VOL. XXXVII.—No. 13,399

THIRD READING OF CONSCRIPTION MEASURE TOMORROW BRITAIN DROPS ENQUIRY INTO MESOPOTAMIA DISASTERS Martial Control in Petrograd to Suppress Grave Insurrection

CABINET DROPS ENQUIRY INTO MESOPOTAMIA DISASTERS

British Government Will Not Investigate Mesopotamian Commission's Report.

LORD HARDINGE STAYS Foreign Secretary Vetoes Acceptance of Resignation Thrice Tendered.

London, July 18.—The house of commons tonight declined to inquire further into the resignation of Baron Hardinge, under secretary for foreign affairs.

London, July 18.—Announcement was made in the house of commons today by Andrew Bonar Law that the government had decided not to proceed with the proposed inquiry into the report of the commission which investigated the Mesopotamia campaign.

In coming to this decision, the chancellor said, the government had been guided by the objection raised during the debate on the report to a further inquiry, and also by the fact that the thought and energies of the legislature and the executive at this critical time were being devoted to the war.

The government on the representation of the foreign secretary, who alone was in a position to judge, Mr. Bonar Law continued, had decided that it would be detrimental to the interests of the foreign office if it should, at the present juncture, be deprived of the services of Lord Hardinge, under foreign secretary, and had therefore refused his resignation, which had thrice been tendered.

John Dillon (Nationalist) announced that he would move an adjournment of the house in order to discuss whether the resignation of Lord Hardinge should not be accepted.

Dillon's Indictment. In moving the adjournment of the house, Mr. Dillon powerfully indicted the government and said that the matter involved the great principle of ministerial responsibility and parliament's sole chance of placing the blame.

Mr. Chamberlain had resigned, but Lord Hardinge was, because he had powerful social influence, allowed to slide off in honor. The relatives of the men who had died in unrepentable agony on the banks of the Tigris, said Mr. Dillon, would condemn a parliament guilty of such neglect of duty.

What would the country say when it learned that the culpable officers had been court-martialed while the civilians went free? He understood that the new report was going to be very unpleasant.

"Are we to perpetuate the British habit of saying, 'Forget it all,'" asked Mr. Dillon.

The King Annoyed at Church and Ball. London, July 18. Col. Bob Low, Toronto:

Why is Tommy Church so slow in putting a tar and stone top on Yonge street from Parliament to Morton street, where the good road that you built for my women begins? Touch him with your accelerator. Also Ally Ball, the city father up that way. If they are King George's men they've got to show me.

Leaside, July 18. King George, London: taking salute. Ball at Masonic grand lodge looking after goat. If he do not show up on Thursday I'll put your horses and your men and your tar tanks and your crushed stones and your gasoline ironers at work instantly. Colonel Rolly Harris is still flinging. That's his long suit. Bob.

Petaawaw, July 18. Jimmy Sommers, City Hall, Toronto: Cable King George that I have ordered Alderman Ball to be put in Jug for disloyalty and Rolly Harris to be transported. Have Dick Baker start to bile tar tonight to tar Yonge street in morning. Home by aeroplane. Church.

Unionist Government Shaping up at Ottawa

Special to The Toronto World. Ottawa, July 18.—Yesterday's parliamentary events are not interpreted in best informed circles as meaning that the proposition for a union government is dead. On the contrary the soundest opinion today is that the political atmosphere has been cleared, that beneath the surface there is a stronger union cabinet current than ever, and that the inclusion of half a dozen English-speaking Liberals into the cabinet is within the realm of immediate probability.

For a time last evening it appeared as if the conscriptionist Liberals had suddenly decided to unite behind Sir Wilfrid Laurier's content to support conscription where opposition was popular and let their colleagues oppose it in constituencies where it is not popular. In truth, following Mr. Graham's amendment, opinion on the Conservative side of the house was that the government was being made the victim of double-dealing and treachery by the compulsory service Liberals. It was heatedly charged against them that they had "double-crossed" the government and were simply playing politics.

This opinion, The World has the rightest reasons for believing, was not rightly based. On the contrary, the facts today appear to be that it was the rank and file of the conscriptionist Liberals themselves, and not the government, who were the victims of a sharp piece of partisan strategy. It is now stated that Mr. Graham's amendment, which temporarily upset the union government cart, was moved without the knowledge or sanction of Messrs. A. K. Maclean, W. A. Buchanan, F. B. Carroll, James Douglas, Robert Cruise, George McManey or the rest of the fifteen or sixteen Liberals who have been favorable to union. Mr. Pardee, in fact, is also exonerated from blame, but his support of the resolution and the speech which he made, declaring that in his opinion union government "is not possible," temporarily upset the calculations of union men on both sides of the house.

Just why Mr. Graham, who was supposed to be a supporter of union government and a conscriptionist, moved such a resolution is not known, but there is a shrewd suspicion that it was designed to achieve the result which it did achieve, the lining up of an almost solid Liberal contingent behind Sir Wilfrid Laurier.

Today, however, the situation has sufficiently cleared to have it known to the government that the overwhelming majority of the Liberal unionists acted in good faith. The pretended unionists having been sifted from real unionists, the government's course is clearer.

The World, altho it is without official assurance, has reason to believe that Sir Robert Borden may now be inclined to renew his offer of union government to conscriptionist Liberals openly in parliament. If the offer be refused, the country will be in a position to definitely fix responsibility for a failure to achieve union, and the premier will be free to go ahead and adopt such a policy in regard to cabinet reorganization as he deems in the public interest at this time.

Special to The Toronto World. Ottawa, July 18.—Said a close observer from within the senate tonight: "I will not be surprised if the move for a union government will have grown into such strength that Sir Robert Borden may within a fortnight be asked to move again for an extension of the term of parliament."

Special to The Toronto World. Ottawa, July 18.—Said a close observer from within the senate tonight: "I will not be surprised if the move for a union government will have grown into such strength that Sir Robert Borden may within a fortnight be asked to move again for an extension of the term of parliament."

GUNFIRE KEEPS UP ON FRENCH FRONT

German Attack Fails in Region West of Cerny.

Paris, July 18.—This evening's official statement on military operations issued by the war office reads: "There was rather lively artillery activity in the region of Cerny and Hurbise and in the sector of Craon."

"In the morning, we repulsed a German attack west of the Cerny sugar refinery.

"On the left bank of the Meuse (Verdun front) the enemy did not react in the course of the day west of Hill 304, except with his artillery.

"In the forest of Parroy there were patrol encounters. We took prisoners.

"Eastern theatre, July 17: There was cannonading and rifle firing in the region of Mayrading. During the night, several enemy patrols attempted to penetrate our lines at Tervena Stena and in the neighborhood of Monastir but were repulsed.

"British aviators bombarded the station at Angista."

WIDOW'S WITNESS TELLS ALARMING STORY IN COOK CASE

Startling Disclosures of Domestic Brawling Made Before Coroner's Jury.

SUICIDE MENTIONED Aunt Had Said Girl Had Killed Herself Because of Ill-Treatment.

Startling disclosures of alleged facts of hearsay, of incidents and of domestic brawls, all combining to make an amazing story of scandal, were offered by Mrs. Clara Gordon of Toledo, Ohio, in testimony at the inquest in the city morgue last night, conducted to enquire into the cause of the death of Mrs. Gordon's niece, Florence W. Cook, 17 years old, of 333 College street.

She recalled alleged conversations which she had with members of the Harry Ellis family, with whom Florence lived and of quarrels which developed when she (Mrs. Gordon) expressed disapproval of the marriage. After learning that the girl had been pregnant.

Mrs. Gordon said that the girl was born in Two Harbors, Minnesota, and that the mother died at birth, and that the girl was brought up by Mr. and Mrs. Ellis, her uncle and aunt. Mrs. Gordon said in part and in effect: "I never saw her until she was 17 years old. She was restless and nervous, and he told me that Florence had been apparently all right until Thursday except for a cold. Toward Friday she said she got worse, and he telephoned to his wife to come to Toronto. He said that Florence became rapidly worse, and that everything had been done which could be done."

Had Explained Death. He said to him what was the trouble. He said he had set in, and that it had been too late to operate. We went upstairs and I heard moaning and crying. I asked him what was the matter. He said she was in that room. I entered and found my sister, May. She was raving and crying. Oh, what punishment! I don't know what punishment she repeated that time and time again.

Mrs. Gordon said that after the funeral on Wednesday, at which the girl's father was present, she questioned her sister, May Ellis, concerning the case.

(Continued on Page 6, Col. 3).

TWELVE INDICTED WITH KALTSCHMIDT

Federal Grand Jury at Detroit Charges Series of Conspiracies.

Special to The Toronto World. Detroit, July 18.—Twelve indicted in conspiracy plots, were today indicted by the federal grand jury at Detroit for conspiring to dynamite the armory at Walkerville and the Peabody Co. Ltd., of Walkerville and the Nipigon bridge.

This latest charge is included that Kaltschmidt and associates plotted for the destruction of the St. Clair River tunnel between Port Huron and Sarnia. The new indictment embraces charges made in previous indictments.

"This latest charge was the drawing of a new and superceding indictment, Edward Bland, assistant United States district attorney explained. No date for the trial of Kaltschmidt or other alleged conspirators has been set since John E. Kinane, United States district attorney, is awaiting further instructions from the attorney-general.

A few days ago Mr. Kinane received word from Washington that Kaltschmidt was not to be tried until the alleged Hindu conspiracy cases were tried in the Chicago Federal Court.

Local federal officials explain that the government planned to use witnesses in the Kaltschmidt case in the case against defendants accused of formulating plots against British rule in India. There were no arrests locally in the alleged Hindu plots.

The twelve persons named in the new superceding indictment against Kaltschmidt are: Gustav Stens, Gustav Jacobson, William Jarosch, Richard Heron, Louis A. Seif, Ida Kaltschmidt, Neef, Maria and Carl Schmidt, Franz and Charles Respey, William Lowler and a man named White, whose first name is unknown to federal officials.

DRASTIC MEASURES TO QUELL SERIOUS RISING IN PETROGRAD

ATTITUDE OF MICHAELIS SOON TO BE DISCLOSED

London, July 18.—Attention is being focused on the convening Thursday afternoon of the German Reichstag. At the opening session will be heard the first utterances of the new imperial chancellor, Dr. Michaelis, concerning his stand on the war—utterances that naturally will be momentous inasmuch as they will indicate whether, with the recent changes in the German Government, Germany is to continue her warfare without abatement, or whether the desires for peace that have been heard so often in Germany, and especially in the reichstag, are anything but empty expressions.

DESIRE SPEEDY ACTION ON CONSCRIPTION BILL

Government Springs Surprise By Calling for Third Reading Today, But Liberals Demur --City and Hydro-Electric Score Victory in Railway Act Discussion.

By a Staff Reporter. Ottawa, July 18.—The house of commons was principally occupied today with the consideration in committee of the whole of the government bill to amend and consolidate the Railway Act. The clause relating to the control of the municipalities over their own highways so far as power and electric companies were concerned, passed as reported from the special committee. Mr. Carroll, the Liberal member for Carleton Place, led a determined attack upon sub-section 5 of section 374, which puts out of business the claim of the Toronto and Niagara Power Company to a perpetual franchise in the City of Toronto. He was supported by Messrs. Nesbitt (North Oxford), Sinclair (Guyboro), and others, but his motion to strike out the sub-section was voted down by a large majority after the case for the hydro-electric and the City of Toronto had been presented by Hon. Frank Cochrane and Mr. Claude Macdonell. Sir Adam Beck followed the debate with keen interest from a seat in the press gallery.

Many clauses of the bill proved to be non-contentious, and were adopted by little or no discussion. Those relating to the interchange of long distance business between the Bell Telephone Company and the independent telephone companies were adopted after some debate as reported from the special committee.

Election Assured. Upon the orders of the day Sir Robert Borden announced that the address to the crown praying for an extension of the parliamentary term, which passed the house of commons last night, would not be sent up to the senate for approval. This is tantamount to official declaration that Canada is soon to have a general election.

Daylight Saving. Hon. Rodolphe Lemieux asked the intention of the government as to passing and bringing into effect the daylight saving bill. Sir George Foster replied that the bill would become law at this season, but it would probably not be brought into force until next year.

Mr. Lemieux asked if the Insurance Act now before the house would constitute a precedent for the bill.

(Continued on Page 2, Col. 3).

Denial by J. D. Flavelle Of Figuring in Combine

J. D. Flavelle, of Flavell's, Limited, Lindsay, has written The World drawing attention to the fact that the name of Sir Joseph Flavelle, head of the William Davies Company, was erroneously associated with Flavell's, Limited, in an Ottawa report of last Friday, that the mistake arose thru cold storage and packing house companies being mentioned by number, not by name, in the O'Connor report.

Mr. Flavelle's letter follows: Editor World: In your issue of last Friday's paper an article appeared reflecting severely upon the business conducted by Flavell's, Limited, particularly referring to the abuse we are said to have made of our cold storage facilities, in securing undue and excessive profit upon bacon and eggs during war time, and also connecting the name of Sir Joseph Flavelle with our business.

Both of these statements are untrue and misleading; the statement particularly referring to the abuse of the three brothers are interwoven with each other is wholly incorrect. The two companies are entirely separate, having no mutual financial interests. We have never bought, sold or been interested financially in any bacon or other meat products.

Never in Combine. We have been in business in Lindsay for over fifty years, and during that period we have never been a member of any combine, nor have we ever entered into any agreement with any other business man or company in an attempt to lower the buying price to the producer or advance the selling price to the consumer. We have attempted to conduct our business in a legitimate manner with the best ability we possess. We are one of the pioneers of the cold storage movement in Canada, and we have no apology to offer for this. We believe this much misunderstood industry is of inestimable value to the farmers and food consumers.

Loss in Eggs. With reference to our egg business: During the year 1916 we are charged with making a profit of ten cents per dozen. This statement is absurdly incorrect. (Continued on Page 6, Col. 2).

(Continued on Page 2, Col. 3).

Russian Capital Under Martial Control Following Series of Bloody Clashes Between Cossacks and Anarchists—Premier Denies Cabinet are Under Arrest.

Moscow, July 18.—The local "council of the Workmen and Soldiers' Delegates" after a discussion of the disturbances in Petrograd by a vote of 442 against 242, decided not to allow street demonstrations in Moscow.

Petrograd, July 18.—At a conference of ministers and workmen and soldiers' delegates last evening it was decided to place the city under martial control. Gen. Polovtsov, governor of the military district, was summoned and instructed to use all the loyal troops to put down the insurrection. As a result he ordered out the Cossacks and several companies of infantry to patrol the streets.

One of the first clashes between the opposing forces occurred on Trotkiy bridge, where the Cossacks met a body of armed demonstrators. The Cossacks were armed only with sabres.

A brisk fire was opened by the insurrectionists, whereupon the Cossacks fled up Litviny street. Several Cossacks and 12 horses were killed.

Later a brush between armed government troops and Maximalists occurred in the neighborhood of the square. The Maximalists were quickly dispersed, leaving behind seventeen wounded.

A majority of the regiments of the Petrograd garrison and most of the armored motor car detachments are supporting the government. A machine gun regiment stationed at the square has signified its willingness to come to the government's aid.

A group of Maximalists were arrested by police on their way to the possession of the telegraph and cable office.

Following the series of clashes between patrolling forces of the government and Maximalists which occurred last night, the city this morning was quiet under a continuous downpour of rain. Yesterday's list of casualties so far as ascertained, comprises six persons killed and 238 wounded.

Most of those killed yesterday were of Nachdachsenski troops who opened fire on unarmed Cossacks passing in the Nevsky Prospect. Their own fire.

(Continued on Page 3, Col. 4).

The Cold Storage Crime.

(Christian Guardian.) The report presented to the minister of labor by the cost of living commissioner, Mr. W. F. O'Connor, relative to cold storage in Canada and its effect upon prices, has not made very pleasant reading. It seems to give official sanction to the view that so far as ascertained, comprises six persons killed and 238 wounded.

Most of those killed yesterday were of Nachdachsenski troops who opened fire on unarmed Cossacks passing in the Nevsky Prospect. Their own fire.

(Continued on Page 3, Col. 4).

(Continued on Page 3, Col. 4).

DENY DEAL MADE FOR BRANT HOUSE

Management States Hospital Commission Abandoned its Negotiations for Acquisition.

The World has received a letter from representatives of A. B. Coleman, proprietor of the Brant House, Burlington, to the following effect:

"Our attention has been drawn to an item in your paper of July 18, on page 5, headed, 'M.H.C. Takes Over Burlington Hotel.' We are instructed by Mr. A. B. Coleman, the proprietor of the hotel, to say that the military hospitals commission has not taken over the Burlington Hotel, and that the whole of the article complained of, and particularly the following paragraph, namely: 'The circumstances which resulted in the forcible taking over of the Brant House are said to be connected with the alleged failure of the hotel proprietor to live up to an agreement made last Spring when he is supposed to have offered the hotel to the military hospitals commission, negotiations ending in an agreement that the property be taken over at an annual rental of \$7,000. But it is alleged that when the time came to sign the agreement, Mr. Coleman asked for \$12,000, is not in accordance with the facts. This publication has subjected our client to a grave injustice and is seriously injuring him in his business.'"

The simple fact is that the transaction referred to in the article complained of never passed beyond the region of negotiation, and the matter was called off by the military hospitals commission and not by Mr. Coleman, and this not for the reasons stated in the publication but for wholly different reasons."

Yours truly,

B. N. Davis & Granger, the Brant House, Burlington, Ontario, is not interested in any way during the remainder of the season.

MAJ. McLEAN GETS SECOND BAR, D.S.O.

Lieut. Turner Wins D.S.O., and Other Canadians Are Decorated for Bravery.

Canadian Associated Press Cable. London, July 18. — Canadians in imperial, who have been awarded second bar to distinguish service: Maj. Charles Wesley Weldon McLean, Royal Artillery, son of Col. H. McLean, member for Quebec, Sudbury. On two occasions on the same day he went forward with great personal risk into heavy barrage fire to reconnoitre, and the following day led a party under heavy shell fire to extinguish a fire threatening to cause grave casualties, saving guns and ammunition. Distinguished service: Lieut. Jas. Alexander Turner, Royal Scots, belongs to Kingston. He organized an assault on a machine gun emplacement and carried it thru, capturing guns and teams at a very critical moment. He was severely wounded two days later.

Bar to Military Cross: Lieut. William George Barker, Flying Corps, formerly Canadian Mounted Rifles, carried out successful reconnaissance under difficult and dangerous conditions. Military Cross: Lieut. Hugh Dalrymple Alexander, Cameronians, formerly an engineer in Canada, foisted the enemy machine guns and established strong points under intense fire, and was severely wounded. Lieut. Alexander C. Baxter, Scottish Rifles, belongs to Montreal. By foresight and

HAMILTON NEWS

Hamilton, Thursday, July 18.—Iden Miller expressed dissatisfaction today that the head only had been shot. At noon today it was a garden party under the auspices of down today. Brigadier-General Logie delivered an address. A goodly sum was raised for patriotic purposes. Thomas Janet, 454 North James street, employed by the city, was admitted to the City Hospital today suffering from pneumonia.

Businessmen Enter Protest Against Moving Station "B"

Arrangements are being made for the removal of postal station B from King street west, between York and Bay, to the corner of Front and Bay streets. The proposed change has aroused the adverse criticism of business men in the vicinity of the present postal station who feel that business firms will suffer inconvenience as a result. Postmaster Rogers explained that the lease of the King street building had expired, and as it was the intention to use the eastern wing of the building as a post office, the present premises at Front and Bay streets would be temporary. He added that when the permanent quarters were established at the Union Station that branch would handle the bulk of postoffice business. The office on Adelaide street will still be in use, however, and Mr. Rogers will have his office there as usual.

ELECTRIC SHOCK FATAL; JAMES PRENTICE DEAD

In the General Hospital last night James Prentice, 224 West Richmond street, died as the result of an electric shock sustained at the Dominion Paper Box Co., 469 West King street. Prentice was employed on a power machine by the firm and about 6 o'clock last night was focused unconscious under his machine by two other employees, Frank Shields, 24 Morse street, and Arthur Bond, 22 Balloch street. They immediately called the police and Prentice was conveyed to the hospital in the police ambulance, where futile efforts were made to resuscitate him. It is believed by the police that Prentice touched a naked wire under the machine and so received a shock. The body was removed to the morgue, where an inquest will be held.

A SUMMER SHIRT SPECIAL AT SCORE'S TODAY.

Any collection of high-class toggers at Score's has the fullest appreciation from men who discriminate in dress—and the interest is none the less when it comes to the day when we lay out special lines at special prices, because in great stocks such as we carry there are bound to be the odd dozens here and there worthy they are, just to clear them up in the season for which they were purchased—and it's so today in ten dozen lots of pleated front Scotch shirts in a very fine quality Scotch shirt cloth in white and fancy stripes that are good value at \$2.75, but are yours for the choosing today at \$2.10. It. Score & Son, Limited, tailors and haberdashers, 77 King street west.

gallantry he considered the line. He has since been killed. Lieut. Harry C. Edmonds, Wilshire, son of R. Edmonds of Simcoe. He led his platoon to the enemy wire and placed men in the holes. He was badly wounded and since died. Lieut. Reginald T. C. Hoidge, Flying Corps, School of Ordnance, many occasions has driven down hostile machine guns and has fought in 24 offensive patrols. Lieut. George V. W. Laughton, Northumberland Fusiliers, belongs to Parkhill. During 24 hours on picket he conducted a daylight patrol to the enemy trenches.

(Continued from Page 1).

tain a provision respecting the maximum premium to be charged on life insurance policies in the case of soldiers going to the front. Sir Robert Borden replied that, in the absence of the finance minister, he could make no positive statement, but he knew the subject was under consideration.

A Biskilling Mystery.

Hon. Frank Oliver said he had received thru a copy of a pamphlet entitled "The Biskilling," by Arthur Mee, which seemed to be an attack on the liquor traffic in the United Kingdom. He found by the Canadian Gazette that anyone having a copy of this book in his possession was liable to a fine of \$500 and five years imprisonment. He desired to know what was known and by what authority this book had been placed on the black list by the censor.

Sir Robert Borden: "I am in the same unfortunate position as the honorable member for Edmonton, but I have to some extent relieved myself by giving the pamphlet to one of my secretaries to read for me. I am not sufficiently familiar with the contents to say why it has been censored or under what particular provision of the law."

Mr. Oliver: "I hope until you do read it that members of the house will not be prosecuted for having it in their possession." (Laughter).

Farm Laborer's Scarcity.

Upon the orders of the day being called Mr. Turritt proposed to move the adjournment of the house to discuss a question of urgent public importance, to wit, the scarcity of farm labor in the west. In support of his motion Mr. Turritt read at great length from an article recently appearing in The Manitoba Free Press, which he adopted. The article contained as his own. The harvest would begin in the west, he said, within the next three weeks. There was a startling scarcity of labor for harvesting and threshing. He thought the slackers should be conscripted for work on the farms, and sent from the east to the fields of the west. Alien enemies should also be conscripted and sent to work, and a maximum wage for such labor established. The Province of Quebec, he said, was the seedling season by bringing in several thousand men from the United States, but what one man could seed it required four to do the work. He thought it might be necessary to close industrial plants for a few weeks to get the necessary labor. He would be unfair to make such a free press as saying that farm laborers would not come this fall to the west from Quebec, because of the feeling that the farm laborers' tabu, members of parliament for voting for the military conscription bill, East Also Suffers.

This last statement was vehemently denied by Mr. Robb, Liberal member for Huntingdon. He pointed out a par with misrepresentations about Quebec that went on in the other provinces. People did not seem to realize that the farm laborers' tabu was more acute in the west than it was in the east. Farmers were paying from three to five dollars a day for help during the harvest, and thousands of women were now working in the fields of eastern Canada. The west, he said, boasted of being the bread basket of the empire, but the east had finished the cheese and butter for the bread.

Mr. Turritt said that however that might be, the problem was a serious one. The national service commission was apparently doing nothing to help the situation, and he urged that the government should take immediate action. He suggested that the federal authorities should mobilize labor.

Sir Robert Borden briefly stated that he was being done by co-operation between the government of Canada and the United States to relieve the farm labor situation, and was followed by Hon. Dr. W. J. Roche, who went over the details.

Co-operative Scheme. Dr. Roche said that, following the conference of Sir George Foster with the Washington authorities, the interior department had sent a number of immigration agents to confer with the officials of the departments of labor, agriculture and commerce at Washington. An arrangement had been effected between the two governments by the terms of which would facilitate the migration of farm labor and lumbermen from Quebec across the boundary line into New England, and also farm laborers from Ontario into the states of Minnesota and Dakota. These farm laborers from Canada would co-operate with the forces of farm labor recruited by the United States Government.

On the other hand, the United States would facilitate farm laborers in the middle western states coming directly after the harvest there to the western provinces of Canada. The two governments would co-operate in seeing that the laborers returned to their country from whence they came after their temporary employment ceased.

Wails of the West. Dr. Roche said that he had never known a harvest when the west did not claim to be in a terrible condition for want of labor. Last fall the western provinces claimed that they had to have forty thousand men, but they got on very well with 27,000. He hoped the railways would make even a lower rate than usual this year for harvest hands going to the west. The Dominion Government, he said, was co-operating with the governments of the prairie provinces, and there had been a conference at Ottawa last week.

The debate was closed by Mr. Macdonnell (South Toronto), who presided in the case for the City of Toronto and the Province of Ontario in a masterly manner. He reviewed the long history of the struggle between the city and the electric ring, and the effort of the Toronto Electric Light Company to gain a perpetual franchise by acquiring the charter of the Toronto and Niagara Power Company. Mr. Carvell's motion to strike out sub-section five was then defeated by a standing vote: ayes, 12; nays, 4; a party vote, except that Mr. Barnard (Victoria, B.C.) and Mr. Green (Kootenay) voted with the Liberals.

Telephone Interchanges. A prolonged debate arose upon the

DINEEN'S SELECT HATS AT ENGLISH MAKERS' PRICES

THERE'S a reason for this immense bargain offering of men's reasonable straws. We had to re-order our stock for this summer, following the fire of last March, and the shipments were unavoidably late in reaching us. We are therefore well along into the summer with an overstock.

These hats are the most recent importations—the latest and freshest output from the world's most famous hatters. The prices for this reduction sale have been pared down to "at the factory" figures. We import direct. We are exclusive agents. No middleman's profit.

AN ENGLISH SENNIT STRAW \$1.35

This will be our Popular leader, with another style for \$1.65 in second place and a particularly exclusive straw for \$2.00 as third.

GENUINE PANAMA HATS PRICED AS LOW AS \$2.65

We have the widest style variety and class assortment of genuine Panamas to be found under any one roof in Canada. The prices range according to the selectness of the fibre and the fineness of the weave, but whether the price is \$2.65, \$4.00, \$5.00, \$7.00 or \$8.00, the hat you buy is brimful of unapproachable Panama quality.

Come Early While the Picking's Good

amend and consolidate the Railway Act.

Bilingual Proposal. Mr. Boulay (Rimouski) asked that the Railway Act be amended as to require the railway companies in the Province of Quebec to employ trainmen and station agents who could speak both languages.

Hon. Frank Cochrane said this was the practice in the province of Quebec. He thought it a fair rule to apply to every international and transcontinental line that might run a few miles thru the Province of Quebec. He proposed to draft a clause into the bill to that effect.

Grievances of Members. When the clause was reached which required the railway companies to carry members of parliament free on all regular trains, some members objected to the requirement that they must carry certificates. These certificates, they said, were often mislaid and sometimes taken up by the train conductor and not returned.

Mr. Wright (Muskego) found a grievance in the fact that a railway company in his part of the country refused to carry him on freight trains. He had consulted the late Mr. Lancaster, M.P., about bringing an action, but he had not advised him that he had no case.

Hon. George P. Graham: "He gave you good advice." Other members objected to the railway companies charging them for excess baggage, but in the end the clause passed without amendment.

A number of sections were then passed without debate, but when section 374 was reached dealing with the rights of power companies and municipalities, Mr. Carvell (Carleton Place) moved to strike out subsection 5.

Power Companies' Rights. Section 374 permits power companies to build transmission lines thru municipalities on terms to be agreed upon or settled by the railway board, but gives every municipality the absolute right to grant or withhold a franchise to distribute electric power within its limits or to erect poles or string wires upon its streets. Subsection 5 in general terms deprives all the corporations of any rights in relation to the balance of the section, which may have been acquired prior to January 1, 1907. It is aimed at the County of Niagara Power Company, which under its charter has the right to erect poles, string wires and distribute electric heat, light and power in any municipality in Canada without the consent of said municipality.

Mr. Carvell said that no municipality should have the absolute power to withhold a franchise from any power company. The matter should be left to the railway board. Sub-section 5, he said, was aimed at the Toronto and Niagara Power Company, and its only justification was that the vested rights of that company interfered

with the business of the hydro-electric. The statute proposed to go back 10 years, and was vicious, retroactive legislation.

Defends Municipalities. Mr. Nesbitt (N. Oxford) disagreed with Mr. Carvell in thinking that municipalities should not have control of their own streets. In the future no such franchise should be granted to the province of Ontario. He thought it a fair rule to apply to every international and transcontinental line that might run a few miles thru the Province of Quebec. He proposed to draft a clause into the bill to that effect.

Mr. Carvell moved to reinstate the word "compensation," and argued that the railway board would have no power to award compensation as the bill stood.

Mr. Green moved to reinstate the word "compensation," and argued that the railway board would have no power to award compensation as the bill stood.

Mr. Green moved to reinstate the word "compensation," and argued that the railway board would have no power to award compensation as the bill stood.

WAR SUMMARY THE DAYS EVENTS REVIEWED

THE war has again fallen into a lull on all five of the principal fronts, French, Russian, Italian, Balkan and Turkish. No sign has come from any quarter as to where the next great allied attack will be declared, but the British front presents the greater possibilities, for after operations and the allied public has been waiting for more than a month. The Italians probably require more time yet for siege work at the strong lines before Duino. The Russians show manifestations of a coming effort in Rumania. Von Mackensen is waiting there for the assault with strong forces posted on a 100-mile front between the Carpathians and the Danube.

The Russian situation has developed into a struggle with swollen rivers in the Russian rear and consequently with the Russians fighting at a disadvantage. How long these conditions will last depends on the ability of the Russians to use the roads and to keep their pontoons above the floods. The Dniester River rises annually for a fortnight to six weeks duration. It apparently has risen earlier than expected this year. The actual events on the Lomnitsa front yesterday are few. The enemy attacked the Russians near Novica Village and took a height, but a Russian counter-attack regained it. The struggle has consisted mainly of advanced guard encounters. Light artillery, apparently, comprises the only guns yet in use on either side.

The losses to British merchantmen from German submarines, according to the British admiralty return for the past week, have kept about stationary. Fourteen large vessels, the same number as reported in the preceding week, were sunk, while of smaller vessels, under 1600 tons, the losses were four, or one additional over the previous week's total. The U-boats are continuing their offensive against fishing boats. They destroyed eight last week.

Latest news despatches from the western front continue to show in what desperate straits the enemy is getting for fighting men. In this they merely confirm what thinkers and students of the war long ago foretold, even to the exact month, when the crisis would come in the German reserves. Except for boys of 18 and under and returned wounded, the enemy has dried up his recruiting resources until winter comes and gives him a chance, unless defeated, to recuperate and reorganize his shattered forces for a longer siege. It would not be surprising if the permanent loss of the German army has not already run to more than 6,000,000 men, for outside of the lads under 20, he had originally a recruiting field of more than ten million. He is electing to maintain an army of four to five million men; he has drafted into active five classes in all of boys under 20. He has thus secured at least two million recruits from the lads under normal military age since the war began. When the spring campaign began, the enemy had a little more than a million men behind the army for drafts, including boys. It was the original plan of the allies for this year to wear down the enemy so rapidly that he would cease to replace casualties thru sheer lack of men by this summer. The allies have not yet gained this object, but if they keep on as they have been doing, they will gain it before autumn. September, the culminating month in the campaign, promises to be one of severe crisis for the enemy.

### Summer Rugs for Bedroom and Bathroom

Artistic Rag Rugs in Colonial Style, Procurable in Dainty Colorings, and Bath Rugs in Small Check and Tile Designs.

It is surprising how cool and inviting a room appears which has a rag rug for its floor covering. Its very simplicity is its chief attraction. So, if you are considering the purchase of a bedroom rug be sure and see these Colonial rag designs. Both they and the bath mats are reversible. Here are descriptions of the two:

In effective "hit and miss" designs are the Colonial rag rugs woven, both sides being the same, which adds to their serviceability. They may be had in blue, pink, mauve and brown.

Size 27 x 54 inches.	Price	\$1.95
Size 30 x 60 inches.	Price	2.25
Size 36 x 72 inches.	Price	3.25
Size 4 ft. x 7 ft.	Price	4.75
Size 6 ft. x 9 ft.	Price	8.50

Small checks and tile designs are shown in bath rugs, which are also reversible. They are to be had in pink and white, blue and white, or grey and white.

Size 18 x 36 inches.	Price	\$1.45
Size 24 x 48 inches.	Price	2.65
Size 30 x 60 inches.	Price	3.50

## Spend Your Mid-summer Hours of Leisure in a Couch or Swing Hammock

Of Which, in the Former Style, There Are Such Comfortable Types to be Had in Duck Upholstery, With or Without the Awning Stand. Or, If One Prefers the Swing Hammock, There is Ample Selection in Striped or Indian Blanket Designs.

Doesn't it offer a mute invitation to while away the hot Summer days—those idle hours of vacation or the blissful moments of rest from the daily task?

Indeed, if one is forced to remain in town during the warm months a hammock is practically a necessity. Swing one between the trees or on the verandah, or set it up underneath the shade of a tree in the garden, and, depend upon it, it will prove a joy to the entire family.

At \$21.00 is a couch hammock offering infinite possibilities in the way of comfort. It is covered in khaki-colored duck and has a well-filled mattress and steel springs. There are a back rest and end chain suspensions. An iron stand for hanging may be had at \$4.75, while awnings in striped or khaki-colored duck to fit the stand are procurable at \$4.75. Price complete, \$30.50.

To see is to instantly covet an attractive couch hammock upholstered in a charming shade of battleship-grey duck. It is fitted with adjustable windshield, soft, comfortable mattress, and has magazine pockets at the end. Heavy black and white cord is used for trimming. The hammock alone is priced at \$24.00, with stand and canopy to match at \$8.50.

Furthermore, there are delightful cushions to be had in grey duck to match the couch. These are in square style, and are also edged with cord. A filling of silk cotton floss ensures softness. Price, \$2.75.

An array of swing hammocks, strongly woven and fashioned with loose style pillow, deep valance and head spreader. They are available in a splendid assortment of patterns, including Indian blanket designs—a most effective model—and broken stripes. Colors, red, green and grey. Prices, \$4.00 to \$9.00.

## GRAND MASTER IS FOR COMPULSION

### Retiring Masonic Official So Declares Himself at Grand Lodge at Belleville.

Special to The Toronto World. Belleville, July 18.—The sixty-second annual communication of the Masonic Grand Lodge of Canada in the Province of Ontario began this morning at the Belleville armories with a large number of delegates in attendance and under the supervision of M.W. Bro. S. A. Luke of Ottawa. When the grand lodge convened the grand officers and delegates were extended a hearty welcome to Belleville by Mayor Ketcheson and Aldermen Woodley, Deacon and Marshall, on behalf of the citizens of Belleville. An address of welcome on behalf of the local lodges was read by W. Bro. H. A. Morgan. To the alderman Grand Master Luke made a suitable reply and also delivered his annual address, which was eloquent and inspiring. It was an able review of the work of the grand lodge and subordinate lodges, and showed that the year has been one of progress and prosperity for the order financially and in point of membership.

Belleville Historic City. In referring to the City of Belleville the grand master said the grand lodge was assembled today in a locality alike renowned in Canadian national and Masonic history. The land upon which the City of Belleville now stands was originally part of an Indian reserve, and was surveyed and settled about 1785 by United Empire Loyalists, those faithful subjects of what had become a foreign power. The first Masonic

## Belgian relief \$88.95. Assets on May 31.

of the general fund, amounted to \$118,987.87, and of the semi-centennial fund \$108,288.68. The membership is now approximately 65,800, a gain of 2850 over last year, and there are 449 warranted lodges on the register. A recommendation again was made for grand lodge that all lodges should elect and install in June and thus coincide with grand lodge; also that every lodge elect all officers by ballot, instead of requiring the W.M. to appoint assistant officers.

## Belgian relief \$88.95. Assets on May 31.

Continuing, the grand master said: "Compulsory service should be enforced, full where it may, so that our promise may be fulfilled and those who have been long on the battlefields, of whom the enemy has said, 'Canadians, why they never retreat or surrender,' may have a well-earned rest, and we do our part to bring the war to an end."

## DRASTIC MEASURES TO QUELL RISING

(Continued from Page 1.) ing started a panic in which five of their number were killed and 30 injured. The Maximalists have asked for more help from Kronstadt, most of the steps of the building. The minister was roughly handled by the crowd, but as he was being taken from the ground he was recognized by Trotsky, one of the agitator Lenin's lieutenants, who protested and harangued the minister's captors and secured his release.

Corp. T. E. Foley, Collingswood, Ont.

## GERMAN RESERVIST ARRESTED AT GUELPH

Had Been Sending Money to His Family in Germany Since War Started. Special to The Toronto World. Guelph, July 18.—Frank Moran, who has been for the past four or five months in the employ of a local merchant, was placed under arrest shortly before noon, today by Detective Greenaway, acting on instructions given him by Chief Randall. The charge against Moran was that he was constantly and regularly sending money to Germany, where his wife and family reside, their home being at Porsheim, Germany. Moran has been suspected for some time by the government authorities of sending money to Germany, but previous to the United States entering the war he could not be caught as he sent the money to a friend in New York, who forwarded it to his family in Germany. Since the United States entered the war, however, Moran has been sending the money to an address in Switzerland, and from there it went to his family. It is estimated that during the last three years since the war started he had sent close to \$500 out of the country. When he was placed under arrest today, and the evidence of his guilt was placed before him, he had no hesitation whatever in making a clear breast of the whole affair and admitted sending the money. A search of his room at his boarding house revealed nothing of value except the

## ITALIANS REPEL BODIES OF AUSTRIAN RAIDERS

Enemy Artillery Shells Ally's Lines at Vital Points. Rome, July 18.—The following official statement was issued today by the war office: "Enemy parties, which yesterday attempted to approach our positions, were all repulsed. A few prisoners remained in our hands. "The enemy artillery shelled our lines especially in the Zugna region, on the Passubio, on the Vodic and east of Gorizia. Our artillery replied effectively and also concentrated its fire on the Nabranina station, causing fire to break out. "The aerial activity was considerable along the entire front. Two enemy machines were brought down by our aircraft. One of our aeroplanes was obliged to land within our lines."

## WARNING TO CITIZENS.

London, July 18.—A Reuter despatch from Petrograd, filed on Tuesday night, reads: "General Polovtsev, the military governor of Petrograd, has issued the following order of the day: "In accordance with an order of the provisional government to relieve the city of armed disturbers of its peace and security, citizens are requested not to quit their houses without urgent need; to keep their doors and gateways closed and prevent unidentified persons from entering their houses. At the same time, the troops are ordered to proceed immediately to establish order. "Anarchist Parade Streets. "A passenger steamer and a flotilla of tugs brought several thousand soldiers, workmen and work-women from Kronstadt to Petrograd this morning. They bore banners inscribed: 'Kronstadt Anarchists' Club—Down with authority. Long live the commune.' "At the corner of the Nevsky Prospect and Sadovaya street, provocateurs were started similar to that of last night. It was followed by the opening of random machine gun and

RETAIL COAL MEN PROTEST TO OTTAWA

Charge That City is One of Chief Offenders in Holding Up Cars.

CALL FOR EMBARGO

Want Fuel Commissioner to Stop Shipments to Those Causing Delay.

Recommendation that an immediate embargo against all shipments of coal consigned to the chief offenders who are holding cars for unloading purposes was contained in a telegram sent to Ottawa by H. A. Harrington, secretary of the coal section of the Retail Merchants' Association, yesterday.

Secretary Harrington forwarded the despatch after he had been closeted with Superintendent Farrell of the Grand Trunk Railway Company, and made other investigations in which he discovered that the City of Toronto was one of the chief offenders. Not a single retail merchant is guilty of holding cars at Mimico or elsewhere, so far as he could discover, declared Secretary Harrington. He reproached Mayor Church for having intimated that retail coal companies were responsible for the situation at Mimico, in which 495 cars were still unloaded yesterday. The mayor in a conversation with Secretary Harrington yesterday said that he did not refer to the retail dealers in the previous conversation.

Scores City. The telegram sent to Ottawa by Secretary Harrington was directed to Sir Henry L. Drayton, chairman of the Dominion Railway Board, and read as follows: "On investigation it is found that the City of Toronto is one of the chief offenders holding coal cars for unloading. Not one retail dealer appears on Grand Trunk Railway Company's list. C. A. Magrath, fuel commissioner, order an immediate embargo against all shipments consigned to chief offenders. Our opinion that Mayor Church attend to his duties in Toronto, clear his cars and not waste our money discussing situation in which he has no accurate information." The latter part of the telegram was due to Mayor Church's visit to Ottawa to confer with officials there regarding the coal situation. Secretary Harrington as chief offenders in causing the situation which has been the result of failure to unload coal cars.

Holding Up Cars. "We can't get a single coal car," declared Secretary Harrington yesterday, "and the people who are holding up cars are the ones we are after. The New York Central line was induced Tuesday to lift its embargo on shipments to Toronto and we will be getting a supply over that line. "But as soon as the American lines find that their cars which contain coal are not coming back within a reasonable time, and that means as soon as possible, they will refuse to release any more, and it is only on the best assurances to those lines that we can get shipments of coal to Toronto."

Secretary Harrington's investigation, which showed that 495 cars, instead of 1,900 cars of coal, were at Mimico waiting to be unloaded was upheld by a statement of Superintendent Farrell of the Grand Trunk. "There never were 1,200 cars of coal at one time in our yards awaiting placing orders," he said. "The report to that effect was much exaggerated. We have at the present time about five hundred cars of coal awaiting orders from the consignees. We have not more than that at any one time."

Don't Want Demurrage. "On Monday we received 569 cars of coal," 174 were placed with the consignees. On Tuesday we received placing orders for 160 out of 505. The cars that are not placed have to pay \$1 a day demurrage fees, but we do not want the money. We want the cars. "The firms to whom these cars are consigned say that they cannot get the labor to unload them. Some of the cars remain on the sidings for at least thirty days, some less. I have written a sheet of letters to various firms telling them that they must unload their cars, but it does not seem to do much good."

SCHOOL TRUSTEES SEE MINISTER OF EDUCATION

Protest Against Department's Regulations Regarding School Buildings and Land Required.

A deputation from the board of education, composed of trustees Edmunds, Hopkins, Hodgson, Hunter and Secretary Wilkinson, with Superintendent Bishop, waited upon the minister of education Tuesday to discuss school buildings. Departmental regulations require that all buildings shall be two stories in height and eight acres of playground be provided. The trustees asked that special provision be made for city schools, as the school population is too large and land too valuable to allow of either condition being carried out in new buildings.

Schools are already overcrowded, they explained, in spite of three-story buildings, and many portable rooms which cut off the playground space required.

Riverson and Ogden Schools were mentioned as examples of the foolishness of the regulations. A 25-roomed school would be required to relieve the congestion in existing buildings, and eight acres of ground if carried out according to regulation.

The cost of such a site without the building would amount to \$500,000. Dr. Pyne, who did not enter into any discussion with the deputation, promised to give the matter his attention, but Dr. Colquhoun reminded the trustees that in making this regulation the whole province was considered, not only the schools of Toronto.

SUMMONED TO COURT FOR MALTREATING FISH

Humane Society Charges That Frank Ward's Fishpond, at Island, is Overstocked.

Frank Ward, Brunswick avenue, has been summoned to court on the unusual charge of "abusing fish." Ward has a pond at Centre Island, near the leagon. According to Inspector Bellingham of the Toronto Humane Society, who lodged the complaint against Ward, the pond is about 300 feet long by 60 feet wide, and is stocked with approximately 30 tons of carp and other varieties of fish. The complainant claims that the pond is too small for the quantity of fish stored there. So numerous are the fishy creatures that Inspector Bellingham and Dr. J. A. Campbell, who also examined the pond, claim that it is impossible to catch them by hand. Many dead fish were found, and it is claimed that lack of accommodation is the cause of death. The stench from the dead fish, the inspector and doctor said, was most disagreeable. Inspector Bellingham explained that Ward has been granted a permit for a fish-pond for exhibition purposes, but it is claimed that he stores the fish there for purpose of sale instead. Asked as to whether they intended to take any action regarding Mr. Ward, the provincial fisheries department said that as long as the fish were fed regularly and adequately and had sufficient water to swim in there was no objection to any man keeping them.

STREET RAILWAY WINS PRIVY COUNCIL APPEAL

Council Holds Overcrowding is Not Criminal Case and Not a Public Nuisance.

Hon. I. E. Lucas, attorney-general, received the following telegram yesterday regarding the decision of the privy council in the appeal of the Toronto Railway Company against a conviction of Justice Riddell in the overcrowding case: "Holds over the conviction not a criminal case, and not a public nuisance. Company's appeal against conviction allowed." The present decision is the culmination of a series of actions which have arisen from the prosecution by the crown of the recent Railway Commission for alleged criminal neglect of duty by the company in allowing their cars to be overcrowded so as to menacely the public health. At the North West 1911 Justice Riddell found against the company and a year later the case was taken to the court of appeal, where the trial judgment was upheld. The railway company then took the case to the privy council where their appeal was allowed.

Flight-Lieut. F. M. Bryans Accidentally Meets Death

Flight Sub-Lieut. Fraser M. Bryans, son of Dr. W. F. Bryans, 250 Carlton street, is reported by the admiralty to have been accidentally killed while on active service with the Royal Sea Force. At the time of Lieut. Bryans's enlistment he was in the third year of his electrical engineering course at Toronto University. After attending the Curtis Aviation School and graduating, last October, he went to England and shortly afterwards was attached to the royal naval air service at Felixstowe, where he was at the time of his fatal accident.

SOLDIERS VISIT GRAND.

This afternoon the boys in the Base Hospital who are being treated for spinal injuries will be the guests of the management of the Grand Opera House, to witness the big racing photodrama, "The Whip." The picture will be conveyed to the theatre by motor and will occupy the boxes.

DELIGHTFULLY COOL ON THE GREAT LAKES!

Port McNicoll, a short, pleasant journey via Canadian Pacific Railway, is the gateway to the Great Lakes. Steamship express leaves Toronto 2:00 p.m. each Wednesday and Saturday, making direct connection at Port McNicoll with either steamship "Quebec" or "Sault Ste. Marie," Port Arthur and Port Williams. Particulars from any Canadian Express Ticket Agent, or W. B. Howard, District Passenger Agent, Toronto, Ont.

CALL FOR PRAYER AT TWELVE NOON

Chaplains Ask That Canadian Methodism Unite in Daily Appeal.

A leaflet has just been issued by the army and navy board of the Methodist Church containing various suggestions and statements sent in by chaplains of Witley camp. The chaplains ask that the board adopt some practical plan, thru which Canadian Methodism may unite in daily prayer, pointing out that in Great Britain Bishop Taylor Smith, chaplain-general of the British army, has asked all Christians to engage in silent prayer for the empire and its cause every day at the stroke of 12 noon; also that Admiral Beatty, head of the fleet; Sir William Robertson and Sir Douglas Haig, commander-in-chief, have asked for united prayer.

Further, the chaplains make appeal to all local churches to keep in touch with the men upon their honor roll in every possible way. By forming letter-writing committees, by sending parcels to the friendless (one chaplain reports 122 men out of 4000 who were entirely overlooked at Christmas time), by sending reading matter, and by caring for those at home. "We feel that our church can best serve her soldiers by co-operating with the helper and friend of the loved ones at home." They also make suggestions for the reception and care of returned soldiers.

The army and navy department of the Methodist Church was opened in November, 1914. In addition to the already suggested summary of work undertaken is published in the leaflet. Summary of Work. (1) To meet the physical and spiritual needs of the soldier families left at home when the wage-earner has enlisted; (2) to secure the appointment of efficient chaplains; (3) to suggest methods of religious work in communities where detachments were mobilized; (4) to conduct services wherever possible contiguous to camps and to co-operate with other religious bodies and the Y.M.C.A. in the conduct of services within the camps; (5) to bring spiritual comfort and moral strength to our soldiers by co-operating with the non-Anglican churches in the publication and distribution of soldiers' booklets; (6) to ensure the comfort of men away from home by encouragement of Red Cross work in general; (7) to secure comforts for soldiers in hospitals, training camps and at the front by providing money for the use of chaplains for this purpose; (8) to care for those at home; (9) to arrange a hearty welcome for returned men, and help to find them employment.

Money Required. The biggest end of the work at this present time is stated to be the care of those at home and returned men. Tent meetings are arranged for at Camp Borden, and the leaflet closes with an appeal to all Methodists to aid in supporting this war-time work, which is financed by donations. Ten thousand dollars is the sum required before October 1 if the work is to be continued.

ALGONQUIN PARK.

The Highway to Health and Happiness.

No better place could be devised for a real holiday for red-blooded men and women than Algonquin Park, north-west of the City of Toronto. It is an unspoiled territory of nearly two million acres, started with beautiful lakes and increased by winding streams. No reserve in Canada can approach it in the wealth of attractions it offers to the lover of out-of-doors. An invigorating and refreshing respite from the heat and dust of the city, two thousand feet above the level of the sea, the park is a wonderful spot in which to renew the energy of the tired body and refresh the wearied spirit. Its tonic of pure pine, balsam and spruce; the days are unusually long with bright sunshine, while the cool evenings are a time of enchantment. The park is a paradise for the fisherman and canoeist; the excellence of its sporting facilities is from every part of the Dominion and from every state in the Union, while the canoeist can travel for hundreds of miles in his light craft and be in a veritable kingdom of his own. The accommodation in the park is such that the most varied tastes can be pleased. There are cottages for those who want to be in the wilderness and enjoy all the comforts that good service and social companionship can provide. There are groups of log cabin camps, comfortably furnished and ideal for family parties, with central lodges containing recreation and dining facilities where fancy parties can be given. There are also motor camps, with every thing ready for you when you return from the tramp; or if you have planned to camp under your own canvas, the little railway stations, and after a short paddle find a site unmarred by the hand of man, yet within easy reach of the park outfitting stores.

Many families now go into the park expressly for the camping, making their headquarters at the hotels long enough to get supplies and camping outfit ready for the trip. Then in canoes, and with guides or without them, they launch out into the deep woods, camping where fancy prompts. A handsome illustrated publication telling you all about this famous park is issued by the Grand Trunk Railway and a copy can be had free on application to C. E. Hornung, Union Station, Toronto, Ont.

HIGHWAYS EXHIBIT.

Provincial Department Will Show Section of Highway at Exhibition.

The Ontario Department of Highways will have a unique exhibit at the Canadian National Exhibition this year. A permanent model highway will be constructed and supervised by the Ontario Department of Highways. The road which will be 160 feet long and 10 feet wide will be built thru the agricultural section and will be used to demonstrate to municipal officials from outside points the various styles of construction favored in the rural parts. The roadway will be so built that it may be used as a model of construction and the materials used.

Come to This Meeting - It Concerns the Food Your Family Will Eat Next Winter

MASS MEETING CONVOCATION HALL (University of Toronto)

Honorary Chairman, Lady Hendrie. In the Chair, Mrs. H. H. Loosemore.

The Time to Plan to Defeat Hunger and Want is BEFORE Hunger and Want Are Forced Upon Us

RUSSIANS BEAT ONSET OF REINFORCED ENEMY

Ally Regains Point of Vantage From Foe in Region of Novica Village-Fighting About Halicz.

London, July 18.—On the Russian front General Korniloff's army in eastern Galicia is stubbornly holding back the reinforced Austro-German armies, which at various points are endeavoring to wrest from them the positions recently won in the Halicz and Kaluz sectors. In the latter region near the village of Novica the enemy won a vantage point from the Russians, but immediately afterwards, in a counter-attack, lost it again. The Germans are violently bombarding the Russians, but immediately afterwards, in a counter-thrust, recaptured the eminence. The Austro-German guns have opened a heavy fire along the front from south of Brzezany and in the region of Halicz. The text of the official statement reads: "There has been intense artillery fighting on the part of the enemy in the region of the Village of Potutory, south of Brzezany and in the neighborhood of Halicz. "South of the Village of Novica, to the south of Kaluz, enemy detachments, after strong artillery preparation, attacked and occupied one of the heights. Our detachments slowly retired on the line of the River Brzezany. "An hour later the enemy renewed the attack from the direction of the Village of Novica, but as the result of a valiant counter-attack by our infantry and cavalry, the enemy was thrown back and we recaptured the above-mentioned height. "There has been no material change in the situation on the Rumanian and Caucasian fronts."

WANT VACANCIES IN SENATE OPEN

Liberal Members Strive to Debar Appointments Before Elections.

Ottawa, July 18.—A resolution offered by Senator Power in the senate today, declaring "that the appointment of new senators prior to the dissolution of parliament would be an act of partisanship derogatory to the prestige, dignity and independence of the senate, and would be a violation of the understanding arrived at between the two parties in regard to the cessation of party strife during the war," was declared to be lost upon division, after considerable debate.

Sir James Loughheed said that the government would fill every vacancy at an early date.

Power said that there had been an agreement reached in 1915 between the two leaders in the commons for political truce during the war; there was to be no general election and no contests of by-elections. Under that agreement there were now 33 vacancies in the commons, and he held that the senate should be dealt with as the commons had been.

Nine-Tenths Liberal. Senator Cloran held that the prime minister had not lived-up to the spirit of the agreement for political truce, in filling the senate with his followers. He stated that provincial elections in-

DRAIN ON MAN-POWER

Sixty Million Workers Withdrawn From Productive Pursuits.

Sixty million workers have been drawn from productive pursuits by the terrible struggle going on in Europe. Ten nations of the world are being felt everywhere. If the allied powers are to overcome the enemy they must bear that strain best. The mobilization of the human resources of every allied country is essential. Great Britain is spending over \$35,000,000 a day. The United States is voting billions for war purposes. Expenditures in the Dominion have steadily risen until now it is estimated that \$600,000,000 will be required this year. To meet such expenditures the Dominion must mobilize its financial resources. The savings of every man and woman in the country are required to carry the burden. Thrift and economy are essential that more savings may be released for war purposes. The National Service Board is appealing for investment in War Savings Certificates. By such investment you can best help in financial mobilization. C-17.

CONTRACTORS SUE RAILWAY.

Judge Dismisses Claims Not Admitted by the Defendants.

M. J. O'Brien, A. McDougall and John O'Gorman, contractors, were sued by A. T. Hamer and T. C. O'Gorman, sub-contractors on the Trans-continental Railway, for \$7,104.98 alleged to be due to them. Yesterday the defendants brought into court with them the sum of \$8,025.65 which they claimed was the extent of their indebtedness. Mr. Justice Sutherland, in giving judgment, declared that the plaintiffs had been shown a considerable amount of the claims not admitted by the defendants and considered the costs down to the time that the defendants made the payments into court, while the defendants are allowed to take out of the amount of their costs, the remainder belonging to the plaintiffs.

CANNOT GET INJUNCTION.

The motion of F. M. Connell, F. A. Young and A. E. Way for an injunction restraining C. H. Bunker, A. A. Smith and W. J. Haines from proceeding with operations on the Prince-Davis Cobalt Silver Mining Co., Ltd., Sutherland.

WENTWORTH COUNTY WINS.

Judgment has been given by Mr. Justice Sutherland awarding the County of Wentworth the sum of \$115,50, against the Hamilton Radial Electric Railway Co. This represents an annual payment of \$450 for 1915-16-17, and was claimed under an agreement made in 1905. As the road in question has been annexed by the city, the company, claimed that it was no longer compelled to pay, as the company has no longer a franchise over it.

FINED FOUR HUNDRED FOR SELLING LIQUOR

Police Methods of Getting Information Severely Criticized by Alderman Singer.

In the police court yesterday Hymie Steinberg was charged with selling liquor at his home, and was fined 400 or four months in jail. The fine was paid. Police methods of getting information were severely criticized by Ald. Singer, Steinberg's counsel. Plain-clothesman Scott said he had given a certain girl two dollars to obtain a bottle of whiskey from Steinberg, and Plain-clothesman Nell swore that later he saw the girl emerge from Steinberg's home with a bottle of whiskey wrapped in a newspaper. Entering Steinberg's home, he had found two dollars on the man, and on comparing the number in his notebook, he found it to be the money given to the girl. Asked if it was true that he had promised to "be easy" on the girl if she secured information against Steinberg, Plain-clothesman Scott said that it was not within his province to promise or grant leniency to anyone. That was the magistrate's privilege. The girl corroborated Scott's statement that she had been a willing factor in the case.

FRUIT FOR SOLDIERS.

Housewives Can Help by Putting up a Few Extra Bottles When Preserving This Year.

The Toronto branch of the Red Cross was very grateful if all of Toronto's women would put up a few extra jars of fruit when they are preserving for their families, in order to help supply a little home comfort for our returned soldier boys in the convalescent homes and hospitals in Toronto. This would be greatly appreciated and would be gratefully received at headquarters, 55 West King street.

CAPT. JAS. HENDERSON BURIED.

The funeral of Capt. (Dr.) Henderson, which took place yesterday, was a most impressive one, and was viewed by many along the march to Prospect Cemetery. A large escort and firing party was present from the 108th and at the grave the last post was sounded. The funeral was largely attended by the many friends of the deceased, which left the family residence, 24 Palmerston boulevard, about 2 o'clock. The Rev. Dr. Pidgeon and Mustard took part in the service, and the committal was conducted by Major (Canon) Dixon, when the firing party fired three rounds.

EX-BUGLER FINED.

Fred Henry, 15-year-old ex-bugler, was committed for trial yesterday when he appeared in the police court on a charge of stealing two pairs of compasses, field glasses, cutlery and other articles belonging to Capt. George Harcourt of Ravenna Barracks. For having a loaded revolver in his possession when arrested he was fined \$20 and costs of \$30 days.

TORONTO MURDERS

Franklin Howard Well Known in City

Word was received yesterday notifying of the death in New York of Franklin Howard, of H. party, of this city, five years ago for condition improved was thought by recovery would be of his death shock. Mr. Williams was married with the marriage and began the in early age. He and she became the only son of a European centennial, but not long a talents bespoken a successful career.

NEW WELL

Municipality Drilling Well in Prospect Cemetery

Yesterday the commenced drilling well at the south end of the Blithings property and the depth of about 25 feet was reached. As the last well has been abandoned, the new well will ensure a plentiful supply of water for the residents.

BOYS FACE

Two boys were arrested by Acting Sergeant W. J. found abandoned in the city. One of the boys was named Wilmerson and the other was named Wilmerson. They were found in a field near the city limits and were taken to the police station. They were charged with stealing a horse and pig from a farm near the city. They were held in custody and their parents were notified. They were released on bail and are to appear in court.

# WRIGLEYS

The Pass Word to pleasure, for the fighters abroad and workers at home

## IS WRIGLEY'S

The name of the famous Chewing Gum that has won its way around the world.

Three fine flavours

Small in cost Big in benefit

It is a Sweetmeat, a Stimulant and a Health-help all in one. It benefits teeth, breath, appetite and digestion. It steadies stomach and nerves. It is ever-ready refreshment when you're fagged.

CITY HALL NOTES

H. Dennison, 140 Lansdowne avenue, a returned soldier, has been appointed night watchman at the city hall, and will receive \$20.80 per week.

Another soldier who has seen service overseas, Thomas Goddard, has been given a temporary position in the fire department at a salary of \$650 a year.

Permission to hold an exhibition in Moss Park playground has been granted the Ontario Colliery Club by the board of control.

No women are incarcerated at the jail, according to the latest figures furnished by the authorities.

In connection with the expansion of the Bloor street trolley line from Quebec avenue to Rymnyside road, the city has only received one tender.

WONDERFUL ORGAN BARGAIN. Anyone looking for a really fine bargain in an organ should call on Mr. F. J. Heintzman at 192, 195, 197 Yonge street.

Negligee Shirts You can choose from thousands of new shirts, regular \$1.50 to \$1.75 98c.

Many New Arrivals At Thorncliffe Park

All was hustle and bustle at Thorncliffe Park yesterday. Many new arrivals were reported, and there are already enough horses quartered at the course to guarantee a successful meeting. However, several large consignments from Montreal and Windsor are due before Saturday, the opening day, and the indications are that large fields will race for the valuable purses hung up by the club. In the estimation of Manager Berger, Thorncliffe Park is the finest piece of racing property in the country, and he is confident the Toronto people will agree with him when they get their first sight of the park. Seven or more races will be run daily, and nearly 40,000 will be distributed during the seven days of the meeting. The track can be reached in twenty minutes from the centre of the city by motor, and in half that time from the North Toronto Station. BALL AT CAMP BORDEN. The Dentals of the Infantry Training Depot defeated in outdoor baseball the B.F. & P.T. so far undefeated; score, 8 to 5. Batteries—For winners, McKee and Bateman; for B.F. & P.T., Dennis and Downey. HIGHLANDERS BEAT GRENADIERS. The 48th Highlanders football team, stationed at No. 2 special service, played the 10th E.G. and won by 4 goals to 1, three goals going to Pte. Judge and one to Pte. Runnocks. Pte. Edwards scored for R.G.

DR. SOPER DR. WHITE. Specialists in the following Diseases: Piles, Eczema, Asthma, Diabetes, Blood, Nerve and Bladder Diseases. Call or send history for free advice. Medicine furnished in tablet form. Hours—10 a.m. to 1 p.m. and 2 to 6 p.m. Sundays—10 a.m. to 1 p.m. Consultation Free. DRS. SOPER & WHITE, 23 Toronto St., Toronto, Ont.

AMATEUR BASEBALL. The added attraction of many new players, as well as the closeness of the league race, should bring out a large crowd of fans to Queen Alexandra grounds, when the weekly double-headers of the Riverside Senior League are put on next Saturday. Broadviews have added strength to their line-up by signing Blouin, Burdick and Bowman, formerly of the Western City League. Burdick is the well known motorcycle rider, and is also cracked up to be a first-class catcher. Athletic, who met Broadviews, will have Jimmy Nicholson, late of the St. Pats team, on their line-up, and the should strengthen Athletics' infield greatly. National have signed up Dobby Gould, who is claimed to be a heavy hitter and a fast outfielder. They will have him in the game against Royals at 4 p.m. on Saturday. For the heaviest duty motor truck wheels carrying three tires have been designed. If salt is used for sweeping carpets it will keep out moths.

That Son-in-Law of Pa's Pa Has Picked Out the Patient By G. H. Wellington. GUESS I'LL GO UP Y' TH' NURSERY AN' SKYLARK AWHILE WITH TH' TWINS—I AINT SEEN EM ALL DAY. G-GREAT GUNS! WOW? THEAH, THEAH, FANTHAW, DON'T BE ALARMED AT THOSE BANDAGES? YOU SEE, MOTHAN AND SALLY ARE THINKING OF ENLISTING AS RED-CROSS NURSES, AND— I WAS MEAHLY DEMONSTRATING TO THEM THE APPLICATION OF BANDAGES TO VARIOUS SUPPOSITIOUS WOUNDS. I'LL SEND THE TWINS NURSE UP TO REMOVE THOSE BANDAGES AT ONCE. SO? WELL, TELL HERTY SAVE TH' BANDAGES—YOU'RE GOIN' TO NEED 'EM!

FORGING AHEAD IN METAL PRODUCTION

Canada Stands Fourth in Gold Output, But Possibilities Are Great.

FUTURE AHEAD Sufficient Capital and Transportation Necessary for Full Development.

World Special Correspondent. Porcupine, July 18.—The total production of gold in the world to the end of the present year will be about \$17,000,000,000. More than half of this sum has been produced within the past twenty-five years, and the greater part of this half within the past 10 or 12 years.

Down to 1885, the world's gold output never reached as much as \$100,000,000 annually. In 1886 it was more than \$200,000,000, and in 1906 it for the first time exceeded \$400,000,000, and then advanced steadily until it reached \$470,000,000 in 1915. It was approximately this amount in 1916.

The chief gold producing countries are South Africa, the United States, Australia, Russia and Canada. During the last 30 years the Kolar field in India, has added about \$800,000,000 to the world's production, and is still mined in South America and the State of Minas Geraes in Brazil has one of the oldest, as well as the deepest gold mines in the world. Work on this mine began in 1834, and with some interruptions has continued to the present time.

The temperature at moderate depths in Northern Ontario is practically the same in summer and winter. It is generally around 40 degrees. It is warm in winter, and cool when the heat on the surface is over 80. In descending a shaft in summer it is possible to experience a decrease of 40 to 50 degrees in temperature in as many seconds.

Africa is now the largest producer of gold. The Rand alone has an output of \$200,000,000 annually, the United States nearly half that sum. Then come Australia with slightly over \$40,000,000, Canada at present a poor fourth, but its possibilities are probably the best.

Other large producers are Peru, Mexico and Peru. In 1915 the United States produced \$89,000,000, Mexico \$100,000,000, Canada \$15,000,000, and Peru \$5,000,000.

Silver Output. The production of silver for the first time exceeded \$200,000,000 in 1916. It reached \$200,000,000 in 1898, and its apex in 1911 with \$292,000,000. It then slowly declined, and was only \$222,000,000 in 1915.

RIBBLE VEIN ON WASAPIKA UNLIKE ANY OTHER IN NORTHERN ONTARIO Peculiar Formation in the Nature of Folds Resembles "Saddle Reefs" of Australian Mine.

DAVIDSON AFTER ANOTHER PROPERTY Large Amount of Development Work Already Accomplished.

Developments have taken place of a significant nature in connection with the Davidson gold mine, which have not as yet been discounted in the market, because the market is not cognizant of the facts. The issue has been maintained in the market, and work on this mine began in 1884, and with some interruptions has continued to the present time.

DISCOVER VEIN. While digging a sewer recently along East street, on the Chambers-Ferland property, workers encountered a comparatively strong vein containing cobalt, molybdenite and a little silver.

HUDSON BAY PRODUCTION. During the month of June production from the Hudson Bay mine amounted to only 28,000 ounces.

STANDARD STOCKS.

Table with columns: Stock Name, Asked, Bid. Includes items like Gold, Dome Extension, Dome Lake, etc.

Table with columns: Stock Name, Open, High, Low, Cl, Sale. Includes items like Apex, Dome Ext., Dome M., etc.

YEAR OF PROGRESS ON OPHIR PROPERTY

Drifting on Likely-Looking Vein in Search of Pay Ore.

The management of the Ophir Cobalt Mines, Ltd., have just completed one year of aggressive development work with a view to locating, at the contact, their numerous veins showing on the surface.

NEWRAY ADVANCED ON HEAVY BUYING Mining Market Less Active, But Seadier in Tone—Adanac Weakened.

Renewed buying of Newray on the part of the cutting of another vein on the property was the feature of the Porcupine group in the mining market yesterday.

Large Ore Zone. "I know from eye-witnesses who have just come from the property that the ore zone is at least three times as large as the Dome zone was at discovery, and that it also occupies in size and more particularly in intensity shearing the Hollinger-Adanac zone."

Homeseechers' excursions to Western Canada at attractive fares, each Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, Sunday, and Monday.

RUMORS OF CHANGE IN NEWRAY CONTROL

Representative of Eastern Capital to Make Inspection of Property.

HEAVY BUYING On the Strength of Recently Reported Favorable Developments.

Speaking of Newray this week, a man on the street said: "I can not say that I notice the strength in Newray, and I believe the stock is on the edge of a movement which will carry the price higher."

Some History. "Newray has always been a favored issue of mine. My predilection for the proposition goes away back to the earliest days of Porcupine, when it was known as the Connell property."

On the whole the mining list displays a steady tone, and the market was not so active generally, but the selling pressure, which figured so largely in the preceding session, was not so marked, and small rallies were made in some cases.

Adanac was the weak spot in the silver market, heavy liquidation causing a continuance of the downward move started on Monday.

Responds to Development. "I repeat a little history to show that while Newray has been held back in its development, the property has all along responded to development fully up to expectations."

Large Ore Zone. "I know from eye-witnesses who have just come from the property that the ore zone is at least three times as large as the Dome zone was at discovery, and that it also occupies in size and more particularly in intensity shearing the Hollinger-Adanac zone."

ISBELL-PLANT MINING TALKS

DOLLAR MARK FOR SILVER

The present high prices for silver have infused new life into the mining industry of the Canadian north country.

However, the mine operators of the north were far from being disinclined to meet the views of the miners as to more pay with which to take care of increased living costs.

Should the present prices for silver be maintained we may look for at least 15 years more of productive life for Cobalt, as the operators there will be provided with the necessary incentives for carrying on exploratory work to depth and for taking up additional ground in the diabase region.

A few years ago, when silver was selling around the low price of 46c an ounce, it looked as if the years of Cobalt were numbered.

Eighty cent silver means volumes for Cobalt. In the past year at least 17 mines in the district have reopened, these being Cochrane, Columbus, Gifford, Green-Meehan, Hargrave, Hudson Bay, Lorrain, Ophir, Quaker City, Red Jacket, Right of Way, Rochester, Shamrock, Silver Queen, Tretreway, Wetlaufer and York-Ontario.

Some of these newly opened properties have almost gotten back on a solid paying basis, notably Hargrave. Hargrave is operating in both No. 1 and 2 shafts and is sinking in the No. 3 to get the contact from the 375 level, the theoretical position of the contact being about 420 feet.

Speculation is now becoming rife as to silver advancing to \$1 an ounce. That is the objective of the present movement.

We have to go back to the year 1893 to find silver selling as high as 78c an ounce, around which price it sold the year for some time, and then forged ahead to 80c. Prior to 1893 silver sold at more than \$1 an ounce in every year since 1870 except 1886, 1887, 1888, 1889, 1891 and 1892.

It is no wild-eyed prediction, in the light of present conditions, that silver will go to \$1 an ounce. The prophecy emanates from conservative bankers, offices as well as from the sanctuaries of imaginative financial editors.

All this necessarily refocuses the outlook from the standpoint of silver. We must revise our opinions regarding the metal and the sources from which the metal must come.

At present trading interest is becalmed in the coppers, which have become entangled in strikes and complications with the Government.

We are making up a list of productive and constructive silver issues to submit to those who make inquiry. We are in close touch with every movement and development of the silver mining industry of the north.

Write us and get gaps of the silver areas, also the CANADIAN MINING NEWS, which gives the latest silver mining intelligence covering northern camps, and our specially prepared list of investment and speculative "Silver."

# THE BELTSAC

We are what we choose to look like---Ambition---Achievement---Courage---Conviction---All are usually expressed in personal attire.

We dress not only to please ourselves, but also to please others and to measure up to events. It requires seasons to popularize some styles---others become famous overnight. We all follow the popular trend.

No style in recent years has enjoyed as widespread popularity as that accorded the Beltsac.

The Beltsac is pre-eminently a young man's model, but it does not stop there---older men who depend on clothes to do more for them have found the forceful spirit of youth in the Beltsac---it has taken years off the shoulders of some men.

Today we are showing the Beltsac in a liberal number of this season's finest and most sought after styles---some show belts that encircle the waist, others have half belts, still others with three-quarter belts---all are tailored in masterful style in fabrics of known quality, one style described and illustrated on this page.

Of course men who prefer the more conservative modes can make a selection from the latest styles in the most wanted fabrics.

A perfect fit is assured, whether it's a Beltsac or a plain suit, because our garments are graded to the measurements of the various types of men.

We can show you models from two famous American makers, the House of Kuppenheimer and Michaels-Stern of Rochester, suits that possess beautiful style lines of distinction and character.

**Beltsac at \$35**

Brown vicuna with fancy stripe. Designed with two-button front, has belt that completely encircles waist. Coat quarter lined; unlined vest. Trousers with cuffs and belt loops. Sizes 34 to 39.

**Young Men's Sac Suits at \$25**

Green vicuna. Three-button straight front. Vertical slashed pockets. Athletic vest and quarter lined coat. Trousers have cuff bottoms and belt loops. Sizes 35 to 40.

**Men's Tweed Suits at \$20**

Grey pin checked tweed. Three-button coat tailored in distinctive style. Vest correspondingly designed. Trousers finished with belt loops and cuffs. Sizes 38 to 40.

**Unlined Suits at \$18**

Medium grey materials of soft texture, especially woven for special types of suits. Coat has two-button front; vest to match. Trousers have belt loops and cuffs. Sizes 36 to 44.

**Norfolk Suits at \$15**

Grey Donegal tweed, sponged to prevent shrinking. Two pieces---coat and trousers. Tailored and finished the same as the better class suits. Trousers have belt loops and cuffs.

**Stylish Cool Cloth Suits Designed for Summer Comfort**

They are made of shrink-proof material, and, though light in weight, it is woven closely to insure service and at the same time comfort. They are distinctively designed in the styles preferable to both young men and stout men, portraying two- and three-button sacque and pinch-back coats, with patch pockets; no lining, but have French facings. Sizes 34 to 44 and 42 to 50 chest, \$12.00. Stout men's, \$12.50.

**Men's Bath Robes for the Beach at \$5.50**

Elderdown or Blanket Cloth Robes in assorted colors and patterns; big, roomy, comfortable robes for the hours of rest and ease. Sizes 36 to 46. Also Terry Cloth Bath Robes, in light colors and grounds, with attractive patterns, at 4.50

**Just Lately Through the Submarine War Zone These English Brussels Rugs Convey the Latest Designs and Colorings**
