COMMISSIONERS AND POLICE CONFERENCE ON UNION CHARTER

No Satisfactory Decision Arrived at by Parties Concerned. MASS MEETING CALLED Grievances Will Only Be Gone Into if Charter Dropped.

Once again the police union will take a vote on whether or not they will surrender their trades union charter, and give in to the board of police commissioners, or fight their case thru until the royal commission reaches its decision.

Hard to Predict. It is hard to predict what the men will decide to do. If they accept the commissioners' offer, they surrender their charter for one year, and if they are not satisfied with the treatment they are receiving from the commissioners, they could take up the charter again.

JURY DISCLOSES HUNTER'S MURDER Finds That F. Hartwick, Parham, Not Accidentally Shot as First Reported.

Kingston, Ont., Feb. 17.—A sensation has been caused at the village of Parham over the finding of the coroner's jury summoned to enquire into the death of Frederick Hartwick who was found dead there on Feb. 12, and who it was believed had been killed by the accidental discharge of his rifle while he was out on a shooting trip.

Form Search Party. The father came home that night but next morning the wife of the younger Mr. Hartwick reported that her husband was missing. A search party was organized and the dead body of the missing young man was found, so it is reported, within a hundred yards of his father's barn.

FRANCE'S DEFICIT IS A LARGE ONE

Shortage of Twenty-Four Billion Francs Causing Anxiety to Committees.

Paris, Feb. 17.—The financial situation of France is being given serious attention by various committees and groups of the cabinet of deputies where it will be the subject of an interpellation at an early date. France's war expenses are expected to reach a total of 122,000,000,000 francs with resources to meet it of 118,000,000,000 francs, showing a deficit of 4,000,000,000 francs.

It is reckoned that the expenses for 1920 will be 18,500,000,000 francs, of which the existing budget can supply only 8,000,000,000 francs. The question is therefore being discussed in French quarters whether, apart from Germany's war contribution a new division of war expenses ought to be considered between the allies in order to distribute more equitably the burden, which it is contended, weighs more heavily on France than on the others.

In addition to the deficit there are exceptional expenses, such as compensation to civilians for war damage, which is placed in moderate estimates at 10,000,000 francs; the cost of exchanging the German mark

currency of Alsace-Lorraine, 2,500,000 francs; the repayment of bonds issued in liberated regions, 1,500,000,000 francs; demobilization bonuses, estimated at between 2,000,000,000 and 6,000,000,000 francs, together with other exceptional expenses which will bring the estimated total to 26,000,000,000 francs and make the total 30,000,000,000 francs.

MANY AGREEMENTS TO BE DISCLOSED

London, Feb. 17.—A Reuter despatch from Peking announcing that the Chinese government has instructed the Chinese delegation in Paris to disclose secret agreements with Japan, says that these agreements are the twenty-one demands of 1915, the Sino-Japanese military convention, the Kirin forestry and mining agreement and the Kaohsiung railway loan agreement.

"The Chinese-Japanese incident," the correspondent adds, "has greatly assisted the local peace efforts and is disclosing an unanimity of Chinese national sentiment hitherto veiled."

Elections in German-Austria Favorable to Social-Democrats

London, Feb. 17.—The elections Sunday in German-Austria were favorable to the Social-Democrats, according to an Exchange Telegraph despatch from Vienna. The elections were held without disorder.

The Social-Democrats, the despatch adds, elected all their leaders in Vienna. Most of the other cities gave a large Socialist vote, including Innsbruck and other strongholds of the Clericals. The Tyrol was carried by the Social-Democrats, while the other Agrarian districts remained Christian Socialist.

The result of the elections probably will be the formation of a coalition government, no party having secured an absolute majority.

GERMANY DISREGARDS QUESTION OF GUILT

Count Von Rantzau's Speech Indicates Ill-Advised Temper of the Germans.

London, Feb. 17.—"The world is far from assured that the germs of the plague of militarism have yet been killed in the Teutonic soul," says The Times today in commenting editorially on the recent speech of Count von Brockdorff-Rantzau, the German foreign minister, to the national assembly at Weimar.

"The speech of the new foreign minister," it adds, "is the latest example of the ill-advised temper in which the Germans regard or attempt to regard the position in which they stand. He does not, indeed, pretend that the German arms have won the war. He attributes the allied victory to their economic and not to their military conduct of the war. All thru his speech he assumes the position which calmly proclaimed in his first address: 'The question of guilt seems to be almost trifling.'"

"That, as Germany should have learned long ago, were she not blinded by her great conceit, is not the view of any of the allied democracies. They hold that Germany is deeply guilty and that the fact of her guilt influences and as a matter both of justice and of

international security, ought profoundly to influence their future relations with her."

Montreal Artist is Winner Of Savings Cartoon Contest

Ottawa, Feb. 17.—The national war savings committee announces that C. P. Sauvart, of Montreal, has been awarded the prize of \$50 in the war savings cartoon contest. The cartoons submitted by B. Batsford, Winnipeg; R. Laplante, Montreal; D. Wiener, Montreal; and Alex. Vesile, Ottawa, received special mention. J. S. Crate and T. D. Finn, managing editors of The Ottawa Journal and Citizen, respectively, were the judges in the contest. The contest was open to all artists in Canada.

Federated Women's Institute Asks Equal Parental Rights

Winnipeg, Feb. 17.—A uniform divorce law for all the provinces, equal parental rights, a clean bill of health before marriage and equal pay for equal work for women were the outstanding features approved in resolutions passed unanimously by the new Dominion organization, the Federated Women's Institutes of Canada, at the Saturday afternoon conference.

REAL REVOLUTION IS YET TO COME

Independent Socialist Causes Outburst in Assembly by Statement.

Weimar, Feb. 17.—The German revolution last November was an artificial one, and a "real revolution" is still to come, Hugo Haase, independent Socialist leader, declared in the German national assembly. The form of the revolution to come, he declared, would depend on the acts of the present government. He attacked the government, and aroused outbreaks from other members by his vituperative argument. Uproars were constant thruout his speech, which was chiefly a repetition of old independent Socialist charges against the government. Haase assailed the program of Count Von Brockdorff-Rantzau, the foreign minister, and declared that it lacked the slightest element of Socialism. He insisted categorically that the former Emperor had decided on war nearly a month before the outbreak.

COUNT RANTZAU RESIGNED?

Berlin, Feb. 17.—Count von Brockdorff-Rantzau, the German foreign minister, has resigned, according to a Weimar despatch to The Vossische Zeitung of Berlin. There is no confirmation from other sources.

BIG ADVANCES BY FORESTERS

Remarkable Growth of Order in Evidence at a Notable Function.

OFFICES ARE DEDICATED Presentation of Golden Key Made to Organizer G. A. Mitchell.

Last evening the Temple Building was the scene of a brilliant entertainment, at which elegant and spacious offices were dedicated to the use of the city and Ontario organizations.

Growth and development have been the watchword of the Independent Order of Foresters, and from their annual showing they have realized to a splendid degree the enjoyment that the realization of their aims gives, and the splendid reception tendered in the new offices of the organizing department was another mark in the history of its progress.

That as far as Judge Winchester is concerned, he first heard that Ellis was given his discharge because his manner of giving evidence when he was examined on October 2 and 4, regarding the August riots, was hesitating and therefore considered unsatisfactory.

That in Judge Winchester's opinion, Ellis was given his discharge instead of being dismissed to show that he was not "discharged for any cause."

That it is a cardinal rule in the book of police rules that "police are to give evidence with great accuracy, and that if they give improper or unsatisfactory evidence and any judge or magistrate complains, the matter will be dealt with by the chief of police and may result in dismissal."

That the chief of police, who, in his opening remarks, paid an eloquent tribute to Mr. Geo. A. Mitchell, assistant supreme chief ranger, as one of the most successful men in organization work, as month after month showed large additions to the membership under his masterful leadership.

One of the pleasant features of the evening was the address of Hon. W. D. McPherson, provincial secretary, who was the first chief ranger of Court Home Office, Toronto.

ELLIS DISCHARGED WITHOUT A CAUSE

Royal Commission Devote Entire Day to Ex-Constable's Case.

HESITATING EVIDENCE Four Years Without Mark Gained Discharge Endorsement "Fair."

Sifting the real substance from the few hours cross-examination and judicial play at the police enquiry yesterday, the following facts stand out clearly.

That a man might be quite honest and truthful, but if inclined to hesitate in giving evidence, he would be an unsatisfactory witness from a police court point of view.

That Gordon Ellis was requested to give evidence, he would be an unsatisfactory witness from a police court point of view.

That the chief of police, who, in his opening remarks, paid an eloquent tribute to Mr. Geo. A. Mitchell, assistant supreme chief ranger, as one of the most successful men in organization work, as month after month showed large additions to the membership under his masterful leadership.

CHARGE OF THEFT AGAINST ELLIS

Small Boy Says Ex-Constable Stole Box of Cigars.

Former Constable Gordon Ellis, whose reinstatement on the Toronto police department is being decided by the royal commission, has been summoned to appear in police court this morning on a charge of theft. Ellis is charged with theft of a box of cigars from a man named William Davenport, living at 139 Curzon st. The trial of the case, will have great bearing on Ellis' case against the police commissioners. Ellis, according to the police, was wrongfully dismissed from the force by the commissioners, over the way in which he testified at the August riots investigation. In the event of Ellis being found guilty of the charge in police court, it would end his argument with the royal commission, as it distinctly states in the police constitution that any man proven guilty of committing an offence, will be instantly dismissed.

The Best Food Is Also the Cheapest Food

FOOD costs are high. Meat, eggs, fish, chicken today cost more than they ever cost before. And they are costly to prepare--in fuel, time and labor.

Wise housewives, knowing this, are today using more milk. Milk is solving the food problem for them.

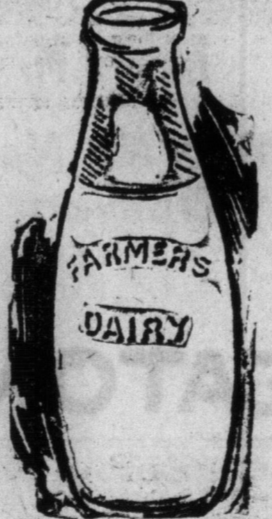

In milk you get Nature's finest food--rich in protein, carbohydrates and fats--ideal balanced body-building nourishment.

You get food that is not only richer in health-giving units, but food that is light--does not over-tax the stomach--is easily digested. You get food that suits growing children--keeps them healthy--makes for rosy cheeks and clear, bright complexions.

And milk is not only the best food, but the cheapest food also. It cost less to buy. It is easy to get--no trouble of shopping. It requires no preparation.

Use more and still more of the rich, fresh creamy milk that comes from The Farmers' Dairy. No one--child or adult--ever had too much milk. Why try to make a pint do the duty of a quart?

Begin today--now. Phone Hillcrest 4400 and double your regular milk supply. Especially for the children's sake.

POLICEMAN'S WIFE SUES FOR ALIMONY

Mrs. Carmichael Says Husband Ill-Treated Her and Refused Provision.

Claiming that the treatment she had received at her home, was calculated to annoy her and break her spirit, Mrs. Esther Carmichael, wife of Policeman William Carmichael, is suing him before Justice Ross, in the non-jury assizes, for unstated alimony.

The plaintiff in her evidence yesterday, told of having married the defendant in July, 1918, and came with him to the house at 143 Langley ave., which was owned by him. The house she alleged was very dirty, and as a result of her efforts to clean it, her feet became swollen, so much so that she needed medical attention.

Her husband, however, refused to provide this for her, telling her at the same time that she could go to the hospital. Then the defendant's brother, George, came to live with them, at the rate of \$4.50 per week, and she was required to do the brother's washing and mending. The next month, defendant's sister, Anna, came also to live with them, and when she secured a position at Eaton's, she was not allowed to run her home.

Mr. Gunn: But before the board made its report was there no inquiry made? Fair conduct might include three-fourths of the force, if Ellis had to resign on account of half a dozen words of unsatisfactory evidence.

The Toronto World

FOUNDED 1890. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

The Passing of Sir Wilfrid

Sir Wilfrid Laurier has passed beyond the sound of earthly voices, and neither praise nor blame can disturb his rest.

Lights on Vehicles

In spite of the heavy traffic over Toronto streets both by night and day, this city is one of the few that still permits vehicles other than automobiles to travel after dark without lights.

Proportional Representation

The London Times of January 3 had an interesting article on proportional representation as an election corrective, as judged by the results of the recent general election.

Labor Candidates and Their Support

When the Telegram begins to belittle the straight labor candidate at St. Catharines by regretting that the government had not nominated a soldier candidate who had been to France, we have an excellent example of the Telegram attitude towards labor in general.

Trotsky Applies for His Old Job

Leon Trotsky, chief Red of Russia, has grown tired of being shot at and having to fight every day with Lenin as a writer on The New Appeal, a weekly newspaper published in Gibraltar, Kan., where he formerly was employed.

imbecility for properly censored and copyrighted sentiments must expect nothing but doom.

Once the community is aware of the conditions upon which it is following the sanest, most practical and wisest of the British advanced statesmen, thereby loyal to the state and thereby devoted to the interests of the people.

GERMANY CAUSED RUSSIAN OUTBREAK

Returned American Tells of the Means Taken to Bring on Bolshevism. MASSACRES FEARED Says if Allied Forces Are Withdrawn They Will Be Unprecedented.

Washington, Feb. 17.—Roger E. Simmons, who recently returned from a mission to Russia for the bureau of commerce, today told the senate committee investigating lawless conditions in this country that if the American and allied forces were withdrawn from northern Russia, the Bolsheviks would engage in one of the bloodiest massacres the world had ever seen. The witness said he was surprised at the demands being made for the withdrawal of the American forces and told the committee that every time the American and allied soldiers had found it necessary to give ground in northern Russia the Bolsheviks had swept in and inaugurated an orgy of murder of peaceful citizens. He said that before leaving Archangel last Nov. 3 he had found that the American troops were well supplied. All the Russians in the northern district were sympathetic with the allied forces, he said, and were praying that they would not be removed.

Evidence which he said showed that Germany was responsible for the outbreak of Bolshevism in Russia, was presented to the commons by Mr. Simmons. It included a sworn statement of a Russian, that just before the czar's government was overthrown, he was sent by the German imperial chancellor to Switzerland to determine which of the Russian Socialist schools there was the most radical, and to offer the leader 5,000,000 marks if he would send his men to Russia to spread their propaganda. After visiting Switzerland, the Russian reported that the school headed by Lenin was the most radical, but he recommended that the services of Lenin be not engaged as the result, if successful, would mean a terrible catastrophe for Russia. The evidence, Mr. Simmons said, coupled with the facts that Lenin passed thru Germany on his way from Switzerland to Russia; that members of the Red Guard were given iron crosses and that German soldiers and officers were used to put down an anti-Bolshevik mutiny, proved beyond doubt where the responsibility lay for the reign of terror in Russia.

The witness read to the committee the text of a number of decrees through which the Bolsheviks secured the nationalization of women. "These need no comment," he said. "This is the thing that is being fostered and upheld by the propaganda now being circulated in the United States in an effort to justify Bolshevism. The creed of the Bolshevik does not respect, and in fact discourages, and in some cases even prohibits, women from being virtuous. It is the same with religion. The Bolshevik favor no religion of any sort."

DEPTH CHARGES AID TO CHASING

Torpedoes Timed for Explosion at Desired Depth Helped Trawlers.

Depth charges, in the opinion of many officers engaged in submarine chasing, were the chief factor in checking the German submarine campaign in the waters off the coast of Newfoundland and Labrador. It was reported that the depth charges were used in an effort to strike submarines and used other equally dangerous and futile devices. But the perfected depth charges, it was said, that they could be timed for explosion at any desired depth, solved the problem of the small chasers which were fighting the submarine. Trawlers with sufficient speed could drop these charges and get out of the danger zone. The mortality among submarine chasers immediately dropped and the seas became very unsafe for the smaller, unarmored craft. One of the novel devices adopted by the British for the coordination of the efforts of trawlers and submarines has just been unveiled. A trawler would drag a submarine by a cable and maintain communication with it by telephone. When the trawler sighted a submarine, the British submarine would slip its cable and attack the German boat before the surprised Germans could submerge or prepare to give fight.

CITY ITEMS

Those interested in mothers' pensions will have an opportunity to express their opinions at a meeting to be held in the reception room of the parliament buildings on Wednesday morning at ten o'clock. Dr. W. A. Riddell of the trades and labor department of the Ontario government will preside. A largely attended meeting was held at Newman Hall last night when Mrs. E. J. O'Neill gave an address on "Development of the Novel of the Twentieth Century," and a program of music and readings was given by Miss Gladys St. Leger Smith, Mrs. J. G. O'Donoghue and Miss Bessie Haffey. Mr. William Frenzenberger, president of the collection was taken up in aid of the parish work of St. Basil's. "Unity Program for Canadian Women" has been issued by the women's department in reconstruction and a copy may be secured by applying to the women's department Canadian reconstruction association, Royal Bank building, Toronto. The members of the committee represent many activities and interests and are competent to deal with regard to the welfare of returned soldiers and their families and with many questions of paramount importance to the nation. Miss Marjory MacMurchy is chairman.

LARGE HAUL OF OPIUM FROM DOWNTOWN HOTEL

The police last night seized \$3,700 worth of opium, which, they allege, was smuggled over into Canada from the United States by Chinese. Last night Plainclothesmen Sullivan and Marshall entered a room of a Chinaman at a downtown hotel and on searching it they found two suitcases and coats made with inside pockets in them. The waist line of the overalls was so made that there were a number of small pockets on the inside of them all around the garment. In these pockets 37 packets containing opium were concealed. The hotel register showed that a Chinaman had registered for the room under the name of Hamilton. Sullivan and Marshall visited the hotel several times last night waiting for the man to return but he failed to put in an appearance. Sullivan and Marshall removed the seized goods to Court street station and later arrested two Chinamen on suspicion. The police were satisfied with the stories told by both Chinamen and allowed them to go. It is the belief of the police that two Chinamen were the working clothing coming across the border to Canada from the United States. They placed the opium in the immigration authorities might search them.

WILL COMMEMORATE DEEDS IN BATTLE

Imperial War Commission is Considering Memorials to Various Army Divisions.

London, Feb. 17.—In a statement on the work of the imperial war commission by Rudyard Kipling, announcement is made that memorials to commemorate the part borne by various army divisions or regiments in the campaigns and battles, as, for instance, by the Canadians at Ypres, the South Africans in the Deville wood, the Australians at Amiens, and the British at the breaking of the Hindenburg line, will be considered by representatives of the military committee.

It has been recommended that in each cemetery there should be erected a "cross of sacrifice," and an altar of stone, in remembrance of the dead, and that the headstones of graves should be of uniform shape and size. On these would be chiseled the name of the dead and his regiment, and also a cross or other religious symbol of the dead man's faith. It has also been recommended that a Mohammedan and Hindu temple should be erected in a prominent position of the sacrifice made by the Mohammedans and the Hindus in the war.

Queen Mary to Accept Today American Flag From Canada

London, Feb. 17.—Queen Mary, at Buckingham Palace tomorrow, will accept a large American flag presented by American-born women in Winnipeg, to the five Canadian Battalions which arrived here in 1915, which consisted entirely of American-born men living in western Canada. This flag, together with the colors of the five battalions, has until now rested in St. Paul's Cathedral and will now remain at Buckingham Palace. It is proposed to place one set of the battalions' colors of this larger legion, respectively in Brussels, Paris, some American city, some Canadian city, and also at Stratgave Manor, England, the ancestral home of the Washington family.

GERMAN DELEGATES ACCEPT TERMS

Supreme Council Meets, But None of Pending Plans Offer Much Prospect of Solution.

Paris, Feb. 17.—The council of the great powers today gave a further hearing on the Russian question, but no decision was reached. The feeling seems to be general that no decision is in sight and that none of the pending plans offer much of a prospect for arriving at a satisfactory solution. Winston Spencer Churchill of Great Britain has proposed that the invitation to the Prinkipo conference be renewed and that some of the conditions that made the first invitation unacceptable to most of the different Russian factions be omitted. If the supreme council accepts this proposal it probably will not insist that the conference be held at Prinkipo Island. It is possible that, instead of a general meeting of the representatives of Russian factions, direct negotiations may be initiated, or commissions will be appointed to get into touch with the opposing elements there.

The present terms yet, it is expected that the disarmament under later and more complete terms will obviate the necessity of a further blockade, and permit such economic and food relief as is determined upon. Two notes were handed to Marshal Foch by Matthias Erzberger when the armistice was signed. One note concerned the employment of the German mercantile marine for various purposes, while the other was longer and contained several requests, including the release of German prisoners and the maintenance of economic intercourse between Germany and occupied German territory.

BOUNDARIES ARE DEFINED

Germany Must Abandon All Offensive Manoeuvres Against Poles. Treves, Feb. 17.—Under the new terms for the renewal of the armistice, as presented to the Germans by Marshal Foch, Germany must abandon all offensive movements against the Poles, and also must prohibit her troops from crossing the Russian frontier at a certain line. The line of demarcation between Germany and Poland is outlined as follows: East of Grosser Neudorf (southeast of Bromberg) south of Labischeln, (south of Schodziszen) north of Exin (southwest of Bromberg), south of San (?), north of Czarbin (east of Kreuz) west of Birnbaum and Bentschen (west of Posen), Wollstein, Lissa and north of Wisnieszow and thence along the frontier between Silesia and Poland (this line of demarcation gives to Poland a considerable part of the German government of Posen). It was provided by the allied terms that the armistice must be renewed for an indefinite period, with a fixed delay of three days for the denunciation of it. The old terms of the armistice are

The Three Big Reasons Why You Should Wear Rubbers in Bad Weather

To guard your health. To protect new shoes. To get more wear out of old ones.

Advertisement for Dominion Rubber System shoes. Includes logos for Granby, Merchants, Maple Leaf, and Daisy. Text: "WILL we have another epidemic of 'flu' this Spring, as we did last Fall? Will people go without rubbers; get their feet wet; take cold; and so lower their vitality that they will become more susceptible to the ravages of influenza? Thousands will not run this risk. They will buy Rubbers NOW, and have them ready when Winter breaks up and Spring rains begin. Rubbers are a wise economy. They protect the health, and they protect the shoes. They make shoes waterproof. They prevent shoes getting soaked through and pressed out of shape. They make shoes wear longer; and they enable you to use partly-worn shoes in wet, stormy weather, thus saving new shoes for the fine days to come. These six Dominion Rubber System brands—'Jacques Cartier', 'Merchants', 'Maple Leaf', 'Granby', 'Dominion', 'Daisy' guarantee quality and enable you to get the exact size and shape to fit every shoe. Make sure that the rubbers you buy have one of these Trademarks stamped on the sole."

REIGN OF BLOOD IN PETROGRAD

Bolshevik Executions Continue, and the Lot of the Workers is Desperate. London, Feb. 17.—It has been learned from various reliable sources, says Reuters, that the situation in Petrograd and Moscow three weeks ago was worse than ever. Executions were being carried out in the liveliest streets of a regimental band, the victims being lined up at the edge of a long open grave and shot by Lettish soldiers. "The lot of the workmen," says Reuters, "is desperate under the Bolshevik reign. The food situation in Petrograd has gone from bad to worse. Hundreds of persons are dying weekly, and the present population is a little over five hundred thousand. The Bolsheviks cannot rely on support from any class if there were the improvement in food conditions. There is no revolutionary feeling left among the workmen that could be stirred by the Bolshevik against the allies. The Bolsheviks themselves cannot remain in power indefinitely. The people look to see intervention by the allies as the only way out of their present difficulties."

BOLSHEVIKI QUIET ON ARCHANGEL FRONT

Russians Anxiously Asking if Allied Troops Are to Be Withdrawn. READY TO SELL RUSSIA

Russian Paper Says Reds Are Preparing to Do So at Prinkipo Conference.

Archangel, Feb. 15.—Reports of Bolshevik misconduct after the occupation of Sibirsk, which are printed as facts in the Archangel newspapers, have greatly stirred the population here, and Russians friendly to the allied forces are enquiring to be withdrawn or retained here.

Among the Sibirsk reports printed in the Archangel newspapers, it is stated that the Bolsheviks have been executed by the Bolsheviks. Reports received by allied intelligence officers indicate that Mother Raphael has been arrested, but there is no news of her alleged execution.

Bolshevik agents also are maintaining a close watch on the Archangel. One of the Bolshevik reports now in circulation is that the allies plan to withdraw, and the Bolsheviks will soon have an army of three million men.

Since Feb. 11 the Bolsheviks have made no attacks against the allied forces on the Archangel front. Allied airplanes, which are continually aloft, report that there has been no movement of troops between the front lines since the Bolshevik withdrawal south from Sredmakenga.

While the cessation of attacks has been coincident with the Bolshevik offer to attend the Princes' Islands peace conference, their offensive was checked by the American and allied troops, the allied military leaders do not believe that the Bolshevik acceptance of the invitation to the conference caused the Bolsheviks to interrupt their fighting.

Commenting on the Bolshevik message of acceptance, The Vozrozhdenie (The Resurrection of the North) says: "From the note of Minister Tchitcherine it appears clearly that the Bolsheviks are ready to sell Russia at auction."

The Bolsheviks are increasing their efforts to destroy the morale of the Russian army, and the American and allied troops are working to counter this. NEW YORK MARKET BROAD AND STRONG

Reports of Improved Trade and Industrial Conditions Stimulate Buying.

New York, Feb. 17.—Revival of public interest, albeit in moderate degree, was a factor of considerable importance in today's strong and broad stock market, the movement being almost the largest dimensions of any session so far this year.

Better trade and industrial conditions, as outlined in the various reports and surveys over the past week, imparted a feeling of confidence and impelled further extensive covering of short contracts.

Trading was again completely overshadowed by the heavy turnover in oils, motors, equipments and tobaccos, the first-named far outstripping all other issues in point of volume, but reacting very generally in the later dealings.

General Motors featured the automobile division at an extreme gain on reports of new financing by Pierce-Arrow and Kelly-Springfield, also contributing to the strength of that group.

Pools were active in Sumatra Tobacco, Tobacco Products, Central Leather, American and Baldwin Local, and more popular independent steels and United States Steel, the latter rising to 33, its maximum since the reduction of the common "extra dividend."

American Smelting and National Lead ran counter to the general run of metal shares, which became irregular on reports of new financing by Kennecott, Copper, and other food shares also improved.

Rails were slow to move, but rose sharply on a demand for Pacific coasters and several of the trunk roads. Gas and traction issues scored moderate gains. Sales amounted to 800,000 shares.

The bond market was irregular and dull, liberty and foreign issues holding steady. Total sales, par value, aggregated \$9,775,000. Old United States bonds were unchanged on call.

INTEREST REVIVES IN SPANISH RIVER

Steel of Canada and Winnipeg Railway Also Prominent—Investment Issues Strong.

The week opened on the Toronto Exchange with an improvement in the volume of trading and with the general tendency toward higher levels in sympathy with the more cheerful feeling in New York. One of the features was the revival of interest in Spanish River issues, following the report of Steel of Canada, while the demand for steel of Canada was the most pronounced in some weeks, and Winnipeg Railway made a further sharp rise. Gains were well distributed thru the list, with investment issues as well as the more speculative stocks responding easily to buying orders.

The movement in Spanish River stocks did not gain momentum until the afternoon when there were transactions in the common at 19, a gain of a point, while the preferred, which had risen in the morning from 22 to 23, opened on the afternoon board at 23-1/2, sold up to 23-3/4 and closed 1/4 below the highest. In the afternoon, the market was further buoyed by an eight-point rise due to the circulation of decidedly bullish reports on the company's present and prospective earnings. Steel of Canada advanced half a point to 60-1/2, closing at the top, while the bid for Dominion Iron was raised more than a point to 60-1/4. N. S. Steel, however, continued on offer at 50, with 49-1/4 bid. Maple Leaf Milling purchased a rather erratic course, touching 134, dipping to 132, and closing at 133-1/4, a net loss of 1-1/4. Cement and General Electric each gained half a point at 46-1/4 and 102-1/4 respectively. Winnipeg Railway stood out among the utilities with a three-point advance to 45, and is now 13 points above the recent low. Toronto Railway was up 3-1/4 at 46-1/4, while Brazilian at 51-1/8 and Barcelona at 50-1/8 each gained 1/8. McKays' report to a favorable annual report was an upturn to 75, a gain of a point.

In the purely investment section, incidents were a two-point advance by Huron and Erie to 210, and a point gain by Canadian Permanent which sold at 172, in the war loans, the advance was the strongest. The activity of the 1933 loan, which closed at 102-1/8. The Victory Loan of 1937 was also strong at 101-1/8. The day's transactions: Shares, 1931; bonds, \$240,600.

U.S. BANK CLEARINGS.

Clearings last week at the principal cities in the United States, according to the U.S. Treasury, amounted to \$4,844,848,781, an increase of 15.7 per cent. compared with the corresponding week last year and of 16.6 per cent. as compared with the corresponding week in 1917. New York reported a gain over last year of 13.3 per cent., and over two years ago of 11.1 per cent.

U.S. BUSINESS FAILURES.

Commercial failures last week in the United States, as reported by R. G. Dun & Co., are 131 against 123 the previous week, and 227 the corresponding week last year. Of failures, 48 were in the east, 23 in the south, 37 in the middle west, and 23 in the Pacific states, and 61 reported liabilities of \$5,000 or more, against 69 last week.

IMPERIAL BANK BRANCH.

The Imperial Bank will open a branch at No. 1248 West St. Clair avenue (corner St. Clair and Boon avenues) today.

DULUTH-SUPERIOR EARNINGS.

Duluth-Superior Traction passenger earnings in the second week of February totaled \$35,618, an increase over a year ago of \$3,659 or 11.4 per cent. This compares with substantially smaller gains registered in all previous weeks this year to date.

MONEY AND EXCHANGE.

London, Feb. 17.—Money, 3/4 per cent. Discount rates, short and three months' bills at 17-1/2 per cent.

Sharebrokers and Crown, exchange and bond brokers, report exchange rates as follows: Buyers. Sellers. Counter. N.Y. fds., 1 1/2-1/4 1 1/2-1/4 p.m. act. Mex. fds., par. par. act. Star, 481.90 482.05 487 Gold, 481.90 482.71 487 Rate in New York for sterling demand, 47.75.

C. P. R. EARNINGS.

DOMESTIC HOLDER MAKES PROTEST

Financial Editor, World: I would deem it a favor if you could find space in your paper for the following: The announcement to the effect that the Dome management has come to an agreement regarding the option on the Dome Extension should not enmesh the Dome shareholders in my way of thinking. That we should take over this proposition on its showing is unreasonable. We have been told that the Dome contains immense ore bodies that can be mined for many years to come. What have the Dome Extension got to show? For the past three years they have been trying to prove something at the Dome's expense. The statement of Captain Anchor that considerable bodies of ore have been found between the 600 and 1,000-foot levels, also at the 1,150-foot level of the Dome, and that rich ore had been established and continued in the Dome Extension, has not been borne out by the latest Dome report. Two drifts, one at 600 feet and one at 1,150, have been carried to the Dome Extension at considerable expense, and no definite conclusion could be drawn from this work. The Dome report says in part that ore bodies on the Dome Extension would have to be sought for at considerable depth and would mean an undertaking of great magnitude, plenty of labor, mining facilities and considerable time. This, then, is what you are asked to turn over \$768,670 worth of treasury stock for. The people who have bought Dome Extension shares when they were knocking about the market at 70, practically got their Dome shares at \$3 a share at the rate of exchange suggested. How does this size up to \$20 a share and held it for years? It is about time the Dome shareholders woke up to their interests. Now the time has arrived for them to get some returns. Do we have to stand by and see about 20 per cent. of the profits handed over to the people of another concern? What are you going to do about it? Let's hear from you. A Shareholder.

PRESSURE EXERTED ON MINING STOCKS

Dome Extension and Adanac Are Among Issues to Lose Ground.

It must be admitted that the mining market yesterday did not give the customary demonstration of steadiness, and that losses were considerably more numerous than the gains. Floor traders were more active on the short side than usual, acting evidently on the theory that as stocks have had material advances they should be vulnerable to bearish pressure. There were no developments over the weekend to cause any revision of views regarding the outlook for the northern mining industry as a whole but, as before said, there was a mild epidemic of short-selling and price-cutting in consequence. A prominent member of the Standard Exchange remarked after the close that, with the public in buying mood, it seemed to him to be a decidedly short-sighted policy for brokers to lend their active assistance to depressing prices, thereby by making would-be purchasers inclined to be timorous. A prominent member of the Standard Exchange remarked after the close that, with the public in buying mood, it seemed to him to be a decidedly short-sighted policy for brokers to lend their active assistance to depressing prices, thereby by making would-be purchasers inclined to be timorous.

INVESTMENT OPPORTUNITIES

Seldom are the opportunities for investment with a comparatively high rate of yield, which exists in the mine stocks, excelled or even equaled in any other market. Following is a list of some of the dividend-paying gold and silver stocks which possess genuine investment possibilities, and for the careful investor who does not care to venture into the more speculative issues offer opportunities for a good return on the money invested, accompanied by a high degree of safety.

Table listing investment opportunities with columns for stock name, dividend rate, yield, par value, and market price. Includes titles like Nipissing, Mining Corporation, and McKinley.

The dividend rate on both Hollinger and McIntyre stock is confidently expected to be greatly increased during the coming year, due to decreasing costs of mining and consequently increased net profits.

We advise the purchase of any of the above issues for sound investment.
