THE SEMI-WEEKLY NUGGET.

VOL. 8 - NO. 52

DAWSON, Y. T., WEDNESDAY, JULY 1, 1903.

PRICE 25 CENTS

TWO DAYS CELEBRATION

Committee Will Have Over \$2000

Glorious Fourth Will be Observed in Dawson In Time Honored Style.

Another meeting of the executive committee of the 4th of July celebration was held yesterday evening in the reading room of the D. A. A. Reports were received from various committees which would indicate that the success of the celebration was assured. The most important of all was that submitted by Ben Davis, chairman of the finance committee. He stated that a canvass had been made of First Avenue alone which did not include any of the big companies, the banks, the transportation or stage companies, yet in a short time the committee had secured pledges amounting to over \$1100. He was positive the committee could safely count upon \$600 or \$700 more at the very least. The collections had been quite easy and everyone approached had seemed enthusiastic over the celebration.

John Borland and Col. MacGregor were added to the executive committee and upon the sports committee the name of Jack Ward was substituted for that of Charles Frey, the latter being unable to devote the necessary time to it.

M. Geroux asked for the privilege of erecting the grand stand, he being the person who built the stand on the 24th of May and still has the lumber ready to be set up again. He desired the privilege without compensation which was objected to by several members of the committee.

THE RETURN OF THE TANANA PILGRIMS.

who considered it worth something. The proposition was made to allow the constructor the first \$200 taken in, the balance to be equally divided. The matter was finally left to a committee consisting of Secretary J. J. Crawford, Leroy Tozier and H. A. Stewart, with power to make such arrangements as they deem best.

Another important factor that has been decided upon is to have the celebration extend over two days, including both Friday and Saturday. Races and different events will be held on each day, everything with the exception of the ball game taking place on First Avenue. All the Canadian sports have been cut out, they being considered too slow and prosy. There will be races of all kinds and several novelties new to the public. Among the latter there will be an open air boxing exhibition by the Welsh twins, one of whom will be seconded by Nitz-Burley and the other by Joe Chovinski. Willie Blitner will act as referee. It is proposed to have Leonard make another balloon ascension, taking a little dog with him attached to a small parachute, the latter to be cut loose first and the two to race back to the earth.

There will be a meeting this evening at 9:30 of the sports and finance committees when the full and complete details of the celebration will be arranged, including the program of the two days' sports. Permission has been secured from Mayor McLennan for the use of the streets for racing. President Blitner presided over the meeting of last night.

PETITION RETURNED

Russia Will Not Stand for Suggestions

Is Friendly With Uncle Sam But Doesn't Want Any Interference.

Special to the Daily Nugget.
Washington, June 29.—Russia has conveyed to the United States a hint to mind their own business in connection with the Kishineff horror. It is announced that while Russia cherishes no ill will against the States, the former must return the petition forwarded from Washington by the state department on behalf of American Jews. This action is done in a friendly manner but is necessary in view of Russia's unalterable policy to refrain from interfering in the internal affairs of other powers and insisting on similar treatment.

WANTS HIS COIN

Ben Howard Sues the Athletic Club Directors.

A suit was filed yesterday in the small debts court that will cause pain and anguish to the directors of the D. A. A. Ben Howard, who was engaged to play one of the star parts in the preliminary evening of the Choyask-Barley mill has sued the directors for \$100 the amount that he alleges was to be his cut in the purse set aside for the opening event.

It will be remembered in the event referred to that it was not so long that it was necessary for the police to interfere nor did it last so long that spectators became fatigued. In fact, the first round was fully played out. Howard did not seem to understand what constituted a clinch and while he was hugging his antagonist, Vince White, with all his might and main, both of White's hands being free he was leaving a regular tattoo on Howard's ribs all the time. This Howard considered was not playing the game fair and he quit like a dog, as Billie Buster would say. The referee could not do otherwise than award the decision to White. Howard claims that there was \$200 in the purse for the preliminary which was to be divided. White, he says, has received his half and now he wants his own. Incidentally he remarks that he can whip Mr. White if the latter will but play fair.

The Empire hotel now leads in wines, liquors, cordials and cigars.

BISHOP IS AROUSED

Anti-Ritualists Stand a Small Show

Police Will be Called in if There is Any Interference in Services.

Special to the Daily Nugget.
New York, June 29.—Bishop Potter will not allow the British anti-ritualists to interfere with services in the New York churches. He has advised the vicar of the church against which complaint is made to call in the police if the British vicar and party interfere with his services, and urge the police to throw the party into the street.

DOMINION DAY

Will be Fittingly Celebrated at Grand Forks

All the public offices, courts, banks and probably many of the business houses will be closed tomorrow, Dominion day. While Dominion day and the Fourth of July will be celebrated jointly in Dawson on Saturday, the former will be duly celebrated on a most elaborate scale at Grand Forks tomorrow when many from Dawson will be in attendance.

An extended sports program will be carried out at the Forks, large cash prizes will be given and a most enjoyable day is assured.

The sports at the Forks start at 1:30 p.m. and will be held on First Avenue. The list of contests and prizes is as follows:
Hose reel contest, Dawson vs Grand Forks, \$150 first, \$50 second, 100 yard dash, open, \$25 and \$10.
Miners' pack race, \$15 and \$10.
Boys' race, under 16, 50 yards, \$5 and \$3.
100 yard dash, local competition, \$25 and \$10.
Girls' race, 50 yards, \$5 and \$3.
FAA men's race, 100 yards, \$15 and \$5.
120 yard hurdle race, \$25 and \$10.
Running long jump, \$15 and \$10.
Slow bicycle race, 100 yards, \$15 and \$5.
Pick-a-back race, 800 yards, local competition, \$20 and \$10.
Running high jump, \$15 and \$10.
Pony race, quarter mile, owners up, \$50.
Boys' sack race, 50 yards, \$10 and \$5.
Egg and spoon race, 100 yards, \$15 and \$5.
Putting 16 lb. shot, \$15 and \$10.

PIONEER RETURNS

Joseph Lancaster Now in Dawson

Lately Retired From Business in North Yakima, Wash.—Will Resume Here.

Mr. Joseph S. Lancaster, pioneer and former successful Dawson business man, arrived on the Whitehorse last night and is today renewing old acquaintance. Mr. Lancaster is accompanied by his son Carl, a young man of 21 or 22 years of age, the latter being in Dawson for the first time. The new arrivals are guests of the senior's former partner and long time friend, Mr. E. W. Calderhead.

For some time past Mr. Lancaster has been in business in North Yakima, Wash., where his family are now living. A short time ago he closed out his business there and with his son has come to Dawson for the purpose of re-engaging in business here but in what he does not state.

Within the past two years Mr. Lancaster spent some time in the new town of Tonopah, Nevada, which he describes as a busy place but being practically owned by one mining syndicate. He says Dawson looks good to him and he is pleased to be here again.

Official Report

Commissioner Condon has communicated with all the heads of departments informing them that he has been requested to make a report of all matters pertaining to the Yukon and asking their assistance. His communication states that as soon as possible after the end of the fiscal year the last day of which was yesterday, he desires the report to be made, such to embrace a summary of the business transacted in every department up to and including June 30. Any observations on matters which may be deemed of special importance or interest are invited from the various heads. As soon as the different departments are heard from they will be incorporated in a general report which the commissioner will make to Ottawa covering in brief the operations of the government for the year beginning July 1, 1902 and ending June 30, 1903. That from the clerk of the territorial court will embrace the number of writs issued during the year both in the territorial and small debts court, appeals to the court of appeal, and also nothing on habeas corpus matters and in fact everything of a statistical nature which may have arisen in the office during the year.

The new home being built for No. 2 fire engine is nearing completion. The engine was taken aboard yesterday and the walls and roof are being built over it.

Mrs. Sherman Dewey leaves today on the Whitehorse for a visit to Portland and other points on the outside.

Mrs. H. C. Macaulay and children leave on the Whitehorse this afternoon for an extensive visit with friends at Victoria.

The Pacific Coast Mining Company has received a shipment of several thousand fire brick with which their orders will be met.

Col. H. C. Buxton's busy yesterday was joined by Mrs. Buxton and four children. They will remain the balance of the season.

Messrs. Alford and Mayon have bought No. 92 below on Bonanza from Dr. Cooke and will begin immediately opening the ground on a large scale.

Mrs. W. W. White and two children arrived last evening on the Whitehorse and will probably remain during the winter. They were accompanied from their eastern home by Mr. H. S. Tobin and sister, Miss Tobin. The latter will remain as the guest of the Whites who will occupy the residence of Mr. H. C. Macaulay.

COLONIAL SECRETARY

Recipient of Numerous Boquets

Premier Lauds Chamberlain as Great Exponent of Imperial Unity.

Special to the Daily Nugget. London, June 26.—Premier Balfour was at his best today, having presided at the presentation, at the Constitutional Club, of an address to Colonial Secretary Chamberlain in recognition of the latter's services to the nation. Referring to Mr. Chamberlain's fiscal proposals, the premier said it would be absolutely for the Unionist party to make opinions up on various economic questions, the test of party loyalty. The preferential question was not new but Mr. Chamberlain more than any other man, dead or living, had given life to the expression and idea of imperial unity. The colonial secretary made a happy reply.

HERE FROM PORCUPINE

Trappers Are Out After Good Catch

Persistent Prospecting Fails to Disclose Presence of Gold.

A number of passengers arriving on the Rock Island this morning were from the Porcupine river where they have been engaged in trapping and prospecting. Among those seen by a Nugget representative was R. Mason who with his partner, J. Hosfall, spent the winter about 125 miles up the Porcupine from where it empties into the Yukon. They have been on the Porcupine for three years, coming out each spring to sell the winter's accumulation of furs.

Mason says it has been thoroughly demonstrated that there is no gold on the Porcupine as not only himself and partner, but many others, have thoroughly prospected that stream and its tributaries for several hundred miles back.

However, the Porcupine is rich in fur and Mason and Hosfall report a very prosperous winter in that line, the skins taken being those of marten, fox, beaver and bear. They sold their furs to the N. A. T. & C. Co. at Rampart and are now on their way to the headwaters of the Pelly river to select a trapping field for next winter.

Mason confirms a report published in the Dawson press some months ago of the finding of a human skeleton near the bank of the Yukon a short distance above Rampart House. Beside the skeleton lay a rifle on the stock of which were carved the initials "H. D."

PARTLAND CARS

Hold Up Lead to the Arming of Conductor.

Special to the Daily Nugget. Portland, Ore., June 25.—Owing to the large number of hold-ups of trolley cars at Portland the street railway company has armed all its employees with revolvers.

Much Trouble

Special to the Daily Nugget. Vancouver, June 26.—Trouble is ensuing as the result of the rockless rush to Poplar creek, near Lardo. A forest of stakes and a shortage of supplies is announced in latest reports. Thefts of grub are already reported.

Pope Weak

Special to the Daily Nugget. Rome, June 25.—A consistory was held by the pope this morning. It is believed to be the last under Pius X. The pope looked more weakly than ever. His extreme weakness is apparent.

Messrs. J. H. Rogers and P. G. Charles, the latter the general superintendent of the Alaska Pacific Express Company, will take a flying business trip to Eagle, leaving this afternoon on the Bailey.

MAD MULLAH PUT TO FLIGHT

Special to the Daily Nugget. London, June 26.—Contradictory telegrams have been received from Somaliland. One says that Mad Mullah has destroyed five British posts. Thirty-nine British officers out of forty-two white men are said to have been killed and two thousand native soldiers made prisoners.

A dispatch to the war office, however, from General Manning, announces his arrival at Bohotle unopposed.

He says the Mullah is in full flight. Gen. Manning adds that this flight of the Mullah would be turned into a complete rout if it had been possible to send a column of sufficient strength from Bohotle to Damot. The prisoners captured say the tribes are disorganized. Manning says nothing about the loss of army officers so it is believed the first report is a canard.

The very best cigars obtainable to be had at the Empire.

FIRST STEAMER FROM TANANA

The N. C. Co.'s steamer Rock Island returned at 9:15 this morning from a round trip to Andreofski. At Weare on her return she connected with the Seattle No. 3 of the same company from Tanana points.

From Tanana—A. J. Hosmer, Lough, A. D. Packett, D. E. Edwards, W. J. Keyo, W. Grant, P. A. Collins, Virginie Oliver, S. C. Knight, A. J. Prudhomme, Mrs. Kay, T. Burke, W. H. Davis, D. McPherson, R. G. Brownlie, J. Rose, J. T. McGinn, G. Woodward, Dr. Cameron, E. H. Falkner, Carrie Lowe, C. H. Wild, W. L. Brownie, Scott, P. Antonio, E. Simpson, M. J. Murphy, R. Dinnen, G. Laout, L. Rignire, J. Shaw, G. Skakman, L. Martin, H. Windham, E. Manerer, F. F. White, J. Kline, H. Fraser, J. McMahon, G. H. Brinkman, M. Spolich, J. Gocome, H. B. Iseman, R. Billan, P. Larkin, T. Kirkman, P. Slack, E. Moody, W. Stephens, G. W. Wifler, M. Roberts, J. Blane, B. E. Zahst, C. Burkhard, G. A. Peters, T. H. Barnett, A. McDonald, R. C. McCormick, W. H. Morton, D. Suttheland, H. Burress, Alex. Smart, W. O. Varndon, H. L. Agee, W. Gompelman.

He also started home with a lot of coffee and other groceries which he disposed of to the Tanana stores along the river. Regarding the mining industry of the Tanana country Mr. Prudhomme said: "Every creek in the country is named and staked, the principal ones being Pedro, Gold Stream, Fairbanks and Cleary. On Pedro Messrs. Smallwood and Atwood own Nos. 5 and 6 below and claim to have dirt that will go \$250 to the bucket but as they are doing very little work and are not showing any gold the statement is not generally credited. Three or four other claims on Pedro are being worked a half-hearted way but I saw nothing to show for the work. On Gold Stream a few holes have been sunk but no work is being done. The same is true of Fairbanks and Cleary creeks. In fact, in the entire country there is no appearance of active mining and no gold is coming out nor will there be any coming out this summer. Some of the claim owners say they are waiting for machinery but the truth is that they are waiting for something to turn up and if it does not they will nearly all get out this fall. I do not think there were over 250 people in the country when I left on June 2nd. A good cabin and lot could be purchased for \$10. Hundreds of people had left in small boats for down river, most of them headed for Nome. Many are still there who do not wish to go down river and have not the money to come up. At Weare are dozens of men, all broke and all anxious to work their way on steamers up to Dawson."

Then he found that by holding the board in a slightly inclined position and vibrating it all the concentrates except the diamonds moved to the lower end and fell off while the diamonds remained in place. Then he invented a machine by which his discovery might be utilized. One part of his machine was a slightly inclined table coated with grease and vibrating when the machine was in motion. Another part was a sort of hopper through which the concentrates, with a small current of water, passed to the surface of the vibrating table. Considerable study was required to perfect the apparatus but at last the machine was completed and the big diamond men were invited to witness the new method of separating diamonds from the rest of the concentrates.

From Rampart—C. L. Barlow, R. D. Collins, W. G. Bellows, J. Kuhl, Nictor Arnold H. Worth, C. V. Titchcomb, G. C. Tirdale, M. P. Fleischman, R. H. Abbott, Martin Duncan, Alex. Wilson, J. W. Darling, W. Foley, W. H. Passage, Alex. Ross, G. Sweeney, Jr., G. Sweeney, J. F. Hosfall, Mrs. Hosfall and two children, R. Mason, J. C. Werlin, C. Kaslo, McCough, J. Newman.

Everybody in Dawson remembers the scrawny man with the dun-colored horse, who with his two sons left for Tanana with the first fish. John is still there but one of the boys returned on the Rock Island this morning. O'Connor was employed by the government at freighting for some time after he reached Fairbanks. After that he was idle for some time but two weeks ago he bought a well from which he is supplying the citizens of Fairbanks with water for domestic purposes and for showers. He is said to have a good thing. A story is told in John that when it was decided to incorporate Fairbanks and that city officers he elected he took an active part in the movement and announced himself as a candidate for alderman. "His candidacy," John's son said, "brought for a night and all the boys drank to the success of the future alderman. But alas! some one from Dawson sprang on John the fact that last fall he had renounced his allegiance to the Stars and Stripes and became a subject of King Edward. His little brother had like a sly little fellow it was in the winter of 1901 when he was in the city."

DR. MEDILL, MAYOR. Under the statutes of Alaska an election was held at Fairbanks early this month, incorporating the town and electing municipal officers. There were numerous candidates for the office of mayor and the contest, according to Dr. Chambers who arrived this morning on route from Fairbanks to Skagway, was a hotly contested one, resulting in the election of Dr. D. Medill who will be remembered as "Little Ducky." He was with Rudy for a long time and until he left for Tanana in March with a stock of drugs. Rudy being behind him in the enterprise "Ducky" is the first mayor of Fairbanks. The honor could not have been bestowed on a better or more deserving man.

The invention was an entire success. All the garnets and other minerals that are not wanted pass over the surface of the table while every diamond large or small is retained. A more simple and complete device for saving time, labor and loss of diamonds could not be invented. The entire work is done by machinery, hand picking has been wholly superseded and both the mining inventor and the owners of the diamonds mines are profiting by the new labor saving device.

From Circle—J. Woods, O. McKinnon, F. Pfeiffer, B. Fisher, F. L. Quirk, F. J. Boone, D. W. Donovan, D. Buckley, G. Murdoch, J. Connors, C. B. Arnold, Mrs. R. J. Guis, Teresa, Jno. Ellark, J. Marnall, J. B. Forrest, Walter Scott, M. McLeod, F. E. Church, R. Berry, W. S. McConnell, G. Daniel, S. Crohan, J. Maguire, A. F. Rose, T. Thompson, E. M. Feger, W. Williamson, L. A. Made, M. Guibotte.

JOHN P. O'CONNOR. Everybody in Dawson remembers the scrawny man with the dun-colored horse, who with his two sons left for Tanana with the first fish. John is still there but one of the boys returned on the Rock Island this morning. O'Connor was employed by the government at freighting for some time after he reached Fairbanks. Guibotte.

JOHN P. O'CONNOR. Everybody in Dawson remembers the scrawny man with the dun-colored horse, who with his two sons left for Tanana with the first fish. John is still there but one of the boys returned on the Rock Island this morning. O'Connor was employed by the government at freighting for some time after he reached Fairbanks. After that he was idle for some time but two weeks ago he bought a well from which he is supplying the citizens of Fairbanks with water for domestic purposes and for showers. He is said to have a good thing. A story is told in John that when it was decided to incorporate Fairbanks and that city officers he elected he took an active part in the movement and announced himself as a candidate for alderman. "His candidacy," John's son said, "brought for a night and all the boys drank to the success of the future alderman. But alas! some one from Dawson sprang on John the fact that last fall he had renounced his allegiance to the Stars and Stripes and became a subject of King Edward. His little brother had like a sly little fellow it was in the winter of 1901 when he was in the city."

ness, and to prepare herself for sort of thing she had deliberated... Don't be shocked, she concluded...

A pleasing tale, that, for a republic lawyer and the father of a child to spend a morning listening wasn't it? But it's all in the work, and I have a receptive...

As to the colored persons who are a business of suing railroads sleeping-car companies, and promoters of hotels, restaurants, bars, ice-cream parlors and soda fountains for refusing to grant...

These professional black litigants are many of meeting and beating the schemes of the white purveyors of commodities and accommodations who want only white patronage...

The professional black litigant, for example, walks into a barroom where he knows is a drinking place exclusively for white men and calls for milk punch.

"Milk punches cost a dollar to-day," says the bartender, thinking the black will immediately go and take the air.

"All right," says the black, and the bartender puts up no further use and serves the drink, the professional black litigant drinks it, pays his dollar, and walks out.

He has a case in law for extortion under the civil rights clause. He reaches his case—speak now of a case that actually happened not long ago—by sending into the barroom, or he himself leaves it, a white federate—many of the professional black litigants have white stool-pions.

The white man calls for a milk punch, gets it, drinks it, and pays the regular market price for milk punches. That's the finishing touch on the black litigant's case.

The professional black litigant walks into a first-class hotel in a city where he knows the civil rights case is still a living affair, and begins to write his name on the register.

"Not a room left in the house," the clerk remarks, knowing the fifth of the rooms to be vacant. "That so?" says the black. "Are you absolutely certain of that?" "Certainly—thing you ever heard of," says the clerk.

The black strolls out, and two minutes later his white partner, an aggressive-looking man, steps out of a car or carriage in front of the hotel, walks in, registers, is received by the clerk, and gets a room with a bath—and there's another case for the professional black litigant.

Travelling through a state in which he knows the law favors him, the professional black litigant, while seated in the smoking car just about the time the berths are being prepared, hands his sleeping car coupon to the sleeping car conductor.

"Sorry," says the sleeping car conductor, if he is under instructions in his company to act so, "but this has got a flat wheel and is going to be taken off at the next station—while the porter is going right ahead with the work of getting the train ready."

Nothing suits the professional black litigant better than this. His white confederate sleeps in the car that is to be taken off because it has a flat wheel, and upon the presentation of this evidence, in the states where the conditions are favorable, the black wins his suit against the sleeping-car company in nine cases out of ten.

So, here's a prosperous and profitable occupation for well-equipped persons who aren't bothered by that inconvenient proposition known as science—litigating for revenue on-

FLUME ON BEDROCK

First Application Ever Made for Such

For Use on Lower Dominion in Draining the Hillside on the Left Limit.

Last week an application was made at the gold commissioner's for a right the like of which has never before been asked for. F. W. Morrison, the owner of the Morrison ditch which carries six to eight sluiceways from 33 below lower to 98, and his associates have asked for permission to run a bedrock drain across creek claim 89 for the purpose of draining hillside the lower half, left limit, of 88 and the upper half of 89 adjoining Dominion at that portion of the creek is quite a distance from rim to rim, the side line of the creek on the left limit being in the valley where the rise to the hill is scarcely perceptible. The distance from the side lines to the water is probably 1000 or 1500 feet, the creek flowing far over to the right limit and the promoters of the drain are of the opinion that the distance is far enough so that perfect drainage of their bedrock on the hills can be obtained by opening a ditch covering the entire distance.

Quite a body of pay exists in that vicinity but it is so low grade that to work it by the ordinary method it can hardly be made profitable. With the muck stripped off and sufficient water at hand the gravel could all be driven by hydraulic force through the bedrock flume and an enormous sum recovered at the cost of comparatively little. Mr. Morrison is heavily interested in the 70's and 80's and will doubtless be an important factor in opening up that section which gives such promise when operated on a large scale.

Another portion of Dominion that will blossom under the influence of sufficient water is that from 200 down past the mouth of Gold Run and Sulphur. The Entund ditch and flume which has been built at a cost of about \$20,000 will be completed within another week and be ready to turn in the water. It is about eight feet on the bottom and will carry eight to ten sluiceways. It will supply many of the rich benches on the right limit of Dominion with water which now are comparatively worthless.

Corbett's Weight

While finishing up his theatrical tour at Los Angeles, Jim Corbett, during an hour of leisure drifted into a fashionable store on Spring street. Quite a crowd had gathered around a weighing scale and several farmers were amusing themselves by weighing each other. Corbett, knowing that he was not known, advanced and offered himself to be weighed. His immense shoulders and fine physique and the fact that he tipped the scales at 195 pounds immediately aroused the admiration of all those present.

"Gosh, but you're a whale," and his exclamation was met with a punch in the ribs by one by his side, who exclaimed mysteriously in his ear.

"That's Jim Corbett, the prize-fighter," the farmer immediately retreated.

As Corbett stepped down from the scales he said: "If there is any fellow here that can tell me how I can take on five more pounds I will give him \$500."

But nobody answered and Corbett passed on his way convinced that there were no anti-slim drummers present.

By this assertion on the part of Corbett it is quite evident that he contemplates a hard battle with Jeffries and is of the opinion that by accumulating more weight his chances of annexing the heavyweight championship would be improved.

One of the novelists, referring to his hero, says:

- His countenance fell,
His voice broke,
His heart sank,
His hair rose,
His eyes blazed,
His words burned,
His blood froze.

It appears, however, that he was able to pull himself together and marry the girl in the last chapter—Chicago Record-Herald.

There are on the police force of Chicago men weighing 325 to 350 pounds.

Billie Lloyd is master of ceremonies at the Empire bar.

Gadding Girls. The mothers of this town have had a lesson—but it doesn't seem to have done them any good. There are just as many girls gadding around town after school now, getting their mail from private boxes in the postoffice, as there were ten days ago. Two years ago the Gazette went after the mothers of Emporia for neglecting their daughters, and the result was that half a dozen private mail boxes were discontinued and a lot of little girls that were in the habit of gadding too much were kept in for a time.

These girls are now developing into fine young women, but another crop of gadding girls has come on and the Gazette hopes no one's modesty will be shocked by saying that these little hussies ought to be spanked good and red. They are between 14 and 17 years old, and are just so everlasting boy-struck that they can't sit still. If their mothers knew the type of boys and men—young human pups—these girls are running with their mothers would throw fits.

But their mothers know nothing of the situation. They think their little girls are so sweet and pure that nothing can harm them. The truth is that these children are made of the same kind of mud that we all are made of and they are just as liable to temptation as older people and a thousand times less experienced. And their mothers let them gad Commercial street after school and flirt with all kinds of men, and then their mothers wonder how the devil got them and think the girls must "take after" their father.

There are just two things that will keep girls straight at "that age"—one is plain clothes and the other is huge duties. The girls who make fools of themselves in Emporia are invariably overdressed. They wear duds that women of 30 should hesitate about wearing.

A little girl with too many and too costly clothes on her back gets self-conscious and vain and loves admiration—and you grown-up women know the next step. A simple, pure-hearted girl who has a place in a home, home work and home duties, has her heart there, and no boy can steal it. Only when maturity comes and a real man comes and a real affair of her heart comes will such a girl leave home, and then only after heartaches and heart rending. But a girl whose place in the home is at

the table and in bed won't love that home. Work makes things sacred. The child whose home memories are not hallowed by work, who is not needed and does not feel the need, will not love home. And if she doesn't love the home of her girlhood she will love no other. She will go anywhere for anything. Home will mean nothing to such a woman, and if she is respectable she will only lack the opportunity to be a bad woman, and is good only through circumstance or by the necessity of an ugly face. She will curse any man she marries.

The mothers of this town, who are responsible for the girls who gad Commercial street should stop and think what they are doing. These girls are no longer children. They are at the impressionable age. Where will you have their impression come from—from the riff-raff of the street or from home? It is for the mothers of this town to settle the question—Emporia Gazette.

The Empire will endeavor hereafter to outdo its competitors in the line of beverages and cigars.

HAS MUCH SIGNIFICANCE

German Emperor Makes Speech

Thinks That Germans in America Will Aid in Smoothing Affairs.

Special to the Daily Nugget. Kiel, June 29.—The Emperor of Germany made a speech of much political significance at Kiel during a dinner given to U. S. Ambassador Tower, Wilhelm. It is considered that the Germans in America will render the task not easy of smoothing the

Who Sent the Valentine?

path of undisturbed and progressive relations which are of vital importance to both countries.

Carroll & Parker. Carroll & Parker, who left Dawson to March on Fairbanks with a saw-mill, managed to reach there after many trials and tribulations on the Fortymile and Good Pasture route. They built rafts and floated their outfit 125 miles down the Tanana to Fairbanks where they set up their mill and sawed lumber for two or three days when they closed down owing to the fact that there was no market for lumber.

Many Arrested. Paris, June 5.—A number of gendarmes and a detachment of engineers have dispossessed the monks of the monastery of La Blancere. A crowd of 6,000 persons engaged in a demonstration for and against the authorities. The monks barricaded the gates and floors of the monastery with paving stones, but the soldiers climbed the walls and gained access to the building. They then cleared away the barricade and arrested the monks and a number of manifestants.

NARCHY RAMPANT

People of Wilmington Greatly Aroused

Forms to Release Imprisoned Man From Jail—Much Indignation.

Special to the Daily Nugget. Wilmington, Del., June 25.—Arthur Corwell has been released from jail. He is charged with being concerned in the lynching. A mob of men was ready to attack the prison and was not let out. The people declare that nobody will be allowed to be lynched.

Charge Dismissed

Special to the Daily Nugget. Wilmington, Del., June 26.—The charge against Arthur Corwell of being concerned in the lynching of negro miner Whyte was dismissed for lack of evidence.

Diplomats Shy

Special to the Daily Nugget. Belgrade, June 26.—Only two foreign diplomats, those of Russia and France, attended King Peter's reception today.

Went Down in Harbor

London, June 3.—A despatch to London from Nalpariso, Chili, contains the despatch of the Associated Press from Santiago de Chile referring to the fears expressed for the safety of the Pacific Navigation Company's steamship "Atacama." The agent claims that the steamer, which had eighty persons on board, foundered in the harbor and that sixty-three of the passengers and crew were drowned. The bodies of some of the Arequipa's passengers, it is added, have been washed ashore.

Prince and His Wife Under Arrest

Russian Influence Exercised to Drive Them out of Continental Europe.

Special to the Daily Nugget. Geneva, June 25.—Prince Victor Makacadzid and wife were arrested at the Mon les Bains, Lake Geneva, and will be escorted to the frontier. They are closely related to the Russian imperial family and the prince indeed claims the right to the throne. They have been hounded out of almost every country of continental Europe through Russian influence as dangerous anarchists.

King Arrives

Special to the Daily Nugget. Belgrade, June 25.—King Peter has arrived at Belgrade. The representatives of the chief powers have all left.

Seattle Fire

Special to the Daily Nugget. Seattle, June 25.—A fire in the business district of Seattle did damage to the extent of \$100,000.

Is Blind

Special to the Daily Nugget. New York, June 25.—Ira D. Sankey is permanently blind.

Lower River Logs

A thing that will probably seem somewhat strange to saw mill men and loggers is that at the present time much of the timber for the mills is being brought from down the river, towed up in barges by the steamers. All forenoon the steamer Wilbur Crimmon was moored alongside the chute of the Ladue mill and by means of a gin pole was hoisting logs from a scow and dumping them in the water handy to be taken up the log chute to the mill. Local Manager W. H. B. Lyon in reply to a query said that they could now get logs cheaper to the mill from the lower river than they could from the upper, the bunch that was just being unloaded having been cut on the Sixteenths river about 15 miles below the city, loaded on the barge and the latter was towed up. It is understood to be the intent of the Yukon mill to get the bulk of their timber this season in a similar manner, the old Eldorado having been cut down to the mere hulk for that purpose. It is claimed a steamer such as the Tyrrell can shove a barge built on the lines of the Eldorado loaded to the guards with logs with comparative ease, walking right up the river with it. The good timber on the upper Yukon has been so cut off that that yet standing is so far removed from the water that with the present methods of logging it is too expensive to get the logs where they can be gotten together in a raft.

FIRST SHOT IS FIRED

War Has Been Declared Against Ritualists

English Divine Will Come to America and Begin the Battle.

Special to the Daily Nugget. New York, June 25.—The first shot in the anti-ritualist crusade in America has been fired by Rev. R. Fillingham, of England, a follower of Kensit. He sent a letter to Bishop Potter of New York arranging to begin the fight next February. The vicar denounces the services of St. Mary's, New York, as scandalous and unlawful.

ESCORTED TO FRONTIER

Prince and His Wife Under Arrest

Russian Influence Exercised to Drive Them out of Continental Europe.

Special to the Daily Nugget. Geneva, June 25.—Prince Victor Makacadzid and wife were arrested at the Mon les Bains, Lake Geneva, and will be escorted to the frontier. Hi-yu Time.

Special to the Daily Nugget. Havre, Mont., June 25.—The Crees held a big son dance at Havre for three nights and three days. It ended in a feast of dog meat and protracted sprees.

Arrives at Damot

Special to the Daily Nugget. London, June 26.—The dispatches state that General Manning arrived at Damot, Somaliland, uninterrupted.

Big Fire

Special to the Daily Nugget. Boise, Idaho, June 26.—A fire at Boise caused a property loss to the extent of \$150,000.

FOR BREACH OF PROMISE

Elderly Woman Sues a Young Boy

Loses at Law But Hopes to Win Back the Youngster's Affections.

Special to the Daily Nugget. Dover, N. Y., June 25.—Mrs. Hester Woodhull, aged 72, of Dover, N. Y., has sued Harry Schwartz, aged 19, for breach of promise. She lost the case but says she still hopes to win back her lover. She sees nothing extraordinary in the discrepancy of their ages.

Many Friends Here.

The attendance at the theatre this week has been very good and none have witnessed the production of "The Christian" who have not praised the work of the company. Especially is this true of the John Storm of Mr. Fanning and the Glory Quayle of Miss Gaby, both characters being finished in every way. Tonight is the last night of Cain's masterpiece. Next week the company will be seen in one of Nat Goodwin's funniest and best comedies, "Turned Up."

Died at Toronto.

Charles W. Taylor, for many years business manager of the Toronto Globe and one of the best known men in that portion of Canada, died suddenly at his residence in Toronto yesterday morning of heart disease, according to despatches that were received last night. Mr. Taylor has many friends and acquaintances in Dawson who will be pained to learn of his demise. His brother George Taylor is police magistrate located at Whitehorse.

DUNCAN PROTEST.

Wages of Seamen Overdue Causes the Arrest

The steamer Thistle, one of the Merchants' line of packets, was tied up last night, being placed under arrest by J. M. Erblich acting as deputy marshal. The complainant is the action of the seamen, the crew which has been at work on the vessel since the opening of navigation. The men being brought in the name of James Wm. Abbott and fourteen others, including every employe on the boat from the captain and pilot down to the galley boy. The wages due them range from \$18 claimed by one of the waters to \$30 said to be owing to Henry Bailey, one of the pilots, the entire sum aggregating nearly \$5000. The detainment is given a week in which to answer. Abbott, one of the plaintiffs, has been placed in charge of the boat representing the marshal of the territory.

ARREST MADE

In Conjunction With the Burning of a Negro

Special to the Daily Nugget. Wilmington, Del., June 26.—Arthur Corwell has been arrested in connection with the recent negro burning at Wilmington. Smith, the boy who was shot in the crowd, will die.

Loose in Dawson

Tax Assessor E. Ward Smith is still with us and is now busy making the valuations of real property and making valuations. E. Ward is a good fellow but there are times when the taxpayers would be pleased to ward him off. Mr. Smith has been busy outside his office all this week.

BODY FOUND AT SELKIRK

That of McKernan Who Was Drowned

Discovered Last Night—Sergeant Stillman Notifies Major Cuthbert.

The body of McKernan, formerly spoken of in Dawson papers as Mc-Cornell, has been found. Major Cuthbert having received a telegram from Sergeant Stillman this morning from Selkirk to that effect. McKernan was en route from Vancouver, B. C., to Dawson and, like hundreds of others, left lower Lebarge in a small boat immediately on receipt of news that the river was open but before the jam had broken and while very heavy masses of ice were still numerous in the river. On Sunday, May 17th, the small boat in which McKernan and two companions were traveling was upset by coming in contact with a large cake of ice in the Yukon at a point near the Yukon Crossing. All three of the men were thrown into the water. McKernan being a good swimmer and a very strong man, succeeded in rescuing his companions but the latter was borne down by the running ice and he was never again seen alive.

THISTLE LABELLED

Wages of Seamen Overdue Causes the Arrest

The steamer Thistle, one of the Merchants' line of packets, was tied up last night, being placed under arrest by J. M. Erblich acting as deputy marshal. The complainant is the action of the seamen, the crew which has been at work on the vessel since the opening of navigation. The men being brought in the name of James Wm. AFTERMATH OF BATTLE

Referee's Counting Was Up to Time

Veteran of Many Contests Did Not Exhibit Generalship of the Younger Man.

Now that the affair is all over, the money has been divided and everybody is satisfied if not happy it is in order to say that the nearly 20 year's experience of Joe Choyanski availed him naught in his contest with Nick Hurley Thursday night when the veteran went down and out before his younger and less seasoned opponent. Twice before the final knockout Joe went to the lumber and each time he could have materially recuperated his strength and wind by remaining down at least until the count of eight. Instead, however, he was up the first time at the count of two and the second time at the count of four. Of course the time occupied by the man on the floor for rest is utilized by the man standing for the same purpose but the man on the floor, being in greater need of the time consumed in rest would profit more thereby and in this respect Choyanski did not display the generalship which his many admirers ascribed to him.

MURDERED BY FOOTPADS

Willesbarre, Pa., June 2.—Two men were shot on a highway by footpads here early today. John Balles, of this city, and Benedict Kessler and John Weidman of Wilkes Barre, Pa., were taken to the state convention of Catholic societies, were returning from a banquet when they were stopped by two highwaymen and ordered to throw up their hands. All complied with the demand and the footpads started to go through the pockets of the three men. They seized Weidman's money and railroad ticket and had taken six dollars from Balles, when he made an outcry. This enraged the robbers and they turned away and began firing at the men. Balles was shot three times in the stomach and cannot talk. Kessler was shot in the chest and Weidman was unscathed. The footpads escaped.

WILL TURN MINER

J. Heacock Leaves the Government Service

J. Heacock, who for three years has been in the Superintendent of Public Works Department, has finally decided to leave the service. His resignation was handed in on June 1 to take effect July 1, and while Mr. Heacock was both to accept it Mr. Heacock's unwillingness to longer serve made it compulsory. After quitting public life Mr. Heacock will devote his time and energy to mining and store keeping. He has three claims on Henderson that are being worked and as all are turning out well he much desires to be on the ground and see the yellow stream pouring out with his own eyes. It is his intention also to open a store on Henderson in the vicinity of his claims and become a pillar of the creek. His most probable successor is James Wallace, a recent arrival from Ottawa who is now in the office familiarizing himself with the various duties that may devolve upon him.

BUD HARKIN'S BODY FOUND

Whitehorse, June 22.—A corpse supposed to be the body of Bud Harkin, was discovered floating on the surface of Lake LaBarge, about two miles from Upper LaBarge yesterday morning.

ARREST MADE

In Conjunction With the Burning of a Negro

Special to the Daily Nugget. Wilmington, Del., June 26.—Arthur Corwell has been arrested in connection with the recent negro burning at Wilmington. Smith, the boy who was shot in the crowd, will die.

Loose in Dawson

Tax Assessor E. Ward Smith is still with us and is now busy making the valuations of real property and making valuations. E. Ward is a good fellow but there are times when the taxpayers would be pleased to ward him off. Mr. Smith has been busy outside his office all this week.

STEEL DOOR ARRIVES

The steel doors for the vault in the clerk's office at the court house which were ordered last summer have just arrived. They will replace the wooden affairs made to imitate steel as soon as possible which will render the vault fire proof instead of make believe as it was before.

Many Hurt

Special to the Daily Nugget. Deatle, June 25.—A serious collision occurred on the interurban electric railway near Tacoma. The cars were crowded with people returning from the races. Many were hurt.

To Relieve Sufferers

Special to the Daily Nugget. Topeka, Kan., June 25.—The Kansas legislature is meeting to relieve the flood sufferers.

Hanna Denies

Special to the Daily Nugget. Columbus, Ohio, June 25.—Senator Hanna denies that he is a candidate for vice-president.

EFFECTS OF THE FLOOD

Strain Begins to Tell Seriously

Number of Victims Are Mentally Unbalanced—Some Have Lost Reason.

Special to the Daily Nugget. Hopedale, Ont., June 24.—The strain imposed by the great flood begins to tell on the people of Hopedale. Mrs. Sarah Stand and John Stand have lost their reason and others are seriously affected several losing their mental balance. Regarding the counting of the voters there were no grounds for the assertion that has since been frequently made to the effect that the count was unusually slow. It was not unusually slow but was the same as usual. Counts are supposed to be made by the second but to be strictly accurate must be made with the "wing" of a regular watch. It is usually a momentous time when the counts are being made and no other count is to appear much longer at such times than at others. In making however, Bowles' count Thursday night appears too low, especially for those who had 2 to 4 miles of territory.

NARROW ESCAPE

William Mackison of Grand Forks Thrown Out of Buggy.

William Mackison of Grand Forks had a narrow escape from serious injury yesterday and as it was he was not seriously hurt. Mackison and his wife were driving down Queen street in their buggy when a street car crossed the tracks and struck the buggy. Mackison was thrown out of the buggy and the buggy overturned. Mackison was able to get up and walk to the house where he was taken care of. The street car driver was also able to get up and walk to the house where he was taken care of.

PROTEST FILED.

Water is Badly Needed on Upper Dominion

The Dominion Water Board has filed a protest against the grant of a license to the Dominion Water Board to supply water to the city of Dawson. The board claims that the water is badly needed on the upper Dominion and that the grant of a license to the Dominion Water Board to supply water to the city of Dawson is a violation of the Dominion Water Act. The board has filed a protest with the Dominion Water Board and has asked that the license be refused.

LAWYERS LEAVE

Noel for London and Bowes for Victoria

Two of the law firm of Noel and Bowes have left for London and Victoria. Noel is going to London to attend to the case of the Dominion Water Board and Bowes is going to Victoria to attend to the case of the Dominion Water Board. The firm of Noel and Bowes has been in Dawson for some time and has been successful in many cases. They are well known in the legal profession and are highly respected.

DUNSMUIR'S VICTORY

Miners Abandon American Federation

Have Returned to Their Work Under Former Terms of Agreement.

Special to the Daily Nugget. Victoria, June 25.—Premier Dunsmuir has scored an unqualified victory over the coal miners at Ladysmith. They have abandoned the Western Federation of Miners and gone back to work under the old agreement. Dunsmuir absolutely declined to have any dealings with the American labor organization.

PROPERTY IS SEIZED

Valuable Claims to be Sold July 3

Frank Berry, an Old Time Miner Finds Himself in Financial Difficulty.

Frank Berry, an old time miner, has found himself in financial difficulty. He has a number of valuable claims which he is unable to pay for. The claims are to be sold on July 3. Berry has been in the mining business for many years and has accumulated a large amount of property. He is now in a difficult financial position and is unable to pay the taxes on his property. He has asked for help and is unable to pay for the claims.

WILL TURN MINER

J. Heacock Leaves the Government Service

J. Heacock, who for three years has been in the Superintendent of Public Works Department, has finally decided to leave the service. His resignation was handed in on June 1 to take effect July 1, and while Mr. Heacock was both to accept it Mr. Heacock's unwillingness to longer serve made it compulsory. The Klondike Nugget

Telephone No. 12 (Dawson's Pioneer Paper) Issued Daily and Semi-Weekly. GEORGE W. ALLEN, Publisher.

NOTICE. Pages 4 and 7 of this issue of the Semi-Weekly Nugget are taken from Saturday's daily, pages 3 and 8 are taken from Monday's daily, and pages 1, 2, 5, 6, 9 and 10 from Tuesday's daily.

CONFIDENCE SHAKEN. The circumstances leading up to the election of Mr. Ross were essentially peculiar.

The Yukon administration was admittedly unpopular. The combined opposition had sufficient strength to utterly annihilate a straight government candidate—a fact as well known on one side as on the other.

Mr. Ross had given the people grounds for belief that he was a man who dared to stand by his convictions. He was reputed to have made a special trip to Ottawa to tender his resignation as commissioner unless certain changes were made in the Treadgold concession.

As a straight government candidate standing upon a platform endorsing the federal Yukon administration, Mr. Ross could not have received 20 percent of the votes cast in his favor. His success was due to sheer confidence in the man.

Now they are in doubt. They begin to feel that their faith was misplaced—that they may have made a mistake and gave too much confidence.

REMOVE THE BARRIER. The difficulties attendant upon the solution of the water problem in this district are not to be compared with the troubles experienced at Nome.

It certainly would appear that the far more attractive inducements for the establishment of a water system offered in this territory would serve to interest capital—and as a matter of fact, if the blight of monopoly did not hang so heavily on the land, the necessary money would be forthcoming without delay.

Now it appears that Mr. Ross has been able to spend little or no time at the house and during a great por-

tion of the session has been out on the Pacific coast. Had the facts been known to the public as they should have been made known, the delegates would have been sent on to the capital, and a more emphatic protest against the iniquitous concession would have been entered.

The collapse of the Tanana boom should result in renewed activity throughout this district. A second Klondike has yet to be discovered, and in fact there is no other district in the Yukon that can be compared with that of which Dawson is the commercial center.

TANANA. Tanana is a frost-puff and simple. Such is the consensus of opinion among those who returned to Dawson today on the steamer Rock Island and certainly they are in a position to know whereof they speak.

The "Wireless" is the name of the first newspaper relying upon wireless telegraphy for its press service. It is published at Valdez a summer resort on Santa Catalina island off the coast of California and receives daily news reports by the Marconi system.

The fearful floods in the state of Kansas have been followed by similar visitations in Oregon. Yukon has been singularly free from such disasters this far and climatic conditions are such that past inundations are particularly likely to continue.

British Columbia is showing a miniature Klondike stampede. Reports of claim staking, grubbing, etc., indicate that the traditions are being observed.

Excitement Over New Placer Mining Camps. Vancouver, June 25.—Fights have taken place at Lardo over the possession of pack animals and other means of conveyance to the new placer strike on Poplar creek. The stampede continues.

Given Respite. Vancouver, June 25.—Indian Louis who murdered his wife at Vernon has been respited until July 15th.

NEW MINING APPLIANCE

Machinery Here for Gold Run Company

When in Operation Will Handle 4000 Cubic Yards of Gravel Each Day.

Many are the devices being employed this season by holders of extensive mining interests to decrease the cost of extracting the gold from the frozen gravel, to handle the maximum amount of dirt with the minimum cost.

The plant could be erected by hand. It is nothing like a dredger, steam shovel or anything else of that sort, but rather is a sort of hydraulic plant confined to close quarters with provisions for caring for the water after usage and also the tailings.

The plan of the Gold Run company is to equip in its effect, four sets of four elevators and cutting devices instead of one each operating separately and independent of the other.

Among the passengers to arrive on the Rock Island this morning was one E. T. Mauer, a young man only 18 years of age who will carry with him to the grave most horrible evidence of his experience in the north.

Young Mauer had been in the Klondike upward of a year, having come here from Butte, Montana. Last October he left Dawson and went down to the Yukon to Fort Gibbon where he joined the military department of the government, there being a post at Fort Gibbon.

Several baskets of fling fish were taken from the Klondike yesterday. The sordid actor John Molligan, being one of the fortunate anglers, the fish were a species of trout called grayling.

FROM THE KOYUKUK

J. R. Mathews There on June 1st

But Little Work Done in That Country Since Last Fall.

But little has been done in the Koyukuk country since last fall according to Mr. J. R. Mathews, who left Bettles on June 1st and joined the Rock Island down the Yukon in the capacity of chief engineer.

Mr. Mathews owns discovery claim on Emma creek, a tributary of the Koyukuk, but did little more than prospect during the past winter. He will return next fall and spend the winter working the property.

Nothing has ever been heard on the Koyukuk of Victor A. Lowry and Jack Burns, who left Fort Yukon for Colville early in the winter. They are given up as having been killed to death somewhere on the Yukon between the Ball and Koyukuk rivers.

There is a well known story that a man who stole gold dust from a cabin in Colville and was held in a year awaiting trial but was never tried, was turned out on the opening of navigation. He drifted down the Koyukuk and on down the Yukon a small boat, a sadder if not a repentant man.

Among the passengers to arrive on the Rock Island this morning was one E. T. Mauer, a young man only 18 years of age who will carry with him to the grave most horrible evidence of his experience in the north.

Stro

When the Strober he that an election had Fairbanks and that his townsman and friend...

Great applause for the candidate. The results had been questioned because of some technical points. Some thought was given to the thought of a "pull" but it was not to be.

There is a well known story that a man who stole gold dust from a cabin in Colville and was held in a year awaiting trial but was never tried, was turned out on the opening of navigation.

Among the passengers to arrive on the Rock Island this morning was one E. T. Mauer, a young man only 18 years of age who will carry with him to the grave most horrible evidence of his experience in the north.

WILLIAM

Horses Taken Storm on on—Dr. Deat

A most deplorable which William Cameron killed occurred yesterday at 4 o'clock in the afternoon at the Dome roadhouse and on the roads.

Cameron was a driver of Woodson's freighters. He left early yesterday morning with a load of sulphur drawn by four horses, one of which was a severe case of rabies. The horses started to run. Cameron powerfully built man but in some way a upsetting the wagon beneath and was instantly killed. Cameron was in Dawson having been since some time in '99. John Cameron owns the sulphur and Malcolm Mc Dawson fire department in. The unfortunate of a roadhouse on the past winter and quit it a few days ago employ of the freight being his first trip.

John Cameron, the brother, went from Sulphur Run yesterday and reached by telephone when he was given of his brother's death to the Dome roadhouse. He took charge of the body and was taken to the Marshall of Caribou by Major Cuthbert to scene of the accident for an inquiry into the cause. In case an inquiry Captain Routledge was given for that purpose.

William Cameron was 48 or 50 years of

CENTRAL STATION

Decided Upon by the City Council

Will Also Establish as Quickly as Practical the Gammel Fire Alarm System.

Three matters of consequence were attended to at the meeting of the city council last night. Bills amounting to \$4104 were passed and ordered paid, \$2650 of the amount being for the Carnegie library site, it was decided to build a central fire station with quarters for a council chamber and offices for the city clerk and assessor, and an additional step was taken in regard to the erection of the Carnegie library.

But one communication was received and that was from the residents of Eighth avenue in the vicinity of Church and Hanson streets. They petition for the city to purchase a lot in Menzie's addition where Eighth avenue makes a jog in order that communication may be uninterrupted the full length of the avenue. In their communication they recite that Eighth avenue is not continuous, but is divided between Day's addition and Menzie's addition making thereby two distinct portions of the street. These portions are connected only by an alley 21 feet in width which is insufficient to permit Eighth avenue being used as a public highway. They state they are the owners or occupants of and duly assessed for the property set opposite their respective signatures and pray that the municipality purchase lot 10 in block E of the Menzie's addition to the townsite of Dawson and convert the same to the use of the public as a thoroughfare.

Edwards, acting chairman of the finance committee during the absence of Johnson, presented a report recommending the payment of the following accounts:

News Publishing Co.	\$ 49.50

Ryan, chairman of the committee on streets, works and property, stated that he had no report to make other than that which he would make verbally. His department had done much work in the way of grading, but as the progress was rather slow on account of the frost encountered he had considered it best to make no official report until the work was

well on toward being finished which he thought would be by the next regular meeting of the council. At that time he expected to be able to make a full and complete report.

With reference to the new dog pound it has been decided to establish. La Lande stated that the fence around the old pound was in such shape that it would not be worth attempting to remove it to the new site. It would be less trouble and less expensive to buy new lumber and make a new fence than to attempt to move the old one. The site that has been decided upon is considered admirable, being removed off the flat upon which the city stands and placed far enough away so that the slumbers of the citizens will not be disturbed by the nightly concerts of the malamutes. The site is on the first flat on the road to the creek above the first bluff.

Macdonald reported for the fire, water and light committee in regard to the special meeting held a week ago Friday evening re the advisability of erecting a central fire station. The meeting of the committee, he said, had been held pursuant to instructions and in addition to talking over fully the scheme to establish a central station the installation of the Gammel fire alarm system had been gone into at considerable length. The result of the meeting was the decision to erect the central station and also put in the alarm system referred to at the earliest practical moment. It was also recommended that when the station was built it should be made large enough to furnish quarters for the council and the city officials who require offices. As to the site, it has been decided that it will be on the water front and negotiations are now under way looking toward the purchase of a piece of ground upon which to erect the building.

Under the head of minutes Murphy, assisted the chairman of the committee which had just reported what the result was of the visit made to the commissioner by his committee with regard to the site for the fire hall. Macdonald replied that on the following Monday after the meeting he in company with the mayor had called upon the commissioner and stated their desires. The latter sent for the crown timber and land agent and asked the committee in what quantity a site was desired. Upon the arrival of the land agent it was discovered that all the land along the water front was held under leases, though in the case of several they were in such position that a deal could be made for their release. The commissioner assured the committee that he

would do all in his power to assist them in obtaining that which is desired for the use of the city.

The Carnegie library matter came up and considerable discussion was indulged in concerning the present apparent apathy in moving forward. Ryan referred to the manner in which similar matters are conducted on the outside, saying that the first thing to be done after the requirements of the donor had been complied with was to advertise for plans, make a selection and forward it to New York for the approval of Carnegie's agent. He thought the plans must first be submitted and then if they are approved by the agent construction work can be begun at once, the money being supplied in lots of \$5000 each.

His worship favored the idea of advertising for plans at once, stating merely to the architects who were prepared to submit plans and specifications that the city had \$25,000 to spend for the building and fixtures ready for occupancy and that in drawing the plans they must be governed accordingly. In the matter of the architect's fee his worship also thought that some compensation ought to be made to the competitor submitting the second best plan. No definite decision was made with reference to the fee, but it was decided to advertise for plans at once.

Macdonald reported that the auditors had completed their labors for the second quarter of the year and had found one item for which they could find no authority. It was for the sale of a fire horse for \$250 and 50 feet of hose for 50 cents a foot. The sale had been made upon the authority of the council and the money received deposited in the bank to the credit of the city and Macdonald moved that the sale be ratified in order that the proper authority be shown upon the books carried.

ALONG THE WATERFRONT.

The Whitehorse arrived last night with 200 tons of freight, a light mail, principally from way points and the following passengers: Mrs. White and two children, H. S. Tohn, Miss Tohn, Mrs. James Leslie, Mrs. Mary Morrison, Mrs. Bushy, sister and three children, W. J. M. Sandels, Mrs. S. Birdhouse, J. J. Cause, Mrs. A. Butler, Clara Russell, Christina Smith, Sig. Rollschid, R. H. Rawson, C. Tappin, Mrs. Giffereau, C. B. Lancaster, J. S. Lancaster, J. Simpson.

The Whitehorse will sail at 4 this afternoon with the largest passenger list of the season. The name were not obtainable in time to publish this evening.

The police steamer Violette is lying at the S. Y. T. dock. The Dawson arrived at noon today, 35 hours from Whitehorse, the second trip of the season. She brought about 200 tons of freight but no passengers having left Whitehorse Sunday night. No passenger train reaches Whitehorse Sundays. The Dawson will sail for Whitehorse at noon tomorrow.

The Yukoner was due at 11 this afternoon with freight but few if any passengers, she having sailed from
