Grace Church

REV. H. J. LEAKE, M. A., Rector

21st Sunday after Trinity
S. S. Rally Sunday

11 a. m.—Service on Religious Education. Subject: "The Beginning of Wisdom."

7 p. m.—God and the Sinner.

10 a. m. Sunday School and Bible classes meet as usual and proceed to church at 11.

The W. A. meets in the Parish Hall Thursday, Oct. 20, at 2:30 p. m. At 8 p. m. United Prayer meeting in Parish Hall to promote the Go to Church campaign.

Knox Church

REV. J. F. WEDDERBURN, B. A., B. D., Minister

Morning and evening services conducted by Rev. J. M. Whitelaw, B. A., B. D. of Hagersville.

Mission Band meets Sunday afternoon at 3 o'clock.

Sunday School and Bible Classes at 9:45 a. m.

The Church Club meets Wednesday evening at 8 o'clock under the auspices of the Missionary committee.

Methodist Church

REV. C. L. POOLE, B. D., Pastor

Sunday School 10 a. m.

Public Services 11 a. m. and 7 p. m.

Prayer Service on Thursday evening at 8 o'clock.

In Memorium

In loving memory of William Arthur Tuck, who passed away Wednesday, Oct. 16th, 1918.

When least expected death does come,
No hand can stop its power,
The fair, the healthy and the strong,
All perish like a flower.

Time speeds along, three years have passed

Since death its gloom and shadow cast
Within our home where all was bright,
And took from us its cheering light.

We miss that light, and ever will,
His vacant chair there's none to fill;
Down here we mourn, but not in vain,
For up in Heaven we'll meet again.

Father, Mother and Sisters.

Mountsbug

Anniversary services were held in the Methodist church on Sunday last. Rev. Elmer Sinclair of Lincoln Ave. Church, Galt, conducted the services. The Freelon choir was in attendance at the morning service and the Campbellville choir in the evening.

Miss Mary and Mr. Frank Mount of Hamilton spent Sunday under the parental roof.

A large number from here attended the Freelon fair last Wednesday.

Mrs. C. Green of Freelon and Rev. Elmer Sinclair of Galt spent Sunday with Mr. and Mrs. Geo. Bogle.

Miss Janet Mount is spending her holidays in Hamilton.

There were many heavy hearts and sad faces here last Friday when the rain spoiled the plans they had made for Caledonia show.

Quite a number from here attended the funeral of John Hoffman which took place on Sunday from his brother's residence to Mt Carmel cemetery where he was laid to rest with military honors.

Repairs are being made on the Methodist church here.

LOST Large tire and rim between Waterdown and Carlisle, or in the neighborhood of Mike Carroll's or Pat Gavins. Reward, Wm. Bell, American Hotel, Waterdown.

Village Council Meeting

At the call of the Reeve the council met in special session on October 6th, re tiling Dundas street and placing telephone poles on Reynold and George streets.

The Reeve and other members all present.

On motion of councillors Crooker and Dale, the council resolved to accept the offer of the Hon. F. C. Biggs to tile Dundas street on each side the entire length in the village, and to widen the stone foundation in the central block of the village, for the sum of \$2000, the same to be payable at the completion of the work, under the following conditions, viz:

I. That "T" pipe tile be used at the intersection of each cross street, said tile to be made of cement and 12 inches in diameter.

II. That the tile be placed not less than three feet in depth.

III. That the level on each side of the street be such as to take the water from the corner of Main and Dundas streets to the Vinegar Hill bridge.

IV. That the tile between Main and Mill streets be placed at such a distance from the centre of the street as to allow an eight foot sidewalk on each side of the street.

V. That the road be macadamized from curb to curb between Main and Mill streets.

VI. That the present cement walk on the north side of Dundas street from the Eastern limit of the village to Vinegar Hill bridge be lifted by the Highway Department and the level be given for replacing the said sidewalk.

On motion of councillors Atkins and Crooker permission was given the Bell Telephone Co. to erect two poles on Reynold street and two poles on George street, work to be under the supervision of councillors Dale and Dougherty.

On motion the council adjourned to Oct. 10th.

On Monday evening the council met in regular session with the Reeve and other members all present. The minutes of the previous meeting were read and adopted.

A communication was read from Mr. W. R. Platt re a light on the Innes hill, and one re fire protection.

On motion of councillors Crooker and Dougherty the council decided to put gravel on Reynold street as far as the residence of Miss Carson.

On motion of councillors Dale and Atkins, the council decided, with the approval of the Hydro Electric Co., to make an extension of the Hydro line on Mill street south a distance of approximately 270 feet, and place a light on the last pole, also that a light be placed at the southwest corner of Dundas and Main streets.

On motion of councillors Crooker and Dougherty the Waterdown Agricultural Society was given a grant of \$25 for their Fair for 1921.

The following accounts were passed and ordered paid.

To Thos. Radford for spreading gravel, \$15.

To F. Johnson for corporation work, \$3.50.

To Thos. Dent, balance for laying cement walks and paying help \$37.60

To Waterdown Review, printing Voters' Lists, \$35.

To Fred Thomas, for teaming gravel, \$108.

Locals

Mr. Wilbert Cummings has purchased Mrs. Sam Cook's property on Main street.

Mr. Fred McMonies arrived home yesterday after several week's visit in the West.

Mrs. A. M. Evans of Hamilton has moved to her new home on George street.

Mrs. W. George Spencer will receive on Thursday, October 20th from 4 to 6 o'clock.

The Misses Mabel and Louie Hood have been visiting their uncle, Mr. Thos. Lees, Niagara Falls.

The ladies of Knox church will hold a Bazaar and Concert in the Sunday School room on Wednesday, Oct. 26th.

Mr. and Mrs. H. Moller, Miss R. Anderson of Toronto, and Miss R. Anderson of Prince Rupert, B. C., visited with Mr. and Mrs. George Hood this week.

A "Go to Church" campaign for November was launched last Tuesday evening in the Methodist Sunday School room by representatives of the three churches.

A very enjoyable time was spent last Friday at the home of Mrs. A. L. Featherstone when a number of friends gathered to give her a surprise in honor of her birthday.

On Tuesday evening, October 25th a most interesting and novel entertainment will be given under the auspices of the Methodist choir when the entire program will be given by gentlemen. There will be some bright chorus work and humorous solos and duets, and a snappy debate will also be a feature. Watch for future particulars next week and keep the date open, for you will not want to miss it when you hear all the "stunts" which will be done.

Greenville

Mrs. E. Fraser has been called to home of her daughter in Rochester who was killed in an auto accident.

Mr. and Mrs. Baker of Hamilton spent the week end at Mr. Fenton's.

Miss M. E. Clark returned on Monday from a trip to Scotland.

Miss Marion Mitchell, Hamilton spent the week end with her grandparents, Mr. and Mrs. J. Adams.

HYDRO ACCOUNTS

To Hydro Electric Co., power bill for August \$424.68, 72 brown insulators \$11.52, inspecting meter at Wabasso Park \$15.37, 37 Acme brackets \$32.40, 12 cross arms \$9.95 24 braces \$6.36, total \$499.66.

To H. Nicol, Hydry work \$22.20.

Moved by councillors Dougherty and Dale that this council proceed at once to put into effect By-law No. 222, ssid by-law calls for a \$20,000 Memorial Hall on the Bell House site. The same to be built in conjunction with the Community Hall Act which makes provision for a \$2000 Government Grant. It was moved in amendment by councillors Crooker and Atkins that the motion be laid over until the next meeting. The amendment carried.

On motion the council adjourned.
J. C. MEDLAR,
Village Clerk.

USING LIGHTNING RODS

Erroneous Opinions Corrected by Statements of Expert.

Why Buildings Should Be Rodded—When Metal Roofs Are Safe—Shelter of Trees Unsafe During Thunder Storms.

(Contributed by Ontario Department of Agriculture, Toronto.)

The many direct questions concerning lightning rods or cables, methods of installing, etc., sent to the Department of Physics, O. A. C., Guelph, are often accompanied by statements of the views of those submitting these questions. The following list of corrected views, or impressions, will prove helpful to those who are at all interested in the protection of their property from lightning discharges.

E. denotes an erroneous view of statement.

C. denotes correct explanations or statements of facts.

E. Lightning rods attract the electric charge on the cloud and then allow the flash to travel down the system of lightning rods to the ground where it disappears.

C. The rodding system forms a connecting link between the charge on the cloud and the charge on the earth and structure protected. The charges on the cloud and on the earth are of opposite polarity, and the induced charge on the earth or structure is quietly neutralized by the rodding system including the ground rod, the cable, and the points on the ridge. The neutralizing of the charge takes place in the form of an almost silent discharge from the points placed on the ridge, or on prominences at various parts of the building. It is in this "preventing" the sudden flash from the cloud that the chief efficiency of the rodding system consists. The system helps to avoid destruction by fires even in cases where a flash cannot be prevented, but these flashes are almost unheard of to-day with the efficient rodding systems being installed by lightning rod dealers. "Rodding systems properly installed do protect."

E. Any kind of rodding "system" is satisfactory if the proper kind of rod or cable is used. It all depends on the rod.

C. Rather say any durable rod, copper over three ounces per foot, and iron 4 1/2 ounces per foot is good enough "if properly installed." Emphasis cannot be too strongly laid on the "method" of installations.

E. If the ground rod or cable is placed in the ground a distance of six feet, it is considered satisfactory.

C. Ground rods must be down to perpetual moisture, or (where this is impossible) special arrangements must be made to provide the best grounding, more ground rods being necessary and special advice must be sought as to the best method in each special case.

E. A building with metal roof is safe from electrical discharges.

C. A metal roof grounded at the corners, and with a "sharp" ridge-board or points, makes an excellent system for fire protective purposes. The chief metal parts in the building must, however, be connected to the main system as suggested in rodding specifications, Bulletin No. 229 of the Department of Agriculture for Ontario.

E. Even properly rodded buildings are sometimes struck.

C. Although the above is true, the chances of their being injured if struck, or struck at all, are so few that one is safe to challenge the statement as "misleading." When hundreds of thousands of dollars' worth of property is being destroyed annually in the Province of Ontario there are on record spaces of twelve months' duration where no single properly rodded building was burned, and practically none even injured.

E. The safest place in a thunder-storm is a sort distance from a tall tree, but lightning is liable to strike anything, or anywhere.

C. Keep as far away as possible from trees. All things are not equally liable to be struck. There are no freaks in the case of lightning discharges. Some things are never struck, other things are almost invariably struck if a discharge takes place near them.

E. Our buildings are insured. Then why rod them at extra expense?

C. No one has any right to take a chance on destroying life and property even if the life of the individual or the property is insured. How

Farm Bookkeeping

Our three months' course on Farm Bookkeeping is purposely made for young men on the farm who cannot devote the time to one of our longer courses. It will cover Bookkeeping as planned for practical use—it is written by the Dean of one of the largest Agricultural Colleges on this continent.

Let us send you free literature pertaining to this course.

NOTICE OF APPLICATION FOR DIVORCE

NOTICE IS HEREBY GIVEN that Mildred Emma Blackford, of the City of Hamilton, in the County of Wentworth, in the Province of Ontario, will apply to the Parliament of Canada at the next Session thereof for a Bill of Divorce from her husband, Albert Charles Blackford, of the City of Detroit, Michigan, in the United States of America, Editor, on the ground of adultery.

Dated at Hamilton, Province of Ontario, the 22nd day of August, 1921.
SNIDER, MORGAN & WALSH,
Solicitors for Applicant.
ANDREW T. THOMPSON, K.C.,
Ontario Agent.

VOTERS' LIST, 1921

MUNICIPALITY OF THE

Township of East Flamboro

Notice is hereby given that I have translated or delivered to the persons mentioned in Sec. 3 of the Ontario Voters' List Act, the copies required by said section to be so translated or delivered of the list made pursuant to said act, of all persons appearing by the last revised Assessment Roll of the said municipality, to be entitled to vote in the said municipality at elections for members of the Legislative Assembly, and at Municipal elections; and that the said List was first posted up at my office at Waterdown, on the 30th day of September 1921, and remains there for inspection.

And I hereby call upon all voters to take immediate proceedings to have any errors or omissions corrected according to law.

L. J. MULLOCK,
Clerk of Said Municipality.

about reduction of insurance premiums when buildings are rodded?

E. All rodding companies are trustworthy. Therefore buy the cheapest cable and installation.

C. All rodding companies in the country are not equally trustworthy even if honest and conscientious in their work. There is such a thing as lack of knowledge of the proper method of installation. Therefore deal only with those companies who know their business and guarantee good workmanship. The best is none too good when human lives are at stake.

Conclusion.—All valuable farm buildings, unless of steel structure throughout or entirely enclosed in metal, should be rodded or partly rodded, as the case may demand. Only the work of the most reputable firm should be considered "good enough." If in doubt seek advice from the Ontario Department.—W. C. Blackwood, O. A. Guelph, Guelph.

All vegetables should be harvested in the early morning and put in a cool place until desired for use. None eat places until desired for use. None eat places until desired for use.

A PICTURESQUE BARGAIN.

Canadians Have Treaty With Northern Indians.

"And this agreement shall go on forever and aye."

Thus in part runs the wording of an agreement between the Canadian Government and certain nomadic tribes of far northern Indians who live to-day much as their forefathers did hundreds of years ago. The carrying out of this treaty presents one of the most interesting sights to be viewed on the far northland, but one seldom seen by the traveler, as it occurs only once a year and in places remote.

In the far northland, says Francis Dickie, in the Western Home Monthly, though the Indians still have the same hunting and fishing privileges as their forefathers and are practically as independent as before the white man came, the Government in return for the nominal taking of the country made a treaty about half a century ago in the name of the "Great White Queen," which reads in part: "Her majesty agrees that each chief after signing the treaty shall receive a silver medal and suitable flag, and every third year thereafter he shall receive a new suit of clothes." Every common member of the tribe yearly receives \$5; the chiefs \$25; and the headmen \$15. In addition each tribesman receives as much ammunition and twine for nets as amounts to the value of a dollar. Certain places throughout the northland, generally some trading post on the bank of one of the larger rivers which flow through the region, are made the appointed meeting places. To these once a year the Government agent comes carrying in his grips tens of thousands of dollars in one and two-dollar bills. Larger denominations are never used.

Out on the open plain the agent stands surrounded by the vast concourse of red men, chiefs, headmen, aged hunters, young bucks, squaws and myriads of children. One by one the Indians come forward and receive their yearly treaty, the white man checking off each name in his book as he pays. The agent is always a man carefully chosen for his work, one with knowledge of the natives gained by years of close personal touch. Generally he speaks one or more languages.

As there is little possibility of the land ever being settled, that part of the wording of the treaty which stipulates that the Government will yearly pay out so much money per person according to their rank "forever and aye," in all likelihood will be paid forever and aye, in keeping with the original wording, which is more than can be said of many treaties made with aboriginal people by the white invaders.

To the Farmer:

The purchase of a Piano or Victrola is only purchased invariably once in a lifetime. Therefore it behoves the purchaser to get the best and make sure you have the best.

I have had 25 years experience in tuning and repairing musical instruments, therefore feel quite confident I can choose the best instruments on the market.

I shall be pleased to place any instrument in your home beside any other in fair competition and let you yourself be the judge, without you feeling under any obligations absolutely. I can also save the purchaser quite a few dollars on account of my expenses being so low. I will always give you my best personal service and devote the whole of my time to supplying the country people. A postcard or telephone call will oblige.

Yours truly,

F. WATERS

WATERDOWN,

ONTARIO

FAIRS ADVERTISE YOU

Both the Community and the Exhibitor Get Publicity.

It Pays to Let Others Know That You Have the Goods — Fighting the Hessian Fly—The Silo a Proven Utility.

(Contributed by Ontario Department of Agriculture, Toronto.)

To the general farmer who grows good grain for seed, to the specialist in garden and truck crops, and particularly to the live stock man, the Fall Fair offers an opportunity. It pays to advertise; the Fair is the place where the people see the goods produced, and seeing is believing. Moreover, the papers report the winnings, and through these the exhibition gets a large amount of advertising free which would otherwise cost him a considerable amount of money. Winning in close competitions under a competent judge adds dollars to the value of stock shown and increases the market price of any commodity, as well as giving the exhibitor a standing not only in his own community but over a section of country corresponding to the size and influence of the show at which prizes are won. The Fair is a good place to make sales. Prospective buyers see the good exhibits made and enquire about the breeding stock at home. Stockmen show at Fairs largely to make sales rather than to win prizes, although the latter is a factor in the sales and they are not disappointed as evidenced by the growing interest in the Fall Fair. Showing at the Fair, coupled with a judicious newspaper advertising policy, which should never be neglected, is good business. The two go together and work hand in hand. It pays to let others know of your good stock. Use printers' ink and show at the Fall Fair.—Wade Toole, O. A. College, Guelph.

Fighting the Hessian Fly.

Growers of winter wheat are advised to practice immediate control measures advocated by the Department experts. The following eight cardinal control measures, if rigorously enforced and adhered to by every grain grower, will prevent the introduction and spread of the pest:

Do not sow wheat on stubble if possible to avoid it.

Plough under all infested stubble and ruined wheat where practicable soon after harvest, especially where this does not interfere with the growing of clover and forage grasses.

Destroy all volunteer wheat by harrowing, disking, ploughing, or otherwise.

Plough all winter wheat land as early and deeply as existing conditions permit, and prepare a thoroughly pulverized and compacted seedbed.

Conserve moisture against a period of drought at seeding time.

Use the best seed procurable.

Keep the soil in good tilth and, most important of all, sow winter wheat during the fly-free period as advised by local farm advisers or experiment stations.

Work in co-operation with your neighbor in fighting this pest, as community action is essential to insure complete success.

Late sowing is recommended, but not too late sowing, as the latter is as disastrous in its ultimate results as is too early sowing. Uncle Sam's grain-disease doctors say that the safe date in a time of normal rainfall usually coincides, in any one locality, with the preferable time for sowing to bring maximum yield. For example, grain growers in northern Michigan and Ontario are advised to sow after September 1, while the producers of southern Michigan and northern Ohio will escape fly infestation if they plant their grain about September 20.—U. S. Weekly News Letter.

Silo Almost as Useful as Barn.

The silo is rapidly becoming recognized as a necessary part of the farmer's equipment. A farm without a silo, at least in the corn area, is no longer up to date. The rapid adoption of the silo is accounted for by recognition of its advantages.

If corn is cut at the proper stage and put into a good silo, the whole corn plant is eaten.

Silage is more convenient to feed than is any other rough feed commonly used on the farm.

Silage is both palatable and succulent.

The addition of a succulent feed to a ration increases the digestibility of the dry feed eaten.

With a silo it is possible to save corn that might otherwise, owing to immaturity, be largely wasted.

The silo not only provides excellent feed in winter time, but furnishes a means of keeping more for summer use feed of high quality.

A Girl and a Shrewd Un.

"They say that girl visiting Mrs. J. p. is handy enough to stop a clock."
"None the less, I found her so at my active entertaining that while she was sitting for me I sneaked up and stopped the clock myself."—Detroit Free Press.
