WASHINGTON, March 29.—The post-master-general today issued a fraud order denying the use of the mails to a Pinkerton detective agency of Chicago. The firm operated under the name of Pinker-ton & Co., United States Detective Agency.

The action was taken on the ground that patrons of the company, which has been ac ing as a collection agency, were falsely led to believe they were dealing with the "original" Pinkertons. The company, it is alleged, thru its advertising literature, gave the Impression that the Pinkerton detectives were in its service.

NORTH OF FRANCE, March 29. Altho official reports have of late reims section, it must not be deduced that operations are at a standstill there. Often the most interesting situation is concealed behind the words "there is nothing to report." This is from what one hears there is a feeling that matters are approaching a more critical point, and that the grip of the opposing armies is becoming still tighter and tighter. At the present noment the Germans are exercising evere pressure upon the Rheims section, no doubt to draw us from points a little farther east, where substantial successes continue to be registered, and where the salient points in the enemy's line are steadily being rendered untenable. A very wise amount of secrecy is being maintained as to details of the French movements, and the Germans are becoming desperate in their endeavors

to find out what is going on. For example, I am given to understand details as to the effect of the bombardment upon Rheims should not be given, as for something or other the enemy is particularly anxious to find out the effects of his fire. Suffice it. therefore, to say the bombardment still continues to be heavy, accompanied by bomb-throwing by aeroplanes. The few remaining civilians, so far as I can see, have become altogether callous and apparently quite

indifferent to their fate. Few Incendiary Shells. At all events there are now few, if any, incendiary shells being thrown into the town. Fort Berru, to the northeast, is particularly active. Months ago it was considered quite feasible as a military proposition to carry this fort by assault, at an estimated cost of 20,000 lives. It has not been thought advisable to make this sacrifice, yet since the estimate was given, many lives have been lost in desultory trench fighting before the city. Centrary to former exploits of Brimont guns, which principally worked at night, those of the Berru are mostly active in the daytime. German pressure is again very severe around Sillery. On the farm of Alger La Pompelle, the opposing trenches are extraordinarily close together, and it is one constant tussle days and nights. Many wounded are being sent in from that neighborhood, testifying in from that neighborhood, testifying to the severity of the fighting. The French defence is, however, proving equal to all demands made upon it because the advances made a few weeks ago now have been consolidated and turned into strong demands. consonated and turned into strong positions. At the same time Germans are now bombarding Verzy, which hitherto for a considerable period has been out of their range. They are supposed to have brought up some more big Austrian howitzers running on rolls but as cuite a number of shells. Eng., of smaller calibre have been falling into Verzy, it would seem that they must have pushed forward their artilities lery position on the salient south of Nogent Labesse and Moronvilles.

Temperance Bill Brought Discussion.

ENEMY KEPT IN DARK ON OLD GROUND AGAIN

as to Amendment to Audit Act Would Be a Benefit to Province.

The fact that the word "soldier does not appear in the government temperance bill, as the opposition exected from the announcement of Hon. W. J. Hanna last week, occasioned an interchange in the legislature yester-day. Wm. Proudfoot of Huron remarked that in the first draft of the measure the word had appeared, but the case with Rheims at present, for that all reference to men in uniform had disappeared, and he stated trat it was wrong practice to make such a change after first reading had been given.

The provincial secretary explained that altho the word did not appear power was taken to exclude any class of citizen the government pleased. He had not specified that this particular reference would appear. The bill was the same in substance as he had described. He stated that the wording was not settled when the address was made, and that he had not seen the legal draft at the time. The premier stated that the bill was given to the clerk of the house in blank, but the opposition appealed to the speaker for ruling. Their point was lost.

Old Ground Covered, Much old ground was covered again when Charles Bowman of Bruce introduced an amendment to the Audit Act to place the issuing of the public accounts purely in the hands of the auditors and away from treasury board interference. He claimed that the province would gain a better conception of finances if the old system were adopted in this way, and quoted the case of the T. & N. O. cross entry

to prove his case. Hon. I. B. Lucas as a member of the treasury board in question warmly resented the suggestion that all was not fair and square. He showed in some detail that the course was justified and the bill was lost on a division of The Government Insurance Act was withdrawn for a year to allow its perusal by friendly societies.

Three Houses Occupied.

Three of the nine houses in the row, which was comple ely destroyed, were occupied by Len Hodge, a soldier of that third contingent, his wife and two children: Robert Graham, a jeweler, his wife and three children, and Mr. and Mrs. Charles Chamberlain. Practically everything was lost in the first two homes, but the neighbors managed to save all Mr. Chamberlain's effects. Several people received buins of a minor character.

When the blaze was over only a few brick chimneys remained intact above the debris of charred timber and twisted metal.

Yesterday Announced
at Local Camp.

A 'talk with Mr Wimperley, manager of the Toronto branch of the Bell Plano Company, made it clear that there was nothing surprising in the circumstances connected with the great sale which started yesterday.

Medical practitioners from Canada to lot the Royal Army Medical Corps and to serve during the war with make at lieutenant, have been asked for by the Bettish war office. This important announcement was made by Lieut-Col. J. T. Fotheringham, A. D.M.S., at Exhibition Park camp yesterday affirm on. He has just received from Ottawa the request of the British war office. The militia department is notifying the registrars of all the provincial medical boards. At present only dictors registered in Nova Sectia. Quebec, Prince Edward Island and New Brunswick, and who are graduates of universities in those provinces are eligible. service. 4. Age under 45 (war puts age limit at 40.) 5. Pracone of the provinces.

At present all the provinces do not have reciprocal relations with the English authorities in the matter of registration of doctors. Regarding this the war office states it is willing to accept Canadian University graduates registered in Canada, provided provincial medical boards, not already reciprocating with the general medical council, express a desire to reciprocouncil, express a desire to recipro-cate. This course must be taken, as otherwise the law forbids acceptance of the doxtors. Medical boards de-string to reciprocate are asked to in-form the militia department, as until this is done, many doctors of Ontario will not be eligible. Half speed people have lost that abundant natural vitality which enables others to go "full speed ahead" through life. Their energy and nerve power have evaporated they cannot Survivors of the Falaba say that the German submarine appearred when the liner was 70 miles off Milford Haven. The Falaba's captain ignored the order to stop, but the steamer was overhauled after half an hour's chase, The passengers and crew were given five minutes to leave, and most of the boats were launched before the submarine fired a torpedo. The projectile struck the Falaba in the engine room, and a terrific explosion followed. The ship settled down and sank very quickly Some of the lifeboats were smashed, and scores of people were struggling in the water when a trawler reached the scene and rescued 105 of them, transferring them later to a destroyer. Another 33 were picked up by another fishing boat. Three of the persons rescued had sustained injuries by German shrapnel, and some of the engine room staff of the Falaba were killed.

His chief energy and nerve power have evaporated—they cannot work long without breaking down. The trouble is nerve weakness and is caused by poor, watery blood. You can begin to improve your condition today by taking Dr. Williams' Pink Pills. They make rich, red blood once more pulsate through the resi is convincing evidence that new strength and full health can be had through the use of Dr. Williams' Pink Pills. EASTER FOOTWEAR EXTREMELY SMART

Military Boots With Tassels and Brass Buttons Latest Craze.

NEW WHITE MODELS

Exploit Contrasting Soutaches and Introduce Black Leathers.

Easter this year will be conspicuous for the display of footwear. The day when the choice of boots could be considered a secondary item on the program of dress has passed and with the shortening of the flare skirt to several inches above the ankle, a stylish and daintily saed foot is compulsory.

The sensation of the moment in footgear is, of course, the new military boot, a spic-and-span foot covering of regimental aspect, presenting an altogether stunning effect with its trim. slender lines. The tops are of light colored cloths and buttoned with from 14-to 18 brass buttons, crested or with an anchor motif as ornamentation. Tassels swinging at the top give a martial note to these high-class models.

Smart Trimmings.

Some of these are quite fanciful and elaborate. One pair of blue Morocco, with tops of buff cloth, had smart trimmings of braid and a novelty note was further introduced in the fastenings of round brass buttons on the outside, in gaiter fashion.

Other attractive models are de-

BREAD FOR THE SOLDIERS.

On active service a soldier must have bread. This commodity is his staple article of diet, and consequently great care is taken in the organization of a special unit to prepare and bake sufficient of the staff of life to supply the army's needs. Canada's first contingent was not well equipped in this direction, and instructions were issued to organize a field bakery to be attached to the Army Service Corps for service with the second expeditionary force. These instructions were carried out, and Canada's soldier boys may be a serviced that everything possible. rest assured that everything possible will be done to provide them with an ample supply of good, wholesome bread wherever they may be, or under whatever circumstances they may find themselves. Stationed now at Exhibition Camp is the first field baker; unit that has ever been organized in Canada consisting of fourteen noncommissioned officers and seventy-eight men, all qualified bakers, with Captain W. Black in command, ably assisted by Lieut. M. C. Aldous. The authorities exercised splendid judg-ment in their choice of commanding officer, and Captain Black has fully justified the confidence placed in him He was well known as a department manager with the T. Eaton Company, and his business knowledge and organizing ability, coupled with many years military experience, combine to make him an ideal choice for the position, and it is chiefly due to his efforts that no more efficient or well trained body of men exist in camp than those serving with the field bakery. The men, in addition to their baking qualifica-tions, are required to be well drilled, good shots, and efficient to take their places in the firing line if the necessity should arise, also to defend their lines against attack. They have been well trained in these duties at the Exhibi-tion Camp, and have been very favor-ably commended for their showing on parade and at musketry. Long route marches, carrying the same kit as the hattalions, have also been in their training operations, and they have invariably made a credshowing. All this in addition to baking for the camp. Of course the operations have been a most important part of the training, and the men have worked as nearly ap-proaching active service conditions as possible, using the regulation ingredients, and working entirely by hand. The results have been very satisfactory, due in no small measure to the fine quality of flour supplied by James Lumbers Company, Limited, the government contractors, and the effect-iveness of the Royal Yeast Cake sup-plied by E. W. Gillett Company, Limited. Three Gurney Oxford portable ovens have been used very successfully, and valuable experience has been obtained. At the front there will be no busier unit than the field bakery. They will have to bake for 22,000 men. a daily output of 30.000 lbs. of bread will be required, and 60 Aldershot Ovens will be in constant use. This is a big undertaking, but officers, noncommissioned officers and men are

Plant a Shrub or Permanent

Vine First

As we pointed out yesterday, just plan one thing thoroly well done this first season in the new garden. shrub or a good strong wine should be chosen as one of the first to put in the new garden, because these take so much longer to accomplish a definite growth than is to be expected from best of annuals.

In the matter of different varieties of shrubs or vines, think of severa points before buying your specimen. Note what is the exposure re air, sun, winds, and whether or not that specimen is to be a simple ornament or a screen as well as an ornament.

Shrubs for front lawns should be in proportion to the house and plant-ed with some fairly definite idea as to its harmonizing with the style of architecture. For instance, a little Queen Anne cottage is dwarfed behind a sturdy horse chestnut. So when you build that little cottage and move into it, with the inention of spending he rest of your life there, don't plant that young horse chestnut

anyway. If your cottage rejoices in a point. ed gable or two and high chimneys don't plant dwarfed, little rounded topped bushes. Plant those that have a tendency to grow pointed and ga-

firmness. For small front lawns, open to the street, plant nothing. Keep your lawn lovely. That is sufficient. En-closed front lawns may be made lovely with one or two bright-flowering bushes. Two bushes are better than six or eight planted as a hedge. Two well-chosen bloomers will give more real joy when they are of different flowering times Two satisfactory varieties, say Japonica cydonia (whose lovely waxy blossoms of ruby-red come out in late June. or, in some cases, a bit earlier), and Forsythia suspensa, whose golden three-petaled blossoms coming in very early spring veil the bush in golden mist all of six weeks. These two make a splendid couple for a fair-sized enclosed front lawn. In a sunny backyard they are things of beauty, to be watch. ed for with increasing eagerness year after year. A 50-cent bush of either one will give some blessoms the second year and will be a fair-sized bush the third season. Both are clean-

leaved bushes. Remember, my gardeners, you must not expect to plant a shrub this season and see it blossom also. Plant this season, enjoy the beauty next year.

SECOND YEAR BEST

Prize for Power House Won by Harold Watson of Graduating Class.

The Universit of Toronto Architectural Club opened its third annual exhibition yesterday afternoon in Convocation Hall, when they showed a class of architectural work equal, if not superior, to any that has been shown in previous years.

The Doris, Gothic, Corinthian and Italian styles were shown to the best advantage. Some of the efforts of the fourth year men were highly praised by the members of the faculty. The competition for the power house designs was very keen. Over 30 were entered. The first three students were Harold Watson, Gordon E. Edwards and H. J. Burden. The prizes to be awarded to the winners are \$25, \$15 and \$10.

The thesis submitted by K. C. Burness, a fourth year student, got first mention, his subject being a casino and an architectural school. John Skianer of the third year got first mention for his village church subject. Lester Husband's art museum was also given first mention. O. H. McAvoy of the first year was the best in his class. His sample of pure Grecian architecture was very creditable. The exhibition continues until Wednesday evening.

LENTEN CANTATA SPLENDIDLY GIVEN

Soloists Rendered Sacred Selections With Great

Appreciation. Wonderfully realistic was the Lenten Cantata of "The Seven Last Words of Christ" given at the Church of Our Lady of Lourdes Sunday evening, by a chorus of seventy-five voices and an

crchestra of twenty instruments, under the leadership of the noted conductor, Rev. Father Finn, C.S.P., of Chicago. Chicago.

The cantata, arranged by Theodore Dubois, opens with the soprano solo, in which he expressed the desolation of the mother of the Saviour, in viewing the agony of her Divine Son, in His sacred passion. In her distress she addresses the multitude, "O vos omnes—all ye people behold and see

This introductory number was plain-ilvely and exquisitely sung by Miss Evaleen Donoghue, the liquid purity of whose voice admirably suited the composition. Miss O'Donoghue sang later in the "Sixth Word," with full orchestral accompaniment, her sympathetic interpretation of 'Father into Thy Hands I Commend My Spirit."

Thy Hands I Commend My Spirit."
being most appealing.

In the number, "O My God, Why Hast Thou Forsaken Me?" the baritone voice of Arthur George was heard to fine advantage, the staccato phrases being brought out with dramatic effect. Perhaps nowhere in the composition was there greater opportunity for contrast than in the "Fifth Word," which opens with the voice of the dying Saviour saying: "Sitio, I am athirst." followed by the recitative by the tenor: "Then the Jews who passed Him by, each one did revile Him." This was most acceptably delivered, as were all the tenor numvile Him." This was most acceptably delivered, as were all the tenor numbers, by G. Lister, followed by the mocking chorus in a series of climatic shouts of derision: "Vah! vah!" Among the most exquisite things of the evening was the soprano solo, "Stabat Mater Dolorosa," sung by Miss Ruth Waite, whose voice was heard in several sections of the composition, and always with the appreciation of tone quality which marks the musician. The choruses were with few exceptions given with fine attack, and considering the short time allowed for preparation, the success achieved was simply extraordinary.

for preparation, the success achieved was simply extraordinary.

A feature of the evening was the singing of Master Leroy Kurtzeborn of Chicago, a boy artist, who with a perfect lack of self-consciousness, stood in the centre of the great sactuary, and while the eyes of the packed church were upon him, sang the "Agnes Dei," and the "Benedictus," in a veice which in its highest notes rivaled the purity and clarity of the flute.

TUESDAY MORNING, MARCH 30.

The Safe Way to Victory.

One would like to know the truth about the internal condition of the Teutonic peoples of Germany and Austria-Hungary. On the one hand reports come of drastic regulations for the protection of food supplies; on the other are the stories told by travelers of neutral nations who with singular unanimity say that food to tion of the Ottoman Empire another is plentiful and life little if at all removed from the normal, These contradictions have led to the surpicion ing the advance of Russia as the rying on a psychological as well as a material war. If an unfounded sense may not be inclined to lay up the seeds of superiority in resources can only of future trouble by adopting a trucuof superiority in resources can only lent policy, more especially in view of the created and with it a measure of the financial stringency which is over-confidence, both will be factors bound to affect all borrowing rations.

We may be very sure that the men responsible for the conduct of the war by the ailies will not permit themselves to be swayed by false illusions regarding the conditions prevailing within the Germanic countries. Bitterly as the Germans must be disppointed at the course of the war, it is not to be supposed that they made no preparation for a possible setback in their first plan of conquest. cient than they claim and have failed to profit by the practice of the famous of the past. That cannot be assumed with safety, and the only prudent course is to prepare and continue preparations as if Germany were still in the heyday of success.

Redressing the Balance This war is going to be decided, not

by the professional soldier, on whom everything was thought to depend, but on the courage and skill of the levies who have enlisted to defend the rights and liberties of the British nations and the British Empire. That is true, even if in modified degree, of Germany, which now has been compelled to fall back on men no longer on the roll of the active army, on men who escaped military service for various reasons, valid or invalid, and on the earlier calling to the colors of youths who are on the threshold of compulsory service. None of these classes are or can be in any better shape than the territorial forces of the British Isles, the contingents provided by the overseas dominions, or the members of Kitchener's new armies.

Germany, after temporary and admittedly great successes in the first weeks of the war, is now reduced on the western front to a purely defensive campaign. What the Germans have got they are trying to keep, but recent events have proved that the trenches are not impregnable, and that. with a sufficient preponderance in artillery fire a breach can be made even at the strongest part of their battle line. To put it simply and straightly the drive of the German active army has not only been checked but is no longer possible. Its success depended on rapid victory. Time has served the allies by enabling them to confront the invaders with forces which soon will be numerically superior and still more superior-thru the educative influence of this great war.

Life in the Trenches

Human nature has marvelous adaptability. According to accounts, life in the trenches at the front in Flanders provides a large and mixed supply of evils. Not only have all kinds of physical hardship/to be encountered in the shape of water, mud and cold,

ild bring these conditions home, and it is surprising how soon the first im pression fades and how difficult to revive is its memory. More is told in in the early letters from the front than tory of the war comes to be written by the Dry-as-Dusts who will dig into army orders, staff reports and all the other voluminous records that are being piled up by the carload. This war, ing like it has ever been witnessed since the world began. The great wonder is the irrepressible good spirits tion 47 of and impregnable courage of the private soldier.

The Fate of Turkey

Certain sections of public opinion oth in Britain and France strongly favor the neutralization of Constantinople and the waterway between the Black Sea and the Mediterranean. It is pointed out, not without reason, that the transfer of control from Turkey to Russia would not relieve the situation so far as the commerce of the smaller states that also depend on that highway is concerned and might indeed lead to later and serious omplications. In his recent remarks Sir Edward Grey, the imperial foreign ecretary, did not commit himself to support of Russian control. What he did say only favored the right of Russia to free communication with the Mediterranean. A solution of this most perplexing of problems can only be secured by a common consent, which may be difficult to obtain.

Much depends on the attitude of Russia, but there is reason to believe that on her part the old policy of aggression has been abandoned. outlet may be found to the Levant. Armenians have long suffered from means of their deliverance. Russia. It is not at all unlikely that the members of the triple entente have already reached a tentative agreement regarding the problems presented by the collapse of Turkey.

German Long Credit

Light everywhere is being thrown on the methods by which Germany ominion Department of Trade and Commerce, containing the second instalment of Mr. Watson Griffin's report upon trade opportunities in the West Indian Preferential Market. In one section he remarks that everywhere he was told that the Germans gave very long credit. In Jamaica a bank manager stated that six months was commonly offered by German houses and they often allowed much longer credits. To him it was a mystery how they were able to finance them, and the mystery deepens when it is remembered that the sant, remark has been made in all parts of the world. That the German Government was behind that financing is not at all

FURTHER INQUIRY COMMENCES TODAY

Investigation Into Fire Department is to Be Wide Open and Information Wanted.

When Judge Danton opened the further investigation into the fire department yesterday afternoon he announced that the enquiry was to be wide open in its scope and would take in the whole management and control of the department, and any person that has information or can put the court in the way of setting in-formation is invited to write to I. S. Fairty of the city solicitor's office, or Corporation Counsel Geary, within the

next week.
"I don't want any person to say, when the enquiry is concluded, that something should have been looked into that wasn't looked into," said the

judge.

The investigation proper will commence at 2.30 today. Mr. Fairty said he would have some evidence ready. BRITISH MAIL CLOSES.

The British and foreign mail (via England) will be closed at the General Postoffice at 6 a.m. today, with a supplementary mail at 11 a.m.

The recommendation of General Manager Couzens of the Hydro-Electric that extra lights be put on the various bridges thrucut the city was vesterday adopted by the subcommittee on street lighting. The extra lighting will cost \$257.60, and will affect nine bridges, as follows: Wilton avenue, Queen street over the Don. John street, Sunnyside, Weston read, Spadina road, Winchester street, Eastern avenue, and the foot bridge over the Don at Riverdale Park,

Not Just Yet.

The question of installing fire apparatus on the tugs Geary and National has been laid over by the property committee.

Paid Life Premium.

The city yesterday paid over to the Actna Life Insurance Company \$10.000 as an interim payment on the insurance of 1100 of the Toronte members of the second contingent. This now brings the matter to a close except for the dispute as to whether the company agreed to 'insure the 1760 men of the Toronte regiment. The families of the men who died of spinal meningitis while in camp will be provided for.

The city has received an offer to insure 250 members of the Toronto.

Mrs. Wiseneighbour Says:--

"I should have told you the other day, when I was speak-ing of 'Eddy's' Washboards, that it is just as necessary to have an Indurated Fibreware Tub to hold your clothes if you want to make a success of washday."

Mrs. Newlywed Says:--

"I've heard of Eddy's Indurated Fibreware. What's the fference between fibre and woodenware?"

"Fibreware is made from compressed fibre, baked at extreme heat. All in one solid piece, it cannot warp or fall apart. No chance of splinters. Wears much longer, looks better, and is light to carry. The latter point you should always take into consideration," concludes Mrs. Wiseneighbour.

The Grand Trunk and Grand Trunk Pacific Railways with their steamship and other connections offer the traveler a choice of insure 250 members of the Toronto contingent from the State Life Insurance Company of Indianapolis. The rate is the same as that made by the Aetna Company.

Kept Too Busy Now.

Ald. Walton. Reden, Warren and Ball were yesterday appointed a special committee to consider the advisability of taking the lighting of the city out of the hards of the fire department and placing it under the supervision of the Toronto Hydro-Electric System. Ald. Walton put the motion, stating that he believed the fire department had too much to do to properly look after the city's lighting.

The Wilhelmina's attorneys haven't yet been apprised of the proposed application by crown counsel for a court order to sell the parts of the cargo which are deteriorating. They will fight the issuance when the application is made. The attorneys are anxious to get a quick prize court decision, but it is not probable that the case will come up until some days after Easter. The Wilhelmina representatives say that the losses on the charter, etc., are already \$50,000.

SHORTLY after the outbreak of war the sale was prohibited of vodka in Russia, and absinthe in France, and ever since then persistent efforts have been made in certain quarters to confuse the public mind by placing beer in the same class as these two decoctions.

In order that the public may know the relative alcoholic strength of each of these we give herewith a copy of an analysis made for us by the well-known firm of Thos. Heys & Son, Technical Chemists:

KNOCKED POINTS DOWN

Premier Hearst Levels Each Argument in Defending Government

Sam Carter of Wellington, backed sam Garter of Wellington, backed by other Liberals in the legislature, made a bitter attack on the govern-ment last evening for their appoint-ment of the personnel of the work-men's compensation board. The claim was made that in one instance at least the officers had been elected on a par-tisan basis, that money could have been saved to Ontario and that the elements of population most concern-ed were not represented. Premier Hearst, in reply, proceeded to knock down, one by one the charges and to show that competence had been the first aim of the government when the pard was formed.

The first claim of the Wellington member was that \$5000 could have been saved on salaries, but the real point that troubled him was that a man had been appointed at 68 years of age, "io learn a business with which he was not familiar." He understood that he had been a party organizer. he was not familiar." He understood that he had been a party organizer and that he had been used "to swing the labor vote." The patronage system was wrong, and he would main-tain it even if his party came into ver. He further urged that labor and the manufacturing interests were not represented.

Fully Qualified.

The premier stated at the outset that the salaries had been fixed by the house, and that manufacturers had urged an even greater remuneration. chairman was a fully qualified competent man. As for the vicechairman, he, too, had exceptional qual'fications. He had studied labor questions, and age lines were as out of place in commissions as in parlia-mentary bodies, otherwise government ortics would sometimes be unavoidably absent. The board had proved very acceptable.

William Proudfoot of Huron followed the line of his predecessor, but did not press his points. He had desired a better repre sentation of interests

Amendment to Power Act Passed Committee Last Night.

AN EVENING SESSION

Sir Adam Beck Explained Advantages to the Tax-

In future local municipal hydro nmissions or other utilities will be commissions or other utilities will be permitted, on the advice of the provincial board, to hand over to the corporations which they serve surpluses derived from domestic services which they perform. These will include street light, water services, sewage operations, municipally owned is street railways and lighting of public buildings. This was arranged by an amendment to the power act which passed thru committee last evening

in the legislature. in the legislature.

Sir Adam Beck explained that it would allow the taxpayer to share in the benefits of the system. His rates would be reduced as conditions warranted. The interest charges against municipalities borrowing from the province will in future be 5 per cent instead of 4, as at present. Sir Adam explained that as their borrowings demanded 5 per cent. It was but reasonable that the province should not tax the government unnecessarily.

The opposition raised the point of having municipal representation on the provincial commission, but no action was taken.

THE DAILY ROUTINE.

HAVANA. March 29.—Jack Johnson and Jess Willard continued today their training routine in order to fit themselves for the heavyweight championship fight in which they are to engage one week hence. Both men worked hard in their training quarters before large crowds and also on the Cuban roads. Willard went thru all his forms of indoor exercise this afternoon and in addition took on his sparring partners in turn for twelve fast rounds. The hig white man went after Charley Hemphills os savagely that Hemphill was dazed by one of his blows, and Willard was forced to slow down somewhat. Willard's left to the head and body were his best blows today. He says he is afraid to use his with

LATE MARTY WALSH

FUNERAL IN KINGSTON

KINGSTON, Ont., March 29.—News of the death of Marty Walsh at Gravenhurst.

Sanitarium was received with sincere regret in athletic circles, in which he was born here thirty sears ago. The remains born here thirt down somewhat. Willard's left to the head and body were his best blows today. He says he is afraid to use his right against his sparring partners. Ring foltowers consider that one of the worst faults of Willard is that he leaves his body unprosected most of the time. He also fights with his mouth open.

This morning Willard went over the road jogging and sprinting for a distance of five miles. He does not expect to do any work tomorrow. He will make his final spurt Wednesday and then will stradually let down in his training. He says he expected to enter the ring at 233 pounds, six of which he still has to take off.

Johnson did six miles on the road this morning running and walking. This afternoon in the stadium he punched the bag, threw the medicine ball and then went eight fast rounds with Bob Armstrong, Colin Bell and another sparring partner. Despite his hard work Johnson showed no signs of exhaustion.

BALMY BEACH GUN CLUB.

The annual meeting of the Toronto Amateur Baseball Association was held last night and the "clique" was put to rout. Last year's officers will again handle affairs, and the simon-pure game is due for further advances this season. A strong censure was handed out against Sunday baseball, and no clubs under the jurisdiction of the local association will be allowed to visit American cities and play on the Lord's Day.

All players must take part in three or more games before they will be allowed to play in the city finals.

The officers elected were: President, Bert N. Brydon; vice-president, Tom O'Neill; secre.ary, A. J. Walsh; treasurer, A. Roxborough; counciliors, F. H. Armstrong, A. J. Walker, Athol P. Gow, George Phillips and W. J. Smith, representing Ontario Amateur Baseball Commission. The regular weekly shoot of the Baimy Beach Gun Club was held as usual on their grounds, Eastern avenue, on Sat-urday. There was a good attendance of the Dra-189—547

ACHES LACROSSE CLUB.

A reorganization meeting of the Beaches Lacrosse Club for the coming season will be held at Kew Beach School, corner Kippendavie avenue and Queen street, on Tuesday, March 30, at 8 p.m. sharp, when all last year's members and any new ones desirous of joining are earnestly requested to attend, as the election of officers and several other important matters will be dealt with. Everything points to a successful season for the Beaches, as last year the club had teams in the intermediate and junior series of the O.A.L.A., and also two teams in the Toronto Lacrosse League, and expect to do so again this year. Beside the regular schedule of games, the club have completed arrangements for an exhibition game in New York with the Crescents, the game to take place some time in June.

BAD POLICY TO NAIL UP GATES

Comiskey Says Reduction in Salaries Will Save the Minor Leagues.

CHICAGO, March 29 .- Two of the most

the gates. All the minors need, he said, is an overhauling and general slashing of salaries.

Garry Herrmann, chairman of the National Commission, wired from Cincinnati that as a result of Johnson's interview, some minor league cubs already have decided not to open and that in his judgment others would follow suit.

Ban Johnson himself stood by his guns and asserted that he would not go back on a single word in the interview. This remark was brought out by the fact that he has been bombarded with telegrams from all over the country from owners and league presidents asking if the statement, as published, was authentic.

"I have replied to all that the interview was absolutely correct," said Mr. Johnson, "and I say further that the prominence given to these perfectly obvious facts will in time do baseball more good than anything else. We might just as well apply the knife right now as later and it will not help the sport to conceal actual conditions."

Red Fisher, Bill Donohue, Harry Corns and Cunningham, veteran players on the reserve list of the Hamilton Baseball Club, have been placed under suspension. Contracts were forwarded to all four early this season. Cunningham refused to stand for the reduction in salary. Fisher has intimated that he does not want to return to Hamilton, while Donohue and Corns have writer's cramp and have been unable to tell the club officials just wifat their grievances are. The result is the suspension list for all four, this action having been taken at a meeting of the directors of the club held on Saturday.

First Baseman Graham has been awarded to Toronto by the National Commission. A beating for Ganzel before the season opens.

in the pabt have "worn blinkers" away from the ball parks.

When Detroit and Atlanta played the other day Ty Cobb and Charlie Schmidt had their friendly annual tilt and the season now is officially on as far as the Georgian is concerned.

When he came to bat for the fourth time Cobb told Schmidt he was going to but and that he would beat the play if the catcher would field the ball.

Schmidt accepted the challenge and ordered O'Dell, his third sacker, to keep out of the play. Tyrus bunted the first pitch fair, and Schmidt in his hurry to field the ball 'fumbled a little and then made a bounding throw. Cobb beat it easily. He stole on the next pitch, but failed to hook the bag, and was out when he over-slid.

This safe bunt gave Cobb the longest and shortest hits of the day. In the third round he lifted the ball out of the lot, the sphere going over the fence just inside right field foul flag. The Tigers have had numerous four basers in exhibition and scrub games, but this is the first one to go out of a playing field.

E. Gurney, proprietor of the Wingham Glove Works, who is a candidate for the council of the C.A.L.A., is worthy of consideration by every delegate on Good Friday. He has played the game for 22 years and played last year for Wingham. He would add great strength to the council.

CONSCIENCE NEEDED

is the Essential Guide Governing the Character of a Man.

GUELPH, March 28.—Seven hundred men of the 34th Regiment under Colonals Douglas and Oliver, in training at Guelph, and who will leave for the front with the next contingent, paraded to the Salvation Army citadel, headed by the S. A. band of Guelph, yesterday norming. They were addressed by Commissioner Richards, who has just completed a five days tour taking in apleted a five days' tour taking in it. Berlin, Brantford and Guelph. The commissioner, in addressing the sodiers, based his remarks upon the words of the prophet Jeremiah. "Find me a Man," explaining in a forceful manner, which was much approved by the men, the character required of the soldier in his melectric arms of the soldier in his majesty's army and also required of a soldier of the King of

Kings.

First, he must possess a conscience.

"As is the north star to the mariner, and the rudder to a vessel so should the conscience be to every man." he

"A good soldier should have a heart. This does not mean that he be a weaking. Remember Garibaldi," said the commissioner, "that grand old patriot of Italy who, when the opportunity prescated itself, during an interal between the battles, would make his way to where his mother dwelt and spend as much time as duty would permit, in her company. The empire needs men who will unflinchingly do their duty, but who at the same time. his way to where his mother dwelt and spend as much time as duty would permit, in her company. The empire needs men who will unfilinchingly do their duty, but who, at the same time, are possessed with tender hearts."

By way of illustration, the commissioner mentioned an incident which occurred in the present war, and in which the Salvation Army figures. It appears that a British soldier, a Salvationist, observed a wounded German on the battlefield, endeavoring te reach his water bottle. nation, and live them out in your daily life."

Briefly, the commissioner outlined the work of the Salvation Army in connection with His Majesty's naval and military forces. He dwelt particularly upon the work of the Salvation Army in the present war. Some twenty years ago the naval and military work of the Army was commenced, the object being to link up, so far as possible, the members of the Salvation Army in the King's service, and bring them into fellowship with their comrades at the Army centres in all parts of the world.

The Salvation Army has today 15 homes for soldiers and sailors, has provided facilities for reading and writing, as well as for meetings and bedrooms. Saliors in port can be sure of a safe, clean lodging, wholesome, twell-cooked food, and a cosy corner. All sorts and conditions of service men frequent these homes.

Minister to Forces.

Brisadier Mary Murray, daughter of the late General Sir John Murray, K.C.B. has been appointed to take charge of a brigade of Salvation Army officers, who are following the allied forces, to minister to them in a variety of ways.

The army has dedicated 10 motors

The army has dedicated 10 motor ambulances for service in France, and will, it is expected be driven by Salvationists. They have been recognized by the war office in London, and will assist in removing the wounded to the hospitals. The army in Canada has given \$10,000 towards this gift. There are altogether about 13,000 Salvationists at the front.

TOM SMITH, HAMILTON **BUYS SEMI-READY STOCK**

Winnipeg Exhibition is Can- WILL MOVE IT TO HIS STORE IN HAMIL-TON NEXT MONDAY

> Most Expensive Stock of Clothing and Haberdashery Ever Sold in Toronto is Disposed of En Bloc, and Store Will Be Closed Finally on Saturday Night

"There will be rejoicing among the merchants of Toronto when they know that the big stock of tailoring and haberdashery in the Semi-ready store is to be moved to another city," said Tom Smith of Hamilton, who owns the highest class clothing and haberdashery shop in that city. "I have bought the stock for delivery to my store on Monday. While the saie will continue at 142 Yonge street, in the evenlings we will be stock-taking and counting all the goods in the surplue stock rooms.

"I am short on spring stock, as it is hard to get really high-class English fabrics this spring, and my purchase of the Semi-ready stock, at a rate on the dollar, was a fortunate stroke of business for me."

"Why I say the other merchants will rejoice is because the continued sale at the Semi-ready store during the sole." In fact, only one merchant in Toronto has not felt the hurt of the sale, and that store in where Semi-ready tailoring will be sold in future, Many Semi-ready customers have never ceased to clear up many of the odds and ends-broken lines and brek-en stores—before handing the stock over to Tom Smith, on Saturday night.

"We will have a whitwind closing for four days only—and stay open every evening until the last trumpet call on Easter Eve.

"About 1000 dozen R. J. Tooks collars will be sold at 6 cents each, or 70 cents a dozen; when there's only a few dozen left of some shapes, they will go into the bins in front of the store, where linen collars and linen cuffs are being sold at 1 cent each. "In the clothing wardrobes every garment is marked below cost, and some are not within speaking distance of their original cost—for instance, are selling the last of the frock costs and vests for \$16.50; silk-lined tuxedo dinner jackets for \$16.50; silk-lined tuxedo dinner jackets for \$15—and any winter overcoat or ulster, worth up to \$20, the continued sale at 143 Yonge street says they have agreed to clear up many of the odds and ends—broken lines and brek-en stock over to Tom Smith, on Saturday night.

rates and general condition of the market.

Made Earnest Appeal.

S. L. Squires, president of the Ontario Good Roads Association, made an earnest appeal against an increase of five cents per ton on sand, gravel and crushed stone. "Cheap sand, gravel and crushed stone will encourage good road building," stated Mr. Squires, "but if an increased freight rate is made, even of 5c per ton, it will discourage a great many municipalities." He pointed out that even that increase would mean an increased expenditure of \$500 per mile on roadways, or a total of one milition and a half on the proposed program for this year. He contended also that the railway should sive a decreased rate on those particular products on account of the benefits derived by them from a system of good roads.

The members of the board were unable to hear all the evidence at yesterday's sitting and will continue at 10 o'clock this morning in the city hall, when the following matters affecting Toronto will be dealt with:

manek, the captured Austrian commander of Permysl, has arrived at Kieff. His relations with his captors are courteous, and he converses with them in French.

The activity of the Russian Grodno army prevents Von Hindenburg from developing definite action. His forces in the north, his eighth, ninth and tenth armies, have been replenished, but the quality of the new infantry is a great disappointment to the German staff. According to the disposition of his troops, he evidently intends to undertake shock tactics from the north Poland frontier, but days pass without any serious battle. Possibly the Germans will content themselves with attempting to protect East Prussia while the grain crops are being sowed.

Reduction of Minimums.

Attracted by the miniature boom in mining securities and the recent prosperous days enjoyed by the members of the Standard Exchange, and, no doubt, aerboring a little resentment for the manner in which the mining brokers resently threw open the market to Toronto Exchange issues, the latter body speaterday decided to retaliate, and from the time forth the big body will deal inscendingly in unlisted securities, opening the exchange a half-hour earlier opening for that purpose.

Several members of the Standard Exchange houses on ordered and their United States correspondents, and the prospects are that much of this me manner will continue to do the bulk of the mining business in Toronto.

A Good Day's Business.

McINTYRE ORE ON VIEW.

J. Bickell of J. P. Bickell & Co., Standard Bank Building, has returned from an inspection of the McIntyre mine at Bercupine. Mr. Bickell brought back amples from a new vein just cut on the 300-foot level. This vein, Mr. Bickell ays, averages about 12 feet in width, and the samples brought down are plentully sprinkled with free gold showings.

The run from the McIntyre mine this month will be about \$70,000.

Pearl Lake advanced from 2 to 3. The low price alone seems to be attracting some buying. Otherwise it is difficult to understand the movement in view of the fact that the property is passing thru the hands of assignees. The predictions of a movement in Vipond were verified, the issue advancing from 44 at the opening to 46, a new high, and back to 44½ in the later dealings.

MONTREAL, March 29.—Business in grain over the cable continues very quiet. There was some enquiry from foreign buyers for Manitoba spring wheat for April-May shipment, but, as the prices bid were ic to 2c per bushel below cost, no sales were made. The tone of the local market for coarse grains is steady, but the volume of business doing is small, the demand being only for odd carlots. There is no change in flour, for which the demand is slow, both for domestic and export account. Demand for milifeed is fair. Butter is quiet and steady. Cheese is firm, and the demand for eggs is good.

took place in the wreat trade right at the start. No definite signs of any shortenting of the war could be discerned, and the belief was freely expressed that the selling side of the market had been pressed altogether too had in the absence of material new changes affecting the military outlook. Pit offerings were extremely scarce until the May ontion approached \$1.50. Then profit-taking became effective, and a reaction followed, but a fresh swell ensued, and the market finished on the grade at about the top level of the day.

Better Export Demand.

Improved transatiantic demand was reported, the seaboard sending word that export sales included 100,000 barrels of flour. A decrease in the visible supply was not as large as expected. The effect, tho, seemed to be more than offset by scattered complaints of evrop damage by dryness and Hessian fly, and from alternate freezing and thawing weather.

Shorts covered at a lively rate in the corn market. It was estimated their transactions amounted along to several million bushels. The chief incentive to purchase came from the smallness of arrivals, and from a big decrease, in the visible supply.

WINNIPEG, March 29.—Wheat futures opened unchanged to 1%c up, oats %c to %c higher and flax unchanged to 1c higher. Following the opening the market was generally firmer and fluctuations were within narrow limits until near the close. Trading was light, and without any stirring news from the other side of the Atlantic, a waiting attitude prevailing. Inspections were 454 cars, as compared with 395 last year.

Prices strengthened just before the close, futures closing 1%c to 2%c up, oats %c to 1c higher and flax %c to 1c higher. Pincapples—Porto Rico, \$4.75 to \$5 per content.

CORN SHORTS COVERED Oats, Too, Reflected Strength

CHICAGO, March 29.—Wheat developed surprising strength today, influenced to a considerable extent by the fact that European conditions apparently failed to justify recent hopes of an early peace. The market closed strong, at 1%c to 2%c net advance. Corn finished 1%c to 1%c up oats with a gain of %c to 1c, and provisions varying from 5e decline to a rise of 2%c.

BROCKVILLE, March 29.—The third municipal election in Brockville this year took place in the north ward, when Alfred E. Fitton was elected councillor over W. E. Throop, by one of a majority. Fitton was unseated as a member of the town council thru a technicality in his property qualifications, and he sought re-election. The fight was bitterly contested with Mayor Donaldson leading the Throop forces.
