### ESTIMATES BEING EXCEEDED BY ALL CIVIC DEPARTMENTS

Treasury Board Decides That a Halt Must be Called or the Money Available Will All be Spent Before the Year is Up—Street Department Has Only \$10,000 Left—Detailed Statement of Expenditures Up to Date.

The street department came up for the greatest criticism. A number of aldermen and the mayor said that they could not see where the money had been spent.

Ald. Bullock thought some specific items of work which have not yet been begun should be hung over, including \$400 for further expenditures in Stanley ward and \$200 Wright street. The work in repairing sidewalks, and laying asphalt should also be stopped.

Ald. Pickett—"You have the materials." Ald. Baxter—"This is rather hard on some of the wards where none of the work has been done."

Ald. Bullock—"Unless you cut out some of the items the director will have expended over \$2,000 more than he estimates."

Ald. Baxter moved that the board call the attention of the council to the fact that the expenditures of the street department are \$45,522.55; that there is yet to be charged the amount of \$7,124, after which there will be left only \$10,284 available for work and salaries

during the remainder of the calendar year, and in view of the expenditures already made, indicating a tendency towards over-expenditure, that the board of works be instructed to confine operations within estimates for the balance of the year—This was carried.

The fire department figures were next discussed. Ald. Baxter wished to know whether the fact that the figures did not look so promising earlier in the year was due to the fact that the director of this department was then holding back unpaid bills.

Mayor Sears wished to know whether there was any return made for the balance of the old hose in the fire department. He said that he was present at the Centenary fire and there was not the slightest objection for the hose, which he noticed breaking two or three times. This hose was new and was guaranteed for three to five years. He wished to know why the matter was never brought back to the sellers.

In the course of the evening his worship remarked that he had in mind a good site for the drill hall, which he would announce in due course.

**NOMINATIONS IN EAST ELGIN.**  
TORONTO, Sept. 27.—At Aylmer to-day, Granville H. Haight, Liberal, and David Marshall, Conservative, were nominated for the commons for the East Elgin seat vacated by A. B. Ingram, M. P.

PROBATE COURT

CITY AND COUNTY OF SAINT  
JOHN.

To the Sheriff of the City and County  
of Saint John or any Constable of the  
said City and County—Greeting.

WHEREAS the executor of the estate  
of Harriet Bennett deceased, has  
filed in this Court a final account of his  
administration of the said deceased's  
estate and has prayed that the same  
may be passed and allowed in due form  
of Law.

In view of the experience of the city  
during the past few years, and having  
in mind the great outlay through bun-  
gling which is still to be met, the opin-  
ion is gaining ground that St. John's  
salvation will be in the management of  
city business by a commission of two  
or three capable men, with the common  
council merely as an advisory board  
on questions of policy. The city could  
do better afford to pay twenty or  
twenty-five thousand dollars a year to  
qualified men than to submit to such  
losses as are now being borne through  
the incompetence of those who are  
attempting to handle the business. At  
the present rate of expenditure, taxes  
will undoubtedly take another jump  
next year.

DULL IN INSURANCE CIRCLES.

The past summer has been an ex-  
ceptionally favorable one for insurance  
companies doing business in New  
Brunswick. In St. John there have not  
been any very serious fires, that in  
Centenary Sunday school being the  
most disastrous for some months, and  
on it the losses will be much less than  
at first supposed. There have been no  
bad fires throughout the province, and  
in fact the summer has been an un-  
usual one. But on the other hand this  
has brought about a depression in bus-  
iness. There are many people who would  
never protect their properties did they  
not see other persons suffering, and  
these not having had the usual warn-  
ings are neglecting to take out policies.  
Very little new business is offering and  
almost all of the companies complain  
of dullness.

THE CALL TO REV. G. DICKIE.

On account of the indisposition of  
Rev. Gordon Dickie on Sunday last, the  
Presbyterian and Methodist congregations  
enjoyed union services for one  
more Sunday. Rev. Geo. M. Young of  
Halifax. At the evening service in the  
Presbyterian church Rev. Mr. Young  
read the citation of the presbytery re-  
quiring the congregation to show cause  
before a meeting of presbytery to be  
held at Moncton Oct. 2nd, why Rev.  
Mr. Dickie should not be translated to  
St. Stephen's church, St. John. A meet-  
ing of the session and congregation  
was called for Friday evening, to elect  
delegates to the Moncton meeting. It  
is understood that in view of the fact  
that Rev. Mr. Dickie is doing a splendid  
work in his present pastorate the  
congregation here will make a vigorous  
protest against the proposed change.—

noon at Quebec.

Weak Lungs

It is the old story of a weak throat,  
a tendency to weak lungs in the family.  
You no longer get rid of your old cold  
than a new one takes its place. Ayer's  
Cherry Pectoral breaks up this taking-cold habit. It strengthens, heals. Ask  
your doctor, the very next time you see him, what he thinks of Ayer's  
Cherry Pectoral for weak lungs.

RAILROAD PASSES.

It has been argued that doing away  
with railroad passes does not result  
in an increase in the passenger car-  
riage. The experience of the Philadel-  
phia and Reading railway shows that  
this contention is not always correct.  
Passes over that road were abolished  
one year ago, and a report just issued  
gives reliable information on the ef-  
fect of this action on travel, the indica-  
tion being that the road has in the  
year profited to the extent of at least  
\$400,000. This equals about six and a  
half per cent, of the total passenger re-  
ceipts for the past year which amount-  
ed to \$6,216,318.

By refusing free-passes the railway  
lost about 25,000 passengers, or less  
than one per cent, on the total number  
carried, this being found by comparison  
of the past six years in which it is  
seen that the average annual increase  
of passengers carried was 1,289,967, for  
five years, while last year it was only  
1,146,882. These, however, all paid.

JUDGE DUFF.

From all that can be learned of his  
past record, Mr. Justice Duff will  
prove a valuable addition to the  
supreme court bench. He has had a  
brilliant career as a student, at the  
bar, and on the British Columbia  
bench, and has been selected to act in  
several matters of more than ordinary  
importance, the son of a Toronto clergyman,  
man, then on of a Toronto clergyman,  
and went west after his admission as  
an attorney. His talents soon won  
recognition and he was associated with  
Messrs. Blake and Robinson on the  
Alaskan Boundary Commission. His  
elevation to the provincial bench fol-  
lowed shortly after his return from  
Europe. Justice Duff is young and  
energetic and should achieve additional  
honors in his higher sphere.

CIVIC EXPENDITURE.

The statement of civic expenditure  
printed elsewhere in this paper is one  
which should be carefully studied by  
all voters. It is simply a continuation  
of extravagance and disobedience on  
the part of those who are entrusted with  
the work of the city. Certain amounts  
are voted annually for the different  
departments, and are supposed to be  
sufficient for the needs of the year. The  
heads of these departments are in-  
structed not to spend more than stated  
sums, yet in practically every branch,  
where indebtedness now exists, the  
treasury board finds that the warrants  
will be exceeded. It is necessary to  
issue orders every month regarding the  
finances, and have the civic officials  
comply with instructions from the  
council as a joke?

In view of the experience of the city  
during the past few years, and having  
in mind the great outlay through bun-  
gling which is still to be met, the opin-  
ion is gaining ground that St. John's  
salvation will be in the management of  
city business by a commission of two  
or three capable men, with the common  
council merely as an advisory board  
on questions of policy. The city could  
do better afford to pay twenty or  
twenty-five thousand dollars a year to  
qualified men than to submit to such  
losses as are now being borne through  
the incompetence of those who are  
attempting to handle the business. At  
the present rate of expenditure, taxes  
will undoubtedly take another jump  
next year.

SHORE LINE TRAIN DERAILED.

The N. E. Southern train from St.  
Stephen, N. B., was derailed last night  
and the engine and two cars  
which composed the train left the rails.  
The accident occurred in a heavy  
fog. By some oversight the switch  
on the siding was left open and when  
the train came to a stop, the crew  
found the train had jumped from the cars  
and no one was injured.

SERIOUS ACCIDENT.

A Grand Lake Steam Man brought  
to Chipman Hospital With Both  
Arms and a Leg Broken.

Thaddeus Cochran of Grand Lake  
Stream is at Chipman Memorial hos-  
pital suffering from many injuries.  
While stowing a barn at the Stream  
last night, he fell from a beam, and  
the shingle collapsed and he was  
thrown to the ground, a distance of  
twenty-five feet. He broke his right  
arm, and was working with him, struck upon a  
lower staging and escaped with slight  
injuries.

Mr. Cochran fell to the ground and  
sustained a fracture of both arms and  
the right knee, the injury to his left  
leg being a compound fracture, and in-  
ternal injuries are feared.

Dr. Dixon of the Massachusetts gen-  
eral hospital, who was visiting at  
Grand Lake Stream, and Dr. C. E.  
Johnson of Princeton rendered the  
necessary surgical attention and re-  
moved a large piece of bone from the  
left arm. On Saturday morning Mr.  
Cochran was placed on a stretcher in  
an express wagon and brought to  
Chipman Memorial hospital where he  
is resting quite comfortably, and re-  
solving every attention. The work of  
the surgeons at the Stream has been  
greatly admired by the authorities at  
the hospital.

W. L. Cates of Machiasport, Me., who  
has been working for the establishment  
of a clean cutting factory in that town,  
is about to see the consummation of  
his plans. Four years ago he under-  
took to interest Hannam & Morrill of  
Portland, in the project but not being  
successful he tried a Mr. McDonald of  
that city but being unsuccessful in  
raising sufficient funds, he dropped out.  
Through Ira Belyea, salesman for the  
Twitchell-Chapman Co. of Portland, he  
succeeded in getting them on to trial  
through the winter of 1925-6. This was  
a clean cutting and interested them very  
much but not to the extent of building  
a plant, so after offering them two lo-  
cations free which they refused with-  
out conditions and arguments, Mr. Cates  
objecting to be a quitter, offered to  
build a plant any size for terms much  
less than the tax and money interest,  
solely to benefit the town, home and  
business. This has done and the ex-  
penses and outlay will possibly be  
\$2500. The frame is about completed  
and the building will be ready to op-  
erate claims by Oct. 15. In two months  
the size of the factory is 45 feet wide, 59  
feet long, two stories high, wharf front,  
182 feet long.—Bangor Commercial.

BEARS PLENTIFUL IN CANADA.

Berry Pickers This Season Have Reported  
Many Encounters.

LACHINE, Canada, Sept. 27.—So large  
are the blueberries grown on the shores  
of the Saguenay River between Tadou-  
sac and Bicoutail that they are known  
to the trade as Saguenay  
grapes. There are miles of natural  
plantations here very bushes, and  
the gathering of the fruit is the im-  
portant industry of the scattered popu-  
lation.

The crop has been good this year, al-  
though the fruit is smaller than usual,  
owing to long droughts. Other fruits,  
like raspberries and blackberries, have  
been scarce from the same cause. Prob-  
ably that is the reason why the bears  
have been more troublesome than ever.  
In this province bears are protected  
by law through the long season  
when his fur is thin, and in conse-  
quence his family is increasing rapidly  
in some sections.

On the Gatineau a mother looking after  
her little ones saw two of the children  
standing pretty close to a big  
surrey horse, which was gobbling up  
the berries gathered by the children.  
The bear must have grown angry at  
their presence, for making a dash at  
the little party, he struck the infant  
one a fierce blow with his forepaw, and  
then stalked away. The blow sent three  
long claws right through the child's  
flesh and broke two ribs.

It was probably the same beast which  
came back the second night after, and  
made havoc of several packed boxes of  
fruit, tearing them open and rolling  
about over the spilled berries.

The bears are not always so surly  
and mischievous. One hysterical girl  
of 7 years was alarmed to see a fine  
young bear approaching at a quick  
walk. She begged the brute to let her  
alone. "See," she said, "if you will, I'll  
give you all my blueberries," and with  
that she emptied her fat pail of fruit  
on the path and stepped aside. The  
bear accepted the invitation quietly  
and deliberately lay down to enjoy the  
feast at his ease, allowing the terrified  
child to step past and make her way  
safely to where the older children were  
waiting.

On the Saguenay the pickers were  
holding a festival a little while ago  
when at dinner time a couple of great  
whitened bears and two cubs came  
running toward them from the woods.

CELEBRATION OF THE  
FOUNDING OF THE CITY

Quebec Preparing for a Great Centenary  
Celebration.

QUEBEC, Sept. 27.—At an important  
meeting of the committee with guar-  
antee in connection of the centenary,  
1908, presided over by Mayor Larocque,  
Mr. McDougall, general manager of the  
Quebec bank was appointed treasurer,  
and a committee, consisting of acting  
Chief Justice Langlois, Senators Lan-  
dri and Choquette, and Messrs. La-  
chance and Powers, M. P.'s, was  
named to prepare the legislation to be  
asked of the Federal Parliament at its  
coming session. There was considera-  
ble discussion as to the general lines of  
the celebration, the duration of the  
exhibition, Senator Choquette and others  
supporting the idea of such a general  
exhibition, and the Mayor, Rev. Dr.  
Scott, Mr. Mares, V. G., and others  
arguing against it. It was finally de-  
cided that the committee would not in-  
clude in its programme the organiza-  
tion of any exhibition which was one  
of history, archaeology and the arts.

One programme suggested to the  
committee proposes an extension of  
the fete over the two weeks, com-  
mencing the 21st June, 1908, with an  
annual conferees the celebration to the  
month of August, 1908.

Last night a committee was named  
consisting of the Mayor, Mr. Marois,  
Rev. Mr. Scott, Mr. Dunnet, Chevalier  
Martineau, Hon. Thos. Chapais, Sena-  
tor Choquette and Dr. John, to care-  
fully study the suggestion made and  
report a definite programme as soon  
as possible.

Miss Emma Knowlton gave a most  
interesting and valuable lecture on  
Wordsworth in Trinity Sunday school  
room last night. The lecture covered  
the poet's career, showing the develop-  
ment of his genius and tracing the  
various influences which moulded his  
poetry. As an interpreter of English  
literature Miss Knowlton has few  
equals, and her address last night was  
highly appreciated.

**NEW BRUNSWICK POTATOES.**  
Crop there is large and of Fine Quality—Ontario's Crop (Montreal Star.)

Ontario, taken as a whole, will have a better crop of potatoes during the year by about one-third," said A. J. Hart, who has just returned from a trip of inspection throughout that province.

"From what I have seen and from what I have been told," said he, "there will be quite a little more than half an average crop, whereas last year there was less than half an average. Last year we shipped some two or three dozen cars of potatoes from here to the vicinity of Kingston; this year that vicinity will have sufficient for their own consumption, and may possibly have some to spare.

"As to the province of Quebec," we have a short crop. In the vicinity of Terrebonne the crop is very fair, but around St. Estache and Two Mountains it is very poor. The one bright spot is New Brunswick. The crop there is very large, and already we are having many offers from that direction. So much so is this the case that prices here have tumbled during the past few days."

He added that the offerings of potatoes had increased considerably during the past few days, and that from this till the close of navigation the receipts would in all probability be quite large.

## COMMISSION WILL FIX DISPUTED BOUNDARY

OTTAWA, Sept. 27.—Col. W. P. Anderson of the marine department has been appointed to co-operate with the Canadian section of the international watersways commission in locating the international boundary through Lake Erie and placing buoys along it. It is the desire of the United States and the Canadian government that this may be done to put a restriction upon the poaching of fishermen and to make it certain that when nets are seized that they are in forbidden waters. It is expected this will prevent future international complications in the case of seizures, of which there has been a good deal of apprehension in the past. The commission will have to settle a dispute as to the location of the boundary due to errors of description in the treaty of Ghent, before the buoys can be placed.

It is understood that as a result of representations by William Gallacher and Robert MacPherson, members of parliament from British Columbia, Canada will order a swift cruiser for fishery protection on the Pacific coast. At the present time fishing companies of the United States are able to send boats into Canadian waters on the Pacific with impunity. Thousands of dollars' worth of Canadian fish are being taken by American fishermen each year.

### CABBAGES AND KINGS. The Star's New Series of Short Stories, by O. Henry. CUPID'S EXILE, NUMBER TWO

(Continued.)  
The United States of America, after looking over its stock of consular officers, selected Mr. John De Grafenreid Atwood, of Dalesburg, Alabama, for a successor to William Geddie, resigned. Without prejudice to Mr. Atwood, it will have to be acknowledged that, in this instance, it was the man who sought the office. As with the self-banished Geddie, it was nothing less than the artful smiles of lovely women that had driven Johnny Atwood to the desperate expedient of accepting office under a despised Federal Government so that he might go far, far away and never see again the false, fair face that had wrecked his young life. The consularship at Corallo seemed to offer a retreat sufficiently removed and romantic enough to inject the necessary dream into the pastoral scenes of Dalesburg life. It was while playing the part of Cu-

turn the affection of an Atwood, a name honored all over the state long before and since the war. It does seem that she should have gladly consented to have been left into that stately but rather empty colonial mansion. But not so. There was a cloud on the horizon, a threatening, cumulus cloud, in the shape of a lively and shrewd young farmer in the neighborhood who dared to enter the lists as a rival to the high-born Atwood. One night Johnny propounded to Rosine a question that is considered of much importance by the young of the human species. The accessories were all there—moonlight, oleanders, magnolias, the mock-bird's song. Whether or no the shadow of Pinkney Dawson, the prosperous young farmer came between them that occasion is not known; but Rosine's answer was unfavorable. Mr. John De Grafenreid Atwood bowed till his hat touched his head high, but with a sore wound in his pedigree and heart. A Hemetstetter refuse an Atwood's Zouave!

Among other accidents of that year was a Democratic president. Judge Atwood was a warhorse of Democracy. Johnny persuaded him to set the wheels moving for some foreign appointment. He would go away—away. Perhaps in years to come Rosine would think how true, how faithful his love had been, and would drop a tear—many be in the cream she would be skimming for Pink Dawson's breakfast. The wheels of politics revolved, and Johnny was appointed consul to Corallo. Just before leaving he dropped in at Hemetstetter's to say good-bye. There was a queer, pinkish look about Rosine's eyes; and had the two been alone,

the United States might have had to cast about for another consul. But Pink Dawson was there, of course, talking about his 400-acre orchard, and the three-mile alfalfa tract, and the 200-acre pasture. So Johnny shook hands with Rosine as coolly as if he were only going to run up to Montgomery for a couple of days. They had the royal manner when they chose, those Atwoods.  
"If you happen to strike anything in the way of a good investment down there," said Pink Dawson, "just let me know, will you? I reckon I could lay my hands on a few extra thousands most any time for a profitable deal."  
"Certainly," Pink said Johnny, pleasantly. "If I strike anything of the sort I'll let you in on it."  
So Johnny went down to Mobile and took a fruit steamer for the coast of Ancharia.  
When the new consul arrived at Corallo the strangeness of the scenes diverted him much. He was only twenty-two; and the grief of youth is not worn like a garment as it is by older men. It was a Democratic president. Judge Atwood was a warhorse of Democracy. Johnny persuaded him to set the wheels moving for some foreign appointment. He would go away—away. Perhaps in years to come Rosine would think how true, how faithful his love had been, and would drop a tear—many be in the cream she would be skimming for Pink Dawson's breakfast. The wheels of politics revolved, and Johnny was appointed consul to Corallo. Just before leaving he dropped in at Hemetstetter's to say good-bye. There was a queer, pinkish look about Rosine's eyes; and had the two been alone,

stand that they call a country. His job's over now; and I guess old Mellinger is glad."  
"Why does he disappear to music, like Zo-so, the magic queen?" asked Johnny. "Just to show 'em that he doesn't care!"  
"That noise you heard is a phonograph," said Keogh. "I sold him that. Mellinger had a graft in this country that was the only thing of its kind in the world. The tooting machine saved it for him once, and he always carried it around with him afterward."  
"Tell me about it," demanded Johnny, betraying interest.  
"It's no disseminator of narratives," said Keogh. "I can use language for purposes of speech; but when I attempt to discourse the words come out as they will, and they may make sense when they strike the atmosphere, or they may not."  
"I want to hear about that graft," persisted Johnny. "You've got no right to refuse. I've told you all about every man, woman and hitching post in Dalesburg."  
"You shall hear it," said Keogh. "I said my instincts of narrative were perplexed. Don't you believe it. It's an art I've acquired along with many other of the graces and sciences."

performed his duties and workings of the office. He and Keogh tried to interest the new consul in their description of the lotus, the authority of the sea and the tropics, the mystery that attends unknown seas, and the prestige of drifting music on moonlit waters gave it an anomalous charm. Johnny Atwood felt it, and thought of Dalesburg; but as soon as Keogh's mind had arrived at a theory concerning the peripatetic solo he sprang to the console, and his car-ringing yawn fractured the silence of Corallo like a cannon shot.  
"Mel-lin-ger a-boys!"  
The sloop was now on its outward tack; but from it came a clear, answering hail:  
"Good-bye, Billy . . . going home—bye!"  
The Aduador was the sloop's destination, and some passenger with a sailing permit from some up-the-coast point had come down in this sloop to catch the regular fruit steamer on its return trip. Like a coquetical plover the little boat tacked on its eccentric way until at last its white sail was lost to sight against the larger bulk of the fruiter's side.  
"That's old H. P. Mellinger," explained Keogh, dropping back into his chair. "He's going back to New York. He was private secretary of the late hot-foot art at one step of his eagle eye. The true genius of government shows its

the Albert Journal says that Morris Harman, a New York man, is to shortly reopen the manganese mines at Dawson Settlement, in Albert county. Considerable money was spent in developing these mines several years ago, but the work was abandoned before the company had obtained any returns on their investment.  
A meeting of the executive committee of the Fabian League was held last evening in Berryman's Hall. It was decided to have a series of public meetings during the coming winter. The first public meeting will be held on Thursday evening, October 11th. The subject to be discussed will be Free Books for the Children Attending the Public Schools.

EVIDENCE MAKES COLLINS SHAKY

Accused Murderer's Composure Shaken by Damaging Testimony—Miss McAuley's Property in His Possession—Watch He Carried Resembled Hers—Examination Resumed Yesterday, Will Be Continued Today.

HOPEWELL CAPE, Sept. 27.—The preliminary examination of Thomas Collins, charged with the murder of Mary Ann McAuley, adjourned from September 11th, was resumed in the court house at 2 p. m. today before Stipendiary Magistrate Stuart. Hon. Mr. Tweedie and Clerk of Peace Dixon for the crown and J. C. Sherrin, the prisoner's counsel, were in their places, and as usual a large assemblage of visitors were present, including many ladies, who pretty well filled the galleries. Miss McDonald, court stenographer, was in attendance, enabling the work of the examination to proceed with considerable dispatch. At the opening of the court the prisoner entered the room and composedly took his seat in the chair adjoining that of his counsel. Clean shaven and with his hair neatly brushed, and a pleasant expression which bordered on a smile on his countenance, the prisoner made a rather good appearance. He looked about the court room with mild interest and chatted with his counsel, smiling at the latter's remarks. The prisoner's composure somewhat deserted him, however, during the recital of some of the evidence, when he showed unmistakably the nervous strain under which he was laboring. The perspiration streamed down his face and he kept continually swiping one leg. His coolness under the trying circumstances is marvellous. William Williamson, the first witness, being sworn, said he lived in New Ireland and was one of the nearest neighbors of Father McAuley's, with whom he was acquainted. He knew the prisoner and recognized him in court. He first saw him at Albert and afterwards he came to his (Williamson's) house several times, on one occasion borrowing a razor, which he did not return. The witness had been working away from home and knew little of the circumstances of the murder. Wm. Bannister, the next witness, said he lived in Elgin. He identified the prisoner, whom he saw on August 20th, about half-past ten, having met him in a wagon with Bruce Harbell about 80 rods from Father McAuley's house. The prisoner got out of Harbell's wagon and came and spoke to witness, asking if he had seen Father McAuley's horse. Witness and his father sold him, no, and the prisoner asked for a ride to Albert. He went and got two valises from the other wagon, and had also a pair of reins in his hand. Witness was shown a valise and asked if it was the one shown in court, and that it seemed somewhat smaller than that which the prisoner had, but he could not swear whether it was the same or not. Witness stated the prisoner went with him and his father as far as the Kent road, where he left them. To Mr. Sherrin the witness said: "The prisoner's valise seemed lighter than the one shown in court and he would not think they were the same." Daniel Lynch, who said he lived in St. John, west side, and was employed with the Union Ice Co. He saw the accused, Thom. Collins, at Spruce Lake on the 21st of August, seven and one-half miles from St. John. It was half-past six or seven o'clock in the evening. At the house where he saw the prisoner some others were present. Collins asked him where he could get a boarding house. He had a grip in his hand very similar to the one shown in court. One of the men told the prisoner he did not know where he could get board and Collins walked on. He next met the prisoner on Wednesday with Wm. Dean. Collins was driving Dean's team. Dean offered to treat, and asked Collins if he had any money. The prisoner took out a pocket book and extracted about 35 cents and gave it to young Dean, and then they went into Martin's store, where several others were. Collins called for a drink of tea. After drinking they went into the piano room. A couple of ladies were present. Collins sang two songs, step danced, and later on showed one of the women a lady's gold watch. There were three initials on the case on the inside, the watch being a hunting case with the letter 'M' on the outside. The prisoner said it was a present he had given to his girl, who had died suddenly and returned the watch. Collins also asked witness for work. The prisoner on this occasion also showed a silver watch, but did not say where he got it. Collins left with young Dean. The witness next saw Collins in the police station in St. John, having been taken there by Detective Killen to identify the prisoner. Collins recognized him, and in response to the detective's statement that the witness would swear that he had seen the prisoner with a lady's gold watch, Collins said: "One man's word was as good as another's." To Mr. Sherrin the witness said he did not know whether the Martin place was respectable or not. He visited it only when waiting for the train. He knew the girls well. Referring to the watch shown by Collins, witness said the letter he called an 'M' was in script work, and he would not swear positively it was not a 'W'. He only saw Collins have the 35 cents spoken of. Joseph McCann said he resided in St. John west, and was foreman for the Union Ice Company and yard master for the Spruce Lake railway. He saw the prisoner near Spruce Lake on Tuesday, August 21st. Had had no conversation with him then. He was carrying a valise similar to that shown in court. He saw the prisoner on Wednesday driving Dean's team with him. This was at Martin's place. He saw him give Dean some money, and they went into the house. The pocketbook Collins had was about four inches long, with a strap. The prisoner said he was

REV. D. HUTCHINSON LECTURES ON HIS TRIP Winnipeg's Civic Government Favorably Impressed Him—Tells Capitalists to Invest in Home Industries

NEW COMPANIES SEEK INCORPORATION Several St. John People Promoting New Enterprises—Real Estate Company For Welsford—Fails at Hampton

DETECTIVE KILLEN'S SERVICES NEEDED Filippot Remark of a Speaker at Waterloo Street Church Meeting Caused Trouble

Rev. D. Hutchinson delivered a very interesting and carefully prepared lecture last evening in Main street church. His subject was From Ocean to Ocean. In speaking of his trip through the western provinces Mr. Hutchinson said that the people of the Maritime Provinces had no reason to complain of conditions here. The Maritime Provinces have resources which the other provinces lack. The fishing industry is an example. Nova Scotia easily stands first in this great industry, and New Brunswick second, while British Columbia stands last. The speaker said that the moneyed men of Quebec set the people of the Maritime Provinces a good example in investing their money in home industries. Continuing, he said he was greatly impressed with the manner in which the people of the city of Winnipeg conducted their civic affairs. They were most happy in electing men of enterprise, men who had the welfare of the city at heart and earnestly strove to keep the taxes at the lowest possible minimum. He pointed out that although Winnipeg was of comparatively recent birth, and in its rapid development needed hundreds of thousands of dollars to carry on its business, yet its pro rata taxation was below that of the older cities of the Maritime Provinces.

The man with something to sell can no more afford to be out of advertising than he can afford to be out of his store or out of his head.—Nathl C. Fowler, Jr., Boston.

The object is to carry on a general brokerage and real estate business. Edward C. Cole, P. W. S. Colpits, J. P. Hogan, V. G. Cole of Moncton and Geo. D. Ellis of St. John ask incorporation as the E. C. Cole & Co., capital, \$45,000, of 499 shares, with Moncton as their chief office of business. The object of this company is to take over and carry on themselves the men's and boys' ready-made clothing business carried on by E. C. Cole and F. W. Colpits in Moncton. Willard Kitchin of Kingsclere, H. G. Kitchin, Isaac G. Burden, P. E. L. J. Barry and T. Wesley Kitchin of Fredericton, applied for incorporation as "Willard Kitchin Company, Ltd." Capital stock \$50,000, of 500 shares of \$100 each. The chief place of business to be at Fredericton. The object of the company is to carry on a general contracting, constructing, engineering and mercantile business within Canada and to construct and equip railway and business connected therewith. Blake, all of St. John, ask incorporation as "The Vaughan Electric Company, to carry on the electrical business now carried on in St. John by Frank P. Vaughan. BETTING ON RACES RUINED BANK CLERK

MONTREAL, Sept. 27.—Betthing on the races was the cause of the downfall of J. S. Cather, the Bank of British North America clerk who disappeared on Monday with about \$25,000 of the bank's money. The direct cause of his detection was a bet he made of \$3,000 on a New York race, which he lost. Hitherto his bets had been modest, but this was apparently a do or die effort to regain what he had lost and square his books. The loss came to the ears of a city detective and he informed the bank authorities. The teller immediately took Cather out of the teller's box and placed him at other work pending an investigation made for the purpose of discovering if there was anything wrong. It was while this was on that Cather gave the city detective who had him under surveillance the slip and went off, it is said, to New York.

The articles seized recently by the local customs inspectors were sold at public auction on Thursday last, in front of the Customs custom house. They included a horse, wagon, harness, two thousand pounds of lead, three hundred pounds of rags and a number of lap ropes and horse collars, all of which were snatched in from the St. Stephen side of the line. There was spirited bidding for the goods and the customs department received a goodly sum from the proceeds of the sale.—Courier.

The Sussex Packing Co. has just closed a contract with a Winnipeg produce house for \$5,000 worth of stock. The stock has already been purchased, and will be placed in cold storage and shipped to order at the rate of one car a week. C. P. R. refrigerator cars will be sent here to carry away the meat. The order is a very large one and shows the possibility of doing business with the western houses even to the matter of supplying meat. The Packing Co. certainly deserves credit for being the pioneer in this province in getting next to the Winnipeg markets.—Sussex Record.

The instructors are thoroughly competent, and under their care beginners learn rapidly. The Neptune boys are selling their tickets rapidly. There was only a certain number issued, as the capacity is limited. When these are sold no more will be issued, and they are being sold on the first come first served principle.

The number of laborers who took advantage of the recent harvest excursions from eastern to western Canada was 23,657, which is 6,799 more than last year. For the journey west the laborers paid \$12 each, amounting in all to \$284,064. It is calculated that about three-quarters of these, or 17,742, will return to the east, and pay an additional \$18 each to get back, for which in the aggregate they will pay \$319,356, making in all \$603,440 paid to transport the harvest laborers westward and home again. This sum will be divided amongst the different rail-ways in the east. The C. P. R. will probably get about \$400,000, and the rest be divided between the various feeding lines which brought the harvesters to the main line excursions.

When Jim Paul was attending the Sportsmen's show in Boston last winter, he met a good many gentlemen who expressed a wish to come to our province to hunt big game. Three other guides, together with two helpers and two cooks will accompany the party. The party will consist of Jas. E. Broadhead, Farmington, N. B.; A. L. Powell, G. H. Davis, Martin Cantin, T. M. Price, New York. Mr. Broadhead was here last year and was so pleased with the way in which "Jim" handled things that he returns again this year.—Gleaner.

**RIGID INSPECTION**

**BY U. S. OFFICIALS**

**New Regulations Went Into Effect Yesterday**

**And Passengers From St. John and Other Points Will Be Bothered Worse Than Ever—They Must Give a Lot of Information.**

In the past people entering the United States have been subjected to a great deal of inconvenience by the United States immigration inspectors and at times cases have arisen which called forth bitter complaint because of injustice done. This there will be no more.

The immigration department of the United States, in an effort to exclude from that country all that may in any way be considered undesirable citizens, has decided that an examination similar to the one for "first papers," or the preliminary step towards naturalization shall be made at the border. Hence under the new regulations all persons from Canada who intend residing in the States will be put through their paces before they are allowed to enter the country.

The different inspectors have been instructed to secure from all intending citizens full information relating to his place of birth, the date of that unhappy event, his past career in business, and a lot of personal facts. The examination does not displace the one held on declaration of intention of naturalization, but is along the same lines and is essential before citizenship may be attained.

In the past no physical examination of passengers has been made unless the appearance of the person was such as to attract attention, nor will this rule be changed for the present, although the financial requirements remain the same just now, but it is understood that certain amendments on both of these points will be made shortly.

These new regulations will mean a lot of extra work for the inspectors in St. John, and in fact all along the Canadian border. The officials here are at present busy with the influx of immigrants, and it may be that the staff at St. John will be increased, but nothing of this is known as yet.

A wedding supper was served immediately after the ceremony.

**"Vesta Tilley" Sailors.** **New "Rob Roy" Shape.**

Sailors—High crown and wide flat rim—are in excellent taste and keen demand, and seem to be the favored shape for Misses in the American cities. We have them in felts of various colors, with deep velvet bands and conspicuous choux—or rosette-of-velvet. Ornaments and Quills also.

SATURDAY IN THE MILLINERY ROOM—SECOND FLOOR.
