ALL SET FOR LILY LAKE RACES AT 2 O'CLOCK

Factory Whistles Sound Call To Throngs To Go See The Speed Kings

GOOD WEATHER; GLASSY SHEET OF ICE; GRANDSTAND SWEEP CLEAR OF SNOW

Miss Canada to be Central Figure in Introductory Ceremony and Flag Raising—Thirteen Heats in 220 Today—Also Three-Quarter Senior and Several Junior Races.

With the continued blowing of whistles the city was made aware at 11 o'clock this morning that the battle was on. It had been arranged that if the races were to be held today the blowing of the whistles should be the signal. At two o'clock the fight for supremacy in the speed amateur skating world will be begun, and then look out for the struggle for titles and the smashing of records.

At noon the weather was clear though slightly overcast and the thermometer stood about ten degrees above zero. The indications were for perfect skating weather. The ice was thoroughly swept this morning and sprinkled assuring a glassy sheet for the speed kings. The grand grandstand was swept and put in order for the reception of the vast crowds expected at the lake this afternoon to witness the classic.

INTRODUCE MISS CANADA.

Just preceding the first race Miss Canada will be the central figure in a ceremony of introduction and flag raising that will make a pleasant feature of the opening day.

Today's Events.

Today's card of races at Lily Lake are as follows: Seniors—220 yards and the three-quarter mile. Ladies—400 yards. Seniors—14-year-old class 220 yards. 10-year-old class 220. 12-year-old class 440. 16-year-old half mile.

The 220 yards senior will take thirty minutes to find a winner among the forty-two entrants.

Have Change Ready.

Have your change ready! Don't hold up the parade by giving the ticket seller a \$10 bill for a fifty-cent ticket. Everyone will be waiting quickly. If those buying tickets will have the right change. The operation will not take half so long as you think. Tickets are being sold at the grandstand for the sale of rush seats at fifty cents plus the admission tax.

The entrance to the rush seats is from the ends of the grandstand. The booths on one end will serve the section between it and the reserved seats and the same applies to the booths on the other end. These occupying reserved seats will enter from the driveway and there will be two booths there for the sale of tickets. Remember the race starts at two o'clock. Be on time and wear lots of clothes. Take a cushion or rug or both along and you won't regret it. Watch the announcing board on skids for the numbers corresponding to those on the programme. Keep your seat. Remember there is someone behind you who wants to see just as much as you do and if everyone will bear this in mind the race will be enjoyed in comfort. Every seat on the grandstand commands a view of every part of the course.

On Monday and Tuesday, a special series of events will be staged in the Sunny Beach rink at which the skaters from all over the United States and Canada are expected to demonstrate their speed for the Montreal fans. Montreal is anticipating a large influx of visitors.

At Moncton.

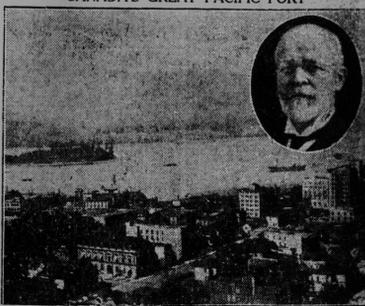

Word received from Moncton today indicates that preparations are well under way for the New Brunswick Ice Skating Championships, which will be staged in the railway city on Friday, February 23, both afternoon and evening. Moncton will open its jubilee celebration on next Monday and the championships races will come as a fitting climax to the week's programme.

BOY 'BOOTLEGGED' FREED

New York, Feb. 14.—The world may look brighter today to Edward O'Connell, seventeen, referred to by Magistrate Charles A. Oberwager as "probably the youngest bootlegger in the city." Edward was discharged on the ground that there was not sufficient evidence to prove the charge that he had attempted to sell a drink of whiskey to a stranger.

This judicial decision, the court record shows, leaves Edward free to go forth and carve his career.

CANADA'S GREAT PACIFIC PORT

Vancouver, Canada's chief Pacific port, is under a Mayor of sound and progressive ideas, who has a proud record of accomplishment for his city, Mayor Charles E. Tisdale. It is due in great part of his energetic measures that Vancouver in 1920 launched an advertising campaign among western farmers, which has resulted in putting her in an important position in regard to the export of grain. She has one of the finest city markets in the Dominion, occupying two city blocks, where district farmers sell direct to consumers. The city now has a hydro-engineer investigating the possibility of producing its own power. This will be decided this fall. The government has set aside all unalienated waters within a radius of 100 miles of the city to make the project possible.

Under Mayor Tisdale's regime Vancouver's policy is to co-operate with other British Columbia cities and with the government in advancing as far as possible the interests of that province. The picture shows Mayor Tisdale and a part of Vancouver city.

MISS CANADA SHOWERED WITH VALENTINES

A veritable flood of valentines came to Miss Canada in the mail this morning. For the most part they were from school children of the city including several little love notes. The collection was not confined to the city alone as many were received from all parts of the Dominion including a large valentine from a newspaper syndicate in Ontario, making special offers for her being held there for her to attend to in any way with the grateful tribute which has been paid Miss Canada and the city she represents.

Among the many invitations received today was one from the Windsor Chapter, I. O. O. F., and other organizations craving for her presence at a function during the next few days. A telephone call was received from Fredericton today asking that Miss Canada attend a racing meet which is being held there at which Lady Asburnham would head a committee of ladies who are desirous of extending fraternal greetings.

In view of the fact that Miss Canada will return soon to Montreal to attend the finale of the National winter sports there it will be impossible for her to attend all the functions to which she has been asked, and Miss Canada will have to send her regrets. The local Carnival Week is taking all her time just now, and with her early return to Montreal to close the national carnival there nothing definite can be arranged for the future. It looks at the present as if the engagement to attend the "at home" at Moncton will have to be cancelled in view of her return to Montreal.

OLD TRINITY IN MONTREAL IS A PREY TO FLAMES

Montreal, Feb. 14.—Fire that broke out in the old Trinity church, one of the religious landmarks of this city, early this morning, destroyed the edifice by 2:30. Flames burst from all parts of the building and the steeple was expected to collapse at any moment.

Trinity church was built in 1863 and was a white stone throw of the Imperial military barracks. It was intimately associated throughout its history with the many life in the city and was used as the garrison church in the old days. It was invariably visited by the governors general and various distinguished visitors. Within its walls were old flags of regiments that were so treasured that it was impossible to remove them without causing them to fall to pieces. It was sold to the Syrian community last year for \$70,000.

BLIZZARD IN MANITOBA

Winnipeg, Feb. 14.—A blizzard which old-timers admit to be the "real thing" in blizzards reached Winnipeg from the west yesterday and developed in intensity as the day advanced, with the thermometer dropping rapidly in sympathy.

As Hiram Sees It

"No, sir," said Mr. Hiram Hornbush to the Times reporter. "I wasn't to the Military Ball. Hanner said our side was too old-fashioned an' she'd bet they wouldn't be a chance that old Army like us could do. We never practiced that parlor hop, step an' shuffle kind of things that. An' if you fitted me out in a swall-ler-tail coat the girls 'ud laugh so they couldn't dance. We're gonna hev a little party out to the Settlement for Miss Canady if she'll come an' I guess I'll see if I forgot how that old St. John quadrille used to go. But I'm goin' to the ball. But I'll go anyway for the sake o' that there Health Centre. If you folks any knowed it—it's about the best thing you got. We're gonna hev a nurse out to the Settlement just as soon as we kin git one—an' pay 'er well, too, by Hen."

Ten Years of Heavy Traffic

Ten years under the heaviest shopping traffic and still unimpaired—a record that is typical of the service DOMINION BATTLESHIP LINOLEUM gives. This durable, attractive, comfortable floor is giving similar service every day in stores, banks, halls, public buildings, colleges, schools and offices throughout Canada.

Quiet and restful, with its comfortable, resilient treading surface, DOMINION BATTLESHIP LINOLEUM is a great aid in imparting that "atmosphere" so much desired in these types of buildings; it induces all around satisfaction.

DOMINION BATTLESHIP LINOLEUM permanently solves most flooring problems. Its smooth, sanitary, seamless surface cannot harbour dirt or germs. Occasional use of a reliable floor wax removes dust and keeps the surface in ideal condition. When properly applied with waterproof cement DOMINION BATTLESHIP LINOLEUM affords a perfect flooring which wears indefinitely.

Made in plain shades of brown, green, terra-cotta and grey. Special colours for large contracts.

SON KILLED IN QUARREL WITH DAD

Civil War Veteran Says He Fired Shots to Scare Lad—At First Denied Killing.

Cape May, N. J., Feb. 14.—A veteran of the Civil War, a member of the New Jersey militia, Israel W. Gifford finds himself at 86 years of age in jail awaiting trial for the murder of his son. The old man, who comes from Steelton, N. J., admits the killing, but says he fired in the dark to quiet the young man, who was drunk and rampaging.

The prospect is that Gifford will have to stay behind bars in the Cape May County jail here until the April term of court. That just as soon as opportunity offers his community is expected to put forth its best efforts in his behalf. There is marked sympathy for him, and Dr. Dandall Marshall, Netherland, according to statistics given out at the Bureau of Customs.

The commiseration of the Philadelphians with death of Thos. C. Powers amounted to \$600,000, against \$870,000 for the same period last year. Spain took a considerable amount of cigars, but tobacco and hemp in exchange for wine, vegetables, fish products and textiles.

TEN MEMBERS MORE IN THE NEXT COMMONS

Redistribution Bill Presented in the House—Nova Scotia Loses Two, New Brunswick Same Number.

(Canadian Press Despatch.) Ottawa, Feb. 13.—Canada's next House of Commons will consist of 246 members, an increase of ten over the present representation. This afternoon Premier King presented the redistribution bill in the long awaited redistribution bill. Under its provisions—based in turn on the 1921 census—the Maritime Provinces lost two members, both in Nova Scotia—the prairie provinces gain eleven—four going to Alberta, one to Saskatchewan and two to Manitoba and British Columbia gains one. The other provinces remain as at present, with the representation of Yukon Territory. The net increase in representation for the whole Dominion is therefore ten.

Premier King said it was the constitutional duty of the government to introduce such a bill after each decennial census. The British North America Act provided that after each census a bill to readjust the representation to the House of Commons should be introduced. The Prime Minister read a list of the years in which redistribution had taken place in the past, opening with the first readjustment in 1872 and closing with the last, which took place in 1917.

The bill was given first reading and stands for second reading at the next sitting of the House.

Agrees to Loan to Vancouver Harbor Commission. After somewhat extended discussion, the House of Commons today passed a resolution providing for a loan of \$500,000 to the Vancouver Harbor Commission for development of Vancouver harbor and gave first reading to a bill based thereon.

West, thought the estimates will be a very moderate one. He believed that anything which promised to make the shipping facilities for Western farmers should have every support. The resolution was then carried and a bill based thereon given first reading.

New House Committee Proposed. It is not expected that there will be many changes in the membership of the standing committees of the House of Commons this year. Two of last year's chairmen, however, are not in the House at present and will have to be replaced. These are Hon. O. Tupper of Gloucester, N. B., who has been elevated to the Senate, and Hon. M. J. Denison, of St. John's, who has been appointed to the bench.

Turgeon was chairman of the committee on forests, waterways and water powers, while Mr. Demers had charge of that on privileges and elections.

An additional committee has already been announced for the present session. This body will have to deal with investigating agricultural problems, such as the mixing and marketing of grain and the development of the livestock industry.

Hydro Question. Ottawa, Feb. 14.—(Canadian Press.)—No legal agreement or options have been made by the Dominion Government for the sale of the power of the Toronto suburban railway between Guelph and Toronto to the Hydro Electric Commission of Ontario.

This answer was given by Hon. G. P. Graham, acting minister of railways and canals, in the House of Commons last night, to a question by T. L. Church, Conservative member for North Toronto.

It is now assured, that the estimates will be brought down on Thursday. Cold Storage Bill Up. Ottawa, Feb. 14.—(Canadian Press.)—Second reading was given by the House of Commons last night to four bills introduced by Hon. W. R. Motherwell, Minister of Agriculture. One so amends the cold storage act as to make subsidies for cold storage available for co-operative societies, the others amend the acts respecting livestock, the sale and inspection of fruit and fruit containers and the testing, inspection and sale of seeds.

On the cold storage bill, Hon. A. R. MacLean, (Liberal, Halifax) said his experience of Government aided cold storage plants had not been such as to make him enthusiastic. There was plenty of private enterprise to take care of the demands. He thought that the present might be a good time to abandon the cold storage act altogether.

L. H. Martell, (Liberal, Hants) also supported this committee. John Morrison, (Progressive, Westport) opposed the bill, saying that the Government's members for Ontario will be, it is understood, Lawson O. Clifford, South Ontario and Dr. Matthew McKay, North Kent.

No Session Today. Ottawa, Feb. 14.—(Canadian Press.)—In the House of Commons today there will be no session on account of it being Ash Wednesday.

MISS MINNIE MACKEN.

(Moncton Transcript.) Many Moncton friends will be grieved to hear of the death of Miss Minnie Macken, eldest daughter of the late Samuel Macken and Mrs. Macken on Monday, Feb. 12th, at the home of her sister, Mrs. W. Hamilton Burns, Toronto. Miss Macken was a native of Moncton, and had lived here almost her entire life up to the last two years which were spent with her sister in Toronto.

Three sisters and a brother survive. The sisters are Mrs. Thomas M. Williamson, of Heriburg, Penn., Mrs. W. Hamilton Burns, of Toronto, and Mrs. Somers, widow of the late Dr. Somers, of Moncton. The brother is S. F. Jack Macken, of Waterville, New York.

Her father, the late Samuel Macken, was for many years a car inspector in the employ of the C. N. R. in Moncton.

MRS. WILLIAM RUTLEDGE.

Fredericton Gleaner.—Word has been received of the death at North Adams, Mass., following an operation a few days ago of Mrs. William Rutledge who was formerly Miss Agnes Kelly of this city. She was a daughter of the late John Kelly, who at one time was proprietor of the Lorne Hotel in this city. Besides her husband and one son at North Adams, she is survived by three sisters, Mrs. John Rowan of Lincoln, Mrs. Wilcox of Los Angeles, California, and Miss Besse, who had a distinguished career as a nurse in Europe before and since the war, and who is now practising her profession in New York, and two brothers, William S. Kelly of the staff of Victoria Public Hospital, and Walter Kelly of Cambridge, Mass.

MISS MONCTON.

(Moncton Transcript.) His Worship Mayor Edgett this morning wired Miss Canada and Miss Halifax an invitation to be present in Moncton at the Golden Jubilee Ice Skating Championships on the 19th and 20th of this month.

On Miss Moncton's return home from St. John she will be accompanied by Miss Canada and Miss Halifax, who will remain in this city as the guests of Miss Moncton.

During the week of the sports the I. O. D. E. have arranged to entertain Miss Moncton and her guests at social functions. It is understood that the Rotary Club are also arranging to entertain Miss Moncton on the second day of the Jubilee.

Mr. and Mrs. H. H. Warren have invited Miss Canada and chaperon to be guests at their home in Moncton.

During the Jubilee Skating Championships, Miss Smith is to be the Queen of all the events. She with her guests will have seats in the Royal Box and as Queen will officially open all functions.

WILLIAM N. BOYD. The death occurred in the Moncton City Hospital on Monday following an operation, of William N. Boyd, of Crangerville, Kent County. He was born in Eglis, Albert County seventy-three years ago, but had been a resident of Crangerville for the last forty years. He leaves a widow, formerly Miss Mary Jane Smith, one son, five daughters, three brothers and two sisters. The son is Thomas H. Boyd of this city, and the daughters are Mrs. Irvine Blackney of Sunny Brae, Mrs. Robert Mills of Moncton, Mrs. George Brown of Lynn, Mass.; Mrs. George Bennett and Miss Victoria Boyd, both of Sackville, Mass. The surviving brothers are John of St. John, and Banff, in the United States; the sisters are Mrs. George Geldart of Sackville, formerly of Sunny Brae, and Mrs. Edna Downey of Sunny Brae.

57 YEARS MARRIED. Rev. J. J. and Mrs. Colter yesterday observed the fifty-seventh anniversary of their wedding at Boston, where they are spending the winter. Rev. Mr. Colter is a native of Kentwick, having been born there on December 4, 1836. He is now in his eighty-seventh year, while Mrs. Colter is his junior by eight years.

DIAMOND RING CASE. Lahan Sharp was the only witness examined yesterday afternoon in the diamond ring case, in which David Carleton is charged with receiving stolen goods. Mr. Sharp denied that he took the ring to Montreal, and added that he never had the ring at any time. He said that he told Carleton to purchase the ring from Sargeant, but he did that in good faith, thinking that Sargeant was honest.

Best Year in History of The Sun Life

The financial statement issued by the Sun Life Assurance Company of Canada this week affords a demonstration of activity and strength which will gratify alike to its policyholders, and to the larger public who take pride in the predominant position occupied by Canadian financial institutions.

The statement covers the transactions of the Company during 1922, the fifty-first year of its operation. In all particulars substantial advances are recorded as compared with the previous year. New Business written reached \$107,225,246, and the total assurances now in force reach the impressive figure of \$631,404,869. These figures emphasize the Company's position as the leading Life Company, doing an ordinary Life Business exclusively in the British Empire.

This expansion is accompanied by corresponding increases in Income, Assets and Surplus. From premiums, interest and other sources a total cash income of \$36,251,922 for the year is recorded, an excess over the 1921 figures of \$5,444,172—by far the greatest advance ever recorded in a single year. Assets now reach the sum of \$174,089,468, an increase of \$44,716,731; another record, both relatively and absolutely, for the Company. After providing for all liabilities and capital stock and setting aside substantial sums to provide for investment fluctuations and other contingencies, a surplus of \$14,269,420, is disclosed, being a gain of \$3,885,511 over the year 1921.

That the Sun Life of Canada is fulfilling its mission is demonstrated by its payment to policyholders or their beneficiaries during the year, a total of \$18,615,505, being reached. This represents a payment of \$6,500 for each year of the year on the basis of a working day of eight hours. The sum of \$2,673,516 was paid or allotted, in respect of dividends. The Company has now paid to its policyholders or their representatives since organization a total of \$129,770,609.

The statement justifies the claim that the Sun Life of Canada has enjoyed the most profitable and satisfactory year in a history remarkable for its progress.

How to Make Pine Cough Syrup at Home

Has no equal for prompt results. Take but a moment to prepare. Substitutes about 100 times.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains the several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.

To make the best pine cough remedy that money can buy, put 2 1/2 ounces of Pinex in a 16-oz. bottle, and fill up with homemade Pinex syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make 16 ounces—more than you can buy ready-made for \$2.50. It is pure, good and pleasant—children like it.

You can feel this take-hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be pertussis-like, or may be the same as influenza membranes—and this Pinex and Syrup combination will stop it usually in 24 hours or less. Splendid, too, for bronchitis, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs. Beware of substitutes. Ask your druggist for 2 1/2 ounces of Pinex with directions, and don't accept anything else. Guarantee to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

FRANKLIN CENTENARY.

(Toronto Globe)

Benjamin Franklin's birthday is to be tentatively celebrated tomorrow in New York and other American cities, when tribute will be paid to this powerful Revolutionary figure, whose work in literature, economics and science in many diverse forms ranks him high among the natives of his country.

It is generally believed that he exercised a good deal of influence with the British Government to this date.

Franklin's principal connection with Canada, however, was in the spring of 1776, when he, with Samuel Chase and Charles Carroll, formed a mission to Montreal in the hope of detaching the allegiance of the French from the British cause. Arnold had already been some months in the country, and the attack on Quebec on the last day of 1775, while the war between Britain and France was in progress, Franklin was in England, as a friendly visitor from one of the colonies in America, and he then urged the authorities to conquer Canada instead of waging war against France in the heart of

Germany. Later that year Wolfe captured Quebec, and in the following year Franklin wrote a pamphlet strongly urging Britain to retain Canada at the peace instead of Guadalupe, as was seriously proposed in some quarters.

It is generally believed that he exercised a good deal of influence with the British Government to this date.

In one sense, however, he left a mark in Montreal. In the previous year he had sent a French printer, Fleury Mesplet, to Montreal, and there he started publication in French of a paper called "The Gazette." This, likewise, failed to move the French-Canadians, and in 1785 Mesplet was the printer who brought out in English "The Montreal Gazette," which has continued to the present day.

The two senior girls' Bible classes of St. George's church entertained the young men of the church last night at a Valentine party in the main hall of

the church. The evening was very pleasantly spent in games appropriate to the occasion which were entered into with a great deal of enthusiasm and caused much merriment. About fifty sat down to supper and the tables were very artistically decorated. Each one present received a memento from the "Bible" girls. The party was chaperoned by Mr. and Mrs. Fred Meurling and Mr. and Mrs. Parker Mitchell.

CHINESE FLIRT FINED \$25.

Proprietor of Chop Suey Restaurant Was Accused by Two Typists.

New York, Feb. 14.—The first Chinese flirt ever arraigned in a New York police court appeared before Magistrate Joseph E. Corrigan in Essex Market Court in a stylish suit, spats, silk shirt, striped necktie, and carrying a cane. He described himself as Charles Chink, 31 years old, owner of a chop suey restaurant at 43 Morten Street.

Chink was accused by Alice Blair, 26 years old, and Mary Blair, 18 years old, typists, of 43 Morten Street, with stepping up to them at Jefferson Street and East Broadway at about noon on Feb. 13 and saying: "Where are you going, girls?" They did not answer and he followed them ten blocks, they when they came across Patrolman John Connelly of the Clinton Street Station. They told the patrolman what had happened and Charles Chink was arrested. The prisoner denied the charge, but was ordered to pay a fine of \$25 or serve ten days in jail. He paid the fine.

Lesson No. 282
RADIO DICTIONARY

SELECTIVITY.

As applied to radio, it is the ability to select a particular wave length and to exclude other wave lengths. A receiving circuit, for example, which has a high resistance responds to a wide range of wave lengths and is consequently not very selective. High selectivity is secured in a receiving circuit when satisfactory reception of radio signals is obtained on a given wave length and signals having wave lengths differing by a comparatively few meters, either higher or lower than the given wave length, are excluded.

WAVEMETER.

The function of a wave-meter is to determine when a condition of resonance exists in a circuit at a given frequency or to measure the frequency at which a circuit having certain established values of inductance and capacity will be in a state of resonance. A wavemeter consists essentially of a series circuit containing an inductance and a capacity, one of which is variable, and the value of which is known. The circuit is also provided with an instrument for measuring radio currents, such as a hot-wire ammeter, this instrument being either inserted directly in the circuit or electromagnetically coupled to it.

MOLYBDENITE.

A type of mineral used as a detector in radio circuits and possessing the property of rectification, which allows more current to flow when a given voltage is applied in one direction than when an equal voltage is applied in the opposite direction. It is a sulphide of molybdenum, has a blue-gray color and a formation similar to mica as it can be separated into thin sheets. The opposing contact should be a fine wire resting on the surface of the crystal with a light contact. The degree of sensitiveness of this type of crystal is much less than that obtained with a good galena crystal.

VELOCITY OF WAVES.

The speed with which radio waves, light waves and radiated heat waves travel through space is 300,000,000 meters per second or 186,000 miles per second. Sound waves travel through air with a velocity of approximately 330 meters per second or 1,033 feet per second.

COMMUTATOR "RIPPLE."

When the brushes pass over the commutator segments of a direct current generator, a slight drop in voltage occurs when the brushes do not have contact with any commutator segment. If a circuit connected to the generator is used as a source of current supply to heat the filaments of vacuum tubes it will be found that the slight voltage variations or "ripples" will produce an annoying hum in the receiving circuits and cause serious interference with the reception of radio signals. The effects of this type of disturbance may be reduced, but not entirely eliminated, by the use of absorption circuits employing choke coils and condensers.

TUBE SEAL.

As applied to vacuum tubes, it is a method of obtaining an airtight junction between metal and glass tubes used in the construction of high-powered, water-cooled tubes developed for the transmission of radio signals. By means of this seal, a glass tube is joined to a copper tube in such a manner as to obtain an adhesive union which will withstand, without cracking, changes in temperature over a wide range and also permit a high degree of evacuation in the glass cylinder which encloses the active electrical elements of the thermionic tube.

RADIO FREQUENCIES.

All frequencies above 10,000 cycles per second are known as radio frequencies. The mechanism of the average human ear, although extremely sensitive, does not normally respond to vibrations in excess of 10,000 cycles per second which has therefore been arbitrarily chosen as a convenient dividing line between inaudible or radio-frequencies and audible or audio-frequencies, the latter being frequencies of less than 10,000 cycles per second.

RECENT DEATHS

Donald Howe.
Friends of Mr. and Mrs. Hubert Howe, 222 Courtney Street, will be sorry to learn of the death of their infant son, Donald Allen, which occurred yesterday.

William Irving Young, C. E.
William Irving Young, a member of the engineering staff of the New Brunswick Electric Power Commission, died at the home of his parents at Brockway, York county, on February 12. He is survived by his wife, who was Miss Kilburn, of Kingsclear, and two children and by his parents and one sister. The funeral took place at Brockway.

William Pittgerald.
The death of William Pittgerald, Charles street, Fairville, occurred at East St. John County Hospital on Monday. He was in his fortieth year. He leaves a wife and one child, also a sister, Mrs. Joseph Mehan of West St. John, and two brothers, James Edward of Fairville and John of England.

TINY SANDWICHES KEEP GERMAN CAFES OPEN ALL NIGHT

Saloons in Frankfort quickly become "Restaurants" to Evade Closing Law.

Frankfort-on-Main, Feb. 14.—The municipal authorities of Frankfort, after considering the many inconveniences resulting from the two great numbers of cafes, bars and cabarets with which the city is provided, recently decided to close all such establishments at eleven o'clock. "And the restaurants?" asked one of the interested. "As usual, they were to be open much later. What did the dispensers of liquor do?" They called in painters to change their sign boards. There is no longer in this old German town a single establishment announcing merely "Wines and Liquors." They are all eating houses. In order to keep within the law, the proprietors provide a sandwich or a

DOGS LOSE BEQUEST, BUT WIN LIFE MEAL TICKET
Judge Bars Will Giving Pets \$16,000, But Orders Heirs to Care for Them.

Chicago, Feb. 14.—The Arkansas Children's House, at Little Rock, Ark., was assured \$80,000, while the four dogs of Mrs. Margaret Howard lost a \$16,000 bequest but won maintenance for life by an order of Probate Judge Henry Horner recently issued. The judge refused to admit to probate a purported copy of a stolen will, said to have been executed by Mrs. Howard. The case was a confusing one, and beside the purported missing will there were other instruments which attorneys sought to establish, one being unsigned and unsealed.

Under the purported dog will, Mrs. Tille Leighton, only heir at law, would have received only \$800, but under Judge Horner's order she will receive approximately half of the estate. Under the same purported will the Rev. Edward Lawson, of Alliance, Ohio, was left \$10,000.

The court's decision was regarded as a compromise. One of the four dogs disappeared the night of Mrs. Howard's death and never has been found, so that the beneficiaries under the decision will have only three dogs to care for.

HANGS FROM ROOF BY FEET TO SAVE WOMAN
New York, Feb. 14.—A fireman's daring aerial rescue of a woman from a fourth floor window thrilled spectators at a blaze in West Fifty-third street apartment house occupied by negroes in which eight persons were injured, two of them seriously by jumping from windows.

Fireman John Dornies, suspended by his feet from the roof by other firemen, grasped a frantic woman in his arms an dhoisted her to safety.

JAIL FOR FOUR
LA MONTAGNES
IN RUM CASE

Montague, Eldest Brother, Sentenced to Two Months, Rene, William and Morgan to 4, as Bootleggers—Clubmen Must Also Pay \$2,000 Fines.

(New York Tribune) Prison sentences and fines were imposed on Friday by Judges Winslow in the United States District Court on Montagu, Rene M., William A. and Morgan E. La Montagne, members of the Racquet and Tennis and other clubs, who were indicted as society

bootleggers and pleaded guilty yesterday to the indictments. The sentences were imposed after leaders of the bar had pleaded with the court for leniency on the ground that the four brothers, men of unquestioned honor and position in the community, had found their inherited business "made illegal overnight" and, in the disgrace of their present position, were suffering punishment far beyond the power of the law to impose.

Each of the defendants pleaded guilty to two indictments, one charging conspiracy to violate the Volstead act and the other conspiracy to defraud the government of taxes. Judge Winslow imposed sentences on the first indictment.

Montagu La Montagne, eldest of the brothers and head of the family enterprise, which include the Green River and Embrace distilleries in this country, was sentenced to two months in the Essex County Penitentiary in

Caldwell and to pay a fine of \$2,000. He was in France in the interests of the wine business of the family at the time the offenses mentioned in the indictments were committed, but admitted a general knowledge of them.

Three Get Four Months.

Rene M. La Montagne, a polo player who has represented this country in an international match, was sentenced to four months in the Essex County Penitentiary and to pay a fine of \$2,000. Similar sentences were imposed on William A. and Morgan E. La Montagne. They have five days to settle their business affairs and their bail of \$15,000 each was continued.

In pleading for clemency for the La Montagnes John G. Milburn, president of the Bar Association, intimated that the enactment of prohibition had affected the family fortunes to an extent which seemed to threaten comparative poverty.

It is expected that they will dispose of their liquor business in this country. In addition they will have to pay considerable sums in back taxes and penalties to clear their record of evaded tax payments.

Numerous friends of the four defendants were in court. The brothers sat with their attorney of record, Harford T. Marshall, in the otherwise vacant jury box and avoided the eyes of others in the room. For the most part they stared at their hats, which they held between their knees. They were moved almost to tears as

their attorneys described their plight to the court and Rene La Montagne wept unreservedly as he stood at the bar awaiting sentence, twisting his derby in his hands.

Quotes Dr. N. M. Butler.

Joseph Auerbach, the first attorney to seek clemency, based his plea upon the resentment caused by prohibition and reminded the court that Dr. Nicholas Murray Butler, president of Columbia University and a recent candidate for the Republican nomination for President of the country, had de-

clared that the law was not the public will and violation of it was no offense against society.

Wade Ellis, former Deputy Attorney General, spoke of the punishment which their present predicament was to the La Montagnes.

"They have already had their lesson," he said. "They can suffer no greater public disgrace than that to which they have submitted themselves by appearing here in an audience composed of their friends and associates and pleading guilty of a crime."

Head of Bar Pleads.

Then came the president of the Bar Association, whose son, John G. Milburn Jr., is one of the world's foremost polo players. He had known "these four boys for years and their fathers before them," he said.

"They are not aggressive business men, striving for the dollar," said Mr. Milburn. "They were interested in the generalities of things. This business had been in their family for years. They were interested in the pleasures of the mode of life in which they had been brought up.

"Overnight their legitimate business has been turned into a crime. Yesterday it was within the law for these men to conduct their business. Today the law makes them criminals. Men do not adapt themselves to these sudden changes in a day, a week, a month, or a year. Such changes must come."

us to practice law, directly or indirectly, how long would it be before we could adjust our habits so that we could conform faithfully to the statute?"

Mr. Hayward rose and asked briefly for jail sentences for the quartet. He had been informed early in the week, he said, that they intended to enter pleas of guilty. There was no bargaining about it, he said beyond the implied bargain in all such cases of giving the saving of the government's money and time.

Issue Clear, Says Hayward.

The case against the defendants was clear, he said, and was based on the testimony of their friends, many of them members of the Racquet and Tennis Club, the government having undertaken the prosecution on the theory that a gentleman might buy liquor, but he would not commit perjury.

He was not in court, he said, to debate prohibition or to discuss Dr. Nicholas Murray Butler, whom he characterized as "a justifier of crime"; he was there simply to urge the imposition of prison sentences in mitigation of a really grave peril which threatened the community.

"A prison sentence is necessary," said Mr. Hayward, "to avert the tendency toward alcoholic anarchy which is prevalent in New York."

Mr. Hayward said he intended to move the cases of the others indicted with the LaMontagnes immediately, with the exception of two who have not yet surrendered on the indictments. One of the two missing defendants is Samuel Story, manager of the La Montagne commission house, who is in Europe.

The La Montagnes were indicted December 29, with nine others, most of them employees, though one, Eddie Harlow, was in charge of the cigar stand at the Racquet and Tennis Club.

and international academies of science. He received the designation "excellency" and was raised to the nobility. He won the Nobel prize in 1900. It is said that in 1896 he was approached by one of Germany's largest electrical concerns to make his invention available for technical purposes and manufacture, but while approving of the idea, he rejected the suggestion of personal co-operation, saying, "what I have discovered belongs to the universe."

A most enjoyable entertainment was held last evening under the auspices of the Ladies' Auxiliary of the Clan Macdonald in their rooms in Germain street last evening. The Lady Chief, Mrs. W. A. Simonds, presided and a pleasing program was given. The programme included songs by Miss Phyllis MacGowan, Mrs. J. Simpson and Mrs. W. H. Roentgen Ennobled for Services to Science.

Munich, Feb. 14—The body of Prof. William Conrad Roentgen, discoverer of the X-ray, who died Sunday was cremated on Tuesday at Ostfriedhof cemetery here.

The immediate cause of death was a brief illness from an intestinal stricture. The fact that he was ill was not known outside the family circle.

Prof. Roentgen retired as ordinary professor and director of the physical institute of the University of Munich about three years ago on reaching his 75th birthday. He had been on active duty at the university previously for 20 years. Up to the past few weeks he had pursued his scientific investigations privately. His wife died three years ago, and the only surviving member of the immediate family is an adopted daughter.

Prof. Roentgen, because of his discovery of the X-ray, was elected to membership in practically all national

BIG AIRSHIP LINE PLANNED FOR U.S.

Dr. Johann Schuette, Noted German Authority, After Survey, Sees Great Future.

New York, Feb. 13.—Dr. Johann Schuette, head of the Schuette-Lans Airship Company, German airship authority, called on the steamship President Roosevelt, convinced that airships can be as scientifically built in this country as in Germany.

The first step was the incorporation of the General Air Service, which is still a skeleton organization, and which has obtained the manufacturers' rights and patents of the Schuette-Lans Company.

"In a country it is possible to build as fine airships as have been turned out in any other country in the world," he said. "I have gone into this thing thoroughly both from the scientific and economic point of view."

Favors Rigid Airships.

"In a country of the enormous size of the United States rigid airships will be of the utmost importance in supplementing present known methods of transportation. Airships, operating as trunk lines, can maintain routes east and west across the continent, connecting up widely scattered cities. Feeder lines can operate north and south in this service many airplanes can be employed. I am convinced by study of conditions that airships can be operated at a profit in any direction."

development of the rigid air craft in this country is capital—and I might add courage. With encouragement there is nothing to prevent the United States from leading the world in airship building and in the exploitation of the rigid craft for great profit and the development of many industries.

Sees No Competition. "The sphere of the airplane is for short distances and high speed and in this field the airship is not a competitor. The latter are essentially long distance craft and would not be economical on routes of less than 400 to 700 miles. In the airship, too, it is not the quick, daring flight that counts, but rather the sustained average speed. There is no competition between the airplane and the airship—one supplements the other."

According to the published plans of the General Air Service, an airship line first will be established between New York and Chicago. Two Schuette-Lans ships are planned. The buoyancy will be furnished by helium and oil will replace gasoline as engine fuel. The proposed location of the plant has not been announced. Tubing and some other material will be fabricated in Germany. Dr. Schuette will serve in an advisory and engineering capacity.

VALENTINE TRIA.

A very enjoyable and successful Valentine tea was held yesterday afternoon at the residence of Rev. and Mrs. W. H. Spencer, 19 Douglas Avenue, under the auspices of the Tuckabatchee Circle of St. Matthew's church. The

rooms were prettily decorated with flags and appropriate Valentine emblems and red candles in candlesticks ornamented the serving table. Mrs. Edward MacLean and Miss Jennie Keim presided over the tea table and Miss L. Priddy replenished. Those assisting with the serving were Mrs. Fanjoy, Mrs. Kelly and the Misses Irene Hunter, Amy Chesley, Mae Brooks, Winifred Morrison, Muriel Smith, Jessie MacCarthy and Irene Galbraith. The tea had a large patronage and a very satisfactory sum was realized for the church building fund.

Girl and Trolley Car Conductor Arrested at Atlantic City.

Atlantic City, Feb. 14.—Arthur L. Whitman, trolley car conductor, formerly of Shirley, Mass., and his stepdaughter, with whom he is alleged to have lived here since last June, are in jail for police investigation. The stepdaughter, Hazel Churchill, 17 years old black haired and pretty, admitted her love for Whitman today.

"Yes," she said, "he is my stepfather, but I love him and want to marry him. My mother knows all about the situation."

Mrs. Whitman came here today, but refused to prosecute. Detective Captain James M. Mascetti said that the pair would be brought into domestic relations court before County Judge William H. Smathers.

TWO CONTEST CLAIM OF YOUNGEST SNOWSHOER

The title of New England's youngest snowshoer rests uneasily on the head of 4-year-old John Morse of Bath, Me. Two New Hampshire tots, 5 years old each, have entered the snowshoer sweepstakes to contest his claim.

One of the new entries, Dorothy M. Watson of Washington, started her peregrinations last winter, at the age of two and a half, after first experimenting with a pair of her father's snowshoes on the kitchen floor. This winter, with a pair of her own, she spends little time with her other toys. She is the daughter of Mr. and Mrs. Myles Standish Watson.

The other entrant is William K. Saunders, who spends his winters with

his grandparents, Mr. and Mrs. William C. Kennet, in Conway, N. H., although his home is at 46 Brockton avenue, Haverhill. While this is his first winter on snowshoes, he often walks over the snow-covered hills for a mile or more without resting.

VICTORIA RINK MATTER DISCUSSED

Report of Independent Board Accepted—Mr. Williams' Bill Filed.

For the time being, the decision of the board in regard to the Victoria Rink dispute would be followed, Commissioner Thornton announced at the Council meeting yesterday afternoon.

The board reported that there was no immediate danger of a strike as the rink was examined every six months.

Markets generally somewhat more active; London and Montreal auction prices lower.

Apparel—Demand for women's spring garments somewhat improved; strikes curtail production and reduce number of styles brought forth.

Leather—Demand improved; shoe buying gains; hides less active.

Metal—Steel and iron strong, with prices unchanged; copper demand is strong; lead and zinc show additional improvement; platinum prices advanced; quicksilver less active.

COUNCIL DEFERS ACTION ON THE HYDRO TENDERS

Recommendations from the Civic Power Commission relating to tenders were not acted favorably upon by the Council yesterday afternoon.

The first was referred back to the Power Commission, asking that new bids be invited. Commissioner Thornton said that he was not prepared to vote in Council on the bid issue for the heating equipment tender.

W. H. Fairlie of the Monarch Electric Company filed a formal protest against the award by the Power Commission to the Canadian Westinghouse Co., Ltd., for switching equipment, amounting to \$15,507, he accepted; also that the tender from the Web Electric Company for heating and lighting for \$78,211 be accepted.

The recommendation regarding the tender for heating was adopted in committee unanimously.

MORNING NEWS OVER THE WIRES

Richard E. Weatherbe of Street's Ridge, near Amherst, N. S., has been arrested following an investigation into a fire on December 22 in which his store was burned. The charge against him is one of arson. C. R. Angelino, inspector by him, will be charged with theft.

Inspector H. V. Harris of the Moncton police force has been committed to stand trial on the charge of assault and threatening to shoot. The complainant is Joseph A. Mathers. It is said the trouble arose as the result of friction existing between the Milk Producers' Association and the veterinary surgeons who have been conducting a tuberculosis test in the vicinity of Moncton. Inspector Harris was placed on bonds of \$500.

A NEW MICROBE London, Feb. 14.—A new mystery microbe, called Bacillus Tularensis, got out of hand at the Lister Institute recently and infected two of the patients in the first known British cases.

At the Lister Institute is the National Collection of Type Cultures, as it is officially called. The work of the curator and his assistants is to receive disease cultures from all over the world, to maintain the strains and to exchange or supply cultures to hospitals and workers on bacteria.

Lately an attempt was made to get a culture of an organism that has been isolated in a disease called "tularemia." It is contracted by human beings from animals, as specifically known for its infection of man, and it had to be studied from an infected animal. In some way the microbe wandered, and the curator and his assistants were infected.

Now they have discovered that in America the organism is so infectious that laboratory workers there almost invariably catch it.

MOTHER! MOVE CHILD'S BOWELS

"California Fig Syrup" is Child's Best Laxative

Even a sick child loves the "fruity" taste of California Fig Syrup. If the little stomach is upset, tongue coated, or if your child is cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender little bowels and gives you a well, playful child again.

Millions of mothers keep California Fig Syrup handy. They knew a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine California Fig Syrup which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

For a Billious Headache Brew a cup of Celery King—natural herbs and roots—a gentle laxative and purifier. Tones up the liver and stimulates digestion. Makes you feel bright and vigorous. 30c and 60c, at druggists.

Take a Teaspoonful of Salts if Back Pains or Bladder is Irritated

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headaches, dizziness, your stomach sour, tongue is coated, and when the weather is bad you get rheumatic twinges. The urine gets cloudy, full of sediment, the chandies often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids; to help cleanse the kidneys and flush of the body's urinous waste, get four ounces of Jad Salts from any pharmacy here. Take tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then get into their normal state. The salts are made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot irritate and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.

TEMPERANCE REPRESENTATIVES TO MEET THE LEGISLATURE

Representatives of temperance organizations are to be given an opportunity to meet the members of the Legislature in Fredericton on March 21 was the announcement made last evening by Premier Peter J. Veniot.

He said that he was going to make an honest effort to enter the Prohibition Act and would give it a fair trial. Premier Veniot said that he expected the Legislature would assemble early in March and that the business would likely be transacted in five weeks. He will attend the skating meet this afternoon, and added his pleasure at a New Brunswicker winning the crown of Miss Canada at Montreal.

The staff of the Public Works Department at Fredericton presented Premier Veniot a case of pipes and an address yesterday, and assured the Premier of their loyalty and support. The presentation was made by Peter Hughes, secretary of the department, who also read the address.

NEW BILL AT OPERA HOUSE MUCH ENJOYED

The bill offered by the Cameo Revue for the opening of the second week of their limited engagement at the Opera House is decidedly the funniest conglomeration of boken situations seen here in a long time. A riot of color and a splendidly drilled chorus form the background, while Geo. Rubin and Tom Crowley furnish the comedy acts in their usual good manner.

A number of new artists have been added to the already capable entertainers including Miss Sunshine the new prima donna whose rendering of her numbers is one of the outstanding features of the new bill, while Tommy Anderson also is a new comer.

Low Caron and Miss Grace Howard in their several numbers showed to good advantage.

An announcement from the stage to the effect that the Carnival Committee had rented the Opera House for the evening for the purpose of staging a boxing exhibition between Johnny McInlayre and Paris, local boxer, for the wetterstick championship of the Maritime Provinces, and that there would be no show on Wednesday evening. However the Wednesday matinee would be given without interruption, a complete new show for Thursday with amateurs on Friday and surprises for the children on Saturday matinee.

STREET NAMED TO HONOR HEROIC MAYOR OF SENLEIS

Paris, Feb. 14.—Eugene Odent, the hero Mayor of Senleis, is being honored by having his name given to one of the principal streets of Chamam. Such a decision recently was voted by the Chamam municipal council and has been approved by the President of the Republic.

It will be remembered that Eugene Odent, in September, 1914, was in violation of the law of nations, arrested by the Germans in the City Hall of Senleis. Brought to Chamam, he was abused and beaten on the way. Eight hours after his arrest he was brought before three officers who, contrary to the truth, accused him of having fired on the German troops and told him that he was going to die.

Firm and dignified, Odent said farewell to his companions in captivity. A few steps away from them he fell, with two bullets in his heart.

73 MINISTERS A YEAR IS RECORD BY GERMANY Berlin, Feb. 14.—Germany seems to be surpassing France in at least one respect. Years ago with the frequent changes in French ministries, it was said to be hard to find a politician of any prominence who had not been a minister. But the German Reich is beating that record. In its four years of existence it has had 204 ministers, or seventy-three a year.

Among those who served were sixty-two trade-union secretaries, seventy-three editors and authors, thirty-two advocates and other jurists, twenty-one merchants, sixteen metal workers, thirteen agriculturists, eleven professors, six teachers, six workers in wood,

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Soothes Gassy Stomach and Aids Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried pepper, pancreatin, charcoal, drugs and various digestive aids. All these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic try a little Bismarck Magnesia. Magnesia—the ordinary commercial carbonate, citrate, or milk, but the Bismarck Magnesia which you can obtain from practically any druggist in either powdered or tablet form.

Put a little of the powder on two compressed tablets with a little water after your next meal, and see how it differs from the rest. It will instantly neutralize the dangerous, harmful acid in the stomach which new comers your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat.

You will find that provided you take a little Bismarck Magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the Bismarck Magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

SAVE time by saying Propyl-lac-tic when you buy a tooth brush. Just specify hard, soft, or medium, and you will get just the right brush.

It will be handed to you enclosed in a yellow box, where it has been protected from dust and people's thumbs.

SULPHUR CLEARS A PIMPLY SKIN

Apply Sulphur as Told When Your Skin Breaks Out

Any breaking out of the skin on face, neck, arms or body is overcome quickly by applying Mentho-Sulphur. The pimples seem to dry right up and go away. Mentho-Sulphur is a special preparation of Sulphur and Menthol. Nothing has ever been found to take the place of sulphur as a simple remedy. It is harmless and inexpensive. Just ask any druggist for a small jar of Rowles Mentho-Sulphur and use it like cold cream.

DOG FIGHTS PLACED UNDER STRICT BAN IN MEXICO CITY

Mexico City, Jan. 16.—(By Mail.) Dog fights have been prohibited in Mexico City. The decree, recently promulgated by Mayor Prieto Laurens as one of the first acts of his administration, refers to regulated fights and not the vicious street affairs between belligerent curs. Mayor Laurens says it is a disgrace for blooded animals to be matched in a death struggle, and there are strong intimations that a ban will be placed soon on cockfights, which vie with bullfights as the favorite Sunday diversion.

To many Mexicans, however, there is nothing brutal or inhuman in bullfights, dogfights or cockfights. In many quarters boxing is considered an unrefined sport, and the newspaper El Mundo recently conducted a vigorous campaign to prevent further bouts in the capital, asserting that it is most disgraceful for men to pummel each other until blood flows.

Predict Sugar Shortage in 1923

Commerce Dept. Places the Needs at 725,000 Tons Above Estimated Production.

Washington, Feb. 14.—A world sugar shortage this year is indicated in a report on world production and consumption conditions made public by the Commerce Department. Consumption needs this year, placed at about 850,000 tons higher than in 1922, estimates placed the output in America at 127,000 tons, 725,000 tons more of raw sugar than the estimated production.

The year starts, the report says, with a 4,000,000-ton Cuban crop in prospect, a big crop in Java, and greatly increased production in European countries, but decreases elsewhere, particularly in the United States, are expected to bring world production to a point only about 125,000 tons above that of last year.

Figures listed for 1921-22 revealed a raw sugar production in America of 8,018,000 tons; Asia, 6,248,000 tons; Australasia, 364,000; Africa, 518,000, and Europe, 4,027,000, while 1922-23 estimates placed the output in America at 7,417,000 tons; Asia, 6,386,000; Australasia, 382,000; Africa, 658,000, and Europe, 4,615,000.

As compared with the 1921-22 world production of 18,183,000 tons and that in 1922-23 of 18,018,000 tons, the report cites the pre-war average of world consumption amounting to 17,600,000 tons, the 1922 world consumption of 18,680,000 tons, and the 1923 estimated world consumption of 19,058,000 tons.

An outstanding feature of the present sugar situation, the report adds, is the small carry-over in Cuba this year as indicated by the total old crop sugar on hand Dec. 31 of only 8,600 tons in contrast with the 1,200,000-ton carry-over from the preceding year.

This means, according to the analysis, that Cuba in 1922 disposed of its entire record crop of 4,000,000 tons and practically all of the 1,200,000-ton carry-over. Of this total, more than 4,000,000 tons were exported to the United States, which re-exported about 1,700,000 tons to Europe, 850,000 tons being retained before re-export. Most of the remainder of the European deficit of 2,300,000 tons was obtained from Java.

The 3,000,000 tons of Cuban raw sugar that remained in the United States, with domestic production of 192,000 tons, was not enough to supply the unprecedented American consumption of 5,600,000 tons.

Data now available, the report says, indicates a decrease in Europe's 1923 import needs amounting to 850,000 tons. The United States will have to be supplemented by about the same amount of sugar or by the decrease in the domestic beet and cane crop.

TO ABOLISH PROPERTY QUALIFICATION TO VOTE

Rhode Island Resolution Passes House By 30 to 15.

Providence, Feb. 16.—The first step toward the abolition of the property qualification in Rhode Island, which excluded electors from voting for members of the various town and city councils unless they own real estate valued at a minimum of \$134, was taken today in the House of the State Legislature.

A resolution, calling for an amendment to the constitution to do away with the property qualification, was passed by the state representatives on a eighty to sixteen vote.

Incorporated in the same resolution was the proposal to provide biennial registration of the electors instead of the present system of annual registration.

At a meeting of the W. C. T. U. yesterday there was some discussion of the statement of Premier Veniot with reference to giving the prohibition enforcement a fair trial. Mrs. Mary Seymour read a clipping regarding capital punishment. The devotional exercises were led by Mrs. Hope Thomson.

THE FAILURE AT LAUSANNE

(Boston Herald)

Though the allies led the Turk to Lausanne, they have not persuaded him to take the medicine they prescribed. Yet it was a mild dose and a comparatively sweet one, not at all the drastic remedy required to purge the Ottoman system of evil elements. There was nothing punitive in it, no

reaction of eye for eye or tooth for tooth, and not so much as just reparation for years of tyranny, persecution, torture and massacre. All was done in the policy of letting Turkey be made easy for the Turk to get on his feet again, and to push one of his feet well into Europe. The moment the British Government abandoned the policy of letting Turkey be made easy for the Turk to get

Asiatic dominion, except Constantinople, European diplomacy was bound to slip down the inclined plane, yielding more and more to Turkish demands.

The cession of eastern Thrace as the price of peace was a humiliating performance, and utterly unavailing. Having received much, Turkey called for more. The Ankara Government set its face against civilization, and demanded untrammelled power of government to an extent that no Constantinople government ever possessed. Is the judiciary of Turkey to have citizens of other countries at its mercy? No country will answer in the affirmative. The courts of other Asiatic nations, the courts of Japan and China, may be trusted to give intelligent and fair decisions, but not the Turkish courts with their Moslem laws affecting "infidels." Yet Ankara has not only declared against the former consular courts, but has refused to admit foreign legal advisers to the Turkish courts when the cases of foreigners are on trial.

This irreconcilable attitude on almost every question has wrecked the conference. We are rather glad that "oil" was not the cause, Britain and Turkey having agreed to attempt a settlement of the Mosul question themselves within a year, and hand it over to the League of Nations if they fail. But that is a small thing compared with the treaty of peace that has been lost in the making. A world very weary of war cannot but deeply regret the termination of the armistice of Mudania. Its period has automatically expired with the conference, leaving a state of war between Turkey and Greece, and also between Turkey and the allies.

Will there be actual war? Keep an eye on Moscow and the Caucasus,

SERGEY P. SEMENOV SLAIN BY NEIGHBORS AS 'BLACK MAGICIAN'

Russian Who Was Friend of Tolstoy, Blamed for Every Mishap in Village, Shot Down on Country Road. Sergey P. Semenov, Russian national writer and close friend of the late Count Leo Tolstoy, has been murdered by fellow villagers who believed him responsible for their misfortunes, according to a letter received here yesterday by Herman Bernstein, author and journalist. Semenov's neighbors were suspicious of him for some time, the letter said. They would say: "He is forever writing. But what is the use of his writings? If he is an educated man let him go to the city. He may bring misfortune upon us."

NEW HOTEL CODE SOUNDS DOOM OF SKIMPY SHEET

Des Moines, Iowa, Feb. 14.—A whole code of new sanitary regulations for Iowa hotels and restaurants is proposed in bills introduced in the lower house of the Iowa Legislature by Representative Yester. Under these measures hotels would be required to provide 96-inch sheets, could not force patrons to sleep on straw mattresses, couldn't have quilts on the beds, couldn't use cracked dishes in the dining rooms and would be forced to provide at least 400 cubic feet of air space for each person sleeping in his bedrooms. Cooks would be prohibited from smoking in restaurant kitchens, and cats could not be allowed inside.

YOUR CITY; YOUR RESPONSIBILITY

(Saskatoon Star) What is the most vital force in a community? Answers will vary. Some persons will say that the City Council is important. The Chamber of Commerce or Board of Trade will be the thought of another group. Still others will name public-spirited luncheon clubs such as Rotary, Kiwanis or the Ecclesia. Each answer may be correct from the standpoint of its spokesman. But the answers do not go far enough.

The most vital force in any community is the desire to serve. It is a combination of the enthusiasms, the energy, the public-spiritedness and the foresight of the people who comprise the community! The responsibility of citizenship, thoughtfully considered, is serious. After all, every city, every community, is just what the people of the community make it. If we had had government, we, the people, would be responsible. But the responsibility of citizenship does not end with the election of capable administrators. Good citizenship is an every-day business. The man who is wide awake, keen, active, ambitious, progressive, in the conduct of his own business, takes the same kind of interest in the affairs of his community. Exceptions to this rule are rare. This is true because the really wise man knows that true

SECRET OF HIS SUCCESS

One of the most noted, successful and richest men of this country in a recent article said, "Whatever I am and whatever success I have attained in this world I owe it all to my wife. From the day I first knew her she has been an inspiration and the greatest helpmate of my life." Health is the first essential of every woman who wants to be a successful wife and to hold the love and admiration of her husband. If a woman finds her energies flagging and dark circles appearing under her eyes, she has backache, headache, nervousness and "the blues," she should take Lydia E. Pinkham's Vegetable Compound, the medicine which holds the record of helping 98 out of every 100 women who try it. There is nothing better.

SUBSTITUTES BUDGET FOR PAIRS AND BAZAARS TO SUPPORT CHURCH

Augusta, Me., Feb. 14.—Abandonment of all fairs, bazaars, concerts, suppers and similar ways of raising money for St. Mary's Catholic Church of this city, and in their place a carefully worked out budget which will equitably distribute the church's support upon the parishioners, was announced last Sunday at all masses by the Rev. Father Joseph E. McGowan. The budget in brief calls for one hour's pay of the week's salary or income of every adult member of the parish. A case of fifty-two envelopes will be sent to each parishioner, one for each week in the year, with the request that returns be made every week. The plan will be inaugurated Sunday, Feb. 18. It has been estimated that a yearly fund of between \$15,000 and \$20,000 will be realized. Growing dissatisfaction of the members of the parish regarding the various entertainments, particularly the annual bazaar, led the pastor, the Rev. Father Thomas J. McLaughlin, and the curate, Father McGowan, to evolve the budget plan in which they had the advice and assistance of a skilled accountant.

A SCIENCE OF GIVING? (Boston Herald)

No less an institution than the Carnegie Corporation raises the question, "Is there a science or an art of giving?"

Having given away \$88,000,000 in eleven years this great foundation might be assumed to speak with some degree of authority on the subject.

The present report devotes ten pages to a discussion of the question, "Is there a science or an art of giving?"

The trustees of the Carnegie Corporation are more liberal in their opinions, yet there are students of society today who hold that "the man who has amassed great wealth does better to use that wealth in the ordinary developments of trade and commerce than in attempting to perpetuate his own conceptions and desires for human betterment by the formation of a permanent trust."

A SCIENCE OF GIVING? (Boston Herald)

No less an institution than the Carnegie Corporation raises the question, "Is there a science or an art of giving?"

Having given away \$88,000,000 in eleven years this great foundation might be assumed to speak with some degree of authority on the subject.

The present report devotes ten pages to a discussion of the question, "Is there a science or an art of giving?"

GOOD SCORES IN SPITE OF STORM. Trap-shooting Meet Draws a Good Attendance—The Winners.

The trapshooting meet planned for yesterday afternoon was held in spite of the storm, and the contestants showed their sportsmanship by turning out in good numbers.

The most attracted a number of the members of the Dartmouth hockey team, including E. G. White, of the Dupont Powder Company, Jack Leonard, of the Dominion Cartridge Company, J. W. Niles, of Andover, Claude Knapp, of Perth, Walter Bishop, of York, and several of the members of the Dartmouth hockey team.

WARE OF PICKPOCKETS. Commissioner Thornton last night issued a warning to the people attending the races and the other events during the Carnival Week to beware of pickpockets in the crowds.

THANKS AND A CHECK. Fire Chief George Blake this morning received from Waterbury and Rains, Ltd., a check for \$25 for the Firemen's Relief Fund accompanied by a letter thanking the firemen for their strenuous efforts on the occasion of the recent fire in their Main street store.

POLICE COURT. Two men for drunkenness appeared before Magistrate Ritchie this morning. They were remanded to jail. The case against Charles Howard suspected of being a pickpocket was resumed at 11 o'clock. John A. Barry is representing the prisoner.

LAST CAR CLUB. In spite of the stormy evening sixteen members met at the home of Mr. and Mrs. C. L. McLeod, St. David street last night for a social evening. Mrs. Mofford and T. C. Nickson. Conspicuous were awarded to T. Olson and Mr. Angel. The hostess served refreshments during the interval.

THE TAGS, THE GRAND STAND AND PROGRAMMES

Ladies of the city are out in force today selling tags for the races which begin at two o'clock. The highways and by-ways of the city are well covered and the ladies reported that they were meeting with a good reception. While the people who purchase seats and reserved seats are not required to purchase a tag in addition, the entrance fee to the grand stand seats does not include the cost of the tag. Another thing to be borne in mind is the necessity for everyone to have a programme in order intelligently to follow the races. Announcement will be by number and the numbers announced will correspond with those on the programme. There will be a movable announcement board which will be shown so that all may see. The programmes will be sold for a small sum.

PUT TO DEATH IN ELECTRIC CHAIR

Eighteen-year-old Negro Electrocutated for the Slaying of Woman.

Trenton, N. J., Feb. 14.—William E. Battle, 18 years of age, a negro, of Orange, convicted of the slaying of Mrs. Eleanor L. Brigham, at East Orange, Dec. 27 last, was put to death in the electric chair at the state prison here last night. The crime for which Battle paid the death penalty was one of the most brutal in recent years. The youth, who was caring for the furnace at the Brigham home, fell down stairs on the afternoon of Dec. 27. Mrs. Brigham, believing the boy injured, rushed to his assistance in the cellar. Battle, it is alleged, struck her a heavy blow and then choked her. He is then alleged to have assaulted her, and after stealing a small amount of money, fled from the house. Captured later, he was said to have confessed to the killing. His conviction followed quickly.

APPROVE DESIGN MEMORIAL OVER POP ANSON'S GRAVE

New York, Feb. 14.—The National Baseball League, at its spring meeting yesterday, formally adopted its 1923 schedule of 154 games, opening on April 17, voted to increase the league waiver price from \$2,000 to \$4,000, and approved the design for a memorial to be erected in Chicago over the grave of Adrian C. (Pop) Anso, one of the most famous baseball stars of all time.

IS ACQUITTED

Rochester, N. Y., Feb. 14.—Owen Deforet Dewitt, wealthy real estate operator, and prominent club man, was acquitted by a county court jury late yesterday on a charge of murder, second degree, in connection with the slaying of his friend, J. Frank (Scrappy) O'Connor, in a drunken brawl in the latter's tailor shop in the Sibley block downtown on August 20, last.

YARMOUTH FIRE DAMAGE NOT GREAT

Yarmouth, N. S., Feb. 14.—Fire which broke out yesterday afternoon in the basement of the Yarmouth post office, was confined to that portion of the building by the local firemen and little actual damage resulted. Clouds pouring from the basement threatened serious conflagration but it was successfully fought through windows and a hole in the floor. The origin of the fire is a mystery. Incendiarism is suspected.

ANNIVERSARY MASS FOR SIR WILFRID LAURIER

Quebec, Feb. 14.—(Canadian Press)—At the request of a number of Quebec friends an anniversary service for the repose of the soul of Sir Wilfrid Laurier will be solemnized in the Seminary chapel here on Friday morning at 9 a.m.

FUNERALS TODAY

The funeral of William Fitzgerald will be held this afternoon at 2:30 o'clock from his late residence, 51 Charlotte street, Fairville, to the Church of the Good Shepherd for service by Rev. W. P. Dunham. Interment will be in the Church of the Good Shepherd burying ground.

The funeral of James T. Pickle will be held this afternoon from his late residence, 17 St. Paul street, to Fernhill. Service will be conducted by Rev. A. L. Tedford.

What Will St. John Do For Miss Canada?

She Is to Be Queen for a Year—Will the City Appreciate the Honor?

Since Miss Canada's arrival home and the significance of her national position and its bright reflection upon this far eastern city has come to be appreciated by thoughtful citizens, the question arises: How will St. John make it possible for Miss Blair to reign as Canada's queen during the next year so that the honor conferred upon her will lack none of its lustre but become a worthwhile tribute to the community. At the grand military ball last night public St. John met its attractive brunette and every body seemed charmed with her intelligent demeanor, bright conversational ability and sweet conclusion. She was at once taken to the heart of her people and prominent citizens discussed with one another ways and means by which Miss Canada could be officially recognized and financially sustained, so that the city might be able to give her the honor she has brought back home from Montreal as well as enjoyed here.

Winnipeg, in addition to its great paper, The Free Press, officially recognized and supported its worthy candidate. So did Regina, Halifax and other wide awake cities. It was a bit unfortunate that St. John failed to give Miss Blair any official recognition upon leaving for the all-Canada contest and the expense of her successful journey was borne by these interested parties in the local queen contest, even to the point of transportation. The Mount Royal Hotel, in Montreal, extended its hospitality to the queen and her chaperon, but there were hundreds of dollars of expense borne by private parties and business concerns in the purest sense of good citizenship, and without any thought of return advantage. We now possess Miss Canada, the centre of all Canadian eyes and pic-

To Initiate Miss Canada in Golf Mysteries

And then she took up golf! Although the ten entrants in the Miss Canada contest in Montreal represented as many different lines of sport as one could find amongst an average group of the same number of ladies, golf enthusiasts learned with some disappointment that not one of them claimed golf as one of her attainments.

When this information reached the city, the enthusiasts of the ancient game were much perturbed and some were heard to remark, "What! Miss Canada and she doesn't golf. We'll have to see about that!" Immediately the undercurrent started and at the military ball last evening Miss Blair was informed that she had been elected an honorary life member of the Westfield Golf Club.

Life in the great outdoors. And Miss Canada will not have to wait until next summer to get to the golf course. W. L. Linsgard, pro of the Riverside Club, has generously offered to teach "Miss Canada" immediately. The undercurrent started and at the military ball last evening Miss Blair was informed that she had been elected an honorary life member of the Westfield Golf Club.

SEE CANADA BEFORE YOU GET MARRIED

An Incident of Travel Life in the Windsor Station, Montreal.

(Special to The Times)—Montreal, Que., Feb. 14.—"See Canada before you get married; if you don't you will likely be forever robbed of that joy." Such is the sentiment of an attractive young girl who stepped off the temporary Limited at the Windsor Station and made her way across to the glass-enclosed box wherein sits the travel agent officer. "Will you direct me to a first-class hotel, please," she said.

BEING TOWED BACK TO QUEENSTOWN

Boston, Feb. 14.—The British steamer Hamilton Range, crippled with a broken rudder coupling, is being towed back to Queenstown by the Galtymore, another unit of the Furness fleet, it was learned here yesterday. The Hamilton Range sailed from Grangemouth, Scotland, on January 27, for this port with 6,000 tons of coal. The Galtymore sailed from Glasgow for Boston on January 30. The disabled steamer is believed to have encountered furious storms as when she first reported that she was in need of assistance, nearly a week ago, she was but 800 miles off the Irish coast when under ordinary circumstances she would have been two thirds across.

WANDERERS VS. ST. JOHN

The Halifax Wanderers and the St. John team will stage a battle royal in the Arena on Friday night. The Wanderers last evening defeated Dalhousie in what one sport writer described as "the fastest, hardest and most bitterly contested game of the season." By this win the Wanderers have secured first place in the Halifax City League, which makes their appearance here this week all the more interesting.
