with pearls, were near the female skeleton of,
apparently, the daughter of the others.

LOWER CANADA.

The Special Council has passed three tem-
porary ordinances:—

- 1.—For seizing all arms and ammunition.
- 2.—For suppressing the rebellion, authorizing the Administrator of the Government to constitute courts martial, &c. nearly the same as the Irish Act of 1798; to continue to the 1st of June next.
- 3.—For the suspension of the Habeas Corpus Act to the 1st June next.

These acts refer only to the District of
Montreal, but may be extended by proclama-
tion to the other districts.

From Montreal Papers of Saturday.

TWO REBELS HUNG.—Whatever may be the sympathy on the other side of the Lines, it does not beat the excitement on this side. Two of the Rebels had already been hung, by the force detached from Montreal, and considering that we have no dates beyond Thursday evening, this promises well.

Several of the loyal women residing between Napierville and the River Richelieu, have been unceremoniously robbed of all their cattle, sheep, &c., and made prisoners themselves to boot.

A strict non-intercourse with Beauharnois has been enforced. All the scows, boats, and canoes had been secured, and sent to the fort at Coteau-du-Lac, which was garrisoned by a force that could defend it against any number of rebels, should they dream of trying their hand at such a thing. Nothing certain was known there concerning Messrs. E. Brown, Ross, and the passengers on board the steamer *Brougham*.

Since our last publication, a party of police, which was sent to Terrebonne on a special service, has been attacked, overpowered, and very ill used by the rebels, who appear to be collected at that place in considerable force. The police were twelve in number, and we may be assured they did not tamely surrender.

A further evidence of the wicked disposition of the rebels at Terrebonne has been furnished by their shooting Loisel, the Bailiff, sent there with some others to execute a warrant. It appears that Loisel manfully entered the house to fulfil his duty, but was not supported by his assistants; the rebels inside fired upon him in the room, at very close quarters, and two muskets, which were presented within two feet of his body, took effect. The one ball struck him near the navel, and the most miraculously passed round between the flesh and the skin, lodging close to the surface, on the right side. The other penetrated the body, and making its passage between the ribs, passed out, also on the right side. Loisel has been brought to town, and the wounds are not considered mortal.

People are come in from St. John's, Burlington, and Plattsburg this morning, who say that some houses were burnt by the loyalists, at St. Athanas, last evening.

It appears that M. Doull, Advocate, of Montreal, arrived at Nicolet on Saturday last, having landed there from a canoe with two Canadians. Late in the evening of the same day, his fellow voyagers knocked at Mr. Chandler's door, having no doubt mistaken it for that of one of their own kin, and enquired for Mr. M. Doull. This excited Mr. Grant's suspicions, and upon asking to be admitted, and a search made, M. Doull was caught and made prisoner. In his possession were found a brace of pistols and some powder and ball, and a tri-coloured flag. It is rumored that a list of proscribed loyalists was also found in his possession. His faculties, both mental and bodily, were completely prostrated when put in a place of confinement.

REBELS DEFEATED BY THE VOLUNTEERS.

We have been favoured with a sight of a letter from Odelltown, dated 3 o'clock, P. M. on the 13th instant, from which we gather the following gratifying information:—

It appears that a large body of rebels succeeded in passing across the bridge at Lacelle Old Steam Mill, on the morning of the 6th, after a skirmish with the volunteer picket, which was compelled to fall back, killing or wounding, however, four of the rebels, who were seen falling off their horses. Col. Odell, on being made acquainted with this by Capt. March, sent to Major Schriver for all the forces at his disposal, which came on with great alacrity. Shortly after their arrival, they advanced against the rebels, and, after a sharp action of about twenty minutes, the gallant Volunteers captured one field-piece, some ammunition, and a quantity of small arms. Nine of the enemy were killed, and one wounded, who is said to be a Captain Elliott, from the United States. Seven prisoners were also taken.

The above are all the particulars which, up to eight o'clock last night, had, as we understand, reached Head Quarters, at St. Johns. More full details will doubtless be communicated by the officer commanding, in his report to the Commander of the Forces.

The spirit and activity displayed on the above occasion by the Volunteers cannot be sufficiently praised. Their example, we feel, no doubt, will not fail to be followed, when

ever an occasion offers, by every Volunteer in the Province.

From the Montreal Courier.

We have been favoured with the perusal of a letter from the Captain of the *Nepuna* steam-boat, dated Coteau-du-Lac, (Thursday) 2 o'clock, P. M., from which we make the following extracts:—

"On our way down, we landed 240 of the Glangarys under the command of Captain Eneas M. Donald, at Salmon River, from whence they would proceed to join Major Campbell near Dundee, the Patriot forces being very strong within six miles of where that Officer is stationed. We brought to Coteau du Lac, about 100 of the 71st Regiment, 30 Sappers and Miners, a detachment of the Cornwall cavalry and upwards of 100 of the Glangarys. Since our arrival here, we have learned that the rebels are mustering very strong at Night's Point, on the opposite side of the Lake."

"We have to return immediately to Lancaster for 400 or 500 of the Glangarys, that are waiting there to come down. The Volunteers are turning out to a man—no hesitation."

"A boat belonging to Messrs. Henderson, Hooker & Co. laden with flour and beef, was driven across from Coteau-du-Lac to the opposite shore, by stress of weather, where she sunk. She was taken possession of by the rebels."

No later European news has been received this morning. Should any thing extraordinary arrive in the course of to-day or to-morrow morning, we shall publish it in a supplement.

The following is

BY THIS MORNING'S MAIL.

RELEASE OF THE PRISONERS TAKEN BY THE REBELS—TAKING OF BEAUHARNOIS.

(From the Montreal Gazette Extra of Sunday last.)
Messrs. Brown, Elice, Norval, and the other persons taken at Beauharnois by the rebels on Saturday night, the 3rd instant, arrived in town this morning from Laprairie. After their capture at Beauharnois, they were, as we mentioned before, taken to Chateauguay, where they were detained several days. It was afterwards determined by the rebels to convey them inland, it is supposed to Napierville; but last night, when they had reached La Pigeonniere, in the Seigneurie of St. George, the rebels there heard of the occurrences at Napierville, and abandoned their charge. Mr. Elice and the other prisoners then got conveyances for Laprairie, to which they travelled during the night, and arrived in Montreal this forenoon about ten o'clock.

Despatches were received about eleven, from Major Carmichael, dated at Beauharnois last night, and announcing the capture of that village, and the release of the passengers of the *Brougham* steamer, detained there since the Saturday previous, and who are all well. Mr. Elice, and the whole of the other persons, supposed by Major Carmichael to be still in confinement at Chateauguay, it will be observed have arrived safely in town.

BEAUHARNOIS, 10th November, 10 P. M.

SIR,—I have the honour to acquaint you, for the information of His Excellency the Commander of the Forces, that, in conjunction with Colonel Philpotts, a detachment of one officer of Engineers, twenty-two Sappers and Miners, one captain, three subalterns, four sergeants, two buglers, and one hundred and twenty-one rank and file, 71st Regt. with upwards of one thousand Glangary men, were landed at Hungry Bay this morning, marched, and took Beauharnois, rescued all the prisoners, with the exception of Messrs. Elice, Brown, Norman, Ross, Norval, Bryson, Houndslow, and Surveyer supposed to be at Chateauguay—with the loss of one man killed, and three wounded, of the 71st Regiment.

The men are much fatigued, and we wait here for orders.

I have the honour to be, Sir, your most obedient humble servant,
L. CARMICHAEL, Col. P. S.
Major Hall, Assistant Quarter Master General.

Although an interesting tale was in type, and intended for insertion in to-day's *Transcript*, it is omitted, to give place to matters of local and more immediate importance.

From our Montreal Correspondent.

Montreal, 4 to 4 P.M., 10th Nov. 1838.
The *Princess Victoria* has just arrived with dispatches, from which we learn that the local force in St. Philip were forced by the rebels to fly to Laprairie. In consequence, the Volunteers of the latter place visited St. Philip and took seven prisoners, and fifty stand of arms, all having the government mark.

On the arrival of the troops at Napierville it was found to have been evacuated the night previous. The rebels are supposed to have fallen back on Beauharnois, and to muster 1000 strong, in that place.

Fires can be seen from here in the direction of the rebel country, and conjectures are various on the subject.

An official letter had been received from Colonel Eden, stating that the rebels, to the number of 2000, had evacuated Napierville, and that a large number of them had laid down their arms. The Cavalry were in hot pursuit of the fugitives on the Chateauguay Road.

A letter from Lieut. Col. Taylor, dated Nov. 9, to Lieut. Griffin, D. A. A. G. —The insurgents mustered 1000 under the command of Dr. Nelson. The rebels attacked the advance guard at Capt. Weldon's, at 4 past 11. Immediately concentrated his forces at Odelltown Church, amounting to 200. After an attack of 2 1/2 hours, the rebels retreated leaving 50 dead and several wounded. Capt. McCallister and 4 men have fallen.

Major Schriver came up soon after.

We this morning received an Extraordinary of the Upper Canada Official Gazette, containing a Proclamation addressed by His Excellency Sir George Arthur to the Loyal Inhabitants of Upper Canada, taking a view of the course pursued during the late rebellion, and explaining his views and intentions with respect to the insurrection just broken out.—The following is the concluding paragraph of this interesting an important document:—

"INHABITANTS OF UPPER CANADA!—It is not to raise you to rebellion and loyalty—since to ally any unwarlike apprehension, or excessive excitement, which rumour may produce, that I now address you; and in requiring you to be prepared to repel, with steady hand, the first aggression on the part of the lawless Brigands, who threaten your security, I can confidently assure you, that there are ample means at my disposal for your protection."

A letter has been published which was addressed by Sir John Colborne to Colonel Turner, which Officer is stationed at Cornwall, being unattached and on a particular service. It is calculated to give every confidence to the loyal, and to assure the disturbers of the country that they can no longer hope to carry on a system of plunder, of intimidation, and in too many cases of deliberate murder, without being overtaken by that terrible but just retribution which the Government can so surely inflict, and which the outraged portion of the community have so good a right to demand.—It is as follows:—

Quebec, Nov. 1, 1838.

SIR,—I request that you will explain to the Officers of the Militia in the district in which you are stationed, that Canada being threatened with an attack from the American frontier by a horde of rapacious brigands, every man that can bear arms, I am persuaded, will not hesitate to join his regiment, and prepare to repel the wicked and unprovoked invasion with which these Provinces are menaced, and which, no doubt, will be immediately attempted. The loyal inhabitants may be assured that the Mother Country will no longer suffer these Provinces to be kept in a state of suspense and alarm to which they have been lately exposed; but that the strength of the Empire, will be exerted fully to put an end to the disgraceful proceedings on the frontiers. I have the honour, &c. &c.

J. COLBORNE,
Commander of the Forces.
Lieutenant Colonel Turner,
Commanding at Cornwall, U. C.
(Montreal Transcript.)

The greatest activity prevails in all the towns and villages of Upper Canada, in preparing by military organization to meet the marauder

from the States, should they prove so foolhardy as to attempt a landing in the Province. A Proclamation has been issued by the Lieutenant Governor for the enlistment of Five Battalions of incorporated militia, each to consist of 608 Privates, one Lieutenant Colonel, one Major, eight Captains, eight Lieutenants, eight Ensigns, Paymaster, Adjutant, Surgeons, &c. &c. The term of engagement is to extend to the end of April, 1840. A bounty of \$10 will be given to each man, and a further gratuity of 14 days pay, when discharged, besides which, such articles as jackets, great-coats, haversacks, &c., will be gratuitously furnished. The rations will be the same as to soldiers of the line.

It appears, on good authority, that Thelle and Dodge, who made their escape from the Citadel nearly a month ago, did not leave town till Tuesday last. It is said that they have been secreted in the residence of Mr. Grace, hardware-merchant of this city; and the sudden disappearance of this individual from Quebec makes it more than probable that the report is well founded. We understand that a great number continued at and assisted their escape, and provided them with horses, &c. Mr. Hough has set out in pursuit of the fugitives, with little chance, however, of being able to overtake them.

The horses with which they escaped were hired at the livery stables of Mr. Fagué.—An individual, who accompanied them for the purpose of bringing back the horses, has been made prisoner, and with the four horses, was brought to town this morning.

Among the commitments to the Montreal jail on Friday were Dr. Vallée, Dr. Perrault, Bertielli, advocate, all of that city; and Edward Barnard, advocate of Three-Rivers.

The Montreal Herald says that from the arrangements made by Sir John Colborne in disposing of the troops under his command, NOT A REBEL CAN ESCAPE, and that the plan of attack is described by a competent military authority to be equal to any he has seen during the Peninsular campaign.

His Excellency Sir John Colborne has given his sanction to the formation of a Cavalry corps in this city, to consist of one troop of sixty men. The officers appointed are—D. Bunnell, Esq. Captain; R. H. Guindner, Esq. Lieutenant; and J. Bell, Esq. Cornet.

A letter from M. Leblanc de Maregnay, Editor of the *Populaire* published in the *Ami du Peuple* of Saturday, states that the suspension of the *Populaire* was solely attributable to the non-payment of their subscriptions by its readers.

The steamer *John Bull* arrived on Saturday last from Montreal, and we understand brought down directions for the arrest of sixty-four individuals in Quebec, on charge of treason or misprision of treason. The Police have been actively engaged during the whole of yesterday and to-day in executing warrants. Three Comally, Chasseur, Rousseau, and two or three Canadians whose names we have not learned, are all that have yet been committed. A great portion of those charged have already left town, and joined the rebels.

We have heard that these arrests have been made in consequence of facts revealed by an examination of the papers found on the person Macdonnell, of Montreal, whose arrest was mentioned in our last.

Dr. Rousseau was arrested on board the steamer *Canada* on Sunday, when on the point of leaving for Montreal. Some papers of importance were found upon him.

Messrs. Morin, Heath, Hunter, and Grace have absconded, or secreted themselves, but we have hopes, from the vigilance and activity of the police, that a portion of them at least will be taken.

THE LITERARY TRANSCRIPT.

DR. BRANDETH requests a perusal of the following article—
LIFE AND DEATH,
Every thing has two distinct principles to its nature; one

THE PRINCIPLE OF LIFE

THE OTHER

THE PRINCIPLE OF DEATH.

So long as the principal of Life predominates, Health is enjoyed. When the principle of Death, Sickness takes place. How is this accounted for?

By the principle of Death, I mean the principle of decomposition or decay, which is each hour going on in the human frame from the hour of birth, to that of our final exit. While the natural outlets—the pores—the bowels—and all other excretories of the body, discharge these decayed particles as fast as they are generated, we are in a state of health; we are free from the presence of the disease.

When, from breathing an impure atmosphere, living in a vicinity of swamps, or where we are in the constant habit of coming in contact with bad swells—effluvia arising from obnoxious accumulations of animal or vegetable bodies in a state of putridity, being infected from a living body under the influence of disease in a malignant state; or secondary occupations; or, in short, any cause which promotes decomposition faster than the stomach and bowels and the other excretories can remove, naturally; we are then in a state of disease. And should the cause which produces this state of the body remain, and nothing be done to drive the accumulated and accumulating impurities out of the body, the principle of death or decomposition, will become paramount, and the last glimmering of life depart from the once animated clay.

How then, shall we counteract these death depressing influences? How?

PURGE!—Yes—I say Purge!
The magic in that word shall yet be understood, if this hand or brain can accomplish so mighty an explanation. Yes, purged be that pain in the head, the back, the bowels, the foot, the stomach, the side, the throat. Does it arise from internal or external cause?—I still say purge!—For know this self-evident truth, that pain cannot exist, save by the presence of some impurity—some deposits of decomposed particles upon the organ or part where the pain is seated. And purging discharges this impurity by the bowels, and continuing the practice daily will cure every complication of disease; and will prevent any one from becoming seriously indisposed; even when in constant contact with the most malignant fevers which cannot by possibility seriously affect the body, if we are continually careful to preserve it in a pure state, by frequent and effectual purgation. Hippocrates says, "Purgation expels what must be expelled, and patients find relief; if, on the contrary, they are tormented by purgation, it is a proof there are yet matters which must be expelled."

The subscriber of this has resided in every variety of climate, and by always purging on the first appearance of sickness, has enjoyed for the last ten years, uninterrupted health. For we may call such the state of him who is never sick more than 6 or 8 hours, about the time it takes to secure the effect of a purgative. The purgative I make use of is my grandfather's pills, and they are, to my certain knowledge, the most judiciously balanced purge in existence. I have used them for 8 months daily, in doses of from 2 to 16 pills per day, to satisfy myself as to their innocence. It therefore, cannot be doubted. It is my opinion, that any person, be he ever so prostrated by disease, provided he is capable of taking exercise at all, may lengthen his life to 60 years, by continuing to assist his natural functions with the BRANDETH VEGETABLE PILLS. Death never can take place until the Principle of Decomposition puts out the lamp of life. And that would seldom be before 60 or 70 years, was this principle of purgation always resorted to on the first appearance of sickn ss.

In the hope that these remarks may be of some service, I am the public's obedient servant,

D. BRANDETH, M. D.

Great caution is required to procure the genuine Brandeth Pills.
Druggists and Chemists are never in any place appointed Agents by Dr. B. All his authorized Agents have an engraved certifi-

cate of agency, signed by himself; unless this certificate can be shown, do not purchase. This caution is absolutely necessary to guard the public against spurious Pills.

Opposite the Gate of the Jesuits' Barracks.

BALDNESS.

A BEAUTIFUL HEAD OF HAIR is the grand-est ornament belonging to the human frame. How strangely the loss of it changes the countenance, and prematurely brings on the appearance of old age, which causes many to recoil at being uncovered, and sometimes even shun society to avoid the jests and sneers of their acquaintances; the remainder of their lives consequently spent in retirement. In short, not even the loss of property fills the generous thinking youth, with that heavy sinking gloom as does the loss of his hair.—To avert all these unpleasant circumstances, **OLDRIDGE'S BALM OF COLUMBIA** stops the hair from falling off on the first application and a few bottles restores it again. It likewise produces eyebrows and whiskers; prevents the hair from turning gray, makes it curl beautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm are shown by the proprietors.

Read the following:

ROBERT WHARTON, Esquire, late Mayor of Philadelphia, has certified, as is to be seen below, to the high character of the following gentleman:

The undersigned do hereby certify that we have used the Balm of Columbia discovered by J. Oldridge, and have found it highly serviceable not only as a preventative against the falling off of hair, but also a certain restorative

It will certainly raise its virtues in the estimation of the public, when it is known that three of the above signers are more than 50 years of age, and the others not less than 30.

From the Mayor,
Commonwealth of Pennsylvania,
City of Philadelphia.

I, ROBERT WHARTON, Mayor of said city of Philadelphia, do hereby certify that I am well acquainted with Messrs. J. P. English, John S. Furry, and Hugh McCurry, whose names are signed to the above certificate, that they are gentlemen of character and respectability, and as such, full credit should be given to the said certificate.

In witness whereof I have hereunto set my hand, and caused the seal of the city to be affixed, this sixteenth day of December. &c.

VICTORIA HOUSE.

(RUE SOUS-LE-FORT—QUEBEC.)

GEORGE ARNOLD, PROPRIETOR,

IS now open for the reception of visitors. The situation and accommodation of the premises combine advantages unequalled by any similar establishment in Quebec, and unsurpassed in the Canadas. The arrangements have been made under the immediate superintendance of the proprietor, and as the business will be conducted by himself personally, every attention will be ensured to those who may favour him with their visits. To those gentlemen in particular who are connected with the business of the port, the situation of the premises, in the direct vicinity of the Steam-Boat Wharves, and Custom House, offers great advantages; and to the public in general, the arrangements of the establishment are such as to present every convenience. On the ground floor are an extensive, Salon and Reading Room. On the first floor are two spacious rooms, which by means of folding doors between, may, whenever required, be converted into one magnificent apartment of 70 feet by 32 feet, and 15 feet high; a dimension which renders it a most eligible place for meetings, &c. The numerous apartments contained in the three upper stories are fitted up for the accommodation of families and individuals. A spacious gallery on the roof commands a splendid view of the harbour of Quebec and the surrounding country.

The Wines and other liquors of the establishment will be of the first order; refreshments of all kinds may be had throughout the day; and it will be the study of the proprietor in providing for his guests to combine moderate charges, and superior accommodation.

GEO. ARNOLD.

Quebec, 23d June, 1838.

NOTE.—Lumber Merchants and others connected with that branch of commerce, will meet with every accommodation and attention at the above establishment, the proprietor having for many years past had an extensive acquaintance with parties in that line, from the Upper Province and the United States.

HÆMORRHOIDS—NO CURE NO PAY!

Price \$1—Hay's Liniment—No Fiction.

THIS extraordinary chemical composition, the result of science and the invention of a celebrated medical man, the introduction of which to the public was invented with the solemnity of a death-bed bequest, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr. Gridley's last confession, that "he dared not die without giving to posterity the benefit of his knowledge on this subject," and he therefore bequeathed to his friend and attendant, Solomon Hays, the secret of his discovery.

It is now used in the principal hospitals and the private practice in our country, first and most certainly for the cure of the Piles, and also so extensively and effectually as to baffie credulity, unless where its effects are witnessed externally in the following complaints:—

For Dropsy—Creating extraordinary absorption at once.

All Swellings—Reducing them in a few hours.

Rheumatism—Acute or Chronic, giving quick ease.

Sore Throat—By cancers, ulcers or colds.

Croup and Whooping Cough—Externally, and over the chest.

All Bruises, Sprains and Burns—Curing in a few hours.

Sores and Ulcers—Whether fresh or long standing, and fever sore.

Its operations upon adults and children in reducing rheumatic swellings, and loosening coughs, and tightness of the chest by relaxation of the parts has been surprising beyond conception. The common remark of those who have used it in the Piles, is "it acts like a charm."

THE PILES.—The price \$1 is refunded to any one who will use a bottle of Hay's Liniment for the Piles, and return the empty bottle without being cured. These are the positive orders of the proprietor to the Agents, and out of the many thousands sold, not one has been unsuccessful.

We might insert certificates to any length, but prefer that those who sell the article should exhibit the original to purchasers. **CAUTION.**—None can be genuine without a splendid engraved wrapper, on which is my name, and also that of the Agents.

HEADACHE.

DR. E. SPOHN, a German physician, of much note, having devoted his attention for some years to the cure and removal of the causes of **NERVOUS AND SICK HEADACHE**, has the satisfaction to make known, that he has a remedy which by removing the causes cures effectually and permanently this distressing complaint. There are many families who have considered Sick Headache a constitutional incurable family complaint. Dr. S. assures them that they are mistaken, and labouring under distress which they might not only alleviate, but actually eradicate by the use of his remedy. It is the result of scientific research, and is entirely of a different character from advertised patent medicine, and is not unpleasent to the taste. To be had of
