County Magistrate C. Woodrow at Sarnia on Monday fined a Watford man \$10 and costs for intoxication and a Sombra man pleaded guilty to a charge of consuming beer in a place other than a private dwelling and paid \$10 and costs.

Have modern parents lost control of their daughters? Where are the silken thrill-seeking darlings headed? See Gloria Swanson's new daring production "Prodigal Daughters" which will be presented at the Lyceum with a special orchestra, Fair Night.

Clothing made to order. See our new suitings and overcoatings, Art Tailored.—Swift's.

Sir Adam Beck stated at Toronto that a reduction in Hydro rates would soon be made in over 100 municipalities. As Watford Hydro Commission report a good surplus for the year it is expected that some reduction may be looked for here in the near future.

Mr. H. W. (Bert) Collier, chief probation officer of the Juvenile Court for the city of Vancouver in renewing his subscription to the Guide-Advocate says: "The old home town paper is always welcome, although I have been away out here for more than seventeen years and am likely to remain."

An advertisement in The Guide-Advocate will attract more attention than a well-dressed shop window, and will be seen by a hundred times the number. You don't keep the blinds down on your show window. How about your advertisement?

Mr. Samuel Cooke, proprietor of the Empire Hotel, Regina, Mr. Albert Cooke and Mr. Albert King, also of Regina are visiting relatives and old friends in Watford and vicinity. Sam speaks glowingly of the business outlook of Regina and reports all the former Watfordites well, prosperous and happy.

Men's Heather Sweaters at \$3.00 is a wonder for the money.—Swift's.

Trinity harvest thanksgiving service will be held on Sunday, Sept. 23rd, at 7 p.m. when the Rev. Canon D. W. Collins B.A., rector of St. George's church, Sarnia, will be the special preacher. The church will be fittingly decorated with flowers, etc., and appropriate music will be rendered by a full choir. A special thank-offering is requested. All welcome.

The Bank of Montreal Ontario crop report dated Sept. 6th, says: "Crops have been benefited by recent rains. Threshing is well under way and the general yield is satisfactory. Fall wheat is turning out well. Barley and oats will be a fair average yield. Weather conditions the past week have been favourable for ensilage corn and roots. The apple crop will be fair. Pasturage has improved."

The partial eclipse of the sun on Monday was witnessed by many people. Commencing at 3.33 p.m., Eastern standard time, over the lower portion of the sun, the partial eclipse reached its height at 4.29 p.m. From thence the moon's shadow gradually receded till 5.21 p.m., when the eclipse wholly disappeared.

Ladies' all-wool pleated skirts, 15 patterns, \$5.00 each.—Swift's.

The Western Fair will be patronized by the people of Watford and vicinity this week. A constant stream of autos was to be seen going east in the early part of the day on Tuesday, Wednesday and Thursday and the regular and special trains on the C.N.R. carried many passengers bound for London. The Western Fair seems to attract more people from this vicinity every year.

Flora, the two-year-old child of Mr. and Mrs. Mat. Cunningham had a narrow escape from drowning on Saturday evening last, when she fell into a deep well on the premises of Isaac Newell. Fortunately there was not much water in the well and the little one was found standing on a rail that had been dropped into the well. A ladder was secured and the child taken out uninjured but badly frightened.

Great value—Boys' Two-Bloomer Suits \$8.50, \$10.00, \$12.75. Bring in the boys now, don't delay.—Swift's.

The Trenton, Mich., Times, has the following:—"Mr. and Mrs. Henry Knight, of Grosse Ile, (west side) leave on Wednesday afternoon of this week for Detroit, enroute for Chicago, and many western points. From Chicago they expect to leave for Denver, Colorado, thence to Palisades, Colo., where they will visit their son, Mr. Basil T. Knight and wife and infant son. After spending two weeks with them Mr. and Mrs. Knight plan to go to Los Angeles, California, to visit former Trentonites, and upon their return trip will again visit their son Basil, in Palisades before returning to their home here on the island. They expect to be away at least six weeks." Mr. and Mrs. Henry Knight were formerly residents of Watford.

There once was a fellow who knew nearly all the words of "O Canada" and "God Bless Our Native Land." Therefore he called himself a patriot. Yet he never did anything really worth while for his own home town. He objected to building a sidewalk. He refused to clean off the snow. He objected to paving because he had no car. He bought a Ford and cursed the muddy roads. He belittled all his city did because he couldn't agree with some of his councilmen as how local improvements should be done. You see: He missed the Big Idea: That patriotism is love of country. That love means service. That the part of the country to love and serve first is the part one knows best. In short: That every good citizen—every real patriot—is loyal to and works for his own home town. Odd chap, wasn't he?

Twenty members of Wawanosh chapter, Royal Arch Masons, conferred the degree of Most Excellent Master upon a class of candidates at Forest Friday evening. The degree work was in charge of Harry Hall. There were about 100 present at the banquet. The Parkhill chapter conferred the Mark degree before the Sarnia team put on their work. The Sarnia members were invited to Parkhill on September 21st when the St. John's Chapter of London, will put on the Royal Arch degree on the occasion of the District superintendent's visit.

## BROOKE

Anniversary services will be held in St. Andrew's Presbyterian church, 10th line, on Sunday, Sept. 16th, morning service at 11, evening at 7.30. Rev. Mr. Mondak of Petrolia, will conduct the services. On Monday evening following, the ladies' aid will serve a fowl supper and a good program will follow. Admission 50c and 25c.

A telegram was received by Wallace Watson on Thursday last stating that his father, William Watson, had passed away in Victoria, B.C., on Wednesday, Sept. 5th, in his 87th year. He had been failing for a year or more and suffered a paralytic stroke on Tuesday morning from which he did not rally. He is survived by his wife and Howard of Victoria, Mrs. L. C. Edwards of Malta, Ontario, Mrs. H. Sinclair of Gull Lake, Sask., and Wallace of Brooke.

Two fine barns, together with the season's crops, some implements and harness, the property of Andrew Beattie, con. 14, near Kerwood, were consumed by fire on Friday at noon. Threshing was in progress and all hands had gone to dinner when the fire broke out, and little could be done to save the contents of the buildings when help arrived on the scene. The fire is supposed to have caught from a hot box, and Jerome Goldrick, thrasher, lost his cleaner. Mr. Beattie's loss will be about \$6000, with \$1700 insurance in the Lambton Farmers' Insurance Co. He has the sympathy of the entire community.

As noted last week, Martha Parker, beloved wife of Mr. Richard McMurray, a lifelong and much respected resident of the Brooke township, passed away at her home on the tenth line on Wednesday, Sept. 5th, after a lengthy illness. The late Mrs. McMurray, who was in her 53rd year, was born in Brooke Township and had lived there all her life. Besides her husband she is survived by two children, William and Eileen, both at home. She is also survived by two brothers, Harvey and Frank Parker, both of Brooke, and several sisters in Western Canada. The funeral was held on Friday afternoon and was largely attended. Service was held at the family residence, the officiating clergyman being Rev. A. MacVicar, Presbyterian minister of Inwood. Interment took place in Alvinston cemetery, the pallbearers being six nephews of the deceased: Arnold and H. Parker, David and Ernest Lucas and William Rowland, all of Brooke, and William Rennie of London.

The regular meeting of Chalmers' W. M. S. was held at the home of Mrs. Colin Walker, on Thursday, Sept. 6th. There were 8 members and 10 visitors present. The President opened the meeting in the usual manner. The lesson on "The Life of Dr. Margaret McKellar" was taken by Miss Misena Walker. Two short missionary topics were read by Mrs. Jas. Gilroy and Mrs. D. McGagan. It was decided to hold a "Home-made baking sale" in Alvinston on Sept. 29. The members are also reminded that all the blocks for the autograph quilt are to be handed in on or before the October meeting. Next meeting at the home of Mrs. Geo. Campbell on Oct. 4th. Mrs. D. Fisher, Mrs. A. Campbell and Mrs. Ray Smith to take the topics. The meeting closed by all repeating the Lord's Prayer. The hostess then served lunch and a very enjoyable social hour was spent by all present.

W. R. Smith, a soldier settler of Bryon, Middlesex county, has produced a blight resisting Dooley potato from which Government experts expect to get wonderful results.

Miss Amy Luckham assumed her duties as teacher in school No. 5 Warwick last week, where she has been engaged for the ensuing year.

Mrs. Duncan McNabb, her son Angus and daughters Mrs. Stephenson and Miss Julia, all of London, motored to Warwick last Sunday and were guests at the home of W. H. and Mrs. Luckham.

Miss Meryl Luckham, R.N., London, arrived at her home here last Monday from a trip down the St. Lawrence and accompanied her parents, Mr. and Mrs. W. H. Luckham, and sister, Amy, on a motor trip to Port Elgin on Tuesday where they will attend the marriage of their son and brother, J. Scott Luckham, druggist of that place, to Miss Lulu Mae Darling, of Port Elgin.

## PLANS TO REDUCE EDUCATION COSTS

Premier Ferguson Declares for General Simplification

Promise of changes in Ontario's educational policy, which would tend toward a simplifying of the Public School System, was made by Premier G. H. Ferguson, speaking for the first time publicly as minister of education at the C.N.R. director's luncheon in Toronto.

The Premier was loudly applauded when he declared that the school system to-day had the wrong idea, that of cramming knowledge into the young head instead of developing the youngsters.

"Our efforts in the past have perhaps been along erroneous lines. We have tried to fill the child with knowledge instead of developing and training it.

"I am of the opinion that we have overburdened the children in public schools in the past. We have crammed them in a short time with a variety of subjects, and in addition have made them do home work.

"There are certain essential subjects that cover the fundamentals of education," went on Mr. Ferguson, and we hope to go back to the old policy of concentrating on the essential subjects. We hope to stimulate the minds of the children and develop their intellectual character, and the moral character of the youngsters. After all, the moral fibre is the most important point of the child's being."

Reduction of the number of subjects in the course would put it up to the pupils themselves to make progress in certain subjects.

"The Government hopes soon to say to the public school pupils: 'You must take a certain number of these subjects and if you desire to take the others that is up to you.'"

This would hold the back of bright children by the backward ones be lessened. He hoped to at once reduce the burden of educational cost and to increase the efficiency of the system. "There is no such return as that derived from education," said the Premier. "We are now spending \$10,000,000 a year and we have less than 3,000,000 people. With 16,000 teachers and 750,000 pupils you can see what a huge task it is to cope with this educational problem."

He stressed also the fact that the imperial relations should be emphasized and the wonderful history of the British Empire taught to the pupils. With the aid of the United States the British Empire would be able without friction or turmoil, he hoped, to work for the peace and welfare of the world.

#### NOTE AND COMMENT

Our American friends have always had a reputation for their skill in jaw-work; yet it is surprising to learn from figures recently published that they spend nearly a million dollars a week for chewing gum.

Kingston Standard: It will be interesting to see what Premier Ferguson proposes to do about home work. At present many pupils have to work longer hours than their fathers, and it is both absurd and wrong that they should.

The attendance at the Toronto Exhibition this year was 1,493,000 just seven of the objective of the directors. The National Exhibition is the biggest annual affair in this line on the face of the earth, and one which all Canadians should be proud of.

The anthracite strike is over and miners are expected to go to work again in a few days. Like all previous coal strikes the result will be to squeeze a little more per ton from the consumers. It was ever thus, and one wonders when this gradual increase in price will end. The new agreement will not extend over April 1925, and perhaps not that long. In the end the public pay.

It is pleasant to learn from Principal Morris of the Hamilton Collegiate Institute that the star athletes of the school who won so many laurels this season are also successful in their examinations, all of them having passed well up in the list. It is a mistake to suppose that a school athlete must necessarily be backward in his studies. His mind as well as his body is invigorated by physical exercise.—Hamilton Herald

Boston Transcript.—Good advice is being offered the farmers of the west concerning the folly of placing reliance upon a single crop, and it is being pointed out that a slump in the price of wheat at a time when other crops are bringing fairly good prices does not spell ruin for agriculture in general. The present situation is thus approached from the common sense and business standpoint.

Compensation awarded by the Workmen's Compensation Board in the month of August amounted to \$479,274.81, and medical aid (doctors, hospital and nursing) to \$57,913.62. The number of cheques issued per day averaged 698. The total number of accidents reported in August was 5,832, of which 33 were fatal. The month of June showed the largest number of reported accidents up to that time, and each month since shows a new high record the figures for June being 5,523, and for July 5,718.

The world does not stand still by any means, and folk only require to keep their eyes open to be assured of the truth of this statement. Among the new things is factory made grass, to be bought by the yard and laid down. Inventor is an Englishman who sows seed on a fabric, in a mill heated to proper temperature and the necessary moisture. When customers secure this carpet, so called it is placed upon the soil, the fabric rots away and the rootlets take hold on the ground, something like the transplanting of roots and vegetables. Another new feature is artificial wood, manufactured from a mixture of sawdust, chalk and chemical. Ingredients are put through a machine of heavy pressure, from which is produced a material impervious to decay and nearly indestructible by fire.

#### A CUSTOM RULING

An impression prevails that any person entering Canada from the United States or elsewhere is allowed under the Customs regulations to bring in free of duty two or three hundred cigarettes, a pound of tobacco, and a certain quantity of cigars. It is pointed out by the Customs Department that this is not the case. Non-residents of Canada are allowed to bring in, under certain conditions 40 cigars or 100 cigarettes, or one pound of tobacco only, and this must be for personal use. This does not apply to Canadians who may be returning from another country to Canada. They have no such privileges.

The Customs Department believes that it is possible that this impression accounts for a great deal of petty smuggling which has been indulged in by Canadians, who probably would not knowingly infringe on the laws of their country. Instructions have now been given by the Customs authorities to all officers that the law as above stated must be rigidly enforced.

#### ARE OLD TIMES BETTER THAN THE PRESENT?

An intelligent and cultivated woman was heard recently to express the opinion that the present generation will see the last of the good old-fashioned family life which has kept the nation pure and worthy of the high destiny set for it. Many people see many changes in domestic life. And it is a common error to believe that the things that used to be were better than the things that are. The old games by the fireside, the comfortable sitting-room in the home of childhood, even the chores that seemed so hard then are fondly looked back upon in middle life, through a mellowing veil of years. And there is a regretful realization that life has not much zest now as it had then. The days of boyhood and girlhood, when there was keen delight in merely living, have gone. But the boys and girls of to-day are having then just as bounteously as their fathers and mothers did, even though the surroundings are different. There never was a generation that did not think the one succeeding it was going to the dogs. The surest cure for this mild pessimism is to go back to the old home after years of absence. The house that in memory was a spacious abode full of delightful nooks and corners turns out to be a cramped cottage, devoid of plumbing. The street in front, which had seemed a wide and noble thoroughfare is found to be narrow. The world is moving forward, and the homes with it. The common comforts of the laborer to-day were sought as luxuries by the rich not so many years ago. Home has always been the same to those in it and it always will be. Whether a hut in the wilderness or a mansion on a boulevard, it is the abode of happiness if it really is a home.

#### COUNTER CHECK BOOKS

The Guide-Advocate is agent for the Appleford line—a better grade book and at the lowest price. Before you give your order to any travelling agent phone 11w. There is a tendency among some of the check book firms towards higher prices in the near future; however, we have been instructed to accept orders at present prices for delivery any time in the next three months. Look up your supply and if you will require more in the next six months, give your local agent the order.

#### THE HARDEST PUZZLE

The National Puzzler's League, including farmers, college men, professors, authors, working men, army officers, business men, lawyers, surgeons, held its annual convention recently in Pittsburg. The delegates, numbering over 40, were unanimous in declaring that puzzle-studying improves the mentality, much the same as the higher mathematics, and also encourages good temper and cheerfulness. A wheat farmer named Mullins who solved 5,000 puzzles during the past year declared that "the mental balance found in solving puzzles kept him in trim to do more than the average amount of work." The delegates referred to themselves as evidence that a puzzle student cannot be slow witted.

But these "puzzlesters" appear to have overlooked the greatest puzzle of the century—how to restore peace in Europe. Here is a unique opportunity for the League! If it could solve that question, the benefit would extend far beyond its own members. The whole world would experience some of the better "mental balance" to which Mr. Mullins refers, and would be able to look forward with cheerfulness and hope. Moreover, puzzles when once fairly solved never come up again. How humanity will rejoice when the Puzzlers' League throws this European puzzle into the scrap heap.—The Globe.

#### STOP OVER IN THE MOUNTAINS

No journey across Canada is complete without a sojourn, however brief among the majestic awe-inspiring mountains.

Even a one-day stop-over at Jasper Park Lodge, that delightful rustic Alpine Chalet by the side of Lac Beauvert in the heart of Jasper National Park up in the Northern Canadian Rockies gives untold compensations.

This glorious mountain playground is the largest National Park in the world, embracing 4400 square miles of mountain grandeur. There are sublime snow-clad mountains, a number of which have never been named and hundreds of which tower between 7,000 and 10,000 feet in altitude, glaciers both small and great wild mountain torrents, leaping through gorges and tumbling in white foaming cataracts; snowfields and clear sparkling lakes that gleam like jewels in their setting of green.

Riding, mountain climbing, boating on Lac Beauvert and swimming in the cool Alpine tarns are the chief attractions of this park, while practically every other healthful recreation may be indulged in. There is a good tennis court and a golf course under construction.

Write any of the Canadian National Railways for handsomely illustrated booklet.

#### BABY'S OWN TABLETS OF GREAT VALUE

Mrs. Hermadis Chagnon, Ste. Theodoise, Que., writes:—"Baby's Own Tablets have been of great value to me in keeping my little one well and I would not be without them." Thousands of other mothers say the same thing. They have learned by actual experience the value of the Tablets in regulating the bowels and stomach; banishing constipation and indigestion; breaking up colds and simple fevers; and keeping the baby free from the many simple ailments of childhood. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Friday.—Mr. Gillem was a telling pa that has boughten all new spark Plugs and new Tires for his ottomobel and pa luffed and sed That issent nothing why the only thing that is left that was on are 2th handed ford when we bot it is the Khaust pipe and the Morgage.

Saturday.—Jonny Brant was asting pa today if he beleaved in long ingagements to a girl of the opposeing Sex. and pa sed after he had went and look ed around to see if ma was in Eve dropping distants he says Yes Jonny I beleave in long ingagements because the longer you are ingaged the lesser time you got to stay married.

Sunday.—the kid frum Boston acks like as if he is too good for the rest of are gang and he wont have nothing to do with me because he says my pa is only just a noosepaper man. Well all I got to say is that the only differents between his pa and mine is that hissen is wirking on his second Million \$ wile mine is still hamering away on his 1st Million \$.

Monday.—Pa says the preacher at are church is a good preacher but he dussent no very much about his vry because when he ast him what was the date when John L. Sullivan lose his last battle the preacher reply and answered He cudden just Xackly recall what War it was in.

Tuesday.—Women have got sum funny ideas a specially ma about how a fellow shud ought to wash and ect. Ma all ways insists that I got to wash the back of my neck and then at the same time she tells me it is very unpolite for a boy to turn his back on enny 1. How they going to see it if thats the Case.

Wednesday.—Went on a picnick with a joiz of fokes today and had fryed chicken and other things. Pa and me has decided that it is a good stunt to get up picnicks once and a wile because when you go to eat where they are lots of outsiders you all ways got more to eat on act. it looks better.

Thursday.—Ma was reading Enick Arden witch is a very sad pome to me tonite and that is 1 pome I all ways like to hear because it all ways makes my nose itch.

#### MUSKOKA LAKES

Already vacationists are off to the land of gleaming lakes—Muskoka, the ever beautiful with its cool green forests, sparkling lakes and shadowy winding rivers.

This summer wonderland is famous over the entire continent over and year after year tired city dwellers from all parts of Canada and the United States come to it and find health, recreation and enjoyment. It is so close to the commercial centres that even those with the briefest vacation time at their disposal may enjoy its delights.

A fleet of eight modern steamers offers glorious water trips to all points on Lakes Rosseau, Muskoka, and Joseph. There is every opportunity for motor-boating, and the canoe trips are inexhaustible. The bathing and fishing is unexcelled and there is hotel accommodation to suit every taste and every purse.

There is the gay fashionable hotel, with its golf course, tennis, bowling glorious weekend dances, regattas, etc., just the place for those who need livening up a bit, while, for those who are tired of the social whirl there is the quieter hotel and boarding house offering just as enticing out-door sports, but where you may live as quietly as you please.

Canadian National Railways make direct connections with lake steamers at Muskoka Wharf, Bala Park and Lake Joseph stations.

FROM BED TO WORK IN THREE WEEKS

Dreco helps put Wm. Walker on his feet and enables him to return to work.

"For the past year my husband has been a sufferer from ulcers on the stomach," says Mrs. William Walker, of 158 Eileen Ave., Toronto, Ont. "His food lay in his stomach and would not digest and he frequently had severe vomiting spells. He was on a diet most of the time. This resulted in his entire system becoming run-down. He had chronic constipation and was very restless and nervous.

"About three and a half weeks ago I brought him home a bottle of Dreco. He tried it and said that the first dose seemed to give him relief and eased his stomach of the terrible pains that gripped him. His bowels became more regular.

"We are both greatly pleased with the benefits Dreco has already produced. My husband's system is improving generally and after the severe trouble he has just passed through, he was able to return to work in three weeks' time.

"Mr. Walker is feeling very much stronger and I want him to continue this good medicine, as it is the first medicine we have found that goes right to the root of his troubles."

Dreco's beneficial action on the organs of digestion is remarkably quick and thorough. No matter how severe the case or how long standing, Dreco will help. This remedy contains no mercury, potash or habit forming drugs. It is made solely from herbs, roots, bark and leaves and has established an enviable reputation, earned only by genuine merit.

Dreco is being specially introduced in Watford by Siddall's Drug Co., and is sold by a good druggist everywhere.

THE RURAL SCHOOL FAIR

The rural school fair which is held in many sections of the country, will be taking place this month and is always an outstanding event in the lives of the children. Those who got seeds or eggs from the department last spring and have been taking care of their own gardens or chickens throughout the summer months are confidently looking forward to carrying off many prizes when fair day comes. And good luck to them all, for they deserve the reward of their labor. But right here is a point worth watching—what about the children who have neglected their plots and poultry and have nothing to exhibit, the parents of many of these youngsters will do them inestimable harm by letting them show vegetables from the home garden or chickens from the home roost in place of what they should have raised themselves. The fathers and big brothers will make bird houses and other manual training articles and the mothers and big sisters will dress dolls and bake cakes which will be shown as the sole work of the child. Thus the child gets his first lesson in dishonesty and all for the sake of a few dollars prize money. And the example is far reaching, too, as the youngster who has tried honestly to do his best this year, will next year try to get some older person to help him because "the other kids do." The school fair is a great power for good throughout the country and the managers and directors are not to blame for this a little by trying to instill the right motives into the minds of the pupils, but the root of the matter lies in the home where every child should be taught the fundamental principles of being an honest winner or a game loser.

BROWN FAMILY REUNION HELD AT MT. BRYDGES

Mount Brydges, Sept. 8—The new community hall was the scene of a happy gathering recently, when the children, grandchildren and great-grandchildren of Mr. and Mrs. Geo. Brown (formerly Miss Mary Jane Whalls) assembled for the purpose of holding their first family reunion.

During the afternoon an organization meeting was held and the following officers were elected: Hon. president, George Brown, Mount Brydges; president, A. W. Scott, Niagara Falls, Ont.; vice-president, John Brown, Inwood; secretary, Miss Edith M. Oxley, St. Thomas.

It was decided to have the reunion again next year, in the same place, and about August 20th.

Mr. and Mrs. Brown have been married 55 years on September 22. Mr. Brown will be 80 years old on Sept. 19, and Mrs. Brown will be 73 next May. Thirteen children were born to this union, of which 12 are living, and 10 were present on Monday.

Owing to illness Miss Jennie Brown, of Dunnville, was unable to attend, and a son, Burrell, in the West, was also absent. Members of the family are: John Brown, Inwood; Thomas A. Brown, Glencoe; Mrs. Clarinda Oxley, St. Thomas; Mrs. Laura Marshman, Strathroy; George Brown, Guelph; Miss Jennie Brown, Dunnville; Mrs. Mae Gill, London; Burrell Brown, Glen MacPherson, Sask.; Mrs. Nellie Scott, Niagara Falls, Ont.; Norman Brown, Delaware; Miss Lillian Brown, London, and Howard Brown, at home.

Guests were present from Detroit, Niagara Falls, Ont.; Sarnia, Corunna, Inwood, Strathroy, Petrolia, Delaware, Guelph, Glencoe, London, Alvinston and St. Thomas. Edmund Brown, of Inwood, only brother of Mr. Brown, and Mrs. Sarah Whalls and Mr. and Mrs. T. H. Whalls and

daughter, Eleanor, St. Thomas, were also present.

A sad feature of the day's gathering was the word received during the day of the death of Mrs. Brown's brother, W. H. Whalls of Iona, who was expected to be present during the day.

The increased cost of fine teas has tempted some to try cheap, inferior teas to their sorrow. It is real economy to use "SALADA" since it yields to the pound more cups of a satisfying infusion and besides has such a fresh, delicious flavor.

FOREST

Mr. Wilbur Milner of Detroit is visiting relatives in town.

Mr. and Mrs. Robt. Mack of Vancouver arrived here on a visit to Mr. Mack's mother and other relatives in town and in Plympton. Mr. and Mrs. Mack plan on visiting Prince Edward Island before returning to their home.

Mrs. Marritt (Dr. Lucy Neelands) of Hamilton is visiting with her parents, Mr. and Mrs. J. Neelands of Plympton.

Mr. and Mrs. J. H. Beaumont of Stratford, Ont., announce the engagement of their daughter, Ellen, to William Duncan MacKenzie, only son of Mr. and Mrs. J. M. McKenzie, Forest, the marriage to take place this month.

Mrs. M. A. Bowie and two children have returned to their home in Timmins. They were accompanied by her brother, Don Pierce, who is engaged as teacher at Schriber, Ont.

The marriage was quietly solemnized in Forest, recently of Mrs. Betsy McLachlin to James Wakefield both of Forest, by Rev. Anderson.

PETROLEA

George Misselbrooke died in Regina last week and the body was brought here for interment.

Miss Marjorie Maycock of Lorne ave., was hostess at a farewell in the form of a handkerchief shower in honor of Miss Wanda McLeod, daughter of Reeve McLeod, who left town last week.

Petrolia Rugby team has organized for the season with C. A. Hale, president; Allan Campbell, vice-president; Earl Smith, sec.; Dr. Duncan, treas. John Kelly agreed to manage the intermediates and "Con" Peat to coach them, assisted by Jack Gallivan.

Pet Campbell, second baseman of the Crescent ball team, had the misfortune to fracture his shoulder in Tuesday night's game. A player of the opposing team was sliding to second and in an effort to touch him he sustained the broken shoulder. Pat will be out of the game for the remainder of the season.

Mrs. E. J. Willoughby and sons, Gerald, Keith and Bertram, of North Bay, visited the former's mother, Mrs. E. L. Wilson 10th line east, and her brothers, Messrs. J. L. Wilson, 10th line and W. B. Wilson, town. Her daughter, Miss Heten, who spent her vacation in this vicinity returned home with them.

POOR MAN

Man's life is full of trouble and temptation. He comes into the world without his consent and goes out of it against his will. His journey through life is full of strange and contradictory experiences.

When he is little the big girls kiss him, and he is no good to his country.

When he is little he wants candy and can't have it, and when he is a man he can get it but doesn't want it.

When he is a boy he wishes he were a man, and when he is a man he wishes he were a boy again.

If he raises a large family he is a chump, if he raises a check he is a thief.

If he is a poor man he is a bad manager, and if he is rich he is dishonest.

If he puts forth an effort to collect what is justly due him he is a sausage and ought to be beat.

If he is in politics, it is for graft, and if out of politics you can't place him.

If he gives to charity, it is for show, and if he does not he is a stingy old cuss.

If he dies young there was a great future before him, and if he lives to a good old age he has missed his calling.

If he is affectionate, he is a softy if he isn't he is a cold-blooded proposition.

So, in order to be entirely healthy and avoid all criticism, he must eat nothing, drink nothing and smoke nothing.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy as there is nothing like it to be had. It's cheap, but its power is in no way expressed by its low price. m

ITEMS FROM FAR AND NEAR

Some Wise, Some Otherwise Some Newsy, All Readable.

It is very doubtful if "the prettiest girl in the land" will be selected as Miss America at the Atlantic City carnival. There are tens of thousands of sweet young things who know the prettiest girl in the land is not there.

Maikie Katch and his wife were killed instantly by a bolt of lightning on their farm at Ridgeville, near Emerson, Man., on Friday. Their daughter was seriously injured at the same time. The family were at work stacking grain when the lightning struck.

Prof. Plaskett, director of the Dominion Astrophysical Observatory in British Columbia, believes that one day man will derive heat and power from the stars. We hope the day is not too far distant because fuel prices are now almost sky-high.

Henry Ford's \$7,000,000 advertising appropriation announced recently is an adequate answer to the pessimist who sees rocks ahead and to the other type of business man who "has so much business he doesn't need to advertise."

It is proposed in the United States that June 15 shall be celebrated as Mother-in-Law's Day. If those who owe a good deal to their mothers-in-law would only admit it, we suspect that they would be found greatly to outnumber those who have suffered at their hands.

For true barbarism you will have to go far to get one better than the paper-hanger's answer to the minister, when asked on what day he could paper the manse. "Well sir," he said, "you see I'm rather busy now. I hung Mrs. Smith yesterday; I'm hanging one of your elders today; but if it is convenient, I'll drop round and hang you on Wednesday."

Henry Ford's quaint weekly "The Dearborn Independent" of August 25th, has nearly a page dealing with the disputed query "Who have the more brains, men or women?" Of hand, men would be likely to say we have, and this was the general opinion of the ancients, but the tests to-day show that the old time discrepancy does not exist as a rule, and in this age womanhood measures up well with "the lords of creation" and take their place in many important positions to perform just as worthy service as men. To really settle this vexed question, one of the best ways is to leave it to the women folk.

The Ontario Municipal Association at their meeting passed a resolution protesting against the present procedure governing the revision of the voters' lists for provincial elections. This resolution called for a repeal of that portion of the Voters' Lists Act, which requires the annual preparation by the municipalities of Part 3 of the lists. Part 3 contains the names of those persons who are eligible to vote only at the provincial elections. The protest of the association is well taken. It is a heavy additional burden upon the municipalities, which pay all the cost of revision, while, as the provincial elections are held, as a rule, only once in four years, it seems to be an unnecessary expense. It would seem that a complete revision once in four years should be sufficient. The law could easily provide for an emergency revision if at any time an election was held before the allotted period.

HAPPY ACCIDENT

To the upsetting of a tool-chest we are indebted for cast-iron cement and the accident of a child playing with a bottomless oil flask which his brother, a Swiss mechanic called Argand, placed idly over the frame of his rude oil lamp, gave birth to the lamp-chimney.

A glass cutter let some aquafortis drop on his spectacles, and etching on glass was the result. Howes' sight of his wife darning, with the eye of the needle first, gave him the root idea of his sewing machine; and the schoolboy son of Bessemer innocently suggested an improvement in the process of steel manufacture which doubled its efficiency, a missing link which had baffled the most skillful men in the business.

The system of coupling signals and working them all from one point with a single action was the thought of a lazy pointsman, who hated to move. It was the burning of a starch factory which introduced to the world a cheap gum, and it was the omission of a workman to put size into the paper he was making which produced the very first blotting paper.

PLAY THE GAME AND DO IT RIGHT

(The Trenton Courier-Advocate) Certain elements in every community seem to chill one another when they meet, whatever the occasion, and in the smaller communities it is most apparent. Every community has its boosters, its knockers, its doers and its pikers, those who appreciate and those who are not big enough to appreciate. But this old world goes on just the same, so let not any one individual think he or she is so big and important that this big world would miss him, or that his or her moving to other parts would imperil the community's progress or cause the sun to stand still or the moon to come down to mother earth and shed tears. We all have a place in life, each with duties to perform, and according to our ability it is our duty to perform them big or little, but to perform them with honesty and truthfulness, and with the square deal motto always in mind. There are other things to do than to attempt to belittle your neighbor or your business opponent who is just as important in Heaven's eyes as you. So play the game of life like men and acquit yourself in a manner that will reflect your type and character in those whom you are blessed with as your offspring and paste these lines in your hat:—"If I knew you and you knew me, 'Tis seldom we would disagree, But never having yet clasped hands, Neither fully understands— That each intends to do what's right, And treat the other 'honor bright,' How little cause for kicks there'd be."

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there. and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation. m

Shoe Talks

A LITTLE thoughtful care with but slight effort will keep fresh, attractive and efficient any class of shoe and add to their comfort as well as wear.

When wet or soiled, shoes of calf-skin or side leather should be carefully wiped with a cloth dipped in tepid water, and mud or other stains removed and the surface wiped clean. They should then be left to dry slowly in a normal atmosphere, preferably with trees in them. Do not set them by a fire or on a hot water coil or register. Let them dry slowly. Where the surface is not polished, a slight rubbing with olive oil or neat's-foot oil will put back the leather into its original condition of mellowness. Most shoes are injured or destroyed by artificial heat.

To clean patent leather wash with warm water and castile soap, polishing afterwards with a dry cloth. Patent leather being made by a varnishing process is very susceptible to cold or heat and sudden changes in temperature will produce cracking. Warm before putting on in cold weather and allow them to remain on the feet a while before going out in frosty weather.

Felt shoes should be bought a size larger than leather as the material shrinks when wet. Protect in summer against moths in the usual way.

Grease work boots occasionally with dubbin, bear's grease or other similar material especially in winter or after wetting.

TO CHECK SPEEDING

Hon. George Henry, minister of highways, has announced that next session of the legislative assembly will be introduced a measure for the better regulation of mobile traffic on the highway, especially for putting a check on excessive speeding. Mr. Henry stated that the time has come for the province to realize the highways of the province public investment, and must be used.

And, indeed, it is time now was done for the restoration of it, if anything can be done. It has a very bad reputation for mobile accidents. More people killed and injured in Ontario than any other province of the union—almost as many as in all other provinces together. If all the accidents could be prevented, it would be a great gain. If the law can help any it is given a chance; but, of course, law can put a wise head on shoulders.—Ex.

Hon. Mr. Henry believes that the time has come for the people of the province to realize that the highways of the province are a public investment, and must be sanely used.

And, indeed, it is time something was done for the restoration of sanity, if anything can be done. Ontario has a very bad reputation for automobile accidents. Miss Dorothy Fowler of Watford spent a few days the guest of Miss Mildred Richardson. Mr. Allan Heaton of Watford visited his friend Mr. Bert Langford over the weekend. Mr. Jas. Earley received word of the death of his sister, Mrs. Armstrong of Pontiac, Mich.

Mr. and Mrs. MacPherson and family of Buffalo visited the former's sister last week, Mrs. R. Pollock. Mr. and Mrs. Nelson and son of Winnipeg are visiting Mrs. Nelson's mother, Mrs. McDougall, 6th line. Mr. Ivor Griffith has returned to Toronto after spending his holidays with his cousin, Mrs. B. Bourne, he was accompanied by little Joan Bourne. Mr. Delaney of Toronto is in charge of the Bank of Toronto Branch here while the manager is having his holidays.

Anniversary services will be held at Bethesda next Sunday morning and evening. There will be no service in the Kerwood Methodist Church but Sunday school as usual. The Ladies' Aid met in the basement of the Methodist church with about forty present. A busy time was spent in sewing. Luncheon was served by the following ladies, Mrs. Brunt, Mrs. Dowding, Mrs. Carroll, Mrs. Cook and Mrs. J. Richardson. The Women's Institute will meet at the home of Mrs. R. Pollock, on the evening of Wednesday, Sept. 19, to make plans for the Kerwood

School Fair to be held Sept. 25th. The school teachers are especially invited to attend. Announcements later.

A few of the neighbors and friends of Mr. Wm. Shamblaw met at his home on Tuesday evening and presented him with a new wagon to replace the one he had burned in the recent fire at Mr. A. Beatty's. The evening was spent in a corn roast and social time and dainty refreshments were served by the ladies.

BEE DISEASES IN LAMBTON ARE KEPT WELL IN HAND NOW

Forest, Sept. 11.—The Lambton Beekeepers met together in the town hall, Forest, on Monday, the 10th. Mr. Myers, the government inspector, reported that bee diseases were quite prevalent throughout the country but were well kept in hand and he hoped by a system of thorough inspection to have it completely under control. The beekeepers voted to have Mr. Myers continue his work until completed. Arrangements were made for the annual convention to be held at Sarnia, the latter part of October. The output of honey has been very satisfactory in northern Lambton but not as satisfactory in southern Lambton. The Lambton beekeepers are arranging for an exhibit of their products at the provincial plowing match.

Among those present were Ralph Fretz, Sarnia, Isaac Langstroth, John Hamilton, Stanley Rumford, Thedford; Mr. Herbert, Warwick; Mr. Thomas, Martin presided over the meeting.

PREACHERS TURN PLASTERERS

Chicago, Sept. 10.—Lordly plasterers, who look down on bank presidents and college professors as base menials, grinding out their lives for a miserable pittance, stepped a little further into the plutocratic class today when they were given a wage scale of \$15 a day of eight hours. However, the \$15 is merely a starting point. Plasterers are so scarce that contractors gladly pay a fat

bonus. In some cases this is \$10 a day, paid in advance.

Nor does the eight hours mean eight hours of labor. The plasterer arrives in his car, and, like the equally haughty carpenter, requires an hour or so at the beginning and end of the eight-hour day to park his car, change his clothes, discuss the topics of the day, consult his baseball pool tickets and occasionally take a spin from work to the nearest "soft drink parlor." However, not all plasterers patronize the soft drink places.

In and around Evanston, a number of ministers and divinity students have temporarily laid aside the business of saving souls to earn \$15 and better a day, and it is admitted that some of them will never return to the pulpits.

SLEEP

Many children, instead of being fresh and plump as a peach, are as withered and wrinkled as last year's apples, because they do not sleep enough. Some physicians think that the bones grow only during sleep. This I cannot say certainly, but I do know that those little folks who sit up late nights are usually nervous, weak, small and sickly. The reason why you, my dear children, need more sleep than your parents is because you have to grow and they do not. They can use up the food they eat in thinking, talking and working while you should save some of yours for growing. You ought to sleep a great deal. If you do not, you will in activity consume all you eat and have none, or not enough, to grow with. Very few smart children excel, or even equal other people when they grow up. Why is this? Because their heads, if not their bodies, are kept too busy; so they cannot sleep, rest, and grow strong in body and brain. Now, when your mother says, "Susie, or Johnnie, or whatever your name may be, it is time to go to bed, do not annoy her by begging to sit up just a little longer, but hurry off to your chamber, remembering that you have a great deal of sleeping and growing to do to

Mr. and Mrs. Jno. Evans and Mr. and Mrs. James Evans of Alpena, Mich., are visiting Mr. Wm. Evans this week.

Clair Eastman, Lloyd Harris and William Fletcher of Windsor were recent callers in town on their way to Niagara Falls.

Miss McIntosh and Miss Wilkinson have returned from their vacation, to resume their duties as teachers in the town school.

Mr. and Mrs. F. C. Eastman and R. Dowding accompanied by Mr. and Mrs. J. Byerley of Sarnia, motored to Barron Bay, off Georgian Bay, Saturday.

Fuller Bros. announce their fall millinery opening Saturday, Sept. 15. They are prepared to show a good assortment of early fall and winter hats.

A social gathering of the Young People's League of the Methodist church was held on Wednesday evening of last week at the home of Mr. and Mrs. Newman Johnston. By the kindness of the host and hostess the lawn was beautifully decorated with Chinese lanterns etc., a huge bonfire all in readiness for lighting, an abundance of luscious green corn provided for the roast, and everything possible done to make the gathering what it proved to be, one of the most enjoyable the young people have spent in a long time. Community singing, games and sports were a part of the program.

On Wednesday, Sept. 5th, at the Arkona Methodist parsonage, there was solemnized a quiet but pretty wedding, when Miss Lucy Waterman was united in marriage to Mr. Fred Sercombe, both of Arkona. Rev. E. J. Roulston performed the ceremony, and the witnesses were Mr. and Mrs. Wm. Sercombe, the former being a brother of the groom. The bride was suitably gowned in brown canton crepe with velvet hat to match, and black fox fur, and carried a bouquet of asters and fern. Mr. and Mrs. Sercombe left on a motor trip to Toronto and other points and on their return will reside on the groom's farm west of Arkona.

A gathering of exceptional interest was held in the Methodist church Friday afternoon last when Miss Sparling, a missionary at present home on furlough from West China, addressed the ladies of the congregation and others on the work being done by our missionaries for the women and girls of that far-off land. Miss Sparling, who is a W.M.S. representative, is a fluent and forceful speaker and devoted heart and soul to her great work. Pleasing features of the afternoon's program were also a duet by Mrs. F. Jackson and Mrs. R. Crawford and a solo by Miss Ethel Jackson. After the program the large audience repaired to the schoolroom of the church and there partook of a most delectable lunch provided by the members of the W. M. S., each of the guests "measuring" up to the occasion by depositing with the treasurer a sum equal in cents to the number of inches of her waist measurement.

Iron Horses Ready For Grain Rush

HERE are some of the engines and box cars, Canadian made for Canadian traffic, which arrived in Winnipeg recently to augment the rolling stock of the Canadian Pacific railway. This equipment is now in readiness for the transporting of western Canada's crop, which bids fair to be one of the largest ever recorded. These additional engines and cars were constructed at the company's shops at Angus, near Montreal, and have been assembled at the Weston shops, Winnipeg, awaiting the call to the harvest fields of the west. The upper picture shows four trains leaving Weston with a string of approximately 100 box cars per engine. Each car has a capacity of 80 tons. (2) and (3) some of the new freight engines which will be used to haul the grain throughout the three prairie provinces. (4) One of the 55 new P-2 class engines. These engines have a total weight of 252 tons, exerting a traction

effort of 55,000 pounds. Their driving wheels are 5 feet 3 inches in diameter, cylinders 25 1/2 in. diameter by 32 in. stroke; the total length being 81 feet, 4 1/2 inches. The tender has a water capacity of 8,000 gallons and 14 tons of coal, which is equal to the average citizen's winter supply of fuel. These engines are known as the P-2 class, numbered in 5,500 series. They have vestibule cabs for the comfort of the engine crew and are electrically equipped throughout. The complete weight of one train hauled by one of these engines, including the engine, is 4,476 tons, of which 3,020 tons would be the carrying capacity for wheat, or 100,660 bushels in each train. The carrying capacity of the 45 engines of this standard is 4,529,700 bushels per trip. Each engine makes one trip a day. Picture No. 5 shows another group of the new Canadian Pacific locomotives. Their capacity and weight rank them among the biggest of their type in the world.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

**ALVINSTON**

### WHERE GAMEY TROUT ABOUT

The Nipigon River that flows southward into Lake Superior in one magnificent cataract after another, is one of the most famous trout streams on the continent.

The angler who has never flipped a fly over these white waters and landed one of Nipigon's gamey beauties has the sport of a lifetime in store for him.

From Nipigon Lodge—a rustic hunting and fishing lodge de luxe, built among pines and cedars on the shore of Orient Bay, the angler may set out on a dozen interesting trips in motor boat or canoe over Lake Nipigon's crystal waters. He may make the exciting trip down Nipigon River, shooting treacherous rapids, below which the green and red beauties leap, or he may loiter through the forest casting his line in chosen pools, hoping his catch may bring him the coveted Nipigon Trophy. This trophy is annually awarded by Canadian National Railways to the angler catching the largest true speckled trout in the Nipigon waters.

Full information and illustrated folder may be procured from any agent of Canadian National Railways.

### SYMPTOMS OF DEBILITY

How to Tell Whether Your Blood Needs Revitalizing

The symptoms of general debility vary according to the cause, but weakness is always present, a tendency to perspire and fatigue easily, ringing in the ears, sometimes black spots passing before the eyes, weak back, vertigo, wakefulness caused by inability to stop thinking and unrefreshing sleep. The cause of the trouble may be some drain on the system, or it may be mental or physical overwork, sometimes insufficient nutrition due to digestive disturbance.

If you have any or all of these symptoms try building up the blood with Dr. Williams' Pink Pills, and as the new blood courses through your veins there should be an increase in your appetites, a better digestion and soon a renewal of strength and vigor.

You can get these pills through any dealer in medicine, or by mail, postpaid, at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### AMBITION

It is nice to be favored and honored. And reckoned as one of the best. But when you are corral'd and cornered. You soon will be seeking a rest.

So seek not the high sounding places. Altho' it is sweet to be such. Unless you're abounding in graces. You cannot amount unto much.

Where Providence placed you so kindly. Tho' humble yet fill it just right. Earnestly, humbly, not blindly. As if the whole world was in sight.

I would not despise our ambition. Nor listless, and indolent sit. But always remember position. Usually finds one that is fit.

And when we've accepted the office. Then try to keep self away under. For when self is pampered I notice. 'Tis then we are sure for to blunder.

Sometimes we are jilted and sadder. The best are not all at the top. But down at the foot of the ladder. The trustiest holding the rope.

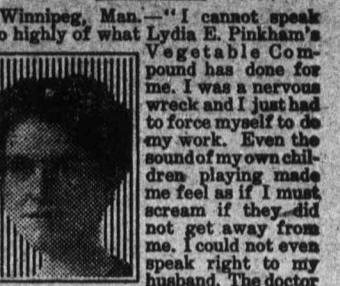

The finest ambition is simple. The way of the meekest of meek. 'Tis charming and smiles with a dimple. And Moses-like has no conceit.

Watford, Sept. 1. W. B. LAWS

Tells Women How She Was Restored to Perfect Health by Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"I cannot speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do any work. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said he could do nothing for me. My husband's mother advised me to take the Vegetable Compound and I started it at once. I was able to do my work once more and it was a pleasure, not a burden. Now I have a fine bouncing baby and am able to nurse her and enjoy doing my work. I cannot help recommending such a medicine, and any one seeing me before I took it, and seeing me now, can see what it does for me. I am only too pleased for you to use my testimonial."—Mrs. EMILY DAVIS, 721 McGee Street, Winnipeg, Man.

## Quebec, the Old World Province

1. The Calèche, a means of conveyance much favoured by visitors to Quebec.
2. An old brick oven, the like of which was used in France four centuries ago.
3. Chateau Frontenac, Quebec, the most modern hostelry on the continent, from a glorious height looks down on old Quebec and on the early battle fields.
4. Ancient and modern. The little cannon captured by the British at Bunker Hill, rests near the Quebec Citadel by the side of a howitzer which fell to the Canadians in the Great War.
5. Though their farms are modern, some farmers still use the ox as beast of burden in the back country.

THESE are just a few pictures taken in Quebec. It is not without reason that this province is becoming the tourist resort of the continent, for here is a country of utmost fascination and intrigue. Quebec has an atmosphere all its own and, if it can be said, more of an old-world atmosphere than has the old-world of today. Quebec is the eighteenth century keeping pace with the twentieth, yet retaining its identity.

One stops at little wayside shrines. The wooden cross, the patron saint in effigy, the nurtured flowers, the woman at her distaff, the white-walled houses close at hand transport you to the distant land from whence the original settlers came. Yet, over there, beyond that little hedge or cedar fence the farmer gathers in his crop with up-to-date machinery, and stores it in a modern barn. Behind, the hum of the telegraph wire reminds you that you are not living in a by-gone day and, if that is not enough, through the not too distant fields, a huge train thunders.

Near the white walls the lady of the house draws water from the old-fashioned well, and bakes her bread in an old brick oven, the like of which was used by her ancestors in France four centuries ago. She spins her own wool and shares with her husband a faith, which though not old-fashioned, is almost as old as the Christian era. A kindly hospitable soul is she, nor is she always backward in learning, for she probably attended the convent of the Ursulines at Quebec, or la petite école at Louisville. And her husband—He may be content to wear the homespun; to sit around the fire, or on the threshold at night, to smoke his "Rouge Queen"; and to drive five miles to church early on all holidays in his buggy or in the straw lined cart that is used about the farm, but he "knows his letters" and, better still, he knows how to farm.

The Quebec farm is usually up-to-date. Your "habitant" gets all that can be got from the soil, and if you sit with him and talk you will see that he gets the

fullness of life too. Give him the simple pleasures. He is happy if he can re-tell the story of the big moose he shot by "Lac Saint Pierre" and the bear. He is some trapper too, "for sure I catch him lots of skins, me!"

The "old man," the "old woman" and that large, very large family, are content as seldom people are, and rightly so, for theirs is a rich heritage, and beautiful. The mighty St. Lawrence and its thousand tributaries, the glorious Laurentians, with their wooded slopes, the forests, lakes and myriad streams give them a country almost unexcelled for beauty. Game and fish abound as has been discovered by sportsmen from outside. Moose, trout, maskinonge, the big black bass, bear, deer and caribou.

From a historians point of view Quebec is the hunting ground of the continent. Quebec city is one huge souvenir of the early days of Canadian settlement. Lost and re-captured several times her old Walls still bear the marks of storm, and the old cannons still guard the city and the approaches to the citadel.

The history of Quebec is the history of Canada, priest, soldier and pioneer settler each having played a glorious part in the making of it. With the fair Dominion as a lasting memorial to their valor and courage, Quebec links them with the present day; their faith, piety, and the work they commenced are being preserved and carried on by the present generation. The relics of their day scattered here and there, and on almost every street, look down or out upon the most modern improvements of the age, the railways, and the huge Canadian Pacific and other steamships at the docks, but lose not their identity, and in the case of buildings and public places; their charm and interest.

All through Quebec province, and in the most unexpected places one comes across historic links with the past. Like her people Quebec is quiet, peaceful, and does not crave the limelight; but Quebec is not and cannot be overlooked. It is an old world, full of charm, within the new.

September Weddings

HASKETT-WILLOUGHBY

The wedding took place quietly at St. George's Anglican rectory, Sarnia, Saturday afternoon of Mrs. Sarah Willoughby, 270 North Vidal street, Sarnia, and Charles Wm. Haskett of Detroit. The Rev. Canon D. W. Collins officiated. They were unattended and will reside at Detroit.

JANES-KELLY

Very quietly Monday afternoon at the First Congregational Church, Dundas street, London, the marriage was solemnized of Lilly Eriand, daughter of Rev. Mathew Kelly, pastor, to Dr. Robert Meredith Janes, of Toronto, son of Mr. and Mrs. Wm. Janes of Watford. Rev. Dr. D. C. MacGregor of St. Andrew's church, officiated.

The bride was given in marriage by her father, and wore a smart gown of figured georgette in shades of blue and gray mounted on blue canton and richly beaded in steel. A black velvet picture hat was worn, and the bridal bouquet was a shower of sweetheart roses and valley lilies. Miss Mary Kelly, of Cleveland, was her sister's only attendant, gowned in black and green figured georgette over black canton with green beads and wearing a becoming picture hat of black velvet. She carried Ophelia roses.

Ernest Janes, of Toronto, was his brother's best man.

An informal reception was held after the ceremony at the home of the bride's father, Picton apartments, where Miss Florence Kelly, of New York, received the guests, wearing a handsome French gown of black satin and black hat. Only the immediate families and a few intimate friends were present, and later in the afternoon Dr. and Mrs. Janes left on a wedding motor trip to Muskoka, and will later live in Toronto. The bride travelled in a gray and green sports costume with gray hat. Guests for the wedding included the groom's parents, Mr. and Mrs. William Janes, of Watford; Miss Verity of Brantford; Miss Jacqueline Wilson of Toronto; Miss Florence Booth of Toronto; Dr. James Dixon of Cleveland and Dr. Harold Little of this city.

TAYLOR-WHITMORE

A quiet wedding took place Tuesday, at one o'clock in Wellington street Methodist church, London, when Cora Madeline, daughter of Mr. and Mrs. C. Whitmore, was united in marriage to Major Frederick Arthur Taylor, D.S.O., son of Mr. and Mrs. T. B. Taylor, of Watford, Rev. A. J. Love, of Siloam, performing the ceremony.

The bride was prettily frocked in cocoa canton crepe and wore a corsage of Ophelia roses and valley lilies. Mrs. Percy King played the wedding music. Later the young couple left for Winnipeg and Calgary and on their return will reside on Ridout street, South London.

Among the out-of-town guests were Mrs. H. G. Lemon and Mrs. B. Whitmore, of Harrison, and Miss Rose Kearns and Bert Taylor of Guelph.

THORNE-SAUNDERS

A charming wedding took place at twelve o'clock on Wednesday, Sept. 5th, at the home of the bride's parents, Mr. and Mrs. Daniel Saunders, when their elder daughter, Mary Letha, became the bride of Mr. Reginald Thorne. Rev. J. H. Hosford was the officiating minister.

The bridal party entered the parlor to the strains of the wedding march played by the bride's only sister, Miss Beulah Saunders. The bride, who was given away by her father, looked lovely in her wedding gown of ivory duchess satin and georgette. She carried a bouquet of Ophelia roses and a handsome white prayer book, the gift of the groom.

After the ceremony the guests, numbering about forty, repaired to the diningroom. The table was prettily decorated with white ribbon streamers from the ceiling, caught at the corners with white asters. Four cousins of the bride served the wedding dinner after which the party went to the lawn where photos were taken.

The happy couple left amid showers of confetti for Hamilton, Toronto and Ottawa. The bride travelled in a navy blue tricotone suit with hat and blouse to match. After their return they will reside on the groom's farm at Sutorville.

Dutton village council has fixed the tax rate for this year at 43 mills on the dollar, or 7 mills higher than last year.

ANDERSON-KNIGHT

One of the prettiest of early fall weddings took place Wednesday, Sept. 5th, at the home of Mr. and Mrs. Frank Knight, second line, Plympton, when their youngest daughter, Flora Evelyn, was united in marriage to Mr. Reid Anderson, son of Mr. J. D. Anderson of Plympton. The bride, who was given away by her father, took her place beneath an arch of pink and white streamers and wedding bell. She looked lovely in a gown of white georgette crepe. Her veil of Brussels net was caught with a coronet of orange blossoms, and she carried a shower bouquet of Sweetheart roses and maiden-hair fern.

Miss Jean Anderson, sister of the groom, made a charming bridesmaid gowned in ashes of roses georgette crepe, and carried a bouquet of Sunburst roses and sweet peas, while Mr. Stewart Smith, cousin of the groom acted as best man.

Mrs. Smith, sister of the bride, presided at the piano, and during the signing of the register Miss Anne Brownlee sang. After the ceremony Mr. and Mrs. Anderson left on a trip for points east, the bride travelling in a navy blue poret twill suit, with hat to match. On their return they will reside on the townline.

TWENTY-FIFTH WEDDING ANNIVERSARY

Mr. and Mrs. Wm. Battle, East Exmouth street, Sarnia, delightfully entertained about fifty relatives and close friends Monday afternoon, Sept. 3rd, it being their twenty-fifth wedding anniversary. The house was attractively decorated in pink and white with ferns and gladioli. At five o'clock to the strains of Mendelssohn wedding march, played by Mrs. Una Aldrich of Windsor, the bridal party took their places on the front porch and pledged their vows made twenty-five years ago. After congratulations a three course dinner was served.

Mr. and Mrs. Battle were recipients of many beautiful gifts, among them being a basket of flowers from the Methodist church. The happy couple left for a short wedding trip accompanied by a shower of rice and good wishes for their future happiness. The out-of-town guests were Mrs. Mary E. Wiley of Watford; Mrs. Rosetta Sharp of Simcoe; Mr. and Mrs. Bert Aldrich and son, and Mrs. Wm. Cox of Windsor; Dr. and Mrs. Wiley and family of Pigeon, Mich.; Mr. and Mrs. Earl Alles and son, and Fred Battle of Detroit. Mrs. Battle was a former Warwick girl and her many friends extend congratulations.

CHOP STUFF

Henry Lawrence, near Mitchell, was drawing in oats and was using the slings to unload in the barn and was in the act of pulling up the chain which tightens the bundle when it gave way and he fell from the top of the load on to the tongue of the wagon with great force, lighting on his side. It was found that three ribs had been broken. On the same farm his father, the late William Lawrence, who was helping to load hay, was hurt so badly on July 20 that he died the same day, and on the same day this unfortunate man had a team of horses killed on the C.N.R. tracks. Henry Lawrence is owner of the old McAlpine Hotel premises in Glencoe.

Mr. William Grey, 6th line, Moore, met with a very serious accident recently, having the misfortune to fall down a flight of stairs in the granary. He managed to call for help, but became unconscious a few hours later. He passed away on Wednesday of last week.

Donald McKillican, aged 10 years, second son of Mrs. Cora McKillican, Sombra, had his arm broken in two places Thursday afternoon when he fell to the ground when riding horse back. The boy's father, the late John McKillican, postmaster, Sombra, was the victim of a drowning accident at

Duthill about three months ago.

When Mr. Earl Randall was driving with some friends to Oil Springs from a Methodist picnic, smoke was seen coming from the engine. The party alighted just in time to see the car suddenly take fire. In a few minutes it was burned to the ground. It was a Ford roadster. One boy was slightly burned. The party consisted of four Wyoming and Wanstead people.

Annie Thomson, widow of the late J. B. Shotwell, passed peacefully away on Sunday last at the family residence, Strathroy, after a protracted illness. Mrs. Shotwell was in her 79th year, was born on the old Thomson homestead, Caradoc, and had resided in Strathroy for upwards of a half century. She is survived by one son, Prof. James T. Shotwell, of the Rockefeller Foundation, New York, and at present in Europe; one brother, Wm. A. Thomson, and one sister, Miss Carrie Thomson, both of Strathroy.

A few of the old boys of Kingsville are enjoying themselves this month. John Herrington, 92, still hale and hearty calls on his neighbors and friends for a friendly chat each day. Dr. Andrew Wigle, 85, is spending the summer at his cottage at Cedar Beach, catching black bass and catfish; Charles Smith, 80, can be seen every day riding his bicycle around town. Robert J. Wigle, 84, having been very active all his life, is unable to do much walking now through rheumatism. Egerton Scratch, 80, does a lot of walking and is quite spry for one of his age, and quite a number of others who are away past the three score and ten are still quite active.

Only arrived in this country in June from Hebrides, Scotland, Malcolm McLeod, 20, died Monday in the Sarnia general hospital, following a brief illness. Deceased who came to Canada with the large batch of Scottish settlers from Hebrides had been working on the farm of Archie Smith, near Aberarder. He continued at his work until Friday when he complained of feeling unwell and was taken to the Sarnia hospital.

Clarence Leitch and Harold Loosemore, of Glencoe, were seriously injured as the result of a motor accident about one mile north of Wardsville the touring car, driven by Orrie Quick and containing besides Leitch and Loosemore, two other Glencoe men, Alex. Stuart and Walter Thomson, struck a cow on the Hagerty road and turned turtle on top of the animal. The occupants were all more or less seriously injured and the cow was killed.

While John Bailey was making his rounds on the rural route on Wednesday he found a large bag about the size of a pillowcase lying on the south side of the London road near Ketch. On examination he found it contained valuable papers, receipts, insurance policies, cases from bank-books, etc., belonging to parties in Oshawa. There was no money and no all appearances the bag had been thrown from the righthand side of a car going east. The contents were disorderly and appeared as though they had been tossed about. The bag was untied and to all appearances a thorough search had been made for valuables. The bag and contents are in the hands of Crown Attorney Wilson in Sarnia.
