Lennox, Barker and Crothers labored to justify the course they had taken in retiring from the Lumsden committee to which they had been appointed by Parliament. The explanations of the intractable trio were not illuminating. They added nothing to what had already been said, and were singularly unconvincing as an excuse for conduct that is without a parallel in parliamentary practice. All the "striking" members had to say for themselves was that they considered they should have had the right to choose counsel to conduct the investigation, and that having been refused that right, they were warranted in withdrawing. They offered no precedent for such a claim, and contented themselves with a line of argument which, if it proved anything at all proved that they should have remained at their posts. MYRA KELLY DEAD

Wrote Many Stories About Children of

New York Ghetto. New York, March 31.-Myra Kelly (Mrs. Allan MacNaughton), affectionately known to many thousands of readers as the writer of stories of Shetto children, died today in Tor-

Kelly, who asked for concerning his daughter's troubles with magazine "My daughter Myra," said Dr. Kelly, when his companion asked him how he could help, "Is teaching in a down-town east side school. All of us at home have been entertained by her stories of her pupils, and I urged her to write some of them. She made three copies of her stories and posted one copy each to three magazine editors. This morning came to me in dismay with three letters from three editors, cheeks, and three requests for more

Dr. Kelly's companion agreed to act as diplomatic agent; saw the three editors, settled the matter of choice by lot, and gave the bewildered young school teacher's promise of other stories in turn to the other two That was the unusual manner of en-

trance into the field of story writing of Myra Kelly, then a teacher in the primary grade of a public school. The opinions of magazine editors were speedily justified. Readers de manded more stories about "Isidore Belchatousky"; there were enthusi-astic encores for further comment "Morris Mojelsky"; subscribers would demand not to be denied more of the wisdom of "Beeky Zalmonowsky," and "Patrick Brennan." For her first story Myra was glad to accept \$50; within a year she got \$500 for every story she wrote. And all she had done, she often said, was simply to write down the stories she told at home of the queer deeds and views of the Ghetto children to whom she was teaching A B C and deport-

You Suffer From Headaches?

There are few people who have never experienced a headache from one cause or another. It effects all ages and both sexes alike, but the female sex is naturally the more effected through the higher nervous development and more delicate organization of the system. Those also of a nervous temperament and studious or sedentary occupation are subject to it. The presence of headache nearly always tells us that there is another disease which, although we may not be aware of it, is still exerting its baneful influence.

The plaintiff alleged negligence

the part of Mr. Slater, and the evidence showed that the accident was due to a rung in a ladder breaking.

TURMOIL OVER PRIMER

Hot Debate at Teachers' Convention Follows Whitney's Criticism.

Toronto, March 31.-The closing session of the public school section of the Ontario Educational Assocition this afternoon was marked by one of the strongest debates that ever ruffled the usually calm deliberations of that body The trouble started when Principal

Fraser, of Toronto, referred to Premier Whitney's reply to their criticisms of the new primer, printed in this morning's papers. Several of the delegates felt that the department as a whole should make some reply, and Principal W. C. Marriott, of Galt, offered the following resolution:

"That we regret the publication of the nterview with Sir James Whitney, as reported in this morning's papers, and feel compelled to make reply.

"The primer is the only book of the new set of readers to which we take exception. It is the one which for the time being is under special consideration, but there are many points in each of these which are considered very objectionable. We have the best authority for saying that these readers are not the work of the committee of teachers, but of the Government editor of text books, who ignored any important recommenda-

CASE AGAINST HENRY FAILED IN COURT

Charge of Assault Made by Aged Widow Was Not Proven at Assizes.

William Henry, the young man charged with assaulting Mrs. Mary E. Taylor on the night of Saturday, March on Adelaide street north, just outside the city limits, was equitted yesterday after the evidence ad been taken and on recommendation of Mr. Justice Magee the case was not sent to the jury for consideration. Mrs. Taylor's evidence was to the effect that a man called at her place about 7:20 in the evening, and when she went to the door and asked who it was replied, "Bill Henry." He came in, and after being there a short time assaulted her. She swore that she recognized Henry as the man, and stated that he had on a brown suit. She said she had not seen Henry for about fifteen years, but recognized him from his resemblance to his father,

A Flat Denial.

The allegation was absolutely denied by young Henry, who gave a very clear account of his movements on the evening in question, which was corroborated by Mr. and Mrs. Lang, with whom he boards, and by Patrick Wallace, Sam McDowell and George Swick, roung men who had seen him at dif-

Mr. Justice Magee held that while here was no doubt that an assault had been committed on Mrs. Taylor. he did not think there was sufficient evidence against Henry to warrant the case going to the jury. The jury agreed with this view, and the prisoner was discharged.

The Jury The jury empanelled to hear the vidence was composed of Angus letcher, Ekfrid, farmer; Thomas Cleients, Mosa, farmer; Allan Monteith, Delaware, farmer; Samuel Hawes, Caridoc, farmer; Frederick McNab, London, brass finisher; George Hammett, London, builder; Gordon McKay, Dorhester, farmer; David McIntyre, Adeaide, farmer; W. A. Hunt, North Dorhester, farmer; Angus McCallum, Dorchester, farmer; Ewart B. Hunt, Vestminster, farmer; Charles B. Chapman, London, bookbinder; Robert Dundas, London, joiner, and Gordon B. Drake, London, grocer.

CONCRETE IN EUROPE SUBJECT OF ADDRESS

Convention Delegates Listened to Addresses of Interest Yesterday Afternoon.

The afternoon session of the cement convention yesterday was a highly profitable one, and the addresses were of a very high order.

Mr. Richard L. Humphrey, of Philadelphia, gave a most interesting account of "Concrete in Europe." artistic largely predominated in the old world, and many really beautiful designs were to be found everywhere in Europe. The industry on the whole her father when she was a young child was farther advanced than in Amerand received her education in this ica, but this continent was reciation for this class of work, and there was certain to be adancement along this line

Mr. Humphrey spoke of the work of the laboratory in Philadelphia for testing building materials to which the Government annually gave \$100,000. The speaker gave scores of views of concrete work in Europe, showing the myriads of use to which concrete had Prof. Day, of the O. A. C., Guelph,

gave the results of a series of experiments with concrete tile for farm purposes. It was highly technical but instructive to the makers of concrete On the Farm. "The Uses of Concrete on the Farm" was the topic of the paper by Mr.

Philip Wormeley, of Washington. had numerous slides to illustrate his lecture, and demonstrated the various uses to which concrete had been put to in farm work. It was a revelation of the possibilities of this material. The subject of concrete pavements for towns and cities was dealt with by Mr. Chubb, of Chicago. For years concrete had been used as a foundation, but it was only of late years that its possibilities as a paving substance were being discovered. Pavements were in use in Fond du Lac, Wis .: Mason City, Iowa; De Pere, Wis., and Gary, Ind., and were giving most satsfactory results. They were cheaper han the ordinary pavements, and apparently much more durable. Short discussions followed each

paper, and when the session adjourned t 6 o'clock, all the points brought out had not been traversed in the talk.

Clothing of Quality

In clothing, as well as every other line of merchandise carried in this establishment, every garment must be up to the Smallman & Ingram standard of value. Price, in many cases, has little to do with value, as will be seen by the men's suits and overcoats and boys' suits in our offerings for Saturday. We do not ask you to make a purchase, but invite you to look, to make comparison and judge for yourself. Why do you sell such suits for \$11.95? an astonished clothing man inquired. You might as well have \$20.00. But when we buy \$20.00 suits that we can sell for \$11.95 we are glad to do so, as we value new customers more than long profits. Our offerings for Saturday will create some surprise.

New \$16.00 Spring Overcoats \$11.95

25 Men's Black Vicuna Spring Overcoats to sell at this price. Not clearing lines, nor stock reductions, but brand new coats, silk faced, designed and tailored for best dressers. A wholesale tailor anxious to place his garments with us, comes along with a price as a bait on 25 of these coats and, of course, we picked them up and paid the cash, thereby paring still more off the price. They are here for Saturday, and priced down to the closest possible margin. Sizes 35 to 44. Only a few of a size. See these tomorrow

Greatest Medicine. By springtime everyone is in a more or less played-out condition—just right to catch any disease. Duffy's Pure Malt Whiskey aids in destroying the disease germs, and by its building and healing properties restores tissues in a gradual, healthy and natural manner. As a tonic and stimulant it is the greatest strength-giver known to science. It is a wonderful specific for use at this time of the year to enrich the blood and strengthen the system, which has been weakened by the long siege of winter, and which needs building up from the attacks of coughs, colds, pneumonia, grippe, asthma, bronchitis and other winter ills which everyone is subject to. It aids digestion, quickens the heart action, and restores health and vigor.

A GREAT AMBASSADOR.

Several weeks ago the Secretary of State for the United States, Mr. Knox, informed the British ambassador at Washington that it was the desire of the United States to open negotiations with Canada on those important questions, and he desired to know the manner in which these negotiations could best be conducted The British ambassador, Mr. Bryce, informed him very properly that the best way to deal with a matter of that kind was to negotiate direct with the Canadian Government."-From Hon. on the tariff question. This is one more evidence of Mr. 10 Bryce's supreme fitness for his post. 25 duties, or had been jealous of his prerogatives, the tariff negotiations would have had to travel the weary round of the circumlocution office. They would have been still enmeshed in red tape and smothered under sealing wax. Mr. Knox's communication would have gone first to the British foreign minister; it would have been then leisurely turned over to the colonial secretary, and after a sedate scrutiny and a dignified delay it would have recrossed the Atlantic, addressed to Ottawa. Ottawa's repsonse would have journeyed to Washington by the same route and the same easy stages. In the meantime the Washington negotiators would have been expressing

extend practical encouragement to WHY THE LORDS' VETO MUST GO

But tackling the House of Lords is a real thing, a practical thing, a supremely necessary thing, and why should it be a thing out of the question? For years no thoughtful reformer who has really want ed to get progress made has failed to see ourselves. Our educational system is in the power of the hereditary and irrevital importance that this should be block. Despairing of its removal, he may sponsible chamber the arch stumbling for a time think to dodge it; to get snippets of what he cares about past it unnoticed; to cajole it, to wheedle it, to buy its mercy by auction. But sooner or later he has to fall back foiled, and to face the immutable and intolerable fact that no adequate reform can be won while the Lords remain, like Bunyan's Apollyon, "straddling across the whole way." Housing reform, temperance reform land reform-all these have failed at that barrier. The years pass and become decades; the arrears of overdue progress ac cumulate at compound interest against us; slumdom spreads wider and ever wider its dismal shadow, with pauperism intemperance, immortality and disease for the battle of life, rests with the stalking behind it; society's tasks remain unfulfilled, its immense new needs

for order and system and applied science and organized justice pitifully unsatisfied; physical, mental and moral degeneration stare at us from the streets and are solemnly reduced to statistics in our official reports. Is our hand to remain palsied for ever against these things? Can

it ever be otherwise till the manacle is struck off?

Give the Children good Bread and Butter

VOU may say bread is bread and all children want is plenty of it. In a way, that's true.

But it makes considerable difference whether the bread you give your children now counts just as a "filler" or whether it counts for future health. For there is a vital difference between breads made from different flours.

The most healthful as well as the cheapest food in the world is bread made from

Comparison Invariably Means The Buying of "Young" Clothes

Facts are stubborn things, they give the lie to exaggeration, they prove bona fide claims, their evidence is conclusive. Here are some for you, Mr. Buyer: In the last ten days forty-six buyers, who told us they had looked in from two to five other stores, bought their outfits here, without coaxing, without urging, simply because they knew these values to be the best. They had proved by critical comparison that the Young claims for Clothing superiority were founded on cold business facts. We simply want a chance to prove it to you.

From a range of Suit prices that start at \$7.50 and jump in easy stages to \$25.00, we quote because this week they've been particularly strong sellers.

\$20 Suits With a perfect knowledge of what's being shown elsewhere today and what has been offered you here or elsewhere in the past, we stake our reputation on the statement that no such garments as these have ever been shown before in London at this price. You'll find such noted makes as Hart Schaffner & Marx, Fit Reform and Style Craft, all strictly hand-made, and in a splendid collection of absolutely perfect-fitting one, two and three button models. You'll find a bewildering selection of the season's newest shades in the new grays, tans, olives, browns and blues, in plain weaves, pin-head checks, handsome stripes and swell new overplaids.

\$16.50 Suits Scores of men have told us the same story about these "as good as anything we could find elsewhere at \$20.00;" and you'll say the same. Snappy long-coat styles for the young man, more conservative but still smart coat models for the quieter dresser in a magnificent collection of pure all-wool English worsteds and cheviots, in all the new grays, tans, olives, browns and blues; one, two or three button coat models, with peg-top or standard

\$12.50 Suits We offer at this price particularly strong values in English Worsteds, in the new herringbone weaves, in brown, olive and tan shades. "I have been a sufferer from Indidoctors. I did not find a cure until I began using "Little Digesters."

"I can hardly describe how much I suffered at times. Every meal brought with it more or less agony and I seemed to have a complete distaste for food. I had almost begun to think my case incurable when I came across an advertisement in the papers about "Little Digesters." I decided to give them a trial. I am very thankful that I did so for I had not been taking them long when I found them helping me. I can now eat heartily and no longer feel pain and discomfort after eating."

NEAR THE BOILER Fund.

Sherbrooke, Que., March 31. — The boiler-room and its contents at Johnson's asbestos pits, Black Lake, were destroyed yesterday, when 50 pounds of dynamite exploded.

The dynamite had been placed in a corner of the boiler to thaw, and shortly afterwards the fireman ticed it was ablaze. He immediately ran out and warned his fellow-employees to run for their lives. This action saved many lives.

The fireman returned to try and extinguish the fire, but when he was near the boiler-room the explosion took place, completely destroying the building. The fireman was found in an unconscious condition, and slight hopes are entertained for his recov-

How many women there are to whom these words apply exactly! They are not quite "sick in bed", but they almost wish, as they struggle through each day, that they were. Frequent headaches, loss of energy, loss of appetite, depression and attacks of biliousness and indigestion make life a dragging

In nearly every case the cause of it all is chronic constipation, that trouble so often made light of, but which brings about so much suffering. As a result of it the whole system is filled with impurities and almost everything, including the special functions of womanhood, goes wrong.

Hundreds of thousands of women have had reason to thank Dr. Morse's Indian Root Pills for relief from all this chain of miseries, and for restoration to health and happiness. For over fifty years, and in every part of the world, these Pills have been tested and proved a great female medicine.

Being purely vegetable, they are not harsh like salts and so many other purgatives, nor do they weak-

Dr. Morse's Indian Root Pills are a perfect blood purifier, and a sure cure for biliousness, indigestion, headache, sallow complexion, liver and kidney troubles, piles, pimples, boils and other ailments that arise from the sluggish action of bowels, liver or kidneys. By purifying the blood and invigorating every organ in the whole body they relieve and cure female ailments and restore normal, healthy conditions.

Dr. Morse's Indian Root Pills are, in truth, a blessing to women, as Mrs. Harrison, of Richmond, Va., found. She writes:

"About six weeks ago I first used Dr. Morse's Indian Root Pills, and I must state that I found them a most superior medicine. My complaint was peculiar to womenlangour, debility, and bilious attacks, which combined to make my days thoroughly wretched. Indeed, there were spells when I used to wonder in the morning how I could manage to get through my household duties, and was forced to struggle through the day when I should have been in bed. Dr. Morse's Indian Root Pills have made me vigorous and well. I noticed the change from the very

FRENCH AIR NAVY

Four Millions Will Be Asked From Government For Aeronautical Purposes.

[Associated Press.] Paris, April 1. - Gen. Brun, minister of war, replying in the Senate to criticisms on the inactivity of the department of aeronautics, as compared with that department in Germany, said that the statements regarding strength of the latter country in this direction had been exaggerated. Germany, he said, at the most, had six units. France, while only three were actually in commission, had four others. The problem of the respective merits of dirigible balloons and aeroplanes were receiving the most careful attention. He proposed to ask Parliament for \$4,000,000 in four installments, to be used for aeronautical purposes.

A New Idea in Medicine

Which Accounts for the Enormous Success of DR. A. W. CHASE'S NERVE FOOD.

To tear down the diseased tissues was the old principle of medicine. To cure by building up new, healthful tissues is the new method. Dr. A. W. Chase's Nerve Food is a coming weakness and disease with new vigor, new energy and new vital-

The time to begin using Dr. A. W. Chase's Nerve Food is when strength fails you and you find yourself out of sorts and losing health and vigor. It is easy then to get back to normal condition by using this great restorative treatment. The blood is enriched the nerves revitalized, new firm flesh and tissue is formed, and you feel the snap of new vigor as it is being instilled into your system.

Don't wait for nervous prostration or paralysis, but keep the system at high water mark. Dr. A. W. Chase's Nerve Food. Fifty cents a box, at all

NEW ROUNDHOUSE; MORE YARD ROOM

Immediate Work on Large Extensions for C.P.R. Here.

TO PREVENT CONGESTION

Business Has Increased to Such an Extent That Increased Facilities Are Imperative.

There have been repeated rumors make some important changes here shortly, which will involve the expenditure of considerable money. From an official source, The Advertiser learned this afternoon that the only the enlarging of the roundhouse and probably very large extensions of the yards. These changes, according to crowds last evening, and this afterthe officials, are absolutely necessary, and must be made in order to keep pace with the rapid increase in business. It is pointed out that in the evening. last ten years the C. P. R. business in London has more than trebled, while the facilities here have not been increased in any appreciable way. The result is that there is continual congestion, which results in much trouble and delay in the handling of fast through freight, which the company is making a special effort to handle quickly in order to keep the business from other roads. It is thought that word may come at any time for the erection of a very large new roundhouse, which will have in connection

with it extensive shops More Yard Room. It is also regarded as probable that the present roundhouse will be torn down and the space used for yard room. Where the new roundhouse would be located is not yet known. There is, according to officials, absolutely nothing in any reports that the company will try to get nearer the business centre. "We would have nothing whatever to gain by such a move," an official told The Advertiser

Given by Mr. F. L. Willgoose in St John the Evangelist Schoolroom.

A very interesting dramatic recital was given last night in the schoolroom of the Church of St. John the Evangelist, under the direction of Mr. F. L Willgoose. The first part comprised a George Fielding, and Miss Ethel Wilclever work.

In a one-act comedietta, "Dearest Mamma," the several parts were well taken, the quaint comedy of the piece being well brought out. Following is the cast of characters: Harry Clinton Mr. Harold Callard: Nettie Croker, Mr F. L. Willgoose; Uncle Browser, Mr. Ross C. Clarke; Jones, Mr. Ed. Wyse; Mrs. Breezeley Fussell, Miss Kate Ashby; Edith Clinton, Miss Beatrice Taylor; Mrs. Honeywood, Miss Lilian

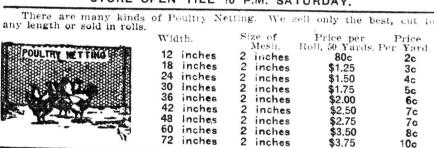

Finnegan. During the evening, Miss Bertha Upthegrove and Mr. Harold Ellis rendered several solos very acceptably The proceeds will be devoted to the purchase of a piano for the school-
