WILL YOU BE FOR THE PARTY OR THE MAN?

Synod Meets To-Day to Choose Bishop for Toronto Diocese—No Certainty as to Outcome.

An effort has been made in the press to represent the election of a bishop to-day for the Diocese of Toronto as an occasion for antagonism between the two Anglican theological colleges. There was a time when Trinity and Wycliffe were not so amicably disposed as at present, but happily there is no ground for representing the colleges as in any degree regarding each other as opposing factions in a partisan contest. The effort to revive an ancient antagonism, if there were such an effort, or the want of knowledge of the change in the situation, if the misrepresentation be due to that, is equally deplorable in its result. There can be no other feeling animating anyone engaged in to-day's election than an earnest and devout desire that the man best fitted for the position be chosen to fill it.

There has been talk of meetings and caucuses and canvassing; but much of this is exaggeration, and the circular issued by Provost Street Macklem has been declared by that gentleman to have been issued in support of Bishop Thornloe on his own responsibility and not in his capacity as provost of Trinity. At all events there is no party feeling exhibited in any of these published utterances. In the very prime and heyday of his powers, of international reputation and acknowledged ability speaking successfully to the great work of the church in the metropolitan diocese, a gentleman, however admirable, worthy and zealous laborer in other fields do not well prepare him for the burden and heat of the day in a new field where he is practically untried.

Rev. Canon Macnab of St. Alban's Cathedral, however, took a hopeful view of an early agreement being reached. "Perhaps not on the first ballot," he said, "but the slightest inkling of people may be very much surprised at the short time that will be taken in arriving at an agreement."

Canon Macnab, in the spirit of optimism had very much diminished his years, but he thought it would be impossible to agree upon a man in the diocese not identified with either Trinity or Wycliffe College.

Asked if a man of outstanding ability could be named in the diocese not so identified with the canon was afraid "not within the diocese." It was, he thought, because of this that he had not the slightest idea what the synod would do.

The gathering referred to was attended by about hundred clergy and laymen. A reporter was informed that the meeting was strictly private and inquiries after presents from some who had been present met with the reply that there was to be nothing for the press. One view regarding the gathering had been perfectly unanimous. It was learned, however, that after receiving reports from outside districts and discussing probabilities, it was decided to support Bishop Thornloe on the first ballot, and to act afterwards as the situation may demand.

Canon Welch presided and among these present were Rev. Wm. Walsh of Brampton, Rev. T. W. Powell of North Toronto, Canon Ingles, Rev. Mr. Sweetman, John N. Cartwright, F. E. Hodgins and N. Ferrar Davidson.

From conversation with delegates from outside the city it was intimated that it was a general feeling that Bishop Thornloe could not carry the synod. Further, it was declared that the high churchmen were by no means a unit and that many of the lay delegates would split from the clerical vote in this respect.

Keep Half the Fleet in the Pacific.

WASHINGTON, Feb. 16.—An amendment to the naval bill was agreed to to-night by the senate, providing that in the discretion of the president, one half of the navy shall be kept in Pacific waters, so far as practicable. The president already has the authority to so divide the fleet, but the amendment amounts to an expression of congress in favor of such action.

TENNESSEE MURDER TRIAL BEGINS WITH SENSATIONS

Widow of Slain Editor Called as Witness—Woman Tells How Tragedy Occurred in Street.

NASHVILLE, Tenn., Feb. 16.—Filled with dramatic incidents and marked by scenes that bordered on the sensational, the first day of the actual trial of the Cooper-Sharp case closed to-night.

Whether Colonel Cooper, Robin J. Cooper and John Sharp—killed former Senator E. W. Carmack in self-defense or as a result of a conspiracy is the issue. The taking of testimony began to-day with every seat in the big new courtroom occupied.

Mrs. E. W. Carmack, the slain senator's widow, was half carried, half assisted into the room. She was going in deepest mourning. She is petite and slender. Her black veil fell nearly to her feet. She was mourning as she was placed in her chair. Her little son, Ned, Jr., aged 10, stood by his mother, patting her shoulder and trying to keep back his tears.

There is also a rumor about this evening, which appears to be in a measure confirmed by the action of the Montreal, Toronto Stock Exchange during the past few days, that a group of capitalists friendly to the coal company have obtained control of nearly one hundred thousand shares of the common stock of the Dominion Iron and Steel Company, and that in a few days they will develop the coal interests are in control of the situation. While the "street" placed considerable faith in the report, that Jas. Ross and his associates were loading, it is said they were really adding daily to their already very large holdings of stock.

It will also be remembered that a few weeks ago it was made known that should Mr. Ross endeavor to obtain control of the Steel Company he would have to pay as high as fifty or sixty for the stock, yet nearly eighty thousand shares of Steel common have changed hands since the handing down of the judgment not beyond thirty-five.

DOM. COAL OFFERS TO CARRY OUT CONTRACT

Or Will Make a New One at Same Rates—Ross and Associates Said to Have Loaded Up on Steel.

MONTREAL, Feb. 16.—(Special).—The directors of the Dominion Coal Company have lost very little time in getting into communication with the Dominion Iron and Steel Company, following the recent decision of the judicial committee of the imperial privy council.

At a special meeting of the Coal board to-day, attended by Jas. Ross, R. B. Angus, W. D. Matthews, Jas. Reid Wilson, F. L. Wanklyn, Jas. Craithorn, Hon. Geo. A. Cox, W. B. Ross and J. K. Osborne, it was agreed to make the best of a bad bargain.

The first proposition offered to carry out the contract in its entirety, both as to quantity and time, at the old rate. The second proposition offers to enter into a new contract, also at the old rate, the quantities and term of years being left to the option of the steel company's directors.

It is generally understood that the steel company will accept one of these offers. The amount paid by the steel company, in excess of the contract, amounting to about two millions, will, of course, be paid over, and it is stated that the Bank of Montreal, the Canadian Bank of Commerce will get the most of this handsome sum of money.

There is also a rumor about this evening, which appears to be in a measure confirmed by the action of the Montreal, Toronto Stock Exchange during the past few days, that a group of capitalists friendly to the coal company have obtained control of nearly one hundred thousand shares of the common stock of the Dominion Iron and Steel Company, and that in a few days they will develop the coal interests are in control of the situation. 200 MINERS IN DANGER

THREE EXPLOSIONS AND FIRE Feared That Most of Them May Have Perished in Disaster at a Newcastle Colliery.

NEWCASTLE, England, Feb. 16.—There were two explosions at 4 o'clock this afternoon in the West Stanley colliery, 12 miles from here, which employs 400 men. Nearly 200 of the men were in the pit at the time, and up to a late hour to-night none of them have been heard and it is supposed these are from some of the miners who escaped death.

Almost immediately after the explosion the workers at the pit heard, and blowing out the fencing and apparatus at the entrance to the mine. At midnight it was still impossible to attempt a rescue.

B.C. GOVT. IN COAL BUSINESS

Time May Come—Some Day, Premier Hiccuped Says.

VICTORIA, B. C., Feb. 16.—(Special).—The legislature during a heated debate on a proposal to make a newly incorporated company sell coal to the public at prices sold to agents, the proposal was finally withdrawn.

WOULD GIVE MAGISTRATES TOO GREAT A LATITUDE

One Objection to Hon. Mr. Aylesworth's Bill to Prohibit Accepting Commissions.

OTTAWA, Feb. 16.—(Special).—A couple of minor government bills and the civil service salaries resolution occupied the time of the house this afternoon.

Mr. Aylesworth's bill, "to prevent the payment or acceptance of illicit or secret commissions and other like practices," was taken up in committee. The main intention was that the bill should definitely assign the trial of cases to any special court. This was raised by Mr. Crowther (West Egan), and Mr. Carvell (Carleton, N.B.) pointed out that magistrates might take upon themselves to try very serious cases.

TRAPPED BY WALL OF FIRE

THEN FOUGHT LIKE DEMONS

MEXICO CITY, Feb. 16.—Late despatches from Acapulco, where the Flores Theatre was burned Sunday night when the structure was crowded at a gala performance given in honor of Governor Manuel Flores, of the State of Guerrero, bring varying estimates of the loss of life from the holocaust. They agree in declaring, however, that the dead will exceed 200, mostly women and children, while some place the figures as high as 250. Most of the dead were charred and burned beyond recognition. No Americans were among them.

All business at the port has ceased, the shops having closed and the people are crowding the churches, where masses are being celebrated through the state of Guerrero and in Mexico City for sufferers.

LEADER TANNER BEATEN

Nova Scotia Liberals Demonstrate Strength in By-Election.

HALIFAX, N. S., Feb. 16.—(Special).—The by-election for the seat in the House of Commons for Pictou County, made vacant by the resignation of C. E. Tanner, to contest the county at the last Dominion election, took place to-day. The Liberal candidate, McKay, overtook the Conservative leader, Tanner, in the local house, and was elected two years ago by nearly 400. The result to-day is a great disappointment to Conservatives.

ASKED AND ACTED ON CANADA'S PROPOSAL

His Majesty's Reference to the Waterways Treaty in Speech at Opening of British Parliament.

LONDON, Feb. 16.—A greater crowd than usual gathered at Westminster to-day for the state opening of parliament by King Edward, who accompanied the function by Queen Alexandra, the Prince and Princess of Wales and other members of the royal family.

A day of bright sunshine and the appearance of their majesties since their return from Berlin was largely responsible for the outpouring of the people, who gave the sovereigns an enthusiastic greeting as they passed in procession, with an escort of the guards, to the house of parliament.

Another and a greater crowd had assembled in the immediate vicinity of St. Stephen's. These people were curious to see what would be the outcome of the threats made by the unemployed and the woman suffragists, and to see whether the unemployed nor the suffragists attempting to molest the royal procession, but in the neighborhood of Oxford-street, half-starved wives and female dependents of the unemployed gathered to the number of 700 or 800 and paraded through the streets of the west end. They were led by a band playing the Marseillaise. During this procession the windows of jewelry dealers in Oxford-street were smashed.

Great interest in proceedings. Within the chamber the members of the House and a select few who had been invited to witness the actual ceremony expectedly awaited the reading of the King's speech. Urgent wings had been issued by the leaders of both houses and had brought into town a great majority of the members, particularly of the House of Commons, among whom there were only a few absentees. Some visitors appeared in the house as early as midnight last night to secure seats.

King Edward's speech from the throne contained no surprises, the projected legislation forecast by His Majesty being largely social in character.

"I was much impressed and gratified at the warmth of the public reception at Berlin, given to the Queen and myself by all classes of the community," he said. "It afforded me great pleasure to meet the Emperor of Germany, and I feel confident that the expressions of cordial welcome with which we were greeted in Berlin will tend to strengthen those amicable feelings between the two countries that are essential to their mutual welfare and the maintenance of peace."

Following Canada's Advice. After references to the continued friendliness of the foreign relations of Great Britain, the King said: "Satisfactory progress has been made in the negotiations on outstanding questions with the United States, a treaty to regulate the use of waterways adjacent to the international boundary between Canada and the United States had been arranged. This question being one of special Canadian interest, the advice of the Dominion Government was sought and followed through."

"My ambassador in Washington has negotiated also, with the co-operation of the Canadian and Newfoundland ministers of justice, an agreement for reference to arbitration of the North American fisheries question, and I trust that this agreement will be the means of effecting a final and friendly settlement of matters which have been long under discussion between this country and the United States."

THE BELLIAN VISIT.

From every point of view the state visit of King Edward and Queen Alexandra to the German capital has been successful and this even if it did nothing else than remove the impediments which have hitherto stood in the way of a better mutual understanding.

That was a happy coincidence which enabled the Franco-German agreement regarding Morocco to be published simultaneously with the royal visit.

As has already been noted, it is altogether remarkable that the Franco-British entente, itself one of the matters which widened the breach between the British and German nations, has now assisted in eliminating a danger point that has more than once assumed a minatory aspect.

While it is possible to agree with much that was said by Mr. John S. Ewart in his address to the Peterboro Canadian Club the general form and manner of it is not so readily approved.

Toronto is within two of being the smallest diocese in Canada, only Ontario and Huron being smaller. Toronto Diocese was founded in 1839. It has an area of 1080 square miles, its greatest breadth being 84 miles and greatest length 120 miles. This holds a population of 684,000, of whom 55,187 are Anglicans. The diocese is subdivided into eight rural deaneries, viz.: West

Simcoe, Peel, East Simcoe, West York, East York, Durham, Northumberland and Haliburton.
Service in Cathedral.
The musical portion of the service at St. James' Cathedral will be of an interesting nature. At 10.30 a.m. sharp the procession of canons, archdeacons and other members of the clergy, together with the choir of boys and as many choromen of St. James as are available, will march from the vestry to the chancel with His Lordship Bish-

op Reeve, D.D., and Ven. Archdeacon Sweeney, who has entire charge of all the arrangements of the synod, at the rear.
Dr. Albert E. Ham has full charge of the musical arrangements. The litany will be sung by one of the priests of St. James' Cathedral, and the celebration of the holy communion, which immediately follows, will be of the usual type associated with the usages of St. James' Cathedral. Maundier in G. will be used for the communion

music, while the "Gloria in Excelsis" will be sung by the vast body of clergy and laity present to the ordinary plain song of the church.
The choir will remain to the close of this service, for which no tickets are required, the general public being welcome. The whole service concludes with the Nunc Dimittis, sung in recession.

SLEET STORM AT ROCHESTER.
ROCHESTER, N. Y., Feb. 16.—From 1:30 o'clock Sunday noon until to-night, sleet has been falling continually and there now lies on the ground more than four inches of frozen particles resembling sand or salt.
The wretches and athletes of India develop great strength by living on milk and a little goat's flesh and plenty of food made from flour.

HEAVY PIPE KILLS THREE.
MONTREAL, Feb. 16.—(Special.)—Three laborers dead and another hurt is the result of an accident at Cote des Neiges to-day. Another is in a serious condition, but may recover.
The men formed part of a gang working in a deep trench. A six-ton pipe, in four sections, which lay alongside the cutting, suddenly fell in.

ALL MINING ACCESSORIES AT GAIN HAMILTON

Another Elk Lake Property is Preparing to Get Thoroughly Equipped for Development.

ELK LAKE, Feb. 15.—(Special)—The Gavin-Hamilton Mining Company purchased its property on Dec. 10, and is controlled by the same syndicate that purchased and developed the Otisse-Curry Mine at Silver Lake.

Work was commenced immediately after the deal was completed. Mr. P. M. Fleming, formerly of the Right-of-Way and Elk Lake City, is the superintendent of the Nova Scotia Mine, was secured to take charge of the property.

Large commodious camps, dimensions 30x40, consisting of sleeping cabs, dining camp, office, etc., have been erected. The men were moved in from their tents near the mine.

Sinking has begun on one of the principal veins measuring some 7 inches on the surface. The ore grade is being struck in very rich quantities have been stripped on the surface from 500 to 2000 ft. and traverse the entire length of the two properties.

An up-to-date plant, consisting of boilers, 9-drum collector and accessories, has been ordered to be delivered on the property before the beginning of the winter roads.

This property, which is situated 3 1/2 miles in advance of the Otisse-Curry, is a large, well developed range, which crosses the river at this point, is convenient for shipping by boat in the summer time, and the wheat harvest is co-operative with the Lang syndicate, in erecting warehouse and wharfing facilities along the river.

The public utility property at this point during summer for the discharge of freight and passengers. A charter has been issued to the company under the name of Gavin-Hamilton Mining Company, but following the president of the Otisse-Curry, no stock will be offered to the public under the property in a shipping condition.

SILVER IS BEING MINED ON THE BOYD-GORDON

Visit to One of the Leading Properties at Gowganda—Bagging High Grade Ore.

The visit to the Boyd-Gordon Mine at Gowganda proved a revelation, and emphasized the possibilities of this practically unscratched camp when the development is undertaken by sinking and trenching and the aid of modern machinery is enlisted.

Development on the Boyd-Gordon is in the advanced stages of high grade ore have been bagged at a rate of by-products of strictly necessary development work.

One shot was put in on Saturday afternoon, and the result was a great deal of confidence in the accuracy of the claim lines west of the Mann-Ryan group and was located last September by A. Boyd and W. Gordon.

Two prospectors who penetrated the new country on the strength of remarkable stories of discoveries which had reached the recorder's office at Elk City. That the men did not have a great deal of confidence in the accuracy of the claim lines west of the Mann-Ryan group and was located last September by A. Boyd and W. Gordon.

Very little development on the property indicated that it was a great deal of confidence in the accuracy of the claim lines west of the Mann-Ryan group and was located last September by A. Boyd and W. Gordon.

The shaft was commenced at a depth of about 75 feet, as sinking proceeded a rich blind lead was encountered filled with ore suitable for shipment. Ten feet farther down the shaft broke into another blind lead and at twenty feet another similar find was encountered.

The result is that the company is working in a shaft of unusually high grade silver, including a great deal of leaf silver. In the veins some of the ore has a rather crystalline character which characterizes the rich ores on the Bartlett and Mann, and there is also a great deal of leaf silver.

The shaft is practically made of mill rock with a mallet and chisel. The ore is practically made of mill rock with a mallet and chisel. The ore is practically made of mill rock with a mallet and chisel.

grade ore, with an estimated value of \$15,000. Will Purchase Plant.

The company is planning now to get their boilers and compressors thru this winter and have issued a block of treasury stock of 100,000 shares to meet this expense.

There are twenty-five men at work on the property and this number will be largely increased as development proceeds.

The Boyd-Gordon is unquestionably one of the best properties which the Bartlett, Mann, Reeve and others will form the backbone of silver mining operations at Gowganda.
