A DRURY URSA

A Lady Deserved and Abandoned by Her Worthless Husband.

From the Winnipeg Times.

A case of bestiality, cruelty has been perpetrated in this city. Some years ago a young lady, intelligent, accomplished and well bred was employed as a governess in the family of an English church clergyman in Kent, England. The name of this clergyman was Parker, and he had a worthless scamp of a son. This young fellow succeeded in winning the affection of the governess and a marriage between them took place. Young Parker after his marriage neglected his wife who led to support herself. Passing her examination she ultimately became the head of a ladies' collegiate institution in England. Early last winter her husband turned up and insisted upon her accompanying him to this country. She remonstrated, desiring of remaining where she was, but he compelled her to abandon her position in the college and to accompany him to this country. A decided tendency to drink existed. It began a series of insecurity in all parties engaged in trade and commerce, and is especially objectionable because it makes and provides for summarily attaching an insolvent or absconding debtor's estate and placing it under the control of the creditors. Suggestions from other boards of trade and commercial men will be invited, so as to secure a perfect measure.

Providing for a Possible Epidemic.

At the meeting of the city council last night Mayor Rossell said he had been called upon yesterday by Mr. W. H. Howland and requested to execute the lease drawn up by the city solicitor and ratified by the council, transferring the property near the rail on which the small hospital stands to Mr. Howland and others for the purposes of an industrial farm. The mayor said that until suitable notice had been refused to execute the lease. He had declined to do so because the matter was not in the hands of the city council. The matter will receive further attention at the next meeting of the council.

What the Ancient Freemasons Say.

The first Masonic hall in the world was erected in Philadelphia in 1754. We believe the last one will be erected in Toronto.

A correspondent estimates that \$12,000 will be paid for a site and build a modest hall on Yonge or Queen streets.

A correspondent says that the report of the committee on benevolence shows that the total sum spent by the Toronto benevolent board last year was \$2000. Yet when the board chairman preached on St. John's day he stated that over \$4000 was expended. Who stuffed him? Was he fed with a spoon and was it deliberately done to mislead the craft?

Comic Opera at the Zoo.

The Zoo again opened last night. The Mascotte was produced by the Holman opera company in capital style. All of the comic points in the opera were brought out with nice effect and the audience appeared well pleased. The Mascotte will be on to-night and to-morrow. On Thursday night a complimentary benefit will be tendered the Toronto telegraphers, on which occasion a special bill will be presented.

Immigrant Arrivals for July.

During July 1879 immigrants landed in Toronto. They were almost entirely farm servants and laborers, with a few prospecting farmers. The following is their nationalities: English 859, Irish 594, Scotland 116, Canada 150, Bohemian 10, Icelandic 60. Of these 1346 remained in Ontario, having for the most part received employment as farm and railroad hands, 633 went to the United States, and 25 to the western states.

A Crank at the Island.

The Bookings gave their interesting exhibition at Hurlan's point yesterday afternoon. A slight disturbance occurred owing to some fellow jumping into the water, challenging Beckwith to fight and Miss Beckwith to swim. It was a matter of surprise that a policeman did not put an end to this unseemly interruption. The crowd called on Miss Beckwith to duck him and it is a pity she did not respond to the openly expressed suggestion.

An Island Furze-Snatcher.

Joseph Gleeson, who gave his age as 27 and his residence in Whitby, made a desperate attempt last evening to wrest from Mrs. Johnston of No. 12 Carlton street, her sack containing \$150. The thief was over at the Island, when Gleeson passed her by and made the attempt as above. The lady was not much in for him, however, and she gamely held on to the sack. The would-be thief was secured and brought over to No. 1 police station.

"The Positive Cure."

Devil's Apeurient Anti-billions mixture for billionsness, sick headache, constipation, etc.

Editors' Entries.

There are two houses in Portland which have not been entered by burglars this season. One is empty and the other is inhabited by an editor. N. B.: Burglars are afraid of editors.

"Oh! Yes," said the western editor, "business is very brisk out our way. Have to work press twenty-four hours a day to supply the demand, and as for advertisers—well, I give orders last week to kick them out if they asked for over ten lines. By the way, I just had my pocket picked. Lead me a dime, will you?"

When the editor proposed and was accepted, he held his breath: "I'm glad to be glad if you gave me a kiss," then observing her blush he added, "not necessarily for publication, but as a guarantee of good faith." She could not resist that.

A North Carolina editor, who has just returned from his vacation, says: "Well, we have come back to the tariff and all that, but our hearts are up in the mountains." It is a sad case—especially if the girl up in the mountains does not respond to it; but we don't suppose his readers are interested in his love affairs.

A young lady at a watering place paralyzed a great editor when he said to him: "You're a swell!" "Oh, I know you are here for me!" "You're coming here to get items for your paper?"
