Healthy Girlhood is the only  
path to healthy womanhood.  
The passing from girlhood to  
womanhood lays a new tax up-  
on the blood. It is the overtax-  
ing of the blood that makes  
growing girls suffer from head-  
aches and backaches, from pale-  
ness and weakness and wear-  
iness, from languor, despond-  
ency and constant ill health.  
Unhealthy girlhood is bound to  
lead to unhealthy womanhood  
and a life of misery. Nothing  
but the blood building qualities  
of Dr. Williams Pink Pills can  
save a girl when she undertak-  
es the trials and tasks of wom-  
anhood. That is the time when  
nature makes new demands up-  
on the blood supply. Dr. Wil-  
liams Pink Pills actually make  
new rich blood to meet these  
demands. In this simple, scien-  
tific way Dr. Williams Pink  
Pills give growing girls new  
health, and makes their dawn-  
ing womanhood bright and at-  
tractive. Miss A. Sternberg,  
Hallbury Road, New Liskeard,  
Ont., says: "I have much reason  
to be grateful to Dr. Williams  
Pink Pills as they restored me  
to health, if, indeed, they did  
not save my life. In 1914 I be-  
gan to feel run down, and the  
doctor who was called in said  
that mine was a bad case of an-  
aemia. I lost flesh, always felt  
tired, and I got so nervous that  
I could scarcely hold a cup to  
take a drink. My heart would  
flutter alarmingly. The doctor  
did not seem to be able to help  
me at all and my family and  
friends all thought that I was in  
a decline and could not recover  
I was in bed for some weeks  
when an aunt came to see me  
and urged that I try Dr. Wil-  
liams' Pink Pills. My father got  
a supply, and by the time I had  
taken three boxes there was a  
noticeable improvement, and  
from that on I steadily pro-  
gressed toward recovery. I con-  
tinued using the pills for some  
time longer and they restored  
me to my old time health and  
strength. I shall never cease to  
praise this medicine, and to  
urge all weak run down girls to  
give it a fair trial, as I have  
proved in my own case their  
great merit."

You can get these pills from  
any dealer in medicine, or by  
mail at 50 cents a box or six  
boxes for \$2.50 from The Dr.  
Williams Medicine Co., Brock-  
ville, Ont.

London, Aug. 28—In a speech  
delivered at Bury St. Edmunds  
last night, Baron Montagu of  
Beaulieu, former Vice-Chair-  
man of the Joint Naval and  
Military Board, told of new  
monster super-Zeppelins which  
Germany is building.

"We have obtained some de-  
tails of the super-Zeppelins  
which Germany is now build-  
ing," said Baron Montagu. "The  
principal features of the craft  
are a capacity of two million  
cubic feet, a length of 780 feet,  
a beam of eighty feet, a maxi-

an hour and a radius of action  
of 3,000 miles. The engines, six  
or seven of them have a total of  
15,000 horse-power.

"The airships can carry a  
load of bombs of five tons. They  
are able to ascend 17,000 feet.  
They are armed with machine  
guns at bow and stern and on  
top of the envelope. They carry  
a crew of thirty-five men.

"These particulars show how  
largely the Germans are relying  
on Zeppelins as a means for  
harassing us. Two of these new  
craft have already been com-  
pleted and four will be available  
in October.

RUSSIA IS READY  
TO INVADE BULGARIA

London, Aug. 28—Today's  
communiques record attacks by  
the Russians in many sectors on  
Bessarabia as a war prize, with  
the East front. The only success-  
ful operation was conducted  
north of the Dniester, where  
General Letchitsky's troops  
captured the wood east of Len-  
newaden, on the Dvina front,  
near Svinitsky and Tustobaby,  
in Volhynia, and in the Car-  
pathian region were repulsed.  
The Germans attacked in force  
along the River Shara, near  
Baranovichi, but were thrown  
back with heavy losses.

With the entrance of Roun-  
mania into the war the reason  
for the sudden halt in the Rus-  
sian offensive on the East front  
becomes apparent. For two  
weeks—ever since it became  
certain that intervention by  
Bucharest was only a matter of  
time—the Russians have been  
stripping their East front lines  
of troops to mass on the Rou-  
manian border preparatory to an  
invasion of Bulgaria as soon as  
Bucharest should declare her-  
self.

The bride, who was unattended, looked very charming in a tailored suit of navy blue, with which she wore a French hat to correspond.

Immediately after the ceremony Mr. and Mrs. Sawyer left on the Bluenose for Kedegamooze where they will spend a short honeymoon. On their return they will reside in Bedford.

A large and beautiful collection of gifts were received from their many friends, including a number of cheques.

**ROUMANIA WITH ALLIES**

The latest addition to the ranks of the Allies is Roumania. She has declared war against the Central Powers and has thrust her powerful army forward into the near Provinces of Austria and with the aid of Russia is winning along the frontier. This has aroused the enthusiasm of the Allies and consequently dispirited the enemy's forces. It is believed that Greece cannot remain neutral but will take her place beside Serbia and Roumania in defeating the Teuton powers.

Albania has a small army also ready to join the Central powers.

On the Somme front the British have been making some advance and steadily have beaten back any serious attacks of the Germans. Bad weather delays further severe fighting.

**THE POPULAR VOTE IN THE PROVINCE**

The recent elections in Nova Scotia have been the cause of much glorification and bragging from the Liberal press. From standpoint of members elected they won a signal victory, but an analysis of the popular vote shows the two parties to be nearly equal.

A very small minority of electors has permitted the election of thirty Liberals and thirteen Conservatives. The vote for the highest Liberal in each constituency gives us only an aggregate of 46,541 or 50.5 per cent and the vote for the highest Conservative in each 45,073 or 49 per cent.

It will thus be seen that the Liberal majority is only 1468 or about the number of votes a candidate received who was successful in some of our least populous counties. But this small number elected seventeen more Government supporters than for the Opposition. It will therefore be seen that the Liberal majority misrepresents the popular will.

The official election returns show that a change of 253 votes would have turned eight constituencies from the Liberal to the Conservative side, and made the standing in the Legislature about 21 seats each. In Inverness Bourinot, the Liberal candidate, had a majority of 9; in Hants, Reid, Liberal, a majority of 10; in Lunenburg, Kinley, Liberal, won by 10; in Annapolis, Elliott, Liberal, won by 57; in Pictou, McKay, Liberal, won by 99; in Queen's the Liberal candidate had 101 majority, in Yarmouth 104, and in Victoria 116. The turning over of half the votes making these majorities would have condemned the Murray Government to defeat. Thus it is clear that claims showed forward by the Liberal politicians in Ontario that Nova Scotia is drifting farther from the Conservatives are not well founded. As a matter of fact, in June, 1911, in the last Provincial elections, the Murray Government had a popular majority of between five and six thousand, and in the reciprocity contest in September of that year the Borderites carried half the Federal seats.

Jerome K. Jerome is the latest British author to offer his services at the front. British authors have done nobly in this war. Most of the distinguished ones are too old for active military service, but they have been working in hospitals, driving ambulances and motor trucks, and otherwise contributing to the nation's cause.

Miss Evelyn Kilcup of the telephone exchange, Kentville, accompanied by her sister, Gladys, left Saturday morning, Aug. 19th, for Amherst to spend her vacation with her brother, Fred A. Kilcup of that place.

**OUR FLAG**

Up with the Union Jack, boys!  
Wave it aloft with pride—  
'Tis the glorious flag of the empire,  
For which our fathers died.  
Stamp on its crimson surface  
Dear Canada's ensign bold  
As proof to all tyrant nations  
that  
What England has she'll hold.

Hold by the cords of faith and love  
The hearts of her loyal sons,  
Ready when tyrants threaten  
To back her love with her guns.

Up with the Union Jack, boys!  
Warn cowards of Teuton blood  
When you tread on the tail of the Lion  
Beware of her anger's flood.

Up with the Union Jack, boys!  
Swear on its crimson folds  
Your faith and your love to England,  
For what England has she holds.  
Carry this truth to all tyrants,  
And drive it home with your guns;  
When you struck at old Mother England  
You reckoned without her sons.

**THE FRENCH .75 GUN**

It has been said that the .75 gun saved France; and they have been public celebrations in honor of this, the most famous field gun that ever was invented and the best. With all their wonderful efficiency and preparedness the Germans have been unable to build a gun to match the .75, although it is inconceivable that since the war began the Germans have not captured some specimens. There is a legend to the effect that one of the secrets of the .75 is in a little pin, which the French gunners are sworn to remove when they see the capture of a weapon is likely. Then the whole mechanism falls to pieces, and when the Germans reach it it is merely a heap of wheels, bolts and cylinders which it is impossible to reconstruct. The soul of the French .75 is the hydraulic brake, and this apparently the Germans have been unable to fathom. This device makes it possible for the gun to be fired again and again without a new aim being taken after every discharge. Ordinarily, as even the uninitiated know, when a gun is fired there is a recoil or "kick" which changes the position of the weapon. In the .75, however, the recoil is received upon a set of springs, and the aim remains the same. Therefore it is possible to fire the .75 once every two seconds. Therefore it has been possible for the French to defend Verdun and to accomplish other miracles.

**Indications are That Roumanian Forces Will Co-Operate With Russian Offensive—The Situation in Berlin.**

London, Aug. 29—A despatch to the Daily News from Lausanne, Switzerland, says:

"I learn from a high diplomatic source in Berne that almost the entire Roumanian army is moving rapidly. The Swiss frontier is closed.

The closing of the Swiss frontier obviously indicates that movements of the German troops are in progress, to meet the new situation created by the entry of Roumania into the war.

Paris, Aug. 29—The invasion of Hungary by Russians and Roumanians is not only possible, says Lt.-Col. Rousset, the military critic of La Liberte, but it is imminent.

General Letchitzky, the Russian commander in Galicia, the writer adds, hold nearly 100 kilometre (60 miles) of ridges from the source of the two Bys-tritzas towards Rajallows as far as Kirlibaba. He will easily aid the Roumanians, who, hardly on entering Transylvania, will certainly envelop the army of General Koevess, if the latter

does not retreat quickly. Field Marshal Von Hindenburg will be unable to help him, as from the Dniester River to the Stokad, General Brussiloff is holding Von Hindenburg solidly.

**AMHERST MAN CUT HIS THROAT**

Amherst, N. S. August 28—Arthur L. Fitzgerald, a married man, aged 55, was this morning taken to Highland View hospital, suffering from a self-inflicted gash on his throat in an attempt to end his life. His own daughter, aged 16, laid a charge before Crown Prosecutor Hanaway, accusing him of incest. Officers Pickram and Chapman went to his home to serve him with a warrant issued by C. E. Casey, J. P. He requested time to go to his room to change his clothes, followed within five minutes by the officers who found him sitting on the edge of the bed with a deep gash across his throat, from which blood was freely gushing in his hands in which was a sharp pointed knife. A doctor was immediately summoned and found that an artery had been severed. He was taken to the hospital here. There is slight chance of recovery. Accused, who came from King's County about three years ago, is employed at the Amherst Piano Company. He has a wife and eleven children.

**GOOD ROADS DAY AT THE PROVINCIAL EXHIBITION**

Good Roads for Nova Scotia will be the slogan on Friday, September 15th, at The Provincial Exhibition in Halifax.

A Business Meeting will be held in the Board of Trade Rooms at 10 o'clock in the morning for the purpose of effecting the organization of a Provincial Good Roads Association.

Moving Pictures on the subject will be shown at the Exhibition in the afternoon, and it is probable that something of interest will be arranged for the evening.

# INVASION OF WOMEN

(1) Women Car Cleaners at Work. (2) Turning Fuses. (3) Port McNicoll. (4) Women Workers at Galt.

**B**EFORE the war there were five million, five hundred women wage earners in Great Britain; to-day there are said to be over ten million. Five million men have enlisted for active service, and a woman has taken the place of every able-bodied man who might have been engaged in peaceful occupations. England has never been so busy a manufacturing and industrial country as she is in 1916, but this would never have been possible

if women had not stepped into the breach. In Canada there is not the same supply of surplus available women, so that in this respect Canada has not experienced so great a revolution in industrial life, but many new occupations are being opened to Canadian women, and the demand for women workers in factories and in the great industrial life of the railways is steadily on the increase. If Sir Robert Borden is

to secure his 300,000 Canadian soldiers, 100,000 women must temporarily step into the shoes of men so that the latter may be released for service, as the limit of available men seems almost to be reached. Women are already working alongside of men in sacking and hauling of grain at the Great Lakes elevators, in the Canadian Pacific yards and shops where they are cleaning cars, in the telegraph services and

in many clerical positions hitherto held by men. They are acting in some places as Station Agents with satisfaction to their employers. But Canadians who visit England are surprised to find women ticket inspectors and guards, women as elevator attendants, women as chauffeurs, and train conductors, women as red caps, porters and ticket clerks, women as locomotive cleaners and track greasers.

### ACTION OF ITALIAN GOVT. GENERALLY EXPECTED

Rome, Aug. 27—Italy today declared war on Germany. Berlin, Aug. 27—By wireless to Sayville—Italy has declared war on Germany, it was officially announced today. The announcement follows: "The Italian Government has declared that from August 27 it considers itself at war with Germany." Italy and Germany have been drifting steadily toward war. In fact, Italy's formal declaration amounts to little more than was generally expected. Before Italy this took this step Germany exerted every effort to induce her to remain neutral sending to Rome as Ambassador Prince

von Buelow former Chancellor and one of the ablest statesmen of Germany. The Prince succeeded for some time in averting war between Austria and Italy, and when he saw a rupture was inevitable took steps toward the preservation of an official peace between Germany and Italy. On behalf of his Government he negotiated with Italy a special agreement, under which, in case of war between Austria and Italy Germany and Italy pledged themselves to respect the properties and lives of their respective subjects in the other's dominions. This meant for Germany a guarantee of many millions of dollars worth of properties in Italy, and for Italy the safety of 30,000 Italian subjects, who were still living

in Germany. According to unofficial reports from Europe, Italy's Allies were dissatisfied with this state of affairs, and at the Paris Council of Entente Powers in February asked the Italian representative why their nation was not at war with Germany. Italy had already agreed not to conclude a separate peace, and as a result of the Paris conference sanctioned the plan for its formation of a permanent high council of the Entente Powers for the future conduct of the war. The increasing co-operation among the Entente Allies and the necessity for bringing into Serbia Italy's surplus of troops, which could not be employed on the other fronts without bringing on war with Germany, gradually brought Italy into such a position that it became evident a decision of hostilities against Germany was a matter of time.

### THE SCHOOL OF METHODS JUST CLOSED AT BERWICK

Rev. C. J. Crowdis, Who Attended, Writes of Its Interest Fraser Harris and Dr. Falconer.

The International School of Principles and Methods for Sunday School Workers recently held at Berwick was in every particular a complete success. Ninety-five registered as students, besides numbers of others who occupied tents and cottages on the ground. Forty received their diplomas. Rev. I. W. Williamson, the new Baptist Field Secretary, made a splendid impression on the many students who met him for the first time. Rev. Frank Langford, educational secretary to the Methodist church, was unfortunately unable to attend, and Rev. Dr. Myers, educational secretary to the Presbyterian church took the additional work with splendid acceptance. Mrs. Baldwin, of Philadelphia, whose merits are known to Nova Scot-

ians, was at her best in elementary work. With these were associated many of the leading workers of the Province.

Similar schools have been held before under the auspices of the Sunday School Association, but this is the first one under the auspices of the denominations, and it augurs well for the future. The talent employed is of the highest order. The school is of international standard. Its object is not only to set forth theory in an interesting and helpful way but to actually demonstrate the various phases of the work among the young. For instance an organized adult class holds regular sessions, makes a community canvass and faces the very problems that are met in the school and church. In every department the aim is to be practical and to give immediate assistance in the pressing problems of religious education.

Among the features of the school, special mention should be made of the splendid lectures of Prof. Fraser Harris on "The Physical Basis of the Mind," also of the exceptional course on "The Acts and the Related Epistles" by the Rev. Prof. Falconer. Camp fire evenings with its story telling period was of unusual interest and illustrated in a remarkable way the value and possibility of such a gathering. Indeed story telling received such emphasis and was so strikingly set forth that many teachers and parents will realize as never before its value and the possibility of acquiring the art. The closing convocation was addressed by the Dean, Dr. Frank Woodbury, Rev. M. L. Gregg, Rev. Mr. William and Rev. Dr. Myers. The successful students received heartening applause as they came forward one by one and received their diplomas. Already plans for next year's school are being talked over and the hope is that a large attendance may result. Especially is an increase in the number of superintendents and male teachers highly desirable.

**ROUMANIA FORCES LAST LINK IN CHAIN OF STEEL ABOUT CENTRAL EMPIRES**

Paris, August 28—Roumania has declared war against Austria-Hungary last night, says a Havas despatch from Berne, Switzerland, which declares that the Wolf Agency at Berlin made the official announcement.

Roumania's decision to enter the war was reached at a meeting of the Crown Council, held at Bucharest yesterday morning, says a Havas despatch from Geneva. The Wolf agency announces that the German Federal Council was convoked immediately after the decision became known.

Berlin, August 28 via London—Roumania declared war on Austria-Hungary on Sunday it is announced here officially. The announcement follows.

"The Roumania Government yesterday evening declared war on Austria-Hungary. The Federal Council has been convoked for an immediate sitting.

The motive which prompts Roumania to enter the war is the satisfaction her national aspirations, described by Take Jonescu, the Roumanian Liberal leader, as the "policy of national instinct."

Coincidentally this means national expansion. In the Southern half of Bukovina, the Austrian crown land, the Roumanians are the dominant race. The mass of the people of Eastern Transylvania, a part of Hungary, is Roumania by race, and language. It is said 4,000,000 Roumanians live in Transylvania. Roumania has been credited with a long-cherished ambition to annex these provinces and at the same time "liberate" the Roumanians who bow under Austrian domination. Recently it was reported Russia had offered Czernowitz to Roumania as a reward if she would unite with the Entente Allies.

Roumania also covets Bessarabia, the extreme south-western province of Russia, on the Black Sea, which was taken from her by the Berlin treaty of 1878. Reports have stated that Russia also consented to restore its population of 2,000,000 mostly Roumanians, and an area of 20,000 square miles. This with Transylvania would give Roumania a total population approaching 13,000,000, and should all her aspirations be satisfied, a territory as great in area as that of England, Scotland and Wales.

Roumania has a border line as long as the whole Russian Western war front on which to choose her point of military attack. In what direction her first blow might be aimed is only indicated by her desire to pour her troops through the passes of the Transylvanian Alps and the Carpathians into Transylvania.

On the other hand Austria has been accumulating military forces at Orsova prepared to attempt to force the Iron gates where the Danube River touches the Western Roumanian border. Bulgaria is said to have stationed 100,000 or more troops along the Southern bank of the Danube to protect her northern frontier from a Roumania invasion.

**BLACK LEG IN POTATOES**

Testimony is forthcoming that owing to the work of the Dominion plant pathologists, the disease of Black Leg in Potatoes has decreased. Still it causes considerable destruction to the potato crop, particularly in the Maritime Provinces. In continuation of the good work that has been done, Circular No. 11 has been issued by the Division of Botany at Ottawa, entitled "The Black Leg Disease of Potatoes caused by Bacillus solonisaprus," which can be had free on application to the Publications Branch of the Department of Agriculture. The author is Paul A. Murphy, B.A., A.R.C. Sc. I., Assistant in charge of the Plant Pathological Field Station for Prince Edward Island who was also responsible for the recently published circular on "Late Blight and Rot of Potatoes." "It is," says the Director of Experimental Farms, "with a view to making known to Canadian farmers the means of control found to be most efficacious, that the present circular has been prepared." Mr. Murphy states that the disease notwithstanding the diminution noted, in 1915 cost the Maritime Provinces the large sum of \$695,255. It is interesting to know that with early care and attention the disease in comparison is easily controlled. Mr. Murphy details the symptoms in clear, terse language, describes the life history of the casual organism, estimates the loss in the Maritime Provinces at \$6.65 per acre with average yield of 133 bushels, gives the methods of control and supplies notes on the preparation and use of the disinfectants that are suggested. Notification is also conveyed that further information, if desired, can be had on application to the Dominion Botanist, Central Experimental Farm, Ottawa.

**FIFTY horse-power SIX \$1450**

7 passenger

**Studebaker**

**Costs Less to Buy—Less to Run**

**THIS** new SERIES 17 Studebaker SIX at \$1450 has become celebrated as the SIX that gives more actual, tangible, visible value per dollar of its price than any other SIX cylinder car on the market. And it is the SUPREME value of the year.

No other Six within hundreds of dollars of its price gives the FULL 50 horse power, the roomy SEVEN-passenger capacity, the comfort-insuring 172-inch wheelbase, the 34x4 tires that this Studebaker offers at \$1450.

But not only does this new Studebaker cost less to BUY—it costs a great deal LESS TO RUN.

And the reason is simply that this car is the climax of a long and slow evolution of this one basic Studebaker design.

Result is a motor that gets every ounce of pull that there is in the gasoline—a chassis so perfectly balanced and aligned that it eliminates all the power-killing, tire-destroying sideways a car that is designed and built for Service with Economy.

It's a "Made in Canada" Car that surely is a wonder to drive, and we'd just like to have the opportunity of taking you for a trial run, anywhere you say, as long as you say, as HARD as you say. Come in today.

**PRETTY WEDDING AT KENTVILLE**

**Patterson-Hiltz**

A very pretty wedding was solemnized at the home of Mr. and Mrs. Joshua Hiltz, Kentville, Wednesday evening at seven o'clock, when their daughter Lillian Rae, became the bride of Mr. Wilfred Patterson, son of Mr. Henry Patterson of New York. The marriage ceremony was performed by Rev. T. C. Mellor, M. A., and Lohengrin's bridal chorus was well rendered by Mrs. Charles Cahollis, Pugwash, N. S.

The house was beautifully decorated with sweet peas and foliage, the bridal party standing under a floral arch with large bell of sweet peas. The bride given away by her father was most becomingly gowned in white satin. The bridal veil was arranged in cap effect and held in place by clusters of orange blossoms. A spray of orange blossoms adorned the corsage. She carried a beautiful shower bouquet of asters, sweet peas and maiden-hair fern. After the ceremony a dainty luncheon was served.

The gifts were many and beautiful including a gold pendant set with pearls and sapphires from the groom and many exquisite pieces of cut glass, silver, gold and cutlery. The bride's party followed by the best wishes of all left by auto for Wolfville, thence to Boston, where they will spend some weeks. The brides travelling suit was brown shade with hat to correspond.
