Berlin, Sept. 1.—Via London. The National Zeitung publishes to-day a leading article under the heading, "Wilson, Bryan and Roosevelt," which is noteworthy for its friendly tone and for the ungrudging admiration expressed for President Wilson.

The article begins by saying that discussions of the Arabic affair have been in a quieter tone since Count Von Bernstorff, the German ambassador at Washington, presented his request to the American government to delay action until Germany had had the opportunity of presenting its side of the case.

MONEY VALUE OF POUND GOES DOWN

Sensational Decline in the Value of the Pound Imperils United States Pay Envelopes.

(By B. C. Forbes.) New York, Sept. 1.—The value of British money broke sensationally here yesterday to \$45.12 for a pound sterling, a depreciation of fully six per cent. The British pound was worth \$47.78 at the beginning of August.

Unless Britain can get hundreds of millions of funds here to meet her enormous bills, she may have to restrict purchases of all but war materials to such an extent as to affect employment and business in this country, bankers declare.

WILL HURT PAY ENVELOPES. The American workman does not see any connection between foreign exchange, to him a Greek phrase, and his pay envelope, but unless the collapse in the medium of settling Britain's bills can be checked, many pay envelopes here are threatened, as the British government will perform have to limit its own buying of ammunition materials, and will doubtless take steps to restrict purchase of merchandise here by British merchants and importers, our largest overseas customers.

WILSON IS ADMIRER BY ALL BERLIN PAPERS FOR HIS DIPLOMACY

Standing Between Two Rivals, He Withstood All Temptation To Political Gain.

By Special Wire to the Courier.

Berlin, Sept. 1.—Via London. The National Zeitung publishes to-day a leading article under the heading, "Wilson, Bryan and Roosevelt," which is noteworthy for its friendly tone and for the ungrudging admiration expressed for President Wilson. The article begins by saying that discussions of the Arabic affair have been in a quieter tone since Count Von Bernstorff, the German ambassador at Washington, presented his request to the American government to delay action until Germany had the opportunity of presenting its side of the case. Even the anti-German newspapers admitted the justice of this request, the article says, and there now remains no obstacle to friendly discussions of differences which, while real, are by no means of such a nature as to prevent a satisfactory compromise.

The personality of President Wilson has been illuminated more strongly than ever before, the National Zeitung says, during the exciting days through which America has just passed. The president will appear to many in a new light. Never was his position more difficult than during the Arabic crisis, "when Mr. Bryan was calling on Americans for peace at any price, and Col. Roosevelt was summoning them to war against Germany."

President Wilson is pictured in the article as standing between the two rivals, whose activities threatened to bring about such a situation that the president might make his attitude toward Germany dependent on domestic political considerations. That President Wilson withstood this temptation and may be counted on to withstand it further must be acknowledged, the newspaper says, notwithstanding the fact that the German people certainly have reason to be dissatisfied with his attitude in the matter of submarine warfare.

Mr. Wilson is characterized as a more clever politician than the "unlucky Bryan and the astute politician Roosevelt."

The article is concluded with the statement that Germany has always desired to maintain the traditional friendly relations with the United States, and that it may be hoped the Arabic case will serve to clear up misunderstandings on both sides. It must be possible to reach an understanding, inasmuch as the points in dispute are matters of principle and not of conquest, victories or defeats.

RUMORED THAT JAPS ARE FIGHTING ON GALLIPOLI FRONT

Interview With Jap Ambassador to Italy Would Suggest Aid Now.

By Special Wire to the Courier.

Paris, Sept. 1.—What appears to be an intimation that Japan may cooperate in the campaign to force the Dardanelles, is contained in an interview with Baron Hayashi, Japanese Ambassador to Italy, sent to the Petit Parisien by its Rome correspondent.

"I cannot say much about that," the baron is quoted as saying in reply to a question regarding the Dardanelles, "for we must not allow our enemies to profit by information about the movement of troops."

The formal arrest of the part Japan has played in the war, the ambassador said: "We have not ceased to collaborate with our Allies to the extent assigned to us. The world will be astonished to know what we have done, what we are doing and what we are willing to do. The Russians are nearest to us and we can be most useful to them. Rest assured, it is the greatest desire of Japan to assist every day in the sacred cause of civilization."

NEW DEFENCE LEAGUE

Seattle, Sept. 1.—Announcement was made to-day of the organization of the Aero Club of the Northwest, the purpose of which is to assist in military and naval defense and to promote aerial commerce. Two machines, sufficiently high powered for military service, are already owned by members and two similar machines are under construction. The officers of the club include Puget Sound naval officers.

MANITOBA MINISTERS ARRESTED

Roblin, Montague, Howden, Coldwell Surrender—Released on Bail.

Winnipeg, Sept. 1.—Voluntarily four members of the late Government, Sir Rodmond P. Roblin, Premier; Dr. W. H. Montague, Minister of Public Works; James H. Howden, Attorney General; and Geo. R. Coldwell, Minister of Education, submitted themselves to the authorities at the city police station yesterday afternoon between 3.30 and 4 o'clock.

The accused will appear in the city police court to-day to answer to the charge of conspiring to defraud the public in permitting the contractors for the new Parliament Buildings, Messrs. Kelly, to draw large sums of money for "extras," which were either non-existent or were being paid for at a rate far beyond the value, according to the report of the Mathers' commission. They will then be remanded and an early date will be set for the preliminary hearing. More charges may and likely will be laid, according to R. A. Bonnar, K. C., who is acting for the prosecution.

HEAVY BAIL PUT UP.

All four were released yesterday on \$50,000 bail each. The recognition of each man was taken for \$25,000 and two sureties for \$25,000. For Sir Rodmond, Aime Benard, present leader of the Opposition, and D. E. Sprague, ex-Chief License Commissioner, were bondsmen; for Dr. Montague, W. H. Cross and J. W. Montague; for James Howden, G. R. Hamilton of Neepawa and Stephen B. Stonehouse, and for G. R. Coldwell, Alex. Reid and Andrew Simpson.

The warrants which were issued for the four ex-Ministers last Saturday were not served. These legal instruments were at the police station in Provincial Chief Elliott's hands when the four accused arrived. When they set foot inside the station they were technically under arrest, but as the purpose of the warrants was accomplished when the men appeared at the police station it was needless to serve them.

DOORS CLOSED, CURTAINS DRAWN.

All of the formalities of bail and bond signing were done behind closed doors in Deputy Chief of Police Newton's Office. Extreme secrecy was maintained throughout the whole procedure. Sir Rodmond was the only one of the four who went through the front door of the station. Dr. Montague, Howden and Coldwell slipped in through the back door to the police garage, after being taken into the lane off Louise street in automobiles.

SIR RODMOND WAS FIRST.

It was a moment before 3.30 o'clock, the hour which had been set for the proceedings, when Sir Rodmond appeared on the scene. He arrived in Aime Benard's car, with him were the leader of the Opposition and D. E. Sprague, his two bondsmen. He hurried through the front door and disappeared into the sacred precincts of the Deputy's office, where the doors were closed and the curtains drawn. A short time later the other three arrived, and the proceedings were very soon over.

The formal arrest and charge had been expected all day, the Hon. G. R. Coldwell arriving from Brandon in the morning, Howden from Neepawa, and W. H. Montague from Kenora, evidently all by prearrangement.

Prior to appearing at the station, Roblin, Coldwell and Montague had been in consultation together, while all four had seen J. Andrews of Andrews and Burdidge, who will probably undertake the defence.

BORDER SKIRMISHES

London, Sept. 1.—A Reuter despatch from Athens says it is reported from reliable sources that in an encounter near Scutari, Albania, former partisans of Essad Pasha, former Provisional President of Albania and Murides, the former were defeated, losing 215 in killed and wounded besides 500 prisoners. Essad Pasha's final victory is considered probable, however, as the Murides lack ammunition.

MONEY VALUE OF POUND GOES DOWN

Sensational Decline in the Value of the Pound Imperils United States Pay Envelopes.

(By B. C. Forbes.)

New York, Sept. 1.—The value of British money broke sensationally here yesterday to \$4.55 1/2 for a pound sterling, a depreciation of fully six per cent. The British pound was worth \$4.76 at the beginning of August.

Unless Britain can get hundreds of millions of funds here to meet her enormous bills, she may have to restrict purchases of all but war materials to such an extent as to affect employment and business in this country, bankers declare.

Yesterday's demoralization in foreign exchange has not been equalled in the last century—not since the European cataclysm that preceded the downfall of Napoleon, exactly one hundred years ago.

For every \$100 worth of goods bought here Britain must pay \$106 of her money. The British pound normally is worth \$4.86 1/2. Last night it was worth 31 cents less, and international bankers refused to buy sterling even at that level because they see no immediate end to the downward movement.

WILL HURT PAY ENVELOPES.

The American workman does not see any connection between foreign exchange, to him a Greek phrase, and his pay envelope, but unless the collapse in the medium of settling Britain's bills can be checked, many pay envelopes here are threatened, as the British Government will enforce have to limit its own buying of ammunition materials, and will doubtless take steps to restrict purchase of merchandise here by British merchants and importers, our largest overseas customers.

A commission of eminent British and French bankers is going to New York to devise a plan to enable the allies to pay for the billion or more of war materials contracted for here and the other billion or so of cotton and foodstuffs which are beginning to be marketed from the 1915 harvest. Our balance of exports over imports since January has exceeded a billion dollars and will approach two billions by the end of the year.

Britain and France have sent \$200,000,000 gold this year, but all the gold in the banks of these countries would not square the full account.

Admiralty is Silent on the Sinking of Sub

By Special Wire to the Courier.

London, Sept. 1.—The Admiralty has given out no information concerning the fate of the German submarine which sank the Arabic. Whether such information is in its possession is unknown, as it is the policy of the Admiralty to withhold news of this character. Unofficial reports that the submarine has been sunk are being circulated widely. It is stated that the craft attempted to torpedo the British steamer Nicosian, which arrived at Liverpool from New Orleans on August 24, five days after the Arabic went down. According to this account, the Nicosian escaped and the submarine while attempting to sink her, fell a victim to a patrol boat. In Liverpool the report is current that the submarine has been captured and not sunk.

GERMAN PLAN IS BEING CARRIED FORWARD; THREE WEDGES BEING DRIVEN IN RUSSIAN LINE

Situation for Russia May be Considered as Perilous, Unless Heavy Forces Can be Thrown Against Von Hindenburg—Defence of Strippa River Against Formidable Odds.

By Special Wire to the Courier.

LONDON, Sept. 1.—Germany's plan for driving three wedges into the Russian defensive lines is being carried forward, but not with the same speed as marked the sweep over Poland. Riga is almost isolated, and unless the Russians soon throw heavy forces against Von Hindenburg's exposed flank, this port must fall into the hands of the invaders. Although this northerly attack seems to have been checked for the moment, the Russians have been unable to develop a counter-offensive in that region comparable with their activities in East Galicia and on the River Strippa, where they have not only turned at bay, but have inflicted heavy losses on their opponents.

BALKANS AGAIN TO THE FORE.

The Balkan problem is again to the fore. Emphasis is placed on reports that Roumania and Bulgaria are seeking to arrive at an understanding with the Entente powers, with some hopes of success.

RUSSIAN SUCCESS REPORTED.

PETROGRAD, Sept. 1.—Via London.—The Russian success in Galicia, reported in yesterday's official statement, was obtained against the army of General Pflanzer, which is estimated to comprise five Austrian and German army corps.

GERMANY — Crisis Over — AGREEABLE

Washington Gets Verbal Assurances From German Ambassador.

By Special Wire to the Courier.

New York, Sept. 1.—Count Bernstorff, the German ambassador, left for Washington at midnight last night, it was learned by early callers to-day at his hotel here. No reason for his sudden departure was given by his secretary or the hotel authorities, but it was learned from other sources that there was reason to believe that the ambassador had heard from Berlin regarding the Arabic incident or some other phase of the questions pending between Washington and Berlin.

It was also learned that the ambassador would probably call on Secretary of State Lansing to-day, presumably to present the communication.

Count Bernstorff through his secretary, announced yesterday that he might remain here for several days, or until he should hear from Berlin. His departure for Washington therefore lends color and confirmation to the statements that he had received further advice from his government.

Washington, Sept. 1.—It was also revealed at the State Department that affidavits had been received from survivors of the Dunsley, the steamer which was attacked just before the Arabic was sunk, presumably by the same submarine. The affidavits told of seeing a submarine, but said it bore no distinguishing marks.

Secretary Lansing conferred briefly with the president just before seeing Count von Bernstorff. He would not discuss the object of his visit to the White House, but it was indicated that the Ambassador had received further word from his government in relation to the Arabic case.

The ambassador's conference with Secretary Lansing lasted fifteen minutes. As he left the secretary's room, Count von Bernstorff said Mr. Lansing would give out a statement as to the conference, but himself refused to discuss his visit.

Count von Bernstorff, the German ambassador, who came from New York unexpectedly last night, arranged to see Secretary of State Lansing at 10.30 a.m. It was not known whether his visit had any connection with the reported destruction of the German submarine.

GERMANY ACCEPTS PRINCIPLE

Washington, Sept. 1.—Count Bernstorff, the German ambassador, on instructions from Berlin, verbally informed Secretary of State Lansing that the German government had accepted the principle that passenger liners should be warned before attacked by submarines. He will formally communicate this information in writing later.

Secretary Lansing, following the visit of the German ambassador said: "The German Ambassador told me that his government would accept our declarations regarding submarine warfare in principle. He has agreed to reduce his statement to writing which he will submit to me later in the day."

Count von Bernstorff was informed that the United States could not accept as final an oral transmission of the main point of view. Secretary Lansing said he would withhold comment until a written memorandum was received.

THE BALKAN TANGLE NOT YET SOLVED

Optimism Felt, But Concrete Assurances Are Sadly Lacking.

By Special Wire to the Courier.

London, Sept. 1.—The Balkan situation is discussed at length in despatches to the morning papers from Bucharest, Sofia and Athens. Although the correspondents generally are optimistic, emphasis is placed on the difficulties which the diplomats of the Quadruple Entente powers are encountering in their endeavors to adjust the conflicting demands and disarm the mutual suspicions of the Balkan nations.

As to the counter activity of the triple alliance, the Post's Sofia correspondent reports that the Turks are preparing for the evacuation of territory ceded to Bulgaria by demolishing forts on the right bank of the Maritza and by pulling down barracks at Karagatch.

"The actual Bulgarian occupation of ceded territory, through which the Despatch railway runs," the correspondent says, "will follow soon, it is stated."

The Standard's Athens representative believes no definite developments in the Balkan situation can be expected in the immediate future. "The negotiations which must be concluded before any one of the Balkan countries can intervene in the war, are protracted and troublesome," he says, "owing to the great difficulty of harmonizing the conflicting interests. Serbia is willing to go a long way toward meeting Bulgarian requirements, but even here there seems still some obstacle to a complete agreement concerning the participation of the Bulgarian army."

"As for Greece, if there is to be intervention, it will not come until Greek interests demand it, and its sole object will be to lay the foundations of a greater Greece which must include large portions of near Eastern territory. If the decision comes, however, Premier Venizelos will have the undivided support of the King, country and army leaders, for lie already has exacted the most binding assurances to this effect."

The Bucharest correspondent of the Times emphasizes the necessity for a better understanding between Roumania and Bulgaria. "The most important thing," he declares, "is to establish relations of confidence between these two countries. There is evidently an identity of interests, and Roumania avows her willingness to make required concessions, but no concrete arrangements have been concluded. If Roumania could be induced to make a definite offer to Bulgaria, the effect on her sister country would be immediate."

Mr. C. Uniacke Appointed to 25th Dragoons

Colonel M. F. Muir announced this morning that Mr. Cyril J. Uniacke had been given a commission in the 25th British Dragoons and was new a Provisional Lieutenant. He will be attached to "A" squadron, under the command of Major Gordon Smith.

Lieut. Uniacke is an Englishman by birth, and having lived in this city for some time, is very well known here. He has several relatives fighting for the Empire and an uncle, Captain Uniacke, was killed in action in the Dardanelles only a short time ago.

BELGIUM STOOD BY HONOR, FOR LIFE OR DEATH, THEN AS NOW

Conversation of Diplomats Shows How Strong the Pressure Was.

By Special Wire to the Courier.

London, Sept. 1 (Montreal Gazette)—The Daily News says this morning a copy has been received of the new grey book, issued a few weeks ago by the Belgian government, containing supplemental despatches dealing with the diplomatic crisis preceding the war.

"The most interesting document," says the Daily News, "is a despatch dated August 4, 1914, from Baron Beyens, the Belgian Minister at Berlin, giving a summary of a dramatic conversation he had on that day with Herr von Jagow, the German Foreign Secretary, relating to the German demand for leave of passage through Belgium. Herr von Jagow said: "We have been compelled by absolute necessity to make upon your government this demand. It is for Germany a question of life and death. In order that she may not be crushed, she must herself first crush France and then turn against Russia."

"We have been informed that a French army is preparing to pass through Belgium in order to attack our flank. We are bound to prevent such an attack. If the Belgian army does not blow up bridges and allow us to occupy Liege, and itself retire to Antwerp, we promise not only to respect Belgian independence and the life and property of the inhabitants, but also to pay indemnity."

"It is with a feeling of extreme mortification that the Kaiser and his government have been obliged to take this decision. To myself it is the most painful step that I have ever taken in my career."

"Baron Beyens' reply was: "What would you say if we were to yield to a similar menace on the part of France? You would say that we were cowards, incapable of defending our neutrality and of leading an independent life. By way of acknowledgment of our loyalty, you are about to turn Belgium into a battlefield between you and France. Europe will condemn you, and you will have England against you, as she is one of the guarantors of our neutrality."

"On being pressed," Baron Beyens continued, "Herr von Jagow admitted that we could not reply to the German demand, otherwise than in the way we did reply and that he understood our reply. He several times repeated the expression of his sorrow that things had come to such a pass, but I replied that nations, no more than individuals could live without honor."

MINERS REFUSE AWARD

Report From London Today Tells of 25,000 Being Out.

By Special Wire to the Courier.

LONDON, SEPT. 1, 11.45 A.M.—ALTHOUGH AN AGREEMENT WAS REACHED YESTERDAY AT THE CONFERENCE IN LONDON OF REPRESENTATIVES OF THE WELSH MINERS AND MINE OWNERS, THE MEN THEMSELVES HAVE NOT YET ACCEPTED THE SITUATION. REPORTS FROM SOUTH WALES SAY THAT 25,000 MORE MINERS ARE ON STRIKE.

TERMS ARRANGED

The terms of settlement of the troubles in the South Wales coal fields which were arranged yesterday in London, averting a possible serious strike of the operatives, were accepted to-day at a general conference of the miners' delegates, held in Cardiff. The difficulties are therefore now definitely adjusted. There was some opposition among the delegates to the acceptance of the terms agreed upon at the London conference, but this was soon overcome.

There were additions early to-day to the number of men on strike in the coal fields, but these workers quit before the holding of the Cardiff conference and their walkout was attributed to the fact that the men did not learn of yesterday's developments in London in time to rescind their previous decision to lay down their tools to-day.

The new central Technical School, Toronto, was formally opened.

SIMPLIFIES PROBLEM FOR WASHINGTON

Sinking of Sub. That Destroyed Arabic Helps the United States.

Washington, Sept. 1.—The German "U" boat that sunk the British liner Arabic, killing about forty persons, including a man and a woman who were citizens of the United States, has been sunk, it is asserted here on high authority. This incident to the activities of the British navy, while comparatively insignificant from a military viewpoint, will probably prove of marked importance in smoothing the way to a friendly settlement of this phase of the controversy between the United States and Germany. And everyone here believes that except as to minor details, the settlement of the Arabic affair will reduce the Lusitania dispute to the status of a moot case.

The sinking of the offending U boat, which seems to have been accompanied by the loss of her commander and crew, removes the one obstacle to the fulfillment of the pledge of the German Imperial Chancellor, Dr. von Bethmann-Hollweg, to give the United States "complete satisfaction" in case it was proved that the Arabic was sunk by a German submarine without warning.

NO ORDERS IN STATES FOR PORTABLE HOUSES

Sir Geo. Foster Reports That and Similar Stories as Unfounded.

Ottawa, Sept. 1.—Recent newspaper stories of large orders by Great Britain and France in the United States for portable or collapsible houses for the troops at the front have brought to the Department of Trade and Commerce here a flood of telegrams from Canadian builders, wanting to know why Canadians could not get a share of this business.

Sir George Foster yesterday gave out a statement to the effect that inquiries in London showed that no such orders had been placed in Great Britain. Similar unfounded stories of alleged orders placed by Great Britain in the United States for war munitions which Canadian firms might have filled had been cropping up from time to time, and the Minister of Trade and Commerce intimates that there has been in consequence much unjustifiable criticism of the Government here for alleged failure to secure these orders for Canada.

Sir George declares that the Canadian Government has omitted no opportunity of placing before the British and allied Governments the possibilities of supply from Canada, and that these representations have been met with a response to an extent which few Canadians realize.

Laid at Rest

WILLIAM HENRY METCALF

The funeral of the late William Henry Metcalf took place from his late residence at 2 o'clock on Tuesday afternoon (Aug. 31). A brief service was held in the house, and service was conducted in the Fairfield church by his pastor, Rev. Mr. Fydel. There were many beautiful floral remembrances from his family, his church, and his friends, and the large procession bore tribute to the esteem in which he was held. The pall bearers were close relatives as follows: S. Way Kent, Bert Howell and Earl Taylor of Paris, Frank Lewis and Frank Millar of Burford, and Wilfred Wilson of Waterford.

He rests with his father and mother in the Fairfield cemetery.

Mr. Metcalf was born in Brantford Township, near Cainsville, in 1842. His parents moved to Burford Township when he was two years old. In his younger days he taught school for several years. Then he settled on the farm on which he passed the rest of his days, and which he had improved and added to from time to time. The farm is situated about half way between Burford and Fairfield.

He was secretary-treasurer of the South Brant Farmers Institute for a number of years, and was one of the prominent workers in the Brantford Grange. He belonged to the Workmen and a strong temperance worker. He was also a great Sunday school teacher for many years.

He was secretary-treasurer of the Burford circuit for 40 years, and a class leader for a number of years. He held many other prominent positions during his life.

He leaves a widow and ten children, seven sons and three daughters, J. F. Metcalf of Goe Bay, Ont., W. H. Metcalf of Oakland, California; Mary Louise Metcalf, of Niagara Falls, N. Y.; Arthur H. Metcalf, of Toronto; Stanley L. Metcalf, of Boston, Mass.; Mrs. Wilfred Wilson, of Waterford; Leslie, Augustus, Kelly and Merritt at home.

FRENCH OFFICIAL

Paris, Sept. 1.—The French war office this afternoon gave out a statement on the progress of hostilities reported as follows:

"Several artillery actions were reported in the course of the night around Neuville St. Vaast, in the region of Roye and in that of Ouberive on the Suippes.

"In the Argonne, there was violent cannonading yesterday to the north of Fontaine Houyette and on the Chevauchee heights. During the night it was calm.

"In the Vosges, after a bombardment with asphyxiating gas bombs the enemy last evening launched against our trenches at Lingé and Schratzmannelle a violent attack. We maintained our position. At midnight a new German attack was also repulsed."

Winnipeg, Sept. 1.—Sir Rodmond Roblin, ex-Premier of Manitoba, and three of his former colleagues, J. H. Howden, Dr. W. H. Montague and G. R. Coldwell, appeared in the city police court this morning charged with conspiracy to defraud the Province in connection with the work on the Provincial Parliament Buildings.

They were not asked to plead to the charge and were remanded until Friday, September 3.

On the information of E. J. Elliott, chief of the provincial police, who alleges that the ex-ministers "did unlawfully, by fraudulent means, conspire together and with Thomas Kelly, R. M. Simpson, Victor W. Horwood and others to this informant unknown," to defraud the province of Manitoba.

When the four ex-ministers appeared before police magistrate Sir Hugh John MacDonald, Sir Hugh stated that while he would not refuse to hear the case if there were no objections, yet he thought both the prosecution and the defense has valid reasons for objecting to him acting on it, since he had been a member of the Mother's royal commission. He intimated that Mr. Justice McDonald and Mr. Justice Mathers, the other members of the commission, would decline to deal with the charges should they go before the higher court.

A CORRECTION

In the interview with Lt. Ashton Cocksbutt, the phrase was used, "I've been in England two thirds of my time sick." The dropping of a few words conveyed a wrong meaning. He was temporarily unable to go to the front with his battalion on account of a slight operation, but joined them soon afterwards and was not laid up by illness until wounded.

LABOR PLENTIFUL

According to advices received by the C. P. R. in Montreal the labor situation as regards western Canada is favorable in every degree the supply is fully equal to the demand in each of the prairie provinces. Some shortages in threshing machines may occur and consequently there may be delay in getting grain into elevators in the more remote districts. The available threshing machinery keeps closely to centres of population and railroad tracks, leaving those remote districts for later consideration. Those settlers who have taken up C. P. R. lands are of course fortunately situated in this respect.

He was struck in the shoulder by shrapnel, but the shrapnel has all been removed and he is full speed on the road to recovery.

Found the Leak This Time Alright

A gas explosion which might have resulted seriously, happened yesterday afternoon at about three o'clock at the residence of Mrs. Popplewell, 151 Brant avenue. No one was injured, but the interior of the house is rather badly damaged.

It appears that a pipe in one of the walls began to leak, and the gas spread all through the walls. A plumber was sent for and when he arrived, tried to find the leak by burning matches. The first one he lighted, as may be imagined, caused the explosion, which shook down most of the plaster from the walls and ceilings and bulged up the top storey floor several inches.

The inmates immediately phoned to the central fire hall station, and Captain Kingswell and two firemen drove up. No further damage resulted however.

Berlin, Sept. 1.—Wireless to Sayville—An official review of the eastern campaign, as given out here to-day by the Overseas News Agency, estimates that since May 20 the Russians have lost at least 300,000 men in killed or wounded, and 1,100,000 men captured by the Germans.

REQUEST FOR REFRIGERATOR IS GRANTED

Mr. John T. Ham of the Ham and Nott Company, has just received the following very interesting letter from Colonel Frank A. Howard:

Dear Jack: There is a hospital here called the Queen's Canadian Military Hospital which is doing splendid work for wounded Canadians. It is supported entirely by voluntary subscriptions, the doctors, nurses and officers all giving their services free of charge. They require a refrigerator for their diet room and I thought, perhaps the Ham and Nott Company would like to donate one. Over here they do not seem to know what a really good refrigerator is. If you can do this the address is "Queen's Canadian Military Hospital, Shorncliffe, Kent."

I am still remaining in England, and of course don't know when I will be sent over. My work is assisting in the completion of the training of men sent over from Canada, and looking after wounded men sent over from France. I am quite fit, notwithstanding what we had to go through last winter on Salisbury Plains. I suppose you are finding business a bit slow, but Canada will be bigger and better than ever after the war.

We have 48,000 Canadians here, and no country in the world can beat them. I have now been on active service nearly a year and will be glad to see Brantford again.

Give my kind regards to all. Yours sincerely, Frank A. Howard. 14th Battalion, St. Martin's Plain, Shorncliffe, Kent. Needless to say, Ham and Nott have been pleased to forward the refrigerator asked for, and no doubt Colonel Howard's thoughtfulness in obtaining same will be much appreciated in the hospital.

BRANT FARMERS TO CO-OPERATE INTO SOCIETY

For the Purchase and Disposal of Goods and Merchandise. The prospectus for the Brant Farmers Co-operative Society has been issued with an authorized capital of \$40,000.

The object of the society is to buy such merchandise as the members of patrons of the society may need, and to dispose of such farm produce as they have for sale. In the distributive or merchandise department, it is proposed to handle all or any of the following lines of goods, and such others as may, from time to time, be thought desirable, viz:—four and mill feeds of all kinds; coal; fertilizers; fencing; oils and galena; metallic and other roofing; agricultural implements and machinery; Portland cement; metal fixtures for buildings; seeds of all kinds; feed grains; salt; sugar; and tinner twine. In the marketing department it is proposed to organize the sale for members and patrons of all or any of the following farm products, and such others, as from time to time, can be conveniently and advantageously disposed of viz:—grain; live stock; hay and straw; potatoes; roots and wool. Warehouse and railway facilities will be obtained in the city of Brantford, and possibly in time elsewhere as well, so that this business may be carried on with greatest convenience. Considerable commercial and other advantages to the members are anticipated owing to the intimate and sympathetic relations which exist between the Society and the United Farmers' Co-operative Company, Limited, of Toronto, a farmers' co-operative wholesale organization which has, for the benefit of the organized farmers of the Province, made excellent arrangements with manufacturers in different lines of merchandise in demand by farmers; facilities which will increase in value with the growth and expansion of the movement.

"PEG O' MY HEART" AND "THE ROSARY" ARE BOTH COMING TO THE GRAND

Mr. Whittaker, manager of the Grand Opera House, when interviewed this morning about the coming season, stated that the advance agents of two good shows were already here. The Grand is on the Small circuit, and Mr. Small has sent two of the best shows he could get for the opening here. Mr. J. H. Gibbons, agent of the "Peg o' My Heart" company is making arrangements for September 14th, when the theatre will open for the first time this season. The popular Miss Rhea Martin, who who has won the hearts of thousands in her role as "Peg," will appear with the company and she will be a great drawing card.

Another excellent and very popular company which is presenting "The Rosary" (this season is being represented here by Mr. Harry Mack. Both of these shows come direct from gay old New York.

Bread Goes Down With Good Slump

It was announced in the city this morning that the price of bread had been lowered to six cents. The price of wheat has gone down, and it is hoped that bread will soon be five cents a loaf, as it was before the war. The bakers are not complaining about this drop, but they are angry with the farmers and milk vendors. They say that the milk was never more plentiful than this season, yet the prices are still soaring in the clouds. It is unjust to everyone but the farmers that the prices of milk and cream should be so high.

Regarding the Suspension of Fireman Rock

It recently came to the ears of Mayor Spence that Sydney Rock, one of the members of the Fire Brigade, had made disparaging remarks in public of the administration of the Patriotic fund. He was among the spectators on Waterloo street watching two soldiers take an Austrian in charge to be sent to internment camp, when he made comment to the effect that they were taking the foreigner away to be well kept all winter, and that his wife would be better kept than some of the soldier's wives. Another onlooker who heard the remark, told Rock that he was a contributor to the Patriotic fund, and would like to know what basis he had for his statement. Rock replied that he had heard some were neglected, and when further pressed, gave the name of a woman on Queen street. Mayor Spence, when told of the incident, called at the fire department and asked Rock if he had spoken as stated. He replied that he had. He meant no harm, but such stories were current. His Worship replied that the affairs of the association were run on a capable and above board basis, and that he was surprised that Rock, as a public servant, should lend color to idle rumor. He thereupon suspended him.

GOING OVER THE HOUSE

We are now at the season when we go over the house with a critical eye. Furniture must be repaired, perhaps a new rug bought, a new pair of curtains, or the latest style of draperies or portiers provided for fall and winter. A little touch here and there gives a room new brightness and adds sweetness to the word "home."

HAMILTON AGAIN GOT THE BETTER OF BRANTS

TOOK BOTH GAMES FROM THEM YESTERDAY—FANS ENJOYED WATCHING SUCCESSION OF BOOTS AND FUMBLES IN FIRST BATTLE.

Instead of allowing Brantford to repeat its victory of the day before, the Hamiltons trimmed their opponents in both games yesterday afternoon. The first battle was very poorly played, and four boots were made, and both teams, especially the home crew, lacked their old ginger. They played as if they were tired and wined the season were over.

As usual, the Hams did it in the first frame. The plate was crossed three times before they retired. King was allowed to walk first. Then three singles and a sacrifice were made off Hughes before he was pulled. These with a sacrifice fly off Groh's bat, which Burrill caught as nicely as one could wish, were responsible for the scoring.

Then the Brants went in to try their luck against Patsy Dougherty. They would have been shamefully shut out if Streeter hadn't taken a liking to the first ball put over, and neatly placed it over the fence between centre and right field gardens.

Throughout the remainder of the game, however, they could only scrape together three singles from the Irishman's twirling. Chase entered the mound for Brantford and held them down to only one more run, although he was given rather ragged support. It was through two errors, both made by Streeter, that the fourth run was scored in the third. Although Hernandez lifted one into deep left foot

for three bags, in the succeeding frame, it did no good, and he died on the bag. The Hams had to be content with singles and sacrifices for the rest of the game, but that didn't bother them. The game was already cinched.

The last two boots were made by Todd in the very last frame. Further runs were saved, however, by the brilliant field work of Comstock and a nice peg of Cooper's to second. The scores:

lowed Hamilton to walk over them a second time. They got a lead in the second but failed to keep it, for their opponents came back by getting three in the fourth and two in the next. For the second time this year the Brants had a balk chalked up against them. These are more rare in a good league than triple plays and Walker should not have made the balk. Groh was on first in the seventh and when Walker began to wind up, he ambled for the second bag. "Dicke" unground and was going to throw to second when Halligan called the play.

Neither team scored in the first innings but the home club netted three in the second. Ivers lifted one into centre field territory, Burrill sacrificed and was allowed to make the first bag through Armstrong's wild throw, which pulled Tiffany off the bag. Indeed it was so wild that Ivers made third and Burrill the keystone sack. Dunlop was passed, but was put out at second when Fried laid one down to Zeimer. Ryerson placed a single past second and both Burrill and Fried scored in it. Ivers had scored on Fried's hit.

In the sixth, Cooper and Ivers were both given bases on balls. Burrill sacrificed and advanced them another bag. Then when Comstock drove a hot grass cutter out to McGroarty, Cooper crossed the plate. That ended the Brants' scoring.

Hamilton didn't start until the fourth, when Lindholm opened with a double into the right field. He placed it right near the foul line and just out of Streeter's reach. Three singles and an error were responsible for the rest. Two more runs were made in the following inning before Ryerson was pulled. An error and a passed ball gave Hernandez the chance to get on second. He was over anxious to work around the circuit however, and was touched out on third by Todd who took Cooper's peg. Lindholm was walked and Tiffany doubled scoring him. Then in turn Groh's double scored Tiffany. Warner woke up then and derrickked Ryerson. Walker held the batters down to two singles for the rest of the game.

MARQUARD AND CHENEY REPORT TO BROOKLYN

Brooklyn, Sept. 1.—Brooklyn broke even with Pittsburg yesterday in two thrilling contests. Pittsburg won the first by 5 to 3, by rallying in the ninth driving home three runs off Coombs and Douglas after one was out. Brooklyn took the second by 3 to 2. Cheney, bought from Chicago yesterday, reported to Brooklyn yesterday, and pitched seven innings of the second game in good style. But one earned run was made off him. Rube Marquard, bought from New York, reported yesterday and pitched the last two innings for Brooklyn. He ended the game by striking out Joe

COBB GIVES TIGERS THEIR WINNING RUN

After Going Hitless Nineteen Times He Produces at an Opportune Time.

Detroit, Aug. 31.—Detroit defeated Chicago in an erratic contest yesterday, 9 to 8. The Tigers runs were the result of hits bunched with fielding slips by the White Sox. Cobb, who had gone to the plate 19 times without making a hit, came through in the eighth with a single that won the game. Score: R.H.E. Chicago 8 11 4, Detroit 9 13 3. Russell, Cicotte and Schalk; Dubuc, James and Stange.

SENATORS TAKE TWO GAMES FROM YANKEES

Washington, Sept. 1.—Washington won both games of a double-header from New York here yesterday, 4 to 1 and 3 to 2, the second contest going eleven innings. In the first after Washington scored four runs during the fourth inning, Manager Donovan went in to pitch for the Yankees and allowed only one hit in four innings. Fisher was pitching steadily with a one-run lead in the ninth of the second game when Shanks' triple and Gandil's long fly tied the score. Foster drew a base on balls in the eleventh and scored on singles by Milan and Shanks. Scores: R.H.E. First game: R.H.E. New York 1 5 0, Washington 4 6 0. Second game: R.H.E. New York 2 10 0, Washington 3 10 0. Fisher and Numakaker; Boehling, Harper and Williams.

BROWNS ERRORS MORE THAN THE TOTAL RUNS

St. Louis, Aug. 31.—Mitchell allowed but three hits and Cleveland shut out St. Louis in the first game of the series to-day, winning 6 to 0. Seven errors by the locals, four of which were charged to Lavan, paved the way for four of Cleveland's six runs. Score: R.H.E. Cleveland 6 8 0, St. Louis 0 3 7. Mitchell and O'Neill; Weisman, McCabe and Agnew.

FOR WHATEVER REASON, OTTAWA SEEMS TO BE IN BAD AROUND THE CIRCUIT.

Whether it is always win, or because they go beyond the salary limit or because the city is so far away, it is not known, but judging from the newspapers of other cities in the circuit, the league wishes to drop the champions. From the view point of Brantford, it is an 800 mile trip to Ottawa, taken four times a year for three days at a time; that certainly makes it expensive. The other teams feel the same and are after a compact circuit that will pay as well.

LAVENDER ENTERS THE HALL OF FAME

Lets the Giants Down Without a Hit, While First Base is Reached Twice.

New York, Sept. 1.—New York won its series from Chicago by 2 to 1, by dividing a double header yesterday. Chicago won the first game by 2 to 0 and New York took the second by 7 to 1. Lavender pitched a no-hit game for the visitors in the first contest, only two men reaching first base. Merkle twice getting on, once on an error and again on a pass. Vaughan and Adams were easy for the Giants in the second game. Scores: R.H.E. Chicago 00110000—0 0 1, New York 00000000—0 0 1. Second game: R.H.E. Chicago 00000000—0 0 1, New York 2011012X—7 11 3.

BRAVES WIN TWO AND BY THE SAME SCORE

Boston, Sept. 1.—Good pitching enabled Boston to take both ends of yesterday's double header from Cincinnati, each by the same score, 2 to 0. Nehf, who was in the box in the first contest, allowed but four hits, and did not yield a pass. In the second game Hughes gave only three hits and one base on balls. Scores: First game: R.H.E. Boston 0001010X—2 4 0, Cincinnati 00000000—0 4 1. Second game: R.H.E. Boston 00010001X—2 5 0, Cincinnati 00000000—0 3 1.

ALEXANDER AGAIN SAVES THE PHILLIES

Philadelphia, Sept. 1.—Philadelphia wound up a successful home stand by breaking even with St. Louis yesterday, the home team winning the first game by 3 to 2, and St. Louis winning the second by 7 to 2. The opening event was a duel between Rixey and Doak. With two men out and a runner on second in the ninth Alexander took Rixey's place and fanned Gonzalez. St. Louis hit Demaree's delivery hard in the second game and won easily. Scores: First game: R.H.E. St. Louis 00000200—2 7 3, Philadelphia 0000201X—3 11 1. Second game: R.H.E. St. Louis 001003030—7 16 2, Philadelphia 100000100—2 9 1. Other Sport on Page Three.

Lord Lynnmouth was a man with curious, almost morbid, habits. He was a way, more or less, that he would deal with the beggar at the door, the servant he met upon the stairs. Yet she could not help being touched by the interest he showed in her, and it was with difficulty that she held to her resolution of the night before and strove to banish him from her mind and steel her heart against his dangerous friendliness.

It was a lovely afternoon in April, and the village lay through the park for more than a mile. The nearest path was a narrow one, winding over the undulating sweep of open ground, lying hot and still in the sunshine, then plunging into a deep, cool glade of oak and beech trees, where the fern was sprouting fresh and green and the rabbits were scampering hither and thither.

There she sat before the looking-glass, brushing it out, she was thinking over the various events of the day and particularly the mouth's strange friendliness towards her. She dropped her brush and, propping her chin in her hand, looked at her reflection in the glass and held a consultation with her own eyes.

"What does he mean by it?" she questioned. "What can his object be? He is dangerously flattering and friendly—dangerously so for me. What am I to do? There is no possibility of anything between us—there never can be! Yet if I let myself go—if I get fond of him, and I could—I shall lose my peace of mind for ever. He probably means nothing—the only thing of being kind to me—does not realize how it affects me. I must steel myself against him; I must be cold and guarded; I must not give way—it is my only self-defence. And yet—with a sudden light softening in the eyes she was looking at—it is very hard—it will never come to me again! If only he were a man in my own position, or even lower, how gladly I would risk my peace of mind by loving him and letting the future take what course it would! As it is, there is no future possible for him and me—except distance, coldness, and estrangement!"

CHAPTER XII She awoke the next morning with the feeling that some great change had come into her life. Her dull gray hair turned to rose-color, and she was ashamed to find on examination that this feeling had its source in the few kind words that Lord Lynnmouth had spoken to her the night before. Her pride rose in revolt against such an effect having been created by so little, and her reason told her again that there was no substantial ground for the turning of gray into rose color. She realized the danger of allowing her imagination to run riot or of believing that a king thought, a kind act sprang from any being but a most generous and kindly one towards all humanity.

"Will you let me speak plainly to you? Will you try to sweep the haze that difference in our position—a mere conventionality without reality—must place an impassable barrier between us. Then I will try to show you my side of the question."

"The difference of rank," she said, looking ahead of her with all her resolution in her eyes, and speaking quietly, "may be a merely conventional distinction, but for all that they exist and have existed so long that they cannot be set aside."

"I don't think so. My friend was neither particularly talented nor particularly agreeable—he just suited me that was all. I felt I could talk to him and that he would understand me. It is not an ideal that I have—it is merely an instinct."

"I feel," he went on a little hurriedly, "that you would understand me, that you could be a friend too. I felt it from the first moment I saw you that night on the stairs—do you remember? And I have felt it more and more. But all I ask of you at present is to let me get to know you. Don't raise barriers between us. Think of my side of the question!"

NOTED FRENCH AVIATOR DEAD

Noted French Aviator, "Falcon of the Taube," Had Great Career.

Paris Sept. 1.—Adolphe Pegoud, the famous aviator, was killed yesterday. "Daredevil" Pegoud, so called because of his many hair-raising exploits in Germany, and started the world with new feats of daring and cool-brained skill. At Brooklands, in England, almost two years ago, he amazed great throngs of British spectators by flying, not only upside down, but sideways, and dived 3,000 feet in five seconds finishing his performance with a double "loop-the-loop." Other favorite gyrations included flying for a quarter of a mile upside down while German planes with which he intended to proceed to America to give exhibition flights.

He immediately offered his services to France and soon became a ter-rific expert on all and the skill quickly earned him the title of "the Falcon of the Taube." From his machine bombs were hurled with almost unerring accuracy on German munitions depots and war positions, determinedly wrecked, railroads and depots demolished, all with apparent impunity. He flew eight hours a day, and never a day but what Pegoud got his German plane into the air.

DECORATED FOR VALOR.
To sight an enemy aeroplane was a signal for combat. Only last March he was decorated with the Military Medal for Valor. The official announcement said:
"On several occasions he pursued enemy aeroplanes, and on February 3 attacked at a great height and caused the fall of a German machine. Soon afterwards he attacked two other aircraft, causing one to fall and the second to land. In April he brought down a German Taube near Saint Meneshould, while at one time he captured and brought in as prisoners the German pilot and observer. Earlier in the same day he had driven off three German machines in an air battle."

NEWS CONFIRMED.
Paris, Sept. 1.—Reports of the death of Adolphe Pegoud, the famous aviator, have been officially confirmed. The news brings a sorrow among the French people who regar-ded him as a hero.

Pegoud, who was only 28 years old, served five years in the French cavalry, fighting in the Morocco campaign. At the outbreak of the present war he joined the aviation corps as a private but soon gained a sub-lieutenant's commission because of his skill and daring. His exploits won him the Military Medal and the Military Cross. Pegoud brought down his sixth German aircraft on July 11.

ARRANGED A TEST FIRE.
By Special Wire to the Courier.
Cincinnati, Sept. 1.—Fire chiefs at-tending the annual convention of the International Association Fire Engi-neers were spectators to-day at an ex-hibition of skill by Cincinnati firemen at fighting flames. A two and a half story frame dwelling, erected for the purpose was touched off, and the men set to work to subdue the fire.

A test of motor engines for fire apparatus was also on the program. Every test known to the fire chiefs was required of the different makes of auto engines.

IMPORTANT DISCOVERY
By Special Wire to the Courier.
Rome, Sept. 1.—Important archae-ologic discoveries have been made at the site of the ancient city of Cyrene, in the Barca region, Africa. These include a large statue of Jupiter which is said to be equal in artistic value to the famous statue of Alexander the Great discovered at the same place last year.

WORLD PRESS ON THE WAR

BALANCE OF DESTINY
Corriere della Sera (Milan, Italy)—It (the speech of Rt. Hon. A. J. Bal-four on August 4) is an expression of the unshakable energy of the nation which never willed in vain. These words uttered in London count in the balance of destiny more than the Germans entering Warsaw.

IRELAND'S CHARTER
Dublin Freeman's Journal—Ire-land's charter has been made law and bears the sign manual of the King. It is a great and solemn treaty be-tween two nations, between two great democracies. It can never be repealed so long as Ireland is determined at all costs and hazards to keep and hold it good. It is a work for all Ireland.

THE EMPIRE BETTER
London Daily Telegraph—The die was cast a year ago. Neither the nation nor the Empire regrets it, as Sir Robert Borden declared in words of eloquence and significance. As a new year of war opens, we can already see on the horizon unmistak-able signs of approaching deliv-erance from a carefully organized con-spiracy against civilization and all it represents for the human family.

WE CAN REALIZE, in the words of the Canadian Prime Minister, that the Em-pire is better worth living for and better worth dying for than it was a year ago.

THE WAR THE KAISER WANTED.
Westminster Gazette—When the Emperor declared the other day that he never wanted war, he said the thing that was not, but if he had slightly varied his phrase and said that he did not want this war, we should have had no difficulty in be-lieving him. He wanted the short, sharp, crushing war of the German text-books, with Great Britain out of it, with the seas at his disposal, with spiritless enemies who would have been taken by surprise, beaten in de-tail, and accepted the terms which he in his magnanimity might have pleased to propose to them.

"WHY PEACE IS IMPOSSIBLE"
London Daily Express—Germany has had enough of the war. She will fight on desperately and determinedly if she is forced to fight, and she will not be beaten without many more months of fearful struggle and en-durance. Her successes have been considerable, but she fears her power to hold on to them. The German gen-eral staff knows that she has passed the zenith of her strength, and that neither Great Britain nor Russia have reached theirs. Germany never neglects anything that might make her an advantage, peace now would necessarily leave her some of the spoils and would enable her to prepare for another attempt to plant her jack-boots on Europe. Peace now would be taken by surprise, beaten in de-tail, and accepted the terms which he in his magnanimity might have pleased to propose to them.

She will fight on desperately and determinedly if she is forced to fight, and she will not be beaten without many more months of fearful struggle and en-durance. Her successes have been considerable, but she fears her power to hold on to them. The German gen-eral staff knows that she has passed the zenith of her strength, and that neither Great Britain nor Russia have reached theirs. Germany never neglects anything that might make her an advantage, peace now would necessarily leave her some of the spoils and would enable her to prepare for another attempt to plant her jack-boots on Europe. Peace now would be taken by surprise, beaten in de-tail, and accepted the terms which he in his magnanimity might have pleased to propose to them.
