LOVE LETTERS TO THE RECTOR

Said to Have Been Written by Choir Leader

Mrs. Hall Under Questioning Again and Woman is Brought in to Identify Her—Mills Says if Blood Money was Paid for Letters it Must Be Returned.

(Canadian Press.)

New Brunswick, N. J., Oct. 18.—A second series of letters said to have been written by Mrs. Eleanor Mills, wife of the church sexton and choir leader, to Rev. Edward Wheeler Hall was made public today by the authorities as they continued their efforts to solve the mystery of the slaying of the couple on Sept. 14. Unaddressed and unsigned, the letters are filled with terms of endearment. In them the minister is often referred to as "sweet, adorable babykins." They speak of "a love nest," of a woman's dreams of true love, and describe the varied moods of a woman loved and loving without the conventions. Excerpts from the letter follow:— "Dearest, Dearest Boy—Wasn't I happy to find a sweet letter from you yesterday. Such delicious lies. My darling, how will you seem to day? I am tired—want to lie and rest for hours. "Oh, you sweet, adorable babykins of mine. "The note I left yesterday was crumpled, but I had to hide it in my small orange purse I had with me. "How glad I am school resumes tomorrow and I can be alone to write. I need my dream time, my hours alone, and other people irritate and disturb me. "My love is deep, calm, quiet today. I am in a mood to listen to music. "I am not sad, but quiet. Yesterday I was rolling—oh, how I love these moods. They mean intense life. "I build a waiting love nest. People would mean nothing. I had rather watch the bugs and ants as they crawl along. Don't you love to watch an ant as it creeps along, Honey? "And darling sweetheart, I don't long for our love to be the intense ideal as pure as we can make it, for then it is truest to nature. "Mrs. Hall, Henry Stephens and Willie Stephens, her brothers, were examined one by one in the court house yesterday. Mrs. Mills said: "If the long room, alone. She was asked to remove her hat and to put on the grey coat she says she wore when at two o'clock in the morning of Sept. 15 she went to search for her husband. She put on coat. "Then a woman, of foreign aspect, poorly dressed, and alone, entered and sat staring at Mrs. Mills. "Whether the unknown woman identified Mrs. Hall was not announced. "Officially, the results of yesterday's re-examination were not made known. "If Charlotte (his daughter) was paid any money for the letters which have been published, said James Mills, husband of the dead choir singer, "I will make her give it back. That is blood money and I want none of it. "When asked if she still believed that there was nothing unusual in the friendship between his wife and the minister, Mr. Mills said: "If these letters are real, and there seems to be little doubt of that now, I cannot help but believe what Mr. Mills says. Hall don't see it, she must be blind. "Two state policemen were placed on guard at Mrs. Hall's home late last night.

Had Planned Triumphant Parade Into the Capital

Ban in Interests of Public Safety—Thousands of Refugees in Rodosto in Fear of Turks—May Have to Postpone the Peace Conference.

(Canadian Press Cable.)

Constantinople, Oct. 18.—The allied missions reached a unanimous decision today forbidding the Kemalists' general parade destined for Thrace to enter Constantinople. The British navy has been ordered to stop vessels bearing Turkish national colors.

Constantinople, Oct. 18.—The British authorities here, in the interest of public safety, have declined to permit the Turks to march through Constantinople today as the Turks had planned. Twenty-eight thousand panic-stricken refugees are gathered here, all dominated by the same fear of the Turk that swayed the refugees crowds in Smyrna three weeks ago.

Everybody believes the Turks are almost at the door, and nothing can reassure them. The general belief is that the Kemalists will arrive simultaneously with the British troops of occupation. Every refugee hopes to put a long stretch of water between himself and Rodosto before that event.

The whole town and all its extra population have abandoned any pretence of performing normal duties and have gathered along the gravel beaches waiting nervously for the ships which do not come.

All the shops, even the bakeries, are closed, and the owners at their crowded around the narrow plankway. The government yesterday discontinued its bread ration. "We are looking for the other civil officials left on Monday.

The Nansen committee, financed by British funds, plans to establish seven feeding stations along the route of the refugees, but its supplies have been exhausted. Constantinople is being held by the Greek army and the Greek government has announced that it will withdraw its protection from all of the Greek, Armenian and Jewish refugees who have fled from the Turkish advance.

Constantinople, Oct. 17.—The evacuation of all the Greek troops from the city, which was completed by Oct. 15, would be five days ahead of the Mudania plan. "The British and French governments announced today that it had withdrawn its protection from all of the Greek, Armenian and Jewish refugees who have fled from the Turkish advance.

Constantinople, Oct. 17.—A Turkish gunboat in the Black Sea has captured the Greek steamer Duranis, of 25,000 tons, carrying a cargo of wood from Constanta to Constantinople.

Postpone Conference?

London, Oct. 18.—(By Associated Press.)—All eyes are turned to the ministerial crisis here and that impending in Italy is the question of the general Near Eastern peace conference, which is feared must be postponed until the situation in London and Rome are settled.

Remarks upon this contingency, the diplomatic expert of the Daily Telegraph writes: "The disadvantages of postponement might, however, be counteracted in some measure if a postponement which will carry the conference well beyond the coming United States elections should enable the Washington administration to ascertain the strength of public feeling in the U. S. concerning U. S. participation—at least within certain limits—in the proposed Near Eastern settlement."

Constantinople, Oct. 18.—The Bulgarian legation announced yesterday that its frontiers to all Armenian refugees from Eastern Thrace, and the consulate was authorized to issue a maximum of 70,000 Armenian passports from Constantinople.

"This generous action of Bulgaria will be greatly appreciated by the friends of Armenia throughout the world," said the Armenian patriarch here.

"Bulgaria is the first country to show real, generous, open-hearted hospitality in such a wholesale manner." "The different associations operating in the maritime provinces to formulate complete rules covering play-offs. From Commercial Club, St. John.—That the note following section 5 of article 2, which reads "an athlete guilty of any of the above offences can never be reinstated" be changed to read "an athlete guilty of any of the above offences who has never been registered as an amateur can never be reinstated."

Cut Power and Light Bills \$600,000 a Year; More Comfort in Homes

MORE WRITERS ON HUNTING TRIP IN CITY TODAY

New York Sportsmen, on Way to Newfoundland for Caribou, Pass Through.

(Canadian Press Cable.)

W. O. McGeehan, sporting editor of the New York Herald; W. J. McCreath of the New York Tribune and Frank M. Steeves of New York arrived in city today en route to Quarry, Newfoundland, where they will enter the woods in search of caribou. Irvin St. Cobb was to have been a member of the party, but owing to the illness of his mother he had to go to Savannah. Bud Fisher, of Mutt and Jeff fame, also planned on making the trip, but was unable to do so.

Mr. Steeves is associated with his father in catering to the many wants of baseball-fans at the big league parks in New York and also dispenses delicacies and refreshments at some of the big racing centres in New York state.

Speaking of the recent world series Mr. McGeehan said the result was certainly very disappointing to a large number of fans. He considered that McGeehan's great strategy and control of his team were largely instrumental in the decisive victory. "He expressed regret that he will not have an opportunity of seeing the International Fishermen's schooner race off Gloucester, Mass., next Saturday. He considers it one of the best sporting events of the season.

Asked his opinion with regard to the attitude of the trustees of the trophy refusing to allow the Boston entry "Mayflower" to participate, he said, he considered the Mayflower more of a yacht than a schooner and felt that they were justified in taking the stand barring it from the race. "The spirit of the trophy is itself strongly with regard to the race and said the trustees should see that the strict letter-spirit of the trophy were lived up to. He said the big international yacht race in comparison was lacking in interest and favored the abolition of time allowance.

All these members of the party have been in the maritime provinces before and are looking for a good time in Newfoundland. They will remain in the woods ten days and have secured the services of experienced camp workers and guides for their trip.

HEAVY LOSSES IN FOO CHOW FIGHT

Part of City Reported Burned and Soldiers are Looting.

Amoy, Oct. 18.—Approximately 2,000 casualties are reported in Foo Chow, capital of Fukien province as a result of an attempt by the defeated Nationalist forces to re-take the city from which they had been driven by the invading troops of Gen. Hsu Tsung Chi.

Desultory fighting continued throughout last Thursday and Friday within the city walls, both sides losing heavily. A large portion of the western side of the capital is reported to have been burned, and looting by the soldiers was general there.

BURNED SHIP GOES DOWN WITH COLORS FLYING

San Francisco, Oct. 18.—With colors flying, the liner City of Honolulu, gutted by fire on Thursday, sank in 2,500 fathoms of water yesterday, after the coast guard cutter Shawnee had pounded thirty one shots into the hull. Not a person was injured when she caught fire and was abandoned.

WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries, H. F. Stupart, director of meteorological service.

Synopsis.—The depression which was in the Ottawa Valley yesterday now covers the Straits of Belle Isle, and pressure is highest over the west and southwest states. Showers have occurred locally in Quebec and the maritime provinces and a few light falls of snow or sleet in Ontario. In the west the weather has been fine and in Alberta quite mild.

Fair and Cooler.

Maritime—Fresh to strong west to northwest winds mostly fair and cooler today and on Thursday.

Gulf and North Shore—Strong west and northwest winds, partly cloudy and colder today and on Thursday.

CHEAP POWER TO MAKE WHEELS TURN IN MORE ST. JOHN FACTORIES

Industries Will Bring More Work and More Money for the Workers—Increased Taxation Bogy Ousted by Experience of 280 Municipalities in Ontario.

(Canadian Press Cable.)

All big movements start with small beginnings. Even the Ontario Hydro Electric system—which is now the largest electric distribution system in the world and the outstanding example of municipal ownership—started in a small way. In 1910 the Ontario hydro system started by delivering 750 h. p. to ten municipalities on the Niagara system. Since 1910 it has grown immensely, until at the present time it comprises a network which covers practically the whole of Ontario, and consists of fourteen different systems, having 3,000 miles of transmission lines and supplying power to 236 urban municipalities and forty-four townships, having a total number of consumers, in 1921, of 265,000, and distributing 375,000 h. p., of which 170,000 h. p. was exported to the United States.

POWER AT COST

If the idea back of this immense scheme was not the correct one, it certainly would not have prospered under the constant attacks and misrepresentations of the power interests. That idea was "Power at cost for the People."

Nor is Ontario the only Canadian example of municipal ownership of electric light and railway utilities. In the Canadian West there are eighty-four municipal electric light and power systems in successful operation, including such cities as Winnipeg, Moose Jaw, Saskatoon, Regina, Edmonton, Calgary and Lethbridge.

In the United States, the city of Detroit has lately purchased the street railway system, and it is now being operated by the municipality for the benefit of the citizens. The city of Los Angeles owns and operates its municipal electric light and power system, and the state of California is contemplating starting a hydro system modelled after the Ontario hydro. It is understood that the state of Georgia is also contemplating a hydro system.

The New Brunswick Electric Power Commission is offering St. John the opportunity of joining the ranks of progressive municipalities in offering the city power at cost—not to exceed 1.2 cents per kilowatt hour.

SAVE \$600,000 A YEAR

Based on a consumption of 10,000,000 to 15,000,000 K.W.H. at hydro rates, the citizens of St. John using electricity for light and power now have an opportunity of saving approximately \$600,000 per annum over New Brunswick Power Company rates, as well as having the opportunity of using numerous labor-saving devices in their homes at small cost if they so desire.

The indirect benefits are even more important, although possibly not so self-evident. Cheap power for industrial undertakings will attract more industries and make those already here more prosperous.

More industries create more work and better wages, and so everyone benefits in the general increased prosperity—the laboring man, the merchant and the manufacturer.

A WORD TO THE DOUBTER

To the "Doubting Thomas" let it be said that this hydro electric scheme which the government through the New Brunswick Electric Power Commission is now offering to the city of St. John, is not an untried experiment—neither is it difficult of accomplishment; all that is necessary is to sign the contract for power—which is a liberal document—a partnership agreement between the city and the Commission—and to spend a sum not exceeding \$663,000 for a distributing system to distribute the power purchased and make it available to the citizens—surely not a very great burden.

The Ontario Hydro Electric Power Commission has \$115,000,000 invested in a similar enterprise, while the various municipalities—some 280 in all—have over \$400,000,000 invested, and, in addition to supplying power and light at the lowest rates anywhere obtainable, have put away reserves and surplus to the extent of \$15,000,000, and of these 280 municipalities not one has ever been called upon to make good a deficit by means of taxation. Hydro in Ontario has never cost the citizens one cent in their taxes.

St. John is at the parting of the ways and by the result of the coming election will indicate whether she wishes to be stagnant and dormant industrially for another thirty years, to be leached and bled by the speculators, or whether she wishes to put on the mantle of industrial prosperity and forge ahead along with the cities of Ontario and the West, who are not nearly so happily situated geographically.

REFUSE HELP; SHIP BREAKS UP; ALL DROWNED

Stockholm, Oct. 18.—All twenty-nine of the crew of the Dutch steamer Cornelius were drowned yesterday when the ship sank and all her lifeboats disappeared near the rocks on the northern shore of the Gulf of Bothnia. The ship grounded four days ago. At that time the crew refused offers of aid from shore. Later a severe gale came up.

LARGE TAKINGS IN YUKON GOLD

Dawson, Y. T., Oct. 18.—The Yukon's gold output this year may total a million and a quarter ounces. Dredging continues along the creeks beyond the usual period because of the unusually mild autumn and the gold production will be increased correspondingly.

Hydraulic mining operations were shut down a few days ago, but there is activity still throughout the gold creeks. The silver output from Mayo shipped to date is about 550,000 ounces.

REOPENS THE STILLMAN CASE

Jurisdiction of Court Which Cleared Wife Has Been Challenged.

Nyack, N. Y., Oct. 18.—By the unexpected action of Supreme Court Justice Arthur S. Thompson in filing a decision which challenges the jurisdiction of the special term of the supreme court in White Plains, the Stillman case was suddenly reopened yesterday. The White Plains decision cleared Mrs. Stillman. Automatically litigation between the New York banker and his wife is again begun, and the case will be sent to the appellate division for determination of the jurisdictional question.

Justice Tompkins bases his decision upon an order obtained by Mr. Stillman's attorney to show cause on October 7 why the referee's report should not come before him, rather than before Justice Morshaus, as was sought by Mrs. Stillman's attorneys.

Mr. Stillman's order, Justice Tompkins states, was obtained several hours before that of his wife. By this priority, Justice Tompkins contends, Mrs. Stillman's order was robbed of its validity and the special term in White Plains was acting without its jurisdiction.

As one time it was thought Lord Chancellor Birkenhead would join the three leaders named. He even suggested his willingness to exchange responsibilities of the wool-sack for those of the foreign secretaryship.

London, Oct. 18.—Winston Spencer Churchill, secretary for the colonies, who was taken ill Monday, has developed appendicitis, it was announced today. It was said to be early for the doctors to decide definitely of the necessity of an operation.

London, Oct. 18.—Herbert Wilson, who is in Ottawa, a guest at Government House, is hastening back to England because he expects a general election in the old country soon, according to the Journal today. Mr. Chamberlain is a son of the late Joseph Chamberlain, and a brother of Austen Chamberlain, M. P. He intends to sail on October 21 for England. He anticipated a very early dissolution of parliament and an appeal by Premier Lloyd George to the country. He looks for the return of a coalition government.

Mr. Chamberlain credits the British premier with a victory in his Manchester speech, and frankly anticipates that the endorsement of Union tomorrow will result in the conservation of the ministry and its actions. He anticipated that all but a small fraction of the Union party would endorse the Unionist leaders and the government.

While the Unionists were likely to be returned to the dominant party in parliament they would not be strong enough to form a government as neither Earl Grey or any other leader. The labor party, he said, had no chance of coming into office.

Although the Unionists, Mr. Chamberlain said, would naturally prefer to have one of their own leaders as prime minister, he was not prepared to indicate any who would be strong enough to displace Lloyd George.

Mr. Chamberlain was of the opinion that Bonar Law's health would not permit him to assume the task of the premiership. He looked to see his brother, Austen Chamberlain, succeed Lloyd George, should the latter fail to form a new ministry.

SEES PRICE WAR FOR SMALLER AUTOMOBILES

New York, Oct. 18.—The Wall Street Journal foresees a price cutting war among the manufacturers of the smaller types of automobiles as a result of the reduction in the prices of Ford cars announced yesterday. It says it is practically certain that both the Star and Gray cars will be reduced to the Ford level. These cars are not yet in the hands of the U. S. public in any quantity, but have been sold extensively in several Canadian cities.

Based on current production Ford profits are estimated at approximately \$100 a car, after payment of taxes. The \$50 reduction means a loss in revenue to the Ford Company of approximately \$62,500,000 annually on present production. It is believed that Ford is now intending to push production (at a point not previously approached), possibly reaching 6,000 cars a day.

TAKES ISSUE WITH THE FRENCH ENVOY

London, Oct. 18.—(Canadian Press.)—Commenting on Lloyd George's Manchester speech, the Melbourne Argus, says a Reuter cable from that city, expressing the view that the political capital his opponents sought to extract from his handling of the Near East crisis forced the premier to criticize the part played by France. The facts were forced upon him.

There is no doubt, says the newspaper, that the firmness shown by Great Britain at the outset checked Kennal's desire for further conquests, that it was the presence of the British navy in the Dardanelles and the British army at Chanak and not Franklin-Bouillon's soft words of persuasion that averted a catastrophe.

Carson Leader Of New Party Is A Belfast Report

Bonar Law and Balfour Said to be With Him

Manchester, Oct. 18.—(Toronto Mail and Empire cable.)—The staff correspondent of the Guardian, at Belfast says:— "Lord Carson intends to resign as leader and re-enter political life as leader, with Andrew Bonar Law and Lord Balfour, of a new party, according to reports reaching well informed political circles in Belfast.

The scheme, it is said, has reached such a stage that members of an alternative government to Premier Lloyd George's combination have been mentioned behind the scenes.

As one time it was thought Lord Chancellor Birkenhead would join the three leaders named. He even suggested his willingness to exchange responsibilities of the wool-sack for those of the foreign secretaryship.

London, Oct. 18.—Winston Spencer Churchill, secretary for the colonies, who was taken ill Monday, has developed appendicitis, it was announced today. It was said to be early for the doctors to decide definitely of the necessity of an operation.

DISORDER IN INDIA AGAIN

Sikh Fanatics are Stirring—Moslem Leaders Behind Kemal, the Turk Leader.

London, Oct. 17.—(Canadian Press.)—A Reuter despatch from Amritsar says there is a re-eruption of the trouble caused by Sikh fanatics and arrests are increasing daily and already total about 1,600.

An point not previously approached, the approaching Diwali celebration on October 20 which yearly attracts a large number of pilgrims to Amritsar. A Reuter despatch from Delhi says that prominent Moslem leaders who constitute the central Khilafat committee have passed a resolution to present a word to Mustafa Kemal Pasha and to present to the Ankara government, in appreciation of the Turkish victories.

The committee has assured the Kemalists of Indian Moslem sympathy and readiness to help in the struggle for freedom.

ESTIMATE PARIS TRIAL WILL COST AT LEAST \$15,000

Although the complete accounts for the fifth and last trial have not yet been received, it is estimated by municipal officials that the five trials of John Paris on a charge of murdering Sadie McAnulty cost the city of New York the sum of \$12,500. This amount includes witness and jury fees, board and expenses, as well as court and constable expenses. There will also be a certain expense borne by the province, such as the expenses of the crown prosecutor, etc., which it is expected will bring the total cost up to at least \$15,000.

THE HEALTH CENTRE

Mrs. Melickjohn, of the public health centre, has issued a request to the public for a supply of cloths suitable for the clearing of windows, wood-work, etc., preparatory to the opening of the institution which is expected to take place about November 1. A generous response to this appeal is anticipated.

ROY CHISHOLM IS UNDER FIRE

Ontario A. A. U. Stirred Over Halifax Boxer

Suspension Threatened if He Fails to Appear for Bout—Bluenose and Ford Getting Into Final Trim—Ontario Tax on Bets.

(Canadian Press.)

Toronto, Oct. 18.—Roy Chisholm, the Halifax boxer, is through so far as the amateur union is concerned, as a result of his refusal to come here for the international tournament, after forwarding his entry for the 150 pound special class.

W. J. Smith, director of athletics for the Ontario branch of the A. A. U. of C. Canada, issued a statement tonight explaining the methods made to get Chisholm to attend the tournament. He gives as his reason for not coming that it would be impossible to get into shape.

On Monday Chisholm wired: "Have not done any training since Fifelet bout; therefore cannot get into condition for Toronto tournament. Willing to meet Fifelet later." His reply was not satisfactory and A. C. Mills wired: "If Chisholm fails to appear will suspend him. Fifelet went to Halifax with three days notice. Excusing offered for Chisholm too flimsy and tastes of pro's excuses. Chisholm comes now or never."

"Nothing has been said and this wire was sent to Chisholm— "Your suspension from further competition in Canada and the U. S. will follow your non-appearance. Excuse advanced not acceptable."

A. C. Mills, vice president of the amateur branch, has advised against the suspension, and also that Fifelet did not go to Halifax on short notice, but that he had about two months before he made the trip. But Chisholm's suspension stands, and on the arrival of the New York delegate, the matter of strict suspension in the U. S. will be taken up.

Ontario Race Tracks

Toronto, Oct. 18.—Horse racing in Ontario has completed its first year of operation under the five per cent. government tax upon all wagers. It has been a year of moderate success for the government but of adversity for the tracks concerned. There has occurred to the province the sum of \$2,212,220, which is \$238,000 below the figure which Hon. Peter Smith estimated made on these grounds. Wagers have decreased from \$56,000,000 in 1921 to \$44,000,000.

Honolulu, Oct. 18.—More world's records were smashed here last night the second of the swimming trials in the Outrigger Club tank. Warren Ketcha broke his own world's record for the 100 metre back stroke by swimming it in one minute, twelve and three-fifths seconds. His former record was 1:14. Gwtha Shand of New Zealand, swam the 440 yard free style in 5:16 minutes, fourteen and two-fifths seconds, thus bettering Sybil Baur's record of 5:16.

New York, Oct. 18.—The state athletic commission last night ordered promoter Ted Rickard to make payment to Tom Gibbons and Billy Miskie, St. Paul heavyweights, under the terms of the contract for the bout which was awarded to Miske on a foul last Friday night. Payment had been withheld on the order of the commission pending an investigation.

The majority of those at the ringside, the commission announced, agreed that a foul blow had been struck, but that it was unintentional. Payment was ordered made on these grounds.

The commission also recommended that promoters arrange bouts between the following to provide an opportunity to determine the last prospect for the middleweight championship:— Jack Malone, Tommy Robson, Tommy Loughran, Bryan Downey, Augie Hatner, Louis Begash, Mike O'Dowd and Pal Reed.

LEVIS HOTEL BURNED

Quebec, Oct. 18.—The Kennebec Hotel at Levis was completely gutted by fire early this morning. The members of the hotel staff and patrons were obliged to make a hasty exit in their night attire. The monetary loss is estimated at \$50,000.

BRITISH EMPIRE STEEL IS DISCUSSED

Montreal, Oct. 18.—Owing to a belief that there is now under discussion a re-arrangement of the British Empire Corporation's plans, the second preferred stock of that organization today weakened 2 1/2 points to 39 1/2, at which figure it closed after a large number of shares had been sold. This stock sagged a point yesterday to 36.

DARING BREAK FROM SLIGO JAIL

Sligo, Ireland, Oct. 18.—Heavy firing in various parts of the town early yesterday proved to be for the purpose of covering the escape of thirteen irregular army prisoners from the jail. The men constructed ladders out of torn blankets, and after filing through the bars of the jail windows, let themselves down to an alleyway, then scaled the outer wall and lowered themselves to the ground.

FLY OVER POLE IN MAY OR JUNE

Seattle, Wn., Oct. 18.—Captain Amundsen plans his flight from Wainwright, Alaska, across the North Pole next May or June, according to Captain S. C. Cochrane of the coast guard cutter Bear, which was here today after a voyage of 25,000 miles into the Arctic Ocean. Ice in the Arctic is the worst since 1909, so Captain Cochrane reported. Captain Amundsen said he intends to go to Nome, Alaska, this winter, by dog team and to return to Wainwright for his flight with Lieut. Oskar Omial.

Detectives Find Nitroglycerine and Burglars' Outfit After Capturing Their Man—On His Trail Five Days.

New York, Oct. 18.—A stack of gold nuggets, nitroglycerine and burglars' tools were found by detectives who captured William Anderson, 39, after trailing him to an apartment at 2408 Third avenue, on suspicion that he might have been connected with several burglaries.

Detectives Kelly, Morrissey and Leonard Dwyer of the Safe and Lock Squad learned five days ago that Anderson was on a visit to this city. They sought him for five days and finally found the place where he was living. Climbing the stairs to his room, one of the detectives knocked at the door. There was a long pause, then a movement inside the room and the door was slowly opened by a slender, thin, gray-haired man. One detective stuck an adhesive foot inside the door and all three grabbed Anderson. The venerable craftsman

It was decided to call for tenders for the sale of the total output

DOCTORS PRESCRIBE COAL

Chicago Dealer Shows Blanks Urging Preference in Delivery. Chicago, Oct. 18.—With hints of winter weather before the coal shortage is relieved, Chicago physicians have found a new use for their prescription blanks, according to Marshall A. Kelly, a coal company official, who exhibited a large batch of vari-colored slips, all urging that certain consumers, because of illness or other emergencies, be preferred in coal distribution. "This avalanche of doctors' prescriptions for fuel is a novelty and we do not know just how to regard it," said Mr. Kelly. "However, the presumption in each instance must be that the case is one demanding special consideration."

GIRL CAUGHT BY STRAND OF WIRE FASTENED TO MOTOR CAR MAY DIE

New York, Oct. 18.—Some one's notion of a joke may cause the death of Ethel Kauper, fifteen years old, of Yonkers, who stepped from the curb of Herriot street, Yonkers, just as an automobile went by. John Duane of Yonkers was driving the car. Unknown to him, somebody had fastened a long strand of wire to the rear of the car. As the car went along the wire writhed out behind like a snake, wrapped itself about a girl, threw her to the ground and dragged her twenty feet before Duane heard her screams and stopped his car. At St. Joseph's Hospital it was found that Miss Kauper had received a fracture of the skull and several lacerations and bruises.

CONQUERING FOG. (Vancouver Sun) Great progress in laying equatorial fogs has been made in experiments in Pittsburg, where a spray of oil and organic acids prevented mist from forming at the contact point of cold air and water. These experiments may prove of incalculable value to navigation. Heavy fogs at the time of the fall and spring equinoxes constitute the greatest menace to shipping in all parts of the world. It is quite within the limits of possibility that the near future may see development of the apparatus used at Pittsburg forming part of the standard equipment on every ship, and making it possible for navigators to lay heavy fogs in the immediate vicinity at least. One by one the perils of navigation are being removed and commercial insurance by sea which is the greatest insurance of international affairs, is being

MINIATURE RAIN CAUSED BY INSECTS
Tiny Bugs Suck Sap From Leaves—Weather Expert's Explanation Solves Mystery of Ten-Foot Area "Rainfall."
Washington, October 18.—Do not blame meteorology for the ten-foot square "rainfall" that has been heralded from Alexandria, Va., near here, Entomology explains it. Proferring at the fanciful explanations and the mystery that has been known about this phenomenon, Dr. W. J. Humphreys, professor of meteorological physics of the United States Weather Bureau, declares that plant lice produce the supposed "rain."
These insects are found on sycamore and other trees by the thousands. They are little brown mites, three-sixteenths of an inch long, which suck the sap from the leaves and squirt it out of their bodies. This secretion is the liquid that appears to be rain. Dr. Humphreys says there are dozens of trees in Washington that are producing the same kind of "rain." Several of these are in Pennsylvania Avenue and secrete so much of the sticky moisture that pedestrians avoid passing under their branches.
The liquid produced by plant lice is of a honey dew consistency and stays on the pavement or ground much longer than would the same amount of

rain water. It has been suggested that something of this sort made the famous maana of the Israelites in their flight through the wilderness from Egypt.
It is also declared absurd to explain the Alexandria "rain" and the exuding of moisture from a tree itself. Although there is a tree in South America which is said to do something of the kind, none of the trees of the Virginia city are of this species.
Rain seldom falls in a ground-wetting shower over an area of less than one square mile, although a few drops may fall over a much smaller area, says Dr. Humphreys.

Lloyd George May Resign or Call On General Elections

REPORTS THAT HE WILL QUIT POST IF CHAMBERLAIN OUSTED

Another Declares He Will Go to Country if Unionists Back Leader—Henderson Outlines Principles of Labor Party.

(Associated Press)
London, Oct. 18.—The British political fever has now reached its height, and there is every indication that the maximum temperature will be maintained for some days. Everybody is guessing as to when the crisis will pass and what turn it will take but the answer is as yet unvoiced and the future remains obscure pending tomorrow's Unionist meeting at the Carlton Club, which is expected to give the key to the problem.

Mr. Henderson said labor seeks national financial reform on the principle of ability to pay, and would lighten the national debt by a war debt redemption fund through a levy on accumulated wealth, beginning with all fortunes exceeding £5,000.

Labor also declares war against private industrial enterprises and advocates greater extension of collective responsibility. This especially applies to such national services as the mines and railroads.

The workers must have a measure of control over industry and there must be an elevation in their status, full employment or maintenance, and the humanizing of all working conditions.

One anti-coalition newspaper, the Daily Mail, today attributes to Premier Lloyd George the definite statement that he will resign office if the Unionist meeting declares against Austen Chamberlain. Lloyd George's statement is said to have been made at a private meeting of the Liberal ministers and under secretaries last night. None of the papers nearest the premier, nor any other, confirms this or professes to know exactly what passed at the meeting, although all agree that Lloyd George received general cordial support.

Whether he is the premier made the correspondents believe he will resign if Mr. Chamberlain is voted down at the Carlton Club. It would then be for the king, in accordance with the precedents of this country, to invite the Conservative party to try its hand at forming a cabinet.

If, on the contrary the meeting gives Mr. Chamberlain anything approaching strong support, the premier, it is reiterated, will advise the king to dissolve parliament, and, this being done, will appeal to the country on a coalition ticket.

Thus, if these prophecies be correct, the dissolution of parliament seems imminent in either case, as it is not supposed the Conservatives could carry on without the prominent and tried leaders who would quit the government with Chamberlain if he resigned.

Among other reports published by the morning papers is one that the ministers started new efforts yesterday to ensure postponement of the general elections until January, prompted, it is said, by fear of a complete split in the Conservative party.

Possible New Alignment.
Such a contingency, however, seems almost inevitable to the disinterested observer, and one of the surest prospects of the present ferment seems to be a new alignment of parties which will obliterate some of Britain's oldest political landmarks.

To a foreigner suddenly taking his initial survey of the situation perhaps one of the strangest features of the British crisis would be the comparative absence from the columns of the principal daily newspapers of reports on the activities of the labor party, notwithstanding the announced intention of that party to put more emphasis on dates into the electoral field.

Labor certainly is mentioned, but the space given to the labor party in the morning papers is devoted to the doings of two older parties. There is no reason to suppose, however, that this reflects the amount of importance attaching to the industrial attack on the part of the labor party, but the fact is that the labor party has been less vocal than their rivals, but they are known to be conducting an energetic campaign.

Labor Principles.
Some of the political principles for which labor is fighting are already well known. They were put succinctly by the moderate labor leader, Arthur Henderson, in a speech yesterday at Newport, Monmouthshire, where there is a by-election today in which labor will have the opportunity of showing its strength. The seat hitherto has been held by a Coalition-Liberal, but the coalition is not unopposed today and the fight will be between the Liberal and Conservative-Liberal candidates.

The fine residence of W. A. Munro of 134 Paradise row at Sand Point on the St. John river, was totally destroyed by fire early on Monday evening. The house, valued at \$8,000, was used both as a summer and a winter residence and was beautifully finished throughout. The origin of the fire is a mystery. The house is covered by insurance for about one-quarter of its value.

KILLED ON HER FINAL TRIP AS AN APPRENTICE

Cleveland, Oct. 16.—Miss Eva Moss, a twenty-year-old Chattanooga stenographer, was killed on the final airplane flight which was to have marked her transfer from the apprentice to the professional class of stunt performers in the air. The airplane, piloted by Aviator Peebles, soared 2,000 feet, when Miss Moss climbed out on a wing, descended a twenty-five foot rope ladder and suspended herself by her teeth.

Then came time for her to climb back into the plane for the return to earth, with her apprenticeship ended. But exhaustion or fear, or perhaps both, had overtaken her, and she was unable to make her way back.

Peebles, seeing her predicament, flew low over a lake and motioned for her to drop, but she feared to take the chance or else was entangled and could not, so the plane soared again into the clouds.

The mechanic on the ground, sensing the tragedy, sent a hurry call for an ambulance and doctors.

Still the plane circled about, giving the girl every chance to make her way back, but darkness was fast descending and a landing was necessary.

Peebles finally headed for the landing field and, holding the airplane twenty-five or thirty feet from the ground, motioned the girl to let loose and drop, but still she held on.

The plane dipped to the ground, its speed slackened to the minimum, but the girlish form at the end of the rope ladder hit with a terrific impact and was dragged nearly 100 feet.

The doctors leaped to her side, but their efforts were futile and she died within twenty minutes.

Peebles, broken-hearted, declared that he never would fly again. His wife was prostrated.

Miss Moss had been training thirty days, and was to have started her professional career today. One day she made a parachute leap of 2,000 feet and had an ankle sprained. It was then that the crowd watching learned for the first time that the daring performer was a woman.

Rev. H. E. Thomas, pastor of Exmouth street Methodist church, who returned yesterday from Toronto where he attended the general assembly, is being congratulated on his appointment of editor of the Wesleyan, the official organ of the Methodists of the Maritime Provinces. Rev. Mr. Thomas said the conference was the most interesting he has ever attended.

BISHOP WILL OFFICIATE AT THE CEREMONY

Laying of Corner Stone of New Memorial Building at Rothesay Next Week.

The bishop of Fredericton will be present and will deliver an address on Thursday afternoon of next week at the laying of the corner stone of the memorial building being erected at Rothesay College school in honor of the students and graduates of the school who took part in the great war. The plans for the building were drawn by Ernest Fairweather, of this city, and Delaney Robinson, of New York. This building will make more room for students and will bring the possible number of students from eighty-one to 110.

A tablet bearing the names on the honor roll will be placed in the vestibule of the chapel. The names are as follows:—Jasper Boyd Andrews, Percy Irving Baker, John Samuel Brown, George Stuart Burrell, John Daniel Brock, Herbert Montgomery Campbell, Reginald Heber Hamilton Daniel, Frank Russell Fairweather, Arthur Vernon Hatch, James Walter Holly, Charles Edward Kingdon Jones, Charles Murray Lawson, Alexander Scaman, Ross Mackay, Ralph Markham, Norman Mungall, Theophilus Henry Oliver, Lionel Overton Oliver, George Nugent Dickson Otty, Franklin Sharp Rankin, Earle Markee Scovell, Hugh Mariner Teed, Daniel Lionard Teed, Lawrence Tremaine Willison.

The original rolls, on which were inscribed the names of the above and all other old boys who enlisted for overseas service, will be hung in the same place.

DEATH HOUSE PRISONERS POOR; 26 HAVE TOTAL FUNDS OF \$400

Ossining, Oct. 18.—Sing Sing attaches announced that the private finances of the condemned prisoners in the death house are the lowest they have been in years. The wealth of the twenty-six slayers averaged but \$15 per man.

William Crossy, recently received for the killing of Edith Lavo, a Preceptor (L. L.) school teacher, is the poorest there. His cash account amounts to \$8.

Angelo Tumberlo, eighteen years old, convicted of the murder of Louis Balsamo at 613 Forty-fifth street, Brooklyn, is the wealthiest. He has \$80. The total wealth of the twenty-six men is about \$400.

This amount is being gradually depleted by expenditures, mostly for cigars and cigarettes.

Captain H. D. Harrison, of the Salvation Army in this city, left last night for Toronto to attend a congress which is being held there in connection with the Salvation Army in Canada.

"That is the true cocoa color."

It's Baker's Cocoa

THE problem in making cocoa is to preserve the natural flavor, aroma and color of good cocoa beans; to eliminate the excess of fat, so that the cocoa may be easily digested by the most delicate stomach, yet not to take out too much and materially impair its nutritive quality.

By the exercise of great care in the selection and blending of beans, and by the employment of the most highly developed machinery and processes of manufacture we believe that we have solved this problem and produced a

LAUDS WORK OF KINDERGARTENS

A special meeting of the Free Kindergarten Association was held yesterday afternoon in the board of trade rooms with Mrs. F. E. Holman presiding. The matter of holding a tag day to raise funds was taken up but it was decided, in view of the many tag days held recently, to postpone this until the spring.

His Lordship Bishop LeBlanc forwarded a letter of appreciation with a check for \$20. E. G. Spence was elected a member of the advisory board. All reports were satisfactory but showed need of more accommodation as there were children wishing to attend for whom there was no room. A committee was appointed to prepare nominations of officers for the annual meeting. They were Mrs. H. H. Pickett, Mrs. W. F. Hatheway, Mrs. F. A. Foster, Mrs. H. L. Spangler, Mrs. E. R. Taylor and Mrs. D. C. Darden. Representatives were asked from the association to the Red Cross membership campaign meetings and to the G. W. V. A. Poppy Day meetings. Miss Alice Eley was appointed to attend the Poppy Day meetings.

W. C. T. U. MEETING
At a meeting of the W. C. T. U. held yesterday afternoon with the president, Mrs. Hope Thomson, in the chair, reports of the recent convention were given by Mrs. W. T. Humphrey, Mrs. Ellsworth Scott gave the report of the meeting of the N. B. Temperance Alliance. Reports were received of the various activities of the union.

ASKS IF HE MAY BEAT WIFE

Barbados Negro Ready to Do So If Permitted by Police Lieutenant.

New York, Oct. 18.—A negro, who says he is a British subject from Barbados, grabbed his wife by the hand in the West 16th street police station and asked Lieut. James Leith if the United States laws gave a husband the right to beat his wife.

The negro said that in the Barbados if a wife did not obey her husband, he had permission to "take a stick to her." He explained that when he returned home from work early in the morning, she did not have breakfast prepared for him and that he thought he was justified in chastising her.

Lieutenant Leith asked the woman if she wanted to register a complaint against the man and she said "no." The lieutenant then advised the man that it was decidedly against the law to beat wives in New York and allowed the two to depart.

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

ONE STOCK HAS 17 POINT JUMP

National Biscuit Makes New High—Others Soar in Wall Street at Opening of Session. New York, Oct. 18.—(10.30)—Stock prices moved upward in rapid fashion at the opening of today's market in response to a broad demand for railroad equipment and copper shares and a remarkable bullish demonstration in National Biscuit, which soared 17 points to 245, a new high record.

LOSERS PART OF GAIN; ANOTHER JUMPS.

New York, Oct. 18.—(noon)—Except in the case of National Biscuit, which dropped 10 1/2 points from its early high, little profit taking was apparent in shares in the general list which either held steady or continued their upward course.

MONTEAL EXCHANGE.

Montreal, Oct. 18.—(10.30)—Trading on the local stock exchange continues in the same vein in which it has been traveling for the last week. The general tone remains only moderately strong.

NEW DEPARTMENT OPENED

OAK HALL Men's Shoes

Germain Street Store—Street Floor

The opening of this department has been under consideration for some time, but we have waited until satisfied that shoe prices were down to a normal basis.

We now believe the right time has arrived, so that here, today, you will find as fine a range of Men's Shoes as the most discerning dresser could wish for, and every pair priced at the new low market level.

Mr. E. Clarence Girvan is the manager of this new department. Mr. Girvan has had some fifteen years' experience in the shoe business. He knows what the men of St. John want, and has prepared accordingly.

Both the American and Canadian markets have been visited, and thoroughly studied, and after careful analysis we have decided to concentrate our efforts on three feature values—

\$6.50 \$7.50 \$9.00

We did not feel we could get a shoe of real worth to sell for any less than \$6.50, neither did we consider it necessary to go higher than \$9.00, to offer as fine a shoe as the average man would want.

Every pair of Shoes carries our name, which is your guarantee of satisfaction, just the same as our label on our clothing has been the Oak Hall guarantee for thirty-four years now—it is to Oak Hall and not to the maker you go, if you are not satisfied. It is in Oak Hall, not the maker, you place your confidence, when you buy, and so it's naturally the Oak Hall name on the label.

WE ARE READY WITH OUR NEW FIXTURES, OUR NEW STOCK AND NEW SALESMEN TO SERVE YOU—COME IN AND SEE WHAT WE CAN OFFER.

Madison Square Garden next Friday night on account of dissatisfaction with his share of the purse. The bout has been called off and Renault will not be allowed to fight in New York state until he fulfills his engagement with Tunney.

Shade Gets Decision. New York, Oct. 17.—Billy Shade of California received the judges' decision in a ten round bout tonight with Wolf Larsen of Brooklyn. Their weights were announced as Shade 173, Larsen 169.

The Miske-Gibbons Bout. The thin ranks of prospective rivals for Jack Dempsey suffered another decrease in the meeting between Billy Miske and Tom Gibbons. Miske won the bout on a foul in ten rounds. A kind Providence stepped into the breach and gave Miske victory when it appeared that he would be battered into a crushing defeat. But there was no solace in the triumph for Miske. The result will always be remembered as simply an unsportsmanlike and accidental ending to the bout. Another fact which will be remembered is that Miske, at the time he gained the victory, was hopelessly beaten—excelled by Gibbons in every department of boxing, hopelessly outclassed.

Miske was said to have found pugilism's Fountain of Youth and to have profited by his discovery. He beat several rival heavyweights, among them Fred Dalton, in a campaign of rehabilitation. His triumph carried enough significance to gain Miske consideration as a probable opponent for Dempsey in a bout planned for January here. The glowing reports of Miske's "rejuvenation" appear to have been grossly exaggerated. If he boxed at his best against Gibbons—and there is no plausible reason for supposing that he did not—then Miske is at that stage of a pugilistic decline from which there is no recovery. He is "through," to use the vernacular.

Nor does Gibbons measure up to the standard required of an opponent for a boxer of the Dempsey type. True, Gibbons battered Miske to all corners of the Madison Square Garden ring in workmanlike manner, previous to the time the foul blow was struck. But even in the process Gibbons did not demonstrate ability which would justify his selection as a foe for the world's heavyweight champion. Dempsey would have little difficulty disposing of Gibbons, for against the champion Gibbons would be forced to concede at least twenty pounds in weight. Aside from Harry Willis there is no heavyweight just now who possesses the ability to make an interesting battle against Dempsey. Through no fault of his own, therefore, the champion is compelled to remain idle as far as ring assignments are concerned.

Miske has been listed as a prospect, Gibbons is too small, and so is Harry Greb. The State Athletic Commission will not permit Dempsey to box Bill Brennan, the boxer who enjoys the distinction of having carried the champion through twelve rounds before succumbing to the Dempsey punch. Floyd Johnson, about the most likely of the new crop of heavyweights, is un-schooled as yet and too inexperienced to receive consideration. It certainly

is not likely that all previous tournaments that have been held since ballyhoo became the vogue now has aroused greater interest in advance than the tournament that is to be staged at the Hotel Pennsylvania, Nov. 19 to 21 inclusive. Six of the greatest players of all times are entered, and there is every reason to believe that all previous tournaments for high runs and high averages will be surpassed.

Jake Schaefer, the present world's champion, Willie Hoppe, who held the title for fifteen years; Welker Cochran, who has been one of America's foremost players in the last seven years; Edouard Horemans, the Belgian champion of Europe; Roger Conti, the champion of France; and Erich Hagenlecher, the champion of Germany, are entered. With such a galaxy of stars in the competition there is every reason to believe that the matches will be productive of some of the best billiards that has ever been seen in this country. When the tournament was held in Chicago last year it was the first time that an international professional billiard tournament had been held in this country since 1908, when old Jake Schaefer, the father of the present champion, won the title. A year ago two foreign countries were presented—France and Belgium. In the forthcoming tournament not only will France and Belgium be represented, but Germany will also have a player on the firing line. Thus, this will be the first time that Germany has been represented in a professional billiard tournament.

The fact that Hoppe is to try to come back plus the fact that young Jake Schaefer is to try to defend the laurels that his father won more than two decades ago and the additional fact that Hagenlecher, who is conceded to be one of the world's greatest, is to compete in the struggle for the championship. All of the six players are reported to be in excellent stroke. If they are at their best when the tournament opens there is every reason to believe that a balmy feast will be served to the fans.

New Golf Grass An Aid. Washington, Oct. 17.—Golf grass to make golf balls bounce better on the

putting green and the fairways have been developed by the Bureau of Plant Industry of the United States Agricultural Department. Creeping bent is the grass which has been found to furnish the ideal turf for the devotees of the Scotch game. The use of this grass has been fought by the seed men because it is not raised from seed. The ideal golf link covering is a running, jointed grass, which sends down roots from each joint, thus forming a thick mat, resistant to wear and drought. The method of planting is to cut up these roots in a chopping box and sow them like seed, but covered somewhat deeper. In this way, a more uniform color and texture is obtained than from grasses raised from seed. Creeping bent is an importation from Germany with which the Agricultural Department has been experimenting for five years. It is cultivated in rows six feet apart and spreads rapidly. A hundred feet of a row is sufficient to sow an entire golf course. Last year 115 golf courses were supplied in this way and the demand is increasing.

DEVICE GIVES FILMS THIRD DIMENSION

Cornell Man's Invention Based on Old Stereoscope Principle—Figures Appear to be Stepping Right Out of Screen.

New York, Oct. 18.—Motion pictures in which the principle of the old-fashioned stereoscope is successfully applied—it is said, for the first time—were shown this week at the "View Studio, 456 Broome street. They are the invention of Lawrence Hammond, a young Cornell graduate, who has spent more than two years in experiments in Detroit, Chicago, and this city. With the perfection of his device, the Tale Corporation of Illinois has been formed, with John Borden, a wealthy Chicagoan, as president, and it is planned to produce a complete stereoscopic film play in this city in the near future. Striking effects are obtained by the new process which eliminates the sense of flatness of an ordinary picture and introduces a third dimension—depth. In so doing, one of the freaks of the ordinary movie—the close-up—is done away with. Instead, when a close-up is shown stereoscopically, the character appears to come nearer without being greatly magnified. The actors, in fact, appear to be stepping right out of the screen and, performing, almost within arm's length of the audience. As one enthusiastic spectator at the exhibition put it: "The screen becomes an open window through which you look at real live people in their proper perspective."

Stereoscopic pictures are taken with a special camera having two lenses, two and five-eighths inches apart—the normal distance separating the human eyes. Each lens has its real film, one reel taking up the left eye and the other for the right. Every object is thus photographed from two angles. Television in Use. In projecting the picture, two machines, usually the left and right eye pictures on the screen. The effect on the naked eye is of a blurred photograph or one taken by an amateur in which the camera was jostled. To overcome this impression, Hammond has invented a device which is attached to each seat in the theatre and which he calls the Television. It is a disk with a window in it, through which the stereoscopic pictures are viewed. Inside the disk is a shutter revolving before the eye like an electric fan. The revolutions of the shutter are synchronized with the picture on the screen so that when the left-eye picture is shown the right-eye view is cut off, and vice versa. The speed of the operation may be appreciated from the fact that 1-100 of a second is all the time that either eye is allowed to look at the screen. By alternately feeding the right and left eye with pictures so rapidly that there is no appreciable difference

The S. S. Canadian Gunner which is expected here on Friday, October 20, to commence the shipment of potatoes to Long Island ports, arrived in Montreal yesterday from Newcastle.

THE Y. M. C. I. DRIVE.

Gratifying reports of the success of the Y. M. C. I. membership drive, which opened on Monday, have been received from the wards captain, headquarters in the Institute. It is expected that by the end of the week when the campaign concludes the membership of the organization will be a record one.

SUCCESSFUL SALE.

The Royal Standard Chapter, I. O. D. E., held a very successful rummage sale in the lobby of the Queen's Square theatre this morning. There was a good crowd waiting when the doors opened, and those in charge were rubbed to handle the buyers. Mrs. T. E. G. Armstrong was the convener of the committee in charge.

NEXT MONDAY.

The case in which Charles Rand is charged with practicing optometry after having been forbidden by the council of the Optometrical Society was taken up yesterday afternoon and adjournment made until Monday afternoon at 2.30. H. A. Porter appeared for Mr. Rand, and G. H. V. Belyea, K. C., for the society.

WANTS TO KNOW ABOUT US

A letter was received by R. E. Armstrong, secretary of the Board of Trade, from a young man in Vancouver, formerly of New Brunswick, who wished information regarding the port. He said that he would like to impress on the minds of the Vancouver people the fact that St. John is the second largest port in Canada in the amount of shipping business.

LIQUOR CASE.

Joseph Woods pleaded guilty this morning to a charge of having intoxicating liquor in his beer shop in the Westmoreland road. He was fined \$200. He offered to pay \$50 and get out of the business, but the magistrate said he would have to go to jail for six months and advised him to get out of the business anyway. W. M. Ryan appeared for the prosecution.

A NEW RECORD

Last evening's meeting of the Last Car Club was held at the home of Miss Dow, Germain street. Five games of whist were played and Mrs. McLean and S. Caddell were the winners. Not only that but they scored a total of 300 points, beating the highest score by three points. Congratulations were given to Mr. Moford and Mr. Angel. Dainty refreshments were served by the hostess during the interval. A most pleasant evening finished all too soon.

FAMILY RE-UNION.

Mrs. James E. Hurd of this city is visiting her father at River Hebert, N. S., attending a family reunion. Others attending are Mrs. George McAlister, Mrs. William Walters, Mrs. Marion Mills, daughter, and two sons, Robert W. Marshall and Mrs. McLean, from other points. This is the first time the family have been united in twenty-two years. The reunion is being attended by those named together with their children. Unfortunately Mr. Marshall, Sr., is dangerously ill.

WEDDING ANNIVERSARY.

Several friends of Mr. and Mrs. Charles Ingraham, 107 Somerset street, gathered at their home last evening in honor of the twenty-second anniversary of their wedding. The evening was pleasantly spent with games and other amusements. E. Waters, on behalf of those present, presented to Mrs. Ingraham a handsome electric iron and centre piece. Refreshments were served and before the gathering dispersed the visitors wished Mr. and Mrs. Ingraham many more happy years of married life.

FOR GOOD ROADS.

T. P. Regan, president of the New Brunswick Automobile Association, will leave this afternoon for Montreal to attend a good roads convention, which will open tomorrow morning in the Windsor hotel there. A very comprehensive programme has been arranged and it is expected that some tangible benefit will result from the gathering of men from all over Canada to consider this question, which means so much for the betterment of the Dominion in general. Hon. P. J. Veniot, minister of public works, and B. M. Hill, provincial road engineer, also will be present.

TRAFFIC CASES.

Several traffic cases occupied the attention of the police court this morning. All were charges of driving on the wrong side of Haymarket square. Those charged were John Cook, Dr. A. E. Baxter, Jules Groulx and Percy Campbell. The reports were made by Policeman Gantier. Dr. Baxter said he had been trying to avoid striking a street car and had pulled back on to his right side again as soon as it had passed. Mr. Groulx said he had driven on the wrong side from habit as at that point a large number of people look the wrong side to get around the street car. Those charged were excused this time.

S. P. C. CASE.

Mrs. Elsie Murphy was charged with cruelty to animals in the police court this morning. The act charged was working a team of horses which were unfit for work. She pleaded not guilty. S. M. Wetmore of the S. P. C. said yesterday he had gone with Sergeant Spinney and Policeman Quinn to the barn of the defendant in Erin street and had found the horses in a bad state with sore shoulders. Mrs. Murphy said she didn't know that the horses were in that condition. Her husband was away and the driver had not told her of their condition. Sergeant Spinney and Policeman Quinn corroborated the evidence of Mr. Wetmore and the case was postponed until tomorrow afternoon to have a veterinary surgeon testify. Mrs. Murphy said the horse had had a sore shoulder in August and she had had a veterinary attend it then. She was told to bring the veterinary to court.

OCTOBER BRIDES

Welling-Strong.

A very pretty wedding was solemnized today at the home of Mr. and Mrs. Charles D. Strong, 65 Summer street, when Rev. David Hutchinson, D. D., united in marriage their daughter, Miss Jean Keith, to Albert Mason Welling. The ceremony took place at twelve o'clock in the presence of immediate relatives and friends. The bride, who was given away by her father, wore a becoming suit of brown velvet with a pressed beaver hat and carried a shower bouquet of Ophelia roses. She was unattended. The wedding march was played on the piano by Miss Isabelle Keith of Moncton, a cousin of the bride; and Miss Evelyn Cowan admitted the guests. Following the ceremony a buffet luncheon was served, after which a reception was tendered Mr. and Mrs. Welling. They left this afternoon on a honeymoon trip to Prince Edward Island and on their return will reside in this city. Their popularity was attested by the large number of magnificent presents received, which included checks, cut glass, silver and household effects.

Hunt-Murphy.

A pretty wedding was solemnized in St. Alphonsus church, Hampton, today at 2 p.m. when Rev. Raymond McCarty united in marriage the bride and groom, with nuptial high mass. The bride, who was given away by her father, was becomingly gowned in a navy blue suit with hat to match and carried a bouquet of Ophelia roses. The bridesmaid, Miss Gertrude Doherty, was attired in a navy blue serge suit with hat to match and carried a bouquet of roses. The groom was supported by Mr. Doyle of St. George. After the ceremony a dainty wedding breakfast was served at the bride's home. Mr. and Mrs. Hunt will reside in Lower Norton.

Smith-Parise.

The wedding of W. O. Smith of Lakeside, and Miss Mabel Irene Parise, took place this morning at 11 o'clock at the residence of Mr. and Mrs. J. Smith, Lakeside. Rev. C. Gordon Lawrence tied the nuptial knot. After the ceremony Mr. and Mrs. Smith left on an automobile trip to St. Stephen and Calais, on their return they will reside in Hampton. Mr. Smith has many friends in Hampton who will extend to him and his bride their very best wishes.

Martha-Mullin.

A wedding of much interest to St. John people was celebrated at the Church of the Holy Innocence, New York, on October 7, 1922, when Miss Josephine M. Mullin, daughter of Mr. and Mrs. John E. Mullin, Main street, St. John, became the bride of Harrison J. Martin, formerly of St. John, now of Boston. After a short honeymoon trip in New York they returned to Boston where a reception was held at the home of the groom's mother in Allston. Only immediate relatives of the bride and groom were present, including the bride's mother, who attended the wedding. A number of beautiful presents were received including a diamond ring from the bride's father, a watch from the firm of J. F. Frost & Co., Columbus avenue, Boston, where the bride was employed, and a book from the Copley Plaza Hotel, in honor of the bridal party. The following evening a book was given at the Copley Plaza Hotel, in honor of the bride, who was the guest of the evening. Feature Film Company of which Mr. Martin is auditor. Mr. and Mrs. Martin will reside in Boston. They have many friends in St. John. For the present they will reside at 1822 Commonwealth avenue, Brookline, Mass.

Piers-Griffin.

In St. Mary's rectory on October 7, Rev. E. Taylor McKim united in marriage Miss Helena May Griffin and Fred M. Piers, both of this city.

Sullivan-Russell.

A very pretty wedding was solemnized at 6 o'clock yesterday morning in the Church of the Assumption with nuptial mass, when Anna Evelyn Russell, daughter of Mr. and Mrs. Charles Russell of 170 St. John street, west end, became the bride of Raymond Bernard Sullivan of Grand Ave., Gloucester Co., N. B. The bride, who was given away by her father, looked charming in a dress of blue tulle with silver trimmings and seal scarf and carried a white prayer book. She was attended by Miss Susan H. Finlay, who wore a dress of blue silk with hat to match. The groom was supported by J. Sarto Russell, brother of the bride. The Russell, bride of the bride, was attested by many beautiful presents of silver, cut glass and chinaware. After a sumptuous glass and champagne. After a sumptuous glass and champagne. After a sumptuous glass and champagne.

Main-McGill.

A pretty wedding was solemnized in the Cathedral of the Immaculate Conception this morning at 9.30 o'clock, when Rev. Father Reynolds united in marriage the bride and groom, both of this city. The bride looked charming in a dress of blue tulle with silver trimmings and picture hat of turquoise blue with silver trimmings, and wore a seal scarf and carried a prayer book. She was attended by Miss Marion Crosby, who looked very winsome in a dress of blue silk with hat to match and carried a bouquet of pink carnations. The groom was supported by John Rolton, Mr. and Mrs. Main drove to their future home at 22 Charles street, where a dainty wedding breakfast was served. Many friends join in wishing them much happiness.

LeBlanc-LeBlanc.

Joseph LeBlanc and Miss Josephine LeBlanc were united in marriage in the Cathedral this morning by Rev. R. Nugent, who was celebrant at nuptial mass.

Carter-Johnson.

A quiet but very pretty wedding took place on Wednesday morning at the home of Andrew Johnson, 108 Hilliard street, when his daughter Hazel became the bride of Roy Carter, of this city. They left on the American boat for Boston and will spend a little time in that city before returning to their home in St. John. The ceremony was performed by Rev. Robert S. Chish, being the fifth performed by the same minister for members of Mr. Johnson's family.

C. N. R. WRECK; 15,000 BUSHELS WHEAT SPILLED

Port Arthur, Ont., Oct. 18.—Fifteen thousand bushels of the Eastern Canada wheat crop were spilled over the right of way when some eighteen freight cars were smashed and the track was torn up for several yards in a rear-end wreck at Fairbairn, Ont., on the C. N. R. yesterday. The train crews escaped injury.

FIGHTING FORCE BACK OF FISHER FOR MAYORALTY

Strong Feeling Asserting Itself—Many Sign Nomination Papers in Interest of Power at Cost.

It is a highly significant fact that those who have been securing signatures for the Fisher nomination paper have met with a fine reception everywhere they have been. The names already signed are widely representative of the community at large, and it is noteworthy that the workers in going about have received scores of voluntary offers to provide motor cars, and have been given words of encouragement on every hand.

The fact is that in two or three days of this week it has become very clear that the hydro cause and the power at cost principle have an army of friends and advocates, and it is a fighting army suit with that of the people of St. John want Musquash power at the Kris rates, and they want it in a hurry. That is clearly evident from the reception accorded those who have been going about St. John with the nomination papers on behalf of Mr. Fisher. The Times learns today that the outlook is most encouraging and there is a growing feeling that, as the issue is straight and clear, the public sentiment that gave so overwhelming a verdict for power at cost in the civic elections will be very responsive in St. John from this time until the polls close. There is going to be a lot of black in this campaign, and threats and false arguments of the mayor and the Power Company advocates are assisting Mr. Fisher's cause immensely.

It is recognized that the enemy will have a barrel of money, but the knowledge only causes thousands of people to declare with no little emphasis that this town cannot be bought for the New Brunswick Power Company, even if H. B. McLellan had a million in his war chest.

EXPERT COSTING CITY \$125 A DAY

F. W. Scheidenhelm Gave This Information to Commissioners at Yesterday's Meeting.

F. W. Scheidenhelm of New York the hydro expert who was engaged recently by Mayor McLellan to advise the city in connection with the proposed contract for the Musquash current is costing the city \$125 a day, irrespective of whether his work is in this city, in his own office or elsewhere. This information was given by Mr. Scheidenhelm at his introductory meeting with the members of the city council at noon yesterday, according to the statement of one of the commissioners today, and was given in reply to a question by one of the members of the council.

MISSION IN SIMONDS.

A mission has been conducted at Loch Lomond, Garnett Settlement and Black River by Rev. Mercer Williams and Fr. Kenneth Vial of the Society of St. John the Evangelist. The mission commenced on the first day of the month and was held for twelve days. The missions preached at All Saints' church, Loch Lomond on Sunday morning, at Black River church, for six nights and at Garnett Hall for six nights. The Holy Eucharist was celebrated twice daily during the mission. Also services were held at Willow Grove and Otter Lake, and there was the child's mission at Garnett and Black River. The mission services were very well attended, in spite of the unfavorable weather during the second week of the mission. Many traveled long distances to hear the preaching of the Gospel, and the great interest in the mission was declared a witness to the fact that the Christian religion was a living power today as truly as at any period of the history of the Church.

The good work of the mission was appreciated everywhere by the parishioners, and it is hoped that the mission has done permanent good. It was the first mission ever held among Aglicons in the parish.

The Mission Fathers returned to Boston on Friday.

CORNFLOWER ON YPRES DAY

Establish Permanent Hostel and Club House at the Scene of Battle.

London, Oct. 18.—(Canadian Press)—The proposed cornflower day on October 31, the eighth anniversary of the first battle of Ypres, when all who served or suffered loss of relative or friend in that salient are asked to wear a cornflower, has received warm support from the Prince of Wales. The movement is being organized by the Ypres League. A fund raised by the sale of cornflowers will be used to establish a permanent hostelry and club-house at Ypres, as a rendezvous for all British pilgrims visiting the graves and battlefields.

WOMAN OF 65 IS MURDERED; THE MOTIVE MYSTERY

Batavia, N. Y., Oct. 18.—Miss Frances Kimball, sixty-five, was found murdered yesterday in the cellar of her home on a farm nine miles south of here. She had been killed by a blow on the back of the head, and the body had been crowded under a shelf and partly covered with an old door.

The motive for the crime is a mystery. The telephone wires had been cut. Miss Kimball lived alone.
