merica Must Set World Example of Healing and Elevating Influence of Peace, President Wilson Declares at Philadelphia -Will Seek to Convince Germany of Injustice of Sinking Lusitania.

HILADELPHIA, May 10. -President Wilson gave to a gathering of 400 naturalized Americans tonight the first intimation of the course which the United States Government probably will pursue in the situation resulting from the loss of more than a hundred American lives on the British liner Lusitania. He spoke by implication, but his hearers interpreted his remarks as meaning that, while the United States would remain at peace, it would seek to convince Germany of the injustice to mankind of the tragedy of last Friday.

A "Special Example."

"America," said the president, just have the consciousness that on all sides it touches elbows, and touches heart, with all the nations of mankind. The example of America must be a special example, and must be an example not merely of peace, because it p.m.—The following despatch has been will not fight, but because peace is a healing and elevating influence of the world and strife is not.

This camp will focus the entire work of the year, and whatever happens in the future there will be a new standard set, that was not set a month ago." Colonel Lang, the officers and men, were heartily congratulated by Dr. Falconer on the progress attained. He said that the men would go away better soldiers and that a precedent had been set which would endure as a standard to be reached in future years.

View of Principal Hutton.

Principal Hutton's brief speech said that the camp had added an element which had always been missing in university life. Besides the training of the mind it was necessary to discipline the will. The university college men were asked to remember the motto of the college, "A Light in Darkness," and to be true to that motto

Within the last few days the Ontario Government has negotiated the sale of \$7,000,000 worth of bonds at good rates. The provincial treasurer spent some time in New York, and succeeded in floating enough loans to

The sales were made as follows: One million at 100.25; two millions for nine months at 3 7-8 per cent., and a tenyear issue of four million at 95.58. Wood, Gundy & Co. and A. E. Ames negotiated the business. The new bonds, being subject to pro-vincial and succession duty taxations, are likely to find their chief sales in the United States.

NERLICH APPEAL CASE TO DISREGARD MOST

May Not Be Heard for Some Time.

In a judgment given out at Osgoode Hall by Mr. Justice Middleton, dismissing the appeall of D. S. McMillan, a solicitor of Sarnia, from the decision a solicitor of Sarnia, from the decision of the taxing officer, in connection with buls presented to his client, Rev. Father Gnam, who sued Bishop Fallon and the archbishop for removing him from office, his lordship says:

"A solicitor who is so devoid of all apprehension of what is becoming in a professional man, as thus to describe his own conduct and the part he played in the proceedings taken by a client whom he now denounces in the strong-

whom he now denounces in the strong-est possible llanguage, will probably quite fail to understand any condem-nation, but I cannot part with the case without expressing by reprehension of the whole transaction. If by any chance the solicitor had not been ade-

chance the solicitor had not been adequately remunerated, he ought to realize that his conduct thruout has been such as to incline any right thinking person against him."

"This bill contains some extraordinary items," continued his lordship, "some of which form the subject of this appeal; for instance, 'special interview with press agent from Toronto, who came up specially, arranging for support of the press and to terrorize the church and create by scandal a feeling of fear.' At your special request this is a secret service fund."

Mr. Justice Middleton agrees with the taxing officer that a solicitor is not justified in becoming a party to and arranging for the commission of crime, and that the services rendered are such as no solicitor is entitled to undertake.

Offers Real Automobile **ECONOMY**

There's more to automobile economy than the original cost of a car. Such things as durability and repair costs, wear on tires, and fuel consumption are vastly more important. They are the vital things to consider when purchasing a car-they determine real economy.

In the Jackson this real economy is combined with low first cost. With the Jackson factory organization and our thirteen years of development in manufacturing efficiency we are able to offer the two Jackson models for 1915 at a cost actually lower than competing cars of equal value

Insurance on Toronto Soldiers

NOTICE is hereby given that the City of Toronto has arranged to place an insurance of \$1000 upon all members of the First Contingent who were bona fide residents of the City of Toronto at the date of enlistment.

The names, ages and addresses of all such members must be forwarded to the undersigned not later than May 30th.

All reservists who have joined the colors of Britain or her allies, and who were bona fide residents of the City of Toronto at date of summons, may obtain similar insurance by furnishing the above information not later than June 30, 1915.

The friends or relatives of such members are, therefore, requested to forward the names, ages and addresses of all members of this contingent, and of reservists before the said respective dates, as the city cannot hold itself responsible to place insurance upon any members of which it has not notice on or before the said dates.

Dated at Toronto this Fifth Day of May, 1915. JOHN PATTERSON.

The response has been very good, but there are still some vacancies. The recruiting officer and medical officer will be present at the regimental armories, 1452 Dundas street, at 9 o'clock this morning and tomorrow morning, to examine those desiring to enlist. Recent German atrocities have given an impetus to the recruiting move-ment and there is no doubt that the city corps will have little difficulty in securing the men required.

An Attack is to Be Made on a Flag Enemy at

DUKE AT NIAGARA

His Royal Highness Will Inspect C. O. T. C. on Thursday and Friday.

Both the 19th and 20th Battalions of he second contingent, Exhibition Park Camp, will take part in the military field day to be held tomorrow at a point outside of Toronto. The tactical exercises are to consist of an attack on a "flag enemy," probably similar to an attack on the flank. Several un-usual conditions will be introduced and "some surprises" are promised by Major H. C. Bickford, G.S.O., who is Major H. C. Bickford, G.S.O., who is planning the manoeuvres.

Arrangements have been made for the Duke of Connaught to spend Thursday afternoon and the whole of Friday at the C.O.T.C. at Niagara, which he inspects this week. The camp ends on Saturday. Col. H. M. Elliot and Capt. Harry Osborne visited the Niagara Camp vesterday.

The cause for the heavy loss of life, the absence of any naval escort for the threatened vessel and the suddenness with which she sank afford from for much speculation. Captain Turner in declaring that one torpedo did all the damage, said the second explosion which the passengers heard was an internal one, and that the engines having been put out of commission it was impossible to stop the Lusitania and permit of her boats being lowered properly.

Internal Explosion.

The idea of an internal explosion is supported by naval experts, who point out that if the torpedo had exploded in contact with the steamer it would have only been disabled, or had one to the steam of her commartments flooded to the steam of the remaining of the remaining in Canada.

It is evident, however, they say, that if the torpedo penetrated the hull and the charge of 420 pounds of explosive was detonated it would have created an effect similar to the explosive of the explosive to the explosive Gun Battery.

Three more second contingent mem would have created an effect similar to the explosion of a magazine within a ship. There is little wonder, therefore, they say, that the Lusitania sank so fapidly or that so many persons were killed by the fumes of the explosive.

On the question of why no naval estort accompanied the Lusitania, Mr. Churchill explained in the house of commons that the policy of the admiralty is that merchantman must look after themselves. All this discussion, however, has not lessened the anger of the people at the action of Germany, which resulted in the loss of so many lives of nonthe loss of so many lives of non-embatants. Terrifying Experience.

Dr. Kenan declares he went down twice. The first time he was submerged it seemed as tho he had gone to the bottom. He kept his eyes open and finally saw the light and then his head protruded from the water, but stayed there only long enough for him to get a couple of gasps of air. Then he was pulled down again and came up almost underneath two boats. He was picked up a moment later.

Dr. Kenan was ill when he went into the water. His condition is still serious, but he probably will recover. James Beattle, 1609 East Queen street.

Canada's Great Mountains Depicted in New Publication.

The Grand Trunk System has just issued a booklet which takes high rank amongst railway literature in general. This publication is entitled "The North American Alps," and is descriptive of that magnificent territory in the Canadian Rockles which has Mount Robson as its centre, and which includes two great mountain parks with scores of glaciers, waterfalls and flower strewn valleys. The illustrations are especially fine in this brochure, presenting for the first time many of the beauties of the region recently opened

up by the Grand Trunk Pacific trans-continental line. Travelers taking a trip to the Pacific coast should see this great Alpine playground so well de-picted in this booklet. A copy may be had free on application to C. E. Horn-ing, district passenger agent, Union Station, Toronto, Ont.

Scotch pinks were disposed of by the hundreds on Friday, and while we tried to give every purchaser an ex-planatory demonstration about the treatment, still some more teaching is

I might as well say now that there is one great general rule gardeners may follow re perennials and biennimay follow re perennials and biennials; that is, to see daily that your plants are well down in the earth. Many plants will come out of the soil in the most provoking and unexplainable manner. Scotch pink is one of these, and Scotch pink therefore needs a daily watching. By nature, its central stem inclines towards woodiness, and because of the heavy bush-like top soon developed, the frail stem is apt to break off at a touch.

GOOD VAUDEVILLE BILL

Henry B. Toomer in "Sidelights" is Principal Feature of Show.

A good variety bill and some splendid moving pictures are put on at Loew's this week. Henry B. Toomer and company, in a playlet entitled "Sidelights," which gives an insight to what goes on behind the scenes, holds the focus point on the bill. Worm-wood's monkeys do an act that causes much amusement. Crawford and Bro-derick have a sketch in which a baby grand piano, that a piano salesman i trying to sell, is mistaken for a real live baby. Cleve Caswell, the popula: Torontonian, does some fine work on the xylophone, and his original medley on patriotic airs called for a triple encore. Moore and Elliott are an exceptionally clever pair. They get off some witty parlance and their dancing is neat and well done. Clark and Rose, with the violoncello and comedy singing, have a clean turn. Dealy's fancy dancers, and Menetti and Sedelle, acrobats, finish up the bill.

MR. CYRIL MAUDE IN "GRUMPY AT SHEA'S NEXT WEEK.

One of the most important of the theatrical announcements made to date concerns the return of the distinguished English actor-manager, Mr. Cyril Maude, and his all-English company of players from his playhouse, London, at Shea's Theatre next week. Mr. Maude's wonderful success last season at Wallack's Theatre, New York, breaking all known records of this theatre, is too well known to dwell on at this time. Suffice it to say that Mr. Maude came to this country lightly heralded, and in one night made for himself and company a reputation never before equaled by any star, English or American.

Mr. Maude will present here the same play, "Grumpy," which created such a furore in New York at Wallack's, breaking all known records. The engagement being Mr. Maude's second appearance in Toronto in "Grumpy," there is sure to be an unusual demand for seats.

When these and hundreds of other once thin, under-weight people write to say that as soon as they began to make Sargol a part of their meals they began to get fat, don't you think that there must be something in this widely-advertised method of flesh-building after all?

Don't you think you ought to try it, particularly as leading druggists everywhere sell it with the positive guarantee that unless it makes an increase in your weight you can have your money back?

You may say, "I am naturally thin. Nothing can make me fat," but until, you have tried Sargol you do not and cannot know that this is true.

Thin folks stay thin, no matter what or how much they eat, and they begin to think food has nothing to do with flesh-making. But they are wrong.

Thin people stay thin because the fats, oils, starches, sugars and other flesh and fat-making elements in their food are mostly passing out of their bodies as waste. Only enough nourishment is retained to keep the body going. Nothing is saved for flesh-making.

Sargol of itself will not make fat. Eat it between meals, and you probably will not gain a pound. But eat a single sargol of tiself will not make fat. Eat it between meals, and you probably will not gain a pound of flesh a day. Sargol is the missing link between food-eating and fat-making. It makes the food of your meals put flesh on your body.

TUESDAY MORNING, MAY 11.

Merciless Murder.

Both Capt. Turner and the collector of the port of New York agree that the Lusitania was not armed, and was therefore within the classification of a non-combatant vessel. Whatever merchandise she carried, whether contraband or not, offered no excuse for the torpedoing of the vessel without warning. The conventions of war, which Germany as a supposed civilized nation had signed and was expected to achere to, require that she take any suspected vessel to the nearest port and have it examined.

This may seem like bitter irony to the Germans, whose boast that they control the sea and have overcome the British navy is without the foundaterms of the convention would offer.

But even Britons at war are not unreasonable and we have offered no protest against the sinking of vessels without the preliminaries of a prizecourt investigation as long as due time was given for the escape of the crews. No one until recently had even imagined of hate. that the kaiser was such a beast as to order the wholesale murder of passengers on a steamship without giving them any chance to take to the boats.

Merciful war would have been satisfied to bring the great vessel to a halt, and given her time to get the firing the second and fatal torpedo. less and diabolical in their nature, they have given that nature free rein in their acts.

Moreover, the sinking of the Lusitania and the murder of the innocent passengers does not advance the German military purpose in the least. It is merely a ruthless and wanton expression of the national character, which is not equaled in this respect by anything that history records of the most wolfish and savage tribes.

Col. Watterson of The Louisville Courier-Journal characterizes the German people correctly when he says that "truly, the nation of the Black Hand and the Bloody Heart has got in its work." Yet this act is no more atrocious, no more ferocious, than the acts committed against the innocent and non-combatant people of Belgium, who had been living under the pledge of the protection of the kaiser himself. a crime. Nothing can be done with people lost to all moral sense or consideration.

The Queenstown jury very properly brought in a verdict of murder against the German Emperor and his officials, there may not be blacker remaining and, according to British law, if these personages fall into the hands of British justice, they will have a fair trial according to the evidence, and a sentence according to their crime.

Bred Up to Hate

Nothing divides people so much as a difference of ideals. The Germans and the rest of the civilized world dwell in different spheres of consciousness. The German people think nothing of murdering 150 little infants in cold blood. They rejoice in signalize the event.

German ideals and the ideals of are wide as the poles asunder. It is not easy to contemplate the bringing up of a nation, with such views of life as the Germans hold, with equanimity. In the far past of the race savage wars of extermination were waged, and the Old Testament contains the record of many such operations, left, probably, as examples of avoid.

Premature Criticism

Criticism made about the loss of the Lusitania before all the facts are known may be natural, but is apt to be premature. It was not remarkable that many should think that Captain 2000 people on board into boats, before Turner of the great vessel should have and maintained at the expense of the acted with more care than critics on | nation, have been going back to civil But Germans have not been taught land thought he displayed. Accord- life soon after leaving West Pointng to his reported statement, he followed the directions of the admiralty to take the mid-channel course, and ne saw the submarines which lay in wait for him. The first, he swerved from his course to avoid, and this is confirmed by the statement of Mr. Ernest Cowper, but the very course taken to avoid one submarine threw his vessel into the path of another. There were probably, as The World surmised, a number of submarines lying in wait, and nothing could be done under the circumstances.

An escort might have provided safety for the ship, but it is clear that there are not enough naval vessels to convoy all the merchant vessels affoat on the seas. Until the murderous act was carried out it is doubtful if anyone outside the German nation could have believed that it lay in a human heart to conceive or to perpetrate such

The latest information is to the effect that the Germans tried to cut off the water supply of Paris, so that the people being reduced to drinking the disease-laden waters of the Seine, an epidemic might be started. Poison and disease germs are well within the scope of German "kultur."

The Way to Help

How can the United States give instant and effective aid to the allies? That the United States should declare war upon Germany goes witht The Bavarians actually gave their out saying. The moral effect of that school children a half holiday to declaration should not be underestimated, but real material aid must be forthcoming if the declaration of war decent British and American people is to carry weight or dignity. Report Shows Increase

The ninth annual report on this subject, prepared by Dr. Helen MacMurchy, will be issued this week in the provincial secretary's department. It shows that altho mental defectives are on the increase in Ontario, they could be well and economically cared for in A judgment handed down by the training schools and industrial farm colonies. Over 2500 are uncared for and at large.

The danger of over-emphasizing auxiliary classes is hinted in a recommendation. It is claimed that thru justice and necessity they are carried on, but the expense is high and chil-dren are sometimes retained in them too long. A call is made on all school officials to train themselves to detect mental defect and to endeavor to form

Consult Municipalities. It is also suggested that the govern ment get in touch with the municipalities to co-operate in providing permanent care for these unfortunates. Such a policy would include provision for land, buildings, maintenance and management, and is becoming necessary if public safety is to be considered.

As evidence of government consideration of the project the sources of revenue are outlined. These include the work done by the inmates, making institutions self-supporting, estates and resources of inmates, fees by guardians or relatives, municipal payments, regular grants and private enevolence.

Some suggestion of the industrial difficulties now obtaining in Ontario is contained in an expression that if defectives were cared for the problem would be much less difficult. Every mental defective is unemployable, and some have been known to have a dozen jobs in a year,

City Issues Permit for Manufacture of Ammunition on Paton Road.

The latest man to be named as kalv head for the fire denartment Commissioner George Wilson of the street cleaning department. in his opinion Commissioner Wilson's services in the street cleaning departservices in the street cleaning department had proven that he is the man for the fire department. "He is a strict disciplinarian and a good organizer," declared the controller, "and the condition of his department today proves it. He is opposed to puil of any kind, and that is why he should get the position, and perhaps for that get the position, and perhaps for that reason there will be strong opposition

to the nomination."

Should the commissioner get the appointment there is every likelihood f the vacancy in the street cleaning department being given to James W. Somers of the city clerk's office, as he has been the next in line for some

time for a commissionership.

A Theatre License.

When the property committee was sitting yesterday Ald. Yeomans wanted to know why it was that a license had been granted to the owners of the Princess Theatre when it known that the building did not com-ply with the bylaw covering places of amusement. The alderman stated that had the fire of last week happened during the performance a lot of lives would have been lost, and charged Acting Chief William Smith with not keeping an eye on places of amusement. He introduced a motion protesting against the issuing of the license by the police commissioners, but the motion was withdrawn following explanations by Chief Smith and the city architect. Architect Pearce stated that the alterations necessary hadn't come up for discussion unti-after the permit was issued. "We were looking over the plans when the police commissioners issued the license," said the architect, "and it was intended to carry out the altera-tions during the summer months when the theatre was closed." Acting Chief Smith replied to the charge that the theatres were not properly in-spected by stating that his work in

Two representatives of the city architect's department will attend the annual conference of building commissioners and inspectors at New York on May 11, 12 and 13. Ramsden entered a protest against the present street lighting on Victoria street before the property committee yesterday. The street only lighted on one side and the aldermen asked for a report as to the lighting of the other side.

Cartridge Factory Permit.

Having received a contract from the allies for rifle cartridges, the James

Morrison Brass Manufacturing Co. were granted a permit by the property committee to build a two-storey tory, 80 by 300 feet, on Paton road, for the purpose of manufacturing ammu The magazines for powder and fulminate will be located outside the city limits, in an isolated place, and only enough for one day's supply will be kept in the factory.

SUING A POLICEMAN.

Lee Lung has taken civil action against W. W. Dawn, a Toronto police constable claiming \$2000 damages. Lung claims that Dawn broke into his premises at 184 York street. He also claims that thru the visit of the constable he has lost his business also his sub-tenants. Dawn's defence is that he never caused any of a large fleet of transports at hand damage, but that he was looking for to convey troops. I refer to the Ger-

LICENSE COMMISSION

VISITS HUMBER SECTION investigated Licenses There-W. York Inspector First to Re-

port to Board. Donald Mackenzie of Woodbridge was the first license inspector to re-port to the new Ontario License Board, and as an outcome of his visit several members made a special inspection tour in his district yesterday after-

Their visit is understood to have concerned the number of licenses operating along the Humber, and their investigation is likely to decide in their minds how many should be al-lowed to exist. One of the hotels at the Humber was burned a short time ago, and it will necessarily demand attention.

PRESBYTERIAN MINISTER'S FINE RECORD OF SERVICE

Rev. Dr. Carmichael of King City, probably the oldest active minister in the Presbyterian Church in Canada, on Sunday completed his fifty-sixth year of ministerial service practically without a break. Four years ago Dr. Carmichael ostensibly retired from the active work of the ministry to a well-earned rest, but nearly every Sunday since then has been engaged in clerical or Sabbath school duties. A week ago Sunday he officiated at Maple, and on Sunday last in his old pastorate in King. Altho nearly 30 years of age, he is vigorous in mind and body, and takes a lively interest in all current events.

AURORA

Aurora has a building boom on the present time, and never in the history of the town has the outlook for a big increase in population been so bright. On nearly every street one or more foundations are under way, and already thirteen fine all-brick residences have been contracted for, and will be completed this summer. There is no speculation, but a majority of the houses are being built for private owners living in town, and will be converted as soon as completed. The be occupied as soon as completed. The fact that all the local factories are running to capacity, employing a large staff of workmen, is largely respon-sible for the satisfactory state of affairs.

WARD SEVEN

Altho the building business in West shows an increase of \$1.412.743. Last year the Ward Seven assessment amounted to \$21,566,142, but this year, altho the population or apparent value of real estate does not seem to have advanced much, the total assessment

Bedford Park Men Complain That Contractors on Civic Work Prefer Aliens.

Bedford Park laborers living in that district are deeply incensed at the treatment being meted out to them by the local contractors employed on the city water mains, now being put down in the north end. It is said to be practically impossible for any of the local men to get a job in the north end of the city, despite the fact that they are all householders, the majority of them married and the sole support of fammarried and the sole support of famsains.

"Sargel has put 10 pounds on me in 14 days." states W. O. Roberts. "It has made me sleep well, enjoy what I ate and enabled me to work with interest and pleasure."

"Before I took Sargol people used to call me 'skinny,' but now my name is changed. My whole body is stout. Have gained 15 pounds and am gaining yet. I look like a new man," declared another man who had just finished the Sargol treatment.

Would you, too, like to quickly put from 10 to 30 lbs, of good, solid, "stay-there" flesh, fat and muscular tissue between your skin and bones?

Don't say it can't be done. Try it. Let us send you free a 50c package of Sargol and prove what it can do for you.

More than half a million-thin men and women have gladly made this test, and that Sargol does succeed, does make thin folks fat even where all else has failed, is best proved by the tremendous business we have done. No drastic diet, flesh creams, massage, oils or emulsions, but a simple, harmless home treatment. USUAL SAD TALE ANOTHER BEATING

Herbert Blew Up and the Leafs Got Their Daily Trouncing.

PROVIDENCE, May 10 .- Toronto apparently had this afternoon's game cinch-ed until the last half of the eighth inings, when, with the first two men out, batting rally was uncorked that all but drove Herbert from the mound, sent over three runs, and permitted the Grays to win by a score of 6 to 4, making a clean-

Bentley was on the rubber for th rays, and Toronto got after him from he start, hitting hard in every innings ing up the runs, until the lead vas 4 to 2 in the sixth. In the seventh, derbert's three-bagger caused Bentley's

was 4 to 2 in the sixth. In the seventh, Herbert's three-bagger caused Bentley's retirement, batted out of the box. Comstook succeeded him and the Leafs could do nothing with his delivery. Herbert made a spiendid showing for seven innings, Gill and Haley being the only men to find him with any success, altho shorten scratched a double in the opener. He was disabled slightly in the sixth, but came back strong in the seventh, only to go to pleces in the eighth. The Leafs put on a plucky battle all the way and outplayed the locals but were outlucked. Sharp fielding and fine baserunning marked the work of Clymer's men in all the games here, but they have been against probably the best pitching staff in the International League, and runs have come hard. With two out in the opener, Graham walked and Brown singled. A double-steal was worked successfully, Graham beating Rehg's return to the plate. Fabrique walked in the Grays' half, made third on Shorten's double, and tied the score on Rehg's fly to Trout. Three singles in a row sent Sheehan home in the second, Roach being nailed at second trying to stretch his drive into a double. Gill made a three-bagger in the second half, and tailied on Haley's double. With two out in the fifth, Brown made a hit and walked home on Luque's long triple to left. Kelly scored Toronto's last run in the sixth, going from first to the plate on Herbert's three-bagger. Comstock relieved Bentley and the fun stopped. With two down in the fifth, Gill's single was followed by Haley's second double, the former scoring. It looked like Toronto's game in the eighth, when the first two men went out, but Powell singled and scored on Gill's second triple. Haley was purposely walked but Comstock hit safely and Gill scored. Fabrique singled and scored on Gill's second triple. Haley was purposely walked but Comstock hit safely and Gill scored. Fabrique singled and Haley went over. Fabrique singled and scored on word as to where he was going or whom he was after.

ROSS BINKLEY KILLED.

The original report of the death of Ross Binkley is unfortunately only too true. After the first sad details, hope was held out that the great Argonaut Rugby player might have been only wounded or taken prisoner. However, yesterday, Dr. W. A. Burr of Roncesvalles avenue brother-in-law of Corp. Binkley, received the following official wire from Ottawa in reply to an enquiry regarding the previous report of Binkley's death:

"Corp. Ross Binkley killed in action."

FIRST RACE-Towton Field, Cogs. Review of Some of Saturday's Games Shows a Host of Star Players.

> the finest forwards in the city. He is very tricky and fast on the ball and never hesitates to shoot when an opportunity presents itself. The powers that be have an eye on this player.

What is wrong with Manchester Unity? One point in six games is certainly not in keeping with a team of their undoubted capabilities. Secretary Mitchener is in hopes that the team will strike their proper stride soon; then look out!

Sid Brown of Sunderland is surely the penalty kind of the city. He is always entrusted with the penalty kicks awarded his team, and has never once failed to

Gunns were home to Gerrards on Saturday and were successful in notching the two available points, winning by 4 goals to 0. The team: A. Robertson (capt.), W. McArthur, R. Morgan, A. Ingram, P. Latham, L. Cooke, H. Heggfrity, C. Thomson, R. Welch, S. Chadwick, W. Cole. Will all clubs note that Gunns' colors are white and red, vertical stripes, and not plain red, as it appears in the T. & D. schedule book?

Street Railway put it all over Ulster on Saturday. They were the red bands' superiors in every department and fully deserved their victory.

The Swansea supporters are asked to give their team a little more encouragement by taking more interest in the team that represents them. There is a great falling off in the attendance, which is rather discouraging to the boys.

It is seldom George Campbell lets his team down, but that penalty he gave away on Saturday meant the loss of both points. Hard luck, Thistles!

All signed players of Bell Telephone F. C. are asked to turn out for practice on Willowvale Park Tuesday, and at Riverdale Park on Thursday at 6.30.

Swansea have a great centre forward in Jimmie Hunt. He scored three of Swansea's four goals against City Dairy on Saturday. If he can retain his present form Basil Smith, who is in the trenches, will not be greatly missed.

The Canadian selectors had an opportunity on Saturday of seeling Archer of Sunderland operating at inside left and were impressed with his play. He had two of the goals and made several openings, which his colleagues took full advantage of.

Will all players and members of the British Imperial team turn out for practice tonight and Thursday at 6.30 on Bracondale Park? Please be on time, as this is important.

Cedarvale F.C. will play York Argyle a friendly game at Little York on Tuesday evening, kick-off at 7 o'clock. Team to be chosen on the grounds. Cedarvale will gladly try out any new players in this game if they are desirous of joining a good club.

Overseas would like to hear from one or two capable players, especially a good goalkeeper, as they are losing the services of McCoskery, who has to work Saturday affernoons.

Jack Mann of Manchester Unity met with a nasty accident in their game with Sunderland on Saturday. He and Thor-ley collided, the former receiving a bad cut on the forehead, which necessitated the attention of a doctor. It is doubt-ful if he will be able to play on Sat-day.

Considering that it was the first game he has played this season, Barlow, Swansea's half-back, played a sterling game, and Duckworth was not missed. He is worthy of his place on the team.

Tommy Worral turned out for his old love the Davenports on Saturday and played a fine game, but with the exception of Fidler he received little or no support from the other forwards.

Robertsons play the Shedden Forwarding F.C. on Bayside Park tonight at 6.30. The following players are asked

SCARCITY OF SHEEP

Quotations Scored Sharp Advance - Market for Hogs Also Strong.

Stock Yards, west end market, prices showed an advance, and a stronger feeling prevailed thruout the day. Receipts were rather light, and, owing to the small number of good to choice steers for sale, packers turned their attention to other sources. A number of carload lots were purchased in the Toronto market. There was a good demand here, and an active trade was done, with sales of full loads. of choice steers at \$8.50, good at \$8, and smaller lots brought 25c per hundred pounds more. Sales of small lots of choice bulls were made as high as \$8, and choice butchers' cows at \$7.50 to \$7.75 per cwt. Common mixed cattle brought \$5.50.

Owing to the continued scarcity of sheep, the tone of the market is very strong, and prices have scored another sharp advance, with a good demand, and sales of small lots were made at \$7.50 to \$8.25 ech, Spring lambs sold at from \$7 to \$9.

A strong feeling developed in the market for hogs today, and prices advanced 25c per cwt., owing to the higher prices at Toronto last week, and the smaller supplies coming forward. Selected lots sold at \$9.50 to \$9.75, sows at \$7.50 to \$1.75, and stags at \$4.75 to \$4.85 per cwt., weighed off cars.

STARTLING RUMORS SHOOK CHICAGO PIT

One Yarn Was That President Wilson's Life Was in Danger.

RALLY AFTER BREAK

Report of Ultimatum by Italy Another Disturbing Factor.

CHICAGO, May 10.—False rumors that some harm had come to President Wilson put sudden additional strain today on the wheat market, while values were tending downward owing to continued uncertainty as to whether the Lusitanja tragedy would involve serious disturbance of diplomatic and trade relations. The market closed unsettled, but with the greater part of the losses overcome at %c to 1%c under Saturday night's level. Corn finished %c off to %c up, oats 1%c down to %c advance, and provisions showing 5c to 20c decline.

At the worst, the break in the price of wheat amounted to 5%c as compared with the top point of the session. Reperts that Italy had sent to Austria an ultimatum which would expire tonight at midnight had much to do with the heavy selling witnessed, and so likewise did talk of the U. S. breaking off relations with Gern well Supported

Corn Well Supported.

Corn received good support, and at no time manifested heaviness equal to that in wheat. On the temporary decline that idd take place shorts covered freely. Receipts were light, and Argentine reports bulled. bullish.

Oats followed other grains, but failed to raily as well as corn. Stocks appeared heavy and the weather was on the side of the bears.

Sympathy with the decline of cereals earried down provisions, but packers' buying was turning the market upward again at the close. Higher prices for hogs seemed for a while to have been completely lost sight of.

TONE WAS UNSETTLED IN MONTREAL MARKET

Dominion Bridge, Iron and Scotia Steel Were Particularly Weak.

MONTREAL, May 10.—A further break in the New York market again unsettled Montreal stocks today, and prices moved off fairly sharply in a few speculative leaders. Dominion Bridge, which opened fractionally higher, at 129, declined three and recovered only a half-point of the loss, Iron went off from 27½ to 2½½, but regained about half the decline. Scotia sold down to 63, or three below last sale of a board lot here, and finished only slightly better, at 63½ bid.

These were the more active stocks in an extremely dull market, and virtually the only ones in which any considerable fluctuations in prices occurred. Textile cased off one-half, at 72, but closed firmer, at 72½ bid. Detroit was unchanged, at 62.

Hollinger sold at a new high record price for the local market—\$25,50.

Total business for the day amounted to 1703 shares, 25 mining shares and \$8000 hong. MONTREAL, May 10.-A further break

MINING MARKETS

Prices Fell From Four to Fif- Forced Selling Does Not Now Exist While Buying is

FEW CHANGES IN PRICES

U. S. Steel Statement for Hollinger and McIntyre Held the Ground Which They Have Gained.

Under a sentimental strain of tremendous proportions, the local markets, and particularly the Standard Mining Exchange, showed a firmness which could only be accounted for in one way. During the past eight menths accounts have been so adjusted that what is ordinarily classed as forced seiling does not exist. Few, if any, loans are outstanding in the mining market, and holders have reached such a stage of confidence as to the future, that they refuse to be stampeded with every piece of had war news. Prices were changed to only a small extent on yesterday's market, and buyers did not require much of a concession to effect a transfer of holdings. Hollinger held tenaciously to its new ground, with 25.25 bid. Weakness was only seen in two issues—Timiskaming, which sold at 34, and McIntyre, which dropped to 45. The selling in these was scattered, and, with many buying orders temporarily withdrawn, the decline was not difficult to force. The impression gleaned from the day's business was that the immediate future promised dulness rather than weakness, and that a few days might elapse before the market resumed its normal course.

Fifteen Feet at Ten Dollars.

H. B. Wills in his weekly circular says:
While I was at the McIntyre mine two weeks ago, the No. 4 vein on the 600-foot level, which was opened up after March 31, showed a width of 15 feet, with values running about \$10 to the ton. At Wednesday's meeting I learned this vein has now widened out to 28 feet, with high values continuing. On the 500-foot level, the No. 4 vein showed a width of four to five feet, so that it will thus be seen a large tonnage of high-grade ore remains in the backs from the level below, hence my reason for saying the mine report is ultra-conservative, and future mill operations will clearly prove McIntyre ore runs higher than 37,90 to the ton.

During the past year 3606 feet of diamend drilling was recorded, the results of which show the McIntyre vein system increases materially in width, and values below the 500-foot level. In fact, results have been so highly favorable the management have decided to sink the No. 4 shaft to a depth of 200 feet, and the No. 5 shaft to the 700-foot level. It is already known that large bodies of high-

Monday Next Will See Commencement of Operations on Big Property.

SOUTH PORCUPINE, May 10.—Final arrangements are now completed for active development work to start on Monday next at Porcupine Imperial. The hoisting plant, five-drill compressor, as well as other mining machinery recently purchased from the Rea Mines, is completely installed, and power will be turned on this week, preparatory to testing all equipment. The underground workings have been pumped out and highgrade ore is discernible in the face of the drift on the 100-foot level, and good results are anticipated in the near future. A number of other properties in Delora, sults are anticipated in the near future. A number of other properties in Delora, in close proximity to Porcupine Imperial, are making necessary arrangements to resume active mine operations within the next few weeks, and the first of these started upon a large scale is the Pike Lake Gold Mining Company on the newly-acquired property formerly known as the Wright claims, whereon free gold showings have already been encountered in several places in surface stripping and
