OPPOSITION FALLS FLAT

A Break up in the Gab-Fest at Ottawa.

Premier Borden's Bomb Has Created Havoc.

OTTAWA, March 12.—The blockade went on yesterday, but the end is in sight. The effect of the crushing condemnation of the fleet unit policy contained in the letter from the First Lord of the Admiralty and given to the House by Premier Borden, has been such as to encourage the belief that the abstractionists will not wait for a closure, but will beat as decent a retreat as the disordered state of their forces will allow. The Opposition yesterday made no effort to meet the statements in Mr Churchill's letters. Instead, the Liberal speakers spent the day in roundly abusing the First Lord of the Admiralty in terms which in one or two instances amounted almost to threats of secession.

"Destruction of Empire." Dr. Neely, of Humboldt declared that "it means the destruction of the Empire and the separation of this Dominion from the Empire." Hon. H. R. Emmerson, a Liberal front bench, a Privy Councillor, and once a member of the Laurier Government, went so far as to produce in the House a copy of the Declaration of Independence of the thirteen American states, part of which he read. He told the House that a mistake of Lord North had lost her American colonies to England, and that the mistake of a Churchill might mean the loss to England of an Australian Commonwealth and a Dominion of Canada. He said that the warnings in the one case had been unheeded that when a British statesman sent across the water a document such as had been read in the House last night there was necessarily a warning.

This sort of thing illustrates the resentment of the Liberal members at finding themselves face to face with a humiliating defeat, the cohesion which enabled the Opposition to talk for a week at an end no longer exists. The sinner men in the party know that the game is up, and are now engaged in a search for the least ignominious manner of descending from the tree. It is probable that the result of their search will be known within the next twenty-four hours.

Conspicuous by Absence. The Opposition benches were almost bare last night. Sir Wilfrid Laurier has not been in the House all day. It is said that he is suffering from another slight cold. Hon. Rodolph Lemieux was in and out, but mostly out. So, with most of the other prominent Liberals, in striking contrast to the Liberal position is the unmistakable unanimity noticeable among the Conservative members. Their watchword is "No surrender." The effect of the siege has been to bring the Conservative members closer together, with the result that the party in the House has been welded and proven to a degree not reached so early in a new Parliament.

The Liberal defection is the more complete from the fact that the bomb of last night was invited by the Opposition members, with Sir Wilfrid Laurier the most insistent of them all. Premier Borden had been unable to compile the Churchill letters for a long time. He was permitted to read to the House the tables of cost construction only. The Opposition demanded the whole correspondence. The Prime Minister obtained permission to read it all. He said it all, and the Liberals now realize that they have been their own blunder placed themselves in a ridiculous position. There is not that high regard for the talents of the Liberal Board of Strategy which was noticeable a week ago.

The Sunnily Omission. Mr. Kite (Richmond) and Mr. E. H. Macdonald (Picton) occupied the House during Monday night with an effort to comfort themselves and their confederates after the catastrophe (Continued from Page Four).

GRAND OPERA HOUSE BRANTFORD

GRAND—Saturday, March 15. A. Delamater, offers a beautiful production of the song play, FRECKLES by Gene Stratton Porter. A theatrical triumph and the biggest nature play, pure in thought and every one of more value as a play, and every one of the famous characters. See the drama and hear Freckles sing. See Freckles' adventures. See Freckles' friends. See Freckles and the Angel. Price 14 rows, \$1; 8 row 75c; balcony 50c. Balcony 75 and 50; gallery 25c. Seats Thursday.

FOREIGN LABOR GREATLY NEEDED

Industrial Commissioner Emerson is at present engaged in preparing a statement on the labor situation in Brantford. Foreign labor, it is said, is greatly in demand, and a number of the local industries are working under a severe handicap because only an insufficient force of this labor can be secured. Plans, it is understood, are under consideration whereby there will be an influx of foreigners here, and an effort made to establish a separate community for their housing.

ASSESSMENT IS EXPLAINED

Assessor Oldham Calls Attention to Some Unfair Criticism.

A Courier man this morning asked Assessor Oldham to explain matters with regard to the assessment rolls as published. He was asked: "Do the figures presented give a clear idea of the facts?" "No. For example the Commercial Hotel property purchased by the Cookshut Securities Company for \$30,000 is on the published list at \$23,750. People may say that this looks like an under valuation. They do not stop to think that the amount over the entire building is divided."

Table with 2 columns: Part of the Lower portion, Add to above sub-divided portions. Values range from 3,125 to 50,550.

ROBT. TUTTLE DIED TO-DAY

He Kept Hotel in Brantford for Many Years—Has Been Ill a Year.

There passed away this morning one of Brantford's oldest citizens, in the person of Robert Stephen Tuttle, at the family residence, 78 Northumberland street. The late Mr. Tuttle was in his 69th year, and had been ailing from the effects of Bright's disease for over a year. The deceased was born in Cainsville, and his wife (Miss Westbrook) predeceased him six years ago. Three children, Mrs. F. J. Beney of this city, Mrs. W. Finkerton of Guelph, and Miss Gladys at home are left to mourn his loss.

The deceased was well known in and around Brantford, having been proprietor of the old Commercial Hotel, the old Western Hotel, the Woodbine and the American Hotel. In politics he was a Conservative. The funeral will take place from his late residence on Saturday afternoon, at half past two.

INDEPENDENT ORDER OF FORESTERS

Members of Confreres Brantford and Fairplay and their lady friends are specially invited to attend a meeting of Companion Court Regina on Thursday night, the thirteenth inst. Excellent programme; dancing.

W. A. ROBINSON, Secretary.

Unprecedented Activity Among Local Industries— Additions Are Announced

Many Brantford Factories are Working Under Pressure and Big Increases in Working Force Have Taken Place in Last Year.

That Brantford is enjoying an unprecedented season of industrial activity and development, was the statement made to a Courier reporter by a member of the Greater Brantford Commission last night. The matter of securing new industries was broached, and the statement was made that, while this city was not loading up with highly-bonused propositions of a doubtful nature, great progress was being made by the big established concerns of the city. In this connection it was pointed out that several firms were working under great pressure, and big increases in their forces had taken place in the last year.

It was stated that the Waterous Engine Works Company has at present a force of 100 more men than last year, and that the firm was working overtime, also on Saturday afternoons. Moreover, plans for another addition to the big works are under way, whereby 200 feet of land will be utilized.

The American Radiator Company was reported extremely busy. A year ago 75 men were employed, and the employees now numbered 200. The difficulty of securing foreign labor is reported to be the only handicap at this big, enterprising shop.

The Barber-Ellis Company have recently taken on many more hands, and an extension to the new factory is already contemplated.

In the Holmedale things are going on at a tremendous pace. The Watson Company is reported as having 100 more hands than a year ago, and the Slingsby Company has plans for an addition, with an increased force.

Local industrial development can scarcely be better emphasized than at the Hartley Foundry Company, which started with seven employees. The firm employs now 35 men, and highly skilled labor, at that.

The Scarfe Company has doubled within the last year, while the Massey-Harris Company, as recently announced in the Courier, would work nights until midsummer if men and material could be secured.

The Crown Electric, Brandon Shoe and Brantford Roofing factories are working under big pressure, and are rapidly developing into big concerns. Other factories are more than holding their own, the slow trade only being under some depression on account of Western conditions.

POLICE COURT A DONKEY ENGINE

A local legal gentleman, who was defending a man charged with false pretences yesterday in the police court, declared that the police court was a "donkey engine," and was being used as a collection agency by the public. If certain people have a debt owing them—or a civil claim they wish to enforce, which is not for such purposes. The lawyer did not mean to reflect on the officers of the police court, but all, stating that he did not see how an information could be refused under many circumstances. "It is a fact, however, that certain plain-tiffs, knowing the desire of the other fellow to keep out of police court notoriety, take advantage of the court in order to secure a speedy, but not always just settlement of their claims."

REPORT WAS GROUNDLESS

Silly Story Circulated About Girls Smoking at Collegiate Institute.

Principal Burt of the Collegiate Institute was greatly provoked today over the report circulated in some quarters that girls were smoking cigarettes at the Institute. The origin of the report, which evidently was launched to do damage to the Collegiate, was the outcome of a little bit of dancing, by one of the young ladies attendants at the Institute. She had gotten hold of a cigarette, and in the presence of other girls gave an exhibition of how a cigarette in a girl's mouth would look. It was simply an exhibition minus smoke, but there are worse things going on in the cigarette incident, in a letter from a parent who objected to Mr. Burt's prohibition of the light fantastic in the assembly hall, either at class entertainments or during spare hours. The parent in question wrote Mr. Burt: "You object to dancing, but there are worse things going on." It was the cigarette incident which the parent referred to. The principal immediately conducted a thorough investigation and he discovered what had given rise to the report, which had not been promptly proved without foundation might have caused considerable unpleasantness.

As it is the entire staff and school treat the incident lightly, as the general department of the collegiate is conceded by the trustees and all in authority as excellent.

Incidentally Principal Burt in prohibiting dancing, under any auspices or circumstances is simply carrying out the instructions of the trustees. It is further stated that the board is by no means unanimous that dancing under certain circumstances should not be permitted.

Crown Electric. The annual meeting of the Crown Electric shareholders is in progress this afternoon, when an announcement of the annual dividend will be made.

Serving Papers. High County Constable Kerr, acting on instructions from Sheriff W. W. Ross, is serving papers on the Nokinis Oil & Gas Company, Limited. John F. Carnody is a creditor.

The Owls. The Owls Lodge, which has recently been instituted in the city, is making rapid progress, and are increasing their membership. They are holding a smoker to-morrow night in the lodge room.

New Smokestack. The Waterous Engine Works Co. delivered to the Pratt & Letchworth Co. yesterday afternoon a new 60-foot smokestack.

Bowling. The Brants took three straight sets from the Oddfellows last night at the bowling alley, winning by 409 pins.

CIVIC AUTHORITIES WERE AT TORONTO RE STREET RAILWAY

Mayor Hartman, Ald. Spence and Ald. Hollinrake made an excursion to Toronto yesterday in reference to the street railway situation. The conference was of a private nature, but it is stated that there is a chance of a settlement being arrived at.

The situation, as is well known, is a difficult one to unravel. The Courier understands, on excellent authority, that the Canada General Electric Company, which has first claim as holders of first mortgage bonds to the extent of \$125,000, has made a proposition to assume the control and management of the road for two years, at the end of which period an opportunity would be afforded the others who have an interest in the holding of redeeming their interest. There are difficulties in this solution of the question, it is stated, but they are not insuperable.

Ald. Hollinrake, chairman of the railway committee, this morning announced that things were in such shape that he didn't care to discuss the matter. He was hopeful, however, of a settlement soon, and expected a new era of things in street railway affairs here in due course.

OPENING UP INDUSTRIAL LAND

The Courier was informed last night that the Mohawk Institute land, the sale of which an Act of Parliament is now being applied for, is to be utilized in connection with Greater Brantford plans purposes. The land is held in trust, and it is necessary to secure an Act of Parliament before any disposal can be made of the same. If the matter comes to a successful issue, it will give a great impetus to industrial development, particularly in the east end of the city, where railway facilities of the best can be provided.

FRIEDMANN AT OTTAWA

His Office To-day Was Like a Chamber of Horrors.

[Canadian Press Despatch] OTTAWA, March 12.—Thirty-seven patients awaited the arrival of Dr. Friedmann at Water Street Hospital this afternoon, but a large percentage of them were sadly disappointed when the German specialist declined the most advanced cases. Taking the more incipient ones in turn, he had injected his serum into about a dozen up to 2 o'clock, and will continue during the afternoon. It was in many respects a tragic scene which furnished the setting for the clinic. The hall admitting to the room was lined with patients, pathetic figures most of them. They included all classes, some too weak to walk, and pitiful was the despair when Dr. Friedmann declined to treat the advanced cases. A little room on the first floor, at the foot of the stairs, in particular resembled a small chamber of horrors, crowded with patients.

In Brantford To-Day

The following are the visitors in the city to-day:

Bodega Tavern. Late yesterday—H. A. Hammond, Toronto; E. F. Hick, Toronto; Neil McDonald, Toronto; F. W. Stevenson, London; E. W. Jeffries, Toronto; H. E. Spencer, Hamilton; G. M. Mich, Toronto; J. J. Cornelius, Guelph; H. A. Moore, Toronto; M. Avery, Hamilton; G. L. Goodwin, city; M. R. Powell, Hamilton; L. D. Barber, city.

To-day—C. S. Morris, Smith's Falls; Geo. Robertson, Toronto; W. T. Engen, Toronto; Chas. E. Allen, Toronto; K. Thom, Toronto; A. H. Rosenberg, Hamilton; J. Woodley, Hamilton; J. W. Sharpe, Hamilton; C. S. Nichols, Toronto; J. M. Copeland, Toronto.

Hotel Belmont. Late yesterday—J. E. Colson, Toronto; A. Eaton, Toronto; R. Arthur Bailey, Detroit; J. H. Hoffa, Toronto; H. Baker, Guelph; L. Day and wife, Boston; J. Malcolm, Boston; S. B. Walsh, Toronto; B. Edgar, J. Roger, Hughes, F. Buck, J. Smith, R. Thorne, H. McManus, J. H. Coppin, Mitchell, T. Ball, London; John H. Laughton, Parkhill; H. A. Shelling, Chicago; R. J. Shelling, New York; A. Haycock, Ingersoll.

To-day—J. R. Seavey, Hamilton; J. A. McKay, Toronto; F. L. Cosford, Stratford; Wm. J. Burns, Brooklyn; A. Isaac, Montreal; H. S. Kearns, Hamilton; M. Auld, London; C. J. Archer, Toronto; James Peat, Petro-ly; E. J. Ryan, London; H. D. Hawley, H. Heise, A. W. Blight, Toronto; A. H. Dixon, W. W. Brock, Hamilton.

Keby House. Late yesterday—W. J. Thompson, Montreal; C. S. Jackson, Buffalo; J. Thorn, Jos. Kelvin, Chicago; J. K. Bell, Toronto; Clarence Butts, Cleveland; W. Kirk, Toronto; J. Nicholson, Montreal; A. M. Drummond, J. Phillips, E. S. Carman, C. T. McAlpine, Toronto; H. P. Hewet, G. M. Harris, Buffalo; Major Elmsley, Toronto.

To-day—T. S. Whitelaw, T. C. McKenzie, Toronto; J. E. Cohoe, Welland; J. M. Smith, Buffalo; W. H. Woods, Toronto; S. A. Bixer, Buffalo; T. G. Elliott, Montreal; H. Gilbert, M. C. McMartin, A. P. Reeve, G. L. Moore, W. H. Morgan, Toronto; G. W. Clark, Montreal; C. S. Carter, Toronto; C. H. Vandersheys, Niagara Falls; J. A. Brown, London; Jas. D. McKenna, Sussex; E. A. Lindsay and wife, Spokane, Wash.; R. J. Orr, Toronto; G. M. Harris, London; G. W. Witman, Easton, Pa.; C. C. Carbold, Toronto.

THE PROBS. TORONTO, March 12.—The barometer is now highest over the Atlantic states and it is probable that a disturbance now over the western states will move slowly to the Great Lakes. The weather continues quite cold in Manitoba and Saskatchewan, but has risen in all the other provinces.

FORECASTS. Southeast winds, fair and mild. Thursday—Fair at first, showery by night.

SPECIAL LIGHTS UNDER HYDRO

Engineer Ireland Gives Statement re Plans.

Standard Construction Only This Year in the City.

As the new Hydro-Electric street lighting system will be installed during the present year and as it is understood that a special ornamental system is to be used on certain of the main business streets some of the citizens have been making enquiries as to the possibility of obtaining some modification of the system used on the downtown streets, together with underground conduits on certain of the residential streets of the city. On making enquiries regarding this point at the office of the Brantford Hydro-Electric System, Mr. Ireland made the following statement: "The only way of obtaining a special ornamental system of street lighting together with underground conduits on any of the streets of the city is for any group of property owners who wish it, to take action under the legislation of 1901. This Act applies to the business streets, but as the residential streets, this Act provides that any work of this nature may only be undertaken by the municipality on presentation of a petition signed by at least two thirds of the property owners involved. In the case of a local improvement and the property owners would be required to pay the difference between the cost of the special lighting system and that of the regular system for the same distance. The best procedure would be for any group of property owners who wish special lighting and underground conduit to apply to this office for an estimate of the cost. This will be furnished and if the property owners are willing to pay the cost, a petition may then be presented to the City Council signed by two thirds of the ratepayers. On passage of a by-law authorizing us to carry out the construction of the work, we then proceed with it. It should be understood that the cost of the underground cables and special lighting is a great deal higher than the standard construction and that it takes considerably longer to obtain the material and install it."

Mr. Ireland also stated: "Owing to the expiration of the street lighting contract at the end of this year, it is going to be necessary for our construction forces to put forth every effort in order to be able to take over the street lighting on time, and any additional work, such as installing underground systems and special lighting in isolated sections of the city will seriously delay the progress of the main work. Moreover, we, of course, wish to concentrate our efforts very largely on revenue producing construction in order to put the system on a sound financial basis as quickly as possible. For these reasons it is our hope that any groups of citizens desiring special street lighting will be satisfied to have the standard construction proceeded with this year and leave any special work over to 1914. I wish it to be understood that I do not wish in any way to discourage any of the citizens from obtaining special lighting as I recognize fully the advantages of it in certain localities, but I simply wish to have the work held off for another year until it can be dealt with more advantageously to all concerned. Another point to be noted is that the work can be carried out more cheaply next year after the rush of construction is over."

A meeting of the fire and light committee was held yesterday when the whole matter was gone over.

A Deal Pending.

Publicity Officer C. H. Emerson stated this morning that a deal was pending whereby an American manufacturing company would likely open up a factory here, and that a number of local capitalists were interested in the deal.

"At Home."

The students of the Brantford Business College will hold their annual "At Home" in the college on Friday night.

Music and Drama

An attraction which should cause more than the usual desire to see a play is Neil Twomey's dramatization of Gene Stratton-Porter's widely-read story "Freckles," which will be the attraction at the Grand Saturday, Mar. 15. When it is considered that this fascinating story of "Indiana's great swamp country," "The Limberlost," has had more than a million readers; there is no wonder that the drama is causing far more than the ordinary attention. Where a book contains the vital requisites for dramatization, the play is always of more interest than the story, because the imagination is not taxed and the characters are living, breathing ones.

HEADACHY, BILIOUS, UPSET? "CASCARETS."

BILIOUS, THROBING HEADACHE MEANS BOWELS ARE CLOGGED AND LIVER STAGNANT.

You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and intestines can be quickly cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach, chest and your head clear for months. Children love to take Cascarets, because they taste good and never gripe or sicken.

CHIROPRACTIC

SARA STINSON, D.C.—Doctor of Chiropractic, Graduate M. C. C. Member I.C.A., 120 Wellington St., Brantford, Ont. Chronic and Nervous Diseases, 20 minutes treatment, 10 to 12 a.m., 2 to 5 and 7 to 8 p.m. Sunday and other hours by appointment. Consultation free.

DR. D. A. HARRISON, D.C.L.W., and MRS. E. E. HARRISON, D.C.L.W.—Doctors of Chiropractic, Graduates R.C.I., members of U.C.A., I.C.A., etc. not medical, not wet and O.A.C.; no drugs, no knife, Chiropractic (ki-ro-prak-tic). The cause of disease remains basic, a thorough spinal adjustment of the nervous system, with intelligent treatment of all other methods have failed to restore health, call on us. Chiropractic methods free of charge. Office, 202 Wellington St., Brantford, Ont. Office hours, 2 to 4, 6 to 7, 30, except Sunday. Other hours by appointment.

THE BRANTFORD LIMITED

Wednesday, March 13, 1913

THE BUILDING RECORD

For the first two months present year building permits issued totalled \$1,122,000, with \$10,516,000 for January in 1911 or an increase of 33 per cent.

Sixteen eastern cities show advances of 33 per cent. western cities only had a 3 per cent, another fact that just now Western cities are much less marketable.

For Brantford the record for two months 1911 Two months, 1912

Or in other words a decrease of 33 per cent.

There is nothing alarming in February of last year factory permit was taken practically represents the fact that in the ensuing month Brantford will catch up rapidly admit of much question as to the new public building industrial enlargements house building are already in progress.

THE LIBERAL CL

Liberal speakers and Liberalers are now seeking to claim direct insult to Canada to the Dominion cannot build nothings.

Nothing of the kind has been said by anyone.

The people who built the Pacific Railway and who have peacefully launched many other enterprises, certainly can achieve things within human power.

But that is not the point. It is this, that it would tend to establish and run the equipment and that Britain's NOW.

As Winston Churchill, First Lord of the Admiralty, so clearly set out in his correspondence Borden, the turning out of modern fighting machines is mushroom ebullition.

The Laurierite obstruction simply talking rubbish will pretend that to face this plan is to insult Canada.

NOTES AND COMMENTS

And now the Liberals at Ottawa seeking to make the pretence they like those letters of Churchill, Well, they have been swallowing so much water taste that maybe they will come used to it.

× × ×

The Grid wind jammers at Ottawa are at it once more and to spout just about the same rot.

× × ×

Galt will soon have its water pumped by Hydro-Electricity. Long live Hydro-Electricity.

× × ×

No dear friends, those but either side of the physiognomy of P's, these days are not cat toothache. They are the result of jaw muscle exercise.

× × ×

A well known Liberal in connection with The Courier this morning said: "Everybody knows what"

SPRING OPENING

Thursday and Friday

OUR complete and authentic collection of Spring-wearing Apparel and yard materials is worthy of your critical inspection.

This Display Will Appeal to the Women Who Understand Dress!

French, English and American Modes in Millinery

The small hat is the notable feature this season. The decorative effects are both bold and striking. The bold shown patterns and colorings of the new Bulgarian order are very conspicuous. This is a most important feature, as the hat simply must have a dash of this bold color; if only a touch it must be there.

The Showing of Smart Gowns, Suits, and Coats Adds Greatly to the Opening Exhibit

Fashion, tiring of the straight lines, has chosen tunics and kindred effects to relieve this straightness. We are showing a most beautiful range of tunics and lace over-dresses.

There is a wonderful display of dress accessories, chosen from the latest and daintiest productions of leading foreign manufacturers. Beautiful new Blouses and Dress Fabrics, exquisite Silks and kindred soft materials, dainty new Laces and Embroideries, in fact everything.

Dressmaking

Miss Truesdale who has charge of our extensive Dress-making Dept. is now prepared, with a full staff of competent workers, to execute your orders for Spring Suits, Coats or dresses.

Fit, Style and Workmanship Guaranteed

Ogilvie, Lohead & Co.

The Latest Vogue in

Tailored Suits and Long Coats

On Display in Our Mantle Dept.

Ladies' and Misses' Suits, in all the popular new materials, including Bedford Cords and Whipcords, in plain colors and two-tone effects, also Cheviot and French Serges, in all the leading shades and pretty tweeds.

The Coats are attractively cut in semi-fitted lines, with slightly cut-away or rounded fronts, also strictly tailored styles lined throughout with silk or satin. The skirts are plain, also pretty draped effects.

All Prices From \$10.50 to \$40.00

The New Three-Quarter Coat, with loose back and rounded fronts, in stylish tweeds, blanket cloths, ratine and serges, in all the approved spring shades, also pretty black and white checks and stripes.

Prices \$9.50 to \$35.00

AN EARLY SELECTION FROM OUR STOCK WILL REPAY YOU

VETERANS AT FINE AFFAIR

An "At Home" at the Armouries Held Last Evening.

Virtues of the Veterans Duly Extolled in Speech and Song.

That the Army and Navy Veterans Association "at home" which was held last night in the Men's Mess of the Dufferin Rifles quarters last night made good use of putting it mildly. It was one of the many military functions upon which success places its crown. Long ere the hour appointed for assembly the spacious room allotted for the merry gathering was filled to capacity and the late comers were forced to be satisfied with "standing room only."

Decorations. The committee in charge of the affair certainly brought credit upon themselves for the manner in which the room was decorated. The interior of the mess room was a mass of flags and bunting.

As a prelude to the programme, Donald Galbraith favored those present with a number of selections on the bagpipes.

Colonel Spence, who acted as chairman during the evening, called the gathering to order and requested those present to sing the doxology, to which they heartily responded.

The excellent lunch which had been provided for the occasion was heartily partaken of by those present and the smart corps of waiters who undertook to serve the crowd are worthy of praise and Mr. Crumback of the Tea Pot Inn is to be congratulated on the manner in which the dainty luncheon was handled.

While the caterer was getting things in readiness the chairman took the opportunity to remark that the Army and Navy Veterans of Brantford extended a cordial invitation to all to partake of their hospitality. Continuing the chairman stated that the objects of the association were social intercourse, renewal of friendship, mutual advantages and a welcome hand and a word of cheer to comrades. The colonel then went on to say that he hoped that the association would be self-sustaining and remarked that a home should be provided for the veterans. He hoped the government would assist in the matter. Why should the veterans have special privileges, asked the chairman—because the veterans of to-day were the soldiers of yesterday.

Communications. Wm. Blues, chairman of the committee then read letters from the following who regretted their inability to attend the function: Messrs. W. C. Cockshutt, M.P., and J. H. Fisher, M.P., H.R.H. the Duke of Connaught, through his private secretary sent the following communication in which he consents to becoming an honorary member of Brantford Army and Navy Veterans' Association:

Government House, Ottawa, March 7, 1913.

Dear Sir—I am desired by the Governor-General to acknowledge receipt of your letter (undated), and to inform you that His Royal Highness will be very pleased to become a patron of His Majesty's Army and Navy Veterans Association of Brantford as requested. His Royal Highness also desires me to thank you and the members of your association for the kind expression of sympathy, and to say that Her Royal Highness, the Duchess of Connaught is slowly improving in health.

Yours faithfully,
ARTHUR.

Mr. G. Lambden made a few short remarks.

By this time, everything was in "apple pie order" and the dainty luncheon which had been prepared was served in excellent style.

After Lunch. After those present had partaken heartily of the menu, Colonel Spence called the gathering to order and proceeded with the programme.

The Programme. Miss Jones rendered a solo which was much appreciated, after which Mayor Hartman made a few remarks saying that he was pleased to be present at the gathering and gave a short history of his experience in military life.

Miss Markle delighted those present with a solo.

Mr. W. S. Brewster, M.P.P., was then called upon and the worthy member for the local legislature reviewed the important questions of the day and apologized for the absence of Mr. John Westbrook, M.P.P., as he could not attend on account of circumstances over which he had no control.

Col. Sergt. Hart rendered a solo in capital voice and was given hearty applause for his effort.

Col. M. F. Muir of the 25th Brant Dragoons, made a favorable impression upon the audience in which he gave a brief history of the association and outlined the duty of a soldier, referring to those who had been active in military service in the past and hoped that the day would come when the Veterans would have a place in the new armories which are soon to be erected.

Mr. Thomas gave a reading which was enjoyed by all.

Col. Howard followed with a few well chosen remarks in which he stated that as long as a roof on the armories the Veterans were welcome at all times.

Sam Burnley then put the audience

in good humor by giving one of his funny recitations. "When Rafferty Gets His Pension." Sam made the hit of the evening and is as good as ever. A violin solo by Mr. Timbs of the 25th Brant Dragoons was well received and the concertina solo by Mr. Harrington.

This concluded the programme and at the request of the chairman the audience sang the National Anthem and dispersed.

Notes. Among the military men present were: Col. Muir, Col. Howard, Major Leonard, R.S.M. Roberts, and Capt. Ballachee.

There was present at the affair an old gentleman whose hair was as white as snow in the person of Mr. Samuel Shapley, who fought in the Crimean War. He served in a corps of Engineers.

Mr. Gardner, president of the Veterans' association of Hamilton was one of the guests of the evening.

EVERY WOMAN IN TOWN WILL WANT TO SEE THIS

To-day is the formal opening of the Northway Co's new store, 124 Colborne street, when they will introduce themselves to the ladies of Brantford by opening their store to the public. The place is devoted exclusively to the sale and display of authentically styled outer garments for women. It is a most complete review of women's and misses correct wearing apparel in gowns, suits and coats. Their millinery department is also bound to create a new world in the women's world of those affairs the milliner tells you is a "creation." This section is sure to delight the fair sex with its dainty conceptions of spring displays.

This store is "different," from the unique show window arrangement to the store service, which is in charge of attentive clerks who will be happy to show you the season's new styles in dress and headgear.

In talking with a Courier representative to-day, Mr. A. H. Strong, the store manager, stated it is not the intention in their initial effort at any future time, to win patronage through self-praise or exaggeration of their goods, but, as is the Northway custom, by giving best possible values at moderate prices.

Remember the name—Northway, 124 Colborne street, and don't fail to visit this store.

IF YOUR CHILD NEEDS A PHYSIC

Look at the tongue, Mother! If coated, it is a sure sign that your little one's insides, the stomach, liver and bowels are clogged up with putrefying waste matter and need a gentle, thorough cleansing at once.

When your child is listless, drooping, pale, doesn't sleep soundly or is irritable, or is cross, irritable, feverish, stomach sour, breath bad; has a red, swollen, diarrhoea, sore throat, or is full of colic, give a teaspoonful of Syrup of Figs, and in a few hours all the foul, constipated waste, undigested food and sour bile will gently move on and out of its little bowels without nausea, griping or weakness, and you surely will have a well, happy and smiling child again shortly.

With Syrup of Figs you are not frugging your children, being composed entirely of luscious figs, senna and aromatics, it cannot be harmful, and besides they dearly love its delicious taste. They should always keep Syrup of Figs handy, it is the only stomach and bowel cleanser and regularizer needed. A little given to-day will save a sick child to-morrow.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious, lasting, genuine old reliable. Refuse anything else offered.

Opposition Falls

(Continued from Page One.)

which overtook them last night. They indulged in tirades intended to represent the frank statement of facts contained in Mr. Churchill's memorandum as insults to Canada. Mr. Martin (Regina) and Mr. McCraney (Saskatoon) kept the obstruction going until 10 o'clock Tuesday morning and then Mr. Pugsley caused a diversion by moving that the committee be reappointed. He took as a pretext for thus seeking an armistice in the fight which the Government is waging in the cause of Imperial defence a statement that certain accounts could not be paid by the Government. He professed to be anxious that the Government move the House into Committee of Supply, but at the same time indicated that a vote of money would be acceded to by the Opposition without lengthy discussion.

Hon. Mr. Borden showed the fallacy of Mr. Pugsley's position. The clause under discussion was, he pointed out, the basis of the Laurier policy as well as of the Government policy. He had asked the chief Liberal whip to name any reasonable date on which he would be willing to have a vote taken and he had sent the chief Conservative whip to make the same proposal. The Opposition had, however, declined to do anything to facilitate the transaction of public business. The Prime Minister demonstrated that in Opposition the Conservatives had always been ready to vote a certain amount of supply. The business of the country, he de-

Wiles & Quinlan

The Big 22 Clothing House

Brant County's Greatest Clothiers

shared, was now being held up by what could only be described as obstructive tactics.

Mr. German (Welland) affirmed the intention of the Opposition to continue its present tactics unless the Government abandoned its plan to add to the naval forces of the Empire Mr. Nesbitt (North Oxford) and Dr. Clark (Red Deer) also helped to use up time before Mr. Pugsley withdrew his motion after having wasted an hour and a quarter.

Mr. McNutt (Saltcoats), and Mr. Ernest Lapointe (Kamouraska) then proceeded with the debate.

Hon. J. D. Hazen, Minister of Marine and Fisheries, rose at 12:40 to give his authority as to the comparative cost of British and American ships. He quoted from estimates made by the chief naval architects of construction before the Naval Committee of the American Congress in January of this year. The cost of the new battleship Pennsylvania of 31,000 tons was given as \$16,345,370, or approximately \$527 a ton. The cost of a battleship cruiser of 40,000 tons was quoted at \$28,706,466, or \$567 a ton. This was in case the ships were built by the American navy yard. If they were built by contract the cost would be a little over \$500 a ton.

Mr. Hazen understood that the American naval authorities preferred to have these ships built by the navy yard rather than by contract, as a better type was obtained. The cost of the British Dreadnought of the Lion type he had previously quoted at \$433 a ton and the Orion at \$475 a ton.

The Difference in Cost: Mr. Hazen continued by reading from the Lumber Trade Journal of New York of October 15 last an independent statement of the comparative cost of shipbuilding in Great Britain and the United States made by Robert Dollard of San Francisco. The cost of building a 9,000-ton tramp steamer in Great Britain was placed at £70,000, and it was stated that five vessels of similar size now building on the Delaware River were costing £142,000 each, the difference being over 100 per cent.

In May, 1911, the government of Canada, Mr. Hazen said, received tenders from the British and Canadian shipbuilding companies for the construction of four cruisers and six destroyers at Sydney. The prices quoted were for cruisers, £440,012, and for destroyers £119,700, but these prices did not include Customs duties, which the tenders added at three per cent for cruisers and four per cent for destroyers, making an addition of £13,740 to each cruiser and £5,250 to each destroyer, bringing the total cost up to \$453,732 for cruisers and £124,950 for destroyers.

In 1911 the British and Canadian Governments were calling at the same time for tenders for vessels of the same type. The tenders of Cammell, Laird and Co. for Canada were £200,000 for cruisers and £119,000 for destroyers. The British Admiralty received tenders at the same time which placed the price of cruisers at £280,000 and for destroyers at £86,000. Thus the increased price for building cruisers in Canada was 43 per cent, for cruisers and 88 per cent for destroyers. The cost in both cases covered hull and machinery. In Great Britain there was an addition of £54,000 to the cruisers for reserve gunnery apparatus, etc., bringing the total cost of cruisers for Britain to £334,000.

To the Canadian prices there had to be added for the same purpose £64,000, making a total cost of £464,800 for cruisers or 39 per cent above the British price. To the cost of destroyers there was added in the same way in Britain £14,000 and £16,800 in Canada, making the total cost of destroyers in Britain £100,800 and in Canada £135,800, an increase for Canada of 37 per cent.

Temperature for the past twenty
four hours: highest 46, lowest 24;
same date last year, highest 31; low-
est 10.

Buildings and Grounds.

The Buildings and Grounds com-
mittee meet on Thursday night.

Deny Rumor

Local Reformers deny the report
that W. Lyon Mackenzie King would
be offered the nomination of the rid-
ing of North Brant.

Local Licenses.

Applications for local liquor li-
censes have been called for by License
Inspector Eacrett.

Indoor Ball.

H. Company of the 91st, Hamilton,
are coming here for a game with the
pick of the 38th on Saturday night.

Moving.

H. B. Beckett, the undertaker, has
leased the property of Frank Johnson
on Dalhousie street, opposite Hunt &
Colter's, and will move his business
there on or about the 1st of May.

Presented Account.

P. T. Laborde has sent in his ac-
count, amounting to \$40, to the city
clerk for preparing the illuminated
address which was presented to
H. R. H. the Duke of Connaught dur-
ing his recent visit to the city.

Don't Like Change.

A number of residents in West
Brantford do not like any too well
the action of the Public School Board
in transferring Principal Rowe from
Ryerson school to the Dufferin.

Hand Cut.

William Uptgrove, 88 Emily street,
had his left hand badly lacerated
while working and a saw in the
woodshop of the Cockshutt Plow
Company on Monday morning. Dr.
Secord, who was summoned, dressed
the injury, and Mr. Uptgrove walked
home.

Teachers' Lecture.

Prof. S. B. McCready of the O.A.C.,
Guelph, and a director of elementary
agricultural education for Ontario, is
to speak to the teachers and trustees
of the rural schools in the court
house Tuesday afternoon. His lec-
ture will be on the subject of "School
Gardening and Kindred Work."

Sabbath School Work.

The Executive of the Brantford
Sabbath School Association met last
evening in the Library room of the
Wellington Street Church. It was
decided to hold the annual meeting
on Tuesday, April 1st. Several pro-
minent outside speakers will be pre-
sent. An afternoon and evening ses-
sion will be held, and a banquet will
likely be arranged in connection with
the affair.

Gas Well Struck.

Mr. Dennis, field manager of the
Standard Gas Company, when seen
at the court house this morning,
stated he struck a large well of 180-
pound rock pressure on the farm of
Russell Manning, Onondaga town-
ship. "This is the largest well struck
by the company in some time," said
Mr. Dennis. "We will sink two or
three others in the vicinity, all of
which will be piped to the city mains
for the use of consumers."

County Schools.

Mr. Standing, county school inspec-
tor, stated this morning that the at-
tendance at the county schools sur-
passed that of former years. "The
teaching staff is at full strength.
However, after Easter we expect to
have to make some changes, as we
generally lose a teacher or two at
the time," said the inspector. "I ex-
pect to have my annual report ready
for the County Council in the course
of a week."

Laid at Rest.

The funeral of the late Bert Griffin
took place yesterday afternoon from
the undertaking parlors of H. B.
Beckett to Mount Hope Cemetery.
The pallbearers were Messrs. George
Islop, Thomas, John Patte, J. F. Van-
Lane and C. Coles. Rev. R. D. Ham-
ilton officiated at the services. The
floral tributes included a wreath from
the employees of the Adams Wagon
Works paint shop and sprays from
fellow-Englishmen.

Indians Grateful.

At a recent meeting of the Six Na-
tions Council at Oshkewen the fol-
lowing resolution was passed—"The
Council decided after hearing read a
telegram of sympathy from H. B.

Royal Highness the Duke of Con-
naught upon the death of Miss E.
Pauline Johnson, to send him a let-
ter of thanks for his thoughtfulness
and at the same time they desire to
thank him for his gracious act in
calling upon the late Pauline Johnson
at the hospital in Vancouver last au-
tumn in response to the humble re-
quest of the council to do so.

County Council.

The County Council meets here on
Thursday March 20th.

Theatre Party.

D. Company of the Dufferin Rifles
are holding their annual theatre party
at the Colonial on Friday evening.

Was Buried.

The funeral of the late William
Schneider took place yesterday after-
noon from the undertaking parlors
of H. S. Peirce to Mt. Hope cem-
tery.

Plan Opened.

The plan for the St. Patrick's con-
cert, which on account of Holy week
is being held March 25, opened this
morning at Robertson's drug store.

Quarter of a Million.

Mr. T. T. Edwards, superintendent
of the Mt. Pleasant Provincial
Hatchery was in town yesterday and
reports the prospects for the coming
season very bright. He expects to have
no less than a quarter of a million for
distribution later on in the depleted
inland waters. This is a record num-
ber for the hatchery.

Entertained Choir.

Rev. A. L. and Mrs. Snyder enter-
tained the choir of Sydenham Street
Methodist church most delightfully
last evening at the parsonage. A num-
ber of the friends of the choir were
also present. A most delightful social
evening was spent and Mrs. Snyder
served dainty refreshments.

Equal Franchise.

The first annual meeting of the
Equal Franchise Club was held on
Monday afternoon in the Conserva-
tory of Music Hall. After the routine
business had been transacted, the
president, Mrs. Secord, read an ad-
dress covering the year's work. It
was mentioned that Mr. Brewster, M.
P. E., had promised to support the
present measure before the Ontario
House.

A Runaway.

A team of horses driven by Clar-
ence Wheeler and attached to a
buggy became frightened at a pass-
ing trolley car on the top of Work-
man's hill this morning, and ran
away, upsetting the buggy and throw-
ing Mr. Wheeler and his father out, and
broke loose from the buggy, dashed
toward the city and were stopped in
front of Harry Balzers store, near
the corner of Colborne and Murray
Streets. The animals were only
slightly scratched, but the harness
and rig were pretty badly broken.

Police Court News.

In the police court this morning
Bert Meates appeared to answer a
charge of stealing a horse. The case
was adjourned in order to give the
police a chance to look into things.
R. W. Ballantyne appeared on three
charges of breach of the water by-
law. On the first charge he was fined
costs of court, and the other two
were withdrawn. Martha Johnston
charged her husband, G. W. John-
ston, with assault. This case was
also adjourned. Johnston was also
charged with neglect and non-sup-
port. His young daughter also ap-
peared in court. Mr. Axford says
she is not being properly taken care
of. These cases were adjourned till
Friday.

Military.

The sergeants' cuche of four
tables was held last evening in the
mess room Sergeant Coleman held
his weekly officers' class last night.
He spoke on "Camps and bivouacs."
Capt. Sutherland Brown, R.C.R., will
give a lecture to Sergt. Coleman's
class on Friday night next. The com-
mittee in charge of the Men's Mess
have been considering for some time
past the remodeling and refurbishing
of the rooms, with the result that
they have secured a new Brunswick-
Balke billiard table; also a number
of easy chairs, magazines, papers,
etc. in order to make it an up-to-date
club. The opening of the new mess
will take place on Saturday night of
this week, when all the men of the
regiment are asked to be on hand.
Sergt. Spaulding held his weekly
Dragon class last evening, which was
exceptionally well attended.

SOME PERSONALS

Mr. David Hodge has returned to
his home in Hartney, Man, after a
three months visit with his sister,
Mrs. H. C. Porteous, Brock St.

Mr. J. W. Schram is spending the
day in Tilsonburg.

Mrs. J. R. Hamilton, late of Toron-
to Sunday School Association, and
Supt. of Elementary Work Dept. now
of 10 Maple Ave., Brantford, has ac-
cepted position of Supt. of Element-
ary work with Brantford S. S. Asso-
ciation. Mrs. Hamilton is a very
enthusiastic worker in connection

Our Spring Millinery Opening

TAKES PLACE

Wednesday and Thursday of This Week

and to which event all Brantford ladies are cordially invited. This is certain
to be the most attractive opening display we have ever introduced. We are
in greater readiness, we have expended more effort, time and patience in
making this season's selections, than ever before.

Everybody is Invited

to see the latest vogues which are surely interpreted aright here. Our buyers
have been to New York, London, Paris, and other noted style centres. The
display speaks more emphatically than can any words of ours.

Come Wednesday and Thursday

Along with the Millinery we will also show the novelties of the season in
Dress Goods, Silks, Trimmings, also Suits, Wraps and Coats for Women,
Girls and Children.

Spring Opening
Wednesday and
Thursday

Church.

Obituary

Sarah Jane Cresswell.
The death occurred last night after
a brief illness of Sarah Jane Cresswell,
widow of the late Peter Young, and
for many years a highly esteemed re-
sident of the city. The demise occurred
at the residence of her daughter,
Mrs. Johnson, 9 Brighton Place.
Those left to mourn the loss of a
devoted mother are four daughters
and one son: Mrs. Johnson, Mrs. J.
Merlihan, Mrs. G. Stenchaugh, city;
Mrs. Shaver, Hamilton and Swainson
of Tennessee. The funeral arrange-
ments have not yet been completed.

The Late Emily Jones.
The funeral took place yesterday af-
ternoon of Emily Jones from the fam-
ily residence, 7 Park avenue, to the
B.M.E. church and Mt. Hope cem-
tery. The pallbearers were: Messrs.
E. Johnston, Isaac Johnston, George
Johnston, James Payne, Charles Jones
and Jasper Smith. The funeral ser-
vices were conducted by Revs. Logan,
Brooks and Drake. The floral trib-
utes were numerous and beautiful in-
cluding: Wreath, finishing room of
Ham and Notts' Pillow, family;
Sprays—Mr and Mrs J. Johnson, Mrs
Wilson and Family of Guelph, Hen-
kle Bros, Mrs. Workman, Mr. and
Mrs. J. Brown, Mr. and Mrs. Rowe,
Mrs. Killeleagh and family; Mr. and
Mrs. Walker and family, Mr. Arm-
strong and Grace, Mrs. Miller, Mrs.
Wm. McCurtis, Mr. and Mrs. New-
combe, Mr. and Mrs. Chas. Peters,
Mr. and Mrs. Lucas, Harry and
Percy Logan, Mr. and Mrs. J. J. Kil-
leleagh; wreath, B. M. E. Sunday
school.

Infant Daughter.
The funeral took place yesterday
afternoon of the infant daughter of
Mr. and Mrs. H. Soar, Albion St.,
to St. Basil's church and St. Joseph's
cemetery. Rev. Dean Brady officiated
at the funeral services. The floral
tributes were numerous and very
beautiful.

PLAN MADE TO
OPEN UP LAND

Part of Mohawk Institute
Property Will Be
Sold.

Elsewhere in this issue is the
announcement of an application
to Parliament for the expropriation
of the Gibe property in con-
nection with the Mohawk Insti-
tute.
This land, of some 200 acres, is
situate back of Rev. R. Ashton's
residence, and fronts on the
Hamilton road.
All concerned refuse to talk,
but the Courier understands that
the plan is to open up the area
for factory and residential pur-
poses.

Mrs. Gordon Smith is in Toronto to-day.

Mrs. John H. Spence is in Toronto for a few days.

Mr. Harry Cockshutt is in Toronto on business to-day.

Captain and Mrs. M. O. Zealand left for Windsor this morning.

Mr. Anton Van Westrum left for Chicago last evening.

Mr. K. V. Bunnell and Mr. Iden Channing left for Pinehurst, N.C., last evening.

Messrs. White, Lane and Binkley are attending a convention in Windsor this week.

Mr. W. S. Brewster, M.P.P. was in the city last evening attending the "Veterans' at home" at the armories.

Mr. Perry of Montreal, is the guest in the city of Mr. and Mrs. Harry Cockshutt, "Dufferin House."

Mr. J. E. Hess, District manager of the Dominion Life Insurance Company, left for Toronto this morning on an extended business trip.

Lieut. Colonel McLaren and the officers of the 91st Regiment Canadian Highlanders, are invited to a military euchre and dance on Friday evening, March 28th.

Hon. Clifford Sifton and Mrs. Sifton and Miss Hazel Payne who have been in the south of France for the past three months are now on their return to Canada, sailing on the ninth.

Rev. Dr. Mackenzie, who has been suffering from an attack of bronchitis for the past few days, is reported to be much better—in fact almost himself again.

Invitations have been issued by the President, officers and members of the Brantford Golf and Country Club for an at home to be held at the Conservatory of Music, Nelson St., Thursday evening, March the twenty-seventh, at 8.30 o'clock.

Mr. and Mrs. George H. Wilkes and Mr. and Mrs. A. J. Wilkes are expected in the city again to-day after a few weeks sojourn spent at Bermuda and Atlantic City.

A very pleasant time was spent Wednesday evening in Grace church school house when the gentlemen members of the A. Y. P. A. entertained the ladies in a social evening. After short opening exercises, all took part in all sorts of games, after which the gentlemen served light refreshments and ice cream. After all were finished, the ladies congratulated the gentlemen on the successful way in which they had entertained them.

The twitter of birds—do you hear them these fine bright mornings? And millinery openings—surely that combination sounds spring like. All our shops are in gala attire this week and many divers are the things displayed to tempt millady. Hats—large and hats small—modest or flower-laden; you have your choice, and all seem to be attractive. We don't think ever were the colors so perfectly blended as this year, and the materials shown for spring and summer wear are simply exquisite we think.

Time was when American coats had all the cut and style. There are some beautiful models being shown of Can-

adian manufacture that out-class them all this season. But they are expensive.

Evening of Plays at Victoria Hall.

As predicted, Victoria Hall was crowded last evening when the Literary club in connection with the W. C. A. again came before the public, three playlets being produced by local talent, opening with the Shakespearean selection from "Twelfth Night," Act I, Scene V, and with the following cast:

Olivia, a rich Countess—Miss Gretchen.
Lady-in-waiting—Miss Florence Wengenast.
Maria, Olivia's woman—Miss Helen Kippax.
Malvolio, steward to Olivia—Mrs. D. L. Wright.
Viola—Miss Evelyn Blake.
Clown—Miss Irene Todd.

Scene—Olivia's Garden.

A most attractive group, well staged and excellently carried out.

"Obstinacy," with all its humorous situations followed. It's a long-time since Brantfordites have had the pleasure of seeing Mr. T. Harry Jones taking part in anything of the kind.

But his "Mr. Kent" surely could not be excelled and Mrs. George D. Watt made an ideal Mrs. Kent. Jack Townshend as "Robert," Miss Gould as "Grace," Arthur Dunstan as the colored man; and little Mrs. Morton Paterson as Lizzie, the colored maid, were an amusing quartette—and called forth rounds of applause.

The fairy play, "The Wonderful Wood," with the following cast:

Miss Helen Pawkes, Miss Edith Sweet, Miss Marion Watts, Miss Gay Shannon, Miss Chalerast, Miss Velma Shultis, Miss Phipps, Miss Jean McEellan.

This play brought a most delightful evening to a close. Dainty girls, daintily clad, and in dainty setting—"Fairyland," indeed!

Miss J. Whittey and Miss B. Johnson were the pianists for the occasion, and nearly all taking part were the recipients of beautiful flowers during the evening.

Our Recipes

Cookies for the Children.

Molasses Cookies—One cup of molasses, one half cup of sugar, two-thirds cup butter and lard, or good beef dripping, one half cup cold water, two teaspoonfuls of soda, one teaspoon each of ginger and cinnamon and cloves to taste, and flour to roll.

Sugar Cookies—One cup sugar, two-thirds cup butter, one half cup of milk, two eggs, one half teaspoon soda, one teaspoon cream of tartar, pinch of salt, flavor to taste and one cup raisins, (chopped and stoned), nutmeg, cinnamon and cloves to taste, and flour to roll.

Hermit's—One cup butter and lard, one and one-half cups brown sugar, three eggs, one teaspoon soda, dissolved in two tablespoonfuls milk, one cup raisins, (chopped and stoned), nutmeg, cinnamon and cloves to taste, and flour to roll.

Three Good Soups.

Potato Cream—In three quarts of water boil veal bones, a knuckle of ham—or a slice of pickled pork—and a bunch of soup vegetables until it is reduced to two quarts. Then add an onion chopped very fine, and let the whole simmer, in the meantime mashing two or three large boiled potatoes and mixing them with a cupful of cream or milk. Add the potato cream to the soup and strain through a colander into the tureen—seasoning with salt, pepper and a tablespoonful of finely chopped parsley. Serve at once.

Normandy—Put a good sized knuckle of veal in a soup kettle with three quarts of water and let it heat slowly, skimming carefully when it begins to simmer. Then allow to cook slowly but steadily for three hours. Add six peeled and thinly sliced white onions and half a stale loaf of baker's bread and allow to simmer for another hour. Now take out the meat and put the soup through a puree sieve; pressing through as much of the bread and onion as possible. Put it into a double boiler, rub a tablespoonful of butter an dtwo of flour to a smooth paste.

A Grand Rapids (Michigan) woman has just graduated from the high school of that city at the age of fifty. She plans to study for a degree at the University of Chicago. Last year a Brooklyn woman aged seventy-seven attended one of the public night schools and at the close of the season received her diploma with the rest of the class.

The man who agrees with nobody thinks everybody else is in the wrong.

Wood's Phospholine.

The Great English Remedy for Nervous System, makes new blood, restores vitality, cures Debility, Mental and Brain Worries, Dizziness, Headaches, Spasms, Stomach Troubles, and Effects of Abuse on Excesses.

Price per bottle 25c. One will please six. Sold by all druggists or mailed in plain package on receipt of price. New samples free. Write to Wood's Phospholine Co., Toronto, Ont.

GRAY HAIR TURNS ITS NATURAL COLOR AFTER APPLYING SAGE TEA

Mixed With Sulphur It Darkens Beautifully and Takes Off Dandruff.

It's usually too sticky, so insist upon getting "Wyeth's," which can be depended upon to restore natural color and beauty to the hair and is the best remedy for dandruff, dry, feverish, itchy scalp and to stop falling hair.

Folks like "Wyeth's Sage and Sulphur," because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly, says a well-known downtown druggist. You dampen a sponge or soft brush and draw it through your hair, taking one small strand at a time. This morning the gray hair disappears, and requires but a few moments, by after another application or two is restored to its natural color and looks even more beautiful and glossy than ever.

Almost every one knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also cures dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays skilled chemists do this any drug store for the ready-to-use better than ourselves. By asking at product—called "Wyeth's Sage and Sulphur Hair Remedy"—you will get a large bottle for about 50 cents. Some druggists make their own, but

Do you need additional capital in your business? If so, I will incorporate same into a limited company and procure such capital as required. Write or call. Athol George Robertson, 38 Colborne St., Toronto, Telephone Main 3113.

The egotist is all I's and expects the rest of us to be all ears.

As a vermicifer there is nothing so potent as Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

SECOND SECTION

All Stars

Winnipeg Beaten

OTTAWA, March 12.—Winnipeg All-Stars met their opponents from New Edinburgh, St. John's College teams of the National Union played them still and won out by a score of 1-0.

The ice was soft and to some extent against the tourists who rely largely but never at any time were to cope with the brilliant Captain Gerard and his team. They were outskated from end and checked to a distance. They came strong in the second and would have tall goals had it not been for the national work of Herbert in nets. The westerners were players, while Ottawa held on at different times. They out with five New Edinburgh then dropped Duford and boys, and took Goalkeeper were the only ones to go distance. The body-check eastern team was a big fact success, as they used their every opportunity and tourists actually sprawling the ice. This was how the game.

The Ottawa team scored

Oxford and Re

The Crews for the Favorites

NEW YORK, March 12.—Statistics and other detailed information preliminary to the new season of the Cambridge boat race on the Thames, London which is expected to have reached here by mail, will be over the usual course, from Putney to Putney. Both crews have finished their primary practice and are entered at the scene of the race.

Oxford, by their record performance two years ago victory against last year, are favorites for the present contest closer race than either of the previous two is expected this year. Cambridge has created a good impression by their victory in 1911, Oxford established their record for 1912, 1913 won by four lengths in a boat had been waterlogged.

The Oxford Make-up

Oxford has lost this year Bourne, the hero of four consecutive years, but they had a number of other experienced oarsmen from for this year's crew. Etonians, Wadsworth, Wormald, and Horsfall are the eight. Horsfall being stroke to take the place of H. K. Ward, who rowed in a triathlon eight at the Olympic E. R. Burgess, last year's sp

PREVENTING STRIKES

THE SHARING PLAN HAS BEEN A SUCCESS IN BRITAIN.

The Terrible Loss to Industry as a Result of the Repeated Labor Wars in the Old Land is Bringing Into Sharp Relief the Results of Bonusing Which is Now in Force in Many Big Concerns.

Every serious-minded man must read with amazement the strike figures for 1911 and the first eight months of 1912 in Great Britain, says a London Journal. In the former year there were no fewer than 933 trade disputes involving 961,930 workers, who lost 3,919,217 working days, while in the period mentioned above there were 501 disputes, involving 1,340,206 work-ers, causing a total estimated loss of 49,203,600 working days, figures un-precedented in the records of the Board of Trade.

When and where is this acute labor unrest going to end? What is the remedy? These are the questions which men of all shades of opinion have been asking for some time past. And their suggestions for remedying the state of industrial chaos into which the country was thrown during the early months of 1912—which condition it is possible may be repeated— are almost as numerous and varied as the real and imaginary grievances of employes.

Over twenty years ago, however, that very same and far-seeing man, the late Sir George Grey, chairman of the South Metropolitan Gas Co. of London, adopted a strike-preventative plan, which has proved highly suc-cessful, and has since been success-fully carried out by other companies. In 1880 occurred the great dock strike, and that year the company was ap-proached by trade union officials to make various concessions to the men. These were eventually conced-ed, but, in order to avert the danger of strikes in the future, Sir George introduced a special system of profit-shar-ing.

The scheme adopted by this gas company provided for the payment of a percentage or bonus of the salaries or wages—one-half in cash, and the other half being invested in the ordi-nary stock of the company—the percent-age rising and falling proportionately with the price of gas. The object of the scheme, briefly, is to induce all employes and employees to take a real interest in the welfare of the com-pany, and to endeavor to promote the company's prosperity, and also to give them the opportunity of becoming owners of property in the company. The rate of the bonus has varied from 3 per cent. in 1892, to 9.3-4 per cent. in 1905-7, the total amount paid in the twenty years ending 1911 being over \$2,700,000.

In all, 5,656 of the company's em-ployees hold between them ordinary stock of the company to the value of amount of \$261,490. In addition, the company holds on behalf of its 5,334 of its employes' deposits, accumulat-ed bonus, and other savings to the total amount of \$24,250. And the com-pany have placed it on record that this profit-sharing system has promot-ed harmonious relations between em-ployers and employes and led to an avoidance of strikes.

It is urged that in these days, when working men consider that, apart from their wages, they should share in the prosperity of the business which their labor helps to build up, such a profit-sharing scheme might be more generally adopted with great advan-tage to employers and employes.

Thirty-two gas companies have fol-lowed the example of the South Metro-politan Gas Co. with great suc-cess, while two notable profit-sharing schemes have been adopted by Messrs. Lever Brothers, the famous soap makers, and the great Ontario manufac-turers, Messrs. Armstrong, Whitworth, & Co.

Messrs. Lever Bros., of Port Sun-light, have had a co-partnership scheme in operation over three years, which provides for the distribution, among those workers who have been employed five years, of certificates bearing a face value of 10 per cent. of the workers' annual wages. These certificates receive interest as though they were ordinary shares, but at 15 per cent. less—that is, if there is a 15 per cent. certificate receive 15 per cent. This was the result of last year's working, and a dividend of \$23,700 was paid to the workers, who now hold over \$268,000 worth of partnership certificates, and have received a total dividend of more than \$56,000. In the case of Messrs. Armstrong, the rules of the company provide that an employe may be allowed to make a deposit with them of not less than one shilling and not more than £1 of his weekly wage, the deposits carrying a fixed interest of 4 per cent. In addi-tion, a bonus is declared each year equal to half the difference between the fixed rate and the dividend pay-able on the shares of the company, the interest and bonus being added to depositors' accounts.

The keen interest which employes take in this scheme is illustrated by the fact that the total amount they deposited with the company in 1911 was no less than £241,432. A year after the South Metropolitan started their profit-sharing scheme Messrs. Clarke, Nickells & Co., Ltd., of the Clarico Confectionery Works, started a somewhat similar scheme for their workpeople. The ordi-nary shareholders were paid a divid-ent on their capital, the surplus profits being divided in equal propor-tions between the workpeople and the shareholders. In twenty-two years the workpeople have received the sum of £172,026. All employes who have worked one year participate in the bonus, and are paid in proportion to their wages and salaries. The bonus is paid in cash, and there is no com-pulsion for employes to invest any part of it in the company's stock, but every encouragement is given to them to acquire shares, and their holding is considerable.

Forty years in use, 20 years the standard, preserved and recom-mended by physicians, For Women's Ailments. Dr. Mantel's Female Pills, at your druggists.

HURDY-GURDY PROFITS

FOUR TO TEN DOLLARS A DAY ARE THE PIANO'S EARNINGS.

Michael Angelo Diccico of Toronto is the King of the Business In That City and by Means of a Large and Industrious Family He Makes Out Handsomely—Saloons and Popu-lous Districts Are Best.

If a heavy license fee does not pre-sently put a stop to the romantic pro-fession of the street piano, some en-terprising Italian will be asking the Canadian magazines to insert the fol-lowing advertisement: "How to earn money and be gen-erally respected course in the busy manipulation of the hurdy-gurdy put-ting it in the way of making ten dollars a day. Positively the best paying branch of the Musical Art. Don't waste hundreds on counterpoint and harmony when you can get results by turning a handle."

This is not the exaggeration it sounds. The hurdy-gurdy industry in Toronto has reached a basis where it is making a profit for its disciples of from four to ten dollars daily, says The Star Weekly of that city. Eleven Italian families devote their entire time to such musical adventur-ing and possess an average of two instruments each. Usually the hus-band and one daughter accompany one machine, while the wife and an-other child take charge of the second. As is true in every branch of enter-prise, however humble, some organ-izing genius steps to the front and makes a merger. It applies even to the hurdy-gurdy.

Michael Angelo Diccico is king of the street piano in Toronto. Gifted with a large and industrious family, Angelo took pattern by the bank and erected amalgamations loom-ing up in every direction. One day he increased his rolling stock from one to four, appointed his sons and daughters to branch management, and himself became general manager of his hurdy-gurdy circuit. So to-day four street pianos pour into Michael's treasury a steady stream of copper and silver. Fellow Italians like to guess at the fortune of Diccico; but Michael himself shakes his head and mutters that "a man must make a living some way."

System—plus a curious grasp of human nature—lies back of a suc-cessful street musician. Thus, the Italian hand-organ player possesses a "papoose" knows quite well that when seated in a basket on the street, he has a faculty of exciting feminine sympathy, which in turn means the loosening of purses. It is not so much an ac-cidental occupation that baby An-tonio accompanies the piano; he has a very profitable knack of "look-ing cute" just at the moment the rich ladies are hurrying by.

"Two places the piano grinder visits with untiring patience—the hotel, and the district—blessed with numer-ous children. At the former he reaps a plentiful harvest from the sympa-thetic fraternity suspended from the bar-ter, who become so helplessly trans-ported with sentiment when a pretty girl plays the tambourine and murmurs: "Something to eat, something to eat, give me two half-dollars for a bill. Don't mention my name, it is because your lovely signorina recalled a memory of by-gone years." And the little lady of the tambourine takes the toll of pennies and quarters from the rest of the gentlemen, some of whom plead earnestly with her that father should fetch his hurdy-gurdy inside and play "The Old Oak in a Bucket."

In those districts where children most do congregate, remains the chief profit for the itinerant musician. Chil-dren are naturally glib, and their other youngsters may remark. Hence it becomes a matter of "the proper thing" to see that the "poor old Ital-ian" is given a penny or two, when he moves along to a neighbor's house. That is one of the trifling points of pride in a ten-year-old, that he be-lieves necessary to keep up his caste. Presuming that twelve visits were made in an hour and from one to ten cents received at each, the profit of a twelve or fourteen-hour day is not hard to realize. As was noted above, from four to ten dollars is the average daily earning power of a well-man-aged hurdy-gurdy.

Competition is eliminated by gen-eral agreement. For instance, the fam-ily that patrols Avenue road, Bedford road, St. George street and like local-ities need fear no inroad from rival machines. With established routes all over Toronto, the business is work-ed largely on the franchise system, although a leader like Diccico obvious-ly controls the choicest streets and is privileged to lay siege to the bar-rooms that serve the most sentimental of the hurdy-gurdy.

For this increasingly profitable in-dustry, the city of Toronto charges no license fee. Indeed, according to some official interpretations, the hurdy-gurdy man is breaking the law every day he plies his trade. At present he exists by the good-will of the police, although the good-will of the police is exerted to have a heavy tax laid upon his occupation. Nor are many of his fellow Italians at all backward in advocating his banishment from the streets, one prominent profes-sional man declaring that the existence of the Italian piano grinder gave the Italian colony a reputation for lack of industry which was not at all de-sired.

Taking the gross earnings of the street pianos at the lowest, the esti-mated of those best informed on the subject, at least one hundred dollars a day is collected from Toronto's popu-lation by the twenty-five instruments.

Newfoundland Seals. Newfoundland seals are not fur-bearing, but are killed in large num-bers for their skins and fat. The skins are transformed into patent leather and "kid" gloves, while the fat is used for soap.

TO CURE A COLD IN ONE DAY Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box.

A RISING LEGISLATOR.

J. C. Elliott, M.P.P., Has a Future in Politics.

He first made himself known in the Ontario Public Accounts Committee. After the election in Ontario in 1906 a little phalanx of Liberals gathered in the Legislature—eighteen in them—and took stock of their party and their cause. Many thought they had better give in. Not so with them. They were optimists and would give in. A young man of medium height, slightly built, with keen, pierc-ing eyes, began to size up the situa-tion. He had spoken of the situation on the address and took a hand in the Budget. He was assigned to three of the standing committees of the House, but really centred his atten-tion on one—the Public Accounts.

This was Mr. J. C. Elliott, member for West Middlesex. That year and the year following was a session of the Legislature. The work of the committee was not heavy, but it was enough to teach the young Parliamentarian the different parts of the House, and his first term taught him some things about political warfare. A gen-eral election last year brought on the session of the Legislature, and back, and this time was advanced to the front row of his party.

An aptness at repartee and an abil-ity to persist in the face of the argu-ment, and of score on, an oppon-ent are distinguishing characteristics of Mr. Elliott in debate. Several times he has been called to the front by the Prime Minister's car-riage. Born in the township of Ekfrid, in West Middlesex, in 1872, Mr. Elliott is now approaching the zenith of his usefulness. At the age of eleven he passed his high school entrance ex-amination, and in 1880 attended high school at Glencoe. Matriculating in 1882, he graduated in law in 1888, and at the same time took the degree of B.C.L. from Trinity Uni-versity. Five years later, on a thesis written of "The Conflict of Legiti-mate Power Between the Dominion and the Provinces," he earned the higher degree of D.C.L. from Trinity.

On graduating at Mr. J. C. Elliott returned to Glencoe and engaged in practice. Eminent success in his profession, he has, at the same time, retained a keen interest in agricul-ture, which has a farm in western Can-ada which will have a thousand acres under crop this year. While engaged in the profession of agricul-ture, the advent of interprovincial dis-putes, such as the boundary dispute and the marriage law, has enabled Mr. Elliott to display a grasp of these matters that has caused the Govern-ment speakers more than once to guard their utterances, particularly if their position was at all vulnerable.

Works Versus Words. Rev. Dr. Rankin, a prominent Methodist minister in Ontario, tells of a rather interesting incident that hap-pened in his church on a recent Sun-day.

He was approached by one of the church members after the Sunday School classing at a poor woman. "Dr. Rankin, I wish that you would preach a sermon on Heaven some of these Sundays. I confess that I have never been to Heaven, and I would like to hear your views as to just what and where it is," said the preacher, "I'll do it."

They conversed for a moment and as they were parting, Dr. Rankin called to the woman, member and said: "By the way, that poor woman living at No. — street, and she is sick, and has little or no food or fuel, and she is a poor woman. I wish you would go down to her on the next noon and see that she and her chil-dren get some assistance."

The two members promised to do so. After the evening service Dr. Rankin was rather surprised to see his questioner of the morning walking rapidly up the aisle to greet him. Smiles chased themselves over the preacher's face. He grasped the hand of the woman and said: "Say, Doctor," he said, "you needn't preach the sermon on Heaven now. I did what you asked me to do and I've been in Heaven all after-noon."

New G.T.P. Towns. During the coming spring and sum-mer a large number of new towns will be placed upon a telephone map of Canada along the line of the Gran-d Trunk Pacific Railway and the town-sites will be opened to the public by the Transcontinental Telephone Co., the official agents of the T.P.P. While many of these are still un-named, and by no means definitely located over-erty have been finally decided on at present, and there is a greater num-ber of townships on the company's exist-ing lines will be located and named this year.

The new towns decided on are as follows: Pronga, Gallivan, Normross, Springwater, Ruthilda, Adine, Doda-land, Millerdale, Beauchamp, Coleville, Driver, Smiley, Dewar Lake, Stratton, Loverna, Gedoux, Rainton, Brough, Innes, Hunton, Viewfield, Hill Hall, Sander, Minard, Breeze, Steelman, Deborah, Esperanto, Elcott, North-gate, Archyval, Forgray, Rowletta, Linstrom, Ebank, Darmody, Mawer, Keystone and Stony Beach.

Strikes in 1912. The loss in working days from strikes in 1912, according to the De-partment of Labor, was only about one-half the similar loss in 1911, though amounting to over 1,000,000 days. This covers the whole of the Dominion. There was a great num-ber of strikes, although they involved only a small number of men. To-gether 46,500 employes went out on strikes in 1912. The Industries Dis-putes Investigation Act applies to dis-putes in industries involving public health and practically all the above mentioned disturbances were outside its jurisdiction. Altogether about 15 threatened strikes were referred un-der the act of 1912, and settlements being thereby effected in all but three cases.

TO ABOLISH NOISE.

Hiram Percy Maxim Looks Forward To a Silent City.

Tense and enthusiastic over the magnitude and the well-nigh incom-prehensible results and evolutions of his recent remarkable discoveries, Hiram Percy Maxim, British inventor of the noiseless gun and most famou-s of a famous family of inventors, told how the noiseless city may become a fact in the not distant future.

Straw about on his desk and table the inventor's office were the little devices to be attached to all areas of firearms which eliminate practically the sound of powder explosion. Out-side the little office is the wonderful workshop of the Maxim silent firearm company.

In this appropriate atmosphere Mr. Maxim explained as much as his pa-tent restrictions would permit the details of the coming silent town, only a generation or less away, saying: "The one great silence I hope for and that noise, here and there, is re-duced and established within five years, is a general silencer for noises, a device for sick rooms, hospitals, and for noisy factories and a hundred other places, which will shed silence in the same way that a lamp sheds light."

"This is no idle prediction and I have progressed so far towards the solution of the problem that I have patent applications, the pendency of which prevents me from talking as much as I would like to."

"The noise made by an engine ex-haust and a gun report is caused by the liberation of the gases and by one thing which at first did not dream of. This noise advances through the air and while its velocity of ad-vance is always practically the same, its soundness varies with its value. It is like a boat breaking through the water and causing a wave, and the wave is sudden it breaks and causes noise. If the wave is devel-oped gradually, the noise is not heard. Our ears are built to detect vibrations of a certain suddenness and of a certain frequency. If the sound is of a certain limit of suddenness passes unheeded."

"It is too early to go into details, as I have much to do yet before it is perfect. To say, however, that there is no doubt that the noiseless city is close at hand."

"You know a boiler shop is as quiet as a tomb, and a deaf man, if there are non-resonant cast irons, there is sil-ence. It is like light. Our eyes de-tect certain kinds of light only. Many kinds of light are absolute darkness to us, for example, an X-ray in a dark room is invisible. And yet, it will photograph your bones on a plate, and gives enough of a certain kind of light to pass through a man's body. "With sound it is the same thing. Our ears are built to detect certain kinds of sounds, air vibrations. If these are of a certain kind, outside of a certain limit of suddenness, there is sil-ence. It is like light, our eyes de-tect certain kinds of light only. Many kinds of light are absolute darkness to us, for example, an X-ray in a dark room is invisible. And yet, it will photograph your bones on a plate, and gives enough of a certain kind of light to pass through a man's body. "With sound it is the same thing. Anything injurious here? Ask your doctor.
Will it stop falling hair? Ask your doctor.
Will it destroy dandruff? Ask your doctor.
Does not Color the Hair

Lady Marjorie's Love
She took the proffered arm as though it were a matter of course, and her fingers were still upon it when they reached the house and entered the hall by an open side door. Marjorie murmured a word or two of thanks to him as she withdrew her hand, and he left her with a bow, turning towards the passageway that led to the oak parlor. But he heard himself called before he reached it, and instantly turned back again. Marjorie had taken off her hat and was pulling at its ribbons as she spoke.
"Mr. Barrington—I am—very uneasy about—what we spoke of. It would be very wrong if you were to have any trouble through it—through me. I want to say that if Mr. Chadburn had consented to you are at full liberty to refer him to me, and ask you to do this in justice to yourself—I hope you will."
"Thank you Lady Marjorie; you are very considerate. If the necessity should arise I promise to avail myself of your kind offer," Barrington answered gravely.
It was rather that the necessity which Marjorie uneasily and anxiously expected during the next week or two—did not arise, for Mr. Chadburn in London, received not one, but two letters about the downfall of Mr. Tom Jocelyn. One was from that person himself, denunciatory and savage over which the old gentleman frowned as he pulled at his big white mustache; the other was from the agent and over that he grinned and chuckled delightedly, with repeated signs of pleasure and satisfaction. Then he put the communications away in the special pigeon-hole of his secretary, where he always kept the letters of this correspondent, and tossed the first contemptuously into the fire.
In the meantime, Mr. Jocelyn, the discomfited, nursed his wrath and his swollen face at the Holt until such time as his dentist should contrive to make him presentable again and give him the opportunity, so ardently desired, of seeking revenge.
CHAPTER XIV.
A week or two went on; the early mornings were sharp, the evenings sometimes cool, the leaves began to show rims of gold and russet and slender veins of purple and red, for September was visible again, riding and walking as usual, but never in the woods or grounds of Castle Marling. The scar on his lip was not ornamental; it presented a gentle and judicial reminder whenever he contemplated it, and discretion still laid, any second complaint of his agent's crime before Mr. Chadburn, he best knew, but if so, it appeared that that gentleman had chosen to ignore it. For it was certain that Mr. Barrington had received no notice, to quit his post, and he had heard anything from his employer about his misdoings, he kept it to himself. (To be Continued.)

Charles Thomas
Continued from Page 7.
house, and barn, requisitioned by British soldiers.
John Smith, Jr., great-uncle of the writer, was appointed a captain in the militia and did great service in helping the soldiers in the war, going through the whole campaign without a wound. He was in active service at the battles of Lundy's Lane and Queenston Heights, and often did he tell me how they pushed the Yankees over the heights at the point of the bayonet, their bodies hanging in the trees and shrubs for three or more days.
One of my uncles (my mother's eldest brother, the late John Ramsay of West Flamboro) served through all those battles of the Niagara peninsula without a wound, but was taken prisoner and marched down to Greenock on the Hudson River, and he, the guard and get back as far placed under guard, but managed to escape, but having no means of crossing the river, was recaptured and taken back to prison, but soon after the war was brought to a close. So, you see, I inherit my loyalty from both sides of the house, and I can assure you that I have not permitted it to wane.
What more appropriate time to speak of the patriotism of some who have gone before us than the present, when Canada is about to take her place among the first nations of the world and going into building super-dreadnoughts, when the patriotism, the loyalty and the liberality of Canadians is being heralded broadcast throughout the length and breadth of this vast Empire. Surely there is a time when all Canadians should be proud of their country, and when I say Canadians I mean not only the

In Big Leagues
President Wilson is a baseball fan. He is known to-day that he intends using the American league pass which President Ban Johnson to-day wrote he would shortly send the President.
The American and National Leagues have always sent the chief executive season passes. Tait went to games here and the vice-president Sherman, who also had a complimentary, seldom missed a game.
With wet and soggy grounds, the Red Sox were due but for one practical reason—the score was 11 to 10 in favor of the regulars. To-day the Yankees, another tale will be told.
There is a vacancy in the Doves' team for one fast team. Applications will be received any time this week by J. R. Richards, care of J. Brotherton, 550 Yonge Street, Phone North 2022.
With all the regulars in the line-up, the Philadelphia American League team yesterday defeated the San Antonio team of the Texas League by 12 to 12. Bender, Penock and Brown pitched three innings each for Philadelphia.
The New York Americans under the guiding hand of Frank Chance are rounding into shape for a series of games with the Jersey City Club of the International League. Chance at first has struck mid-season form.

Canadian League
Guelph Herald: With only two months between now and the opening of the Canadian league, the ball fans of the city are beginning to talk of the line-up of the Maple Leafs. The feeling seems to be afloat here among the fans that Louis Cook as manager will bring to the city a very fast aggregation of players.
Besides that outfield there are to be counted in as dangerous men such players as Behan and Brady, and not forgetting our own Louie Cook, who had an average last year of .266, and which is considered quite an average for a manager who in the meantime has won the championship of the team on his shoulders and one who is trying hard for first place.
We understand that the committee who have in charge the raising of \$1500 have about one half the amount in view and are going to get busy next week and raise the balance. This should be done at once, so that the matter can be settled in regard to the Leafs playing here this season and also to give Mr. Mahoney a chance to decide whether he will remain in Guelph or not. There is no other town he has in view. There is no doubt whatever but that the team should remain in Guelph so as to assist in boosting the town. Other towns look on the game as a good advertisement for their place, and such being the case Guelph would not like to be without professional baseball, and once that is moved away chances of it being returned are very slim.

Oxford and Cambridge
Are Big Men
The comparative average weights of the Oxford and Cambridge crews are 178 and 174 pounds, respectively. It is believed that the Oxford crew will be the heaviest on record. Both crews are using this year much shorter oars than usual. The measure only 11 feet 10 inches over all, although the period of practice has been shorter than usual, it is believed that both crews are much further advanced in view of the fact that the Oxford crew is using longer oars.
The probable make-up and weights of the crews follow:
Oxford Men.
Pounds.

STOMACH MISERY JUST VANISHES
No Indigestion, Gas or Sourness after Taking "Pape's Diapepsin."
If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate some indigestible food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.
A full case of Pape's Diapepsin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.
Ask your pharmacist to show you the formula plainly printed on these fifty-cent cases, then you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.
This city will have many Diapepsin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery.
Get some now, this minute, and forever rid yourself of stomach trouble and indigestion.

Home Dyeing
has no harmful effects on the fabric
is my delight
Even Professional Dyers cannot equal the results of this Home Dye
DIYOLA
ONE IN A HUNDRED
It's the Oldest, Simplest and Best Home Dye. One can buy it every where. It is the only dye that does not stain. It is the only dye that does not fade. It is the only dye that does not run. It is the only dye that does not bleed. It is the only dye that does not stain. It is the only dye that does not fade. It is the only dye that does not run. It is the only dye that does not bleed.

NEWS OF ATHLETES
Jack Ward has applied to Secretary Walter Trivett of the Ontario Union for a sanction for his annual marathon race. It is understood the sanction will not be granted till Mr. Ward satisfies the negotiation committee that the prizes are "up to value."
The Newmarket crowd are game sports. They have asked for the Ontario Spring Championship for the 24th of May. Last year Listowel had the meet. It is likely Newmarket will get their wish.
There is just a possibility that the Hamilton Spectator will not put on their annual marathon on Victoria Day. They are seriously thinking of discontinuing the event or cutting it to 15 miles.
It looks as if there will be a tidy little struggle on Good Friday, March 21, at St. Catharines, when the Martin Electric people pull off the ten-mile championship race. Richards, the record holder; Duffy, Corkery, Attwater and Phillip of Broadview Y.M.C.A. are going to compete.
The Boston marathon is on tap—April 19—but there is hardly a chance that any Toronto runner will be in Beantown on that date. Corkery is not going. He can't get away from business. The only Canuck from these parts will be Jim Duffy of Hamilton. Duffy thinks his chances are very good to take the big prize. At that, Duffy is the only man that has a chance. If Duffy keeps in his present condition he should negotiate the long journey safely.
Can Jack Tait run a mile in 4:20? do it and will show it in Buffalo. Fri. Alf Shrubbs says the West Ender can do it. Tait is a three-time winner of the 28, when Tait books up with Kivist and Driscoll in a three-cornered marathon race.

Rowing
Oxford and Cambridge Ready.
LONDON, March 12.—The university crews' serious training is already over, Cambridge have done much better than one might have expected, considering the many changes they have had to endure. Oxford are powerful and uniform, but lack the really solid thruster in the middle of the boat. Both crews did exceptionally light work to-day. Oxford making the boat go the better at 36 than at 40. Cambridge had a very short outing and did nothing important.

SUGARING AT ALGONQUIN PARK.
Another attraction that will appeal to a great many who know the delights of sugaring in a maple bush in the spring time has been added to the many features of the Algonquin National Park of Ontario, and this year patrons of the Highland Inn, Algonquin Park Station, will be able to join the sugaring parties that will enjoy the delights of a maple bush in the Canadian woods. All particulars can be had on application to the Manager, Highland Inn, Algonquin Park Station, Ont.

Electric Restorer for Men
Phosphorus to its proper tension restores man's vitality. It is the only restorer that can be had on application to the Manager, Highland Inn, Algonquin Park Station, Ont.
