## REPORT.

The committee of the Nova Scotia Auxiliary Bible beiety, beg leave to appear before their friends and utrons with their usual Annual Report. The first paragraph of last Report expressed gratiode to the Giver of every good and perfect gift for His reserving care during the past year, "in that they we permitted to appear before you with unbroken. uks, no deaths had occured among the members of mittee," This year we in humble submission to the will of our Heavenly, Father in the differcircumstances in which we are placed. The Prelent, Rev, Robirkt Uniacke, A. M., the Senior Viç sident, J.W. Nurtive, Esq;, and A. K. Doutha Ese... of the members of Committee, have all entered tirest.

Regarding these lamented deaths there is a minute Committee which will be published with this Re; (see App.) but in paseligg we notice that there not now one member of the original subscribers to Society alive ; that there are only one or two of se who joined in 1820, when Mr. Nutting first asfited himself with the institution, of whom the - Judge Marshall is one. "Man goeth to his ghome, and the mourners, go about the streets." he grass withereth, the flower thereof fadeth, but Word of the Lord endureth forever."
t. Nutting's connection with the Society has been
uninterrupted ; of the others, though they have beenf ever friendly, yet they have been removed from the city and province and hdve been unable at all times to take an active interest in the movements of the institution. In the demise of Mr Nutting we have sustained the loss of a constant and active friend and a member of committee for a half century. Those afflictive dispensations read their own lessons and say to every one of us "work while it is day, the night cometh when no man can work.."
With thankfultress to our Heavenly Father the Committee desire to bring before you some details of their work duting the past year. Keeping steadily in view the objects of their Auxiliary, namely, the circulating of the Word of God among our own people, and at the same time the gathering of contributions towards the great work of the Parent Society whose efforts in circulating the Scriptures have been attend ed with the usual success, they do not expect those striking incidents which so often mark the career 0 the colporteur as he cothes in contact with supersth tion and prejudice in forefgn lands. Our peoplo a a whole, with some few class exceptions, are gener ally acquainted with the Blble, and our Agent have in most instances to contend lees against igno rance and superstition than the indifference of th careless and unrenewed heart, The reports of $\mathbb{I}$ Russell and the extracts from the returns of the of porteqrs will show what success has attended thi part of the Society operations: Their efforts in b half of the Parent Society's funds have been well tof tained, particularly by the Branch Socleties throug
ey have beep oved from the le at all times oovements of - Nutting we nt and active half century. heir own lesork while it is an work.." nly Father the u some details eeping steadily amely, the cirur own people, of contributions Society whose ve been attend. ot expect those rk the career 0 ct with supersth. Our people as tions, are gener nd our Agent ess against igno difference of th e reports of M eturus of the co has attended the their efforts in b ve been well socleties throug

## 11

out the province. The committee would point especially to the zeal of their friends in the country in order to stimulate their patrons in the city; and they deem it but right to say that the contributions which from time to time they are enabled to forward to the Home Committee, are derived in a larger proportion from the Branch Societies than from our subscribers in the city.
With these preliminary remarks your committee rill now turn briefly to the operations of the Parent Society during the past year. As usual they commence with

France.-At the time the Parent Society's Report was published, there was a peculiar interest attached to France on account of the then allbsorbing topic of the Infallibility of the Pope. That has passed away, and now we have the sape wantry involved in a desolating war, It is from The first named standpoint that the Society's operalions are to be siewed. The changes of the past (67 years have given opportunities fer inereased irculation of the word of God, for which the Pristian Charch in all lands hare been giving hanks to God:
In the midst of the great controwersy on the Pope's infallibility, the Bible could not be ignored. those who once rejected the Bible were welcoming he Colporteurs to their houses, and entering into pnversation with them with marked interest. ntagonism to Rome has received an impulse from poman Catholics which in France has bever been
manifested to a similar extent, and it does not seem improbable that the force through which the once gigantic edifice of Papal supremacy will be over. thrown, will be the internal force of its own exalted pretensions. And it is pleasing to know that one who is both King and Priest shall wield the sceptre of a righteous government, and, like the great millstone which the angel took and cast into the sea, with violence shall that great city Babylon be thrown down and shall be found no more at all." During the past year the issues of the agent, $M$. D. Pressense, have amounted to 91,212 volumes. The result of all sales, apart from all grants to religlous societies and gratis distributions, is 80,309 volumes.

## The Report thus speaks :-

"The issues during the thirty-seven years that M. de Pressense has had charge of the work in France have amounted to 4,026,094, and if to there are added such Scriptures as are known to have been distributed through other religious and Christian freinds; a grand total is reached of $5,736,744$ copies. How gratifying a prospect does this one fact afford to the Christian mind, when contemplating the probable resulte of such an extended circulation of the Word of God! Who can tell the inflaence which it has had upon the nation, in the development of the blessings of peace and constitutional government, of in the restraint of what God calls 'the madness of the people,' and the inculcation of temperance to the use of newly-acquired liberty? And when from the es pansive prospect of a whole nation, the mind's efa endeavours to individualize its component parts, hom impossible it is to form any adequate conceptiono the good effected-the ignorant that have been in
structed a solation, stooped to have been inheritance in the mea God, and is able to we ank or The Pand DClichy, h number of which it affic and the la languages in listen with of the Socie of workme mindow, rea exhibited, which more Oolporteurs during the w tion of it.
The sales depositories topies, being year ; this is increased pu tensive circt printed by t otherwise if ground of lif
es not seem h the once ill be overwn exalted w that one the sceptre great millnto the sea, Babylon be at all." e agent, M. 12 volumes. rants to relis, is 80,309
years that the work in ad if to thefe to have been nd Christian 36,744 copies ne fact afford ting the proulation of the ence which it opment of the vernment, of cadness of the ace to the use n from the ex he mind's eya ont parts, hom conception have been in
structed and the mourners that have received consolation, the wayward and rebellious that have stooped to wear the yoke of Christ, and the souls that have been sanctified and made meet for a heavenly inheritance. The final day alone will declare it, but in the meantime faith loves to magnify the grace of God, and works on under that convietion that 'He is able to do exceeding abundantly above all that we ask or think.'"

The Parrs depot, whicn is now situate in the Rue DClichy, has proved very attractive to a large number of people, both on accpunt of the facility which it affords for the purchase of the Scriptares, and the large variety of the editions in different languages which are there offered for sale. Visitors listen with astonishment when told of the vastness of the Society's operations in every land, and groups of workmen are not unfrequently seen at the mindow, reading the open copies: which are there exhibited, and noting some passages of Scripture which more especially arrest the /attention. Six Colporteurs have been employed in the capital during the whole year, and five more during a portion of it.

The sales from the Marseiles depot and other depositories in the country have amounted to 18,927 topies, being an excess of 3,908 over the preceding year; this is attributed in a great measure to the increased publicity of the depots by means of the extensive circulation of the specimens of languages printed by the Society. This could scarcely be otherwise if they were viewed only from the low ground of literary research.

Colporteurs have been employed outside the capital. Two sisited the Miiitary camps, one has occupied himself with the requirements of the sailors, and 49 (of whom 39 have been employed during the whole year) have been travelling through the various departments, and have succeeded in selling from house to house, 42,613 volumes.

No difficulty existed in the way of eolporteurs; as soon as it was ascertained that the men confined their sales to the Scriptures, they at once grant the anthority required.

In the army the officers, for the most part, manifested a friendly disposition, and this induced the men to take more interest in the Book offered to them than they otherwise would. The fact that duving the past year 4,000 soldiers have been willing to set aside a portion of their pay for the purpose of purchasing the sacred volume, is a cheering evidence of the respect they entertainfor it.
The Rev. A. Fisch, a French pastor, highly recommended for his Christian character, has been engaged to assist the Agent. He has visited very many places in the North and East, and North West of France. He has held public meetings for the purpose of giving information respecting the general work of the Society. In the various towns he passed through he called upon the various booksellers, and, though Roman Catholics, they were willing to undertake the sale of the Scriptures.

Belaium.-In Belgium the total issues have amounted to 13,671 copies, showing an increase of
more than The camp is trodaction of peace. But sons of patie ing been sp that in the $m$ w purchase to get one a The great ciety's Repor of the DeSa lowing sente versy so far a to the men the work of E ought to be men in Belgi pedient to dis version ; an of their own P. ## 15

more than 800 over those of the preceding year. The camp is never a favourable locality for the introdaction of the Gospel,- -at least not in seasons of pace. But there the Colportears have Iearned lesons of patience and hope for the future. One, having been specially appointed for that work, found that in the midst of poverty some berrowed money w purchase the New Testament, or clubbed together to get one among them.
The great question agitated in the Parent Society's Report respeeting Belgium is the circulation of the DeSacy's version of the Bible, and the following sentence would seem to close the controrersy so far as Belgium is concerned. After referring to the men who, in Belgium, had been engaged in the work of Bible circulation and seem its froits, and ought to be able to judge. -"The opinion of such men in Belgium is that for the present it is not expedient to discontinue the circulation of the vulgate ression ; an opinion formed by facts, by the fruits of their own labors combined with those of the B. \& P. Bible Society, and the formation of more than twenty Protestant Churches in Belgium, almost exdasively composed of converts from Romanism."

Holland.-The work of the Society in Holland partakes of but little variation. Its chief charac. teristic is the steady perseverance with which the Colporteurs pursue their labours, and the even level as regards numbers at which the circulation has remained from year to year. The International Exhibition held at Amsterdam had a beneficial effect in
raising the circulation this year from 24,741 to 32 ,283 copies, showing an increase of 7,542 , volumes on the issues of the preceding years. Interesting incidents are given in detail, and a good deal of opposition is manifested in some districts of the country, which seems to retard the work :
"The enmity shown against the Bible (especially in this province) is incredible. In some places the priests opposed the Colporteur. They forbade him to sell his books, saying they were not genaine.He showed them the approbation of the bishop, and as they could not say anything against that, the priests followed the Colporteur from house to house warning the people against buying the books.
"In another place it was the mayor who by command of the priest endeavoured to prevent the sale of his books. The Colporteur declared he would lodge a complaint against a mayor, who instead of protecting him, as the law commands, tried to hinder him. Thereon the mayor became afraid. He however contrived to get the master of a large village school to send the boys out through the village warning the people against the man-with the bad books. This is indeed a very sad case, more so as there are persons who would buy, but are now afraid to do so. At another time he met a family that showed much interest in the Bible. They invited him to enter, for fear the priest might see them, but just as they were on the point of purchasing a copy, the priest came in and prevented them from doing so. Many persons assured our Colporteur that they most willingly would have bought a Testament but their priest had forbidden it and threatened not to absolve them when they came to confess."

Grrmany.-In a country such as Germany, in which the work of the Bible Society has been for
many year telligence, the record teaches th claim som former year land, and. those whos and imparte such, we do very hour. race who h contest sho tude and 1 have been giving them the wat co souls. It in Parent Socie which its fi tween thirty share for it distribution printed and in that coun bave been in fort-which Confederation ill over the co tears, whose descended int are. ermany, in as been for
many years carried on with equal activity and in. telligence, there must be some degree of sameness in the record of its operations, and yet experience teaches that seldom a year passes which does not claim some characteristic peculiar to itself. On former years war spread its desolations through the land, and, God's word found an entrance among those whose lives were trembling in the balance, and imparted special consolations to the dying, and such, we doubt not, will be the state of things at this very hour. The reflection that vast numbers of our race who have fallen during the present continental contest should make us lift up our hearts in grati. tude and praise to our Heavenly Father that we have been enabled in any slight degree to aid in giving them the Word of Life. There was, before the war commenced, a population of $42,500,000$ souls. It must not, however, be supposed that the Parent Society bears the whole burden of the work which its figures represent. There are there between thirty and forty native Bible Societies which share for it the honour of working for God in the distribution of His Word. The Bible has been printed and circulated in sixteen different languages in that country alone, and printing establishments have been in active operation in Cologne and Frank-fort-which supply those distriets in the German Confederation generally. They have their depots ill over the country, and active Agents and CoIporteurs, whose energy, as of old, scaled the Alps and descended into the valleys with the precious treasure. The emigrants on their way to the American
continent are visited, and the Word of Life sold to them, that every man in his own tongue can read the wonderful words of God. Interesting incidents. to this effect from the Colporteurs reports :
"The seed of the Divine W ord has this month found its way into the hands and hearts of the people of many lands; for all the northern countries of Europe contribute their contingent to the emigrants who leave our port, sometimes sending the good, oftener the bad. It might be a comfort to think that Europe is weeded of so great a mass of corruption, if it were not to be feared that the evil seed springs up with ranker luxuriance on American soil. In almost every emigrant ship there are children of light, if one were only successful in finding them out. Their joy compensates for the insults and reproaches of the rest. One day I met a man whose language $I$ could not comprebiend, but when I made him understand the words 'Bible' and 'Jesus,' his whole countenauce brightened up. He began to speak rapidly-I could not understand him, but he took off his hat reverentially, and then, pointing heavenwards, kept repeating, 'God, God.' The languages we speak on earth we could not understand, but our souls anderstood enough to know that we worshipped one God and trusted in one and the pame Jesus. Another, a Bohemian, said to me, 'I haye a Bible more than 250 years old, which my forefathers had to hide in the deptis of the rocks. To another Bohemian I sold a Bible, and made him read the words, - Father, I will that they also whom thou hast given me be with me where I am.' Immediately he begau to tell his countrymen, who gathered around himand listened with the greatest interest, how believers in Jesus áre fellow-heirs with Jesus, destined to bellite Him, and to reign with Him. His words produced a deep impression, and many Bibles were bought."

Who can compute the value of such services rendered to the cause of truth? The giving of one of the Bible Society's Bibles to a young Irish laborer on his way to America, resulted, under God, in the conversion of him, who afterwards gave to the world add to literature the celebrated letters of Kirwan, and to the Church the illustrious name of the late Dr. Marray, of Princetown, whose memory we would not willingly let die.

In Switzarland no new features of the work preent themselves, except a controversy raging with reat virulence in Geneva, on the morality of the Foly Scriptares. M. Brussons, a young Professor the Academ y of Neufchatel, published a thesis, in hich it was argued "that indiscriminate reading of Holy Seriptures by the young is at the same me a wrong against the conscience and the intelct." His words seem to have fallen upon a fruit1 soil, and the result was an agitation which exnded all over the Cantons of French Switzerland. her Professors took up the defence, and; from ing an attack on the authority of the Bible, the efict assumed the character of a struggle between histianity as taught in the Scriptores and a certain whristianity to be organized into a Church called Liberal Christianity. Prom this the friends of the Bible have only to ethe tendencies of the age in countries which re been subject to so much of the, Papal rule. If $y$ cannot oppose the Word from its circulation the Church point of view, they must bring it
under the influence of a so-called enlightened intel lect, which denies its authority and attempts to tal nish its morality.

The total circulation effected in Switzerland during the past year amounted to 13,934 Bibles 23,082 Testaments, and 9,409 portions, making total of 46,425 copies on the whole, an increase 3,952 . The following sentence concludes the Loca Agent's Report: "I see no signs of our wor being injured by the attacks of Infidelity on the Holy Scriptures. God reigns, and His word abide torever.'

Austria.-The Report says: A review of th Society's operations throughout the Austrian do main, during the past year, is calculated to excif feelings of a varied description. The politica social, and religious condition, must necessari) produce a considerable influence on such a work that in which we are engaged. There is cause 1 great thankfulness that the yoke of Papal supers tion has been broken from the necks of the peopl and that some measare of religious liberty has ber conceded to them. But liberty unhallowed by $t$ Word of God leads only to licentiousness, and tit slaves of spiritual despotism when once set fry are very apt to exchange the profession of a fill religion to which they blindly conformed for the t jection of all belief in the testimony of God concer ing the Work of Redemption or the need of holinet And that such has been the case in Austria we mo not wender, and we have no desire to condemn.

To give anything like an accurate synopsis of the Report which occupied 25 pages of the Parent $\mathrm{So}_{\text {: }}$ ciety's Report is utterly impossible in the limits at our disposal. We will here transcribe two extracts.
"Their houses were distinguished from afar by their cleanly appearance, and by the Bible texts with which they are externally adorned. I found one individual, the only one i could discover, that had mown Boos. She was an old woman that, had been converted by him. I found her confined to her bed, but she was reading her Bible. She was a dear rarm-hearted soul, full of Gospel knowledge. I had long conversation with her concerning the things hat the Lord had done for us ; and she was so highly leased with my visit that she continually said, in a ow voice, ' Oh, hawy I wish my husband was yet live to see you.' He had, I understood, been exemely zealous in the capse of the Gôspel, and had ffered much on account of his profession "One man who died three years ago, at the age of 0, was particularly mentioned as having been a lining light. Sick andcdying persons, many miles pond, used to send for him, There are now about dozen individuals left, truly devoted to the Lord, ough, perhaps as may easily be explained, somebat peculiar in some particulars; and at a small stance there are some more, shiefly women, concted with them, and striving to rear up their famisin the fear and nurture of the Lord. In another we Rauch found a family, consisting of three bro-, ers and one sister, whose houso he describes as a a Bethany,' ' ' I. was weleomed with opjen arms,' says, ' and soon I found myself listening to the ost interesting and encouraging statements of what Redeemer had lately done unto their souls; the angest brother, in particular, is a marvel in my 8. He used to be the leading man in Romish cessions, drawling out the oft-repeated prayers in
the usual monotonous strain; when not thus engaged, he used to play his musical instrument. But having been supplied with a Bible, having thoroughly studied the Word of God, having easperienced the power of Divine grace in his soul, and having strictly compared the doctrine of Rome with the Scriptures, he resolutely determined henceforward to do awiy with Whatsoever might to hin appear inconsistent with the revealed will of God. Of course this soot led to trouble. The parish priest visited him, and made the most solemn representations to him. He begged the priest to lend him one of hill New Testaments. He then set lifmself to compare it with Luther and Van Ess. Finiling fal afreement among them : all, he đetermined more firmly than ever to adhere to his convictions, and abide by the consequences. On Corpuis Christi day he met the priest walking in the fields, and the latter invited him to follow him to his touse, He hesitated, Ah! 1 see you have no time; I suppose you must needs go and read your Bible ? the priest tauntingly insinu. ated. He boldty avowed this to be his intention: the priest then most pressingly entreated him to give up this dangerous reading? it would tarn his head. Some previous knowledge was necessary before a man could read the 'Bible profitably. Why,' saify the priest, I do not understand very much of the Bible myself.' Our friend observed he thoughthe did understand as mueh as was nécesseary for salv tion ; he could not think of givilig up the precious Book. Upon this the priest abused him most violently, calling bim 'a wretched blockhead of a cobbler' and ordered him, under pain of eeclesiastical censure, at once to commit his Bible and all his tracts to the fire. His whole heart blazed up in holy indignation Unfolding to the amazed priest the simple plan el salvation, he charged him with leading his fook tu unprofitable fields of stabble, instead of to the greem pastares of God's Truth, and said he rejected the whole system, as a miserable refuge of lies.
" Annn been listen stared, and the shoema trange ! marched of The priest shoemaker' the kipd hs mord to th that he, wod spare to the he: would ra convictions. high esteem to lead exen

" A number of bystanders had collected, and had been listening to this boisterous conversation, They stared, and wondered to see the priest morally beaten; the shoemaker to master the priest, it was passing strange It was expected that our friend would be marched off to jail at once, but the times are altered. The priest applied to the Authorities to have the shoemaker's house searched but as yet nothing of the kind has been attempted. FThe shoemaker sent mord to the priest that he had nothing to conceal, that he,would most willinglysend any bopks he could spare to the bishopror to Rome, if Ge liked but that he would rather part with his life than give np his convictions. He and his whole family are held in high esteem in the neighbourhood; they are known to lead exemplary lives."
"Amidst the torrent of opposition we have to meet, it is refreshing to be permitted to register two friendly votes, the one from a Romish priest and the other fromal Protestant pastor, The former congratulated us on theacquisition of this beautiful transtistion, and hoped we would continue and speedily complete it. It was, he said, a thing devoutly to be wished. The lattér writes: It has given me the highest pleasure to receive this copy of Mark in the Slovenian. May the Word of God evince its poweerful and saving strength in this forsaken and deluded people. There is no weapon acainst the enemies of the Word like the Word itself, The isolated yosition of this people'has contributed niot a tittle to the success of the adversary in uprooting every trace of Gospel. I have a firm conviction in God, that the light of the Gospel wilt dispel milich of the surroinding dark ness. Mays the Lord continue to bless the traly grand operations of the Bible Society.'" And last the following simple story is both touching and encouraging. It shows how impossible it is to satisfy the soul that is athirst for God with anything but the work of Life.

## 24

"A poor servant girl entered the Depot and bought a copy of Mark. After a few days she came for the other parts;' she meant an entire Bible. We told her they were being prepared, but could not be had yet. This was a great disappointment to her. ' $\mathrm{No}, \mathrm{I}$ cannot wait so long,' she said. © Oh , it has given me so much pleasure, and I understand it so well. The whole story of Jesus is in it. I have read it all night ; " and she compelléd as to show her all our Slavic editions, but she could not folly understand any bat the Slovenian! She was vefy sorry, and in her simplicity reproached us for leaving the Sloveniahis so fong without the good Book, while the Germans and others had such nice editions.'"

Poland.-The circulation of the Depots' at Warsam has during the past year been most satisfactory, having exceeded that of the previous year by 3.14 copies. The number has been as follows :- 458 d Bibles, 13,705 New Testaments and 2,433 Portion or a tjtal of 20,677 volumes.
Mr. Millard states that it has required no sma degree of vigilance and activity on the part of th depositaries and Oolporteurs to secure this gratifyin result. Serious difficulties have at times intervene but God has overruled these for good, and hay tended rather to the furtherance of the Gospel the otherwise.

In Demark.--The Report says;-progress wo opposition are for the most part found side by in every land in which God is working by His Wof and by His Spirit to dispel the darkness of unbelig

A Bible monoply has to be contended with in this country which raised the price of the Bible to 9 s . is pow reduced to 4 s . 6 d ., a result which under God is lou to the action of the Society and the untiring zeal fits Agents.
The issues from the Depot in Coperhagen during the past year have amounted to 20,860 copies of thich 2,763 were Bibles, 16,778 New Testaments ad 1319 Portions.
The Revision of the Danish Bible which has been metime in course of preparation, will soon be comleted. It is to be circulated among the clergy for eir approval and criticism before authority will be iven to its general circulation, a considerable period 4y yet elapse ere the consumamtion is reached bich the committee had for many years in view. The Depot in Copenhagen was opened 1856, and distributed 200,000. Colporteurs have visited camp at Jutland and all along the Baltic coast. leeland has remitted $£ 30$ stg. through the agenoy Copenhagen for Scriptures sold, the depression of Island by the severity of the season, which infered with the commerce of the Island and other e brought much distress upon the people-under dh circumstances the work of Bible distribution been almost suspeñded.
there are six agencies in Norway, Christiana, wha, Birgen, Dronthavirn and Tromore. And in country the past year has been a marked one in unals of Norwegian literature, inasmuch as a New wation of the Bible has been completed under auspices of the Norwegian Bible Society. The

Agency at Christiana is the centre of the Society's operations in Norway from which supplies are fur. nished to the other agencies according to their various requirements.

It appears that the issues of the past year have amounted to 25,929 copies, and have exceededfthose of the preceding year by 25,97 copies. This is gratifying result, and when we consider the physical labour incurred by the Colporteurs in visiting the fairs and sparse population, 1035 copies have beel sold by them. Of the other agencies the work has been much the same as in former years.

SWeDen. - The custom which exists, and which ha prevailed for sometime in Sweden, of presenting copy of the Scriptures, formerly a New Testamentnow for the most part a Bible to each young perso when confirmed, necessarily makes the people that country better supplied with the word God than are the inhabitants of most other Eur pean countries. The circulation from the depot Stockholm amounts to a total of 1798,802 copie and if to those be added as far as can be ascertaine the numbers issued by the $S$ wedish Bible Society total is reached of $2,623,810$, which within thel few years have been circulated among a populatif of four millions.
at In Russia, 50,491 copies of the Scriptures in m than twelve different languages, have been circulat small, indeed, when contrasted with the populat of that great expire.

Within the past few weeks an effort has been made 10 increase the subscriptions in the city, of which we cannot satisfactorily report at present, as it will form the subject of the next annual report. It will be in the recollection of the friends of the Society that about twelve years ago efforts were adoptel by the Halifax Ladies' Association to promote the circulation of the Seriptures among the thinly settled portions of the Province; several colporteurs 'were employed, some for longer and some for shorter periods. About four years ago the A for shorter American Tract Society, whose the Agent of the laboring in Nova Scotia, whose colporteurs were then cheap Bibles and Testama, applied for quantities of molporteurs who westaments, to be furnished to their arcticable, and where instructed to sell them wherever tmilies without the in their journey they found hase them, to give scriptures and unable to patford. . geve every such family a copy of God's
A considerable number of copies of the Scriptures me thus disposed of. The conimittee are undabié to Thow many were given away and how many dolla. "ser When the Book and Tract Society took the place of American one, the same grants of Scriptures, partIn April, 1869, an application was made by the amittee of the Book and Tract Society to your riliary to sapply their Colporteurs at half price
as many copies as they might require, the comthe of the Book and Tract Society pledging that
their eolporteurs would supply gratuitously any cases of destitation of the Scriptures they might meet.

At one of the largest meetings of committees in April last, it was agreed to grant for one year Bibles and Testaments of cheaper kinds at half price to the value of $\$ 800$.
In accordanee with this resolution, 940 Bibles and 615 Testaments, to the value of $\$ 249.86$ have been granted, for which the sum of $\$ 178.98$ has been received. Of these 509 Bibles have been sold, and 462 Testaments. The following number of copies of the Scriptures have by these colporteurs been disposed of or held in the following counties for sale :-

Of which the nymber of Bibler granted was 53 num.

Nova Scotia work, Rev. S. T. Rand, Micmac missionary, has finished a translation of the Gospel by St . John, in the language of the Millascet Indians of New Brunswick, which bas been printed by the Parent Society and sent out for the use of that tribe.
And also within the last few weeks an edition of the Book of Exodus, in Micmac, has been printed in this city, the expense of which is also borne by the Parent Society. Making, in all the Gospels, the Acts of the Apostles, the Epistle to the Hebrews, the book of Gep esis, and the Psalms all goblished in that language.
That your committee have given grants of the Scriptures to the Mount Hope Lunatic Asyl? um, and the Institution for the Deaf and Dumb.
That with all the sister institutions in the neighboring Provinces we are on the most cordial terms. That the past year kaw the New Brunswick Auxiliary celebrate its jubilee; and the Auxiliary at Montreal in January next will celebrate the same, to which they have kindly invited representatives from this Auxiliary.
The committee rejoice in every opportunity offered for conveying fraternal greeting to those who are engaged in the same work,-and especially thoso who represent the men who fifty years ago beheld the dawn of the day of small things, and are enábled to look back on the past"and say, "What hath God wrought."
Other reasons why your committee seek to cultirate their kindly christian feelings and intercourse. The signs of the times, the aspect of affairs on the confinent of Europe, a conflict to which we may be called,
may just be one even in this continent which requires the friends of Bible truth to speak unitedly and in trumpet tones. To men in authority in behalf of the teaching of the Bible in our common schools. In behalf of the faith of our Bible as taught and exemplified in our colleges, and the higher branches of education. In bebalf of the power of the Bible upon our statesmen, senators, and judges.

Then may we expect the peace, purity, and full enjoyment of the Bible with all its promises and blessings to be felt on all our lives.

## MR. RUSSELL'S REPORTS.

To the Committees of the Halifax Ladies Bible Association, and the Nova Scotia Auxiliary Bible Societr.
On the 13th of November I came from Truro to Halifax to attend the Annual Meeting of the Auxiliary held on the 15 th. All day after ( 16 th ) was busily engaged in arranging Subscription lists, \&c. for Annual Report. Early Wednesday morning left by coach for Chester, and the same evening addressed a pretty well attended meeting in Temperance Hall, Rev. Mr. Shreve presiding. He, as well as Rev. Mr. Skinper aided largely in sustaining the interest of the meeting. Some subscriptions were obtained, and two Ladies exerted themselves in procuring more on my return; altogether $\$ 22.38$ were obtained. Next meeting was held the following evening in Chester Basin. The interest manifested was greater than I had before witnessed here. Some subscriptions were received, partly paid there, partly paid on my return- 86.22 were obtained. Next evening addressed a very small but spirited meeting in Mahone Bay. Rev. Mr. McNab presiding. At the meeting some subscriptions were paid, and dore were waiting me on my return$\$ 16.75$ were received.

Went on to Lunenburg, where on Monday evening I addressed an excellent meeting in the Presbyterisa church, Rev. William Duff presiding, who with Rev. Mr. Huestis advocated warmly the claims of the Bible Society. Next day calling round on the friends 30 companied by S. Finck, Esq., a larger subscription was obtained than I had ever before received in

Mr. Duff to Lower LaHave, next meeting, a very small one owing to stormy weathet-was held in the the LaHan church, Cross Roads. Next morning crossed where at night I river, and walked on to Petite Reviere School-house. A subscriped a small meeting in the collectors were a appointed to try to was opened, and sum then paid in. $\quad$ try to add to the small
Next day went on to Bridgewater, I had purposed ending the labours of the week, by a meeting in Bridgewater on Saturday night. But at the hour appointed through some mistake the door of the place where the meeting had been appointed, was unlocked, search was made for the key, it could not be found; hence no meeting was held that evening. Next day however I had opportunies of adverting to the work of the Bible Society, and the day aiter, accompanied as usual by Mr. Gow, I gathered up in all $\$ 33$, about double of what had been obtained in Bridgewater last
year.
Kindly
Kindly furnished by Rev. Peter Morrison with his meeting had been appointed. A heavy rain which came on in the afternoon and continued all night, prevented any gathering. I received a payment on purchase account and came on to Bridgewater.
Having now visited all the Branches in Lanenburg Connty, I returned Thursday Dec. 2nd to Halifaxg. Spent some time further preparing additional lists for Report. And went on Saturday Dec. 4th to Antigouishe where a meeting had been appointed thaf evening. The coach was somewhat late. The people had assembled, and had been holding a prayer-meeting whtl my arrival. Within five minutes of the time I lod alighted from the coach I had commenced my pddress. Next Sabbath evening commenced my then in the Presbyterian and Baptist challections were the Bible Society.

Left Antigonishe Monday evening about midnight hy mail in an open carriage, under a heavy rain for Guysboro'. So heavy was the rain, that 1 was not only drenched myself, but my valice, and clothes inside it, were wetted. The rest of the week was spent in holding meetings in Cape Canso and in Guysboro', meetings on the whole very encouraging. Found no abatement of interest in Guysboro'. The Ladies' Bibles Association had sent on their annual remittance before my visit. And from the other Soeiety a payment was also received, bing the balance of their last year's subscriptions which remained after the payment of a Colporteur for a few weeks last winter.

Early on Monday morning, 13th Dec., left Guysboro' 'or Sherbrooke, which I reached after 9 hours riding over very bad roads. The same evening addressed a meeting in the Presbyterian church, and next day found my way with some difffculty, owing to the Ferry-boat haviug ceased to run, and the ice, not being strong enough to bear-to Goldenville where a meeting was held. Both in Sherbrooke and in Goldenville collections were taken amounting in all to $\$ 24.70$. Next two meetings were held in connec. tion with the Ladies Bibie Society, Glenelg; the first a small one in the School'house, Glenelg; the secoud a large one in the School-house Lochaber Lake. Subscriptions will be taken up at an early day and forwarded. The labours of the week were ended by meetings in Lower, and Upper Caledonia, netther of them largely attended. Some subscriptions were paid and more will be obtained.

Came on next week to Musquodoboit, on the even--ings of Tuesday, Wednesday and Thursday beld met. ings in the School houses of Upper Musquodeboit, the Flat, and Middle Muequodoboit. The attendance af all the meetings was small. Some subscriptions wer obtained, and more will be secured.

On Friday, December 31st, came on to Halifar, to arrange finally about lists for Report.

to Halifas, 1

Since the 11th of November, I have in prosecution of my work travelled by rail, coach, or private conreganee 825 miles, walked 94 , addressed 29 meetings in 24 different places, and obtained of subscripfions, \&c., $\$ 410,32$.
Another year of Bible Society work has now termiasted. Looking back over the past twelve months, I would say, as I have often had to say before"Hitherto hath the Lord helped me." Through a rear of (perbaps) the hardest labour I have performed, a Gracious God has preserved me. Helped by Him, (in this Province, and in New Brunswick together) I hase travelled 4261 miles, sailed 1037, walked 657 , addressed 201 meetings in 166 different places. Often reary in my work, never weary of it-without one days sickness during the past twelve months, I have ben enabled to engage in it. To Him who has so aten led me in ways I knew not and in paths 1 had pot trodden, and amid some aiscouragements granted rey much to cheer and sustain me-to Hrir be all the praise and the glory.

Alexander Rusbell.
Halifax, January 1, 1870.

Io the Comittiee of the Halifax Ladies' Bible absóciation, and the Novi \$cotia Auxiliary Bble Society :

Having returned from New Brunswick about the iddle of March, on Friday, 1st of April I resumed ny labour in Nova Scotia, by holding a meeting in liiton, Rev, Mr. Bayers presiding. Though the mads were bad the meeting was well attended, and to interest manifested, on the whole encouraging. lext meek on my way to Halifax went through Muspodoboit, and held meetings in Little River, Meagher's Grant, and Musquodoboit Harboar. Neither of these petings were large. Reached Halifax on Thursday,
and spent the two following days taking stock of the Bibles and Testaments in the Depository. Attended the quarterly meeting of Committee. Next day went to Truro, where, in the evening I attended the Annaal Meeting of the Branch. The President, J. F. Blanchard. Esq., was in the chair, and several of the ministers of Truro took part in the proceedings. Next day went to Lower Stewiacke. In the evening attended and addressed a Bible Society meeting in the Preabyterian Church. Rev. Mr. Hare in the chair. The three remaining days of the week were emplosed visiting the other Branches in Stewiacke; meetings were beld in Springside Village, and Middle Stewiacke. In each place these meetings were encouraging.Springside had recently sent on Its Annual Contribotion. In the Village 830.00, and in Middle Stewiacko above 20.00 were handed me.

Next week, meetings were held in part of Hant County. On Monday evening at Five Mile River, ous Tuesday evening at Maitland, on Wednesday al Lowed Selmah, Thursday at Noel, Friday at Walton, and Saturday at Chiviree. In the greater part of thess places our gatherings were on the whole good, and the interest exhibited cheering. Maitland (with whice Branch Five Mile River and Lower Selmah are coon nected) always does well. Noel has been rathe behind, but there are signs of improvement. Waltoon was better than previously. In Chiviree while th attendance was large the subscription was small. - Bo it is hoped Collectors will gather up something more On Monday, went to Kennetcook (Burlington) Here a better meeting than had formerly been of tained was held in the Wesleyan Church. Nextdes was ferried across the river and walked to Avondald At night addressed a large meeting in the Basemen of the Wesleyan Church-a collection was taken and handed me, and efforts will as usual be made to gatho up subsoriptions.
On Wednesday evening addr essed a meeting in 40

a meeting in

Presbyterian Church, Newport, The interest taken in our cause here is encouraging. Next day kindly taken by J. F. Cochrane, Esq., to Rawdon, addressed in the evening a small meeting there. The President of our Branch there, Rev. Mr. Bowman, had left, but lis successor, Rev. Mr. Willers, who was elected President of the Branch, attended the meeting and pok part in the proceedings.
Next evening addressed a very small meeting in Windsor. It was disheartening to see the little inkrest taken in the Bible cause by this flourishing place. I had intended crossing from Windsor to Parraboro Saturday 30th Apri, and had some ten days prefously written to this effect-appointing a meeting * Parrsborough on the Saturdav evening. But I arned (what I was unaware of when I wrote) that steamer crosses this season from Windsor to Parrswro'. There was no help for it, so I returned to mor, and (having previously written to the various hoohes explaining the changes) went to Londonry. Held meetings with both Branches there,-in dly, De Bert River, Acadia Mines, Great Village, vraupique and Bass River. At nearly all of these petings the attendance was better than on former pasions. It appeared to me as if there was a deepeninterest in religious matters. Things "unseen and rnal " eeemed to engross more of the thought, and mpy a larger share in the conversation of the aple than formerly. Hence (as it appeared to me) increased interest taken in Bible Society work. Prom Portaupique I was kindly forwarded by Mr. iton to Economy. Here also the increased interest the Bible Society was marked. When the first fice of my coming by way of Parrsboro' had been peived the Collectors were immediately sent round, dnearly forty dollars of Subscriptious were waiting . In Five Islands where the next meeting was Wthe interest also was encouraging. About fifteen lars was paid in at the meeting and more will be
collected and forwarded. Went on to Parrsboro'general notice not having been given of the meeting the attendance was small.

Crossed in the packet to Windsor. After resting a few days, went to Hantsport where on Thursday evening, May $26 \mathrm{th}, 1$ addressed a meeting chiefly of young people in the Baptist Church, Rev. Mr. Rand presiding. Collectors had been appointed last year, but nothing had been obtained. No one would undertake to make any effort,-a collection of $\$ 0.62 \frac{1}{2}$ was taken and handed me.

Next meeting-also a small one-was held in Lower Horton. Some subscriptions were received and more will be obtained. Next meeting was held in the Re. formed Presbytorian Church, Wolfville. It was well attended. At the close of my address a collection of $\$ 9.35$ (increased afterwards to $\$ 10,60$ ) was taken and handed to me. Immediately after the meeting in Wolfville rode over to Canard, and in the Presbyterian Church there addressed a pretty large meeting. Next evening a smaller one was addressed in Canning. From the Branch in East Cornwallis received $\$ 38,75$. Went on to Kentville, a fair attendance at our meet ing in the Court house. Proceeded to Berwick. Here, and at Somerset addressed meetings-both better attended than those held last year.

Some subscriptions were received, and more are expected. Next meeting was held in Aylesford. In the Plains and at Factorydale, I addressed audiences on the work of the Bible Society. From that place above $\$ 15$ were received.
Proceeded to Wilmot-small gathering, and the meeting held the following evening in Nictaus Falle was not much larger.
Went on to Laurencetown. Here also the sttend ance was small.- Next evening in Bridgetown, in ty Wesleyan Church, there was the largest gathering] had seen here as a Bible Society Meeting. Besily the usual subscription (part of which is paid, and purl
is to be colle relope was $r$ one family fand.

Went on to Annapolis. Our meeting in the Courtbone was small.
Next day went to Hillsboro' (Bear River). Had a uge meeting here; at the close of my address a.collection of $\$ 5.40$ was taken, and next morning E. E. Topper, Esq., obtained above $\$ 14$ of subscriptions. Proceeded to Digby. In the school-room of the Wesleyan Church our meeting was held, and from the spirit evinced as the result of the stirring appeals of Rev. Messrs. Armstrong, Brown, Taylor and others, Ianticipate a larger subscription than was obtained hest year.
Next day went to Weymouth. In the evening adltessed a small meeting. Not much interest taken. Lboot an bour after its close I was on the coach on by way to Yarmouth, which place was reached in the worning. In the evening addressed a meeting in the Mirk, the President, Dr. J. G. Farish, in the chair. Ber. Messrs. Christie and Prince, with T. M. Lewis, Phe, also took part in the proceedings. Accommnied by Mr. Lewis, who has never failed me, spent arl of three days collecting subscriptions. We obined upwards of $\$ 100$, and I expect about $\$ 30$ addibonal will yet be received. The Ladies Society there wintains its efflciency. There are many warmarted friends of the Bible Society in this thriving Non.
Went on to Barrington. Down the Passage and at he Head meetings connected with both Branches were eld. The latter meeting, owing to the stormy evengg, was thinly attended. Next meeting was in Clyde iver. It was small. A collection of $\$ 3.50$ was anded me.
Went on to Shelburne. Small meeting - the small\#I ever held in the Kirk. But the two days follow- .
ing, accompanied by Mr. Irwin, I obtained larger subscriptions than I had the previous year, and more I expect will yet be forwarded.

On Monday morning, June 24th, left Shelburne for Mill Village. In the evening I spoke to a small meeting. Next evening addressed a larger one in Liverpool. From that Branch I received about $\$ 18$ and $\$ 20$ for the Spanish fund.

On Wednesday went to Milton. Addressed a good meeting in the Baptist Church, and next day accompanied by'Hon. Mr. Tupper, gathered up about $\$ 30$ subscriptions. The following evening addressed a meeting, ohiefly of young people, in the Congreges tionalist Church, Brooklyn. Returned after the meeting to Milton.

Next morning went on to Caledonia, in which place, and in Maitland, Annapolis County, brought before pretty large audiences the claims of God's word.

Went on to Annapolis. Took the train for Halifax. Attended the Quarterly Meeting of the Committee, and the Thursday after went on by steamer to Port Hood to visit the Branches in Cape Breton. The meeting in Port Hood proved a failure. Somefer subscriptions were received, as well as payment of the purchade account.

Went on to Mabou. The first meeting appointed proved a failure, owing to the want of an opportunity to make sufficiently publie the notice of my coming, Another meeting - a pretty large one-was afterwards held. Collectors are to go round at an early day.

Went from Mabou to Margaree. In the Congrega tionalist Church, and in a school-house up the Big Iotervale, I had opportunities of presenting the claims of God's word. A subscription was opened above 86. More will be collected and forwarded.

I had to employ one to take me from Margareet Baddeck, from the latter place went by steamet "Neptune" to Whycocomagh. I had written to the President of the Branch more tian a fortnight pro
viously, but mo notice had chool-house Left next rached in the arge meeting Ifr, Jost in tl rere received Took the s dressed the fo Presbyterian bereased afte dressed a mee 1.H. Margaree $t$ by steamet written to the fortnight pro
fiously, but he had been for months away. Hence po notice had been given of my visit. I went to the chool-house and intimated a meeting, but none came. left next morning for Sydney, which place was mached in the afternoon. In the evening addressed a luge meeting there in the St. Andrew's Church, Rev. Irf. Jost in the chair. About $\$ 24$ of subscriptions pere received,
Took the steamer next morning to Cow Bay. Addressed the following evening a large meeting in the Presbyterian Church, $\$ 12.50$ of a collection was taken, feceased afterwards to $\$ 15.75$. Next evening adhrased a meeting in the Bethel, North Sydney, Rêv. ${ }^{1}$ 1.H. Porter, presidfing. Some subscriptions were paived and more will be obtained.
Took the steqmer next morning for West Bay, tence by stage to, Hawkesbury, where a small meetpg (owing to defective notice) was held. Returned fer the meeting to West Bay.
Proceeded to Baddeck. Here, on the whole, an enwarging meeting -the last I held on the Island -was btained. Left Baddeck next day, and came on via Thecocomagh to Pictou, Truro, \&c.
From the 1st of April until the present date (15th (hgust), I have, in prosecution of my mork, travelled rail, coach, or private conveyance 1,889 miles, itked 204 , sailed 394 , addressed 81 meetings in 71 flarent places, yisited 56 Branches and obtained of bscriptions, and on purchase account, $\$ 935,07$.
Ihave nothing further particularly to add. There I think, on the whole, steady progress making. In ecorresponding four and a half months of last year witing the same Branches- $\$ 827.81 \frac{1}{\mathrm{p}}$, a larger sum un I had ventured to anticipate, had been received. be receipts this year shew an increase of $\$ 107,25 \frac{1}{2}$. If visits are welcomed, and very soon the wish is tpressed-" Well, we hope to see you round again at year." As heretofore, much personal kindness od hospitality have been shewn me, diminishes
thereby the expenditure that /would otherwise have been incurred. From the 16 th of April, I have had tbrough the kindness of Mr. Taylor, a free pass over the Nova Scotian Railway; and last season Captain Beattie generously gave me a free passage all the trips I went with himinn the "Neptune." All this is encouraging, I feel 1 so, and would render the praise to Him whose work I am trying to advance.

Alexander Russell.
August 15, 1870.

To the Committee of the Halifax Ladibs' Bible association, and the Nova Scotia Auxiliary Bible Society :
About the end of last October, on my way back from New Brunswick, I remained some time at Amherst, and addressed a meeting in connection with our Branch there. The audience was not large, but the interest taken was encouraging. At that meeting and frext day, above $\$ 22$ was paid me. More will be coHected and forwarded.

From Truro came to Halifax; went on Saturday, November 11th, to Lunenburg. On Monday evening I addressed a pretty large meeting if the Presbyterian Church; Daniel Owen, Esq., presiding.: Within ten minutes after the close of my address, about $\$ 40$ were subscribed, and more than half of it paid. The balance, with some additional subscriptions, Stephen Finch, Esq., and I gathered up next day. No one who was asked to contribute refused. A young lady who has often labored in the good work, collected after I had left, $\$ 8$. Altogether in Lunenbarg upwards of $\$ 64$ were received, besides $\$ 25$ for the Spsnish fund from the gentleman who had gone round with me.

From Lunenburg kindly taken by Rev. William Duff to Lower LaHave where, on the evenings of Wed-

Rev. William nings of Wed

nesday and Thursday at Kinsburg, and Cross Roads pretty good meetings were held; Rev. D. McMillan presiding. Small collections were taken, and subseriptions will be obtained and forwarded.
Next day crossing the LaHave river, walked on to Petite Reviere. A small meeting was obtained in the school-house that evening; Rev. Mr. Sprague presiding. A subscription was opened and collectors were to go round. Next meeting was held at Bridgewater ; Rev, Mr. Bowers presiding. The evening was unfavorable and the audience consequently small; but that day, and the following, accompanied by Andrew Gow, Esq., about $\$ 20$ of subscriptions more than had been received last year was secured- $\$ 52.70$ in all.
Kindly taken at night by Rev. Peter Morrison to Mahone Bay, I addressed a small meeting there; Rev. Mr. McNab presiding. About $\$ 10$ of subscriptions were paid, and more will be collected and forwarded. Went on next morning, under a pelting storm, and in an open coach to Chester. The remainder of the reek meetings were held in Chestertown and at the Basin. Our first meeting in Chester, owing to a stormy evening, was small. Another held on the erening of "Thanksgiving Day" was more successful. The meeting in Chester Basin, partly owing to a change in the hour-partly owing to the notice not being widely circulated, was amall; but a larger one ns addressed by the Rev. Mr. Skinner who, now, as . te almays has done, aided me much.
Returned to Halifax ; attended the annual meeting; pent some time preparing lists, \&o., for the coming Annual Report.
Went on to Antigonishe. Addressed the largest, ved in some respects, the most interesting meeting I ed ever been privileged to hold there. Besides
22.90 of a collection at the meeting, a friend-by no 122.90 of a collection at the meeting, a friend-by no reans a rich man $\rightarrow$ said to me, "I never gave so weh as I should to thets good work-here is some-ligg"-handing me a handful of silver and cents, all

I believe he had in his pocket-there were $\$ 2.50$. Another who had given liberally at former visits, but who, I believe, contributes now from a new motive, said-" I went to the meeting resolving to give $\$ 2$ to the collection, but after I heard yout address I felt convinced I ought to give \$4, and (handing me a four dollar bill) here it is." At a prayer meeting, before the exercises had commenced, said anotber, "I don't know why I went to the meeting last night without any money, I did not intend to do so, but"-putting, his hand fn his pecket and handing me 82 -" here is my contribution." The $\$ 22.90$ of a collection had from these and another contribution, ingreased to more than $\$ 32$, all handed me without the slightest hint given, and all I believe given from love to Christ and to his word. It is pleasing to receive contribations in this manner, and during the past year more than in any previous one-it has been my "hap" (as John Bunyan would sey) thus to receive them.

Left Antigonishe about Dec. 5 th, in an open carriage for Guysboro', which place I reached-almost chilled with cold-next morning about sunrise. I had arranged for a meeting that niglit in Manchester, bat a severe storm made it utterly impossible to hold it: During the remainder of the week very encouraging meetings were beld in Cape Canso and in Guysboro'. Nearly $\$ 40$, partly old-partly new subsdriptions were received, and more will be procured: The Ladies' "Association in Guysboro' had sent on their annual contribution, and from the other society I obtained above $\$ 20$.

From Guysboro' went on to. St. Mary's. Here a week was spent holding meetings in Lower and Upper Caledonia, the Forks, Steerbrooke, and Goldenville, All of these meetings, with the exception of those beld in Caledonia, were good. Those in Caledonia would have been much better had the notices sent on been more widely circulated. In all these placés subscriptions or collections were rereived. In Caledonis,
$\$ 10.61$; enville, \$1

Left Sherbrooke on Monday evening, Dec. 19th, and nfter travelling all night in an open carriage over roads, parts of which were rough as a ploughed field, reached New Glasgow about nine next morning ; came on to Truro; next day proceeded to Halifax, arranged remainder of subscription lists, and put the whole into the hands of the printer. Returned to Truro, and on Tuesday 27 th December, returned again to Halifax. Addressed a meeting in the basement of St. Matthew's Church on the work of the Bible Society. A collection was taken for the benefit of the Ladies' Sodiety in connection with the Bible women's work.
During the past two months in prosecation of my work I have ridden 1266 miles, walked 75 , addressed 31 meetings in 23 different places, obtained of subscriptions, \&c., \$506.72.
During the year 1870 I bave been enabled to travel in every County of New Brunswick and Nova Scotis. In each County of the former Province I have addressed meetings in connection with the Bible Society. In all the Counties of Nova Scotia, with the exception of Pictou where our Auxiliary has no Branch, and in Richmond where there is no Branch of any lind, meetings have been held. In connection with my work I have ridden by rail, coach, or private convegance 6,021 miles, sailed 1,085 , walked 491 , addressed 220 meetings in 183 aifferent places.
Through the whole year, and so far as labor is concerned, it has been the busiest I have spent, without one day's interruption from sickness. God my Sariour has protected, guided, and blessed me, cheering me with indications in many places of increasing inlerest taken in the circulation of his own blessed word. To Him be all the praise and glory.
