LAW RESPECTING NEWSPAPERS.

Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions.
If Subscribers order the discontinuance of their papers, the publisher may continue to send them till all arrears are paid.
If Subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bill, and ordered their papers to be discontinued.
If Subscribers remove to other places without informing the publisher, and the paper is sent to the former direction, the publisher is not held responsible.

TIMBER BERTHS.

CROWN LAND OFFICE, June 14, 1853.

THE right of Licence to cut Timber and Lumber until the first day of May, 1854, on Crown Lands in the following situations, which were last season under Licence to the undermentioned persons, will be offered for sale by Auction, at this Office, at eleven o'clock in the forenoon of the 14th day of July, next.

A further notification will be made of the upset rate of mileage, as also of the terms upon which the Licences will be renewed.
(Not to interfere with any Lots of Land applied for within one year previous to this date.)

ROBT. D. WILMOT, Sur. Gen.

A little boy of four or five years old was much vexed with his grandmother, for boxing his ears, but not daring to sauce the old lady, he took up his favorite cat, and stroking her back, thus addressed her—"Well, puss, I wish one of us three were dead—and M. Facts are stubborn things." Says Mrs. M. to Mr. M., "Then what a fact you must be."

ST. ANDREWS.

In New Brunswick Province there is a place known as St. Andrews, which the Saint doth grace. With but his name; for he ne'er shows his face, Not 'tween his nose!

But all suppose
He knows his place; so wot intrude his toes!

The town first made a start some fifty years ago. And like all other towns but with one house or so. Yet where it has been raised a forest once did grow: And where the trees stood
Are seen dwellings good,
All of which, save a few, are constructed of wood.

The Streets are laid out with geometrical care—Intersecting each other—four forming a square, A plan with which few modern towns can compare; But here I'll present you with its "bill of fare."

There's a Bay every body
Calls Passamaquoddy,
A Harbour just fit for an excellent Dock,
A Town-Hall primeval, with indolent Clock.

A Light-house indulgent
At night most refulgent,
The marine guiding with its lustrous star
To a Port well secured at each end by a "bar."

There's a Church and Hotel,
Market-house with its bell,
Which peals forth at morn, noon and eve a hoarse
knell!

There's a Chapel and Gaol,
A Post Office and Mail,
And a Court House and Kirk,
Just within a stone's jerk.

There are Fortifications, at which no foe dare laugh
Such as Block-houses two, with a Barrack & Staff,
And in case of a Row there's the quick Telegraph.

There's a Saw-mill and Foundry,
And a long Parish Boundary!
There are plenty of wharves, and some excellent
stores,
With a Trade pretty brisk, right good health, and
no

There's one wharf in particular
That is somewhat recondite,
A "regular net" where all drunkards are caught,
Where the soul is sold out for the liquor that's
bought,

Where penury, want and sudden death have been
wrought!
For some few have been drowned
Nigh to that fatal ground
In the darkness of night when no stars shone
around!

To prevent a recurrence
And in utter abhorrence
Three lamps have been placed on this wharf for to
light

The drunken safe off as they reel home at night.
Still there's much to admire
And as much to desire,
Such as a good head of water in case of a fire;
For although I opine
There's a first rate Engine,
A hydraulic pressure ought by right to combine.

There are two or three "Temperance" and "Free
Masons' Lodges,
A few very "Odd Fellows," in fact, all sort of
"doings"

To cause a "brotherly love"
As ordained from above;
But the "olive leaf's" missing, as also the "dove"
For the staple reason
Of this good-sainted town,
Is the Scandal it propagates both up and down.

Besides the major for Scandal are some minor
schools
In which Lindley Murray expounds all his rules;
Where the "tender thoughts" reared
The preceptors much feared, (Ahem!)

And fresh rosy cheeks with salt tears are besmeared!
With a small population, it must be here credited
There are two Weekly papers, both very well
edited,
But for subscribers' bounty
They count most on the County.

Law not least now to add a long line here I may
Since of all 'tis the main one, I mean the Railway,
And the first in the Province, which none dar
gain say;

Yet nevertheless
Who will not confess
It's great champions have been the St. Andrews
Joint Press!

With the town may they prosper, to the Railway
Success!

One word in respect to "the Natives" I'll say
And mention what is their distinguishing trait:
A vile dirty habit at which they're all fait,—
(Touching "White-eye" I'm dumb,
I discard "Yankee rum.")

The matchless tobacco—the fatalis chew gum!!!
Now the picture is finished without any gilding;
But no, I forgot,—there's a Brewery building!

St. Patrick, June, 1853.

AUTHORITY OF THE BIBLE.

The mother of a family was married to an infidel, who made a jest of religion in the presence of his own children, yet she succeeded in bringing them all up in the fear of the Lord. She was one day asked how she had preserved them from the influence of a father whose sentiments were so openly opposed to her own. This was her answer:—"Because to the authority of a father I did not oppose the authority of a mother; but that of God. From their earliest years, my children have always seen the Bible upon my table. This Holy Book has constituted the whole of their religious instruction. I was silent that I might allow it to speak. Did they propose a question, did they commit any fault, did they perform any good action, I opened the Bible, answered, reproved, or encouraged them. The constant reading of the Scriptures has alone wrought the prodigy that surprises you."

The Boston papers this week furnish us with the particulars of several Railway disasters in the neighbourhood of that city. In one case, by the carelessness of the switch tender, the passenger cars of the express train from New York were run into the freight train, smashing two freight cars, three baggage cars, and four passenger cars badly, throwing the passengers from their seats, creating a fearful confusion, and causing the death of Mr. Wm. Johnson, of Worcester, and seriously wounding several other individuals. In another case, Mr. Winthrop Richardson, a retired tailor, met with a terrible death near his residence at Stoneham, by incautiously attempting to cross the rails as the Manchester express train was coming up. In his hurry to escape he jumped upon the platform, but, falling backwards, was struck by the locomotive, and instantly mangled to pieces, scarcely one of which exceeded a pound in weight, and were thrown about in all directions. A married daughter of Mr. Richardson, who was about leaving for Boston, was an eye-witness of her father's horrible and melancholy death.

SCOTCH COLLEGE IN SPAIN.—A vessel sailed from Greenock recently for Santander, with fourteen lads on their way to the Scotch college, which has existed since the time of our Reformation, in the interior of decayed city of Valladolid, in the interior of Spain. The young men one of whom belongs to Greenock and the others to Glasgow, Edinburgh, &c., are under the charge of a priest. The Superior and Professors in this college are all Scotchmen, and the lads are intended to be trained as priests of the Church of Rome.

JOAQUIN, THE BRIGAND.—A recent California letter speaks as follows of the noted robber Joaquin:—"Joaquin (Wawkeen) the notorious robber and murderer, has thus far eluded capture, although thousands have been upon his trail with a sharp look-out for the 'one thou sand dollars reward,' offered for his arrest by Act of the Legislature. Joaquin is, without a doubt safe in Lower California; yet the Legislature on the 14th inst. passed a bill authorising the raising of a volunteer troop, to scour the country in an endeavour to capture him. But almost any pretext serves as an excuse to tap the already well depleted Treasury of this unfortunate State.

Joaquin is of Spanish descent, and said to be well educated; that he is one of those who welcomed American and American rule in California—but unfortunately one who has been despoiled over and over again, of his property; had his dearest rights invaded and trampled under foot by those scoundrel ruffians found in all our new settled regions, who alike disgrace our nation and common humanity; until at length and with all a Spaniard's revenge he has sworn eternal warfare against every thing and person American. How faithfully he has kept his oath, his deeds of daring and crime have fearfully proven. His prowess and manly bearing, his intelligence and sagacity, make him a foe who has given both guilty and innocent bitter cause to lament the hour when Joaquin became the enemy of their name and nation.

PAID PEOPLE.—Dr. Chalmers says:—"There is a set of people whom I cannot hear—the pinks of fashionable propriety—whose every word is precise, and whose every movement is unexceptionable; but who, though well versed in all the categories of polite behaviour, have not a particle of soul or cordiality about them. We allow that their manners may be abundantly correct. There may be elegance in every gesture and gracefulness in every position, not a smile out of place, and not a step that would not bear the measurement of the severest scrutiny.—This is all very fine; but what I want is the heart and the gaiety of social intercourse—the frankness that spreads ease and animation—the eye that speaks affability to all, that chases timidity from every bosom, and

EXPANDING THE CHEST.—Those in easy circumstances, or those who pursue sedentary employment within doors, use their lungs but little, breathe but little air in the chest, and thus independently of positions a contract a cramped small chest, and lay the foundation for the loss of health and beauty. All this can be perfectly avoided by a little attention to the manner of breathing. Recollect the lungs are like a bladder in their structure, and can stretch open to double their size with perfect safety, giving a noble chest and perfect immunity from consumption.

The Agent, and the only agent required, is the common air we breathe, supposing however, that no obstacle exists, external to the chest, such as twisting it around, with say, or having the shoulders lie upon it. On arising from the bed in the morning place yourself in an erect posture, with your chest thrown back and your shoulders entirely off from the chest, then inhale all the air that can be got in; then hold your breath and throw your arms off behind you—hold your breath as long as possible. Repeat these long breaths as many times as you please.—Done in a cold room is much better, because the air is much more dense, and will act much more powerfully in expanding the chest in this manner, it will become flexible and expandable and will enlarge the capacity and size of the lungs.—Scientific American.

HINTS TO MOTHERS.—If you wish to cultivate a gossiping, meddling, curious spirit in your children, be sure when they come home from church, a visit, or any other place where you do not accompany them, to ply them with questions concerning what every body wore, how every body looked, and what every body said and did; and if you find anything in this to censure, always do it in their hearing. You may rest assured, if you pursue a course of this kind, they will not return to you unladen with intelligence; and rather than it should be uninteresting, they will by degrees learn to embellish it in such a manner as shall not fail to call forth remarks and expressions of wonder from you. You will by this course, render the spirit of curiosity—which is so early visible in children; and which, if rightly directed, may be made the instrument of enriching and enlarging the mind—a vehicle of mischief, which shall serve only to narrow them.

FANNY KNOWS IT ALL.—"Bog's courts are narrow sidewalks are dusty lanes, especially to a hurried business man."

Are they? Suppose you and a pair of blue eyes that you would give half your patrimony to win, were joint proprietors of that baby. I should not dare to stand near you, and call it a nuisance! It is all very well for bachelors to turn up their single blessed noses at these little dimpled Cupids; but just wait till their time comes! See 'em the minute their name is written "Papa," pull up their dummies, and strut off down the street as if the Commonwealth owed them a pension! When they enter the office, see their old married partner (to whom babes have long since ceased to be a novelty) laugh in his sleeve at the new fangled dignity with which that baby's advent is announced! How perfectly astonished they have been so infatuated as to perceive that a man is a perfect cipher till he is at the head of a family! How frequently one may see them now, looking in at the shop windows, with intense interest, at little hats, coral beads and bells, and baby jumpers. How they love to come to dinner, and press that little velvet cheek to their business faces! Was there ever any music half so sweet to their ears as its first-tipped "Papa's" Oh, how closely and imperceptibly, one by one, that little plant winds its tendrils around the parent stem! How anxiously they cling over its cradle when the cheek flushes and the lip is fever parched; and how wide, and deep, and long a shadow in their happy homes, its little grave would cast!

My dear sir, depend upon it one's own babe is never a nuisance!" Love heralds its birth!

FANNY FERN.

MR. VANDERBILT'S STEAM YACHT.

The public were admitted on board the gigantic steam yacht, the North Star, belonging to Mr. Vanderbilt, an American gentleman, now lying in the Southampton Dock, yesterday, for the first time, and hundreds of the nobility and gentry availed themselves of the privilege during the day. The American Consulate establishment has been besieged for days past for tickets to view the North Star, and persons have come a great distance to see her. Every ticket admits ten persons. The public will be admitted for three days previous to the owner's departure.

ture for St. Petersburg, viz: Wednesday, (yesterday), to day, and to-morrow. The saloons and furniture appeared yesterday magnificent in the extreme. Everything on board the North-Star is American, and it is very evident that in many of the useful and ornamental arts the Americans are our equals in point of taste and skill. Surprise has been expressed at the small quantity of fuel consumed on board the North-Star when we consider her great speed. She made one of the quickest passages across the Atlantic on record, and consumed only fifty tons of coal per day, while the consumption ordinarily in such steamers is from 70 to 100 tons daily. She has been enabled to traverse the ocean with such speed at so little expense, by her being driven by what is called a beam engine, an American invention, which has never before been used in a steamer to cross the Atlantic. The fortune of Mr. Vanderbilt is estimated in America at some millions of dollars, or very nearly two millions sterling. He has risen from the ranks. When informed that the people of Southampton would like to visit his yacht, he immediately consented, and only stipulated with his agents, who were empowered to issue tickets of admission, that poor people as well as rich should see the North-Star, and they felt every curiosity to do so. The crew of the North-Star consists of the captain, two mates, four quarter-masters, and fourteen seamen, twenty-four engineers and firemen, and eighteen stewards and assistants. The captain's name is Elbridge. He was for many years commander of a ship between Liverpool and America. A deputation from the chief inhabitants of Southampton have gone to London to invite Mr. Vanderbilt to a banquet at the Town-Hall in that town, and a universal feeling prevails there that the friendly and magnificent from a merchant prince of the New World should be welcomed with becoming splendour and cordiality. All who have seen the North-Star believe that we may learn as much from her in the building and engineering of passenger ocean steamers, as we have learnt from the celebrated American sailing yacht, two or three years ago in the building and rigging of sailing ships. [Daily News, June 10.]

European Intelligence.

The Steamship America, with the English Mail of June 26th, arrived at Halifax on Wednesday morning last in 10 1/2 days from Liverpool. She had 96 through passengers. The Parliamentary intelligence is not of importance. The Income-tax bill was read a second time in the House of Lords on the 21st and in the Commons, on the same night, the Marquis of Blandford obtained leave to bring in a bill to make better provision for the management of Episcopal and Capital property. The India Government bill and the Inspection of Nunneries bill were still under discussion in the Commons.

The return of Messrs. Turner and MacKenzie, for Liverpool, has been declared void in consequence of bribery and treating.

The London Shipping and Mercantile Gazette of the evening of the 24th, says:—"The receipt of more satisfactory news from the Continent has imparted greater firmness to all the stock markets, and has tended to relieve the anxiety of many who look with considerable uneasiness on the present warlike aspect of affairs."

The impression is becoming more general that the Eastern question will be amicably arranged, and that certain concessions will be made on both sides. The English and French fleets arrived in Besika Bay on the 13th inst. A despatch from Vienna states that Lord Carlisle left that capital on the 17th, on his way to Constantinople, and it is said to be the bearer of definitive instructions for Lord Stratford. The Emperor of Russia, on the 12th, visited the harbour of Constandi, where the Baltic fleet is concentrated.

The latest accounts from Constantinople state the Porte had rejected the final ultimatum of Russia. It is stated that M. de Kriese, the Russian Ambassador at Paris, had an interview with the Emperor Napoleon, on Wednesday, when his Majesty is reported to have said:—"Monsieur l'Ambassadeur, tell your sovereign that I do not seek for war, but, if it begins, I shall not be the first to restore the sword to the scabbard."—From Switzerland we learn that another insurrection was anticipated, and the Civic Guard.

The accounts from Madrid state that M. Bermudez de Castro had tendered his resignation, which had been accepted. General Lersundi was still occupied in endeavouring to complete his Cabinet.

LIVERPOOL, June 25.—The accounts from the manufacturing towns during the past week are all satisfactory, and show the extent to which the vigour of our commerce has become independent of politics. Business appears to have been fairly active in all the markets, but the export trade has necessarily suffered to some extent by the continued unsettled state of affairs between Russia and Turkey.

The recent rates for war risks to the Baltic and the Black Sea are maintained, and for vessels clearing immediately the demand is one per cent. for the former, and two per cent. for the latter destination.

The commercial intelligence by the Overland Mail is not of an encouraging nature respecting English manufactures. The Political intelligence so far as it bears upon mercantile interests, is satisfactory; the intended recession of the rich cotton district of Bessar by the Nizam presenting a means for obtaining important results, whenever facilities shall be given by the India Government to internal improvement.

Another.—We understand a man was very badly pointed on the Calais side, near the tollhouse, by falling over a precipice, in the darkness of the night.

Several other incidents of an unpleasant nature occurred, which tended to mar the pleasure of the 4th July; and many could truly say:—"I am self-reliant, and not with in!" O, how circumspectly, the "Maline liquor law," and the N. B. liquor law each of them—was regarded. [St. Stephens Patriot.]

The New York and New Haven Railroad Company have paid \$5000 to William Sparks, of Pittsfield, whose wife was among the killed at Newark.

THE STANDARD.

WEDNESDAY, JULY 13 1853.

ST. JOHN AND BOSTON STEAMERS.—By an advertisement in this day's paper, it will be noticed that the Eastern City and Admiral leave St. John at 8 a. m., and Boston at 11 a. m., every Monday, Wednesday, and Friday, until further notice, touching at Portland on the Monday and Wednesday trips.

SIAMSE TWINS.—These world-renowned curiosities, will be exhibited, or to use the words of the advertisement, "will give a lesson" at the Town Hall, in this place on Friday next, 15th inst., attended by two of their children. As this will be the only chance of seeing this great physiological wonder, all should avail themselves of the opportunity.

THE STEAMER EASTERN CITY, we observe has undergone a thorough repair, and has been fitted up in superb style. She performs her trips with the greatest punctuality, and in good time. Having had occasion to take a trip in this steamer, we can speak from personal observation of her accommodations and her officers. To say that Capt. Winchester is a gentleman well qualified to discharge the duties of Captain, and that he does so in an efficient and pleasing manner, is to repeat that already universally acknowledged; and it is an established fact, that he is kind and attentive to the passengers. We must not omit to notice our respected friend, A. Reed, Esq., the obliging and active clerk of the steamer, who is deservedly respected both as a gentleman, and intelligent officer. With such officers the Eastern City must become one of the most popular boats this side of Boston.

THE STREETS.—We have much pleasure in noticing, that our respected friend the Commissioner of Highways for this town, J. H. Whitlock, Esq., has a number of men at work repairing the streets, which is being performed in a thorough and systematic manner. He is doing as much as the limited means under his control will permit, and it is to be hoped that he will have sufficient to complete the judicious improvements already commenced. There are some streets near the Barrack Hill, which require repair, if labor can be expended upon them.

STEAM BETWEEN ST. JOHN AND ST. ANDREWS.—It is not surprising that some of the steamboat proprietors of St. John, do not place a steamer on the route between St. John, St. Andrews and St. Stephen; there cannot be a doubt but that a steamer would pay well on this route—plying once a week. We believe that the time has arrived when such a want must be supplied, and if the opportunity is let slip, some of our astute neighbors over the line will put a white-washed vessel, in other words, an American steamer with a British register, and fill their pockets with British gold, while John Bull will quietly look on—and pay for the whistle.

BATHING HOUSES.—We have again and again suggested that it would prove a profitable speculation to erect a temporary Bathing Establishment. There are a number of places well adapted for such purposes in the vicinity of the town, one of which we may mention, viz: between the N. W. end of the town and Joe's Point, on land owned by the Hon. Col. Hatch. The beach at Nahant, (Mass.) does not surpass it, and a more secluded and beautiful spot is not in New Brunswick. The expense of erecting a building for bathing would be trifling. Several families in St. John and Fredericton would visit this place annually, to enjoy the luxury, and breathe the pure air of our healthy town, were there accommodations for them. In addition they could enjoy a ride on our railway several miles up the country, and return again in time for breakfast or dinner as they thought proper.

The first number of the "Temperance Advocate," published in Woodstock, reached us last week. The paper is neatly got up, and is to be under the management of the Rev. Thomas Todd and Mr. A. A. Bynon.

CONVERSE WITH THE DEAD.—The "Spirit Rappers" made a bold attempt to introduce themselves into our community on Thursday last, but failed in accomplishing their object, as word came upon them to the effect, that they were not welcome, and that it were very desirable for them to be off as speedily as possible.

With respect to these Spirit Rappers, we think it but right to say a few words. Were it indeed so, that we looked upon them in the light of Dr. Lamb's charm, "If I do you no good, I'll do you no harm," we should say nothing, but let them alone. But this is not the case. We think they are wicked, and that they and their proceedings come under what was strictly forbidden in holy writ, Necromancy, practised by the Pagans of old. We think it a revival, or at least a branch of that abominable system. All that used divination, or was an enchanter, or a witch, or a charmer, or a consulter with familiar spirits, or a wizard, or a necromancer, (Deut. ch. 18.) what was their punishment? It was nothing less than that they be put to death, stoned with stones. True—it is we have not witnessed any of the proceedings of the Spirit Rappers at any time, nor do we intend to, still we have read much concerning them, and have seen it asserted gravely, that the Mediums, the most of them, do either go crazy, or else die very soon. It seems very strange, that if the Rappers be of light, or in other words, good spirits or angels, how is it that they do not show themselves, instead of keeping back, hiding themselves, "loving darkness rather than light."

This materially demonstrates what sort they are. Now, if it be possible for us to hold communion with departed spirits, as they say we can, we trust it will not be with such as belong to the "hot house," for we really desire sweeter converse and better company than any of this stamp. To end all disputes upon the subject, however, and to make all things as easy as possible, the best and surest way of getting along is, not to have any thing to do with the concern. This we recommend.

We have thus expressed our opinion upon the Spirit Rapping System, and if it be wrong, all we wish is, that the "Spirits" forgive us with their whole might.

ARRIVAL OF MR. CRAMPTON AT HALIFAX.—We learn by telegraph, that J. F. Crampton, Esq., H. M. Minister at Washington, arrived at Halifax last Thursday night in the mail steamer from Boston, having left Washington last Sunday evening. We believe that it has been the intention of Mr. Crampton, during the last two seasons, to visit these Provinces, but circumstances have occurred which prevented his doing so until the present time. It is not at all unlikely that Mr. Crampton may visit this City in a few days, on his way back to the United States.—[New Br.]

His Excellency the Lieut. Governor, left Fredericton on Monday last, for an excursion into the interior of the Province, intending to follow up the North West Miramichi (a river very little known), and thence portage across to the Nepisiquit, or, if it be found practicable, to strike the head waters of the Upsalquitch, and follow that river down to the Restigouche. His Excellency is accompanied by Mr. W. C. Drury, Private Secretary, and will be absent about four weeks proposing to return by the Bay of Chaleur, and the northern coast of this Province.—[N.B.]

We notice in the "Head Quarters" of 6th inst. the report of a trial in the Supreme Court at Fredericton, on Monday last, of a case between the Queen and John Glasier, Esq., on which the Jury could not agree.

The Head Quarters states that the prosecution was instituted by the Government on bonds given by the defendant, on the distinct understanding that they were not to be enforced unless the property in dispute, (timber cut on the territory then in dispute between Canada and New Brunswick,) "should be decided to belong to New Brunswick; and that the subsequent decision has determined this property to be far within the lines of Canada." We can scarcely imagine that, under such circumstances, an attempt would be made to enforce a bond, and must therefore conclude, until we are better informed, that there must be another version of the story. The Attorney and Solicitor Generals conducted the case for the Crown; the Hon. Chas. Fisher and W. J. Ritchie, Esq., were Counsel for the defendant.

IMPORTATION OF HORSES.—Eight Counties, viz. St. John, York, Charlotte, Westmorland, Albert, Kent, Northumberland, and Gloucester, have determined to avail themselves of the liberal encouragement offered by the Legislature, for the importation of Stud Horses of a superior description. The law passed last Session provides that the Province shall contribute to the price and expense of importation of such Stud Horses imported by any County, to an amount not exceeding £300, on its appearing that the County had contributed £50 for the like purpose.

Those eight Counties have raised the required amount, (£50 each) and Dr. Cumming left for Europe last evening to select right horses, and personally attend to their importation.—[Freeman.]

Major General Gore Commander in Chief of the Troops in the Lower Province, his daughter Miss Gore, Capt. Gore, A. D. C., Capt. Knox, R. A., and Capt. Ford R. E., arrived here on Monday last from St. John. The object of the General's visit, we have not heard, but suppose he or any other officer, can travel where they please. We understand that these distinguished persons are the guests of John Wilson, Esq., of Chamcook.

The Cotton market is lively notwithstanding the Eastern difficulties, but prices had not varied much. The Sales of the week reached 57,880 bales.

The Corn market has declined, owing to the propitious weather and the luxuriant state of the crops. Breadstuffs of all kinds are inanimate. Flour, slow, at sixpence decline.

Maurice O'Connell, M. P. for Tralee, eldest son of the late Daniel O'Connell, died suddenly in London on the 18th. It is expected that he will be succeeded by Tralee by Daniel O'Connell, another son of the great liberator.

A report prevails that a vacancy in the representation for the City of London may shortly be expected, on account of the elevation of Lord John Russell to the peerage.

FISHERY REMOVALS.—The Washington correspondent of the Baltimore Sun writes as follows on the 29th:—

I am glad to learn that I was not mistaken in my statements to the fishery question, and that there is good reason to think that Governor May will soon be enabled to settle the question, in a manner very gratifying to this country, and especially to our fishing interests. Of course we must give some equivalents, and they are of the character that bless alike the giver and receiver—the good gift of freedom of trade.

But I do not learn that Admiral Seymour will, meanwhile, suspend his operations against the American fishing fleet, or that the American fishermen will cheerfully submit to be skinned, like cats, because they got used to it, last year, or expect an exemption from it, the next. The battle of New Orleans was fought after the treaty of Ghent was agreed upon. So the public may not be, after all, disappointed in regard to the occurrence of this fishery fight.

MELANCHOLY ACCIDENT.—On the evening of 3d inst., a young man, William Young, ship carpenter, formerly of Prince Edward Island, was unfortunately drowned at the Landing, near Watson's Wharf—the deceased, was a stranger, in St. Stephen, and the right being very dark, it is supposed that the darkness, combined with his ignorance of the dangerous place, resulted in his premature death.

FROM TURK'S ISLAND.—Capt. Larkin, of Type, at Philadelphia from Turk's Island reports heavy rains at that Island, which have destroyed about 150,000 to 200,000 bushels of salt, in consequence of which salt has materially advanced; held at 15 cents when it left New Br.

Last week the steamer Admiral took 18,000 pounds of fresh salmon from this city for the American market.

Naoma, the daughter of Enoch, was 550 years old when she married. Courtesy ladies.

In Oregon the neglect of a husband, for six months to provide a home for his wife, is a cause for divorce.

CHANG AND ENG.

AFTER a retirement from public life of nearly twenty years, are now making a brief tour of a few of the principal cities of the United States, previous to a visit to Europe. They will give their services

At the TOWN HALL, ST. ANDREWS, On FRIDAY, July 15, Positively for one day only.

Since they were last on exhibition they have married, and Casus has two and Eng, six children. They present the only instance in the world of two living beings naturally joined together; and have been pronounced by all medical men the greatest physiological wonder in existence. An astonishing degree of sympathy exists in their feelings, and the movements of both generally proceed from a simultaneous impulse. They will be found agreeable, intelligent and communicative. They will be accompanied by

Two of their Children.

As their engagements are always made many days in advance, they cannot, under any circumstances, remain in town longer than the time specified above.

Admission 25 cents; children under nine half price. Doors open from 3 to 5, and 7 to 9 p.m.

July 13, 1853.

New Arrangement.

Between St. John, Portland, and Boston.

THE Steamers "EASTERN CITY" and "ADMIRAL" will commence on MONDAY, July 11th, leaving St. John at 8 a. m., and Boston at 11 a. m., every Monday, Wednesday, and Friday, until further notice. Touching at Portland both ways on the Monday and Wednesday trips; Friday trips will not touch at Portland either way. The last steamer James Porter, Capt. McEwen, will on arrival of the "Eastern City" at Eastport, leave for St. Andrews, Robbinston, and Calais.

**Now Published
By JOHN TALLIS & CO. OF LONDON,
THE LIFE AND TIMES OF THE LATE
Duke of Wellington;
By Lieut. Col. Williams; (a Companion in
Arms of His Grace.)**

Comprising the Campaigns and Battle-
fields of Wellington and his Comrades,
the Political Life of the Duke and his
Contemporaries, and a detailed account
of England's Battles by Sea and Land,
from the commencement of the Great
French Revolution to the present time,
interspersed with Anecdotes, Personal
Incidents, and Adventures, etc.
ADDRESS.

The earthly career of Arthur Duke
Wellington has closed; one of the greatest
men of the nineteenth century, the fore-
most military commander of any age, has
paid the debt of nature. The time has now
arrived for giving to the world a History
of the Great Captain—the Events of his
Life and Time—a life marked by patriotism,
pride and honour, and events the greatest
which have ever agitated the civilized
world, and whose influence will be felt
upon society till the end of time. Such a
work must appeal to the best and proudest
feelings in the heart of every Briton—the
glory of his country, the honour of its name
and position among the nations—pay his
own existence as a freeman, are recorded
and engraven in the annals of the "well
fought fields," and "the deadly imminent
sieges in which Wellington and his
Companions in arms gathered upland lau-
rels, placed their country's honour and
renown on the highest pinnacle of fame and
glory, and tore the victor's wreath from the
brows of heroes decorated with the trophies
of Italy, Egypt, and Germany.

To supply such a desideratum in En-
glish literature, the publishers of The Life
and Times of the Duke of Wellington have
determined to produce a book which shall
present to the reader, not only the dry
details which a mere biographical sketch
would afford, but a comprehensive work,
embracing a contemporaneous history of
the period; exhibiting the circumstances
which brought about the great events in
which the Duke and his contemporaries
were engaged, and giving to the reader a
connected narrative of the lives and actions
of the Warriors and Statesmen of the nine-
teenth century; and this from the pen of
one who was a companion in arms of the
great hero, and participated with him in
many a well fought field.
In order to carry out their views, the Pub-
lishers have determined that the work shall
be profusely illustrated by Portraits of the
Warriors and Statesmen of the last half
century who have shed a lustre upon the
history of their country; also representa-
tions of the most important engagements by
sea and land from the period of 1750 till
1852; so that the work, when finished, shall
form an Illustrated Gallery of the Naval and
Military Exploits of England.
It has been well said, "Character is the
true strength of nations; true glory their
best inheritance. When the time shall
come that the British heart no longer thrills
at the names of Cressy, Poitiers, Agin-
court, Blenheim, Ramilies, Oudenarde,
Malplaque; of Talavera, Salamanca, Tou-
louse, Waterloo,—the last hour of the
British Empire will be struck." The pro-
motion and elevation of national spirit and
feeling is therefore the duty and interest
of every true and loyal son of England.
May Heaven inspire the hearts of every
one of us with that spirit and feeling.
Conditions of Publication.—The work
will be issued on the 1st and 15th of every
month, in Parts at 1s. 3d., and Divisions
handsomely bound at 9s. 4d., printed on Im-
perial 8vo. double columns, each part will
be embellished by two highly finished steel
Engravings, and will contain 32 pages of
letter press. A beautiful steel Engraving,
13 by 19 inches, the storming of Seringapa-
tam, the first victory in which the late Duke
of Wellington was engaged in India, to
every subscriber to the work.

GOVERNMENT EMIGRATION OFFICE.
St. John, 21st, April 1853.
The copy of a despatch to His Excellency the
Lieutenant Governor, from His Grace the Duke
of Newcastle, Her Majesty's Principal Secretary
of State for the Colonies, has this day been re-
ceived, announcing that the proposed emigration
of children from England to this Province will not
take place. The following is the concluding para-
graph of the Despatch, which is dated Downing
Street, 29th March 1853: "Considering therefore
the difficulties and dangers of executing the plan,
and seeing that after all, there is no prospect that
it could be carried to any such extent as to be of
importance to the interests of the Province I do
not think that it ought to be prosecuted further."
(Signed) Newcastle.
Persons in all parts of the Province, who have
made application for children from England, will
please take notice that such cannot now be fur-
nished.

JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT, FOR THE CURE OF Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and CONSUMPTION.

Can be and as been cured in thousands of cases by this only certain remedy.

JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT, and no remedy has ever before been discovered that will certainly

CURE CONSUMPTION.

The most strongly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and ulcerated and the case so utterly hopeless, as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, has been cured by this wonderful remedy.

It is a compound of medicaments which are peculiarly adapted to and essentially necessary for the cure of

COUGHS AND CONSUMPTION.

Its operation is mild, yet efficacious; it loosens the phlegm which creates so much difficulty, relieves the cough and assists nature to expel from the system all diseased matter by exhalation, producing a most delightful change in the breathing and chest, and this, after the prescriptions of the very best medical men and the inventions of kind sorrowing friends and Nurses, have failed to give the smallest relief to the Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE persons have been deceived in buying medicines which were said to be infallible cures, but which have proved only palliatives, but this medicine is not only a palliative but a cure for ulcerated lungs. It contains no deleterious Drugs and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the Lungs, such as Spitting of Blood, Coughs, pains in the side and chest, night sweats, &c. &c.

About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen and Merchants, have been sent us for this medicine, but the publication of them looks too much like Quackery, [will show them to any person calling at our office.] This medicine will speak for itself, and enough in its own favour wherever it is tried.

Caution.—This medicine is put up in a large bottle and you must find the name of Comstock & Brother, Proprietors, New York, on the splendid Wrapper around the bottle. All orders must be addressed to Comstock & Brother, No. 9, John St. New York.

TO OWNERS OF AND DEALERS IN HORSES.

CARLTON'S FOUNDER OINTMENT.
For the cure of Founder, Split Hoof, Hoof bound Horses, and contracted and Feverish Feet, Wounds, Bruises in the flesh Galled Backs, Cracked Heels, Scratches Cuts, Kicks, &c., on Horses.

CARLTON'S RING-BONE CURE.
For the cure of Ring Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDER.
FOR HORSES AND CATTLE.

The changes of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at those changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Botts, &c. All of which will be prevented by giving one of these powders, and will at any time cure it when any symptoms of disease appears if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretory glands, and therefore have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or producing a bad state of the blood are speedily cured by them.
