SEMI-ANNUAL MEETING S. OF T.

A Net Gain of One Hundred and Seventy Members in Six Months Ending March Thirty-first.

FEDERATION ENDORSED.

Two New Divisions Organized and Ten Dormant Divisions Reactivated--Several Applications for Organization.

Gagetown, May 16.—The semi-annual meeting of the Grand Division Sons of Temperance was held here to-day. Rev. C. Flemington, G. W. P., in the chair. The G. W. P. was glad to notice growing sentiment in favor of untied action on the part of the different temperance societies. The N. B. Temperance Federation had already proved itself a power for good and it deserved the hearty endorsement of all who were interested in the work. Reference was then made to the delegation which waited on the government to ask for a prohibitory law and their reception. He thought that the movement to appoint a commission to inquire into the working of the P. E. I. Island law was a step in the right direction as they had nothing to fear from an honest inquiry into the working of the act there. In conclusion Rev. Mr. Flemington said that what the temperance people now had to do was to convince the government that a large and growing majority of the electorate of this province want and are determined to have a prohibitory law.

Rev. C. W. Hamilton, Grand Organizer and Grand Scribe, reported that during the six months ending on March 31, 1907, he had organized two new divisions, which had sent in excellent reports for last quarter. They are Corn Hill, No. 376, Corn Hill, Kings Co. and Waterloo, No. 288, Waterford Kings Co. Applications to organize new divisions were received from Bay du Vin, Teta gouche and St. Andrews.

From Teta gouche we received an application with 32 names attached, and applications are being signed in the other places named. The experience of the last few months in the grand scribe's office confirms the conviction previously held that to secure the best success for the order a man is needed whose entire time can be given to work among existing divisions and organizing in communities where we either have not had or have lost an existence.

He had reorganized the following ten divisions:—

- Riverside, No. 417, Coatsville, Kent Co.
- Charlo, No. 259, Charlo Sta., Rest. Co.
- McCarthy, No. 304, Scotch Settlement, Westmorland Co.
- Curren, No. 435, Westfield Kings Co.
- Poquiock, No. 312, Poquiock, York Co.
- Never Despair, No. 426, Welsford O. C.
- Garibaldi, No. 151, Benton, Carleton Co.
- Richmond, No. 436, Debec, Carleton Co.
- Grand View, No. 432, Snider Mountain, Kings Co.
- Head of Millstream, No. 407, Head of Millstream, Kings Co.

All of these had not been removed.

NEW STATIONERY.

A nice line of new papereries for the summer trade in the popular linen finish. These are excellent value at 25c.

We have just received our stock of Tablets and consider these goods well worth making a selection from:

- They include: English Linen, Ulster Linen, Feather Weight, Zephyr, Sioux Bond, Merchants Bond, beside a full stock of ruled tablets.

Follansbee & Co's Public Square, Newcastle

ed from the list of divisions, but had been dormant for a greater or less period of time and therefore were sending in no returns. Negotiations are now in progress for the re-organization of "North Star," No. 379, at Salmon Beach Gloucester Co. and "Wilberforce," No. 3, at Milltown, Charlotte Co. During the half year the growth of the Order had been as follows:—

Initiated, 455; joined by card, 1; re-instated, 12—total 468. With drawn, 40; expelled, 6; suspended, 243; died 0—total 298. Net gain 170.

On March 31st, there were in the province 51 divisions with 2,257 members. It was to be regretted that the increase in membership is so small. There seemed to have continued to be abroad a "suspension" epidemic during the last two quarters. In the six months ending September 1906 there were reported 167 suspensions, and during the six months ending March 1907 there were 243—76 more than in the preceding six months. He assumed that "non-payment of dues" had produced this epidemic. It was a serious matter to have the ranks depleted from any cause; but it was greatly to be deplored that many must be regarded as outside from what appears to be on their part, either dishonesty or careless business habits. Cannot some measure be adopted to lessen the losses through this cause?

In the evening, a largely attended public meeting was held in the temperance hall, Rev. C. Flemington, G. W. P., J. M. Steeves, G. S., Rev. Mr. Stewart and W. A. Trueman were the speakers. During the evening a programme of more than usual interest was gone through and at the conclusion refreshments were served.

POPE ORDERS

NEW TRANSLATION.

Rome, May 21.—Pope, Pius X. has issued a decree entrusting the entire revision of the Vulgate edition of the Bible to the Benedictine Order. This is the most important decision yet announced as the outcome of the Biblical commission appointed towards the end of the pontificate of Leo XIII. The Vulgate is the ancient Latin version of the Scriptures; and the Pope's dictate, while regarded as a bold one, is hailed with satisfaction by many both within and outside the church of Rome.

STEAMER BURNED.

Grand Rapids, Mich., May 21.—The steamer Naomi was burned in Luke Michigan late last night. Four of the crew were lost, passengers saved.

FOOLED THE BANKS.

Guelph, Ont., May 21.—Six local banks have been cheated out of \$1,000 by a man who forged the name of John Gillies, a well-known farmer of Marden. The forger interviewed the bank managers, representing himself as Gillies and getting loans on notes for the alleged purpose of buying horses.

ADVISE BETTER PAY.

Moncton, May 21.—Hilson Dean, the seventeen year old bookkeeper for Wm. Wathen, plumber, has been missing since Saturday, and police are unable to trace him. The firms books are said to be in a bad condition.

BOOKKEEPER MISSING.

St. John, May 21.—At a public meeting held this morning, it was resolved that police magistrate be asked to investigate cause of the McAulay Bros. fire, and that larger salary should be given to the fire chief on the understanding that he devote all his time to the work, and that higher salaries be paid to firemen.

TOWN COUNCIL MONDAY NIGHT.

Many Matters Discussed By The Town Fathers—No Sewerage For McCullam Street This Year.

WAGES INCREASING.

Mrs. McEvoy the New School Trustee.—Fire Alarm Postponed.—New Uniform For Policeman.

Town Council met last Monday night, Mayor Miller and all the aldermen present.

A communication from the firemen was read drawing the attention of the Council to the need of a better fire alarm system and the necessity of soon removing the old fire bell from the premises of Mr. Geo. Brown.

This communication was referred to Park and Fire Committee to be reported on later in the evening.

A communication from the minister of Marine and Fisheries was read stating that it was not the custom for that department to bear the expenses of lighting draw bridges. The Mayor said that, as the government had already helped re the lighting of the North-west bridge, he would again write the department. The letter was received and filed.

A letter from the Dominion Public Works department stated that the matter of repairing the sidewalk in front of the post-office would be attended to. Letter filed. A communication from A. T. Weldon of Halifax was read. Mr. Weldon offered to supply the council 800 tons of coal, 2,240 lbs. to the ton at the following figures:—

Slack coal, f. o. b. at Port Hood, \$1.40 per ton; run-of-mine, \$2.50 per ton.

Slack coal, delivered at Newcastle wharf, \$2.40 per ton; run-of-mine, \$3.40 per ton.

This communication was received and referred to Light and Water Committee.

A request from Messrs. John Jardine and Thos. Fallon, town employees, was received asking for a raise of wages from \$1.50 to \$2.00 a day. Petition was referred to committee of the whole, which did not take the matter up last meeting.

Mr. William Casey sent a request to be relieved from taxes on real estate until such time as the council should open up a street to give him access to the highway without having to cross private property. The request was referred to committee on petitions.

A communication asking subscriptions to the Canadian Municipality Journal was filed.

A petition was received from Vender P. F. McEvoy asking to be relieved from penalty unwittingly incurred by filling an imperfectly written prescription. Petition was referred to Committee on Petitions.

The committee on Finance recommended payment of following

bills: T. W. Butler, \$5.00; North Shore Leader, \$4.25; Canadian Guarantee Co., \$20.00. Bills were ordered paid. The same committee reported that the Town Clerk had been instructed to issue executions. Within the last ten days twenty writs for back taxes had been issued resulting in the collection of \$105.

The Public Works Committee reported that McCullam street needed new sidewalk, street repairs and a sewer, and that the sidewalk between Prince William St. and Hon. A. Ritchie's residence was in bad condition, its lower end needing to be entirely rebuilt. Ald. Belyea and Falconer moved that McCullam street be repaired without putting in sewerage, sewerage to be postponed because of lack of funds.

Ald. McMurdo, John Clark and T. A. Clarke insisted that McCullam Street should have sewerage, as there was no drainage and the health of the people was in danger.

The Mayor was of the opinion that the public works money could not be taken for sewerage.

Ald. Morrissy asked if a part of the issue of \$40,000 bonds could not be used for sewerage. The Mayor replied that \$30,000 and perhaps the whole \$40,000 would be needed to settle the town's over draft.

Ald. Belyea's motion carried after a sharp debate. It was decided to repair the sidewalk on King's Highway, not to rebuild.

The Light and Water Committee recommended an increase of salary to the three firemen at the power house, to bring their daily pay up to \$1.75; and that the following bills be paid.

T. McAvity & Sons, \$174.87; Garlock Packing Co., \$55.90; Canada General Electric Co., \$103.45; and C. D. Ruddick, \$5.00. They also recommended ratification of agreement with Mr. Clement Ryan to pay him ten cents a load for hauling sawdust and fifteen cents for cedar blocks to the power House. All the committee's report was adopted.

It was decided to consider new fire alarm system in committee of the whole as soon as possible.

The Police and Appointment to office committee reported that eight Scott Act cases had been tried in April resulting in six convictions. They recommended the election of Mrs. P. J. McEvoy as school trustee vice Mrs. W. P. Harriman who has removed to the U. S., and the payment of the following bills:—

T. W. Butler, \$60.00; Anslow Bros., \$11.00; Carvell and Sergeant, horse-hire, \$1.50; Policeman Ashford, horse hire to Redbank, \$2.00.

The Mayor objected to the Police Magistrate getting printing done on his own account, and to the policeman being allowed to leave town. The report was finally adopted. Mrs. McEvoy was elected trustee.

A new uniform was voted Police-man Hill.

The control of street sprinkling was transferred to the Public Works department.

J. W. Y. Mersereau was granted permission to make sewerage connection with the County sewerage pipe at his own expense, providing the County was willing.

The Bye-Law Committee had no report ready.

ADDRESS ON ODDFELLOWSHIP

Newcastle and Chatham Brethren
Hear Anniversary Sermon
By Rev. F. C. Simpson.

AN ELOQUENT ADDRESS.

The Principles of the Order Explained, And Its Beneficial Work Described.

The Oddfellows of Newcastle and Chatham, attending St. Mark's church, Douglastown, May 12th, were addressed by Rev. F. C. Simpson, who said in part:—

My dear brethren, it is greatly to your credit that you have chosen to celebrate the anniversary of our noble Order by engaging in divine worship. In no better way could the fact be demonstrated, that Odd Fellowship is in perfect accord with the great principles laid down in this holy book, and recognizes as the Supreme Ruler of the Universe that gracious and eternal Father who, in the sacred volume has revealed the good pleasure of his will to all mankind. Your number here are not large, but you are a contingent of a great and noble army, for you represent the largest secret fraternal society in the Anglo Saxon world. Your good works may appear to some to be very insignificant; your opportunities in this direction are of necessity circumscribed; but, in doing your part to make the pilgrimage of life easier and happier for some, you are cheered by the consciousness that you are sharers in a work that is great and glorious, for this society enfold in its compassionate arms the sick, the dying, the destitute and the distressed, it cares for the widow and the orphan, manifesting and magnifying, in deeds of love, that religion which is pure and undefiled before God and the Father. Its benevolent hand is open to men with regard to class or creed.

But I wish for a moment to refer to the prejudice against secret societies which is sometimes met, and which is generally groundless and unreasonable. It is objected by some that there is too much mystery, too many signs, symbols and vows; and there is a suspicion that because the Lodge room is not open to the public there must be something of a questionable character there. But surely such a conclusion is as unjust as it is untrue—a conclusion that would not

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will stretch the distorted limbs of chronic cripples, nor turn heavy growths back to flesh again. That is impossible, but I can now surely kill the pains and pangs of this deplorable disease.

In Germany—a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

be entertained for a single moment with regard to other matters. There are state secrets, business secrets, professional secrets; and societies have a right to keep their secrets, so long as there is nothing in their teaching detrimental to the interests of man or dishonoring to God; and we have the most perfect assurance that this is so with regard to the society to which we have the honor to belong.

Some object to societies on the ground that they are antagonistic to the church of God and are usurping the work of the church. This is entirely a misapprehension. The church is not intended to supersede or abrogate the duty we owe to God and the church, and the man who says he can get all the religion he needs within the circle of a secret society, is not only acting contrary to the spirit of his order but actually assumes an unfriendly attitude to it. Odd Fellowship neither usurps the name of religion nor does it seek to take the place of it. Its chief object is to benefit man here in this world as man, and leaves his future destiny to be cared for by those set apart for that sacred work. In no respect does it encroach upon the peculiar functions of the church of God. If it dared to offer itself as, in any way, a substitute for the church, it would have been long since discovered by those who, instead of honoring the society as they do to-day, would be found doing their utmost to bring about its complete and lasting destruction. That we are engaged in doing the same work of beneficence which the church is doing is quite true; but who should utter a word of complaint because men and women outside of the church have deemed it their duty to organize and join their hands and their resources in the great work of caring for the widow, providing for the orphan, ministering to the sick and luring the dead?

There is nothing in Odd Fellowship that is antagonistic to the church. It may be suggested that the element of selfishness enters into the charity of this society, from the supposition that its own membership alone is attended to; but that is not true. That many more are not sharing its benefits is entirely their own fault; it would gladly welcome them to its sheltering fold. And it is certain that those who are specially and constantly taught the duty of love to all mankind are ever the most ready to respond to the cry of distress, whether borne by fiery winds across a continent or carried by tempestuous waves over the ocean.

In closing you will permit me to remind you of the strength of our noble Order and of some of the work it is doing. As you know, the first Lodge on this continent was organized 88 years ago in the city of Baltimore with a membership of five. From that small beginning it has grown until to-day there is a membership of 1,278,065; and that it is still growing in popularity and usefulness is seen in the fact that last year there was a gain of 60,120 over the preceding year. The amount expended for relief last year was \$4,680,387, and in addition to this, the various lodges sent \$208,711 to San Francisco to aid the sufferers by the earthquake and fire. The order owns and operates 42 Homes for Aged Brethren, Widows, and Orphans. The value of these homes is \$2,203,000 and the annual expenditure \$386,862; the number cared for being 2517. But figures are cold and by them it is utterly impossible to convey any adequate

idea of the magnitude, magnificence and far-reaching effects of the work that is being constantly done through the agency of this great order. Surely ours is a noble record far nobler than the record of valiant deeds on the field of battle.

May the good work go on; may our noble Order long live to inculcate its lessons of love, to lighten the burdens of the distressed, to inspire hope in the sorrowing, to comfort the dying, making the way smoother for those pilgrims who with weary feet journey o'er life's pathway, for I count this thing to be grandly true.

That a noble deed is a step toward God,
Lifting the soul from the common sod,
To a purer air and a broader view.

Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the RESULT of your ailment, and not THE CAUSE. Weak Stomach nerves—the inside nerves—means stomach weakness, always. And the Heart, and kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. WINTER PORT BUSINESS.

The amount of freight handled in St. John last winter was exceptionally small. Live stock shipments fell off. Total freight valuation was \$19,387,300; grain handled 3,349,162 bushels; 117 steamers arriving during past season represent a total tonnage of 356,132, as against 113 steamers with a tonnage of 389,036 last year, and 102 steamers with a tonnage of 366,737 in 1904-5. The total number of persons landed here this winter was 30,025, and of these C. P. R. steamers carried the greater number. During the season C. P. R. steamers from Liverpool, London, and Antwerp landed in St. John 26,000 passengers against 16,304 last year.

Not more than 2516 were destined to the United States. In 1904-5 the C. P. R. brought to St. John 12,271 persons, so that last season the traffic showed an increase of 4533, while this year's continued increase amounts to 8682. Most Allan Line passengers were landed at Halifax.

NOTHING SUCCEEDS LIKE SUCCESS.

The wholesalers are the barometers of drug trade. When the whole sale druggists stock any preparation extensively, this fact may be taken as a sure sign that it is in increasing demand. Probably the largest order ever placed in Canada for a Standard Remedy, was recently given to Fruit-a-tives Limited by The National Drug and Chemical Company of Canada Limited, calling for 100 gross (14,400 boxes) of "Fruit-a-tives" or "Fruit Liver Tablets."

Inside of two months, The National Drug and Chemical Co. sold the entire quantity, and purchased an additional 100 gross.

These two orders of 200 gross, aggregating 28,800 boxes, show how large the sale of "Fruit-a-tives" has grown; and proves, too, that people all over the Dominion are fully alive to the value of this excellent preparation.

This fruit remedy no doubt has real merit, yet were it not for the best kind of newspaper advertising, which has told the story of "Fruit-a-tives" to so many of our people, its virtues would be known only to the few.

Real merit, and advertising in the Union Advocate and Campbellton Events mean success.

WORKING WOMEN

Their Hard Struggle Made Easier—Interesting Statements by a Young Lady in Quebec and One in Beauport, Que

All women work; some in their homes, some in church, and some in the whirl of society. And in stores, mills and shops tens of thousands are on the never-ceasing treadmill, earning their daily bread.

All are subject to the same physical laws; all suffer alike from the same physical disturbance, and the nature of their duties in many cases, quickly drifts them into the horrors of all kinds of female complaints, tumors, ulceration, falling and displacements or perhaps irregularity or suppression, causing backache, nervousness, irritability and lassitude.

They especially require an invigorating, sustaining medicine which will strengthen the female organism and enable them to bear easily the fatigues of the day, to sleep well at night, and to rise refreshed and cheerful.

How distressing to see a woman struggling to earn a livelihood or perform her household duties when her back and head are aching, she is so tired she can hardly drag about or stand up, and every movement causes pain, the origin of which is due to some derangement of the female organism.

Mlle. Alma Robitaille, of 78 rue St. Francois, Quebec, Que., tells women how to avoid such suffering; she writes: Dear Mrs. Pinkham—

"Overwork and long hours at the office, together with a neglected cold, brought on a very serious female trouble until finally I was unable to go to work. I then thought of a friend who had taken Lydia E. Pinkham's Vegetable Compound when her health was in the same condition that mine was, and straightway sent out for a bottle. I finished that and took two more before I really began to improve, but after that my Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Local and Provincial News Of Special Interest to Our Readers, Gathered By Our Reporters from Many Sources, Whirl of the Town.

Mayor Smith of Shediac, being a large landholder, offers to make a free gift of several acres of his land to any manufacturer of importance who will locate in that town.

Call at our store, please, for a free sample of Dr. Shoop's Health Coffee. If real coffee disturbs your Stomach, your Heart, or kidneys, then try this Clever Coffee imitation. While Dr. Shoop has very closely matched Old Java and Mocha Coffee in flavor and taste, yet he has not even a single grain of real Coffee in it.

On Wednesday the Willard Kitchen Co. Ltd., of Fredericton, started upon the masonry work of the Boiestown bridge on the Canada Eastern branch of the I. C. R. for which that company has the contract.

Free Samples of "Preventics" and a booklet on Colds will be gladly mailed you, on request, by Dr. Shoop, Racine, Wis., simply to prove merit. Preventics are little Candy Cold Cure tablets. No Quinine, no Laxative, nothing harmful whatever.

The local government is considering arranging for the inspection of the railways in the province controlled by the government. It is the intention to appoint an inspector to look after this work.

A GUARANTEED CURE For All Forms of Kidney Disease. The undersigned Druggists, are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettigill's Kidney-Wart Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys.

The Miramichi Lawn Tennis Club which has about fifty members, has elected the following officers: President, R. Corry Clark. Vice-presidents, Mrs. C. D. Manly, Allan Ritchie, Jr.

Minard's Liniment Relieves Neuralgia. The Newcastle Band has accepted an invitation to attend the band competition which will be held at Woodstock during the first week in August under the auspices of the 67th Regt. Band.

In Fredericton, on the 14th, W. R. McClaskey, of Boiestown, stated that the Miramichi drives were coming along all right, although the fact of the water falling away so fast would make it harder than was expected to get cut logs.

Mr. John Lutes, I. C. R., station master at Harcourt, will it is stated be sent to Campbellton to fill the vacancy caused by the death of the late O. B. Barberie.

Mr. George Skeffington, former chief of police of the I. C. R., contemplates the establishment of a Maritime Detective Agency with headquarters in Moncton. Mr. Skeffington has been in the detective business for about thirty-five years.

At the Meeting of the Moncton school Board Wednesday night the salaries of the High School staff were increased from \$50 to \$150 each, and Principal Irons, of the Victoria school, \$50. Sister Loreto, of Wesley street school, was also granted an increase.

There's nothing like St. George's Baking Powder. "It keeps its strength—the last spoonful is as good as the first." "And it gives such a fine flavour to the baking, once people use it, they want it every time."

Headaches Mean Your Blood Is Poisoned.

If your bowels, kidneys or skin are not ridding the system of waste-matter, the blood is laden with impurities, which inflame the nerves. It is these irritated nerves that make the head ache. Powders and pills won't cure, they merely drug the nerves into unconsciousness and relieve for a short time.

"Fruit-a-tives" cure Headaches, Neuralgia and Nerve Pains.

because they purify the blood. They act directly on the three great eliminating organs—Bowels, Kidneys and Skin—and restore them to healthy action, thus ridding the system of all poisons. "Fruit-a-tives" are fruit juices—chemically changed, by the process of combining them, into a far more effective medicinal compound than the natural juices. 50c. a box—6 for \$2.50. Cresolene is a boon to Asthmatics. Does it not seem more effective to breathe in a remedy to cure disease of the breathing apparatus than to take the remedy orally through the stomach? It cures because the air breathed around the throat is carried over the diseased surface with every breath, giving relief on the instant that it is inhaled. It is inhaled to soothe, with each inhalation.

THE SHORE LINE.

It is rumored, with apparently good reason, that the Canadian Pacific Railway company has acquired control of the New Brunswick Southern Railway—the shore line between St. John and St. Stephen. This railway is a link in the shortest route between St. John and Boston, and in the hands of an enterprising company can be made very useful and profitable. It is to be very much regretted that the Dominion government has not taken over the road and added it to the I. C. R. as was lately done with the Canada Eastern.

LOCAL OPTION

FOR SCOTLAND.

There is a very strong feeling in Scotland that the time has come for curtailing the liquor traffic. In recognition of this growing desire a local option bill, along the lines of that at present in force in Ontario, has been introduced into the British Commons and read the second time. 61 of the 72 Scotch members support the bill, and it is likely to pass its third reading in the Commons, its success in the House of Lords is not so certain.

MUNICIPAL TRADING.

In the city of Rome, Italy the municipal government, in view of the increased prices of vegetables and fruit, has recently sanctioned the expenditure of a sum of money for the establishment of a civic vegetable and fruit market, which is to purchase produce directly from the farmers and sell it at a very narrow margin above cost to the consumers. Municipal transactions of this nature are becoming quite common in Italy, and might very profitably be imitated in this country.

A FARMERS' CONSTITUTION.

Oklahoma, the most recently admitted of the United States, is to have a constitution more advanced and democratic than any of her sisters. The constitution, which was adopted in a representative convention, provides among other things that: The question of prohibition of intoxicating liquors shall be submitted to the people of the whole state; corporations shall not be allowed to own any more land than is absolutely necessary in the operation of their business; the books of corporations shall always be open to inspection; no railway company shall own any productive agency of a natural commodity; passenger fares shall not exceed two cents a mile; corporations shall be dealt with by an elective state commission; there shall be an effective fellow servant law; Education shall be compulsory; the legal rate of interest shall be six per cent. and contract rate, not more than ten per cent.; all state, county, district and township officers shall be nominated by primaries; and, in general, the principles of direct legislation by the initiative and the referendum shall prevail. The new state has an area of about 69,000 square miles and a population of about 600,000, who are mostly farmers.

A NATIONAL COUNCIL FOR IRELAND.

The popular convention, called by the Irish Nationalist members of the British parliament to discuss the Irish National Council Bill lately introduced by the British government, began its sessions in Dublin on the 21st instant. Whether the government will press the bill as introduced or amend or drop it depends upon the reception accorded the proposed legislation by the convention now meeting. The government's bill proposes to establish an Irish National Council in Dublin. This Council will consist of 107 members, of whom twenty-four will be nominated in the first instance by the Crown, afterwards by the Lord Lieutenant. One member, the Under Secretary for Ireland, will have

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the bowels are in proper condition. Correct any constipation by giving small laxative doses of Ayer's Pills. All vegetable, sugar-coated.

flag upon the average dull. So, Sir Henry Campbell-Bannerman, the pure-blooded Celtic premier of the United Kingdom, has had to exercise the utmost diplomacy to unite his cabinet and following upon the bill in its present shape. It is to be hoped that the Irish people will not unreasonably embarrass their best friends, and that they will accept the bill as offered them. With eight departments under her own control, subject only to the veto of a Lord-Lieutenant appointed by her political allies, Ireland has cause to congratulate herself upon the good fortune lying within her grasp. If she accepts, it will probably not be long before her powers of local self-government will be further enlarged and similar concessions also made to England, Scotland and Wales, thus relieving the Imperial parliament of its heavy burden of provincial matters and leaving it free to devote all its time to the general welfare of the Empire.

Miss L. McGinley is making a visit in Moncton this week.
Mr. Kertson and Mr. Purdy, the two clerks in the Bank of Montreal who had such a serious experience with asphyxia last week, are fortunately not feeling any bad effects.

A GROWING BUSINESS.

The Toronto World, describing the industries of Oshawa, Ontario, in a recent number gives considerable space to the McLaughlin Co., who have the largest and most complete carriage factory in Canada, and for whose products the Newcastle agency is held by Mr. Fred Gough. The World says:—"The principal features of the McLaughlin carriage—with which we were specially impressed—were, in the first place, the beauty of design; and secondly, the perfection of finish. Only the best material is used, only the most skilled workmen are employed, many having been with the company since its inception and who, having grown up with the business, so to speak, are as enthusiastic about the quality of their artistic product as are the public who buy it. The Company have branches at Winnipeg, St. Johns, P. Q., St. John, N. B., Montreal, Beleville, Hamilton, Regina, Calgary, etc., and are slowly but surely laying the foundation of a trade that will prove a record-breaker in the way of a commercial enterprise."

News of the World.

What is Happening in Other Provinces and Other Countries.

New York, May 17.—Jos. Cuneo, stevedore contractor for the Cuneo Steamship Company, the Trinidad Steamship and the Donald Steamship Co. whose vessels dock in Brooklyn, to-day granted the demands of the striking longshoremen.

Charlottetown, P. E. I. May 18.—An association known as the 200,000 Club for Prince Edward Island, is being organized here with branch offices over the province. To improve and beautify the Island and promote its prosperity is the object.

Seattle, May 15.—The entertainment committee of Christian Endeavor Societies of Seattle, having in charge preparations for the National celebration to be held here in July, last night after considerable debate voted that colored delegates should not be housed in the same hotels with whites.

In the Ludlow street Baptist church of St. John, Thursday night, the congregation and the pastor, Rev. E. C. Jenkins, celebrated the sixty-sixth anniversary of the founding of the church by the burning of a \$1,400 mortgage on the church. Only last October Rev. E. C. Jenkins took charge and to him belongs the credit of having wiped out the debt in that brief interval.

At a meeting held in Centenary church, St. John, parlor, Thursday afternoon. The Methodist Camp Meeting and Summer Resort Association was organized and it was decided to purchase thirty acres one mile above Grand Bay station on the C. P. R. as a site for the new summer colony. Lots will be leased to persons desiring to erect cottages and the association will also build. The capital of the association has been fixed at \$15,000, divided into shares of \$10 each. No person will be allowed to hold more than 30 shares. The situation is a very desirable one between Grand Bay and Ingleside stations and about two miles below Westfield. The government is asked to build a wharf. Jas. Crisp is secretary of the association.

Fire broke out in the basement of Macaulay Bros. & Co's big retail dry goods establishment in St. John at the noon hour Friday and caused loss roughly placed at \$125,000 or more, suspended part of the firm's business temporarily at a rush season, played sad havoc with a very fine stock, and endangered the lives of several young women employees of the firm. In the estimate of R. B. Macaulay, of the firm, the loss is \$50,000 over the insurance. Everything in the lower story was destroyed by either fire or water, the ground floor subsided several feet into the cellar, and the second floor collapsed. The upper stories were filled with smoke, and two young ladies had to be taken from the windows of the third story by ladders. The firm will immediately resume business.

At Allison commencement exercises will begin on Friday evening, May 24th, with a Shakespearian recital by Mrs. Southwick, wife of Dean Southwick of the Emerson College of Oratory. On Saturday morning there will be the exhibition of Academy gymnasium and demonstration of Household Science pupils, followed by the sports of Athletic Association in the afternoon, and closing reception in the evening. On Sunday morning Rev. G. M. Young, St. Stephen, will preach, and in the evening Rev. J. W. Aikens of Halifax will deliver the baccalaureate sermon, Monday morning there will be physical drill on the lawn and a concert in Beethoven Hall. The Academy exercises will be held in the afternoon and Ladies' College exercises on Monday evening. On Tuesday morning there will be an orchestral concert, the University concert will be held in

The Kind You Have Always Bought

An interesting sequel to the tragedy of the young man from Amherst who was found dead in the Fredericton lock-up recently was enacted on Friday in the police court before Magistrate Dibblee. The young man had been working in Hartland as a drug clerk, and getting wind of the fact that the Scott Act inspector had been in the village working up a case against him, hurriedly left town, intending to go to Fredericton or some other point until the matter blew over. This morning the proprietor of the business acknowledged the two cases, and paid the fines and costs.

DOUGLASTOWN.

Douglastown, May 21.—The concert given in the Temperance Hall on Friday evening under the auspices of the Boys Brigade was a grand success; the hall being filled to the doors by an audience that thoroughly enjoyed the excellent programme. All the numbers were well rendered and showed great care in preparation. During the intermission there was great demand for the choice candy that had been provided by the young ladies, and many were disappointed that the supply was not much larger. The following is the programme:—
Opening chorus. — Brigade Boys.
Recitation.—Harold Phillips, Solo—May Simpson,
Recitation—Eric Benn,
Physical Exercises—Brigade Boys
Mandolin Solo—Thos. Barnes. & Dialogue,
Solo—Rev. F. C. Simpson,
Recitation—Helen Gray,
Song—Zelda Johnson, May Simpson,
Physical Exercises—Brigade Boys
Recitation—Thos. Baynes.
Instrumental music—Hilda Bass.
Miss Ida Jesamin and her sister Miss Margaret Jessamin returned home from Boston last Wednesday and were given a warm welcome by their many friends, who are pleased to see them looking so well.

We are to have a grand concert on Thursday the 30th under the auspices of St. Mark's church choir in aid of the Manse Fund. A treat is in store for those who attend this concert. Among the soloists Mrs. Albert Glastren of Bridgeport, Cape Breton, is expected to sing.

Next Sabbath Mr. Simpson is to exchange pulpits with Mr. McLean of Millbank.

BLACKVILLE.

Blackville, May 18.—Preparations are being made by the ladies of the Baptist church for a fancy sale and supper, to be held in the Public Hall, on the May 23th. We notice that the long looked for motor car, made its first appearance on our side line Monday, May 13th. What future accommodations are to be anticipated?
Mrs. and Miss Fraser guests at the Presbyterian Manse have returned to Montreal.
Mr. W. M. Keough arrived home last week, after spending the winter in Boston.
Mrs. James Bean is critically ill with La Grippe and measles.

A slight fire broke out yesterday, in the blacksmith shop occupied by Mr. E. Robertson. Willing hands from Gibson's saw mill, soon had it under control and very little harm was done.
Rev. S. J. Crumley spent Tuesday in Chatham.
Rev. H. McRory of Boiestown is in town this week.

Base ball playing is again the order of the day. We presume our team is to have a challenge for the 24th.
If you want neat stylish footwear for the summer call at Miss Keough's new boot and shoe store. A thorough, stylish, new and up-to-date stock at right prices.

Miss Sarah Steel was called home on Saturday last on account of the serious illness of her mother, Mrs. Harry Steel.

Oh! for roses and carnations! 'Tis a little early for flower beds, but Mrs. Jardine is turning out some stunning hats.
Miss Gillis spent Saturday last with friends in Upper Blackville.

BOIESTOWN.

Boiestown, May 18.—Times are quiet in our village just now as

most of the men are away on the drives.

The work on the new railroad bridge has been resumed.

Mr. W. R. McCloskey is preparing to build a fine new store next to his house. The store will be a great addition to the place.

Mr. DeGrace was called home very suddenly on Friday. The school will be closed until his return.

Mrs. K. Cameron who has been visiting in Fredericton returned home Friday night.

Mrs. Nelson of Doaktown and Miss Taylor of Fredericton are visiting Mrs. P. Sanders.

The village shows many improvements this spring. The sidewalks have been mended and people are cleaning up their lawns and putting in their flower gardens.

At the last regular meeting of Court Boiestown this resolution was unanimously passed:—

To Brother J. D. McMillan, Whereas the great and supreme ruler of the univershas, in His infinite wisdom, taken from your home a beloved wife and deprived you of a life-long companion and friend bringing into your life a sadness and loneliness that even time cannot wholly efface; We the members of Court Boiestown, No. 845, I. O. F., desire to express our deep sorrow and heartfelt sympathy for you and humbly pray, that you may find in the Heavenly Father, that comfort and consolation which shall sustain and support as no earth-born consolation can do.

The Lottery in Italy.
Lotto banks do thriving business in Italy. Millions of people of all classes and conditions contribute every week to the game, by which they hope to make fortunes. The princess and her maid, the professor and his pupils, the bootblack and the army officer, the crippled mendicant, school children—everybody is drawn into the lotto net. The main office is in Rome, but sub-offices are in operation in every hamlet in the kingdom, and drawings take place every Saturday in eight cities. The public knows the hour of the drawing, and the plaza near the Via del Umitta, near the Quirinal, always swarms with people when the little blind boy draws five numbers of the ninety which have been placed there. These numbers are displayed on a signboard in the order in which they are drawn, and the player who has bought a ticket with the same numbers in the same order receives the grand prize. The play keeps many people still poorer than they would be and is a great source of revenue to the country.

Rats as Gold Mines.
It is a common practice for the boys in some watch and jewelry factories to kill the rats which infest the buildings and burn the bodies to obtain the gold. Many alloyed rats are used in burning watch cases, and in time they become impregnated with gold. The rats eagerly devour these rags, and a few months of this kind of diet fills the interior mechanism of the rat with a gold plating. Twice a year the boys have a grand cremation. The rats are caught by the hundred and burned in a crucible. The intense heat drives off all animal substances and leaves the gold in the shape of a little lump. The amount of the precious metal obtained in this way is not large, but gives the ingenious youngsters plenty of pocket money. In some factories young Napoleons of finance buy up in advance the shares of their fellow workers in the rat colony.—London Mail.

The Source of Chalybeate Waters.
The chalybeate waters of Tunbridge Wells are said to owe their ruddy tints and queer taste to the fact that St. Dunstan stung his pinchers into them after that memorable encounter recorded in the old rhyme—
St. Dunstan, as the story goes.
Once pulled the devil by the nose
With red-hot tongs,
That he was heard three miles or more—
or that the glowing proboscis—and a long snout is one of the most marked features of the fiend in the medieval art—was itself plunged into the healing well when its owner had taken a flying leap out of the saint's cell at Mayfield, some nine or ten miles away.

How He Answered.
The London Academy tells a story of De Quincey. He had to sign a paper, and the set questions puzzled him greatly. He finally managed to characterize his occupation as "writer to the magazines," but when it came to the occupations of his three daughters his troubles began again. At last he put a ring around their names and wrote, "They are little lilies of the field—they toil not, neither do they spin."

One Way Blind.
"You admit you are an impostor?" said the Judge.
"No, I don't, your honor."
"You claimed to be blind, and yet you have an unimpaired eyesight."
"That's true, your honor, but I'm morally blind, sir, and not being able to see the harm in my innocent deception."
"Six months," ejaculated the Judge.

Ingredients of the Play.
Half a text, a sprinkling of aristocrats, a sin or two and a quantity of good clothing are the familiar ingredients of serious playwrighting, and it is wonderful to see what varied and interesting results can still be obtained from the recipe.—Outlook.

The Recognition.
Scotty—Hello, Pat, me boy, ye had a clean shave, a scarcely knew ye wiver whiskers off. Pat—The same wid me, me boy. Oi didn't know meself when Oi looked in the glass, except by my voice.

Any time is the proper time for saying what is just.—Greek Proverb.

Venezuelan Cowboys.
When the Venezuelan cowboy wishes to catch a bull or cow for branding or for any purpose, he rides alongside it and, with horse and bovine on the dead run, stoops from his saddle, grasps the creature's tail and with a sharp, peculiar twist sends the animal rolling on its back. From the force with which it falls the creature's horns almost invariably pin its head to the ground, giving the vaquero time to dismount and sit on its head, holding the animal helpless to rise, while a companion ties its legs.

Art Baths.
Persons who are troubled with rheumatism in Russia take art baths as a cure. It is done in this way by the peasants near Moscow. Finding an ant's nest, he puts into a linen bag the ants, their eggs and necessarily considerable dirt. Returning to the bath, he plunges into the hot water of the bath his bag of ants, which he has previously fastened tightly at the mouth. After several minutes the water gives off a very strong penetrating odor of formic acid. The bath is now ready, and the invalid is put into it. Such a bath has a very active irritant action on the skin, being, in fact, a counter irritation that causes the rheumatic pains to disappear.—Strand Magazine.

A Lemon Instead.
"Do you know," a pretty bride of three months said to a friend the other day, "I think all these jokes about young wives having so much trouble with butchers and grocers and being cheated and all that is just too foolish."
"Then I presume you are getting on all right with your dear?" her friend inquired.
"Why, of course I am! Anybody would if they would just deal at a reliable place," the young wife declared.
"Now, there is my grocer," she continued; "he is just as obliging and thoughtful as can be. The other day I ordered a dozen oranges, and when they came I found there were but eleven in the bag, so when I went to the store again I told him so.
"Why, yes, ma'am," he said, "I know there were. I had put in a dozen, but I noticed that one of them was spoiled, and of course I wouldn't send you any but the best goods, so I took it out."
"Now, don't you think that was nice in him to be so thoughtful and honest?" she concluded.

Steering the Ship.
The work of steering a great ship, even with the aid of modern machinery, is much more delicate than one would imagine. The larger and faster the ship the greater is the difficulty. It is not enough to hold the wheel in the same position to keep the ship on her course, for the wind and waves and the currents of the ocean tend constantly to knock the ship off her course. The great wall of steel (four feet high) offers a broad target for the wind and waves. The art in steering is to humor the ship to these forces and when she is deflected bring her back quickly to her course. If you could watch the binnacle, especially in bad weather, you would see the needle of the compass constantly shifting from side to side, which means that the great steel prow is not going forward in a perfectly straight line.—Francis Arnold Collins in St. Nicholas.

New York's Cab Drivers.
A driver has to have a license. That mysterious official, the mayor's marshal, grants one upon the payment of 25 cents and two written testimonials of honesty. A man may come out of Sing Sing without he has been sent for highway robbery or stealing the minister's cat or any other crime, if he presents two greasy letters—one of any Jones and the other of any Smith—stating that he is an honest fellow he will get a license. No inquiry is made, references are never looked up. Indeed, if you are a desperate criminal—guilty of murder or failure to pay alimony—you can do no better than take out a license and hide on top of a cab. So into the business drift all sorts and conditions of rogues. Under the aegis of the law (the aegis being a twenty-five cent badge) they rob you and me.—Vance Thompson in Outing Magazine.

The Hessian Played.
It is a matter of record that upon the 22nd of December, 1862, independence day by the Continental Congress music was secured for the occasion by forcing the Hessian band, which had been captured by George Washington at Trenton in the previous December, to play in the public square all day, to the great delight and amusement of the people. It is also stated that these involuntary celebrants were obliged to practice appropriate airs for three weeks previously in order that they could not plead ignorance as an excuse.

Curious Coincidences.
When the Ring theater, in Vienna, was burned, with great loss of life, one of the other playhouses of the Austrian capital was playing Pailleton's "Le Monde ou l'on S'Ennuie," when the Stadt theater, in Vienna, was burned another theater in that city was playing "Le Monde ou l'on S'Ennuie," and on the evening of the day when the fire in the charity bazaar in Paris took place the Theatre Francaise was announced to play "Le Monde ou l'on S'Ennuie."

Jealousy.
"That word 'communist' my dear," observed the young husband, correcting her, "has the accent on the first syllable."
"How do you know?"
"The dictionary says so."
"I never saw a man as pronounced in favor of his neighbors as you are!" exclaimed the young wife, who wished you had married a dictionary.

Too Much of a Good Thing.
"When you are absorbed in your business and get out of town," said a merchant, "you will get your wife entirely."
"No, darling, that statement is for me, not for you. I am very busy, but I am not out of town."

The Clever Nurse.
Grandmother—Why, nurse, whatever are you thinking of to bring so young a lad into the open air on so cold a day as this? Nurse—But you surely do not think that so small a child understands differences in temperature?—Il Mondo Umoristico.

So Girls Wear Engagement Rings.
The same principle that a person who is engaged round his finger—so they say—forget they're engaged."

Cruel.
Miss Fortysummers—I had a proposal last night and refused it. Miss Fortysummers—You are always thinking of the welfare of others, aren't you, dear?

From the Bible accounts of the marriages of Jacob with Leah and Rebecca and from other narratives of marriages in Jewish history it seems that marriage was not held to be a sacrament or religious rite in the times of the patriarchs. In those days the head of the family, the father, was priest and ruler of the family and the only priest or ruler whose authority it recognized. As far as we learn from the Bible narrative in the case of Jacob's marriages, the simple giving of his daughters by Isaac constituted the marriage, there being no religious or other ceremony whatever. Of course, however, marriages made in this way were just as sacred and just as binding as those performed in the most ceremonious manner. In these days in Protestant countries the marriage laws do not look upon marriage as a sacrament, but only as a civil contract, though most people prefer to give it a certain religious sanction by having it performed by a church minister.

David Hume and His Wine.
A jocular request of David Hume to his friend John Home was curious. Home liked claret and dieted his poet, calling it poison, and the two friends had many discussions on the subject. They also used to have disputes as to which of them took the proper way of spelling their common family name. The philosopher, about a fortnight before his death, wrote with his own hand the following card to his wife: "I leave to my friend, Mr. John Home of Kilduff, ten dozen of my old claret at his choice and one single bottle of that liquor called port. I also leave him six dozen of port provided that he attests under his hand, signed John Home, that he himself alone finished that bottle at two sittings. By this concession he will at once terminate the only two differences that ever arose between us concerning temporal matters."

Ring in the Ears.
"Ring in the ears is a most peculiar condition. It is interesting to learn that, though the brain so distinctly receives an impression of sound, there is really no sound at all. The sensation is produced by derangement of the nerves of the ear, caused by poor circulation or such pressure and interference as come from hardened, excessive wax, boils, etc. Some one has remarked that when the ears were ringing they were "insane." Truly, they carry wrong impressions to the brain. They record things that do not happen.

A Weather Stone.
A writer tells of a curious stone that is to be found in Finland. It is a natural barometer and actually foretells probable changes in the weather. It is called a senakur, and its peculiarity is that it turns black before approaching rain, white, etc. Some one it is mottled with spots of white. Investigation has shown the stone to be a sort of fossil, mixed with clay, rock salt and niter. When the air is moist, the salt turns black; when the air is dry, the salt shows in white spots on the surface of the stone.

A Strong Face.
"Facial expression," said the thoughtful looking man, "is not confined to human beings by any means. For instance, some time ago I went to call on a friend of mine, who was not at home. However, a dog of his was there. I looked at its dog a moment, and he returned my look. Then something in that dog's face seemed to take hold of me and simply took me to the spot. It was his teeth!"

The Honest Physician is Anxious to Cure and Uses the Best Available Remedies.
The proposed legislation through the Dominion Parliament for the regulation of the manufacture and sale of patent or proprietary medicines is of the utmost importance, and it is receiving a great deal of attention, not only by the proprietary medicine manufacturers, but also by the leading doctors and druggists. Every manufacturer of reliable and high class remedies welcomes the bill as a step in the right direction. The discussion has brought out the fact that the best physicians in Canada and on the continent approve of and prescribe Psychine in cases of the most difficult character. In a recent instance of very serious throat and lung trouble the patient had been using Psychine. Two leading United States specialists were consulted, in addition to two eminent Canadian physicians. Upon learning what the patient was using, a sample of Psychine was taken and analyzed, with the result that the physicians advised its continuance. They prescribed no other medicine but Psychine, with the result that the patient has fully recovered and is a splendid walking and talking advertisement for the wonderful curative power of a remedy that will "stand up" before the keenest professional criticism and analysis. As a builder of the system and restorer of all wasted conditions, Psychine has no equal, and the best and most earnest physicians recognize this fact.

At the age of 25 my lungs were in a terrible state. I had a gripe the year before; it settled on my lungs and I kept steadily growing worse till I got down so low I was in bed for six weeks. I had a consultation of doctors, and they said they could do nothing more for me. Then I started to use Psychine. I took the medicine for more than a year. It certainly did wonders for me. I am now as strong as I was before my sickness.

FIVE YEARS A SUFFERER!
Read The Cure.

MESSES. C. GATES, SON & CO.,
Gentlemen,—I was suffering badly for 5 years with a pain in my back leading to my kidney. I tried all the remedies I knew for the cure of it, but found none until by chance I heard of your

LIFE OF MAN BITTERS
INVIGORATING SYRUP AND
ACADIAN LINIMENT,
These I used and bathed as recommended and can safely say I am cured. I also had a swelling in a finger joint which was cured by the Acadian Liniment.

I can recommend all of them to any one as wonderful remedies. I will always keep them for immediate use and would advise others to do the same.

Yours very truly,

Practical Elasticity

"Maritime" wire fences are made of a coil-spring wire that holds the coil shape and not only makes the fence easily adaptable to rough, holey, ground, but prevents the possibility of sudden strain and breakage as well.

"Maritime" wire fences need few posts; twenty or thirty feet apart is near enough. Every post saved reduces the cost.

Moreover a long panel between posts enables the fence to better encounter any sudden shock.

TALKS PLAINLY WITH POLICE.

Judge Wilson Gives His Views On The Treatment of Unfortunates By Fredericton Officers.

Before the County Court adjourned in Fredericton on Thursday last, Judge Wilson took occasion to refer to the death of young Hickey, which recently occurred in a cell at the police station, under what he considered very sad and terrible circumstances. Here was a young man who leaves his home in Amherst, goes to Hartland and gets employment. Later he gets into trouble and comes to Fredericton, gets under the influence of liquor, falls into the hands of the police, and is thrown into a dark and cold cell, without food or warmth, and nothing but a deal to lay on and a deal block to sit upon. No friendly attention was paid to him until 11 o'clock the next day when he was called upon to appear before the police magistrate. He did not respond to the call and the officer tries to arouse him by the tender mercies of a kick. He does not wake and is found to be dead. It is certainly a sad and terrible death and one which might everywhere lead people outside of this Celestial City, with its many churches and educational institutions to believe that the unfortunate violators of the law, who happen to fall into the hands of the police force are treated more like brutes than human beings. I thoroughly concur in the recommendation of the coroner's jury which investigated this

case, that better accommodations should be provided at the police station for criminals. The whole tendency of public opinion and those who are entrusted with the administration of the law in criminal cases is towards an effort to reclaim them so that they may be restored to their friends and relatives and to the position of respectable citizenship. It is hoped that the police committee, the police magistrate and the officers of the law in this city, will fall in with the trend of public opinion.

THE FIRST DIRECTORY.

Quaint Olden Time New York Business and Social Addresses.

In the first Directory of New York city, which was issued in 1786, there are some peculiar and quaint entries. For instance, in those days it was not uncommon for medical practitioners to sell drugs, as is shown by the following address, "Samuel Bredhurst, physician and apothecary, 64 Queen (now Pearl) street."

Clergymen of that period were exceedingly precise regarding their titles. Thus, "Abraham Bache, reverend of the Church of England, 29 Smith street," and "Joze Phelan, clergyman of the Church of Rome, 1 Beekman street."

Leon Rogers, tailor, of 5 Broadway, was described as a "breeches maker;" John Bean, 60 Broadway, as "surgeon and tooth puller;" S. Cryer, 69 Cherry street, "punch and porter house;" Jo Deleplane of 132 Queen street, "Quaker speaker;" D. Hitchcock, 89 Queen street, "house carpenter and undertaker;" John Hogland, 95 Queen street, "digger, etc.;" Henry H. Kip, 25 King street, "inspector of pot and pear ashes;" John Nitchie, 7 Garden street, "starch and hair powder maker;" Samuel B. Webb, 29 Lower Dock street, "gentleman."

In those days, too, there were a great many "gentlemen" and a few "wash-women." All teachers were then addressed either as "schoolmasters" or "schoolmistresses." The retail dealers on Broadway and Wall and Queen streets called themselves "shopkeepers," the hotel men were "tavern keepers," and the policemen were "watchmen."

THE COLD WATER ORDEAL.

It Was Once an Important Test of Guilt or Innocence.

The cold water ordeal was one of the most important tests of guilt or innocence a few hundred years ago. If the accused floated, he was guilty; if he sank, he was innocent. In the twelfth century some altar vessels were stolen from the cathedral of Laon, and the learned Anselm proposed that a child from each parish should be put to the test and so on until the guilty one was found. The proposition raised a great outcry, and the people clamored that those who had easiest access to the church be the first to undergo the ordeal.

This looked reasonable enough. So the bishop ordered the six priests of the cathedral to prepare for the test. In the meanwhile Anselm thought to try the experiment himself as a preliminary test. So he was bound and placed in a tub of water. To his great satisfaction as well as discomfort he promptly sank. The day arrived and with it an immense crowd to see the trial. The first priest sank, the second floated, the third sank, the fourth floated, the fifth sank, and then Anselm himself—wonder of wonders—in spite of experiments and protested innocence floated around with the buoyancy of an air bubble. While he was serving his sentence in prison Anselm found time to write a learned treatise on the "Inexpediency of the Water Ordeal and Its Failure in Many Cases."

New Zealand Mocking Birds.

The Poe honey eater is one of the commonest and at the same time the handsomest of the New Zealand birds. The neck is ornamented with a frill of curly feathers of a greenish color with white centers, and the throat is adorned with a tuft of white feathers, which has gained for it the popular name of "parson bird," an appellation appropriate not only because of this decoration, but because of the resemblance of its peculiar attitudes when singing to the gesticulations indulged in by exuberant lecturers when wishing to drive home their points. The bird is an excellent mimic and can be taught to repeat short sentences with extraordinary clearness and to whistle short songs quite as well as a parrot.

Queen Bees' Giant.

Queen Elizabeth had a Flemish porter who was over eight feet high and of great strength, and he was an extremely good natured man. Whenever tall he used to patronize him in a friendly sort of way, and on one occasion when he met at an inn two soldiers who were over six feet in height he said, "Come under my arms, my little fellows." And, taking them up, he walked down the room with them under his arms as if they had been children, much to their disgust.

Willing to Oblige.

Uncle (to little Bertie, aged five, who is being taken off to bed)—Good night, Bertie. Of course you always remember your aunts and uncles in your prayers? Bertie—Oh, yes, Uncle Felix! Shall I tell you what I say? I say, "God bless Aunty Kitty and make her thin, and God bless Uncle James and make him fat, and God bless Uncle Felix and"—which do you want to be, fat or thin?—Punch.

A Fast Train.

"Is this a fast train?" asked a passenger who was tired of looking at a station at which the train was not supposed to stop.

"Of course it is," was the conductor's reply.

"I thought so. Would you mind my getting out to see what it's fast to?"

Always the Same.

Tailor's Little Boy (walking with his father, sees a street roller)—What's that, papa? Tailor—The street's being newly ironed and pressed.—Figaro.

"Some men can take new furniture and make it look as if it was made a century ago," says a journalist. So can some children.

When the "kiddies" want "something good" when mother wishes "a bite between meals" when father feels a bit hungry at bedtime—how they all go for the pail of

The I. C. R. pay car passed through here on Monday.

Arbor Day was fittingly observed in the schools in the town last Friday.

On Thursday, the clothing of Lillian, the five-year old daughter of James Lanigan of Rexton, caught fire, and the child narrowly escaped being burned to death. As it was, she escaped with slight burns.

The Newcastle W. C. T. U. have elected the following officers for ensuing year:—Pres., Mrs. T. A. Clarke; Cor. Sec., Mrs. J. M. Troy; Rec. Sec., Mrs. J. W. Miller; treas., Mrs. H. Wyse; vice-pres'ts, Mrs. McLeighton and Mrs. C. Sargeant.

With a view of preventing as far as possible the spreading of forest fires on crown timber lands the surveyor general is authorized to arrange with the licensee to pay half the cost of fire protection and the fighting of fires.

At the Baptist church on Sunday next, Rev. Dr. W. E. McIntyre of St. John, superintendent of Baptist Home Missions in N. B., will preach both morning and evening. Dr. McIntyre is not only an eloquent preacher but a literary man and church historian of recognized ability.

To-morrow (Thursday) being Empire Day, interesting and instructive patriotic exercises will be on the program of each of the schools of the town. It is hoped that parents and others will avail themselves of the opportunity of being present.

James Prescott, of Pennfield, Charlotte county; Charles D. Prescott and Isaac Prescott, of Albert county, and Robert L. Myles and Arthur W. Harbour, of New Mills, Restigouche county, are seeking incorporation as "The Prescott Lumber Company, with capital of \$99,000. The principal place of business will be at New Mills.

I. C. R. Conductor John S. Nickerson resumed his duties Monday after being laid off for some time past. Conductor Nickerson sustained severe injuries being dragged between a car and the station platform at Oxford Junction, and later suffered a severe attack of pneumonia.

The Bostona Saxeite Club drew a full house in Chatham Y. M. C. A. last Thursday night, and none who attended was disappointed. About a hundred people from Newcastle, Nelson and Millerton were present, besides about three hundred and fifty from Chatham. The music was of a first class order, and if ever Professor Staats and his company return they will get a big house again. The Y. M. C. A. has earned the thanks of the music-loving public by bringing them.

At the annual meeting of the Women's Foreign Missionary Society of St. Andrew's church, New Glasgow, N. S., last Wednesday night, the occasion was made a special one in extending a farewell to Rev. and Mrs. S. J. McArthur about to leave for Newcastle. As the closing hymn was given out, Mr. A. C. Bell mounted the platform and in the name of the congregation bore eloquent testimony to the great work done in New Glasgow by Mr. McArthur and the great sorrow felt by the people at his impending removal. He then presented the reverend gentleman with a handsome gold watch and chain and Mrs. McArthur with a purse of gold.

The Methodist Women's Missionary Society held a Thank offering service in the church Wednesday evening. Mrs. Simon McLeod, president, occupied the chair. The regular choir was present and rendered their usual valuable assistance. Addresses were given by the President and Rev. H. C. Rice; Mrs. Leard read a convincing paper on "Why should I be a member of the W. M. S.?" and Mrs. T. A. Clarke conducted a very helpful study class, taking up the subject of Missions on the Islands of the Pacific Ocean. A number of society members assisted Mrs. Clarke in the presentation of the lesson. Two children in Korean garb took up the offering, which

The J. B. Snowball Co. has sold its side wheel steamer St. Isidore to the Prescott Lumber Co. of New Mills.

Mr. Seely of Moncton and Miss Bessie Crocker sang a very pretty duet in the Methodist church last Sunday night.

The summer time table will go into effect on the I. C. R. early next month. The ocean limited trains will be put on towards the latter end of the month.

The position of I. C. R. trackmaster, lately vacated by Mr. I. DeBoo has fallen to Mr. Thomas McPherson of Kent Jct., a tried and trusted employee of the road.

The strike at Hickson's mill last week resulted in a victory for the men. Employees of the Anderson Furniture Factory also got a raise of wages last week, as did the employees of T. Lynch's mill at Nelson.

K. O. K. A. The boys are talking up a picnic for Friday afternoon. A conclave will be held in Park's Hall in the evening as usual, which is looked forward to as a pleasant ending of the holiday.

The officers of the Richibucto Tennis Club for ensuing season are:—J. B. Leger, pres.; Miss Constance Beers, vice-pres.; C. Buck, sec-treas.; W. H. Hogan, G. D. Steele, and Misses Alice Vantour and Maggie Grierson, managing committee; Miss Agnes Ferguson, field referee.

Rev. S. J. McArthur will be inducted into the pastorate of St. James' church to-morrow (Thursday) evening, service commencing at 7.30 p. m. A reception will afterwards be tendered Mr. and Mrs. McArthur by the congregation. At a meeting of the ladies of St. James' congregation the following were appointed a committee in charge of the reception:—Mrs. W. Watt (Convenor), Mrs. O. Nicholson, Mrs. J. Stables, Mrs. W. F. Copp, Mrs. D. Cool, Mrs. J. Robertson, Miss M. Davidson and Miss M. Fleming.

The quickest drive that was ever made on the Dugarvon River was made by Con. Regan, foreman James Robinson, ex M. P., from the falls to Indiantown, leaving on the 7th, and arriving at noon on the 17th. The water was exceedingly low, but Mr. Regan, being an expert himself, and having secured an exceptionally fine crew of river drivers, who thoroughly understood their business, and studied their employer's interests, was able to accomplish this extraordinary quick drive.
