ALLEGED A CORNER ON BINDER TWINE

Grain Growers in West Have Been Investigating

SEE RAISE IN PRICE

Matter Comes to Notice Because of British Capitalists' Answer When Asked to Start Company to Fight the United States Manufacturers

(Canadian Press)

Winnipeg, Man., July 21.—According to officials of the Grain Growers' Association, who have been conducting an investigation into the annual question of binder twine supplies, the manufacturers have formed a corner in the raw material and the monopoly is now so complete that a general order to raise the price may be made at any moment.

The investigation was the outcome of an attempt by R. J. McKensie, secretary of the Grain Growers' Grain Company, to secure information as to the possibility of starting a British company to fight the United States manufacturers.

The investigation, however, resulted in attention being directed to the manufacture of the twine from flax straw, thousands of tons of which are burned in Canada every year.

(Canadian Press)

Bucharest, Roumania, July 21.—It is officially confirmed here that Bulgaria has accepted the conditions laid down by Roumania and has also agreed to the terms of peace with Serbia and Greece.

London, July 21.—The new Bulgarian cabinet under the premiership of M. Radoloff, formally notified the European powers today of its readiness to order the cessation of hostilities immediately if the powers would induce Serbia and Greece to take similar courses.

London, July 21.—A Belgrade despatch to the Daily Telegraph says that Premier Pachitch has agreed to receive the Bulgarian delegates at Nish. It is probable that the Greek premier, M. Venizelos, and a Roumanian delegate will also meet them.

London, July 21.—The new Bulgarian cabinet under the premiership of M. Radoloff, formally notified the European powers today of its readiness to order the cessation of hostilities immediately if the powers would induce Serbia and Greece to take similar courses.

HID UNDER BOILER BUT WAS LOCATED

Golding's Hide and Seek Game With Police Not Successful

LOCAL NEWS

Matter Comes to Notice Because of British Capitalists' Answer When Asked to Start Company to Fight the United States Manufacturers

(Canadian Press)

The police sometimes have difficulty in locating a man whom they want to arrest and once in a while one gets away from the chain gang but it is very seldom that a prisoner is lost in the police station itself. Yet this is what happened this morning when William Golding, who had been remanded on a drunkenness charge, was taken down stairs before being sent back to jail.

The prisoners were all left together for a minute and when the policeman reappeared to take them out, Golding was nowhere to be found. The cellar was dark and it was some time before a careful search disclosed Golding huddled up under the boiler. He was hauled forth with slight ceremony and put where he had less chance of playing hide-and-seek.

Two men charged with being drunk yesterday were remanded in jail. Four others were remanded.

ANOTHER CHANGE AT BREAKWATER

Outer Section to be Given a Swing to Eastward

LOCAL NEWS

Matter Comes to Notice Because of British Capitalists' Answer When Asked to Start Company to Fight the United States Manufacturers

(Canadian Press)

The announcement of another change in the plans for the Courtenay Bay breakwater was made today by the consulting engineer of the federal department of public works, who is in conference with the city commissioners regarding the development work now in progress in this port.

The change will be at the outer end of the breakwater. Instead of being continued in a straight line, the outer section, to the extent of 400 feet, will be swung around to the eastward, towards Red Head. It is said that the change is to be made as the engineer expects that the cost of the work will be less and the amount of protection afforded will be as great.

Regarding the Connelly and Charleston contract at Sand Point, the engineer says the contractors are getting along as rapidly as could be expected and that they are well within the time limit of their contract. It is expected that they will have the cribwork finished by December 1 and that a considerable amount of the concrete work will be placed also, but that it will be impossible to have the berth ready for use during the coming winter season.

Take advantage while you have the chance. We put the knife in worse than ever this week! MONDAY, July 21st will be positively the last sale.

A Complete Bedroom Suit, consisting of Bureau, with Bevelled Plate Glass and Stand, Iron Enamel Bed, complete with double wire spring and wool top and bottom mattresses, for - **\$14.75**

Lounges from - 3.95

Go-Carts from - 3.85

This is an opportunity of your life-time which you cannot afford to miss.

S. L. MARCUS & CO. "THE IDEAL HOME FURNISHERS" 166 UNION STREET

DR. MAHER WRITES OF THE TUBERCULOSIS HOSPITAL PROJECT

Names Six Physicians as Opposed to Site and Refers to Threatened Injunction

St. John, N. B., July 21, 1913.

To the Editor of the Times:—In a short editorial in the "Times" the other evening you stated that medical men and experts had pronounced the Merritt street site a desirable location for the proposed tuberculosis home.

In view of the strong protest made by some of the largest tax payers in the city, all of whom concede the great and immediate necessity of such a home, but who feel that consideration of location should receive due attention, where such a large amount of money is about to be expended, I feel that it is but fair to have an opportunity to present our side of the case.

I have already published a letter from one who is supposed to be an expert with regard to matters of this kind, wherein the writer pronounced strongly against the proposed site, and in addition to this expert there are many leading physicians of this city who are of the same mind.

As a matter of fact, personally, I have not heard one physician favor it as a most desirable place, and I have taken occasion to speak to many. Whilst all, without exception, are strongly in favor of such an institution, some unhesitatingly say it is a miserable location at best in which to place people so afflicted, that the air of this locality is not the most conducive to good health for people in that stage; that the environments are not what they should be; and that the noise of trains, saw mills, etc., is deadly against it. This has been my attention from the beginning.

The names I present for your consideration are the following, all of whom are well known as leading, reputable and responsible practicing physicians of the community, and all of whom, whilst endorsing, recognizing and encouraging the immediate need of such an institution, do not hesitate in permitting me to register their names against the present site:

- Geo. A. B. Addy, M. D.
- Edward J. Broderick, M. D.
- Francis J. Hogan, M. D.
- Howard D. Fritz, M. D.
- Clément M. Kelley, M. D.
- Charles M. Pratt, M. D.
- William F. Roberts, M. D.

This may be a revelation to those who contend that the people who have opposed the location have been actuated by selfish motives.

Many citizens think that if the large amount of money contemplated is to be spent on the erection of a new hospital,

that it would be desirable to convert the present hospital into a tuberculosis home, and start out with a new location, such as the grounds already mentioned at Mount Pleasant.

Would you consider such a scheme as this feasible, or worthy of consideration? Have the city approach the provincial government, asking it to sell the present building and grounds now used as a home for nervous diseases, and then convert the present hospital into a tuberculosis home. This is certainly one of the most desirable sites in the province for a city hospital.

Many physicians and others consider the present isolation hospital as an ideal spot for the proposed home, but to segregate all these poor people in a noisy, busy place, where the air is being blown by going on for some years, as it is at present for instance in the erection of J. E. Cowan's house, the observatory, the Tilley buildings, etc., and where business will be largely increased on the erection of a new bridge or other means to people troubled with insomnia.

Is the building to be of wood? If so, is there no danger of sparks from the engines that are constantly passing, and which will increase in number later on? No one who is in good health or lives away from close proximity to a railroad, can appreciate what the constant roar of these trains and other means to people troubled with insomnia.

Dr. Miller, superintendent of the sanitarium at Kentville, N. S., although situated half a mile from the railroad, complains to the Nova Scotia government that the trains seriously affect the recovery of his patients. Is this a matter for consideration or not?

If this does not suffice to end the question, we will in the best interests of both the patients and the community apply immediately for an injunction.

Yours very truly
J. D. MAHER.

DEATHS

BURKE—In this city, on the 19th inst., Timothy Burke, aged 68 years, leaving his wife and three sons to mourn.

Funeral Tuesday morning at 8:45 o'clock from his late residence, 105 Douglas avenue to St. Peter's church for requiem high mass.

COLL—In this city, on the 20th inst., James Coll, aged 72 years, leaving his wife and two sons to mourn.

Funeral tomorrow, Tuesday, afternoon at 2:30 from his late residence, 178 Prince street.

McCAUSTLIN—At the residence of her parents, 40 Murray street on the 21st inst., Sarah Gertrude, aged 15 months, youngest child of John and Jeanie McCaustlin.

Burial tomorrow, Tuesday, afternoon at 10 o'clock.

DUFFY—At his parents' residence, 204 Chesley street on the 20th inst., Theodore Augustine, youngest child of Martin and Kathleen Duffy.

Burial on Tuesday, tomorrow, morning at 10 o'clock.

NORIS—At Central Norton, Kings county, on July 11, George E., son of Albert and Elizabeth Noris, aged 27 years, leaving besides his wife and one child, father, mother, four sisters and five brothers to mourn.

Funeral was on Sunday, the 18th, at Barnville, Kings county.

"BLOOMER GIRLS" WERE MEN

Then 4,000 Fans Wrecked Things on the Ball Field

Washington, July 21—One policeman is in a hospital, two others are nursing bruises and awaiting new uniforms, and part of the union league baseball park is a wreck today as the result of a riot at a Sunday baseball game when 4,000 "bloomer" girls discovered that a team of "bloomer" girls were really men in disguise. The team was taken to an east-bound train under police protection. A half hour before the storm broke the manager of the "girls" had acquired the gate receipts and disappeared.

Wall Street Notes

New York, July 21—Americans in London quiet and steady, unchanged to 1-2 higher, Consols 72-4, 4-1/8.

Paris cable says France opposes further loan to Mexico on account of \$200,000,000 French loan.

Syndicate reported in progress for well assured. Copper has become active and strong with European buying revived at a high level of volume. Cheerful views of steel predominate, although consumers are waiting for easier financing before putting out orders, and new contracts are declining, with steel mills busy on old business. Our foreign trade for the fiscal year 1913, shows big increase—over \$420,000,000—in totals. Both exports and imports show gains over all past years. The excess of exports was \$68,000,000.

The feeling among investors is gaining ground that this country is all right, and awaits only complete settlement abroad, to start up at a quickened pace. Stocks are attracting more attention, and when activity develops, it is not on recessions as heretofore, but on advances. Such stocks as Southern Pacific, which has been under the pressure of threatened distribution for weeks, are beginning to attract attention from their net earnings' showing. For the year ended June 30, 1913, Southern Pacific's gross is \$1,700,000 larger than in any year in its history, and its indicated net earnings on the common stock, 9.2 per cent, compared with 7.92 per cent last year. Around 92 its yield is 61-2 per cent per annum.

J. S. BACHE & CO.

WHY HE WAS QUIET

Eight year old Donald was usually restless in church, so his mother was doubly gratified one Sunday morning to see him sitting with clasped hands and bowed head throughout a lengthy prayer. When, later, she expressed appreciation of his attentive manner, the boy's face softened with a pleasant memory. "That day," he chuckled, "walked in and out of my hands exactly two hundred and seventy times!"

MODERN METHODS IN EYE EXAMINATION

D. BOYANER
Optician
38 Dock Street

TWO MORE BIG TRIPS

starting July 1st, 1913, drawing takes place Dec. 31st, 1913.

ACCIDENTS AT FREDERICTON

Fredericton, N. B., July 21—Peter Duffie, truckman, was painfully injured at the C. P. R. station this morning by being crushed by a heavy iron pulley.

Sol. Ferris of Gibson had a thumb cut off in the York and Sunbury mill this morning by a saw.

Fred Harris and Frank Smith, boys, were sentenced to three months in jail on charge of robbing the store of J. J. Widdall & Son. The sentence was allowed to stand. Smith is held on another charge of stealing and was remanded till Thursday. It has been proposed that he be sent to the Boy's Industrial School at St. John, but technicalities have stood in the way.

Barry Reardon Title

London, July 21—Ernest Barry of London successfully defended his title of world champion this afternoon by defeating Harry Percoc, the champion of Australia by two lengths. Stakes of \$5,000 accompanied the title.

Mrs. Pankhurst Arrested

London, July 21—Mrs. Emmeline Pankhurst was really arrested this afternoon.

The Best Quality at a Reasonable Price

Howard Watches

Are known the world over for their fine time-keeping qualities and their general excellence as high-grade watches.

The man who carries a Howard watch is proud of it—likes to compare it with the watches of his friends, knows that he has a high-grade watch, and when he says his watch is a "Howard" his friends know it too; for there are no Howard watches that are not high-grade.

Howard watches are made in two sizes only—twelve and sixteen, and the lowest priced is a seventeen jeweled adjusted movement very finely finished.

We have a good assortment to show you. Come in and see them. The prices range from \$40 to \$150.

The collector of Lancaster No. 1 will be at the engine house, Fairview, on Tuesday and Wednesday evenings from 7 to 9 for the same purpose.
8221-7-22.

THE LAWYER'S ANSWER

The lawyer didn't like the minister, and so he thought to corner him. "Now, doctor," he asked, "suppose the parson says, 'Ah! I've never thought such work could be done in St. John. I thought I would call it, and tell you.' 'I've heard that at 24' the young lawyer, which party do you think would win?" "The devil, unquestionably," replied the minister. "Ah! I've never thought such work could be done in St. John. I thought I would call it, and tell you." "Because he would have all the lawyers on his side."

TOO LATE FOR CLASSIFICATION

BRIDE WHOSE LIFE WAS THREATENED

This shows Sir Joseph and Lady Tichborne on their way from church after their marriage. The day before this event Lady Tichborne, then Miss Greville, received a letter threatening her life if she married Sir Joseph. The writer was Miss Theresa Doughty-Tichborne, daughter of the famous "claimant" for the Tichborne estate fifty years ago, when the trial of the suit

was the sensation of England for several months. The father of the present Sir Joseph was then an infant, and the claimant represented himself as the uncle whom everyone had thought as lost at sea. He served a term of fourteen years for perjury after the trial was over. His daughter, Miss Theresa was this week sent to prison for six months for sending threatening letters to Miss Greville, the bride-to-be.

RAILROAD HELPS THE FILIPINO

Iron Horse Only Second to School as Civilizing Influence

"The schools of the Philippines have done much to bring the people of the islands to a high state of development, but in my opinion the railways that have been built in the islands also have been of great assistance in arousing among the inhabitants a keen desire to accept the white man's way," said James Ross, general attorney for the Philippine Railway Company, just from Manila.

"I have been in the islands for thirteen years and without fear of contradiction I may say that railway construction has done as much in its way as soldiers and schools, because wherever we build roads the natives who had previously got little or nothing for their labor received rewards that were far in excess of anything they had ever expected.

"It encouraged the men to further efforts; it made lazy natives ambitious for the first time in their lives, and brought prosperity to communities that had been nothing but collections of shacks. I have seen places, where we built stations, that were only clusters of thatched houses grow to towns inside of a few months. During the last three years we have built 200 miles of road on the island of Cebu and 100 miles in Panay.

"When it is realized that the last rice crop of the islands was worth \$15,000,000 it is easily understood that business is rapidly increasing and that this is due to railway development. Our road has time giving instruction to the natives regarding the planting of rice, cane and other crops. I feel that the railways have done their part in the upbuilding of the trade of the islands and the people."—Washington Post.

LATE SHIPPING

PORT OF ST. JOHN
Arrived Today

Stmr Rhodania, 2035, Robinson, West Indies.

Stmr Governor Dingley, 2856, Clarke, Boston and old.

LEST WE FORGET

During these pleasant summer days the citizens think much about enjoyment, and do not care to be burdened with anything that savors of worry and trouble. But the summer is passing, and the autumn and winter will have arrived all too soon. Along with the winter will come to St. John the problem of handling winterport business. It is really a somewhat serious problem, because of a lack of terminal facilities. So much difficulty was met during the last two months of the last season that photographs were taken to show the congestion at Sand Point, and a public meeting was called, and these photographs were reproduced and thrown up on a screen, and representatives of the steamship lines and of the Canadian Pacific Railway delivered addresses, in which they declared that additional facilities must be provided before the winter-season of 1913-14. We are now in the last half of July, and there is still no evidence that the additional facilities will be provided. The board of trade was much interested in this question last spring, and so were the members of the city council. The condition of affairs was brought to the attention of the government. If St. John is not in a position to handle the business it will go elsewhere. Is it not time the representatives of the city made some further effort, so that if possible the condition of affairs at West St. John may be improved before next winter?

MUNICIPAL BORROWING

Mr. V. C. Brown, a branch superintendent for the Canadian Bank of Commerce, contributes an interesting article to last week's issue of Canadian Finance on the subject of municipal loans. He contends that each of the western provinces should appoint a municipal commission, by whom all expenditure for local improvements by urban municipalities would first have to be approved. He points out that legislation of a somewhat similar character exists in Great Britain. In Western Canada, Mr. Brown says, there is danger of going too fast in the creation of municipal debts, although in any case the west is growing so rapidly that its financial requirements must reach larger and larger figures. To establish credit on the highest possible level, he believes each province should have a competent commission, which would have authority to regulate the borrowing of each urban municipality, to see that assessments are limited to conservative valuations of property, to decide whether proposed improvements are really warranted and within the ability of the municipality to pay, to see that the plans and specifications call for work of the right character, to regulate the time for which debentures should be issued, and to regulate the investment of sinking fund moneys. Mr. Brown believes that a debenture term should not exceed the life of the improvements, and that a shortening of the term of issues is desirable. Of course the conditions in the western provinces are quite different from those which obtain in the east. New towns are springing up in the west and their aggregate demands are enormous. Perhaps also there is more carelessness than there would be if each province had such a municipal commission as Mr. Brown suggests. He tells of two western Canadian towns where the water mains were laid within the front line, and had to be entirely re-laid at a heavy expense. No doubt a degree of restraint and guidance in the matter of public expenditures is desirable. At all events the proposal of Mr. Brown has been received with a good deal of favor by business men in the west.

MORNING NEWS OVER THE WIRES

Lieutenant Colonel Curry's name has been removed from the militia list at the Halifax garrison as a result of the incidents which occurred at the banquet in that city a short time ago, given by the minister of militia.

The eighty members composing excursion No. 1 of the Geological International Congress, who are touring eastern Canada, arrived in Dalhousie on Saturday from Gaspé, and the town was on its feet for their honor.

They were given a reception in the Star Theatre on Friday evening and taken for an automobile trip in the afternoon.

Rev. Father Savage, of Moncton, who returned on Friday from the Holy Land where he had been on a trip of some months, was given a hearty welcome home and yesterday was formally welcomed by his congregation. A purse of gold with an address read by W. B. Chandler, K. C., was presented to him by the English members of his congregation, and a gold chalice with another address, read by Dr. F. A. Richard, was presented to him by his French parishioners.

Frederick Whitelure, aged nineteen years, while bathing at Fredericton yesterday afternoon, was drowned. He was a member of the crew of the dredge New Brunswick No. 1. With some companions he had been bathing, but as he could not swim he was holding himself from going under water by a rope from a scow. He is supposed to have lost his hold. An effort was made to save him but the current dragged him under the scow and his life was lost. Whitelure was an Englishman and had resided at Kingston for some years. His brother, William Whitelure, is also a member of the dredge's crew.

Rochester, July 19—Edward S. Ward, of this city, treasurer of Ward's Natural Science establishment, was killed, and fifteen or twenty persons were injured late this afternoon in a wreck on the Rochester and Eastern line of the New York State Railways, about five miles west of Victoria.

Fredericton, July 20—This morning at Christ Church, service of benediction of the lectern recently placed in the church as a memorial to the late Rev. Canon Roberts, was held. The lectern is in the form of an eagle surmounting a globe, and is of carved oak.

Athens, July 19—Peace between Greece and Turkey is about to be concluded formally. The Hellenic plenipotentiaries started from here today for Constantinople to sign the treaty.

Waterford, Ireland, July 20—The British steamer Benda, from Campbellton (N. B.), for this port and Cardiff, has gone aground in this harbor.

BIRTHDAYS OF NOTABILITIES

MONDAY, JULY 21
James Clancy, auditor for Ontario, and formerly a conspicuous figure in politics, was born in Middlesex county, Ont., sixty-nine years ago today. He was M. P. for Bothwell in the House of Commons from 1896 to 1904.

Professor Howard Turner Barnes, director of the Macdonald Physics building at McGill, and a high authority on physical science, was born in Woburn, Mass., forty years ago today.

LIGHTER VEIN

MIXED
An advertisement praising the virtues of a new make of infant's feeding-bottle, says: "When the baby is done drinking, it should be unscrewed and put in the refrigerator or other cool place. If the baby does not thrive on fresh milk, it should be boiled."

A MINOR DETAIL

Doctor—"I have discovered a new cure."
Plain Citizen—"Indeed, I congratulate you. Against what disease is it efficacious?"
Doctor—"Well, er, I haven't decided that yet."

TRY HONK, HONKING A BIT AND SEE

"You say a pedestrian has rights the same as a motor car?" asked the questioner.
"Certainly," replied the policeman.
"Well, maybe he has. But I can't help wondering what would happen to me if I went along the street making the same kind of noise as some of these automobile horns?"—Washington Star.

THE HIGH BROW MAGAZINE

The price of it is thirty-five. That is too much. Why, man alive, you don't appreciate high art. Shown in the advertisement part. Nine-tenths of it is of this class. Of auto cars and patent soap. And photographs and other dope. Of course, there's readin' to it, too. And when you come to glance it you'll find an article or so. Upon the nearest way to grow alfalfa in the arid west. Of course a lot of that is bluff. And you don't have to read the stuff. And it's a dollar to a cent. You wouldn't know just what it meant. But you're rewarded if you wait. The ads. are always stumpy great.

Highest Test Olive Oil

When you obtain an olive oil that is good for a variety of uses you are sure of having high test oil. Olive oil must be pure bland, and wholesome in order to render a fit for culinary as well as for medicinal use. BERI OLIVE OIL is highest test oil in every respect. It makes the most delicious dressings. It is the best oil for the convalescent. Get this pure oil and no other if you want to be absolutely satisfied with the oil you buy.

The New Champion Steel Range

WILL GIVE YOU SATISFACTION

We have sold a large number of these Ranges and they have proved to be all that we claim for them. Good quick bakers, with small amount of fuel, and that is what you want in a stove. The smoke and gas coming back makes it easy on the face for you get the full strength out of your fuel before it goes up the flue. The lifting top makes it easy putting in your coal or wood and for broiling. The large roasty ash pan saves a lot of trouble. The smooth sided trimmings around the high polished metal makes the new Champion a handsome finish stove. It will pay you to see these stoves before purchasing any other.

We have stoves of all kinds for cooking or heating. We sell the Fawcett line, they have been making stoves for years and keep up with the times from year to year.

F. S. THOMAS, 539 to 545 Main Street

MORNING LOCALS

The picnic held at Westfield Beach on Saturday under the auspices of St. John the Baptist mission church Sunday school and guild was largely attended. Luncheon and tea were served on the beach by St. Monica's guild and refreshments by the Holy Cross guild. The usual games and sports were held and the outing was greatly enjoyed.

The second of a series of open air services was held on the lawn in front of St. Luke's rectory last evening and was largely attended. The sermon by the rector, Rev. R. P. McKim, was illustrated by lantern views through the side of the church, which adjoins the grounds. The choir was conducted by E. S. Peacock.

At Germain street, Baptist church last evening Alfonso, son of H. Colby Smith, of West St. John, sang "Spirit of God," Medinger, with great effect. Mr. Smith has a tenor voice of much promise, and his singing made a great impression.

Delegates will leave St. John tomorrow morning for Acadia College, Waterville (N. S.), to attend the second annual Missionary Conference of the Maritime Provinces under the direction of the Maritime Education Movement.

As a mark of appreciation for the excellent work done on Friday during the fire in their plant, the St. John Iron Works have contributed \$25 towards the funds of the Firemen's Relief Association.

The dispensary report of the St. John Association for the Prevention of Tuberculosis for the month of June shows a total of 98 patients attended at the dispensary during the month, of whom 24 were children. Six new patients were also recorded in June, while 53 were under observation. Four children were discharged. The number of patients visited was 129.

William J. Galbreath, a fisherman, broke one of his ribs by a fall while hanging up his nets at Lorneville, on Saturday afternoon.

Captain J. T. Walsh, marine superintendent of the C. P. R., has been promoted to the office of marine superintendent of the company at Liverpool, and will probably be succeeded by Captain G. O. R. Elliott, who has been his chief assistant at West St. John during the winter months.

At the last meeting of the New Brunswick Medical Society Dr. Boyle Travers received the distinction of being made a member for life. In accepting the honor Dr. Travers spoke interestingly of his experiences when he began his practice and of the difference in conditions then and now.

Relief For Rupture Without Operation

No Big Expense—No Time Lost From Work
No Misery-Causing Belts or Leg-Straps
60 Days Trial to Prove It

Never Before Put In Print

There are so many mistakes made about rupture and what to do for it that we have taken the time to sum up in this book all we have learned during forty years of experience.

You'll find it full of facts never before put in print.

It shows just why elastic and spring trusses are the expert man's worst enemies—why wearing them is simply slow suicide—why they slow down and shorten your life or make operation necessary—why the law should put a stop to their sale—how to choose the "humbly" appliances—"mesh-ods," "plasters," etc.

It explains why operation is nearly always a needless gamble with death—and why, even if you manage to live through it, you may have to keep on wearing a truss.

It shows why sixty days trial is the only way in the world you can make absolutely sure of anything for rupture and how the "True" is the only thing you can get on such a long trial because the only thing good enough to stand a day after-day.

Don't fail to get this book—don't put it off—the minute it takes you to write for it may be your last chance to get it in a letter or postal—Send me your book.

SAYS SCOTTISH PEOPLE NOT MOVING TO CATHOLICISM

The Rev. Dr. Scrimger, principal of the Montreal Presbyterian College, who arrived home last week from Scotland, after a two months' trip, declared there was absolutely no movement among the Scottish people towards the Roman Catholic church. He said if Roman Catholics are increased in number, it is due to immigration from Ireland and that neither the Presbyterian or Methodist churches are losing ground, as has been announced in a despatch.

WOMAN RULE IN CALIFORNIA

Female Suffrage Threatens To Bankrupt the State

UTOPIA VIA LEGISLATURE

Creates Thirty-one Uplift Commissions and Increases Appropriations \$3,000,000 - Orgy of Freak Bills and Things Have Only Started

A bitter indictment of the manner in which California has been governed since women were given the right to vote in that state is contained in a report made by Miss Alice Hill Chittenden, president of the New York State Anti-Suffrage Association, which was given out for publication recently by the Washington legislature. The investigation made by Miss Chittenden in California.

"Creating the millennium with the ballot and regardless of the staggering cost," says Miss Chittenden, "has been California's beautiful dream since women suffrage territory was admitted months ago. Children are not to be separated from their parents because of poverty. The state is to subsidize the home. School teachers are to be pensioned. Old people are to receive an annual income. Prisoners are to be paid for their work in the jails. A regime of ease and comfort is to dawn in the Golden State. And then everybody in the community will be happy except the taxpayers, who must become paupers or criminals before they can draw dividends on their investments in California's Utopian scheme.

No Money in the Treasury "The appropriation for governing California, with its population of 2,277,649, (census of 1910), for the coming year is nearly \$20,000,000," Miss Chittenden's report continues. "This is an increase of about \$2,000,000 over the amount appropriated two years ago, just before the suffrage was given to women by the male voters of the state. This increase is not surprising when one learns that thirty-one commissions were created by the legislature that adjourned a few weeks ago. It is estimated that the annual expenses of these commissions will amount to about \$1,000,000. "While these reforms are being bought and paid for the announcement is made that California has no money in its treasury to erect a state building to house a state exhibit at the great Panama Exposition to be held in San Francisco in 1915. The building must be paid for out of the county treasuries.

"The last legislative session enacted almost every conceivable subject but I will enumerate just a few of them. There is an industrial accident commission, with an appropriation of \$212,470; a civil service commission, with a \$20,000 appropriation, an immigration and housing commission, with \$20,000; a state board of chiropractors, \$25,000; a board of apical examiners, \$10,000, and \$20,000 was appropriated to pay the salaries of three inspectors to visit houses where orphans and half orphans are maintained by state aid. This is in addition to the proposed expenditure of a large sum of money for pensions, twenty thousand dollars is also appropriated for a board of commissioners who shall determine what is a proper minimum wage for women and minors.

Some of the Freak Bills "Four thousand bills were introduced at the last session of the California legislature and 1,100 were passed. It is probable that no state ever had so many freak bills introduced. One bill sought to regulate the size of chicken coops. Another was framed to dictate the style of shoes school children should wear. Another sought to regulate the size of sheets used in the hospitals of the state. And California is to regulate the sun that everything under the sun can be regulated by law. The storm of protest against some of the measures passed by the legislature finally reached the governor's ears and he refused to sign some of the bills.

"These are but a few of the results born of women's entrance into the politics of the state. And California is only just begun to spend money to expedite the millennium. The schemes advocated by the more rabid suffragette reformers would, if carried out, bankrupt the state in a few years. Fortunately, the women of the state are growing tired of their new toy. The California situation is an object lesson to other states in which women are clamoring for the right to vote."

Attention Compelling Sale of Curtains

Sample, Soiled and Odd Lace Curtains in Scotch, Arston, Battenburg and Irish Point Also Madras and Others at Remarkable Reductions

Whether curtains are needed just now or not it will be decidedly to the advantage of every housekeeper to attend this sale. Also odd pairs of all the different styles of Curtains we carry offered at great bargain prices.

Sale will start at 8 o'clock in House Furnishing Department.

Curtain Section, second floor.

MANCHESTER ROBERTSON ALLISON, LIMITED.

ALFAFA GROWING

A Timely Letter From H. G. Sears With Suggestions

Editor Times:

Sir:—During the short time that you have been here I have received numerous inquiries regarding alfalfa, its culture, seeding, etc. which leads me to believe that this awakened interest means much to the successful working out of the agricultural problems of how to produce cheap and valuable feed and at the same time enrich and strengthen the properties of the soil, and later on to induce active interest in the cattle, hog, sheep, and dairy production of the province.

I would therefore request that you kindly insert the following suggestions which I deem most essential for the successful culture of this Legume.

1st.—If after proper demonstration it develops alfalfa cannot be produced on your farm devote your energies to other lines. It is only reasonable to assume that some few localities are not adapted to alfalfa production. Few farms of 160 acres have more than 30 acres that is suitable, in the way of drainage, proper slope, etc., necessary for the successful production of alfalfa, and it is advisable to make the initial start on a few carefully light clay sub-soil, and not too close to water.

The drainage question is the first to consider—be sure and select land that has a gentle slope, and thoroughly surface drained. Extremes as to too high or low land are to be carefully avoided. Water standing one day on alfalfa in a depression will affect it materially, and if it freezes you can depend on a field with spots where the depressions will be filled up and water froze, and later on such depressions will be filled up with a growth of weeds. It is not possible to secure a satisfactory crop from any soil without proper and adequate drainage.

Do not sow alfalfa on new breaking, as the roots do not penetrate below the plow line, and are liable to diverge along the soil and sub-plow line, so that the root does not develop vitality or strength to support a healthy, strong plant. Seeding on first breaking on new land generally results in a half a stand the second year, a weak straggling plant, and a thin stand the third year.

Alfalfa will not succeed on acid land, such land should be thoroughly limed (about 6 tons per acre of "Dousman's" Marl, intermixed with phosphate has been tried out with great success in the middle states in recent years). Well rotted barn manure is one of the best fertilizers to hasten a good stand and a strong growth.

2nd.—Elimination of weeds, and a thorough cultivation of the land is absolutely necessary—plow deep—then cultivate to a garden condition, deep cultivation though is not advisable.

3rd.—Inoculation is essential to the successful starting, or good catch of alfalfa, either spread about two hundred pounds per acre of soil secured from an old alfalfa or sweet clover field or, if same is not obtainable, use artificial cultures, such as your agricultural stations supply, at small cost. Make sure the application of the inoculating soil or cultures are applied on a cloudy day, for if the soil containing the germs is allowed to dry out, or exposed to sunshine, the germs will be killed.

4th.—Sow about 15 pounds of clean, hardy, northern grown native seed, secured through your local dealers, such as the so-called variegated alfalfa now commonly grown in Montana, South Dakota, Minnesota and Ontario supply, it is harder for New Brunswick use than Southern grown, and most of the imported seed.

Hardy climaxed strains of seed are a pronounced necessity for climatic conditions found in this province. Remember good seed is determined not by the value of the first crop, but by its permanency. The seed should be sown evenly about one to one and a half inches in depth, using a small hand crank seeder if the acreage is small (1 to 10 acres). If the acreage is large use a disk drill with a grass seeder attachment, or a press drill.

5th.—Sow without a nurse crop, as same is not necessary during the growing season, and is liable to absorb part of the moisture necessary for the plant. Do not mix alfalfa with grass seed. May 25 to June 5, or late in July up to August 7, is the proper time for sowing (there is considerable difference of opinion regarding the sowing season). Late seeding gives time for necessary previous cultivation and weed extermination, and the farmer does not loose the use of the land for one year.

6th.—Thoroughly disk or spring-toothing by using a harrow having spiked wheels instead of disks), the growing alfalfa laid in the spring will add thin stands, break up the hard soil, divide the alfalfa crowns and give the plant an opportunity for growth several days earlier than it would receive under ordinary conditions—be sure and keep the first crop growing as rapidly as possible to prevent thin stands and promote successful permanent fields.

7th.—Rotate your Alfalfa land every five years, then sow oats, barley or potatoes. Alfalfa should not be pastured until the third year, stock trampling on same prior to that time will work serious damage—after the third year it will be found to furnish pasture of the highest quality for all kinds of live stock. It is advisable to ring pigs before turning them into the alfalfa, otherwise they may root up many plants.

H. G. SEARS.

"Tom" Hewlett Dead

"Tom" Hewlett, for thirty-five years in charge of the Conservative caucus room in the House of Commons, in Ottawa, died last week. He saw several governments come and go, and though often offered better positions, preferred to retain his life-time connection with Room 16.

LOGIC is a method employed by some people to convince themselves that they are right upon any question in which it would be extremely inconvenient for them to be wrong.

Logic is indulged in almost exclusively by professors and young married men. Old married men know better. They usually employ silence instead.

Logic is generally used as a substitute for experience, and is successful upon several occasions to compete with ridicule, but has generally failed to come to the top of the next round.

Logic shrinks before poetry, invention, art and character. It is the last resort of mediocrity.—Life.

Watch out for the man from Yorkshire.

FORESTRY IN SOUTH AFRICA

A Progressive Policy Insanaged by the Federal Government There

The report recently issued by the Chief Conservator of Forests in South Africa for the year ended December 31, 1911, is of considerable interest by way of comparison with what is being done along forestry lines in Canada. For such a young nation the progress made is remarkable, and considerable credit is due to the forest department for the efficiency already attained in administration and fire-protection.

The area of the forest reserve in the Union of South Africa in December, 1911, was 1,759,550 acres. Besides this, there were also 42,587 acres reserved for growing railway ties, on which railway funds alone were expended, making a total reserved area of 1,842,137 acres. This area is divided into seven conservancies, — roughly speaking, a conservancy to each province in the union.

Each conservancy, consisting usually of several reserves, is administered by a district forest officer and a technically trained assistant forester. Under them are chiefs of reserves, forest guards and rangers. The more important positions are all filled by technical foresters, usually highly trained men who have completed their course in the Oxford School of Forestry and in Germany.

This organization very closely resembles that of the Canadian government forest reserves. Under their supervision, forest surveys are being made for the demarcation of new reserves, and existing reserves are being protected from fire by burning or cutting fire-belts around the reserves and by planting up their perimeters with trees of the less inflammable species. As a result of these precautions there were burned during the

Hand Made-Whitewear

Whitewear Department.

THINGS WORTH KNOWING

TO THOSE INTERESTED IN THE DRINK CURE

One year ago we opened a Neal Institute treating the drink habit at 46 Crown street, St. John (N. B.), to demonstrate to the public that we had a treatment that would cure all desire and craving for alcohol in three days time. Some few add it is "fake" while others tried it with the remarkable result we cured several score of men and women.

St. John was only one of our sixty branches that we have established throughout Canada, U. S. A., and foreign countries. After running it at a big expense for one year we closed our eastern branch as well as several other places where there was a danger of it becoming known that certain prominent people had taken the drink treatment.

For the self-same reason we established a large central hospital at the Capital City Ottawa some two years ago, where we have every convenience, thoroughly trained male nurses and graduate female nurses for women. Our twenty-two private rooms with electric fans, bath and every modern convenience guarantees to the outside patient comfort and secrecy while taking treatment.

While the ride may seem rather long when starting, it is well for the public to know that it is not necessary for a patient to arrive here perfectly sober, inasmuch as we never cut a patient straight off from liquor. Another feature that adds to taking treatment away from home is the fact that a good long ride after completing the Neal treatment acts as a tonic, the fresh air, change of scenery and the knowledge that when one returns nobody will be a bit the wiser. Remember our fee or charge is \$125 out of which we allow you transportation both ways with the understanding that we guarantee to return all money paid if the patient is not perfectly satisfied that all craving and desire for liquor has been destroyed when leaving the institute. If you have a loved one at home who is near and dear to you speak kindly to him and try and persuade him to take the Neal treatment.

P. S.—There is no charge should the patient wish to stay with us a few days longer after completing treatment to make sure he is perfectly cured.

NEAL INSTITUTE OF OTTAWA

373 Cooper Street

Allen, Royal Hotel, St. John. 1170-1f.

ONLY ONE COUPON IS NECESSARY NOW

Present it at Telegraph and Times' Office and, With a Little Cash Get a Dictionary. The Telegraph and Times office has been congratulated on every side on account of its handsome offer of the best book of reference published in exchange for six consecutive coupons and a small expense bonus. A great many people eagerly grasped that opportunity. The dictionary distribution is to close in a few days, however, and in order to bring it to a brisk windup and give its readers more benefit than ever, the Telegraph and Times have abandoned the six-coupon plan, and now only one coupon is required. To save time, it is said, to lengthen life. Here is a chance for you to save time and trouble also. No one can afford to overlook this opportunity to increase his earning capacity as the result of the minimum effort required to secure one coupon and the slight expense of the bonus required. If you take advantage of this offer, you will come more nearly to getting something for nothing than you ever did before, or probably ever will again. Do not delay, as the close is only a few days away. Clip that coupon and profit by the six-in-one proposition. Ask your friend that got one of the books about it. Then profit by your tardiness and get one for a coupon. All explained under the dictionary coupon printed on Page 2 in this issue. Big Increase in Trade. Ottawa, July 20 - Canada's total trade for the twelve months ending April 30, 1913, as published in a bulletin by the department of trade and commerce, was \$1,079,984,018, a splendid increase compared with the corresponding period last year, when the total was \$879,611,888. The total imports were \$678,587,617; exports were \$401,396,401. The amount of duty collected was \$115,641,977. One of the most interesting items in the list of imports is settlers' effects brought in by immigrants. During the twelve months ended April 30, this year, the value of these from the United States was \$10,296,285 as compared with \$4,000,274 from Great Britain. The figures show in a comprehensive way the striking increases in the imports and exports which have already been reflected in monthly reports. A noteworthy feature is the increase of imports from the United States. Imports from that country during the twelve months were valued at \$442,218,848, an increase over the preceding period of over \$75,000,000 or about 18 per cent, and of more than 100 per cent over the twelve months which ended with April, 1910. The total British imports for the year ending with April, 1913, also showed a satisfactory increase, being \$140,17,844, nearly \$20,000,000 or 17 per cent. increase over the preceding period. Exports also show a satisfactory increase in the report. For the twelve months to the end of April, 1913, the total was \$401,396,401. For the corresponding period of the previous year it was \$318,919,880. For 1913 the exports to the United Kingdom were \$188,794,820. The United States they were \$108,603,800. Meighen Unopposed. Portage La Prairie, Man., July 19 - Arthur Meighen, the new solicitor general, was today returned unopposed for the Portage La Prairie constituency after today's nomination call had resulted in no other name being put forward, so that the returning officer announced Mr. Meighen duly elected. Long Wharf Not Sold. In response to a telegram from H. T. Hoag, secretary of the board of trade, Hon. Mr. Cochrane replied last evening that there was no truth in the report that the government is selling the I. C. R. terminals at Long Wharf to the C. P. R. MISS MCGRATH, 124 Charlotte street. Pinkerton's Home Run; Shanky's Great Hit and O'Brien's Features of Saturday's Game Here

N. B. and Maine League Standing. Fredericton Won. Lost. P.C. 24 682 St. Croix 25 17 595 Bangor 19 14 576

The Saturday afternoon fans on the Marathons grounds saw an interesting and gaily ball game won by the locals from the re-vivified Bangor team. There were times when it looked bad for the Greeks but good work by Charles and others and strong batting by the home team overcame the troubles and victory perched on the banner of the home nine.

Bouts Planned By Hugh McIntosh's Successor

Milwaukee, Wis., July 19.—(Special)—"Snowy" Baker, the Australian boxing promoter, who took the place of Hugh D. McIntosh, when the latter retired and sold out to the former plans to visit the United States about the last of the year and arrange for some big championship matches in the Antipodes during the 1914 season.

With the firing of the gun on Commodore Gregory's yacht, the fleet of the Royal Kennebecasis Yacht Club started from the Millisville harbor Saturday afternoon at 8:30 o'clock on what is predicted by the club to be the most successful regatta ever held in all 22 boats composed of the fleet and it is expected that two more will join this number today.

AVOID THE RUTS

(Bangor Commercial) The Maine Automobile Association is conducting an energetic campaign directed at rut riding, a practice that is one of the great factors in the destruction of the road and is asking the co-operation of all using the roads and of the newspapers. It is pointed out that rut riding is the result of thoughtlessness and carelessness that is so far easier to ride with one wheel in the centre and one wheel on the extreme edge of the road.

NOTES OF THE GAME

That was a mighty drive off Shanky's bat. The ball went nearly to the fence, between centre and left field, but it also soared to a great height. Had it not gone so high it would easily have been over the end fence.

\$5,000 — Surplus of \$30,000
May Be Seen Again

The water assessment for 1913, which was presented to the common council this afternoon by R. W. Wigmore, commissioner of water and sewerage, shows an increase of \$12,666 in the revenue. Part of this increase is accounted for by an additional tax of \$5,000 on the assessed value of real estate and stocks, due partly to the higher values fixed by the assessors this year and partly to the value of new buildings. The balance, amounting to \$7,666, is on the specific charges for the service according to the number of families, fixtures, etc.

The large amount of plumbing installed to replace old-fashioned fixtures in response to the orders of the board of health accounts for part of this, the number of new houses all fitted completely with modern plumbing being erected and the increase in population responsible for the balance.

Last year there was a surplus of about \$80,000 at the end of the year's operations, and this year, in spite of heavy expenditures for renewals, etc., which are charged to current revenue, it is probable that the department may make as good a showing. Better methods, more careful oversight and more business-like methods have so reduced the cost of operation that the cost of the service has been materially reduced.

A summary of the 1913 assessment is as follows:

	Valuation	Stocks	
North	\$ 4,080,400	648,800	
East	18,880,600	2,864,100	
West	1,094,800	48,100	
Lancaster	7,874,800	199,700	
	20,930,600	3,760,700	
For 1912	18,107,100	3,607,900	
Increase	\$ 2,823,500	152,800	
	Valuation	Supply	Total
North	16,178,700	29,415,75	45,594,45
East	46,207,50	46,129,25	92,336,75
West	8,908,15	7,964,00	16,872,15
Lancaster	8,948,80	4,294,00	13,242,80
	67,298,55	90,888,00	158,186,55
For 1912	62,199,84	82,460,50	144,660,34
Increase	\$5,098,71	7,427,50	12,526,21

LOCAL NEWS

THE STEAMERS

Battle line S. S. Treble, Captain Starrett, for Rio Grande del Sul, sailed from Santos on Saturday.

C. P. R. liner Montfort, from Antwerp, July 9, arrived at Quebec at half past seven o'clock this morning.

THE VISIT OF THE GEOLOGISTS.

A special committee from the Natural History Society met with Mayor Frink in the latter's office at two o'clock this afternoon to discuss some of the final arrangements for entertaining the members of the World's Geological congress here on July 30.

DENTAL EXAMINATIONS

The Council of Dental Surgeons of New Brunswick have appointed Dr. Fenwick C. Bonnell of St. John, and Dr. H. S. Thomson of Moncton, as the board of dental examiners of New Brunswick for the college graduates wishing to practise in the province.

SUNBURY WEDDING

At the Methodist parsonage in Fredericton on Saturday morning, Linus Seely, of Blissville, and Miss Susie Hornman, of the same place, were united in marriage. The ceremony was performed by the Rev. Neil McLaughlin. Mr. and Mrs. Seely returned to Blissville, where they will reside.

POLICE REPORTS.

The street department has been notified by the police of two dangerous holes in city sidewalks, one in the plank sidewalk on the south side of Mark Bridge and the other at the corner of Meadow and Forest streets.

Walter Cooper has been reported by Sergeant Finley for allowing his unlicensed dog to run at large.

MUST USE CITY WATER

After spending a large sum of money on efforts to secure a water supply of their own for their new factory, by boring operations, T. S. Stimms & Co., Ltd., have found it necessary to depend on the city's supply from Spruce Lake for their entire supply for both use in the factory and for fire protection. Connections with the eighteen inch main which passes in front of their property were made today.

ON THE RIVER

A ple social at Public Landing, which was held at the pavilion at that place on Saturday evening, was a great success. Nearly or quite 300 people were present, the majority of them being young ladies and gentlemen from the city, spending the week-end at the landing and places four or five miles up and down the river from that point. After the pies had been sold and refreshments partaken of there was dancing and singing. The evening was very pleasant, with moonlight on the river, and the pavilion was decorated with Chinese lanterns.

During the afternoon and evening on Saturday and all day yesterday the river presented a very animated picture, with sailing yachts and motor boats constantly moving upon its surface. As usual on Monday morning the Oceanic brought about 200 people to the city this morning after a delightful weekend at their favorite resort. The steam yacht Dream and the Dahinda were at Carter's Point this morning, and Commodore Gero's yacht at Public Land-

IN HONOR OF THE HEROIC LAD'S ACT

Monument to Young Fulton
and Other Local Heroes

CLERGYMAN'S SUGGESTION

Rev. Mr. Sampson Thinks Mayor
Might Name Committee in Mat-
ter and Take Charge of Fund—
Moral in Lesson of Self-sacrifice

To the Editor of the Times:

Sir,—There was interest yesterday in its last resting place the body of "Sydney Fulton," who on Thursday last, gave his life in a brave attempt to rescue his companion and friend from drowning. Might there not something be done by the citizens of St. John to recognize the moral worth of this act of true heroism? There is a splendid and costly monument standing in King Square to commemorate another such act of nobleness, and while no doubt there are many of our citizens whose lives give evidence of trust heroism by their loving sympathy daily expressed, who deserve to be remembered, yet it seems to me that young Fulton's attempt to save the life of his companion ought to receive some special recognition on the part of the citizens of St. John.

It has been successful there is no doubt that he would have received the Royal Humane Society medal and possibly other honors, had he not been a public testamonia. Why should not the name and act be remembered with gratitude and respect now that he sacrificed his life?

I do not suggest any such monument as was erected to the memory of "Young" in King Square, but could not some special monument be designed and erected in some public place in which the names of all our St. John heroes might be engraved who have given or who might give, their lives under similar circumstances.

In the town from which I came, in Devonshire, England, there stands a monument erected in memory of those men who fell in the battles of Trafalgar and Waterloo, who were native of the town and the names of the men are read with respect and reverence. Often have I seen the hats of men lifted as the monument is passed. Could there not such a monument be designed and erected in St. John on which would be inscribed the names and acts of which we have every reason to feel thankful and proud?

I shall be glad to do what I can to help forward any memorial that has for its object the commemoration of all such noble deeds of true manliness in our city. I would suggest that His Worship the Mayor name a body of three or five gentlemen to consider the nature and character of such a memorial monument and also to gather a fund to defray the expense.

I am very sincerely,
W. H. SAMPSON
Rector of St. George's Church

ST. JOHN MEN AWAY TO GATHERING IN TORONTO

A group of St. Johnmen left last evening by the C. P. R. express to take part in an interesting convention in Toronto. The sales managers and traveling representatives of Ames-Holden McCready, Ltd., are gathering in Toronto today and will be the guests of the company during the whole week. During this time they will have an opportunity to inspect the three factories of the company and watch the manufacture of the stock they sell, and at meetings which will be held during the week they will exchange views on trade matters of mutual benefit.

There will also be time for entertainment and the men are looking forward to an enjoyable week. W. M. Angus, manager of the market branch, left last week to be present at the convention, and those who left last evening include J. E. Petre, A. B. Matheson, Geo. E. Davies, H. C. Simmons, T. E. Akery, S. C. Mitchell, W. A. MacRae and W. T. McLeod.

THIS WEEK'S BALL GAMES

The games to be played this week by the Greys are as follows—St. Croix at St. John, Monday; and Tuesday, Fredericton at St. John, Wednesday; St. John at Fredericton, Thursday; Fredericton at St. John, Friday and Saturday.

This is a critical week in the New Brunswick and Maine League. The race is very interesting and close and should the Marathons be able to hold their own with the snappy St. Croix team today and tomorrow, and the Bangors play the ball that they have been playing the last week, it would put the Marathons in the lead.

A new catcher, Flaherty, was expected on today's train and to play in today's game. This will strengthen the Marathons in their weak point. Bien worked very well on Saturday, but he is still lame and for the present the Marathons require a new man to fill in.

Tomorrow the grounds will be thrown open again to the children and through the kindness of Ex-Alderman Frank L. Potts, the Artillery Band will play a choice programme of music. The band will parade from the square to the grounds and all the children are invited to be present. Invitations have also been sent to the commissioners and all the clergymen in the city, also the judges. It is to be hoped that as this is the last children's day that they will witness a splendid game of baseball.

DEATH OF JAMES BOGLE

The death of James Bogle, son of the late James Bogle, occurred at his home, New Jerusalem, Queens Co., on Friday morning, July 18. Mr. Bogle, who was single, was a well known and prominent farmer and will be much missed by many friends. He is survived by four brothers—Samuel M. Eastport, Mr. Thomas of St. John, William of Lancaster and John, who, with one sister, Miss Eleanor, resides at New Jerusalem. The funeral took place on Sunday from his late home.
