Dear Sirs:—For ten years I have suffered from Rheumatism and Neuralgia on the right side of the spine. All the remedies that were prescribed by three or four doctors gave me no relief whatever, and I gave up all hopes of ever regaining my health until your remedies were recommended to me by Capt. Geo. M. Dakin. After taking six bottles of your nerve and stomach tonic and less than one box of your liver pills, I fully regained my health. God blessed your remedies on the 23rd, Aug. 1894, and since then I have enjoyed the very best of health and have to thank you for putting them within my reach. Wishing you every success, I am "And did you find him?" I asked, when Macpherson had reached this point in his story, and the famous physician nodded.

## His Last Sermon.

Burdened with years and labour, the old eacher lay on his couch, waiting the summons of the messenger to call him across the river. Around him were gathered his children and brethren, ministering as far as they could, to his every want. He lay silent fo a time, when one of the watchers said, "He is going soon." Tears were flowing freely rom many eyes. He roused a little, mur muring something none could understand. "His mind wanders in the last hour," a id one. He seems to revive a little. "Raise my head," he said. "Is it time for the sermon? The lights are burning and the song eems to have died away." All voices were hushed as he continued:

"Well, my text is from Jesus: "In my Father's house are many mansions'—blessed words of promise. You poor, lowly ones who dwell in cabins, remember a mansion awaits you; and you poor, waiting ones, remember there are many of them. I promise my children to come home-but that mansion is my home. I'm too weary to preach long to-night, my brethren.

"What is that I hear? The music should not begin before the sermon is over-strange voices, too-no, not strange, 't is the wife o my early youth leading the choir-yes, and nother, too. I can't preach let me lie down and rest!" He opened his eyes. In them was a far-away look, but what he saw no of the watchers could tell. Raising his hand solemnly he said: "Let us pronounce the benediction. May grace, mercy, and peace abide—" An unintelligible murmur, and the hush of silence came, to be broken by the sighing and sobbing of the watchers. The old preacher had preached his last ser-

This is the one to which we have frequently referred, that of rebates in freight, hitherto given to speculators and large shippers. Under this arrangement our fruit-growers were charged more for carrying apples to London than the steamship companies actually received, the difference going into the pockets of certain agents and speculators on this side. Thus, if one of our farmers shipped one hundred barrels of apples to London, on his own account and at his own risk, somebody whom in all probability the farmer never saw or heard tell of, would make ten dollars on the transaction in the way of a rebate in freight. Last year the steamship companies charged the grower ninety cents of this went to the railway, ten to the agent or speculator, while the company received but sixty. A good many such agents throughout these two counties had deals of that kind with certain steamship companies, or their agents, some of them making thousands of dollars out of it.

That Lord Dunraven believed he was not getting fair play and was not at all likely to no one can doubt. The method he took to impress this fact from the race at the last minute, was some-what emphatic, and ought to produce a lasting Impression upon all connected with the race. In taking this course he did precisely what all his English and Canadian sympa-thizers were hoping he would do. The races on the Bridgetown Driving Park yesterday afternoon drew an attendance of some eight hundred, who watched with eager interest the contests between the evenly matched horses.

The first race called was the 3-minute, in which there were seven entries, and it was far into the shades of evening before the six heats required to settle this race could be decided on, and which finally resulted as follows: Pilot Queen, driven by Lydiard, 1st; Maud Nox (Lee) 2nd; Belle Willet (Crabbe) 3rd; Panay N. (Annis) 4th. Best time 239\(\frac{1}{2}\). The 2.35 class, and the one is which the most interest was centred, was won by Andrew, driven by Crabbe; Tommy M. (Ilsley) 2nd; Little Hope (Rand) 3rd; Dr. Franklin (Lee) 4th. Time 2.36\(\frac{1}{2}\). Cushing's Pilot, owing to lameness, and much to the regret of his many admirers, was unable to start.

Mr. Willis has decided to change the name of his fast trotting stallion for registration purposes. Pilot Jr. will heretofore be known as Special Blend.

Harry Lydiard says he has now the only undeveloped Pilot colt to be found in the lower provinces. This one, he says, shows more speed than Special Blend (Pilot Jr.) did at the same age.

Townsend & Co.'s Annual Apple Report.

Monument Buildings, London, Sept. 2nd, 1885.

Dear Sir,—In accordance with our annual custom we now have the pleasure to place before you our report as to the apple crop here and on the continent.

All reports from our correspondents seem to agree that the apple crops in England, Scotland, Wales and also on the continent are large this year.

We shall evidently be well supplied with apples until about Xmas, by which time we expect the bulk of English and continental fruit will have been disposed of, and we see no reason why there should not be a good apring trade in Nova Scotian apples.

We should recommend our friends only to send their finest fruit here before Xmas, especially this applies to Gravensteins, in fact London will nearly always pay well for good sized, bold, good looking fruit.

Why We Have Bad Boys.

(Hamilton Times.) I have heard a great deal of late ab generally more—trouble to people in the vicinity of their stamping grounds. Now, I always stand up for the boys when their conduct is defensible, on the ground of youthful thoughtlessness or exuberance of sprits, because I confess had I been hunted by the hounds of the law every time I played a boy-ish prank I would have had a rather sorry dled so carefully that the bark would remain time I blame the parents more than the boys; but the law deals only with the transgressor,

Tree-Planting. It seems almost a crime to entrust so i portant a work as tree planting to lazy, indolent persons, who are so ignorant of the laws of nature and so out of touch with the world at large, that their only love is fo their daily compensation, and whose services, unless personally superintended, prove a waste and disappointment.

Intelligent tree planting would require trees to be heeled in until planted and hanuninjured. ## PAGE WOVEN WIRE FENCE Has the Highest Award

in the World! In the world!

Is the unequalified approval of every customer. Our fence has won at every Fair or Exposition where entered. But what does a practical farmer care for that? The fighting qualities of a soldier are proven on the field of battle, not on dress parade.

Don't fail to keep it before the people that ours is the only perfectly self-regulating fence offered. Don't loose sight of the great saving in posts, as with some other fences the posts alone costs as much as our fence complete.

I believe we have the best fence for the money on earth. I base my belief on the fact that one string of fence sells lots more. Page fence has proved itself by far the best for farmers' use, and we know from the orders already received that our business will boom with that of the farmers.

We believe in cooks, we admire good ousekeepers, but there is ever so much nore than the knowledge of how to make bread or manage servants necessary before home becomes actually what its name implies. It is a dangerous experiment, we admit, for a girl without the first idea of culinary laws o start out with a menage of her own but we guarantee that if she possesses the true home-making instinct, the first emergency hat throws her on her own resources will bring to the front all those latent powers which she has heretofore had no occasion to

A home is the dearest spot on earth. Every stick of furniture speaks its individual ed up. She pulled away. "Gracious!" she anguage of welcome and repose, and this exclaimed; "how heavy this ice is! The spirit emanates always from the feminine nead of the family, who can either make or mar it according to her own manner and way of doing. Haven't you been in some the dumbwaiter up. To her astonishment ahe found the boy seated on the ice. With ases where the meals prepared by the skillful hands of the mistress were absolutely perfect, but where they were eaten in such for?" "Why," replied the boy, "I thought a atmosphere of frigid formality that even the cake would be too heavy for you to life, the puffiest biscuits lay heavy on your conence at least, and it was a relief to escape o some less pretentious abode where perhaps, the chops were underdone and the soup very watery but where a cheery hostess made you forget these imperfections and aused you to go away thinking in all honesty
