### ONTARIO ELECTIONS CAUSING DEFERMENT OF NOTE ON G. T. R. BILL

**Commons to Wait Until Members Return—O. Turgeon for Purchase of C.P.R.**

Canadian Press Despatch.  
Ottawa, Oct. 17.—The Commons was not in a hurry to get along with the debate on the second reading of the Grand Trunk bill today. After listening to three speeches the members decided to adjourn the house until Monday, when it is expected they will be more interested in the Ontario elections than in the proceedings in the house. One thing is certain, the taking of the division on the second reading will be deferred until the members who have been participating in the provincial contest are back in the capital.

J. H. Sinclair commenced the debate on the second reading today. He was inclined to favor private ownership under public control. He thought the country was plunging into debt at a rate too fast to be healthy. The national debt, he claimed, was increasing at the rate of \$100 per minute.

H. H. Stevens, Vancouver, devoted some attention to the criticisms of government ownership in Canada. He asserted that the legislation before the house had been foreshadowed for some time past, and there was no good reason why it should not be dealt with at the present session.

Mr. O. Turgeon, Gloucester, who spoke briefly and adjourned the debate, argued that if the government was going to take over the railways the C.P.R. should be included in the list.

**To License Opium Imports.**  
Following the adoption of a resolution, Mr. Rowell introduced a bill to license import and exports of cocaine, opium and their preparations. The bill continues in effect orders-in-council passed May last under the war measures act. In recent years, Mr. Rowell said, quantities of opium and cocaine imported into Canada had shown a marked increase. In view of that situation and in order to exercise greater control, the orders-in-council were passed.

Mr. Rowell read a series of figures showing the effect of the orders-in-council.

**Reports Big Decrease.**  
Crude opium during the year ending March 31, 1919, was imported to the extent of 34,263 pounds. During the three months under license, imports were 1,110 pounds, or 4.40 per cent.

### EMPLOYERS OFFER SUBSTITUTE MOTION

**Industrial Conference Adjourns Without Decision on Collective Bargaining.**

Washington, Oct. 17.—Without reaching a decision on recognition of the right of workers to bargain collectively, an issue which has been the subject of two days of debate, the national industrial conference tonight closed the second week of its deliberations. Adjournment was taken until Monday, when the conference will make a new start, a definite program for procedure to that end being in process of formation.

Withdrawing their motion made yesterday to recommit the labor-public declaration on collective bargaining, the employers then took the initiative today by offering a substitute resolution which would protect their right to "deal or not to deal with men or groups of men who are not their employees." The withdrawal came as a surprise to representatives of the labor who were prepared to support it and who had expressed their willingness to agree to amending it.

**Vigorously Opposed.**  
Adjournment without a vote on the collective bargaining issue was opposed vigorously by laboring men. Mr. Gompers demanded that the gathering remain in session "until the matter is disposed of," and Daniel J. Tobin, who W. G. Lee, the latter chief of the railway trainmen, held up the spectre of numerous strikes and pending strikes, now in abeyance, pending the outcome of the conference, to induce the delegates to take immediate action.

### MONTREAL LABOR MEN ENDORSE G.T.R. BUY

Montreal, Oct. 17.—In a session which lasted almost to midnight, and which was characterized by strong debating speeches of almost all the leaders of organized labor in Montreal, the Trades and Labor Council decided last night to support the federal government in its move to acquire and operate the Grand Trunk, to fight and prevent if possible the putting into force of the increased tramway fares, and also again expressed itself in favor of the 44-hour week for workers.

### CANADIAN DELEGATION FOR THE INTERNATIONAL CONFERENCE ON LABOR

**RETURNING SOLDIERS**  
Returning soldiers from S. S. Canada will arrive at Exhibition Camp at 7:15 a.m. today. Lists will be found on page 16.

### ENVER PASHA PLOTS AGAIN IN CAUCASUS

**Young Turkish Leader is Attempting to Make Himself Political Power.**

Constantinople, Oct. 17.—Enver Pasha, the young Turkish leader who fled from Constantinople to escape arrest and prosecution upon the downfall of the young Turk regime and whose whereabouts it had been impossible to learn since, was lately seen at Karabagh and Baku, in the Caucasus.

One reason for his activities in the new republic of Azerbaijan (northwestern Persia) and also among the Tartars, is that he is thereby making himself a political power, who must be treated with thereby insuring his own safety.

So far Enver Pasha has been disowned by Mustafa Kemal Pasha and the Nationalists.

Mustafapasha Kemal Pasha, the nationalist leader, and the power behind the new government being established in Asia Minor, where the corresponding of the Associated Press interest viewed on his trip thru Asia Minor, is inclined to resent unfavorable comparisons drawn between his country and western states.

"There is no drunkenness or thievery in Turkey," said the new hero of the Moslems, to the correspondent.

Enver Pasha, who has been reported as able to claim:

In support of his comparisons Mustafa Kemal told stories, relating how the British had robbed of their property on trains in the vicinity of Tiflis, and compared this with the experiences of the mission of Major General Harbord in Turkey, the members of which had not lost a single article after 1,200 miles of travel thru the wilds of Turkey.

### WINGHAM FOR HYDRO

**By Vote of Nearly Thirty to One Carry Bylaw to Bring in Hydro System.**

Special to The Toronto World.  
Wingham, Ont., Oct. 17.—Voters of Wingham today sustained by overwhelming majorities three important bylaws. The enabling bylaw to bring in Hydro was carried by 320 to 18. The bylaw to raise \$40,000 to cover the cost of the Hydro distributing plant carried by 296 to 18. The bylaw guaranteeing the Aero Cushion Inners Tire and Rubber Company a fixed assessment of \$5,000, exemption of taxation, except school and county rates, and free water, carried by 270 to 53. The company already owns a plant in this town.

Wingham is the first municipality of a group of about 20 to vote on the Hydro scheme and the verdict will give a good lead to the other municipalities. Eugenia Falls will supply the power for this district. The Hydro Commission has promised to commence work at once.

### WORLD'S EXPOSURE LEADS TO ACTION

**Board of Commerce Decide to Probe Rise in Cigaret Prices.**

All the United Cigar Stores thru-out the city had an early telephone call yesterday morning from their head office, on King Street. Directly The World exposure of the extra three cents being charged on certain brands of cigars by the United retail shops was given in a hurry call, and instructions were given, not only to reduce the price on Benson & Hedges cigars, but also on two other brands by the manufacturers.

A question is now being raised as to whether or no the wholesale houses, the jobbers and the retail stores have any right to charge the extra three cents on the brands that have risen in price and which were purchased by their price of Saturday last.

As a result of The World's exposure of the inside story of the recent rise in cigarette prices, Major Duncan yesterday announced that a board of commerce will take up the matter, and he has already asked the Cigarettes Merchants' Association for their prices and for an explanation of the order sent to the retailers by the Imperial Tobacco Company.

Cigarettes are not a necessity of life and therefore may not be dealt with ad libitum by the board, said Major Duncan. But if there are instances of huge profits the board may safely consider that end of the matter.

### SAM IN WEST YORK

Alderman Sam Ryding has been a representative citizen of Ward Seven, before that of West Toronto as a town, and has worked for its advancement from the time it began as a railway yard of the Canadian Pacific until now it is one of the most active portions of this metropolitan centre. He has served everyone but himself, and has a first call on the votes of the electors of West York, whether in town or township. He hopes, therefore, to be one of the new members of the Ontario legislature.

### Two Treaty Amendments Remain to Be Considered

**U. S. Senate Defeats Two More of Those Submitted and is Anxious to Draft Ratification Resolution Soon as Possible.**

Washington, Oct. 17.—After a brief debate and without the formality of a record vote, the senate today threw out two more of the amendments written into the peace treaty by the foreign relations committee.

The two amendments had been introduced by Senator Fall, Republican, New Mexico, and had as their object the curtailment of the power of the American representative on the reparations commission, an international body set by the treaty to fix Germany's reparations bill.

The vote came sooner than had been expected, the leaders agreeing to it as part of a plan to complete the ratification of amendments as soon as possible so that the senate might get down to the real work of drafting a ratification resolution. Only two of the committee's forty-six amendments now remain to be considered, and it is hoped to bring them to a vote before next week. They both relate to equalization of voting strength in the league of nations.

During the day some progress also was made in the normal reading of the treaty text, and the foreign relations committee took under advisement an offer from Col. E. M. House, to appear before the senate.

In their reading of the treaty next, the senate clerks about completed during the day the first half of their task. The reading will be resumed tomorrow and the leaders hope to complete it during the day.

### ROYAL BALL MARKS HAMILTON GREETING TO 'FIGHTING PRINCE'

**Is Given Ovation at Station—Public Welcome Takes Place Today.**

Special to The Toronto World.  
Hamilton, Oct. 17.—After a lapse of many years, Hamilton is again entertaining royalty. Despite the fact that the Prince of Wales will not be officially welcomed to this city until tomorrow morning, his royal highness arrived here early this afternoon, accompanied by his party. The unannounced, hundreds of citizens, eager to get the first glimpse of England's "Fighting Prince," thronged the G.T.R. station and when the royal train pulled slowly into the Stuart street station a tremendous ovation greeted the heir apparent to the British throne.

As the prince, dressed in grey muffs and wearing a raincoat, stepped from the train he was rushed forward and grabbed his hand, saying "God bless you." His royal highness was then greeted by Mayor Booker, who was accompanied by Alderman McInosh, City Clerk Kent, George Coppley and Colonel R. A. Robertson.

Among the prince's party were Admiral Sir Lionel Halsey, Major-Gen. Sir Henry Burstall, K.C.B., Lord Claude Hamilton, Col. E. M. Gregg, military secretary, Sir Godfrey Thomas, Commander Dudley North and Capt. Hon. P. W. Leigh. The companions of the prince were in the best of humor and smiled with delight at the open-hearted reception tendered to the prince by the crowd.

**Motor to City Hall.**  
Owing to the fact that the visit of the prince was supposed to be unofficial the royal party motored along.

### RETURNED SOLDIERS DISALLOWED VOTE

**Large Centres Refuse to Re-open Lists—Small Centres Permit.**

W. E. Turley, secretary of the Ontario provincial command of the G. W. V. A., stated to The World yesterday that it had been conceded as quite impossible to reopen the appeal courts in order to allow the men who served overseas an opportunity to get their names on the voters' lists.

Altho Sir William Hearst stated in Guelph on Wednesday that special provision would be made to reopen the appeal courts on Friday and Saturday for this purpose, the matter was left to the final decision of the members of the local appeal court. In the greatest number of cases the local officials in charge have declared it impossible to accede to the request of the government in this regard, with the result that a large number of returned men will not be able to exercise their franchise. This decision is applicable in the larger centres of population only, as it is understood that in the smaller centres the men will be permitted to have their names added to the lists.

**Danger of Illegality.**  
The attorney-general's department has also advised the government that there is a real danger of the elections being declared illegal if the completed lists, turned over to the returning officers, are taken back to be added to a special sitting of the appeal court.

There are said to be hundreds of returned soldiers left in the lists in Toronto, Hamilton, Kingston, London, Ottawa and Windsor, and Mr. Turley stated that it was regrettable that the government did not act on the suggestion of the provincial command of the G. W. V. A. in September last.

### STRIKERS BEGIN ACTION IN COURT

**Bill Filed Asking Injunction Against Interference With Free Speech.**

Pittsburg, Oct. 17.—Organized labor today began its action in court for the right of free speech at a free assembly. The case, which has been denied them by public officials of Pittsburg and Allegheny county, a bill asking for an injunction restraining labor meetings was filed in the county court and the hearing will be held next Thursday.

Aside from the court proceedings there were no developments in the strike situation today. Neither strikers nor corporations gave out anything to indicate a change in conditions.

### ITALIAN INVENTS NEW DIRIGIBLE

**Intends to Fly With It From Rome to South Africa, Stopping at W. Africa.**

Rome, Oct. 17.—Celestino Ueselli, one of the pioneers of aviation in Italy, claims to have invented a new dirigible 280 yards long and 80 yards wide and provided with six motors of 500 horsepower each, which he intends to fly from Rome to South Africa, stopping at Dakar, West Africa.

The dirigible, it is claimed by Signor Ueselli, is capable of transporting a weight of 20 tons and can attain a speed of 72 miles an hour with all six motors working. Using one motor alone, it is said, the dirigible can navigate for six days and cover more than 5,000 miles.

Signor Ueselli expects it will take six days to fly from Rome to South Africa. He will make a trial flight the early part of November.

### PETROGRAD ENTERED? NEWS OF CAPTURE DOUBTED IN LONDON

**NOVEL EXPERIENCE FOR LLOYD GEORGE**

London, Oct. 17.—The students of Sheffield University created a novel experience for Mr. Lloyd George before he received the degree of Doctor of Laws from the university this afternoon. Eight of the students, attired in white smocks, surrounded him, placed him on a sedan chair, swathed in the Union Jack, and carried him around the university grounds and the corridors of various buildings of the institution. The procession was preceded by a ragtime band and its progress awoke cheers from the enthusiastic crowd that witnessed it and patently caused great amusement to the premier.

### EFFORTS TO AVERT STRIKE OF MINERS APPEAR HOPELESS

**Conference With Bituminous Representatives Fruitless—To Meet Again.**

Washington, Oct. 17.—Falling after an all day conference to avert a strike of nearly half a million bituminous coal miners, called for the very eve of yesterday, the Bituminous Coal Operators' Association and the United Mine Workers of America failed to reach an agreement.

Both sides accepted the invitation. This did not offer any great hope, however, for representative of the operators stood firm in their determination not to negotiate any demand for a six-hour day, and not to deal with the unions unless the strike, set for November 1, was called off.

John L. Lewis, acting president of the United Mine Workers of America, stated that the operators were unwilling to accept the union's one way or the other, showed that he was laboring under a terrible strain when he left the three-cornered meeting. Speaking to a group of reporters, he said he had told Secretary Wilson that the 32 members of his wage scale committee would meet Tuesday to meet an equal number from the other side, but that it would be useless to reconvene the joint interstate wage conference "unless the operators changed their stone wall attitude," and indicated a willingness to frame another agreement.

Thomas T. Brewster, chairman of the coal operators of the central committee of Illinois, Indiana, Ohio and Western Pennsylvania, said that he sent word to Mr. Wilson that his scale committee would be on hand for the joint conference.

### DMVA LEFT BANK IN RUSSIAN HANDS

**Desultory Fighting in Progress and Riga Population in Desperate Straits.**

London, Oct. 17.—The entire left bank of the lower Dvina River is in the hands of the Russians, the Chief Avaloff-Bermond, says the Lokai Anzeiger's Mitau correspondent, according to a despatch from Berlin.

"The Letts," the correspondent says, "are attacking Thorenburg from the right and causing heavy damage. Avaloff-Bermond is said to be sparing Riga. The left upper bank of the Dvina River, between Baedon, Schoenberg, Friederichstadt and Jakobstadt is the scene of desultory indecisive fighting between the Russian advance and the Lettish and Estonian troops.

"Riga's population is in desperate straits."

The French and British missions in Latvia requested the Lettish government to effect an armistice with the forces of Col. Avaloff-Bermond, according to private advices received here. The advices say that the Lettish government refused to entertain this proposal, pointing out that the allies in July urged them to conclude an armistice with the Germans. General Von der Goltz undertook to effect a withdrawal of the German troops from Latvia, but the Germans are still there and attacking.

### BALANCE OF TRADE ADVERSE TO FRANCE

**Is Running Against Her at the Rate of Billion and Three-Quarter Francs a Month.**

Paris, Oct. 17.—Statistics of the customs department, showing that the balance of trade is running against France at the rate of 1,750,000,000 francs per month, throw light upon the depreciation of French exchange. Imports for the first eight months of the year total 18,500,000,000 francs, which is about 2,000,000,000 francs more than for the same period of 1918. Exports amounting to only a little more than 4,000,000,000 francs, showing an increase of about 700,000,000 francs over the corresponding period of the year before.

Food products entered into the total importations to the amount of 5,000,000,000 francs; industrial supplies, 4,000,000,000 francs; and manufactured articles, 5,000,000,000 francs. The biggest single item of importation is wheat amounting to 1,355,000,000 francs compared with 92,000,000 francs in 1910. Imports of sugar and coffee show an enormous increase over the normal. Cotton and woolen cloth enter into the total of industrial supplies to the extent of 750,000,000 francs of the increase. These figures have so great an importance here and are being used to advocate a renewal of the campaign for vigorous restrictions in consumption and intensified exports and production.

### STETSON HATS.

This will be a big selling day in Dineen's hat department. With the arrival of Stetson's new American makes and Borsari's and Christy's colored hats all hands will be kept busy until the closing hour, 6 o'clock. The Dineen Company were fortunate in getting in this shipment so early. The factories on the other side are so crowded with orders that it is very doubtful that it is very much more than a few days' supply on hand.

Invite those wanting the very latest in men's hats to see the new arrivals today. All shapes and styles in Stetson's \$8. Also a line of imported sample hats, all colors, only \$3.35, worth \$6.75 and \$8.

When you're in don't overlook the basement. Special values in fall overcoats, raincoats, motor rugs, men's cloth and tweed caps, etc.

## EARLSCOURT

### TWO FARE MEETINGS

Grits and Tories Both Appeal to Women to Register Their Sympathies.

There were two big political meetings in Earlscourt last night—one organized by Ward Six Liberal-Conservative Association, in support of Hon. Thomas Crawford and Hon. W. D. Morrison, candidates for North-west Toronto. This meeting took place in a store adjoining the new Alibi Theatre on St. Clair avenue, and prior to the meeting the Boys Brass Band of the B.L.A. under the leadership of Greenwell, played selections. W. G. Sanderson, vice-president of the association, presided, and outlined the duty of voters at coming elections, pointing out the necessity of the women's votes to swing the majority. Bay, T. Osborne reviewed the history of the Conservative Party during the past three administrations, and Hon. Thos. Crawford, in urging a strong vote at the polls on Monday, claimed that the Hearst government had a clean and upright record, and had rendered yeoman service to the people of this province. "Women," said Mr. Crawford, "need not be ashamed of their association with the Hearst government," and incidentally mentioned that the entire women's vote, if polled, would mean 65 per cent of the voting strength of Toronto.

Hon. W. D. Morrison sent a message of regret for his absence, as he was speaking in Niagara last night. Another meeting will be held this evening and also in the afternoon at 3 o'clock, when J. R. MacNicol and others will speak to the women voters.

The Liberal rally was held at the G.W.V.A. headquarters and the candidates, Lieut.-Col. Cooper and Jas. G. Cane, addressed the voters, as also did Comrade J. Carmichael of the G.A.C.

### COST OF PRINCE'S RECEPTION.

The Prince of Wales' reception committee has prepared the report of receipts and expenditures, which follows: Receipts—Contributions from Earlscourt merchants and others, \$315.50. Disbursements—Decorations, printing and advertising, carriage, bands, sundries, postage and badges, \$315.50.

### REGISTER QUICK FOR COAL.

A notice has been posted up at the Earlscourt G.W.V.A. headquarters, notifying members of the raise in the price of coal and requesting that the members register at once if they do not want to be disappointed in the supply of coal for the winter. J. Beauchamp, secretary, already has a large list on hand.

### WORLD'S ACTION COMMENDED.

Strong feeling exist in the Earlscourt section among devotees of tobacco and the sudden and unexpected raise in price of cigarettes, which are used in great quantities in this district. Frontiers are sad to be at the bottom of the extra prices asked, and the returned men here are solid for getting after the manufacturers.

One well-known returned man expressed himself thus: "I smoke three packages of cigarettes every day, which means 15c more out of my pocket. For the same cigarettes that I am asked to pay 15c for today, I used to buy in the old country during the war 5c a packet. It's my opinion that politics is at the bottom of the whole thing, but if the politicians think that they can put one over us like this they're mistaken. They want to ruin the returned soldier," he added.

The local tobacco dealers say they are helpless. "For the past two weeks we have not been able to get out orders filled, about 25 per cent. of the quantity only being supplied; this was done so that we should not have a stock of goods when the prices went up," said a leading druggist. The World's statement in Friday's issue is highly commended in Earlscourt, and the men are hoping for a thorough investigation as a result of this publicity.

## BEACHES

### PREPARING FOR VISITORS

So many of the residents in the Beaches district were crowded with visitors during the summer that a number of the householders are renting their residences and buying sites to erect dwellings farther east, and also in the western section.

The Toronto harbor commissioners are at present constructing a reinforced concrete and steel pier on the lake front at the foot of Kippendavie avenue.

The harbor commissioners' steam pile driver, number two is engaged driving huge piles in double rows into the bed of Lake Ontario and steel frames are being constructed to strengthen the structure.

### THE EAST YORK POT SIMMERS

The Potiches are not "hot up" about the election. The old-time machine enthusiasm was absent last night from Mr. Henry's meeting in the unheated Chevrolet saleroom, the attendance was good and the ladies numerous.

In the comfy Kenilworth Hall there were Chinese Kieners for each sister to Mr. Gibson, the Liberal candidate, but not much enthusiasm. To Capt. Little, the soldier-farmer, labor aspirant, much support is quietly rallying, and if Henry is to be defeated, it will be a case of "Let George do it." Gibson's taking the Liberal vote in the townships is helping the soldier-farmer to win.

## RIVERDALE

### CLASS LEGISLATION, SAY LEAGUERS

### Only Working Man Has Right to Decide, Says T. S. Smithbone.

The O.T.A. from the other side was lucidly explained by T. S. Smithbone at a well-attended Citizens' Liberty League, ward two, branch meeting, held in O'Neill's Hall, corner of Parliament and East Queen streets, last night. C. S. Townsend in the chair. Mr. Smithbone said:

"While the citizens were engaged in consolidating democratic principles, proprietors and prohibitionists as increased their influence through Canada that they are now in the ascendancy. Prussian autocracy, defeated abroad, has struck root in home institutions. This has aroused the citizens, and the Liberty League has taken up a most difficult task."

"We have not only to fight the present government, but to relate the citizens must now even fight the pulpits for Christian charity and fair treatment for workmen. Ground down with toil, the workman must necessarily turn to all and every avenue to replace the wages he has lost in muscles, and he has from the beginning of time appreciated and found strength and comfort in pure nourishing beer and wine."

### One Man's Meat.

"An old and true maxim is that 'What is one man's meat is another's poison,' but does not lack of moderation, make it poison in both cases? And we affirm that neither editors' sermons nor possibly know anything of the workman's real needs until they forget their learning, pull off their coats and perform the most unhealthy and distasteful tasks that workmen habitually perform."

"We claim that the abnormalities of these men are due to the abnormal conditions under which they labor, and their beer-drinking is merely one of these abnormalities, and not the cause. We would like to say right here that the only people who are entitled to an opinion in this matter of the workman are those who have been, or are engaged in similar pursuits, and not scholars, or people of entirely different occupations. If the prohibition question is submitted to the workingman only, as by all the rules of fair play it should be, their vote would record a solid four years."

### What Have We Helped.

"In recent years a workman near Toronto found, for the first time, his pride and pleasure in ownership, but with this came a new and sinister little home was almost completed, but still lacked a chimney. Six days of labor were necessarily devoted to paying the many various bills for material. By comparison of circumstances, on the seventh, he attempted to build his own chimney, but the contractor has aroused indignant members of the Lord's Day Alliance, with the result that the poor workman was heavily fined for violating the ordinance. He shown a Christian spirit if he had built his chimney instead of adding to his already heavy burdens."

This is only one of many instances where the heavy hand of these "rulers of the synagogue" has fallen heavily, as it always does, on the workingman. These are the prohibitionists; Citizens' Liberty League are fighting; not that broad-minded, thinking churchmen who realize that God has endowed every man with free will.

### Ontario Tyranny Act.

"The Ontario temperance act is a misnomer, it should be called the 'Ontario tyranny act,' as everybody knows that temperance means moderation. It is an offence to all sense of democratic liberty, and will, on its merits alone, gain the support of no just, thinking citizen."

"The time of the legislature and the people's money was wasted to no avail until the B.N.A. is revised. The old license law should have remained in effect, with amendments covering the war period situation, when many lives could have been saved during the flu epidemic. "Of course," said the speaker, "if the clause was not in the act the cellars of the rich would not be filled to overflowing."

"This clause inserted for the benefit of the distillers, brewers, importers and members of the house and their friends?" he queried. "It is unquestionably class legislation. It prohibits the cobbler, with his little store in front and house behind, with a direct entrance between, from having liquor in his house; also prohibits liquor in apartment homes without separate entrances. If business is carried on above a man's home, or above main floor, or if there is a 'business' phone in the house, or if you have a business office in your home, or more than three boarders other than the members of the family, you cannot have liquor. If you are charged with drunkenness, you are fined \$10 and costs. If carrying it in a flask in your pocket, \$200 and costs or three months in prison. The drunk man has it over the sober man by \$150. If a doctor has run out of his permits the patient cannot take this chance, and the drugist may die. This is a crime," declared Mr. O'Leary, who concluded by stating that the irony of the whole fiasco is that the province in districts where the Scott act and federal measure prevails, and that people can have all the native wine they require within the province unrestricted up to 24 per cent. proof

## DR. BAUER QUILTS AUSTRIAN CABINET

### Says Entente and Foreign Governments Are Opposed to His Politics.

Vienna, Oct. 17.—Dr. Otto Bauer, minister of socialization, formally announced his retirement from the government last night, in an address at a meeting of the workmen's councillors, attended by all social democratic leaders.

Dr. Bauer declared he was impelled to take this step because the entente and other foreign governments were opposed to him and his politics. He said he felt he would be of more value to his policies if he sat down with the opposition. A gloomy picture of the condition of the country was painted by Dr. Bauer. He reiterated his belief that German Austria could not survive as a separate state, and asserted that union with Germany was the only salvation.

Five packing cases, containing 500 bottles of whiskey, were seized at the Union Station last night by Policemen Lewis.

### After-war conditions, and the telephone.

No. 7

### Progress in the Telephone Art

TELEPHONE apparatus, intricate and delicate as it is, requires continuous supervision and frequent replacement. It is constantly wearing out, becoming inadequate or obsolete.

Telephone switchboards, in particular, wear out in a comparatively short time and must be replaced. Research and inventions by telephone engineers are constantly producing improved apparatus. Much of the material taken out of service is mere junk.

Present-day development in telephone apparatus for the larger centres is along the line of mechanical, as opposed to manual, operation. Mechanically-operated central office equipment, under certain conditions, has proven its efficiency, and as soon as it is available, we must include it in our plans of replacement and extension. The immense changes that such development will necessitate must be faced and provided for.

## INDIGNANT AT COST OF OCCUPYING ARMIES

### German Budget Commission Hears Treasurer Announce Price Country Must Pay.

Berlin, Oct. 17.—Indignation was expressed by members of the budget commission of the national assembly when the national treasurer announced the cost of maintaining entente armies of occupation and various control commissions would be from 2,000,000,000 marks annually. The minister added that the drain on the national finances would "eventually reach the entente," and expressed the hope that the size of the occupying armies would be gradually reduced.

### Social and Democratic deputies declared the entente demands exceeded all limits of moderation," and charged the troops were indulging in "extravagances" at Germany's expense.

### HERE'S THE REASON WHY HAWAII IS GAY

The Hawaiian moonshiner has developed a product that is said to have a worse "edge" than any produced in continental United States. It is "Okolohae," which pronounced is not unlike the melody of a Swiss yodler. Prince Kahanalana says it means in plain vernacular "hot stuff," and has a kick that would put "old settin' hen," "stump rum" and "mountain dew" in the shade. "Okolohae" is a gin made from the root of a "ti-plant" or "dracena." It is distilled in the mountains and as there are but two or three revenue agents for the locality, the Hawaiian moonshiner has a comparatively easy time

Godofroi flew up the Avenue de la Concorde, Armee thru the Arc to the Concorde, where he managed to get above the trees and turned back to Villacoublay,

## SEAT IN CABINET FOR MRS. BUNDY?

### Not Much Chance, Says Captain Joe, if She Depends on Dewart.

Rosedale and Avenue road, were well represented at a well-attended meeting held last night at the Margaret Eaton School on North street, on behalf of Capt. Joe Thompson, Liberal-Conservative candidate for Northeast Toronto, Section B. Standing-room was at a premium, and the meeting was enthusiastic in championship of the present government. Everything passed off very pleasantly, with here and there a humorous interlude, such as when the chairman opposed a man in the audience who opposed the O.T.A. if he had any boys or girls. "Oh, yes," quoth the other, "I have several girls."

Miss Constance Boulton, Col. Bruce, Mark Irish, Mrs. VanKoughnet, Hon. Thomas Crawford and the candidate, Capt. Joseph Thompson, were the speakers of the evening, and all pointed to the record of the Hearst government as worthy of the highest appreciation, which could be shown only by re-electing the government and putting down Miss Boulton and Col. Bruce. Miss Boulton and Col. Bruce specially commended the government for its many forms of assistance to the cause of the soldiers overseas, among which a notable help was the transmission of millions of doses of anti-toxin and vaccine. Special eulogy was reserved for both Hon. Dr. Cuddy and the new minister of reconstruction, Eric-Gen. A. E. Ross.

### DEWART SUPPORTS VICTORY LOAN

Addresses Open Letter to Sir Henry Drayton, Minister of Finance.

Hope that the Victory Loan of 1919 will be oversubscribed in Canada is expressed by H. H. Dewart, M.P., in a letter sent to Sir Henry Drayton, minister of finance. Mr. Dewart gives in the new issue his unqualified support. "My Dear Sir Henry—I appreciate the vital importance of the Victory Loan, 1919, and sincerely trust that it may be oversubscribed in Canada. The people of Canada are already showing their splendid patriotism and self-denying spirit during the war. I feel assured that they will none the less demonstrate their sense of duty and obligation to those who served Canada overseas now that the war is over. Our obligations are greater, but not greater than the spirit and resourcefulness of our people to meet them. They will give generously and with a spirit of self-sacrifice, looking in return for the same economy and thrift from those who administer our funds that is demanded from the people. Yours faithfully, "H. H. Dewart."

### UNION PROGRESSING WELL.

Twenty-two new members were initiated at last night's meeting of the Teamsters' Union at a well attended meeting held at the Labor Temple. The union has a total membership of 1,000, the Toronto local having 700 members. Daniel Tobin is the president. Mr. Tobin was among the men who accompanied Samuel Gompers on his trip to Europe a short while ago.

### POISONS!

The Pharmacy Act, Province of Ontario, Part I, has eighteen Poisons listed, the sales of which must be registered. Part 2 has 48 Poisons listed, which a graduate must sell and label "Poison," but registration is not required for:

### ALCOHOL

is not included in the above listed Poisons, nor is it listed as a powerful drug under "Powerful Drugs." (Pure) Alcohol is 65 over-proof; High Wets, 50 over-proof; Walker's Club, about 21 under proof; im. perial, 22; ordinary 25, and, in bulk, in barrels, as low as 40 under proof.

The popular seller with me was 40 under-proof Rye, bottled Rye whiskey, as low as 50 under proof. In the water, and in the several years I was in business I did not get a single order for alcohol, and the small quantity sold was for medicinal purposes. The Russian national beverage is 65 over proof. Vodka was virtually unknown in Toronto until the Temperance Agitators "dug it up" in 1916 for campaign purposes.

Vodka is the Russian national beverage, and is the Russian national beverage, and being of the strength of pure alcohol, 65 over proof, it is remarkable that 190,000 of this nation are alive and kicking. The argument, as to say the least, "put up these men," is not a point; any man more than 40 years of age, taken into large quantities, is used for present purposes run from 40 to 50 per cent. alcohol, and to reduce the herbs steeped in water is not under 40 per cent. of it. The public ought not to be misled by the over-zealous. JAMES A. BLEAKLEY, 112 Broadview Ave., Toronto.

## FAIR PLAY FOR RETURNED SOLDIER

### And Prosecution of Profiteer, Are Wallace and Schofield Slogans.

Fair play for the returned soldier and the prosecution of the profiteer were the reasons offered by the various speakers, at a meeting of the electors of Southeast Toronto in St. George's Hall last night, why Capt. James Wallace and Harry Schofield, Liberal-Conservative candidates, should be successfully returned to represent the riding at the elections on Monday.

Capt. James Wallace, candidate for seat A, reviewed the patriotic work record of the Conservative party and dealt with the beneficial legislation it had enacted during its term of service. He referred to the great success of the Hydro-Electric System had been to the province and declared that this had been made possible by the administration of the Hearst government.

## MAKE KELLY EVANS SURE.

Northeast Toronto (Seat B) will have the chance of doing a great thing for itself and for the province at large if it returns Col. Kelly Evans by a thumping majority on Monday next.

Dr. Caroline Brown referred to the four soldier candidates, who were running on the government ticket, and spoke highly of the legislation of the government in extending the franchise to women. She stated that she was of the opinion that the government might have added to this "gracious act" by placing a woman candidate in the political field. She referred to the O. T. A., and stated that this was meant for the protection of the coming generation, who were the most important people from a national standpoint.

Sergt. Marshall, a member of the G. A. C., stated that every soldier organization in the city was behind Capt. Wallace, and added that if the association had endorsed civilians, Harry Schofield would have been at the top of the list.

Isador Finkberg, a Hebrew barrister, claimed that for 15 years the Hearst government had given clean, upright legislation, and that its war record was one of the outstanding acts. Thos. Hook declared that the Dewart party had never once opposed any act of legislation that the government had placed on the statute books, proving that it had been just

## CITIZENS' LIBERTY LEAGUE

IS THE BIBLE RIGHT OR WRONG?

The Lord allowed, sanctioned and commanded the use of wine and other strong liquors as beverages.

Deuteronomy xiv., 26, the Lord told the Israelites that they may do what they please with the money they cleared on the sale of property; they may spend it for wine and strong drink.

And thou shalt buy with the same money whatsoever please thee, either of the herds, or of the sheep, wine also and strong drink, and all that thy soul desireth; and thou shalt eat before the Lord thy God, and shalt feast, thou and thy house.

Proverbs xxxi., 6, 7:

Give strong drink to them that are sad, and wine to them that are grieved in mind; let them drink and forget their want, and remember their sorrows no more.

Ecclesiastes ix., 7:

Go then, and eat thy bread with joy, and drink thy wine with gladness, because thy works please God.

IS THE BIBLE RIGHT OR WRONG?

- If the Bible is right, the ABSOLUTE prohibition is wrong. If the Bible is right, SOME of the charges are wrong. If the Bible is right, TOTAL prohibition is wrong. If the Bible is right, strong beverages are not wrong. If the Bible is right, drinking wine is not wrong. If the Bible is right, the agitator is wrong. If the Bible is right, donating for such a purpose is wrong. If the Bible is right, the preacher is wrong. If the Bible is right, some well-meaning men are wrong. If the Bible is right, preaching TOTAL prohibition in churches is wrong. If the Bible is right, turning Temples of Worship into political forums is wrong. If the Bible is right, all TOTAL prohibition propaganda is wrong. If the Bible is right, to vote NO is wrong.

LIBERALS EXTOL SIR ADAM BECK

Charge Hydro Chief's Picture Ordered From Screens by Government.

Sir Adam Beck figured prominently and favorably in the speeches at a Liberal meeting held in Victoria Hall last night in the interests of J. W. Curry and John O'Neill, candidates for Southeast Toronto. Joseph Singer, who let out The Hebrew Journal charges at Massey Hall, went almost one better by declaring that the Ontario government, scared of Sir Adam's increased popularity, had ordered certain picture shows to discontinue showing the Hydro chief's photograph. John O'Neill also expressed unswerving allegiance to Sir Adam Beck, whom he described as "the brightest, ablest and most sacrificing statesman in the country today," a statement which the audience warmly applauded. J. Walter Curry carried the Beck picture episode a little farther, by stating that Hon. Thomas McGarry and Howard Ferguson had sent telegrams all over the province forbidding the display of Sir Adam's photograph on picture screens.

The chairman, Louis Gurofsky, said the campaign had developed into abuse and vilification as far as their opponents were concerned, and he scored The Telegram in this respect. He thought that newspaper had vishnick on the brain.

Can Prove All Charges.

Joseph Singer, also paid some attention to The Telegram, and said himself and Mr. Dewart could prove every charge they had made if the government would grant a proper investigation. He went into the statement of Rabbi Jacobs, which was claimed to be an exoneration of the license board, "if not quarrelling over the use of wine being allowed for Jewish festivals," said Mr. Singer, "but we quarrel with the government for sending it to court." He said that could have been obtained in Ontario. Rabbi Jacobs declared everything had been done in good faith, but was it good faith to let out all that vishnick of such high proof on the eve of an election? (Applause).

The charges made by use are evidently beginning to sting," said Mr. Singer, "because Mr. Gooderham is beginning to take notice of them. I never said that \$600 had been offered to buy up a Jewish newspaper. If Mr. Gooderham cannot read English better than that he is not fit to represent any constituency in the legislature." Mr. Singer then repeated the charges he previously made, and said that the government had given instructions that Sir Adam Beck's picture be not again used by certain movie people, fearing as they do that Sir Adam might be made more popular.

Beck Leans on People.

John O'Neill, who was introduced as the next minister of public works, said the incident relating to Sir Adam Beck's picture only showed what the Hydro chief had to live thru so far as the government was concerned. "Sir Adam Beck has not been leaning on the government," Mr. O'Neill said. "He has been leaning on you people. He has got you and I who you will stay with him. (Applause). If Beck came forward as the leader of a new party in this province, I question very much whether I would associate with the Liberal party. Sir Adam I believe to be one of the brightest, ablest and most sacrificing statesmen we have in this country, and I will do so. He has the hearts of the people, and any politician of any party that attempts to interfere with his undertakings will have the people against them." (Applause).

Resents Disloyal Charges.

J. W. Curry, who had a hearty reception, resented the charges of disloyalty levelled at Mr. Dewart. He claimed that the government at Queen's Park had not played the game except as tricksters. "Why," he declared, "Hon. Tom McGarry and Hon. Howard Ferguson have sent out telegrams all over the province: 'No pictures of Adam Beck,' and 'No pictures and no letters regarding political matters, or you lose your license.' Are we slaves in this country, and are they our masters at Queen's Park?"

Mr. Curry scored the government for juggling with the date for the election, criticized their inconsistency on the temperance policy, and alluded with sarcasm to the poster signed W. H. Hearst, "claiming that the Hydro-Electric had saved \$50,000,000 for Ontario." Mr. Curry, who has been the Liberals' had ever been opponents of Hydro, but had accorded generous support. It was true, he said, that the government passed the woman's suffrage law, but not until the time came when they realized that if they had not done so they would have gone out of power.

Discussing the question of the high cost of living, Mr. Curry said: "The government never stood by me in 1905-6, when I was prosecuting the combine, I charge that without fear of contradiction." He referred to prosecutions actually stopped by the government, and said he did what his self-respect told him by resigning. "I charge, too," added Mr. Curry, "that the failure of the government to prosecute combines brought the high cost of living to what it is today."

LIBERALS RESPONSIBLE

Credit for O. T. A. Due to Dewart Party, Says Bundy Supporter.

Among the speakers at a meeting in Winchester Hall last night in favor of Mrs. Bundy, were: G. Toner Ferguson, Judge Patterson, Dr. St. George, and Dr. Charles Sneath, who spoke near the close of the evening, defined the difference between the Liberal party and that of the Conservative government. Sir William Hearst says that if yes carries the first question on the referendum, it will destroy the others; Mr. Dewart promises that if the Liberals are returned to power the bar will never be returned.

Mr. Patterson claimed that it was the Liberals and then to the good sense of one man, Sir William Hearst, that Ontario owes its temperance act, which the government accepted to save its political life.

FROM THE LIBERAL LEADER TO THE PEOPLE OF ONTARIO

The present Government appeals to you upon its record.

We charge that the Government has failed to represent the people and has outlived its usefulness.

No body of men has the right to usurp power and continue to rule without submitting its policy to the consideration of the people.

The Government has failed to take the people into its confidence in framing its policy in the past, as also in formulating its policy for the future.

The Government stands charged with neglect of public interest.

The Government stands charged with the extravagant and wasteful expenditure of public moneys, with no corresponding result.

The Government stands charged with its failure to prosecute those who have been combining and profiteering and being in large part responsible for the highly increased cost of living.

The Government stands charged with a lax administration of justice.

The Government stands charged with failure to develop and conserve our Mines and Minerals and natural resources.

The Government stands charged with apathetic treatment of the vital problems of Soldier re-establishment.

The Government stands charged with a shameful breach of its promises and scandalous treatment of the returned Soldiers in the Kapuskasing Settlement.

The Government stands charged with partisan and ineffective administration of the Ontario Temperance Act.

The Government stands charged with its failure to institute a Department of Labor under a responsible Minister and to enact progressive Labor Legislation.

The Government stands charged with utter failure to appreciate the conditions of Agricultural unrest, much less to suggest a remedy.

The Government has failed to give a sympathetic support to the Hydro-Radials policy, in which the Municipalities are so deeply interested.

These are but a few of the items in the indictment against the Government, to which there has been no effective reply. The reconstructed Liberal party in Ontario at a democratic convention has outlined a programme and a policy that appreciates existing conditions and proposes progressive reforms and remedies.

These issues are clear-cut and well defined. You must pass upon these issues by your vote in favor of the Liberal candidate or candidates in your riding if you are to have any relief and an aggressive and progressive Government.

These issues are separate and distinct from the vote upon the Referendum Ballot, DO NOT ALLOW ANYONE to confuse the Two Ballots.

WHAT THE PEOPLE OF THE PROVINCE OF ONTARIO DEMAND BY THEIR VOTES UPON THE REFERENDUM BALLOT THEY WILL OBTAIN BY VOTING FOR THE LIBERAL CANDIDATES, AND THEY WILL OBTAIN A NON-PARTISAN AND EFFECTIVE ENFORCEMENT OF THE LAW THAT THEY HAVE NOT HAD IN THE PAST.

The Liberal party proposes to trust all the people and asks with confidence for the support of all the people, whether Liberal or Conservative, Artisan or Farmer, who desire better Government in Ontario.

LIBERALISM in Ontario today is a living, vibrant, sentient force. It is the one potent force that has sensed the meaning of the new and greater democratic ideas which must be the driving force of future political action. It realizes the new conditions and new problems that have to be faced and will courageously endeavor to find their solution. The programme and policy which it enunciates is not framed at the behest of the big interests, which have too long controlled and fettered Government action in this Province. Its policy is the expression of the democratic thought of Liberal men and women who earnestly desire the best things for all the people. Upon that platform we confidently appeal to the men and women of Ontario, no matter what their previous political associations may have been. We pledge ourselves to consider the interests, not only of a class or section of the community, but the interests of all.

LET US ENTER UPON A NEW ERA of active and energetic administration, and develop the material, social and moral forces of this great Province so that our returned men, our farmers, our artisans and all our citizens may find peace and contentment, as well as increasing prosperity and progress, in this, the greatest Province of the Dominion, and work out together the great destiny that lies before us.

A. Hartley Dewart

LABOR POLITICAL MEETINGS.

John MacDonald, Labor candidate for Southwest Toronto, and James Simpson, candidate for West York, addressed well-attended meetings. Mr. MacDonald at Broadway Hall and Mr. Simpson at Ravina Bink. Opposition to the policy of the present government as class legislation and the need of Labor representation in the provincial house featured the addresses of the evening. Herbert Lewis, Louis Brathwaite, Mrs. Singer, William Stephenson and other well-known labor men taking part. J. W. Buckley was well received at a meeting of the letter carriers, 8 O. E. Hall, and in a masterly address

pointed to the various needs of the moment, chief among which was the system of electoral proportional representation. He drew analogies from the present Australian Labor government, specially referring to the splendid enactments in force in Queensland by which the cost of living was much reduced, education was raised to a high standard of dignity and various means taken to protect both the widow and the aged.

TO ADDRESS MEETINGS.

James McArthur Conner is addressing U.F.O. gatherings at Aurora, Lindsay and Chatham, over the week-

end. He addressed a large gathering at Acton last week, and stated yesterday afternoon that opinion in that district was veering towards prohibition.

MACDONALD MEETINGS.

John Jones, business manager for the Teamsters' Union, held a successful meeting yesterday afternoon in the barns of the Dominion Transport Company, Wellington street, and John, on behalf of John MacDonald, Labor candidate for Southwest Toronto, other successful meetings were also held in the city during the day. One man is said to be wagering \$500

that Mr. MacDonald will be elected, while another has a hundred-dollar bet on the same man. More than 1,800 employees at the Massey-Harris works held a meeting on his behalf.

STREET RAILWAY UNION GROWS

Toronto Street Railwaymen's Union has grown by leaps and bounds recently. In November, 1917, the union had 2,095 members; 1,818 in October, 1918, and 2,668 in October, 1919. Practically all the old members who survived the war have returned and an average membership of 2,700 is looked for from now on.

BATURDAY MORNING, OCT. 18.

Chickens Coming to Roost.

It is the fault of the present administration, and they have only themselves to blame when The London Advertiser and other Liberal journals reproach the Conservative party with being reactionary and failing to respond to the will of the people.

Had I served my people as I served the nickel trust, Premier Hearst may paraphrase the words of the fallen cardinal, 'my party would not have deserted me in my need.'

Major A. C. Lewis declared at a meeting in Victoria Hall in the interests of Premier Hearst's candidature that Sir Adam Beck deserved no credit for the Hydro-Electric policy.

It has been circulated among the faithful for some time past that Sir Adam's successor is all chosen and ready, and all that is necessary is to elect men who have confidence in the government, as Premier Hearst himself phrases it.

There is another element also in this situation, entirely non-partisan in its nature, yet strongly political. The soldier organizations are definitely non-partisan in their policies, and as units the members have common interests and common sympathies.

The Telegram too truly represents the intolerant machine spirit of the administration in this respect, which has alienated in turn the Liberal Independents who supported Sir James Whitney; the farmers, so that Hon. George Henry is likely to follow Hon. Nelson Monteth into oblivion.

The last-mentioned defection may be studied in Toronto, where the Liberal organization has never been elaborate

nor strong, but is now invigorated and active thru the efforts of reviving Conservatives. A prominent Conservative wagged 10000 this week on the election of Hartley Dewar, and the election of 'Honest John' O'Neill is generally conceded.

Trust in the Party, or a Party to the Trust.

Premier Hearst, in a final appeal published in last night's Telegram, asks for the election of men who have confidence in the government, and concludes: 'My pledge to the electors is that I will, if sustained, give clean, strong, progressive and patriotic government to Ontario in the interests of the whole people.'

Major A. C. Lewis declared at a meeting in Victoria Hall in the interests of Premier Hearst's candidature that Sir Adam Beck deserved no credit for the Hydro-Electric policy.

Hydro Leadership and Hearst Supporters.

When even The Telegram is compelled openly to repudiate the utterances of one of its white-haired boys, we can understand that the popular conscience is being pretty roughly stirred.

Major A. C. Lewis declared at a meeting in Victoria Hall in the interests of Premier Hearst's candidature that Sir Adam Beck deserved no credit for the Hydro-Electric policy.

It might seem that it was merely a coincidence that Major Lewis and Mr. MacNicol should agree to belittle Sir Adam Beck, but it is surely more than a coincidence that Dr. Hughes Stevenson, who professes to be the Labor candidate in London, but is repudiated by all the Labor leaders, uses large words practically identical with that of Major Lewis and Mr. MacNicol.

We know that a party machine has been organized under the Hearst government, and we know that general attempts have been made to bring the Hydro system into subservience to that machine. We know that Sir Adam Beck fought that attempt, and refused the bribe of a portfolio as minister of power.

There is another element also in this situation, entirely non-partisan in its nature, yet strongly political. The soldier organizations are definitely non-partisan in their policies, and as units the members have common interests and common sympathies.

The Telegram too truly represents the intolerant machine spirit of the administration in this respect, which has alienated in turn the Liberal Independents who supported Sir James Whitney; the farmers, so that Hon. George Henry is likely to follow Hon. Nelson Monteth into oblivion.

MONTREAL, G.T.R. MONEY AND MR. FIELDING.

SOME of the brethren are exhibiting the tantrums of despair. The council of the Montreal Board of Trade has banned public ownership of railways with bell, book and candle. One speaker has got beyond the viewings-with-alarm stage—he looks with horror on national ownership.

Mr. Graham jumps in. The policy of The Montreal Star is to let the English shareholders whistle for that money in a forsaken market-place. The too too generous Canadian taxpayer must be kept away from this situation.

Mr. Fielding is a picture man. But he is the last who should talk confidently about the errors of a government policy of railway ownership. Sixteen years ago he assured a confident people that the Grand Trunk Pacific-National Transcontinental would get them thirteen million dollars.

Mr. Fielding, like so many others who are afraid to look because they don't want to see, prefers taking a general refuge behind war abnormalities in Britain and the United States, to examining impartially what has been accomplished in his own country, by his own countrymen, as reflected in the efficiency of service rendered and the lowness of prices charged for it.

Mr. Fielding is a picture man. But he is the last who should talk confidently about the errors of a government policy of railway ownership. Sixteen years ago he assured a confident people that the Grand Trunk Pacific-National Transcontinental would get them thirteen million dollars.

THE WEDDING PLANS.

CHAPTER XII. As the date of the wedding approached, and the fresh spring days changed into the warm languor of late May, Louise found herself going to pieces under the strain of social excitement. She got into the habit of drinking large cups of strong coffee at all sorts of odd hours, to brace herself for further efforts.

Harry telephoned the country club where she was expected that Miss Driscoll was ill and could not come, and literally carried her off to the country.

"What scare you, sweetheart?" she asked. "It would if it were anyone else, but not with you. All my life isn't a bit too long to tell you and show you how much I love you."

"Ten years from now and every day in between," he promised. Presently he asked: "This new suit and the flowers I have for you for the wedding are just about going to clean out my bank balance. We have to have some furniture, you know, when we move into our house."

"I know! I have the very idea—the attic is stuffed full of the funniest old-fashioned furniture, queer, dark walnut things with knobs and curlicues all over them. Mother had it before this house was redecorated. I'll just have the whole lot shipped over, and as we get things we'll throw it out. There must be enough to furnish that whole place. It won't go with it, of course, but we won't mind, will we?"

"I probably shan't even see it if you're around to look at," was the way Harry agreed.

THE DAY AT OTTAWA By TOM KING

Ottawa, Oct. 17.—Onesiphore Turgeon, Liberal member for Gloucester, N.B., is a quiet and highly-respected Acadian, who has sat in the house for twenty years. Today he delivered a speech on the second reading of the Grand Trunk bill, and carried the day into Africa, or, rather, into Ontario, on the subject of public ownership.

Mr. Turgeon strenuously objected to Mr. Rowell's assumption that all the friends of public ownership were to be found in Ontario and the west. He reminded the House of the public ownership of railways flourished for years in the maritime provinces, and he said that the people down there had to fight Ontario Canada to prevent the intercolonial being sold or given away to some private corporation.

Mr. Turgeon insisted that every man who professed to favor government ownership of railways was to ask him where he stood on the nationalization of the Canadian Pacific. If government ownership and operation of railways were desirable, every-one must admit that our national system should include the Canadian Pacific. Yet members of the government had gone out of their way to assure the Canadian Pacific that private ownership of a big scale would

than the prime minister of Canada, speaking in the name of half a million Canadian soldiers. He lives among the colonial ideas of the last century, and decade but one. You cannot settle a prime question of national economic policy by counting the men who look out on to the future thru glasses that were blown with the dust of old gold.

ASK FOR RECOGNITION AS INDEPENDENT STATES

London, Oct. 17.—The Lettish legation here announces that the representatives in Paris of Estonia, Georgia, Kuban, Latvia, Lithuania, Rumania, Azerbaijan and the North Caucasus have petitioned the supreme interallied council as follows: "First—To recognize each of the above named republics as an independent state. "Second—To begin immediately an examination of the territorial, financial, economic and other questions resulting from the fact of such recognition."

TAFT PRESIDENT OF UNITARIANS

Elected for the Third Time, and Montreal Man Chosen Among Vice-Presidents. Baltimore, Md., Oct. 17.—For the third consecutive term, former President William Howard Taft, was today elected president of the general conference of the Unitarian church societies.

The other officers elected were: Vice-president, Adelbert Mott of Buffalo, N. Y.; Hugh McKennan, London, Ontario; John W. Lord, Montreal; John Shepherson, Charlestown, S. C., and Miss Anna Bancroft of Hopedale, Mass.; secretary, Rev. F. Percival Weston, Mass.; treasurer, Percy Atherton Boston.

Discussion of the closing session of the proposed federation of Unitarian churches with those of the Unitarians and Congregationalists, brought to light the fact that there was a feeling against such a union, due to certain denominational preferences and the unwillingness of the older members of the Unitarian conferences to sacrifice any of the traditional denominational identity.

A resolution providing for the appointment of a commission of the Unitarian church which will confer with similar commissions from the other two denominations looking to some mutual understanding between the three churches, was finally adopted.

WILL SEEK TO FLY TO THE ANTIPODES. Four Machines Have Entered Contest for England-Australia Flight. London, Oct. 17.—Despite the enormous difficulties of the flight from England to Australia, four machines have entered in the competition, for which the Australian government has offered a prize of \$50,000.

The competitors are Capt. Matthews, who has announced that he will make a start on Monday, with a Sopwith airplane similar to that used by Hawker in his attempt to fly across the Atlantic; Capt. Howell, with a Martinie machine; Lieut. Douglas with an Alliance machine, which is claimed to be capable of flying 8000 miles and which is equipped with a powerful wireless, and Capt. Wilkins with a Blackburn machine, the largest of all. The latter is to carry two pilots, one of them, Engineer Wilkins, the well known Polar explorer, who was in command of Stefansson. The Australian government is despatching a wireless steamer patrol to pick up the wireless from the airman during the flight.

It is recognized that these aviators start on Monday, the world's greatest aerial adventure and their progress will be watched with interest. The task is to cross the Atlantic, the Indian ocean, the course—Java to Australia—is 17500 miles, and is as severe as a transatlantic flight.

MOTIVE FOR ARREST HUNGARY'S PREMIER. Planning Coup d'Etat to Place Ex-Emperor Back on the Throne. Vienna, Oct. 17.—The motive for the attempted arrest of Premier Stephan Friedrich of Hungary, by Rumanians on Monday, was the discovery, it is said, that he was planning a coup d'etat with the object of placing former Emperor Charles of Austria on the Hungarian throne. This information is given in a Budapest despatch to The Associated Press.

GRITS FIRE H. E. AT TORY FORCES

Nickel, Reckless Expenditure and Journal Hobbling Are Among the Projectiles. Ontario nickel, reckless spending of the people's money, broken promises to returned men by the Hearst government, and a fruitless attempt by the Conservative party to "buy" The Hebrew Journal were the principal assaults hurled by the various speakers in their attack upon the Ontario government at the meeting last night in the interests of Lieut.-Col. Cooper and Jas. G. Cane, Liberal candidates for Northwest Toronto, held in Belmont Hall, St. Clair avenue.

Charles W. Kerr, K.C. held a brief for the Liberal party and accused Hon. Thomas Crawford and Hon. W. D. McPherson, Conservative candidates for Northwest Toronto, of having spent so much of the government's money that none was left with which to assist the returned men. He advocated a reduction of members in the provincial house of from 11 to 10, thus reducing legislative expenditure. The lieutenant-governor's residence is too costly a luxury, he said, and the unwillingness of the editor to return to "buy" the journal if they would take a ten-day holiday.

Intimately Acquainted With Nickel. Col. Cooper said that he and Jack Bamden stood behind Hartley Dewar on the nickel question. He had received a piece of it himself in France. The government, which addresses in huge placards what it had done in winning the war, was allowing Canadian nickel to reach Germany for Germans to shoot Canadian boys down with. In 1917, the speaker said, Ontario government representatives went to France and there made all sorts of promises, but they would do for the men on their return. They had been approached and asked to keep their promises, but had replied that the promises were made on behalf of the federal government. One man wanted to know if the Liberal party would do any better for returned men than it had done under the Liberal government for South African veterans. Col. Cooper replied that the party would, in those days, the veterans had not had their own soldier representatives, but now they had. With regard to the referendum, Hon. E. Hearst said that he was not sure of the will of the electors.

Forecast the Reorganization of the Manitoba Temperance Act. Winnipeg, Oct. 17.—General reorganization of the Manitoba Temperance Act was forecast today by Hon. T. H. Johnson, attorney-general. Mr. Johnson promised to make a public announcement to the nature of the contemplated changes. An official announcement will be made soon.

ITALY A CANDIDATE FOR MANDATE IN TURKEY? Associated Press Despatch. Constantinople, Oct. 17.—The possibility that Italy may be a candidate for the mandate over Turkey under the league of nations is being considered in political and commercial circles here, particularly in view of the great efforts that the Italians are making to establish themselves in a banking and commercial way in Turkey. Discussion of the subject is based largely upon the supposed suitability of the Italians to live in the Turkish climate, and the need which the Italians have for an outlet for their enterprises and for a "place in the sun."

WHEN YES FOUR TIMES SAY PROMINENT WOMEN

OVER 600 women workers, making up the Ladies' Auxiliary of the Citizens' Liberty League, conclude their campaign for the fair, reasonable compromise endorsed by the League—by asking the women of Ontario to vote "Yes" four times on Monday.

We realize that it will be the women of the Province—more even than its men—who will suffer most by the continuance of legislation that is causing widespread discontent and resentment.

We have made a careful study of all the data on the 2.51% Beer of the Ballot, and we have come to the inevitable conclusion that it is absolutely non-intoxicating. In all fairness and justice, then, we can see no reason why the women of the Province should not support the reasonable request for this mild beverage made by our Labor Organizations, Returned Soldier Organizations, and citizens in general.

The sale of spirituous liquors should be confined to Government agencies under such restrictions as the Government may consider it wise to enforce.

This fair and reasonable compromise can best be secured by the repeal of the unsatisfactory Ontario Temperance Act and the introduction of an entirely new measure.

Vote With These Women—Vote Yes Four Times LADIES' AUXILIARY OF THE CITIZENS' LIBERTY LEAGUE

- PRESIDENT: Mrs. Edmund Phillips
EXECUTIVE COMMITTEE: Mrs. Cecil Horrocks, George Royce, W. F. Fraser, F. A. Featherstonhaugh, W. S. Hodgson, Hirschfelder, Greenwood, Mrs. Herbert Houston, Gerhard Heintzman, F. Asa Hall, Joseph Kilgour, W. Cawthra, James George

ROUGH RIDERS STRONG.

Ottawa, Oct. 17.—Coach McCann of the Ottawa have about twenty-two men in uniform against Hamilton Tigers on Saturday, as the inter-mediate go to Montreal, and will wish to take as many of their star players as possible to the flying wing, with Andy Davies at quarter, with Art Murphy who will play at full-back, and four or five others in some great strength in reserve and need plenty will be on the sideline and need to co-operate with McCann and Capt. Davies in making the shifts.

MONTREAL LINE UP.

Montreal, Oct. 17.—The M.A.A.A. will take the field against Argonauts at Westmount tomorrow with practically all their senior players in uniform. The regular line of backs, O'Brien, Jacques Brophy and Tommy Thompson, while in case of accidents at quarter, Captain Frank McGill has an able understudy in Leason Smith, the former Argonaut player. Sharpe Dawson will be at left and right outside respectively, while the winged wheel has an able flanker in Cliff in Harold Corbett, should either of the former wings be forced to drop out. Pottier will go in at right middle player, will be shifted to left middle at left middle. Should it be decided to hold the starting out in the initial stage of the game, either Abbot or Roundhouse will fill the left middle post. Abbot is the inside berth, Lovell, Baker and Abbotovich goes to middle, his place at left inside will be taken by either Roundhouse or Marshall. Scott, at line for the McGill flying wing, Art Rowley will start in the scrum, with Rowley at centre, Davidson, Leslie Rowley, Charlie Brien and Foster are wing line substitutes.

The Rugby Clubs Have Big Program for Today

The rugby clubs have their biggest day since the renewal of the game this afternoon. In the leagues Argonauts and Hamilton play at Montreal and Ottawa, with McGill against Quebec.

CLUB SUSPENDED FOR WELSHING ON PRIZES

Ontario Branch of Athletic Union Turns Down Toronto Wheelmen.
The registration committee of the Ontario branch, at their meeting last night, placed under suspension all members and officials of the Diamond Baseball Club, who have failed to live up to their promises, the boxers are still waiting for their prizes, and every effort made by the union officials now having proven unavailing to secure same, the registration committee felt that the only action left for them to do was to place the responsibility on all the members of that organization until it is adjusted to the satisfaction of the union and the boxers.

ARGONAUT SEASON TICKETS

Argonaut Season Tickets remain unsold, which entails the burden to the same seats for the remaining Inter-Province Home Games.
Season Ticket holders will be given preference in the matter of tickets for any championship games in which the Argonaut Club are contestants.
Tickets may be obtained by forwarding payment (\$120, including tax) to the Secretary, 25 Toronto St.

AMERICAN COLLEGE FOOTBALL TODAY.

New York, Oct. 17.—The results of several of the football games to be played in the eastern states tomorrow will have an important bearing upon the final standing of teams at this season at the close of the season. Pittsburgh, by defeat, meet at Syracuse, while little may be expected at Cambridge, where the Brown will oppose Harvard, with the consensus of gridiron opinion favoring the crimson. Princeton, Yale games, the more interesting, tryout Brown at Harvard; Pittsburgh at Syracuse; Cornell at Cornell; Syracuse at Penna; Boston College at Yale; Dartmouth; Williams at Columbia; Amherst at Trinity; Haverford at Lafayette; Springfield.

SKY PILOT IS DUE AT NEW YORK TODAY

Making Good Time Eastward, and Rousing Reception is Preparing.

Minneapolis, N.Y., Oct. 17.—Army officials at Roosevelt Field were tonight planning to give a rousing reception to Lieut. B. W. Maynard, who is leader on the home trip of the army's great transcontinental air race, and who is expected to reach here shortly after noon tomorrow.

Reports late today showed that Lieut. Maynard was making rapid flight eastward and had landed for the night, 5:30 p.m., in Cleveland. Lieut. J. T. Richer, one of the trailers from the San Francisco end, followed Maynard, landing three minutes later.

Lieut. Robert S. Worthington and E. C. Kiel, who left Roosevelt field on the return flight to the Pacific coast, made fairly good time. Lieut. Kiel is reported to have landed in Cleveland at 4:07 p.m. The latest word from Lieut. Worthington was that he had landed at the Birmingham control.

Major Carl Spatz, who reached Buffalo this morning, with the permission of the Washington aviation authorities, turned his machines over to Captain Lowell H. Smith, whose airplane was burned there while being repaired. Captain Smith immediately started westward and was reported to have reached Chicago at 5:22 o'clock tonight.

Lieut. H. H. Queens, who got away from Roosevelt Field on the return flight at 11:22 a.m., was reported to have reached Cleveland at 1:32 p.m.

DR. SOPER & WHITE 21 Toronto St., Toronto, Ont. HIS USUAL LUCK In the course of one of his lecture trips, Mark Twain arrived at a small town. Before dinner he went to a barber shop to be shaved. "You are a stranger?" asked the barber. "Yes," Mark Twain replied. "This is the first time I've been here." "You chose a good time to come," the barber continued. "Mark Twain is going to read and lecture tonight. You'll go, I suppose?" "Oh, I guess so." "Have you bought your ticket?" "Not yet." "But everything is sold out. You'll have to stand." "How very annoying!" Mark Twain said, with a sigh. "I never saw such luck! I'd always have to stand when I had fellow lectures." — Edinburgh Scotsman. DISINHERITED. RAILWAYS CENSURED Jury Lay Blame for Brakeman's Death on Defective Wheels and Rails. The Grand Trunk and Canadian Pacific Railways were censured by the jury at the morgue last night in connection with the death of Brakeman Fred Norris, who was killed when a freight car fell over on him at the Don station on Oct. 1. The train, owned by the Grand Trunk, was running over the C.P.R. rails, and according to evidence given by witnesses last night, the diamond in the rails was defective, as were the wheels of the car which was derailed. It was on this testimony that the jury criticized the railway companies. Witnesses testified that the freight car wheels were worn down, and that the car had been marked to be run to the repair shop. No reason for the car being kept in service was forthcoming. Expert evidence of mechanics who examined the wheels of the car and the railway switch was to the effect that both were defective. Owing to the illness of Coroner W. A. Young, Dr. Wisham conducted the resumed inquest last night.

REPETITION. Sir Arbutnot Lane told the following story at the Annual Session of the American Medical Association relative to his frequent visits to this country: "A man came to the priest and told him of somebody who had fallen forty feet and not been injured. The priest said that was an accident. The man came again and said the same person had again fallen forty feet without injury. The priest said that was a coincidence. Again the man came with the same story, and then the priest said: 'Now it's a habit.'"

 NEW DUPLEX STROPPING ATTACHMENT  
**\$2.00** Duplex Hair Cutter and Stropper **\$1.00**  
 Complete Outfit for Only

Patented 1918  
 DUPLEX AUTOMATIC HAIR CUTTER

We have felt for some time that if the thousands of users of the Duplex Automatic Hair Cutter could strop and sharpen their own cutting blades, the Duplex would be more satisfactory. After considerable experimental work we now have a perfect stropping attachment, whereby anyone can put all four cutting edges in proper shape in a minute. We have found that at least 100 perfect hair cuts can be obtained from these blades by proper stropping.

100 HAIR CUTS AT THE BARBER'S COST ..... \$50.00  
 100 HAIR CUTS WITH A DUPLEX, COST ..... 1.00

SAVING ..... \$49.00

Isn't that worth while? Besides the cash saving there are many other advantages. You can cut your time in less than five minutes and instead of wasting hours at the barber shop. No danger of catching scurf, dandruff or other diseases. Mothers can cut their children's hair. And you are sure of a smooth, even hair cut at a cost of one cent, instead of paying from five to ten for the same thing at the barber's.

You Can't Go Wrong With a Duplex—The Slandering Teeth Won't Let You. The regular price of the Duplex Hair Cutter with stropping attachment is \$2.00. But to readers of The World who order IMMEDIATELY, and send this ad. with only \$1.00, we will send the complete outfit with stropper all ready for instant use, postage paid, to any address. Don't delay—send only one dollar for stropper and Duplex Hair Cutter. This whole wonderful outfit complete at half-price. The price of all metal is going up and harder to get at any price. We will be forced to charge the full price of \$2 in our next advertisement. Agents wanted. DUPLEX MANUFACTURING CO., Dept. 78, Barrie, Ont.

**COL. KELLY EVANS FOR TOLERANCE**

Claims Capt. Thompson and Mrs. Bundy Are Both Intemperate.

"Look at this meeting. There are men standing in the doorway right down to the passage, as they cannot get seats. Could the other candidates get such a great gathering of electors?—and it is not machine-made."

Thus spoke Col. Kelly Evans, Independent Conservative candidate for Northwest Toronto, at a splendidly attended meeting last night in St. Paul's Hall. He had good reason to be proud of the packed hall of representative men and women of the district. In referring to his adoption by the Grand Army of Canada as their candidate, he said it not only meant to him the soldiers' support, but it gave him the recognition that in the great war he had done his best. In reviewing the political platform of Capt. Thompson, Mrs. Bundy and himself, he said they seemed to be very much alike, except on prohibition. Capt. Thompson and Mrs. Bundy were advanced prohibitionists of an advanced type. "I am not," (Great cheering), shouted the colonel. "I claim they are intemperate; I am temperate; they are intolerant; I am tolerant." The other day, said the colonel, he was asked: "Supposing he would vote for Thompson or Mrs. Bundy," and he replied the woman had honestly believed in temperance all her life, but Capt. Thompson was just a new convert—(cheers and laughter)—and when a man suddenly changed his religion he became enthusiastic. (A voice: Only for a time.) The intolerant wave which had swept over the country was the result of a "pulpit preaching. He defied Dr. Chown or any other preacher to show him a line in the Bible justifying prohibition. If the preachers told the truth and said: "We can find no mandate in scripture for prohibition. But we think you ought to follow such-and-such a course," that would be different. But they dare not. Intoxication was mentioned in the Bible, but there was no mandate against wine. The Saviour turned water into wine. Why? Perhaps by looking into the vista of the future he saw the evils of cocaine, morphia and other drugs. Personally, said the colonel, he was for ardent spirits under strict government supervision, and was not in favor of the old-fashioned bar. In short, he advocated reasonable liberties on this question for all the people.

Better in Lion's Den. Referring to machine politics, he said he would soon trust himself in a den of lions as a machine convention—he preferred to fight in the open. The party

had switched Mr. Schofield from his big house in Rosedale—they evidently thought him too easy for Evans—to a down-town division, and brought Joe Thompson from cabbage town to N. E. Toronto. The colonel referred to a card being circulated asking the people to vote for Cody and Thompson, the Conservative candidates, as a "lie." Dr. Cody was not a candidate, he was a member of parliament, but he supposed the machine thought it necessary for him to carry "Joe." Captain Thompson had stated he, the colonel, had no home in Toronto or a telephone. "I am 57 years of age," he said, "and I have lived in Toronto 50 years out of that. I also have a telephone, but I forgot the number."

Petty and Piffing. He described such charges as petty and piffing. The colonel declared he was not a Hearst candidate but an old-time Whitney Conservative. "What treatment," he asked, "do you think the committee of one hundred would have received from Whitney? Is this government to be run from Queen's Park or from the pulpit by a body of faddists? Give me a chance to show what I can do in the legislature if you are satisfied with my principles. I promise not to change my views at the seventh hour to satisfy a lot of hysterical and faddy women."

Thanks to World. In conclusion, the colonel said he wished to publicly thank The World for the fair way it had treated him, and the show it had given him, some of them might not agree with his political views but it was at least a news paper.

H. McCloud, treasurer of the Grand Army of Canada, said Colonel Kelly Evans had been endorsed unanimously by the G. A. C. candidate although there was another soldier in the field. They felt satisfied he was the best man to look after the soldiers' interests.

Colonel Kelly Evans will speak again tonight at Winchester Hall.

**DEWART ATTACKS O.T.A. ENFORCEMENT**

At Bowmanville Rally, Says Hearst's License Inspectors Are Negligent.

Special to The Toronto World.  
 Bowmanville, Oct. 17.—H. H. Dewart, Liberal leader, before an audience that crowded the town hall here this afternoon, sarcastically treated attempts of opponents in Toronto to question his loyalty. He said their experience was more with ward tactics in Toronto than war tactics.

Premier Hearst had taken the lead and others had followed. "I don't require any of these firebrands who have been overseas in 'cushie' jobs to inform the people of Toronto on the subject of my loyalty." When Premier Hearst read "Morgan's Men and Women of the Time," Mr. Dewart said, he might have noted Hon. William Meredith had drawn the trifling sum of \$7000 from the Ontario government for recommending the German workmen's compensation law as better suited to Ontario conditions than the British law or the law of any other province.

Sir William Hearst, a politician, said Mr. Dewart, who in his day had worn many different suits of clothes. How does he enforce the license law in his own constituency? His license inspectors this very week was fined for negligence in driving a motor car. Evidence showed that the negligence was due to the license inspector being under the influence of liquor and ran down two people.

The temperance issue, he said, is now before the moral conscience of the electors. His references to temperance were applauded. H. H. Dewart said the soldier candidates of the Liberal party are men who have suffered in the war and are not products of ward politics. J. W. Oakes, former organizer of the committee of one hundred, speaking of the enforcement of the O.T.A., repeated his challenge to the Liberal party on an honest effort to show what I can do in the legislature if you are satisfied with my principles. I promise not to change my views at the seventh hour to satisfy a lot of hysterical and faddy women."

He charged that J. D. Flaville personally admitted to him that in ridings where there is a German vote no attempt is made to enforce the O.T.A. This is not the first time, he added, the license commissioners have deliberately attempted to bribe the voters of Toronto with liquor.

Instructions Regarding Jews. "I saw the written instructions to the inspectors and to the police department to let the Jews have all they wanted—brandy, gin, rum or wine—in any old place they wanted and I know that the motive was to put the hooks in Dewart."

Mrs. Dr. Horace McPhedran said she had given the utmost consideration to the political situation in Ontario, and had come to the conclusion that the policy and campaign of Mr. Dewart deserved the heartiest support of the women electors of Ontario. She had thought of voting for Canon Cody in Toronto, but she realized that a vote for Canon Cody is a vote for Hearst, and besides, Canon Cody had been speaking from the platform of the Orpington Hospital. "The whole thing," said Mrs. McPhedran, "is a scandal, and the people of Ontario must pay for it. The Hearst government, on account of it, is absolutely discredited by the men overseas."

W. E. N. Sinclair also addressed the meeting. John A. Holgate, president of the West Durham Liberal Association, was chairman, and M. A. James was on the platform.

**NEW GLARE SHIELDS PROTECTION TO EYE**

An American manufacturer has recently introduced a line of opal glass lamp caps and glare shields for industrial lighting use. The lamp caps are made of opal glass having good diffusing with low absorption of light. They closely fit the bulbs of gas-filled lamps, being held in position by coiled spring holders, and conceal the lamp filament and further cut down glare. The caps are specially fitted for use with reflectors that would not otherwise afford sufficient eye protection.

**BUSINESS BEHIND VICTORY LOAN**

Bankers, Brokers and Finance Hear Address From Sir Henry Drayton.

Bankers, brokers and the finance department were the trinity represented at a gathering at the King Edward Hotel last night, when Sir Henry Drayton, minister of finance, was the guest of honor and Sir Edmund Walker spoke of the combination as a partnership necessary to the success of the coming Victory Loan.

In his opening remarks Sir W. Mitchell, chairman, pointed out the strength of the representation present, which, together with the experience of former campaigns, improved system and even greater co-operation than in former loans, made for splendid results. The canvassers, said the speaker, looked upon the bankers as their firm ally, and it was to the bank managers that Toronto owed its victory over Montreal on the Monday of the last loan.

That the bankers of Toronto should be satisfied that the loan is necessary as necessary as the loans of Sir Edward, was the statement of Sir Edmund Walker. There is yet much to be done. To the returned and returning heroes the last ounce of justice that common sense could demand was to be granted. Production is to be developed and a market found in other countries for the products of the Dominion. Ships are to be placed and other things to be done, which

make the coming Victory Loan absolutely necessary if we hope to finish this job we have entered upon, said speaker, who also quoted Cardinal Mercier's tribute to Canada as having more of its heroes killed in proportion to its population than any other country.

C. A. Bogert, vice-chairman of the Canadian Bank Association, in introducing Sir Henry Drayton, said the people of Canada were never more interested in a loan than in the present; they were also interested in the manner in which it would be spent.

An enthusiastic welcome with cheers and waving of handkerchiefs greeted the minister of finance, who reciprocated with words of praise for the banks and of every Canadian. The business of every banker, of every industry and of every Canadian. The cost of demobilization and reconstruction was \$16,000,000. The speaker was optimistic as to the part the bankers would play in the loan, and reminded them that the banker who draws the largest from his deposits will stand higher with his executive.

Sir Henry Drayton concluded with an eloquent appeal to patriotism and the desire to advance the community and the Dominion of Canada.

The natives of the Sudan store their water in the remarkable Adonsonia digitata trees, whose are about 18 feet in diameter for a height of 20 feet.

The natives cut a hole in the tree near the top of the straight trunk, and hollow out the interior, until a mere shell a few inches thick remains. Then a basin is formed in the earth near its base, which fills during the rainy season. This water is stored in the trunk of the tree, and remains sweet for long periods. Even after two years only a slight discoloration was noted in the water.

Natives sell water from these storehouses to travelers. Tenants

### BRITAIN REACHING LIMIT OF STRENGTH

#### Lloyd George Makes Appeal to United States for Assistance in Turkey.

London, Oct. 17.—In his speech at Sheffield last night, Prime Minister Lloyd George attributed the delay in the conclusion of the peace treaty with Turkey to the uncertainty as to the attitude of the United States. It was impossible, he said, to settle the destiny of Turkey before knowing whether the United States was going to share the burdens of civilization outside the United States.

"During his references to Turkey, Mr. Lloyd George turned to American Ambassador Davis, who was present, and said:

"I am glad that you are brought face to face with the American ambassador. We are undertaking a great civilizing duty at great cost to our country. Providence has sent this mission to our race. We beg our kith and kin in America to join us in this task. Unless they do so, I do not know what will happen to parts of the Turkish empire."

The prime minister, in a further reference to Turkey, said: "The people of Turkey have been living in the shadow of a great tyranny for centuries. They are appealing to America for help. I hope that the appeal will not be in vain. Such a remark might sound impertinent from a British minister, but we are undertaking similar responsibilities ourselves, and find that we are coming to the limit of our strength, and that it is unwise for us to go further."

### FEDERAL MEETING OF TOWN PLANNERS

#### Experts From Canadian and U. S. Cities Gather in Ottawa.

Ottawa, Oct. 17.—Describing housing conditions and the environment in which thousands are compelled to live in the larger cities of the American continent as the great crime of the past, Hon. N. W. Rowell, president of the privy council, in welcoming the members of the American City Planning Institute and the Town Planning Institute of Canada to Ottawa for their conference, this afternoon, urged upon them the necessity of striving during the present reconstruction period in an endeavor to bring about a new and better social order.

"After a welcome to the delegates on behalf of the city by Mayor Fisher, the chair was taken by Mr. N. P. Lewis of New York, president of the American town planning institute. Mr. Thomas Adams, chairman of the Canadian town planning institute, referred to the debt which the association in Canada owed to those in the United States, who had started the work in which the associations were now engaged. Mr. F. L. Olmstead of Brookline, Mass., read the committee report on some fundamental considerations as to city planning. A report of rules for the establishment of street widths and their subdivisions, read by Mr. B. A. Haldeman of Haverburg, Pa., was adopted.

### CLUE TO THE O. B. U.

#### Vancouver Labor Leader Says Most of O.B.U. Men in the West Work on Government Railways.

Vancouver, B. C., Oct. 17.—J. H. McVeety, who represented the local Trades and Labor Council (International) at the recent Labor Congress in Hamilton, in reporting to the council last night on the work of the congress, declared that the opposition of the government toward the One Big Union should be directed toward government employees who were in that organization. He said the Canadian National Railways employed most of the One Big Union men who were in western Canada and the Esquimaux Navy Yards was a breeding ground for One Big Union advocates.

"The government, instead of opposing the One Big Union, is fostering it by permitting it to continue in the government service," he declared. President Welsh said the matter was being brought to the attention of the government.

### Body of a Returned Soldier Is Found at Collins' Bay

Kingston, Oct. 17.—The body of an unknown man, apparently a returned soldier, was found along the G. T. P. tracks at Collins' Bay yesterday. An examination of the body indicated that he had been struck by a train. He was about 45 years of age, wore a dark mustache and was medium-sized. The letters "E. L." were tattooed on his left forearm. There was a gunshot wound in his left side.

### REPORT LESS DRUGS

#### Federal Department Says Big Reduction in Narcotic Drug Habit Under License System.

Ottawa, Oct. 17.—Department of Trade and Commerce records show a big reduction in the narcotic drug traffic since that department assumed control of imports last May. For the three months ended September 30, 1,100 pounds of opium were licensed for importation into Canada, compared with an average import of 8,500 pounds for each quarter last year. Similar comparison shows morphine reduced 62 per cent, and cocaine 59 per cent. The department traced distribution of the heavy imports of last year, which brought to light the principal dealers who had been selling narcotics too freely.

### THREE MURDERERS DIE ON SCAFFOLD

#### Steep Creek Bandits Are Hung in Prince Albert Jail Yard.

Prince Albert, Sask., Oct. 17.—For the murder of James McKay, sheriff's officer, in November last, the three Steep Creek bandits died on the scaffold this morning at 7 o'clock. Victor Carmel, Jean Baptiste St. Germain and Joseph Gervais were taken from their cells at 7 o'clock into the jail yard, and within one minute from the time the guards entered the cells the men were dead. They died side by side at the same time, on the scaffold, for the same crime. They gave no trouble and walked boldly to the scaffold. Arthur Ellis carried out the sentence of the court, the men standing on a single trap, and in the drop their necks were broken and death was instantaneous. Pulsation ceased 12 minutes afterwards in each case.

### CLASS SELFISHNESS AND MOB VIOLENCE

#### U. S. Has Reacted Into Apparent Orgy, Says Secretary Redfield to Manufacturers.

New York, Oct. 17.—While America "talks and talks some more" opportunity to fulfill her duty to the small states created by the war awaits the formal re-establishment of peace, Secretary Redfield of the department of commerce, declared here tonight, speaking before the American Manufacturers' Export Association. Until peace comes, he said, organization of the vast agencies necessary to finance the commercial regeneration of the world cannot begin.

From the elevation of spirit of war times, the secretary said, "we have reacted into an apparent orgy of class selfishness varied by mob violence." It must seem to the onlooker, he added, that America had made up her mind to say to Europe "good-by and the devil take the hindmost" and it took no little confidence to hope still that we have not left the game before it was over, but are to see it out to the end of the last inning.

### FINANCING WEAKER NATIONS

In approaching the task of financing and supplying the weaker nations, Secretary Redfield said, "A credit providing organization beyond anything we have ever known" must be erected, embracing all American commercial life. Such an organization, with a capital of \$500,000,000 or a billion, he explained, could be developed by country-wide appeal to the investing power of America, and could take foreign securities, distribute them so as to average the risk, and against them issue its own debentures at commercial interest rates, and in such denominations that all might purchase.

These it would be necessary to place all over the United States, he said, "for a great sum would be needed, probably two, perhaps three billions, possibly more. These in turn would be invested in our enterprise and so the good work would go on."

As it is, Mr. Redfield said, the United States can do "a retail foreign trade" and not see others fill the place in the world we have the power to take if we have the vision to see the opportunity and the wisdom to use it.

### DA'ANNUNZIO ISSUES MANIFESTO TO SERBS

#### Flume, Oct. 15.—Gabriele D'Annunzio has issued a manifesto to the recognition by the Serbs of a community of interest between Italy and the Serbs. It says:

"Serbia there exist no obstacles to a harmonious peace; Flume wishes to be Italian.

"Freedom of commerce in the Adriatic will be prohibited to you, but will be enlarged for your benefit. The only obstacle now is political intrigue and foreign gold. Now they seek to collect forces in the neighborhood of Flume to occupy the city, the citizens of which, with volunteers, will defend it unto death and destruction."

## The Soul of a Vision

So then—  
My part is ended. Other men,  
And women, too, still play their part,  
With courage resolute and dauntless heart.

My broken comrade—  
Seared by scars that time can not efface,  
Is not the jest of fortune; for his aid  
A nation's mighty forces doth provide.

And those who live—  
To carry on our story down the years,  
Face not their "quiet days" in bitter pain;  
(Forgotten, now they've stilled the nation's fears)  
Dwarfed by the lust of pride and selfish gain.

My Canada—  
Thou fair land for whom great love  
Inspired my youth to ancient sacrifice;  
Grant that our serried ranks in realms above  
May witness bear thee, worthy of the Price.

## To Pay Debts of Honour

To the Dead and to the richness of their dying,  
we must give pause, and in humility confess  
a debt beyond redemption.

Before the altar of their sacrifice, Canada is consecrated to make its dominion worthy. The Torch that illumines Victory so dearly bought, must burn eternally. Each year of peace must record an added lustre to our heritage.

But to those who have come back in suffering, Canada owes a debt which money can, in part, repay.

It is a Debt of Honour, Canada was pledged to the end, that the wounded and the sick be adequately cared for, until they were fairly fitted for the competitive existence of life.

For this purpose, our medical services, and our vocational training schools must be maintained until the need for them is no more.

These, then, are some of the purposes for which the Victory Loan 1919 is being raised. Other purposes are told about in other announcements.

As you read them, the conviction will grow upon you of the absolute necessity for the

### TALE OF OUTLAWRY AMAZES THE WEST

#### Bandits at Steep Creek Built Series of Underground Tunnels.

Prince Albert, Sask., Oct. 17.—The story of the career of Gervais, Carmel and St. Germain, at Steep Creek, who are being hung today for murder, is an amazing tale of outlawry. Gervais, who had been practicing hypnotism in Montreal, met Carmel and St. Germain at a dance in St. Hyacinthe, Que., and induced them to go to Montreal. A close association immediately sprang up.

In August, 1917, the three men came to Prince Albert. To keep Carmel and St. Germain out of military ser-

### DOUBTS NECESSITY OF MARBLE MARTS

#### Alberta Commission Trying to Place Cause of High Coal Prices.

Calgary, Oct. 17.—"Is it necessary to have a marble building and mahogany fittings to sell coal?"

This was a question asked George L. Peet of Toole, Peet & Co., by Mrs. G. S. Corse, during the session yesterday of the Alberta coal commission. Mrs. Corse put the question with the idea of finding out what were the overhead expenses by some dealers in handling coal in the city of Calgary.

Mr. Peet replied that he was not making more money out of the coal business than when he occupied a little log shack and paid ten dollars a

### SPEAKER WILL HEAD DEVOLUTION COMMITTEE

#### London, Oct. 17.—It is announced that the speaker of the house will be chairman of the federal devolution committee whose personnel will consist of sixteen members of the commons. The commission will consider and report upon a scheme of legislative administrative devolution within the United Kingdom, having regard firstly to the need of preserving to the imperial parliament the exclusive consideration of foreign imperial affairs and subjects affecting the United Kingdom as a whole. It will also consider and report upon the allocation of financial powers to the imperial parliament and the subordinate legislatures, special consideration being given to the need of providing for effective administration of the allocated powers. The special

### VETERANS GUESTS OF HONOR.

Sixteen local veterans were the guests of honor at a banquet tendered by the council and citizens of the town last night. Mayor Garthouse presided, and during the evening a program of music was given. Each returned soldier guest was presented with a gold medal suitably inscribed with a tangible token of the appreciation of their services overseas.

### BRINGS GOLD DUST

#### Seattle, Oct. 17.—With \$100,000 in gold dust aboard, the power schooner Ozmo arrived here yesterday from Kuskokwim river points, Alaska, bringing that district's season clean-up of placer diggings. In rough weather the Ozmo lost two booms.

It is expected that the commission will start its work at an early date.

PATRIOTIC SOCIETY HEARS REPORTS

Net Collections \$9,820,000— Outstanding Subscriptions \$220,000.

The Toronto and County of York Patriotic Association held a meeting yesterday at the city hall to receive reports from the various committees of the association.

Amongst the numerous branches of work performed by the association are questionnaires, wife description, relief to the women, transportation of a wife and family of dead soldiers to their home town, vocational training of imperial widows, and the award of sufficient pensions. These are but a few of the subjects of work dealt with by the association.

The number of dependents on the fund is made up as follows: 109 wives, 253 widows with one child, 187 widows with two children, 107 widows with three children, 61 widows with four children, 17 widows with five children, 8 widows with six children, and one wife with eight children.

The miscellaneous list is made up as follows: 111 mothers, 1 father, 2 grand mothers, 1 niece, 4 sisters, 5 guardians, 1 aunt.

The total amount of allowances distributed for September amounted to \$18,414.29, of which \$225 was compassionate, against \$25,837.40 in August, of which \$11,444.13 was compassionate.

The average monthly allowance to families for September was \$21 and for individuals \$8.

E. R. C. Clarkson was in the chair and a good number of the council were in attendance to support him.

PLAYED TO PRINCE

For First Time in Record Allen Paterson's Grand Orchestra

For the first time since the theatre was opened there was no orchestra at the Allen Theatre. Murmurs went about the house when the musicians failed to put in their appearance, and when the organ continued to supply the picture accompaniment many jumped to the conclusion that there was something wrong. But this was dispelled just before the showing of the feature picture when this slide appeared on the screen:

"By special request the Allen Premier Concert Orchestra, under the direction of Enigi Romanelli, is playing this evening in Hamilton, Ont. His Royal Highness the Prince of Wales."

The Allen orchestra went to Hamilton on Friday and supplied the music at a dinner and dance given in honor of the Prince of Wales by the White-Rose Women's Historical Society. Director Romanelli was delighted to accept the request of the people of Hamilton, while Messrs. Jule and Jay J. Allen were equally appreciative of the honor conferred upon the theatre.

This is said to be the only case on record where an entire theatre orchestra has left its usual place in order to play for a royal guest. Paterson applauded the announcement vigorously.

ADAM CLARK PASSES

Hamilton, Ont., Oct. 17.—The death occurred today of Adam Clark, plumber and contractor, of Burlington, in his 76th year. The deceased commenced business here in 1877, and built up one of the largest plumbing establishments in Hamilton. A widow, three sons and one sister survive.

PLAYS, PICTURES AND MUSIC

"Roads of Destiny"

A. H. Woods will present Florence Reed in "Roads of Destiny," the latest work of Channing Pollock, at the Royal Alexandra Theatre, all next week, commencing Monday evening, with matinees on Wednesday and Saturday. While Mr. Pollock received his suggestion for "Roads of Destiny" from the story of the same title by the late O'Henry, there is nothing of the latter in the text, except, perhaps, a suggestion of the immutability of Fate.

Florence Reed, as the star of the play, has ample opportunity to display her versatility. In each of the three acts she portrays a different role. In the first, she is Rose, the manipulator of the roulette wheel in a gambling house in Alaska; in the second act, she is a fashionable woman at a fashionable party; in the third, she is a demoted kitchen maid, who has been the victim of a man and Fate's agent in a Nebraska home.

After one of the most successful runs ever recorded in New York theatrical circles for any dramatic performance, the Royal Alexandra Theatre, New York, is presenting "The Riddle Woman," the celebrated Polish author, C. Jacobi, and has been adapted for the American stage by Charlotte E. Wells and Dorothy Donnelly. Seats for all performances will be placed on sale next Thursday morning at the theatre box office. The matinees will be as usual on Wednesday and Saturday.

"La La Lucille," at Princess. Coming to Toronto direct from its run of nearly five months at the Henry Miller Theatre, New York, "La La Lucille," the three-act musical farce success, will begin a week's engagement at the Princess next Monday night. "La La Lucille" is the latest of the smartest plays of its type produced during recent seasons. Some of the catchy numbers are "When You Live in a Furnished Flat," "Money, Money, Money," "The Love of a Wife," "If Seldom Comes True," and "Our Little Kitchenette." An unusually fine company of farceurs has been assembled for the interpretation of "La La Lucille." The principal comedian is Sam B. Hardy, quite inimitable in his farce methods, who contributes so much to the fun of the big musical successes of the past few seasons, including "The Riviera Girl." There are also Janet Velle, Lorin Raker, Eleanor Daniels, Helen Clark, J. Stine, M. W. Rale, Cordelia MacDonnell, Marjorie Borden, Maurice Cass, Esther Banks, John Love and the prettiest, daintiest singing and dancing girls on the stage.

Blackstone, the musician, will give a public concert at the Grand Opera House, which is his last appearance at the Strand Theatre all next week, is more than good—it is immense. Jack Pickford is the star of the play, which is a story of a young man who has a job in a store in a village, which had to give up ringing the curfew bell at nine at night because it woke everybody up. His bitter disappointment, through the loss of his job, has been a great ambition and his unexpected rise to position of village hero makes a story of a young man who is a delightful human.

Today Constancia Talmadge in "Romance and Arabella" is the Strand attraction. Big Regent Picture. Hall Caine's great master-play, "The Woman Thou Gavest Me," is the feature attraction announced for the Regent Theatre next week, and there is great local interest already manifested in the presentation of the

much-talked-of novel in picture form. No more startling production has been seen in Toronto, and it is only fair to say that the presentation of several of the most important pictures of the age. Katherine MacDonald portrays Mary MacNeill in a most superb manner, bringing all the pathos, all the tenderness of the character to the screen. As a special musical treat, Naum Coster, singing and Florence Clemens, soprano, have been engaged and will render a number of duets. There are several other fine subjects in the bill, including the Regatta with the latest week's news.

Bessie Barriscale at Madison. On Monday and Tuesday of next week, the brilliant and beautiful Bessie Barriscale will be seen at the Madison Theatre in her greatest and latest success, "The Woman Michael Marmont distributed by Exhibitors' Mutual. In this very striking photo-drama Bessie Barriscale depicts all her previous triumphs.

William Gillette in "Dear Brutus." Seldom has a play ever come to us preceded by more glowing accounts than those heralding the engagement here at the Princess Theatre, which is beginning Monday evening, October 27, of William Gillette, the distinguished American actor, in Sir James M. Barrie's newest coming to the Princess Theatre, an engagement of one whole season at the Empire Theatre in New York to his credit. Mr. Gillette has met with one of the most astounding successes of his career. He has never been seen in this latest play from the pen of the Scotch dramatist.

"Biff, Bing, Bang" is the catchy title of the original overseas musical comedy-revue which the famous "Dumbells" are offering at the Grand Opera House, Oct. 27. The "Dumbells" were called in France, where they gave over five hundred performances to our Canadian soldiers during the war. The boys play everything from circus girls to prima donnas. The costumes and scenery are the last word in gorgeousness and the many songs and dance numbers, most of which were written especially for them by some of England's best composers, are brilliantly sung and executed.

The Mormons of the Ontario Province will hold their quarterly conference in Toronto today and Sunday. There will be in attendance seventeen missionaries of the Mormon Church who are doing evangelical work in Ontario, also members of the Mormon Church from its branches at Hamilton, Preston, Brantford, Bracebridge and Toronto. There will be meetings at 10 a.m. Saturday, 10 a.m. and 8 p.m. Sunday in O'Neill Hall, 186 Parliament street. There will also be a meeting Sunday night in His Majesty's Theatre, 141 Yonge street, at 8 p.m. At this meeting Neph Jenson, president of the Canadian mission, will be the principal speaker. Dr. Jenson has been a practicing lawyer by profession. He is also a writer of some note, having distributed articles to some of the standard magazines of the United States.

ALL RETURNED MEN ENTITLED TO VOTE No Legal Objection to Re-opening Revision Courts, Mr. Dymond Says.

"If the clerks of peace co-operate with the registration boards it should be possible to put all the returned men on the voters' lists today" (Saturday), said A. M. Dymond, chief election officer, to The World yesterday. "One legal objection to this course has been taken in some quarters," Mr. Dymond added, "and that is on section 45 of the Ontario election act of 1913, which reads: 'Every list of voters revised and certified by the revising officers delivered to the clerk of peace shall be final and conclusive and subject to no further appeal.' "The cases of the returned soldiers," Mr. Dymond emphasized, "are not appeals from anything not on the list, but merely applications to add to the list of persons who have an unobscured right to be there."

Ottawa Soldiers' Demand. Mr. Dymond said that it had been brought to his attention that only yesterday a crowd of returned soldiers gathered at the Ottawa court house, demanding that their names be added to the voters' lists. It appeared that Judge McBeth had declined to reopen the revision court, but steps had been taken to request Judge Gunn to do so. Mr. Dymond stated that the returned men should not be deprived of the franchise, and Mr. Dymond was hopeful that this would be carried out. The law is clear. It does not say that this procedure should not be followed throughout the province.

HE DARKENED HIS GRAY HAIR Tells How He Did It. Mr. J. A. McCrea, a well-known resident of San Francisco, who was brought to the attention of the public by his account of his white hair, and who darkened it with a home-made mixture, recently made the following statement: "Anyone can prepare a simple mixture at home that will darken gray hair, and make it soft and glossy. To do this, take a half-pint of water, add 1 ounce of bay rum, a small box of Orlex Compound and 1/4 ounce of glycerine. "These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. It does not color the scalp, is not sticky or greasy and does not rub off."

### PREFER ICE CREAM TO MERE BEER?

#### Hecklers Take Exception to Statement at Hon. G. S. Henry's Meeting.

There was some back-firing in the Queen street garage, where Hon. Geo. S. Henry held a meeting last night as a wind-up of his East York campaign. Exception was taken to the statement of one of the speakers, Miss Clayton, that the returned boys now prefer ice cream to beer, and one man was so insistent an objector to the lady's views that the chairman, Dr. Burgess, threatened to have him put out. There was some heckling by the other speakers also.

Miss Clayton, who was the first up, referred to men in history from De Vinci and Columbus down to the Wright Brothers, who, she admitted, had been of some service to humanity, but it remained for Sir Wm. Hearst to give votes to women and a referendum to the people on the liquor question.

Major J. L. Orr, D.S.O., who followed Miss Clayton, said he could not understand the complaint from Liberals that the Conservatives had stolen planks from their platform. Hearst, he felt he had learned to take possession of any useful ideas promulgated by others, and he thought the same practice should apply in politics. Major Orr denied the statement that soldiers were resentful of having been deprived of the right to use liquor.

Does Not Like U. F. O. Hon. Geo. S. Henry, who followed late from another meeting, reviewed the record of his government and took another shot at the farmers for lining up against the Hearst administration. He appealed for support on the government's war and temperance legislation. Other speakers were A. S. Fleming and Mr. Stewart.

A meeting in the interest of Hon. Geo. S. Henry was held last night in Birchcliffe school house, presided over by H. E. Redman, who confessed that he was a Liberal, but could not support Hartley Dewar or Mackenzie King. To all intents and purposes they were both traitors.

Sergeant Moncrief, it was quite proper for soldiers to seek representation in the legislature, but before they could do much in parliament they would have to set their own house in order.

Reeve J. G. Cornell gave the government credit for backing Hydro-Electric and for reason for experimenting just now with a U. F. O. or Dewar government. He thought Hon. Geo. S. Henry should be kept in the house because of his usefulness as an authority on municipal legislation. Mrs. Lougheed also spoke.

### WAS TOO CONFIDENT

#### Soldier Hands Over Cash to Stranger—Chase Ends in Arrest.

John Smith, McCaul street, was arrested at King and Victoria streets, last night, after a chase of several blocks, by Policeman Bob Greenlee. Smith is alleged to have stolen \$100 in money from a returned soldier named Sam Whittington of Rapids City, Manitoba. Smith is said to have met Whittington when he arrived in the city yesterday, and gaining his confidence under the pretence that Whittington was a returned man, learned that Whittington had a money bag with a hotel clerk for safe-keeping. When Whittington handed over the money Smith started to run.

The soldier's cries for help attracted the attention of Greenlee, who took up the chase. When searched, Smith had the money on him, as well as a quantity of morphine and needles.

Harold B. Atkins, Northumberland street, was arrested last night by Detective Mitchell, charged with stealing a parcel containing rubber gloves from the 25 million Exhibition.

Detectives Cronin and Williams arrest of John Green, Simcoe street, on a charge of fraud, when he attempted to buy a refrigerator from a downtown store, presented a worthless cheque, and after receiving money in change, had the purchase delivered to a fictitious address on Roncesvalles avenue.

#### Until He Tried "FRUIT-A-TIVES" The Wonderful Fruit Medicine

MR. FRANK HALL  
Wyevale, Ontario.

"For some two years, I was a sufferer from Chronic Constipation and Dyspepsia.

I tried every remedy I heard of without any success, until the wife of a local merchant recommended 'Fruit-a-tives'.

I procured a box of 'Fruit-a-tives' and began the treatment, and my condition commenced to improve immediately.

The Dyspepsia ceased to be the burden of my life as it had been, and I was freed of Constipation.

I feel that I owe a great debt to 'Fruit-a-tives' for the benefit I derived from them."

### NEW YORK PORT STILL TIED UP

#### Thirty-Eight Big Cargo Vessels Are Still Lying Idle.

New York, Oct. 17.—Despite the vote of some of the local unions to return to work the longshoremen's strike continues virtually to tie up the port of New York. At the office of the United States railroad administration today, it was said, numerous complaints were being received from western merchants in regard to the shipping situation. Officials of the international mercantile marine said that 38 big cargo ships were lying idle and that, despite the union leader's claim, none of the strikers had returned to work.

The United States railroad administration today announced that an embargo against trans-Atlantic shipping thru this port is still in force, and that a lifting of the same will be a settlement of the harbor strike was nearer an actual fact. The raising of the embargo last week constituted no more than a lifting of the general embargo to permit transportation of food stuffs between New York and New Jersey ports.

Coastwise shipping and vessels plying between New York and Central and South American ports are still held here, unable to unload or load. The United Fruit Company has been able to unload ships under police protection, and operation of the open shop system has followed for years, it was announced at the company's offices.

The United States railroad administration tonight held the national adjustment commission that it approved its award on the standard of lines under federal control and would abide by it.

### WINTER IN ALGONQUIN PARK.

As a winter panacea for coughs and colds Algonquin Park cannot be equalled. Two thousand feet above the sea, it is always dry and cold and usually bright, and no matter how low the man with a sweater will never suffer. Days spent in snow shoe tramps through primitive forests, in the breathless flight of the toboggan or ski, and in the ring of steel against the ice-bound waters of some lake, together with evenings spent in social converse around the cosy warmth of an old-fashioned log fire; these slip away unnoted, but those who have once experienced them return to their vocations with renewed energies, with hardened muscles, and a grateful memory that forever blots out all thoughts of the relaxing south. The "Highland Inn," owned and operated by the Grand Trunk Railway, offers comfortable accommodations at reasonable rates. For all particulars apply to N. T. Clarke, manager, Algonquin Park Station, Ontario.

### STONE SCHOOL BOOKS KNOWN TO ANCIENTS

Prof. Langdon of Oxford, England, has discovered that one group of the famous Nineveh tablets stored at the University of Pennsylvania are in reality the oldest school books known to exist. They show much that the children of the ancients learned to read. According to these tablets, the children of an 4200 years ago were taught arithmetic, geography, history and grammar.

The multiplication tables are remarkably distinct and in plain numbers show the incontrovertible fact that three times one are three and five times one are five. On one tablet the schoolboy has been given a lesson in phonetic signs corresponding to the shorthand of modern times. The Sumerians, the authors of writing, also invented the use of writing syllables and combining them into words, being the first step toward the alphabet.

### CHURCH MAY REVEAL INNOCENT DIVORCEE

#### Laymen at U. S. Episcopal Church Congress Carry Their Point.

Detroit, Oct. 17.—Thru action of the laymen of the Protestant Episcopal Church in the 1916 general convention, sustained by both clerical and lay delegates today, the innocent party to a divorce may be rewarded in the church. Amendment of the canons to prevent remarriage by an Episcopal priest of a person who has a divorced husband or wife living was defeated, despite desperate efforts by many of the clergy and a few of the laity to secure its adoption. Both orders registered a majority against the amendment. In their battle to prevent what Thomas Nelson Page today characterized as "continual meddling away at the liturgy that has grown into the hearts of our people," the older churchmen in the house of deputies have carried many of their points. Yesterday they prevented the shortening of the "Te Deum." Today they prevented the adoption of a new prayer for the president of the United States which would leave out the petition for the continuance of his "health and prosperity" contained in the present prayer. They lost their fight today, however, to prevent revision of the "gloria in excelsis" by dropping the repetition of a phrase, and for the retention of which Mr. Page, prayer book in hand, almost tearfully pleaded.

Women do not want representation in the legislative bodies of the church in the opinion of the constitutional amendment commission, members of the convention today. On recommendation of the committee an amendment that would make it possible to elect women delegates was defeated. Leaders in the church expect the enfranchisement of women by the church will be one of the big questions to come before the 1923 convention, however.

STRANGE PERVERSIONS IN ENGLISH LANGUAGE

An English writer points out how many "perversions of English are used in common speech. Thus "exterminate," which properly means "to drive out," "banish" is now used as an equivalent of "exterminate" in the sense of "to destroy utterly."

"Trivial," which really means "trite" or "hackneyed," as when Bacon writes, "These conceits which are now trivial meanings 'tis drive out' in banish" is now used as an equivalent of "trivial" in the sense of "to destroy utterly."

"Restive," which should mean "given to resting" or "stopping," has from its resemblance to "restless" acquired that word's meaning.

In like manner the phrase "to demote oneself," a translation of the old French *demener*, is now generally used in the sense of "to degrade oneself," and the word *defile* from the French *defiler*, "to march in line," has received the meaning of the Anglo-Saxon "defile," to make foul.

"Prejudicial" has come to be coextensive with "harmful," "unique" and "sinular" with "remarkable." A careful writer will not say that the best "unhomely" unless he means that it is not real. He will not use the word "pessimistic" and "optimistic" as equivalents of "dependent" and "hopeful," respectively. Nor will he speak of an "egregious fool" unless he means a distinguished buffoon. It would also be a distinct gain to the language if "impertinent" from the results of its unfortunate entanglement in the popular mind with the word "impudent," and restore it to its precise meaning as the opposite of "pertinent."

### ISLAND TO BE SOLD FAMOUS IN HISTORY

The Duke of Buccleuch has decided to sell Piel Island, Scotland, situated in Morace Bay, on which stands the ruins of a castle built by the Abbot of Furness nearly 600 years ago. The island has considerable historic associations. The Norsemen used it as a landing place, and the mercenary troops of the Earl of Lincoln, who intended to place a youth on the throne as King Edward VI, pitched their camp on it.

The influenza epidemic cost thirty-one insurance companies \$150,448,469 from Oct. 1, 1918, to March 1, 1919.

## THE MASON & RISCH PHONOGRAPH

SOMETIMES there is such a thing as "the best." Many men set "the best" as their goal. They seek out worthy materials for their work. They gather skilled craftsmen and hold before them high ideals. By sincerity and painstaking, they climb near—often very near—to "THE BEST."

HE who attains the final "BEST," however, is he who, having all that the others have—integrity, skill, experience, courage—has, over and above these, a hidden advantage all his own. A method, a device, a knack, maybe, which Fate has given him and denied to the rest.

SO the old masters of painting had a secret of mixing their colors, that has made their paintings endure through centuries, while those of their contemporaries are faded and forgotten.

SO, too, Modern Industry has its examples.

MANY manufacturers have earnestly tried to make the BEST Phonograph. All have had access to the same masters, the same equipment, the same workmanship, and good Phonographs are being made in many factories.

BUT one maker has had the good fortune to possess that knack which the seeker after "THE BEST" must have if he is to attain his ideal.

THAT ideal has been realized, and to-day we present to the music-loving public

### THE—Mason & Risch Phonograph

a PHONOGRAPH as fine as human hands can fashion, and a re-producer of music which cannot be expressed in phonograph terms! The absolutely faithful tonal results that we set out to secure for the realization of our ideals in Plano building have been duplicated in the Phonograph of our make!

### AMERICA HAS LETTER OF KING FERDINAND

A letter bearing what is believed to be the only authenticated signature of King Ferdinand of Spain—co-patron with Queen Isabella of the expedition of Columbus to the new world—that is extant in the United States, forms one of most important additions to collections of the Historical Society of New Mexico. The letter is written to his cousin, the Duke of Infantazgo.

### "RIFLES," PET LEOPARD, NOW IN LONDON ZOO

The young leopard captured by the crew of H. M. S. Hyacinth off the African coast has arrived at the zoological gardens in London, being escorted to the new home by two blue jackets "Rifles," to give the leopard its pet name, in a nice comfortable cage all to itself.

### CROWN OF HUNGARY ONCE NEARLY LOST

The Hungarians crown has offered many vicissitudes. A King of Bohemia once stole it, but Otto of Bavaria subsequently recovered it. He in sending it back to Hungary, packed it in a case, but it was nearly lost on the journey, because the jolting of the wagon threw the case into a ditch.

### CHIEF SAYS MOSQUITO HAS NATURAL ENEMIES

Dr. L. O. Howard, chief of the United States Bureau of Entomology, writing on his favorite theme, the mosquito, in a recent bulletin, reviews the subject of the natural enemies of this insect. Among fish, he mentions first the common goldfish and silverfish, which destroy mosquito larvae and should be put in artificial ponds. Top-minnows are great feeders on mosquito larvae, and certain species introduced from Texas and Hawaii have proved their value, while a small top-minnow of the genus *Girardinus*, known in Barbados as "million," has been used successfully in other West Indian islands. Many predatory aquatic insects feed on mosquito larvae. Certain birds prey upon the adults, and bats also eat them. Many plants are popularly believed to keep away mosquitoes, among these being certain species of eucalyptus, the castor-oil plant, the chinaberry tree, etc. Scientific observations have not confirmed the popular idea on this subject.

## Wash Day and Backache

WASH day is the least welcome day of the week in most homes, though sweeping day is not much better. Both days are most trying on the back.

The strain of washing, ironing and sweeping frequently deranges the kidneys. The system is poisoned and backaches, rheumatism, pains in the limbs result.

Kidney action must be aroused—the liver awakened to action and the bowels regulated by such treatment as Dr. Chase's Kidney-Liver Pills. This favorite prescription of the well-known Receipt Book author will not fail you in the hour of need.

One pill a dose, 25c a box at all dealers, or Edman, Bates & Co., Ltd., Toronto.

A HOUSE BUILT IN TEN DAYS

Rent profiteers might take warning from the building operations now going on at Union, N.J., where Robert H. Ingersoll, watch manufacturer, and Thomas A. Edison, world famous inventor, are supervising the erection of cement houses. Speed is the watchword and it has been successfully demonstrated that the houses can be completed, inside and out, within ten days. The homes will be rented at a low figure and are expected to solve the high rent problem. The photograph shows the cement house that took ten days to build.

ONTARIO ELECTIONS CAUSING DEFERMENT

(Continued From Page 1.)

Mr. Sinclair (Guysboro): "Is it true that the use of these drugs has largely increased in Ontario during the past year?" Mr. Rowell: "There is no evidence to that effect. My advice from the officers of the health department is that there is no ground for the conclusion that the increased importation is due to any laws recently enacted in the province of Ontario. The bill was read a first time. Resumes G.T.R. Debate. The second reading of the bill to acquire the Grand Trunk Trunk Railway was then taken up. Hon. J. D. Reid, minister of railways, referred to a request for definite figures made by Mr. McKenney last night, and said that he could not add anything to the statements already placed before the house in committee. J. H. Sinclair (Guysboro) opened the debate for the opposition. He said the house should not have been asked to consider this legislation at the present stage of the session. The member for Guysboro asserted

that at the present time Canada was losing one hundred thousand dollars a day on the railway system at present being operated under government control. Mr. Sinclair was inclined to favor private ownership under public control. In its operation of the intercolonial, the government, said Mr. Sinclair, showed lack of enterprise. Patronage and the purchase of constituencies with public money was as rampant as ever. Last year, he said, \$12,000,000 had been provided for the building of branch lines of government railways, but every cent had been expended west of the great lakes. Mr. Sinclair said there had been carelessness in presenting the government's case to the arbitrators on the Canadian Northern purchase, and he feared the same in regard to the Grand Trunk. There was approximately \$400,000,000 of stock subject to arbitration. Too Much Criticism. H. H. Stevens, Vancouver, said Mr. Sinclair had offered a lot of destructive criticism but no suggestions of a hopeful nature. He had referred to Sir Thomas White as the best informed man on Canada's financial condition, and Mr. Stevens pointed out that the former minister of finance was in favor of Canada taking over this road. Apparently Sir Thomas thought the country would be more than able to bear the initial loss. Mr. Stevens described Mr. Fielding as being in favour of opposition to public ownership. Mr. O. Turgeon (Gloucester) said the time for public ownership had passed without the people having

taken advantage of it. If there were so many people in favor of taking over the railways, why not take over the Canadian Pacific Railway as well, which was a good road. He argued that had reciprocity with the United States become law there would have been sufficient trade to keep the Grand Trunk from going into bankruptcy. Mr. Turgeon adjourned the debate. Hon. C. J. Doherty tabled the report of the convention between Great Britain and the United States for protection to the salmon fisheries of the Fraser river. Sir Douglas Hazen had been Canada's representative on the international commission. The house adjourned at 8 o'clock until Monday.

VETERANS

Arrange in Brant to Take Votes of Bedridden Veterans. Brantford, Oct. 17.—W. S. Brewster, Conservative candidate in South Brant, has sent his approval of the taking of the ballot of bed-ridden veterans at their bedside to Returning Officer T. S. Wade. Messrs. J. Hardy of the Army and Navy Veterans and James Shute of the O.W.V.A. stated this morning that they agreed that the votes of bed-ridden soldiers should be registered, and suggested that they be taken by the chaplains of the various soldiers' organizations. VETERANS NOT SATISFIED. At a meeting of practically all the chartered veterans' organizations in St. James' parish hall on Thursday night, the following resolution was adopted and forwarded to Ottawa: "That this meeting, composed of the above-mentioned organizations, earnestly petition the chairman and members of the parliamentary committee now in session at Ottawa to earnestly recommend parliament to grant further financial assistance for the re-establishment of the returned men and dependents."

Which Way Are You Going to Mark Your X--Yes or No?

THIS IS A SERIOUS QUESTION

"Hello! Is that Parkdale 4830?" "Yes." "Is Prof. Mulveney there?" "Yes. Prof. Mulveney is speaking." "Well, Professor, I just wanted to ask you: 'Is it true the Bible recommends strong drink and wine to be used as a medicine?'" "Yes; perfectly true. See Prov. 31:6-7—'Give strong drink unto him that is ready to perish, and wine to those that be of heavy hearts, let him drink and forget his poverty and remember his misery no more.'"

DOCTOR SAID SHE COULD NOT LIVE A YEAR Tubercular Spot in Her Side

Bracebridge, April 22nd, 1915. Dear R. L. Mulveney:—I am very pleased to tell you that your Tape Worm Cure was a God's blessing to me. I only wish that I had got it years ago. I have suffered for over nine years with what I thought was inflammation of the bowels. The time it gave me the trouble would be about three o'clock in the morning, as regular as clockwork, worse at times, so that I had the doctor come in when it first started. He told my people that I had a tubercular spot, and I would not live a year at the most. My people did not believe it, but they thought I was crazy. I took your Tape Worm Cure at half-past twelve, without pain. It was so thankful that you can publish this letter and put my name and address to it. I am not ashamed to have it published, for I feel sure there is a lot of people suffering with them, but wouldn't give in. You would think to hear some of them talk that it was a disgrace to have them. They deserve to be sick. Ha, Ha. Well, I will try all I can to persuade people to use your remedy. My brother wouldn't believe I had one until I showed it to him. I am healthy-looking, but am a bit nervous. Wishing you luck. MRS. WM. DAVIS, Bracebridge, Ont. Trenton, Oct. 3, 1915. Dear R. L. Mulveney, Prof. R. L. Mulveney, find two dollars (\$2.00) enclosed for four (4) packages of your "Mother's Friend," also postage for same. I have used \$1.00 worth of it, and find it brings such excellent results to my three little ones that I do not mean to have the house without it. My little boy, 7 years old now, has been a victim of pin worms for some time. "Mother's Friend" worked like making them pump and rosy and rolling as any fond parent could possibly wish for. He had tried everything (even the doctor, and rectal injections) and heard tell of the boy, without desired result. I've found his cure, what a relief. I am a very grateful mother. MRS. WM. H. CREWS, P.R. No. 3, Trenton, Ont. P.S.—If you so desire you may use this and my name as a testimonial. Call or send to 211 Ossington Avenue, formerly Dundas Street, Phone Park 4830. "Mother's Friend" in powder form; each package makes twice as much medicine for \$1.00; no danger of breaking and no cost for sending. Just send \$1.00.

REV. PETER BRYCE STATES HIS CASE

Electrical Club Hears Reformer's Views on Liquor Question.

W. R. Carr, president of the Electrical Club, in introducing Rev. Peter Bryce at luncheon yesterday, said that he was not in a position to say whether the full wine cellar and the full coal cellar were compatible, but they were all entitled to express their views on the matter thru the ballot.

Mr. Bryce said he had undertaken the task of organizing the prohibition campaign as a measure of social reconstruction. For fourteen years he had been a minister in an industrial district, and he had learned that, as in medicine, preventive measures in social service were the proper means.

He pointed out that he had worked to place every name on the list for voters, and quoted Judge Coatsworth's testimony that the referendum committee had worked more impartially than he had ever seen before to get the lists complete without regard to the opinions of the voters.

Mr. Bryce said he was always ready to yield his opinion to others. Those who knew the Scotch were aware how humble they were in this respect. And while they had the reputation of being fond of money, it was well known they only desired it in order to be able to give it away.

He knew that the liquor traffic had resulted in the breaking up of families, in the suffering of women and children, and in social distress generally. The social reform agencies recognized that the prohibition had been productive of untold good, and while all social evils had not been removed, the reduction in the applications for admission to the House of Industry had been very noticeable, and other testimonies to the increased earning capacity of the men and the increased health, comfort and happiness of the women were quoted.

Everywhere that prohibition had been in effect the sales in dry goods stores had gone up tremendously. A bitter opponent of prohibition in Washington state, one month after it was carried, found that the chief increase had been in children's clothes and boots.

Another day's canvass has added \$8,540 to the university war memorial fund, and at the present time the grand total stands at \$172,736, a special subscription of \$5,000 having been received yesterday.

At yesterday's luncheon, which was presided over by Mr. Justice C. A. Maeston, the reports of subscriptions by teams were handed in as follows: Dr. E. A. Bott, \$250; D. B. Gillies, \$150; W. B. MacPherson, \$1,255; Mr. R. A. Cassidy, director of the campaign, stated that there should be no trouble in raising the whole half million in Toronto alone.

ONTARIO PREMIER ASKS FOR MAJORITY

Sir William Hearst Pledges Good Government for All Interests.

Sir William Hearst left for Sault Ste. Marie yesterday, where he will address one or two meetings in his own constituency. Before his departure the premier issued the following statement: "I earnestly commend to the electors of Ontario the duty of going to the polls on Monday and choosing by their votes the government to administer the affairs of this province during the next four years.

"I would like to emphasize the fact that a government can be sustained only by the election of men who have confidence in it, and that to be strong and efficient a government must be assured a substantial majority in the legislature. I ask the electors to bear this in mind when they mark their ballots. This will be the first opportunity for the women of Ontario to vote in a general election for members of the legislative assembly, and I urge them to take full advantage of it.

Provincial Treasurer's Power To Remit Amusement Tax

"Thru the kindness of Hon. T. W. McGarry the amusement tax is remitted for this meeting." The foregoing paragraph appears in a joint circular issued by the Empire and Kiwanis Clubs in connection with the forthcoming visit to Toronto of Peter Wright, the auspices of the clubs named and to further the success of the Navy League's campaign.

The typesetters in the publishing house that prints The Literary Digest and those in the offices of nearly every other New York magazine decided last week to take a "vacation." This means that practically all the well-known magazines will be late in reaching their readers.

The experiment has deep significance, not only to the publishing fraternity but to the public. As stern necessity is oftentimes the mother of invention, it is not impossible that in this age of marvels the whole future of magazine publication will be revolutionized by the elimination of what has hitherto been its costliest operation—the typesetting.

The Sea — What It Means to You!

YOU would be surprised to learn how little many people know about the relation our prosperity bears to the problems of shipping.

With the exception of our purely domestic trade and that with our neighbors to the South, every dollar's worth of goods we produce must cross the seas, and so exports are largely the measure of our wealth as a nation.

placed a heavy premium on ships, so that we cannot rely on foreign vessels to carry our goods, but must build and MAN our own mercantile fleet.

Above all, we must see that CANADIAN seamen are available to man Canadian vessels as they become ready for our export service.

A Patriotic Duty An Economic Necessity

The work of training Canadian boys for the sea is carried on by the Boys' Naval Brigades. Funds are absolutely imperative if the work is to be carried on and extended at this critical period.

Help by giving—and giving liberally. Then help again by putting the great need before another. The Nelson Day Campaign is going to be a great success and it will be because of the loyal co-operation of public-spirited citizens like yourself.

What YOU do to-day counts much for Canada's future and your own! Assist generously.

LeCras, orthopaedic expert with Authors, Cox & Hanger Limited, 363 Yonge street, replying to criticisms leveled against charges for a pair of shoes supplied to a little girl with deformed ankles, stated that it was natural not only to consider the material used, but also the brains and experience necessary to its production.

JACOBS, M.P., COMING.

Samuel Jacobs, M.P., the noted Montreal parliamentarian, will arrive in Toronto some time today, and will speak tonight at the Musicians' Temple, University avenue, and the Royal Templar Building at Queen and Dovercourt, in the interests of the Liberal party for the coming election.

BANNED LITERATURE

John Kordelovitch appeared in the police court yesterday, charged with having objectionable literature in his possession. The interpreter, the accused said he had retained the papers for some time, not knowing they were banned.

LOVING CUP FOR PRINCE.

When the Prince of Wales pays his return visit to Toronto early next month, the city will present a loving cup to his royal highness—if he will accept it. A telegram has been sent him in relation to the presentation.

CHAMANAN WAS FINED.

Wong Hee, charged with assaulting Rose Cassell, appeared in the police court yesterday, and thru his counsel, denied the charge. He paid \$10 rather than take the option of a thirty-day sentence.

BREACH O. T. A.

Louise Rowell appeared in the police court yesterday, charged with selling liquor, and received a fine of \$200 and costs or three months. According to the police, three bottles of liquor were found in a place on Parliament street, part of which is rented by the Citizens' Liberty League as committee rooms.

WAS FORTUNE-TELLER

Phillip Premdas appeared in the sessions yesterday, charged with fortune telling. Policewomen Phillips and Gray paid him a visit, and for the sum of \$1 he had told them many interesting things. However, all the good things he predicted did not save him from the one month sentence imposed by Judge Widdifield.

# SIMPSON'S—Outlining the New in Men's Fall Hats

## Today is the Last Day of the Exhibition of Royal Chinese Robes

At the close of this exhibit the Simpson Store will hand over the garments as a gift to the Royal Ontario Museum, Toronto. This remarkable and unique display is a source of much admiration for everyone.

The Manufacturer of fabrics and colors will revel in these gowns, which present the best that has ever been thought of or done along these lines.

The Designer will surely be inspired by patterns whose beauty and intricacy are beyond description.

The Artist will recognize in the daring combinations of colors—a cleverness almost inconceivable.

For the Historian, these gowns and draperies will conjure up vivid pictures of the ancient Ming dynasty, which has left the modern world such a rich inheritance in art and literature, of the coming of the mighty Manchus, and of the final overthrow of this latter powerful dynasty in 1912.

To Every Woman who is at all interested in modern dress and fashions, these costumes of the Empress Dowager, who was very fastidious in the matter of dress, will prove of untold interest.

As for the School Boys and Girls—not one of them should miss seeing these wonderful robes from China—for from them they will gain an impression of historical facts, so vivid as to be unforgettable.
