal forms, irrespective of age or language, as fitly and inevitably as crystals about a cord, or frost flowers upon a window pane." These theories will hold true, every careful student of poetic form is bound to admit, and I cannot refrain from pointing out that Mr. McInnes has expressed his bis. theories in poetic imagery, altho in prose form.

I shall not undertake to follow the xposition on the various forms of the

A position on the various forms of the ballade-if you are at all interested, I would advise you to get the book and do so yourself. There are just a few points upon which Mr. McInnes and myself choose to disagree; chief of these is his dis-regard for rules. Now, I do not hold that poetry or every your work. that poetry or even verse must be methodically measured in every detail by a millimetric rule, but I do main-tain that there are certain fundamental principles which must not be transgressed, else we can not have good poetry or even passable verse. "For beauty is something too divine for definition,' he maintains, and we are prepared to agree with him, and yet hold it essential to set up certain **THREE HURT IN MONTREAL FIRE** Fifty Thousand Dollars Damage.

his identity or anything of his past life prior to his coming to New York some twenty years ago. He seems to have gotten in touch with a good many big financial men in his time and to have been a familiar figure in Washington as well as in New York. He had no hesitation in personating senators, congressmen and other public men when it suited his purpose to do so, and some tricks of that kind led to the charge that certain members of congress were trying to get next to Wall street in connection with the recent Union Pacific deal and settlement. The two congressmen who were supposed to have talked over the telephone are now acquitted, as it has been proved beyond question that in satile Mr. Lamur.

Mulhali a Different Type. The antithesis of Lamar is Colonei Martin M. Mulhall, who will occupy the centre of the stage next week. Lamar is almost a typical villain, a modern Iago, brazen, shameless, self. confessed. He has lived by plunder of one kind or another and been always the man behind the scenes. Mulhali, on the other hand, in making his dicclosures professes to be acting in the public interest. He was for years em-ployed by the National Association of Manufacturers, and seems to have been held by them in the highest re-gard. He had a talent for organiza-tion, was a plausible speaker, and was found useful in a excise contexts and is tion, was a plausible speaker, and was found useful in e ection contests and in breaking up strikes by bribery and other sinister methods. Mulhall does not seem to have re-garded himself as following a dishon-

This drink may be served in an endless number of ways, and tectotallers can enjoy to their heart's content eggnogs without spirits that are simply but deliciously fiavored with orange,

but deliciously fiavored with orange. coffee, vanila, nutmeg or chocolate. A plain eggnog of any kind may be turned into a festive beverage if topped with whipped cream or ice cream and a bit of candied fruit. The white of egg so often recommended should not be added unless the "nog" is neavily flavored, as it is apt to impart a raw. eggy taste. eggy taste

Chocolate Eggnogg. Chocolate Eggnogg. For a chocolate eggnog use a table-, spoorful of grated chocolate, a table-spoonful of sugar and a large new egg to every half-pint glass of rich chilled milk. Melt the chocolate and sugar together to a paste, then add the egg yolk and stir the mixture into the milk, beating well so that the egg will not separate from it. When ready to serve add a big spoonful of whipped cream or ice cream to each glass. If

preferred, the whipped cream may, for variety's sake, be partly frozen. When a coffee eggnog is properly made it is delicious. It may be pre-pared like the chocolate drink, using in place of the chocolate enough strong coffee to give it a fine flavor. The same properties may be be defined same proportions may be used with other flavors.

Save Preserve Juice.

Save Preserve Juice. After preserving cherries, berries, pinetoppies and other summer fruits there is usually an abundance of su-perfluous juice on hand. This can be bottled separately for use in beverages. Thinned with water and poured into glasses over crushed ice, it will be a change from the ever present lemonhange from the ever present lemon-

ade Secret of Success.

Secret of Success, The secret of making these bever-ages successfully lies in having an abundance of crushed ice in the glass-es, for fruit juices are likely to be cloying unless thoroly chilled. A little carbonated water and some ice cream or whipped cream will pro-vide a refreshing soda if a ided to one of these preserve juices.

of these preserve juices. A little melted currant felly dilut-A little melted currant felly dilut-ed with water is a good "minute bev-erage" with a "tang," In jelly making some housewives are wise enough lay aside some of the currant jelly

stead of a "scapegoat," and by forcing respect for him from the player even-tually commanded also the veneration of fandom. It was Johnson who was largely instrumental in stamping out all forms of rowdyism upon the field. And when he had forced recognition to equality from the National League, he was one of the leading spirits for peace and good will toward one happy, concerted union for the common good. The Johnson regime marked a new

era-in professional baseball. He was at first looked upon with suspicion. It was not believed at the time he ex-panded to major league distinction that there was room for two big cir-cuits. He not only proved that there was but by furnishing the big cities of the country, which are now represented in both National and American-with high-class sport every day thruout the entire playing season added such an impetus toward universal patronage that the great pastime has gone boom-ing on more and more steadily with each succeeding season. Competition is the life of all healthy sport and so the American League, as a rival to the National, was just the proper thing to arouse such interest as is manifested at present. But for Ban Johnson's invasion of the parent major league ter-ritory it is doubtful if there would be any steel and concrete stands today. And it is doubtful also if Ty Cobb would be demanding \$15,000 salaries. For after the old war days the pay never did ad-

lished are rather an unbiased lot. They are generally of the opinion that there is no appreciable difference in the re-spective strengths of the big leagues. And why should there be? The pres-ent-day magnate stands ready to sacrifice the limit of profits in the hunt for talent. Each club has its scouts scouring the country for new players. There is little choice among the rival managers. Each circuit boasts its great popular heroes.

American-Made Baseball.

There was a time wnen the American League overshadowed its totter-

and Red Sox-have spread-eagled the field. And on the other hand the National League strife has been a fight between two or more clubs almost up to the last day. The fine balance of strength in the National League has been a source of great financial gain. Frank Chance, manager of the High-landers, should know as much as any iving man as to the relative strength

of the major leagues. "There is no difference." said he the ing rival. That was back in the warl other day. "They play the same kind of

Cheerier Note in Poesy

In a recent reprint of verses popular a generation ago, some lyric, some declamatory, it was found that nearly every one of them contained a sigh or a sob. All had to do with the somber and sad. What the old-time reporter would have called "a general air of gloom" pervaded the rhymes. Not so in this day and generation. Quite the contrary. Take at random some poems, verses, rhymes now current in the daily press of the United States. Says one, in the opening stanza:

> Hang on! Cling on! No matter what they say; Push on! Sing on- Things will come your way. Sitting down and sighing never helps a bit; Best way to get there is by keeping up your grit.

Says another:

There are just as many good fish in the sea As ever were caught in a net; And anglers all over the world will agree The best one is swimming there yet. So do not repine If the end of your line Shows no sign that there's anything tugging; Just stick to your work, Don't weaken or shirk-For nothing will come without plugging.

And another:

There are men who do and men who don't, Some men they will and others won't, But pluck will win in every line-Pluck and effort make strong combine.

Yet another:

- If you're on the gloomy side, Get a transfer. If you're inclined to fret and pine Get a transfer
- Get off the track of doubt and gloom-Get on the Sunshine train-there's room-Get a transfer

And here is one from Nixon Waterman:

Go in and do the best you can, Nor waste your time in sighing; The mind's the measure of the man, And strength is born of trying. And tho you met a sad reverse, The world is still your debtor: 'Tis only that some do things worse That some can do them better.

FAMILY REUNION

NEW YORK, July, 5.—Shortly after 1 o'clock, the other day, curb brokers were aware of the presence of a tall, well-dressed stranger in their midst, who carried a regular trading book and looked business. Naturally everyone wondered who he was, and it was whispered that some great magnate from another city or else an unknown member of the exchange was going to honor the curb by trading in their midst.

After the mysterious had succeded in gathering a crowd of curious brokers around him, somebody spotted a moving picture machine facing the bunch, and at the same moment the stranger commenced to gesticulate wildly, making the motions of executing a large market order, and brokers afterwards admitted that the actor proved himself an adept in going thru the regular motions of a busy and excited member of the curb. The actor did not have a chance after that. They literally jumped on him, knocking his panama yards away, ripping his collar, pulling his mustachios and giving him a real initiation. He eventually escaped, somewhat soiled and crumpled, and he sprinted with the mob after him to a waiting taxi into which he bundled with the photographer following closely on his heels.

Brokers are wondering now if by mobbing him they did not supply the really necessary element for some drama he was depicting.

LATE BERRIES Been Almost Terminated by Excessive Heat in the Fruit Belt.

ST. CATHARINES, July 5.—(Spe-cial.)—Yesterday's downpour of rain is estimated to have been of untold value estimated to have been of untold value to the fruit belt, where the strawberry crop had been almost terminated by the continuous excessive heat. The rain had the effect of saving the

The field comprises six acres and is on the mensury variety Mr. Kennedy also has 42 acres of red fyfe wheat in the short blade, which stands 36 inches, so even that there is no choice in the field. A patch of mar-quis wheat is headed out and stands 28 inches. With the present rate of ma-turity the latter should be ready to go out about Aug. 10, and the former a week later. The rain had the effect of saving the later berries in the eastern portion of the district. Two good p.ckings are expected next week as a result. The raspberries, too, are giving 'ndication of the beneficial effect of the showers. Small green tomatoes on mains andy farms had become noticeably olistered. Today the patches are greatly trans-formed and vegetation of every variety is showing signs of renewed 'ite. Had the drought continued for three days the drought continued for three days longer thousands of dollars' loss would have resulted to berries, tomatoes, cabbage, cauliflower, and, in fact, everything but tree crops.

Dut-No runs. No hits. No errors. Fourth Innings. TORONTO-Shuitz struck at three over the plate and was out. Northen hit to left for two bases. The ball striking be-tween Jackson and Hanford. Roach made a beautiful stop of W. Bradley's hit and caught the runner at first. Northen reached third on the play. H. Bradley was an easy out, Bues to Beck. No Yuns, one hit, no errors. BUFFALO-Truesdale flew out to

Nationals and Barnett one for Toronto. Quarter over: NATIONALS 4, TORONTOS 2. Third Quarter. Gauthier got away from Stagg and getting at the mouth of the net fired the rubber into the net, followed by La-chappelle scoring again for Nationals. All the scoring was the fault of the open defence of the Torontos. Toronto scored thru Warwick. Boullianne added No. 7 for the Nationals. Gauthier, stand-ing in front of Stagg, let go a swift one that beat Holmes, and the little dare-devil danced with delight. Boullianne added No. 9 for the Nationals. On a pass from Warwick to Barber, Toronto scored No. 4. Boullianne on a pass to Lamoureaux scored No. 10, and Boullian-ne scored No. 11.

BUFFALO-Truesdale flew out to Northen. Gowdy followed with a high one to Fitz. Holly dropped Murray's line drive, the runner reaching first and was out stealing, Bemis to Holly. No runs, no hits, no errors.

TORONTO—Holly tapped an easy one to Bues, and was out at first. Bemis went out, Roach to Beck, Roach made a circus stop of Gaw's tap, but the runner beat out the throw. Fitz laid one down to Main and was out. No runs. One hit. No errors. ne scored No. 11

DELORIMIER RESULTS

No errors. BUFFALO—Hanford fanned on three pitched balls. Bues placed one just be-hind third and reached second on the play. Roach out, W. Bradley to H. Brad-ley. Beck reached first, being hit by a pitched ball. Northen made a good run for Mains' hit on the foul line, but failed to reach the ball. Beck was caught at the plate on the play. Bues scored. One run, Two hits. No errors. DELORIMIER PARK, Montreal, July 5.—The races here today resulted as fol-lows: FIRST RACE—Purse \$300, selling, for 3-year-olds and up. 6½ furlongs: 1. Yankee Lotus, 110 (Skirvin), 3 to 1. 6 to 5 and 3 to 5. 2. Song of Rocks, 111 (Knight), 4 to 1. 3 to 2 and 3 to 5. 3. Kittery, 114 (Moore), 3 to 2, 3 to 5 and out.

TORONTO-O'Hara filed out to Trues-dale. Shultz was walked. Northen sac-rificed, Mains to Beck. W. Bradley out, Roach to Beck. No runs. No hits. No errors.

BUFFALO-Jackson's liner fell into W.

Bradley's hands and he was out at first. Truesdale bunted and was out, Fitz to H. Bradley, Gowdy's hit went to left, giving him a base. Murray flew out to Shultz. No runs. One hit. No errors.

TORONTO-H. Bradley out, Mains to Beck. Holly went over the route, Bues to Beck. Bemis was given free passage to first. Gaw made a clean hit over

second, Bernis advancing one station. Hanford grabbed Fitz's long fly and re-tired the side. No runs, one hit, no er-

BUFFALO-Tanford hit safely thru

third. Bues sacrificed. Roach popped up one to Gaw, and Hanford was doubled at second. No runs, one hit, no errors.

While the pop-eyed baseball fans, who are breathlessly following the fortunes of the two major leagues, are balancing one man's playing against another's, it would be well for them to pause and consider the case of Mr. While it is not going to be set forth for Cutshaw that he makes Johnny Evers in his palmiest days look like an Indian cigar sign, nor y't that he has wrested the laurels from Eddie Collin.' marble brow, this is what he said for him with an air of defiance to all base ball critics, namely, to wit; that Cutshaw is a youngster who has within two months' play pushed himself into the rarified atmosphere where dwell those choice and shining spirits, known as base ball stars. While he may be lacking a little of the dash of a Collins or a Doyle, his efficiency at the second hag is growing more conspicuous every day and the prediction is hereby made that before he is many years older in the game he will stand second to none as guardian of the keystone pillow.

The way Cutshaw goes after the ball, whether it is up in the air or on the ground, to the right or left or behind him, is of the Hans Wagner order. Beyond this praise becomes mere maudlin worship. The further fact that Cutshaw is hitting the ball to the tune of over .300 is one more explanation as to why the Dodgers are fraternizing with the pennant contenders.

c) olds and upwards, 6 furlongs:

Havrock, 116 (Loftus), 10 to 1, 5 to
and even.
Rustling, 100 (Ambrose), 12 to 1, 4 to

l and even.
Berts, but Green broke up their combination and carried the ball back. Some exciting manoeuvring resulted around the Irish nets when the Indians tried to get an opening. McDougall fired a wick-ed one at Brennan, who stopped it with his shoulder. The ball then went down to stay on the Indian territory for about a second. The playing was very fast, the ball going back and forth at a light-ning rate. Aided by Green and Rountree the Tecumsehs made a hot onstaught on the Irish flags. Practically every man took a shot at Brennan, but to no avail until Felker managed to slip one by. Time 8 minutes.
If ever a frace bind det to the stretch that he could find. Old Havrock won the race after Denham had led to the stretch time, 1.20 for the six furiongs, is simply awful, even allowing for the slow condition of the track.
THIRD RACE—Purse \$500, 3-year-oids and up, 6 furiongs:
Gold Cap, 105 (Scharf), 6 to 1, 2 to 1, 4 to 1, 5 to 1, 2 to 1, 5 to 1, 5 to 1, 2 to 1, 5 to 1, 2 to 1, 5 to 1, 5 to 1, 2 to 1, 5 to 1, 5 to 1, 2 to 1, 5 to 1, 2 to 1, 5 to 1, 5 to 1, 2 to 1, 5 to 1, 2 to 1, 5 to 1, 5 to 1, 2 to 1, 5 to 1, 2 to 1, 5 to 1, 5 to 1, 2 to 1, 5 to 1, 5 to 1, 2 to 1, 5 to 1, 5 to 1, 2 to 1, 5 to 1, 5 to 1, 5 to 1, 5 to 1, 2 to 1, 5 to 1, 5 to 1, 5 to 1, 2 to 1, 5 to 1, 5

and up, 6 furlongs: 1. Gold Cap, 105 (Scharf), 6 to 1, 2 to TECUMSEHS 1, IRISH-CANADIANS

Circuit meeting which will begin Mon-

Del Ray and Grattan Royal disposition to keep a going at the end of each trip." Come Together At Cleveland-Experts Divide In Opinion.

When two or more horsemen get together these days, their conversation invariably drifts around to the pacing classics and arguments regularly ensue as to the relative merits of several of the most prominent entrants, writes Tom Gahagan in The American Sportsman. Last Wednesday, two of the most prominent trainers which the industry boosts of each of whom here industry boasts of, each of whom has driven performers to world's records, entered into an argument as to the superiority of Del Rey and Grattan Royal, and finally terminated the matter by an agreement to back their respective choice at prevailing odds when the pair first come together, which will, according to schedule, be at his morning's work. This pair of crack side-wheelers the inaugural Grand Circuit meeting This pair of crack side-wheelers meet this week at the Cleveland Grand

The admirer of the son, of Nutwood Wilkes, 2.161/2, looks upon him as the greatest pacing prospect of the present period and during the course of his conversation, remarked in part about as follows: "I have had the opportun-Stake, in which both pacers are enter-

ity of seeing all of the fast pacers in recent years, but I never saw a four-year-old which could pace a mile in 2.03 as easily as he did here last seayear-old which could pace a mile in 2.03 as easily as he did here last sea-son, then come right back in twenty minutes with one in 2.04, with a last half in 57% seconds, and the last cuarter in 27% seconds. Only one of any inconventions to reserver. \$2.50, Fort Erie Races, from Toronto. half in 57% seconds, and the last quarter in 27% seconds Only one of this class appears at a time, and if Walter Cox meets with no bad luck in training him this season, he will surely make Grattan Royal and the public as well, learn of the weakest spot in the Canadian wiggler's hopples. He in my

acch having a heat, and only the heat winners started. Bonnie Cope had been well piayed in the auction pool to win the race, and Alfrice C., who had sold for \$4 in \$50 and \$60 pools, looked a real good thing, which he proved to be in the two deciding heats. He won the fifth handly in 2.16, and when they were given the word for the sixth and than and in 2.1. Now came di sixen the word for the sixth and than and in the strate in the two discidual heat, was sent away back in third position, he raced there till they diver Direct laying right up, and they around, when he pulled out and heat them all to the half, and, from there on rode easily in first piace to the wire, winning the startes, but of the second, and these these the startes in the first half. The second race was for \$400. There were six entries, but the staced the startes. Star of the Sea drew the pole, with Little red second, and the flaf for \$5 and \$7.00. There were six entries, but the second and Miss Brownie they hit the stretch, when King stretch the startes, wing they but he stretch, when King a burst of speed thru the stretch they hit the stretch, when King stretch drive in the starte dive in the first head first the fourth heat in 216%, and head the fort, but the second and Miss Brownie for the stretch, when King stretch drive in the stretch, when King stretch drive, Hanold old in the first head for the dum was placed back on the stretch, now the heat from Jubiles and brownlee third However, nipped her at the wine, but was placed to isst brownie dum horse, however, nipped her at the wine, but was placed to isst the first the stretch dum stain for repeated breaks. Capt Larabile, fresh form his victory at Aylmer, was a class event for 219 pacers, for a a Royal remarked, "I will grant that the California stallion has a world of speed and is an exceptionally promising pro-

dium horse, however, nipped her at the wire, but was placed to last position again, for repeated breaks. Little Ted being second, and Jubilee third. Time, 2.21%. Miss Browniee won the third and fourth heats and of the purse. The third race was a class event for 2.19 pacers for of the purse. The third race was a class event for 2.19 pacers, for a purse of \$400. Capt. Larabie, fresh from his victory at Aylmer, was installed the favorite over a field of ten horses. He drew third position, and rounding the ton turn went one which has trialled in 2,03%, over a mile ring, and has practical experi-ence in the most trying branch of the game (ice racing over the half-mile tracks) being victorious on each and and, rounding the top turn, went to a break, and looked to be hopeevery occasion and showed speed of a nature equalled on but one or two oc-casions in the entire history of the essly out of it. Jimmie Direct was leading at the five-eighth pole, Canadian winter circuits. In addition, canadian winter circuits. In addition, he will be well fortified with a pair of stout restrainers and driven by one who is capable of winding in, out and around in a crowded field and getting when he went to a break, and four or five horses went over the top of him, and made a bad spill. Luckily, no one was hurt, and nothevery ounce out of his mount in a hard and bitterly contested stretch battle." ing broke. Ranny Macey's mount run After a few good natured remarks back and forward the argument was for the resent closed, as each gentleman was bliged to take a mount and continue day, on the North Randall track, and

the much discussed question of superiority will be settled in the Edwards and Bert Clarke third. The final heat — When they got the word they all went away boil-ing. Don Cecillian took the pole, with Bert Clarke on the outside and Lar-abie in a pocket, Victoria Poem riding at Larabie's wheel when they struck the stretch; the driver of Larabie actually had to back out and come around them, but he was equal to the occasion. he finishing first. Bert Clarke second, and Victoria Poem third. Time, 2.17⁴. The second day the feature event was the \$1000 stake for 2.30 pacers. The original nomination was large, but some had declared out, others who thought they had no chance had slipped home, and there was only sev:n horses faced the wire

Universally Recognized as the Best Whisky in the Market.

the decision. Time of mile, 221%. This changed the aspect very consid-erably, it new looked as if the mare would win the race, and there was considerable of a change in the auc-tion pools. When the word was giv-en for the fifth heat Margrave shot to the front, with Aubreon second. the Murphy mare having made a break, but she had so much speed that she raced around them and won pulled but she had so much speed that she raced around them and won pulled up in 2.24½; Wood Points second, and Margrave third. For the final heat only Robt, Margrave and Mary Murphy started, but the Margrave horse could never get to her after the first half. She winning pulled up in 2.35. This gave Mary Murphy first money, Robt. Margrave second, and Aubreon third. Robt. Margrave went a very hard race, but was considerably distress-ed after the final heat. Since writing the above result of this race Robt. ed after the final heat. Since withins the above result of this race Robt. Margrave has died. The question, na-turally, arises who are the parties Margrave has died. The question, na-turally, arises who are the parties responsible for his death. As has been stated above Robt. Margrave raced every mile from wire to wire, while Mary Murphy, with making repeated breaks, was just fighting the flag. Why should the judges allow such con-ditions to exist is it on account of stakes so fa: with the exception of Toronto, was looked upon as a certain winner, and in fact, did win after one of the hottest contested races of the meeting. Aubreon, the Malone, New York owned mare, drew the pole, with Prince Archer in second position, and Robert Margrave in third, with very little scoring they were given the word. Aubreon took the first turn in good shape, with Prince Archer right at her wheel, and Robt. Margrave trail-ing the pole horse, they raced this n way to the ½; the Denver mare away back, having gone to a break down the away, but was caught in the stretch. Don Cecillian finished first, with the favorite second; Earl Mack third. Time of mile, 221¼. When they got the word for the next; heat, Capt. Larable made every post a winning one, and finished first, with Jennie Direct second, and Don Cecillian third. Time, 2.17¼. The third heat with same time, with Jimmie Direct second, and Bert Clarke third. The final heat — When they got the word they all went away boil-ing. Don Cecillian took the pole, with to insure competent men who are fear-less, and will do their duty. No man should take that position if his only credentials are that he is a good fel-low. Robt. Margrave might have been saved, but such was not to be. The last day had to be called off on account of heavy rain. The track, a sand one, being a sea of mud. Most of the stables split up here. Some will go to Listowel, while others ship to Port Huron and St. Thomas

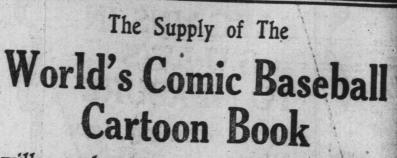

while others ship to Por Huron and St. Thomas.

Once there was a Leading Citizen with only one Daughter, but she was some Offspring. Bernice was chief Expense Account

and Crown Jewel of a Real Estate Jug-gler who had done so well that all the much Side and wore lily-colored Spats.

Strap-Hangers regarded him as an Enemy to Society. Papa was foolish, even as a Weasel.

He was toolish, even as a Weasel. He was what you might call Hon-est, which signified that all of his Low Work had been done by Agents. A Person of rare judgment, withal. He never copped a piece of bulky Swag unless he had a Wheelbarrow with him at the time

with him at the time. He had been going East with the Green Plush ever since the Party in Power precipitated the first Panic. He had Stakes of the Needful and his 'Rating was AA Plus I, to say nothing of a Reserve cached in the little Tin

Daughter alone could induce him to unbuckle, and melt, and jar loose, and come across, and kick in, and sting the Check-Book.

One day Bernice was a Little Girl, and the next day she was head Flossie among the Debutantes, with a pack of Society Hounds pursuing in Full Cry, each willing to help count the Bank Roll

Roll. Father was scared pink when he sized up the Field. He still wore box-toed Boots and carried Folizge on the Sub-Maxillary so that those who came ringing the Front Bell didn't look very lucky to

Sometimes he would dream that h had been pushed into a Mausoleum and that a slender Cyril with a Lady's Watch strapped on his Wrist was spending all of that Money for Signed Etchings.

Whereupon he would awake in a Cold Sweat and try to think of a safe Recipe for polsoning Cigaret-Smokers.

One day Bernice went out into the Sunshine and found something and brought it home with her and put it on a Rug in the Elizabethan Room.

Father came in and took one look and said: "Not for mine! I won't I stand for any Pussy Willow being grafted on to our Family Tree."

brought it home with her and put it on a rug in the Elizabethan room."

tucked inside of the Cuff. Also, it was rumored that he put oil on his Eye-Brows and rubbed Per-fumery on the backs of his Hands. Father walked around the He-Can-ary twice, looking at him over the Specks, and then he rushed to the Lib-rary and kicked the Upholstery out of in the Eyes of Bernice. She had fal-in the Eyes of Bernice. She had fal-in the Eyes of Bernice. She had fal-in the Eyes of Bernice. She had fal-ien for the Flukus. In a cowd of Bank Directors he would have been a cheap Swivel, but among the Woman Folks he was a Specks, and then he rushed to the Lib-regular Bright Eyes. He could see the love-light glinting in the Eyes of Bernice. She had fal-len for the Flukus. In a Steady Dought it nome with her and put it on a rug in the stand per he on a fug in the stand per he of desiccated Drool, Throne in the Spot Light, shooting an thim over the Specks, and then he rushed to the Lib-regular Bright Eyes. He could see the love-light glinting in the Eyes of Bernice. She had fal-len for the Flukus. In the Eyes of Bernice. She had fal-len for the Flukus. In the Eyes of Bernice in the Steady. In the Eyes of Bernice at a fal-brinkle Soothing Syrup all over the Specks and the her ushed to the flukus. In the Eyes of Bernice in the Steady. In the Eyes of Bernice in the Steady.

len for the Flukus. Kenneth was installed as Steady. When Bernice saw him turn the looked to her like Rupert, the long lost Heir,—while Father discerned only an Insect too large to be treated with Kenneth was the kind of Sop that Kenneth was the kind of Sop that

THE NEW FABLE OF THE FATHER WHO JUMPED IN

that the most agreeable Perfumery would not smell right if applied with a Garden Hose. Garden Hose. Likewise, he suspected that many a

Quarter-Horse would blow, if put into a two-mile Handicap. So he blocked out a Program which

proved that Solomon had nothing on

him. Instead of grilling young Kenneth and holding him up to Contumely and forbidding him the use of Cozy Corner, he started in to boost the Love Match. Kenneth all but moved in his Trunk. Father had a change to weigh him Father had a chance to weigh him, down to the last Ounce, and study the

imple Mechanism of his transparent Personality. Father classified the would-be Child-

in-Law as a Gobbie, which means a Home-Wrecker who is still learning his Trade. Kenneth would sit right up close to

old Cash-in-Hand, who would egg him on to tell Dialect Stories and, after that, show how to make a Salad.

The Stories were some that Marshall Wilder stopped using in 1882 and since then have been outlawed on the Kerosene Circuit. After Bernice had heard these

manac Wheezes 26 or 28 times, she would sit still and look at the Centre-Piece while Lover was performin The Gags didn't sound as killing as they had at first, and sometimes she wished the Dear Boy would chop on

No chance. Father had him kidded into believing that all the old ham-fat Riddles were simply immense.

As for that Salad Specialty, the poor Gink who calls loudly for English Mustard and thinks he is a Genius because he can rub a Bowl with a because he can rub a Bowl with a sprig of Garlic, may have his brief Hour of Triumph, but no man ever really got anywhere by mixing Salad, when you stop to add it all up. Father would put the two young people together in the back of the Touring Car and ride them around for Hours at a time

Father would order soft-boiled Eggs became evident to her that if Kenneth to be Eaten from the Shell. When Kenneth got around to these, he would cease to be a Romantic Figure for at least a few Minutes. Bernice would turn away in Dread and look out truly loved her, he would go and have them fixed. Likewise, every time her Heart's Delight lifted the Cup to his Ruby Lips, she would grip the Table Cloth with both Hands and whisper to herself,

at the swaying Trees, and long to see some of her Girl Friends back "Now we get the Funny Noise."

had aught in store for her except Dia-lect Stuff. Father had read on a Blotter somewhere that Absence makes the Heart grow fonder, so he played his System with the Reverse English. He arranged a nice long trip by Land and Water and took the male Sweetheart-along, so that the Doting Pair could be together at Breakfast. His cunning had now become diabolical. He was getting ready to apply the Supreme Test. Every Morning, when Bernice look-ded over her Baked Apple she saw nothing in this wide world except Kenneth, still reeking of Witeh Hazel and spotted with Talcum Pow-der, and not very long on Sparkling Conversation. When he was propped up in the cold Dawn, with his eyes partially found out that her Hair did not always look the same, but one who is striving to get a Meal Ticket for Life cannot over-fastidious. He was Game and stood ready to

obey all Orders in order to pull down the Capital Prize.

der, and not very tong tong Conversation. When he was propped up in the cold Dawn, with his eyes partially open, he did not resemble a Royal Personage nearly as much as he had Personage nearly as much as he had

the Capital Prize. He had been such a Hit in the Marshmallow Set that he could not conceive the possibility of any Female becoming satiated with his Society. The poor Loon never stopped to fig-ure out that the only way to keep a Girl sitting up and interested is to stay away once in a while and give her a

acation.

Father was right on the job to see that Bernice had no Vacation. He framed it up to give her a Foretasts of

Matrimony every Day in the Wesk. If the Future Husband wandered more than thirty feet from her side, Father would nail him and Sie him on

Father would nail him and Sie him on to her again. She would look up and say: "Oh. Fury! Look who's here again!" This was no way for a true-hearted Maiden to speak of her Soul Mata. Father put the Cap Sheaf on his big Experiment by accepting an invitation to go Yachting. He put them side by side on Deck and told them to comfort each ether, in case anything happened. They never could have been guite the same to each other after that Day. Bernice wanted to get back on Shore and hunt her Room and peel down to a Kimono and refuse to see any Callers for a Month. Even the accepted Swain was been

Kenneth, in the meanwhile, had

Even the accepted Swain was Even the accepted Swain was begin-ning to slow up. He could remember the time when he used to sit around with members of his own Sex. Father had no Mercy. He took the two Invalids back to Land and rounded them up for Breakfast next morning. When Kenneth appeared, he was slightly greenish in Color. One Ear was three times as large as the other.

HOW DISEASE IS TRANSMITTED BY DR. GORDON BATES

The way is as plain as way to parish church.

-"As You Like It," 2, vii., 52. Speaking generally, disease is Speaking generally, disease is a near and closely allied cousin of Nem-esis. Born with one, achieved or stumbled into unawares, it still has characteristic propensities which render its inevitableness remarkably ob-

Most People Are Sick Sometime. That few persons exist who, at adult age in full possession of their faculties, can solemnly and truth-fully declare that they have never been ill, is certainly true. Many peo-ple feel that, tho they have been unfortunate in that respect, it has its compensations. It was annoying but unavoidable, chastening but salu-tary, unjustly ordained but at least according to some of our forefathers tinged by a benevolence on the part of Providence, which was as far-reaching as it was mysterious and dreaded example of direct contagion,

and the corn lifts out.

come. Ancient Beliefs. Perhaps people a decade or se ago suspected that disease had a cause. The most eminent sanitary authori-ties, for instance, were wont to at-tribute typhoid fever in a family to a heap of ten potates forgotten in a cellar, cholera to the proximity of a rubbish heap, or malaria, as its name implies, to a damp atmosphere. With a complacency as dogmatic as coveries of about forty years ago that even the best of us, in a medical sense, knew what we were talk-ing about. When scientists came to understand that the tiny germ was the cause of every great epidemic, and that not a single case of infec-With a complacency as dogmatic as it was ill advised, they declared that tious disease could exist without him, they began to see light. tuberculosis was not infectious but inherited from one's forbears, that then did preventive medicine begin to be worth while.

yellow fever came from impure water, and was a typical and much-to-be-dreaded example of direct contagion, dreaded example of direct contagion, oom, however, they can be. Here the danger of infection is greatest in the two diseases just mentioned but quite possible in many others even in tuberculosis. In such cases the germs are actually breathed in by the person who is so unfortunate as to come too close.

is so unfortunate as to come too close. School Room Infection. Infection of this sort not infrequent-ly occurs in the school room. Diph-theria, measles, chicken-pox, mumps and scarlet fever are under present conditions commonly contracted in this way. For instance in a recent epi-demic of diphtheria in Philadelphia it was found that over one case in five certainly occurred thus-surely a sub-stantial argument in favor of medical inspection of schools.

stantial argument in favor of medical inspection of schools. Most children (or grown ups) who are able to transmit disease are al-ready suffering from it themselves. In some cases, by a bizarre freak of na-ture they manage to carry the germs of disease in their throats without being attacked. Such persons are call-ed carriers and it is suspected that they can transmit diphtheria, for in-

they can transmit diphtheria. for in-stance, to others. Again, clothing may carry infection from one place to another. Similarly food, money or mail may carry dis-ease from houses in which it exists. Not long ago a cat was officially exe-cuted by the Health Department of Buffalo, because it had diphtheria germs in its throat. Dogs, canaries and chickens may also carry disease and the fact that dogs are forbidden in hospital wards is partly for this reason. they can transmit diphtheria. for in-

The peeling of skin from the body's reason. The peeling of skin from the body's surface is another source of trans-mission limited to scarlet fever and one or two other diseases. More po-tent, however, is actual physical con-tact with infected persons or things. Trachonia, brought in by the emigrant may be spread by the towel the uses; suberculosis by the careless handling

worm. "Come back and have some," said this brother. this

by the bite of a mosquito. These are the main methods by which disease may be carried. They are all of interest but in this northof tuberculosis sputum or hook-worm.

by unwashed hands. Drinking water and food are mon sources of bacterial infection. This is the ordinary route by which ern country, aside from typhoid fever, perhaps the mest important one to remember is that of personal contact. Probably if the principle were adhered to of rigid isolation of all infectious diseases most illness from infecting vent rheumatism, was perhaps to be expected. Human nature is always more or less credulous, and where ignorance and superstition are the foundations of their beliefs, they are commonly rather than occasionally wrong. It was only after Pasteur's disto of rigid isolation of all infectious diseases most illness from infecting sources, including of course, tubercul-osis, could be stamped out. One could enumerate and attack other prolific sources of disease such as the common drinking cup but space forbids. In the elimination even of the causes of

careless dealer. Infection Thru Wounds in the Skin. Infection may find entrance to the body thru wounds in the skin. The ter-rible lock-jaw or tetanus, for example. is contracted by its germ, finding its

the

SUNDAY MORNING

Woman as Man's Purchasing Agent

It is a fact long recognized by shrewd etailers and careful advertisers that nan is the world's spender. Her Alsbursements for family supplies are mous. It is not the great indusry, mercantile establishment or bank that puts into circulation the money that keeps the world going; it is the housewife. Remove her transactions from trade operations and stagnation would result. The industries, the mercantile institutions and the banks owe their prosperity to her. On the other hand, they are her conveniences. Perhaps she handles only a small part of the incomes of the very rich, but the incomes of the very rich are at once drawn from the concerns to which she either directly or indirectly gives her patronage, and are either directly or indirectly invested in the concerns that supply her wants. She handles the largest part of the incomes of the well-to-do. She handles prac-tically all the income of the poor. The man works and earns, generally speak-ing; the woman spends. How well she spends is a determining factor in the welfare of the man. In the wel-fare of the community and the nation. Woman is man's purchasing agent. Even with regard to matters of pecu-liar personal interest to himself, the man prefers that she conduct the deal-ings. It is an interesting discovery that women throng the men's furnish-ing departments of the big stores, that they are important patrons of the haberdasheries. Some men prefer to supply their own needs, and they do this generally in regard to cloth-ing, hats and shoes. But in almost every other particular women do the buying. Manifestly, then, it is woman rahaps she handles only a small part

ing, hats and shoes. But in almost buying. Manifestly, then, it is woman ra-ther than man, the retailer and the advertiser is most desirous of reach-ing, and manifestly also, it is of the greatest impostance that women shall know how to buy. Instinctively, they are better shoppers than men. Men are hurried, indisposed to bargaining, inclined to buy what they do not want and to pay more than they can afford for what they need. Women, as a rule, are keen, prudent, economic-al. They can, and do, make a dollar to its full length. Men are to be congratulated that they have women to stand between them and waste of income and time in shopping. Most men are properly grateful that their interests are so loyally and capably guarded. These men, generally speak-ing, by the way are the men who have accounts with the savings banks, who take shares in co-operative com-panies, who build homes, who are bless-ed with comfort and contentment. It all comes from an equitable, because wise, division of responsibility and confidence in the domestic relations. —Christian Science Monitor.

away from their heart's desire; those homely folks whose feet have pest to work with their own hands, who cling to old surroundings, who have pet chairs and little ways of affection that do not change thru years, who take deep root and suffer when they are torn out and replanted into alien soll-of these is the little, faded, but still spry, lady whose hands lie idle under protest, whose eyes are a bit weary, as they never were under the woes and worries of her first simpler home.

the ceilings hovered lovingly above her head in the pretty cottage that held her, her bables, and her poverty in the first years of her love. who are taking daring wing into the social skies are out, and there is no one but the servants to see, she dresses in a plain black gown with the real "Val." lace that her husband bought her from a slender wallet long ago at the wrists and throat, and raps at the door of her "Long Ago." But she has not dared to go back so far as to make a ple again! She is really interested in the welfare of the cook—which is a shocking thing! In a hard, marvelously carven, Jacobean chair she sits (her beautiful, big, broad mind that has not much to love nowadays remembering a certain comfy rocker with a Turkey-red cushion that stood in the kitchen, the rocker that waited with open arms for her to shell peas and peel potatoes), she sits-the buckled and braided footman at her elbow.

Photographing Breaking

Bubble a Feat.

Photographers, professional and am-

ateur, have expanded their skill and

energy in obtaining all manner of dif-

double stars. But the great stumbling

block to all photographers, so it is as-

serted, says Harper's Weekly, is the

airy soap bubble. Some one has said

that for a long time it has been his

ambition to picture a soap bubble in

the act of breaking. He has experi-

fraction of a second.

lished

habit to smile often and much. But his stiff and rigid face refuses the smile on hers. And she remembers that it isn't at all what he In his stiff ha approves of. a ne carries her tea -and the tiny cakes someone else has made. And before her brooding eyes, in the centre of the great drawing-room, rises a picture of what four-o'clock in the evening-time had been. In it she sees herself, singing low, the summer breeze stirring the muslin curtains, and a sleepy robin hammering metallically in the weed-lot; a fresh chocolate cake and a delectable apple pie cooling on the sill, the beginnings of dinner ("supper," she whispers to herself,) singing joyfully on the stove, on her hip a yellow bowl, while round and round her capable hand stirs a spoon in the dark sweet batter of ginger-bread. But the dream fades, and the little woman who does not find wealth and the gilt that goes with it a comfortable thing, looks at her idle hands in her lap, and if such a "plum sweet" little woman could sniff or snort, she would do that same thing when she glimpses the little cakes on the footman's tray!

characters are centred about the Church of St. John's. The opening chapter describes a Sunday dinner, a family affair at the Warings. A re-mark regarding the new rector projects a discussion on church-going and religion generally, and serves to

But the first great crisis of Mr. Hod-der's life was to come thru his in-timacy with Mr. Parr. Of the ques-tionable financial operations of the church magnate, the rector as yet had divined nothing, and judiciously no one had told him. The two men were be-coming close friends. Alison Parr, who had rather scandalized her father by declaring her intention of making her own living, had gone off to New York and set up as a landscape designer. She had made a success of it too, and, despite the little she had in common with her father, she occasionally vis-ited him. On one of these visits she met Mr. Hodder at her father's home. It was after the Sunday sermon, and the financier was complimenting the rector unon his remerke seed the mansion, but never un-packed. His manice for the set ory the owner of the mansion, but never unowner of the mansion, but never unthe financier was complimenting the rector upon his remarks and discussing packed. His mania for possession and his brutality to his young wife the new settlement house on Dalton leave him not a very pleasant com-panion, and his wife at the first opstreet and some of its suggested improvements. portunity returns to her people in Allison Parr, who was hardly what Arison Parr, who was hardly what her father considered orthodox in her views as to the sphere of woman, was even less so with regard to religion and was not afraid to speak her mind opinion, and make himself the ogre To her father's remark that opinion, and make himself the ogre has never been an age when of the county, which the neighbors "There has never been an age when bhilanthropy and organized charity were on such a scale as today," she wealthy, he refuses to make any re philanthropy and declare him to be. Altho immensely replies that "Philanthropy and organ-ized charity, as they exist today, have where the sanitary conditions are such ized charity, as they exist today, have very little to do with the brotherhood for man". This remark is best exzed charity, as they exist today, have of the graveyard plained by another, "The social sysprevent hunters crossing his estate he builds a ten-foot wall at a great tem by which you thrive, and which, politically and financially, you strive to maintain, is diametrically opposed o maintain, is diametrically opposed o your creed which is supposed to be the brotherhood of man." The discussion thus begun was quite the forther hood of man." and is altogether such as the pleases. Detest-ed by all, he defles public opinion. the brotherhood of man." distasteful to the father and the anand is altogether such an unnatural ouncement of a caller gave him an an truse to withdraw. from it. The being that the reader's indignation kindles more against the author who excuse to withdraw from it. plain speaking of Alison, in which she created such a character than agains the villain of the play. Yet he ocspared neither her father nor her father's ideals, was possibly the first real shock that Mr. Hodder's religious cupies the stage, to the exclusion of Lydia, whom we naturally ask about. traditions ever received, and the re-sults were far-reaching. "You and Lydia is a very pleasant and lovable young lady, who is on very friendly terms with young Lord Tat-ham, and his mother, Victoria Lord your religion are as far apart as the poles" said the daringly unorthodox daughter of the orthodox Eldon Parr. Tatham would be more than a friend, 'Oh, this old argument, the belief that but Lydia believes in perfect comhas been handed down to man, panionship and sympathy between the the authority with which he is clothed, and not the man himself! How can one be a factor in life unless one repre-tween them. sents something which is the fruit of The appearance of a third person actual, personal experience? Your authority is for the weak, the timid, causes Lord Tatham to forget his promise and ask Lydia for more than the credulous-for those who dare not a sisterly regard, which dissolves trust themselves, who run for shelter their pleasant arrangement, and Lydia from the storms of life to a papier-mache fortress, made to look like rock. leaves for the metropolis, to continue her studies in art. In order to preach logically you should In order to preach logically you should such unuying love as fathain pro-be a white ascetic, with a welf-oiled fesses should have stood the test that manner, a downcast look lest you comes near the end of the story, Such undying love as Tatham promanner, a downcast look lest you stumble in your pride; lest by chance but, alas for our belief in constancystumble in your pride; lest by chance you might do something original that sprang out of your own soul instead of being an imitation of the saints. And if your congregation took your doct-rine literally, I can see a whole army of white, meek Christians. But you are not like that. Can't you see it for rine literally, I can see a whole army of white, meek Christians. But you are not like that. Can't you see it for of white, meek Christians. But you are not like that. Can't you see it for yourself? Can't you feel that you are an individual, a personality, a force that might be put to great uses? That will be because you are open-minded, because there is room in you for growth and change." Seeing With New Eves. because there is room in you for Seeing With New Eyes. The growth and change were soon to

The girl and women sped.

And there were fainting hearts and wild, pale terror. Oh, for the seignior now to take command! No soul but qualled before that awful menace,

The Indian's murderous hand.

The men were few, the women weak and shrinking, The children's trembling hands were small and frail; Yet all must fight; the dauntless girl defender Must neither faint nor fail.

"To arms! To arms!" she cried, and hearts that faltered Breathed courage from her spirit strong and brave, rustingly she praved the God of battles

to be anything more than scintillating exceptions to a general rule. It is only abnormal persons who are sufficiently clever to reveal their most intimate joys and sorrows in a swift ping-iong interchange of repartee. And equally extreme and apart from life is the story in which the characters think endlessly, without opening their lips. Such a story brings a sense of weariness, almost a physical headache born of contagious sympathy for such overworked brains. The present writ-er recalls one exceptional short story, read some years ago, which was of this type—but exceptional in that it justified itself. There were just two

WINSTON CHURCHILL

show the marked difference in the attitude of the younger generation from that of the grandmother and grandfather. From this we go back to the account of the passing of Dr. Gilman, who, for forty years, had baptized, confirmed, married, and buried at St. John's, and had preached comfortable, undisturbing, - and orthodox sermons

The

One Sunday morning Dr. Gilman preached his not unfamiliar sermon: "For now we see thru a glass, dark-y; but then face to face," and when the next Sunday dawned he was in his grave in the Winterbourne cemetery. At the vestry meeting that fol-lowed the problem before the church management was set forth by Eldon leading supporter of St. John's and leading financier of the city; it was recognized that the attitude toward religion, even of the clergy, had changed since the time in which Dr. Gilman's theological training had been received. St. John's had always orthodox and dignified, and its chief supporters wished it to remain In fine, they were anxious to get a safe, steady rector to take up the mantle of their revered Dr. Gilman.

Thus came about the finding of John Hodder. Nelson Langmaid, whose legal practice was closely alied with various interests of Eldon Parr, had a high reputation as to his judgment of men, and he remembered a fine, virile specimen whom he had seen during his visits to his sister, Mrs. Whiteley, at Bremerton, a town which was on the ver becoming a city. Langmaid set verge of

to his sister's, armed with authority to negotiate with the young man as to the rectorship, providing found everything satisfactory. His brother-in-law's comment on Hodder: "He's been here for over ten years, ever since he left the seminary, and he's never done or said any-thing radical yet," was ample certificate of character, and Langmaid was long in convincing the young man that his destiny lay in undertaking work in the wider sphere of-

fered by such a city parish as St. John's It seems but natural that the new rector should become fairly intimate

with Eldon Parr, the chief supporter of his church, and, at the same

time, we who read the narrative be-come better acquainted with Eldon Parr-for the work is just about as much a study of the relationship

"Don't you know that chickens come

To bend from Heaven and save.

They leaned to her, their leader, without question,

For age and youth stood bravely up to fight. While in her clear, calm eyes, like watch-fires beaming, Hope burned by day and night.

The slow hours waned, the winds moaned round the fortress-To that frail garrison night brought no sleep. Each post must be maintained, and eyes grown weary Must ceaseless vigil keep.

"All's well, all's well!" The night-winds bore the echo Far out across the darkened river's rim.

The Indians heard and drew back to their ambush In shadows deep and dim.

Day followed day: the purple gloaming deepened, Heaven's burning lamps flashed out, a glorious throng; Then night went down, and pallid with their vigil, The watchers sighed, "How long?"

And thus a week went by. The wary formen With never-ceasing menace prowled about. "Hope on!" cried Madeleine, still bravely smiling, We'll put them yet to rout."

At last, at last there came adown the river A flash of oars that dipped and gleamed again "They come the French! Our long, long watch is ended! We have not prayed in vain!"

Then oh, the joy in weary eyes that kindled When hands were clasped in hands that rescue brought The murderous hordes slunk far into the forest, Their purpose set at naught.

And now Canadians, strong and unmolested

and change." Seeing With New Eyes. rrowth and change were soon to This conversation had given new outlook, or rather, at first im seriously to question his views and attitude toward the

this type—but exceptional in that it justified itself. There were just two characters in the story, a man and his wife, sitting together in the twilight; and thrugut the story there was si-lence, the reader heard nothing but the poignant, insistent, unsparing thoughts of the wife—until at the end she speaks just once, and he does not an-swer her. And the reason for his silence is that he is dead. speaks just once and he is dead. speaks just once is that he is dead. . . . polgnant, insistent, unsparing thoughts of the wife—until at the end she speaks just once, and he does not an-swer her. And the reason for his silence is that he is dead.

months or even years by the old pro

But in hetween these two extremes, the proportion of narrative which may be conveyed in the form of conversa-But in between these two extremes, the proportion of narrative which may be conveyed in the form of conversa-tion permits of as many variations as there are authors. And as a general rule, you cannot say that any individu-al author is wrong in the extent of his use of dialog. Another author, writing the same story, might advantageous-ly have used less or more and there-by done a better piece of work. But it is pre-eminently a question that each writer must solve for himself. It comes natural for some to think in terms of conversation. All they have to do is to set a man and a woman side by side on a park bench, or opposite each other at a restaurant table; and presto! the ball of conversation starts rolling, and the only difficulty is to keep it from rolling too far or too swiftly. And an-other author. of equal or perhaps greater talent, who can do the intro-section admirably, will tell you in a

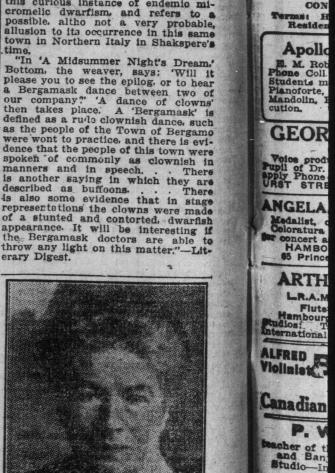

greater talent, who can do the intro-spective, analytical sort of soul-dis-section admirably, will tell you in a burst of confidence that often when he has arranged the most cosy and un-interrupted sort of tete-a-tete, he be-comes conscious that his two char-acters have nothing to say, that they insist upon sitting there, facing each other, as silent and inane as wooden dolls. And the difference is that the one writer sees life in terms of dia-log and the other doesn't. It is interesting, sometimes, when

"In 'A Midsummer Night's Dream," Bottom, the weaver, says: 'Will it please you to see the epilog, or to hear a Bergamask dance between two of a Bergamask dance between two or our company? 'A dance of clowns' then takes place. A 'Bergamask' is defined as a rude clownish dance, such as the people of the Town of Bergamo as the people of the Town of Bergamo were wont to practice, and there is evi-dence that the people of this town were spokeh 'of commonly as clownish in manners and in speech. . There is another saying in which they are described as buffoons. . . There is also some evidence that in stage is also some evidence that in stage representations the clowns were made of a stunted and contorted, dwarfish appearance. It will be interesting if the Bergamask doctors are able to

AGER

Botthe

He began to be afraid of himselfand of love. If love were responsible for the feelings that now possessed his antire being, then it was more terrible likes or desires. than beautiful.

A servant handed him a letter. He stared at the envelope some time before recognizing the hand-writing. The letter had been forwarded from his alub in London. It was from Mary Hetherington. He read it.

A brief but earnest appeal that he hould come to her at once. She upbraided him a little for his cruelty in leaving her and not telling her where a drink?" he had gone. His absence, and the uncertainty as to what had happened, had made her ill. When mutual friends inquired for him she did not know what to say. And events had happened concerning the loss of her jewels which made his presence absolutely

necessary:--Wherever you are, come and see m at once, if only for an hour. If you have no consideration for me or my happiness, don't risk your own. I love you .-- Mary.

Stopford read the last paragraph two or three times. His conscience pricked him. It was true he had not considered her happiness, only his own. In following Mimosa he had been guided by purely selfish motives. He had forgotten that love, of it-self, must be selfish. It desires only

the happiness of the thing it loves, which, when obtained, means its own out the fast trains to London. He

could easily get there and back within sixty hours. Yet he could not possibly leave úntil the day after tomorrow, until he had learnt whether Mimosa loved Oscar. And if she did?

Stopford knew he held a terrible weapon in his hands. If he used it to Varles he would injure Mimosa. If he went away and held his tongue, the loss of the Hetherington jewels was bound to be discovered, sooner or later: Mimosa' would be implicated, and how would Baron Estine treat her

then? He, the man of the world, would have no pity. looked up, Stopford distraught. He saw them ing the lounge. Mimosa searching for some one, them crosswas

FIRST LESSON GROVE'S MUSIC SIMPLIFIER.

SECOND LESSON NEXT SUNDAY

Entered According to the Act of Parliament of Canada at the Department of Agriculture in the Year 1906. SECOND EDITION, Copyright, 1905, International Copyright Secured. Copyright 1903-4 by W. SCOTT GROVE, Scranton, Pa.

This course in music consists of twelve lessons, the two charts here presented representing the first lesson of the series. In the other lessons charts will be reproduced showing a complete series of chords in all keys, both major and minor. This system of teaching embraces a general and practical method of instruction. It teaches the notes and letters in the transpositions of the different keys and embodies the principle of harmony and thorough bass. Learn the first lesson thoroughly before taking up the study of the second.

(INSTRUCTION)-Fold the paper across the page half way between the two charts and place one of the charts at right angles to the keyboard of your piano or organ so that the small white letter D with a dash above it at the bottom of the chart is directly over the Key D on the keyboard. The other white spaces in the chart will then be over the white keys and the black spaces over the black keys. Each series of letters on top, middle and lower section represents a chord. When playing these chords begin at the top section and play the white letter with the left hand, it being the bass, and afterwards the black letters on the same space simultaneously with the right hand, making the harmony desired. Then play the letters on the middle space in the same manner, followed by those on the bottom space. return to the top space, forming a complement of chords. Turn the folded paper from right to left and use the other chart, which will then appear right side up in the

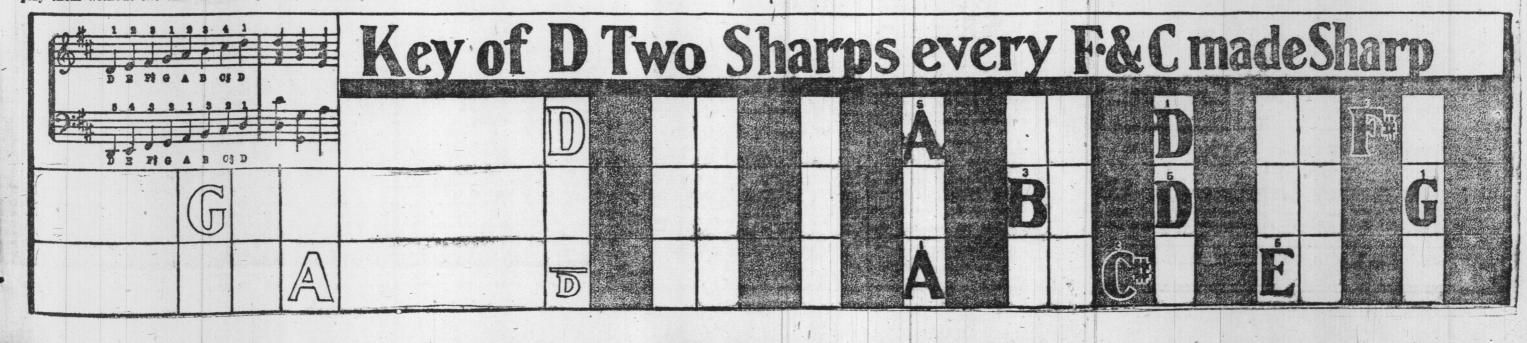

same way. The small white letter D with a dash above it on the lower space is only to indicate position, and should not be played. The first things necessary to become a good player are patience and practice. During the week preceding the next lesson, the chords shown here should be played over and over again until you memorize them and can play them without the charts. Then you will be ready for the next lesson.

Memorize the letters also, so that instinctively hereafter you will recall what letters or keys make up the various chords. A knowledge of the chords of keys in which music is composed is the foundation stone for future skill in reading music fluently. These charts have figured out for you a chord in the key of D (two sharps, every F and C made sharp), and also a chord in the key of B minor, relative of D major. All that you have to do is to learn them. You will find after learning them that you will be able to play easy and simple accompaniments in these keys to the melodies you or your friends sing. This will be a constant source of amusement and delight to you.

If you are more ambitious than that, and wish to go further, you will find you have begun right, and the rest will be comparatively easy. The teacher of music will at once see that in these charts both the minor harmonic scale and the major scale are shown with proper signature and fingering. Again what is needed most are patience and prace tice. Place this chart at right angles to the keyboard of your piano or organ, so that the small white letter D on the bottom space of the chart touches the white key D on the keyboard. The other white spaces on the chart will then be over the white keys and the black spaces over the black keys.

The black letters are played with the right hand and the white letters at the left are the bass, and are played with the left hand.

Every triad in black letters is marked 1, 3, 5. Always read triads 1, 3, 5, no matter what position. Triad 1 3 -marked-third position, 5, the highest; always read it so EGC first position, 1, the highest; read 1 3 5 5 1 8 second position,3, the highest, read $\frac{1}{c} \stackrel{3}{E} \stackrel{5}{G}$ and so on with every triad major or minor.

The greetings were not so numerous there. Or, perhaps, we did not notice them. For the spell of space was upon us, and we could heed nothing but the great rolling vostuces which storth

them. For the spell of space was upon us, and we could heed nothing but the great, rolling vastness which stretch-ed before us. But, now and then, we came upon a lonely form trudging along towards the half dozen dots on the land, called villages. And his cap would come off, and a happy smile would light up his face, and we knew that he was telling us to come out and try our luck, for the west is an ideal democracy which back and bids him grasp the big broad hand of opportunity, which is held cut, at every turn of the head. At Saskatoon a couple of hundred braw youths flung deflance in the face of all new marriage laws, and came down to look us over, and their greeting was sincere enough. Only a little strained. For it was a long time since they had been surrounded by so many "skirts." Their salutations were not all silent, waved toward the rear of a flyaway ex-press. Winnipeg suavity was there

Their salutations were not all silent, waved toward the rear of a flyaway ex-press. Winnipeg suavity was there, only not so open. The atmosphere was becoming surcharged with the extremity of westernness.

was becoming surcharged with the extremity of westernness. "Oh, Gee! Oh, Gee!" was the ex-tent of the cutspoken vocabulary. But the un-outspoken might have been translated quite easily. "We've had a mighty hard fight, this last year. Our real estate threatened to run away with us. But the purse strings are becoming a little more loose. So come on up and see what you think of cur bungalows." But thirty minutes was the un-fortuate length of our sojourn there. Just a snap-shot or two, a promise to

fortuate length of our sojourn there. Just a snap-shot or two, a promise to heed the invitation, and we were puffing hard toward the greater of the vast

great vast. And then night time again coming slowly down in a soft purple wrap. A clinging, coaxing twilight, with a great ball of gold, slowly fading across the big mysterious green.

bail of gold, slowly fading across the big mysterious green. It lingered long with us, this twi-light, now changing to gray, now an indistinct turquoise. The cry of the coyote was the last reminder of our littleness, cowards that we were, fly-ing away from it all, into the oncoming night. The shrick of our whistle was a sacrilege. No wonder the little, grey gophers popped up suddenly from their haunts, then scampered wildly to and fro, in anger at our supreme audaci-ty.

Morning revealed a number of fine-Morning revealed a number of fine-looking chaps, with all sorts of sur-veying paraphernalia. We were miles from any town, and yot they seemed to be dividing the prairie into town lots. One or two rushed wildly toward us, as we flew past. They threw their caps high in the air, as if warning us to stop.

to stop. And we caught the message. We were accustomed to interpreting those silent salutations which had been waved toward us from the moment our eyes lighted on the brilliance of Northern Ontario.

of young men who would like to look after you. Come and dwell with us. for we love the easterners." And. my 'word, they showed more of that love. I declare that the great-est force at work out in Edmonton is the matrimony mart. For Edmon-ton's women are born matchmakers!

Park!" Every greeting which was hurled toward us from Winnipeg's doors smacked of dollars away up in the

Wonderful History

Of Famous Jewel Jewel Made by Order of Pharaoh on Exhibition[±]in

London.

LONDON, June 28 .- A jewel with a wonderful history was the feature of the Royal Society's conversazione at Burlington House recently. It is of carnelian, lapis lazuk, and

turquoise, and was made by order of The Pharaoh save it to one of his court favorites, and when the latter died it was buried with him in his magnificent tomb at Gerzeh, some forty miles away from modern Cairo.

A Body-Snatcher of Ancient Egypt broke open the tomb of the dead favorite of Pharaoh. For once, poetic justice-an institu-

tion which flourished even in Egyptcame into operation. The heavy slabs that formed the roof of the tomb fell on the thief and crushed him flat

Are you discouraged? Is your doctor's bill a heavy financial load? Is your pain a heavy physical burden? I know what these mean to delicate women-I have been discouraged, too; but learned how to cure myself. I want to relieve your bur-doctor's bill? I can do this for you and will if you will assist me. All you need do is to write for a free box of the remedy which has been placed in my hands to be given away. Perhaps this one box will cure you-fit has done so for others. If so, I shall be happy and you will be cured for 2c (the cost of a postage stamp). Your letters held confi-aentially. Write to-day for my free treat-ment, MRS. F. E CURRAH, Windsor, Ont

of you British Vice-Consul at Poti Relates a Thrilling Experience.

With Brigand Band

Ten Minutes' Fight

ST. PETERSBURG, July 5 .- Armed brigands who made an attack on the house of Mr. John Pavoni, the British vice-consul at Poti, in Trans-Caucasus, met with more than their match in Mr. Pavoni and his brother. The two brothers fought desperately against the almost overwhelming band of brigands and succeeded in driving them

off. Several of them were wounded, and the leader died of his wounds. "At half-past nine in the evening," Mr. John Pavoni said, "I was sitting in the dining-room with my eldest brother, Henry, taking tea, when suddenly I heard the key in the look of the

outside back door being turned. This was followed by the slight creaking of the door as it was opened. I got the Pharaoh of Upper Egpyt 3400 years However, my little daughter, Helen, who had been pouring out the tea for us, was before me. She ran to the door and opened it, but with great presence of mind slammed it immediately, and, shouting "Brigands!" crouched down in a corner of the dining-room. My brother was armed with a revolver and I had a Webley automatic pistol. Henry rushed towards the door, but before he had

touched the handle the door opened from the outside and the brigands on the thief and crushed him flat. Then the wind came, and with it the sand; and year by year the ruined tomb was buried deeper, so that it lay for centuries hidden in the desert. Last March Prof. Flinders Peine's excavating party found it. The fallen roof and the crushed body of the thief told their own tale, and the excava-tors were encouraged to look for what

for he turned on his heels and made

"At the same moment three more of the brigands dashed into the diningroom. In the meantime their accomplices were firing at us from the verandah, and our escape from death can

clination on the part of the owners of suburban localities to instal the necessary public utilities and improvements. Kingsdale, the model suburb of North Yonge Street has been developed along altogether different lines to anything yet attempted in the way of real estate improvement. An undertaking in all sales' agreements is made whereby Wrights Limited, the owners and vendors, covenant to install at their own expense all the necessary improvements that go to make suburban living a pleasure and a joyful experience.

The photographs illustrated here show in a small way the immense undertaking as it is being consummated. One can hardly realize the importance of these indispensable improvements, and an owner of a lot in Kingsdale besides getting big value for his money in the way of a homesite, also receives without expense, water-mains, sewers, cement walks, roadways, shade trees, etc. Who would not live in Kingsdale with all these advantages, free from the noise of the smoky, busy city, surrounded by all the beauties of nature, at peace with himself and yet, within 35 minutes of the centre of the city, its churches, theatres, markets, and all other advantages.

Fronts on Yonge St.

Kingsdale fronts on Yonge Street, a fact that means increased land values and big revenue on the investment to every purchaser of a lot. While your land is growing in value, there is no heavy local improvament taxation, no heavy general taxation, merely a county frontage tax.

Already the builder has invaded Kingsdale and homes of architectural beauty are being constructed, the owners and vendors, pay for all improvements On all sides there is a general building activity, and put in this property.

Immediately alongside of Kingsdale are the spacious grounds of the new St. Andrew's College, on which landscape gardeners are now at work preparing the site for the new college.

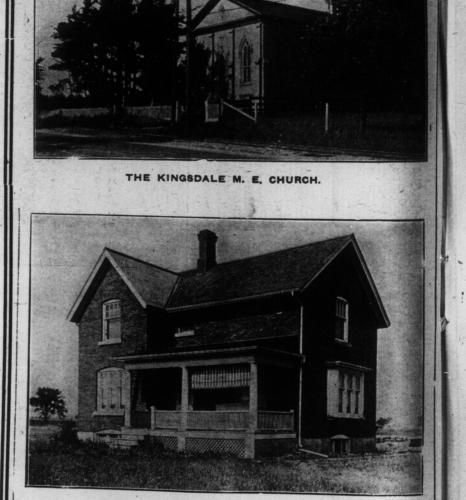

A wise man will buy now, in order that he may secure a suitable site for his bungalow of the future, even though he does not contemplate building immediately.

Kingsdale is highly attractive from the home owner's point of view Lots increase in value every month, and that is the kind of land to buy as an investment. Industries are being located on land adjacent, a lumber mill, brick yard, and the Builders' Supply and Hardware Co., already running to full capacity. Kingsdale is in a direct line with the city's growth, beautifully situated on the East Side of Yonge Street and all the lots are high, dry, and level. Kingsdale lots are a fine investment, because of the demand for actual home building purposes.

A Few Comparisons

In point of time, Kingsdale is nearer to the heart of Toronto than either East or West Toronto. It is in a direct line on the best street of the city and in point of altitude is the healthiest of any district contiguous to Toronto. Have you seen Kingsdale? If you have not, a telephone message to Wrights Limited, 22 College Street, Telephone North 7400, will ensure an appointment to motor you to the property.

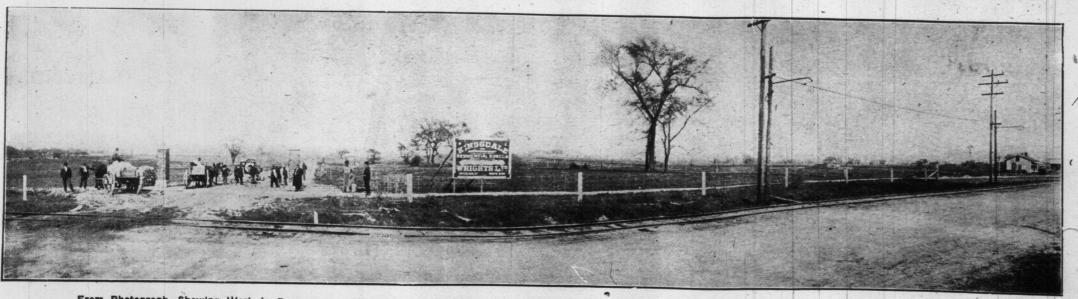

Prices range as low as \$19 per foot, a small cash payment down and a little each month. It would pay you to see for yourself. Remember, Wrights Limited,

By Dr. Quill.

HE man whom Orangemen honor with flags and music was a Dutchman. They have taken to their hearts one whose descendants were among our most stubborn foes upon the veldts of South Africa. May this latter part soon be forgotten! For history will never get away from the notable service he has rendered to the land we love and the flag we honor.

It was a stormy world the year that he was born. Two centuries and a half ago all Europe was encamped for war. The motives were as base as the monarchs wno waded thru blood to attain their ends. A man was needed who was both trong and good. And when he was born there was not a prophet in the world who saw in the delicate little stranger the marks of such a leader. His father died eight days before that event. His mother, being the daughter of Charles I., was under the cloud of his execution thruout that year. It was too muchfor her strength and in a few months, also hastened to the grave. Thus there must have been few who either hoped or feared, regarding this crownless and cheerless orphan. But they had not long to wait. At seventeen years of age his own despised nation began to hear a new voice and see a gleam of hope. At eighteen he had a seat in the assembly. When he was 'twentyone he led the government and at twenty-three opened the dykes to drive off the powerful French invader. With these words he cheered the nation, "The Hollanders can live without Holland. If driven from Europe, we can under the Southern Cross, create by our industry a wealthier and more questly Amsterdam.

When the misguided 1 mes II, was still the Dake of York, William married the Princess Mary, who was thus his own cousin. He was then in his twenty-seventh year; she was sixteen. Age, however, was the least of their contrasts. The one was physically worn out with labor and anxiety, the other but a school girl. But this ambitious stadtlander saw in the match a deep and lucky political scheme. And in the end it worked well. Altho the child of Roman Catholics, she left that fold and was true to her husband as the champion of Protestantism. She knew his views on authority, and thus as far as possible acknowledged him as her lord, both in the home and on the throne. In the delicate matter of consenting to the deposition of her father, her conscience was clear, as against his meaness and treachery. And because she was English-born, she took away a great deal of the odium against her foreign husband.

They had been married eleven years when the storm clouds gathered thickly about the throne of James. The

The Personality of the Prince of Orange British people had been borne up with one hope. Namely, that since the king had no children, the crown would pass to William and Mary. All this was suddenly changed by the birth of a son in the palace. Discontent and opposition immediately came to a head, for in three weeks an invitation, signed in cipher, was on its way to William asking him to appear with an army, and uphold "their freedom and their faith." To accept such an offer seemed to be rashness in the extreme, but the men be-hind were a guarantee of good faith. It contained the names of a bishop of the church, an admiral of the fleet, also they man who arranged the marriage between William and Mary, Devonshire too, a name ever honorable in history, and three others. Dressed as a common soldier, another admiral went in disguise across the North Sea, and placed the letter in William's hand.

There was a hurried conference with Bentinck, a Dutchman after his own heart, and was decided to accept. There were no telegraphs or telephones for the secrets to leak out. Hence he began to empty the fortresses of their soldiers, bakers and biscuit makers were working over time, and so the gun factories of Utrecht. Rumors at length reached the French king, but he only replied, "Orange is not such a fool." At the end of the third month, there were 600 vessels afloat, and the nation bidding them Godspeed.

It was always in great events that William appeared at his best. The famous House of Orange had a noble record of such deeds. His great grandfather at twentytwo, had been the foremost in camp and court of all the knights. "Father William" was afterwards applied to him by an appreciative people. But no greater compliment was ever paid to the Orange stock, than when this latter off-shoot was entrusted with such a mission. Had his character been a shade different, or his abilities of another order, there would have been a revolution, and rivers of blood. No wonder all Europe was stunned, when the news of the peaceful invasion arrived in the capitals. And today it seems incredible, that a great nation, with a conquering fleet upon the water, an army of historic valor and strength in the field, and a proud and stubborn people, would passively allow a paltry fifteen thousand men to march with a foreign prince direct to the capital. For seventy-eight days this unheard of phen menon was before all men's eyes. It was another proof of the Prince's greatness that he was so patient. He had with the utmost promptness fulfilled his part of the secret contract, but how slow were both church and state to be true to theirs, he was to discover. But at length the nation made up its

would preserve the ancient rights and liberties, and therefore offered the crown to him and his wife.

William was then about forty years of age. Much did he stand in need of physical health. A reaction of sympathy had set in on behalf of the deposed king. In this not a few Protestant bishops took a leading part! Across the Irish Sea, there was another source of anxiety. Aided by France, James II was calling for a separation from the crown. Also in the entanglement of European politics, there was many a knot which he alone was able to untie. The fact is, that to humble Louis of France, was more to his heart than to be king of England. In all this he was fettered by ill health. Asthma preyed upon him. Yet an iron will, a prophetic vision and a dauntless courage, made him a man of matchless resource and power.

His tongue was as sharp as his intellect. He let it be known that he had no intention of being "the Queen's Gentleman Usher." He informed parliament that they had their choice. He would either reign along with Mary, or return to Holland without a grudge. But little could he be spared from the nation where every man suspected his neighbor of deceit, and there was no security at home or abroad. More is it to their shame, since they were willing, but dared not, for the above reasons accept his challenge. Hallam's verdict is true-"Compared with him, the statesmen who surrounded his throne, sink into insignificance."

There is another reason whereby all good men should blush when reading these chapters of our history. This magnanimous soldier and statesman was never as popular as that libertine, Charles II. His way was ever beset with grumblers. After the victory of the Boyne, the Irish parliament appointed a committee of grievances. One complained that a Papist was allowed to use a gun. Another that he had too good 'a horse. The English parliament was almost of the same mind. A terrible vengeance burned in men's breasts. But the man who had imperilled his own country to assist another, who cried for help in the name of liberty, was the same person who said in the hour of victory—"Let not the glopy of de-liverance be soiled with cruelty." Even the Pope acknowledged his ability when he said-"He is my enemy's enemy." It is said, also, that at his coronation he paused in the oath which read "to root out heretics" until it was explained that it did not necessarily bind him to be a persecutor.

That "our constitution was saved at the Boyne," 's no: a fiction. Think of the French fleet which lay in the Channel. Read the treasonable letters to cabinet latars which were interconted. Then figure out what

would have been the results of a reverse in Ireland. But again the King was strong in every emergency. He summoned the Nine Noblemen who were to advise the Queen during his absence, confronted them with their duties and appealed to their honor. As the invador's ships appeared off the coast of Kent, an ancient patriotism again united all Englishmen, and delayed the attack. Then the Irish victory, and amid bonfires and ringing bells, his return was a triumph and a critical period safely passed.

The thirteen years of his reign was a strenuous battle to maintain the principles which brought him to the country. Substantial progress was also made in the British constitution. In many a reform, the King was an unwilling partner. He put his veto on the Triennial Bill with the remark-"One sovereign may be ruined by not being able to get rid of a bad parliament, but another might suffer by having to dispense with a good one." Party government was at the time in its infan ;, and men were eager to indulge in powers with which they were unfamiliar. He therefore refused to give his consent to many a bill, until the rising tide showed that the way of discretion was to not to oppose but rather direct public opinion. But unlike the Stuarts, he held in sacred regard his signature to all laws.

The gaiety of the court suffered under our Dutch King. In the first place he was sick, and then he read character too well to tamper with the evil fruits from the corrupt court of Charles II. His temper, already short. and surly, was aggravated by the sleepless nights due to chronic asthma and London fog. The beauty and liveliness of the Queen smoothed out a good deal of complaints. This also came speedily to an end when they took up residence at Hampton Court, twelve miles out of London, on the Thames. Here he revelled in Dutch delights of architecture, lawns and special friends. Society grumbled at the unlighted windows at \.hitehall, during the "season." Parliament complained at the inconvenience for business. "Do you wish to see me dead?" was his ill-tempered reply.

But he was also a man of heart. If it seemed cruel to remark as he did that the heroic Walker of Derry was killed in battle thru a rash exposure, "What took him there," the utmost beauty and tenderness were in his farewell with Bentinck. He had fortified his soul for the final ordeal of death, by taking the sacrament. Then when he was too weak to speak, he took the hand that had been true to him as steel, and pressed it to his heart. That he also bore a deep affection for the queen who predeceased him, it was found that he carried upon his person a gold locket containing a lock of her hair, and the wedding ring.

Thus passed away the greatest man of his time. His moments are our liberties maintained, and persecution abolished

In reviewing the institutions for defence against damage from forest fires these, it is explained, may have two objects. 1.-To prevent fire breaking out or, when it has broken out from extending. 2.-Compensation for the resulting losses. In France the causes of fire are reducible to five chief heads: Malice; the desire of the pastoral population to increase the extent of their pasture; negligence and imprudence; lighting of fires in or near forests and sparks from passing railway engines. Of these malice is described as by far the most frequent and the chief motives are revenge and self-interest. This cause too is intimately associated with the second, that of the desire for additional grazing ground, particularly strong in Algeria and the Gascon Landes. These naturally are not reflected by Canadian conditions which rather run to the other causes-negli gence and imprudence; lighting of fires and railway engines. Other and rarer fires are attributed to lightning, to fire balloons set up at village festivals, to fragments of bottles acting as burning glasses and the fall of meteors.

fire devastation.

francs.

perplexed, vexed, discouraged, sees a servantless house as the only solution of the "servant girl problem." Mrs. Frazer does much more than recommend paper pocket handkerchiefs for children. She urges the matron to divest herself of pride and prejudice. It is not necessary to wash the dishes-Mrs. Frazer speaks of plate-in the dining-room or in the sittingroom. "Might not a woman's golden hair important to have Lake Ontario connected with Lees' ministry made these ideals posgleam as brightly and her figure appear to as the sea, than to join Lake Ontario with Lake sible and real for me He humanized great advantage when bending over a porcelain Erie. It is suggested that the general work them. tion of a rhapsodist. But there is the doorstep that must be cleaned, unless the housewife lives in a flat; and the sight of the housewife on her knees and with a scrubbing brush would excite unpleasantly jocose remarks, for neighinveighs against the "silly ritual of the front door." It exists, she says, only in Great Britain. In other countries whoever hears the bell and is near the door answers the call. This ritual is only a survival of an earlier stage of society, when the door had to be defended against robbers and murderers. But do not robbers ring today, and are there not murderers of time and peace? One might infer from Mrs. Frazer's view of doorsteps and the visitor's bell that she has no sense of humor; yet we find under the head ing of "Don't" and "Buts" the following advice: "Don't throw away an egg because it cold water tap, and it will soften from sheer fright."

mon at the reopening services. His text was: "What Mean These Stones?" It was a fine summary of all that a man of culture and plety might call to mind on such an occasion. And it gave expression to the spirit that has dwelt in St. Giles' ever since, making it the Westminster Abbey of the North Britons-"A temple of silence and reconcillation." "Every form of faith , and worship that Scotland has seen has probably been here." he said. "The religion, perhaps, of heathendom, in which, the God was grossly conceived, He was as real to the worshipper as the

Two methods of preventing fires or minimizing losses have been advocated. The provision of fire belts-strips of land, cleared of all vegetation and resinous plants and kept absolutely free of brushwood. Unless of very great width of from 60 to 100 meters fire belts seldom arrest the course of the flames but are valuable as forming a base of operations for combating the fire and should be bounded on each side by a ditch to prevent the advance of the fire along the dry grass. Another means advocated is the destruction of underwood and the clearing of moors. It is known, says the article, that the cause of the rapid extension of fires is the existence of dense thickets of heath and bracken intermingled with dry grass in the moors and under the forests. These remedies are expensive and another measure of defence is mentioned-of ancient origin and only met with in Provence of Algeria. Advantage is taken of the winter when the soil is comparatively moist to kindle small fires in the forests to burn away the underwood and pine needles without danger to the trees.

France has extensive legislation for forest protection. Between June 1 and September 30 the use of fire is prohibited within forests and moors or within 200 metres' distance under a penalty of fine and imprisonment. Forest guards or specially sworn guards are empowered to make enquiry and ascertain offences committed in private woods and forests. Landlords who have cut and cleared a fire belt can compel their neighbors to provide a similar defence. Railroad companies must at their own expense cut fire belts 20 metres broad on each side of the road subject to the right of the landowners to remove their timber or to claim compensation for the wood of resinuous plants cut down. Officers are carefully selected to manage the work of assistance. State subsidies are granted to aid the formation of a network of roads of defence, assimilated to the parish roads. Obedience to these regulations is secured by fixed officers and itinerant guards circulating in each district or watching from the heights. The government itself has constructed fire belts round crown forests and those subject to the forestry regime. While fire belts of crime. In this case it was the evidence of along the railways have all been completed few private forests ere thus protected, the subdivisions in many cases being so small cent Italian, and according to the dying story that the expense and loss would be prohibitive.

Private forest owners in France in order to reduce the damage occasioned by fires and the heavy expense entailed by individual action have undertaken protective measures on a cooperative basis. The more important bodies are the Forestry Syndicates, each member contributing a stated sum per hectare. Fire belts are cut on the borders of each holding and horns distributed among the inhabitants indicating by their difference in modulation the locality a fire outbreak. A service of guards is also provided, well. tug, pumps installed and the firemen periodically exercised. These associations have in several districts largely reduced the number of serious fires. But in France as in other countries there are landowners who prefer to life in the case of murder. Hanging is a relic Trance as in other countries there are landowners who prefer to the in the case of murder. Hanging is a rene supreme court bench is by no means unlikely with Dr. Hartley, still the organist, after twenty-five years, and, confident

Convicting The Innocent

An Italian died of tuberculosis in Portsmouth penitentiary the other day. He had served three years of a ten years' sentence for shooting a brakesman and had steadfastly declared that he was innocent of the crime. Assuming that his death-bed statement was true, if the bullet had killed the brakesman, the same evidence that condemned the man to ten years in prison undoubtedly would have sent him to the gallows for the greater crime. His mere denial would not have availed to save him from the rope.

The responsibility of the state is to prove beyond question the guilt of any man accused a tramp that fastened the crime on the innoof the latter, it was the tramp who did the shooting.

It may be argued that such cases are extremely rare; that criminals do not commit violence in full view of reliable witnesses, and that the crown must sometimes accept the testimony of fellows just as bad as the accused. Surely, there is an argument here for a lesser sentence, at least, for persons who have been convicted on evidence that is not strictly disinterested or indubitable. There should be absolutely no doubt about guilt if we go to the extreme of exacting the penalty of a life for a

that he will never walk again. As soon coaxes her to the house. By caressing her in the presence of Prince, she as he can be moved, Morin goes with his daughter to a country home in a distant province, where he commences the training of Nina, whom he intends to make a premiere danseuse. Ten years later, Cleo, who has been diverged and who has been makes him also jealous of the girl. By means of a scarf, which Nina leaves behind. Cleo sets to work to implant in

lvorced and who has now become a famous actress, takes a villa near Flor ence, where she is soon surrounded by bevy of ardent admirers, chief of whom is Elbert Lamoreux, an ex-remely wealthy man. One one ocreliefly whether sidney Bretton, an artist and a near neighbor. Inviting aim to her house she asks him to sugst a suitable costume for her wear at a coming mask ball. He tells her to go as "The Tiger Lily," for that is what she is, and designs a costume

for her. Cleo hires a magnificent Bengal tiger and takes him with her to the ball, where she creates a tremendous sensation. The beast takes a great fancy to her and she does as she pleases with to her and she does as she pleases with him; with other people, however, he displays a very ugly temper and be-comes extremely jealous of everyone favored by his mistress. Finding him kindred spirit, Cleo purchoses the mimal, and, having a cage built for im in her conservatory, keeps him always near her. Prince, the tiger, be-comes very fond of her and follows

her about the house like a dog. Part Two: Morin, who has recently come somewhat feeble, and whose salth requires a change of climate, omes to Florence, and, by chance, akes the next villa to that of his exrife, Cleo. He and his daughter keep very much to themselves and so he does not learn who is his neighbor. Cleo, who has become infatuated with he young artist, Sidney Bretton, dis-misses her old admirer, Elbert Lamor-

watches in astonishment. Matt Allen's From a financial standpoint also, the meeting could hardly have been more successful for the Hamilton Jockey the race in 2.03. James Fitzsimmons' Successful for the framiton borkey split-second timepiece registered 2.02 3-5. E. J. Albright, trainer for John Sanford, timed the winner in Hamilton plant is first-class. The 2.03 3-5. Kimball Patterson's watch showed 2.03 1-5. Elmer Hathaway, an expert clocker, caught the first three quarters in 1.11 3-5, the mile in 1.37 2-5, and the full distance in At first it was "believed that Timer

Barretto had erred by stopping his watch as Whisk Broom II. flashed past the regular finish pole, instead of the special mark for this race, **RUSSIA PROMOTES** about 30 yards further on. But, when

asked about this important point, Mr. Barretto declared positively that he had made no mistake, that he started his watch when the yellow flag at the barrier was dropped, and stopped it when Whisk Broom II. reached the special judges' stand, where another time flag was used as a finish signal. W. C. Edwards, who was in the

timers' stand, backed the veteran official up in this contention. Furthermore, Louis Garth, a well-known trainer, said he timed the race in 2.00 1-5. Deputy Fire Chief Lally, of Brooklyn, who times many races for amusement, said his watch showed that the Whitney racer ran the last mile in 1.36. This would bear out Timer Barretto's figures, for he timed the first quarter in 0.24, the half in

0.47 1-5, and the three-quarters in 1.12, Whisk Broom II. therefore running the last half mile, according to the Barretto watch, in 0.48 — by no

Aside from the controversy over the time, Whick Broom II. proved beyond the question of doubt that he is one of the greatest racehorses ever seen in this or any other country. Mr. Whitney won many big races with him in England, but he brought the stallion back here to help the turf in its present troubled state. Mr. Whitney's sportsmanship was par-tially rewarded when Whisk Broom II. was victorious in both the Metronolitan and Brooklyn handicaps, at this track, but his greatest triumph was reserved for the Suburban, which by the way, was won for the first time by a horse bearing the popular Whitney colors.

Only six horses went to the bar-Only six horses went to the bar-rier. Trainer James Rowe decided to send Night Stick, a 8-year-old son of Broomstick, to the post with Whisk Broom II. The Whitney entry there-fore ruled favorite at a prohibitive price. R. F. Carman's pair, Meridian and G. M. Miller, were second in favor, with little or no regard for Frederick Johnson's Cock of the Walk or Telbott's Labora According and Mr. Talbott's Lahore, According to the scale, G. M. Miller was in receipt of 38 pounds from the star Whithorse, which also gave 11 to Cock
