(From the London Gazette, June 18.)

BY THE QUEEN.

VICTORIA R.—We most seriously and religiously considering that it is our indispensable duty to be careful above all other things to preserve and advance the honor and service of Almighty God, and to discourage and suppress all vice, profaneness, debauchery and immorality, which are so highly displeasing to God and so great a reproach to our religion and government; to the intent therefore, that religion, piety and good manners may flourish and increase under our administration and government, we have thought fit, by the advice of Privy Council, to issue this our royal purpose and resolution to the persons of honor, or in place of authority, will give example by their own virtue and piety, and to their utmost contribute to the discouraging persons of dissolute and immoral lives; and we do hereby strictly enjoin and prohibit all our loving subjects of what degree or quality soever from playing on the Lord's day, at dice, cards, or other game whatsoever, either in public or private houses or other place or places whatsoever; and we do hereby require and command them and every one of them decently and reverently to attend the worship of God on every Lord's day.

Given at our Court, Buckingham Palace, the 9th day of June, 1860.

GOD SAVE THE QUEEN.

Terrible Flood in Australia.

A letter from the Mawarra District, New South Wales, dated March 31, gives some particulars of one of the most fearful floods ever known in Australia. Life and property have been sacrificed to an extent truly appalling. The damage done cannot be estimated. Whole families, with every living thing on their homesteads, crops and all were swept into the sea of the resistless flood and no one left to tell what they have lost.

At Bell's creek digging, the claims have all been filled. The poor miners were whirled away clear over a fall of a thousand feet deep, at the bottom of which the remains of many were found. No one at the diggings escaped to tell how suddenly the waters came down upon them, or of the gold that was lost. We make the following:

One little child was found alive in the region of Bell's creek, who had lost father, mother, five brothers and sisters, and home. All that she possessed and loved in the world were swept away. In one night this poor unfortunate was dashed down to poverty and orphanage. The face of the country is so changed that she cannot point out the place where their house stood.

Near the source of the Shoal Haven river, at one point the water was seen to be rushing down upon the plains like a vast pyramid. The river rose in a few hours one hundred feet. The upland flats were like great lakes. On and on swept the avalanche of waters in its devastating path.

An immense belt of richly cultivated lands, smiling with plenty, has been left like a barren desert, filled or covered with sand and rocks. Houses, carded crops, cattle, horses, flocks, trees, soil, men, women and children were swept over precipices, down through valleys and thrown back upon the coast in indescribable confusion. For many miles the shore was covered with awful wrecks. Boats were raised and steamed over where a town had stood in endeavor to save some of the drowning people, who had gone up to the tops of the highest buildings. In this way some were rescued. Some of these boats now stand high and dry in the midst of where the town once stood. The Shoal Haven river bed has been filled up. The waters have found another channel.

An island at the mouth of the Shoal Haven was inhabited by about ninety families, probably nearly 400 persons. The people, seeing the water rising up suddenly all around them, fled to the highest hills. Soon all they had was gone, and the waters kept creeping up after them. The people were wonderfully preserved. A vessel at sea saw them, and sailed to their relief. They were saved just before the island was submerged.

Ecclesiastical Precedence in New Brunswick.

To the Editors of the Colonial Presbyterian.

GENTLEMEN.—The Synod, at its late meeting, instructed its Moderator to write to his Excellency, respectfully asking information as to the Ecclesiastical precedence of the Province. To the letter of the Moderator his Excellency had the goodness immediately to reply, through the Provincial Secretary, as follows:—

Secretary's Office, 27th June, 1860.

Sir.—In reply to your letter addressed to his Excellency the Lieut. Governor, inquiring as to the Ecclesiastical precedence in the Province, I am directed by him to inform you that, according to Imperial Rules which regulate precedence in this and other colonies, the Bishops of the Church of England and of the Roman Catholic Church take precedence next after the officer in command of Her Majesty's troops; and that the Bishop of the Church of England takes precedence of the Roman Catholic Bishop.

I have the honor to be, Sir,

Your most obedient servant,

S. L. TILLEY.

The Rev. James Turnbull, Moderator, &c., St. James, Charlotte.

The Moderator, as became Lin in the circumstances, immediately wrote again, thanking the Lieutenant Governor for the information granted.

The public will see now that the Imperial Government, which dare not assign any place to even a Cardinal of the Church of Rome, on the table of precedence in Britain has assigned the Bishop of that Church in this Colony, not only a place but one of the highest of the places it had to bestow; and such a place as makes it necessary, that the Moderator of our Church should walk behind him on presenting an address on any State occasion. In other words, the Imperial Government has decreed that our Presbyterian flag, and also that of every other church, shall be borne after the flag of Antichrist. Are the Protestants of New Brunswick content it should be so? I trust not. I suspect, loyal as they are, and most anxious to show every legitimate token of respect and signal of welcome to the Son of the much-loved Victoria, on his arrival here, they will

pause before, as churches, they wait upon him in the present state of Imperial law.

I do hope there will soon be a petition sent to Britain by all the Protestant churches of this Province, requesting that the rules affecting the land of our native, Britain, be altered, as well as to her God, to see that she give no hand in Popery. And will British subjects stand idly by to let persons drawing their nobility from a foreign Bishop, are to take precedence of every soul in any British colony, saving the Lieut. Governor, the Bishop of the Church of England and perhaps some two or three of the highest State officials.

Here we have no ground to quarrel with our own Governor, Government or Legislature. This sin is that of the Imperial Government and as such let it be dealt with. In the meantime, however, as a member of the Presbyterian Church of New Brunswick, appointed to draw up an address to be presented by the Moderator to the Prince, I must protest against that Committee doing any such thing, being most ready to sign any address of welcome to the Prince, to be presented by those who will be admitted into his presence according to rules not clashing with duty to Jesus, King of Kings and Lord of Lords. My Church wishes no place on the Table of precedence; but it will not trust, bear its banner where the banner of Antichrist must go first.

I have the honor to be, Gentlemen, Your most obedient servant,

WILLIAM FENNER.

St. John, July 17, 1860.

weather is fine enough, ground abundant, and business not very pressing.

The N. Y. Tribune of the 20th inst., says that the Great Eastern will leave on July 30 for Cape May, with a few thousand passengers, steam to Hatteras, and return to New York on Wednesday, and on the 16th August, sail for England, calling at Halifax.

A Few Words to Subscribers.—Our late appeals to those indebted to us, have in most instances been passed by;—and finding it impossible to procure printing material, pay labor, &c., without money, unless those indebted to us pay their respective bills or at least a part, we will be compelled in justice to ourselves to suspend publication for the present. A majority of our subscribers owe for three or four years—some longer; such want of punctuality would cramp any establishment.

New Steamer.

The New York Tribune of the 10th inst. contains a description of the launch of a new steamer called the "New Brunswick," intended to ply between Portland, Me., and St. John, stopping at intermediate ports.

On Saturday afternoon, at six o'clock, a new steamer to be called the New Brunswick was launched from the yard of John Inglis, foot of Temple street, Eastville. She was built under the direction of Mr. John B. Coyle, of Portland, for the International Steamship Company, and is to run from St. John, New Brunswick, to Portland, Maine, stopping at Calais and other intermediate places, connecting with the Grand Trunk Railway. She is not alone a steamer, though adapted to the rough sea, weather. Her weight is 77 tons; length 224 feet; depth, 30 feet; beam 12 feet. She is very substantially built, and admirably calculated for the rough and rocky coast along which she is intended to ply. The International Steamship Company is a new organization.

Communication.

For the Standard.

Mr. Editor.—A week or two ago, I noticed in the Standard, the Regulations respecting Cattle running at large, passed by the Sessions. One of them reads thus:—

Ordered, That no Geese be allowed to run at large in the town of St. Andrews, under a penalty of three pence for each, and every Goose, and that the Highways and Constables take up and impound the same as found going at large.

Now Mr. Editor, why is it that the Constables and Highways do not perform their duty? Are the laws worthless, and our streets to be made geese and cow pastures? It certainly looks like it. I hope that the law will be enforced, and the streets kept clear of these nuisances. I like good roads, and a fat goose at Christmas, but I would do without both rather than have the streets infested with geese and cows.

July 24.

To the Editor of the Standard.

Sir,—I observed recently in the St. Croix Herald, some remarks from the proprietor of that paper, relative to the introduction of "Lightning Rods," into his vicinity, and their importance throughout the Province, as a protection to private dwellings, stores, and churches, against electricity in thunder storms. This, sir, is another genuine Yankee trick, a kin brother to Uncle Sam's good on horse and nutmegs. We are daily pulled by such fellows, who are prowling throughout the Province, imposing their quackery and nostrums, and vending on a ridiculous public. Many of our friends in Charlotte, have swallowed both hook, and bait; it is somewhat singular, that the Editor's name, did not appear amongst the list of patrons, given in his paper. We think that he requires a little extra rodding; they being quite a combustible substance, would naturally require extra protection. From present appearance, that article is likely to be very scarce this season. We would therefore advise him to protect his little stock at once, and have one of the rods attached from the crown of the head, to each heel, this would almost render him invulnerable; he would then be looked on as a modern Achilles.

Pam. Yours, LARRY.

[The above letter was mislaid, which will account for our correspondent for its not appearing sooner.]

We are informed by the Wesleyan that the Rev. Dr. Ritchey having resigned the presidency of the Eastern British American Conference, the Rev. Dr. Wood of Canada was elected in his place, and that the Rev. Dr. Pickard was elected Co-delegate.

The Rev. Charles Churchill is shortly to assume the Editorship of the Wesleyan.

San Accident.—A young Frenchman, named Francis Savoy, residing at French Lake, Parish of Carleton, was accidentally

killed by the bursting of a gun. It appears that the deceased and a comrade had gone to the woods, taking with them a gun; that in their rambles they fell in with a porcupine at which the deceased fired—the gun burst, and striking him in the left temple, caused instant death. An inquest was held before Dr. McLean, Coroner, and a verdict returned in accordance with these facts.—Presbyterian.

Ayer's Sarsaparilla

A compound remedy, in which we have la-
bored to produce the most efficient alterative
that can be made. It is a concentrated extract
of Para Sarsaparilla, so combined with other
substances of still greater alterative power as
to afford an effective antidote for the diseases
Sarsaparilla is reputed to cure. It is believed
that such a remedy is wanted by those who
suffer from numerous complaints, and that one
which will accomplish their cure must prove
of immense service to this large class of suf-
fering fellow citizens. How completely this
compound will do it has been proved by experi-
ment on many of the worst cases to be found
of the following complaints:

Scrophulous and Scrophulous Complaints,
Eruptions and Eruptions Diseases, ULCERS,
PIMPLES, BOILS, TUBERCLES, SALT RHEUM,
SCALD HEAD, SCURF AND SPITTING BLOOD,
MIGRAINE, DYSPEPSIA, DROPSY, NEU-
RALGIA AND RHEUMATISM, ERYTHESMA, Itch-
ing Skin, and all the diseases and troubles which
arise from Impurities of the blood.

This compound will be found a great re-
medy of health, when taken in the spring, to ex-
pel the foul humors which foster in the
blood at that season of the year. By the tim-
ely employment of them many ranking disorders
may be kept in the land. Multitudes can, by
the aid of this remedy, escape themselves from
the embrace of son eruptions and ulcers, and
through which the system will strive to
rid itself of scrophulous matter. But
this through the natural channels of the body
by an alterative medicine. Cleanse out the
tainted blood whenever you find its impurities
bursting through the skin in pimples, eruptions,
or sores; cleanse it when you find it is ob-
structed and sluggish in the veins; cleanse it
whenever it is foul, and your feelings will tell
you when. Even where no particular disorder
is felt, people enjoy better health, and live
longer, for cleansing the blood. Keep the
blood healthy, and all is well; but with this
pabulum of life disordered, there can be no
lasting health. Sooner or later something
must go wrong, and the great machinery of
life is disordered or overthrown.

Sarsaparilla has, and deserves much, the
reputation of accomplishing these ends. But
the world has been egregiously deceived by
preparations of it, partly because the drug
alone has not all the virtue that is claimed
for it, but more because many preparations
pretending to be concentrated extracts of it,
contain but little of the virtue of Sarsaparilla,
or any thing else.

During late years the public have been mis-
led by large bottles, pretending to give a quart
of Extract of Sarsaparilla for one dollar. Most
of these have been found upon the sick, for
they not only contain little, if any, Sarsapa-
rilla, but often no curative properties what-
ever. Hence, bitter and painful disappointments
has followed the use of the various extracts of
Sarsaparilla which flood the market, until the
name itself is justly despised, and has become
synonymous with imposition and cheat. Still
we call this compound Sarsaparilla, and intend
to supply such a remedy as shall restore the
name from the land of obloquy which rests
upon it. And we think we have ground for
believing it has virtues which are irresistible
by the ordinary run of the diseases it is intend-
ed to cure. In order to secure their complete
graduation from the system, the remedy should
be judiciously taken according to directions on
the bottle.

has won for itself such a renown for the cure of
every variety of Throat and Lung Complaint, that
it is entirely unnecessary for us to account the

ployed. As it has long been in constant use
throughout this section, we need not do more than
assure the people its quality is kept up to the best
it ever has been, and that it may be relied on to
do for their relief all it has ever been found to do.
