HELIE DE SAGAN INTERVIEWED IN PARIS

He is Going to Italy Today to Meet Madame Gould—Says America Was Torture to Him

Paris, April 21.—Prince Helie de Sagan gave an interview to a representative of the Journal at the house of a friend last night, before he left for Naples, in which he admitted that he was going to Italy to meet Madame Anna Gould, formerly Countess de Castellane, to whom he is reported to be engaged, but he refused to give any information as to when and where the marriage would take place, saying: "The future is in the hands of God." The Prince described the experience in America as "torture." He said he was everywhere besieged by a legion of reporters and a horde of photographers and that the most odious and most disgusting things were printed about him and Madame Gould. "They even announced that our marriage had occurred secretly in New Jersey," he said, "which was as false as the reported family dinners at which my fate was discussed." He declared also that even a high prelate of the Catholic church took notice of his presence by issuing a manifesto against the marriage, and that the clergy each Sunday to preach violent sermons against him and Madame Gould.

CHATHAM ELECTIONS ARE SERIOUS

Chatham, April 21.—(Special)—An interest is being taken in the town elections today. Over \$1,000 was placed in taxes during the forenoon prior to nomination day by citizens anxious to qualify as voters. It is anticipated that a large percentage of qualified voters will go to the polls but owing to the large number of candidates the votes will be much split up at the present time the indications point to the election of two old councillors and six new men. Street talk connects the election to J. Fred Benson, W. E. Cassidy, F. E. Neale, R. A. Snowball, A. N. Williams, H. A. Loggie, E. Gallivan, J. Y. Merriman, or John B. Bell. Polling began at 10 o'clock and will close at 4.

Chicago, April 21.—A new world's record was made in the two-men event of the city bowling tournament in progress here, when Jack Hoffenkamp and Herman Glassner, Chicago men, totaled 1,339 pins last night. The former record was 1,288 rolled by Edward Blouin and Charles Dewitt in the Canadian meet at Toronto, recently. The scores were: Hoffenkamp 47, 215, 229. Glassner 185, 209, 180—1,339.

DEFEAT FOR WARD SYSTEM PRECIPITATED BY WARDMEN

Very Light Vote is Being Polled To-day—Mayorality Contest Will be Close and Exciting While There is Much Doubt as to Result in Prince, Queens, Kings, Guys, Victoria and Dufferin Wards

Election day dawned bright and clear and in the various wards the candidates and their henchmen were early at work. Judging from the talk of the workers the vote will be a very light one and little interest seems to be evinced by the majority of the citizens. In the wards where there is a contest for an alderman quite an effort is being made to get out a good vote, but where there are only contests for mayor and alderman-at-large little interest is manifested. A trip around the various wards this morning revealed the fact that Alderman Bullock had a very complete organization while Mayor Seale had few representatives at the polls. From all that can be gathered it would appear, however, that the voters for the mayoralty chair will be a very close and exciting one. While many predict Bullock as a winner there are others who are just as emphatic in claiming the victory for the present mayor.

In Queens, where Elkin, Hetherington and Wilson are fighting for honors the indications point to a majority for the first named. In Kings, Ald. Hamm, Chas. Jones and O'Brien express confidence that the result will be favorable to each, but from what can be gathered, there seems to be a feeling that Jones will be the successful one. Ald. Vanward feels confident that Dukes will again give him a majority, though Frank Potts and his friends feel that he is a winner. There will probably be no change in this ward. In Dufferin ward there is a strong feeling that Alderman Willett will go down to defeat before Osholan. Strenuous efforts are being made to elect the new mayor.

There seems to be considerable doubt as to the result in Victoria where R. E. Perrin is seeking to supplant Ald. Pickett. It is freely stated that in both Dufferin and Victoria wards, George McArthur of the firm of McArthur & McVay, contractors on the water extension, has been working energetically to defeat the two present aldermen. It seems likely, however, that Alderman Pickett will be re-elected.

Winnipeg, Man., April 21.—(Special)—The employees of the eastern lines of the Canadian Pacific Railway system sprang a coup on the company when they took the war into the enemy's camp and abrogated all the working agreements. This is believed to be a defensive act, calculated to influence the company in dealing with the western unions. The company, on its part, posted the proposed working rates for shops, which plainly indicate an intention to throw them open in defiance of organized labor.

Brantford, Ont., April 21.—(Special)—Affairs at the Buck stove works where 120 moulders have been out on strike for three weeks assumed a serious aspect last night when at the closing hour the strikers attacked the non-union men on picket duty. This riot was the sequel to the day's events. During the morning the union men from elevated positions on the Grand Trunk tracks gave some strike breakers a "quintuple of stones, while the latter were on their way to work. One strike breaker had to be removed to the hospital.

A FRIEND IN NEED.

The pathetic effort made by the weather man to cover the streets with snow on the day of the civic elections, so that an exasperated electorate would neither break his neck on the way to the polls, nor be tempted to destroy the aldermanic candidates, was the subject of universal comment this morning. It may have been misplaced sympathy, but it was well-meant.

The Easter meetings of the Episcopal churches were held Monday, and were all well attended. On the whole the year was reported a very satisfactory one to the congregations. Acting on the request of Bishop Richardson a number of the churches appointed committees of seven members each in connection with the Laymen's Missionary movement. In those cases where this was not done last night it will be attended to on an early date.

The church has given \$4,778.21 in addition to the sums required for the maintenance of the church services. Bible study has claimed a large place. The pastor asks attention to the following points:
1st. We must not be satisfied with the giving of money as our share towards missionary labors, we must year by year get that from our midst men and women offer for active service. We must formulate plans that have this decided end in view.
2nd. The Sunday school must have more time and attention and care. While it has improved there is still room for improvement. In some way teacher training must be added to our plans, and a Home department established.
3rd. The habit of church attendance

MONCTON AFTER THE DOMINION EXHIBITION

Will Ask Government for the \$50,000 Grant for 1909

Moncton, N. B., April 20.—At a meeting of the council of the Moncton board of trade this afternoon it was decided to memorialize the Dominion government for the Dominion grant of \$50,000 for the Dominion exhibition in 1909.

It was further resolved to petition the Government for an armory for Moncton and request the marine department to construct light-houses along the Petitcodiac River for the benefit of navigation.

Hon. H. R. Emmerson was present at the meeting and took part in the discussion, promising support to the memorial.

At the annual meeting of the Albert Fishing Club held this afternoon Senator McCreery, was elected president; I. G. Prescott, vice; Dr. Somers, secretary; treasurer. The club decided to stock Locher's Lake with 2,000 black bass and also stock Trout Lake with smelts for food to increase the size of the fish.

The Missionary and the Striking Argument

BY GEORGE O. BAKER.

I. Chief Umbagog—Ah! what do I see approaching on the distant horizon? What was a mere black speck now takes the form of a man.

II. "I'll just conceal myself in this hollow tree, and see what turns up."

III. Missionary—Whew! This desert sun is certainly hot. I shall rest me here in the sparse shelter of this old tree and see if some forcible argument will strike me whereby I can better cope with these benighted savages.

IV. Chief Umbagog—Hi! Hi! How's this for a striking argument?

V. Missionary—Oh! Lord! Send me wings that I may fly! This country certainly is a nice man to leave me all these presents. Wonder how my argument struck him.

VI. Chief Umbagog—Ump! Ump! Ah never seen a white man run so fast. He certainly was a nice man to leave me all these presents. Wonder how my argument struck him.

SIR ADOLPHE CARON

Sir Adolphe Caron, whose death is announced today, has not been active in politics for some years past, but as a member of Sir John Macdonald's cabinet in the eighties and early nineties he was much in the public eye, and was, moreover, a popular minister. He belonged to that school of Quebec politics which produced Langevin, Chapleau, Ouimet, Angers and others.

REFORM AND REFORMERS

It is announced that the federal cabinet is considering the details of a measure to amend the Civil Service Act. The public naturally expect a measure of this sort, since the report of the Civil Service Commission has revealed a scandalous state of affairs in several of the departments.

SPRING CLEANING

The annual spring cleaning of premises in the city has been ordered by the board of health. An inspection of some tenement sections would reveal the fact that unless landlords are compelled to make material changes a cleaning process such as should take place in the interests of the public health is practically impossible.

The people who live in localities where there are well drained and well ventilated houses, with abundance of light and air, would be amazed if they paid a visit to some places where families are herded together in unsanitary houses, with every inducement for the outbreak and culture of disease.

The outlook for the western crops this spring is regarded as exceptionally favorable. With regard to the industrial and commercial outlook the proposed construction of new factories and mills all over Canada is noted with satisfaction by the Montreal Witness which has been looking closely into industrial and trading prospects for the present year.

The Victoria Colonist says: "It was mentioned incidentally in a press despatch from Ottawa yesterday that the C. P. R. has represented to the imperial authorities that it can transport 10,000 troops across the continent without interfering with its regular traffic."

The Victoria, B. C., board of trade, has taken up the question of street construction and repairs. There is here a suggestion for the St. John board. The system now in vogue in Victoria is declared to be a failure, and one speaker at the board of trade meeting urged that the city resort to the contract system.

That the citizens of St. John should rise on the morning of April 21st to find the roofs and streets whitened with snow, and to find on going forth that despite the brilliant sunshine a crisp layer of ice and snow crinkled under their feet, was certainly an unexpected experience.

The Marathon road race at Boston yesterday is said to have attracted a hundred thousand people to the streets near the finish line. There is a universal interest in clean athletic contests. There should be a further revival of such interest in St. John during the coming summer and autumn.

Monoton is nothing if not ambitious. That town wants the Dominion exhibition of 1909. Whatever may be thought of its chances of getting the grant there can be but one opinion concerning its enterprise. It sets an example to its neighbors in that respect.

The unspeakable Turk has once more accepted discretion as the better part of valor. The Italian fleet will not sail for Turkish waters. The sultan has come to terms. History generally repeats itself in Turkey's relations with other powers.

Unless the signs fail, there will be fewer liquor saloons in St. John this year, and a more rigid enforcement of the law respecting sale during prohibited hours. Public opinion stands behind these necessary reforms.

The independent attitude of La Patrie has led to the resignation from its directorship of Hon. R. Dandurand, who is Hon. Mr. Brodeur's law partner. The partisan grip on the press of Canada is gradually weakening.

The civic elections are not exciting any large degree of interest. In one or two wards the fight is keen, but there is no important issue at stake beyond that of the future method of electing aldermen.

The latest railway horror is reported from Australia, where over forty persons were killed, and sixty injured in a collision, near Melbourne.

The Russian forces in Persian territory are in danger of destruction. This little affair may assume larger proportions than has been anticipated.

The Sun this morning, with singularly bad taste, made a vigorous political attack upon Mr. Ames, M. P., who is today the guest of the Canadian Club.

TULIPS (From the Pall Mall Gazette.) They stand like lovely ladies at a ball. With quaint hooped skirts held wide, Where gleaming sunbeams o'er their gay gowns fall. O'er rose-brocades and cherry lute strings all Set primly side by side. They curtsy to each other very low As drifts the soft wind by, And paduasoy and taffeta like snow 'Gainst gold and amber ripple to and fro Beneath a turquoise sky.

IN LIGHTER VIEN THIS IS A FACT. It takes a mighty hard, long, tough old winter to affect a girl's appetite for tea cream soda.

IN HIS ELEMENT. Greasy Grimes—"You look as if you'd managed to get in de swim somehow." "Tuffled Knutt—"Yes; I'm a First Ward floater now."

ADVICE. Miss Peschley—"Auntie, I find it hard to entertain Mr. Ketchley. He seems to have so little general information." "Matchmaking Aunt—"Then, specialise, my dear, specialise; if Browning is too deep for him, try him on baseball."

ALL RIGHT. Tulips bravely peeping out, Pastures turning green, Cocks, with elevated tails, Frisking o'er the scene. Cheering sunshine in the day, Showers in the night; Summer well upon the way— Oh, the world's all right.

WAS BIG MISTAKE. (Till-Rite.) Briggs (indignantly)—"I understand you said I never opened my mouth without putting my foot in it." Digs (apologetically)—"Yes, I believe I did say that, but—" Briggs—"But what, sir?" Digs—"But I acknowledge my mistake. When I made that remark I had overlooked the size of your feet."

SYMPATHY. "It's a serious thing, Verena," sighed Mrs. Upmore, "to be the wife of a man who holds a public office, and keeps him away from his home." "I know just how you feel, ma'am," said the elderly domestic. "My first husband was the grand imperial order of the Amalgamated and Solidified Order of Fuzzy Guzzles, and sometimes he was that busy trying to remember the signs and grips that I couldn't get a word out of him all day long."

A BIBLE GRADUATE. (Indianapolis News.) Octave Thanet tells a story of an old dandy in Florida who was anxious to learn to read so that he could read the Bible. He said that if he could read the Bible he would want nothing else. A friend of the narrator taught him to read. Some time afterward she visited his cabin and asked his wife how his Bible reading was getting on. "Laws, Miss Fanny," said this person, "he jes' sittin' kin read fine. He's done got outen de Bible an' into de newspapers."

THE WONDERFUL HUDSON TUNNELS

The Great Underground Terminal Station—Enormous Quantity of Concrete Used

The Hudson Terminal Buildings of the Hudson tunnels occupy the eastern half of two blocks in the lower part of New York, bounded by Church street on the east, Greenwich street on the west, Fulton street on the north, and Cortlandt street on the south. The buildings consist of two structures separated by Dey street, which lies midway between Cortlandt and Fulton streets. A short third floor level, says Walter Mueller in Cement Age, the buildings are connected by a bridge which spans Dey street, while below the surface of the street the construction is carried clear through from Fulton to Cortlandt street. This lower portion forms the terminal station of the lower or south pair of tunnels, which pass under the Hudson river from Jersey City. It is constructed in an excavation about seventy-six feet deep to the floor of the sub-station and has dimensions of approximately 210 x 435 feet. This sub-structure, which is built almost entirely of concrete, was really designed and built as an independent base upon which the super-structures of the two buildings rest.

Some idea of the huge quantity of material employed in the construction of the Hudson tunnels is afforded by Walter Mueller in Cement Age. For instance the amount of Portland cement used, over 900,000 barrels, represents the annual individual output of numerous cement companies. All of this cement is being furnished by one concern. The writer states further that the excavation for the sub-structure of the terminal building involved the removal of 170,000 cubic yards of material. Of this, 50,000 cubic yards, consisting of very largely of quicksand, were taken out under compressed air. 60,000 cubic yards of concrete, reinforced with 1,000 tons of twisted steel bars, were employed in the construction of the foundation walls, column footings, and floors. Comparing the material removed with the Singer building tower, 612 feet high, shows that it were it piled up on the site of the tower, it would be double its height. The concrete employed would form a block of the same width and length of the tower and two-thirds its height. The reinforcing bars, if placed end to end, would form a line more than 150 miles in length, or greater than the distance between New York and Albany. In the foundation work alone more than 1,700 men were employed 3 1/2 time.

Bradstreet's Comment on the New York Securities Market During the Last Week--A Few Stocks Absorbed Attention

THE RAILROAD EARNINGS SHOW FURTHER DECREASE

(Bradstreet's Report.) To write that railway gross earnings are showing heavy decreases is to convey nothing new. The tendencies in the railway world have become so one-sided, as it were, that the only duty left to the chronicler is to record the extent of the downward swing and leave the matter of probable future changes to the action of whatever economic forces may set in.

BERLIN'S MAYOR IS SORE ON THE PRESS Rules Reporters Must Knock on His Door Hereafter, and Won't Give Them News

Berlin, Ont., April 20.—Mayor Huber, Berlin's socialistic chief magistrate, has instructed Town Clerk Miller not to allow the representatives of the local newspapers to see or use any papers or communications unless they secure permission from his worship. He furthermore instructed the clerk to inform the press to knock at the door of the mayor's office hereafter instead of "walking right in" as they were told to do after the mayor was elected.

THE LONGSHOREMEN AND DONALDSON LINE CLASH

The Longshoremen's Association and the Donaldson line steamship agents are at odds. The longshoremen wished to have in some degree the right of transit, as follows: Intimations continue to circulate that a very material improvement may be seen in the earnings of the Metropolitan system, but the prevailing opinion is that the movement is largely of a manipulative character.

MARES OF MAHOMET

In bygone days there was no more enthusiastic feeder of horses than the Prophet Mahomet. In the course of time he became the owner of a vast number of mares, and the point was how to arrive at a selection of the very best. At last he hit upon the following scheme: For three days and nights the mares were kept without water, then they were loosed, and as might have been expected, tore madly off to their usual watering place. Just as they were on the very brink of the water the trumpeter blew the war signal for assembly. Maddened with thirst, the mares forgot their training, and many of them, forgetting their own urgent need, galloped back at once to seek their masters.

FOUND HUSBAND IN WEST

A destitute wife and an indigent husband have been put into communication through the efforts of Chief of Police Clark and Staff Sergt. Loggin, of the northwest mounted police. Mrs. Edward J. Tasker arrived here during the winter, and asked the chief of police to aid her in locating her husband, and among the numerous letters one written to Parnell McCafferty, of the Saskatoon Police Staff, Sergt. Loggin and Constable Moses were despatched on the case. The man, who is now in Chicago, was located and his wife's plight drew all the money coming to him and sent it to her.

ONCE RICH, NOW IN PRISON.

(Special to the World.) Philadelphia, April 20.—After having spent a fortune of \$200,000, being a good estate operator in this city, is now in Moyamensing prison awaiting trial on a charge of larceny. The man is Adolph Broas, formerly a real estate operator in this city, who was brought to this city today from Chicago, where he was located after a long search, just as he left prison, where he served six months for passing a worthless check. Broas's first mistake was made last year. He was arrested on a charge of obtaining \$200 on a worthless check. Broas presented a worthless check to a jeweler in payment for diamonds. A month ago Captain of Detectives Donaghy heard that Broas had lost an arm in a wreck. Feeling sure that the man was in Chicago and that the police had information, he set out to find him. Then Chicago wired later that he had been located.

COL STANTON ARRESTED.

A Grace Bay despatch to the Sydney Record of April 18, says: "R. MacDonald, chief of police, caused the arrest of Col. W. G. Stanton, manager of the late McAniff's company, on charge of posting and distributing circulars advertising his play on telegraph wires." Stanton accompanied the chief to the town hall, where he paid a fine of \$10, after which he was released. The town authorities are determined to have the town ordinances in regard to distributing of posters on the streets rigidly enforced.

MODEL MANNERS Politeness Contests Are Made in Some of the Best English Schools

The Household (England) school children are patterns of politeness. A "chart of good manners" is hung on their cloak-room door, and friendly competition exists between the boys and the girls as to who shall remember the rules for behaviour best. "It is quite amusing," the head mistress said the other day. "Even the little ones ask the other children to read the rules out loud while they are taking off their hats."

MORRISSEY OF NEW YORK WON THE BOSTON MARATHON RACE

One Hundred Thousand People Saw the Contest Which Was a Rattling Good One

Boston, Mass., April 20.—T. P. Morrissey, of the Mercury A. C., New York City, today won the twelfth annual renewal of the Boston Athletic Association Marathon road race, covering the 26 miles from Ashland street, to the finish mark on Exeter street, in two hours, twenty-two minutes and 43.15 seconds.

Following in order were: M. J. Ryan, Irish American, A. A. C., New York, 2:27:08. George Brown, Nashua, N. H., 2:27:48. J. J. Lee, Boston Athletic Association, 2:28:34. Fred. Lorne, Mohawk A. C., New York, 2:32:20. S. Miller, Mercury A. A., New York, 2:41:17. A. R. Welton, Lawrence, 2:43:25. J. J. Goff, Cambridgeport Gymnasium Association, 2:43:53. C. Andrews, Xavier A. C., New York, 2:44:10.

R. K. Wentworth, Lynn, Mass., 2:44:31. A. Halstead, Lawrence, Mass., 2:45:10. C. Henry, Lynn, Mass., 2:45:31. Morrissey ran a wonderful race, following out a plan carefully mapped out. He was never out of striking distance of the veteran runners, and when the race was half run his reserve strength began to tell.

The weather conditions were ideal for fast time when the contestants, twenty in number lined up before the start in the village of Ashland, ready for their long journey, a trifle over 25 miles, to Boston. A fresh wind was blowing out of the northwest right at the runners' backs, and although a light snow fell for a few minutes, it soon turned to rain, which as the long miles wore covered, refreshed the competitors and laid the dust along the course.

Every man had been examined by physicians and pronounced fit to attempt the long run, which as an Olympic feat, afforded the judges an opportunity to select part of the men still journeying to London and represent their country in the Olympic games.

Rap Welton, of Lawrence, Mass., winner of the junior five-mile championship in Jamaica, took the lead at the pistol. Starting out like a sprinter, Welton was fifteen seconds ahead when he finished the first mile. Entering Natick, Welton was two minutes ahead of the record and a quarter of a mile in front of the second man, with Fowler and Morrissey occupying third and seventh places respectively.

The flying leader increased the distance with every stride, and passed through Wellesley nearly four minutes before the record. Fowler still held third place, and Morrissey had moved up to fifth, but Welton was half a mile away. Leaving Wellesley and running through Newton, the men encountered the long hill which has proved fatal to many Marathon runners.

By the time he had reached the hill Welton's strength was spent, and he was forced to climb the hill at a walk. The veterans who, up to this point had held their strength in reserve, began to move to the front. Welton's lead, however, was so great that he had covered nineteen miles before he was overtaken. Leaving the reserve, Hayes, winner of second place, began to come up with a rush, and at Coolidge's Corner was in sixth place, while Fowler, Lee and Morrissey were well bunched in the lead. After Coolidge's Corner had been passed, and the distance to the finish line was only about two miles, Morrissey began a spurt, and soon about of Fowler and Lee. He received a tremendous ovation as he came along Commonwealth avenue and Exeter street, the winner by fifty yards. Hayes came in with a fine spurt, and snatched second place from Fowler by a like distance.

The crowd of nearly 100,000 people which

Many of the bodies were unrecognizable when recovered. The Bendigo train suffered but little damage, but the two engines were piled on top of the rear coaches of the other train. HARDER-HALL COMPANY MADE PRONOUNCED HIT

The Girl and the Gambler Proved a Most Successful Vehicle for Opening Engagement

The Harder-Hall Stock Company opened their engagement at the Open House and Casino yesterday afternoon and evening. As a matinee bill the company presented a "Daughter of Dixie," while the evening offering was "The Girl and the Gambler." At the latter performance the house was packed, pit to gallery. The gallery gods were out in full force and long before the first act the orchestra, were clamoring for the first act. The play, throughout was well staged—especially all the scenery being new to St. John theatregoers—and the performers were accorded a hearty reception. The dancing damsels were rather out of the ordinary, and proved a pleasing acquisition.

Miss Hazel Carleton, in the role of Gertrude Lawrence, "The Girl," at once won the sympathy of the audience, and while of a different type from Miss Myrtle, showed marked ability which was quickly recognized by generous applause.

Mr. McMillan, as "Douglas Blanchard," the gambler, made an excellent "heavy" and his portrayal of a really fearless part displayed careful study and a thorough grasp of the role. Helen Marsh, as the adventuress, was entrusted to the capable hands of Miss Daisy Carleton who proved an able support for Mr. McMillan. "Billie" and "David Maxwell," and the remaining members of the cast were thoroughly at home in the Spectator's parts, and rounded out a good performance.

THE LABOR UNIONS ARE MULTIPLYING IN NEWFOUNDLAND

Archbishop Howley Denounces Them And Creates A Considerable Sensation

St. John, Nfld., April 20.—Labor unions were almost unknown in Newfoundland up to 1892. Then the only organization for the protection of the employed was the typographical union. Since then, and especially of recent years, unions and societies have sprung up on all sides. Not alone printers, but cooper, teamsters, carpenters, masons, longshoremen, shop assistants, and others have their particular organizations, whilst even now great schemes are being promoted, which may mean much for the future weal or woe of the island—the establishment of a fishermen's protective union, and the federation of all the unions under one supreme council. The chief factor in the establishment of these bodies is Michael P. Gibbs, the present mayor of the city of St. John's. Mayor Gibbs is regarded as the labor leader, and cannot fail, sooner or later, to occupy a prominent place in public life. He represented the district of St. George, on the treaty coast, for one term in the assembly, and was defeated by only eight votes at the election of 1904. Since then he has devoted himself to work in the city, and it is said, will lead the Opposition in the east end of the city next November.

Recently a bombshell was exploded in the labor camp by a sermon from the Roman Catholic archbishop of St. John's, Dr. M. F. Howley, who, in plain terms, not only denounced labor unions, but expressed his belief that the old days of the truck system when men were paid in goods instead of cash, were better days. Wages were too often wasted in liquor and, although higher than formerly, the recipients were no better off.

Of the members of the various unions in the city it is safe to say that over two-thirds belong to the Roman Catholic persuasion, of which Mayor Gibbs is a prominent member, and the archbishop's pronouncement has caused widespread consternation in labor circles, as well as general surprise. The cause for surprise lies in the fact that the archbishop, who is a keen politician, has been and still is the main buttress of the Liberal party in Newfoundland, so much so that on the retirement of Sir Edward Morris from the ministry of Sir Robert Bond last July, the archbishop sent for Mayor Gibbs and offered him Sir Edward's portfolio as minister of justice. Mayor Gibbs, whose political sympathies were with the Opposition, despite pressure both from His Grace and the Bond cabinet, promptly refused, preferring to remain loyal to the labor men whose confidence he had secured.

The meeting of the Men's Bible Class of St. John's (Stone) church, postponed on account of the Easter meeting, will be held this evening at eight o'clock. As there will be but one more meeting of the class after tonight's session, the pastor would like to see a large attendance of the members.

In reply to an enquiry for particulars regarding the loss of the sealing schooner Edith R. Balcom, a cable message was received at Halifax from Montevideo on Friday, stating she struck a submerged rock off the Argentine coast, in March, and that caused her loss. She had 227 seal skins on board when she struck.

Miss Clara G. Hadley, who has had charge of C. P. R. telegraph office in Truro for the past four years and a half, has resigned her position, and left Friday morning for Boston, where she intends to spend the summer visiting friends. Her place is being temporarily filled by Miss Helen W. Hallett, St. John.—Halifax Herald.

There will be a convention of the Maritime Deaf Mutes' Association in St. John, August 24th, 25th and 26th. SENTENCED ON AN OLD CHARGE

Wm. Holm Was Fined \$20 This Morning for Assaulting His Wife—Other Police Court Business

There was a long and varied bill of fare at the police court this morning, the session lasting till after 12 o'clock.

William Peterson (or Holme) is again in the tools, having been arrested last night, at the instance of Robert Cook, who charged him with kicking in the door of his shop on Brooks street. It was not on this charge, however, that he was sentenced.

It will be remembered that the prisoner was before the court several weeks ago when he faced a charge of assaulting his wife and was allowed out on suspended sentence, with the understanding that he was to procure employment, and keep away from the house of Mr. Cook, who is his father-in-law, and from his wife and child had been staying, unless given permission by Mr. Cook to go there.

As the defendant had failed to live up to this agreement, he was today fined \$20 or two months in jail and the present charge allowed to stand against him.

Both plaintiff and defendant were sworn. According to the evidence, Mr. Cook claims that the prisoner pounded and kicked at his door between 7 and 8 o'clock till after 9 o'clock last night and when he (Cook) came to the door he found the glass broken. Peterson (or Holme) accused Mr. Cook of coming between him and his wife. Defendant held an open knife in his hand and threatened to "fix" him. Mr. Cook stated further that he lowered his little girl from a back window by a rope and sent her for the police.

Defendant declared he had left a letter containing money for his wife and wanted her to get it. He also stated that Mr. Cook came out with an axe and shoved the handle through the broken pane in an attempt to hit him. Before being taken below the prisoner asked if he had no rights by which he could see his child.

Wm. Cooke was fined \$8 or 30 days for profanity. Wm. Hill was fined \$8 for indulging in obscene language at the East Side ferry house. Everett Hare, charged with breaking and entering the Salvation Army Shelter, Water street, was cautioned and allowed to go.

Because Wm. Baxter took too much brandy to cure cramps he was fined \$4 or 10 days in jail.

Preliminary hearing in the cases against John O'Brien and John Cook, charged with escaping from the jail gang, was taken up and evidence taken, after which the prisoners were remanded.

Wm. Duncan, charged with a similar offence, was sent back to serve out his term in jail with an additional two months standing against his future good conduct.

ICE GOING OUT FAST

Navigation to Fredericton May be Expected at Any Time Now

Advises at Indiantown today were that there should be navigation to Fredericton at any time now as the ice is fast going out.

The Majestic left for upper Gagetown at 12 o'clock with a big freight and some few passengers. She will ascertain today just how far it is possible to get up. The steamer brought down quite a number of passengers yesterday.

The Elaine left at 11:30 for the Jemseg with a very large freight and a number of passengers.

The Champlain yesterday took away a big freight to the mouth of the Bellisle. The Aberdeen went up to the mouth of the Washademoak this morning.

THE VAN BUREN MILL MEN OBJECT

They Take Exception to St. John's View of Lumber Difficulties on the Line

Van Buren, April 20.—The American lumber mill owners on the St. John river here take exception to a statement in a St. John dispatch of April 9 relative to the difficulties which exist between them and the Americans who operate lumber mills in New Brunswick and ship their American cut logs and lumber into this country free of duty.

They object to the statement that they have built a dam across the river contrary to the Ashburton treaty which requires that the channel of the river, where the river forms the boundary between the two countries shall be kept free from obstructions. They assert there is no dam here, nor has there ever been one, and that the only delay to logs has been between Seven Islands and Edmundston, N. B., 20 miles above here.

The local interests say the whole trouble centres over the booms which the American mills here have strung in the river for the purpose of holding the logs for their mills and for sorting them from the other drives on the river. If the Van Buren mills are not permitted to string these booms, they must shut down their plants, it is said. In this event, the logs would have to go to Fredericton and St. John and be manufactured in mills which, though owned by Americans, are said to be manned by Canadians, whereas the American owned and operated mills would become idle.

At the time the treaty was made and the congressional act passed, the only place where there could be manufacturing on the river was at the Canadian cities of Fredericton and St. John, but when the Bangor & Aroostook railroad was extended to Van Buren an outlet was given for lumber manufactured in Maine mills on the St. John. As a result, two mills are in operation here. Since they were built there has been a constant conflict between the local interests and those at Fredericton and St. John.

THE CANADIAN CLUB ADDRESS TONIGHT

Mr. Ames' Lecture on Western Canada Should be One of the Best Yet Held.

The sale of tickets for the evening's meeting of the club has been larger than on previous occasions at the same date. There are plenty yet to be had without taxing the accommodation of the room. Mr. Ames is now on the way from Nova Scotia, where he has been addressing meetings. He is distinguished as a politician, but will not be in his address, but will discuss the wonderful development and great possibilities of Western Canada, giving a personal observation and serious study. The eye will be interested by the line light views and the car passed with the instructive John. The board of trade will today extend the courtesy of its rooms to Mr. Ames.

THE McQUADE CASE

The case against W. H. McQuade, charged with violating the liquor license act, was resumed in the police court yesterday afternoon, when after one witness had been examined, adjournment was made till Monday afternoon at 2 o'clock.

Police Clerk Henderson asked for the postponement.

During the proceedings Mr. Henderson said he had reason to believe that witnesses had been tampered with, and that Frank King had been coerced to the steamer Sinitia in a coach.

Mr. Mullin and Mr. Barry strongly objected to further postponement which was finally granted.

Michael Daly

(Bangor Commercial.)
The death of Michael Daly, for many years a well known and highly respected citizen of Bangor, occurred about 6:30 o'clock Sunday morning at his home on Emerson street.

Mr. Daly is survived by a widow, two sisters, Mrs. William Connors and Mrs. Ellen Cavanaugh; a daughter, Mrs. Hugh Gallagher, and seven sons, William H., Michael A., Cornelius, Thomas J., Frank D., George A., and Daniel E. All of these reside in Bangor with the exception of Daniel, who is in St. Louis.

Mr. Daly was born in Bantry, county Cork, Ireland, August 30, 1838. He came to this country when a small boy, arriving at St. John, N. B., in a sailing vessel. From St. John he walked to Ellsworth, Me., where he had an uncle, and then came to Bangor.

There will be a benefit concert for the Every Day Club life and drum band in the Carleton Nickel Theatre on Thursday evening. Besides the usual picture programme there will be specialties and band music.
