Major Currie, M. P., Deals Effectively With the "Honorable Reciprocity" Argument.

KERRTOWN, Aug. 27.—(Special.)—A largely attended meeting in the interest of Dr. Steele, the Liberal-Conservative candidate in South Perth, was held here Saturday evening. About four hundred farmers were present, among them many Liberals, who are strongly opposed to the reciprocity pact, and did not hesitate to show their feelings by their applause. It is generally conceded that Dr. Steele will redeem the field by a large majority. The speakers were Dr. Steele, the candidate, and Major Currie, M. P. (N. Simcoe).

Dr. Steele dealt with reciprocity in a practical way, pointing out that the Americans had never shown any great inclination to assist Canada, when we were struggling to build up our country.

Major Currie went, very effectively into the question of reciprocity historically.

"The Toronto Globe says that all the leading public men of Canada in the past were in favor of reciprocity, and that one of the planks in the last campaign of Sir John Macdonald was an honorable reciprocity. Now

there must have been two brands of reciprocity in these days gone by, or these old Canadian chieftains would not always be referring to an "honorable reciprocity" as distinguished from a dishonorable reciprocity. If we go to the "Life of George Brown," editor of The Globe, which was written by his great reform colleague, Alex. Mackenzie, we will find the reason why Sir John and other public men of Canada, made use constantly of the term an "honorable reciprocity treaty." It is well known that a treaty of reciprocity can be made in two ways, one by means of a treaty, which will bind the two countries for a number of years, the other by concurrent legislation, such as is proposed by the Taff-Fielding pact, which can be abrogated at a minute's notice. The Elgin Reciprocity Treaty of 1854 was for a term of ten years, and the treaty negotiated by Hon. Geo. Brown in 1874, which never went into force, was for a term of 21 years.

"Now it took eight years for us to negotiate the first reciprocity treaty and we are asked to bolt this treaty the result of eight days' negotiation! The first offer made by the American Government for a treaty in the fifties was for a treaty by concurrent legislation, which the Canadians wisely rejected, and they subsequently got an "honorable" treaty, the treaty of 1854. This our old leaders who had given reciprocity with the United States more thought than we did, considered a treaty for a term of years an honorable treaty, whilst a treaty by concurrent legislation, such as the Taff-Fielding pact, was considered a dishonorable treaty, a treaty that would in reality only be binding upon one side. For if it should prove of no benefit to the United States they would abrogate it on a minute's notice, but if it should prove a benefit to them and an injury to Canada, and if Canada sought to abrogate it the United States would appeal to Great Britain to compel us to maintain the treaty.

"We know how even a few years ago we were treated by Great Britain when we had disputes with the United States about some islands at Prince Rupert. We had justice and right on our side, but the Americans got the islands simply because the Premier especially the government of Great Britain want to stand in with the Americans.

"If George Brown and Alexander Mackenzie were alive to-day they would be strenuously opposed to the dishonorable treaty of concurrent legislation that Sir Wilfrid Laurier is trying to force upon the people of

CLOTHING WORKERS MEET

Address Given by General Organizer B. Schweitzer.

The Lyric Theatre at Agnes and Trerauy-streets was well filled yesterday afternoon by a mass meeting of clothing workers, under the auspices of the four garment workers' local unions in Toronto.

The speakers were B. Schweitzer of New York, general organizer of the United Garment Workers of America, S. L. Landers, Hamilton, Canadian garment workers' representative, and Mr. Shur of the cloak makers' union.

Both Messrs. Schweitzer and Landers came here from Montreal, where they were engaged in a successful campaign for the clothing workers of that city.

Mr. Schweitzer, who was the principal speaker, is considered one of the orators of the labor movement in Yiddish.

After the mass meeting the organizers held an executive session with the union officers. Mr. Schweitzer leaves for New York to-morrow, while Mr. Landers remains a day or so and then goes to London and New York.

HAMILTON HAPPENINGS

"WE WANT PROTECTION FROM SPEEDY MOTORS"

That is What Hamilton Citizens Are Saying—By Killed by Old Flight of Stairs.

HAMILTON, Aug. 27.—(Special.)—A considerable portion of the public of Hamilton is beginning to wonder just what real protection is afforded by the laws in regard to fast driving of motor cars on the streets of this city. Laws relating to fast reckless driving in the city certainly do exist, and are violating the laws a number of motor car owners and drivers have recently been fined in the police court here, some of them heavily. Nearly two weeks have elapsed since a young man, a useful citizen of this city, while on his way home from his day's work, the principal street and so badly injured that he died the next week. The coroner's jury, which investigated the death of this young man, found that the motor which caused his death was traveling at an excessive rate of speed at the time of the fatality. Two witnesses swore at the inquest that the motor was traveling at the rate of at least twenty-five miles an hour, and only one witness, the owner and driver of the car, denied that it was exceeding the speed limit of ten miles an hour.

So far the man whose reckless driving resulted in the death of his fellow citizen has not even been summoned to police court for violating the speed laws. The conditions recited above have suggested to The World the following pertinent question: "Is a motor car owner or driver to be punished by the law for an accident which might result in bodily injury to some one, and is a motor car owner or driver to escape the penalty of the law for an accident which actually does result in bodily injury to some one?" If such is the case, what is the real protection afforded to pedestrians from the dangers which are constantly subjected to by the careless and worse of some autoist?

Willie Wilson, 433 North Catherine-street, was instantly killed about 6 o'clock yesterday by being struck on the head by a flight of old stairs, which were leaning against the house next door and which he knocked down while playing with another boy in the yard. His skull was fractured. The child, however, has been 3 years old to-day had he lived. His companion was slightly injured.

Lee Bow, a son of the Flowerly Kingdom, was badly injured by his car at Rebecca-street, last night by another Celestial, and had to be removed to the City Hospital. He is in a precarious way of life and money is at hand runs a laundry on South Lockestreet. The assault is said to be the result of a long standing feud between the two men.

The self-erected monument to the name of W. O. Sealey, the present Liberal member for Wentworth, will be the views of hundreds and thousands of Liberals of to-day that are going to vote against reciprocity."

MET DEATH AT CROSSING

Buggy of Martintown Man Struck by Mail Train.

CORNWALL, Aug. 27.—(Special.)—The Grand Trunk railway crossing at the end of Pitt-street, which connects the town with the Township of Cornwall, but a few yards west of the G.T.R. depot, over which there is a heavy traffic, was the scene of a sad casualty at 4:20 o'clock on Saturday afternoon, when Edward Morgan, a respected resident of Martintown, was almost instantly killed by the mail train going east. Mr. Morgan's horse was also killed and the buggy was shattered like so much match wood.

Mr. Morgan was formerly a resident in Lancaster, but moved to Martintown three years ago, had been in the habit of coming to Cornwall every Saturday to supply local residents with butter and eggs, and was on his way home when the accident occurred.

Mr. Morgan was a Welshman and has been in Canada about 28 years. He was 65 years of age and leaves a widow and one daughter, Mrs. J. P. Wynne, who resides in Montreal.

This makes the third fatality at this crossing in the last few years. It is a dangerous one and should have some protection or warning signal.

WILL GO THRU WHIRLPOOL

NIAGARA FALLS, Ont., Aug. 27.—(Special.)—"I expect to go thru the Whirlpool Rapids in my motor boat, week from to-day," said King H. Larsen, to-night. It was announced this morning that Larsen would make the trip to-day, but the navigator later postponed the attempt.

EXTRAVAGANCE OF GOV'T. DENOUNCED

Continued From Page 1.

Lord Bigh was negotiating a reciprocity treaty that is identified with his name, Sir Mackenzie had written articles in The Belleville Intelligencer against such a policy. He then felt that such a treaty would tend to draw Canada closer to the United States and make for union with the republic. Returning the argument that reciprocity with the United States would give farmers a higher price for their barley, Sir Mackenzie pointed out that no such result followed the reduction of the duties on cereals by the United States. At an early date there was more money in feeding barley to horses than in exporting it.

H. A. Baker, president of the Conservative Association of Lennox and Addington, was in the chair. Among those on the platform were: John Galagher, M.A.; A. Richardson, M.L.A.; J. W. Johnston, M.L.A.; W. C. Mikel, Belleville; Rev. Alexander McDonald, T. G. Carleton, M.L.A.; W. F. Nichol, Chas. Bowell, Belleville.

Honest Government.

Uriah Wilson, late member for Lennox and Addington, spoke warmly of Mr. Borden. "As he is returned to power we shall have an honest government, and an honest premier, who will not tolerate grafting." W. J. Paul, the Conservative candidate in Lennox and Addington, commented upon the fact that the government was endeavoring to prevent the people from seeing the Conservative platform, and its policy before the public. He referred to the anomaly put forward by those in favor of the agreement that it would increase the price of agricultural products to the farmers, and to the consumers that it would reduce the cost of living.

"I am going to take down the fence and allow the United States to come in and feed upon the rich pastures of Canada?" he queried.

"Keep it up," came from the audience.

"If you want to take it down you will vote for Dr. Vrooman," continued Mr. Wilson.

"We won't do it," was the answer of the crowd, accompanied by laughter.

"Otherwise you will cast your ballot for the Conservative party," said the speaker, amid cheers.

Borden's Cordial Welcome.

Mr. Borden received a cordial welcome, and was presented with an address from the Conservative Association of Lennox and Addington. He spoke appreciatively of the services of Mr. Wilson in parliament, regretted his retirement, and expressed the hope that the Conservatives would be the choice of the electors on Sept. 21. Before proceeding to discuss reciprocity, Mr. Borden dealt with other planks in the Conservative platform, and with the record of the government. He believed in liberal appropriations for the public service, but pointed out that the Liberal government had been extravagant, wanton and reckless. They had lavished money on Newmarket Canal, Richibucto wharves and local public works merely for the enrichment of party friends and for local party advantage. Their ineptitude and lack of business capacity was indicated by the waste of life and money in the construction of the Quebec bridge, the excessive cost of the National Transcontinental Railway, the printing of the annual budget and the disorganization of the great spending departments of the government. On the head of all this they declined to permit investigations, into existing conditions.

Dominion to Aid Provinces.

It was the policy of the Conservative party, Mr. Borden went on, to aid by liberal appropriations from the federal treasury the provincial governments in their work in carrying on their services in modern and profitable methods of agriculture. "We believe," he declared, "that Canada could make no better investment of her money than in technical education, for the farmer, and that the carrying out of such a policy will add not only to the comfort and convenience of the people, but also to the value of every farm adjoining these highways."

The Conservative party, Mr. Borden continued, was in favor of applying the provisions of the Civil Service Act to what is known as the outside service, and also advocated the extension of the rural mail delivery. He asserted that the expenditure by Canada for military purposes had enormously increased during the Laurier regime, without any compensating increase in the military force. The administrative cost of the army had increased from \$35,000,000 within the next few years on a navy which was being utterly worthless for a fighting force. "The prime minister has told us that he will reverse the right of Canada to declare whether she shall remain neutral when Britain is attacked."

A voice: "Shame on him" (Hear, hear).

"Shame on him," said I also," replied the Conservative leader. "Such a policy can only lead to the dismemberment of the empire. The empire will not be dismembered; but the government which proposes such a policy will be dismembered." (Cheers.)

Unfair Competition.

Dealing with the subject of reciprocity Mr. Borden said that the Canadian farmer got on the average more for his products than did the United States farmer. The government had now entered into an agreement which exposed the former to the competition of the latter. Not only that but it had opened the Canadian market to the competition of the former. "The government favored the farmers of the British Dominions, with which Canada might have made reciprocal trade arrangements. Moreover, it was that Canada was not even to be asked to make an agreement giving the United States power and control over Canadian fiscal affairs that not even the mother country enjoyed."

government's proposals would lead to the adoption of one tariff for the two countries. Canada would become first, a commercial appendage and then a political appendage of the United States. In addition, if the Taff-Fielding agreement operated as it was intended to operate, traffic would be diverted from the Canadian railways and would render the National Transcontinental, upon which so much had been expended, practically useless.

In conclusion Mr. Borden called upon the people of the Bay of Quinte district to be mindful of the effect of reciprocity upon the national and imperial interests of Canada, and the allegiance to the flag which had induced United Empire Loyalists to forsake all their worldly possessions in a British land.

Campaigns at Eighty-Eight.

Sir Mackenzie Bowell denounced reciprocity in no uncertain voice. In his whole history of Canada, and in the whole of his own political and commercial experience no question had ever come before the people which so vitally affected the political and commercial interests of the Dominion, as did the reciprocity agreement. "If it was not so I think you would say that a man verging on ninety years of age might retire from active politics. You would agree that he would not be going into the middle of the night trying to convince people that they ought to reject this treaty if he did not feel so strongly. There never was a time in my life when I felt so keenly as at the present as the interest of the country was at stake."

Government Broke Pledge.

W. B. Northrup, who represented East Hills in the last session of parliament, said that no government in the past had dared to attempt to limit discussion at a general election to one issue. He said that the Liberal government of Laurier administration had dissolved parliament and had broken a pledge that the investigation into the charges against Hon. Frank Oliver would be continued. The scandals which disgraced the government should also be considered. "The people might disagree about the result of the investigation, but they should be satisfied that it would be done and then not be thru by Sept. 21."

Epitaph for Reciprocity.

Suggesting an epitaph for the agreement now before the electors, Mr. Northrup said one might read: "Reciprocity was conceived in fear; it was ushered into the world in falsehood; it was nursed on folly and fraud, and after about seven months of tempestuous and troublesome existence died on Sept. 21, 1911." (Cheers.) He explained that the result of the Drummond, Arthabaska election, the failure of the Farmers' Bank, and the terror of the Respublican party in the congressional elections last fall had made both governments timorous, and they had entered into the reciprocity pact to hoodwink the people. He favored of such the statement of Sir Wilfrid Laurier that Sir John Macdonald and his government favored reciprocity, and quoted from a Liberal campaign pamphlet of 1882 that "No sincere effort had been made by the (Macdonald) government to set a treaty, and it appears that they are not in favor of such a treaty. . . . and that they (the government) were opposed to accepting reciprocity when the opportunity presented itself."

Hon. George Brown Opposed.

Continuing Mr. Northrup said that George Brown had retired from the coalition government of 1885 because he proposed to make a reciprocity agreement with the United States by convention instead of by enactment. Canada Fails to Win Cricket Game From Americans

Poor Fielding in Closing Innings Leads for the Canadians—A Draw With Visitors 48 Behind.

The Yankees required 233 runs to tie the match. The two and a half hours left was insufficient time for that total and it looked as if the easy task for the Canuck bowlers to win. But all were mistaken for Haines and Henry completely collapsed the straggling after bowlers missed off Black in the early overs. Gordon, too, was given a life off Lane and thus the visitors were unable to secure a draw. Haines, Graham, Gordon and Lee were all equally well set and it looked as if the Canuck bowlers were in for a good time when the Yankees were over 400 runs in front.

PUBLIC AMUSEMENTS

"Doctor De Luxe" at the Princess. Ralph Herz, who opens a week's engagement at the Princess Theatre tonight in the novel musical comedy, "Doctor De Luxe," comes direct to Toronto from New York, and judging from the advance reports that will be one of the best musical attractions that will visit Toronto during the coming season. The critics have been very high in their praise of the Hauerbach and Hoeschna new musical comedy. Messrs. Hauerbach and Hoeschna are the composers of "Madame Butterfly," "Three Twins," and "The Girl of My Dreams," and "Doctor De Luxe" is said to surpass any of their former efforts.

The music is very beautiful, and amongst the songs there are "For Every Boy Who's Lonely, Here's a Girl Who's Lonely Too," "When the Old Dog Barks," "Sealions," and "The Song of Love," and the famous "Harlem-Scamur" kiddies, America's famous dance girls.
The usual matinee, Wednesday and Saturday, during the engagement.

Travel Festival at Royal Alexandra. The Lyman Howe Travel Festival will close a successful two weeks engagement at the Royal Alexandra next Saturday night, Sept. 2. The program for this, the farewell week, is far ahead of any shown yet in the "Real" corners of real Japan in one of the scenes, take the audience to two of the "most lovely sights in Japan"—Nikko, the mecca of Japan, and Nara, the ancient capital. The peculiar charm of the scenes which will be presented in all the glory of natural colors, is the result of the old traditions of Japan still live is also demonstrated in the scenes which show the old children of the emperor are taught the arts of ancient warfare. They illustrate the Japanese idea of our own Boy Scout movement, and the novelty of Japanese life and methods is emphasized still more by another subject showing how fishermen employ birds—cormorants—to catch fish.

The growth and development of flowers from young buds into full bloom is still another feature which Mr. Howe claims is the most fascinating and interesting nature study that has ever been photographed. Then, too, there will be an excursion in the most daring of cove-nants and strings into huge rafts which float down the river to the coast for shipment.
Gun practice and a dreadnought, wood-carvers in the Tyrol, are only a few of the subjects, of which the most thrilling is a ride in an aeroplane with Lincoln Beachey. Beachey, a most daring aviator, and who for the first time in the history of aviation operated a moving picture camera simultaneously while making a flight which impressed the real sensation to the audience of darting thru the air at an altitude of 1000 feet. Owing to popular demand, the great coronation scenes will be repeated.

Vaughan Glaser at the Grand. Vaughan Glaser, effective starting of the "Pripco Chap" at the Grand Opera House last week, will awaken considerable interest in his production of "The Only Way," to be given at the same theatre to-night, with the customary matinee performances throughout the week. Freeman White, the last for Mr. Glaser for some time.
"The Only Way" is a dramatization of Charles Dickens' immortal novel, "A Tale of Two Cities," Freeman White, a noted English writer, made the dramatization for Martin Harvey.
The story opens in a bachelor's quarters of Sydney Carton in London. Carton is a most brilliant barrister, but drink has enslaved him. He is in love with Lucy Manette, but realizes that she is not for him, that he is entirely unworthy of her. On the scene comes the Marquis de Evremont, a French aristocrat, who fled Paris on the breaking out of the commune. He meets Lucy and falls in love with her, and she with him.
Sydney Carton, instead of trying to injure the marquis does all in his power to save him from the enemies on his trail, and finally, when the marquis is abducted to Paris and cast into the Bastille under sentence of death, Sydney Carton braves one of the keepers of the Bastille, enters the condemned man's cell, and after drugging him changes clothes with him and has him smuggled from the prison while he takes his place in the condemned cell and goes to the guillotine in his place.

The Yankees required 233 runs to tie the match. The two and a half hours left was insufficient time for that total and it looked as if the easy task for the Canuck bowlers to win. But all were mistaken for Haines and Henry completely collapsed the straggling after bowlers missed off Black in the early overs. Gordon, too, was given a life off Lane and thus the visitors were unable to secure a draw. Haines, Graham, Gordon and Lee were all equally well set and it looked as if the Canuck bowlers were in for a good time when the Yankees were over 400 runs in front.

EATONS GET THE BEACHES SENIOR LEAGUE PENNANT

Defeat Kew in First Game Saturday by 8 to 3 Which Gives Them Championship.

NEW GARDENS, Aug. 28.—Old Sol shone down brightly on Saturday afternoon, bringing out a large crowd, as usual, to witness the games in Beaches League, and amongst them were a large crowd of the fair sex.

The first game brought together Eatons, with the old stand-by, Fred Hickey, batting the pills, while Beaches had on the mound, both pitchers battling for championship honors, as this game was the only one in which the home team "got Hickey in the box," brought forth a couple of land-slurpers to look after the little spot in the centre of the diamond called the mound. Eatons started the scoring in their half of the sixth, Hett hit on one for three bases, scoring on Taylor's single. Kews evened up in their half, but Eatons forged ahead again in the second. Nothing more happened until the fifth, when, with three on, Hickey pitched a double to clear the bases, and at the finish of the first inning had collected five runs. Eatons collected another in their half of the sixth. Kews made an awful attempt to stem the tide in their half of the sixth, when, with two on, Ross, the Tim Jordan of the Beaches League, drove in one on a double to centre, but the game was Eaton's win, 8-3.

Triple Play in Beaches League.
The second game in the Beaches Senior League started under red-hot conditions. Rabely and Brennan pitched for the Royals for Nationals, while Graham, a Don Valley recruit, pitched for the Royals. Beaneau, an underdog, pitched for the Nationals.

A free hitting game resulted in a win for the Royals by 13 to 7. The feature was a triple play by Graham on second for Royals in the second inning, when Rabely struck out by Mason 7, by Hickey 8, Stolen bases—Graham, Hickey, Eaton 3. Taylor, Beate, Left on base—Eaton 3. Kew 5. Hit by pitched ball—Smith, Past. Beaneau, as usual, off the receiving end. Time—1:10. Umpire—Frank Hallinan.

ST. KITTS ARE CHAMPIONS

Again Win C. L. A. Honor—Rough Game at Lambton.

WESTON ATHLETIC GROUNDS, Aug. 28.—(Special.)—The last round in the senior series of the C.L.A., between the Athletics of St. Catharines and the Shamrocks of West Toronto resulted in a victory for St. Catharines. The Shamrocks won out only after being badly beaten up. D. Hall of Ontario, the referee, inflicted serious penalties, but the athletes should have been fifty. Tripping and holding passed unnoticed time and again. It is certainly his duty to report several of the executive to be disciplined for their dirty plays. The line-up: St. Kitts—Goal, Dick; point, Harris; cover, Earl; third defence, Turford; second defence, Fitzgerald; first defence, Hatfield; centre, Richard; third home, Kerr; second home, Ripley; first home, Dwyer; outside, Macfarlane; inside, Hope; field captain, McIlwaine. Shamrocks—Goal, Campbell; point, A. Gilbert; cover, Curtis; defence, King; second defence, Ramshaw; first defence, Smith; centre, J. Harrison; third home, J. Harrison; second home, Clayton; first home, McGraw; outside, Brown; inside, B. Gilbert; field captain, Bond.

HESPELER WINS

First Intermediate C. L. A. Semi-Final Game From Preston.

HESPELER, Ont., Aug. 28.—The first game, semi-final intermediate lacrosse, was played here this afternoon, when Hespeler trimmed Preston, 9 to 5. The game was very fast and in spots very exciting, which gave the crowd some thing for their money. Wally Jardine of the home team played a star game. Holmuth starred for Preston, and also has the credit of scoring most of their goals. Dwyer of Newmarket was very active and kept the game free from roughness.

Toronto Defeated The Shamrocks At the Beach

Toronto piled up a big score in their game with Shamrocks at Scarborough Beach on Saturday, but the eastern players were in a class by themselves and showed excellent form. The chief reason for their defeat was that they were up against a team who showed much superiority in shooting and who knew the fine points of the game just a little better than the players from Montreal. Shamrocks, however, demonstrated that they had the necessary pluck and stamina to make them a team worth reckoning with seriously at every point of the game, and not until the fourth quarter did the "blue shirts" feel at ease. Too much of a compliment could hardly be paid to Clingen, the Shamrocks' captain, who played an excellent game all thru. Whenever he had any assistance at all he managed to stop the Toronto players, and they looked and felt as if they were being hit by a sledge hammer. On the Toronto side, Danden and Stagg did the most sensational work, being often the means of taking the eastern visitors off their guard. But all the Toronto players were in good form and showed clearly that, when working their combination play as the Shamrocks do, they are a team to be reckoned with. On the Toronto side, Clingen, Danden, Stagg, and the "blue shirts" will have to deck themselves in war-paint and prepare for a good, hard battle.

Toronto—Goal, Byrne; point, Harshaw; Shamrocks—Goal, Campbell; point, A. Gilbert; cover, Curtis; defence, King; second defence, Ramshaw; first defence, Smith; centre, J. Harrison; third home, J. Harrison; second home, Clayton; first home, McGraw; outside, Brown; inside, B. Gilbert; field captain, Bond.

Cornwall Colts Were Shut Out by The Frenchmen

MONTREAL, Aug. 28.—The Cornwall twelve went down to defeat before the Nationals Saturday night, but they were a close game to the end of the first half developing into a rout in the last half. The Cornwall Colts were shut out by the Frenchmen. When the whistle sounded his final toll the figures stood at 12 to 0.

Speed was the great asset of the Frenchmen. They simply played the visitors off their feet in the first half and romped away with the game in the second. The Cornwall team played a star game. Holmuth starred for Preston, and also has the credit of scoring most of their goals. Dwyer of Newmarket was very active and kept the game free from roughness.

O'Keefe's Canadian Barley-Malt Beer vs. U. S. American Corn-Rice, etc. Beer

The following extract from The Mail and Empire, of August 23rd, is borne out by facts developed in an investigation instigated by U. S. Secretary of Agricultural Wilson.

WHAT GOES INTO AMERICAN BEER

"The layman's understanding of beer is that it is composed of barley, malt, hops, yeast, and water. In the United States, however, it would appear that much of the beer is composed of CORN, STARCH, CARAMELS, SUGAR, SACCHARIN, SYRUPS, RICE, GLUCOSE, LUPULIN (which is an acid imitation of the essence of hops), and any one of a dozen different drugs that will give beer a distinctive color. Among the thousands of breweries in the United States there are only twenty-five that are turning out barley-malt beer. In fact, the counsel for the barley growers said that BARLEY-MALT BEER is almost extinct."

The Purity of O'Keefe's Beer, Ale, Porter or Lager is Guaranteed Under Canadian Excise Laws.

The Canadian Excise Law enforces a severe penalty when any ingredient other than water, Barley-Malt and Hops are used in the brewing of beer. None of the articles mentioned in The Mail and Empire article are used in the brewing of O'KEEFE'S ALES.

All O'Keefe's Brews are made from the finest Canada barley-malt and choicest domestic and imported hops, and pure, filtered water.

Not much wonder that O'Keefe's Brews are known as those that are driving imported beers out of Canada.

HARRY GILMORE TELLS OF SKILL IN SELF-DEFENCE

Veteran Instructor Takes Issue With Bill Naughton Over Rushing Style of Fighters.

Harry Gilmore always stood for scientific boxing, and skill in the art of self-defence. He takes Bill Naughton of the Chicago school to task for boasting the rushing style of fighters, and Bill comes back generously in his weekly letter as follows:

Harry Gilmore of Chicago, one of the old school of boxing instructors—or maybe it would be more courteous to say one of the teachers of old school methods—has written me an interesting letter, in which he says that a knowledge of self-defence is of use for other purposes besides the pursuit of fame in the ropes square. He believes that every citizen should know something of the science of boxing and that a knowledge of self-defence is of use for other purposes besides the pursuit of fame in the ropes square.

As Ad Wolgast was the particular pugilist who inspired the article objected to, his success, following those of Jack Johnson, Sam Langford and Billy Pankov, having impressed the writer with the fact that the exponents of the straight hitting style were not to the fore as world's champions at present. It is Wolgast to which Professor Gilmore refers in his article of mine deploring the decadence of the Mace system of fist-fights. He apparently thinks I made wrong deductions "when comparing the relative ability of the present-day fighter and the fighter of some years ago."

Jamestown Pastor Speaks of Balaful Influence of Heredity—False Modesty a Curse. "Children have a right to be well-born," said he. "Pre-natal culture is a fact that cannot by any means be minimized, but in a mixed audience such as this we can discuss subjects very much in detail. There are, however, some men intended for celibacy, and some women too."

SPARR WAS DEAD BEFORE THE TRAIN STRUCK HIM Inquest Opened at New Hamburg - Was Injured in Berlin - Day of His Death.

NEW HAMBURG, Ont., Aug. 27.—Many theories are advanced to clear up the mystery surrounding the death of young Sparr, whose body was found mutilated upon the G.T.R. tracks a mile west of here on Friday morning.

He grabbed a companion from the back. The latter stooping down suddenly, threw Sparr over his back and he lit upon his head on the cement walk.

It appears from the evidence sworn to that death must have occurred some time before the body was run over by the way freight.

The Great Exhibit That Occupies an Entire City Block

The Opening Day

The Millinery of Aspiration

Whether it be on account of mere height, or because of an upward yearning they seem to have, certain popular modes this autumn have been dubbed "aspiration" hats.

What woman will not feel, when she sees them, that this is an apt name—aspiration? Her heart will aspire to nothing so yearningly as the immediate ownership of one of these treasures.

These "aspiration" hats have been an inspiration, too. You'll notice that, if you visit our opening to-day, and see the wonderful copies and adaptations that our own skilled milliners have made. When you see the quantity of rich materials used, the amount of fine work, and the smart effect produced, our prices will appear very reasonable.

How About a Velvet Dress For Autumn?

Wouldn't you like an exquisite model dress made of beautiful quality chignon velvet, embodying all the new features of the season—the yoke is made of a dainty gold thread net, with deep cuff on sleeve to match; slanting shoulder, with kimono effect; sleeves are trimmed with deep black silk fringe; the waist line is made high and has a black silk girdle, which joins waist to skirt. There is a double piece on skirt which sweeps around knee line, and is defined with a binding of black silk fringe; the skirt is then continued to the bottom with deep satin flounce. Price 39.50

Just Arrived! These New Fall Suits

Everything that is new in style and material will be found in our Tuesday display.

A Stylish Suit of English Tweed—The coat has a newly-designed collar with sailor effect at back; it is inlaid with plain cloth and narrow piping; the cuffs match the collar; lined throughout with silk; skirt has the new panel effect, with side pleated gores. Price 15.00

A Very Dressy Suit—Made of imported French Venetian, in navy, green or black; the coat is lined with silk; notched pointed collar, inlaid with velvet, outlined with satin piping; pointed patch pockets; the fasteners are black velvet buttons; the skirt has the straight line effect, with side-pleated gores. Price 25.00

Another Charming Suit is made of fancy stripe tweed mixture; lined throughout with satin; it has large rounded collar outlined with tan or green trimming, finished with small buttons; skirt has graceful lines and fastens to left at back; colors are tan, fawn or green. Price 27.50

A French Serge Suit—Lined throughout with satin; the coat is three-quarter fitting, with heavy shoulder seams; the large semi-rounded collar inlaid with velvet is very striking; the coat is finished with wide silk braid, sleeve is trimmed to match; the skirt is the new six-gored style, trimmed with silk braid to match coat; colors are black, navy or green. Price 39.50

A Dainty Fall Suit for a Girl in Her 'Teens—Made of imported vicuna cloth; smartly tailored and made on good lines; coat is semi-fitting, with square front effect, is double-breasted, fastening with one row of buttons; skirt is cut in gored fashion with heavily stitched seams; colors navy, or black; ages 14, 16 and 18 years. Price 9.75

To the thousands of visitors who have arrived for the opening of the Canadian National Exhibition, as well as to Toronto's citizens, the Simpson Store is glad to announce the opening of their Autumn business with the most important collection of high-class merchandise ever seen in this city.

There awaits you here an exhibit that covers an entire city block seven times over—seven huge floors on which you may see representative exhibits from all parts of the world, and in every case the best of their kind.

To-day the attention of women will be focussed upon our **Millinery** department, where a distinguished collection of models from Paris, London and New York is being shown for the first time. But this Millinery Opening is only our "head liner," as it were, and you'll find the store crowded with interest from roof to basement.

The August Furniture Sale

ends with the month, and reverting to the expressive vernacular of the present day, it is "up to you to get in on these bedroom bargains—they are snaps." Now, "expressive vernacular" is good, but it is not as good as the bedroom furniture, and that is exactly the point we wish to make. No talk can do this furniture at this price justice. You must see it, buy it, and use it to appreciate the splendid values offered by the August Furniture Sale at Simpson's.

The Robert SIMPSON Company Limited

To Exhibition Visitors

The Simpson Store, in a most unique way, stands for what tourists and visitors need, and what they most heartily appreciate, viz.:

Refreshment—Entertainment—Enrichment

In providing the finest retail store in Canada, one object has been to change the character of shopping from hard work to pleasant occupation. All that elegant equipment, scientific ventilation and sanitary appointments can contribute to this end are here. While you enjoy the best, served and most appetizing summer foods and drinks, you have (between 12 and 2 o'clock) an orchestral concert that would cost you from 50c to \$1.00 in any music hall, according to the seat you choose. Every seat in our Palm Room and Restaurant is a good one. But it's your enrichment that will really attach you to this store. Now, here's a statement you don't have to take second-hand; prove it for yourself, as thousands do every summer. Whether you come from Canada or the States, town or country, you can save money on the goods you buy here, compared with what you'd pay at home. That's enrichment; economy is the road to wealth.
