Thousands Perish In Floods and Landslides In China

52 MISSING IN PEKING FOREST FIRES IN WEST

PROPERTY LOSS IN CATASTROPHE MANY MILLIONS

Prolonged Rain Causes Rivers to Flood and Land to Slide.

PEKING ISOLATED

Railway Lines Blocked—Drastic Measures of Relief Proposed.

BY RAY G. MARSHALL (United Press Staff Cor.)

Peking, July 15.—Thousands of lives are reported lost and hundreds of villages destroyed in Honan, Anhui, Kiangsi and Hunan provinces of China, which have been devastated by floods and landslides brought on by prolonged rains.

Tremendous financial losses have been incurred throughout the western part of the country.

Peking itself is practically isolated, except for the Tien Tsin railway line, which is threatened with inundation.

The entire business district of Kaigan, the westernmost rail head of China, was destroyed, and the railroad at this point buried under landslides and debris.

Loss Totals Millions.

Some lives have been lost and the property loss runs into millions of dollars. All foreigners are reported safe.

Peking is threatened by breaking dikes along the mountain river to the eastward, where soldiers are toiling day and night at constant flood.

Tien Tsin is also flooded, but this is only being prevented by the efforts of an army of coolies working at the dikes.

Engineers propose drastic measures to save the city, suggesting cutting some of the dikes and permitting the water to overflow into the low rice lands between Tien Tsin and Peking.

The railroad lines running between Peking and Yankow and between Peking and Sui Yan are both without traffic.

FORTUNES MADE IN SALE OF GRAIN

Advances in Corn and Oats Are Turned to Advantage by Brokers.

Chicago, July 15.—Profits of between \$1,400,000 and \$1,800,000 are estimated by brokers to have been made by Arthur W. Cutten, Chicago grain merchant, in a sale of 300,000 bushels of July corn at around \$1.12 in addition to large profits on recent wheat advances of from 20 to 25 cents a bushel in the Chicago and Winnipeg markets.

James A. Patten, whose attempts to corner wheat, corn, oats and cotton have made him famous and brought him fortunes, is also reported to have reaped considerable profits through recent disposal of 2,000,000 bushels of oats, purchased in May, when dealers predicted big losses.

Cash corn yesterday sold for \$1.13, a cent less than last year's high point, while July corn was quoted at \$1.10. The recent jump of corn of 40 cents caused Cutten's profits, brokers say, July wheat reached the highest mark of the season with \$1.23 1/2 in Chicago and \$1.22 in Winnipeg.

A month ago Mr. Cutten predicted corn would reach \$1 a bushel before the end of July. He persisted in this belief and wet weather which retarded the crop vindicated his judgment.

Mr. Cutten who predicted a higher price for wheat, has been one of the rebel holders of futures in the Winnipeg market.

Rebels Are Eight Miles From Santos

Buenos Aires, July 15.—A wireless despatch received here last night from the German steamer General Delgado relating a wireless message from captain of the British liner Andes which left Santos yesterday, says: "The situation is serious. The rebels are eight miles from the city."

Bobbed Hair Brings Beards, Is Warning

Berlin, July 15.—The women of the future may have longer beards than the bearded women of the circus today, in the opinion of Dr. Adolph Heilbron, if they continue the invasion of man's domain of activities.

"As women exercise more and more," Heilbron writes in the Berlin Morgenpost, "they also begin to assume a masculine growth of hair."

He cites Buckman, Brandt, Friedenthal and other anthropologists as authority for his statements that there has been a decided increase in the number of bearded women and expresses the belief that families wherein generations of women bob their hair will develop bearded women as a parallel phenomenon.

MULVANEY IS NEW TAMMANY CHIEF

Succeeds Late Charles F. Murphy—Organization Backs Democratic Ticket.

New York, N. Y., July 15.—Judge George W. Mulvaney of the Court of General Sessions was yesterday elected chief of Tammany Hall as successor to the late Charles F. Murphy. The executive committee of the organization, which unanimously chose Judge Mulvaney, also passed a resolution endorsing the Democratic national ticket and pledging its "undivided and loyal support" to the candidates, John W. Davis and Governor Charles W. Bryan of Nebraska.

Judge Mulvaney has been active in the affairs of the organization for many years. He is 47 years old.

American Fliers 19 Days Behind Schedule—Fog Delays MacLaren.

Rome, July 15.—Cynicism is the chord being persistently played by the Italian press concerning the prospects of the forthcoming inter-allied conference in London. The Giornale D'Italia remarks facetiously that the experts' plan has been partly accepted in three capitals, but each clings tenaciously to its own particular interpretation: "We have the acceptance a la London, a la Paris, and a la Berlin."

On the eve of the conference a decided atmosphere of optimism prevails. At the conference between Premiers MacDonald and Herriot at Paris last week, the French Premier characterized the occasion as the best day for the entire since the armistice was signed. Both U. S. and British observers assert that they hope the deliberation at the conference will be productive of an arrangement which will end once and for all time the quarrels and misunderstandings that have embroiled Europe since the great war ended.

The first business of the conference tomorrow morning after the opening ceremonies will be the agenda which will be based on the exchange of views between Premiers MacDonald and Herriot. The agenda will be strictly confined to the Dawes report.

By WEBB MILLER. (United Press Staff Correspondent.) Paris, July 15.—"We'll be in Los Angeles long before September 1," Lieutenant Lowell Smith, Commander of the American world flight, said today. The aviators attended a reception in their honor tendered by the Minister of Aviation, Elyac. They met General Pershing, and placed a wreath upon the tomb of the unknown soldier.

"We are 19 days behind schedule," Lieutenant Smith said. He added quickly, "we are not racing against time."

He and his companions are looking forward to two weeks rest in London, while their planes are filled with provisions for the Atlantic trip.

The French Government will dine the fliers tonight.

Tokyo, July 15.—(United Press.)—Major Stuart MacLaren, British round the world flier, is fog-bound at Toshibo, Island of Yezo, Japan. He arrived at Sibire from Kushiro at 4 p.m. yesterday, according to advices received here.

WIRE BRIEFS

Paris, July 15.—The Chamber of Deputies last night by a vote of 325 to 188 adopted the Amnesty Bill, which had been under discussion for some time, and adjourned until July 29.

London, July 15.—A collection of papers relating to the Quebec campaign of 1759 were sold yesterday for £1,300. A feature was a letter by General Wolfe to General Monckton.

Bisley Camp, July 15.—Sergeant W. A. Hawkins, of Toronto, was one of the three marksmen who yesterday scored 69 in a possible 70 in the Daily Graphic competition, open to all comers.

New York, July 15.—Narcotics valued at more than \$1,000,000 were seized and nine members of the crew, including the captain of the Italian-American liner Dullio, were taken into custody following a raid.

OPTIMISM RULES WHILE DELEGATES GATHER IN LONDON

Allied Statesmen Again to Consider Subject of Reparations

150 TO ATTEND

Great Britain, France, Belgium, Italy and Japan to be Represented.

By LLOYD ALLEN (United Press Staff Correspondent.) London, July 15.—Once again with fresh optimism allied statesmen are gathering for a conference on reparations.

Since the days of Versailles, Europe has taken heart at least half a dozen times on the eve of such a parley, hopeful that this time surely the difficulties would be straightened out. Each time the eventual result has been failure.

The line-up for tomorrow's conference, for which French, Belgian, Italian and Japanese statesmen and their hosts' secretaries come to London, is a new one which provides new grounds for optimism. In the place of the smooth faced, jovial, conservative Premier, Stanley Baldwin, with his inevitable pipe, will be the grizzled, serious-mouached Ramsay MacDonald; instead of the suave Poincare, there will be the vivid, emotional Edouard Herriot. Two premiers, new to power, will try their hands and policies at the task of winding up the World War.

"The Belgian and Italian groups will be virtually the same as at the last conference to end reparations difficulties and differences.

MICHIGAN MAYOR GETS 2-YEAR TERM

Is Convicted With Others of Conspiracy to Violate Dry Laws.

Detroit, July 15.—Peter C. Jeszewski, Mayor of Hamtramck; Max A. Wosinski, Hamtramck's former Commissioner of Police, and John Ferguson, former police lieutenant, were sentenced to two years imprisonment each in Federal prison following their conviction with 28 others of conspiracy to violate the Prohibition Law by selling real beer.

Heaviest sentences were imposed upon officials of the National Products Company, former distributor of Brewery, two of whom were fined \$2,000 in addition to penitentiary sentences of two years. Hans Havemann, general manager of the company, drew the heaviest punishment, while Louis Silverman, also an officer of the company and chief distributor of the beer, received a two-year sentence.

Bertha Johnson, owner of the Hamtramck Inn and the only woman among the defendants, was sentenced to four months in the House of Correction.

Other defendants, including Hamtramck saloonkeepers and employees of the National Products Company, received sentences that ranged from three months in the House of Correction to thirteen months in prison.

A motion for a new trial was denied.

EARTH SHOCK FELT

Ottawa Citizens Report Feelings Tremor—Seismograph Had No Record.

Ottawa, July 15.—What is claimed to have been a severe earth shock was distinctly felt in Ottawa between 7.40 and 8.30 last evening, according to residents of the southern part of the city. The shock was more distinctly felt in Renfrew, Pembroke, and towns up the river, while shocks were also reported from East Templeton and Joan D'Arc and other places down the river.

Dominion observatory officials declared that no marked disturbance was recorded on the seismograph.

Bon-Bons Fail To Halt \$25,000 Suit

New York, July 15.—George Botala, candy manufacturer of Newark, who is being sued for breach of promise by Miss Dora Risie, her avowed object being to win a decent burial, brought the young woman, a patient in the Newark City Hospital, a box of candy and asked her to withdraw in suit. Miss Risie is in the last stages of consumption, physicians giving her two more weeks to live.

The box of candy remained unopened at the bedside. Miss Risie refused to drop the action, which is for \$25,000. Botala is out on \$3,000 bail. It is believed a bedside marriage before she dies is the only step which might induce Miss Risie to end the litigation. She already has a wedding ring which she gave Botala a year ago in accordance with Greek custom, preparatory to a ceremony.

N. B. BOND TENDERS ARE CLOSING TODAY

Bids in For \$1,161,000 Said to Be in Vicinity of Par.

(Special to Times-Star.) Fredericton, N. B., July 15.—Tenders close at 3 p.m. today for Province of New Brunswick bonds to the amount of \$1,161,000. The bonds are for 20 years, although bids for 10 years are receivable. The interest rate is five per cent. The issue is for the following purposes:

Permanent bridges, \$50,000. Permanent roads, \$400,000. St. John and Quebec Railway, \$261,000.

It is understood that U. S. and Canadian financial houses have submitted tenders and that prices offered are in the vicinity of par.

Preparations are being made for a large delegation of liberals to attend the provincial convention in St. John on Wednesday. About 46 will be traveling chiefly by motor.

U. S. OARSMEN WIN KELLY AND COSTELLO QUALIFY FOR FINALS—SWIMMING RECORD IS BROKEN

Argenteuil, France, July 15.—The Italian Olympic doubles scull championship, Jack Kelly and Paul Costello, of the U. S., raced to an easy victory in the Olympic trials in this event this afternoon, defeating the French pair by five lengths and Hungary by nine lengths on the 2,000-metre course, thus earning the right to enter the final Thursday.

Paris, July 11.—Andre Charlton, the Australian swimming star, won the final of the 1,200-metre swim, free style, in the Olympic competition today. Charlton's official time was 20 minutes 33.5 seconds, breaking the record of 21 minutes 29.5 seconds, made by himself Sunday.

Miss Martha Norelius, of New York, won the final of the 400-metre swim for women, free style. Her time was 6 minutes 21.5 seconds.

will be based on the exchange of views between Premiers MacDonald and Herriot. The agenda will be strictly confined to the Dawes report.

ADMIRAL BEATTY HOTEL PROJECT FOR ST. JOHN HANGS IN BALANCE; SITUATION IS A REAL CRISIS

Vital Responsibility Has Been Realized in Practical Form by Too Few Citizens—Announcement of Grave Importance is Expected Tomorrow.

Thousands of citizens during recent months have been viewing the splendid site of the proposed Admiral Beatty Hotel, and visualizing with pride the strikingly handsome structure proposed to be erected thereon. But, unfortunately, it is stated, the vital responsibility has been felt by too few, and the public spirited citizenship, who have invested freely of their means and time, has not been sufficiently representative of the population or in proportion with the universal advantages. The result, to be brutally frank, brings St. John to the brink of a failure, which would dwarf any previous instances. Is the situation hopeless; will our people allow this handicap to the City's growth and importance? This is the question of the week in the minds of several who within recent hours have become acquainted with the actual facts, details of which will be given to the public tomorrow evening.

U.S. INVESTIGATOR CONFIRMS STORY TOLD AT HALIFAX

Survey of Rum Row Reveals Heavily Armed Pirate Craft.

MANY SHIPS RAIDED

15,000 Cases Taken From Another Vessel Soon after Mulhouse Boarded.

(By Canadian Press.) New York, July 15.—Investigation by an agent of the U. S. Government has confirmed in every detail the story of a piratical attack told by the captain of the Starch steamer Mulhouse, the Times says today.

The investigation conducted along Rum Row along the New Jersey coast has revealed the existence of bands of pirates on heavily armored high-powered boats. Many ships have been victimized, according to the story told to Times by the Government agent.

The agent's name is not revealed, Times stating that his report has not yet been forwarded to Washington.

Visit Pirate Craft. The agent described a visit made by Government agents to one of the pirate craft, which he describes as a motor boat about 60 feet long and driven by three Liberty motors. This boat he was capable of a speed of 30 or 40 miles an hour. The agents found 50 men on board the suspected pirate and in the hold they found an elaborate collection of handiworks, rifles, pistols, knives and clubs.

Other Ship Raided. The agent reported that the night after the Mulhouse was boarded and robbed of 15,000 cases of liquor, pirates raided another vessel in Rum Row and made off with 9,000 cases of liquor. He also described a raid made on a schooner off Montauk Point in which the pirates after boarding the schooner (Continued on page 9, fifth column.)

Loeb Keeps Alienist Waiting While He Chats With Girl

Chicago, July 15.—The business of saving Richard Loeb for the murder, with Nathan Leopold Jr. or Robert Franks was halted for half an hour by a petite blonde girl.

While Dr. Sanger Brown, one of the alienists employed by the defence to test the sanity of the youths, waited impatiently in the "death cell" laboratory, Loeb stood behind the visitors' screen in the bull pen and chatted with one of the girls he had "dated" in his days of freedom.

Dr. Brown had hastened to the jail early to complete his tests, but pretty Jean Dale had also hastened to the jail. And she won the preference.

Loeb preferred to chat with her rather than go on with the tests with which the defence hopes to save him from the rope.

He talked gaily with the girl for half an hour, while Dr. Brown fretted and fumed.

Bandits Make Victim Remove His Trousers

New York, July 15.—To make sure Mayer Kaminsky, owner of a perfume shop in the Bronx, would not pursue them, three bandits who held up Kaminsky in the basement of his shop, taking a \$700 diamond ring from his finger and \$10, forced their victim to remove his trousers.

"They then dashed up the steps and disappeared in a waiting taxi cab. Kaminsky's shouts brought police and a large throng of passers-by, but no crew to the bandits could be found. Mrs. Kaminsky faints as a result of the excitement."

Hawthorne Case Likely Tomorrow

(Special to Times-Star.) Newcastle, N. B., July 15.—An adjourned session of the Supreme Court opened here this morning before Justice LeBlanc. The case of W. S. Loggie Company vs. North Shore Motors is now before the court. This is an action for replevin of an automobile.

It is expected that the Hawthorne McGruar case will be taken up tomorrow.

Weather Report

Toronto, July 15.—Pressure is now highest over the middle States and lowest over Northern and Eastern Canada. The weather is fine throughout the Dominion, excepting only the extreme northwestern portion of Ontario, where it is showery.

Forecasts: Fine and Warm. Lower St. Lawrence, Gulf and North Shore—Fresh northwest and west winds, mostly fair and moderately warm today and Wednesday; a few scattered showers.

Maritime—Moderate westerly winds, fine and warm today and Wednesday.

Northern New England—Fair tonight and Wednesday, warmer west winds, mostly fair and moderately warm today and Wednesday.

Necessity is the Mother, Etc.

How are they going to bob 'em out in the woods? That question might have suggested itself to many girls going to summer camps, but this picture answers it. The girls are their own camp barbers in the resort outside of Atlantic, Ga., where this picture was taken.

DOUKHOBORS IN B. C. AMONGST THOSE TRAPPED

All Sections of the Pacific Coast are Swept by Disastrous Fires.

MINE IS DOOMED

Ranches and Railways are Menaced—Calls for Help Sent Out.

San Francisco, July 15.—Fifty-two persons are unaccounted for and believed to have perished within the last 24 hours in the forest fires which are sweeping all sections of the Pacific coast. They are W. O. Dillon and family of six, with six loggers caught by fire on Trapper's Creek, Idaho; a party of 35 persons, including some children, trapped by fire at Wheeler's Mill Pond, Oreille county, Washington; four Doukhobors, caught by a fire in the Salmon Valley, British Columbia.

Twelve Are Safe. Nelson, B. C., July 15.—Twelve Doukhobors, nine badly burned, of the 16 trapped in the Porcupine Creek fire in the Salmon Valley yesterday, are safe, but the horses they brought out are so severely burned as to be useless. Two small Doukhobor mills are burned and the entire valley is devastated. The Wilcox mine is considered doomed.

West Arrow Park ranchers have sent a call to Nakusp for help. Fires are rife in the Kootenai area. The Coquand fire on the Canadian Pacific Railway was eight miles long last night.

Rainfall Helps. Vancouver, July 15.—Very welcome rains fell in Vancouver as well as in British Columbia districts yesterday. The local downpour was the first heavy precipitation since June 17. From Duncan on Vancouver Island, came the report of a steady rain all through the morning.

In the Haslam Lake district, where 12 miles of country were in danger of devastation by fresh outbreaks of fire, heavy rains occurred yesterday morning which, it is believed, saved the situation.

The fire at Narrow Arm, near Sechart is still burning high on the mountain sides, and in some localities rain is still very badly needed.

FORGED LETTERS

Woman Swindler is Sent to Prison For Year and a Half.

Karlsruhe, July 15.—Alleged letters from ex-Kaiser William, the ex-Crown Prince and ex-Crown Princess, General Hindenburg, the ex-King of Saxony, the Pope and scores of other prominent persons figured in the prosecution of the wife of a musician at the Baden State Opera, who was sentenced to a year and a half in prison for swindling operations. Four hundred letters which the woman declared were from General Hindenburg were exhibited.

All the letters were illustrated and framed in such strange language that they created much amusement in the court room. The women pretended to acquaintance with nearly all the celebrities in Germany and solicited gifts for fictitious charities in which they were said to be interested, promising that she would supply autographed letters in acknowledgment of the contributions. She supplied the letters, but an examination of them in court convinced the judge that she had manufactured them all herself and kept the contributions for her own use.

Girl Admits Helping Kill Deputy Sheriff

Chicago, July 15.—Mary Anderson, alias Grace Ashbury, arrested after a chase and the bring of shots, during which her male companion leaped from an automobile, allowing it to carry her into a ditch, admitted that she was a member of a bandit gang that shot and killed Deputy Sheriff Ernest Miller, at Frankfort, Ill.

She confessed that she planned to rob the Frank State Bank, according to the police.

POLICE OFFICER SHOT BY CUSTOMS MEN

Hunting Rum Runners, U. S. Government Craft Fires on Police Boat.

New York, July 15—While two investigations were in progress, Police Lieutenant Dennis Glavin of St. George, S. I., was said to be recovering from three bullet wounds he received when a customs marine patrol boat fired on Police Launch No. 3 on Saturday.

Federal and city officers gave conflicting versions of the shooting, which was off the Rosebank landings, Staten Island. Both boats were on harbor patrol duty, the police launch searching the St. George Island waterfront for dock thieves, and the customs vessel hunting for rum runners.

The customs crew in the launch Surveyor, under command of Inspector Percy Johnson, assert the police boat disregarded their hail and was shooting without regulation lights. Johnson admitted he had fired two shots in the air and Frederick Morgan, one of five customs guards in the boat, said he had fired three shots at the police launch.

The police boat crew assert the customs boat started to fire without warning, and ceased only when shots told them the lieutenant had been wounded. The boats were less than 100 feet apart when the firing began. According to the police crew they had covered their running lights after sighting a boat of quarantine which they believed to be a rum runner.

Three of the shots fired hit Glavin, two in the abdomen and one in the left shoulder. The bullet wounds were removed in an immediate operation. Glavin had been in charge of the desk at the St. George precinct, but was detailed Friday night to the harbor squad.

The police were bitter after the shooting. They said the two boats had met earlier in the night, when the police hailed the other boat and learned it was the Surveyor. The police boat crew said that, in contrast to their earlier meeting, the men on the surveyor opened fire before halting them.

ARRAIGNED FOR HALIFAX KILLING: Lewis Bevis is Accused of the Murder of Police Officer Fulton.

Halifax, N. S., July 15—The party of bandits who gave the Halifax police a strenuous time, were arraigned in the court this morning. The youngest girl of the party, Marie Bevis, about 18, sister of Lewis Bevis, was transferred to the juvenile court.

Lewis Bevis was charged with the murder of Police Officer Stephen Mackinnon, who was shot and killed on the night of the robbery. The other members of the party were charged with breaking and entering the house of T. C. Critchfield. The prisoners have been remanded for one week.

LOCAL NEWS: VALE WINS HEAT. Argentinians, France, July 15—The Yale crew competing in the Olympic rowing events, won the second heat for the U. S. in the eight oared crew competition today defeating Canada and Holland.

WIFE DIVORCES YEAST MAGNATE

Fleischmann Admits She Obtained Paris Decree—Terms Unknown.

New York, July 15—Setting at rest rumors which have been current since the departure of his wife for Europe three weeks ago, Julius Fleischmann, America's "yeast king," has admitted that a decree of divorce had been obtained by her from the Paris courts.

While the terms of the decree were not made known, they are understood to have included the settlement of \$8,000,000 upon his wife by him. It is also said that as soon as the law will permit Mrs. Fleischmann will be wed to Jay O'Brien, Broadway idol and "King of the Movies," with whom she is said to have been friendly for more than a year.

Seated in the golf house of the private course on his country estate at Sands Point, L. I., the millionaire yeast manufacturer reluctantly admitted that a decree had been entered in Paris Friday, synonymous with his own arrival in the United States on the Steamship Benarria. He refused, however, to comment further on the matter or reveal the financial arrangements he had entered into with his wife on the ground that they were none of the public's business.

Four times breaks have been reported, and as many times the breaches healed by the efforts of Fleischmann to win the growing friendship of his wife from O'Brien. The couple frequently were seen together, however, and were regular attendants in Broadway's cabaret night life.

Cosmopolitan magazine suddenly three weeks ago for Paris, presumably to hear her mother, Mrs. Edward Lewis, 728 E. 72nd street, where he had learned that O'Brien had followed Mrs. Fleischmann a week after her departure. It was said at the time that Fleischmann's purpose in going abroad was to accept service in the Paris divorce action.

Mr. and Mrs. Fleischmann were married in 1920. Both had been married previously and divorced. At the time of his divorce from his first wife Fleischmann settled \$2,000,000 upon her and a yearly income of \$25,000. Mrs. Fleischmann's former husband was Louis Fleimway, who made a fortune as a silk manufacturer.

DETECTIVE STAIN IN HOLDUP BATTLE

Shot When He and Companion Interrupt Bronx Barroom Robbery.

New York, July 15—Four men drove up to 1,301 Jerome avenue, the Bronx, formerly a saloon, about 4:30 p.m. and while one man stood beside the car the others knocked upon the locked door and demanded that they be admitted. The door had hardly closed behind them when a police automobile with Detective Sergeant Timothy Connel and John Coogan of the Highbridge Station stopped in front of the place. Disregarding the whistled signal of the man who stood beside the other automobile, the detectives entered and found a holdup in progress.

A second later came a fusillade of shots that splintered the windows and the glass of the doors. Before the sound of conflict had stopped three men ran from a side door to the waiting car. There was confusion inside the bar as the counter that had once been the bar was Detective Connel, with a bullet wound over his right eye and another through his body. He died before his comrade returned from pursuit of the fleeing thieves and before any of the men who crouched behind the shelter of chairs and bar would venture out to aid him.

When Connel and Coogan were on auto patrol duty they passed a touring car going south in Jerome avenue at 169th street. The four occupants attracted their attention, and they set out to follow the car. They were only a short distance away and unnoticed by the robbers when the drinking place of Jose Bruno at Jerome avenue and Clark Place. They were so close behind that the door had hardly shut upon the man in the car, still holding his knife, fell into a crouching position so as to be out of the line of fire. The firing became general. About twenty shots were fired. Detective Perrino, the first exchange of shots and as he sagged and held to the bar to keep in the fight, the thieves ran toward the rear of the room. The men paused long enough to put several shells into his empty revolver.

The fight was over in less than a minute and Connel was unable to make out the front door he found the man scrambling into their car which was under way. Standing in the wreckage of glass he fired several shots at the retreating robbers and they returned the fire.

The barroom is under the elevated station at 169th street and the fight in the street brought a great crowd. The killing of Connel, who was one of the best known policemen in that borough, brought a detective in that borough into the hunt for his murderers.

Connel's service in the Police Department was especially marked for bravery. On December 23, 1921, he and Detective Randall McCarthy on the Bathgate avenue station, killed a hold-up man and arrested another after a shooting affray in which all of the participants were wounded. The encounter occurred in a United Cigar Store at 880 Tremont avenue, the Bronx, which was being looted by the three men. Connel and McCarthy were in a hospital for several months.

Connel, in May, 1922, received a departmental medal of honor for his good work in arresting hold-up men.

FINE PIN IS GIFT TO W. C. CROSS

Hall & Fairweather Ltd. Employs Honor Him on 40th Anniversary.

A lifetime of service with Hall & Fairweather, Ltd. wholesale grocers here, was honored by employees of the company yesterday afternoon when Carey B. Black, head of the warehouse department, presented to W. C. Cross, general manager and president, a handsome gold and pearl pin on behalf of the employees. Forty years ago Mr. Cross entered the employ of the company, and when this fact was accidentally discovered, his associates did not fail to seize the opportunity to honor him.

In his impromptu little speech, Mr. Black declared that the circle on the pin stood for the unbroken service given the company by Mr. Cross; the pearl stood for the quality of the service and the bar denoted the straightforwardness in which Mr. Cross had conducted himself. Surprise and emotion affected Mr. Cross when he attempted to reply. He was deeply affected but sincerely expressed his thanks. He voiced the hope that he would be spared forty more years to serve the company, a remark which was heartily applauded by the many present.

SCHOOL DISTRICT MEETINGS HELD

Reduction Made at East St. John—Fairville Assessment is Cut.

The rate payers of several school districts in this county and Kings held their annual meetings yesterday.

The annual meeting of the rate-payers in School District No. 8 was held in the School House, East St. John, with J. H. Tongue in the chair and J. W. Flewelling, secretary.

The trustees reported an increased attendance and that much of the success of the work was the result of the faithful work of the teachers as shown by the high marks made and the unusual number who had grade.

The meeting decided in favor of compulsory attendance in the schools. F. E. Josselyn, secretary-treasurer, reported that the receipts had been \$18,840 for the year.

The annual meeting of School District No. 1, Parish of Simonds, was held at Glen Falls with George H. Simpson in the chair.

The annual meeting of the rate-payers of Beausfield school district was held last evening in the school building with G. Earle Logan presiding.

The press of the United States and Canada continues to make favorable comment on the outcome of the National Democratic Convention.

Many Applications for Positions—H. C. Smith Again Trustee

Mrs. Margaret Lawrence and Miss Jessie I. Lawson, supervisors for the province of the Junior Red Cross, appeared before the Board of School Trustees in regular session last night and asked that the board give its approval to the inauguration of the Junior Red Cross in the city schools.

Both women spoke. They said that the schools of St. John were practically the only ones in the province in which the Junior Red Cross was not organized. This state of affairs was embarrassing when questions were asked from other points in the province as to the reason why St. John schools were not organized.

**MAY MAKE SURVEY OF PROVINCE SOON**

**Campaign Against Tuberculosis is Suggested at Hospital Conference.**

That an intensive campaign against tuberculosis, including a survey of all cases in the province, would be started in the near future in New Brunswick was the opinion expressed at the dinner meeting of the executive committee of the New Brunswick Tuberculosis Association held at the St. John County Hospital last evening. The meeting was attended by Dr. L. G. Pincault, of Campbellton; Dr. C. D. Parfitt, Grayhurst, Ont., president of the National Tuberculosis Association; E. L. Rising, president of the St. John Association; H. B. Schofield, board chairman of the County Hospital; Dr. H. A. Farris, superintendent, and Dr. Stewart Skinner, of the D. S. C. R. Dr. Parfitt addressed the meeting and informed those present of the danger of T. B. The report was discussed by the meeting and, during the discussion, it was pointed out that 2,500 children under 19 years of age in New Brunswick were infected with active tuberculosis germs at the present time. Ten per cent of all tuberculosis in the province and 45 per cent of children's cases might be directly attributed to infected herds, it was said.

**Death Rates Cut.**  
It was also reported at the meeting that the death rate of tuberculosis victims in places where extensive preventive campaigns had been carried out had been reduced 75 per cent. If a similar campaign was instituted in this province the death rate could be easily lowered 50 or 60 per cent in the next 10 or 15 years, it was argued.  
It was recommended that the secretary communicate with Dr. J. H. Allingham, president of the N. B. Medical Society, concerning the appointment of a traveling diagnostician for the province. The appointee would travel to all the principal centres in the province and act as consultant to physicians. Every centre where he would be brought all tuberculosis cases from the surrounding districts, the diagnostician to be present and give instruction to physicians.  
This tuberculosis problem, in the view of the meeting, did not lie solely in the hands of medical men. The laymen, when properly instructed on the ravages and prevention of this "white plague," would be enabled to take action individually.  
It was further recommended that the New Brunswick Association take advantage of the Federal grant of \$1,000 granted to each of the nine provinces of the Dominion for tuberculosis work. It was expected that the Provincial Government also would be ready to support this campaign.  
Dr. Parfitt will speak at the combined Canadian-Grey Club luncheon at the Dunlop Hotel today. Dr. Parfitt will go to Amherst, where he will address a meeting of the Nova Scotia Medical Society on Wednesday. He will also speak at Kentville and Halifax.

WELCOME MR. LOGGIE. It was with great pleasure, says the Chatham World, that the large gathering at the picnic on Wednesday greeted their old friend W. S. Loggie, ex-M. P. Having been somewhat of an invalid for more than two years, during which time he has been practically confined to his residence with a very occasional run in his auto when the weather conditions were favorable, his appearance at the picnic was in the nature of a great surprise and evoked a very genuine expression of heartfelt good-fellowship and satisfaction.

ADVENTURES OF THE TWINS

By Olive Roberts Barton

A HOLIDAY FOR THE CRACKNUTS.

"We'll just have to go and see what it's all about."

All the wood folk and meadow folk and barnyard folk came flocking to see Mister Zip's park in the woods, where Nancy and Nick were working.

Daddy Cracknuts. "Here, Daddy, take your gold-headed cane."

Nothing like Kellogg's to keep the young hopeful just bubbling over with good health.

With milk or cream—nourishing, delicious and most easily digested.

Kellogg's CORN FLAKES

Open—fresh always

It contains no alum and leaves no bitter taste

Away went Daddy Cracknuts and his wife to the park, and by and by they came to the big gate with the sign over it which said "Happy Go Lucky Park. Come In!"

"Hello, Daddy!" cried Nick. "I thought you would be coming. Hello, Mrs. Cracknuts! Will you buy an ice cream cone or a glass of lemonade or a pack of peanuts?"

"Peanuts!" exclaimed Daddy. "That sounds pretty good. I believe I'll have a pack of peanuts."

Here Mrs. Cracknuts pulled her husband's sleeve and whispered something into his ear.

"No, I guess not," said Daddy hastily. "You see, we only have 10 cents. I mean peanuts are awfully bad for both of us. Come on, Ma."

So away went the old squirrel gentleman and his wife to see all the sights of Happy Go Lucky Park.

Pretty soon they came to the ferris wheel. You know what that is, a big wheel as high as a church steeple that goes round ever so slowly, carrying people in funny little seats to see the view.

Only Mister Zip's ferris wheel was only about as high as a corn stalk.

Russell, is in the Miramichi Hospital in a serious condition as the result of burns sustained this afternoon. The little one was playing with matches at her home when her clothing became ignited and before the blaze could be extinguished she was severely burned about the body and face.

SCHOOL ENCYCLOPEDIA. A letter was read at the meeting of the School Board last night from the Chambers Encyclopedia Co., of England, offering to supply twenty sets of their publication to the school libraries of St. John at a cost of 20 shillings a set. The matter was referred to the committee of the board.

Sand Dial Phone Checks Time

How many times, in the course of a time-limit pay phone call have you been interrupted by a sweet voice saying: "Time's up, another slice is produced the call frequently is 'gone.'" The sand dial attachment, here shown, is expected to help out in this situation, for it takes just five minutes for the sand to run through and the phone user can watch his minutes slipping by.

Dress Fads For Hot Weather

By HEDDA HOYT Fashion Editor of United Press. (Written for United Press.) New York, N. Y., July 15.—The up-turned hat-brim is again being sponsored by the millinery world. Women are growing weary of the cloche shapes; it is stated. Among the recently introduced up-turned brims are those that droop a bit at one side. High crowns are daily growing more popular and squareness rather than roundness is being sponsored for hat crowns. White fox neckpieces are often worn where the color scheme is black and white. Small white felt hats usually accompany the white fox, which is worn mostly for sports occasions. While Paris is sponsoring the glittering evening frock, New Yorkers are favoring plain chiffons with very little ornamentation. Very vivid colors are used, among which yellow, red, burnt orange and bright green are noticeable. Matching the scarf and parasol is a new idea which is very pretty. This is loveliest when both scarf and parasol are white and are worn with a white frock. The ends of the scarf are printed or basked in brilliant colors and a wide border of corresponding colors are printed on the white parasol. A lovely green foliage applied on one side of the bodice and a narrow border about the hem of the frock of bright red. The white parasol has a border of red roses applied and a bright red handle. The home-sew-broiderer could easily copy such a frock at small cost. The newest slip-on sweater is a combination of the Tuxedo and the former slip-on, for it is made with a very deep V-shaped neckline which is finished with lapels. A vest of lace is worn beneath this. Such a sweater is fashioned to give a more slender effect than the former slip-on model which was very apt to accentuate one's figure. The half-sock is again being sold in the shops for summer wear. The latest models extend to the knee and are of the finest of weaves. They come in the popular shades of nude, taupe, light gray, white and brown and are finished at the top with a colored elastic garter which is attached to the half-sock. Already women are worrying about the shadow-proof petticoat which the sheer gown demands. There are numerous ways of making the petticoat or costume slip shadow-proof. There are the deep hems which extend to the knees, double front panels and double rear panels, etc. The latest idea is the separate apron of lovely satin or heavy crepe, which is finished at the bottom with a lace flounce. It all hinges on those musty documents that came out of the trunk. Some years after the Faulknors had been married they became greatly concerned by absence of children. Finally their attention was drawn to a little waif who had been left parentless—a boy of seven months. That was way back in the thriving town of Pawtucket, R. I. Perhaps you never heard of Pawtucket, but you have heard of Providence, and Pawtucket is just close by—"Down the road a spell" as the New Englanders say. Well, there was a legal adoption and the baby boy became Frank Faulkner. Faulkner took his family to the "range" in Northern Minnesota, to try his luck among the iron mines. They lived a short time in Duluth and a longer time in Superior, Wis., close to Duluth. Things went well in a financial way but the Faulknors did not like the idea of the boy being brought up an only child. Then there came to the attention of the activities of the State School at Fairbault, Minn., an institution which places orphans in homes. Through a newspaper friend, Faulkner learned of a baby girl, which the State School had to give away. Minnesota's adoption laws always have been rather rigid as a copy of a paper which...

Thought They Were Brother and Sister; Now Will Marry

(United Press.) Whittier, Cal., July 15.—"It seems as if I never could love any man well enough to marry him except Brother Frank!" Evaline Faulkner, 19, lithe, graceful, good before her mother, Mrs. J. C. Faulkner, looking at her out of her big black eyes. The old statement was made in a heart-to-heart talk between mother and daughter about marriage. Mrs. Faulkner admitted that, used as she is to direct statements from her daughter, she was startled out of self composure by this one. "I don't honestly believe I could ever love a woman well enough to marry her—unless it was Sister Evaline!" Frank Faulkner, 22, square of shoulder and jaw, looked down upon his father, J. C. Faulkner, transplanted California rancher as he spoke. He is clear of eye—blue-eye and fair of hair. The elder Faulkner "allowed" that his son's statement was something of a solar plexus. That night Mr. and Mrs. Faulkner, father and mother, talked long into the darkness, after son and daughter had retired. Then they went to an old trunk and took out some old documents. And now Mr. and Mrs. Faulkner and Evaline and Frank are journeying eastward clear to Rhode Island, where brother and sister are to be married. No, it isn't a scandal. It's just as natural as can be, real life affair, it is "stranger than fiction." It all hinges on those musty documents that came out of the trunk. Some years after the Faulknors had been married they became greatly concerned by absence of children. Finally their attention was drawn to a little waif who had been left parentless—a boy of seven months. That was way back in the thriving town of Pawtucket, R. I. Perhaps you never heard of Pawtucket, but you have heard of Providence, and Pawtucket is just close by—"Down the road a spell" as the New Englanders say. Parisian Fashion News

By HEDDA HOYT Fashion Editor of United Press. New York, N. Y., July 15.—Skirts are much shorter in Paris than in America, many of them extending just below the knees. The Parisian influence is already noticed in New York, where many of the younger women are wearing skirts 14 to 18 inches from the floor. Just now the Parisians are wearing skirts which are cut shorter in front than in the rear. Lines of frocks remain simple and straight, and trimming is a minor affair, except on evening gowns, which are conspicuously glittering with beads and rhinestones. Short sleeves are worn everywhere in Paris, in the streets, at the races and for all daytime as well as evening occasion. A few women, wishing to get away from the short-sleeve vogue, are wearing full balloon-shaped sleeves, which are gathered in at the wrist. Where such sleeves are used, the remainder of the frock is extremely simple, and all trimming is applied to the sleeves. The colorful kerchief, which is worn about the neck of the Parisian woman, lying on one shoulder, is still worn abroad. Five-piece matched lingerie sets are popular with the Parisian woman who prefers her vest, bloomers, brassiere, costume-slip and nightgown to match in fabric and color. These are lovely sets for the bride who chooses several sets of white and a few sets of pastel shades. Felt hats continue to be popular for daily occasions and the straw cloche is seldom seen. Where straw hats are used they are usually of the large horsehair type with the single flower trim. Short, wrist-length gloves are being worn with the sleeveless frocks. Natural colored chambray is the popular kid type with the single flower trim when they are not of the short slip-on variety. Few white gloves are being worn. Plain frocks, with wide, patent leather belts, placed at low waistline, are popular. Often these are made with the tunic skirt posed over a tight undershirt. Lace frocks, with three-quarter length lace capes, are sponsored for dressy wear. These are invariably worn with large lace hats and the lace capelet is often colored in contrast of the shade of the frock. Pale gray and nude-dyed laces are popular for such frocks and cape combinations. The Parisian often wears her scarf about her waist instead of about her neck. The latest scarf idea is to wind the colorful scarf about the low waistline with ends falling at one side-front. Very large envelope bags are preferred to other types this season. Often they match the trimming of the frock or the belt. Plain pumps are quite as popular in Paris as they are in America. Over-dressy types of footwear are put into the discard.

SOME APPREHENSION FELT FOR GRAIN CROP IN THE WEST; RAIN IS NEEDED

Preliminary Estimate Gives 155,000,000 Bushels Less Than Last Year.

(By Canadian Press.) Ottawa, July 15.—Predictions in the Chicago wheat pit that Canada's wheat crop will be less than one-half of last year are stated here to be "droughts."

Advices indicate that droughts in Saskatchewan are not general in the province.

Latest returns available show that the condition of the Canadian wheat crop on June 30 was 96 per cent of the average yield for the period 1914-23.

This average is 16.0 bushels per acre. Estimates based on returns up to June 30 give the probable crop at 218,640,000 bushels, compared with 374,199,000 bushels, the record crop of last year.

Winnipeg, July 15.—Manitoba crops appear to be in excellent shape although somewhat late, but lack of moisture, high temperatures and hot winds have taken a very heavy toll of the crops.

There is little complaint from Manitoba points, the crop is admittedly about two weeks later than last year, but present conditions are quite favorable and with showers from now till harvest to enable the heads to fill out, a good average yield may be expected.

In Saskatchewan and Alberta, conditions south of the main line of the Canadian Pacific Railway may be said to be fairly good, but working north in both provinces conditions gradually become worse and many points in central and northern Saskatchewan and Alberta report conditions as serious and several points state that rain must be received immediately to even get back.

Growth Uneven. The growth of the wheat crop appears to be very uneven throughout the west, running from six inches to over three feet from 25 to 100 per cent.

It is in the hot shade, while from five to 75 per cent, in the shade, Manitoba appears to have sufficient moisture for the time being although some points state that further rains immediately would be helpful.

The damage from outworn or other insects is light. There has been no damage from hail.

The conditions of the coarse grains are mostly fair in Manitoba but largely poor, thin and backward in Saskatchewan and Alberta.

Wheat in Manitoba appears to be about two feet in height on the main line of the C.P.R. all past the hot shade stage and is about 80 per cent in head.

Some Say Discouraging. The average height of wheat in Saskatchewan appears to be about sixteen inches with an average of 71 per cent in head.

The average height of wheat in Alberta runs from six inches to two feet. About 95 per cent is in the hot shade and possibly 60 per cent in head.

Winnipeg, July 15.—The crop outlook generally for the Prairie Provinces gives every reason for optimism although yields will largely be determined by future rainfall and the absence of hail and pests.

The weekly crop report of the agricultural department of the Canadian Pacific Railway.

Crop Estimates. Ottawa, July 15.—Preliminary figures issued by the bureau of statistics estimate the total wheat crop for this year at 318,640,000 bushels.

The crop last year was 474,199,000 bushels. Estimates yields for wheat, oats, barley and flax in bushels are:

Table with columns: Crop, 1924, 1923, Total. Includes Wheat, Oats, Barley, Flax.

The indicated yields are subject to changes due to any subsequent revision of areas sown, and also to the effects of the season between June 30 and harvest.

Rain in Manitoba. Winnipeg, July 15.—Following a thunderstorm early last evening a steady rain started in Winnipeg and district shortly after midnight and lasted for three hours.

Several points throughout Manitoba reported a good rain early last night.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

YACHTS ENTERED IN HALIFAX RACE

Twenty to Start From New Rochelle on the 27th of This Month.

Circulars and entry blanks for the International yacht race from New Rochelle to Halifax, a distance of 631 nautical miles, have been sent out by former Commodore C. A. Marsland, chairman of the New York committee.

Interest in deep-sea racing is growing fast. The recent Bermuda ocean contest of 660 nautical miles drew a fine entry of fourteen racing yachts, and Commodore Marsland reports that the New Rochelle committee has already received a tentative list of over twenty vessels that are expected to start in the Halifax contest.

The circular giving the general conditions under which the race is to be sailed is headed by the following paragraph: "In order to encourage the designing, building and sailing of small, seaworthy yachts, to make popular cruising upon deep water and to develop in the amateur sailor a love of seamanship and to give opportunity to become proficient in the art of navigation, an ocean race has been planned for this year between New Rochelle and Halifax."

In order to be eligible to enter the long ocean race, the official circular states that a vessel must be a "yacht" by sail, of a seaworthy type, strongly rigged and properly ballasted, with closed cabins and watertight cockpits. Members of any organized yacht club in the world are eligible to enter, providing their boats conform to the terms and spirit of the conditions.

The international committee in charge of the Halifax race has arranged to divide the fleet into four classes, to be known as A, B, C and D, the last a special class for yachts up to seventy-five feet over all, designed under the provisions of the "A" class.

Winners in the different classes will be decided by time allowance and the allowances used will be based on the tables of the Yacht Racing Association of Long Island Sound. An allowance will be made for auxiliaries unless propellers are removed.

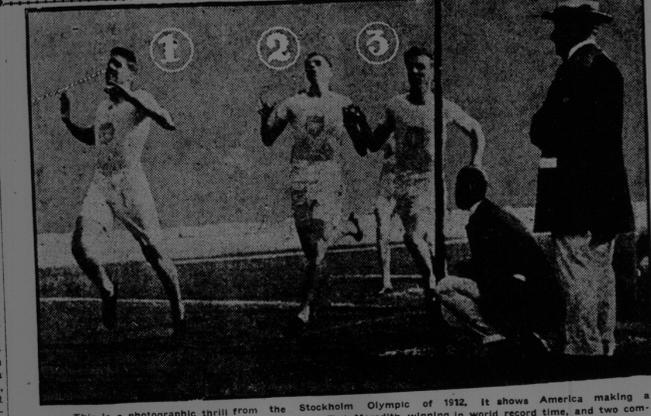

Handsome prizes have been offered by the Royal Nova Scotia Yacht Squadron, the City of Halifax and the Halifax Herald for the winners in the different divisions. Halifax this year is celebrating the 75th anniversary of the city and the celebration will be under way when the racing fleet arrives.

The International Halifax Race Committee, which has the general management of the contest in hand, is made up of the following members: Commodore A. H. Titus, Vice-Commodore G. W. Ford, Rear-Commodore C. S. Cowenhoven, C. A. Marsland, chairman of the race committee; R. A. Corbett and W. J. Bone of Halifax; and F. W. Baldwin of Baddeck, N. S.

The Royal Nova Scotia Yacht Squadron sailing committee, which will have charge of the finish of the race, is made up of Commodore A. F. Mackintosh, P. H. Moore, J. E. Wood, A. F. Haliburton, A. V. Weston and Dr. J. F. Lessell.

TRAINER ORDERS A REST

"Everything was fine coming across, with only one day of rough weather, and the colt didn't seem to mind it. He lay down every night of the voyage and so did the filly, and sometimes they lay down during the day. Both took their food regularly, drank the ship's water and everything seemed to go all right. They weren't the least bit bothered, and Epinaud is about the gentlest, best behaved colt about the grounds, with a disposition that is just about perfect."

SENATORS GAIN ON YANKEE LEADERS

Arc Now in Striking Distance for First Place—Yesterday's Games.

New York, July 15.—By doing one thing at a time and doing it well, while the Yankees tried to kill two birds with one stone and failed, the Washington Senators have placed themselves in a position to overtake the American League leaders today.

Finding Danforth rather soft, the Yankees breezed through the open door to a 7 to 3 triumph, but in the sunset tilt they bowed for the third consecutive time before the puzzling shots of Wingard, Sisler's sensational rookie.

In spite of Ruth's 25th and 26th homers, Kuegling's aggregation dropped the final, 9 to 4.

Washington made it three straight over Cleveland with a 12 to 0 shutout. The down-trodden Athletics sprang a surprise on Detroit by being the victors in the ninth and winning out in the 10th, 6 to 4.

Boston found the four hits they made off Faber inadequate to manufacture enough runs to beat Chicago, and the White Sox were victors, 6 to 2.

The Chicago Cubs, the Giants' only serious challenger for the National League pennant, sustained two crushing blows in their third straight defeat at the hands of New York by a 7 to 0 score, and the news that Grover Cleveland Alexander, ace of the Bruins' pitching staff, probably will be out of the game for the rest of the season with a fractured wrist.

Dickerman recently traded by Brooklyn to St. Louis, obtained delicious revenge by shutting out his former teammates, 12 to 0.

The superiority of Carlson over Krenner and Stone was measured by Philadelphia's 8 to 9 victory over Pittsburgh. In the Pirates, handled his 31st fielding chance without an error.

PRINCE OF WALES TO SEND PONIES

British Team Enthused at Prospect of Having the Prince With Them.

The Prince of Wales, who is going to the United States to witness the international polo matches between the American four and Great Britain's horsemens at Meadow Brook in September, will leave England on Aug. 26, and will send over eight of his private polo ponies, according to Marie W. Hooping, who arrived in New York recently.

The British players were greatly enthused when they learned that the Prince of Wales will make the trip to the United States and witness the matches at Meadow Brook.

The play, with music by Rudolph Friml, who arrived with the couple, will be produced in the fall, presenting Miss Dalton for the first time in the role of a musical comedy star.

## BRAVE BOY AND DOG CHEERED ON SO. END GROUNDS

Gift to Johnny Price and a Nice Collar for "Mike."

The hero of the hour—"Mike"—with a cheerful dignity that suited him to perfection and a greatly wagging tail, the lovable Irish setter owned by Sterling B. Lordly had his picture taken for The Times-Star on the South End grounds last night while a crowd of 2,000 people or more looked on.

The two little Causy fellows, Kenneth, whom "Mike" saved, and Douglas, together with "Johnny" Price were there also in the group with "Mike" in the centre. Promptly at 7 o'clock with the grandstand packed to overflowing and standing room on the sidelines at a premium, the photographer set up his machine and "Mike" and his little friends made their way out on the diamond. A great cheer went up when "Mike" was seen.

In introducing the quartette, Charles M. Lingley, president of the South End Improvement League, paid a warm tribute to the action of "Mike" and "Johnny" in saving the Causy youngsters. It was not often, he said, such happenings occurred and the opportunity to honor such a worthy deed should not be allowed to pass.

He then formally presented to "Mike" a handsome collar and when he called for three cheers for the group, the crowd responded with hearty goodwill. Mr. Lingley announced that Johnny Price would be suitably remembered and it is understood he will be allowed to purchase a brand new suit of clothes at the expense of the Improvement League.

When the spectators started to cheer, "Mike" pricked up his ears in surprise. When the photographer started adjusting his black hood, "Mike" wondered what it was all about but stood his ground like the hero he is.

Two incidents of the presentation are worth noting. At ten minutes past six o'clock, two ladies approached S. A. Payne, grounds chairman, and asked if it would be possible to secure a grandstand seat. Mr. Payne consented with their request and the ladies waited more than an hour before the ceremony commenced.

The other incident occurred after the game. A lady handed Mr. Payne a dollar to help pay for "Mike's" collar. Both showed the tremendous interest in the story of the rescue had aroused.

## WORK WILL COST ABOUT \$100,000

Infirmary Extension Contracts Awarded—Completion by March 1

The tenders for the new building connected with the infirmary were opened this morning at the office of E. Neil Brodie, architect for the new building, and B. Mooney & Sons were awarded the contract for the mason work, carpenter work, electric wiring, painting and glazing and sheet metal work, while G. & E. Blake secured the contract for the plumbing, heating and ventilating. The sub-contractors are Vaughtan & Electric Co., Ltd. for the electrical work; J. H. Pullen for the painting and glazing, and James McEade for the metal work. B. Mooney & Sons will do their own carpenter and mason work.

The contract calls for the new building to be completed by March 1, 1925, at a cost in the vicinity of \$100,000. The building, which is really an addition of two wings to the present structure, is to be a three-story one, built of brick with cut stone trimmings. One of the wings is 38 ft. by 65 ft., while the other one is 37 ft. by 55 ft.

The building will contain the X-ray department and the outdoor department and will also have accommodation for 55 patients. There will be 16 rooms with private bath and also telephone connection. The building is to be up-to-date in every respect. It is to be steam heated.

### CAMP FIRE GIRLS HERE.

Among the passengers who arrived in this city at noon today on the Eastern Steamship liner Governor Dingley were 11 Camp Fire Girls from New York who, having learned of the charms of the Maritime Provinces, decided to visit Peticodiac to spend a vacation. They made an attractive appearance in their neat fitting uniforms. En route here they kept other passengers entertained by their singing and athletic exhibitions. The S. S. Governor Dingley, which arrived a little after 12 o'clock from Boston, via Eastport and Lubec, brought more than 300 passengers in addition to approximately 40 tons of general cargo. About 11:30 o'clock last night she passed the S. S. Prince Arthur, which was bound from this port to Boston with passengers and general cargo.

### INVADERS THE GROUNDS.

Policeman Thomas McFarland of the North End division made a unique capture this morning. He was patrolling his beat in Marsh road when he learned there were trespassers on the Allison playgrounds which has been closed this season in order to give the young grass a chance to sprout. On his arrival there he found two boys actively engaged nipping off the young growth and immediately set out to apprehend the offenders. After quite a chase he captured them and took them to James Gorlick's barn in Marsh road where they await their owner.

### REPORTS HOUSE IS MENACE.

Sergeant Fred O'Neil has reported to the Building Inspector that there is an old house in Nelson street, West St. John, the property of the Lord Estate, that is in such a condition that it is apt to fall down. He considers it a menace.

## Great Crowds Honor 'Mike'

Here is "Mike" wearing the handsome collar presented him by the South End Improvement League last evening. In the centre is "Johnny" Price, who swam out to the raft with Douglas Causy (left) on it and towed it to shore. On the right is ten-year old Kenneth Causy, who rode on "Mike" back fully 300 feet to safety from the drifting raft. Inset is C. M. Lingley, president of the South End Improvement League, who made the presentation last night. "Mike" is looking up at the crowd in surprise at the cheering.

**RAILWAY INSPECTION**  
J. M. Woodman, general superintendent of the C. P. R. New Brunswick district, left last night for Brownville on an inspection trip.

**ON PILGRIMAGE**  
Two special sleeping cars and one colonist car were attached to the early train this morning over the C. N. R. carrying approximately 200 people from this city on the pilgrimage to Ste. Anne de Beaupre.

**AFTER FISHING TRIP.**  
George McAvity, George Cutler, Dr. Murray MacLaren, M. P., James Harrison and E. D. Richards of Montreal, have returned from the Metapedia, where they enjoyed a very successful salmon fishing trip. Members of the party said that they had exceptionally good luck and Mr. McAvity added that salmon in the Metapedia were running this season better than ever.

**PROPERTY SALES.**  
The following real estate transfers are announced:  
R. A. Finley to W. R. Carson, property in Duke street.  
Sarah McLaughlin and husband to J. T. Richards, property in Prince Wm. street.  
Neil Brodie to J. W. Maher, property in Prince Wm. street.  
J. H. Williams to G. Hunter, property in Simonds.

**AWAY TO Y. M. C. A. CAMP.**  
Thirty-five boys left this morning for Oak Point, where they will go into camp for two weeks. The party left in charge of C. M. McCully, boys' work secretary, and every arrangement has been made to make the outing a great success. Lou A. Buckley, national secretary, went with the party, and he will probably stay a week at the camp.

Four members went in advance on Friday and have been busy getting all in readiness for the main body today. Ten of the boys who left this morning are from Moncton.

**MILFORD SCHOOL MEETING.**  
The ratepayers of Lanostoc School District No. 18, of Milford, met last evening with the chairman, M. T. Coholan, presiding. Ernest Arbo was elected to fill a vacancy caused by the retirement of Trustee E. C. Mullaney, whose term had expired. Other trustees elected were M. T. Coholan and Joseph Pooley. R. C. Mullaney was re-appointed secretary to the trustees.

Following the regular meeting the trustees met and issued instructions to the secretary that all those behind in their obligations to the board would be given ten days to pay or else executions would be issued against them.

**IMPROVE BALL FIELD.**  
In an effort to make their diamond one of the fastest in this city the executive of the North End Improvement League this morning put a crew of men at work on their grounds screening clay and spreading it preliminary to rolling it. When this has been accomplished screened earth will be spread over the entire outfield and then thoroughly rolled. When the work is completed it is confidently expected that the grounds will be second to none in the city. They also plan to erect new dressing rooms and extend the bleachers.

**AT THE BAND CONCERT.**  
A short item in the Saturday evening Times-Star, drawing attention to the fact that men did not remove their hats when the National Anthem is played at the close of band concerts in King Square must have had some effect, for many heads were bare last evening at the close of a delightful concert given by St. Mary's band. Some of the bobbed haired girls also removed their hats, to show their approval of the custom. Bandmaster Harold Williams made an excellent selection in his choice of a programme, the selections giving opportunity for artistic shading and varied harmony.

Much commendation of the music came from visitors to the city and many citizens. The crowd was larger than any night yet, the weather being ideal. A lady from Halifax said that St. John had every reason to be proud of her beautiful square and her band musicians.

## MISS HANSON IS SUING THE CITY

Writ of Summons Served on Mayor Potts This Morning.

Suit for damages against the city has been instituted by Miss Priscilla Knight Hanson, a writ of summons was served on Mayor Potts this morning. The entire matter was considered in private by the Common Council this morning and it was decided to accept service and instruct the city solicitor to file an appearance within 10 days.

In her statement on the writ, Miss Hanson says the suit is for damages for wrongfully entering the plaintiff's land in North Market street and placing a sidewalk on her land and using same; also, for damages for wrongfully obstructing and preventing plaintiff from repairing her buildings and making use of same for revenue purposes.

Commissioner Harding said that last April a letter from E. P. Raymond, solicitor for Miss Hanson, was referred him for report. In this communication, Mr. Raymond wrote that at the time a bill amounting to \$257.04 was due to the city by his client, being three years' rent for an easement granted the city to Miss Hanson in North Market street. During this time, the letter continued, the city refused to allow Miss Hanson the right to repair her property, thus depriving her of revenue. In addition, the solicitor wrote, the city placed a sidewalk on the property several years ago and refused to remove it. On Nov. 8, 1921, he said he wrote the then Mayor Schofield regarding the matter asking when the sidewalk would be removed. Nothing was done in the matter and he wrote again in June, 1922.

The matter came to a head late last week when Commissioner Harding, who reported to the council this morning that he had acted on the advice of the city solicitor, caused a fence to be erected around the property. He said he was getting ready to complete the fence when the full amount of the bill for the easement was paid by Miss Hanson.

After considering the matter in private, the Council referred it to Commissioner Harding and the city solicitor with power to the solicitor to enter appearance for the city.

**GOES TO WEST.**  
A. E. Rolston is to leave for Calgary today as he has accepted management of the Film Booking Company in that city. Mrs. Rolston will join her husband there in another two months.

**As Hiram Sees It**

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "do you believe in hero worship among animals?"

"I wouldn't be surprised," said Hiram. "I saw a proof of it last night," said the reporter. "Charles Lingley had put a collar on Mike, the life saver, at the South End ball field. The boy whose life Mike had saved then led him around the fringe of the crowd so that all could see him. A procession of small boy worshippers followed—but I am not thinking of them. I worshipped a dog myself in days long gone. It is a boy's privilege as well as his delight. But in this case the real worshipper was another dog—and no great shakes of a dog at that. He led the procession. As if he were on parade he walked alone ahead of the life saver, and looked to right and left as if to say:—'Here comes the Prince—hats off to the Prince of Dogs.' 'That, Hiram, was worth seeing.' 'Yes, sir,' said Hiram, 'it was so—By Hen!'"
