

The Evening Times and Star

ST. JOHN, N. B., AUGUST 19, 1919

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE HARBOR. Mr. Stanley E. Elkin, M. P., in his address to the Rotary Club yesterday, presented the case for harbor commission clearly and with force, and he made the best of it. Let it be said at the outset that Mr. Elkin has been energetic and faithful in his efforts to forward the interests of St. John, and that if the harbor commission plan, as it now stands, falls short of being satisfactory, the fault is not his or that of Mr. Carroll or Mr. Wigmore.

The bill which the President repealed passed the House by a vote of 238 to 132, and on the first attempt to pass the repeal over the president's veto, when it was a rider to the agricultural bill, eight votes were lacking of the necessary two-thirds.

The great question is whether the bill will survive. The President, it will be seen, argues wholly from the standpoint of the greatest good to the greatest number, which is a sound position. Reforms are always doomed to opposition, but they are not instituted without some persons or classes being affected in a way that all too readily is made out to be hardship.

The Times' advertising columns tonight carry an special appeal to the thrifty housekeeper. Tomorrow will be Dollar Day, a constitution now well established here. Many merchants present, in this evening's Times, lists of attractive bargains for tomorrow. It is a day that restores to the dollar something of its diminished prestige.

St. John would vote heartily and overwhelmingly in favor of harbor commission tomorrow if there were before it a national pledge of nationalization, or any binding assurance that harbor commission would mean rapid and comprehensive development in respect to harbor facilities and railway connections such as national trade demands here because of St. John's fortunate geographical position.

Wilson Firm in This. For a second time within a brief period the President of the United States has exercised the prerogative of his high office to retain for the nation the benefits of daylight saving. For a second time he has vetoed legislation which would have repealed the law which set the clocks ahead one hour and gained that much of sunlight for each day, and here are the reasons for his action as set out in a presidential message to Congress last week.

Dealing with the Prince's visit, the Boston Globe, closes a lengthy editorial with these words: "But there is more in that royal progress through Canada than meets the eye. Whatever may have been the policy which prompted the visit, there is no policy in the welcome. Higher than trade, deeper than sentiment, there is an ache of longing in those hearts and voices which go out to the shy, slender youth who embodies to their eyes all that for which they suffer as they wait for footsteps which will never return."

CIVILIZATION AND WAR.

To the Editor of The Times.—Sir.—There is very little news in the daily papers to ease the tension caused by the war and one often wonders where that "saved civilization" is making its abode. The world is saturated with troubles and the markets in America cannot be numbered among the least. It is only a short time since the American Civil War and as terrible as that war was, it did not remove the cause from which it originated.

A Tie Game.

The Young Glenwoods and the Young Beavers fought an exciting baseball game to a tie finish on the Gilbert's Lane diamond last evening, the game ending with the score at 3-3.

RECENT WEDDINGS

Barton-Golden. Upper Keswick, N. B., Aug. 13—A very pretty wedding took place at Young's Cove on August 13 at the residence of the bride, when J. Frederick Barton was united in marriage to Mrs. Carolyn I. Golden, Rev. Milton Addison, of Fredericton, officiating. The rooms were beautifully decorated with potted plants, ferns and cut flowers and the bride looked charming in a dainty suit of blue and sand-color with hat and bag to match. She carried a bouquet of bride roses.

RECENT DEATHS

Miss Mabel G. Akerly. The many friends of Miss Mabel G. Akerly will regret to hear of her death which occurred at the home of her mother, Mrs. Manford Akerly, 174 Adelaide street, on Monday evening, Miss Akerly was twenty-two years and nine months of age, and has been in failing health for some time. She is survived by her mother and by one sister, Miss Laura Akerly.

Mrs. Emma A. Weeks. Richibucto, Aug. 18—Word was received Sunday of the death of Mrs. Emma A. Weeks. She passed away Sunday morning in the Moncton hospital, where she was taken for treatment two weeks ago. Mrs. Weeks had been ill for five months yet her friends of which she had a wide circle, were shocked to hear of her death. No near relatives survive her. The body will be brought here for burial. No funeral arrangements have yet been made.

Major E. C. Weyman And Kent County Nurse Are Invested

Major E. C. Weyman was invested with the Order of the British Empire at Buckingham Palace by King George on July 31. Miss Georgia M. Jardine, of Rexton, Kent, has been granted the Royal Red Cross, first-class. She went overseas with the Harvard Medical Unit.

Paris Long on Style And Short on Dress

Paris, Aug. 18—Paris' first real display of styles since the war began is being attended by about 400 American buyers. Paris is clinging to skirts hanging seven to eight inches from the ground. American buyers, the dress-makers say, are ridiculing the shortness of the gowns, although frankly admitting American skirts have been too long. It is said to be likely American buyers will be offered compromised lengths. One prominent American buyer says that no well-formed woman looks well in a really long skirt and it cannot be graceful, but he laughs at a dressmaker's suggestion that Americans want long skirts because American women do not have pretty ankles.

CARLETON CO. MAN IS SERIOUSLY INJURED

Woodstock, Aug. 18—Blythia Burlock was a passenger in an automobile that went over a bridge near Jacksonville, last evening. He was thrown through the windshield and received severe scalp wounds as well as injuries in the chest and spine and is now lying in Dr. Pettit's hospital in a serious condition.

HORROR SHIP IS DOCKED SWARMED WITH WEEVILS

Poisonous Pests Attacked Crew Bound Buenos Aires To New York

New York, Aug. 19—After spending thirty days in the horror ship Augusta G. Hilton, which became literally alive with South American weevils, Captain Orlando C. Sawyer, his mate and a crew of nine men arrived at Erie Basin in a frightful condition. The weevils literally took possession of the vessel. So thick did they become that oftentimes it became necessary for the men to turn the hose upon them in order to walk on deck.

They swarmed in all parts of the schooner, getting worse every day, until the men were driven from their sleeping quarters and were forced to swing hammocks from the rigging. Even there the men were not safe from the millions of pests. The bugs, which are small but have a painful and poisonous bite, were inches deep all over the ship. A few days after they were discovered, the cook announced that he could not serve hot food, because every time he took the cover off a pot about twenty of the bugs dropped from the ceiling of the galley into the food.

For the remainder of the voyage the men were forced to eat cold food. So thick did the weevils become that they crawled into the men's eyes and into their ears. Attacked the Captain. Captain Sawyer, who has but one eye, was on deck a few days ago and one of the insects crawled into his remaining eye and poisoned the optic. For a time it was thought he would lose the sight of this eye. The bugs crawled up the men's legs, and the men were forced to tie strings tightly about the bottom of their trousers to prevent this. Thousands of the pests were continually dropping on the men from the rigging.

The schooner sailed from Buenos Aires on June 18 with a valuable cargo of corn. After being out about thirty days a few bugs were seen crawling on deck. No one paid any attention to this until one day a hatch was opened to let air into the hold. As soon as the hatch was opened, literally millions of weevils swarmed out and attacked the men. Soon the decks were a swarming, squirming mass of bugs.

Members of the crew were yelling in pain as hundreds of the bugs attacked and bit them. From this moment the ship was a ship of horror. Nearly Driven to Suicide. Day after day as the weevils multiplied, the situation became more acute, and Captain Sawyer says he was nearly driven to suicide. The skipper said that he was afraid to shout orders because if he had opened his mouth several of the weevils would have choked him.

"It was the most horrible experience any eleven men ever went through. No one can imagine what we suffered, and the horrible feeling that always everywhere on the boat these loathsome bugs were crawling," said Captain Sawyer. "We had to sleep in relays. One man

For Dollar Day Specials

SEE PAGE 9 DANIEL Head of King

would sleep while another watched him to fight the ferocious bugs away. It was frightful. Several of the crew were taken to a hospital upon arriving here, and they tell me they are in a serious condition from bites and from the effects of having the bugs crawl into their ears.

British Military Plans Indicated

London, Aug. 18—The statement of Winston Churchill, minister of war, that the British army of occupation on the Rhine soon would be reduced to 5,000 men, has brought out some definite figures as to what Great Britain intends to maintain in the way of a military establishment.

According to authoritative information, the policy of the government is to rebuild the old pre-war volunteer army, recruiting for which already has reached 250,000. These men will be used to form 31 cavalry regiments, 254 batteries of artillery, and 124 battalions of infantry, which will constitute the defensive force of the British Empire at the beginning of 1920.

This latest decision regarding the reduction of the army on the Rhine means that 170,000 men will return to England between this time and the end of October. The reason for such a large reduction lies in the fact that the work of cleaning up the devastated regions of

France and Belgium has proceeded more rapidly than was expected, and also that the officials of the Allies are convinced that Germany intends to carry out the peace terms in good faith. British and American officials who made a tour of the German arsenals recently found that the Germans were powerless to resume the war. Great Britain today has 100,000 soldiers guarding 400,000 interned German prisoners in England. While the authorities are anxious to repatriate these men it would have the effect of throwing large numbers of service men back into Germany, with the accompanying potential danger of giving the German government an excuse for a slower demobilization to the figures of the peace terms.

Great Britain today has 1,200,000 men under arms in various parts of the world.

ARE FREED FROM BANDITS; HALF RANSOM SAVED

American Aviators Who Were Seized in Mexico Put Horses to Gallop, With Cavalry Captain Who Brought the Money, and Got Off Safely—Tell Story of Capture

Marfa, Texas, Aug. 19—Lieutenants H. G. Peterson and Paul H. Davis, aviators of the United States army, held captive for more than a week by Mexican bandits, who demanded a ransom of \$15,000, were rescued early this morning by Captain Mallock of the Eighth Cavalry, who, according to the telegram, made the journey into the Mexican rendezvous unaccompanied. The men are safe in American territory.

HISTORY'S WAR PAGE

The Moving Finger writes and, having writ, Moves on; nor all your Pity nor Wit Shall lure it back to cancel half a line, Nor all your tears wash out a word of it—John Bull.

NATIONAL LABOR PARTY IN STATES MAY BE FORMED IN NOVEMBER

Chicago, Aug. 19—A national labor party will be formed at a convention here in November as a result of steps taken yesterday at a conference of labor organization representatives of several states.

War Must Result. Washington, Aug. 18—It was the unanimous opinion of American experts in Far Eastern affairs at Versailles that war must result from the peace treaty provision giving Japan control in the Chinese provinces of Shantung, the senate foreign relations committee was told today by Thomas F. Millard, an American writer who was attached to the Chinese peace delegation.

WRECKED 173 BRIDGES. Paris, Aug. 19—(French Wireless Service)—There were 173 bridges destroyed during the war. The Somme bridges will be the first to be restored. Five of them have already been completed.

Size and Looks Don't Count. William Grapejuice Bryan was speaking of great men and things. He used the old adage of "handsome is as handsome does" and pointed out that Lincoln, though great was not handsome. "And," he added, "that reminds me of the modernized version of Cinderella. Said the prince: "My wife has the smallest foot in the kingdom." "Ah," sighed the courtier, "it is true." "But," continued the prince, "she can put it down as hard as anyone."—25.

London House Head of King.

MIRACULOUS ESCAPE OF THE LETOUR FAMILY FROM TOW-BARGE QUEBEC IN PORT COLBORNE EXPLOSION

Wife of captain and five children escape certain death while having dinner. The photo to the left is of the Letour family, posed on the tow barge Penitence, where the family took up a temporary home after the disaster in which ten were killed. To the right, arrow points to the kitchen, in which Mrs. Letour and the children were having dinner, and in front arrow shows a piece of the cornice of the elevator, weighing at least half a ton, under which one of the killed was found. The lower view shows the wreckage of the vessel Quebec, as it lies on the bottom of the bay to the west of the elevator, where it was towed following the disaster. The hull is filled with debris and grain.

PRINCE WALKED THROUGH CROWDS AT OWN REQUEST

Remarkable Demonstration on Way to Government House at Halifax—Now on Way to Charlottetown

Halifax, N. S., Aug. 18.—At 9.30 to-night, the Prince of Wales left Halifax for Charlottetown, proceeding on board the Battle cruiser Renown, which was accompanied by the destroyers Dragon and Dauntless. The Halifax reception and demonstration in honor of the prince was a huge success. The weather was ideal and it is admitted that the arrangements were carried through without a hitch.

It was officially announced that His Royal Highness was particularly pleased with the reception from the people of Halifax and of Nova Scotia. From early morning till late at night, the city has been on feet. The street decorations were on a grand scale, surpassing in some respects anything of the kind hitherto attempted in this city. The public reception at Government House, brought together such an enormous crowd that many were unable to meet the prince personally.

A remarkable scene was enacted after the corner stone of the Navy League building in Barrington street, had been laid. The prince asked to be allowed to walk to the Government House, instead of taking his car. The crowds thronged the street, making progress almost impossible. The people kept up cheers and it became a triumphal progress to Government House.

The crowd was so great that it became impossible to meet personally all who wished to shake hands with the prince, and in order that none might be disappointed in at least seeing and hearing him speak, the prince went up to an upper veranda on the front of the building and addressed the multitude on the lawn, telling them how pleased he was with the reception.

After the reception and before the official dinner given by Governor Grant, there was a short dance. It had been the intention to have a large dance at night, but the programme made this impossible. Governor and Mrs. Grant, therefore arranged this dinner dance, on a smaller scale. The prince's taste apparently ran in the direction of one-step. The music he asked for more than once, was to the words, "I hate to get up, I hate to get up, I hate to get up in the morning," a piece of popular English ragtime. The prince danced twice with Miss Helen Drury and once with Mrs. Langueoc, sister-in-law of Lord Beaverbrook, Miss Morrow, and with Mrs. Bisset, daughter of the Governor and Mrs. Grant.

The young ladies who saw the prince while bathing and one of whom won a bet on his identity were the Misses May

and Kathleen O'Connell, daughters of John O'Connell, manager of the Majestic Theatre, and Miss Marjorie Latter. Chats With Wounded.

At the North End military hospital the prince spent some time chatting with the more seriously wounded and also found time to receive each member of the staff. During his trip through the devastated area he was taken to the brand new hydrostone home of Frederick Randsolson, at 14 Cabot street, who saw active service and whose wife was crippled for life in the great explosion. He asked Randsolson about his war service and chatted for some time with Mrs. Randsolson. Upon leaving the house he expressed keen satisfaction with the way in which homes are being provided for those who lost all their had in the way of material wealth in the catastrophe.

At the review of the War Veterans, cadets and boy scouts on the common, His Royal Highness presented upwards of fifty medals won in the war. These included two D. C. M.'s and bars to the military medal, three D. C. M.'s, three military medals with bars, one bar to the military medal and three meritorious service medals. The remainder were military medals. Four of the awards were post-humous. After the presentation of the medals, the prince had the veterans, boy scouts and cadets drawn about him and delivered a brief address. He addressed the men as veterans of the great war, told them of his satisfaction at being able to inspect them, with the war happily won, and said he recognized many faces which he had first seen in France and Belgium. He spoke highly of Nova Scotia's contribution in men, recalled that Nova Scotians were found in every branch of the services rendered by the Royal Canadian Regiment. Twenty-fifth and Eighty-fifth battalions.

"You have all fought and won magnificently," said His Royal Highness in conclusion, "and I congratulate you also desire to thank you for the attendance here and kind reception accorded me this morning. My best wishes are yours for every success in the future, and also glad to see the boy scouts and cadets here and by best advice to them is to emulate the spirit and devotion of those who fought the good fight in the great war."

D. H. Ross, Canadian trade commissioner at Melbourne, Australia, spent yesterday calling on the local manufacturers and exporters.

ASTOR ESTATE IN NEW YORK TO SONS

Viscount Transfers All Realty in Trust for Waldorf and John Jacob

Assessed at \$50,200,000—Astor Theatre, Astor Apartments, and Hotel Astor Included in Equal Division

(New York Times.) Deeds of trust were conveyed yesterday in the register's office on behalf of William Waldorf Astor conveying all of his real estate in New York city or elsewhere to the Farmers Loan & Trust Company as trustees in trust for his two sons, Waldorf Astor and Captain John Jacob Astor. No detailed division of the properties was mentioned, the deeds merely specifying that one-half of Viscount Astor's realty had been conveyed in trust to each of his sons.

The Manhattan realty, which thus becomes virtually the possession of Waldorf and Captain John Jacob Astor, is valued at more than \$50,000,000. The assessed value of the William Waldorf Astor holdings in New York city was placed a short time ago at \$30,200,000. No statement could be obtained from Viscount Astor's lawyers as to the cause for this big transfer, but it is evidently in keeping with the policy he started in 1911 when he filed his first deed of trust to the Farmers Loan & Trust Company as trustee for Waldorf Astor, conveying all of the Viscount's realty in the Waldorf-Astoria Hotel, being the Fifth avenue and Thirty-third street portion of the hotel, and, in addition, the Astor Court Building at Barclay street, being worth about \$7,000,000.

The statement was made at that time that the transfer was due to the desire on the part of Viscount Astor, to escape a heavy inheritance tax law, which is 5 per cent on bequests over \$100,000. Under the transfer in trust of land and buildings valued at more than \$50,000,000, this would mean a saving to the estate of \$2,500,000 in inheritance taxation.

Four years ago Viscount Astor decided outright to his youngest son, John Jacob Astor, the most valuable of his downtown holdings, including the northern portion of the old Astor House, with additional land on Barclay street, the twelve-story Exchange Court Building at the southeast corner of Broadway and Exchange Place, and the eight-story Astor building at 10 and 12 Wall street, extending through to Pine street. The deed to these parcels was recorded in July, 1917, and they were then assessed at \$7,200,000 while the buildings, the land value being more than \$6,000,000.

Last month Captain John Jacob Astor, who was wounded in the war, sold the Wall street building to the Bankers' Trust Company at a price said to exceed \$2,000,000, and on the site the Bankers' Trust Company is planning a large addition to its building on the corner of Wall and Nassau streets. It was the largest portion of the William Waldorf Astor holdings in the city that had ever been sold since it came into the latter's possession.

Among the more valuable of Viscount Astor's properties now transferred are the Hotel Astor, assessed at \$4,050,000; the Astor Theatre, assessed at \$1,002,000; the Astor Apartments on the west side of Broadway, between Seventy-fifth and Seventy-sixth streets, assessed at \$1,025,000; the west side of Madison avenue, between Thirty-fifth and Thirty-sixth streets, assessed at more than \$1,000,000, and the Eighth avenue block fronts on the east side, between Forty-fourth and Forty-sixth streets, with large holdings on the street fronts.

Waldorf Astor visited America a few years ago to look after the family real estate interests. Mr. Astor has since been a member of the British parliament and has taken an active part in political activities.

John Jacob Astor was a captain in the King's First Life Guards. Captain Astor and his wife visited America last February and spent some time at Palm Beach. Both are cousins of Vincent Astor.

ROYAL COMMISSION TO PROBE CONDITIONS IN ASYLUM RECOMMENDED

Hamilton, Ont., Aug. 19.—That he would recommend the appointment of a royal commission to investigate charges brought by war veterans and others in connection with treatment of patients in the asylum for insane was said by Inspector Dunlop of the department of public charities and asylums last evening following a preliminary investigation conducted by himself.

The charges included cruelty to patients, unsanitary conditions, poor food, unnecessary solitary confinement, withholding of mail, and not informing relatives of confinements.

L. O. B. A. DRAWING. Ticket No. 181 won a fancy quilt in a drawing held last evening by Cullum Lodge, No. 86, L. O. B. A.

CELEBRATION BROUGHT MORE TO TRANSIENT HOME

Reports at Y. W. C. A. Meeting Tell of Good Work Accomplished—Stranded Children Aided.

Reports from the Travelers' Aid and the King street home, given at the meeting of the board of directors of the Y. W. C. A. yesterday afternoon were all most satisfactory. The president, Mrs. John McAvity, was in the chair and opened the meeting with the usual devotional exercises. Other matters of importance which were brought up at the meeting included preliminary arrangements for the dominion city association council meeting of the Y. W. C. A. which is to be held in St. John in October.

The reports from the King street home showed that fourteen more permanent boarders had registered during the month, and that twenty-nine permanent boarders are in residence at present while others have been entered on a waiting list. Transients in this home have averaged twenty a week, the average being higher because of the extra accommodation required during the double celebrations of Soldiers' Day and Prince's Day.

The Travelers' Aid report told of thirty-three trains met and forty-eight boats met. Though the number of

To those who are really particular about the Coffee they drink, there is one brand that always pleases particularly well because it is particularly good—Chase & Sanborn's "SEAL BRAND" COFFEE. In 1/2, 1 and 2 pound tins. Whole—Ground—Pulverized—also fine ground for Percolators. Never sold in bulk. CHASE & SANBORN, MONTREAL.

trains and boats met was exceptionally small as it always is in August, the number of persons in need of the accommodation of the transient home was exceptionally large and 180 were taken to the home. One part of the work of the Travelers' Aid that has assumed increasing large proportions is that of caring for children traveling alone. In many cases the children are sent to relatives in the United States and are held in the city by the authorities because they have no \$30 in money. Were it not for the Travelers' Aid the children would be in a very serious predicament.

The cafeteria reports were most encouraging and showed a satisfactory balance. A new department of home cooking has been opened. The programme which was discussed by the Y. W. C. A. dominion city association council meeting was an unusual and striking one. It is proposed to have separate meetings for members of the staff, members of the executive and members of the committees at which the various problems of the different groups can be discussed in detail and also to have gatherings of teen age girls at which addresses on special topics will be given. Besides this social hours will be a feature of the convention.

HOW FAST? Brockville Recorder: The man in the first quarter of the nineteenth century who traveled by stage coaches at ten miles an hour or better thought he was going some. Travelers by the International Limited at a mile a minute ten years ago thought the speed limit had been reached. But now listen to this: Over in England they have been establishing air routes far more generally than in any country. One of them, according to report, is between Manchester and Blackpool, an air line distance of forty-four miles.

The other day one of the regular mail fliers made the trip from the starting field in Blackpool to the landing field in Manchester in twelve minutes. This is at the rate of 220 miles an hour, including the initial climb and the landing or three and two-third miles a minute. Brockville to Kingston is nineteen minutes if such a service was in vogue here. Just think of it! Try to take one's mind back only half a dozen years or so, and then imagine what a sensation it would have created at that time. Then try to think forward for an equal period in the future. How fast will a man be traveling in a few years from now, anyhow?

IDENTITY OF LAD WITH CHINAMAN IS ESTABLISHED. Moncton, Aug. 18.—According to a letter just received here the bright little boy who was with Sam Tol, a Chinaman, and a white woman, who were arrested a few weeks ago charged with the theft of diamonds valued at \$3,000 from Melanson's Jewellery store, is James Gordon Rumsey, son of Thomas Rumsey, Montreal. The letter forwards a description which is identical with that of the lad, who is now in the Children's Aid Home here. He also enclosed a group photo of the boy and three little girls, saying that one was the boy's sister and the other two his cousins. The missing boy, he says, is seven years of age and was born in British Columbia. The photo was shown the boy this morning by the superintendent, Mrs. Milton, who asked him if he knew who they were. He immediately pointed to the picture of the boy saying, "That is me, Jimmie, and my little whip, I used to play with" and pointing to one of the little girls he said: "That is my sister Evelyn, and the others are my cousins, Jean and Effie." The photo is said to be a good likeness of the lad. The superintendent of the home has forwarded particulars to Rumsey.

Abbey's EFFERVESCENT SALT Drives Away Headache

Durham-Duplex Blades Now Made in Canada. EVERYBODY knows the wonderful success of Durham-Duplex Razors and Durham-Duplex smooth shaving, oil tempered hollow-ground blades. So great has been the demand for them all over Canada that we have established a separate Canadian factory in order to increase our output and facilitate quick delivery. Everything is there, even to the almost human machines which put that marvelous edge on Durham-Duplex detachable blades—the longest, strongest, keenest blades on earth. Thousands of Durham-Duplex users all over Canada will welcome this news because it assures them a more complete and satisfactory service. They have learned that no other razor is as dependable, keen and perfectly balanced. DURHAM-DUPLEX A Real Razor—made Safe. A guarded razor that won't cut your face—that won't heat your skin because it has no wire edge. It gives you a smooth, cool, comfortable shave. And if you compare it with the straight razor you'll find that its blade is detachable and double-edged and longer and better tempered and so gives you more shaving mileage than any other blade on earth. Don't discard this blade when dulled. You can hone it, you can strop it—why throw good steel away? Ask your Dealer to show you a Durham Demonstrator Razor and prove the above statements for yourself. The Greatest Shaving Mileage At Any Price \$1.50 COMPLETE. This set contains a Durham-Duplex Razor with an attractive white handle, safety guard, stropping attachment and package of five Durham-Duplex double-edged blades (10 shaving edges) all in a handsome leather kit. Get it from your dealer or from us direct. Additional Blades 60 cents for a package of 5. DURHAM-DUPLEX RAZOR CO., Limited 34 VICTORIA STREET, TORONTO, ONT. Lloyd George Presents Measure Designed to Increase Production and Restore Balance of Trade

"Let Who Will Man the Boats and Save the Nation" British Premier's Concluding Phrase—Declines to Accept Sankey Report Recommending State Ownership of Coal Mines but Agrees to Purchase of Mineral Rights—Exchange no Longer Supported and Low Rate Check on Imports

London, Aug. 18.—During the session of the house of commons today, there was introduced a bill that represented an agreement between employers and employees. The bill calls for a 48-hour week and what are considered living wages. In support of the bill, Premier Lloyd George delivered an important speech, reviewing the financial position of Great Britain and emphasizing the imperative necessity of greater production in order to restore the balance of trade, now so adversely against the United Kingdom. He gave the cost of the war at £40,000,000,000, told of the enormous increase in the national debt and announced the acceptance by the government of the policy of purchase of mineral rights.

Must Increase Production. The premier said he thought there was evidence of international slowing down of production and that it is necessary not only to the workmen but the managers and owners to put their shoulders to the task of increasing production. He said it was a dangerous and fatal policy that the less men worked, the more

work there would be for the others and that it is highly important for those having influence with the workers to do their utmost to explore this fallacy. Dealing with coal, Mr. Lloyd George said the government accepted the policy of state purchase of mineral rights, on which all the reports of the coal commission were unanimous, but that the government would be unable to give its assent to accept any of the principles of the Sankey report.

BAD BREATH IS CAUSED BY CATARRH

Canadians suffer more from Catarrh than from any other disease. On this account Catarrh is dangerous and should be checked at the outset. It isn't necessary to take internal medicine to cure Catarrh. There is a far better method.

Doctors now treat Catarrh by sending a purifying, healing vapor through the breathing organs. In this way the germs of Catarrh are destroyed, and the essential elements of Catarrh are healed and soothe all inflamed surfaces. They effectively treat the nose, throat and lungs with a powerful antiseptic that destroys irritation at once. Catarrh brings into the system the balmy air of the pine forest. It cures completely colds, coughs, catarrh, weak throat, and bronchitis. Once tried, Catarrh is always cured. No medicine, so simple, so quick to relieve, so absolutely sure to permanently cure. Accepted on subscription. Large size lasts three months, and costs \$1.50. Small size 50c.; sample trial size 25c.; at all dealers.

BITRO-PHOSPHATE BEST THING FOR THIN PEOPLE

Women Need it to Bring Pink Glow to Health to Pale Cheeks and Forestall Tall-Tale Lines of Age. Men Need it to Make Strong, Vigorous Bodies and Steady Nerves.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing curved hollows and angles by the soft, curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate by Ross Drug Co. in St. John and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing. This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright and pale cheeks glow with the bloom of perfect health.

CAUTION:—Although bitro-phosphate increases strength of delicate, nervous, run-down people in two weeks' time in many instances. Used and highly endorsed by former United States Senators and Members of Congress, well-known physicians and former Public Health officials. Ask your doctor or druggist about it.

To build yourself up when you feel run down—to bring back health, appetite and strength—take Beecham's Piles

Pale Checked Women Told About Restoring A Rosy Complexion

A few years ago the girl with pale, drawn cheeks scarcely knew what to do in order to restore her fading appearance. At that time there was no blood food medium made that really would put color and strength into systems that were more or less worn out. Today it's different. The blood can be quickly nourished, can be made rich, red, and healthy. All you have to do is take Ferrozone Tablets with a sip or two of water after meals. The effect is almost magical. Mothers, look at your children. Are they ruddy and strong—do they eat and sleep well, or are they pale, weak, and anemic? FERROZONE will rebuild them. Take your own case—do you feel tired, run-down, and weak? Have you that old-time strength and vigor, or are you somewhat under the weather? FERROZONE will supply strengthening elements you require. It is a blood-forming, nourishing tonic that makes every ailing person well. FERROZONE is a marvellous remedy. It contains in concentrated form certain rare qualities that especially fit it in cases of anemic, poor color, thin blood, tiredness, and loss of weight. Every day you put off using FERROZONE you lose ground. Get it today, sold in 50 cent boxes by all dealers, or by mail from the Catarrhozone Co., Kingston, Ont.

Increases strength of delicate, nervous, run-down people in two weeks' time in many instances. Used and highly endorsed by former United States Senators and Members of Congress, well-known physicians and former Public Health officials. Ask your doctor or druggist about it.

CHIEF OF POLICE A LIFETIME OF SUFFERING INDORSES IT

North Sydney Official Says Tanlac Did Him a World of Good.

"Tanlac has done me a world of good and I want the people to know it, for if it helps me I believe it will help others," said Daniel A. Cowans, chief of police of North Sydney, N. S., in an interview with the Star. "At various times during the past three years," continued Chief Cowans, "I have had trouble with my stomach, but have not been able to eat a square meal without suffering terribly from indigestion. Always after eating gas would form on my stomach and bring on spells of bloating, pain and shortness of breath. At times I would become almost blind, and I would always have to sit down until they wore off. I got to where I never ate any heavy foods, for if I did I would feel it in my suffering. Sometimes I found it hard to get any sleep as I was so restless I would lie awake at night, and I most always felt tired-out in the mornings. "Seeing Tanlac recommended so highly, I concluded to try it and must say it has helped me wonderfully. It certainly is surprising how quickly the right medicine will get anyone to feeling right again. I am not even pork and cheese, and other things I would not dare touch before, and I never feel the least bad effects afterwards. And my stomach is now as good as new. I have any more pains about my heart. I have an appetite like a wolf and enjoy all my meals. I am also getting plenty of rest at night and am just gaining ground all the time. I can recommend Tanlac very highly and am glad to make this statement for what it may be worth to others, especially those suffering from stomach trouble and a run-down condition. There is not a single portion of the body that is not benefited by the helpful action of Tanlac, which begins its work by stimulating the digestive and assimilative organs thereby enriching the blood and invigorating the whole system. Next, it enables the weak, worn-out stomach to take up its work, permitting the nourishing elements to be converted into blood, bone and muscle. It overcomes, it is said, that great exciting cause of disease—weakness. It renders the body vigorous and elastic, keeps the mind clear and energetic and throws off all the symptoms of nervousness and indigestion. It builds up the constitution weakened by disease and restores the vitality and quickness of mental and physical action. It is an unfailing source of comfort to all suffering from such troubles. Tanlac is sold in St. John by Ross Drug Company and F. W. Munro, under the personal direction of a special Tanlac representative.—(Adv.)

Prevented by "Fruit-a-Lives," the Wonderful Fruit Medicine

58 Maisonneuve St. Hull, Que. "In my opinion, no other medicine is so good as "Fruit-a-Lives" for Indigestion and Constipation. "For years I suffered with these dreaded diseases, trying all kinds of treatments until I was told I was incurable. "One day a friend told me to try "Fruit-a-Lives." To my surprise, I found this medicine gave immediate relief, and in a short time I was all right again. "DONAT LALONDE. 50c. a box, 6 for \$2.50, trial size 50c. At all dealers or from Fruit-a-Lives Limited, Ottawa.

paper. Those who believed in the league most must trust it most, and the rest would follow. This was the fundamental and first condition of real economy in world armament. Great Britain was ready, the premier exclaimed. Let all other lands be ready likewise, and economy would result. In a moving peroration, Mr. Lloyd George appealed to the house for fair treatment for the government. It had to deal with tremendous issues, where mistakes and errors in judgment were inevitable, and judgment on it should rest on the side of generosity. It needed good will if at a crisis like the present condition was to be restored between all sections of the people to enable the nation to cope with difficult problems. "The government have done their best to give direction," said the premier. "Let all who will man the boats and save the nation."

Nothing on Ireland. Many members said they expected the premier to announce the government's plans for Ireland and expressed disappointment that this subject was not to be discussed by him. Virtually every member of the house of commons was in his seat when the speaker took his chair. The lobbies, galleries, and the outside courts were crowded when members of the ministry arrived. The war cost forty billion pounds, Premier Lloyd George declared in his speech. Most of this sum was spent for purposes of destruction. "I have made some four billion pounds to the world from which we are getting something like £200,000,000 yearly in interest. We have sold £1,000,000,000 of foreign securities to pay for war material for ourselves and our allies. We have borrowed £1,200,000,000 from America and Canada for the same purpose. Our allies including Russia owe us £1,800,000,000. "At the present moment our adverse trade balance is £200,000,000. We must bridge that chasm or at the bottom of it is ruin. We are building a temporary bridge, by borrowing, not only state borrowing, but traders' borrowing for raw material, food and so forth. That will only add to the catastrophe. In every direction we are spending more. We are carrying less production less. These are facts. It cannot last. The production of coal this year, the premier continued, will be 200,000,000 before the war, although 80,000,000 miners are employed at present than in 1914. A

THE OLDEST, THE SIMPLEST, AND THE SAFEST THE BEST REMEDY FOR Diarrhoea, Dysentery, Colic, Cramps and Pains in the Stomach, Summer Coma, Cholera, Cholera Infantum, Sea-Sickness, and All Unnatural Movements of the Bowels, is DR. FOWLER'S EXTRACT OF WILD STRAWBERRY. This preparation has been on the market for the past 74 years, and its reputation has become such that there have been many so-called strawberry substitutes, many of which have been in many cases represented to be just as good as "Dr. Fowler's." Don't experiment with these no-name substitutes, they may be dangerous to your health. Get a remedy that has stood the test of time with a reputation for excellence from one end of Canada to the other. Price 85 cents. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Be Careful What You Wash Your Hair With Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain mulberry seed oil, for this is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is needed. It has an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, and healthy. If it is sufficient, but to be certain of results, buy the delatone in an original package.

Just One Application and the Hairs Vanish Modes of Today) A harmless, yet very effective treatment is here given for the quick removal of hairy growths: Mix enough powdered delatone and water to cover the undesirable hairs, apply paste and after 2 or 3 minutes remove wash the skin and the hairs have vanished. One application usually is sufficient. If they are certain of results, buy the delatone in an original package.

ton of coal which cost ten shillings in 1913, now costs 26 shillings. Coal the Chief Factor.

Premier Lloyd George declared that coal was the chief factor in the industrial situation. He said that the outlook was indeed dark unless the conditions which he stated were changed. The premier continued: "In America the wages are higher, hours of labor are no longer, and the labor cost in proportion to the articles produced is less. This being the case competition is impossible and no tariff will remedy this."

After pointing out that the British pound at present was worth in the United States only 17½ shillings, the premier said: "We shall never improve matters until we increase production, or we will drive faster to reduce even lower the standard of living in this country. There is no other alternative except quitting the country for which we fought for four years."

mathematical proportion. Labor has made tremendous gains during the last two or three years the premier adds, but he said, these could not be maintained if production did not increase.

On Contributory Basis. Sir Robert Stevenson Horne, minister of labor, announced today that the government hopes that the next session of parliament to introduce a bill providing for unemployment insurance on a contributory basis.

INITIAL PAYMENT TO FARMERS ON WHEAT \$2.15 THE BUSHEL

Ottawa, Aug. 18.—Sir George Foster, acting prime minister, announced at 3 o'clock this afternoon that the wheat board of control has recommended an initial payment of \$2.15 per bushel to farmers for wheat on the basis of No. 1 northern, Fort William. The government has approved the price. A very enjoyable concert was given in King Square last evening by the St. Mary's band under the direction of Bandmaster Williams. The programme was varied, and owing to the fine evening, there was an exceptionally large number of people in attendance.

APARTMENT HOUSES TO MEET HOUSING PROBLEM.

The apartment house has come to stay. In this also no one doubts that. The apartment came just at the time when it was needed most. The housing situation in practically every city and town in the country was critical during the years of war, and now that the men are returning from overseas there is a greater need than ever for housing accommodation. Building operations, which have been held up for four and a half years through the high war cost of material, have boomed forth again. Apartment houses are included in the list of new buildings. It is announced. The advantages of the apartment for small families are many, and too well known to enumerate. A disadvantage, however, which is not often thought of until its inconvenience is forced upon the apartment house dweller, is the lack of soft water for washing and bathing purposes. Luckily this disadvantage can be overcome. Snowflake Ammonia makes the hardest water soft, and does not injure the most tender skin or the finest article of clothing. Its usefulness for this purpose is proving a boon to those who live in apartments. Snowflake may be obtained from any grocer.—Adv.

HORLICK'S Malted Milk for the Home A nourishing food-drink for All Ages. Anywhere at anytime. Delicious, sustaining, No cooking.

1859 1919 D. NATURAL HISTORY JUNIORS HAVING BEST OF TIMES

Masquerade Ball on Friday and Sports on Saturday Greatly Enjoyed—Still Another Week.

All goes merrily at the Natural History Society juniors' camp at Hatfield's Point on the Belleisle, according to the latest reports.

About twenty of the members on Wednesday paddled from the camp grounds up to Hatfield's Point and back, a distance of altogether sixteen miles.

Friday night's entertainment caused much secret planning as it took the form of a masquerade and the camping party travels light so had to use some ingenuity to produce elaborate or convincing costumes.

Saturday was a really big day. Then the sports took place and all of the events were warmly contested.

invited to attend church and went in a body to the Bethel church. The girls are now preparing for a swimming contest promised them some time this week.

Mr. and Mrs. William McIntosh are in charge of the camp and Mr. McIntosh and Mr. Leavitt are preparing wonderful prizes for the contests.

WM. CAMERON DIES IN HOSPITAL FROM HORSE'S KICK

William Cameron, of 14 Visart street, was fatally injured yesterday afternoon by being kicked by a horse.

Mr. Cameron was attending to the horse when he received a severe kick from the animal. He was taken by his friends to several doctors in the North End, but from the extent of his injuries it was thought advisable to send him to the hospital.

It was hoped that the injuries were not severe, but Mr. Cameron failed rapidly and died soon after being admitted to the hospital. It is thought that he must have received severe internal injuries.

Dr. F. L. Kenney, the coroner, was notified, and in speaking to The Telegram last evening, he said that from the details that he had received, he considered that Mr. Cameron's death was purely accidental.

When called upon concerning Mr. Cameron's injuries, last evening, the General Public Hospital had no information to give.

TEN YEAR OLD GIRL MISSING

The district of Lepante, near Pettit Roche, has been in a very excited state since last Friday evening over the disappearance of the ten year old daughter of Mr. and Mrs. Nicholas Grant.

The little girl went out on that evening with her sister to find a cow, and since that time has not been located. A large number of people have been scouring the woods in the locality but at latest reports had not succeeded in finding the child.—Gloucester Northern Light.

MAINE IS PLANNING FOR ITS CENTENNIAL

Coming Celebration Recalls Fact That First Settlement Was Before the Pilgrims Had Landed at Plymouth

Portland, Me., Aug. 16.—The initial steps of a plan for the centennial celebration to be observed in Maine in the fall of 1920 have been taken. The committee of the Legislature appointed to serve with the Governor and Council to arrange for the celebration met recently in Augusta and instructed the Governor and Council to spend \$25,000 on a celebration of a week's duration in Portland sometime in the fall of 1920, the time to be decided later, providing the city of Portland appropriate an additional \$25,000 to make a fund of at least \$50,000 for the affair. It is believed by those working out the plans that this commemoration of the admission of Maine to the Union in 1820 will be an epochal event in the history of the State, of interest not only to Maine people but to all Americans.

In view of the coming centennial for Maine it is interesting to recall the record of this State at the International Centennial Exhibition given in Philadelphia in 1876, at which Maine made more than a good contribution. Many of the exhibits were most excellent, and in point of applications for space, Maine stood eighth on the list of states, nearly 100 entries being made. About 50 awards were made to exhibitors. Textile fabrics were contributed from the mills of Maine not surpassed by those from any part of the world. The granite display was unequalled by any exhibited. A noteworthy centennial address on "Maine and Her Place in History" was

delivered at this celebration by Gen. Joshua L. Chamberlain. At one time Governor of Maine, then serving as president of Bowdoin College, Brunswick, Maine, and most glorious of all, at the battle of Gettysburg, he viewed his native State through the eyes of statesman, educator, and a patriot, as a citizen of the United States and a friend of all mankind. Some of his remarks on the earliest history of Maine bear out facts that in the interests of Maine and New England cannot be too often recalled. "There is no doubt," he said, "that the adventurous spirits of the fifteenth and sixteenth centuries were greatly drawn to these waters and shores all the natural products of which offered themselves with primeval prodigality. One needs only to glance at the early charts, or the wonderful stories of the voyagers of the times to perceive the romantic interest that centered here, and be prepared to understand why the great minds of that period attached such importance to the possession of this gulf, as if they foresaw that it must become the key to the continent."

"Especially attractive was the region between the Piscataqua and Penobscot, in its marvelous beauty of shore and sea, of island and inlet, of bay and river and harbor, surpassing any other equally extensive portion of the Atlantic coast and compared by travelers earliest and latest, with the famed archipelago of the Aegean. Here, where the land stretches out its hands a hundred miles seaward, and holds them open by twice that extent to welcome the civilization of Europe to harbors and fields and powers so capacious, we should have looked for the emporiums of American industry and commerce, and the seats of influence and power upon the continent. There would seem to be no reason in the nature of things why the sterile soils around Massachusetts Bay should have been taken up, while the rich lands of the east were neglected, or why the meager natural forces of southern New England should be overtasked with manufactures, while the abounding and more available powers in the earlier discovered land should run in wild and waste."

Obscuration of Career.

"The obscuration of its more recent career, the absolute and almost abject surrender of its name in history, is something singular. The minds of its own people seem to acquiesce in its loss of birthright with strange humility. Few know that it was early settlements in this territory, which conferred the title of old England to the new—that years before the Pilgrims set foot on Plymouth sands, there were established English settlements at various points on the shores of Maine—that Penacook was a seat of trade and government, and at one time the metropolis of all the region east of New York. Popular history does not care to tell us that the Samoset who startled the Pilgrims with the greeting, "Much welcome Englishmen," was Lord of Penacook, and had learned the language from long familiar intercourse with the colonists and visitations at that joint capital. Nor are we told that when the heroic little band at Plymouth in that bitter winter, beset by enemies from all the elements and all the kingdoms of nature, were driven out in search of food, it was hitherward the little shallop made its way, and found English hearts and hands, that helped to their utmost ability and would take no pay. Few are aware of more important fact, that the colony at Plymouth owed its title and tenure, if not its origin, to those whose chief interest was here. It is not even a schoolboy's tale that the first incorporated city in America was within these limits—the city of Groveton, founded in 1641, on the site of the present town of York. It interests none but the antiquary to know that the Province of Maine was once a County Palatine and the only portion of American soil which was ever under a purely feudal tenure."

Some of the reasons for the depression from Maine's early promise which General Chamberlain gave were the rigors of the climate with which the early colonists had not come, the unsettled political condition and the conflicts of jurisdiction if the earlier times. After Order Was Established.

"But even when something like order was established," he continued, "and the powerful colony of Massachusetts took this under its protection, no causes were set free to work any great changes for the better. It was natural and inevitable that the stronger should absorb the weaker. It could not be expected that Massachusetts would cherish the growth of Portland as a seaport, or make large investments to promote its health and population in a territory which was not even adjacent, and which she could not but foresee, must in the natural course of events soon pass out of her hands."

"The title to honorable remembrance which thus went by default, was still more effectively obscured by the weakness of eloquence and the poetry of history. It seems a law of the mind, that whatever in human affairs is most impressive to the senses—especially if it also appears decisive of results—usurps the situation and throws all subsidiary efforts, whether barren or fruitful, into a common obscurity. It is here the idealized picture of the landing of the Pilgrims, which, so true to character if not to fact, setting upon the heart of Webster first in his great speech at Plymouth in 1820, in commemoration of the landing of the Pilgrims, who with the imagination, the passion, and the touch of genius, created a history which like a new epic poem went to the heart of the world. This was perpetuated and confirmed by the finished oratory of Everett, and afterward in the sober histories of Bangs and of Story. The gentle spirit of Mrs. Hemans caught the strain and echoed back in divine song. No one was rude enough to break the charm—until, if the running, hero-worshipping imagination of our people would have tolerated sober evidence. Our loyalty to the spirit of New England, our filial reverence for the Pilgrims, the constancy of the faith which was theirs and ours, our pride in the eloquence and our sympathy with the tenderness with which genius had lifted the story so high, made us unwilling to interrupt this lofty unity of effort with humble, homely truth. So, often does one's modesty make another's history."

"Doubtless in a high and noble figure Plymouth Rock is the foundation of New England; but still it is not true that New England was first settled in 1620, by the Pilgrims on the stern and rock-bound coast of Cape Cod Bay! I hold back no praise from the Pilgrims. No colors could be too strong, no eloquence or song too high to set forth the picture of them, which lives and beats in our hearts. It is power and inspiration; not only for this country but for all mankind. Now am I by any means pretending that the influence of New England history has been of greatest moment. What is first in interest has absorbed what is first in time and in logic of events, and so reduced the early history of Maine to absolute zero."

Claims Maine May Hold. "I shall no longer complain of neglect or injustice, but shall maintain positively the claims which Maine may justly hold to an important part in the fortunes of this country."

THINK HARD! TRY TO GUESS WHAT IT IS! Panel 8: TEE REE! BRICK!

FEDERAL MEMBERS URGE HARBOR COMMISSION IN ROTARY CLUB ADDRESSES

City Responsible for Greatly Needed Repairs Unless Change in Control Effected, Mr. Elkin Points Out—Earnings Under Commission Would be \$414,000 and in Time, Complete Nationalization Would be Worked Out—City Really Receiving \$2,300,000.

At the Rotary Club's luncheon at Bond's restaurant yesterday, Stanley E. Elkin, M.P., addressed the members of "Harbor Commission." The president, R. D. Paterson was in the chair and introduced the speaker with a few well chosen remarks.

Mr. Elkin, in opening, spoke of the lack of knowledge of most people in the community as to what harbor commission means and what the government intends to do with the port of St. John. He pointed out the advantages to be derived from harbor commission and said that St. John would surely go ahead because harbor commission was only a step to the nationalization of the port, and he cited as an example the greatly increased prosperity of Montreal since the harbor had been taken over.

He said that harbor commission was not a sale of a property which will be taken away by the purchaser but that the property still remains available to the fullest extent for use by the community; also that it was not really the transfer of an asset from the city to the Dominion but the transfer of a liability.

In Need of Repairs.

Speaking of the West Side wharves, he said that those built in 1890-5, Nos. 1 and 2, to a greater extent and all the berths to a lesser extent will in a few years require extensive repairs, that if the city retains the ownership it would have to make the repairs just the same as the harbor commissioners would, and that this would involve the borrowing of money and an addition to the civic debt. Also for this interest and sinking fund would have to be provided and this would have to be made a charge upon the revenues of the port or a tax upon the taxpayers of the city.

"So far as maintenance is concerned," he said, "harbor commission would not have to spend a dollar that would not have to be spent by the city if it retained the ownership and if any disaster occurred to any of the wharves, the federal government would be in a much better position to deal with it than the city of St. John with its much more limited resources."

He said that the same thing was true of development and although it might be urged that the federal government may not develop the port and that it will be retarded by the city, he stated, this was not possible as the policy of any government.

"Any government is desirous of obtaining all the support possible and would find it to its interest to deal generously with the harbor of St. John," he said. "While harbor commission contains no promise of federal money being spent for harbor works without charging the interest and sinking fund against the harbor revenues, yet it does not prevent this being done. There is no reason to doubt but that protective works such as the extension of the breakwater to Partridge Island and works of a similar character would be considered as natural defences against the sea making a harbor possible, as distinguished from actual harbor works resorted to and used by shipping. These latter would be built by the commissioners, the former would be charged against the whole country and should not be a burden upon the revenues of the commission," said Mr. Elkin.

Means Unified Control. "Harbor commission means unified control. It also means continuous administration by the same body of men which makes it possible to adopt a comprehensive scheme and build gradually towards its realization. Under civic administration this is practically impossible because of the rapid changes of personnel in the civic administration." He then went on to say that harbor commission is only a step towards na-

tionalization of harbors and he explained that the idea of nationalization is a progressive one and that probably after the commissioners have accumulated a debt greater than any harbor under their care can bear, the system of relief which will necessarily be inaugurated will be called nationalization; that this will consist in at first charging a lesser rate than is necessary for the up-keep of the harbor and eventually the rate will be fixed lower than the rates charged in competitive ports outside the dominion.

"The civic authorities can not make the extensions which are required to keep pace with the railway development and therefore we must trust the federal authorities to give us assistance in some form and it seems wise to take that assistance in the form in which it is offered trusting that no government will attempt to injure one port for the benefit of another nor to refuse its responsible demands to take care of the trade which offers."

Income of \$414,000.

He went on to say that the city wanted \$2,250,000 but that in assuming bonds the government have no right to the sinking fund of \$300,000, so that if the city gets \$2,000,000 and keeps the sinking fund, it is really getting \$2,800,000 or \$50,000 more than the commissioners agreed to take. Mr. Elkin then asked why the city commissioners say nothing about this \$300,000 sinking fund which is charged in as part of costs.

He said that under commission, doing away with dual control the total revenue would be \$279,827.56 as against the city revenue of \$181,048 for 1917, which are the last available figures. The switching profits which were approximately estimated at \$75,000, and the tug boat profits, at about \$60,000 would also be added to this, making a grand total of \$414,000.

"As business men we should sell it and put it in the hands of people who are financially able to carry the load in case of deficit and who can use the business as an adjunct to such a great big business as the government is, and which is not dependent on it alone as a business," said Mr. Elkin.

He then went on to say that in his opinion the bid of United States ports for ocean travel facilities being provided by the United States government would eventually lead to five Canadian ports being developed—Halifax, St. John, Quebec, Montreal and Vancouver, and that only government control could stand the pace.

"Suppose this to be the case, then Montreal, Quebec and Halifax owned by the government can do it but can the city of St. John? If the government property here is made free the city must meet the conditions or eventually sell out, and it is not business to hesitate to get our cost price for a business we have demonstrated we cannot run successfully."

Mr. Wigmore Approves.

R. W. Wigmore, M.P., also spoke, and said that he entirely agreed with everything Mr. Elkin had said, and that he thought it the duty of the Rotary Club to take hold of the question as well as the question of the city streets, and to point out to the community as far as they were able its advantages. Mr. Wigmore thought that this question should be open to the citizens and at once, as the government had made provision for the city to vote on it, and he did not think that any body of men at City Hall no matter how learned they might be, should try to prevent the citizens from taking a plebiscite on this question.

He then moved a vote of thanks to Mr. Elkin which was tendered by the president on behalf of the club.

E. J. Terry was elected vice-president, as the former vice had resigned, and arrangements were made for the picnic to be held by the Rotarians at Loch Lomond on Thursday.

to immense crowds in the Imperial Theatre yesterday afternoon and evening and will doubtless continue to draw big crowds for the remainder of the three-day run. The pictures, which were taken by the Kinogram Company of New York, the Americanized branch of the British official government film concern were wonderfully clear and artistic, perfectly photographed and brimful of most interesting subject matter. In fact no topical pictures shown on the Imperial curtain has ever surpassed them in general excellence, let alone the fact that they are marking an historic event in this city itself.

The thousand feet of film contained all the features of the citizens' programme for the entertainment of soldiers during the war. It also made a new record in entertainment enterprise in Eastern Canada—the Imperial showed Anita Stewart in her second famous production "A Midnight Romance," in which handsome Jack Holt co-starred. Mystery and romance combine in the story to give it a right to the designation of a "woman's picture." No matter how little or how much sentiment or romantic character there may be in any individual, there is no one who does not like a real mystery. And when that mystery shrouds the person of a beautiful, lovable girl in her natural feminine desire to win, against all odds, the man who unknowingly has captured her heart, it becomes doubly fascinating. And so "A Midnight Romance" proved of great pleasure to the vast crowds yesterday.

In addition to this most interesting film—a picture that marked a big day for St. John and also made a new record in entertainment enterprise in Eastern Canada—the Imperial showed Anita Stewart in her second famous production "A Midnight Romance," in which handsome Jack Holt co-starred. Mystery and romance combine in the story to give it a right to the designation of a "woman's picture." No matter how little or how much sentiment or romantic character there may be in any individual, there is no one who does not like a real mystery. And when that mystery shrouds the person of a beautiful, lovable girl in her natural feminine desire to win, against all odds, the man who unknowingly has captured her heart, it becomes doubly fascinating. And so "A Midnight Romance" proved of great pleasure to the vast crowds yesterday.

ONE DOLLAR Its Increased Buying Power On DOLLAR DAY

Dollar Day does not necessarily mean that only one dollar articles are on sale. It does mean, that this is one day in the year when a dollar has more purchasing power than at ordinary times.

During these reconstruction days it behooves everybody to put their shoulder to the wheel and help. One way is to buy, buy all you want—this keeps the wheels of industry turning, but buy wisely, and what better time than Dollar Day when the dollar will buy more than at ordinary times.

Large volume at minimum profit being our motto, our prices are always low. So when an opportunity is offered to procure dependable merchandise at substantial reductions on these low prices can you honestly afford to pass it by?

Many articles at Big Reductions. 10% Discount on all lines of merchandise not marked at Special Dollar Day Prices.

OAK HALL - Scovil Bros., Limited Eastern Canada's Largest Store

MEMORIAL AT HOSPITAL. The Medical Society and the commissioners of the General Public Hospital expect to unveil in the near future at the hospital a tablet to the memory of

the late Major J. H. Duval, M.D., of the Canadian Army Medical Corps and formerly a visiting physician of the hospital staff. Major Duval was wounded at St. Jean in France and died in England from the effects of these wounds.

His body was being returned to Canada on the Hesperian when that ship was torpedoed and sunk. The date of the unveiling ceremony is not yet definitely set, but all will greet with pleasure the news that such tribute is to be paid to one of the victims of "Kultur" when the

Llandoverly Castle, a hospital ship, was torpedoed and sunk. The date of the unveiling ceremonies is not yet definitely set, but all will greet with pleasure the news that such tribute is to be paid to these members of St. John's honor roll.

Easily Arranged. "Do you ever quarrel with your wife?" "Never," replied Mr. Meekton. "When a difference of opinion arises Henrietta lectures and I am the audience."—Washington Star.
