# REVOLTS TRIUMPH AFTER THREE DAYS' INCESSANT BATTLE NEWLY DROWN IN BLOOD

### Soldiers Made Ferocious by Attacks of Bombs—Street Patrols Shoot Down Groups Gathered at Corners—Casualties Over 15,000—“Fighting Legion” Leaders at St. Petersburg Arrested.

St. Petersburg, Dec. 26.—Emperor Nicholas and Count Witte received tonight a report from Gen. Doubaissoff, Governor-General of Moscow, saying that the revolt there had failed, that the military had the situation in hand, and that whatever defection may have existed among the troops had been overcome by attacks on them with bombs and revolvers, to which they had been subjected from the windows and roofs of houses, and which had so enraged them that they could hardly be restrained.

Also rebellion may have broken out elsewhere, and also there already is an indication of another upheaval at Odessa, if the attempt at armed rebellion at Moscow should be crushed, the leaders of the “Fighting Legion” will receive a blow from which they cannot quickly recover.

Among the developments here to-day, the most important was the capture of the leaders of the “Fighting Legion,” which it is believed ends the danger of an attempt at an armed uprising in St. Petersburg. This capture, it is understood, placed in the hands of the government complete information regarding revolutionary plans and the places where arms are concealed, as well as disclosing the real names of the army.

Shortly before 9 o'clock to-night the correspondent of the “Fighting Legion” at Moscow telephoned that there seemed to be no longer doubt that the insurrection was over. The insurgents still held the quadrangle in which the workers' council was sitting as a revolutionary committee, but only because Governor-General Doubaissoff was not yet ready to give the coup de grace. Fighting continued intermittently throughout the day. At 5 o'clock automatic guns were being used in St. Petersburg. The insurgents were becoming exhausted after their four days' fighting. The police were being degenerating into guerrilla warfare. The insurgents were defending themselves with rifles and hand-grenades, and were being hunted down from house to house.

The windows of the houses are stuffed with mattresses and blankets, and no light showing. The police carry rifles.

Gen. Doubaissoff has enforced the strictest martial law, and no person is allowed on the streets after 3 o'clock at night.

Several persons were killed to-day. One of the most serious was a young man, who was shot in the head. He was taken to the hospital, but died a few hours later.

Among the lower classes which do not sympathize with the revolution, the feeling is becoming more and more bitter. The police are being beaten to death. The correspondent predicts that the next day will be a day of blood.

## ARRANGEMENTS FOR FUNERAL SERVICE IN PARIS SATURDAY

### Obsequies From Madeline Cathedral, According to Report—Another Cable Says Body Leaves To-day.

(Canadian Associated Press Cable.) London, Dec. 26.—The tragic death of Mr. Prefontaine aroused deep and widespread regret here, as well as in France. In both countries the deceased statesman had many friends. The funeral is expected to be most imposing. Services will be held at the Madeleine Cathedral in Paris, and will take place at 10 o'clock Saturday morning. The date of sailing is not definitely fixed yet, but will probably be from Liverpool on the Lake Champlain on Jan. 2. Mr. Lemoine is in charge of the arrangements.

The flag at Lord Strathcona's office is at half-mast to-day. The Canadian Associated Press understands from Paris that the deceased minister, with Hon. Mr. Lemoine was spending Christmas as a guest of Canadian Commissioner Fabre. He was struck at 5:40 p.m. and lingered only about 15 minutes. He called his private secretary, who secured a priest in time to administer the last sacraments before the end came.

Members of the French government, as well as British and other ambassadors, joined to-day in tributes of sympathy. It is said Mr. Prefontaine made the French government an offer to open Canadian waters to French fishermen as compensation for the abandonment of the Newfoundland banks. He had already been thru Dunkirk and Lille, and was due to visit Lyons, Marseilles and Granville. The Standard this morning refers to his death as “a loss to the empire.”

## M'CALL IS FAVORED IN REPORT BUT MAY BE WISE AND GET OUT

### Head of New York Life Would Thus Escape Some Inquisitorial Comment—Committee's Final Week.

New York, Dec. 26.—The investigation committee of the trustees of the New York Life Insurance Company had a meeting to-day at which were present Thomas F. Fowler, Clarence H. Mackay, Augustus G. Paine, Norman B. Ream, and Hiram R. Steele, members of the committee, their counsel, John G. Milburn, and W. A. Keenan, and John A. McCall, president of the company. The report sent from Paris by Andrew C. Hamilton was read and referred to counsel. At the close of the meeting Mr. Fowler said nothing would be given out.

Mr. McCall said that the report was favorable to himself. It was an artificially drawn document, which, if it is accepted by the trustees of the New York Life, will relieve President John A. McCall of the necessity of divulging into his private store of riches to make good any of his extravagant payments to his boyhood friends, Hamilton.

Whether the report will be accepted at its face value, however, is a question. Even were the Fowler-Hughes disinterested committee willing to accept the feelings and the pocketbook of President McCall, the fact that the Hamilton report is in regard to a company which they will be discovered by Mr. Hughes.

Mr. McCall is determined to hold his position to the last possible moment, the opinion is prevailing that he will see the wisdom of retiring soon after Jan. 1. He should be present in holding on the report of the Armstrong Committee, which will be presented to the legislature about Feb. 1, will, it is said, contain references to his activities in the New York Life that will settle the question of his continuing as president of the company. He will probably be asked to resign at an earlier date will obviate the necessity of the committee's report dealing with him as a live issue.

The Armstrong committee will go out of existence next Saturday without having completed its investigation. This is admitted by all of its members and counsel. The question of the legislature re-appointing the committee is creating another with power to continue the investigation will probably come up for action at Albany in the opening meet of the session.

The Armstrong committee will resume work to-morrow and continue until Saturday night. In these four days an immense amount of work must be done by Lou Payne and the state insurance along Adelaide-st. to Niagara-st. statement to young John C. McCall, and the new scandal in the Mutual Life have all to be taken up. As a matter of fact one of these subjects to consume every minute of the four days. A number of important subjects will be referred to at an earlier date will obviate the necessity of the committee's report dealing with him as a live issue.

The directors and management of the Niagara Navigation Co. have selected "Cayuga" as the name for the new steamer.

Over 800 names in all were received by the company, many suggestions being made direct, while others made known their variety of choice thru the columns of "The World."

The company appreciate the interest manifested by the public in the naming of the new steamer, which will be launched in January.

## TOO MUCH LAND; TOO LITTLE CASH BEGINNING OF END OF YORK LOAN LAID BY PHILLIPS AGAINST GOVT.

### INSANE MAN'S FREAK DRIVE CARRIES CHILDREN WITH HIM

### For Six Days Keeps Them Confined to Wagon While He Begs Food as He Travels.

Clinton, Conn., Dec. 26.—Taken suddenly with a fit of insanity while recovering from the measles, Hayden Waterous, a middle aged man living in Myrtle, gathered his five small children together, and putting them in a box wagon started six days ago on a wild ride about the state, begging food from house to house and not allowing the children to leave the wagon at any time. The father and his children slept on the wagon every night, and as the days passed the sufferings of the little ones increased so that when they were overtaken near here to-night by a heavy snow storm, the youngest of the lot, a two-year-old boy, was nearly dead.

The insane man's brother started in pursuit of Waterous a day or two after the latter left home and found traces of him in several towns through the state, but just as he seemed to be in a position where he could overtake him the trail was lost and the insane man was not caught until to-night.

When he saw his brother he started to fight, and it was only after a desperate struggle that Waterous was subdued. He was bound with ropes, put in a carriage and brought to the station here, where he was taken to his home, his brother going with him.

The children were suffering terribly from the lack of food and clothing, and some of them are said to be in a critical condition.

## CEZAR TO KAISER

### Thanks for Congratulations and Hopes for Peace

Berlin, Dec. 27.—The Tagblatt says it hears from a diplomatic source that Emperor William has received from Emperor Nicholas a telegram of thanks for his congratulations on the Russian emperor's name day, in which the latter referred hopefully to the present situation in Russia, saying: "Still I hope that this severe crisis will soon be passed without inflicting irreparable damage on the country and the church of our fathers." The paper's informant denies that Emperor Nicholas disagrees with the message of the Russian emperor, and the question of universal suffrage.

## Changes as to Forfeitures Resulted in Such Heavy Withdrawals That Financing Became a Worry—Auditor Cross Commences His Hunt For Company's Assets.

The investigation ordered by the attorney-general into the affairs of the York County Loan Company occupied all day yesterday at the offices of the company out on Roncevalles-avenue, before Accountant W. H. Cross, the investigator, who opened the proceedings at 10 a.m., and at 5 p.m. some estimate as to the value of assets of the defunct company had been arrived at, but as to liabilities they were not ascertained until all the mass books of the thousands of shareholders are in. This will be a long time, as many of the interested parties are holding back their books on advice of lawyers. There is a steady stream of shareholders taking the spacy walk between the street cars and the company offices at all hours every day. The fine weather yesterday drew out many hundreds of them, but R. Adams Smith—representing the liquidator—says it will take a long time to get them all in. He was nevertheless pleased to see a considerable assistance in the liquidation. It showed that the assets had been greatly changed around recently, and that the liabilities will need a bit of explanation before a percentage can be made.

C. A. Masten is questioner for the investigator. He is assisted by G. T. Clarkson, accountant Alfred Briggs representing the Toronto shareholders' committee; J. E. Jones is there for President Joseph Phillips; R. E. From Smith for the National Trust Company.

The official stenographer, Mr. Angus, says the proceedings were very quiet, only a few persons beyond those actively engaged being in the room during the whole day.

Phillips Blames Government.

Mr. Phillips seemed enough to answer questions. The point of his history of the rise and fall of the company was that, until 1900, when an amendment to the act regulating companies was made by the government, putting off the "business" the revenue was very large. The government changed the procedure so that after a few months the shareholders could cease their payments, and at the end of three years take out the money, less 10 per cent, instead of having to pay for three years, or have their shares lapse without any repayment.

Asked what made the company invest in land apart from building, Mr. Phillips replied that money had been coming in too fast to invest in building, and land was then very cheap. That the company had to buy a lot more land to protect its interests. When asked to explain the heavy losses, he said he couldn't say he had never troubled to find out how much they really had. Outside a large block in Lambton, the land holdings of the company are all in Parkdale. They own some twenty acres in the Hart House, along High Park, all the way down to Queen-street and east to the railway in Park-street and east to the railway. The west lot there is considerable.

## POISON ENTERS TEXAS POLITICS.

### Nine Men Dead, Others Ill, Who Attended a Banquet.

El Paso, Tex., Dec. 26.—At Torreon, Mex., nine persons who were poisoned at a banquet Saturday night have died, and many others are ill.

It is alleged that the poisoning was part of a political plot. Strychnine was put into a bowl of punch. All the dead are said to have been of one political faction.

The members of the opposing faction who attended the banquet were not affected by the punch they drank.

You Save Profit.

There are quite a number of high-grade ranches on the market in the Province of Ontario, and the Province and Persian lamb jackets, at Dinsens, which were made for but were not sold during the Christmas trade. Angus has been decided to let them go at once at prices which will surprise you when you hear them. This is a rare chance to effect a great saving. Call at Dinsens, Yonge and Temperance streets, and see for yourself. Too large a stock of general furs has to be disposed of.

DELICIOUS BREAD. AVERAGED 3.70 IN 10 YEARS.

Delahanty, Keeler, McGraw and Anson Followed Close to the Champion.

New York, Dec. 26.—The respective leaders in batting in the National and American leagues this year were McGraw and Keeler. It was no spontaneous outbreak of hard hitting that landed these two men at the top. By right of sustained ability covering a stretch of years in professional baseball, they are entitled to rank at the top. They are two of a small group of batsmen who year after year have hit the ball at a 300 clip, that group including, in addition to the two named, Keeler, Fred Clarke, Wagner, Beaumont, Elmer Flick, Joe Kelley, Mike Donlin, Jess Burkett and Jake Beckley.

St. Petersburg, Dec. 26.—(5 p.m.)—From the standpoint of the government there was a slight improvement in the outlook this afternoon. Notwithstanding the decision of the workmen's council to continue the strike, many of the strikers broke away, including about one-third of the employees of the Putiloff Iron Works, several in other factories, and a portion of the mill men. It is evident that the leaders must precipitate matters so that the strike will go to pieces.

Mining in the Great Cobalt District THE SILVER LAND OF CANADA. A company is being immediately organized with an authorized capital of \$350,000, divided into 350,000 shares of par value \$1.00 each, fully paid and non-assessable, to be known as the ONTARIO COBALT DEVELOPING COMPANY, LIMITED. The following gentlemen have consented to act as DIRECTORS: J. T. BETHUNE, Esq., Ottawa. JAS. K. PAISLEY, Esq., Ottawa. J. W. CURRY, K.C., Crown Attorney, Toronto. S. M. HAY, M.D., Toronto. JAS. BINGEMAN, Esq., Berlin. This Company will start operations under the most favorable circumstances. Will own and control what is considered to be two very fine mining properties in Coleman Township, containing about 74 acres and other locations either held by option or under consideration. It is understood that a very strong Toronto Syndicate has secured the rights to use a German process for the smelting of Cobalt ores and will erect a large plant. At present the Cobalt Camp has developed sufficient to ship at the rate of over \$7,000,000 per annum, and with only about 17 mines in operation. The mines do not cover one-quarter of the ground where known silver lies. The district to-day is producing more money values than the famous Klondike has ever produced. Ore shipped out during first three months of 1905 realized on the average about \$250.00 a ton. The Company has already some of the most experienced prospectors ready for the field, men who have knowledge and are acquainted with the district, and in this way will have a decided advantage, it being the intention of the Company to buy and sell as well as to mine. Mines of the district purchased a year ago for a few thousand dollars to-day are worth millions. It is said on good authority that stock of mines are selling from \$4 to \$60 per share, par value \$1, the same as this Company's stock. During organization applications will be received for a limited number of shares at 50 cents, fully paid and non-assessable. All cheques, drafts, post office orders, etc., payable to the order of the ONTARIO COBALT DEVELOPING COMPANY, LIMITED. J. T. EASTWOOD & CO., Brokers, 24 KING STREET W., TORONTO.
