he was frequently compelled to wash clothes and get dinner.

"I coudn't give her money for clothing she had been used to," said the complainant on the stand, "and because I couldn't do that she would do nothing for me."

RELIGIOUS FERVOR.

TROIT, Mich., July 1. — The Rev. cam S. Brandon of the Second Bapchurch, Detroit, has begun prongs for divorce against his wife. Brandon, whom he married on 10, 1891, at Colorado Springs. He es cruelty and says that she frestly locked him out of the house hrew a shoe at him when he tried into in the window. He alleges after his Sunday morning sermon

KNIGHTS OF PYTHIAS.

ndowment Rank Has a Deficit-Misappropriation of the Funds.

Chicago, July 10.—The endowment rank of the Knigths of Pythias has a heficit of \$225,267.

This announcement was made by supreme Commander Ogden H. Feth-

This announcement was made by Supreme Commander Ogden H. Fethers yesterday to the supreme lodge of the order, which has been assembled in this city for the purpose of looking into the affairs of the rank.

Mr. Fethers' announcement was based on the official report of the insurance commissioners of Illinois, Connecticut and Kansas, who made an exhaustive examination of the financial condition of the order, and copies of these reports were placed in the hands of the representatives. Before the rank can legally continue doing business as an insurance institution this deficit must be made good, and the question of how this is to be done and the greater one of how the funds of the organization are to be safe-guarded in the future occupied the attention of the supreme lodge officers and representatives all day yesterday and far into the night. That there has been misappropriation of the funds of the organization by past officers of the endowment was freely charged in the reports as well as in the meeting yesterday, and there was said to be little doubt that after the supreme lodge and finished dealing with those who are thought to be responsible the evidence will be laid before the state's attorney with a request that it be submitted to the grand jury.

At the session last night a motion was made to expel John A. Hinsey, who was president of the endowment rank during the period in which some of the funds of the organization are said to have disappeared, or to have been invested in poor securities, but the motion was laid on the table when it was represented to the meeting that Mr. Hinsey had expressed his intention of appearing before the supreme lodge at its meeting today for the purpose of defending himself against any charge that might be made of misappropriation of funds or of having made investments which he had not previously assured himself were safe and amply secure.

SHOT IN A SCUFFLE.

KANSAS CITY, Mo., July 9.—John Howard, private in Company D, 43rd Volunteer Infantry, whose home is at Roanoke, Va., was arrested here today on the arrival of the Santa Fe train from the west, charged with shooting a man named Gibbons at Hutchinson, Kas., last night, Gibbons is not expected to survive. Howard's story makes it uncertain whether he or some other soldier shot Gibbons. He says a number of tramps boarded the train. They wore partial uniforms and tried to pass as soldiers. One of the tramps made a slash with a knife at the pocket of a soldier in an effort to rob him. Gibbons was observed and backed toward the car door. The cry "shoot him" went up and as he reached the platform Howard and another soldier, whose name Howard does not know, fired two or three shots and Gibbons dropped.

THE WAR POLICY.

LONDON, July 10.—There was a neeting held at the Guild hall this af-ernoon in support of the government's meeting held at the Guild hall this af-ternoon in support of the government's war policy. It was a great success from the "jingo" point of view. The idea originated on the stock exchange and was intended as an offset to the rent pro-Boer gathering at Queen's hall. The lord mayor, Frank Green, and the other city magnates, did their utmost to assure its success, and the result was the great hall of the Gulld hall, having a capacity of 4,000 persons, did not suffice to contain the crowd, which necessitated an overflow meeting outside, where the pro-enthusiasts made a demonstration of even more propounced character than that of THE STH HUSSARS will go into Camp at Sussex for Annual Training without the building.

TRAIN WRECKED.

KANSAS CITY, Mo., July 10.—South bound passenger train No. 7 on the Chicago and Alton railway from Chicago, crashed head on into the second section of freight train No. 88, two miles west of Norton, Mo., today. Both engineers and the conductor of the freight train were instantly killed. Three passengers were killed and 25 injured. The coaches took fire and are now burning. Special trains from Slates and Kansas City, carrying physicians, have been sent to the scene. The killed and injured probably will be taken to Marshall, the next station south of Norton. The names of the dead and injured were not reported.

THE WEATHER.

TORONTO, July 10.—West and eastdoderate winds, generally fair, a little
varmer at most places, a few scattered
howers at night. Thursday, moderate
vinds, fair and moderately warm.
WASHINGTON, July 10.—Eastern
tates and western New York—Partly
loudy tonight, probably showers in exreme south and west. Fair weather
hursday, partly cloudy, probably
howers; fresh northerly winds.

GOULD AND HIS VALET.

NEW YORK, July 9.—The Appellate division of the Supreme Court today rendered a decision in the case of Frank Mowbray, against Howard Gould, reversing the judgement of \$5,000 in favor of Mowbray, Mr. Gould's former valet, and ordering a new trial. Mowbray was injured by the explosion of a signal rocket on board Mr. Gould's yacht.

WILL RECOVER.

Ladies Who Fell into the Boil-ing Mud Will Get Better.

CHICAGO, July 10.—A special to the Record-Herald from Helens, Mont., says:—Further particulars of the accident to Mrs. John L. Zabriskie, of Brooklyn, N. Y., and her daughter, in Yellowstone park, state that while tne women were inspecting the Geysers on the thumb of Yellowstone lake the mother slipped into the mud and her daughter, in attempting to rescue her, was drawn into the seething calforn. Both sunk almost to their arm-pits, before they could be extricated, and they were terribly parbolled. Other tourists immediately wrapped them in blankets and removed them by boat to Lake Hot, where a physician dressed their burns. Their circs are serious, but it is thought both will recover.

WHOLESALE SHOOTING.

DOUGLAS, Ga., July 9.—Jake Devoss, a negro laborer, on James Mc-Kinnon's plantation, was working ateam of mules this morning. The mules balked and the negro went to his house, got a Winchester rifle and shot both mules dead. Devoes's wife expostulated with him, and he turned the rifle upon her, inflicting a wound which may prove fatal. James Mc-Kinnon, who owned the mules, and his brother Charles, attracted by the shooting, started for the scene. Charles McKinnon was instantly killed by the negro, and James McKinnon was so badly wounded that he will probably die. Then Devoss escaped to the swamps.

OWNERLESS ISLATIDS.

OWNERLESS ISLATIDS.

If you should want an island, that is, an uninhabited island, for the purpose of occupying it alone, Robinson Crusoe-like, or to use it for romantic fiction, or for any other purpose, to the exclusion of all others in the world, you need have no trouble in finding one, if you see fit to make a journey to the Indian ocean. In the wa'ers between Madagascar and India you can find more than 16,000 of them where there is not a human being, and where you can, if you will, be monarch of all you survey.

An English traveller has recently been among the small islands that dot the western end of the Indian ocean, to make an inventory of them, and reports that he counted is 100, and found only about 600 of them inhabited. Now, there is a good chance for any one who may want an island.

Some of them are only an acre or two, well elevated above the tide, while others are a quarter of a mile in diameter, and running from that up to a mile or two in length, and a quarter or less of the length in breadth. Many of them are granite structures that plus steeply from 20 to 100 feet, well covered with rich soil, through which small fresh water streams hurry to the sea, which they reach after flowing over beaches of glistening calcareous sand that are begirt by coral reefs, which form walls about the islands.

HORRORS AT THE ROYAL ACAD-

HORRORS AT THE ROYAL ACAD-

The Royal Academy does not escape the seeing eye of the artist in clothes, who this year frames a severe indict-ment against the garments worn in the portraits. "What actor," it is asked, "would think of playing his part un-suitably attired? What novelist would eliminate from his description of in-cidents the dress that was worn? Why then should not the artist give as careeliminable from his description of incidents the dress that was worn? Why then should not the artist give as careful consideration to the detail of the dress of his sitter?" Such enormities are committed, the "Tailor and Cutter" tells us, as knickers and vest cut in one, morning coats without any visible means of fastening. And in the majority of cases the trousers are of one color, the vest of another and the coat different from both. The critic even asks whether the attist paints the head and leaves some proposed and the coat different from the rest. Perhaps the best way out of the difficulty would be for all portrait painters in future to serve a year's apprenticeship to tailoring and cuttering.

TURKISH WOMEN ADOPT THE GRAMOPHONE,

GRAMOPHONE.

The gramophone is a real source of pleasure to Turkish women. For some years it was strictly forbidden; now nearly every house is provided with one, and the women sit round and roar with laughter every night at its productions. Nearly all are fitted with cylinders giving Turkish songs and stories which are rather risque. If the women with their gramophones would only stop at home no one would object; but what they delight in is to get into a boat with their friends and float slowly down the Bosphorus, with the gramophone shricking in the middle.—London Telegraph.

A STARTLING QUERY. This is the way that a simple query by fayor Tom Johnson startled and dismayed a roup of count sides. If a prominent litten can be believed:

Mayor Johnson-Who held the pass at hermosphatic, hastily—I didn't!

From the uditor, hesitatingly—Wh-what road that fown on?

Third auditor, belligerently—You can sarch me!

Fifth auditor, aggressively—What are you oking at me for?
Sixth auditor, bravely—Well, supposin' it as me—what you goin' ito do about it?—

C. E. CONVENTION.

Busiest Day of the Session—Several Ministers Spoke—Short Ad-dresses Tonight.

CINCINNATI, Ohlo, July 10.-Today ing the last day of the Christian Er convention, events have been crowded in upon each other, m it really the busiest day of the ses sion which lasted five days.

There was not an hour from sunrise

There was not an hour from sunrise until the time for the farewell meeting tonight that was not marked for meetings and service.

The music hall auditoriums were the centres of most activity. The action of the local committee in dispensing with auditorium Ohio and consolidating the meetings in auditoriums Endeavor and Williston, caused a revising of the entire programme as far as speakers were concerned. The assignments of these bills were made before the convention and as the speakers who were to have participated in auditorium Ohio are here, they were included on the programmes in the other two auditoriums. Secty, John W. Baer, of Boston, presided in Endeavor hall. After the devotional exercises six ministers were given five minutes each on "Twenty years of Christian endeavor."

The farewell meetings to be held this evening will be the greatest of the day. Rev. J. Campbell Morgan, of Baltimore, Rev. Floyd W. Tompkins, of Philadelphia, are the only two speakers who will be heard. The endeavorers will assemble in groups from each of their states and as the roll is deavorers will assemble in groups from each of their states and as the roll is called will reply with short addresses on the purposes they have in view for the extension of Christian endeavor

CURIOUS ANNOUNCEMENT.

LONDON, July 10.—The trial of Earl Russell before the house of lords, July 1, on the charge of bigamy, has occasioned the issue of all kinds of quaint notices. Noze of them, perhaps, is more curious that the latest relating to the admission of women. The notice announces that a hundred places have been reserved for peeresses. As the offence is bigamy there is considerable curiosity as to the extent to which the invitations will be accepted.

which the invitations will be accepted.

Earl Russell, who is now being tried before the house of lords for bigamy, is among the tolerably well-known English noblemen on this side of the water, because of the legal proceedings with which his name has been intermittently and malodorously connected during the past ten years. His last bid for notoriety, however, surpasses all previous efforts. He is the grandson, as one is apt to forget from the groove in which his affairs seem to run, of the famous Lord John Russell, whose name was so potent in the England of half a century ago, and a great grandson, therefore, of a Duke of Bedford. The earl, who succeeded his grandfather in 1878, is described as decidedly unromantic in appearance. "A rather stolid, ruddy face is redeemed by smiling eyes that look out mildly from the shelter of gold-rimmed glasses. John Francis Stanley possesses none of the oratorical or literary qualities of his famous grandfather, though he has spoken once or twice in a modest way in the house of lords. He is,

he has spoken once or twice in a mod-est way in the house of lords. He is, however, reputed to be a rather good electric engineer."

IS NOT THE MAN.

THE TRAIN ROBBERS.

GREAT FALLS, Mont., July 10.—It is known definitely that the Great Northern train robbers crossed the Missouri river about seven miles above Fort Peck at about 7.45 Monday evening and that they are now on the south side. The report that the robbers were surrounded near Rocky Point and that a fight was in progress is without foundation. Sheriff Griffiths has returned to Glasgow and says he thinks that he knows where the robbers are, and wants fifty more fighting men. If the sheriff can sequre a sufficiently large pose he will return to the chase this morning.

KANSAS CHTY, July 10.—In a message received at the local offices, General Agent McLain of the passenger department states that the entire train was destroyed by fire soon after the wreck occurred. McLain reported that he was unhurt, but gave no particulars.

DIME NOVELS DID IT.

NEW YORK, July 10.—With a cart-ridge belt containing 47 cartridges of 44 calibre firmly fastened around his waist, a bowle knife stuck in one side of it and a beauty and the stuck in one side waist, a bowle knife stuck in one side of it and a heavy revolver on the other side, John Fisher, who on Saturday night, held up and fatally shot Theodore Johnson, was taken into custody yesterday in Riverside by Police Captain Weigsand. Figher is the janitor of an apartment house, where he lived with hs wife and one child. He is 24 years old, and it is believed was made desperate by reading dime novels of western border life.

THE FISHERMEN'S STRIKE.

The trouble among the salmon fish rmen of British Columbia is assum ing a much more serious aspect that was at first anticipated. For quite-long time these fishermen on account of poor returns have been growing d on that their discontent took a de nined to hold out for what the sider their rights, and by the lat

The cannery men do not appear t ave any very particular argumen present. The industry is, at any time the best of seasons the profits are no xcessive. They put their capital into the business and in a poor year almost always lose heavily. Thinking thus they cannot see their way clear to pay more for the fish than at present: but the fishermen naturally wish to make up what they lose in the numbers of the fish by an increase in the price

the fish by an increase in the price. Consequently, they strike.

To replace those men who have stopped work, a large number of Japanese have volunteered to fish and by so doing have only made the matter worse, for besides the natural indignation felt by the fishermen at those who would attempt to render abortive their determined stand, they have a number of old scores to settle with the Japaneses.

In this affair the divided forces of the strikers is only another example of the white race pitted against the yel-low, for many of the log who have been in the recent trouble were already in the employ of the canners, and be-ing satisfied with the money they were earning, as is usually the case with them, they refused to join in the strike. The Indian fishermen, belong-ing principally to the Siwash tribe, took sides with the whites, and now the state of affairs is so threatening that state of affairs is so threatening that fatal results may be expected at any time. Already blood has been shed. time. Already blood has been shed. In the meantime the cannery-mer on the Fraser river are losing money

MORALITY AND THE WEATHER. Professor Dexter of the University

of Illinois, who has studied the effect the desire to fight rises with the ther meter, but stops at 85; wilts after that as the mercury rises. Assault cases are therefore commoner in sumner than in winter. Drunkens owever, lessens with summer and in Suicides are at a maximum on bright days with a high barometer, and increase as the wind rises. Just how the professor's theory can agree with the statement of fact, in regard to the instatement of fact, in regard to the increase of drunkenness in this city, made yesterday by Judge Ritchie is not at first apparent. It may be that intemperance is increasing here in all kinds of weather, and were it cold at the present time even more cases would be before the magistrate than now. It would seem, however, statistics and professors to the contrary, that the drought of the summer would excite a thirst, which in the order of events, to those so inclined, would be conducived prolonged draughts, with the natural consequence that the magistrate would have more cases before him.

describes her visit to the Doukhohors n the Northwest. She is exceedingly sympathetic in her graphic sketch of the trials of these interesting people. Describing the arrival of the first shipload to Canada she says:

discipline of military troops, fell of their knees when they reached the lat and kizsed the soil that promised the freedom to practice their religion at exemption from military service.

This is pretty, but is it quite true The writer of this paragraph saw anding, but not the kissing.

Alliance the agents of the Niagara, St Catherine and Toronto Navigation con be run between Toronto and St. Cath take regular traffic, but will not allo Sunday excursions. Up to the pres time the Lord's Day Alliance has a the co-operation of the Trades a Labor Council, which does not appr of the introduction of Sunday labor

The following reports were received; High Chieff Rangeers, S. Report.

HIGH CHIEF RANGER'S REPORT.

During the year ending June 1st, 765 applications were sent in, and 663 were accepted From April 30th, 1990 to May 1st, 1901, the membership in the province had increased from 5,991 to 6,355. On May 1st, the total membership of the order was 170,472; the surplus funds, \$4,708,942.52, or eqtal to \$26.23 per capita; and the order had since its organization distributed over \$9,099,000 in benefits. The total premium incoine from July 1st, 1881 to Jan. 1st, 1901, was \$12,522,014.33.

The number of deaths of members in the province in the last year was the largest they ever had, although the death rate was not as high as in 1882 and 1895.

During 1900 there was paid to members of the order totally and permanently disabled \$81,846.64, while the total death claims paid were \$1,231,539.30. HIGH CHIEF RANGER'S REPORT.

HIGH SECRETARY'S REPORT.

High Secretary F. W. Emmerson's report showed assets of \$2,475.87. The only liability was \$22.67, due subordinate courts. The assets were represented by amounts due from subordinate courts, supplies, regalls, furniture, etc and cash on deposit to the amount of \$330.78. During the year 56 members had died. They carried \$70,000 in benefits, of which \$67,239.96 had been paid and two or three were pendilly approved.

In the evening a public meeting was held in the Music Hall. High Chief Harger Chapman presided and the programme included the following:—Address, A. B. Copp, M. P. P.; solo, Thomas Murray; reading, Mrs. W. A. Warren; solo, Miss Steadman; address, Senator Wood; addresses by Supreme Secretary McGillivray and High Chief Ranger Logan, of Nova Scotia.

SACKVILLE, July 16.—The high court today decining and endorsed Toronto as the permanent place of meeting of the supreme court. It recommended that the constitution be amended to admit proof of age during the life time of the members and that Royal Forestry be encouraged. The sum of three hundred dollars was votted for visiting weak courts and holding public meetings, four cents permile, one way, to all delegates and past executive officers attending high court; high chief ranger, one hundred dollars, secretary, four hundred; treasurer, thirty-five; auditors, each twenty-five; journal secretary, thirty; press, eighty; hall, twenty; and janitor five dollars. It was decided to recommend a decoration day for the order, and that the organizers be employ press, eighty; hall, twenty; and janitor five dollars. It was decided to recommend a decoration day for the order, and that the organizers be employed to form companion courts. Resolutions were passed asking supreme
court to confer on F. W| Emmerson
the grand cross of merit. Rev. Dr.
Borden and Dr. Allison, amid loud applause, were obligated as honorary
men. Ders by Supreme Secretary McGillivray, and both made happy
speeches, welcoming the high pourt to
Sackville, and speaking in highest
terms of the Order of Foresters. There
was a very warm discussion on the

Shortly after two o'clock this morning fire broke out in a house at No. 15 Horsefield street, owned by D. Patriquin and occupied by his remlly on the top flat, and below by the family of James Clarke. Mr. Patri-

family of James Clarke. Mr. Patriquin's family is in the country, and
Mr. Patriquin himself is boarding on
Lembard street. Mr. Clarke is also
away, leaving only Mrs. Clarke and
two children on the lower figt.

Mrs. Clarke was awakened suddenly this morning by a crackling
noise and discovering the fire, gave
the alarm and awakening her family,
immediately decamped, as the aouse
was then a smother of smoke. A still
alarm was sent in to No. 3 station,
followed by an alarm from box 23,
rung in by Officer Napier and responded to by Nos. 2 and 3 engines
and compadies, and by No. 1 labdertruck.

After considerable difficulty the fire

After considerable difficulty the fire which had started in a back ell in the cop flat, was extinguished. The back part of the house was badly gutted, but owing to the efforts of the salvage corpo much of the furniture escaped ininjured. The origin of the fire is a mystery, as the top flat has not seen occupied for some time, except me room by Mr. Patriquin as a workne room by Mr. Patriquin as a work

lowing platform for the society was adopted:—
No. 1.—Municipal ownership and management of gas and electric lighting, short distance telephones, street railways and water supply.

2.—Covernment ownership and management of telegraph lines, railroads and long distance telephones, and of all natural products which from their nature can easily become menopolies.

3.—Old age pensions similar to the system lately introduced into New Zealand.

4.—National life insurance system, by which persons desfring to invest their savings in life insurance will have the government as security for payment of claims, and will save in low premium the large amount now paid to the management of stock companies.

panies.
5.—A board of arbitration especially

of such board to be compulsory and final.

The subject for discussion at last evening's meeting was "What can be done to benefit the laboring man in St. John?"

Rabbi Rabbinovitch was the first speaker, and in a very interesting paper he advocated the organization of workingmen into unions and the municipal ownership of public monopolies. He advised the laboring men of St. John to identify themselves with the Fablan League.

J. D. Howe spoke of the conflict between capital and labor, and expressed a doubt that municipal ownership would settle it.

Mr. Stanley and President Brown, representing the Ship Laborers' Union, also spoke, the latter suggested the establishment of a co-operative store system.

system.
R. G. Murray, after discussing the wage and hour system as introduced by Rabbi Rabbinovitch, advocated the extension of the street rallway system to the suburbs and the ultimate municipal control of all such systems.

WANTED.—A case of Headache that KUMFORT Powders will not cure in from ten to twenty minutes.

THE FALL OF AN EVANGELIST.

TORONTO, July 9.-A few days ago George Pierce, one of the evangelist connected with the twentieth century terms of the Order of Foresters. There was a very warm discussion on the question whether the former delegates to the supreme court should again be candidates, and a motion recommending that new men be favored was, after vigorous argument, withdrawn. There will be a field of twenty-six to choose from. The high court has a brilliant and breezy day for the big excursion to Fort Cumberland.

same conclusion on any subject, whether it be religion or politics or science. The world is wide enough for every kind of opinion that was ever honestly held, and every honest opinion situal be welcomed and given the right to sow its field and reap its harvest. If this be done, we shall by and by find out what thoughts produce the best results, and we need not fear but the best seed will be used by all when it proves itself to be the best.

When the millennium comes sectarianism will be known no more. If a man's environment leads him to a Catholic Church, we shall bid him godspeed: if he is fascinated by the logic of the Presbyterian, we shall go with him as far as the door of his place of worship and, with the hope that he will find the peace he seeks, go our own way to our own altar. He and we are members of God's great orchestra, the score is the Scriptures, and if each one puts the shijunctions of Christ into his life this old world of ours will give forth a volume of harmony which will drive evil of all kinds to cover, as the rising of the sun drives the darkness before it.

What is needed is more genuine, Have Not Given Up Hope.

NEWPORT, R. I., July 9.—None of the big racing boats moved out of the harbor today. It was rather expected that a little ballast would be taken out of the Independence today, but Mr. Adams, who is in charge, has decided to make no changes until atter tomorrow's race, at least. The jibs

D. L. HUTCHINSON, Director. N. B. OYSTERS WIN MEDAL.

said: Ernest Kemp, oyster expert of the department of marine and fisheries, the department of marine and inseries, Ottawa, arrived here this morning from Sydney, with Dr. Kendall, M. P., and will visit the oyster beds of Mira river and Catalone. The present mission of Mr. Kemp, who has just commenced the inspection of the beds at Whycocomagh and Malagawatch, is to exar,ine and report upon all oyster beds in Cape Breton, including those of Mira, Catalone, East Bay and Bras d'Or Lakes. These beds will be cultivated if the reports are favorable. Mr. Kemp has been very successful in his experiments in the production of oysters. The beds of North River, P. E. L. after being about three years under the supervision of the department, have produced about 2,000 barrels of good cysters in one season. The beds of Shediac, N. B., have also produced good results. The oysters from the beds of New Brunswick and Prince Edward Island took the grand medal at the Paris exposition, after having to contend with the difficulties of transportation, the passage to Paris occupying three weeks. The deputy minister was highly pleased with the result.

A COACH AND FOUR.

MORNING'S NEWS.

ture on the life and character of Queen Victoria.

Trinity Preceptory, No. 507, R. B. K., will meet in the Orange hall, Germain street, this evening. All members are requested to attend.

Charles W. Sprague of Sydney and Miss Margaret Vall, sister of G. H. Vail, formerly of St. John, were married yesterday morning in Halfax. They will reside in Sydney.

E. C. Eikin, G. W. Merritt and F. A. Jones have gone to Boston to attend a meeting of the Anglo-American Company, which has to do with important mining interests in the west.

The Furness liner Evangeline, from London via Halfax, reached this port last evening. She is at the new I. C. R. pier, where she will discharge her inward stuff and take in a lot of cargo for London.

Merritt Bros. received a telegram last evening from G. Wetmore Merritt, who is in Boston, stating that the Gold King Company had declared a dividend of 1-2 per cent, the Anglo-American Trading Co. one of 2 per cent, and the Railway Stock 3 per cent.

The Rev. J. de Soyres will deliver

when was equally happy to their elders.

A despatch received here last night by Mr. Wood, the agent of the Liverpool Salvage Association, stated that the str. Delmar, ashore at Newfoundland, had been surveyed and condemned. The diver reported a big hole under the engine room and that 15 feet of her keel has been carried away. Plates on both sides of No. 1 hold are missing. There is a rock up through the bottom. Nos. 1, 2 and 3 holds are full of water, as is also the engine room.

PROVINCIAL.

PROVINCIAL.

At St. Stephen yesterday afterroon the funeral of the lat; G. Arthur Murchie was held. Services were conducted by Rev. Thos. Marshal and Rev. W. C. Goucher. Four uncles of the deceased acted as palibearers.

Sydney Locke of Lockeport, N. S., who killed his three children Monday, has been taken to the jall at Shelburne. An inquest was held and the following verdict rendered: That the deceased children came to their death by builets fired from a revolver in the hands of their father, Sydney Locke, while he was laboring under temporary insanity.

At a meeting of the English liberal neid yesterday a vote of confidence in Sir Henry Campbell-Bannerman was adopted. All factions of the liberals attended. In the course of his speech Sir Henry Campbell-Bannerman said the war must be brought to a victori-ous conclusion, but he thought all lib-erals ought to insist on amnesty in the settlement.

settlement.

At Bisley yesterday the Canadians made their first appearance as competitors, and in the Golden Penny Lieut. Murphy of the 1st Fusiliers scored a possible 35 points at 500 yards. Lieut. John Ogg of the 1st battery of artillery, Guelph, also made 35, while Gunner A. Fleming made 34. There are forty prizes in this match.

SHE WAS OVER EIGHTEEN. (Portland Express.) A young man in New York around a difficulty in a nevel man. The young lady whom he wished marry was not quite 18 and she loo

marry was not quite is and sine non-cettwo or three years younger than she really was. When they went to the county clerk's office the man who issues licenses hesitated. As they gave no sworn statement that the bride was over 18 he didn't grant them a license. A few minutes later they returned. The man said and made affidavit that to the best of his knowledge Vernie Deacon was "over 18."

After the ceremony the young man laughted and explained that the word "eighteen," had been written on a piece of paper and placed in Miss Deacon's shoe. When she stood on the paper she was "over eighteen." The young people are a little worried, however, because the girl's father says he will prosecute the young man for kidnapping his daughter.

Valuable Depisit in Kentucky, the First Discovered in This Country.

ST. LOUIS, Mo., July 1. — Busene Leary of the United States Geological Survey arrived in the city-today from Kentucky, where he has been investigating a find of lithographic stone near Mount Sterling. He said: "Lithographic stone is very rare. None has ever been found in this country before in quantities worth mentioning. All that we use comes from Germany and costs 40 or 50 cents a pound. I'd rather own that deposit near adount Sterling than any gold mine I ever heard of. There is no lithographic stone anywhere else, so far as known, and there will be no difficulty competing with the German product."

....... "THE WATERFALL WAG."

p. m. of that day

Among the curiosities of journalism, such as the Ladysmith Lyre, which the war has produced, says the Buluwayo war has produced, says the Buluwayo Chronicle, a high place must be given to the Waterfall Wag, with which the British prisoners at Waterfall endeavored to while away the weary weeks of their captivity. Written, and illustrated too, with one solitary pen in a penny exercise book, this extraordinary journal gives the stay-at-home cfitzen a most vivid idea both of what our troops had to bear and of their undamited cheerfulness and good humor. The Waterfall, Wag published only two caunted cheerfulless and good number. The Waterfall Wag published only two numbers and a supplement—the one pen having struck work not leng before release came. Though the literary matter—we cannot call it "letter-press"—is very good in the circumstances, we must give the palm to the literary tions, which are strong all demirable. we must give the paim to the illustra-tions, which are almost all admirable. For instance, a decorative border of thumb-mall—or, rather, little finger-nail—sketches of various military types, British, colonial and Boer, shows in a high degree the gift of setzing a man's character and portraying it with a few scratches of the pen. So enter-prising a journal as the Waterfall Wag naturally did not lack a war cor-respondent, who furnishes a "special tel-a-cram" from "Spoofed Leager," while the authority of the Slander and Fibbers' News is quoted for the statetel-a-cram" from "Spoofed Laager," while the authority of the Stander and Fibbers' News is quoted for the statement that Commandant Makrof, with 200 of his brave burghers has surrounded a British force numbering some 15,000. In another engagement "the Federal losses were one slightly killed and two accidentally wounded," while "the British were forced to retire with great slaughter." The galety of these "Tommies" is inextinguishable in "Fashion Fancies" by "Triby" they jest over the deplorable state of their clothing, and in an article solemnly headed "On 'Change," they laugh at their almost empty pockets. Yet through all this fooling there runs a grim note "A small party of, visitors from Roborts's column paid us a visit on Saturday last, and, being pleased with their reception, have been persuaded to remain." That is a "rire du bout des dents" with a vengeance. So, too, with the solider who said he got se thin that when he felt a pain he did not know wheth r it was in his stomach or his backeone.

Foster, district passenger agent of the C. P. R.

THEIR FIRST GLIMPSE.

THEIR FIRST GLIMPSE.

The Bay Shore swarmed today with a group of children who had never been there before. City Sunday-school picnics go to the country, which is something of a change for the children. But country children also like a change, and Rev. Mr. Goliner, of Waterford, wisely concluded that the young folk of Waterford and St. Mark's parishec in the inland portion of Kings County would enjoy a visit to town and the seaside. So at four o'clock this morning seventy youthful picnickers left home and it was still early when they reached the place of refreshment at Bay Shore. The scenery of that charming place had all the charm of novelty for the country children, who gave abundant and noisy testimony of their Joy.

FOR THE PAN AMERICAN.

FOR THE PAN AMERICAN.

A splendid opportunity is offered for some reader of this paper to secure a free trip to the Pan-American Exposition at Buffalo and return, by the Grove Dramatic Company. This organization commences an engagement of one week at the New Mechanics' Institute next Monday night. Every holder of a ticket on entering the hall any night receives a duplicate numbered slip. One end is deposited in a sealed box at A. C. Smith Co.'s store and the other end retained. On Saturday night the box is opened by a local committee and one number drawn out. The person having the duplicate receives the free ticket. Holders of 35 cent tickets receive two chances with each ticket. Those having 20 cent tickets get one chance. Children under 12 years of age get one chance for an Ingersoli watch.

On Monday night "A Mind's Eclipse" will be presented. Special ladies tickets have been issued for the opening.

The Board Fixed the Water Rates for Lancster.

While They Were Busy the Hand Organ Man Levied on Theme

The water and sewerage board met this morning to fix the water rates for the parish of Lancaster. There were present Ald. Millidge, Colwell, McMulkin, Waring, Baxter, McGoldrick, Christie, Coun. Long, Lowell and Armstrong of Lancaster, and Director Cushing and Engineer Murdoch. Engineer Murdoch presented the following report: In order that your honorable body may determine upon an assessment rate for the new water district in the Parish of Lancaster, the parish assessor's lists, have been used and the assistance and advice of Assessor Fox, obtained, with the result that the following provisional summary has been prepared as a basis upon which to estimate the probable returns. It should be borne in mind that the city of St. John is a heavy contributor to the parish finances, and some of its contributions are considered in the following estimate. The parish assess neither the state nor the church, but in the returns are inserted possible valuation of the Lunatic Asylum and the several churches. The value of all the real estate on the lines of the mains and within 700 feet thereof between the city line and the western limit of the district is placed by this method at \$582,400. Applying the city schedule to this value and to the othered supplies:

Schedule B (value) 1-5 of 1 pc. \$1,164 80

Schedule B (value) 1-5 of 1 pc. \$1,164 80 Schedule C, consumption rates 1,031 50

The value of city property included here is \$7,200, with a total assessment of \$44. The assumed valuation of the Provincial Lunatic Asylum is \$100,000, one-fifth of one per cent of which is \$200. The institution is supplied by meter. The total amount charged against this district last year exclusive of metered supplies was \$1,717. When the survey for the assessment shall have been completed there is a possibility that the figures here will be exceeded.

exceeded.

Aid. Baxter, seconded by Coun-Lowell, moved: That the director of water and sewerage be instructed to have a valuation list of the assessment district in the Parish of Lancaster, following as far as possible the valuation of the assessors of the parish, and report the same to this board.

Before Ald. Baxter's resolution was put Engineer Murdoch produced a detailed list of assessable property, with the valuation attached. This was read in part.

Ald. Christie called attention to the

Ald. Christic called attention to the apparent discrepancy in the comparative assessment of the Temperance hall and Ready's brewery. The former would use more water.

"Wait until you see the Baptist church,' said Engineer Murdoch. It was decided to fix the rates on the provisional list, and Ald. Baxter's motion was put and carried. He then further moved that the rate, under schedule B, on visible property, be one-fifth of one per cent. The motion carried.

wick. It is the intention of the board this fall to send out to the mission field, Rev. and Mrs. I. C. Archibald, Mrs. W. V. Highns and Miss Clark, of Moncton. It is possible that a number of others may also be sent out.

At the Exmouth Street Sunday-school picnic, held at Watter's Landing yesterday, the Glads defeated the Exmouth treet team 19-9. Batteries, Norris and Cooper, Tennant and Drake. The picnic was largely attended, over six hundred persons being present. The archery pitze, a handsome carving set, was won by Walter Knowles.

Frank Ellis and the sent size of the board of t

Other places where water is used from 50 cents upwards. Water supply for building houses, \$2, \$3, \$5. Each barrel of lime 5c., but no charge less than \$1.

charge less than \$1.

For one hundred thousand gallons, si0; for each additional 100 gallons, one cent for manufacturers.

The discussion of the rates was interrupted for a few minutes while the hand organ man, who was playing lustily outside, sent his assistant in to levy on the board. The members all paid, and the organ man cheerfully turned the crank for an additional twenty minutes.

The rate for the Lunatic Asylum was fixed at a minimum of \$600 for six million gallons. All over that quantity is to be one cent per hundred gallons.

The application of the firewards of Fairville for seven fire hydrants was dealt with and they were ordered to be placed. The cost will be borne by the fire district.

Ald. McMulkin brought up the matter of allowing residents of Victoria street to enter the sewer without making any deposit for the repair of the street. The motion was lost on divisual of the control of the street. The motion was lost on divisual control of the street.

Coun. Armstrong presented the peti-tion of residents of Harding street, Fairville, for water extension. Refer-red to the engineer for report.

AT THE CHALET.

Railway facilities at the chalet will Railway facilities at the chalet will shortly be in an improved condition. Work is now being started and the station platform will be extended sixty feet, the crossing will be changed and the fence brought nearer the track. The mound will be levelled and the property graded. The new roadway is being cleared and work on the carriage shed is being rapidly pushed forward. Among the recent visitors were Mrs. P. S. McNutt and son, T. J. Gunn and the Misses Gunn.

POLICE COURT

Among the first to be arraigned before Judge Ritchie this morning was
Joseph Morrison, who fell from grace
on Mill street yesterday evening and,
besides being drunk, was begging
money. This morning he stated that
yesterday forenoom he had started out
with a dollar and in the evening had
to borrow a cent to take him over to
Carleton. Morrison's mother was in
court and appeared very much affected by the disgraceful and thoughtless
conduct of her son. The magistrate
pointed out to Morrison what a fool
he had been and showed to what his
conduct would eventually lead him. A
sentence of two months was imposed.

Some time aso Emma Lester was

sentence of two months was imposed.

Some time ago Emma Lester was committed to jali for drunkenness, but the lesson does not appear to have done her much good. She got out yesterday and immediately set about filling up again. In an alley off Brussel's street Emma was noticed looking into the neck of a black bottle and using some naughty words. She was arrested, but this morning failed to see the advantages of going to jali. Evidencé was given by Officer White to the effect that she did the vanishing act on his approach, but the disappearing specialty was not a pronounced success. She is a vagrant and a common prostitute, and was given six months in jali. Emma remarked, "Well, I can take it." In answer to an enquiry as to where she lives, she said, "When out of jall I live with my sister, Mrs. Johnson," and in this case her board bill would not be very large as one day every six months is nothing.

Catherine Conway supposed she was

Catherine Conway supposed she was guilty, but said she was not drunk. "It makes no difference what I say, but If two glasses of beer make me drunk—. I was just forninst——. He told me to —," "Two months in , the Good Shepherd."

Margaret Donnelly reported for allowing two cows to run loose on Fort Howe, explained that cows were new to her. The animals felt strange in the place and have a habit of breaking through the fence, but they don't roam about any longer than it takes her to bring them in. She was fined two dollars and upon promising to keep the fence in repair the fine was allowed to stand.

William Humphrey left a pile of lumber on St. James street without a light and for his neglect was fined eight dollars for the first night. The other nights will be enquired into and reported on tomorrow.

A lady from Willow Grove came into court with the nine months old child belonging to Lizzie Thompson, who went into jail yesterday. Lizzie had told the magistrate about this child being left in the country with gran'pa, and was advised to let it remain there for a time. The obliging woman who brought it in today was at her wit's end to know what was to be done and none of the many suggestions offered by those present in court seemed to suit her. She knew it would not be right to send the baby into jail, even if such could be permitted, but the youngster was of no use to her and was only a burden. She is doing some marketing today and will have a heavy load out, but if there is any room among the other stuff she will take the baby back to it's summer residence.

PERSONALS.

INJURED YESTERDAY.

Yesterday afternoon Arthur Hamilton, twelve year-old son of John Hamilton, of Harrison street, was sevtrely injured on Main street by street carnumber 41. The boy had jumped off a truck and attempted to cross in front of the car which had just been started. The fender of the car struck his leg, breaking it just above the ankle, and he was thrown to the pavement, his nose and mouth being badly cut and bruised. Dr. Christie attended to his injuries and the boy was removed to the hospital, where he is today reported as resting comfortably and doing as well as could be expected.
