

BOARD MUST SOON ADOPT POLICY FOR CIVIC CAR LINES

Commissioner Harris Prepared to Run Gerrard Street Cars and Asks What Fares to Charge.

14-FOOT SUBWAY FOR YONGE STREET

Similar Ones For Ossington Avenue and Christie Street—East End Roads to Be Investigated.

Replying to a request of the board of control in the matter of a street car service on St. Clair avenue this winter, Commissioner Harris stated that the St. Clair avenue line could be traversed during the winter months by a temporary track.

Must Have Policy. "Before anything further is done," says he, "relative to equipping and operating car lines, I suggest that the board of control should adopt a definite policy with reference to the operation of all civic car lines, so that in the event of your deciding that the city shall operate all of such, we may plan accordingly, which will result in the maximum of economy."

East End Roads. Nothing will be done with regard to the improvement of east end roads until the board of control has had an opportunity of visiting them, as there are many opinions and objections as to what is best to be done with them, considering the season is so late.

Fourteen-Foot Subway. A fourteen-foot subway will be constructed at North Yonge street, so far as the board of control is concerned. There will be a level approach to the south, but the foundations will be so constructed as to facilitate extra work towards making an 18-foot subway and 2 1/2 per cent. grade to the south, at some future date, should it be required.

More Concessions. The railways must comply with the city's requests, relative to subways along the northern railway belt of the city, according to an order from the Dominion Railway Board issued yesterday.

Corporation counsel Geary asked that Ossington avenue and Christie street crossings be opened. There will be 14-foot subways at these two points. Albany avenue will be closed, and Bridgman avenue will be graded thru to Bathurst street.

Board May Be Bigger. A majority of the board of control are in favor of enlarging the board of police commissioners from three to five, and recommending accordingly.

Mayor Hocken will be given the authority to sign the Humber boulevard agreement with the city, and to purchase 300 extra acres.

The Old Folks' Home will likely be situated on the Industrial Farm. Controller Church thinks that the environment up north would not be suitable for the old people, but it is the intention of the board of control to purchase 300 extra acres.

The Civic Garages. Much dissatisfaction is being evinced over the methods employed in the operation and running of civic garages.

Commissioner Chisholm has recommended the closing of the city garage at St. Lawrence Market. He suggests that each department take charge of its own motors, but the board has asked that he report on the advisability of running the garage and charging each individual department with the expenses incurred.

Crossing Illuminated. The civic hydro-electric system will be ordered to erect the new lighting system, now employed at Boyce avenue, at all railway intersections thruout the city.

City Makes Money. The board of control have approved the sale of the city lot located at the southeast corner of King and Dufferin streets for \$35,000.

The Toronto Gas Company wanted the same lot for less than \$31,000.

DISEASE IS DUE TO BAD BLOOD

To Cure Common Ailments the Blood Must Be Made Rich and Red.

Nearly all the diseases that afflict humanity are caused by bad blood—weak, watery blood poisoned by impurities. Bad blood is the cause of headaches and backaches, indigestion and rheumatism; debility and indigestion, neuralgia and other nerve troubles, and disfiguring skin diseases like scabies and salt rheum show how impure the blood actually is. No use trying a different remedy for each disease, because they all spring from the one cause—bad blood. To cure any of these troubles you must get right down to the root of the trouble in the blood, and that is just what Dr. Williams' Pink Pills do. They make new, rich blood and thus cure these diseases when demomun medicine fails. Mrs. John Jackson, Woodstock, Ont., suffered from both nervous troubles and a run down condition and experienced a complete cure thru the use of Dr. Williams' Pink Pills. She says: "I was a sufferer for a number of years from neuralgia, and a general debility of the nerves and system. I had tried several doctors and many medicines but to no avail until I began Dr. Williams' Pink Pills. At the time I began the Pills I had grown so bad that I could hardly be on my feet and was forced to wear elastic bandages about the ankles. The pain I suffered at times from the neuralgia was terrible. I had almost given up hope when I began the use of Dr. Williams' Pink Pills. In the course of a few weeks I felt an improvement, and I gladly continued the use of the Pills until I was once more quite well and able to attend to all my household duties."

If you are ailing begin to cure yourself today with Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

YOUR GRAY HAIRS QUICKLY VANISH

A Harmless Remedy, Made from Garden Sage, Restores Color to Gray Hair.

A feeling of sadness accompanies the discovery of the first gray hairs which unfortunately are looked upon as heralds of advancing age. Gray hair, however handsome it may be, makes a person look old. We all know the advantage of being young. Aside from the good impression a youthful appearance makes on others, simply knowing that you are "looking fit" gives one courage to undertake and accomplish things. So why suffer the handicap of looking old on account of gray hairs when a simple remedy will give your hair youthful color and beauty in a few days' time?

Most people know that common garden sage acts as a color restorer and scalp tonic as well. Our grandmothers used a "Sage Tea" for keeping their hair dark, soft and luxuriant. In Wyeth's Sage and Sulphur Hair Remedy we have an ideal preparation of sage combined with sulphur and other valuable remedies for dandruff, itching scalp and thin, weak hair that is split at the ends or constantly coming out. A few applications of this valuable remedy will bring back the color and shine in a short time. It will remove every trace of dandruff and greatly improve the growth and appearance of the hair.

Get a fifty cent bottle from your druggist today, and notice the difference in your hair after a few days' treatment. All druggists sell it under guarantee that the money will be refunded if the remedy is not exactly represented. Agents: Robert Simpson Company, Limited.

CITY WILL FORCE SUBURBAN RAILWAY CO. TO DECLARE ITS POLICY WITHIN A WEEK

West Toronto Ratepayers' Association Demand Improved Transportation Facilities and Better Water Supply For Their Districts—Want Subway at Royce Avenue Crossing—Also Ask For Speedy Construction of Water Mains Along Sunnyside.

Many subjects and projects of varying importance, kept the board of control in session for nearly three hours yesterday when much discussion was entailed. A large deputation of West Toronto ratepayers appeared and asked the board to use its influence towards alleviating certain grievances which exist in that district. The resolution passed at a recent meeting reads: "The city council should be asked to take such steps as will lead to the extension of the street railway from Dundas street along Bloor street, as far as High Park gate, also that negotiations be entered into with the Toronto Suburban Railroad for the purpose of acquiring the franchise for all the district south of Dundas street, which will permit of the building of a line along Pacific avenue and Annette street. Failing this the city council should accept the offer made by the Toronto Suburban Railroad to build a single track line along Annette street."

THE SUNDAY WORLD

Fifty pages of pictures, special articles, and news make up The Sunday World this week. To mention only a few: The second installment of Louis Joseph Vance's great story, "The Bandbox." "A Whirl With Kasevsky," another of the charming Torchy stories, by Sewell Ford. Sarah Bernhardt writes on cultivating the habit of gaiety. "A gay disposition is half the happiness of life," she says. Mrs. Eleanor Gurnett writes of the Heather Club and the care of Tubercular children. Kid's Column. "A No. 1," the world's famous tramp, talks with The Sunday World on his great work of reclaiming boys who have been seized by the wander lust. Kenneth Douglas, whose helpful articles on Religion and Social Service have been a feature of The World for some weeks, discusses the Sanitarium Vote and other topics. Our embroidery design for Roman network and punch work. A short story by Alan Sullivan, "The Method of Chestnut." The song feature is "Honey Bunch." Lou Skuce's color feature describes some winter coats and furs. Illuminating editorials on the prevention of disease, with special reference to an article by Annette Austin to Pearson's Magazine. There is food for reflection in these articles. Albert Ernest Stafford continues his reflections on some of the "hidden things." Henri Ferrer writes about the possible outcome of the destruction of the Ottoman Empire. Full pages are given to Autoing and Motor Boating, the Stage, Real Estate, Society, Music and Literature. The illustrated section has a number of pictures taken by staff photographers at the McGill-Varsity game at Ottawa and the Toronto Alerts game, the soccer teams contesting for the Bridgen Cup and the flower show.

RAILWAY CONSTRUCTION WILL MAKE RECORD THIS WINTER

Thousands of Men Will Be Employed by the C. P. R. and Canadian Northern in All Sections of the Province—Several Hundred Miles of New Railway Lines to Be Completed by the Spring.

The railway construction work to be carried on in Ontario this winter is predicted that of any winter railway construction yet seen in this province, and it is predicted that as a result no able-bodied man in Ontario need go without employment this coming winter. The Canadian Northern Railway alone have as many as 1314 men employed on the construction of C. N. R. lines in Ontario, and they are closely followed in this regard by the Canadian Pacific on that railway's section of its new Montreal line between Toronto and Gies. Tax and grade separation work in North Toronto; also in the grade work being carried on by the Grand Trunk Railway to the west of the city. Work on the Ontario portion of the C. N. R. Transcontinental is taking up the greatest number of men doing construction work for this railway in Ontario. This is divided into two sections. The first is from Port Arthur to Sudbury, a distance of 550 miles. On this section 5000 men are now at work, and 35 miles of steel have already been laid from Sudbury. From the Port Arthur end of the line the track is down for a distance of 73 miles. Saving in Time. The other section of the Transcontinental in Ontario, between Capreol, ten miles north of Sudbury, and Ottawa. This line, which cuts straight across the north half of the province and is 314 miles in length, is to make a wonderful saving in time for thru transcontinental trains compared to what would be necessary if the thru trains were forced to come down to Toronto and from there north to Ottawa again, a distance of about 500 miles. The C. N. R. are carrying on the work with the expectation of seeing the transcontinental completed before the close of the coming year. The section of the Transcontinental from Capreol to Ottawa has now 2264 men at work on it. It is graded more than half way, and a good portion of the steel has been already laid. Toronto-Ottawa Line. The Toronto-Ottawa line has the section between Sudbham and Ottawa still under construction, a distance of 90 miles. This is to be finished up in record time, however, more than half the distance having been laid with steel and the whole graded. In order that this may be accomplished a force of seven hundred men are now at work on this section of the line.

NORTH GREY MAN MAY BE SENATOR

Strong Request on James McLaughlin's Behalf is Sent to Premier Borden. OWEN SOUND, Nov. 22.—(Special).—A number of the executive of the North Grey Liberal-Conservative Association held a meeting two days ago and today forwarded a resolution to Premier B. I. Borden pressing the appointment of James McLaughlin to senatorial dignity. The resolution, which was unanimously adopted, sets forth the reasons for the choice falling upon Mr. McLaughlin at an early date. The action of the executive met with unqualified approval in all quarters. The fact that Western Ontario is represented by but a handful of men in the senate, it is assumed, will to some extent influence the premier in choosing men to fill the vacancies.

Mr. Blake's Reply

Hon. S. H. Blake yesterday gave out this comment on the Cartwright reminiscences: "Mr. Blake believes no persons will more regret that Sir Richard prepared and was led into publishing his reminiscences than his true friends who will sincerely wish that such a measure of wisdom and judgment had been imparted to him that these defective and highly imaginative reminiscences had never been brought into existence."

SATURDAY MORNING, NOV. 23, 1912

CIVIC REFORM.

We are glad to find The Telegram taking advanced ground on the question of civic reform. The aldermen, prospective and expectant, ought to make themselves clearly understood before polling day as to what they wish to do for civic reform. There ought to be a pretty clear understanding as to what is to be done to give Toronto a decided forward next year. The electors ought to realize that it means money in their pockets to have a council fit to handle the millions the taxpayers put up with economy and efficiency, and that the day has gone past when the council chamber is to be put to the service of a village debating club.

For some years the council have served as models for the picture The Telegram draws of "commission of high-priced busybodies." It is true they only get \$200 a year, but the epithet stands. The second paragraph of The Telegram editorial appended meets the city's need exactly:

Toronto does not want a commission of high-priced busybodies covering more ground than it can cultivate, shoving all over the field of civic endeavor, serving as Jack-of-all-trades and master of none. Toronto wants a permanent and improvement commission, and possibly one more commission to specialize as the Harbor and Hydro-Electric Commissions have specialized. The city council has a great future as the constituency empowered to elect the commission that will supplement, not supplant, the heads of departments in the administration of the city's affairs.

THE BALKAN SITUATION.

Hostilities have resumed in the Balkans, but indications point to an early adjustment of terms between Bulgaria and the Turkish Government. The allies are in possession of almost all the territory that they can hope to gain and a proclamation of the war would not better the claim they have already established. But while the outlook to this extent is favorable, the insistence by Serbia on an Adriatic port is a direct menace to European peace. Austria is reported to have ordered a partial mobilization and to be concentrating troops on the Serbian and Russian frontiers, while other preparations for the transportation of troops are in progress. The course does not necessarily mean that a greater and more extensive war is inevitable, but it shows how dangerous the situation is and how easily a crisis could be precipitated. Mr. Asquith had reason, in his Guildhall speech, to deprecate the raising and pressing of isolated questions which, he commented, if handled separately and at once, may seem likely to lead to irreconcilable divergences, but which may well assume a different and more tractable aspect if they are reserved to be dealt with from the wider point of view of a general settlement.

The demands of the Austrian Government centre on four points. The provision of assured and unrestricted facilities for access to the eastward markets and free commercial transit to Salonika; the maintenance of the integrity of Albania; the protection of Austrian political interests by the creation of local relations with Serbia, excluding political antagonism and compensation for Roumania. Of these the most difficult of adjustment is undoubtedly that relating to Albania and the Adriatic, which also vitally concerns Italy. The most feasible method of reconciling the conflicting claims of Austria, Italy and Serbia seems to be the erection of Albania into an independent state, subject to free and unrestricted access to its ports from the interior. Salonika could also be made a free port under the control of a general Balkan confederation. This was the policy favored by Gladstone in 1878, when he pointed out that the true interest of Britain was to help in the establishment of self-governing, autonomous states, which could act as a check to the onward march of Russia. A confederation including the Balkan States, Greece and Albania would offer the strongest possible bulwark against the ambitions not only of Russia, but of Austria.

Mr. Asquith's Guildhall speech was generally welcomed in Germany and regarded as a powerful influence on behalf of peace. The Vossische Zeitung, intimately associated with official circles, declared that the British premier's pronouncement was conspicuously devoid of reservations and disposed of the continental insinuations that Great Britain was the sinister figure manipulating events in the Balkans for her own selfish purposes. It added that the speech showed that even if Serbia remained obdurate on the Albanian-Adriatic question, peace was not necessarily endangered. "England,"

said this influential journal, "has now placed firmly on record her wish for an amicable solution by international action. Russia cannot possibly think of going to war on behalf of Serbia if England and her French ally are as sincerely determined to keep the peace as Mr. Asquith's speech indicates." Serbia alone will hardly provoke a conflict with Austria and it is almost inconceivable that she will be encouraged to do this by her allies or by Russia. Nor is Austria likely to take in haste a fatal step, with all its possible consequences. Mr. Asquith's assurance that so far as Britain was concerned its relations with the other powers, without a single exception, were never more cordial and friendly, renders it certain that effort will be made to arrive at a satisfactory understanding.

CHRISTMAS STAMPS.

A beginning has been made for the season on the sale of the Christmas stamps which have become such a popular means of support to the National Sanitarium Association. Last year the committee in charge of the stamps reported a collection of \$14,000, an increase of \$400 over the previous year. This year still more may be done, as a special effort is being made for the King Edward memorial fund of \$1,000,000. The association is the only body engaged in the repression of consumption having the right to use the name of King Edward, and it is expected that the memorial, whose object is one that was dear to him in life, will shortly be completed.

Those authorized by the committee will shortly approach the merchants and business men of the city in general, heads of institutions and all who have opportunities at their disposal for the sale of tickets, and it is hoped that they will, even to a greater extent than last year, co-operate in placing the tickets before the public.

HOME RULE AND THE PEERS.

While it has hitherto been taken for granted that the house of lords will reject the home rule bill on its first and second presentation and compel it to become law without their assent, it is not beyond the limits of possibility that the Conservative majority may follow the precedent it set for the case of the National Insurance Bill. That course was strongly urged by the Duke of Bedford, one of the most influential of the unofficial Unionist peers, in a recent speech. He pointed out that if the peers exercise the insignificant power of delay 'vouchsafed them under the Parliament Act, the bill may still come into force on May 9, 1914. If they do not delay it the bill will come into force with the passing of an Irish parliament on Sept. 2, 1912. They cannot also, he continued, "a single sentence, a single line, a single word, a single letter in the bill—they can only delay it eight months."

The duke declared belief in the policy of delay to be born of a vain hope that something—no one knows what—may turn up to destroy the home rule bill. He did not regard that as statesmanship—in his opinion it was a rotten policy. His counsel to the Unionists in the house of lords was to exercise their right to criticize the bill and then stand aside and call upon the government to accept the whole responsibility for the consequences. It remains to be seen whether the responsible leaders of the Unionist party are prepared to adopt the course recommended by the duke of Bedford. To allow the bill to pass would afford an earlier opportunity to the Ulster covenanters to show whether their protest represents a serious determination to offer armed resistance to the operation of an act of parliament, and might also turn them against the Unionist party. The Unionist leaders are more likely to contest the bill to the last.

The scientific men have just discovered in England the oldest and thickest skull in the world. Irish and Scotsmen see nothing remarkable about that. It is just what they would have expected.

OPENED THE TEMPLE

Royal Templars Have Housewarming at New Headquarters.

The "housewarming" of the Royal Templar headquarters, the Temple, on West Queen street, brought out a very large attendance. Mayor Hocken and W. W. Buchanan of Winnipeg were the speakers, and W. J. Armstrong occupied the chair. The big auditorium of the Temple will not be opened until January, but the main part of the building is now in commission, and a public meeting will be held every Thursday night. Mayor Hocken in declaring the Temple opened, expressed the opinion that the beautiful, commodious, and well-appointed structure would greatly increase the prestige of the Royal Templar society. He said it was not only a home for the order, and a splendid plant for producing and sending out temperance in the city, but it would prove to be a veritable "Temperance Torch" for the Dominion.

It was announced that fourteen churches had each contributed a group of workers to the federal society, known as New Era Council, and that the membership already exceeded one thousand, the largest local temperance society ever instituted in Canada.

Court of Appeal. Before Garrow, J.A., MacLaren, J.A., Meredith, J.A., Magee, J.A., Hodgins, J.A. Re Hutchinson-Burvell v. Hutchinson-Burvell. W. N. Tilley for W. H. Hutchinson and Adah Burvell from an order of a divisional court of June 25, 1912, reversing the order of the chancellor of March 25. This was a motion by William H. Hutchinson, father of Adah May Hutchinson, on return of a writ of habeas corpus directed to the maternal grandparents, Robert Burvell and Adah Burvell, for an order for the custody of his child, whose control by agreement of adoption he had transferred to said grandparents just before the death of his wife, the purport of which agreement he alleged he did not know. The chancellor refused his motion and the divisional court reversed the order in terms showing that the father has procured a suitable house or rooms for himself and child. Appeal argued and judgment reserved.

THEATRES

The New Aborn Production.

Crowning the achievements of the Aborn Opera Company in the field of English opera, the new Aborn Opera Comique Company, which has recently been organized to represent the classics of the Paris Opera Comique repertoire to American audiences, will come to the Alexandra Theatre, with the usual Thursday and Saturday matinees, commencing Monday, Nov. 25, and for the balance of the week, "The Chimes of Normandy," the chef d'oeuvre of the French composer, Robert Planquette, has been chosen to open the season, and it is the intention of the Aborns to rival in spectacular magnificence, and in detail of stage presentation the imposing production of "The Chimes of Normandy" by Oscar Hammerstein during the course of his recent London season. The lovely lyrics romances will be interpreted with special regard for the period and locale of the story.

"Gypsy Love" a Lyric Opera

Toronto is sure to like "Gypsy Love" when it comes to the stage. The play for a week's engagement, beginning Monday, Nov. 25, where the melodious comic opera will be presented by A. J. Wood's perfect operatic organization of eighty people. "Gypsy Love" is a true lyric opera, with its vocal melody intensely romantic and picturesque and full of fiery atmosphere and unusual color. The story is a melodrama only in the company are Phyllis Farrington, who will play Zorka, and Arthur Aborn, the musical comedy star, who made a tremendous hit as Joss, the gypsy singer. Aborn is to play the grand singer, and the other parts are to grand opera.

"Alias Jimmy Valentine"

At the Grand next week there will be seen for the first time in this city, Paul Armstrong's successful play, "Alias Jimmy Valentine," which in New York has run that extended to two seasons, and genuine London and Paris success. The play is a melodrama and is the type of melodrama that has its virtue in the cheap theatre. It does without comedians, in the best sense of that word, and while it offers thrills to its audience, it does not impress upon the mind a visual spectator to feel ashamed of his excitement.

"Kid Kabare" Shea's Feature

Heading the bill at Shea's next week will be Gus Edwards' "Kid Kabare," which will be a comedy of twenty clever kid comics. The special attraction on the bill is the Halie Norcross and company, who are playing "In the Suburbs" from the pen of Charles H. Taylor, and a comedy, "Twins." A feature of the bill is the Gus Edwards and daughters, who have a musical comedy and a burlesque, and in several seasons, Mr. Lawler is a clever character comedian.

"Girls of the Gay White Way"

The "Girls of the Gay White Way" has been proving itself to be the greatest burlesque show ever seen. It has a remarkably strong cast of principals, which include Jimmy Harris, Harry Hearn, Harry D. Ward, Eddie Castano, Ben Ryan, Ed Jerome, Helen N. Ely, Gertrude Delaney, Almy Fern, Harriet Hattie Raymond, Maude Heath, and thirty others. There are twenty-seven such musical comedies and burlesques arranged in the order of their production.

Brilliant Burlesque at Star.

It is claimed that "The New Century Girls," which comes to the Star next week, is a show entitled to the greatest burlesque show ever seen. There are two burlesques, "A Busy Day at the Reception," arranged and staged by the popular comedian, Ted Burns, and "The Merry Merry Merry Merry Merry," which is a comedy and burlesque presented with many richly dressed women on the stage is one of considerable interest. It is directed by the brain with amusing incidents, all of which are entirely modern, whimsical and witty; has the catchiest musical and the prettiest girls, the handsomest gowns and the most brilliant entablature.

DETECTIVE BURNS

McManical Says J. B. McNamara Proposed to Use Bomb But Scheme Was Abandoned.

INDIANAPOLIS, Nov. 22.—(Can. Press)—Explosions on non-union factories in Milwaukee, Omaha, and Springfield, Mass., were explained by J. K. McManical at the "dynamite conspiracy" trial today as having been done by him shortly before he and James B. McNamara, arriving in Detroit to "clear up" that city, were arrested with suitcases filled with dynamite.

For weeks before his arrest, he testified, he had observed he was being followed, having seen strange heads dodging around the corners of elevator shafts in the ironworks headquarters in Indianapolis.

"I told James B. before we started for Detroit that Wm. J. Burns had detectives after us, that detectives were following us near the vault where we stored the dynamite, and that one of them followed me on the street when I was going with a suitcase of dynamite to blow up the South Chicago shop," said McManical. "McNamara said if we saw any more of them we would go to Chicago and rent a room next to Burns' office, put an electric wire thru the wall and arrange to set off from our room a bomb in Burns' desk when he was sitting there. That would make an end of our troubles with him," he said. "I told him I didn't think we would do anything of the kind or ever get near Burns."

That was about April 5, 1911, McManical said. He and McNamara were arrested seven days later.

Farmer's Heavy Loss.

BROOKVILLE, Nov. 22.—(Special.)—A costly fire took place today at the farm of John Bourne, near Addicks. Thrashing operations were in progress at the time and a spark from the engine in use at the work is thought to have been the cause. The burned buildings were all large ones and included a grain barn, a cow byre, and a hay barn. They were all destroyed with the season's crops. The loss will be upwards of \$4000.

Lighting the Home

THERE is no home like the well-lighted home.

Up-to-date gas lighting means all the light you want for reading, writing, sewing, or for general illumination purposes, at little cost.

Gas lighting to-day is the cheapest and best of modern illuminants.

A single gas lamp gives nearly 100 candle-power of clear, powerful light—all you require for a large room, at a cost of only one-third of a cent per hour. Think of it—to read, write, or study all evening without fear of eye strain, nerve strain, or purse strain. The Gas Company's exhibit of fixtures have been chosen with the fact in mind that everyone should have something that will thoroughly satisfy them in both service and appearance. Beautiful chandeliers abound on every side, and it is but the matter of a few moments to select just exactly what you need. Gas fixtures and portable lamps make excellent Christmas presents. Salesroom open evenings.

Eczema Cured

Three Years Ago

Best City Doctors Failed, But Cure Was Effected by Use of Dr. Chase's Ointment.

Mrs. A. T. Smith.

You apply Dr. Chase's Ointment for eczema and feel the benefit as if by magic. It may take some days to get the sores cleaned out and the healing process fully established, but from day to day you can see the old trouble gradually disappearing, and know that you are getting rid of it.

Mrs. A. T. Smith, 1 Mt. Charles St., Montreal, Que., writes:—"I had eczema on my leg for four years, and tried many remedies and doctors in Montreal and Boston, without any benefit. I used three boxes of Dr. Chase's Ointment and was cured completely. This was three years ago. Since then I used Dr. Chase's Ointment for irritations and eruptions of the skin, and easily got rid of them with two or three applications. Dr. Chase's Ointment is a wonderful preparation."

Dr. Chase's Ointment, 50 cents a box, all dealers or Edmanson, Bates & Co., Limited, Toronto.

Enthusiasm Shown at

Toronto Conservatory

The fall term at this institution, which closed Nov. 9, witnessed exceptional zeal and activity in all departments. The attendance during the first quarter being more than 100 in excess of the same period last year. In addition to this most gratifying fact, the number of recitals and the high degree of attainment among students and teachers have also been steadily increasing.

From the present point of view, the Christmas vacation the public will be steadily in communion. The Saturday afternoon recital series, which has been a most popular one, has been announced for Nov. 23, at 4 o'clock in the evening, and the evening of Dec. 1 will be devoted to a recital by senior pupils in conjunction with Mrs. Adamson's string orchestra.

The enthusiasm and vital interest shown by all connected with the institution in its steady and comprehensive work is a matter for congratulation to the board of governors and the staff.

A letter recently received from Dr. A. S. Vogt, now abroad, and printed in the Conservatory magazine, is a well-deserved compliment is paid to Canadian musical institutions, among which the Toronto Conservatory holds an honored place. Dr. Vogt will re-visit Toronto in April and resume his teaching at the Conservatory. Other recitals will be announced later on. The president and governors will be at home to the members of the faculty on Dec. 14 in the afternoon.

Special Service at St. Augustine's.

A special musical service will be given at St. Augustine's Church on Sunday evening. The choral numbers will include "Ave Maria," "Nunc Dimittis"; Sullivan's anthem, "Who is Like Thee?"; Dr. Vogt's "Crossing the Bar"; and "Souls of the Righteous," by Gerard Barton. In addition to some orchestral numbers there will be solo contributions by A. E. Semple, L.R.A.M.; Miss Irene LeBrun, violin, and F. S. Watson, 'cello.

Special Train From Toronto for Sailing.

A special train will be sent from Toronto for Sailing to St. Augustine's from Portland, Maine, Dec. 12.

In connection with Christmas sailing of Allan Line steamship Scandinavia from Portland, Me., to Glasgow, on Thursday, Dec. 13, a special Grand Trunk train, consisting of vestibuled coaches and Pullman tourist sleeping cars, will leave Toronto at 1:30 p.m., Wednesday, Dec. 11, and will run direct to the dock at Portland, arriving there at 8:15 a.m., Dec. 13.

Strong People Are Full of Electricity

Weak People Are Lacking in Electricity

Doctors all over the world are now talking Electricity, and are using it in one form or another. This is the direct outcome of the announcements of the world's scientists, and is a practical admission on the part of physicians of the power of electricity over drugs as a curative agent.

I have known for twenty years that drugs could not restore strength. My knowledge was obtained from actual contact with thousands of people who have tried drugs in every form and they were worse off than before they started drugging.

Are you a weak man? Are your nerves fretful and gloomy? Is your sleep broken? Have you pains and aches in different parts of your body? Is your back weak and painful? Have you lost the vigor of youth? Are you rheumatic and gouty? Have you varicose veins? These are the vital force. The gentle stream of electricity from Dr. McLaughlin's Electric Belt goes into the weak nerves for hours every night, so you get new strength and makes every nerve and muscle perfect. It cures permanently in every case.

Give me a man (or woman, for that matter) who has been sick and suffering for years, and taken medicine until the system is all run down and debilitated, the stomach unable to digest the food, and the nerves shattered. My Electric Belt will give new life to every organ, drive out disease, and restore health.

Now, take a letter like this one, that Mr. A. G. ROFFEY, Washburn, Ont., writes me. This man, I venture to say, would rather part with \$1,000 than forfeit the good he has received from the use of my Belt. These are his words:—

"Dear Sir,—Your Belt has been a boon to me. The rheumatism in the shoulder has gone. I must say that I feel life is now worth living for. The most undesirable thing is the blood; it seems to be of a better quality, and every morning at 6 o'clock I don't feel cold at all. I think your Belt will do all you claim it will and then some more."

Thousands of men have written me in a similar way, which proves that electricity is life. Take the case of Mr. W. J. HONEYFORD, Collingwood, Ont., who says:—

"Dear Sir,—I have found your Belt to be a great help to me, and since using it I have regained my usual weight and can sleep well. I feel that I have had my money's worth; in fact, I can say that your Belt is all you say it is. If there are any men here who want to talk to a user of your Belt, will restore your vigor. It will check all loss of vitality and strengthen every organ of the body. It cures Nervous Debility, Varicose Veins, Rheumatism, Lame Back, Lumbago, Sciatica, any case of Kidney Disease that has not gone as far as Bright's Disease, Stomach Trouble, You Need This—It's Free"

You ought to read my free 80-page illustrated book regarding the cure of disease without drugs. This book contains many secrets you should know. It tells all about my Belt, its cost of treatment; it is absolutely free. If you'll bring or mail this coupon, cut out the coupon now.

DR. M. J. McLAUGHLIN, 777 Yonge Street, Toronto, Can.

Dear Sir,—Please forward me one of your Books, as advertised.

GIBSON'S MOTHER SAYS BLOOD CAME FROM WOUND ON BOY

Willie Gibson Was Hurt in an Accident and Man Now on Trial for Murder Got Blood on His Clothing While Dressing the Wound—Case Goes to Jury This Afternoon.

With the calling of Mrs. Julia Gibson, stepmother of Charles Gibson, who is facing a murder charge in the criminal session, and Gibson's little brother, Willie, the defence closed its case yesterday. The remainder of the session was taken up with rebuttal evidence and the case will go to the jury today.

Mrs. Gibson corroborated her stepson's evidence in so far as Willie had met with an accident on Good Friday, and that Charles Gibson, in attending to his injuries, had got his trousers and clothing smeared with blood. Mrs. Gibson declared that the rope found at the house was not given to her by Mrs. Britt, but was Mrs. Gibson's

daughter's skipping rope before it was used to hang carpets on. She had never seen the rope that was found around Rosenzthal's neck.

Asked by Aubrey Bond, counsel for the defence, if she noticed blood on Gibson's trousers the night of the murder, she replied in the negative. She explained the mud on the inside of Gibson's overcoat by the statement that it was lying on the back of the chair the day Willie was hurt and in pushing back the chair while attending to the boy, she had smeared some blood on it.

Might Be Rust.
 To Crown Attorney Thurston Mrs. Gibson said that on Saturday morning

she went up to Charlie's room to gather the laundry, and on one of Gibson's shirts there was a slight mark. She declared she thought the mark might be rust.

Twelve-year-old Willie Gibson related his accident on Good Friday, and how the blood ran on Charlie's trousers, while he was attending to him. He declared Charlie was the only one to touch his head, and his evidence differed somewhat from that of his mother as to which of the chairs held the coat.

When Mr. Bond called to the stand Mrs. Mary Morane of Parliament street who, he said, had related to him a curious story in the morning. Chief Justice Mulock refused to allow her evidence.

TO USE NEW GARAGE FOR BRITISH MAELS

Christmas Parcels Will Be Handled More Expeditiously in New Premises.

The big garage built for the Imperial Motor Co. and sold by them to the Dominion Government for \$80,000, will be used to handle the British parcel Christmas mail, which promises to exceed in tonnage even the anticipation of the postoffice experts.

Postmaster Rogers, Assistant Postmaster W. Damon, A. O. Hastings, superintendent of the public works department, and Superintendent Wright of the general postoffice, were at the building yesterday for the purpose of demonstrating how the mail could be brought in and unloaded. The first floor of the three storey building will be used for handling the heavy incoming British mails from today, and also the heavy outgoing Christmas mail. The six royal mail cars are to be stored on the ground floor, and another part of the building is to be used as a storeroom for postoffice supplies. A repair shop is on the top floor.

Toronto Water Rates.
 Water takers are reminded to pay their water rates early, secure the discount and avoid crowding. Water rates may be paid at branch banks throughout the city until Nov. 30. After that date payment must be made at the city hall. To secure full discount payment must be made not later than Nov. 30.

FEARED HE HAD CONSUMPTION

"Fruit-a-tives" Cured Him.

HUGH MCKENNA, Esq.
 St. STEPHEN, N. B., Jan. 17th, 1911.
 "I wish to tell you of the great good 'Fruit-a-tives' have done for me. For years I was a martyr to Chronic Constipation and Stomach Trouble. I was greatly run down and my friends feared I had Consumption. I tried numerous doctors and all kinds of medicine, but received no relief until advised to try 'Fruit-a-tives' by Mr. McCready of St. Stephen, and I am pleased to say that I now enjoy excellent health. 'Fruit-a-tives' are the best medicine made, and I strongly advise my friends to use them."
 HUGH MCKENNA.
 "Fruit-a-tives" is the only medicine that will positively and completely cure Constipation. This wonderful compound of fruit juices acts directly on the liver, causing this organ to extract more bile from the blood, and to give up more to move the bowels regularly and naturally.

FUND FOR ACCUSED UNION OFFICIALS

Federation of Labor Rallies to Defence of Alleged Dynamiters.

ROCHESTER, N. Y., Nov. 22.—(Can. Press.)—The American Federation of Labor decided today to ask the unions affiliated with it to raise money for the defence of the alleged dynamiters who are on trial in Indianapolis.

The resolution adopted by the convention was that delegates to the convention on their return advise their international unions and local bodies to provide financial assistance for the trade unionists on trial in Indianapolis to aid them in securing a fair trial and in opposing the cases should a fair trial be denied them.

The resolution also urged that the men on trial should not be convicted in advance or the decision in their cases be influenced by the alleged fact that certain corporations and a private detective agency are clamoring for a conviction.

Union's Charter Revoked.
 It was decided by a vote of 15,741 to 1222 to revoke the charter of the International Association of Steam and Hot Water Fitters and Helpers, delegates from which were denied seats in the convention last week.

The convention also refused to take any action in the dispute between factions of the International Brotherhood of Electrical Workers and reaffirmed its decision that only the faction affiliated with the convention is legal.

Resolutions adopted in the afternoon favored the initiative, referendum and recall, including the recall of judges, popular election of U. S. senators, workmen's compensation, with the retention of employers' liability, old age pensions and their repeal or amendment of the Sherman anti-trust law, to prevent the prosecution of labor unions under its provisions.

STOPS TOBACCO HABIT IN ONE DAY.

Sanitarium Publishes Free Book Showing How Tobacco Habit Can Be Banished in From One to Five Days At Home.

The Elders Sanitarium, located at 863 Yonge st., Toronto, Canada, has published a free book showing the deadly effects of the tobacco habit, and how it can be banished in from one to five days at home.

Men who have used tobacco for more than fifty years have tried this method and say it is entirely successful, and in addition to banishing the desire for tobacco has improved their health wonderfully. This method banishes the desire for tobacco, no matter whether it is smoking, chewing, cigars or snuff dipping.

As this book is being distributed free, anyone wanting a copy should send their name and address at once.

This man thought Hydro rates too low

EVERY day we find someone with a new "angle" toward Hydro.

This man claimed that the Hydro rates were too low—"ridiculous"—he said.

He felt they were in the nature of unfair competition, and at first refused to use Hydro because he didn't approve of that "kind of business."

Frankly, we would have commended his attitude if his facts were right. Instead, we warned him that

Hydro will be lower yet

Get in Line
 Get a Neighbor in Line
 Get a Long Line of Neighbors in Line for HYDRO

In August, 1912, our income was in excess of expenditure; in September still larger, and in October it became clear that before long we will have to reduce rates or declare a cash dividend to the owners of T.H.E. System—which means you and the other citizens of Toronto.

We asked this gentleman, "If a new utility—a little over a year in operation—can cut rates 50 per cent, and make money on the 3c rate. Is that rate "ridiculous" or "unfair"? Of course he had to say no.

And he saw the point, and also his proper course—and we got a new Hydro user.

If this or some other reason has kept you from joining hands with your neighbors in this cheap power policy, won't you give us a chance to "show YOU"? Phone now, Adelaide 2124, or get in touch by letter.

BIG HOTEL ON SITE UNBOUGHT

Owners of Land on Which Is to Be Erected Three Million Hostelry Know Nothing About It.

In its anxiety to quote three columns from Robertson's Landmarks. The Telegram has exclusively announced the erection of a twelve storey, three million dollar hotel—this being the popular size just now for hotels—on the east side of Bay street, between Queen and Richmond streets. The "new hotel" will be opposite the city hall and adjoin The World office after the properties have been bought.

One gentleman, in whose name some of the property stands, denies all knowledge of the hotel proposition. J. H. Spence, chief owner in the property at th Bay and Queen corner, says that, while many offers have been made him, none has ever been set down on paper. The manager of the Gerhard Heintzman Company, whose property is part of the "site," declares they haven't sold. The same wit hotter owners.

It has been suggested that the story was run to make light of the prices obtaining in the vicinity of the "new hotel." The cost of the site, which includes 210 feet on Bay street, 141 feet on Richmond street and 142 feet on Queen street, is given at \$630,000, which it would cost about twice this to acquire the properties involved.

For some months a proposition to build a hotel on the Richmond-Bay corner has been in the air, but it has so far as the principals known, never got beyond the good idea stage. It is nevertheless a good site for a hotel.

Greenwood and Gerrard Section Values Climbing

Tanner & Gates have sold the north-east corner of Gerrard street and Greenwood avenue to a local man for about \$240 a foot. The vendors were a syndicate, headed by Duncan Ross, an dthe size of the plot is 150 feet on Gerrard and 120 feet, on Greenwood. The price shows the values prevailing in that district at the present moment. No doubt the announcement of the harbor plans has given a great impetus to the Gerrard district, aided by the near operation of the civic car line. The Greenwood corner will be a transfer point of some magnitude, and in a few years the district will develop into a very busy retail section.

Americans Have Two Millions to Build Houses

W. N. McEchren and Norman C. McEchren will attend the convention of the National Housing Association in Philadelphia on Dec. 4, 5 and 6, and at the same time continue negotiations with a big New York building syndicate that has \$2,000,000 to place in a Toronto house building proposition. They want land on which to erect small houses that sell from \$2000, and they first communicated with McEchrens regarding east end property.

PRESIDENT-ELECT ANGRY

Wilson Threatens to Thrash an Obnoxious Camera Man.

HAMILTON, Bermuda, Nov. 22.—(Can. Press.)—President-elect Woodrow Wilson today had a lively dispute with an American photographer which almost led to an exchange of blows. The photographer took a snapshot of Mr. Wilson in spite of his prohibition. Mr. Wilson thereupon angrily exclaimed: "You are no gentleman. If you want a good thrashing keep that up. I can take care of myself in these things. I came here especially to avoid photographers."

Mr. Wilson expressed the greater part of today in making cycling excursions in the vicinity of his residence.

ALL EYES ON NIGHT HAWK

Large Ore Bodies Are Being Opened and Engineers Believe District Will Make a Name For Itself.

PORCUPINE, Nov. 22.—That the Night Hawk Lake section of the Porcupine camp is to be one of its big features is the opinion prevailing among a certain class of mining men in the camp. And there is every indication to lead an outsider to believe the same thing.

A large number of engineers have been in the section and have made examinations of properties. Prospectors are doing a large amount of work and are uncovering good ore bodies and altogether there is more activity in that section than in any other part of Porcupine, outside of the working mines. The ore bodies being opened are large, and while many of them show no visible gold nearly all pan colors and the quartz is very likely looking. That this section, staked before Porcupine was discovered, and then, in many instances abandoned, should turn out to be an important part of the country seems almost ironical, but if the Dome's run of the ton samples taken on the Night Hawk Lake Mining Company's property run well, this section will be counted as important as the Tisdale part of the camp.

LARGE DECREASE IN TOTAL LIVE STOCK

The Figures Show 178 Cars Less Than For Same Week a Year Ago.

A BRISK WEEK'S TRADE City Decreases 297 Cars - Union Increases 119 Cars, Compared With Same Week of 1911.

The total receipts of live stock at the City and Union Yards for the past week were as follows:

Cars, Cattle, Hogs, Sheep, Calves, Horses

The combined receipts of live stock at the City and Union Yards for the past week show an increase of 178 cars, 253 cattle, 471 hogs, 137 sheep and lambs and 19 calves, but a decrease of 297 cars, compared with the same week of 1911.

At the Union Yards, the above figures show an increase of 19 cars, 253 cattle, 471 hogs, 137 sheep and lambs, 40 calves, but a decrease of 100 horses, compared with the same week of 1911.

Union Stock Yards. Receipts at the Union Yards for Friday were 17 cars-74 cattle, 42 hogs, 43 sheep, 10 calves and a shipment of 97 manure, which are in transit to South Africa.

WHEAT MARKET DEVELOPE INTO FEATURELESS AFFAIR

Chicago Pit Showed None of the Vivacity Which Marked Its Action Recently--Values Wound Up at Small Decline For the Day.

CHICAGO, Nov. 22.—Argentine and domestic conditions proved more influential than war news today in wheat. As a result, the market, although steady at the close, finished 1/8 to 3/8 off.

Notwithstanding that fear of alarming developments in the Turkish war kept wheat bears in check, prices felt the effect of beneficial rain over South Argentina, with a return of fine weather for the harvest north.

Concocted action by commission houses in advising customers to steer clear of selling any further breaks took off some of the pressure at noon.

Fine weather, enlarging the receipts and improving the grade of corn, made this a steady day. Moderate buying by foreigners acted as an offset. Cash grades were weak.

Revival of Interest in Camp Discovered Several Years Ago—Engineers Examine Claims.

'COBALT, Nov. 22.—There is a considerable amount of activity in the Painkiller section just at present, and there is a possibility that before many months this section, discovered some time ago, but having experienced a prosaic career, may make some contribution to the new mining camps of the north.

It is reported that J. B. and Ed. Phillips, two of the best known engineers in the world, have begun their section looking over properties and making examinations. Among the properties visited is that owned by Frank Maikiller.

COBALT POT IS BOILING OVER MINING STOCKS IN DEMAND

Public Interest Broadens Considerably and Advances Follow as Matter of Course—Porcupines Score Small Gains.

Cobalt mining stocks have come in for a great deal of favor on the part of the public lately, and from all indications the market is in a stronger position in respect to these stocks than it has been for some time.

Another important factor which is exerting a decided influence on the market is the higher price now ruling for bar silver. The situation for the products of the Cobalt mines is a couple of cents an ounce above what it was a year ago, and this, of course, has a decided influence on the production companies.

Speculation yesterday was more active than in some time, a round half dozen of the listed silver mining stocks for active buying, and improving their position to a considerable extent.

At the close, the stock was a trifle below that. At the same time, the Cobalt stock rose 1 1/2 points to 25 1/2, and City of Cobalt got up to 28, a net advance of 2 Nipissing was remarkably steady, selling up to 24.
