Going straight forward in the middle of the road. Keeping a good up-to-date store. Bringing in the Best New Merchandise at the lowest prices, and every week faithfully advising the public of exactly what we are doing.

CLEARAWAY—RIGHTAWAY!

Men's Suits and Overcoats

SUITS

We have just taken the whole stock in our Men's Suit department and divided it in four groups, one group of suits to sell at

\$15.00

THE OTHER THREE AT

\$27.00

\$33.00

\$42.00

The only difference between them is the difference in excellence. They are all of the best materials and workmanship in nice patterns and staple styles.

At \$15.00, \$27.00, \$33.00 and \$42.00 they represent savings from \$15.00 to \$35.00. There are, in fact, plenty of suits among them that not long ago were \$15.00, \$20.00, \$25.00 and \$35.00 higher than the new prices.

There are Fancy Suits as well as staple Blacks and Blues.

PLEASE TAKE NOTICE that the reason for this extraordinary reduction is we are about to take stock soon and we wish to convert the goods into cash.

OVERCOATS

We have placed all our Overcoats for this sale in one group regardless of cost at

\$19.50

At this price the savings are large, as many come away below cost. The reason for this is that we do not wish to carry any stock over to next season. Any man contemplating the purchase of a Suit or Overcoat should act at once. This Sale will be for a short period only, from

Fri., Jan. 21, to Wed., Jan. 26

ELECT W. H. TEED OF CHATHAM AS CO. SEC.-TREAS.

At the opening session of the Northumberland County Council held Tuesday afternoon, the first matter attended to was the election of a Secretary-Treasurer to succeed the late E. P. Williston. There were ten applicants as follows:

Stanley Simpson—Loggieville, T. H. Whelan—Newcastle, J. A. Creaghan—Newcastle, T. M. Callan—Chatham, Perley Quill—Williamstown, W. H. Teed—Chatham, John B. Willis—Newcastle, W. F. Comeau—Newcastle, Jerome A. Gallary—Rogersville, C. E. Fish—Newcastle.

It was first announced that the salary would be \$1200 per year, whereupon Messrs. Stanley J. Simpson and John B. Williston withdrew their applications.

The first ballot resulted as follows: Whelan 3, Creaghan 6, Gavnor 1, Callan 0, Teed 10, Comeau 0, Gallant 1, Fish 5.

After the first ballot was taken, Messrs. Gavnor, Quill, Comeau and Gallant dropped out.

The second ballot resulted as follows: Whelan 3, Creaghan 6, Teed 13 and Fish 5.

Messrs. Whelan and Fish then dropped out leaving Messrs. Teed and Creaghan in the final ballot.

The third and final ballot resulted as follows: Teed 14, Creaghan 11, and on motion of Councillor E. J. Farver, Mr. Teed's election was made unanimous.

Mr. Teed thanked the Council for his election, and stated that he realized that he had secured the position because of the fact that he was a "burnt soldier," and not through merits which he possessed over the other candidates.

Winter Weather Hard On Little Ones

Our Canadian winters are exceedingly hard on the health of little ones. The weather is often so severe that the mother cannot take the little one out for an airing. The consequence is that baby is confined to overheated, badly ventilated rooms; takes cold and becomes cross and peevish. Baby's Own Tablets should be given to keep the little one healthy. They are mild laxative which regulate the stomach and bowels and thus prevent colds. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

PASTORAL VISIT

Bishop Richardson of Fredericton made a pastoral visit here on Sunday. He preached in St. Andrew's church both morning and evening and in St. Mark's church in the afternoon.

MANAGER OF THE MIRAMICHI LUMBER CO., RETIRING FROM BUSINESS

Mr. Rundle, manager of the Miramichi Lumber Co., retiring from business, about eight years ago. Mr. Rundle was unmarried. He leaves one sister, Mrs. E. A. McMillan, Newcastle, and one brother James A. of Halifax, N. S. He was well-known in the Maritime Provinces and the United States and many friends will regret to hear of his passing.

MONA EILEEN CRAMMOND

The death of Mona Eileen Crammond, occurred at the home of her parents, Mr. and Mrs. Charles Crammond, Lower King Street, on Monday night, Jan. 17th, at the age of nine months. On Friday the child caught a heavy cold which quickly developed into bronchitis and resulted in her death. Deceased is survived by her parents, three sisters and one brother.

Mrs. Turner Studying Baby Hygiene

She Asks The Physician

"My dear Mrs. Turner" said the family physician, "I can only repeat what I have said so many times—that at only must we see to it that the child properly assimilates its food, but equally important, that the waste products are properly eliminated. Infant—or Child—hygiene plays an immense part as this day. The proper feeding of children is to say an exact science and it has brought with it the knowledge of how to keep the child's alimentary tract in the proper condition. Have you noticed how many physicians now specialize in children's diseases? Those men have at their command all the treatises on the maladies of infancy and childhood. Naturally they have the advantage over the general practitioner. But do you think the specialist has more success in treating the children than has the physician who brought them into the world; who day in and day out sees them, watches them and notices all their little individual peculiarities? The specialist comes in as an outsider and has to learn of the things. The family physician knows them."

"One of the best of physicians in this country puts the matter of the alimentary canal into a terse sentence—'Clean out, clean up and keep clean.' Surely that is true about the grownups is it not so in regard to children. The grown-up can think for themselves. But the baby? Ah! you get the point? Food that may suit one child may be absolutely unfit for another, the fecal matter, the tempting watermelon, the ever so desired green apple, these and many more cause the woes, which may be soothed by remedies that cannot be given to the infant or small child, such as Castor Oil, a most nauseating old fashioned remedy. Now, to tell you the truth, I very rarely give Castor Oil. For years and years, in my own family as well as in outside practice, I give Fletcher's Castoria and I know of scores of other physicians doing likewise. You ask why? Well I have had nearly thirty years' experience with it, that is why. Experience teaches. You, Mrs. Turner, are still young and have only your first baby to worry over and because his little stomach is out of kilter you are scared. Now, just do as I tell you. Give him Fletcher's Castoria as directed and you will find it at your boy will be very comfy."

"But Doctor" broke in Mrs. Turner, "are you sure there's nothing nutritious in Fletcher's Castoria?" "Why my dear Mrs. Turner, right on the wrapper of every bottle you will find the formula. And since you are of such an inquiring turn of mind, if you will some day come over to my office I will read to you what the text books say about those ingredients and explain it to you in every day lingo."

The doctor's candid talk convinced Mrs. Turner that Fletcher's Castoria was the remedy for her to keep in the house and any other mother who takes the trouble to ask her physician will receive the same advice.

The funeral was held Wednesday afternoon, interment in the Miramichi cemetery. Services were conducted by Rev. L. H. McLean.

"I suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. I refused. Then, I started taking 'Fruit-a-lives'; and from the outset, I felt better, and this medicine has completely relieved me of all my misery and suffering. My weight was only 143 pounds and now it is 168 pounds. I am free of pain and headaches and the terrible Constipation; and what saved me from misery is the splendid fruit medicine, 'Fruit-a-lives'."

Through the Kettle Valley

Southern British Columbia, with its placid lakes that mirror fruitful shores, the orchards of the Okanagan Valley, the Grand Forks Valley and a country, rich in mineral and forest wealth, are made accessible by the Kettle Valley railway which links a vast extent of British Columbia with the Pacific Coast through a route of rare scenic beauty. At the southern end are linked the Kootenay and Arrow lakes, the route offering all the charm of mountain, lake, river, cataract, ravine and soft and rounded landscape of cultivated slopes. Leaving the junction at Hope, you travel through nature's wonderland of snow-capped mountains with evidence of man's science in the Quintal Tunnels, a series of five tunnels in a direct line with the Coquihalla river, spanned by steel bridges, zigzagging between each of the tunnels. The rushing streams and innumerable waterfalls everywhere speak of the marvellous water power awaiting to be harnessed for man's needs. Winding up to the Coquihalla Summit, 3,300 feet above sea level, the line passes through the towns of Othello, L'arr, Jessica, Fortin, Izoo, Komeo, Juliet, following the Shakespearean tradition. Princeton, the next spot of interest was a renowned mining town of twenty years ago. It is located at the junction of two mountain streams, Similameen, meaning "Sweet Flowing Water," and Tulameen (Red Water). The Indian nomenclature, all its euphony, has been retained and native legends abound. The late Pauline Johnson, Indian poetess in her "Indian Legends" tells of "Red Water," Tulameen, said to be haunted by the spirit of an Indian maiden who gave her life for her lover. Coalmont Collieries are passed where a tunnel three-quarters of a mile into one seam, gives an almost inexhaustible supply of high grade coal. There are at least ten million tons of coal "blocked out" and ready for mining and shipment. The town of Jura is another interesting point, as the home of the famous old "Bill Miner," notorious

train robber who, as Bill Edwards, was known as a kindly citizen who studied his Bible. He was sent to British Columbia penitentiary in 1903, for twenty years, for holding up a train, and escaped in 1906. He was again heard of as a prisoner in Atlanta, Georgia, where he died in the State penitentiary. Skirting the orchard covered benches, the valley is unfolded where nestles the town of Pentiction at the foot of Okanagan Lake. Viewed from the hills, golden in the sunshine, it seemed the desired resort, shine, it is a resort desirable in summer and has proved as attractive in winter. Beyond Pentiction, the Kelowna Valley comes into view, with orchard covered slopes, giving a picture of settled prosperity. Ascending to the Kettle Summit, an altitude of 4,200 feet is reached, giving a vista of ravines, silvery streams and valleys packed with purple bloom. The Kettle river drains an area of 4,260 square miles and is 170 miles long. There is a considerable area of good bench lands, suitable for agriculture, while portions are heavily timbered and lumbering is an import industry. The total drive of one year on the Kettle and its tributaries, exceeded twenty million feet. —C. G.

long and faithful services, and of its deep regret as well, for his passing away from amongst us and for the loss which this Council and Municipality have sustained.

"Further resolved that this resolution be embodied in the minutes and published in the press, also that a copy of this resolution be typewritten and forwarded to the departed's family, with whom the members of this body deeply sympathize."

Coun. Parker in moving the resolution paid a tribute to the late Mr. Wilston, as did also Coun. L. Doyle and M. Ernsfeld.

On motion the council adjourned until 10 a. m. Wednesday.

Coun. E. J. Parker thought Assessors and collectors were paid enough.

Coun. Watling said the collectors had not asked for an increase, therefore why should they increase taxes. Let well enough alone. Every thing is coming down in price and he would oppose any increase.

Coun. Gaynor said that if amendment carried it rested with the Council whether an increase was granted or not. He thought it would work out very satisfactory.

Coun. Bransfield objected to any increase. They had cut the Secretary's salary and had not come to the council with the idea of increasing anybody's salary.

Coun. E. J. Parker moved an amendment to amendment that the matter remain as at present.

Coun. Sinclair did not think men would be got to work for the present allowance. The assessors of North Esk had resigned because they were not paid sufficient.

Coun. O'Donnell favored the increase to 15%. His parish (Ludlow) was very sparsely settled and the assessors and collectors had a lot of work to do. He favored the amendment.

Amendment to amendment lost. Amendment carried with following vote: Yeas—Couns. Sinclair, McKay, Somers, Sutherland, O'Donnell, Johnston, Gaynor, Allan, Walsh, Gill, Baldwin, Harriman, D. Yle, McKnight, Nays—Couns. E. J. Parker, Swim, T. Parker, Young, Schofield, Arsenault, LeBlanc, Watling, McNaughton, Gulliver, Bransfield, L. Doyle.

Coun. D. Doyle suggested that at the report of the Auditor that was brought in last session regarding a new set of books should now be adopted. It would be good business to hand over to the new Sec. a new set of books.

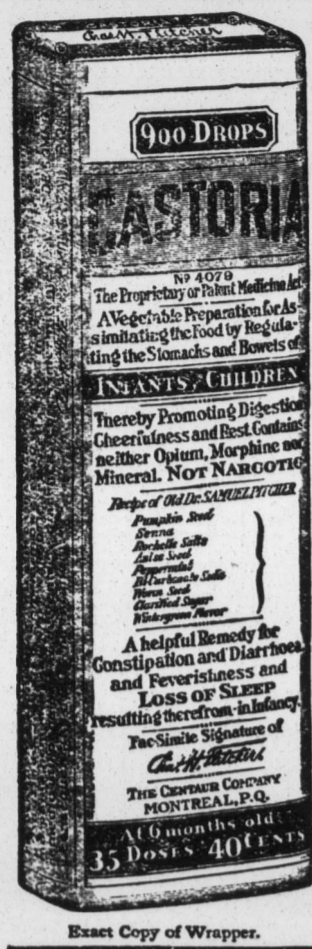

Coun. Swim agreed with Coun. Doyle and the matter was left over until Thursday.

On motion of Coun. E. J. Parker and Johnston a resolution was passed that all rates and taxes collected be remitted to the Secretary-Treasurer, who would then remit collector amount due him according to law.

Coun. O'Donnell spoke re pauper lunatics of Ludlow. There was during the past year an inmate charge to his parish, of which he knew nothing, except that she did not belong to his parish. On motion of Coun. E. J. Parker the matter was laid over until Thursday.

On motion of Coun. Parker a lengthy letter was read from the Collector of rates for Blissfield, as to reason no taxes had been collected in that Parish, after which, Mr. Henry Swim, the collector was heard. On motion of Coun. E. J. Parker, Dr. Melin of the Dept. of Public Health was heard. Dr. Melvin spoke at some length describing the work. (Continued on page 3)

ing out of the a. t.
In answer to Coun. Scholfield's
said sanitary inspectors were paid
from \$75 to \$300.00 per year, the
members of the board of health re-
ceive nothing except travelling ex-
penses.

Coun. Vanderbeck said he knew of
a case where a funeral had to be
postponed, as the doctor was out of
town and a burial permit could not
be obtained until his return.

Mr. Melvin said that this was ex-
actly a misapprehension. The port
of an official and not according to
law.

Coun. Vanderbeck—"Who is this
Dr. Abramson?" Is he a German?"
Mr. Melvin—"You let me ask D.
Abramson himself."

Coun. Vanderbeck—"Is he in charge
of the St. John Hospital?"

Mr. Melvin said Dr. Abramson was
assistant to Dr. Park in New York
City and his appointment to his pre-
sent position was due to his ability.

Coun. Vanderbeck said he had
heard Dr. Roberts speak when he
introduced the Health Act. He had
stated that he would do the work
free, but a first year had been paid
something like \$700.00 for travelling
expenses. The salaries last year of
officials of the Health Dept. were
something like \$21,000.00. He thought
that this Dept. should have its wages
clipped. It only cost between four
and six hundred dollars to run the
Board of Health before the new ac-
tion was adopted, now between five and
six thousand. The people of North-
umberland did not intend to pay the

Public Health bills.

Newcastle, N. B., January 19—
Northumberland Municipal Council
met at 10 a. m., warden Anderson
in the chair. Minutes of yesterday's
meeting read and approved.

On motion of Coun. E. J. Parker,
Coun. Pond, was excused from at-
tendance on account of illness, and
on motion of Coun. Watling he was
allowed his allowance.

Coun. Bransfield asked for the com-
mission allowed collectors of rates;
and urged that all collectors be al-
lowed the same rate on all taxes. At
present some collectors got 10% on
some rates and only 5% on Road
Taxes, while others got 10% for all
taxes.

Couns. Swin and T. Parker also
spoke along the same line.

Clerk of the Peace Whalen said the
law did not allow for any increase
in the percentage for collecting.

Coun. Gaylor urged a bonus to col-
lectors.

Coun. Swin said he did not think
that Council had any power to give
beyond a court set by Government,
but urged the passing of resolution
urging the Government to amend the
Municipalities Act allowing the Coun-
cil to pay more.

Coun. Bransfield said that if the
Government were slow passing
this amendment as they were others
that had been asked for by this coun-
cil would be 100 years before they
were passed.

Coun. L. Doyle urged that rates be
collected according to law if neces-
sary bonus the collectors.

Coun. Watling said that if the col-
lectors did not want to work for the
money paid them let them get out.
He is looking for the job of
collecting. The Government were
raising taxes fast enough without
the County doing so too. The De-
partment collections had 15%. Taxes
must be kept down. The County was
far enough in debt now. This must
be reduced and Council must keep on
reducing. There would be no pres-
ents if they could help it.

Coun. Bransfield urged a uniform
rate. It was not just or reasonable
to pay 5% per cent for one tax and
10% for another. One was asked to
collect as the other. If 10% was
too much cut it down, but give same
to all.

Coun. Sinclair urged asking the
Government to amend the law, the
rates were set by the Government
and Council could not help them. He
favoured a bonus if necessary.

Coun. E. J. Parker asked if collec-
tors could take his own law. He
thought it must be all handed in to the
Secretary-Treasurer and he paid col-
lectors.

Coun. D. Doyle—All monies should
be paid in to the Secretary and let
him pay collectors what are legally
due them.

Coun. Bransfield did not think this
fair, let collector keep some and
send balance to Secretary.

Coun. O'Donnell thought that the
collectors were entitled to bonus as
well as collectors. The work was not
properly done now as assessors were
too poorly paid.

Coun. L. Doyle moved the following
resolution: Resolved that the assess-
ing and collection of rates in the
County of Northumberland be carried
out according to the Act, and that
Councilors of the different parishes
(can give a gratuity, or bonus to the
collectors when the commission al-
lowed is not sufficient remuneration
for their services. Seconded by Coun.
McKnight.

On motion of Coun. Swin a time was
laid over until the afternoon ses-
sion, Council adjourned until 2 p. m.
Afternoon Session

Coun. O'Donnell did not think re-
solution should be passed, should
follow the law. If the law does not
provide sufficient remuneration let

The NEW EDISON "The Phonograph with a Soul"

What Edison did during the War

THE official announcement is out.
Ask us for your copy of "What
Edison Did During the War." Write
for it, if you can't call.

It tells how Edison left his home and
business and went to sea, how Edison's
"Yankee magic" foiled the German
submarines.

The bulletin tells many other things
Edison did while Chairman of the Naval
Consulting Board. It explains how
Edison kept the price of his phonograph
at bed rock during an era of high costs
and soaring prices. Since 1914 the New
Edison has advanced in price (in the
United States) less than 15%—and part
of this is war tax.

This bulletin also describes the Bud-
get Plan, which makes it possible for
every home to enjoy the benefits of good
music without feeling the financial
outlay.

ATTRACTIONS OF TWEED, ONT.

Canadians have grown more and
more appreciative of the richness
and variety of the different parts
of our Dominion. The Province
of Ontario, rich in scenic beauties,
historical setting and opportunities,
has parts that are distinctive—one
of which is Tweed, township of Hun-
gerford, county of Hastings. It has
attractions of lake, river, hills, cen-
tral location, sound business activity
from a farming and dairy country
and an adjacent district that is rich
in promise. The situation is a happy
one—just west in the rocky region
of Frontenac and Addington coun-
ties, and it retains enough of the
rugged along with many other scenic
attractions, to make it a desired
summer resort. Small islands dot
the lake, given the euphonious
name of "Stoco" by the early native
settlers, the Mohawk and Massasaga
Indians and around it is woven a
mint of Indian lore and woodland
vision. The winding and tree-clad
shore which varies from low, gently
sloping sandy beach to swiftly slop-
ing rocky line, presents every beauty
that attracts traveller and tourist.
Richard Woodcock settled in Tweed
in 1828, and from James Jamieson,
who at one time owned the vil-
lage site, Tweed received its name.
Born near the Tweed river in Scot-
land, the pioneer gave the name to
his Canadian home. A neighboring
river sings its picturesque way
through the town and its many
rapids and waterfalls present abun-
dant water-power.

arsenic is of great value to the Do-
minion. These deposits have been
thoroughly prospected during the
last year and have been pronounced
the largest in the world. The coun-
try is very suitable for mining de-
velopment as it is well supplied with
water-power and transportation
facilities. The only arsenic that is
produced in Canada at the present
time is that obtained as a by-pro-
duct from the Cobalt mines and is
being manufactured on a small scale
with practically all the output going
to American agents so that it is
difficult to buy Canadian arsenic
without going outside of Canada to
do so. Arsenic which was as high
as 14 cents per pound has an ab-
normal price which cannot be main-
tained if the new sources of supply
are developed and the serious short-
age in the world's supply is draw-
ing a good deal of attention to this
field in Eastern Ontario. The sup-
ply of arsenic in the United States
has been practically exhausted and
American manufacturers are anxious
to tap the mineral resources of Can-
ada in order to carry on their busi-
ness.

As to the uses of arsenic, there
has been remarkable development in
the last few years. It is a poison,
and its use as "Paris green" is well
known, but it has been found a life-
giver as well as a life-destroyer and
agricultural experts have realized
its potent and far-reaching possi-
bilities as a fertilizer. A journalist,
writing of the possibilities of de-
velopment of this ore in Eastern On-
tario states: "If North Hastings, the
land of rocks and shallow farms, can
supply a commodity of such value
to agriculture, it will be another
illustration of the wonderful pro-
vision of nature, and the strange
but happy irony of events; for the
barren places shall give new life to
the more fruitful regions of the
earth."—C. G.

Present, Mayor Doyle, Ald. Atkinson, Crocker, Dalton, Durick, Maltby and Wizek.

The bill of D. W. Stothart for \$10.23 was recommended by the Finance Committee for payment and was passed.

The following bills recommended for payment by the Public Works

C. m. were passed

R. H. Gremley \$2.00
Louns. Co. Ltd. \$6.80
H. A. Russell 29.25
G. M. Lake 23.75

The bill of D. W. Stothart for \$6.17 recommended for payment by the Police Com. was passed.

The Chairman of the Police Commission, after advertising they had received applications for the position of night policeman from the following: G. P. Ronan, L. Shier, H. Saunders, W. J. D. nn, Jas. Boudreau, Wm. Ashford, Edward W. L. Henry Copp and Isaac McDonald. As he had been unable to have a full meeting of the Committee, he was not in a position to present a unanimous

recommendation and suggested that the committee be given an extension of time. After discussion it was moved by Ald. Atkinson and seconded by Ald. Crocker that Lawrence Shier be appointed night policeman and watchman.

It was moved as an amendment by Ald. Durick seconded by Ald. Dalton that Edward Walsh be appointed to the position. A ballot was taken resulting in 3 for L. Shier and 3 for Edward Walsh, and the Mayor declared Edward Walsh elected night policeman and watchman.

The Park and Fire Com. recommended payment of Stothart Merc. Co. Ltd. bill for \$6.53 which was passed.

Lower Your Coal Bills

With A **'HECLA'** PIPELESS FURNACE

It will cost you less for coal to heat your whole house with this furnace than it will to try and heat it with stoves.

It will cost you less for coal with a "Hecla" Pipeless than with any other heating system!

The "Hecla" Firepot has three times the heat radiating surface of any other furnace because it is ribbed with flanges of steel. For that reason it gives quicker heat—and more heat.

Owners say that this exclusive "Hecla" feature applied to pipeless heating means wonderful fuel economy.

At today's price of coal you do not need to save many tons to pay for a "Hecla" Pipeless.

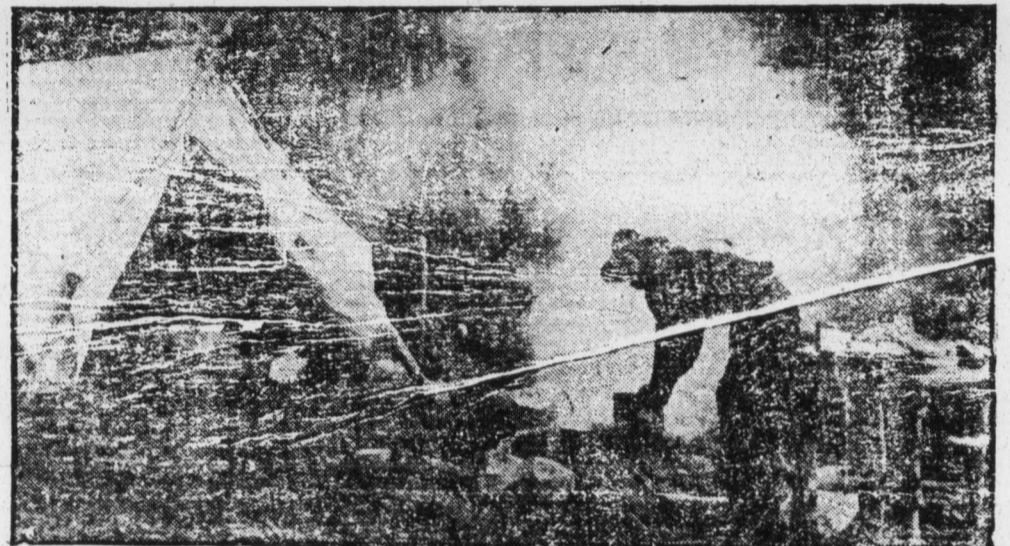

Patented Fused Joints are another superiority of the "Hecla" Pipeless. They are proof against leaks of gas and dust.

And in the "Hecla" Pipeless you get an extra big water-pan—that runs all around the furnace. Thus, every room in the house is supplied with air that contains a healthful degree of moisture.

It takes but a day to install a "Hecla" Pipeless. Our booklet "Buying Winter Comfort" describes all the other advantages fully—tells why it keeps the cellar cool for vegetables, why it heats every room properly, why we guarantee it absolutely. Write for it now. There's lots of zero weather ahead. Why not enjoy the comfort a "Hecla" Pipeless gives, and begin saving your coal bills now—this winter.

CANADA --- THE NEW SWITZERLAND

Where the Appetite is Always Keen.

Sections of the Alpine Club of Canada in all parts of the Dominion have received the anniversary message of the director, Arthur O. Wheeler, Interprovincial boundary survey commissioner for B.C. There is much in this document of special interest to members of the club, but there is also a great deal which affects the general public, since it looks forward to a greatly increased tide of summer travel into the fastnesses of the great hills.

The director's message opens with comments on the prosperous standing of the club and the success of the camp at Yoho Lake last summer. Thanks are also tendered to many who helped to make the camp successful. Mention is made of renewed photographic activities in the mountains and of the fact that the challenge cup for competition by amateur mountain photographers was won last summer by Dr. H. E. Bulyea of Edmonton.

With reference to the erection of a suitable memorial to the soldiers members of the Alpine club, the director says: "It is decided to do this on two separate lines, first to place a record of all our members of military service and particularly those who have joined the supreme honor roll on the club house grounds at Banff, and second, the erection of a hut above timber line at some serviceable place in the Canadian Rockies for the use of our members and possibly the public who are interested in making mountain climbs."

With reference to independent mountaineering during the past year mention is made of the first ascent of Mt. King George, and several other peaks of the Royal Group, lying in a hitherto unexplored district fifty miles southwest of Banff. Mt. Sir Douglas and Mt. Joffre were also climbed for the first time last summer.

After some comment on the Banff winter carnival, in which the Alpine club takes an active interest, having been donors of a challenge cup for hockey, the director takes up the matter of the forthcoming "Welcome Home" camp to be held at Mt. Assiniboine from July 20th to 31st, 1920. At this camp more than 300 people will be placed under canvas and the special feature will be the fact that all returned members will attend as guests of the club. The camp will be situated three days' journey from the railroad and transportation of baggage will be by a specially organized pack train known as the "Alpine club pack train." Of special interest to the general public is the fact that this pack train will be in operation throughout the summer, and anyone wishing to make a really interesting trip into the heart of the mountains can do so at minimum expense.

The camp at Mt. Assiniboine and the "Overnight Camp" on the way thither from Banff will be open to the public from the first of July until the end of September, except during

Mount Assiniboine, Canadian Pacific-Rockies.

the two weeks when they will be occupied by members of the Alpine club. At any time during the summer walking tours may be taken to Mount Assiniboine and these camps will be open to furnish good meals and a bed to the tramp at the end of his day's journey. There is only one way to really see the mountain and that is on foot, but so far this pleasure has been confined to the very few, on account of the difficulty of carrying food and bedding. There difficulties are now to be removed and it is planned in coming years to arrange many such walking and riding tours for the benefit of the public.

In conclusion the director quotes the verses of a gifted Calgary poetess, Miss Marian J. Moodie: Oh wind that comes out of the West, the land of the sunset skies, Where far o'er you mountain's crest those glorious colors, You bring me the fragrance of the coolness of mountain snow, The music of falling streams by the hills where the lilies grow.

Oh wind that comes out of the West, you sigh on your way to the plain, The mountain range is the best, Will you not come back again? Glow away with your golden light, How softly wind from the hill, You bring me the fragrance of the coolness of mountain snow, The music of falling streams by the hills where the lilies grow.

The Business Stabilizer

A year or two ago the manufacturer was swamped with business. Today his orders are being cancelled, his prices are dropping, his mills--in many cases--shutting down.

What is the trouble? Uncertainty. Unsteady markets. Lack of confidence on the part of buyers. Lack of courage in the man who sells.

Business is shaky. But business can be made good. Business can **always** be good when it is gone after in the right way.

It needs courage. And confidence. And vision. It needs, above all else, the great business stabilizer--

ADVERTISING.

Advertising that restores public confidence. Advertising that creates demand, increases production, and keeps the wheels humming. Advertising that steadies markets. Advertising that **Stabilizes.**

For the past few years advertising has often been used as a spectacular plaything. Today it is a grim necessity. The time to splurge has passed. The time to use it sanely, steadily, consistently has come.

Advertise. But advertise wisely--where expense is minimized; where business can be developed to the highest point of activity.

FORESTS OF CANADA ARE SOURCE OF RICH REVENUE

LOG BOOM ON A NEW BRUNSWICK RIVER

B.C. WOODS

BRINGING IN THE BIG CEDARS

Canada's 225 million acres of merchantable timber is the second largest asset of her natural resources wealth. The bulk of this timber is within easy reach of seawater. Nova Scotia, New Brunswick and British Columbia can almost dump their logs in the ocean, while Quebec and Ontario have the St. Lawrence River for a path to the sea.

In 1908 the greater part of Canadian lumber exports went out in the raw state, only a little over one-third was manufactured in Canada. The next ten years saw a strong and continued increase in industrial development and by 1917 the tables had quite turned. In that year more than 70% of Canada's lumber exports were manufactured and less than one-third left the country in a raw state.

Ever increasing demand for pulp-wood and paper is responsible in large measure for this rapid development. American imports of Canadian woodpulp (all kinds) for four months, ending July 31st, 1920, amounted to \$20,859,841. According to latest statistics Canada's available supply of pulpwood is 961,000,000 cords and covers 350,000 square miles. Over a third of this spruce and balsam stands in the eastern provinces, convenient to the eastern states with their many newspapers and publishing houses. It is estimated that, at the present rate of cutting, this supply will hold out for 63 years. Strict cutting regulations, wise conservation and reforestation plans are looked to to prevent the annihilation of Canadian forests and lumbering industries.

British Columbia's woods are attracting much foreign capital. American money is going into new pulp and paper mills on the Pacific Coast. Approximately 85% of all capital invested in the paper pulp industry in Canada is American. An English syndicate is building a \$150,000 furniture factory in British Columbia. Box factories flourish all over the province the small fruits, vegetable, honey and poultry ranches of the southern part of the province need countless crates and boxes for getting their produce to market. British Columbia's strategic situation for shipping to Pacific Coast ports and the Orient, its numerous good harbors and the fact that the climate permits all the year round lumbering have not been overlooked by capital seeking investment.

district Board of Health, showing a deficit of \$6,258.55, total expenditures since its inception, and estimates for 1920, of \$6,900.00.

Coun. Brasfield did not think the Council should have anything to do with the matter. The law had been forced on the county and the residents were not satisfied with it. The present local members were elected to take this law amended. Other counties had voted it down let us do likewise. It was worse than slavery for the Government to appoint a lot of men, and the say for the county to pay them.

Coun. Sinclair and Schofield moved that no action be taken.

Coun. Sutherland said he had voted for the measure last time, not because he was made deputy registrar, which office he received no pay and had resigned, but because he believed that there should be a Board of Health.

Coun. Gaylor asked for the law on the subject if the council refused to pass the estimates, and make an assessment.

Clerk of the Peace said all present knew the law.

Coun. Brasfield said it was the

intention to have the Public Health law repealed. Why should the Government appoint the Board and have control of the officers instead of the county?

Coun. D. Doyle said that as it was the law of the country, the government could collect. It was poor policy to take no action. The council have power to appoint the majority of the county.

Coun. E. J. Parker and Watling moved to pass a resolution of the Government. The Government had made the new act. Let them run it or let it alone.

Coun. Gaylor moved that a vote be taken on the estimates and the bills for the past work of the board. Amendment lost.

Coun. Allain did not think that Councilors understood the law. It was the council's fault that they did not have control of the Board. Why should we refuse to take no action on it. If we did not like the law as the government to amend it so that we can be satisfied Coun. Sinclair's motion was carried by following vote.

Couns. Sinclair, McKay, Somers, Vanderbeck, O'Donnell, Swim, E. J. Walker, Young, Schofield, Watling, McNaughton, Gulliver, Brasfield, Baldwin, Harriman, L. Doyle, Yeates.

18. Coun. Sutherland, T. Parker, Johnston, Gaylor, Arsenault, LeBlanc, Walsh, Gil, D. Doyle,plain Mc-Knight, Nays 11.

Coun. Johnston and D. Doyle moved that an additional grant of \$1000 be made both the Miramichi and the Hotel Dieu Hospitals.

Coun. E. J. Parker did not think the county was in a position to vote any extra money to the hospital.

Coun. Sinclair favored the grant. It was only \$500 more than last year.

Coun. D. Doyle thought the hospitals were very deserving. The council could not vote money in a better way.

Coun. Watling said he sympathized with the hospitals, but could not see his way to vote the extra money. He knew they needed money badly.

Coun. Vanderbeck was strongly in sympathy with the grant, as were also Couns. Swim, McKnight and Gaylor.

Coun. Brasfield moved that the grant be the same as last year. Amendment lost and original motion carried.

On motion of Coun. Arsenault a grant of \$1000 was made the Acadian for translating and publishing Council proceedings.

A resolution instructing the assessors of Blissett list for 1920 was lost.

Coun. Watling moved that \$297.50 paid by Fabien Muzzerall, a resident of Glenelg, for pedlers license be refunded. Referred to Petition Committee.

On motion of Coun. Swim, Blissett Parish officers passed.

Coun. Young presented a petition of Patrick Kihne for refund of taxes overpaid, referred to Petitions Committee.

On motion of Coun. McKnight the Council concurred in the passing of a resolution enabling the Province to pay more for scholars in Halifax school for the blind.

When read communication re establishing a labor bureau in Newcastle and on motion was laid on the table.

Coun. Brasfield spoke re commission to collect rs. Provided the Government passed law as set for by this council he would move that assessors be paid 3% and collectors 2%. Motion lost.

Coun. Watling asked what had been done with the \$500 voted the natural History society last year.

Coun. Gaylor said he would enquire and report tomorrow.

County Council Annual Meeting

(Continued from page 3)

On motion same was referred to the committee on Petitions.

On motion of D. Doyle a committee of five were appointed to fix a remuneration for the revisors of votes. Warden named Couns. L. Doyle, E. J. Parker, R. J. Gill, D. V. Allain and Alfred Sinclair the committee.

On motion of Coun. Sinclair the affidavit of Perley Quail for five sheep killed by dogs was referred to the Dog Tax Committee.

Coun. McNaughton said that some of the parishes had not collected any dog tax, yet were sending in bills for sheep killed by dogs.

Coun. Sinclair said North Esk had sent in \$114.00 last year for dog tax and had not one cent had been paid out as yet.

On motion of Coun. Allain, affidavit of F. H. McKnight for two sheep killed by dogs was referred to Dog Tax Committee.

On motion of Coun. Walsh, parish clerk's account, Nelson, for 16.00 passed.

Coun. Watling read a petition from residents of Genselg asking exemption of taxes of mills of Messrs. Dixon Bros. Center Napan, and moved it be handed to Committee on Petitions. He spoke very strongly in favor of the exemption.

Clerk of the Peace Whalen said that the Council had not the power to grant exemption and thought the petition out of order to which they thought that as the legal advisor had said county had not power to act, that it better be handed to Mr. Vandenberg and let him present it to the local house.

Coun. Swim said that the recommendation of this council was necessary before the Government could act. He urged that it be handed to Petition Committee. Couns. Gaynor and Watling likewise.

Coun. E. J. Parker thought it was a wrong idea to attempt any industries. If you exempt one this year next year fifty or sixty will be here looking for exemption.

Warden said he understood that the petition was asking the council to do something that it had no power to do and legal adviser had said so too.

Motion to refer to Petition committee carried.

Couns. Simers moved affidavit of Mr. Charles Mutch for six sheep killed by dogs be referred to Dog Tax Committee.

The Horse Still Thrives

Motor power has largely invaded the province of the horse, but the animal still lives and thrives and still has its widespread usefulness. The great war had its devastating influence on the horse and also developed the value of machinery in its place. But experience has proven that there are still many uses to which the horse can be better applied than motor or steam power. When trains came in the horse was to disappear. When the trolley was adapted to public service, a crippling blow was dealt the horse. When the bicycle became a furore the horse became an object for scorn. When the automobile and, later, the tractor appeared the horse was to vanish, but he maintained his ground. His numbers are not decreasing to any notable extent while his quality has ever an upward trend. Breeding stations are being established and every effort is being made to maintain breed type. Saskatchewan's success in winning championships at the recent International Stock Show in Chicago is an evidence of the marked success that has been met with in Canada. But the West is not alone in the march of horse improvement and development. Than the French-Canadian horse there is probably no breed that is more hardy of agriculturally useful. The French-Canadian Horse Breeders' Association has long been in affiliation for record purposes with the National Live Stock Record Board at Ottawa, and in the last two years that Association has turned over to the Dominion Department of Agriculture for twenty years a farm of five hundred acres at St. Joachim, Que., to be mainly used for the breeding of its particular type of horse. There are at present 67 French-Canadian horses on the farm, all registered. Entries were made at some of the more prominent fall fairs in Quebec and in each instance first prizes and championships were won. The December number of The Agricultural Gazette of Canada gives full details of the work that is being done at the recently acquired French-Canadian horse breeding farm.

HIS CHOSEN CORPS

Rejected because of his height, the would be recruit angrily pointed out that he was as tall as the late Lord Roberts. "But he was a Field Marshal," observed the doctor. "Them's the gents I want to join," retorted the candidate.—London Daily News.

And God is God, my darling,
Of night as well as of day,
And we feel and know that we can go
Wherever He leads the way.
Aye! God of the night, my darling—
Of the night of death so grim!
And the gate that from life leads out
good wife,
Is the gate that leads to Him!

JAMES H. DUNN HONORED BY KING

A London despatch published by the morning papers announced that James H. Dunn, a Nova Scotian, "well known throughout Canada for his connection with a number of important financial deals," had been made a Baron.

No doubt the James H. Dunn referred to is a widely known New Brunswicker, son of the late Robert H. and Eliza (Joudry) Dunn, who was born at St. Peter's Village, Gloucester Co. on October 29, 1875. Educated at Bathurst and Dalhousie, Halifax, young Dunn went to Montreal, became a member of the bar, being associated for some time with J. N. Greenshields, K. C., and finally joined the Montreal Stock Exchange. He made money, and finally went to London where he became a leading banker and broker, and head of the firm of Dunn Fisher & Company. He acquired great wealth, and owns one of the finest collections of horses in Great Britain. Before leaving Canada Mr. Dunn married Miss Gertrude Price, daughter of J. Price lumber merchant, Quebec.

It will be remembered that Mr. Dunn built a hospital at Bathurst, which is named after him, and that he gave \$25,000 to Dalhousie University.

Chateau de Ramezay One of Montreal's Historic Relics

The burning of the sands of time alone can give the proper perspective and value to historic buildings. Sometimes spring up to preserve these relics of the past.
Perhaps the most famous of these monuments of the past in Canada is the Chateau de Ramezay in Montreal, which has remained almost unaltered since the days of the old French regime. It was built in 1795 by Monsieur Claude de Ramezay, eleven's governor of Montreal. Here he kept open house with his wife whose hand was the reward of his gallant sortie with 800 men in aid of Quebec in 1690, when the Count de Frontenac, governor of Canada, fended off the English fleet of Sir William Phips.
The Chateau stands in what was once the fashionable part of old Montreal, amid mansions and gardens that merged into the neighboring forests. To-day the homes of Montreal have forsaken the busy waterfront and climb their charming

gardens still clinging to them, up the slopes of Mount Royal.
From the days of de Ramezay the Chateau has been the scene of many historic assemblies. Its roof sheltered not only the governor-generals, their suites of fair women and brave men and their illustrious guests, but fur traders, scouts, militia leaders, and Indians.
In 1745 it passed into the hands of the Campagnie des Indes and as India House became the centre of a great fur trade, filling this picturesque and important role for nearly twenty years.
In 1763, after the cession of Canada, it was again the residence of the governor, and invitations to receptions held there during the following century are still in existence.
The Chateau was headquarters for the army of the Continental Congress in its fruitless effort to hold Canada for the thirteen colonies. After Benedict Arnold failed in his treason he retired to Montreal and

stayed there for a time. Benjamin Franklin lived in the Chateau when he visited Montreal in 1776 in his effort to persuade the French Canadians to join the new nation to the south, but his was a vain hope. During his stay there he established the Montreal "Gazette," which is still running. Needless to say, he did not found this paper for the purpose of propaganda.
After 1849, the Chateau was for thirty-five years used for government offices. When the government removed to Ottawa, the city presented the Chateau to the Numismatic and Antiquarian Society for a museum, and as such it is unique. Its collection contains all sorts of things ranging from crude home-made utensils fashioned by the clumsy hands of frontier habitants to portraits done by world-renowned artists. One of the most precious things among the thousands catalogued in the Loutsbourge bell, hung in the church there in 1784.

Advertising A Public Necessity.

WHEN goods are scarce and prices high, people are more appreciative than ever of the right kind of advertising.

They are seeking information. They want to know how to buy to the best advantage.

They want to know how to fill their needs and avoid waste. They welcome news of desirable substitutes for the things the country needs to conserve.

They read the newspapers carefully.

The dry goods merchant, grocer, jeweller, or manufacturer who does not advertise is not only missing the purely selfish opportunity, but he is failing in the service he owes to his customers.

IS VERY PICTURE OF HEALTH NOW

St. John Man Says Wife is Like a Different Woman Since She Began Taking Tanlac

"A little more than a month ago my wife didn't have the strength to stay on her feet an hour at a time, but to day she can do her housework with ease and is the very picture of health," said Harold Moses, 73 Erin Street, St. John, N. B.

"I guess my wife has gone through about as much suffering as any woman ever did," he said. It just looked like she couldn't stay out of bed, she was so weak and run down. Lots of mornings she got up and I thought she was feeling better, but in a little while she would have to go back to bed again.

"She ate very little, all she usually took was a piece of bread and a glass of milk. She said she never felt hungry and that anything else made her sick. She suffered dreadfully from gas and pains in the stomach and side. Whenever she tried to do any of the housework it would exhaust her so that she would have to give up.

"That's exactly the way she suffered before she began taking Tanlac, but to day she looks like a different person and says she is feeling better than she has in years. Her appetite is just fine and she can eat anything and it never gives her a sign of trouble. Gas has stopped forming and those pains have all gone and she sleeps as sound as any child I ever saw. She is never troubled in any way whatever and has gained so much in weight and strength that she is now doing her own housework.

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Doaktown by O. Hildebrand.

RECENT CHANGES
On the recommendation of Chief Inspector J. B. Hawthorne, various changes have been made in the sub-inspectorial staff in various parts of the province. Adam Dickson and James Dickson of Chatham have been replaced, and Harry Martin of Newcastle has resigned. Those appointed in their places are G. Perley Stewart and Joseph P. Manderson for Northumberland county, and Alfred Quartermain at Chatham. Joshua P. Gamm of Bath has been appointed senior officer for Restigouche, Gloucester and Northumberland.

Joseph Favoie of St. Quentin has been reappointed a vendor, and W. L. Lunick of Newcastle has also been appointed a vendor.

Catarrrhal Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Drug-gists, 75c.

The one hundred sixty second anniversary of Robert Burns will be commemorated tonight in St. James' Hall. An appropriate programme has been arranged and those attending will be assured of an enjoyable evening. Refreshments will be served without extra charge.

EXHIBITION GRANTS
Hon. D. W. Mercer an, minister of agriculture, has announced that the Fredericton and Chatham fairs have been officially designated as the two provincial exhibitions in New Brunswick in 1921 and that the annual grant of \$10,000 would be divided equally between them. Grants to other exhibitions will be made at the discretion of the minister.

HOCKEY
A game of Hockey was played last Friday evening in the Rink between Sunny Brae and Newcastle. The visitors won by a score of 5 to 3. A large number were present at the game and some ast work was performed by both teams.

TOM MIX IS COMING
IN A NEW SENSATION
The lure of the western plains, peopled by men and women whose daring thrills and inspires; such is the spirit that, according to those who have viewed the picture, surges through the Fox production, "Desert Love," scheduled for the Happy Hour Theatre next Thursday.

The story is etched against a background of Arizona's desert and wilderness, and the characters—like the hero and the villain—are such as known to compromise with man or nature. Fig is the Eldorado.
The lead is taken by Tom Mix, famous for his daredevil stunts on and off the screen. He enacts the role of a high-minded son of his plains, known familiarly as "One-Quarter Apache," who is determined to wipe out a gang of rustlers who have been preying on the country for many years. The first whose charms captivate the heart and imagination of Tom Mix is "Desert Love" is played by Francis Billington. The delightful Eva Novak fills an evocative role in the new play. Others in the cast are Lester C. Coe, Charles K. French and Jack Curtis. The direction is by Jacqui's Jacca d.

Pale, Wan Cheeks Indicate Anaemia
New Health Can be Obtained by Enriching the Blood

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and dainties no not tempt her appetite, you may be certain that she needs more good blood than her system is provided with. Before long her pallid cheeks, frequent headaches, breathlessness and heart palpitation will confirm that she is anaemic. Many mothers, as the result of their own girlhood experience, can promptly detect the early signs of anaemia and the wise mother does not wait for the trouble to develop further, but at once gives her daughter a course with Dr. Williams' Pink Pills, which renews the blood supply and banishes anaemia before it has obtained a hold on the system.

Among the many who have benefited by the use of these pills is Miss Doro Kerr R.R. No. 4-Warton, Ont., who says: "For a long time I had been feeling tired and worn out. I was troubled with headache and backache, and would wake up in the morning feeling tired and depressed. I had to walk a considerable distance going to and from school and would feel so tired that it seemed I could not go another step. About this time a lady doctor came to the school, to examine the children, and she told me I badly needed a tonic to build me up. Dr. Williams' Pink Pills had been used in our home before this and I began to take them. I can only say that they have greatly helped me. I no longer suffer from the headaches or backaches and I now wake up in the morning feeling rested and refreshed. If ever in need of a tonic again, I shall lose no time in taking Dr. Williams' Pink Pills."

You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co. Brockville, Ont.

Get two of your neighbors to give you only ONE DOLLAR each for a year's trial subscription to "MY CANADA" (regular price Two Dollars per year), and send in the money with your three guesses. Each subscriber is also allowed three guesses! Will you risk an hour of your time to win THREE HUNDRED DOLLARS? Come! "GO GET IT!"

"MY CANADA" will be published monthly. It lives to help you and Canada to better things. It goes without saying that the more readers we have the better this National periodical will be. This is not only true commercially, but we feel that every additional reader means so much added moral support.

Your guess must be in by FEBRUARY 28th 1921. As the old adage would say, obey that impulse—obey it now! Help us by this means to reinforce our convictions as to the future and the present in Canada, and of leading the way to better things for you, and yours, and us. Address your guess and send subscription to the publishers, "MY CANADA," Suites 314-5 Stair Bldg., Toronto.

The Usefulness of a Hot Water Bottle

To choose a hot water bottle from our large stock of quality rubber goods is to be assured of the greatest usefulness and satisfaction. Our hot water bottles are sold to you under a reliable guarantee, and we hold an agreement with the manufacturer to take back any piece of rubber goods imperfect before a reasonable time has elapsed. Our hot water bottles hold their shape, and retain their pliability. There's value in every one, because there's quality.
