

Miramichi and the North Shore, etc.

APPLIES—See advt. BOY WANTED—See advt. Snow and ice seem to have visited the North Shore unusually early this season.

These licenses of snow fall at Campbellton on Wednesday last week and the sleighing was quite good.

The loss by the blowing down of Father Miskin's church at Beauséjour amounts to a large sum of \$2,000.

CHARITABLE—A public meeting in Campbellton has voted in favor of incorporating that town—a step in the right direction.

A GOSPEL TEMPERANCE MEETING will be held in the Hall of the Sons of Temperance on Sabbath evening after the close of the Services in the Churches.

CHARLOTTEVILLE will decide in one month whether or not to retain the name of the Presbyterian Church, Redbank, had his leg broken in a cattle guard at Campbellton on 19th ult. and is now laid up at the residence of John McAllister, Redbank.

LAD BROKEN—Rev. John McCarter, of the Presbyterian Church, Redbank, had his leg broken in a cattle guard at Campbellton on 19th ult. and is now laid up at the residence of John McAllister, Redbank.

THE CHATHAM Telephone Exchange is making good progress in the work of erecting their posts and poles, and is already twenty-five subscribers. The wire is of tinned steel and the best ever used on the North Shore.

NOVA SCOTIA'S BISHOP—The adjourned meeting of the Episcopal Synod of Nova Scotia for the election of a bishop will be held on the second Tuesday in November. It is expected that a name will be submitted by the English bishops to that meeting.

ACCIDENT—A despatch of 26th ult. says—"Professor McKnight, ex-member of the general assembly of the Presbyterian Church, while attempting to board a car at Campbellton, fell into a cattle guard and broke one of his legs. But it was said that nothing of the kind had happened to him."

FATAL ACCIDENT—We regret to learn that Mr. Gouham, late of the Newcastle Bank, Newcastle, met death by falling into a cellar of one of the buildings connected with the Commercial Cable Company's office at Camp, N. S., where he was manager of a branch of the same bank.

N. B. C. O.—An Ottawa despatch says—"Negotiations are said to be in progress for the purchase of Orie & Co.'s extensive concerns—mills, limits, works, etc., by the New Brunswick Trading Company. A prominent lumberman said, this morning, that the sale would probably be closed in a few months. There is considerably over three-quarters of a million involved."

CASES.—One of the heaviest lumber operators on the upper St. John, is reported in serious trouble with the American customs authorities for making alleged false entries at the customs office, Fort, N. B. It is said it will cost some thousands of dollars to settle, and the operator may have to spend the rest of his days in some distant clime. The average American officer is a rascal when he gets his war paint on.—Gleaner.

THE CURB CASES.—President Wilson, of the Methodist conference, was served on Friday last with a writ of certiorari to remove all proceedings in the D. D. Currie case to the supreme court, for the purpose of quashing them and setting aside and annulling the decision of the conference and Mr. Currie's expulsion from the church and ministry.

SEVERAL FIRES.—A despatch of 21st says—A fire took place at the point, across the river from Bathurst, about midnight last night. Mr. Geo. C. Sutherland's extensive saw-mill, including six coxer four boxes, all the farming implement, and it is said, the total season's crop. The loss is estimated at between \$3,000 and \$4,000. The property is left for Mr. Sutherland. The house near the barn was saved. Inverness not known.

JAMES BROWN.—The Town Clerk of Chatham, Mr. Wm. T. Cannon, has received a letter asking information respecting "one James Brown, who married Elizabeth Shibley and resided in Chatham." The party making the enquiry also asks for information respecting any son or daughter of said Jas. Brown, or concerning the family in any way. He says he is informed that Jas. Brown is now deceased, although his information may be incorrect. If living Brown would be over 70 years of age.

ADVISE LANGUAGE in Moncton does not seem to be monopolized by Valour Street. A lawyer was complained in a case the other day before Justice Workman, of that progressive town, and "if there was any law for it" there is no doubt that all respectable citizens would be complainants in the case. It is not, however, in order that both might be punished for their outrages on public taste. There must be some duty discharging itself in Petticoat street through the papers and "The Dend."

"THE ADVOCATE" is very much excited over our expression of approval about the construction of the express train, and says, with the apparent certainty of a cabinet minister, what Mr. Schriever did and did not intend to do. The Advocate will pardon us for saying that it doesn't have anything about such matters, but is far too ready to become the mouthpiece of persons in power or, rather they have made use of it through indirect and surreptitious means, only to show us being so readily duped.

The Montreal Observer contains every week several columns of false denunciations news, timely editorial articles by abject devils, Talmege's Sermon of the previous Sunday, excellent notes on the Sunday School lessons, in

interesting health, household and other departments. Installments of a good moral story and carefully selected miscellany. Every Methodist family in Canada should take it. Only \$1 a year with great reductions to clubs. Agents wanted at every post office. Big commissions. Sample copies sent free. Address, JAMES PUBLISHING HOUSE, Bowmanville, Ont.

THE NEW LICENSE ACT IN BRUNSWICK.—At the next meeting of the Brunswick county council, which is in January, the council will be called upon to grant liquor licenses under the new act. In Dalhousie there are now five licenses to sell. Under the new act only four are allowed. In addition to the five, it is said, will not make application this year for a license, so that the council anticipates no trouble in regard to granting the new licenses. The license under the old law cost \$400 under the new it will be from \$100 to \$125. In Campbellton there are now 12 licensed shops, the new law only allows three. There some trouble is anticipated.

NARROW ESCAPE—John Kerr, a lad about 16 years old, son of Mr. Joseph Kerr, Sr. was assisting Mr. Moonie in measuring work on the Putp Mill chimney on Monday evening. He was on the ground and was struck on the head by a falling brick and rendered unconscious, so that his life was, at first, feared to be in danger. He has since regained consciousness and there are good hopes of his recovery. The height from which the brick fell was about fifty feet and, seeing it descend, one of the men cried out to warn the lad, who ran, thinking no doubt, to get under shelter of the scaffolding, but unfortunately fell into the gutter. He was tried to escape. Much sympathy is felt for him as well as for his parents, as he is highly spoken of by his employers as an industrious and well behaved boy.

LONDON NEWS.—The constant success of the Illustrated London News (American edition) is not by any means a surprise when we consider the quality of the paper. Take for instance the issue of October 29th, now on the market. The supplement alone, giving an excellent colored portrait of Prince Bismarck, is a valuable souvenir to possess, while in addition there are pictures of the Nizam of Hyderabad, two pages devoted to illustrations of the State of Ireland, another page of our troops in Burma, one of Border Sketches in Ketchikan, one of Bristol Cathedral, one of the Death of Caesar, and a most attractive picture of a little girl and a dog entitled "Speak!" The reading matter is as interesting and complete as ever, while the price for all is only ten cents. All newspapers have it, and the New York offices in the Potter Building.

MELBON NOTES.—The saw-mills have all suspended operations for the season. Mr. John Fyfe's mill having finished sawing to-day (Wednesday) and many young men employes may be seen making the usual farewells to their best girls, preparatory to their return to the lumberwoods.

Mr. John Doonan is erecting a new dwelling-house. Its dimensions are 23x22 ft., with 14 feet walls, and kitchen 18x16 ft., with 10 feet walls and pitched roof. The work of construction is under the control of Mr. Michael Walsh, which is a sufficient guarantee of its good quality.

Mr. Wm. Monahan is excavating and laying the foundation for a new house on the site formerly occupied by what is best known as "Dumb's Hotel," which has lately been taken down.

Nelson has a curiosity in the shape of a cult, owned by Mr. Henry Flett. It is now six months old and has been blind since birth. The eye-balls are of a reddish or fleshy color. It moves in a circle with the elevated in air and when let out into the pasture adjoining the stable, can find its way back without trouble. The sidewalks in the west end of the village are much in need of attention from the proper authorities. Their present condition renders travelling on them unsafe for persons unacquainted with their numerous holes and broken planks; and those who acquire with such places, in times of forgetfulness are apt to be tripped over or have their limbs endangered, to the annoyance of themselves and those with whom they may collide in their efforts to regain their equilibrium. The sidewalks in the east end are somewhat better than the others, a new sidewalk being laid down extending from the "Nelson House" to the Temperance Hall. Some cordials, a few light signs, and for want of something better to do, tore up a length of the sidewalk, letting one end of the planks rest on the fence and the other on the road, thereby obstructing the way of passersby.

THE COST OF PREPARING THE LISTS.—A parliamentary return printed in blue ink looks like a detailed statement of the cost of preparing the voters' lists under the Dominion franchise act. The following are the total figures for New Brunswick constituencies with the names of the revising officers:

Table with 3 columns: Constituency, Amount, Revising Officer. Rows include Albert, Judge Wedderburn; Carleton Place, Judge Stevens; Charlotte, T. S. Debrisay; Gloucester, Judge Redford; Kent, Judge Wedderburn; Northumberland, Judge Wilkinson; Restigouche, Judge Wilkinson; St. John City, Judge Waters; St. John City and County, J. A. Vanwart; Westmorland, Judge Boston; York, J. A. Vanwart.

The above are the figures as revised and passed by the auditor. It is to be noted that but a small part of this large total was paid by the revising officers, the largest accounts being for printing. The revising officers appear to have received only from \$200 to \$250 for each constituency, which in each case is entered in the account as "part of salary." How much more has been paid on salary account since the date of the return (19th May), or how much remains to be paid, we have yet to learn. The total payments, as shown by the return, are about \$25,000 for revising the New Brunswick lists, and this will be largely accounted for when the balance on salary and other accounts is included.

Under the old system it cost the dominion nothing for the voters lists, which were prepared by the local officials, and they were, on the whole, quite as accurately and more impartially prepared than under the new act, which has already cost the country about \$30,000.—Telegraph.

ANOTHER LUCKY ONTARIO BOY WINS A PRIZE.—Oscar Grosbell in Richardson's Draw was the lucky holder of No. 46,386, which drew one tenth, \$2,000 of the \$20,000 capital prize in the drawing of the Louisiana State Lottery on the 9th ult. He held a representative of the Bie that he had held tickets in the lottery since 1862.

January and drew a prize at each drawing. He is not alone in the tickets but that the young men of the house have formed a syndicate and have bought \$150 in tickets. The pulp factory which stands near the mill is a very extensive brick structure and is about ready to receive the machinery which has been imported from Germany and is of the most improved kind. A large force of men are engaged in cutting a ditch to tap the lake below the town for the purpose of supplying the factory with water. Borings to the depth of several hundred feet have been effected. The water proved very salt which may be evaporated and turned to very good use. Your correspondent was taken for a paper maker or something of that sort as Mr. Fisher, the expert mason, wished to engage him for that purpose.

Mr. Snowball is now extending his Chatham Branch R. R. from back of the town to the river at the mill, with a view to the pulp factory. A fine church has been erected by the Methodist body of that town, in which Mr. Snowball is the moving spirit, and in which he takes a great interest. It is a neat, light, furnished with a pipe-organ, bell, stained windows, the most improved heating apparatus in the basement, and a beautiful organ pipe organ. Rev. W. H. Harvey, secretary and treasurer of the Methodist missionary society, lectured on foreign missions in the church on the evening of 21st, and especially on mission work on the Pacific Coast of Southern California. The Rev. gentleman was accompanied by the Rev. Yoshitani Hiraiwa, the first native ordained Methodist minister from Japan, who gave a very interesting and well illustrated lecture on his work in his own country and also of the social and religious condition and progress, as well as the politics of that country. He appeared in his native costume, and sang and spoke in his native tongue, which he interpreted at the close of the meeting. Your correspondent was introduced to both the rev. gentlemen, and enjoyed a very pleasant chat. We dispersed to our different abodes, although it rained and blew without, the kindly greetings and pleasant faces of many of the people of Chatham leave a warming and cheering effect which will not be soon forgotten with a christian kindness. In the morning we got on board of the Northern & Western and arrived home safe and well, much the better of our trip.

DOCKWATER NOTES.—Docks, Oct. 23. Farmers have about finished ploughing for the season. Mr. John Fyfe's mill is also ploughed, very rusty. There are a good many men going in the woods to get logs and many young men are going out of the country, not because they do not work but to carry out the idea, "go west, young man."

Yesterday morning about an inch of snow fell but it went away before noon, followed by rain, sun, warm sunshine and a light breeze from the west.

Our bridge at this place appears no nearer being built than ever. Tenders were asked by the Government. Mr. Kilham of St. John's was awarded the contract at \$3,600. The season for taking up the old piers is passing and no effort is being put forth to commence the work. Rumor says Mr. Kilham has backed out on account of the long job too low. In the meantime the public are anxiously awaiting the building of the bridge. It is to be hoped the government will not delay any longer.

Rev. Mr. Snowball, the Methodist minister, was presented with a package containing \$51, being the proceeds of the Social held in the new hall last Friday night, which was well attended although the night was a wet and stormy one.

One Hundred Dollars in Gold. It is not often that farmers and farm-houses, or people generally who keep here, have an opportunity to make from ten to fifty dollars in eight week's time, besides increasing the number of eggs from their hens from ten to one hundred per cent. But the fourth of July is over for one year, and now is the time. For one year, N. S. Johnson & Co., 22 Chatham House Street, Boston, Mass., are offering several hundred dollars in gold coin for the best results from the use of Sheridan's Powder to make hens lay. These premiums have become so popular among people who keep hens, that Johnson & Co. offer still larger premiums this year. They hereby authorize us to say that they will pay one hundred dollars in gold coin, in four separate premiums, for the four best sets of eggs laid during the month of August, or for the best set of eggs laid during the month of September. The premiums are as follows: Fifty dollars for the first best result; Twenty-five dollars for the second; Fifteen dollars for the third, and ten dollars for fourth best result.

Of course every person who competes cannot get a premium, but the following are the conditions: The first set of eggs laid during the month of August, or for the best set of eggs laid during the month of September, shall receive a premium of fifty dollars. The second set of eggs laid during the month of August, or for the best set of eggs laid during the month of September, shall receive a premium of twenty-five dollars. The third set of eggs laid during the month of August, or for the best set of eggs laid during the month of September, shall receive a premium of fifteen dollars. The fourth set of eggs laid during the month of August, or for the best set of eggs laid during the month of September, shall receive a premium of ten dollars.

Do not miss this opportunity. Write to N. S. Johnson & Co., 22 Chatham House Street, Boston, Mass., for full particulars. The premium is payable in gold coin, and is not subject to any deduction. THE SLOPERS

"Married" gasped Mrs. Adams, in consternation, from the head of the breakfast-table...

"Well," teasingly remarked her eldest brother, Charlie, who was staying law, "we need not be alarmed at losing the light of your beautiful countenance at any early date."

"I don't wonder," said Charlie, the oldest daughter, a pretty girl of eighteen. "The wonder to me is how any of us stand here. For my part, rising, 'I'll marry the first fellow that asks me.'"

"Four old chaps!" said Charlie at the conclusion of the lengthy epistle. "I'd send him myself if I had it, but the cost of the last set of looks had to have, left me without a red."

"You are an applicant for the position of organist in our church, I presume?" said Mr. Adams, looking down rather pompously at the slight, girlish figure.

"I am, my dear," suggested Teddy, "I'm a remarkably sweet looking fellow under her dark eyes."

"And you consider you have the required ability?" continued the question, being only human and meeting perceptibly under the influence of the pretty face.

"These are my only credentials," was the applicant's reply, as she quietly laid before him a certificate from a well-known conservatory.

"Very good—very good, indeed!" remarked Mr. Adams, looking at the paper; "and if you consider the salary sufficient, we will be glad to secure the service."
