An Israeli and a Palestinian official posted at the exit of the Palestinian Wing will verify and collect the cards. Annex III

PROTOCOL CONCERNING LEGAL MATTERS

Article I

Criminal Jurisdiction

1. The criminal jurisdiction of the Palestinian Authority covers all offenses committed in the areas under its territorial jurisdiction (hereinafter, for the purposes of this Annex, "the Territory") subject to the provisions of this Article.
2. Israel has sole criminal jurisdiction over the following offenses:
 - a. offenses committed in the Settlements and the Military Installation Area subject to the provisions of this Annex; and
 - b. offenses committed in the Territory by Israelis.
3. In exercising their criminal jurisdiction, each side shall have the power, *inter alia*, to investigate, arrest, bring to trial and punish offenders.
4. In addition, and without derogating from the territorial jurisdiction of the Palestinian Authority, Israel has the power to arrest and to keep in custody individuals suspected of having committed offenses which fall within Israeli criminal jurisdiction as noted in paragraphs 2 and 7 of this Article, who are present in the Territory, in the following cases:
 - a. The individual is an Israeli, in accordance with Article II of this Annex; or

with Annex I, and is arrested in the vicinity in which the offense was committed. The arrest shall be with a view to transferring the suspect, together with all evidence, to the Palestinian Police at the earliest opportunity.

- (2) In the event that such an individual is suspected of having committed an offense against Israel or Israelis, and there is a need for further legal proceedings with respect to that individual, Israel may retain him or her in custody and the question of the appropriate forum for prosecuting such a suspect shall be dealt with by the Legal Committee on a case-by-case basis.

Article I

FRAMEWORK AND SCOPE OF THIS PROTOCOL

1. This protocol establishes the contractual agreement that will govern the economic relations between the two sides and will cover the West Bank and the Gaza Strip during the interim period. The implementation will be according to the stages envisaged in the Declaration of Principles on Interim Self Government Arrangements signed in Washington D.C. on September 13, 1993 and the Agreed Minutes thereto. It will therefore begin in the Gaza Strip and the Jericho Area and at a later stage will also apply to the rest of the West Bank, according to the provisions of the Interim Agreement and to any other agreed arrangements between the two sides.
2. This Protocol, including its Appendixes, will be incorporated into the Agreement on the Gaza Strip and the Jericho Area (in this Protocol - the Agreement), will be an integral part thereof and interpreted accordingly. This paragraph refers solely to the Gaza Strip and the Jericho Area.
3. This Protocol will come into force upon the signing of the Agreement.
4. For the purpose of this Protocol, the term "Areas" means the areas under the jurisdiction of the Palestinian Authority, according to the provisions of the Agreement regarding territorial jurisdiction.
The Palestinian jurisdiction in the subsequent agreements could cover areas, spheres or functions according to the Interim Agreement. Therefore, for the purpose of this Protocol, whenever applied, the term "Areas" shall be interpreted to mean functions and spheres also, as the case may be, with the necessary adjustments.

Article II

THE JOINT ECONOMIC COMMITTEE

1. Both parties will establish a Palestinian-Israeli Joint Economic Committee (hereinafter- the JEC) to follow up the implementation of this Protocol and to decide on problems related to it that may arise from time to time. Each side may request the review of any issue related to this Agreement by the JEC.
2. The JEC will serve as the continuing committee for economic co-operation envisaged in Annex III of the Declaration of Principles.
3. The JEC will consist of an equal number of members from each side and may establish sub-committees as it deems necessary, in addition to the sub-committees specified in this Protocol.
A sub-committee may include experts as necessary.
4. The JEC and its sub-committees shall reach their decisions by agreement and shall determine their rules of procedure and operation, including the frequency and place or places of their meetings.

Article III

IMPORT TAXES AND IMPORT POLICY

1. The import and customs policies of both sides will be according to the principles and arrangements detailed in this Article.
2. a. The Palestinian Authority will have all powers and responsibilities in the sphere of import and customs policy and procedures with regard to the following:
 - (1) Goods on List A1, attached hereto as Appendix I, locally-produced in Jordan and in Egypt particularly and in the other Arab countries, which the Palestinians will be able to import in quantities agreed upon by the two sides up to the Palestinian market needs as estimated according to para 3 below.
 - (2) Goods on List A2, attached hereto as Appendix II, from the Arab, Islamic and other countries, which the Palestinians will be able to import in quantities agreed upon by the two sides up to the Palestinian market needs as estimated according to para 3 below.
- b. The import policy of the Palestinian Authority for Lists A1 and A2 will include independently determining and changing from time to time the rates of customs, purchase tax, levies, excises and other charges, the regulation of licensing requirements and procedures and of standard requirements. The valuation for custom purposes will be based upon the GATT 1994 agreement as of the date it will be introduced in Israel, and until then - on the Brussels Definition of Valuation (BDV) system. The classification of goods will be based on the principles of "the Harmonized Commodity Description and Coding System". Concerning imports referred to in Article VII of this Protocol (Agriculture), the provisions of that Article will apply.
3. For the purposes of para 2(a) above, the Palestinian market needs for 1994 will be estimated by a sub-committee of experts. These estimates will be based on the best available data regarding past consumption, production, investment and external trade of the Areas. The sub-committee will submit its estimate within three months from the signing of the Agreement. These estimates will be reviewed and updated every six months by the sub-committee, on the basis of the best data available regarding the latest period for which relevant data are available, taking into consideration all relevant economic and social indicators.
Pending an agreement on the Palestinian market needs, the previous period's estimates adjusted for population growth and rise in per-capita GNP in the previous period, will serve as provisional estimates

4. The Palestinian Authority will have all powers and responsibilities to independently determine and change from time to time the rates of customs, purchase taxes, levies, excises and other charges on the goods on List B, attached hereto as Appendix III, of basic food items and other goods for the Palestinian economic development program, imported by the Palestinians to the Areas.
5.
 - a. With respect to all goods not specified in Lists A1, A2 and B, and with respect to quantities exceeding those determined in accordance with paras 2(a) & 3 above (hereinafter - the Quantities), the Israeli rates of customs, purchase tax, levies, excises and other charges, prevailing at the date of signing of the Agreement, as changed from time to time, shall serve as the minimum basis for the Palestinian Authority. The Palestinian Authority may decide on any upward changes in the rates on these goods and exceeding quantities when imported by the Palestinians to the Areas.
 - b. With respect to all goods not specified in Lists A1 and A2, and with respect to quantities exceeding the Quantities, Israel and the Palestinian Authority will employ for all imports the same system of importation, as stipulated in para 10 below, including inter alia standards, licensing, country of origin, valuation for customs purposes etc.
6. Each side will notify the other side immediately of changes made in rates and in other matters of import policy, regulations and procedures, determined by it within its respective powers and responsibilities as detailed in this Article. With regard to changes which do not require immediate application upon decision, there will be a process of advance notifications and mutual consultations which will take into consideration all aspects and economic implications.
7. The Palestinian Authority will levy VAT at one rate on both locally produced goods and services and on imports by the Palestinians (whether covered by the three Lists mentioned above or not), and may fix it at the level of 15% to 16%.
8. Goods imported from Jordan, Egypt and other Arab countries according to para 2(a)(1) above (List A1) will comply with rules of origin agreed upon by a joint sub-committee within three months of the date of the signing of the Agreement. Pending an agreement, goods will be considered to have been "locally produced" in any of those countries if they conform with all the following:
 - a.
 - (i) They have been wholly grown, produced, or manufactured in that country, or have been substantially transformed there into new or different goods, having a new name, character, or use, distinct from the goods or materials from which they were so transformed;
 - (ii) They have been imported directly from the said country;
 - (iii) The value or the costs of the materials produced in that country, plus the direct processing costs in it, do not fall short of 30 percent of the export value of the goods. This rate may be reviewed by the joint committee mentioned

(iv) The goods are accompanied by an internationally recognized certificate of origin;

(v) No goods will be deemed as substantially new or different goods, and no material will be eligible for inclusion as domestic content, by virtue of having merely undergone simple combining or packaging, or dilution with water or other substances, which do not materially alter the characteristics of the said goods.

9. Each side will issue import licences to its own importers, subject to the principles of this Article and will be responsible for the implementation of the licensing requirements and procedures prevailing at the time of the issuance of the licenses. Mutual arrangements will be made for the exchange of information relevant to licensing matters.
10. Except for the goods on Lists A1 and A2 and their Quantities - in which the Palestinian Authority has all powers and responsibilities, both sides will maintain the same import policy (except for rates of import taxes and other charges for goods in List B) and regulations including classification, valuation and other customs procedures, which are based on the principles governing international codes, and the same policies of import licensing and of standards for imported goods, all as applied by Israel with respect to its importation. Israel may from time to time introduce changes in any of the above, provided that changes in standard requirements will not constitute a non-tariff barrier and will be based on considerations of health, safety and the protection of the environment in conformity with Article 2.2. of the Agreement on Technical Barriers to trade of the Final Act of the Uruguay Round of Trade Negotiations. Israel will give the Palestinian Authority prior notice of any such changes, and the provisions of para 6 above will apply.
11. a. The Palestinian Authority will determine its own rates of customs and purchase tax on motor vehicles imported as such, to be registered with the Palestinian Authority. The vehicle standards will be those applied at the date of the signing of the Agreement as changed according to para 10 above. However, the Palestinian Authority may request, through the sub-committee on transportation, that in special cases different standards will apply. Used motor vehicles will be imported only if they are passenger cars or dual-purpose passenger cars of a model of no more than three years prior to the importation year. The sub-committee on transportation will determine the procedures for testing and confirming that such used cars comply with the standards' requirements for that model year. The issue of importing commercial vehicles of a model prior to the importation year will be discussed in the joint sub-committee mentioned in para 16 below.
- b. Each side may determine the terms and conditions for the transfer of motor vehicles registered in the other side to the ownership or use of a resident of its own side, including the payment of the difference of import taxes, if any, and the vehicle having been tested and found compatible with the standards required at that time by its own registration administration, and may prohibit transfer of vehicles.

- 12. a. Jordanian standards, as specified in the attached Appendix I, will be acceptable in importing petroleum products into the Areas, once they meet the average of the standards existing in the European Union countries, or the USA standards, which parameters have been set at the values prescribed for the geographical conditions of Israel, the Gaza Strip and the West Bank.

Cases of petroleum products which do not meet these specifications will be referred to a joint experts' committee for a suitable solution. The committee may mutually decide to accept different standards for the importation of gasoline which meet the Jordanian standards even though, in some of their parameters, they do not meet the European Community or USA standards. The committee will give its decision within six months.

Pending the committee's decision, and for not longer than six months of the signing of the Agreement, the Palestinian Authority may import to the Areas, gasoline for the Palestinian market in the Areas, according to the needs of this market, provided that:

- (1) this gasoline is marked in a distinctive colour to differentiate it from the gasoline marketed in Israel ; and
- (2) the Palestinian Authority will take all the necessary steps to ensure that this gasoline is not marketed in Israel.

- b. The difference in the final price of gasoline to consumers in Israel and to consumers in the Areas, will not exceed 15% of the official final consumer price in Israel. The Palestinian Authority has the right to determine the prices of petroleum products, other than gasoline, for consumption in the Areas .

- c. If Egyptian gasoline standards will comply with the conditions of sub-para (a) above, the importation of Egyptian gasoline will also be allowed.

- 13. In addition to the points of exit and entry designated according to the Article regarding Passages in Annex I of the Agreement for the purpose of export and import of goods, the Palestinian side has the right to use all points of exit and entry in Israel designated for that purpose. The import and export of the Palestinians through the points of exit and entry in Israel will be given equal trade and economic treatment.

- 14. In the entry points of the Jordan River and the Gaza Strip:

- a. Freight shipment

The Palestinian Authority will have full responsibility and powers in the Palestinian customs points (freight-area) for the implementation of the agreed upon customs and importation policy as specified in this protocol, including the inspection and the collection of taxes and other charges, when due.

Israeli customs officials will be present and will receive from the Palestinian customs officials a copy of the necessary relevant documents related to the specific shipment and will be entitled to ask for inspection in their presence of both goods and tax collection.

The Palestinian customs officials will be responsible for the handling of the customs procedure including the inspection and collection of due taxes.

In case of disagreement on the clearance of any shipment according to this Article, the shipment will be delayed for inspection for a maximum period of 48 hours during which a joint sub-committee will resolve the issue on the basis of the relevant provisions of this Article. The shipment will be released only upon the sub-committee's decision.

b. Passengers customs lane

Each side will administer its own passengers customs procedures, including inspection and tax collection. The inspection and collection of taxes due in the Palestinian customs lane will be conducted by customs officials of the Palestinian Authority.

Israeli customs officials will be invisibly present in the Palestinian customs lane and entitled to request inspection of goods and collection of taxes when due. In the case of suspicion, the inspection will be carried out by the Palestinian official in a separate room in the presence of the Israeli customs official.

15. The clearance of revenues from all import taxes and levies, between Israel and the Palestinian Authority, will be based on the principle of the place of final destination. In addition, these tax revenues will be allocated to the Palestinian Authority even if the importation was carried out by Israeli importers when the final destination explicitly stated in the import documentation is a corporation registered by the Palestinian Authority and conducting business activity in the Areas. This revenue clearance will be effected within six working days from the day of collection of the said taxes and levies.
16. The Joint Economic Committee or a sub-committee established by it for the purposes of this Article will deal inter alia with the following:

 - (6) Discuss and review any other matters concerning the implementation of this Article and resolve problems arising therefrom.

17. The Palestinian Authority will have the right to exempt the Palestinian returnees who will be granted permanent residency in the Areas from import taxes on personal belongings including house appliances and passenger cars as long as they are for personal use.
18. The Palestinian Authority will develop its system for temporary entry of needed machines and vehicles used for the Palestinian Authority and the Palestinian economic development plan.

Concerning other machines and equipment, not included in Lists A1, A2 and B, the temporary entry will be part of the import policy as agreed in para 10 above, until the joint sub-committee mentioned in para 16 decides upon a new system proposed by the Palestinian Authority. The temporary entry will be co-ordinated through the joint sub-committee.

19. Donations in kind to the Palestinian Authority will be exempted from customs and other import taxes if destined and used for defined development projects or non-commercial humanitarian purposes.
The Palestinian Authority will be responsible exclusively for planning and management of the donors' assistance to the Palestinian people. The placement and employment of workers from one side in the area of the other side will be through the employment service of the other side and in accordance with the other sides' legislation. The Palestinian side has the right to regulate the employment of Palestinian labor in Israel through the Palestinian employment service, and the Israeli Employment Service will cooperate and coordinate in this regard.

3. a. Israel will transfer to the Palestinian Authority, on a monthly basis, the equalization deductions as defined by Israeli legislation, if imposed and to the extent levied by Israel. The sums so transferred will be used for social benefits and health services, decided upon by the Palestinian Authority, for Palestinians employed in Israel and for their families.

The equalization deductions to be so transferred will be those collected after the date of the signing of the Agreement from wages of Palestinians employed in Israel and from their employers.

5. Upon the receipt of the deductions, the Palestinian Authority and its relevant social institutions will assume full responsibility in accordance with the Palestinian legislation and arrangements, for pension rights and other social benefits of Palestinians employed in Israel, that accrue from the transferred deductions related to these rights and benefits. Consequently, Israel and its relevant social institutions and the Israeli employers will be released from, and will not be held liable for any obligations and responsibilities concerning personal claims, rights and benefits arising from these transferred deductions, or from the provisions of paras 2-4 above.
6. Prior to the said transfers, the Palestinian Authority or its relevant institutions, as the case may be, will provide Israel with the documents required to give legal effect to their aforesaid obligations, including mutually agreed implementation procedures of the principles agreed upon in paras 3-5 above.
7. The above arrangements concerning equalization deductions and/or pension deductions may be reviewed and changed by Israel if an authorized court in Israel will determine that the deductions or any part thereof must be paid to individuals, or used for individual social benefits or insurance in Israel, or that it is otherwise unlawful. In such a case the liability of the Palestinian side will not exceed the actual transferred deductions related to the case.
8. Israel will respect any agreement reached between the Palestinian Authority, or an organization or trade-union representing the Palestinians employed in Israel, and a representative organization of employees or employers in Israel, concerning contributions to such organization according to any collective agreement.

AGRICULTURE

1. There will be free movement of agricultural produce, free of customs and import taxes between the two sides, subject to the following exceptions and arrangements.
2. The official veterinary and plant protection services of each side will be responsible, within the limits of their respective jurisdiction, for controlling animal health, animal products, and plants and parts thereof, as well as their importation and exportation.
3. The relations between the official veterinary and plant protection services of both sides will be based on mutuality in accordance with the following principles, which will be applied in all the areas under their respective jurisdiction:
 - a. Israel and the Palestinian Authority will do their utmost to preserve and improve the veterinary standards.
 - b. Israel and the Palestinian Authority will take all measures to reach equivalent and compatible standards regarding animal disease control, including mass vaccination of animals and avians, quarantines, "stamping out" measures and residue control standards.
 - c. Mutual arrangements will be made to prevent the introduction and spread of plant pests and diseases, for their eradication and concerning residue control standards in plant products.
 - d. The official veterinary and plant protection services of Israel and the Palestinian Authority will co-ordinate and regularly exchange information regarding animal diseases, as well as plant pests and diseases, and will establish a mechanism for immediate notification of the outbreak of such diseases.
4. Trade between the two sides in animals, animal products and biological products will be in keeping with the principles and definitions set out in the current edition of the OIE International Animal Health Code as updated from time to time (hereinafter I.A.H.C.).
5. Transit of livestock, animal products and biological products from one side through the area under the jurisdiction of the other side, should be conducted in a manner aimed at the prevention of diseases spreading to or from the consignment during its movement. For such a transit to be permitted, it is a prerequisite that the veterinary conditions agreed upon by both sides will be met in regard to importation of animals, their products and biological products from external markets. Therefore the parties agree to the following arrangements.

6. The official veterinary services of each side have the authority to issue veterinary import permits for import of animals, animal products and biological products to the areas under its jurisdiction. In order to prevent the introduction of animal diseases from third parties, the following procedures will be adopted:

- a. The import permits will strictly follow the professional veterinary conditions for similar imports to Israel as prevailing at the time of their issuance. The permits will specify the country of origin and the required conditions to be included in the official veterinary certificates which should be issued by the veterinary authorities in the countries of origin and which should accompany each consignment.

Each side may propose a change in these conditions. The change will come into force 10 days after notice to the other side, unless the other side requested that the matter be brought before the Veterinary Sub-Committee specified in para 14 (hereinafter - VSC). If it is more stringent than the prevailing conditions - it will come into force 20 days after the request, unless both sides decide otherwise through the VSC, and if more lenient - it will come into force only if agreed upon by both sides through the VSC.

However, if the change is urgent and needed for the protection of animal and public health, it will come into force immediately after notice by the other side and will remain in force unless and until both sides agree otherwise through the VSC.

- b. The official veterinary certificates will include the provisions regarding OIE Lists A & B Diseases as specified in the I.A.H.C. When the I.A.H.C. allows alternative requirements regarding the same disease, the most stringent one will be adopted unless otherwise agreed upon by the VSC.
- c. When infectious diseases which are not included in Lists A & B of the I.A.H.C. exist or are suspected, on scientific grounds, to exist in the exporting country, the necessary veterinary import conditions that will be required and included in the official veterinary certificates, will be discussed in the VSC, and in the case of different professional opinions, the most stringent ones will be adopted.
- d. The import of live vaccines will be permitted only if so decided by the VSC.
- e. Both sides will exchange, through the VSC, information pertaining to import licensing, including the evaluation of the disease situation and zoosanitary capability of exporting countries, which will be based upon official information as well as upon other available data.
- f. Consignments which do not conform with the above mentioned requirements will not be permitted to enter the areas under the jurisdiction of either side.

7. Transportation of livestock and poultry and of animal products and biological products between areas under the jurisdiction of one side through areas under the jurisdiction of the other side, will be subject to the following technical rules:

- a. The transportation will be by vehicles which will be sealed with a seal of the official veterinary services of the place of origin and marked with a visible sign "Animal Transportation" or "Products of Animal Origin" in Arabic and Hebrew, in coloured

- b. Each consignment will be accompanied by a veterinary certificate issued by the official veterinary services of the place of origin, certifying that the animals or their products were examined and are free of infectious diseases and originate from a place which is not under quarantine or under animal movement restrictions.
8. Transportation of livestock and poultry, animal products and biological products destined for Israel from the Areas and vice versa will be subject to veterinary permits issued by the official veterinary services of the recipient side, in keeping with the OIE standards used in international traffic in this field. Each such consignment will be transported by a suitable and marked vehicle, accompanied by a veterinary certificate in the form agreed upon between the official veterinary services of both sides. Such certificates will be issued only if permits of the recipient side are presented.
9. In order to prevent the introduction of plant pests and diseases to the region, the following procedures will be adopted :
 - a. The transportation between the Areas and Israel, of plants and parts thereof (including fruits and vegetables), the control of pesticide residues in them and the transportation of plant propagation material and of animal feed, may be inspected without delay or damage by the plant protection services of the recipient side.
 - b. The transportation between the Areas through Israel of plants and parts thereof (including fruits and vegetables) as well as of pesticides, may be required to pass a phytosanitary inspection without delay or damage.
 - c. The official Palestinian plant protection services have the authority to issue permits for the import of plants and parts thereof as well as of pesticides from external markets. The permits will be based on the prevailing standards and requirements.

The permits will specify the required conditions to be included in the official Phytosanitary Certificates (hence P.C.) based upon the standards and the requirements of the International Plant Protection Convention (I.P.P.C.) and those of the European and Mediterranean Plant Protection Organization (E.P.P.O.) which should accompany each consignment.

The P.C.'s will be issued by the plant protection services in the countries of origin. Dubious or controversial cases will be brought before the sub-committee on plant protection.

10. The agricultural produce of both sides will have free and unrestricted access to each others' markets, with the temporary exception of sales from one side to the other side of the following items only: poultry, eggs, potatoes, cucumbers, tomatoes and melons. The temporary restrictions on these items will be gradually removed on an increasing scale until they are finally eliminated by 1998, as listed below:

11. The Palestinians will have the right to export their agricultural produce to external markets without restrictions, on the basis of certificates of origin issued by the Palestinian Authority.
12. Without prejudice to obligations arising out of existing international agreements, the two sides will refrain from importing agricultural products from third parties which may adversely affect the interests of each other's farmers.
13. Each side will take the necessary measures in the area under its jurisdiction to prevent damage which may be caused by its agriculture to the environment of the other side.
14. The two sides will establish sub-committees of their respective official veterinary and plant protection services, which will update the information and review issues, policies and procedures in these fields. Any changes in the provisions of this Article will be agreed upon by both sides.
15. The two sides will establish a sub-committee of experts in the dairy sector in order to exchange information, discuss and co-ordinate their production in this sector so as to protect the interests of both sides. In principle, each side will produce according to its domestic consumption.

Gaza/Jericho Agreement Provisions on Family Reunification

A examination of the Gaza/Jericho Agreement has revealed several provisions which relate to the entry of Palestinians into the the territory subject to the jurisdiction of the Palestinian Authority which I have discovered:

Art. XVI of the Agreement relates to the Liason and cooperation with Jordan and Egypt, including displaced persons. We understand that both Israeli and the Palestinian sides intend to convene this committee in the next month.

Art. X, para. 3(f) of Annex I (Protocol Concerning Withdrawal of Israeli Military Forces and Security arrangements) provides that either side may deny the entry of non-residents into Gaza and Jericho.

Note to Appendix C, of Annex II (Protocol Concerning Civil Matters) implies that Israel must have issued an entrance visa prior to permitting the entry of a person into Gaza/Jericho.

In addition, this morning the Israelis informed me that anyone taking up permanent residence in Gaza and Jericho would be required to be approved by both Israel and the Palestinian authority. This provision has not been located as of yet.

Finally, it should be noted that there is extensive requirements for law enforcement cooperation. Thus, if an offense is committed in the Territory "by a non-Israeli against Israel" the Palestinian Authority must investigate and prosecute the case. Art. I, para. 5, Annex III (Protocol Concerning Legal matters). This may cover someone overstaying an entrance visa issued by Israel. &
