

WHAT DEMOCRATS LIKELY TO DO AT SAN FRANCISCO

Action Will Depend in Large Measure on What is Done by Republicans at Chicago.

WILL STAND PAT ON PROHIBITION

Unless the G. O. P. Introduces a Wet Plank—Have Bryan Safely Bottled up.

By Frederic William White. (Copyright 1920 by Public Ledger Co.) Washington, June 1.—What the Democratic party will do at San Francisco depends largely on what the Republican party did there previously in Chicago. If the Republicans nominate an eastern man, the Democratic presidential nomination is likely to go to a westerner. If a westerner heads the Republican ticket, the Democrats will go east for their chief standard-bearer. On the equally important question of platform, Chicago, too, will not be without its influence on San Francisco.

It may be taken as fairly certain that the Democrats will "stand by the president" on the treaty question. The spirit, if not the letter, of the presidential veto of the Knox peace resolution will be written boldly into the San Francisco plank on foreign relations. There is to be no unnecessary aggravating insistence on Mr. Wilson's undoubted and unequalled treaty. There may even be a concession to mild reservationists in the form of acquiescence in any reservations that reserve without nullifying the treaty.

On the other cardinal 1920 issue, if it is to be prohibition—the Democrats will only be moved to motion their platform by similar action at Chicago. It is the present intention of the party to stand pat on the eighteenth amendment as a piece of accomplished statutory law. If the D. P. loses up party strategy will require the Democrats to follow suit, but nothing else will.

The committee on resolutions will contain fifty three members. It has already been ascertained that thirty seven of them will be dry. The drys will include William Jennings Bryan, who is expected to make himself Nebraska's representative on the platform's writing committee.

He may seek to commit the convention to going further than supporting the eighteenth amendment. Party leaders hope he will not force that issue. There is not the slightest chance that Governor Edward I. Edwards of New Jersey, can impose a "soaping wet" plank. His devotees, as above indicated, will be hopelessly out-numbered on the resolutions committee.

While McCadeo, Palmer and Cox continue to be the Democrats' chief opponents, it is not in connection with the San Francisco nomination, the best judgment of the party registers them and foresees a dark future for them. John V. Davis of West Virginia, whose name will be presented to the convention, now is being much talked about, though the eleventh hour projection of his name into the contest has not aroused any excessive enthusiasm. Admit his qualities and fitness, but organization Democrats say he is not sufficiently known to the rank and file of the party. Washington, congress and the administration set know him as the brains' solicitor general who was appointed ambassador to Great Britain in 1918, and supreme court justice and lawyers accounted him the brains' solicitor general who ever pleaded at Uncle Sam's bar in contemporary times. But in the country at large people ask "who is Davis?" Democrats are also pointing out that the ambassadorship to the Court of St. James, at this particular juncture, is not exactly a political asset for a man running for public office in the United States. Davis has sent word from London during the present month that he would not refuse nomination, about which the "Keep an eye on Tom Marshall" is a piece of advice certain Democratic sages are handing around. The vice president is widely considered a prime compromise possibility at San Francisco. He is known to be a receptive, if not an avowed, aspirant and sufficiently well known to wrangle to pacify both Wilson and the anti-Wilson Democrats.

Champ Clark will be heard of at San Francisco, and perhaps with some fervor. He has a lot of Democratic friends who have never forgotten or forgiven what happened at Baltimore in 1912 and feel that the veteran Missourian, although he has entered the septuagenarian class, is entitled to poetic justice at the party's hands.

Perhaps the newest name on the Democratic presidential horizon is that of Senator Alton Pomerene of Ohio. He is brought forth as the ideal candidate on the big issue that current events are bringing so conspicuously to the fore—the revelation of huge presidential campaign barrels. Senator Pomerene defeated ex-Governor Myron T. Herrick of Ohio for the senatorship in 1916 very largely on the campaign-barrel issue. He stumped the Buckeye state from end to end, making tremendous and effective use of the charge that Herrick money had flown in streams to beat Pomerene, and Ohioans elected him. Senator Pomerene is a member of the subcommittee now investigating presidential campaign expenses and has been very active in cross-examining witnesses.

The administration and its friends expect to have a safe control of the San Francisco convention. They expect a little trouble on the treaty, on the prohibition question, and possibly in connection with Ireland. They look forward to having "put Bryan in his place" on one or all of these issues. They conceive that the peerless one has "a certain nuisance value," but assert that by no possible combination or parliamentary skill will Bryan be able to marshal the 364 votes required to give him obstructive strength under San Francisco's two thirds rule. A careful count of noses has been taken which insures that the command, it claims against Bryan's, either of nominee or platform.

FRENCH PRESIDENT LIKELY TO RESIGN

Is in Bad Health — May be Superseded by Marshal Foch.

By Wythe Williams. Copyright 1920, by Public Ledger Co. Paris, June 1.—It is more than likely that President Doumergue will be unable to resume the duties of the presidency. Probably he will soon tender his resignation and a new chief of state be chosen. In such an event one person mentioned as his successor is Marshal Foch.

French parliament circles are busying with excitement today over the situation at the Elysees. In the corridors of both the Chamber of Deputies and Senate it is declared that the illness of M. Doumergue had as its main cause a state of bodily and mental fatigue which has existed for several months and which cannot be remedied without long repose, that not before winter at the earliest could M. Doumergue take up the heavy duties of his office. His illness is described also as the same as that of President Wilson. It is further argued that at his age, 66 years, there is little chance of his regaining permanent vigor sufficiently to remain in office.

In the official notice of the president it is hoped that a few weeks will show such a decided improvement that the idea of resignation may be abandoned or postponed. But it is also far graver than the effects of his fall from the train.

There is no vice president in France to assume office, so the only possible programme when a president dies or is unable to keep the post is to have a new election.

NEW YORK MARKET IN A SLUMP

General Money Market Contracted With the Advent of June, Call Loans Going to 10 Per Cent.

New York, June 1.—Stocks were alternately heavy to weak throughout today's lethargic session, further selling of the more volatile issues by institutional investors being impelled by adverse happenings over the double holiday.

The higher rates of discount imposed by the local Federal Reserve bank, as well as by branches in the Middle West, were supplemented by statements from officials of the main Federal Reserve banks directing renewed attention to unsatisfactory credit conditions.

Emphasis was laid upon the failure of production in some of the more essential lines of industry to catch up with consumption and adoption by the Lower House of the Cash-Bills Bill occasioned much unfavorable comment in financial circles.

The general money market contracted with the advent of June, although an unusually large amount in interest and dividend payments is to be disbursed. Little or no time money was available, and call loans rose to 10 per cent. In the final hour, after opening at six per cent. Leading stocks opened at losses of one to three points, closed being exceeded before noon.

Steele, equipments, motors and oil suffered greatest depreciation, but sugars, tobaccos, leathers, chemicals and shipping advanced to some extent before the close.

Rails were the only stocks to display moderate support, some of the secondary issues notably Rock Island and St. Louis and San Francisco, strengthening on buying of the character recently witnessed in those groups. Sales amounted to \$65,000 shares.

Liberty bonds were under almost continuous pressure, the second hour showing pronounced weakness, though recovering slightly at the end. The general list was irregular at moderate reactions. Total sales, par value, aggregated \$12,375,000.

Old United States Bonds were unchanged on call.

AM. SUMATRA CO. INCREASES CAPITAL

(Furnished by F. B. McCurdy & Co.) New York, June 1.—The stock holders of the American Sumatra Tobacco Company at a special meeting held today, authorized an increase in the common shares capitalization from \$15,000,000 to \$25,000,000.

Perhaps the newest name on the Democratic presidential horizon is that of Senator Alton Pomerene of Ohio. He is brought forth as the ideal candidate on the big issue that current events are bringing so conspicuously to the fore—the revelation of huge presidential campaign barrels. Senator Pomerene defeated ex-Governor Myron T. Herrick of Ohio for the senatorship in 1916 very largely on the campaign-barrel issue. He stumped the Buckeye state from end to end, making tremendous and effective use of the charge that Herrick money had flown in streams to beat Pomerene, and Ohioans elected him. Senator Pomerene is a member of the subcommittee now investigating presidential campaign expenses and has been very active in cross-examining witnesses.

The administration and its friends expect to have a safe control of the San Francisco convention. They expect a little trouble on the treaty, on the prohibition question, and possibly in connection with Ireland. They look forward to having "put Bryan in his place" on one or all of these issues. They conceive that the peerless one has "a certain nuisance value," but assert that by no possible combination or parliamentary skill will Bryan be able to marshal the 364 votes required to give him obstructive strength under San Francisco's two thirds rule. A careful count of noses has been taken which insures that the command, it claims against Bryan's, either of nominee or platform.

BRITAIN MAY WAIVE DEBTS OWED BY ALLIES

Such Procedure Regarded as Possible to Adjust International Financial Status.

By Sir George Paish. Copyright 1920, by Public Ledger Co. London, June 1.—The reported agreement between Britain and France's indebtedness to her in proportion to the deficiency in Germany's reparations payments has brought a request from Italy for similar treatment, and seems probable that Great Britain ultimately will waive the whole of the debts to her of other Entente nations if by so doing a workable plan for adjusting the international financial situation and foreign exchange can be arranged.

The acceptance by the German Government of an invitation from the Supreme Council to be represented at the Spa conference to discuss and agree upon the total of reparations to be made at Spa and at Brussels toward a solution of the most difficult economic and financial problems with which the world has yet been confronted. That hope is responsible for the great improvement in Germany and other changes this week, although Otto H. Kahn's interview in the Times, pointing out the difficulty of obtaining further credit in the United States in any circumstances has somewhat dampened the optimism and brought about a sharp reaction in exchanges. What ever else the conference may do they should throw a great deal of necessary light upon a situation which very few persons understand.

British bankers continue to apply pressure for the purpose of keeping their loans within reasonable limits. That explains the fall that is taking place in certain securities, the prices of which were maintained at an unduly high level by the ability of merchants to carry large stocks with borrowed money. The restricted supply of short loans and the large number of bills setting discount has caused the market to have recourse to the banks for loans of moderate amounts of money at 7 1/2 per cent.

The financial situation in Japan is being watched with much interest, as the weakness disclosed there is expected to be indicative of what may happen in other countries where war prosperity has created an excessive degree of confidence.

Crop conditions in the United States are awaited with very great interest. The European crops are expected to be good, but the total production, in the absence of supplies from Russia, small American crops and the exhaustion of Australian cereals, the total quantity available for Europe is expected to be very small, while the prices of food probably will be maintained at a high level.

GERMANS EXPECT TO SMASH TREATY

Minister of Finance States That Such is Their Hope in Entering League of Nations

Berlin, June 1.—Dr. Reinhold, the Saxon Minister of Finance, speaking at Dresden, made the following amazing frank statement of the German position: "The League of Nations, of which I hope Germany is going to become a member with equal rights, must be a league for the rebuilding of the world, that is to say, it is impossible for us ever to come to terms with the peace of Versailles. For us, the treaty exists only as a sham which we must break."

In the course of his speech, Reinhold also gave away completely the foundations on which hopes are built by those who believe the Versailles peace can be regarded as a "scrap of paper."

"A certain change," he said, "has taken place in the attitude of the Entente towards Germany. France's object is no longer the object of England and Italy. France no longer has a free hand, because England needs Germany as a purchaser of her raw materials and as a bulwark against the East. The Bolshevik advances towards Persia is painful for England, as is the fating up of the Islamistic fanaticism. A new power is rising in the East, whose possibilities we cannot yet foresee, but from it there emanates a threat which will force the Entente to reckon with us again."

How far those wild ideas are shared by other responsible circles it is impossible to say, but they are finding daily expression in German military and reactionary organs.

Was A Victim of The Big Explosion

Mrs. Chapman Says Nothing Restored Her Shattered Health Until She Got Tanlac.

"I am so deeply grateful for the wonderful way in which Tanlac has restored my health, that I feel it my duty to tell everybody about my experience with the medicine. My nerves and my health was never the same afterwards. My digestion became so upset that I could scarcely eat anything but what I would suffer most severe pains in my stomach afterwards. More often than not I hardly slept all night, and nearly every day had nervous headaches that almost drove me wild. I got very depressed and discouraged, for in spite of special treatment I didn't seem to get any better."

"After I was well enough to travel I came back here to St. John's where I was born, thinking that the change would do me good, but it wasn't until I started taking Tanlac that I began to pull round. It has simply done me a world of good. It first of all gave me an appetite so that I could eat better than I had done for a long time before. I can now eat anything I wish without ever suffering any indigestion or pain afterwards. That tired, depressed feeling has left me, and my nerves are quite steady and strong again now. I am no longer bothered with headaches, and feel stronger and better in every way. Tanlac is indeed a great blessing to suffering people, and I hope this statement may lead others who suffer as I did to try it."

Tanlac is sold in St. John by Ross Drug Company and the leading drug list in every town, under the personal direction of a special Tanlac representative.—Adv.

POPULATION OF MONTREAL 706,600

Assessable Valuation of Property is Placed as \$856,213,006, of Which \$224,748,471 is Exempt.

Montreal, June 1.—The report of the Board of Assessors of the City of Montreal, up to the end of the year 1919, shows that the assessable valuation of property is \$856,213,006, of which \$224,748,471 is exempt from taxation. The increase in valuation is \$2,209,616 over 1918.

The population of the city of Montreal, not including any of the surrounding municipalities, is returned as 706,600.

The taxable valuation on land and buildings owned by big companies of Montreal shows C. P. R. as \$18,457,720, and the Grand Trunk as \$10,519,900.

There are in Montreal 37,793 dwellings rented to tenants, while other dwellings, occupied by the owners, number 6,452.

WILSON SIGNS THE COTTON BILL

Washington, June 1.—President Wilson has signed the Agricultural Appropriation Bill specifically providing that the amendments to the Cotton Futures Act, providing for Government classification of cotton grades for delivery and for a reduction in the deliverable grades of cotton from twenty to ten grades, shall be permanent legislation.

FROST HITS STRAWBERRIES.

Calgary, Alta., June 1.—Owing to frosts recently experienced in the Gordon Head district in British Columbia, there is likely to be a shortage of about a fifth of the strawberry crop this year, states J. A. Grant, British Columbia fruit commissioner, while visiting here. The first blossoms of the crop have been frozen, but it is hoped the crop will pick up sufficiently to produce a fair amount.

GERMANY FEARS REVOLUTION AT ELECTION TIME

Government Frankly Says Menace is Very Grave.

QUESTION OF DEFENSE Loyalty of Troops in Doubt —Germany to Enter League to Break Treaty.

Berlin, June 1.—All Germany is in a state of nervous apprehension. Within ten days of the general election the air is full of rumors of an impending coup, or rather a series of opposing coups. The Nationalists and Communists accuse each other of plotting and every day brings its "revelations." To a certain extent these are only a matter of electioneering tactics, but at the same time it is impossible to ignore the accumulating evidence that the situation is full of serious possibilities. So uneasy is the public feeling that the Government has felt itself compelled to issue a long statement in which are reviewed all the reports in circulation and to draw certain conclusions. These, however, are of such a vague character that they have entirely failed to restore public confidence.

"It is impossible to deny," is the pith of this communique, "that danger exists, both from the right and left. Both dangers are serious, but they are not acute and they can be overcome if faced boldly."

One ineluctable factor of the situation is whether the Government, however boldly it might wish to do so, has the power to enforce its will, the possibilities of a military coup are based on the existence of the so-called free corps of temporary volunteers, Baltic troops and other formations, which though nominally demobilized, wholly or partially, are still in being, either under new names in the recognized forces, or as armed individuals, linked together by various secret organizations.

In short, elements are present and willing when it is believed that the moment has arrived, to attempt to seize power by force of arms and the trust of the situation is that not even the Government itself knows how far the regular forces can be relied upon to oppose any such coup. It is doubtful whether it is really able to do more than await events.

TO HAVE NEW HOME.

Edmonton, Alta., June 1.—A highly picturesque home on 101st street, was issued recently. It will be four stories high and occupy a frontage of 50 feet and be 122 feet deep. There will be a large concrete basement, while the remainder of the structure will be of concrete and brick.

Cheap Garbage-Burner.

Knock out the bottom of a discarded ash-can and use for burning garbage and waste paper. This is especially good on windy days, when sparks are dangerous.

"MYSTERS" SCORED.

Windsor, Man., June 1.—Ambulance chasing lawyers were scored severely by Chief Justice Mathers, of the provincial court of King's bench, when he addressed the members of the Manitoba Bar Association. His subject was "Legal Ethics." Chief Justice Mathers spoke with severity on "ambulance chasing," pointing out that it is unethical and most unprofessional for a number of the bar to solicit such business as comes from street accidents or to induce individuals to enter into litigation.

Why?

People prefer pills provided prompt and proven performance. Beecham's Pills are used by people all over the world and have the largest sale of any medicine in the world!

BEECHAM'S PILLS

The City League Game Last Evening

The War Veterans Defeated the Alerts by a Score of Six to Four—Accident During the Game.

In the City League game on Peter's grounds last evening the War Veterans team won by a score of six to four in six innings. The Alerts started out like winners in the first inning when three crossed the plate and the Vets were left with a 3-0 lead. In the third the Vets had a merry-go-round and made their six runs which won the game for them. The Alerts made runs in the fifth and last inning but only added one more run giving the total of four.

An unfortunate accident happened during the game when Sterling, Vets' centre fielder was running home he collided with Stafford, Alerts' catcher and the latter was knocked unconscious for a short time. The game showed some smart play at times and there was a good attendance of fans present. The following is the official box score:

AB	R	H	PO	A
Costello 1b	0	0	0	0
Stewart 2b	0	0	0	0
Stafford c	0	0	0	0
McGovern ss	0	0	0	0

Mon. 6—Portland vs. St. Roses.

DEFENDED TITLE
Paris, May 31—Billy Balesac, mid-weight pugilist champion of France, successfully defended his title at the Cirque de Paris, Saturday night, by defeating Perrier.

The bout was scheduled to go twenty rounds, but successive blows to the jaw sent the challenger helpless to the canvas in the seventh.

ST. GEORGE TEAM COMING.
The St. George team is coming here tomorrow to play a game on the Dufferin diamond, North End with the Wolves as opponents.

With Fighters Monday Night

London, May 31—Charles Ladox, of France, tonight knocked out Jim Higgins, of England, in the eleventh round of a twenty-round bout. The bout was for the bantamweight championship of Europe, which is held by Ladox.

Britton a Winner.
Akron, Ohio, May 31—Jack Britton won the newspaper decision over Johnny Griffith, of Akron, in a fifteen-round newspaper boxing contest here this afternoon. Britton won nine rounds, Griffith took four, and two were even. The intense heat seemed to slow up both boxers, but Britton finished the strongest, taking the final round by a wide margin.

Englishman Trimmed.
Jersey City, N. J., May 31—Frankie Burns, of Jersey City, easily outpointed Freddy Sacks, of England, in a twelve-round bout here tonight. Both made the stipulated weight of 124 pounds or under. Jacks failed to place even one round to his credit.

Johnny Buff, of Jersey City, scored a technical knockout over Willie Burns, of Jersey City, in the sixth round of an eight-round match, when the referee stopped the contest to save Burns from further punishment. Buff weighed 114 pounds and Burns 114.

Erratic Book On Eve of The Derby

The Two Thousand Winner, Tetraema, is Indeed a Firm Favorite at Nine to Four, Price Unusually Short.

London, June 1—(By Canadian Associated Press)—The eve of the Derby has seldom presented a more erratic book on the great race. The two thousand winner, Tetraema, is indeed a firm favorite at nine to four, a price unusually short, due to a good deal of uncertainty regarding Mr. R. P. Phelan's Alamy. This colt ruled first second favorite and even for a time challenged Tetraema in the betting market, after his win early in May of the Newmarket stakes in record time. Just before the race he had been reported "off" in his training and the same disquieting rumors have now sent him out to one, with both Sir J. Buchanan's Sarchedon and Lord Derby's Archard at a trifling shorter odds. The position, however, may be changed before the lot goes to the post at Epsom tomorrow afternoon.

Captain Loder's Spion Kop who has shown steady improvement, this season, is quoted at a hundred to six and with the four mentioned above constitutes the pick of the field which may run as high as a score. Among other probable starters are Potametic, He Goes, Ophus, Silvena, Dynamo, Abbot's Trace, Daylight Patrol, Attilus, Poltava, Bruce Lodge and Kenosae.

Tennis Champ Sensation

Paris, May 29—Zeno Schmitz, the Japanese tennis player, who holds the championship of Japan and India, is proving the sensation of the world hard court tennis tournament being played here. The Oriental racket wielder reached the semi-final round yesterday by eliminating Nicholas Mishu, the Rumanian star, in a five-set match which the latter defaulted, due to exhaustion. Mishu won the first and third sets, while Schmitz took the second and fourth. The fifth and deciding set was long drawn out, and the Rumanian finally was forced to default owing to his inability to

Fredericton And Houlton Races

Track Managers Working in Close Co-operation—Favorable Adjustment of Programmes—Much Interest Being Taken.

Fredericton, June 1.—The Fredericton and Houlton race track managements are now working in close co-operation, one result of which will be a favorable adjustment of the programmes at the "curtain raiser" meeting here and the Maritime and Maine Circuit opening the following week at the hustling Aroostook town.

Dr. E. P. Henderson, secretary of the Houlton track, sent word today that their programme on July 5th and 6th would probably be divided so that the 2.13, 2.17, 2.19 and 2.22 mixed classes would take place the first day and the free-for-all, the 2.24 trot and the 2.30 pace on the second day.

The local management, in drawing up their programme will so arrange it that the horses will have as long a heat as possible between the days they race here and at Houlton, which would bring the 2.14 and 2.16 mixed events and the 2.19 trot on June 30. The first day here and the free-for-all trot and pace and the 2.24 trot on Dominion Day.

OPENING OF GOLF COURSE

The official opening of the Riverside Golf and Country Club will take place on the King's Birthday, Thursday, June 3rd.

A president vs vice-president match will be held in the morning. Lunch will be served at 1 o'clock. Mixed foursomes will be played after luncheon and tea will be served by the ladies at 5 o'clock.

It is hoped that there will be a large attendance of both lady and gentlemen members to make the opening a success.

It is hoped that there will be a large attendance of both lady and gentlemen members to make the opening a success.

A JUNIOR GAME

The Careless Juniors defeated the Rockwoods in an exciting and interesting game on the Port Howe diamond last evening by a score of 12-4.

The batteries for the winners were Marr and Okolan, for the losers Potts and Whittier. The feature of the game was a home run made by Chris Murphy. The umpire was Daley.

Trapshooting This Evening

First Evening Meet at Glen Falls Traps—Business Meeting Follows—Matter of Financing Representatives to Olympic Games.

This evening promises to be an interesting evening at Glen Falls, when the St. John Trapshooting Club will start their first regular evening shoot. Each member of the Club is expected to attend this shoot, particularly those that are officers of the Club, as immediately after the shoot a business meeting will be held to discuss the best way to raise money to finance their members who have shot high over all of Canada in the Olympic trials, and who have promised to attend the World Championship meet at Antwerp, July 25 to 31.

The Club has spent a lot of money and several members have worked hard to prepare two representatives, Messrs. Killam and McLaughlin, to make the Olympic Team and put St. John on the map as a real sporting town. It is very likely that the Club will be obliged to ask the city and the New Brunswick Government for a donation to defray these representatives in this world's meet.

Should the Club get no support in this movement, the only thing left to be done is to give up the idea of St. John being represented at this big event, or else get out a subscription list and go around among the citizens and make a collection. It is estimated it will take about \$2,000 to finance this sport.

THE INTERMEDIATE LEAGUE GAME

St. Roses Trimmed Carleton Last Evening by Score of Ten to Three in a Nine-Inning Game.

In the Intermediate League series on the Queen Square diamond, West End, last evening the St. Roses defeated Carleton by a score of ten to three. About five hundred fans witnessed the game which was very fast at times, and the full nine innings were played.

O'Toole and Murphy was the battery for St. Roses, while Bailey, Harrington and Johnson worked for the losers. The umpire was Wm. Hanlon.

Shamrock IV. Given A Trial

Sir Thomas Lipton's Challenger for the America Cup Was Tried Under Her Own Sail Yesterday on Long Island Sound.

City Island, N. Y., June 1—Sir Thomas Lipton's yacht Shamrock IV, challenger for the America's Cup was tried under her own sail today for the first time since being brought to the United States in 1914.

In a breeze of about 10 knots, the reconstructed green racer was put through her paces on Long Island Sound. In the aggregate she had about a 20-mile spin, crossing the Sound to Hempstead Harbor and then back towards Larchmont.

Captain William Burton who will sail Shamrock IV in the international series that starts off Sandy Hook, July 15, was at the wheel. At the end of the trip all aboard stated they were pleased with the way the yacht stood up in a breeze that was decidedly stronger than the one that carried away Resolute's mast off New Haven a week ago Saturday.

THE WOODCOTE STAKES

London, June 1—(Canadian Associated Press)—The Woodcote Stakes today were won by Humorist, 11-8, Highlander 2-1, was second and Pointer, 20-1 was third. Twelve horses ran.

TRIP ABANDONED

New York, May 31—Miss Marion Zinderstein, the Boston tennis star, who was unable to leave here May 29, with the Davis Cup team, has decided to abandon her trip to England where she was to compete for the Women's British Tennis Championship at Wimbledon.

Before becoming an actor, Richard Bennett was a waiter at St. Paul and later a sailor.

Gloucestershire Was Outplayed

Yorkshire Yesterday Won by an Innings and 55 Runs—Other English Cricket Results Received.

London, June 1—(By Canadian Press)—Yorkshire completely outplayed Gloucestershire today winning by an innings and 55 runs. The scores were Yorkshire, 229, Gloucestershire 60 and 134. For the winners Waddington took nine wickets for 80 runs.

A high average of run getting marked the Essex-Surrey match. The totals were Essex 248 and 228; Surrey 232 and 156 for six wickets. Surrey won by four wickets. Rev. Gillingham, a London clergyman, made 96 for Essex, but the match was finished when Noel scored 213 and 144 for seven wickets and declared. Middlesex scored 98 and 109 and Nottingham won by 141.

Rain caused much delay also the Kent-Lancashire and Northamptonshire-Warwickshire matches. Kent, however, beat Lancashire by 104 and Lancashire defeated Sussex by ten wickets. Warwickshire, 181 and 263, beat Northamptonshire, 327 and 63 by 255 runs.

Walthorpe's five wickets for 24 for Warwick and Cook's six wickets for 23 for Lancashire were the best bowling performances in the present matches.

7 MILLBANK, LONDON, ENGLAND

Why Have "Millbanks" Become So Popular?

Because every introduction leads to lasting friendship. It is a case of "love at first smoking."

One smoker offers "MILLBANKS" to a friend. The friend is delighted with these mild, fragrant Virginia Cigarettes and buys a package for himself. This is happening many times a day in every section of Canada. The reason is easy to find.

MILLBANK VIRGINIA CIGARETTES

have the delightful, distinctive flavour of ripe, mellow, sun-cured Virginia tobacco—coupled with the richness and satisfying qualities found only in the highest grade leaf at its best.

The fact that the price is 15c for 10 is simply an additional reason for preferring "MILLBANKS."

10 for 15 Cents

Why? People prefer pills provided prompt and proper performance. Doan's Pills are used by people all over the globe and have the largest sale of any medicine in the world!

The St. John Standard

Published by The Standard Limited, 83 Prince William Street, St. John, N. B., Canada. H. V. MACKINNON, Manager and Editor. THE STANDARD IS REPRESENTED BY: Henry de Clerque, 1 West 24th St., Chicago; Louis Klabin, 1 West 24th St., New York; Freeman & Co., 1 Fleet St., London, Eng.

ST. JOHN, N. B., WEDNESDAY, JUNE 2, 1920.

THE FOSTER GOVERNMENT'S POLICIES.

The Telegraph wants to know why the Foster Government should be opposed in view of the "progressive" policies it formulated and is attempting to carry out. It contends that the Government's water-power policy, its highway policy and its administration of the Crown Lands, are such as to make it deserving of continued public support.

The Government's proposals for the development of the water powers of the province look very well on paper, and sound very nice when they are talked about, but it needs a good deal more than is as yet apparent to warrant anyone coming to the conclusion that they are likely to end in anything more substantial than just proposals. A general election is looming up in the not distant future, and the Government must necessarily have something to offer the people as a bid for their continued support.

The Government's highway policy as so far disclosed seems to be nothing else than a money-squandering orgy. As much money as can be got together for the purpose is being spent in different localities the northern part of the province more particularly, with pretty nearly every man and boy and team employed in order that as possible shall share in the loot, thereby increasing the popularity of the Government among those who have automobiles, but the ordinary country roads that the farmers and "common people" use, have not benefited by the Government's wonderful highway policy.

The Government's forestry policy does not differ from that pursued by their predecessors. The same Crown Land survey is going on the same old, old Col. Loggie and Mr. Prince, are in charge of the Department's affairs; the only change is the creation of a Forestry Board, which meets once a quarter, for the sake of appearances. The real heads are the two officials mentioned, and they are doing the same work as always.

The Government is in receipt of a revenue greater by hundreds of thousands of dollars than was ever enjoyed by any Government before, and yet they come out year after year hundreds of thousands in debt. Their one idea seems to be to spend not only every cent they get as fast as they get it, but to spend money they have not got and don't know how to get. Some one will have to lay the pipe sooner or later.

TEMPERANCE REFORM IN SCOTLAND.

"Pussyfoot" Johnson predicts that in a few years Scotland will go "dry," but he admits that the cause of prohibition all over the world depends upon prohibition in the United States. Should the Supreme Court decide the amendment unconstitutional, as it is being asked to do, or should the amendment be repealed, or should there be such law enforcement of the law that prohibition will become the sort of joke it has been in the State of Maine for half a century, then the cause of world prohibition will be set back a hundred years. The Mail and

Empire points out that on June 1, an Act becomes operative in Scotland under which local option elections may be held, and thus gradually, if the temper of the people approves, the whole country may refuse to have intoxicating drinks sold. But the fact that local option becomes a possibility is not a sufficient reason for predicting a "dry" Scotland in the near future. On this continent local option was in effect under various forms for some decades before there was prohibition. In fact, the principle of local option, as it has been tried and found acceptable, had to be abandoned before prohibition could become operative, for while many localities became "dry," many remained "wet." There can be little doubt that in Ontario today there would be many a moist oasis if local option were in effect.

Prohibitionists, of course, do not believe in local option. They regard it as the lesser of two evils, and as a mere temporary expedient. Undoubtedly it has helped their movement, and probably will do so in Scotland. When one locality goes "dry" and the consumption of liquor within its boundaries is not lessened, an account of the ease with which it can be obtained across the road, naturally the "drys" begin to agitate against the neighboring "wets," and thus the limits of aridity spread. In other words, it is the frequent failure of local option to lessen drinking materially that paves the way for the experiment with prohibition. The prohibitionists say in effect: "Now, prohibition is the only cure for the drink 'evil.' You think it can be combated by local option? Very well, we will 'help you get local option, and after it has been in force while you will realize that it does not prohibit, and will be ready for the real cure." In Great Britain, prohibitionists have a long, rocky road to travel, despite the fact that a realization of the evils of excessive drinking has seized English-speaking peoples as never before. It seems unlikely that there will be a return to the conditions that existed before 1914; the time when Scotland will be one dry appears equally remote.

BRITISH-MADE MOTION PICTURES.

An attempt is being made to introduce into this country motion pictures made by British artists, with the view of making the Canadian people better acquainted with British ideas, bylines scenery and British achievements. There are now five companies engaged in England and on the European continent making these pictures, the capital employed being supplied from English and Canadian sources. The idea is a good one; the effect of bringing these pictures to this country must be to materially strengthen the bonds of citizenship in a common Empire and create a closer sympathy between the two people. Hitherto the pictures shown in this country have been almost wholly of American origin, America, besides being the greatest picture producing country in the world, being practically the only source of supply. Naturally amongst these pictures, being meant primarily for American patrons, have had a thoroughly American flavor, and quite a large number of Canadians are getting somewhat nauseated with them, particularly such of them as attempt to portray British society life and manners.

To those who know anything of British society life, it is irritating enough to read the descriptions of it which are to be found in novels by American authors, without having it caricatured by picture players who never set foot in England in their lives. There is, unfortunately, a large class of picture enthusiasts in this country to whom British-made films will not appeal. There is a distinctly different tone and style between the British and American films. There is altogether too much realism of a certain kind in many of the American pictures which would not be tolerated in an English picture house for one moment, but to which the picture-goers in this country are accustomed. Without wishing to reflect upon or disparage the American productions in the slightest degree, it is nothing more than the truth to say that there is an air of refinement about the English pictures which is entirely absent in those made in the United States. This characteristic will probably lead a certain class of movie fan to vote them tame and flat, and lacking that "pop" that is to be found in American films, "pop" in this case being synonymous with what many people would be inclined to call vulgarity. There are, of course, many pictures made in the United States—probably the majority of them in fact—which are not the slightest objection could be taken on any ground, but there are also a very large number of others of which this cannot truthfully be said.

Those who were privileged to see the two pictures made by the Anglo-Canadian Film Co. that were shown in the Imperial Theatre on Saturday night and Monday morning, would be able to form a very good idea of the class of films being turned out by this company. In technique and artistic talent they were certainly equal to any

that are produced in the United States, with the addition that they depicted scenes taken on the spot where the play is supposed to be staged, and not in artificially manufactured representations of it. It is some of these British pictures could be shown here, a better idea of their qualities would be gained, and a demand for them in preference to the American article would be made.

WHAT OTHERS SAY

The British Merchant.

The career of the Hudson's Bay Company is but an example on a large scale of what the merchants of Great Britain are doing in comparatively minor scales to establish the mercantile supremacy of the Empire. Neither the burning suns of India nor the frozen northlands of this continent could deter the earlier and the later adventurers from gathering natural wealth, wherever it was to be found, and dispatching it to the great trading centre of London. Millions of men are laboring on land and sea, and actually completing the sale of their goods to the merchant, although they may have no conception of the cause they are promoting. Whatever the future may have in store it is certain that the present generation will neither see nor read of Macaulay's New Zealand standing on London Bridge and contemplating the ruins of what was once the greatest and the wealthiest city in the world.

Six Days Enough.

The City Council is to be commended for its firm attitude toward the proposal of a Detroit firm to sell Opium in a Detroit paper the other day stated that there would be Sunday selling of the property in question, of course the real estate men may get around the Canadian law, by merely showing property on Sundays and actually completing the sale across the river or on some other day of the week, but it is well that should know just where our authorities stand on such matters. When Canada is no longer able to do enough business in six days of the week, it will be time for Canada to shut up shop and retire from the field. We do not want here the Sunday conditions across the river.

Benefits of Prohibition.

(Toronto Globe.) Proof that prohibition does reduce drunkenness and crime attributed to drink is furnished almost daily by impartial official records from places where it is the force. Mr. Charles Chute, Secretary of the New York State Prohibition Committee, has presented a report which shows that 45,143 offenders of all ages were assigned in sentences to a decrease of 23.32, or 34 per cent. In the Magistrates' Courts of New York there was a decrease of 29 per cent. in offenders, and of 52 per cent. in cases of public drunkenness. The Niagara County Jail on August 1 had only 20 prisoners as compared with 62 a year ago. All of the county jails reported some decrease, and several had no inmates. A judge stated that in the opinion of practically all the Judges and probation officers consulted, the great decrease in court work was due to the effects of prohibition.

THE LAUGH LINE

Nobody ever does as much good as he really could do.

One of the curious things about this life is that a man will live to be 40 years old and still not get over the habit of taking off his hat to his soon.

The Truth. Gus—"Berlie is always bragging about his ancestral halls." Algy—"His ancestral halls means his grandfather made a fortune out of kippers."

Thoughtful Willie. Mr. Slim—"Willie, didn't you go to the trunk-maker's yesterday and tell him to send the trunk I ordered?" Willie—"Yes, pa."

Mr. Slim—"Well, here is the trunk, but no strap. Didn't he say anything about the strap?" Willie—"Yes, pa; but I told him I thought you hadn't better have any strap."

Not Her Fault. The young bride, after serving to her husband a dinner that was so so said, as the dessert of mincepie was brought on—

"I intended, dear, to have some sponge cake, too, but it was a total failure."

"How was that?" the husband asked, in a disappointed tone, for he was fond of sponge cake.

"The draught," she explained, "sent me the wrong kind of sponges."

All Fancy. "I believe in the wisdom of the plain people." "So do I," answered Miss Cayenne. "But so few of us are contented to be regarded as plain people!"

Another Paradox. A painful mistake is reported from North London. It appears that a young lady who went to a fancy dress ball as "The Silent Wife" was awarded the first prize for her over-impersonation of a telephone girl.

No Comparison. "Young man," said the fond father, "in giving you my daughter, I have entrusted you with the dearest treasure of my life. I haven't my umbrella! The young man was duly impressed and made no endeavor to conceal his emotion and gratitude. Then, during the few moments of impressive silence that followed he heard the patter of rain against the window.

"Goodness me," he exclaimed, "it's raining and I haven't my umbrella! May I borrow yours, sir, to keep me dry while I run to the station?" "Young man," said the fond parent, "do not trust anyone with my umbrella!"

Benny's Note Book

BY LEE PAPE

Me and pop and ma was in the setting room and I started to look for my cap to go out, thinking, Gosh, where the heck is it, its in here somewhere. And I looked on top of everything and underneath everything, including some places twice, finding a seat under the sofa and a big rubber band under the book case, but not my cap, and I said, Say, pop, did you see my cap anywhere did you see my cap, ma? No day is complete if that boy dont lose his cap, and ma. Meaning me, and I said, I didnt lose it, ma, its in here somewhere because I remember I brant it in with me, so it cant be lost. It must be a relect to know its not lost like the art of conversation or the science of pottery, seed pop. Sir? I said, and pop said, Why dont you have one definite place to put your cap, and then you would avoid all this mix up. I have, pop, and I always forget to put it there, I said. I lose, seed pop. And I keep on looking without finding the cap or anything else, and I said, G, ma, you must be setting on it. No Im not, ether, seed ma, and I said, Well will you get up and see, and she said, O, yours more trouble than yours worth. And she got up and she wasent setting on it, and I said, Do you feel anything funny under you, pop? I do not, seed pop, and I said, Well would you mind please getting up to see, pop, please? How could I resist such politeness? seed pop. And he got up and the cap wasent on his chair, and I said, Well its here somewhere, all rite, Ill bet anybody. Whats that bump inside your blouse? seed ma. Whch it was my cap, and I put it on and went out. Proving I was rite all the time about it being in these sunnawars.

GERMAN INVENTS A NEW TYPE WAR BOAT

Claims That Nation Controlling His Craft Need Fear No Other Navy.

(Cross Atlantic News Service Copyright.)

Berlin, June 1.—A new type of boat, which, its inventor declares, will revolutionize naval warfare, has been invented by a German naval engineer named Madler. He asserts that the nation using his craft "need fear no other navy, however strong;" that with sufficient numbers of these vessels guarding ports, it will be impossible for any ship to pass.

The vessel has an ordinary cruising speed of twenty knots, while with auxiliary engines it is claimed she will be able to develop forty-eight knots. Its other principal features are its torpedo capacity and its invisibility. She carries ten torpedoes, which are fired by the steersman, who drives the vessel as one drives a motor car. At the moment the torpedo is delivered the steersman swings the vessel round, pressing lever which enables the boat to make a quick getaway. An extremely shallow draught allows her to sail over minefields with safety. The motive power is crude oil. The boat has a cruising radius of 2,500 miles, and is armored through out.

For coastal warfare only two men are necessary; for longer trips accommodation can be arranged for fifteen.

After tests in the autumn of 1918, German experts endorsed the inventor's claims and advocated the construction of vessels to his specification. Owing to the armistice none were ever built.

Madler is now endeavoring to dis-

Why Doctor Not In Attendance?

City Fathers Will Ask Hospital Commissioners for Explanation, and Urge that a Doctor be Kept on Duty All the Time.

The City Council yesterday received a letter from the St. John Trades and Labor Council regarding the ambulance service, the lack of first aid appliances, and the fact that doctors were not always in attendance at the Public Hospital.

Commissioner Thornton—A serious charge. Commissioner Bullock said it was a serious matter. Recently there was a case at the hospital when a doctor was not available. He moved that Hospital Commissioners be asked to arrange to have a doctor on duty at all times.

Mayor—How would it do to first ask the Commissioners for a report or an explanation? Commissioner Thornton—In other words, you want an investigation.

Commissioner Thornton—Think we should adopt the Mayor's suggestion. All these statements may not be correct.

Commissioner Bullock—They were brought out at the inquest. Commissioner Thornton—Statements about the ambulance not being accompanied by a man familiar with first aid are incorrect.

Commissioner Jones said he had been apprised of a case of a scalded man waiting for the hospital for some hours for medical treatment.

Commissioner Thornton moved in amendment that the Common Clerk write the Hospital Commission asking for an explanation. This was adopted.

Commissioner Bullock moved that Commissioner Thornton be instructed to report on the question of a first aid man accompanying the police patrol wagon.

Commissioner Thornton—We don't want first aid to pick up drunks. Commissioner Bullock said he meant ambulance, and a resolution to that effect was adopted.

WEDDINGS.

Hastings-Woodrow

The home of Mr. and Mrs. Victor J. Woodrow, 61 Market Place, West Side, was the scene of a pretty wedding ceremony yesterday afternoon when their second daughter, Elsie Mabel, became the bride of Ernest Elmer Hastings, of Buffalo, son of Mr. and Mrs. Thomas C. Hastings, of Boston, say. Rev. W. P. Dunham, of the Church of the Good Shepherd, Fairville, performed the ceremony in the presence of relatives and friends, the home being tastefully decorated for the occasion. The bride was unattended. Following the ceremony there was a reception and luncheon. Mr. and Mrs. Hastings left last evening on a honeymoon trip by way of New York to Buffalo, where they will permanently reside. The groom is a war veteran with a record of four and a half years' service overseas.

OBITUARY.

Henry Christian Olsen.

Rexton, N. B., May 31.—The death occurred at the Public Hospital, Greenville, Me., on May 28th of Henry Christian Olsen, eldest son of Mr. and Mrs. William Olsen of Moulton River, Kent County, N. B. Deceased who was only eighteen years of age, had been ill with pneumonia about ten days and is survived by his parents and five brothers. The remains were brought home by his father and interment was made in the Church of England Cemetery at Brown's Yard. Services at the house and grave were conducted by Rev. F. W. M. Brown of Richibucto. The pall-bearers were Richard, Harold, Frederick, David and Arthur Olsen, Lester Dunlay and Frederick Dargavel.

Patrick J. Carson

Many friends in this city will regret to hear of the death of Patrick J. Carson which took place at his home in Amesbury, Mass., on May 31. He was the third son of the late William and Mary Carson of the North End and brother of the late Rev. James Carson at St. George. He leaves one son, William, and a brother, Henry, of Boston, a sister, Elizabeth of this city, and five grand children.

Mrs. James Bryson

A despatch to Daniel Bryson, Waterloo street, brought the news of the death of his sister-in-law, Mrs. James Bryson, in Brooklyn, N. Y. on Saturday afternoon. Her husband, who died some four years ago, was formerly of St. John. He was in the employ of the dry goods house of Doherty and McTavish here and later went to New York where he became a drygoods merchant. Two sons survive, William, in Brooklyn and George in the First National Bank of Commerce, New York.

FUNERALS.

The funeral of Charles A. Walsh who died in East Boston last week, was held yesterday afternoon from the residence of his son-in-law, W. D. Armstrong, 201 Victoria street. Service was conducted by Rev. E. F. Wright, and interment was in Cedar Hill.

The funeral of Mrs. Miles A. Thorne was held yesterday afternoon from her late residence, 178 Britain street. Service was conducted by Rev. Mr. Sergeant of Digby, and interment was in Cedar Hill.

The funeral of Mrs. Catherine Foley was held yesterday afternoon from

Accept Tender For Paving City Road

City Council at Last Decides to Go Ahead With Paving Programme — Refuse the Firemen's Park, Lancaster, But Offer Another Site for Playground.

At the council meeting yesterday the Stephenson tender for paving City road was accepted, and a new site was offered Lancaster for recreation ground.

The tender of Estey & Co. for 180 boiler tubes for the ferry steamer at 48 1/2 cents per foot, was accepted.

The tender of A. George Moses for opening and refilling trench for water main on Mount Pleasant Court at \$2.50 per lineal foot for earth, and \$12.75 per lineal foot for rock was accepted.

The Commissioner of Public Safety was authorized to call for tenders for painting and painting the inside of the City Market.

Robert Roberts was permitted to erect a bowser gasoline tank on their premises No. 35 Cedar street for their own personal use.

The tender of Commissioner Thornton in purchasing 150 tons of broken anthracite coal for the City Hall, Fire and Police Departments at \$17.00 per ton, was accepted.

A renewal lease will issue to the Executors of the late James Griffiths of part of lots Nos. 19 and 20 Lancaster, for seven years from the first day of May, 1918.

The Canadian Pacific Railway Company was granted permission to pull down the existing conveyors at No. 2 shed, Sand Point, and reconstruct the same at a higher elevation, the work to be done to the satisfaction of the city engineers, and agreement to be prepared by the City Solicitor.

The tender of J. S. Gibson & Co. for 5 tons of Run of Mine Acadia Picot coal for the City Hall at \$10.25 per ton was accepted.

It not being desirable to continue to use the Firemen's Park, so called, in the Park of Lancaster for recreation purposes due to the fact that said site is most desirable for industrial purposes, it was resolved that a site be leased to the Municipality for a term of 14 years at \$5.00 per year subject to renewal, said site to comprise lots 535 and 609 on the east side of the street between the street and area intervening including church or school lot marked "A" as shown in the Town Planning Plan.

The site to be used exclusively and solely for recreation field. If for any reason the premises are not so used, the city to reserve the right to take possession and the lease then becomes null. No improvements to be paid for.

John T. Stephenson was appointed clerk and collector of the Market in place of David W. Belyea, resigned, his annual salary of \$1,320, commencing 1st day of June next.

Permission was granted the N. B. Telephone Co. to shift an old pole in Elliott row 15 feet westwardly instead of 20 feet as asked for, and that the new pole near the corner of Crown street be placed at the western edge of house No. 125, the others to be located as requested, namely:

Three poles on Guilford street west; two poles on Lancaster street west; one pole on Ludlow street west; two poles on Wentworth street; four poles on Crown street; four poles on Elliott row.

The Commissioner of Harbors was authorized to call for tenders for painting the sheds numbered 1, 2, 3 at Sand Point and also the offices.

The tender of the Stephens construction Co. of March 19th, 1920 was accepted for the paving of the City road with granite blocks on a six inch concrete foundation, beginning at Old Dorchester street and ending at Gilchrist street, as follows:

For granite block pavement with cement grout joints, \$5.35 per square yard; concrete foundation with broken stone aggregate or gravel, \$2.75 per square yard; reinforced concrete foundation with broken stone aggregate or gravel, \$3.75 per square yard; extra excavation sub-grade, \$3.00 per lineal foot; tile drains, 20 cents per lineal foot; granite curbstone—straight, \$3.00 per lineal foot; granite curbstone—circular, \$4.00 per lineal foot.

The work of paving and restoration of the sidewalk will be proceeded with at a total estimated cost of \$137,902.50. All asphalt work in connection with sidewalk restoration to be performed by the Department of Public Works, which is included in this estimate. The Stephens Construction Company is to be allowed an increase of \$2.00 per day for every hired double team over and above the prevailing rate of hired teams at the time their tender was submitted to council, namely, \$8.00 per day; the charge of such hire of double teams, however, not to exceed in any case ten dollars (\$10) per day. All work in the track section foundation will be paid for by the New Brunswick Power Company.

Commissioner Jones—Will you give the section of City road between Gilbert's Lane and the March bridge? Commissioner Frink—That section is all torn up by the water department.

Commissioner Jones—We've put in new water and sewer mains and service pipes.

Commissioner Frink—That work was supposed to be done twelve years ago.

There was some talk of the duties of the city and road engineers overlapping.

Commissioner Frink said the duties of the city and road engineers were defined in 1912.

Commissioner Thornton moved that copies of the regulation defining these duties be submitted. Carried.

Mr. Tower, East St. John, was granted transfer of a lease of a M. S. P. mill lot from Mr. Darrow, rent \$10.

Mr. son's residence, 69 Lombard street, St. John, was granted by Rev. S. S. Poole, and interment was in Greenwood cemetery.

Police Court Cases Yesterday

Inspector Tries to Set Some Gin on Fire—An Assault Case Aired—Seven Drunks Remanded.

Although no legal action is contemplated, a very striking example of flagrantly "watered stock" was brought to light in the police court yesterday afternoon. John Posep was before the court on the charge of having liquor in his possession other than his private dwelling. The liquor in question, a half bottle of gin, was found in the pocket of a coat hanging in an outshouse of the accused. As a means of analysis, Inspector Merryfield poured a small quantity of the liquid out in a saucer and touched a match to it, but the fiery fluid refused to ignite. It was therefore concluded that the gin was considerably over proof as to aqua pura, but not quite up to the recognized standard as far as the percentage of alcohol was concerned.

The defendant stated that he knew nothing of the liquor. The coat had been hanging in the shed since March and had been left there by one Tommy Shorts, Inspector Merryfield who searched the defendant's premises, gave evidence. The defendant had always borne a good character. The case was postponed to Wednesday at twelve o'clock.

In the case of McKeehan versus McGowan, a neighborly argument in which the defendant is alleged to have made use of a revolver, an axe, and one large boiler, to enforce his side of the case, evidence was given by H. L. MacGowan. The trouble began, he stated, over the defendant disputing the right of the witness' employees to enter the yard at the back of the defendant's house. On Saturday when the complainant's men attempted to unload some boards for the repair of a barn in the said yard, they were forcibly prevented from doing so by the defendant, McGowan. The witness went down from his office to investigate and as he approached saw the defendant pick up a stone and hit his son, and also threaten him with a razor and axe. E. S. Ritchie who conducted the defence, elicited the fact from witness that the property rights to the barn stood over to Friday.

Seven drunks were charged in the morning. They pleaded guilty and were remanded.

Otto Ottosen charged with trespassing on the property of the C. N. R. claimed to be a native of the U. S. and therefore ordered that he be transported to his homeland. An officer will accompany him to the dominions of Uncle Sam.

A woman whose sanity is questioned and has been detained by the police was not brought before the court. He will be given a medical examination.

SMALL DOCKET FOR COURT OF APPEALS

Fredericton, June 1.—The Court of Appeal met this morning with the smallest docket in the history of the court—only four cases.

In the first of these, the King vs. William VanBuskirk, Alonzo Garton, and Bayard Wilson, P. J. Hughes, for the defendants moved for leave to appeal from a conviction of theft. Court considers.

In the case of Ellingsworth vs. Kibb, J. B. Dickson moved, on behalf of Gregory E. Peasey, who supported an appeal from the York County Court to have the case stood over until the next term.

Re estate of Charles Dickens, deceased, A. R. Slipp, K. C. on behalf of J. B. M. Baxter, K. C., who supported an appeal from the Northumberland Probate Court, moved to have the case stood over until the next term.

The case of the Fredericton Motor Sales, Ltd., vs. Earl of Ashburnham, in which Peter J. Hughes, for defendant, will move to set aside the verdict for the plaintiff, and enter a verdict for the defendant or for a new trial, will occupy the attention of the court tomorrow morning.

In the common motions, Daniel Mullin, K. C. in the case of Harris Company, plaintiff, vs. H. J. Garton Company, defendant, moved for time to enlarge the time for entering the appeal from the filing of affidavits.

C. D. Richards made a similar motion in the case of G. L. Ward, plaintiff vs. Peter McIntyre and Allan McIntyre, defendants.

Fred Pearson, General Manager of the Dalhousie Campaign Committee, was in the city today and conferred with the committee.

FOR WOMEN

A MUSEMENTS

WOMAN SPY DUPED THE COMMUNISTS

Her Attempted Suicide Revealed to German Radicals How They Had Been Fooled.

WAS PROVOCATIVE AGENT REACTIONARIES

Militarist Party Busy Trying to Discredit Present Regime and Restore Monarchy.

By S. B. Conger.
Copyright, 1920, by Public Ledger Co.
Berlin, June 1.—Frau Schroeder-Mahke, noted female spy and agent provocateur, who lately had been a thorn in the side of radical Socialist and Communist leaders on account of her skillful endeavors to stir the rank and file and so disrupt the radical movement by its failure, has attempted suicide at Halle after her true character was disclosed to her dupes and followers.

It is stated her papers indicate she was employed by a reactionary officers' organization, which is interested in bringing about an outbreak, predestined to failure, and whose suppression would furnish an argument for retention of the army at its present size and perhaps give the desired opportunity to launch a new monarchy.

The radical leaders have long known that dangerous provocative agents were working inside the radical ranks in Central Germany and have repeatedly warned their followers to be watchful and distrustful, but did not suspect a woman provided with first-class credentials, who was apparently throwing her whole heart and soul into the movement and frequently donned male attire in order to achieve better results among factory workmen. She was finally exposed and found to be running a luxurious apartment on her pay as an agent provocateur. She succeeded in securing from her radical friends a sketch for a strategic plan for an uprising of the proletariat in Central Germany and the mobilization of workmen armies, which was published by a reactionary Berlin newspaper early in the election campaign.

Frau Schroeder-Mahke, who is reported also to have been in the pay of an Entente power, seems earlier to have operated at Breslau-Litovak during the peace parley and in Eastonia and Latvia.

It is believed in radical quarters that there are still a number of provocative agents, notably disguised officers, working among the radical proletariat to provoke unsuccessful risings, and it is known that an organization exists to send agents disguised as super-radicals into radical meetings to preach extreme anarchy and howl down the regular parties. The provocative organization apparently possesses ample funds from various sources.

Independent Socialist organs take occasion in connection with the exposure of Frau Schroeder-Mahke to warn their adherents against yielding to such intrigues. The Berlin Freiheit declares it is the unanimous conviction of the entire party a movement based on violence would at the present moment be the greatest conceivable political folly.

ROUND THE CLOCK WITH FASHION IN PARIS.

Straight silhouettes for morning. Widening bellouses for afternoon. Looped drapery for evening. Skirts incline to greater length than last year. The waist line has entirely disappeared in latest models. Plaids and plaids are seen everywhere. The use of lingerie at the neck and sleeves is in high favor. Shiny trimmings such as polished braids, patent leather, or black and white ribbon frequently employed. Foulard and wool poplin are featured for daytime wear. Summer maifs of white or pale gray marabou are shown! A popular summer frock is of English eyelot embroidery combined with organdy or white chins silk. Summer maifs of white or pale gray marabou are shown!

TIPS TO HOUSEWIVES.

Never cut up salad; tear the leaves apart. A quart of soup will serve four or five people. Good chocolate fudge requires much heating. Do not put away bread until thoroughly cool. Old vinegar makes excellent pickling elixir. The longer you cook a dried fruit the sweeter it will be. If you would have biscuits light, use that the powder and flour are well sifted, that the mixing is done with cold water and that the biscuits do not touch each other in the pan. Also the oven must be very hot.

Madyn Arbuckle has arrived from San Antonio, Texas, to visit his father, Mr. James Arbuckle, who lives in Hollywood.

James Whitson, aged 22, and known as the youngest office clerk in the world, is editing "The Hope Diamond Mystery," the new serial now being produced by Kossuth Films, Inc.

William Duncan, borrowed assistant, are engaged from the city of Los Angeles last week to assist him in filming the final episode of "The Silent Partner," the new serial for "The Standard."

The Local Council of Women Meeting

Session Was Held Yesterday Afternoon at Board of Trade Rooms—Representatives of Societies Present—Luncheon to National Delegates.

Presided over by Mrs. J. B. Travers, convener of the Luncheon Committee for the Local Council of Women a meeting was held yesterday afternoon at the Board of Trade, attended by representatives from the Societies who have promised to entertain the delegates to the National Council of Women during the June sessions. Mrs. T. H. Carter acted as secretary.

The following were present: King's Daughters, Mrs. A. Pierce Crockett; Church of England Institute, Mrs. Allan Daniel and Mrs. Golding; Women's Hospital Aid, Mrs. Walter White, Miss Adley; Graduate Nurses' Association, Miss Powers; Y. W. C. A., Mrs. John McAvity, Mrs. W. C. Cross, Mrs. E. C. Weyman; Women's Canadian Club, Miss Clara McEivern, Mrs. F. C. Beattie; Willing Workers of Germain St., Mrs. D. Hunt, Mrs. Langdon, Mrs. Fritz; St. Monica's, Mrs. Richard O'Brien, Mrs. J. H. Doody; Y. M. C. A. Auxiliary, Mrs. Eustace Barnes, Mrs. Fowler, Y. W. P. A., Miss Patweather; United Methodist Women's Missionary Society, Mrs. Geo. Steel, Mrs. C. Cowan.

It was announced that the King's Daughters will give their luncheon at Bond's Restaurant, St. Monica's Society at the Y. M. C. A. and the Executive of the Local Council will hold their luncheon at the Manor House. The rest of the luncheons will be at the German Street Institute where the meetings are to be held.

AMERICAN MEN AND ENGLISH BRIDES

Many Are Seeking a Life Mate in Old England.

(Cross-Atlantic News Service, Copyright.)
By Lydia K. Commander.
London, June 1.—We have long been accustomed to those American girls who are married to an English man. Of late there has been a reverse of the fortune, and American men are wooing and winning English brides.

Mr. George Holden Kennedy, only son of Mr. and Mrs. Benson Kennedy of New York and Inverness House, Hyde Park, married Miss Rosemary Lillie Thompson, eldest daughter of Mr. and Mrs. Stephen Thompson of Sussex Gardens, London.

On June 2nd, another Anglo-American marriage will be celebrated when Mr. L. Percival Cushman of Bangor, Me. will wed Christina, youngest daughter of Mr. and Mrs. Sumnerville of Rainsboro House, Taunton, Devon.

In Tucson, Arizona, also a marriage has been arranged and will shortly take place between Mr. Channing Turner of Geneva, Illinois, and Miss Nicholson, only daughter of Mr. and Mrs. Nicholson of Bithborough Hall, Tonbridge Wells, England.

Canadian and American soldiers discovered the charms of English girls, and possessed them in large numbers to combine matrimony and emigration and make their homes in new lands. The custom bids fair to continue.

HOUSEHOLD HINTS.

Use coffee instead of water when stirring up a simple chocolate icing and its richness and flavor will be improved. Delicious grapefruit cocktail is made with one grapefruit, one tangerine, three tablespoons shredded coconut and three tablespoons maple syrup.

Save all the wax-paper wrappers on bread. When the iron sticks rub it on the wrapper, which answers for beeswax and is more convenient. Used wax-paper cups may be saved for the same purpose.

Add a little ammonia to cut the grease when washing dishes. Sew a good clean holder to each end of a long tape, so the tape around the waist while cooking, and there will be no search for holders. Be careful though that all our misfortunes were laid in one common heap, whence every one must take a common portion, most persons would be content to take their own and depart. (Consolation to Apollonia).

Victorian Order Of Nurses Met

Session Held in West St. John Yesterday—Account of Annual Meeting in Ottawa Given—Report from Supt. of Nurses.

A meeting of the Victorian Order of Nurses was held at the residence of Mrs. Harold Mayes, West St. John, yesterday afternoon, Judge Forbes presiding.

Mrs. Stanley Elkin and Judge Forbes who attended the annual meeting of the order held in Ottawa, over which the Duke of Devonshire presided, gave interesting accounts of the proceedings, Judge Forbes reading portions of the address delivered by Mrs. Charlotte Hanington, President of the Order.

Miss Murdie, superintendent of Nurses, in her report stated that during the month 1,147 visits had been made in the city and West St. John, which included 299 child welfare visits and twenty to the Free Kindergarten. The nurses had gone out to East St. John County Hospital and also had visited Dr. Ferris' clinic at the Dispensary and had learned much of value. The York Cotton Mills had also been visited.

The furnishing committee for the Home on Carleton street gave a report and several matters in connection with the house were discussed.

THE POPLARS.

My poplars are like ladies first. Each conscious of her own estate. In costume somewhat over-prim, in manner cordially sedate. Like two old neighbors met to chat Beside my garden gate.

My stately old aristocrats— I fancy still their talk must be Of rose conserves and Persian cats, In wonder sometimes as I pass If they approve of me.

I give them greeting night and morn'g like to think they answer, too, With that benign assurance born When youth gives age the reverence due.

And bend their wise heads as I go As courteous ladies do. Long may you stand before my door Oh, kindly neighbors, garbed in green. And bend with rustling welcome o'er The many friends who pass between.

And where the little children play Look down with gracious eyes. A fashion expert at a noted Southern resort notes a vogue for white sweaters, for they can be adapted to the endless variety of sports skirts and afford the greatest comfort, roominess and golf, as they do not attract the rays of the sun.

THE W. C. T. U. HELD REGULAR MEETING

Paper Entitled "Alone in Secret Prayer" Was Read Yesterday—Reports Received—Sum Voted to Shantymen's Assn.

At the regular meeting of the W. C. T. U. held yesterday afternoon in Orange Hall, a paper, the writer of which was Mrs. Seymour, was read by Mrs. David Hipwell. The paper was entitled "Alone in Secret Prayer" and was published some years ago. It was greatly appreciated by the members. As it was the first Tuesday in the month Mrs. Seymour led the devotional exercises, taking for the subject of her talk "Faith" and reading from the II Chapter of Hebrews. After the singing of the hymn "My Faith Looks up to Thee" Mrs. Hipwell led in prayer, others following. A collection was taken for missions.

Mrs. David Hipwell then took the chair.

Mrs. Seymour reported on her visits to the Lancaster Hospital and her cordial reception there. K. Pederson had given a generous donation of flowers and she was thus enabled to take five bouquets which were much appreciated.

A letter sent by the Temperance Alliance regarding the coming Referendum was read and the secretary asked to reply to it.

A sum was contributed to the Shantymen's Association.

LADY ASTOR TO WORLD'S CONGRESS OF WOMEN

Has Been Appointed Official Delegate of the British Government.

(Cross-Atlantic News Service, Copyright.)
By Lydia K. Commander.
London, June 1.—Lady Astor, M. P., has just been appointed by the British Government as its official delegate to the World's Congress of Women which is to meet in Geneva from June 6th to June 24th.

This gathering of women from all over the world will include Delegates from India and Japan, and Government Delegates from the United States which is sending Mrs. Joseph Daniels, wife of the Secretary of the Navy, Sweden, Uruguay, Nicaragua, and Turkey.

Probably about 500 Delegates will take part in the Conference in the Malton Communal de Plain Palais, Geneva. The object of the Conference is to discuss how women can use the political powers they have acquired. Now women have the vote they must consider "how best to use it."

Among subjects to be discussed will be the establishment of equality in marriage; equal rights for fathers and mothers; equal education; equal opportunities with men for training and for entering industries and professions; equal pay for equal work, and economic provisions for motherhood.

By Lydia K. Commander.
London, June 1.—Lady Astor, M. P., has just been appointed by the British Government as its official delegate to the World's Congress of Women which is to meet in Geneva from June 6th to June 24th.

This gathering of women from all over the world will include Delegates from India and Japan, and Government Delegates from the United States which is sending Mrs. Joseph Daniels, wife of the Secretary of the Navy, Sweden, Uruguay, Nicaragua, and Turkey.

Probably about 500 Delegates will take part in the Conference in the Malton Communal de Plain Palais, Geneva. The object of the Conference is to discuss how women can use the political powers they have acquired. Now women have the vote they must consider "how best to use it."

Among subjects to be discussed will be the establishment of equality in marriage; equal rights for fathers and mothers; equal education; equal opportunities with men for training and for entering industries and professions; equal pay for equal work, and economic provisions for motherhood.

Lady Astor has already done much work for women along many of these lines and her appointment meets strong approval here.

Pleasing Recital Last Evening

Pupils of Miss Louise Knight Pleased Good Audience in Centenary Church Hall, Showing Talent and Excellent Training.

Pupils of Miss Louise Knight gave a recital last evening in Centenary Church Hall, which showed both the talent of the performers and the excellence of the training received from their teacher. The programme included three selections by a singing class of sixteen ladies, and these choruses were characterized by a softness and sweetness of tone which was very delightful. Twelve pupils sang solo, and all were encored by an appreciative audience. Their singing was clear and true, and the well-chosen numbers were rendered with sympathy and feeling. It is certain that among Miss Knight's pupils are several who will be a decided acquisition to St. John musical circles.

The proceeds of last evening's recital are to be given to the Victorian Order of Nurses. At the close of the programme Miss Knight was presented with a bouquet of roses by her pupils. The programme was as follows:

- (a) Pastoral.....Chapman
- (b) Song of the Shepherd.....Dalyne Singing Class.

- Mifanwy.....Dorothy Forster
- The Nightingales of Lincoln's Inn.....Oliver
- Miss Agatha Steeves.
- I Hid My Love.....Guy d'Hardelot
- Miss Emma Rand.
- Daffodils blooming.....Edward Germain
- Miss Esle Reed.
- The Prodigal Son—Recit. and Aria.....Sullivan
- At Vauxhall in the Morning.....Oliver
- Miss Geraldine Melick.
- Sleep, My Baby, Sleep.....Somerville
- Mrs. Geo. Moore.
- A Song of Sunshine.....Bunting
- Miss Mildred Bustin.
- (c) Deep in My Heart.....Aytward
- (d) Thy Beaming Eyes.....Macdowell
- Mrs. Southouse.
- Light is My Heart.....Talbot
- Miss Audrey Turner.
- Little Girl in Bed.....Ed. Germain
- Miss Greta Love.
- Sunbeams.....Landon Ronald
- Miss Olive Rankine.
- The Stalling Down.....Handel
- Singing Class.
- God Save the King.

be the establishment of equality in marriage; equal rights for fathers and mothers; equal education; equal opportunities with men for training and for entering industries and professions; equal pay for equal work, and economic provisions for motherhood.

Lady Astor has already done much work for women along many of these lines and her appointment meets strong approval here.

MAURICE COSTELLO RETURNS TO SCREEN

Maurice Costello, one of the most famous stars of earlier day screen celebrities, marks his triumphant return to the silent drama in the forthcoming Blenlock production, "The Willermost Feast," starring William Faversham. Mr. Costello portrays the role of "La Fleche." The name of Maurice Costello harkens one back to the early days of screen dramas and comedies. In looking back one can recall and almost feel the thrills that our hero, Maurice Costello, would be forever banished from our sight by the villain of villainia. His following was and to a degree still is universal. His early career brings to light the fact that he was featured by one company for seven years, and during that time played in scores of one and two-reel dramas. His popularity was on the lips of millions of screen fans, and his name was the topic of discussion in motion picture circles. And his return to the screen in "The Willermost Feast" is calculated to prove a boon to exhibitors playing the picture.

A few of the more notable productions in which Mr. Costello has appeared are "A Tale of Two Cities," "Mr. Barnes of New York," "The Man Who Couldn't Beat God," "The Crown Prince's Double," and "The Crimson Stain Mystery."

The Marchioness of Aberdeen and Tennant has been elected president of the Lyceum Club, London (Arts and Literature), of which she has been a member for many years. She succeeds Lady Frances Balfour.

BOARD OF HEALTH MEETING WAS

Considerable Business Was Shown Much Evidence City's Food Supply—Looted on.

The initial report of the newly appointed assistant food inspector was read at the regular meeting of the Board of Health held in their rooms yesterday. The inspector covered a wide area and found much evidence of uncleanliness on the part of those handling the city's food supply. Two glaring cases were reported. In the discussion that followed the members of the board made it clear that all standards against the pure food regulations will be summarily dealt with and haled to the police court.

A warning was issued to delinquent householders to get their places cleaned up at once, or abide the consequences. The purity of the water supply at Loch Lomond, the flooding of slatter houses, and the prevailing odors from the Fertilizer Works in East St. John were among the other matters discussed.

After the reading of the minute Dr. G. G. Melvin, of Fredericton, chief medical health officer, discussed with the board the matter of preserving the purity of the water supply at Loch Lomond. He referred to his visit to these waters in 1918, accompanied by the board's inspectors and also to the orders issued at that time for the erection of concrete vaults in connection with residences, hotels, etc., adjacent to the lakes. Upon his visit today when he was accompanied by Dr. W. L. Warwick, sub-district health officer, and Inspector McConnell, he was rather surprised to find the vaults of ten places to which orders had been issued in 1918, six of them had complied with the orders, although some of the vaults could be improved upon. Of the four that failed to comply with this preventive measure there was some special reason. But it was now imperative that the sub-district board of health make a further formal inspection under the new property owners in official manner that they proceed at once to test the vaults. The vault or otherwise after 15 days they should be promptly prosecuted under the Health Act for keeping a nuisance. The new test after every vault or otherwise this menace removed, being most apt in its descriptive language and plain as to the penalties. There were some eight ten bordering properties situated at the lakes which Dr. Melvin had not time to examine, but they too must have tanks to prevent the risk of unhealthful drainage into the good water supply. Discussing the matter of hotels at Loch Lomond, Dr. Melvin was very outspoken in his suggestions as to the disposal and importation of garbage. He stated that he claimed that the Board of Health was doing everything possible to minimize the danger from this source, and he considered it of paramount importance that the city council, the city and the Ministry of Health should confer on the subject. Should typhoid originate in the hotels, it is the duty of the consumers of Loch Lomond water would naturally be a most serious one. One of the hotels in that vicinity is situated on a high ridge of land but it was the medical officer's opinion that every safe guard should be thrown around the pure water in that vicinity against pollution by picknickers and summer boarders.

The matter of a portable saw mill on the shores of Loch Lomond was also discussed and as this plant employed upwards of 15 men the sub-district health board was advised to take drastic action in preventing a repetition of this haphazard condition another season.

Miss Murdie, of the Victorian Order of Nurses whose special work and attentions are given to child welfare, reported 49 babies enrolled in the main part of the city, and twelve in the West Side, with a total of 309 visits. In enumerating the little ailments of babyhood it was found that some eyes were ill during the month just ended, rather remarkable clean-up of a common disorder among infants. This fact was pointed out by Mrs. Hooper, of the board, who makes child welfare her special official duty. She also stated that this report compares favorably indeed with those of Montreal and Toronto and declared the systematic clean-up given it by Miss Murdie is most fruitful of results.

Nurse S. E. Brophy, of the anti-Tuberculosis Society reported in connection with the Free Dispensary a total of 146 patients enrolled, 42 clinic days of open offices; 42 clinic patients; the filling of 22 prescriptions; 71 cases of pulmonary tuberculosis; 75 cases under observation; one case sent to the Jordan Sanatorium; three cases to the County Hospital; 12 discharged; three new cases; 214 free visits and one death.

A communication was received from Daniel Mullin, K. C., calling attention to injuries alleged to have been received by Mrs. Christina Sebean on March 29th, while being conveyed as a patient in the Epidemic Hospital ambulance. This communication was handed to the Board's secretary, Dr. J. Roy Campbell.

M. H. Golding reported that while 576 have been granted to promote publicity for the clean-up days, it was found that the expenses would not reach \$46, owing to the most cordial co-operation of the press and advertisers as well as the Boy Scouts, to all of whom the board must naturally feel greatly indebted.

Chief Smith, of the police department, wrote the board that their resolution re spitting on the sidewalk and in public places was receiving special attention from him as that he had issued explicit instructions to his men to report all violators.

County Secretary J. King Kelley, writing on behalf of the St. John County Hospital, East St. John, called attention to the unhealthful and annoying odors emanating from the fertilizer works in the vicinity of the fertilizer and asked if some assistance could not be given by the board in having this nuisance abated. Dr. Warwick furnished the meeting with some personal observations made on the subject. He stated that Dr. Farris told him that the trouble arose

BOARD OF HEALTH REGULAR MEETING WAS HELD YESTERDAY

Considerable Business Was Transacted—Inspector's Report Showed Much Evidence of Uncleanliness on Part of City's Food Supply—Loch Lomond Water Supply Reported on.

The initial report of the newly appointed assistant food inspector was read at the regular meeting of the Board of Health held in their rooms yesterday. The inspector covered a wide area and found much evidence of uncleanliness on the part of those handling the city's food supply. Two glaring cases were reported. In the discussion that followed the members of the board made it clear that all offenders against the pure food regulations will be summarily dealt with and haled to the police court.

A warning was issued to delinquent householders to get their places cleaned up at once, or face the consequences. The purity of the water supply at Loch Lomond, the licensing of slaughter houses, and annoying orders from the Fertilizer Works in East St. John were among the other matters discussed.

At the meeting of the minute Dr. G. G. Melvin, of Fredericton, chief medical health officer, discussed with the board the matter of preserving the purity of the water supply at Loch Lomond. He referred to his visit to these waters in 1918, accompanied by the board's inspectors and also to the orders issued at that time for the erection of concrete vaults in connection with residences, hotels, etc., adjacent to the lakes. Upon his visit today when he was accompanied by Dr. W. L. Warwick, sub-district health officer, and Inspector McConnell, he was rather surprised to find that out of ten places to which orders had been issued in 1918, six of them had complied with the orders, although some of the vaults could be improved upon. Of the four who failed to comply with this preventive measure there was some special reason. But it was now imperative that the sub-district board of health after making a further formal inspection notify delinquent property owners in official manner that they proceed at once to install the required vault or otherwise after 15 days they should be promptly prosecuted under the Health Act for keeping a nuisance. The new law affords every ground for having this menace removed, being most explicit in its descriptive language and plain as to the penalties. There were some eight or ten bordering properties at the lakes which Dr. Melvin and his party had not time to examine, but they too must have tanks to prevent the risk of unhealthy drainage into the good water supply. Discussing the matter of hotels at Loch Lomond, Dr. Melvin was very outspoken in his suggestions as to the need of a high ridge of land but it was the chief medical officer's opinion that every safe guard should be thrown around the pure water in that vicinity against pollution by picknickers and summer boarders.

The matter of a portable saw mill on the shores of the Loch Lomond was also discussed and as this plant employed upwards of 15 men the sub-district health board was advised to make drastic action in preventing a repetition of this haphazard condition another season.

Miss Murdie, of the Victorian Order of Nurses whose special work and attention are given to child welfare reported 42 babies enrolled in the main part of the city, and twelve in the West Side, with a total of 309 visits. In enumerating the little ailments of babyhood it was found that sore eyes were all during the month just ended, a rather remarkable clean-up of a common disorder among infants. This fact was pointed out by Mrs. Hooper, of the board, who makes child welfare her special official care. She also stated that this report compares favorably indeed with those of Montreal and Toronto and declared the systematising being given it by Miss Murdie is most fruitful of results.

Nurse S. E. Brophy, of the anti-Tuberculosis Society reported in connection with the "Open Lung" Dispensary a total of 146 patients enrolled, 44 clinic days of open offices; 42 clinic patients; the filling of 22 prescriptions; 71 cases of Pulmonary Phthisis; 75 cases under observation; one case sent to the Jordan Sanatorium; three cases to the County Hospital; 12 discharged; three new cases; 214 free visits and one death.

A communication was received from Daniel Mullin, K. C., calling attention to injuries alleged to have been received by Mrs. Christina Seabean on March 29th, while being conveyed as a patient in the Epidemic Hospital ambulance. This communication was handed to the board's solicitor, Dr. J. Roy Campbell.

M. H. Golding reported that while \$75 had been granted to promote publicity for the clean-up days, it was found that the expenses would not reach \$46, owing to the most cordial co-operation of the press and advertisers as well as the Boy Scouts, to all of whom the board must naturally feel greatly indebted.

only at certain angles of the wind and that the fertilizer officials were courteously co-operating in advising the hospital of its "boiling" days and frequently they had shut off operations when the hospital was affected by the odors. Chairman Kelley also explained that about thirty years ago the Fertilizer Company was made to move its plant from the Marsh road to its present location for the above quoted reasons, and had been established there all this time. A committee of three consisting of Mrs. R. J. Hooper, Dr. Warwick and W. H. Golding, was instructed to go into this matter fully.

Secretary Burns read a communication from the C. P. R. stating that bills for the case of Selby Carter, a railway employee, had been forwarded to Montreal to the proper department for attention. This matter is one in which the board makes request for a return of money spent by them in keeping up quarantine, etc., upon a case which under existing C. P. R. regulations should have been protected by vaccination.

The usual vacations were granted to the board staff. Smallpox estimates of expenses for the past season were ordered made out. Stationary for the licensing of slaughter houses, stables and boarding houses were ordered printed.

Next season's supply of hard coal for the Isolation Hospital was ordered to be placed. It was decided to increase the insurance of office furnishings from \$300 to \$1,000, because of recent purchases, etc.

A cheque for \$130 was ordered made out and paid to the Toledo Scale Co., city, for a most modern scale to be used in the "Well-Baby" Campaign in connection with the Child Welfare Department. The scale will be placed on exhibition.

A bill for the Board's new auto was held over pending repairs, etc., under the terms of the guarantee. Geo. Blake called the attention of the Board's solicitor to the condition of the premises at the foot of Germain street, owned by one of the Realty Companies, which are in a very unclean condition, no attempt having been made to make them presentable during the late clean-up campaign. Upon the report of the official inspectors in connection with the Child Welfare Department, as well as some others under present scrutiny.

Mrs. J. J. Hooper was granted \$25 to assist in presenting little plays and sketches in the schools before vacation. Such educational methods are being employed in all large centres with success.

Dr. Mabel Hamilton, in reporting on the health of the school children, showed by statistics that great benefits have resulted. Contagious ailments are very few and light, and in a recent survey re tonsillitis and diphtheria a great decrease has been disclosed. At the present time schools are being thoroughly gone over, so that parents may know their children's physical needs during vacation time.

Dr. T. Fred Johnston in his report on food inspection stated among other things that several quarters of meat had been seized in city limits during the month, as unfit for human consumption; also that 84 samples of milk had been examined for butter fat and 18 for bacteria. Dr. Johnston also reported on slaughter houses, stating that the MacGrath establishment in East St. John was in fair condition, as were the Collins place at South Bay, the Miller and Black house at St. Martins. The MacDonald establishment on the Loch Lomond road was in good condition.

RATRAY'S LA MARTANA

A Pleasing Smoke—Rich and Mellow.

SHARP RALLY IN STERLING

(Furnished by McDougall & Cowans) New York, June 1.—A sharp rally in Sterling exchange early in the afternoon helped the market measurably, chiefly because it was ascribed to the expectation of heavy gold imports in further preparation for the maturity of Anglo-French loan. In the last hour, however, the call money rate got up to 10 per cent. This did not affect much of the day's borrowing, but caused some selling of stocks, and practically undid the earlier improvement of prices. Today's movement however indicated little more than the general uncertainty over the immediate future in finance and industry.

IRON QUOTATIONS

Montreal, June 1.—Hollinger in maintaining the price to which it recovered after the recent decline. On the whole the market is moderately active and firm. Quotations: Atlas 27; Dome 10.50; Kark Lake 41; Por Crown 26; V. N. T. 18.18; Vac Gas 23; McKintay 58; Temiskaming 35; Dome ext. 21; Hilly 5.60; Moneta 7; Schumacher 18; West Dome 6 1/2; Beaver 40 1/2; Ophir 2; Tremblay 32 1/2; Dome Lake 3-4; Keora 17; McIntyre 1.83; Krist 8; West Tree 5 1/2; Crown Res. 25; Pet Lake 14.

CANADIAN STEEL IN GOOD POSITION

Hamilton, June 1.—As a reason for the recent arrangements, the position of Steel of Canada is believed to be better than for many years past. There has also been a considerable increase in orders during the past few months. If the coal shortage can be averted, the Company will have a splendid season, as it is understood to have sufficient orders on hand to keep it operating until next fall.

Slack mariners' dues	\$45.25
This is an increase of \$298,312.00	

EUROPE IS MAKING SPLENDID PROGRESS

Towards Reconstruction of National Stability — England Going After Foreign Markets.

A prominent banker, who is a very keen observer and judge of conditions has recently returned from an extended trip to Europe. He says the United States has heard so much pessimistic talk about conditions in Europe that few people realize the wonderful progress which has been made toward re-construction.

Belgium's progress has been remarkable. It must be remembered in connection with Belgium that the Belgian had substantial foreign investments in every part of the world, and that these investments paid them handsomely during the war period, and since the Armistice Belgium has been able to draw on them with the result that the banks have plenty of money, deposits are high, and Belgium credit should, therefore, be unquestionably high. France, too, has made great progress. The fields are cultivated right up to the battle areas. The ground which was fought over is, of course, unproductive for agricultural purposes, but such areas are comparatively small when compared with the entire area of the so-called devastated regions. French banking, commercial and industrial interests are prospering. The Government of France it is true, has taken intelligent action toward balancing its budget, and the regular industry taxes have, to a large extent, been uncollected for a number of years. But there is a cheerful feeling in France, and this condition is nothing like the picture drawn by many observers who have returned from Europe to give vent to pessimistic utterances. Italy in a governmental way has probably accomplished more than any of the Continental countries in working out a comprehensive financial plan. The new system of taxation which bears heavily on incomes and capital itself will enable Italy to balance its budget in 1921.

Before leaving this country the banker says dire prophecies which were to take place all Europe in April and May. Here again there have been gross exaggeration. There is no unrest abroad in England and on the Continent as well as in the United States, but the people of Europe are getting down to business. Summer is coming, and the coming summer will witness still greater progress. Europe needs credit in the shape of raw materials, and this credit is being made available by the banks. With raw materials Europe will produce rapidly. Without raw materials she can not.

In contrast to the United States where we have been doing a great deal of talking and little acting, England is meeting the situation with powerful far-sightedness and superior banking intelligence. There is no talk in England. There is no timidity on the part of the bankers in extending foreign credits to substantial interests. Money is not tight as it is in this country. On the other side the sentiment is that America has the resources, the wealth and the money, and the usual expression of opinion is one of wonder at the slowness and apparent inability of American banking interests to grasp what is universally conceded to be the greatest opportunity ever presented to a nation to establish itself in foreign markets.

England is taking advantage of the present opportunity to the fullest extent. Commercial travellers and bank representatives are on every boat, and the world that has possibilities for foreign trade is being selected. England sees the golden opportunity to obtain the lion's share of Germany's foreign trade, and is not neglecting any chance to get it in a year or two the United States is taken to the fact that its industrial capacity far exceeds the ability of its people to consume its products, and will want these foreign markets. Then it will be too late because England will be too firmly entrenched.

It may be sound to bring about deflation in this country and through high money rates the restriction of credit to bring about arbitrarily a stopping of the expansion of business. But if a nation we need the foreign markets this policy must be revised at least to the extent of becoming more liberal in the granting of foreign credits even though this causes still further inflation for the time being. The granting of credits to Europe will give us a permanent share of their business. The restrictions of these credits will leave the field entirely in the possession of the English bankers whose broad vision and far-sightedness will give to England a financial supremacy and prestige far greater than that which she has enjoyed for centuries.

PRODUCTIVE POWER OF THE DOMINION

Canada's Manufacturing and Other Resources Show Big Gain.

Consul Felix S. S. Johnson, Kingston, Ont., has prepared an interesting report on Canada's productive power which was recently published in Commerce Reports. His message: "The productive power of Canada during 1919 was greater than at any previous time in the history of the country, being in excess of \$4,000,000,000, or approximately double that of five or six years ago. This total is made up of:

Manufactured goods	\$3,013,806,000
Field crops	1,462,787,000
Live stock sold or slaughtered	250,000,000
Milk and dairy butter	185,000,000
Eggs	60,000,000
Fruits and vegetables	50,000,000
Forest products	175,000,000
Mining	167,000,000

PAPER MARKET ON MONTREAL

Howard Smith was Feature of Day, Rushing to New Heights.

Montreal, June 1.—Today's market on the local stock exchange was practically a paper market, with Abitibi furnishing about one-third of the total turnover. Howard Smith was the feature of the day, gaining five points at a new high of 135. Brompton was erratic, selling as low as 112 1/2 and rising to 117 1/2. Laurentide was steady, and gained a point. Spanish preferred and Wraygamack were substantially lower at the end of the day, and Spanish Common showed a fractional gain.

Converters was the only cotton stock to show strength, the issue rising up to 74 in the morning and a subsequent reaction to 72.

Brazilian was weak, closing 1 1/2 points down at 48 1/2.

The steel was quiet, Dominion dropping two points at 62 1/2, and Steel of Canada losing a fraction at 77 1/2. Total trading: Listed, 23,954; bonds, \$12,500.

PAPER STOCKS AGAIN FEATURE MARKET

Their Prominence is Explained by the Announcement of Advance in Prices for Export Paper.

(Furnished by F. B. McCurdy & Co.)
Montreal, June 1.—The feature of today's market was the extraordinary advance in paper stocks. These were usually strong all day round and advances of from 1 point to several points took place in prices. The strength is easily explained by the announcement that prices of newsprint for export have advanced from the present rate of \$50 per ton to the rate of \$110 per ton for the third quarter, and \$120 per ton for the fourth quarter.

As approximately 80 per cent of the newsprint produced in Canada is exported, the significance to the owners of newsprint paper companies is easily understood.

Public Utilities issues were more than usually active but Brazilian had a setback. Judging by this, one might easily conclude that the dividend prospects are less bright than have been in the immediate future and that the acceleration given to the different candidates for nomination at Chicago will tend to steady the market. The degree to which they are acceptable to business and financial interests.

The report of the Senate Foreign Relations Committee, advocating a constructive course of action towards Mexico, is of importance and appears to outline a policy of value to American interests in that country.

SUMMARY OF MARKET NEWS

(Furnished by F. B. McCurdy & Co.)
New York, June 1.—Supreme Court met at 10 a. m. New York time today. Federal Reserve Board's weekly statement shows banks reserve ratio unchanged at 42 1/2 per cent. New York Federal Reserve Bank Reserve Ratio 41.9 per cent compared with 42 1/2 per cent week ago. Fifty million dollar 20 year 7 1/2 per cent sinking fund bonds to be offered today by J. P. Morgan and Company and Guaranty Trust Company \$2,000,000 to be redeemed annually at 115.

Senate Foreign Relations Sub-Committee recommends armed intervention in Mexico if new regime fails to set up a stable government more friendly to Americans.

Favorable wheat reports continue to come from Kansas. Corn late in some sections.

Republican leaders say no chance for consideration of bonus bill this session.

Republican leaders of House and Senate agree tentatively on Sinal

DISCOUNT RATES HURT MARKET

(Furnished by F. B. McCurdy & Co.)
New York, June 1.—The passage of the bonus bill by the House on Saturday and the increase in New York Federal Reserve Bank discount rate from 4 per cent to 4 1/2 per cent, although it does not follow that there will be any substantial unsettlement.

The Republican leaders in the Senate are not sure that there is no chance of the bonus bill being passed by that party, and plans are already reported for an adjournment by Congress at the end of this week.

The discount rate increases may effect the recovery in Liberty bonds as further liquidation may be induced by the acceleration given to the deflation in commercial and commodity values will in due course be of benefit to the stock market, rather than otherwise, as a greater use in money conditions should result.

Political considerations will loom large in the immediate future and that the acceleration given to the different candidates for nomination at Chicago will tend to steady the market. The degree to which they are acceptable to business and financial interests.

The report of the Senate Foreign Relations Committee, advocating a constructive course of action towards Mexico, is of importance and appears to outline a policy of value to American interests in that country.

ENCOURAGEMENT SEEN IN THE TREND TOWARD ECONOMY

The Growing Resistance to High Prices and Non-Essentials Having Salutary Effect on Business.

Notwithstanding some recession in business, encouragement is to be derived from the growing resistance to high prices and the manifest tendency toward economy throughout the country, according to the market letter in the June Commerce Monthly published by the National Bank of Commerce in New York. In so far as this tendency applies to luxuries, to non-essentials and to excessive consumption of necessities, they constitute a need corrective to the present situation, the bank declares.

"Some recession in business is evidence as a consequence of increasing business difficulties and of a reduction of public buying," the letter states. "Inability to make delivery of materials because of railroad conditions has retarded turnover and prevented the releasing of an enormous volume of credit thus accentuating the downward pressure. The closing down of plants has caused unemployment and lessened buying power in many sections. The volume of retail sales has been considerably reduced and cancellation of orders have been reported by some textile mills. In the New England textile industry but 2,400,000 gross tons of pig iron were demanded of the market by recent wage demands of the workers.

"While in the retail markets there is a slackened public demand and a general feeling of reticence, the primary market there are indications of under-production, tending to sustain prices. The relative strength of these two factors is not clear. The output of iron and steel during April shows to a marked degree the effect of the railroad strike. During April and May the output of pig iron was reduced, a decrease of 658,000 from the March total. On May 1, capacity per day of furnaces in blast was 82,100 gross tons as compared with 109,585 gross tons on April 1. Steel ingot production during April totaled 82,500 gross tons, a falling off since March of 461,000 tons.

"The building movement continues to be retarded by rail embargoes, general business difficulties, shortage of material and by labor conditions.

"An extreme shortage of farm labor still continues, and this, in combination with the primitive quality of seed to delay all farm work and to lessen acreage planted, in most sections recent weather conditions have been more favorable than growing conditions than those which prevailed during April. Spring wheat seeding is not yet completed, but it is estimated that acreage planted will be from 10 to 15 per cent less than that of last year. While it is yet too early to estimate acreage planted in corn, it is thought that this year's acreage will be adjustment of Congress Saturday.

Wilson Ideas on Peace Treaty and League will be keynote of opening speech by Chairman Committee at convention.

London with seven Arkansas delegates from Wood in first real contest. Peeling grows that Woods campaign over financed.

Joint Congressional Board records increased price for postal employees amounting to about \$35,000,000 for first year effective July 1.

30 Industrialists \$2.06 up 25; 20 railroads 72.24, up 66.

TOBACCO STOCKS IN LIVE RALLY

(Furnished by F. B. McCurdy & Co.)
New York, June 1.—There was a moderate rally in the early afternoon which had some effect in steel and equipment groups but the tobacco stocks led the most effective rally led by tobacco products and retail stores which gained about 2 points on the announcement that Mr. Whelan's trip to Europe has been postponed.

The market bulled hard, however, particularly when call money rates started to rise and finally reached as high as 10 per cent.

Prices throughout eased off again in the last hour although trading remained very light and without significance.

The absence of real buying power, when short covering was not going on was again quite evident.

Bellevue 619,000; C. P. R. 1300.

CONVERTERS SHOW STRENGTH

Converters again showed unusual strength, rising to 74 as compared with 69 yesterday. The rise is undoubtedly due to a general belief that the dividend of the stock will be increased and that an announcement to this effect may take place at the annual meeting on Wednesday.

IRON AND STEEL STOCKS

Iron and steel stocks were neither active nor interesting and no changes of consequence took place in prices. Ames preferred, continues to sell at 104 1/2 which represents a liberal advance on the recent low and is interesting in view of the outstanding arrears on the preferred stock dividend.

Converters again showed unusual strength, rising to 74 as compared with 69 yesterday. The rise is undoubtedly due to a general belief that the dividend of the stock will be increased and that an announcement to this effect may take place at the annual meeting on Wednesday.

DOMINION STEEL HAD LEAN YEAR

Annual Statement, Just Issued Shows a Lowering of Profits.

Montreal, June 1.—The annual financial statement of the Dominion Steel Corporation, issued today, shows a lowering of profits. The year was one of the leanest experienced by the corporation for some time.

On the old basis of common capitalization, earnings were equivalent to 1.10 per cent. on the \$33,970,000 common stock as compared with 17.04 per cent. in 1919, and 23.68 per cent. in 1918. In the year the common stock was increased approximately \$5,000,000 to \$37,000,000, and on this basis 1920 net profits were equivalent to 6.13 per cent. earned.

After deduction of common dividend of 1.00 per cent. on the \$37,000,000, against \$3,700,000 in 1919, and \$4,157,294 in 1918, and, after adding in priority surplus balances at credit of profit and loss account was \$2,212,206, as against \$7,559,262 in 1919, after reserve adjustments, and \$13,704,167 in 1918.

WHITE RIBBON BRIGADE HAS INVADED ENG.

"Pussyfoot" Tactics Dropped by Reformers Who Sing Jazz Songs to Audiences.

PILGRIM DRESS INTERESTS

Newspapers Welcome Visit But Suggest Speedy Return as an Act of Consideration.

Copyright, 1920, by Public Ledger Co. London, May 31.—The "Pussyfoot" Johnson brigade having been kicked from the British front, the battleground is now fully prepared for the stock troops of the dry campaigners.

But it is not the army of reform in the "White Ribbon" League that has not come with threats on its lips, or axes in its hands with which to smash the saloons; instead it comes with words of conciliation and logic, and hopes with these to convert the British people to a nonbohemian existence.

There is nothing of the chant about the singing of the new reformers; they are much too up-to-date. Modern tactics demand that they should sing soulfulness and timber to sip and accipitancy.

Boo! Boo! Boo! She's true blue, Boo! Boo! Boo! Were for you, White Ribbon! White Ribbon!

White Ribbon! White Ribbon! Boo! Boo! Boo! Were for you, White Ribbon! White Ribbon!

IN THE EDITOR'S MAIL

Editor of The Standard, St. John, N. B. Dear Sir:—Of late considerable publicity has been given to the efforts made by various organizations and groups to impress upon Parliament the necessity of stopping the use of steel ships in Canada.

London, June 1.—The newspaper shortage was discussed, today, by the National Editorial Association in annual convention here. A resolution was unanimously adopted and forwarded to Chairman Porter, of the House Foreign Relations Committee in Washington, urging the passage of the Senate joint resolution, 163, which is designed to afford immediate relief in the emergency, and especially to benefit country newspapers.

Edward Albright, of Gallatin, Tenn., in his presidential address, said: "The ubiquitous profiteer is abroad in the print paper field, just as he is in many other lines of trade, and an acute situation demands drastic action."

"My opinion is," added Mr. Albright, "that Congress, by prompt legislative amendment, should restrict the issue of every newspaper in the United States to a medium of no more than one page per day, and in such a maximum page size, large users of print paper, with their own mills or contracts, should keep out of the spot market. Congress also should make substantial appropriation for a determined effort to find a substitute for news pulp."

"Canada is permitted to keep raw material from us," Mr. Dodge said, "and so long as we are thus deprived, the International Paper Company will not put another dollar with us consent to American mills."

BERLINERS ARE NOW STEALING BAWBS

Recently a strong delegation of returned men employed in the shipyards throughout the Dominion, waited not only upon the Governor Dingley in a large and important meeting that was held relative to the continuance of shipbuilding in Canada.

The average newspaper reader is well aware of the fact that the Government after war government has been in power, has not only failed to provide for the needs of the returned men, but also to take care of those who are the victims of the war.

DESCHANEL EPISODE AMUSES PARISIANS

"President in Pajamas" Idea Too Humorous to be Ignored by Statists of Press.

Paris, June 1.—Parisians, while uniformly sympathetic with President Deschanel on account of his accident, and the proper treatment he has received, have nevertheless taken a hearty laugh over their "president in pajamas."

EAST INDIAN COMES TO PREACH GRATIS

Christian Evangelist Comes from India to America—Has Taken Name of Sahu (Servant).

New York, June 1.—The Rev. Sahu Sundar Singh, Christian evangelist from India, attired in a flowing pinkish white silk robe with turban to match, arrived yesterday from Southampton by the American liner St. Paul to make a tour of the country, preaching in the principal cities. He was met at the pier by the Rev. Dr. E. H. Hume of the Union Theological Seminary, whose guest he will be while in this city.

SMALL LUMBER CUT

Edmonton, Alta., June 1.—A considerable shrinkage in the lumber cut of the mills of northern Alberta is reported as a result of the weather conditions of the past winter. In some cases the total will not be more than half that of last year.

Edmonton, Alta., June 1.—A considerable shrinkage in the lumber cut of the mills of northern Alberta is reported as a result of the weather conditions of the past winter. In some cases the total will not be more than half that of last year.

HUN ELECTIONS ARE GROWING EXCITING

At Recent Meeting the Crowd Cheered for Hohenzollerns and Cried Down With the Republic.

Berlin, June 1.—An election meeting in Berlin, addressed by Helfferich, Finance Minister under the old regime, has been made the occasion of the most violent nationalist and anti-republican demonstration that Germany has known since the revolution. Not only was the building where the meeting was held packed, but enormous crowds assembled in the streets to cheer Helfferich. Some gems from the nationalist leader's speech were as follows:

"What we have most at heart is the revival of Germanic ideas. We must see the incorporation of those ideas in the old black and white and red flag. We swear to hold these colors again. Go to the polling booths under the motto: 'Deutschland, Deutschland über Alles, un geteilt!'"

Helfferich's great audience joined in singing the discarded anthem, following with cheers for the Hohenzollerns and cries of "Down with the German republic!"

In the meantime the crowds outside sought diversion by attacks on passing Jews, including some women who finally were rescued by the military police. Such anti-Semitic demonstrations continued in the neighboring streets until a late hour.

Of more political importance than these signs of the revived spirit of Prussianism was the fact that Helfferich, in the course of his speech, hinted at a possible union between the nationalist and so-called German people's party. He suggested as his motto, "March apart, but stick together," so that one possible result of the elections would seem to be the return to power of the "two strong nationalist parties."

Progress. "So you are having your house redecorated?" "Yes." "How are you getting along?" "Fine. The painters and paperhangers worked a full day last week."

Improve Your Looks

by purifying the blood. Sallow skin, pimples, spots, blives and blotches are usually due to impure or impoverished blood. Clear the skin, put roses in pale cheeks, brighten the eyes, build up the whole system by taking Dr. Wilson's HERBINE BITTERS

Forecasts.
Maritime—Moderate winds, a few scattered showers, but generally fair.
Northern New England—Local showers and cooler Wednesday; Thursday showers, fresh shifting winds.

AROUND THE CITY

TAKING LOMBARD STREET
It was rumored yesterday that the government had begun expropriation proceedings on Lombard street.

PROTEST LODGED
Some thirty citizens of the North End, residents of Lamonts avenue and vicinity, have filed a protest with Mayor Schofield against granting a permit to a circus on the Elm street grounds.

AUTO AND STREET CAR COLLIDE
A collision took place yesterday at noon between automobile No. 1811 and street car No. 128. Little damage was done to either but traffic was held up for some few minutes.

HAS REACHED HOME
Rev. J. A. MacKeigan, who has been spending the last three months in the southern states for the benefit of his health, arrived home yesterday at noon and was given a warm welcome by his friends. He returns with much improved health.

ALARM LAST EVENING
Last night about 9:30 o'clock the fire department responded to an alarm from box 13 and on investigation found that the cause for alarm was smoke escaping from a leaky stove in the top flat of a three-story building at 49 St. Patrick street, occupied by Wm. Galley.

GUEST OF DR. ROBERTS
Dr. Heiser, who has been in the city investigating health matters was the guest of Hon. Dr. Roberts at the Union Club at lunch yesterday. The guest gave a very interesting talk on the work of the Rockefeller Foundation.

NOVELTY SHOWER
A very pleasant gathering took place last evening at the home of Miss Gertrude Hennigar, 26 Orange St., when about forty friends of Miss Edythe Maxwell tendered her a Novelty Shower in honor of an interesting event which is to take place in the near future. During the evening, Miss Maxwell received some very handsome gifts, including cut glass, silver, linen and china.

HELD REGULAR MEETING
The Mission Band of the Central Baptist Church held its regular monthly meeting at the home of Mrs. Wilson, Union street, last evening. Several readings from "Tidings" were given and the members handed in their "Free-Will offerings" which amounted to a substantial sum. While this is not a large one it does a splendid amount of work and the members are faithful in attendance and generous in their contributions.

CADET INSPECTIONS.
The following St. John Cadet Corps will be inspected on June 7, if fine and on June 9 if not: St. John High School, King Edward school, Winter street and St. Michael's the armory at 230 West St. John, St. Peter's, on June 8, if fine, if not on June 10 on King George grounds; in the evening Knox church corps and St. Andrew's church corps will be inspected on the High school grounds. All parents are invited to be present at the inspections.

A LOST CHILD.
The piteous weeping of a little girl on Main Street about 4 o'clock yesterday afternoon attracted the attention of passers-by. Asked what was the matter, she said that she belonged to Musquash and had been out shopping with her mother and had become separated from her. The traffic policeman took her under his wing and conducted her to the North End Station. Shortly after they arrived there the mother of the little girl came in looking for her child. Needless to say the pair were both overjoyed to find each other again.

POPULAR APPOINTMENT
R. H. Irwin of Beauséjour Avenue, West St. John, has returned from St. John, Ont., having been appointed the New Brunswick representative of the Perfection Store Company of that city. The news of this appointment will be received with great satisfaction by Mr. Irwin's wide circle of friends. Knowing the store business thoroughly and being looked on as an expert store man, the St. John Company has secured a very valuable representative. Mr. Irwin is a popular hunting man and has been in the store business with J. E. Wilson, McLean-Holt, and Emerson and Fisher. He will start on his new duties immediately and has the best wishes for success.

B. A. Bourgeois, assistant-comptroller of Canadian National Railways, Moncton, is in the city attending the of the Columbus.

Slight Response To The Appeal

Workers at Red Cross Depot Report Only Two Parcels Received Yesterday for St. Quentin Fire Sufferers.

It is reported by the workers at the Red Cross Depot that the response to the appeal made for the St. Quentin fire sufferers is very slight, in fact that yesterday only two parcels of clothing were contributed. Mrs. A. M. Rowan of the St. John Ambulance Division was at the rooms in the afternoon and Mrs. E. T. Sturdevant and C. B. Allan were also there. A gift of clothing was received from an organization and this will be packed and forwarded immediately.

A message was received from Campbellton from a worker there saying that the Relief Committee organized by A. P. LeBlanc reports that the situation is fairly well in hand. There were no casualties. The outstanding need is for women's and children's clothing particularly underwear, boys' girls' and babies' clothes would be most acceptable. Bedding quilts and blankets are badly needed and at once.

The Red Cross Depot, Chipman Place, will be open today for the reception of contributions.

The City Fathers Inspect Two Sites

Mayor and Commissioners Last Evening Inspected North End Sites Offered as Playgrounds—The City Engineer Reports.

The Mayor and Commissioners paid a visit to the North End last evening to inspect the two sites which are being offered as playgrounds—one at Portland Place by Armstrong and Bruce, and the other the old Shamrock Grounds. The City Engineer has made a report on the suitability of the two sites. His report says that while the Armstrong and Bruce property is the most suitable at present, the Shamrock grounds when drained would be the best in the long run. After their impressions have had time to settle the commissioners will take up consideration of the question.

An appreciative vote of thanks to the speaker was ably moved by Mrs. William Lovi, seconded by Mrs. L. Isaac.

Books for a raffle were collected last evening an it was found that \$76 had been raised for the funds of the society. The drawing which is for an electric lamp will be made at the opening meeting in the Autumn.

Mrs. S. K. Cohen was presented with a letter of appreciation signed by the Y. M. C. I. for her departure from St. John. Mrs. Cohen who has been an active and earnest member of the Daughters of Israel is leaving shortly to reside in Montreal and it was felt that the society had lost a valued member.

A social hour was enjoyed at the close of the programme and the members dispersed to meet again in the Autumn. Mrs. Joseph Goldman is the president of this progressive and energetic organization.

Convention of Retail Merchants

Branch of Retail Merchants' Association from Various Provincial Towns Expected Here Today Concerning Excise Tax Collection.

A convention of retail merchants will be held in the city today to consider the making of a protest against the policy of the retail men being required to collect the new excise taxes. Branches of the Retail Merchants' Association from various towns in the Province are expected to be represented.

The retail men, it is said, are not objecting to the new taxes. They recognize that the Government must secure more money somewhere. But they appear to think that the duty of collecting the new taxes will fall largely on the retail men, putting them to a great deal of trouble and some expense. There is a feeling that the luxury taxes might be collected on bulk sales, either by the manufacturer or wholesaler, instead of by the retailer who would have to work on the basis of individual sales.

The object of the gathering is to discuss what might be done to relieve the obligations which appear to have been imposed upon the retailer, and to agree upon recommendations which may be made to the Government. Similar meetings are being held in the other provinces, and it is expected that the recommendations made by the different retail meetings will be filtered through the Dominion organization before the matter is laid before the Finance Minister.

An Even, Well Kept Lawn

adds vastly to the appearance of the home. The smooth, velvety effect so much desired is only possible by the regular use of a thoroughly dependable Lawn Mower which we offer in the old, reliable "Woodyatt" and "Star" makes, at the following

Store Hours:—9 a.m. to 6 p.m. Close at 1 p.m. on Saturdays

Recognition of Services Rendered

One or Two of the V. A. D.'s Who Volunteered for Overseas Service With Red Cross or Ambulance Association Have Received Cards.

A card of recognition of services rendered has been received by one or two of the V. A. D.'s who volunteered for overseas service with the Red Cross or St. John Ambulance Association and no doubt will be received by all those who crossed the ocean to do nursing or other duties in the great war.

The card reads: "Presented by the Joint Committee of the British Red Cross Society and the Order of St. John of Jerusalem in England in recognition of valuable services rendered during the war. This inscription is beautifully engraved between two illuminated seals, that of the Red Cross and the Order of St. John. It is signed 'Alexander,' President of the British Red Cross 'Arthur,' Grand Prior of the Order of Saint John of Jerusalem in England, Arthur W. Stanley, Chairman, Evelyn Cecil, Vice Chairman of the Red Cross, and F. C. Davies, Secretary, Pall Mall, London.

Queen Alexandra's signature shows her advancing age and the cards will be greatly valued by the recipients in years to come as an official appreciation of their work.

Closing Meeting Held Last Night

Large Attendance at Session of Daughters of Israel at Y. M. H. A.—Address by Hon. Dr. Roberts.

The Daughters of Israel held their closing meeting for the season last evening at the Y. M. H. A. Horsfield street. There was a large attendance and an interesting address was given by Hon. Dr. Roberts who spoke on the proper education of girls and the wonderful methods of education frequently employed.

An appreciative vote of thanks to the speaker was ably moved by Mrs. William Lovi, seconded by Mrs. L. Isaac.

Books for a raffle were collected last evening an it was found that \$76 had been raised for the funds of the society. The drawing which is for an electric lamp will be made at the opening meeting in the Autumn.

Mrs. S. K. Cohen was presented with a letter of appreciation signed by the Y. M. C. I. for her departure from St. John. Mrs. Cohen who has been an active and earnest member of the Daughters of Israel is leaving shortly to reside in Montreal and it was felt that the society had lost a valued member.

A social hour was enjoyed at the close of the programme and the members dispersed to meet again in the Autumn. Mrs. Joseph Goldman is the president of this progressive and energetic organization.

Sir Arthur Currie Made Inspection

Visited Military Headquarters Yesterday, Lunched at Riverside Golf Club, and Left for Montreal Last Evening.

Sir Arthur Currie visited local military headquarters yesterday morning and made an informal inspection of the departmental offices; also a visit to the armory was made. Sir Arthur, accompanied by his aide, Major Colonel, Brigadier-General A. H. Macdonnell, C. M. G., D. S. O., G. O. C., M. No. 7, Lieutenant-Colonel A. H. Powell and Lieutenant-Colonel H. G. Sparling, D. S. O., visited the offices at headquarters and discussed matters relative to this district. He was highly pleased with the work done in the district and the work of reorganizing the military units now being carried on and much credit reflects on the efficient manner in which the officers administer the affairs of military district No. 7.

Sir Arthur went to the Riverside Golf Club at noon and was the guest of the club at luncheon. He and Lady Currie left the city last evening at 8:45 o'clock, daylight time, for Montreal.

BRUNSWICK STREET HOUSE RAIDED

Mr. and Mrs. James Dobson Charged With Keeping Disorderly House—Two Men and Two Women Taken as Inmates.

As the result of a raid effected on Brunswick street last evening by Police Constable Dylomon and Liquor Inspector Merryfield, James Dobson and his wife, Kate, were taken into custody and charged with being keepers of a disorderly house, William Lennox with being an inmate, and Charles Campbell, Florence Jordan and Margaret Thomas with being frequenters thereof.

One drunk made the number of arrests for the evening total seven.

PRESENTATION TO JOSEPH McNAMARA

Popular Y. M. C. I. Instructor Given a Surprise Last Evening When Friends Presented Him With a Valuable Trunk.

Joseph McNamara who has been the instructor of the various classes at the Y. M. C. I. for several seasons leaves today for the Governor Dingley for his home in Boston.

Last evening a number of friends "surprised" him at the Y. M. C. I. D. J. Purdy will leave her wharf at 8 a.m., daylight time.

It is understood that he is not coming back to the city in the Fall. Mr. McNamara has become quite popular here and his news of his permanent departure will be heard with general regret.

EXCURSION.

King's Birthday, Steamer Majestic will leave her wharf at 9 a.m., daylight time for Cole's Island. Steamer D. J. Purdy will leave her wharf at 8 a.m., daylight time.

KENNETH WILLIAMS TAKEN TO HOSPITAL

Was Recently Arrested for Driving Horse to Death—Is Now Considered Unsafe to be at Large.

After examination by Dr. M. E. Case, Kenneth Williams was taken to the Provincial Hospital yesterday afternoon by Detective Donahue. Williams was recently arrested in this city for cruelty to animals. Having hired a horse from the Wilson Livery Stable and driven it to death near Sussex. After being released from jail he purchased a Ford and ran it into the ditch near the Three Mile House damaging it considerably. His actions have been very erratic of late and he was not considered a safe man to have at large.

CLOSING MEETING HELD YESTERDAY

Lady Roberts' Chapter I. O. D. E. Held Last Meeting of the Season—Voted \$100 to War Memorial Fund.

The Lady Roberts Chapter, I. O. D. E. held their closing meeting for the season at the home of Miss Joan Foster Coburg Street, the regent, Miss Helen Wilson, presiding. The sum of \$100 was voted to the I. O. D. E. War Memorial Fund and it was decided that an added amount will be contributed later. Plans for a play to be given in the Autumn were discussed and it was decided not to affiliate with the Local Council of Women.

LEFT FOR CALGARY

Harry Wright of St. John who has been telegraph operator with the F. B. McDurdy Co. at Moncton for some time has left for Calgary.

THE COUNTY COURT

In the County Court yesterday morning, Sydney Killmaster was tried on the charge of stealing from the Y. M. C. A. an overcoat claimed to be the property of Ronald Pattison. Gustaf Halson, who found the coat in the public library, and Detective Middleton testified for the prosecution. Killmaster, William Bennett, a clerk at Mr. Wilcox's, corner of Union and Charlotte streets, and Miss Rosie Veno, were in turn called by the defence in order to show that the coat in question was in Killmaster's possession before the time of the disappearance of Pattison's. The jury returned a verdict of not guilty. W. H. Harrison, prosecuting; W. R. Scott, for the defence.

LAST DAY FOR WONDER-STORY.

This is the final day for the unusually fine Paramount Super-Production "On With the Dance" which has been packing the Imperial for two days. It is a feature nobody should miss enjoying. Usual prices prevail.

PROVINCIAL OPPOSITION PARTY A CONVENTION

of the Provincial Opposition Party will be held on **WEDNESDAY NEXT, the 2nd June, at 8 p.m. (Daylight time) in the SEAMEN'S INSTITUTE, Prince William Street, for the purpose of selecting a Candidate to run in the approaching by-election in this City.**

All voters (men and women) opposed to the present government are cordially invited to attend.

L. P. D. TILLEY,
Chairman.
