BEAVER BOARD
If you are building or going to complete some unfinished rooms, let us show you some colored samples, illustrating the beautiful color effects obtained by using this sanitary and durable board for walls and ceilings in all classes of buildings.
We carry a large stock in assorted sizes.

MAIL ORDERS
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything in reason to give prompt despatch.

REINFORCEMENTS FOR PRINCESS PATS

Universities of Canada Working Loyal to Keep up Strength of Regiment

The Universities of Canada have now for some time been working loyally together to reinforce that gallant regiment the Princess Patricia Canadian Light Infantry. Three Companies have already gone overseas, numbering nearly 900 men and a fourth Company is now under formation at Montreal.

The University Companies are now known throughout the length and breadth of Canada, so that there is a continuous flow of men of the right type to Montreal. Not only do such men find entry to a famous regiment but they are rapidly equipped and trained and sent without delay overseas to England, where they are comfortably billeted in huts at an excellent camp near the sea on the South Coast of England. Moreover the men secure the great advantage of good comradeship with congenial spirits of similar tastes and antecedents.

The first Company under a notable officer, Captain Gregor Barclay, has been declared by regular officers of experience to be second to none compared with any Company of any army in the world.

The second Company was raised over-strength in seven weeks by Captain G. McDonald and Captain Percy Molson. Both companies are now in France.

The third company sailed eighty over strength because the Newspaper publishers of Canada were good enough to make known, through their columns that the Company was being formed. This resulted in such a rush of recruits that it was necessary to apply to the Militia Council of Ottawa for a special authority to increase the strength from 250 to 330 men. Each man before embarkation writes to a friend who is a likely recruit and tells him of the advantages of the Universities Company, so that even before the men has disembarked a fresh company is assembling on the McGill Campus at Montreal.

Recruits are examined locally by an Army Medical Officer and are attested by a magistrate in the nearest city, after which an application is made for transportation, which is speedily furnished from Montreal.

This system is effective and rapid, and free from red tape. There are in nearly every city, representatives of the various Universities who are always ready to help forward the good work, and to give information to men anxious to enlist.

The regulations respecting enlistment, pay and separation allowances are precisely the same as those for other Canadian troops.

At Montreal, the University lends buildings for barracks, and the Campus for drill ground. Affiliation with the McGill Officers Training Corps is a great benefit, and interesting tactical work is carried out on the slopes of Mount Royal.

There is competent instruction in tactics, musketry, bayonet fighting and trench making. The C. P. R. is kind enough to lend their gallery for shooting practice. A machine gun is available and signalling, now of immense importance, is also taught.

All information can be obtained from Capt. A. S. Eve, 382 Sherbrooke St. West, the headquarters of the successive companies.

The newspapers have proved themselves to be the most efficient means of raising recruits, and every reader who cannot himself go to the front can help in the present struggle by calling the attention of his friends to this opportunity.

COUNCIL MEETING TUESDAY EVENING

Delegation From Board of Trade Heard Regarding Grist Mill Proposition

A meeting of the town Council was held on Tuesday evening in the Council-chambers, His Worship Mayor Andrew presiding. Councillors present were Messrs. Quinn, Patterson, Miller, Ellisworth and Evans. The minutes of the previous meeting were read and confirmed.

A petition was read from ratepayers resident in Andersonville asking for the privilege of Electric Lighting facilities. This was referred to Electric Light Committee.

The several committees presented reports recommending payment of accounts as follows:—

Electric Light	\$262.37
Water and Sewerage	293.47
Public Charities	13.50
Public Property and Streets	29.20
Fire Protection	10.87
Finance	48.90

Councillor Ellisworth from Assessment and Appeals Committee presented a report recommending that the assessment on Mrs. E. Connacher's property be reduced \$500 for the years 1910 to 1914 inclusive, and that no reduction in the Assessment of Mr. F. Renault be granted. This report was received and adopted.

It was then resolved that the small boiler in the old power house be sold to Aime Essiembre for the sum of \$100.00.

Councillor Alexander then entered the meeting.

A delegation from the Board of Trade, consisting of Mr. F. E. Blackhall, (president), Mr. D. A. Stewart and Mr. Robt. St. Onge was heard before the council relative to the Grist Mill proposition. It was proposed that Midget Flour Mill be built, with a capacity of 25 barrels per 24 hours. The company had secured a lease of ground from the Railway people near the water barrel on Ramsay Street and everything was in readiness for going ahead.

The delegation desired exemption of taxation on the property for fifteen years, and the supply of electric current for power purposes at trade rates, but with an agreement that the total amount to be paid would not exceed \$200. After full discussion on these matters by the Council it was unanimously resolved that the company be granted exemption of taxation for fifteen years and given electric current at meter rate for three years, the maximum amount to be paid being \$200, and for a further period of seven years be granted electric power at current rates with the provision that should the amount exceed \$200, the excess would be charged at the rate of 2½ cents per K. The town solicitor was instructed to prepare a suitable agreement, after which the Council adjourned.

INSTANTLY KILLED BY FALLING FROM EXPRESS

L. C. R. Brakeman Todd Graham Fell From Maritime Express Nearing Moncton

(Newcastle Advocate)

Residents of Newcastle were shocked on Tuesday morning to hear of the death by accident of Terrance Graham, formerly a resident here, by falling off the south bound Maritime Express about a mile this side of Moncton.

The Moncton Transcript's account of this sad affair is as follows:—

"About 8.10 this morning, as No. 34, south-bound express, was running along just this side of Pacific Junction, Mr. Todd (Terrance) Graham, and I. E. Brakeman, Moncton, fell from the train, struck his head against a steel rail of a parallel side track and was instantly killed. The train had entered the N. T. R. yard limits at the time, was still moving at a lively rate of speed and the accident was not observed by anyone on the express, which continued its run into Moncton without a stop.

The body was discovered by Section Foreman Mort Somers and his crew, who were following along on their pumper about fifteen minutes behind the express. The head was so badly battered as to leave no doubt that death was instantaneous.

As there were no witnesses to the accident, the cause is of course, not positively known, but it is thought that he lost his balance and fell out while opening the vestibule doors of the cars, as is the duty of the brakeman as a passenger train approaches a stopping place.

The train despatcher in Moncton was immediately notified, and he in turn notified Conductor Ferguson, of 34, who was just sitting down to breakfast when he received the sad news.

A special train, consisting of switcher 941 and a car, was at once run out to the scene of the accident. On board were Chief Despatcher B. S. Ward, Station Agent Ernest Moore, Coroner James Kay, I. C. R. Officer Nelson Merrill and other local officials. After viewing the body, Coroner Kay gave the necessary permission for its removal and it was brought back about 10.30 on the special to the Union Depot, from whence it was transferred to Tuttle's morgue to be prepared for burial."

Mr. Terrance Graham, the victim of yesterday's accident, was a native of Newcastle, where his father, who was a locomotive engineer on the I. C. R. line, resided. Both his parents are now dead. He is survived by a widow, formerly Miss Adair, of Newcastle, and by two young sons. The sons are Hebert, aged five years, who is just now confined to the city hospital, Moncton, with a broken leg, and Clayton, aged 13, who attends a city school. Miss Lizzie Adair of Moncton is a sister-in-law. Harry, employed in the I. C. R. roundhouse here, is a brother, and Miss Flossie Graham is a sister.

Another brother Fred was formerly employed on the I. C. R. but left and went to Montreal where he entered the service of the Grand Trunk. He was killed about fifteen years ago, in much the same way that his brother met death yesterday.

DISASTROUS FIRE AT BATHURST YESTERDAY

Huge Amount of Lumber Belonging to Bathurst Lumber Co., is Destroyed

(Special to Graphic)

The immense stock of lumber piled on the dock of the Bathurst Lumber Company at West Bathurst was wiped out yesterday by fire, which started about two o'clock from a spark from the refuse burner of their large concrete and steel mill. The fierce, equinoctial gale that was blowing soon fanned the sparks to a flame among the dry lumber piled and no amount of water seemed to have any effect, and it was soon seen that the Bathurst fire apparatus was entirely unable to handle the situation so calls for help were sent to Campbellton and Newcastle. The fire began on the north west corner of the dock yard and the course of the gale that blew all day and night was directly across the whole yard, so that it was seen from the first that nothing could save the lumber, so the firemen's efforts were directed to the buildings on the top of the hill about one hundred yards from the blazing lumber and the Bathurst Lumber Companies warehouse, store and office situated on the southerly end of the yard.

With the splendid help of the Campbellton and Newcastle firemen, who arrived on the scene about six o'clock, the flames were controlled before they had got a dangerous hold on the immense pile of firewood piled on the slope of the hill that rises on the west side of the yard and several piles in the south western corner were saved from destruction. The rest of the lumber in the yard was entirely destroyed.

While the yard was a solid mass of wind-driven flame about four o'clock, large numbers of men and horses worked strenuously in removing the large quantities of goods stored in the warehouse and store. Many people of West Bathurst living in what was considered dangerous proximity to the fire zone also moved their belongings. The steamer Galveston and several tugs which were lying at the wharf were removed to a safe distance early in the afternoon and crowds of men were put to work throwing lumber into the river in a vain attempt to clear enough space to stop the progress of the conflagration. Some of this lumber caught fire and burned in the water, making a unique sight as it floated blazing about the harbour.

The firemen worked all night with several streams of water playing on the blazing coals and had succeeded by early morning in preventing any spread of the fire beyond the limits of the lumber yard.

It is estimated that fifteen million feet of lumber were destroyed, valued from \$200,000 to \$300,000. Messrs. Douglas and Company of Amherst have the insurance placed in different companies, probably up to eighty or ninety per cent of its value. The high dock which was most important to the Bathurst Lumber Company for piling its lumber and shipping its product is completely destroyed, and will be a very heavy loss to the company.

FERGUSON'S

STRUCK BY CABLE

IS FATALLY INJURED

John G. Moffat of Campbellton Well-Known Logger is Killed in Logging Camp

(From Vancouver Sun, Sept. 10th)

John G. Moffat, aged 32, received injuries which resulted fatally when he was struck by a haul-back cable in his own logging camp at Village Bay, near Heriot Bay, yesterday afternoon. The cable which was being used in the moving of a donkey engine, snapped under the strain and although Moffat was standing 100 feet away from it, the cable swung and hit him with such force that it broke his arm in several places and caused such severe internal and other injuries that the young man succumbed about an hour after the accident. The body was brought to the city on the "Santa Maria" yesterday afternoon and removed to Center & Hanna's undertaking rooms, 1049 Georgia St. The remains will be sent to Campbellton, N. B., where the deceased's parents reside, on Saturday afternoon following services here.

The late Mr. Moffat was one of the youngest and most favorably known loggers in business in British Columbia. He had an excellent connection with milling concerns and was filling a contract for the British Columbia Mills, Timber and Trading Company at the time of the fatal accident. He had resided in the West for about seven years. Surviving are the deceased's parents, who live at Campbellton, and a brother, George, who was employed in the camp and who left it on a short holiday on the day of the accident. H. F. Montgomery, manager of the Royal Bank, Prince Street, is a cousin of the deceased.—Vancouver Sun.

BROKE HIS WRISTS

Both wrists of George McCrae, I. C. R. locomotive fireman, formerly of Moncton, now running on the Dalhousie branch, were broken Sunday when his automobile upset in a ditch a few miles from Dalhousie.

MARRIAGE

Last evening at the home of the bride, Frances Yoxton Fraser was united in marriage to Mr. H. E. Barnes by the Rev. Hugh Miller of St. Andrew's Church.

BLACK HAND LETTER

Dr. Pinault, who is a member of the Jacquet River Fishing Club, paid a visit there before the end of the season with a friend, and was much disappointed to find the pools empty and traces of poachers who had made a thorough clean up of almost all the fish. Making their way down the river to see if any of the pools had been left untouched, he found a spear and an axe, both showing traces where they had been used in the slaughter of salmon. The doctor promptly commanded these objects of suspicion, and he is now in receipt of the following letter, which is unsigned. The epistle has the usual skull and cross bones at the top, and is as follows:—

Dr. Pinault

The last trip to Jacquet River you took a spear and axe belonging to me. The spear was taken from my place by the men without my consent. Send them back to Angus Davison at once or the next time you come here to fish you and your automobile will be wrecked, and if conditions are satisfactory you may receive rations and meet a worse fate than the fish who belong to us, more than you. Drug-gist McDonald killed one of our cow moose and escaped because he was a church deacon, but you are no deacon and will be punished.

RECRUITING STILL GOES WELL HERE

Officers are Still Getting Names of Recruits.—Six Sent to Sussex This Week

The recruiting officers here are still keeping at the work of enlistment and although the number sent to Sussex is smaller this week, many names have been received by Capt. LeBlanc, who will go to the various training centres whenever they pass the medical examination.

The following six recruits were sent to Sussex by Mr. A. McG. McDonald, recruiting officer:—

Aurele Theberge, Campbellton.
Jos. LeBlanc, Nouvelle.
Earl McCoshman, Chandler.
James Boudreau, Campbellton.
Robert McCullough, Belfast, Ireland.
Linden McKay, Grand Cascapedia.

REGULAR MEETING OF CATHOLIC FORESTERS

Resolution of Condolence is Unanimously Adopted

At a regular meeting of Campbellton Court No. 136 of the Catholic Order of Foresters held on the 22nd day of August 1915, the following resolutions of Condolence were unanimously adopted.

Whereas it has been pleasing to Almighty God to remove from our midst by the hand of death our beloved brother, Jean T. Vantour, and whereas deceased Brother although not a Charter Member has been a member for twenty years and by his sterling Christian character, and loyalty ever continued to advance the interests of the order.

Be it resolved that the Members of the Campbellton Court No. 136 while bowing to the divine will and offering a humble prayer in his behalf, do hereby, give expression to their sense of loss caused by his death, and would place upon his bier their heartfelt tribute of esteem and affection, and whilst they share deeply in the bereavement of the Members of the family of their deceased Brother, they desire to tender respectfully to the afflicted family this expression of sincere sympathy, trusting that the God of all consolation may bear them up in their severe trial.

Resolved further that in memory of the deceased Brother, the Chart of this court be draped for a period of three months, and that copies of these resolutions be entered upon the Court Records and copies thereof be sent to the family of our esteemed Brother.

Signed on behalf of the Court Committee of Resolution: GEO. ST. ONGE, JAMES WALL, JOSEPH O. PICHETTE.

IN MEMORIAM: Whereas Our Heavenly Father has deemed it best to call to His Reward the beloved mother of our esteemed Brothers L. C. and F. X. Stevens.

And whereas, we the members of the Catholic Order of Foresters, Court No. 136, bow in humble submission to the will of Him who doeth all things well be it therefore.

Resolved, that we extend to our sorrowing brothers and family our sincere and heartfelt sympathy in this sad bereavement, commending them to the one who doeth all things well for help to bear their sad affliction and be it further.

Resolved: that a copy of these resolutions be forwarded to our beloved Brothers and a copy spread upon the minutes of the court.

Signed R. G. SWEET, A. G. LACASSE, GABRIEL MANUEL.

VIOLENT ATTACKS OF DYSPEPSIA

Suffered Tortures Until She Tried "Fruit-a-tives"

St. JEAN DE MATHA, Jan. 27th, 1914. "After suffering for a long time with Dyspepsia, I have been made well by 'Fruit-a-tives.' I suffered so much that at last I would not dare to eat for I was afraid of dying. Five years ago, I received samples of 'Fruit-a-tives' and after taking them I felt relief. Then I sent for three boxes and I kept improving until I was well. I quickly regained my lost weight—and now I eat, sleep and digest well—in a word, I am fully recovered, thanks to 'Fruit-a-tives.'

SHOOTING FATALITY

NEAR SALISBURY

Donald Herrington, Mistaken For a Deer by William Taylor, and Killed Instantly

Salisbury, Sept. 17.—A shocking shooting fatality occurred with the opening of the hunting season at Frederickton Road, Salisbury, on Thursday, the 16th inst. Don Herrington, son of E. P. Herrington, of Frederickton Road, was mistaken for a deer by William Taylor, a neighbor, and shot through the heart, dying instantly. It appears that Don and his brother were some little distance from home making some meadow hay and were on their way home when the fatality occurred. They were climbing a little hill through a clump of bushes and when Don's head appeared above the rest of the hill, young Taylor, who was out hunting some distance away, noticed the bushes moving and saw the head appearing and was positive that it was a deer and fired, the bullet passing through Herrington's heart, killing him instantly. The sad affair has cast a deep gloom over the community especially in the families of both young men. Don Herrington was about 23 years old and unmarried. He is survived by his parents, several brothers and one or more sisters. He was a popular young fellow, well known in this village where his uncle, Riley R. Herrington resides. He has a brother living in St. John. Taylor who feels very badly over the unfortunate affair, is a popular man. He is a younger brother of Bliss Taylor, of the 19th Field Battery, who is serving at the front with the First Contingent.

Four children, four to ten years of age, were roasted, not dead in their home one-half mile south of Lorette, Manitoba, when the little farm house in which they were asleep was consumed by fire. Their father, R. Wolfsohn, is badly burned and the mother is also in the hospital.

MRS. LANGE PITRE (From the Gloucester Northern Light) The death of Mrs. Lange Pitre occurred last Saturday at the J. H. Dunn Hospital here after a long illness. The funeral on Sunday afternoon was largely attended, and interment was made in the Sacred Heart Cemetery. She is survived by her husband Mr. Lange Pitre, who has the sincere sympathy of the community.

MRS. BASIL LEGACY (From the Gloucester Northern Light) The death took place on Friday the 10th inst. at her home in West Bathurst of Mrs. Basil Legacy, a well known and very highly respected resident for many years. The deceased was ill only a short time from typhoid fever. The funeral held on Sunday afternoon to the Holy Family Cemetery, was very largely attended, and the religious services were conducted by Rev. Mgr. Varrilly.

Mrs. Legacy is survived by her husband, and one son, John B. Legacy, who have the sympathy of a wide circle of friends.

CHALMERS—CHALMERS (From the Gloucester Northern Light) A wedding of unusual interest to many of Bathurst's young people took place last night at Belledune when Miss Hattie Chalmers was married to Mr. J. Hamilton Chalmers, Night Agent of the I. C. R. here. The bride is a daughter of Mr. and Mrs. James Chalmers of Belledune and is well known here. After a short wedding trip the popular couple will reside in Bathurst.

OBITUARY

The late John M. Killoran of Belledune passed away very suddenly at his home on Sept. 12th, 9 a. m., at the age of 79 years. Mr. Killoran's death was a great shock to his wife and family as he was in perfect health until a few minutes of his death. Mr. Killoran was born in Belledune and has resided there all his life. He was a prosperous farmer and much beloved by all who knew him. Besides a widow, he leaves a daughter Mary, and four sons, James, William and Walter at home and Francis in Boston, to mourn the loss of their father. The funeral was largely attended and services took place in R. C. Church of St. John the Evangelist, conducted by Rev. Fr. Van de Mortel. The remains were laid to rest in R. C. cemetery of Belledune.

FINE TAILORING

The many old customers of Mr. J. R. Henderson will be pleased to learn that he has again set up his tailoring establishment on Gerrard Street, opposite I. C. R. Depot.

MARRIED AT CHEATHAM

(From the Gloucester Northern Light) Mr. J. Gordon Chalmers of the Bathurst Lumber Co.'s pulp mill staff was married in Chatham last Wednesday evening, his bride being Miss Lucinda C. Sinclair, one of Chatham's most popular young ladies. The ceremony was performed at the home of the bride by Rev. W. McN. Matthews, pastor of St. Luke's Presbyterian church here, and was made a memorable event by the many girl friends of the bride, who vied with each other in evidences of their affection for their friend. The young couple left late Wednesday night on a short wedding journey, and will on their return, take up their residence here.

DEATH

At St. Godfrey, P. Q., on Sept. 18th, Herbert Glendon, the little son of Mr. and Mrs. Hudson McRae, age 6 months.

APPOINTED INTERIM

Rev. Dr. Polley, of Dalhousie, N. B., has been appointed by the presbytery of Miramichi interim moderator of the session of Escuminas (P. Q.), in the place of Rev. W. G. Firth of Tide Head resigned, on account of his health.

MILLINER AT NEW RICHMOND

Miss B. M. Cooke, representing Miss Henderson, milliner, Campbellton, will be at Mrs. Watson's, New Richmond West, P. Q., post office, from September 28th to October 2nd and at Mr. H. Henderson's, Black Cape, P. Q., from October 4th to 7th, with a full line of trimmed millinery. Any one wishing anything in this line would do well to call.

DONATIONS FOR THE SOLDIERS

The ladies of the Women's Institute have received the following articles for the use of the soldiers:—Mr. H. R. Smith, tobacco; Mr. James Murray, Sr. tobacco; The G. I. A., to the B. L. E., 2 1/2 lbs. tobacco, 40 pac. cigarettes; Mrs. Lunam, 2 pairs socks; Mrs. Woodside, (Toronto), 1 pr. socks; Mrs. Angus McKenzie, 1 pr. socks; Mrs. W. R. Milligan, 1 pr. socks; Mrs. H. R. Smith, 1 pr. socks; Mrs. H. H. Bray, 1 pr. socks; Mrs. Chas. Scott, 1 pr. socks; Mrs. Chas. Adams, (White's), 1 pr. socks; Mrs. J. Mann, (Flatlands), 1 pr. socks; Mrs. Fred Anderson, 1 pr. socks; Mrs. R. B. Keith, 1 pr. socks; Mrs. M. Chamberlain, 2 doz. face cloths; Mrs. Ross, 2 wash cloths; Mrs. Baird, 1 doz. face cloths and 6 towels; Mrs. S. J. Trices, \$2.00 cash; Mrs. S. H. Linsley, \$1.25 cash.

DEATH

Mr. John H. DeVoy of Boston died at the Mortin Hospital, Mass., September 2nd as a result of an accident at the east Water Street yards of the Staples Coal Company, when a huge beam fell striking him on the head causing a bad fracture of the skull and other serious injuries. While his condition remained critical for a few days, it improved to some extent to raise the hopes of his relatives and friends that he might recover, but during the last few days his condition changed and the end was not unexpected. The body was sent home to Boston and following services at his home and the 4th Presbyterian Church and was interred in Forest Hill Cemetery. He is survived by a widow and two small children. Mrs. DeVoy was formerly Miss Ellen Duncan of Campbellton. The late Mr. DeVoy was in the contracting firm of the Construction Hoisting Apparatus. To his widow and children he left a large amount of insurance stocks and shares in different banks. Mrs. DeVoy is also one of the widows to come under the new Liability Accident Insurance which entitles her to ten years support of \$4,000.

Don't scold the child if she is cross; give her Rexall Orderlies, as the trouble is probably with the bowels. Sold only by Thos. Wrane. The Rexall Store, 10c., 25c. & 50c. boxes.

NORTH SHORE LUMBERMEN

A conference on plans for the fall and winter work was held by a representative group of North Shore lumber operators in St. John Wednesday. Among those present were Jas. Robinson and J. W. Maloney, Miramichi; John P. Burchill and Sheriff John O'Brien of Nelson; J. W. Brankley, Chatham; G. W. Gilbert and Angus McLean, Bathurst; David E. Richards, William H. Miller, W. F. Napier, Robert St. Onge and D. A. Stewart of Campbellton.

Speaking of the prospects for the winter's cut, Mr. Burchill said that it was likely to be considerably smaller than the average. For this the condition of the market, the heavy overstock on the other side, the high freight rates and the difficulty in securing vessels were all responsible. While most of the operators usually have their work under way by this time of year, nothing has been done yet by any of the lumbermen on the North Shore.

FRASER-GILLIS

The home of Mr. and Mrs. Harvey Gillis at Head of Tide, N. B., was the scene of an interesting event at 9.30 on Wednesday evening, Sept. 15th, when in the presence of about 80 invited guests, their second daughter Estel, became the bride of Mr. John Fraser of Stellarton, N. S. The ceremony was performed under an arch of evergreens, the bridal couple standing beneath a bell of sweet peas. The Rev. Gordon Firth tied the nuptial knot, assisted by the brides brother-in-law, the Rev. H. J. Fraser of Summerside, P. E. I., as the bride march from Lohengrin was being rendered by Miss Laura H. Alfred, the two little nephews of the bride, Masters Vance and Graeme Fraser, dressed in white Jack-of-Tar suits proceeded from the altarway with white satin ribbons, forming an aisle to the arch through which the bridal party passed. The groom entered the parlor supported by his brother Mr. Stanley Fraser, then came the bridesmaid, Miss Estel Love of Campbellton, N. B. Little Miss Ivah Gillis daintily attired in white, and carrying a basket of sweet peas acted as flower girl, strewing flowers in the pathway of the bride as she proceeded down the aisle on the arm of her father. The bride looked very winsome in a princess gown of ivory satin and lace, trimmed with white fur. She wore the conventional veil and orange blossoms, the design being carried out in true lovers knot on her train. She carried a shower bouquet of white roses and lilies of the valley. The bridesmaid wore a very pretty gown of cream silk crepe de chene trimmed with shadow lace, and carried a bouquet of pink roses. The parlors and dining room were beautifully decorated with ferns, cut flowers, and potted plants. At the conclusion of the ceremony a short reception was held, after which a dainty luncheon was served. The groom's present to the bride was \$100.00 in gold. To the bridesmaid and pianist, gold brooches set with pearls, to the groomsmen, gold cuff links. A large array of beautiful gifts including silver, cut glass, linen, furniture, china and cash testified to the high esteem in which the young couple are held by their many friends. Mr. and Mrs. Fraser, amid showers of rice and confetti left on the midtime for a tour of the lower provinces. The bride travelling in a navy blue military suit with hat to match, and black fox furs. They will be at home after Nov. the 1st at Stellarton, N. S.

GRIST MILL
When the Local Legislature, at its
Session passed an Act providing a
bonus for the establishing of flour
mills within the province, we urged
through our columns the great desir-
ability of having a flour mill erected in
the Town of Campbellton, where it
would be centrally located for the con-
venience of farmers from both ends of
the County as well as from the County
of Bonaventure. We claimed that such
an industry would stimulate our
farmers to raise wheat and other
grain, for which our soil and climate
are admirably adapted, and besides
that, the hundreds of thousands of
dollars annually sent to the west for
flour from this district alone would re-
main in the pockets of the farmers, or
be used by them for other purposes.

We also suggested that our Board
of Trade should take the matter up and
endeavour to boost the project. They
did so and appointed a strong commit-
tee to consider ways and means to
bring the matter to a head, with the
result that a site has been secured for
the building and an enterprising cap-
italist, Mr. Robert St. Onge, a former
citizen of our town, has undertaken to
erect and equip the plant at once and
hopes to have everything in readiness
to grind wheat within a couple of mon-
th's time.

The mill will be erected near a rail-
way siding within the town, for the
convenience of those who will prefer
to ship their grain here by rail. The
machinery will be run by electric power
from the town plant, but it is an
essential part of the enterprise
will prove a boon to our farmers as it
will not only encourage them in future
to raise more wheat and other grain
and save the money they are now
sending out of the country, but the
product will be a much wholesom-
er flour than what is now imported from
the west. We wish the enterprise
every success.

POSTAGE STAMP NUISANCE
Ever since the middle of last April
we have been compelled to place a
two cent stamp and a one cent stamp,
or three one cent stamps on every out-
going letter. Now why in thunder
does not the Postmaster General issue
a three cent stamp at once and thus
save all this tearing off, licking, and
sticking so many stamps for each let-
ter. If all the time spent in this use-
less and needless work, was devoted to
some more remunerative employment,
the net proceeds throughout the whole
Dominion would surely be sufficient to
purchase a large number of the neces-
sary machine guns for our soldiers
at the front.

EDITOR'S MAIL BAG
The residents of the east end were
given quite a treat on Wednesday
forenoon; a long and lank brown pig,
just returned from the races in Hal-
ifax, started out to run a Marathon
up Prince William street. The pig,
though owned by a Frenchman, proved
to be just as Irish as any other pig;
the sight of Doherty's potato patch
was too much for his pigskin, and he
decided to turn his activities thereto,
exercising his long nose instead of his
long legs. The town does not boast of
either hog-reeves or a pound, though
there are enough stray animals roam-
ing around to stock a small managerie,
so a hurry call was sent to police head-
quarters and awful threats made a-
gainst Mr. Pig. After about two hours
wait the cop arrived with the patrol
wagon, but the pig was still hale and

hearty, and got into the street once
more. It was noon before he was
rounded up and taken home, all the
while making a lusty protest; he had
tasted of liberty—and those potatoes.
Yess! this is a modern, progressive
town alright. Cows are tethered to
our front gate or allowed to roam the
streets at their own sweet will; but
when it comes to turning pigs loose it
it adding insult to injury, and it is
time something should be done by those
in authority, if not, we'll see what a
shooting iron can accomplish.
Yours etc.

ORIGIN OF THE PEACH
(By Peter McArthur)

It is sometimes a mistake to con-
sult the Encyclopedia before writing
an article. The misinformation in the
world is much more plentiful than the
facts. Facts have a tendency to
make one prosy and commonplace.
I am moved to make these obser-
vations because for some time past I
had been meditating a little essay on
the peach, and I remembered a story
I had heard or read somewhere about
the origin of this most delicious fruit.
According to the best of my informa-
tion and belief up to fifteen minutes
ago the peach originated in Spain
after the Moorish invasion. The Afri-
can conquerors brought with them bit-
ter almonds with which to poison
their arrows and planted the pits in
the newly conquered country so that
they might have an unfailing supply
of this method of spreading mori-
tality. As they had no Hague Tri-
bunal in those days there were no
international agreements against us-
ing poisonous weapons, and it prob-
ably wouldn't have mattered much if
there had been.

But to resume. According to the
pretty tale I remembered, the bitter
almond developed in the salubrious
climate of Spain and lost its ancient
character, ceased to be poisonous and
became a peach. With this as a text
I had proposed to show that the peach
is the one really good thing in the
world that is derived from war, but
as I needed a few more facts and I
consulted the Encyclopedia where
I found no mention of any pretty
Spanish tale. I found both Greek and
Latin references to the peach and a
learned discussion as to whether the
fruit had been first developed to pro-
tect the olive orchards. The only
reference to the bitter almond was a
note to the effect that Darius regard-
ed the peach as a relation of the olive
tree. It seems that in China there
not only grew peaches of excellent
quality but also of unusual shape.
They have a hard pit in the center
of the skin while the sides have a thin
layer of fruit. It is very juicy and
has a sweet taste. I could learn from
the dictionary all kinds of peaches and
good eatings. It is impossible to
find out the history of the peach in
Canada as we have not the best
of the best of the best of the best.

THE FIT CITY IN NORTH AMERICA
New York, Chicago, Philadelphia,
Boston, Montreal. Thus ranks Mon-
real, the fifth largest city in point of
population (over 700,000) in North
America, and also the largest city in
English speaking portions of the British
Dominion beyond the seas. Mount
Royal, the magnificent public park,
that which no city in the world has a
superior, never presents so beautiful
an appearance as in its autumnal
tints.

The Canadian Metropolis with its
immense stores, theatres, concert halls,
and other places of amusement in full
swing is particularly attractive at this
season of the year.

Special excursion fares on Govern-
ment Railways will be in effect Sept.
20, Oct. 1 and 2, good for return until
Oct. 18. The fare from Halifax to
Montreal and return on these dates
will be \$19.45, and proportionately low
rates will prevail from all points in
the Maritime Provinces. With the ex-
cellent accommodation on the two
through express trains, the Ocean
Limited and Maritime Express, pas-
sengers from the Maritime Provinces are
assured of an enjoyable fall holiday.

WOMEN'S INSTITUTE
The regular annual meeting of the
Women's Institute was held in their
rooms on Monday evening, September
20th. At this meeting a large amount
of routine business was taken up.
Among other items, a vote of thanks
was tendered the Town Council, for
their kindness in allowing the Institute
to retain the use of their rooms, during
the past year, and also for their kind
consideration in allowing the Institute
to retain it for another year. A vote
of thanks was also tendered the Graphic
Pub. Co., for the many kindnesses
shown in giving space from time to
time during the year.

The financial report showed that
the amount of \$1282.52 had been raised,
since the outbreak of the war August
1914, of which a detailed report
shall appear in the press later on.

The sum of \$25 was voted by the
meeting to be sent to Col. Shillington
for the upkeep of the four cots fur-
nished by the Institute in the La Tou-
quet Hospital, France.

The ladies of the Institute will ship
on Friday, Sept. 24th, at least 90 pairs
of socks, to Mrs. MacAvity, St. John,
to be forwarded to the 26th Batt., and
take this opportunity of again appeal-
ing to the ladies of the town and sur-
rounding country to help to get ready
another shipment of socks for Novem-
ber 1st for the 55th Batt., in which are
very many of our own Restigouche
boys.

The ladies of the Institute wish to
express their deep appreciation of the
interest manifested in the work done,
and the kind help received from so
many sources, and hope that the same
interest and aid will be forthcoming in
the further work of the coming year.

The following officers were duly elect-
ed:
Pres.—Mrs. A. A. Andrew.
1st Vice-Pres.—Mrs. Jasper David-
son.
2nd Vice-Pres.—Mrs. H. B. Anslow.
Sec. Treas.—Miss Lydia Duncan.

THE PRODIGAL PEACH

(By Peter McArthur)

Once upon a time—your eye I don't
know how to find a story—
—a barrow boy dandied by the roads
side and sung, "Prodigal Peach."
In Canada, back in the nineteenth cen-
tury, in the flower days, The little
boy was the only one in the town
what he looked in clothes he made up
in the kind of body one would have
inside of clothes. And he was very,
very happy in fact he was so happy
that a passing friend stopped to ask
him the cause of it all.
"Hurrah!" shouted he of the
freelocks.
"Why so happy?" asked the friend.
"The preacher is coming to dinner!"
"I didn't know you were so fond of
him."
"I ain't, but whenever the preacher
comes to dinner we always have
some preserves."
It really is not much of a story and
I am giving it on account of its arch-
aeo-logical interest and not because
it is so very funny. It dates back to
the days when people merely knew
that peaches are the best of fruits
and had not discovered that Canada
is the best place to raise the very
best of them. The woman who was
fortunate enough to get some from a
shaded orchard or from a lone tree
that was so fortunately situated that
it escaped the frost put up a few to
have for such special occasions.
The wife of the preacher, in those
days the minister was a much more
welcome visitor on the farm than the
agent of get-rich-quick concerns and
mending promoters and there is a
moral to that if I only had time to
work it out. Because peaches were
scarce for such special occasions and
a tradition has grown up about them
in many parts of the country. Some
housewives, otherwise very bright,
and a credit to the Farmer's Institutes
to which they belong, consider it an
extravagance to preserve peaches un-
less they do them up in nice jars.
Ten to fifteen cents a quart for cur-
rants and berries that need far more
sugar to do them up than the already
sweet peaches. As peaches usually
come in eleven-quart baskets you will
find if you divide the price by eleven
that peaches cost less per quart than
any other fruit. But because they
were once so great a luxury house-
wives are slow to realize that they
should have more of them than of any
kind of fruit, for they are both the
cheapest and the best. There is no
reason why every farmer's wife in
the districts where peaches cannot be
grown should not buy them as freely
as they do other fruits and have them
not only when the special occasion
comes to dinner but when the boys and girls
come home from the city and at all
other times when they want to have
something luxurious on the table.

Also it should be remembered that
for eating from the hand the peach
is the best fruit you can get, but you should
use for this purpose only the peaches
that you buy in the full light of day.
Once upon a time, or perhaps, I
should say "Once upon another time,"
a newly arrived Irishman went out
with a friend to steal peaches. It was
dark and Pat had been told to grope
along the branches for the fruit.
Presently he whispered, "Molke!" His
friend answered, "Phratt!" His
pachke got legs, "Phratt!" "Then
pachke I've swallowed a straddle bug!"

gan in September, 1914, when the
United States sloop Housatonic was
sunk by an underwater mine by a
German torpedo at the end of a
bar projecting from it.

MR. B. M. MORAN DIED THURSDAY

Conducted Successful Business
Chatham For Many Years—
Funeral Sunday

(Chatham Commercial)

Sept. 14—Chatham lost one of its
oldest and most highly respected busi-
ness men by the death of Brian M.
Moran, which took place on Thursday
after several months illness. Mr. Moran
went to Montreal recently for treat-
ment for internal trouble, but since his
return had grown gradually weaker.

Deceased was sixty-two years of
age, and with the exception of a few
years spent in the West when a young

man, had resided here all his life. Re-
turning to his native town, Mr. Moran
started in business and some years ago
erected the building on the corner of
Duke and Cunard streets, where with
his eldest son, Wm. J., a successful
business was carried on under the
name of B. M. Moran & Son. He re-
sided in Douglasfield and engaged ex-
tensively in farming.

The late Mr. Moran was widely and
favorably known, and by his cheery
and genial disposition made friends of
all with whom he came in contact in a
business or social way. He was a
charter and valued member of Branch
202 C.M.B.A., and Division No. 7 A. O.
H., and the oldest member of the local
branch C. T. A. L. Society.

Besides his wife, deceased is surviv-
ed by five sons, one daughter and two
sisters, who have the sympathy of the
community in their bereavement.
These are: Ald. William J.; E. Leo,
meat merchant; Joseph of the Public
Works Department, Fredericton;
Frank and Miss Alice at home;
Theophilus Hart of Chippewa
Wis., and Mrs. Thomas Fitz-
Gibbon of Napan.

The funeral of the late B. M. J.
was held on Sunday afternoon, leav-
ing his late residence, Douglas street,
at 8 o'clock. The cortege was one
of the longest ever seen in this section,
people from far and near being pre-
sent to show their last tribute of re-
spect to one who had been universally
respected and esteemed. There were
over two hundred vehicles in the pro-
cession which accompanied the re-
mains to St. Michael's Cathedral in the

following order: James Hackett, fun-
eral director; Dr. P. F. Duffy, family
physician; Mayor Hickey, Aldermen
and town officials; Ex-Governor Tweed-
ie, Ex-Mayor Tweedie, R. A. Lawles,
K.C.; Pallbearers—Hon. John Mor-
rissy, Coun. W. H. Baldwin, M. F.
Noonan, W. W. Jardine, Roger Flan-
agan, John Irving, W. J. Connors and
Edward Barry; Barouch with flowers;

Such is the declaration made by

Government. This official, with Mr. W.
McDonald, Vice Stock Commission-
er has just returned from an exten-

In his report the Deputy Minister
states:
"There have been many opinions
expressed that the clearing here
of the Grand Trunk Pacific
contiguous to
the line of the Grand Trunk Pacific
is for agricultural purposes.
This opinion is correct. In miles
of prairie, there are 100 miles of
prairie. Here the Keston
and Lake Umbagog
are on each side of the Steena River. It
is probably an area of 250,000 acres
land in these two valleys suitable
for agriculture. Co-Operative
has been effected lately in the
Keston Valley. The clearing here
comparatively light. The soil is
productive and is well suited for
general mixed farming purposes. Dairy
farming, poultry raising and small fruit
vegetable growing may be prosecuted
successfully. The district is particu-
larly well suited for growing straw-
berries and other small fruits, the
quality of the berries being very
high and selling at high prices on the
Princoy market."

Building of Grand Trunk Pacific Line Reveals Many Fertile Valleys in B.C.

"The 'Back to the Land' movement is taking place steadily but surely throughout the province of British Columbia and if this movement is directed along right lines we shall soon be supplying our own markets and eventually exporting."

Such is the declaration made by Mr. W. E. Reid, Deputy Minister of Agriculture in the British Columbia Government. This official, with Mr. W. T. McDonald, late Stock Commissioner, has just returned from an extended tour through the central portion of the province for the purpose of examining and reporting upon the new country along the Grand Trunk Pacific Transcontinental Line, now open for through passenger service.

In his report, the Deputy Minister says:

"There have been many opinions expressed about the lands in Central British Columbia contiguous to the line of the Grand Trunk Pacific. Our observations led us conclusively to the opinion that this part of the province is a country the future of which is assured as a stock raising and mixed farming country."

"After leaving Prince Rupert, on the line of the Grand Trunk Pacific Railway, there is practically no land suitable for agricultural purposes until Terrace is reached, 160 miles from Prince Rupert. Here the Klaskan, Kalem and Lakelse Valleys extend on each side of the Skeena River. There is probably an area of 200,000 acres of land in these two valleys suitable for agriculture."

"The Klaskan Valley, which has been affected lately by the Western Kalam Valley. The clearing here, in comparison with our coast districts, is comparatively light. The soil is very productive and is well suited for general mixed farming purposes. Dairying, poultry raising and small fruit and vegetable growing may be prosecuted successfully. The district is particularly well suited for growing strawberries and other small fruits, the quality of the berries being very high and realising good prices on the Prince Rupert market."

"The Bulkley Valley. Our next stop was at Smithers, in the centre of the famous Bulkley Valley. A very large amount of development work has been undertaken during the past year in this magnificent

area. An area of a large proportion of the land is all that could be desired, and very good crops are raised hereon. Crops of oats promising to 100 bushels to the acre were seen. All prospects were most encouraging and the farmers are realizing that the time has arrived when they should develop their lands, and land-clearing operations are in evidence on all sides.

"It is difficult to estimate the amount of land suitable for agriculture in the Bulkley Valley, but it runs into many hundreds of thousands of acres."

"Proceeding along the line of the Grand Trunk Pacific, Fraser Lake is reached. A considerable number of settlers have gone into this district lately and are proceeding to clear land and develop their holdings. The next stop was at Vanderhoof, in the centre of the famous Nechako Valley. We were immensely impressed with the enormous extent of good land in the Nechako Valley, most of which can be cleared at a very low cost indeed. A large number of settlers have gone in there, and on all sides one sees signs of activity. Settlers' log houses are springing up in every direction, and considerable energy is being shown by most of them in clearing their lands and getting them into crops and fields

of various extent in grain were noted. "There are many tracts of good agricultural and adjacent to Fraser Lake, where the soil is light and therefore is not the best land for agricultural purposes."

"The wonderful country visited between Hazelton and Prince George has a great future ahead of it, and that transportation has been effected is a big country with a big future, and, as soon as times improve and conditions right themselves, a big farming movement must take place. The country traversed grows magnificent crops of timothy, oats and barley. Wheat may also be grown successfully if care is exercised in getting the seed sown as early as possible so as to avoid damage from frosts. Potatoes do very well, but my observations led me to the conclusion that this part of the province is not adapted for growing tree fruits commercially. Certain of the harder varieties may be grown all right for home use, but every effort should be made to prevent this country being advertised by any interested parties as suitable for commercial tree fruit growing. It is, par excellence, a stock and mixed farming country."

Williamson, Newcastle, and Joseph Henderson, Bathurst.

Commissioners Cameron and Hanney appeared for the Rexton-Richibucto church in support of the call to Rev. G. S. Gardner of Dominion (N.S.); and Commissioners Shearer and Macpherson supported the call of New Carlisle (P.Q.) to Rev. E. J. Rattee of Montreal, secretary of the Camp Meeting Association. Both calls were sustained.

Rev. Messrs. MacArthur, Bette and Matthews were appointed to arrange a course of study for C. Y. Lewis of Doaktown.

Rev. H. R. Grant, of Pictou, was nominated as moderator of synod. Arrangements were begun for the taking of another vote on church union this fall.

Rev. F. F. Firth, of Tide Head, having interim moderatorship of (P.Q.), because of ill health.

THE RHYTHM OF FLAVORS

(By Peter McArthur)

A couple of years ago a Japanese scientist-artist-musician-perfumer gave a super-aesthetic group of New Yorkers an entertainment that was perhaps unique in the world's history, and yet he might have made it more wonderful than it was. Owing to the versatility of his genius, he knew that there are rhythms of form and color as well as of sound, and he perfected a mechanism by which he was able to throw colors and lights in certain forms on a screen to the accompaniment of music. At the same time he released bits of odor in the same rhythmical way. His purpose was to cater delicately to as many senses as possible. But why did he stop with the sense of sight, color, sound and perfume? Why didn't he go to a banquet and later rhythmically to the sense of taste? Our fruits, for instance, from the earliest strawberries to the latest peach give a range of flavors that a master artist might arrange into a symphony. The sense of taste can be catered to just as delicately and effectively as any other. It is possible with a full fruit cupboard can at any time evolve sonatas of flavor, or tasty lyrics that will appeal to any palate.

Probably no country in the world is more favored with fruit than Canada. An artist-poet has observed that it has a profusion of berries, "huckle-rasp, and straw, besides currants, cherries, peaches, plums, pears, apples, grapes, quinces, and other fruits too numerous to mention. Each of these fruits has a flavor indescribably individual.

By the way, is it possible to describe a flavor in a way that will convey to the person who has not tasted it what it is like? Of course we can give an idea of things being sweet, sour, salt, or insipid but the penetrating, aromatic flavors—how are they to be described? I know of only two attempts at describing flavors that were at all successful. One was the attempt by David Harum's sister to describe champagne. She said it was "like a little child and sniffing horse-droppings at the same time. The other was the answer made by a small boy when asked what rich food like chocolate tasted like. He said, "like your foot's asleep." If I could have a heart-to-heart talk with that Japanese scientist-artist-musician-perfumer I would try to get him to prepare something for the annual banquet of the Canadian Fruit Growers and have him add flavors to his perfume. The perfume would be the fruit. The Growers would object. They probably agree with the average housewife that the flavors of our Canadian fruits are not such as to be described without being added to. They have color, and aroma also, and it is quite sufficient to set them to the music of a child's glass, or a child's spoon. This season when the fruits are plentiful and so good every fruit seller in the Dominion should be a symphonist of dining, at once conducted by the sun in the great alembic of a Canadian summer.

A PEACH OF AN ESSAY

(By Peter McArthur)

Did you ever notice that when we want to praise anything with unusual emphasis we call it something "class"? For instance, if we wish to praise a book or a picture we say, "It is a gem." We do this because a gem is the most precious thing that we can possess—the only concrete example of "infinite riches in a little room." To be a gem a thing must have the finest natural qualities, enriched and perfected by art, and when we say that a thing is a gem we mean that it is the perfection of its kind, a finished product about which no further or higher praise is possible.

But calling a thing a "gem" is only one metaphor. There are many others, but in all cases the word we use instead of what we mean denotes the existence of some quality in the thing described that is only reached in the thing we name in its stead. This suggests a method of determining the things in Nature and art that are perfect, for only the perfect things are used as metaphors. Their perfections may vary but in every case a perfection is indicated.

Among our fruits there are two that are used as metaphors oftener than any other, and by that fact we may judge of their surpassing quality. One is used in public life and the other in everyday life. In public life the man who secures a high position, a favor or a contract that will enrich him, is said to have got "a plum." This suggests that he has got something that all men earnestly desire—something so packed full of richness and all goodness that it can only be described by calling it a plum—the fruit of which a celebrated horticulturist, E. P. Powell, says that "it contains more richness than any other fruit." It is rich in color, flavor and odor and as satisfying to the palate as it is to the eye. It is for this reason that it has gained its political significance as a metaphor. As the fruit most perfect and rich of its kind it suggests to the greedy politicians what they most desire and one of them who has been so fortunate as to secure a plum never wants anything else all his life but more plums. And the plums, when they are ripe are really worthy of the high regard they receive from housewives as well as politicians.

Our other metaphorical fruit is the peach. Just listen to some youth saying of a beautiful girl that "she is a peach" and even if you had never tasted a peach you would know that it must be a very beautiful and exquisite, just as we all know that it is. The peach is the one thing that we can use without offense as a metaphor for a beautiful girl and there is nothing more alluring and perfect that we can use as a metaphor for a peach.

SUFFERED EVERYTHING

For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the two following, which are heartfelt expressions of gratitude for restored health:

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I do not recommend it for nervousness and indigestion."

HENRY CLARK, Glanford Station, Ont.

Chesterville, Ont.—"I heard your medicines highly praised, and a year ago I began taking them for falling of womb and ovarian trouble. My left side pained me all the time and just before my periods which were irregular and painful it would be worse. To sit down caused me pain and suffering and I would be so nervous sometimes that I could not bear to see any one or hear any one speak. Little specks would float before my eyes and I was always constipated. I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills, for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial." Mrs. STEPHEN J. MARTIN, Chesterville, Ontario, Canada.

The ladies continue their work on behalf of the Red Cross Society, meeting weekly from house to house. The following letter was recently received from the Canadian Red Cross Society in Montreal.

Miss Edith Lawrence, Port Daniel Centre, Bon. Co. Madam,—

It is with very great pleasure that I acknowledge receipt of your cheque for fifty (\$50) dollars to install a bed at Clinched—the sum being the proceeds of a collection made by Miss Edith Smith, (nurse).

We note that the cot is to be inscribed—"The Bay de Chaleur"—and are sending overseas instructions to this effect.

Would you convey to all of those who were kind enough to make up the splendid total of \$50, the heartfelt thanks of the Canadian Red Cross Society, and let them know how greatly their generosity and patriotism is appreciated.

Yours faithfully, F. M. SCOTT, Sec.

Grim death has made another strike in our quiet little parish, in taking from our midst after a short illness, one of our most prominent citizens in the person of Mr. Babylas Berthelot, who passed away on the 13th inst., aged 61 years.

Mr. Berthelot leaves to mourn his death, a widow and ten children, six sons and four daughters, all of whom live at home but Mrs. Jules Gagne of Port Daniel. The funeral, which took place at the R. C. Church here was largely attended, practically the whole Catholic population attending, to follow this consoling citizen to his last resting place. The pall bearers being Messrs. Peter Maltais, Octave Pichette, J. B. Doucet and Alex. Nellis, all nephews of the deceased.

To his widow and children we all offer our most sincere sympathies.

THREE MIRACLES.

A man is telling a friend the story of his redemption from a life of wretchedness. He says: "I was a hopeless drunkard, alienated from my family, spurned by my acquaintances, and despised by everybody.

"Some one told me that I was a child of God, that was wonderful enough in itself. But he said also that God was with me; that I had only to use the Divine strength at hand to lift myself out of the mire into which sin had hurled me.

"Then I laid hold on God, pulled myself together, and rose to a new life. It looked like my own effort, but it was God who saved me from myself."

A rough-looking man in a Bowery mission is giving his testimony to a crowd of men who are "down and out". He says: "I was a thief, a sluggard and a dope fiend. I got down to raggs, I nearly starved to death.

"I came into this place for a cup of coffee and a warm corner. I heard about Jesus, the sinner's friend. I tumbled up to that front bench. They told me to pray. I did not know how to pray, but said, 'O Jesus, help a poor fool!' And He helped me.

"I do not know how it was done, but I haven't cracked a head or snatched a pocket-book since, and dope has nothing on me any more."

A keen-faced man, with a scholarly cast of countenance, is quietly explaining to a companion how he came to be a Christian. He says:—

"I was an agnostic, but my philosophy went to pieces under trouble. The scheme I had wrought out for myself looked well on paper, but it could not stand the strain of misfortune. The puzzle of life became more and more involved; I saw no issue from the labyrinth; I contemplated suicide.

"Some one put into my hand the Gospel of John. I found the clue to the maze of life in that book: 'I am the Way, the Truth, and the Life.'

"No one can imagine how that sentence shook me to the utmost depths. To speak briefly about a thing that was as vast as eternity to me, I found Christ to be the secret of the riddle. In Him I saw God, and, like the skeptic in the Gospel of John, I cried: 'My Lord and my God!'

"Three men, three life stories, three miracles, but one power and one result—the power of God made available through simple trust; the result, a life hid with Christ in God.—Sel."

STEFANSSON ALIVE!
DISCOVERS NEW LANDS

Nome, Alaska, Sept. 17.—Vilhjalmur Stefansson, the Canadian explorer, who was believed to be lost in the Arctic not only is alive and well but has discovered a new land in the north and accomplished practically every purpose for which his hazardous journey was undertaken, according to word brought here by the power schooner Ruby, which arrived yesterday from Herschel Island.

Stefansson, with two companions, Storck Stokerson and Ole Anderson, set out from Martin Point, Alaska, March 22, 1914, over the frozen polar ocean to search for supposed new lands in the Beaufort Sea. Captain S. F. Cottle, master of the Ruby, says that Stefansson is now on "Bass's" Land, east of the Mackenzie, outlining for a continuation of the explorations to the westward to ascertain the full extent of the new "land" before the determined northwest of Prince Patrick Island.

Stefansson discovered a confirmation of the continental shelf several degrees west of Bass's Land and even determined its southern limit, but was unable to continue his explorations to the north and west.

Stefansson's discovery is usually the result of contemplation, quickly assumed to Rexall's. Sold only by Thea. Wran. The Rexall Store, 10c, 25c. & 50c. boxes.

AUTUMNAL HINTS TO HOUSEHOLDERS

How the Dangers of Fire May be Minimized.

The season is fast approaching when cool evenings will demand the starting of fires in our homes. September and October have become known to firemen as the months when chimneys and flues cause the most trouble.

The following suggestions of a practical nature, if faithfully followed, will do much to prevent damage to property and loss of life.

STOVES—Place a metal stove-board on the wood floor under the stove, and extending at least twelve inches in front of the ash pit door. Protect all walls and partitions wirely two feet of any stove with a metal shield, leaving an air-space between the shield and the wall. Leave no kindling or other wood in the oven over night. Do not hang clothes too near the stove or stoves.

PIPES—See that the lengths of stovepipe are well fitted together, free from rust holes and parted seams, wired firmly and fitted perfectly into the chimney. Stovepipes passing through partitions, walls, floors, at roof and roofs are dangerous at best. Where these must pass through partitions, walls or floor always use a large, ventilated double thimble. You should examine the stovepipes in the attic. They may come apart or rust. Fluff and spider webs are likely to gather on and around the thimble, but set on fire when you least expect it.

CHIMNEYS—Chimneys should be built from the ground up, and never rest on wood supports. The settling of the woodwork will cause cracks in the chimney. Nor should the chimney walls be used to support joists or other woodwork. Soft brick and poor mortar are often responsible for defects in the chimney. Use a good quality of brick and cement mortar. Chimney walls should be at least eight inches thick, and flue of ample size and lined with fire clay or terra cotta. Never stuff up the flue holes with rags of paper, nor cover them with anything but a metal stock. Chimneys should be cleaned frequently.

FURNACES—Protect all woodwork above and around boilers, if within three feet, with a metal shield, also all woodwork near furnace pipes. It is best to rivet the lengths of pipe together to prevent disjoints. The pipe should fit perfectly into the chimney. Examine the pipe frequently for rust holes or other defects. Keep them free from dust, fluff and spider webs, which are easily ignited.

DEFECTS—Defective stoves, boilers, furnaces, pipes and chimneys should be promptly repaired or replaced.

OVERHEATING—Beware of overheating stoves, boilers, furnaces and pipes.

ASHES—These should never be placed in wooden receptacles or bins on wood floors or against wood partitions, walls, fences, buildings or any other woodwork. Use metal receptacles only, and dump ashes away from all buildings.

CARE—These matters are technical, but very simple and merely call for ordinary care. You cannot afford to be careless, when the lives of your loved ones, and the property of yourself and neighbours, are at stake. Let "Care and Caution" be the watchword and in this way assist in reducing Canada's enormous fire loss.

ANOTHER APPEAL

Sir Herbert B. Ames, has lately made an urgent appeal for further subscriptions to the Canadian Patriotic Fund and the Restigouche County Branch of this Society has decided to ask the citizens of this County to answer this call.

That we may the more readily see the necessity and urgency of augmenting the Patriotic Fund we ask you to consider the following facts:

Canada has already sent across the Atlantic about 100,000 men and this number is steadily increasing.

Twenty thousand families of soldiers who have enlisted for overseas service are now being assisted from the Patriotic Fund. In the month of August \$350,000 was paid out for that purpose or at the rate of \$4,200,000 a year. But as more men go to the front so the expenditure from the Fund must increase.

The amount paid into the Fund by the people of New Brunswick during the last year was \$150,000 and by the end of this month every dollar will have been expended for the families of New Brunswick volunteers.

What has been the experience of our Restigouche Branch? The first payments out of this Fund were made in November last, \$32.50 to two families; but in August we paid out to 53 families \$961.50. In ten months we have paid out of this Fund to the families of soldiers who have enlisted for foreign service \$6207.50, and the expenses of the Society in doing this work was \$110.20.

There has been enlisted at the Town of Campbellton to the end of August 473 men and that number is being augmented every week.

There has been received by the Treasurer of the Restigouche Branch of this Fund up to the end of August \$3643.66. The citizens of the Town of Campbellton paid in \$5331.12 of this whole amount.

The County Council at the January session voted \$3000 towards this fund and \$1500 of this amount has been paid.

From the County of Restigouche, exclusive of the Town of Campbellton there has been received towards this Fund \$1812.54.

From the foregoing it will appear that in ten months there has been expended from the Fund in Restigouche County \$6428.00 and to carry on this work for the next year we have in sight \$3815.00. Before the end of December every dollar contributed by Restigouche County will have been expended, but the expenditures for next year must of necessity be much greater. Where is the money coming from? It must be obtained by the voluntary subscriptions of our own citizens, or by asking some other section of Canada to provide it for us and at the same time pay the families of their own soldiers.

There must not be failure in these payments. From every platform throughout Canada appeals have been made to our young men to enlist and the promise made that those who remained at home would see to it that the families of those who offered their services to the Empire would be supported in comfort.

We call on the citizens of Restigouche to do their duty. Those of us who cannot fight must pay.

Yours respectfully,
H. F. McLATCHY,
JOHN HARQUAIL,
A. A. ANDREW,
Subscription Campaign Com.
J. BOWSER BARTON.

(From the Gloucester Northern Light)
Jacquet River, Sept. 9th.—After an illness extending over the past year, Mr. J. Bowser Barton, station agent at Jacquet River, passed away last Tuesday night. The funeral was held on Friday morning to the New Mills cemetery, Rev. F. L. Jobb conducting the religious services at the house and grave. The pall bearers were Messrs. W. R. McMillan, Alex. Turvey, Harvey McMillan, Ernest McNair, Paul Doyle and Stanley Culligan. The cortege that followed the remains to their last resting place was one of the largest ever seen in Jacquet River, and many floral tributes represented the grief of the deceased numerous friends. Besides many personal tributes, there were wreaths from the Order of Railway Telegraphers, of which Mr. Barton had been a life-long member, the Bathurst staff of the I. C. R., the Sunday School and Bible Class of Jacquet River and the McMillan Co.

ARSENEAU-ALLAN
(From the Gloucester Northern Light)
At the Church of the Holy Family on Monday morning at 6.30 at a Nuptial Mass celebrated by Mons. Varrilly the marriage took place of Miss Albina Arseneau, daughter of Mr. and Mrs. Frank Arseneau to Mr. Jos. D. Allen, son of Mr. Peter Allen of Ottawa.

The bride, who wore a travelling suit of brown panama cloth, with hat to match, carried a bouquet of maiden hair fern and sweet peas, and looked very pretty. The attendants were Miss Doris Boucher and Mr. Ed. Arseneau. Miss Boucher wore a becoming costume of navy cloth. After the ceremony a nuptial breakfast was served at the home of the bride. The young couple received a great many beautiful gifts.

SKIN SUFFERERS
Your Relief is Guaranteed.

The D. D. D. Prescription for Eczema, a mild, antiseptic wash, stops that awful itch instantly.

Druggists throughout the city have witnessed such remarkable cures with this remedy that they now universally recommend D. D. D.

As proof of their confidence, they offer you the first full-sized bottle on guarantee that unless it does the SAME FOR YOU, it costs you not a cent. A generous trial bottle for 25c. D. D. D. is made in Canada.

A. Mcg. McDonald, Druggist, Water St., Campbellton, N. B.

Besides his parents and several brothers and one sister now residing in Vancouver, Mr. Barton is survived by his wife, formerly Miss Sinclair of Bathurst, and seven children. Mr. Robt. Barton of Vancouver, one of his brothers, arrived shortly before his death and was present at the funeral.

The late Mr. Barton was stationed at Bathurst about 23 years ago as assistant agent, and during his stay here made many friends. He was also stationed at Red Pine and Coalbrack before removing to Jacquet River, and at all of these places there will be many who will sincerely regret to hear of his death. Sincere sympathy is extended to the bereaved family.

SHERWOOD-WARD

A very pretty but quiet wedding took place at the home of Mrs. John Ward Wednesday evening September 15th, at nine o'clock, when her daughter Mary A. was united in marriage to Mr. George W. Sherwood of Moncton. The ceremony was performed by the Rev. Hugh McEer. The bride beautifully gowned in white satin was given away by her brother Chas. Owing to a recent death in the bride's family only the immediate friends were present. After the congratulations, the guests adjourned to the dining room where a dainty supper was served. A pleasant evening was spent until the arrival of the maritime express, on which Mr. and Mrs. Sherwood left on a trip to St. John, Boston and other cities, followed by the best wishes of their many friends. Her travelling suit was of navy blue with black and white hat. On their return they will reside in Newcastle. The gifts, which were numerous and very beautiful, go to show in what esteem the couple are held. The grooms gift to the bride was a handsome necklace of pearls.

DEMPSEY-WRIGHT

A very pretty wedding took place at the home of Mr. and Mrs. E. A. Dempsey, Stonehaven, Gloucester Co., on Wednesday evening, September 15th at 8 p. m. when Mr. Dempsey's sister, Miss Ida Lucy, was united in marriage to Kenneth Campbell Wright of Shannonvale, Restigouche Co. The ceremony was performed by Rev. W. A. Wightman, of Bathurst, in the presence of about thirty relatives and friends of the contracting parties. The parlor was very prettily decorated for the occasion with potted plants and cedar and flowers. The bride, who was given away by her brother, F. A. Dempsey, wore a very pretty gown of white silk crepe de chene, trimmed with shadow lace, chiffon and whole pearls and wore a pearl necklace, also bridal veil and orange blossoms and carried a shower bouquet of white astors and white sweet peas. The bridesmaid, Miss Margaret Smith wore white voile trimmed with lace and light blue ribbon. The groom was attended by his brother, Edwin K. Wright. The bridal party entered the parlor to the strains of Mendelssohn's wedding march rendered by Miss Zaida Hinton, of Doaktown. After congratulations luncheon was served. The evening was spent in games and music. The bride received many beautiful and useful gifts in silver, cut glass, furniture, etc. The groom's gift to the bride was a cheque, to the bridesmaid a wishbone brooch set with garnets and to the groomsmen, a cameo stick pin. Mr. and Mrs. Wright will reside in Stonehaven.

FOR BATHURST

Chief of Police W. O. Chamberlain, who has been on the Newcastle force for two years, has resigned to go into the hotel business in Bathurst. Fred Morrell, late of the Vancouver force, is mentioned as his successor.

OFFICIAL FRUIT BULLETIN

This is an unusual year for fruits. More cunning and preserving than usual should be done. Peaches and plums are of such a splendid quality that they should be used liberally. More fruit and less meat, better health, less expense and fewer doctor's bills. Elberta and Crawford peaches are perfect now. Smoek Peaches and Longhurst will be along in a week. Some Gage Plums are still obtainable. Ask your grocer for late Blue Plums and Prunes. Those who have all they require for family use, should preserve for the soldiers. The nearest Canadian Club or Red Cross Branch will look after delivery to the boys in the trenches.

CARD OF THANKS

Restigouche Div. of the G. I. A. to the B. of L. E. desire to extend thanks to the following gentlemen who so very kindly placed autos at the disposal of the committee, for the conveyance of the Moncton ladies who attended the social in Murray's hall on Wednesday last. The gentlemen whose kindness was very much appreciated by the ladies, were:—Judge Matheson, Mr. I. Boudreau, Mr. S. W. Dimock, Mr. John Goss and Mr. C. C. Johnson.
