KUROPATKIN IS TRAPPED AGAIN.

Caught by Oyama's Forces and Must Cut His Way Out or Surrender Himself and His Army--Japs Have Occupied Tie Pass.

TOKIO, March 16.--Noon--The Japanese occupied Tie Pass at midnight, Mar. 15. Details of the occupation have not yet been received at Imperial army headquarters. An official bulletin reports the action, and that the Japanese are in hot pursuit of the retreating Russians, but it does not mention any particulars about the fight.

Washington, Mar. 16.--The Japanese legation has received a despatch from the foreign office at Tokio, which says:

"Our advance troops pressing the enemy everywhere and occupied Tie Pass at 12.20 a. m. Thursday." Another despatch to the legation says: "Our detachment occupied Sing King on the 14th."

Santopi, eight miles north of Tie Pass, Manchuria, Wednesday, March 15 (Evening)--The Russians have abandoned their advanced positions on the Fan river, where the desperate attack of the Japanese, Tuesday, was repulsed, and have fallen back upon the defenses at Tie Pass. Previous to the retirement, the supplies of food, etc., collected there were set on fire.

The Russians Trapped. St. Petersburg, Mar. 16.--The news from the front is again very serious. Field Marshal Oyama is striking another blow at the defeated Russian army. In spite of the exhaustion of his forces after the long twelve day struggle for Mukden, he has been able to organize a fresh hurriedly movement in the hope of completing the victory won under the walls of Mukden.

Tuesday's attack upon the Russian advance line at the Fan river, it is now evident, was only a feint, while the blow was struck, a despatch around to get in position to fall upon the Russian rear, and yesterday the blow was struck, a despatch from Santopi to the Associated Press bringing to St. Petersburg the first word that a battle was in progress north of Tie Pass.

That General Kuropatkin was taken by surprise is a fair inference from the manner in which, on Tuesday night, he abandoned the Fan River positions, leaving so hurriedly that stores to prevent them from falling into the hands of the Japanese. It is evident that the Japanese struck in from the west. Tie Pass is practically the gate where the mountains and Liáo river meet, and it commands the whole country northward. With the Japanese in behind the Russian army at Tie Pass, General Kuropatkin's position is extremely critical. Once the Japanese are across his rear in force, Kuropatkin would have to cut his way out or surrender.

Correspondent Is Safe. Paris, March 16.--Ludovic Nadeau, the French newspaper correspondent who was reported from Santopi, eight miles north of Tie Pass, yesterday, to have been killed by Chinese at Mukden, after the Russian's retreat at the same time, that Mr. Little, the correspondent of the Chicago Daily News, was erroneously asserted to have lost his life. He is cabled to his paper, the Journal, that he was made a prisoner at Mukden, by the Japanese, and that he will be sent to Japan, where he hopes to regain his liberty.

Mr. Little cabled direct from Yinkow yesterday, to the Chicago Daily News, that he had been captured by the Japanese and was being taken to Koke.

The Mikado's Thanks. Tokio, Mar. 16.--The emperor of Japan has sent the following message to his victorious Manchurian armies: "Since autumn the enemy erected strong defenses around Mukden, held the district with a superior force and were confident of victory. Our Manchurian armies, however, forestalling the enemy, boldly and vigorously assumed the offensive and after stren-

uously fighting for more than ten days and nights, through snow and biting wind, defeated their strong foe, driving him to Tie Pass, taking tens of thousands of prisoners and otherwise inflicting serious injuries. By this signal victory our Manchurian armies have enhanced the military prestige of our country at home and abroad. We are deeply gratified by the courage and endurance with which our officers and men have been able to achieve such a great success, and we look to you for even greater exertions in the future."

Wants More Trouble. Berlin, March 16.--The German government has informed that the Russian emperor has again put aside all peace suggestions and is unshaken in his resolution to continue the war. All the higher officers of the Far Eastern army recently joined in a petition to Emperor Nicholas not to consider peace, although they have given other opportunities to show the quality of Russian valor, and representing that although they have retreated, they and the army still have the will to fight.

The Cost of War. New York, March 16.--A St. Petersburg despatch to the Temps says: "Expenditure amounting to 800,000,000 roubles for the first eleven months of 1904, indicates the disastrous effects of the war. From various sources, the revenue decreased, compared with the previous year. The customs and shipping receipts declined 20,000,000 roubles, and the peasants' land payment 9,000,000 roubles, and the excise receipts nearly 5,000,000 roubles."

The Snowplow STILL AT WORK To Clear I. C. R. at Dorchester--Trojan Moncher Wedded--Mention Schools.

Moncton, N. B., March 16.--(Special)--Wood Mellish, of the I. C. R., and a well known member of the Trojan Athletic Club, was married at Buctouche yesterday morning. Miss Margaret Murray, formerly of the Strathcona Coal Co.'s office here. The ceremony took place at the home of the bride's mother, Mrs. J. D. Murray, and was performed in the presence of immediate friends of the contracting parties. Mr. and Mrs. Mellish arrived home last evening, and were met by a reception by a number of friends. He was waited on by a delegation from the Trojan Athletic Club, and presented with a handsome Morris chair, accompanied by a congratulatory address. The address was read by F. Weir, and the presentation made by J. W. Humphrey.

The female teachers of Moncton schools have petitioned the school board for an increase in salaries. The board has promised favorable consideration, with probable increases next term. The school has instructed Secretary McCully, to communicate with the local Government, reminding them that the board is without a chairman, pointing out the inconvenience had asking them to appoint a successor to J. T. Hawke, who resigned some weeks ago on account of differences with the board in releasing Miss McBeath to accept the principalship of Dorchester school.

Clear on Johnston's special went off the track near Amherst last night and blocked traffic for five hours. The limited express was held at Amherst on account of the accident. Briefing snow is causing more trouble at Dorchester today. A slow special was sent out this morning to clear the road. No serious blockades is likely.

Wedded Life. At Dorset, N. B., a few miles from Truro, there reside an aged couple, Mr. and Mrs. John McMoner, who have been living in their native village for a life time. They are well and favorably known because of their kindness, which is extended to friends and strangers alike. Mr. McMoner is eighty-four and his wife is eighty-two. They have four children, two sons and two daughters. One of their sons, a doctor, is James, the well-known brackman on the C. P. R. John and Elizabeth. There are also two other brothers. Notwithstanding advanced age, Mr. McMoner is one of the best of health, and superintends his work on the old homestead.

The members of the Y. M. S. St. Joseph will wear the society colors at tomorrow night's performance in York theatre. The members are requested to call tonight at the rooms in St. Malach's hall, for the purpose of procuring the colors.

St. Patrick. Tomorrow is St. Patrick's Day. It will be honored by all New Brunswickers, because St. Patrick was a Kings county man. The original garden native of this province. It is true from which the slips were taken is that Ireland, Scotland, and France still show to visitors, though now all claim the honor of being his birthplace, that there are authentic records to show that he was born in Kings county, N. B., which has been so many distinguished men to this day.

WILL THE CZAR HEED THE GODDESS?

NORTH SYDNEY GETS DRY DOCK. The Capital of \$250,000 Has Been Subscribed--Work to Begin Next Summer.

Sydney, N. S. W., March 16.--(Special)--The establishment of a steel railway dry-dock is now positively assured for North Sydney. Capital of \$250,000 has been subscribed, most of which is held by Joseph Leiter, the famous wheat king, and other people in Chicago. The federal government has agreed to a subsidy of one and one-half percent upon the capital invested. The local government will also give a subsidy and the town of North Sydney a substantial bonus.

The work on the construction of the dock will probably begin early in the summer. The directors of the Gibson Foundry Company met here last evening, and decided to sell the property. The foundry has been idle for some time. The directors of the Gibson Foundry Company met here last evening, and decided to sell the property. The foundry has been idle for some time.

The fish market was well supplied today, the retail prices are: cod, and haddock, 6c; smelts, 10c; lobsters, Newfoundland herrings, 11c; hobs, 25c; halibut, 18c; clams, 30c.

The bank clearings for the week of March 16th, were \$71,097, an increase of 127,527 of the corresponding week of this month, last year.

FACTORY ACT TO BE PASSED. Along Lines Suggested By Commission--To Amend the Game Law--Foundry For Sale.

Fredericton, N. B., March 16.--(Special)--It is understood that the government will introduce a factory bill this session. The bill will probably prohibit the employment of children under fourteen, and restrict the hours of labor for women and girls. Manufacturers will be compelled to provide greater safeguards against fire, and modern sanitary conveniences so that the health of employees will not be endangered. The commission recommends employment and factory inspectors, and that all factories be licensed to conform with the survey general in regard to proposed changes in the game law. It is said to be the intention of the government to increase the non-resident license fee to fifty dollars, and resident license fee to five dollars.

The remains of the late Dr. Robert MacLachlan, who died at Holbrook, Arkansas, from lung trouble, were brought here by the noon train today and will be buried tomorrow morning with Masonic honors. Deceased was a son of Andrew MacLachlan, formerly of Gibson, but now of Boston, and graduated from Harvard University three years ago. He has been practicing in Dakota, but went to Arkansas a few weeks ago for the benefit of his health. He was twenty-seven years old and unmarried.

The automobile will be taken up by the municipalities committee of the legislature next Tuesday, when those interested in the measure will be given a hearing.

The Sun this morning was dated March 19th. This is not fair to St. Patrick, whose anniversary is thus wiped off the calendar.

THE "ST. CROIX" BACK. Eastern S. S. Co.'s Flyer Has Been Generally Overhauled and Improved.

The Eastern Steamship Company's steamer St. Croix, Captain Thompson, sailed this morning on her first trip of the season, for Boston via Eastport.

The St. Croix has been on the coast nearly six weeks in Boston, and has been put into magnificent condition. She has been completely repaired and overhauled from stem to stern. The traveling public by this line during the summer will have the best boat on the Atlantic coast.

The Calvin Austin, which has been on this route, has been transferred to the Portland division, taking the place of the Governor Dingley, which vessel will haul off for two weeks for a general overhauling.

SEAMEN'S MISSION. During this week, many enjoyable concerts have been held in the Seamen's Mission rooms.

Last evening a fine programme was provided for the men of the sea, by Miss L. Lovett, President of the ladies' auxiliary, it was as follows: piano solo, Miss A. Thompson; vocal solo, Miss M. De Cue; harp solo, Miss Carrie Baillie; violin solo, Miss Nellie Thompson; vocal solo, Mr. Brady, of the Ionian; piano duo, vocal solo, Miss Camden; and reading, Miss Carrie Baillie.

Refreshments were served at the close.

BEEF TRUST MEN OFF FOR EUROPE.

Sailed Hastily From St. John Yesterday on Stmr. Lake Erie --Wanted in Chicago as Witnesses in Celebrated Beef Trust Litigation.

The Times last evening published an exclusive local story to the effect that four notable visitors from Chicago who had been in the city for several days, sailed for England on the steamer Lake Erie, yesterday afternoon, and that it was believed the men were making a prolonged visit to the old country to escape being called upon as witnesses in the litigation against the American Beef Trust which opens in Chicago on March 20.

The Times had more information but until it was corroborated, it was deemed inadvisable to print it. It is now learned that the men referred to, can probably tell more about the workings of the Beef Trust than anyone available, and that it was decidedly to the interest of the trust magnates, to get them out of the way for the time being, lest under the pressure of a public trial, they might make known certain facts which would be inimical to the trust's interests.

There is no doubt that the visitors who found temporary lodgement in St. John, could tell much of the trust's inner workings, if they so desired, for the men who sailed on the Erie yesterday, were high officials in the allied packing companies, which constitute the trust.

Who They Are. They were: F. A. Spink, traffic manager, of the National Packing Company; George S. Roberts, salesman in the employ of the same concern; J. Brennan, a department manager of Swift & Co., the millionaire packing concern; E. A. Allen, formerly secretary of the Hammond Packing Company, which was absorbed by the National Packing Company, which are well known and who was not registered with the others, but who, kept them in the dark as to what was going on in Chicago while they were in St. John. The party arrived here on Saturday morning, and registered at the Royal Hotel. Shortly after their arrival they presented themselves at the C. P. R. offices with letters of introduction from N. Sutherland, from G. M. Bosworth, fourth vice-president of the C. P. R. in Montreal.

P. R. officials accordingly showed them every courtesy and they were freely entertained in a quiet way while here.

Were Not Backward. To the C. P. R. officials and others whom they met they did not hesitate to reveal their connection with the great packing industry. Mr. Spink stated that he was going to England to look over the foreign market and to investigate opportunities for, and conditions of the beef trade.

The other members of the party were said to be branch managers and were on their way to take up appointments in Europe.

Mr. Spink intimated that they were to be abroad about three months and would return to New York at the end of that time. They were said to be on their way to take up appointments in Europe.

At the office of the United States Marshall Ames in Chicago, there are however, more unserved subpoenas for witnesses in connection with the Beef Trust cases. These subpoenas were returned with the information that the parties wanted could not be found within the jurisdiction of the court.

It is a noteworthy coincidence, that while this was transpiring in Chicago, Messrs. Spink, Allen, et al, admittedly high in the councils of the trust, hastily took ship from a port more than a mile from Chicago, and are now on their way to England and to safety. The Lake Erie, the ship on which they sailed, does not call at Halifax, but makes the trip from St. John to Liverpool, direct. Consequently, the fugitives, if such they are, temporarily secure from pursuit.

It became known at Chicago, last night, that the men had departed from St. John and half the night, the telegraph wires were kept hot by Chicago newspapers, desiring to learn full particulars of their flight. The Times has received the following despatch from Chicago in reference to the case.

The Chicago End of It. Chicago, Ill., Mar. 15.--(Special)--Reports reached the United States Marshall Ames' office yesterday, that several important witnesses, in addition to those who sailed for England from St. John, had left the city on an exclusive local story to the effect that four notable visitors from Chicago who had been in the city for several days, sailed for England on the steamer Lake Erie, yesterday afternoon, and that it was believed the men were making a prolonged visit to the old country to escape being called upon as witnesses in the litigation against the American Beef Trust which opens in Chicago on March 20.

THE WEATHER.

Milder weather predicted for Friday.

Another Account. The following despatch, was received from Chicago last night: Chicago, Ill., March 15.--District Attorney Bethna refused tonight to say whether the four men who sailed from St. John today did so to escape warrants or subpoenas in connection with the coming prosecution of the beef trust, but by the despatch above, by the United States marshal, and the secret service here, it was plain at least that the men were considered as important witnesses.

They are connected with the Hammond Packing Company and the National Packing Company, which are well known and who was not registered with the others, but who, kept them in the dark as to what was going on in Chicago while they were in St. John. "I have more money than I know what to do with. So have you. It is absurd for us to marry, and put all our money together. It isn't right. You must choose some poor girl, and I a penniless man..."

"I don't care for money. I care for you. I care for the life we can live together. I care for the life we can live together..."

"I have, too," she gasped. "Have what, darling? I queried. "Give me everything away. I was just writing to you to tell you that I was tired of you for my wretched money, and it's all gone, gone, gone!"

"I don't think so at the time I did it. I responded smilingly. "It is the name of Pauline Mowbray, spinster. I suppose her subsequent marriage..."

PROFITLESS DISCUSSION.

The discussion in parliament yesterday on the separate school clause in the northwest autonomy bill was interesting, but inconclusive. It was the clever fence of masters of debate, making an advantage without disclosing their own position.

NEWS FROM NORTH END

A North End Man's Woes.

A north end man is looking for his wife. Incidentally he is also looking for his store. The presentation of the grand jury will have a tendency to make the citizens sit up and think. Manifestly, grand juries have not outlived their usefulness.

CIVIC CONTRACT.

Mayor Carter Harrison of Chicago declares as a result of experience in his city that civic work is better done by day labor than by the contract system. Opinions differ a good deal on this point, but there is a great deal of force in what Chicago's mayor says.

A large proportion of municipal corruption is directly attributable, first, to the method of performing important municipal work by the contract system; and, second, to the giving of control of public utilities to private hands.

Under the contract system, public works, both great and small, is given promiscuously to the lowest responsible bidder, under plans and specifications carefully and accurately drawn. Theoretically, no criticism may fairly be directed against the system. There is, however, a vast difference between theory and practice. Let us suppose that a given piece of work, the lowest bidder is an unscrupulous fellow, who has been asked and received a given piece of work. The lowest bidder is an unscrupulous fellow, who has been asked and received a given piece of work.

Capt. Weldon is Better. Captain Solomon Weldon, a popular sportsman of the north end, is owing to ill health, was obliged to leave the city about a year ago, arrived from disease yesterday, and is much improved.

Minor Notes. A number of north end anglers tried their luck on the Kennebec yesterday. Among the party were Charles W. Holder, Wilbur Mahoney, and Wm. Holder. Mr. Higgins succeeded in landing four dozen good sized fish.

A MOLASSES CASE. In the Exchequer court of Canada, in the matter of Louisa G. Crosby, claimant, and His Majesty, the King, respondent, R. O. Stockton has been appointed for the purpose of taking the examination of the discovery of the above named claimant, and has appointed Friday, the 17th inst. at 2:30 o'clock, as the day to take such examination.

OBITUARY.

James Davis. James Davis, one of St. John's oldest printers, and who had been connected with the Daily Telegraph since its establishment thirty-five years ago, died last night at his home on White street.

Mr. Davis was a practical printer, having passed through all the stages of the business. In 1870, when he served in the old Morning News office, and worked his way up, until he was appointed foreman of the composing room. On the resignation of the late George E. Fenny from the partnership, he became one of the owners, the firm being known as Willis, Davis and Smith.

Advertising Suggestions FOR MERCHANTS.

Writing the Ad.

"Who am I talking to?" asks the wise advertiser when he pens an ad. "I am talking to the public likely to buy my goods. I must speak to them in their own language, and must place myself in their atmosphere when I write an ad. The answer is right but it is a hard matter to get out of one's own atmosphere. It is not enough to say your goods are best. Any one can say as much. This does not convince. Tell everything about the article advertised, the things the prospective customer would ask to know before she buys the goods. Anticipate the thoughts of a possible buyer, bring out all the good points of the article, describe it fully in the ad; omit nothing which you think would create a desire to buy. Make your ad a word picture, give the price, and if the price is low, give a truthful reason for the low price. Then place the ad in the Evening Times, the paper that everybody searches through every night for bargains, and await the rush on the morrow.

POLICE REPORTS

The police removed a bill board from the head of King street, and took it to the central police station.

The police report a dangerous hole in the sidewalk, in front of No. 248 Main street, north end.

GRAND JURY WANT CHANGES.

(Continued from page 8.)

services of a man. With this explanation you will understand that the patrol force for the whole city including the worst side does not average more than 25 men. Two of these are on duty entirely in Carleton, leaving 27 men to be divided between day and night duty in the north end, and City proper. In our opinion, an inadequate number.

The City proper is divided into seven patrol beats, the north end into four. To give you an idea of the size of these beats we would say that number four beat in the City proper is bounded by Waterloo and Union street, and is all the district between these two streets and Court-enay Bay.

Smallest of the beats could not be even walked over in one hour. If the full complement of thirty men on each beat, twelve are detailed for day duty and eighteen for night duty. The method of night duty is as follows: Twelve men guarding the City proper, and three men guarding the north end of the whole city of St. John. Another regulation is that officers who have made reports in the past go off duty at 3 a. m. if not, they remain on duty until 5.30 a. m.

With eleven beats in the City, and only 18 men available, two men cannot be allotted to each beat, and an important residential district in the city that has not been patrolled for over five years. We believe that the present system is antiquated and that the force at its command, and the force is entirely insufficient for a city of 40,000 people. With the introduction of the new police methods throughout the world, were changed to suit the changed conditions. Your nearly all police in business or residence at all hours in the central station, and ask that an officer be sent to the mayor, and also to the City Council, when this is done the answer is "We have no one to send, all officers are on duty and are busy generally an impossible thing to do." This should not be a reserve of officers in the police stations and a conveyance to transport them quickly to where wanted.

In our opinion, to accomplish what is required would be to establish a modern police alarm system, with an increase of 100 to 150 men, working on 8 hour shifts, which would mean an increase of 800 to 1,200 men, which the new force would remain for 8 hours on call, and the rest of the force would be on duty for 24 hours. This would mean an increase of 800 to 1,200 men, which the new force would remain for 8 hours on call, and the rest of the force would be on duty for 24 hours.

Praises Chief Clark. A member of the grand jury in talking with the Times this morning referred to the great amount of work which the Chief of Police has to attend to. He said he could not see how such a thorough manner. He considered that the system of identifying criminals which is in practice in this city have no idea the amount of work that the chief has to contend with.

He had called at the office of the chief a few days ago, and was shown the various methods by which criminals are apprehended, and the other many departments of police work which are looked after in a thoroughly business-like manner. He considered that a larger force of men should be placed at Chief Clark's disposal, as they were very much needed.

LUMBERING IN NEWFOUNDLAND. D. A. Sargent, representing the New Lumber Co., of Newfoundland, and who has been here for the past few days at the Grand Union, will leave here for St. John's on Saturday.

A day or so ago a want ad. appeared in the Times for an experienced millwright. Next day several competent men called on Mr. Sargent, applying for the position. Mr. Sargent selected those Quinlan, who is well known as a millwright and one of the best in this locality. He will accompany Mr. Sargent next Saturday to Sydney and they will work on the Bruce the first of next week.

Mr. Sargent says that he has been informed that the railway blockade in Newfoundland has been cleared up, and that upon their arrival at St. John's they will have no difficulty in reaching the scene of the lumber operations, which is at Moncton.

Judge Forbes' Reply. Judge Forbes in replying, thanked the foreman and members of the grand jury, for the efficient way in which they had carried on their investigations, and for the very thorough and admirable report which had been submitted. He heartily concurred with them in their recommendations, and he would see that a copy of the report was forwarded to the attorney general, for his consideration.

He would also have a copy sent to the police magistrate, so that he might have an opportunity to see into it. He thought the commendations in regard to the report should be adopted.

Referring to the Opera House section, of the report, he said, it was within the power of the mayor of St. John, to see that the law was properly carried out, and in case anything should transpire that would result in loss of life, he would be liable to indictment as a party to the affair. He would have a copy of the report sent to the mayor, and also to the school board.

In concluding, he thanked them again for their work in this connection, and said he would take all the steps in his power, to see that the recommendations were carried out. The grand jury was then discharged.

FUNERALS.

The funeral of the late Charles F. Kinross, took place this afternoon at 3 o'clock. The large procession of mourners and friends of the deceased left his late home on Charlton Street at 2.45. WILL HONOR THE MEMORY OF IRELAND'S OWN SAINT.

Sons of the Old Sod in St. John Will Actively Celebrate St. Patrick's Day by Masses, Entertainments and Banquets---A Word About St. Patrick and His Work.

The spirit of St. Patrick's Day pervades the atmosphere and all true sons of Erin are making elaborate preparations for that greatest of all days on their calendar, both church and social. Every one who has a strain of Irish blood in his veins will wear a bit of green ribbon or a shamrock pinned tomorrow, and thousands of Irishmen will parade through the streets of many cities in honour of their titular saint.

In this city there will be masses in the morning, and entertainments and banquets in the evening. The members of the A. O. H., are to attend High Mass at the Cathedral at 10 o'clock, when a special sermon on the life and work of St. Patrick will be preached by Rev. W. Holland. All the entertainments in the evening are for the benefit of the orphan. Members of the C. M. B. A. and the A. O. H. will banquet at the conclusion of the entertainment in York Theatre, the signer at White's Restaurant and the latter at the Alexander Club.

The York Theatre dramatic club of the Young Men's Society of St. Joseph, will present a three act drama, entitled "All for Gold." The cast of characters is as follows:--

Alfred Harwell, hair to Harwell. State ... Norman I. McColgan. Adolphus Harwell, ... Gerald Burke. Dick Ditcher, alias the Duke ... W. McDonald. J. H. Ronald, a detective ... C. P. O'Brien. Solomon Isaacs, who works on a ... A. P. O'Brien. Patrick O'Flynn, a boy to ... J. O'Connell. Professor Augustus Deemer Melno ... Frank Dennis. Geo. Washington Jones, a writer ... Wm. B. Robert. Mr. Benson, clerk of the Metropolitan ... J. O'Connell. J. O'Connell, ... Michael Donnelly. Bill, gentleman of leisure ... Geo. Stafford. Patterson, servant, ...

Specialties will be introduced between the acts. A matinee will be given in the afternoon. For this occasion have been sent to the Catholic orphan, the Protestant orphan, and the children of the Wiggins institution.

Read what she says:--"It is now about two years since I was cured of a terrible attack of Erysipelas, with which I had been afflicted for about ten years. I had tried almost everything, including medicine from several doctors, but could get no relief. I had given up my case as hopeless, but I procured five bottles of Burdock Blood Bitters, and it completely cured me. In fact, the cure had been permanent. It is now two years since I took Burdock Blood Bitters, and I have not had the slightest sign of the disease returning. I fully believe that your wonderful remedy has taken it so completely out of my system that I shall never be bothered again with it. I have the greatest of faith in Burdock Blood Bitters."

THE RING

Boxing Last Night.

Jack Power's boxing pupils gave another thoroughly clean and interesting exhibition of their proficiency in the manly art in Mr. Power's club last night. There were about 200 spectators present and when they left there was but one opinion--that Mr. Power had furnished an evening of excellent entertainment in the manly art, and conducted it without an objectionable feature.

THE FIGURE SKATER.

A Numerous Individual in New York This Winter--Some of the Difficult Feats He is Addressing Himself to Learn.

Two consecutive old fashioned winters have given skating a vogue in New York such as it had not known in years. There has been a marked increase in the number of skaters, and several who are practicing fancy skating take two lessons a day.

Up to the rink much patronized by Manhattanites who want show room to take a turn on the ice eleven rinks are now employed where last year there were only two and everyone who skates is a skater, not so much with the exception of a few who are merely skaters.

Many of the enthusiasts are women, however, every day and several who are practicing fancy skating take two lessons a day.

It requires a nice balance, most of the skaters, however, are not skaters, but skaters, and are being taught by the skating schools.

Mr. Terry's home life at Priory Lodge, is just that of any other prosperous professional man, of domestic as well as artistic tastes.

Four or five acres of delightful garden, a tennis court, an orchard, a tiny poultry farm, hot-houses, long tall walls, famous for their peach trees, and a quality picturesque, old smoking den, hidden away in a quiet shrubbery, and panelled with the attractions outside of the house.

Mr. Terry's company from Terry's Theatre, London, includes the following well-known English actors: Miss Nellie Mortimer, Miss Nellie Malcolm, Miss Olive Wilton, Miss Beatrice Terry, George Howard, A. Hyton Allen, A. Cornell, Tom Lovell, Johnson, and George Peoria.

Nova Scotia Suffers from The Effects of the Winter.

Truro, N. S., March 16.--In no part of Canada has the almost unprecedented "Old Time" winter, now falling away on the latter end, been so severe and caused so great financial loss as in Nova Scotia.

Being practically isolated from the rest of the world for now nearly two months, has caused suffering on a large scale, and the people here are largely used to little activity in trade.

RICH FIND IN A ROYAL TOMB.

Gold and Alabaster and Oil and Wine Beside the Mummies of Forgotten Kings.

London, March 15.--The discoveries in Egypt of Mr. Davies, the American Egyptologist, of a royal tomb containing rich treasures are regarded as a whole as surpassing any yet made in that country.

It was evident that the tomb had been entered by robbers shortly after its construction. They had probably decorated, but were filled from end to end with unworked silver spoils of ancient Egypt.

With the exception of a few mummies, the tomb was filled from end to end with unworked silver spoils of ancient Egypt. Mummy cases encrusted with gold, huge alabaster vases of exquisite form and chairs and boxes, brilliant with paint and gilding were piled in bewildering confusion.

In a sepulchral chamber about thirty feet long, 15 feet wide and 8 feet high, on the left of the entrance, there were found two great wooden sarcophagi painted in black and gold. With these were the remains of a man and woman. There were two cases. The other one was completely covered with silver-plated on the outside and with gold leaf on the inside.

The inscriptions show that it was the burial place of Yua and Thua, the parents of the famous Queen Teta, the wife of Amenhotep III., of the Eighteenth Dynasty. Beyond the tomb the ground was covered with broken large sums, likewise other railroads in this province, and while a few farmers have lost some stock, the majority have been able to carry good wages in the snow banks.
