RECIPROCITY OR RESTRICTION?

(Extract from Sir John Macdonald's opening speech in the campaign of 1891, delivered at the Academy of Music, Toronto, on Feb. 21.) "It has been said in the Opposition press that we have been rather changing our views. As Sir Charles Tupper has explained, we have been consistent with regard to all questions relating to the fiscal policy and the development of trade and the industries of Canada. We have never varied. Our policy is quite consistent with the desire to extend our trade to all nations of the earth, including our neighbors across the border.

"DISHING" ITS FRIENDS.

The Montreal Star has made the alarming discovery that some American manufacturers are planning an invasion of Canada. Certain enterprising firms in the Republic, the Star learns, are increasing their selling staffs and preparing to send travellers across the line as soon as the reciprocity agreement goes into force. The Star, of course, looks upon this much the same as it would look upon the mobilization of a foreign army coming to devastate the country and slaughter its people; and duly warns the protected gentlemen and their employees among whom it circulates that they had best prepare for the worst if the Canadian people endorse the proposed reductions in the duty against United States goods.

RECIPROCITY OR REMITTANCES?

The secretary of the United States Protectionist League announces in New York that his league will supply no more funds for the anti-reciprocity campaign in Canada. Reciprocity, he says, is sure to win, and being a prudent man he will not throw money away. If his friends in Canada had a chance of winning it would be different. But, having made up his mind that they are beaten he does not propose to throw good money after bad when the only result it could have would be to lessen the severity of their defeat.

W. H. SHARPE, CONSERVATIVE MEMBER FOR LISGAR, MAN.

Let me for a moment direct the attention of the minister to the combines existing in Western Canada. In the lit-

henceforth. Past benefits will not suffice for future needs, and the future need is likely to be considerable. The suspicion may not, however, be altogether justified. It may be that Mr. Wakeham is a more generous soul than he wants the public to think, that his threat to cut off the remittances is only intended for popular consumption, and that he really intends to send along the cash as usual. It has been pretty well established for some time that the opponents of the agreement in Canada were drawing assistance of substantial kind from its enemies in the Republic. The spread of this impression was not doing the Antis here any good; for some way it did not seem to establish the sincerity of those who claimed to be fighting annexation to have it known that their expense money was being put up by people in the country they profess to be afraid of.

GETTING IN?

The despatches tell us that some C.P.R. officials are to take a hand in the fight against reciprocity. They are, it is reported, to come west on an expedition of some kind or other, and are to quietly circulate among the vast army of employees of the company the idea that the company would be exceedingly pleased and duly grateful if its employees would kindly vote against reciprocity candidates. There is much in the history of the company to give credence to the report. Some officials of the company have not been in the habit of allowing the employees to go without a hint as to how the welfare of the country would be best promoted in the marking of their ballots.

tle town of Mowbray in 1908, the elevators handled over 300,000 bushels of wheat, but last spring a spur railway was built across the line into North Dakota and an elevator erected there, with the result that last year instead of handling 300,000 bushels on the Canadian side there were only 100,000 bushels handled, while the United States elevator handled 300,000 bushels. Our farmers took their grain across the line and shipped it in bond back into Canada to lake ports, and by pursuing this course they received from 13 to 14 cents a bushel more for their grain than if they had dealt in Canada. Let me tell the Minister of Agriculture also that whereas in the province of Manitoba along the boundary line the land is worth only \$20 or \$25 and in some cases \$30 an acre; right across on the American side on account of the better treatment which is accorded the farmers in North Dakota, the land is worth from \$40 to \$50 an acre.

QUESTIONS FOR HUGH JOHN

Winnipeg Free Press.—Hugh John Macdonald, having repeated at the Conservative nomination in Winnipeg his father's declaration, "A British subject I was born," "Citizenship I will die," with application to the present political situation, the Free Press invites him to answer these questions: In what respect, if any, does the reciprocity agreement now before the electors of Canada, exceed the standing offer of reciprocity which Sir John A. Macdonald made to the United States in 1879, and which was still on the statute book on the day of his death?

Sir William is Sir William; and among the officials of the C.P.R., Sir William has considerable influence. Unless all signs fail therefore we shall have a repetition of what has taken place in elections in times past; the circulation among the employees of the idea that if they can see their way clear to vote against reciprocity the company will be tremendously obliged and duly mindful; and when election day comes round every reciprocity trainman will find every anti-reciprocity trainman will be excused from a run which would take him away from home during the polling period.

RECIPROCITY OR RESTRICTION?

When Parliament was dissolved in 1891, Sir John Thompson, Minister of Justice in Sir John Macdonald's Government, issued this address to the electors of Antigonish: "At the election which will take place on the 5th day of March, I will be a candidate for re-election as a member of the House of Commons for the County of Antigonish. "The Government, of which I am a member, is appealing to the country with a policy which we believe will be heartily endorsed by a great majority of the electors. We have made to the Government of the United States, through the Government of Great Britain, proposals for reciprocity in trade, which we have good reason to believe will result in an arrangement by which the markets of the United States will be reopened to the products which our people desire most to send there.

A SAMPLE FROM QUEBEC.

Ottawa Free Press.—The English-speaking electors of Canada can have no idea of the sort of campaign which is being waged by the Conservatives and their Nationalist allies in Quebec unless they are told of it by the newspapers. Here is a sample from the editorial columns of L'Evenement, the chief opposition paper of the city of Quebec, which is understood to be owned or controlled by the good Conservative Senator Landry: "The cry of Sir Wilfrid Laurier of 'When England is at war Canada is at war'; and that of Mr. Fielding, 'Our fleet will have to take part in all the wars of the Empire, just and unjust,' have become axioms of the Imperialists which tomorrow would be effective against us if no solution were found to the serious dispute between Germany and France."

GREAT HEAR

Premier Sifton and Hon. Arthur Borden. Great Pitch of an Excellent Electors. "I firmly believe that it is a measure that is in the interests of the entire people of this nation for I could not support it. For the first time since the city question has been before the electors of Alberta, Hon. Arthur Borden, premier of the province of Alberta, has taken part in a political meeting in Sherbrooke on Monday night, and despite the rumors that were circulating that he had not been invited to attend, he was present and took part in a long and interesting speech which drew applause from the audience. He was followed by Hon. Sifton, who also took part in the discussion, and in the afternoon Hon. Sifton and Hon. Borden were in the city for a short time. Hon. Sifton is expected to be in the city again on Wednesday next. Hon. Borden is expected to be in the city again on Thursday next. The meeting was held at the Hotel Windsor, and was attended by a large number of the city's leading citizens. The speeches were well received, and the audience was very attentive. Hon. Sifton's speech was particularly interesting, and he was loudly applauded. Hon. Borden's speech was also well received, and he was also loudly applauded. The meeting was a success, and it was a pleasure to see the two premiers of the province together again. It was also a pleasure to see Hon. Sifton and Hon. Borden so interested in the city's affairs. We are sure that the city's interests will be well represented in the coming session of the Legislature. We are sure that the two premiers will be able to do much for the city, and we are sure that the city's interests will be well represented in the coming session of the Legislature. We are sure that the two premiers will be able to do much for the city, and we are sure that the city's interests will be well represented in the coming session of the Legislature.

GREAT MEETING IN CALGARY HEARS SIFTON AND MARSHALL

Premier Sifton and Hon. Duncan Marshall Arouse Audience of Four Thousand People to Great Pitch of Enthusiasm by Advocacy of Reciprocity. Candidate Van Wart Makes an Excellent Impression by His Plain and Straightforward Appeal to the Electors for Support. Hon. Duncan Marshall's Address Referred to as One of the Finest Ever Delivered in Calgary.

Free Press: The English-Canadian... The tariff commission plank in the Conservative platform was also criticized by Mr. Marshall, who said that it was getting back to the true Tory autocracy, and taking away the duties of responsible government.

"I firmly believe that the reciprocity pact is a measure that is in the interests of the entire people of the Dominion and I could not support it." For the first time since the reciprocity question has been before the electors, the Premier of the province of which he was formerly chief justice, addressed a political meeting in Sherman's auditorium on Monday night in Calgary.

As he spoke the words which showed where he stands on this question which both Liberals and Conservatives admit means so much to the West, the roar of applause which greeted them showed that he had only voiced the sentiments of the sea of electors, who crowded the galleries, filled the aisles, and extended in series rows almost to the back of the huge auditorium.

Although the meeting was scheduled for eight o'clock, it was half an hour after that time before it commenced but the enthusiasm of the crowd was in nowise dampened by the wait, and finally Dr. Egbert walked down the centre aisle, followed by Sheriff Van Wart, Premier Sifton and Hon. Duncan Marshall, a roar of applause greeted them as they entered the hall.

But once over the most enthusiastic had calmed down, although all through the meeting the mention of Sir Wilfrid Laurier's name was enough to send the cheers echoing to the roof and the speeches of Mr. Sifton, Mr. Van Wart and Mr. Marshall were all punctuated with outbursts of spontaneous applause, which caused the speakers to pause time and again until they could again be heard.

Mr. Marshall's address was a masterpiece of plain and straightforward appeal to the electors for support. He referred to as one of the finest ever delivered in Calgary. He said that he was not a politician, but a farmer, and that he was not interested in the politics of the day, but in the welfare of the people.

## LYDD GEORGE IS ATTACKED

Socialist Member Accuses Government of Siding With Directors.

London, Aug. 22.—There was a lively passage between James Kier Hardie, the Socialist leader, and David Lloyd George, chancellor of the exchequer, during the session. Mr. Hardie accused the government of taking the side of the railway directors in the strike and said if the government had brought the same pressure to bear on the directors as it had on the men there would have been no strike. He declared vehemently that the men who had been shot down by troops "were murdered in the interests of the capitalist system." As protest against the conduct of the government, he moved an amendment to the motion for adjournment that the House of Commons should on August 23 instead of October 24.

Lloyd George replied that the great indignation had been put out but that there were still considerable fires here and there in the country which at any moment might burst into flames. He declared he knew nothing more likely to bring about such a disaster, and perhaps cause the men to break away what their future they claimed was a triumph for them, "such grossly inaccurate statements" as had been made by Mr. Hardie. The chancellor said there was "not a syllable of truth" in the allegations of Mr. Hardie that the government had sided with the railway directors.

Mr. Lloyd George then referred to a speech by Mr. Hardie in which he said the Socialist leader had "put out a big meeting that the Premier was prepared to shoot down every striker." The chancellor "stigmatized this charge as baseless."

Mr. Hardie's amendment was defeated by a vote of 93 to 133. Tom Ramsey, M.C., chairman of the Labor party who took a prominent part in the negotiations for settlement was optimistic and told the house that if the spirit shown on both sides during the course of negotiations prevented the future relations of the country had heard the last of railway strikes in his day. However, he was unable to resist making a heated denunciation of the Secretary Churchill and the employment of soldiers during the strike. He declared the department which he had paid the diabolic part during the whole unrest was the home office by Mr. Churchill's handling of the situation which he said were "mischievous and inaccurate."

## PRICELESS PAINTING STOLEN FROM LOUVRE

Paris, Aug. 22.—One of the most sensational robberies in years occurred at the Louvre today when the world-famous painting of the Mona Lisa of Leonardo Ds Vinci was stolen from the wall. It was taken shortly after noon. As the officers searched the gallery, little attention was paid to the picture until it was noticed that the gallery was empty and the frame were gone. At 3 o'clock the prefect of police closed the Louvre and a thorough search was begun.

The portrait named La Joconde, called Mona Lisa is the portrait of Maddona Lisa, Zel Cleoandis, is one of the world's famous paintings and is held in the highest esteem. It is the most costly picture in the world. The most striking characteristic is the Spin-like smile. Davanor's model was the wife of Francesco Del Giocondo, a Florentine. She is shown seated in a low chair on the left arm of which she is resting.

**EASTERN FARMERS HERE.** A party of prosperous farmers from the Eastern states of the United States are looking over the country in the Edmonton district for several days, and this morning a number of them called at the Board of Trade and had an extended talk with Secretary Fisher. Without exception members of the party were enthusiastic about the country and its agricultural possibilities. Included in the party are John C. Frey, of Lafayette, Indiana, O. A. Carr, St. Lawrence; E. J. Means, F. B. Clark, Henry Roimann, Bert Owens, H. Ludke, E. G. Courtree, H. W. Peterson, David Wilson, B. K. Kramer, P. W. Heaz, Charles Clark, T. G. Saxton, A. H. Stiles, C. M. Finkle, George Ritter, Mr. McCreneau, G. H. Lonker, C. W. Slinger, E. J. Courtree, C. F. Gray, Judge Kelsey, with and daughters. They were brought here by the International Realty Co. of Oshkosh, Wis., with branches in other States and in England.

One of the party said he had traveled practically all over the world and he had never seen as fine a territory as this. He expected to invest heavily in farm lands. "Alberta soil produces the biggest and best hay ever seen here and I have heard of," said a visitor at the Edmonton Board of Trade rooms this morning. He recently arrived here from the east and has been investigating conditions in the country surrounding the capital. The remark was occasioned by the receipt of a bunch of timothy from the station, grown on the farm of W. W. Wagner, two miles east of Edmonton, and was a good sample of what can be raised in this section of the territory. The timothy measured six feet, two inches in height, and was well matured. It was said that this hay took first prize at the recent fair.

## McGILICUDDY IS NOW UNDER TORY AUSPICES

Will Appear on Same Platform With Hon. Geo. E. Foster in Toronto Suburb—Ontario People Denounce Black-mailing Campaign Against Hon. Frank Oliver.

Bulletin Special.  
Toronto, Ont., Aug. 23.—Even in Toronto it was deemed audacious after the embarrassing reciprocity demonstration at the Borden meeting in Berlin, to guard the doors of Massey Hall, where the Conservative meeting tonight was held, by Hon. G. E. Foster, accompanied by W. T. White, manager of the National Trust Co., together with the eighteen Toronto financiers who signed the anti-reciprocity manifesto.

A front page article in the Toronto Globe demanded in view of Hon. Geo. E. Foster's record in the Union Trust Co. and the verdict of the Toronto jury thereon that his present position as Mr. Borden and the Conservative party, Mr. Foster, in his speech, avoided all reference to the question, while Mr. Borden sought to track it up, by suggesting that if the electors of North Toronto vindicated Mr. Foster his resignation would be a compliment to the Conservative party.

Mr. Borden also avoided reference to demands to know the character of his resignation, and Mr. Foster, who said he had not received more significant for what it did not contain than what it did contain. He contented himself with re-voicing and flag-waving and got a good reception from the Tory audience.

**Deserting the Sinking Ship.**  
The hopeless character of the anti-reciprocity campaign in the rural districts is being strikingly emphasized by the difficulties the Conservatives experienced in securing and keeping in Ontario, following the retirement of Mr. Groves, in South Wellington, yesterday, Mr. Baileiff has thrown up the sponge in Meagway, where he found the contest hopeless. South Simcoe Conservative farmers have nominated Thomas Hammell to oppose Haughton Lennox, the regular Conservative nominee and transferred his allegiance to the Liberal camp.

At a great meeting held by the members of the Ontario Independent Conservative fruit growers and farmers union, who were advertised to run as a Borden-Bourassa candidate in St. James division, refused the nomination and transferred his allegiance to the Liberal camp. Mr. Hammell, who is a prominent farmer, decided to run in response to a large deputa-tion of farmers who waited on him today. The Liberals will hold a meeting at a later date to name a candidate for reciprocity, although a Conservative, runs as an out-and-out supporter of reciprocity.

A split has also occurred among the Lincoln Conservatives, where E. A. Lancaiser, another obstructionist, is the candidate. A feud has arisen between Lancaiser and Jesse, the member of the Ontario legislature, and the Conservative fruit growers and farmers urge the nomination of an Independent Conservative to support reciprocity. In West Hamilton the members of the Ontario Independent Conservative, to oppose J. W. Stewart, the regular nominee, who represented the riding in the last parliament.

Mr. McGillicuddy will have warm time. Daniel McGillicuddy has announced he will hold a meeting under the auspices of the Centre Tory Conservatives at Humber on Monday night. He declares his intention to deal with the allegations against the Premier, and says he will be supported by the W. M. C. of Edmonton. It is significant that McGillicuddy is speaking under Conservative anti-reciprocity auspices, and it is announced that Hon. Geo. E. Foster will also be on the platform. The fact that the same man who is a champion of the ultra-Tory cause in the United States and reciprocity candidate in Edmonton, and Daniel McGillicuddy as a Conservative and anti-reciprocity stumper in Ontario, is a commentary on the political positions of the Ontario Tories, and the character of the attack McGillicuddy is making on Hon. Frank Oliver and charges of blackmail are openly made. There is a likelihood of a stormy meeting when McGillicuddy takes the Tory platform.

## Reciprocity Without Enemies in West as Business Proposition

Peels Deeply on Question.  
Winnipeg, Aug. 23.—Hon. W. R. Motherwell, Minister of Agriculture in Saskatchewan, passed through Winnipeg last night on his way from England. He plunged at once into a discussion of reciprocity. He explained that the minister felt deeply on the subject and that he deemed the impending political struggle one of the greatest significance. The future of the West depends on the result of the fight. Presenting one interesting phase of question in a novel way, the minister said:

"At the present time every thoughtful man in Western Canada is wondering over the progress of the reciprocity movement. It is a question which troubles is apt to occur at this season of the year. A sudden drop in temperature for a single night would mean the loss of a vast sum of money, with consequent suffering on the part of a large number of people who are dependent on this cause every year and we may always have such losses in these provinces."

**Means Higher Prices in Bad Years.**  
"Now, what I wish to say with reference to this danger and loss from frost is that we are going to see these as well as those as well as drought or hail, are entirely above and beyond our control. There is nothing that can be done to prevent them. Here, however, is the chance of securing a market for our products in the United States, which in past years has meant an increase in the price of wheat, often of fifteen cents a bushel, and is entirely in our hands. It is up to us to say at the present time whether we are going to avail ourselves of this opportunity or to depend on the market for our produce. We are going to deal with it as we will. The question is whether we are going to be deluded by any means into a decision which will cause our farmers to suffer this loss for another quarter of a century."

**Question of Loyalty.**  
Speaking of the question of Canadian loyalty to the Empire, as related to closer trade relations with the States, the minister was ever more vigorous and explicit in his statements.

This question of loyalty to the Empire appears to have been made by the Conservatives, the central plank in their platform. It is a question which is being raised by the minister to the matter or to dignify the allegations of the Conservatives. The statement is to the effect that if we begin to sell our butter and eggs to the Americans, our loyalty to the Mother country will be strained by the breaking point. What we say in reply to this is that we are going to sell our export stuff in the highest market, whether that market be Liverpool or Duluth. We are going to do business on business principles. We are going to get the best markets that we can for our people and their produce. If we can get a better price in the United States, we are going to sell there. The question of our loyalty to Great Britain does not enter into the case.

**Canada's Loyalty Not to Be Doubtful.**  
"No one doubts the loyalty of the Canadian people to the Mother country, and the relationship which has existed for the past years will continue to exist. If the Conservatives feel that their loyalty to the Mother country will not stand the stress of trade with the Americans, they can sell their produce in Liverpool. We do not trade as nations but as individuals, and there is nothing to prevent the Conservatives from following their inclinations in this matter. As for the believers in reciprocity, we believe that the only way to continue our pleasant relations with the Mother country is to do what is fair and right in these business relations, and it is preposterous to think that when there is offered to the western farmers the opportunity to sell their products in the United States they are going to refuse the offer. If the question is settled fairly on its merits, without reference to party spirit, party bias and party prejudice, there would not be a single Conservative elected from the Prairie Provinces. As it is I think that if they get three they will be lucky. I wish you would say that I am going to Saskatchewan to fight for this agreement until the polls close on September 21."

## Great Meeting in Calgary Hears Sifton and Marshall

Protestant reciprocity suddenly the situation has changed. The Liberal government is a government that does not restrict trade and freedom of railroad development. It is a government that gives to the people assistance when they require assistance. And now, let me state the final reason why I support this government, and it is a reason that will appeal to every man and woman in this great audience and to the unborn generation of four millions whom I hope to live to see in this province. It is this that Sir Wilfrid Laurier is the first Federal statesman to recognize the fact that the prairie provinces should be on an equal footing with the other provinces of this Dominion, and the natural resources should be handed over to the people of this province as the case in British Columbia and has been for many years. I am not going to deny you, ladies and gentlemen, that the change will bring to those provinces; I am only going to state the fact that when this is done—as it will be done—it places Alberta forever upon a sound financial basis for all time to come. You know, gentlemen, that though we have an income which at the time it was granted seemed reasonable and sufficient, it is an amount that will not grow in proportion to the growth of the people of this country, and it is necessary both from a practical standpoint as well as from a sentimental standpoint that we be placed upon a footing that will make us equal in our privileges to the other provinces of the Dominion. This change is within measurable distance and we hope to see it in the life-time of the present local government, placing our province in a sound position and bringing large benefits to all the people of Alberta. When this is accomplished I will be satisfied and you will be satisfied with the work done.

**A Plea for Support.**  
And now, ladies and gentlemen, I would ask you to give us the assistance of your candidate in the great work of the Liberal government of this country. He is a man who has been here for twenty years and struggled with those who were here in those days to make a living. I am pleased to know that every man now has the opportunity to make good. He has an opportunity now to assist upon these broad prairies in building up a nation. I appreciate the possibilities that are open to every one, educated or uneducated, school teacher or farmer, lawyer or doctor, and I believe that there are no greater opportunities anywhere than are open to all by the grace and assistance of the government of this country. I have no doubt that your member will go forth from this province to parliament on the 21st of September to help carry on the great progressive work of the Liberal party in the government of this country, and to help make this province the banner province of the Dominion, exhibiting its loyalty to the Empire of Great Britain.

**"FIGHTING JOE" TALKS WILDLY AT WINNIPEG**  
Winnipeg, Aug. 22.—Fighting Joe Martin, M.P., for East St. Pancras in England, and erstwhile attorney-general of Manitoba and of British Columbia, announced in an interview that while he favored reciprocity strongly he would oppose it on principle because it happened to be the Laurier government which was advocating it. Martin is going west to work against the Liberal nominee in Vancouver.

**Sir Wilfrid Laurier in the Past.**  
"Sir Wilfrid Laurier in the past ten or twelve years has given Canada the best government in the world," was the keynote sentence, starting from this base he launched into a vigorous attack on the present government.

"I have been condemning the conditions that politics have fallen into under this administration for some time, and while I find that some of my friends who have joined with me in this condemnation are supporting Sir Wilfrid Laurier on account of reciprocity, I find myself quite unable to join them."

**AUTHOR WOULD GET DIVORCE**  
Upton Sinclair's Blames Young Poet for Marital Troubles  
New York, Aug. 23.—Upton Sinclair the author issued a statement tonight saying as soon as he can get in touch with his lawyer and have the necessary legal papers drawn it is his purpose to institute a suit for divorce against his wife. He says he will name as co-respondent a young western poet, who recently was a visitor at the Sinclair summer home at Arden, Delaware. Mr. Sinclair married Mel Fuller, eleven years ago.

**Winnipeg, Aug. 22.—The Liberals will hold their first demonstration in the Walker theatre Monday next.** The chief speakers will be Premier Walter Scott of Saskatchewan, J. H. Ashdown, Liberal candidate, and R. L. Richardson, who was formerly member for Lisgar.

**GATES LEAVES \$30,000,000.**  
American Millionaire Divides His Estate Equally Between His Wife and His Son.  
New York, Aug. 23.—John W. Gates left an estate valued at from \$30,000,000 to \$40,000,000, according to former Justice Henry A. Glider, who drew up Mr. Gates' will. The bulk of the estate is left to his widow and son, Charles G. Gates, equally, according to Mr. Glider's version. There is a clause which provides that one half of the property can be sold within ten years, it is said, unless one of the heirs died in the meantime. The beneficiaries for the will also include relatives, friends and former employees, the total amount of whose legacies aggregated about \$1,000,000 and the bequests ranging from \$100,000 to \$200,000.

**Sir Wilfrid Laurier's Home.**  
Sorel, Que., Aug. 23.—Sir Wilfrid Laurier at his meeting here yesterday, made it quite clear that the Liberal candidate, Arthur Cardin, had the individual support of the government. Five thousand people attended the meeting, which was marked by great enthusiasm. The Prime Minister being frequently cheered.

**Hon. Rodolphe Lemieux outlined the programme he would follow as a candidate for reciprocity and naval affairs.** "He would deepen the St. Lawrence channel to 35 feet and improve the light and buoy service. He aimed at making Montreal the 'New York of Canada,' and the outfit to be formed of the whole of the American continent."

**Sir Wilfrid alluded to Canada's prosperity and the reason why Canada.**

## Home Made Syrup Mapleline

For one-half the cost, it is made by dissolving White Sugar in Water and adding a little of this Mapleline Syrup. The popular flav. it also flav. for Frostings, Candies, etc. Grocers sell Mapleline Syrup in 50 cent and 50 cent bottles. CHESEBROUGH MFG. CO. Seattle, Wash.

## THE FINANCIAL AND COMMERCIAL

EDMONTON CITY MARKET  
Edmonton, Aug. 23.—There were no big fluctuations in the market during the past week. The grain market was quiet, although a few weak spots were noted. Wheat continues to hold firm, but prices have been somewhat depressed by the fact that the export market is not so active as it was some time ago. The stock market is also quiet, and the general feeling is one of conservatism.

**Winnipeg Grain Market.**  
Winnipeg, Aug. 26.—No more noticeable on the day than it has been since. The weather bulletin from the local office showed that severe frosts had a mean temperature 30 degrees. When it is taken into account that these figures are given in the towns and that country could be six or seven degrees colder, the situation exceedingly ominous. Several advices were received and it is estimated that a few miles out of town no less than eight degrees of frost was reported. Frost was also reported from Hillsboro and points. To make matters worse seemed to give him a new trial. "I suffered intensely all day, but no more noticeable on the day than it has been since. The weather bulletin from the local office showed that severe frosts had a mean temperature 30 degrees. When it is taken into account that these figures are given in the towns and that country could be six or seven degrees colder, the situation exceedingly ominous. Several advices were received and it is estimated that a few miles out of town no less than eight degrees of frost was reported. Frost was also reported from Hillsboro and points. To make matters worse seemed to give him a new trial."

COMPANIES INCORPORATED WITH \$9,415,000 CAPITAL

A. N. Smith, Dolcy. Clovelly S. D., \$800, treas. A. J. W. Scott, Mannville.

Capital Coming to Canada.

The growing interest in Canada, combined with the steady fall of consuls on the last four or five years and the tendency to favor working classes at the expense of the middle and upper classes, which has tended to unsettle financial conditions in England, these factors together with the extra-ordinary growth of British Canada are resulting in the withdrawal of large sums of investment in English enterprises for re-investment in Canada where more profitable class legislation and the exploitation of socialist theories is less likely to be found in England at the present time.
