Caught Tampering With Steering Gear on U. S. Transport in War Zone

"Russian" of Teutonic Cast Now Is Prisoner WAS ON WAY TO EUROPE

Documents and Pictures Found in His Cabin—Austrian Arrested in Bellevue Medical College After Find of Vials of Disease Germs

Baltimore, Md., Mar. 6.—Caught red-handed in the navigating room on the hurricane deck of a United States transport when she was in the danger zone and nearing a European port, Edward O. Twenty-three years old, supposed a Russian, and lookout man aboard the transport, was arrested when the steamship reached an Atlantic port and is in the city jail here, a government prisoner. A warrant charges him with violation of the federal espionage act.

HOW HONORS HAVE BEEN WON IN WAR BY BRAVE CANADIANS

Distinguished Conduct Medals Come to Several for Stirring Deeds of Valor

London, Mar. 7.—(Canadian Associated Press)—Stirring thumb nail sketches of individual bravery are related in the Official Gazette announcing the conferring of Distinguished Conduct Medals on Canadians.

Tilsburg Has \$100,000 Fire. Tilsburg, Ont., Mar. 7.—Fire last night destroyed the main building of the Huntley Mfg. Company, loss probably \$100,000.

Idle on Clyde While Empire Badly Needs Ships

Baron Pleads For More Information About Losses so as to Spur All To Greater Endeavor

London, Mar. 7.—Baron Inchepe, complaining at a meeting of the chamber of shipping of what he termed the unpromising outlook, said that not a sound had been heard along the Clyde since noon on last Saturday. It might be, he suggested, that no war was going on and that no war ships or destroyers to hunt submarines were required. He said he thought more information about shipping losses might be given the people to make them appreciate the gravity of the situation, adding:

"Our tonnage is being sunk at a rate of which the people have no conception. There is a curious lack of realization in many parts of the country as to the grave situation with which we are faced."

GERMANS CAPTURE JAMBURG

Advance Towards Russian Capital Is Being Kept Up

Sweden New R. ported Satisfied With German Occupation Of The Aland Islands — Austrian Cheers Great Announcement Of Peace With Roumania

London, Mar. 7.—The Germans have captured Jamburg, east of Narva, and the Turco-German offensive is continuing beyond Trebizond, says a Russian official agency dispatch received here today. This action, adds the statement, is despite the official announcement by the German high command that hostilities against Russia have ceased.

New York, Mar. 7.—Raiding the room of Theodore Erdos, an Austrian, in the Bellevue Medical College, where he is employed as a chemist, detectives last night discovered several vials containing disease germs. Army intelligence officers were notified immediately. Erdos is detained on a charge of grand larceny in connection with the theft of a power-saw.

Berlin, Mar. 6.—In response to the Finnish government's request for military assistance, German troops have been landed on the Aland Islands.

London, Mar. 7.—The German advance eastward into Russia stopped early on Tuesday, according to an Exchange Telegraph dispatch from Petrograd dated Wednesday, but was resumed during the night on several sectors in order to allow the Germans to reach and consolidate the line between Jamburg and Giftof (east of Lake Peipus and south of Narva). It is reported in Petrograd that banks have been re-opened, the property of landlords restored and other conditions approaching the old regime revived in towns occupied by the Germans.

Amsterdam, Mar. 7.—Intervention by Germany in Finland and the consequent ill-feeling against Germany in Sweden is criticised severely by independent Socialists and Progressive members of the Reichstag, says a Berlin dispatch.

Amsterdam, Mar. 7.—Premier Von Seydler, in announcing the signing of a preliminary peace treaty with Roumania in the Austrian Lower House, said: "Permit me sincerely to congratulate the House that, by the military and political co-operation of Austria-Hungary with faithful allies, this fresh and important stage on the road to a general peace has been reached."

Amsterdam, Mar. 7.—A preliminary peace treaty signed on Tuesday evening at Bucharest, according to a despatch from Bucharest, was signed by Foreign Secretary Von Kuhlmann for Germany (Foreign Secretary Cernin, for Austria-Hungary; M. Montchegoff, vice president of the Sobranje, for Bulgaria; Talat Pasha, grand vizier, for Turkey; and M. Carolotziana for Roumania. It was agreed that the armistice between Roumania and the Central Powers should run for fourteen days from midnight March 5 with a period of three days for denunciation. Complete agreement was reached between the signatories that the final peace should be concluded within this period on the basis of the preliminary treaty.

As to the Throne.

Amsterdam, Mar. 7.—The dynastic question in Roumania is an internal one. This declaration was made by Baron Von Dem Bussche-Haddenhausen, under secretary for foreign affairs, in the Reichstag in reply to observations by other speakers regarding the future of the Roumanian throne.

It had been reported from several sources that Prince William of Hohenzollern, brother of King Ferdinand of Roumania, was to succeed his brother on the Roumanian throne.

Governor, In Uniform of Privy Councillor, Opens Legislature

Innovation Introduced By Hon William Pugsley

IMPORTANT SESSION BEGUN

Less Pomp and Glory Mark Ceremonial, Because of the War—Some Visitors From St. John Present as the New Brunswick House is Started at Its Work

(Special to The Times.) Fredericton, Mar. 7.—War times have wrought changes in the ceremonial of the opening of the provincial legislature and at 8 o'clock this afternoon the provincial parliament embarked upon one of the most important of its seasonal duties—federation with less pomp and glory than have marked any previous opening. Even the military guard of honor has been dispensed with and the precedent established last year of omitting the salute of fifteen guns was followed again this year.

Since the last session a new lieutenant-governor has taken office and among those who follow such matters with interest there had been some curiosity regarding his first appearance and the question of what uniform, if any, he would wear. This question was answered when Lieut.-Governor Pugsley appeared in the gold laced uniform of blue of one of His Majesty's privy councillors, this being the first occasion when an occupant of the office to appear so apparelled. A touch of color was added by the uniforms of the officers who attended the governor but it was the dull color of khaki, affording another reminder that the empire is at war.

His honor was attended by his private secretary, R. S. Barker; his aide-de-camp, Lieut.-Col. J. L. McAvity and Major W. J. Osborne, and his military staff included Brigadier-General A. H. MacDonnell, Lieut.-Col. A. H. Powell, Captain Heron and Captain F. G. Goodspeed of St. John.

"UNSYNKABLE" SHIP HAS REACHED PORT

New To Be Tested As To Ability To Withstand Torpedo Attack

An Atlantic Port, Mar. 6.—The former Austrian steamer Lucia, which has been converted into a torpedo boat, is here today to undergo tests to determine her ability to stand up under torpedo attack.

FRANCE MEANS TO GET IT

Paris, Mar. 6.—Under existing legislation the French government has the power to sequestrate money received by persons convicted of treason or espionage as the price of their crime.

As to the Throne.

Amsterdam, Mar. 7.—The dynastic question in Roumania is an internal one. This declaration was made by Baron Von Dem Bussche-Haddenhausen, under secretary for foreign affairs, in the Reichstag in reply to observations by other speakers regarding the future of the Roumanian throne.

It had been reported from several sources that Prince William of Hohenzollern, brother of King Ferdinand of Roumania, was to succeed his brother on the Roumanian throne.

THIRTEEN CENT BREAD IN SOME OF THE GROCERIES

The Wax Paper Wrapper Done Away With, Some Grocers Ask Extra Cent for Paper and Twine

There seems to be a bit of turmoil with regard to the proper price for which bread should be retailed under food control regulations. In order to cut down the cost the bakers have ceased wrapping their loaves in waxed paper, which had a long ready wrapped to deliver, the baker must be kept in a clean place and wrapped at the store instead of by the baker. With this advance from 18 to 26 cents a pound and wrapping paper more than double its original price some say it cost the retailer instead of the baker the extra cent in wrapping. Some thereupon raised their price to 18 cents a loaf, but others have kept to twelve cents.

WEATHER REPORT

Issued by Authority of the Department of Marine and Fisheries, R. F. Stebbins, part, director of meteorological service

Synopsis.—Depressions exist off the middle Atlantic coast and to the northward of Lake Superior, while pressure is nowhere very high. Light to moderate snowfalls have occurred in Ontario and the maritime provinces, also in Saskatchewan.

Lower St. Lawrence, Gulf and North Shore—Fair today, light local snow on Friday, continued cold.

Maritime—Strong breezes to moderate local gales, northerly, occasional snow today and on Friday.

Superior—Fresh south to west winds, a few light snowfalls or furies, but mostly fair and moderately cold.

All West—Fair and moderately cold today and on Friday.

New England—Cloudy tonight with snow in Rhode Island and eastern Massachusetts; Friday, fair, light warmers in western Massachusetts and interior Connecticut; fresh to strong north winds, diminishing by Friday morning.

SAYS GERMAN PLAN IS TO CRUSH OUT THE RUSSIAN REVOLUTION

Petrograd, Mar. 6.—To a gathering of workmen and soldiers' delegates at Moscow on Monday, M. Prokrovsky, leader of the second peace delegation at Brest-Litovsk, explained the treaty with the Central Powers. Deeply moved, he begged those in sympathy with the democratic revolution not to deceive themselves.

The new frontiers traced by Germany, Prokrovsky declared, constitute a ring of iron around revolutionary Russia. He said the Germans were endeavoring to settle the revolution, the consequences of which were reduced to nothing by the economic demands of Berlin.

The decree nationalizing the banks had fallen into abeyance because the German terms had the effect of converting the banks into German concerns. Military evacuation of Estonia, Courland and Livonia by Russia gave the enemy full authority in those regions.

M. Zimovitch, president of the Petrograd council of workmen and soldiers' delegates; M. Sverdlow and many others from Petrograd addressed the conference. They said the Russian representatives were obliged to sign the peace agreement as a tactical measure owing to the situation brought about by Ukraine in agreeing to ignominious peace. The meeting adopted no resolution.

J. J. MCGAFFREY NOW HAS FULL CONTROL

Large Transaction in Concrete Business Reported From Fredericton

Fredricton, N. B., Mar. 7.—One of the largest business deals completed in this section in some time, recently took place whereby control of Concrete Builders, Limited, was secured by J. J. McGaffrey of this city, and the Fredericton Concrete Co's plant and business purchased and merged with that of the other company. Mr. McGaffrey obtained control of Concrete Builders Limited about January 1, and bought out the other company about March 1.

The plant of Concrete Builders, Limited, will be located at Devon, where the business has been conducted for some time, but will be greatly enlarged. The property of Robert Cochrane has been purchased and will afford additional room. In all about \$40,000 or \$50,000 will be expended upon the plant and January 1, and will be manager of the company, which will have its plant in complete operation about May 1.

REQUEST IS MADE BY STEEL MANUFACTURERS.

Washington, Mar. 7.—Steel manufacturers have asked the government to fix prices on all productions entering into the manufacture of steel, so that the fixed price for steel may be established. They urged that it was inconsistent to set a price for the finished products without at the same time controlling prices of products entering into its manufacture. Raw materials of which steel is made already have come under government control but accessories have not.

The New Senator.

Ottawa, Mar. 7.—An order-in-council appointing Irving R. Todd to the New Brunswick vacancy in the senate will be signed by the governor-general today.

DILLON OR DEVLIN AS THE SUCCESSOR TO REDMOND

Former, However, Might Not Accept The Leadership

TRIBUTES TO DEPARTED CHIEF

SHOT BELGIAN SKIPPER AS HIS SON LOOKED ON

Brutal Murder of Master of Fishing Smack by German of Submarine Crew

London, Mar. 6.—"I am a broken-hearted man." This, according to Father Bernard Vaughan, who was a close friend of Mr. Redmond, was one of the latest utterances which fell from the lips of the Irish Nationalist leader.

London, Mar. 7.—How the members of the crew of a German submarine brutally killed the wounded master of a Belgian fishing smack who refused to leave the vessel, is described in a Press Association despatch from Penzance. The submarine attacked the smack with two members of the crew were wounded. The submarine commander forced the fishermen to row German sailors to the smack in order to place bombs aboard. One of the fishermen was wounded and the helpless skipper through the head in the presence of his son.

INQUIRY INTO LOSS OF FLORIZEL

St. John's, Nfld., Mar. 6.—A court of inquiry met today to determine the responsibility for the loss of the steamer Florizel of the Red Cross Line on Feb. 24, when sixty passengers and thirty-two members of the crew were lost. The court is headed by James Blackwood of the supreme court. The other members are Anthony McDermott, senior officer attached to the Newfoundland station of the British navy; Capt. Edward Eagar, harbor master of this port, and the steamship fleet of the Reid Newfoundland Railway Company.

HARRY A. DORSEY DEAD

Montreal Sporting Promoter Who Also Tried Running Newspapers

Montreal, Mar. 7.—Harry A. Dorsey, amusement promoter, died here yesterday afternoon from pneumonia. He was born in Bridgport, Conn., fifty-seven years ago.

Mr. Dorsey was the organizer of the Dominion Park Company of this city. He was the principal shareholder of the Le Loraine Driving Park, and took a keen interest in horse racing. He was one of the promoters of the defunct Montreal Daily Mail and the Evening News of this city.

HUNS NOW SENDING THE CHILDREN OUT OF BELGIUM

Havre, Mar. 6.—The Germans continue to send Belgian children to Germany. They are also carrying off the rolls from street and local railway tracks. It is said these are being shipped to Germany. He was one of the promoters of the defunct Montreal Daily Mail and the Evening News of this city.

GERMAN STATEMENT RE JAPAN

Amsterdam, Mar. 6.—A Berlin despatch says: "The pretext that Japan desires to secure herself against a German advance in Russia is absolutely ridiculous. This political event will either lead to an agreement between Germany and Russia against Japan or an understanding between Germany and Japan. Japanese settlement in Eastern Asia clearly means the fundamental alteration of the entire world position, which will not be in any way to the disadvantage of the Central Powers."

ACQUITTED IN OPIUM CASE

Montreal, Mar. 7.—Former Alderman Joseph Nault, who keeps a drug store at the corner of St. Catherine and Sunning streets, and his clerk, Arthur Valiquette, were acquitted yesterday afternoon on a charge of having more than \$8,000 worth of opium in their possession for purposes other than medicinal.

It was stated for the defence that before the war opium was worth about \$7 a pound, and worth about \$80 a pound at present, and Nault had merely speculated by buying a large quantity of opium before the rise in price.

HALIFAX SOLDIER GIVES LIFE.

Ottawa, Mar. 6.—Casualties: N. Stewart, Halifax, construction corps, dead.

ALLIED TROOPS HAVE BETTER OF ENEMY IN RAIDS ON WEST FRONT

London, Wednesday, Mar. 6.—(Delayed)—"After two days of wind and rain the weather cleared slightly on the afternoon of Tuesday, says today's official report of aerial operations. Bombs were dropped on railway sidings northeast of Lille. In air fighting two hostile machines were downed and one was driven down out of control. One of ours is missing."

"After dark the Ingelmar railway station and an airfield northeast of St. Quentin were heavily bombed. All our machines returned."

"Tonight's statement on military operations issued reads: "The enemy's artillery has been more active than usual south of St. Quentin and in the neighborhood of Bois-Grenier. Some activity was also shown west of Cambrai and southeast and northeast of Ypres."

Replied By French.

Paris, Mar. 6.—(Delayed)—German raids on the Verdun front last night were repulsed by the French. "Heavier heavy artillery fighting occurred in the regions of Cormy and Rheims. Last night the Germans made raids against Avocourt Wood and northwest of Hill 344 (Verdun front). Our fire everywhere checked the assaults and prisoners, including an officer, remained in our hands. Our lines were bombarded intermittently today in the region of Avocourt and north of Donaumont. At times there was heavy artillery firing at various points in Lorraine and Alsace. On Tuesday three German airplanes were brought down by our pilots and two by the fire of our anti-aircraft guns. Italian Front.

Rome, Mar. 6.—The Italian and enemy batteries on important sectors of the front have again taken up reciprocal firing activity. The statement from the war office today also reports effective work by Italian aircraft. A British aviator brought down a hostile machine. Enemy Raids Fall.

London, Mar. 7.—A raid attempted by the enemy last night east of Epchy, under cover of a heavy artillery barrage, was completely repulsed. The war office reports: "Other hostile raiding parties which endeavored to reach our lines southeast of Bois Grenier and east of Poulcappelle were equally unsuccessful."

"The enemy's artillery has been active in the Scarpe Valley, west of Lens and east of Ypres, and a little before dawn developed considerable activity in the Neuve-Chapelle sector."

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, MARCH 7, 1918

### GOOD THINGS COMING TO THEATRES OF ST. JOHN

CLARA KIMBALL YOUNG CHARMING AT IMPERIAL

Hubert Foster's exquisite novel, "Shirley Kaye," exquisite because of its delightful story, its charming characterizations and its perfect plot—made a profound impression at the Imperial last evening. A large number saw the picture in spite of the unreasonable weather. Never has Clara Kimball Young appeared to better advantage. As the resourceful Shirley, who saved her father from the western clutches of millionaires and finally became madly in love with her chief enemy, she was most engaging. A decidedly local touch was given the picture by the presence in the cast of George Fawcett, one of the big men whom W. S. Hawkins brought here some years ago.

The Mack Sennett comedy "An International Snek," was uproarious fun and the British Weekly supplied the usual war pictures. Mary Galley and Signor Guastino were heard with pleasure. Tomorrow Mark Twain's immortal "Tom Sawyer" will be the Paramount attraction, with Jack Pickford as the redoubtable Tom.

### TONIGHT AT OPERA HOUSE, ALL NEW TOMORROW

If you have not seen Warden's Trained Birds at the Opera House this week, by all means do so tonight—your last opportunity—as it is a rare novelty, one that comes but seldom. This week's programme right through is unusually good and well worth seeing. Two performances this evening, at 7:30 and 9.

### "TOM SAWYER" HERE TOMORROW

Jack Pickford as Mark Twain's immortal "Tom Sawyer," in a Paramount playlet of that name, is to appear at the Imperial Theatre on Friday. This is the latest of a long line of exceptionally successful young boy roles in which Mr. Pickford, the younger brother of "our Mary," has appeared. These are notably: "Seventeen," by Booth Tarkenton; "Great Expectations," by Dickson; "The Varnish," by Owen Johnson, and others. As the redoubtable Tom, Mr. Pickford has proved that his doughnut-stealing, jam-eating days are not far behind, or that at least he has not forgotten them, so thoroughly has he injected the very spirit of boyhood through every crevice of the picture.

### SEE THE GEMS BILL

The new programme is a well diversified one—Robert Warlock, "All Men are a Lie," a big, strong feature; a very funny comedy, and the Fly West as Charlie Chaplin in "The City Cop."

### CHANGES IN HALIFAX HARBOR REGULATIONS

Halifax, N. S., Mar. 7.—A delegation from the board of trade yesterday waited upon Vice-Admiral Storey, senior naval officer here, and asked him to consider certain changes in the harbor regulations to protect and facilitate movement of ships in the harbor. The vice-admiral promised earnest consideration.

### MARRIAGES

BOWEN-MCDONALD.—At the Cathedral of the Immaculate Conception on March 6, by Rev. William Duke, Private William J. Bowen was united in marriage to Elizabeth McDonald, both of this city.

### BIRTHS

ARMOUR.—On March 4, 1918, to Mr. and Mrs. John J. Armour, 15 Johnston street—a son.

### DEATHS

STARKEY.—In Fitchburg, Mass., on March 4, Elsie, wife of George G. Starkey.

FRINGS.—Suddenly, in this city, on the 6th inst., Walter Charles Frings, in the 24th year of his age, leaving a wife and one daughter to mourn.

NOBLES.—In this city, on the 17th inst., Mary, widow of John Doyle, aged 78 years, leaving two daughters and three brothers to mourn.

KNOWLES.—At his residence, 62 St. Patrick street, on the 7th inst., after a long illness, Walter Knowles, aged 70 years, leaving his wife, three sons, three daughters and one brother to mourn.

### IN MEMORIAM

NIXON.—In loving memory of William Thomas Nixon, who departed this life March 6th, 1917.

You are not forgotten, Darling, or will you ever be. So long as my life and memory lasts, I will remember thee. You suffered, Dear, but murmured not, as I watched you night and day, until at last with broken heart I watched you pass away.

### CARDS OF THANKS

Mrs. William Mullig and sisters wish to thank their many friends for kindness and sympathy, also for floral offerings in their recent sad bereavement.

Beverly Warren wishes to thank the employees of the I. C. R., also C. P. R., for their kindness and assistance in his recent accident.

### SIZE LIMIT OF NINE INCHES FOR LOBSTERS

Ottawa, Mar. 7.—An important change in the lobster fishery regulations for the western of the maritime provinces coast west of Halifax harbor has been made by order-in-council. It consists in the establishment of a size limit of nine inches for lobsters and will become effective at the end of the present fishing season. The announcement states that, while the regulation may have the effect of closing the canneries, it will, in a few years, put more money in the pockets of the fishermen, as well as conserve and build up the industry.

### CIVIL ENGINEERS TO HAVE SOCIETY IN CITY

A meeting of the local members of the Canadian Society of Civil Engineers was held at noon today at the Royal Hotel for the purpose of meeting Fraser S. Keith, secretary of the association, who was passing through the city, and also to form themselves into a St. John branch of the society. A Gray acted as chairman, R. Cookbank, secretary. It is the intention of the local engineers, should the branch be recognized by the association, to make the St. John branch eligible to engineers within a radius of twenty-five miles. It is the opinion of the local engineers that such a society would be of material benefit to them and to the community also.

### JOSEPH E. KEIRSTEAD DIES SUDDENLY

Fredricton, Mar. 7.—The death of Joseph E. Keirstead, a prominent resident of Nashwaakias, occurred this morning suddenly. He was found in his fowl house, where he had been working, and died soon after. He was aged seventy-four. Surviving relatives are his wife, five daughters, and three sons and three brothers and two sisters.

### SERIOUS FIRE AT SYDNEY MINES

Sydney Mines, N. S., Mar. 7.—The two McKee blocks, a large barn and adjoining buildings owned by Robert McKee, were burned to the ground today with \$75,000 loss, partly covered.

### FREDERICK DOCTOR IN A LIQUOR CASE

Fredricton, Mar. 7.—A new feature of the enforcement of the liquor act has come to notice, papers today being served upon a physician charged with violation of the act by issuing a prescription for liquor to a patient who had not paid a professional fee. The case probably will be defended.

### DIED TODAY

Mrs. Mary Doyle, widow of John Doyle, died this morning at her residence, 99 Orange street, to the regret of many friends. She leaves two daughters, Mrs. Mary O'Neill of this city, and Mrs. C. H. Hatfield, of Yarmouth, three sons, William, Henry and Alfred Brittain, (all of this city, and one grandson, Sergeant John O'Neill of the Army Service Corps.

### INVALIDED SOLDIERS FROM HERE TO CAPITAL EARLY NEXT MONTH

Fredricton, N. B., Mar. 7.—Brigadier-General A. H. Macdonnell, accompanied by Lieut.-Col. A. H. Powell, inspected the draft of the Central Ontario Regiment at the exhibition buildings this morning and also the quarters of the troops, which were found to be comfortable. The new building of the Military Hospitals Commission also was inspected. It is expected that soldiers now in hospital in St. John will be transferred to the new building the last of the first week of April.

### GERMANS TRY RAID AGAINST AMERICANS BUT IT FAILS

Paris, Tuesday, Mar. 5.—An official statement issued today by the French war office announcing the repulse of German raiding forces on trenches held by Americans in a new sector of the Lorraine.

### BAIL ARRANGED

James B. Crane was allowed out on \$2,000 by Magistrate Ritchie in this afternoon's police court. James E. Williams and J. H. Pullen went security for \$200 each, and the remaining \$1,000 was on the defendant. W. B. Scott appeared for the defence.

### Y. M. C. A. FUND

At two o'clock today the total amount collected for the local Y. M. C. A. work amounted to a little more than \$10,000.

### FOUR ST. LOUIS BROTHERS HAVE MARRIED SERVANTS WHO HAD BEEN TRAINED IN THEIR HOME BY THEIR MOTHER TO BECOME THEIR WIVES

Four St. Louis brothers have married servants who had been trained in their home by their mother to become their wives.

### NEW BRUNSWICK IS TO GET \$25,000

Large Expenditure in Provinces to Encourage the Production of Food

Quebec, Mar. 7.—At a conference today between Dr. Robertson, representing the food board, and the federal minister of agriculture, and the Hon. J. E. Carson, provincial minister of agriculture, the former said that the federal government will give \$25,000 to Quebec and the same amount to Ontario to encourage an immense production of food-stuffs. Nova Scotia will get \$80,000; New Brunswick, \$25,000; Prince Edward Island, \$5,000; Manitoba, \$25,000; Saskatchewan, \$5,000; Alberta, \$25,000; British Columbia, \$15,000.

### WANTS POWER TO SELL ENEMY PROPERTY IN U. S. AS HE DEEMS WISE

Washington, Mar. 7.—Congress was asked today by A. Mitchell Palmer, alien property custodian, for legislation empowering him to sell any enemy property in the United States within his discretion. Such legislation attached to the urgent deficiency appropriation bill was requested by Mr. Palmer before the senate appropriation committee in supplementing President Wilson's recent request for authority to acquire legal title to the German wharves and property at Hoboken, N. J.

The principal reason for authorizing discretionary sale of enemy property as well as the acquisition of the North German Lloyd and Hamburg-American lines, Mr. Palmer told the committee, was to hamper Germany and at the same time aid the United States in the war.

### FAMOUS SOPRANO TO BE HEARD HERE TUESDAY

Madame Odette Le Fontenay, the Noted French Operatic Soprano, in Tense Test With Edison Re-creation.

Some time ago, it was learned that an endeavor was being made in musical circles to arrange for a New Edison-Tone Test, the musical and scientific demonstration that has been attracting so much attention in the musical centres of the United States in recent months. It is now announced that, through the courtesy of Mr. Edison, the music lovers of the city will be given an opportunity to hear one of these unique tests and that Madame Odette Le Fontenay, the noted French operatic soprano who last year was a member of the Metropolitan Opera Co. of New York, will be the principal part in the demonstration. Many prominent musicians have already received invitations to the affair which will be held on Tuesday afternoon, March 12, and to which admission will be by invitation only.

Madame Le Fontenay, although a young woman has had a brilliant career in opera and concert in Europe. Her voice is a pure lyric soprano of great brilliancy and has a wonderful clarity and charm. The beauty of her voice alone would be sufficient to make her renowned among vocal artists, and her singing her the favor that she enjoys. Her appearance here is, in fact, a notable event and the affair that she appears in an ensemble of a new art, lends the recital in which she appears a rare distinction.

### CONDENSED NEWS

A bill for abolition of property qualifications for candidates for municipal honors was given a second reading by the legislature of Ontario yesterday and to the municipal committee.

### DILLON OR DEVLIN AS THE SUCCESSOR TO REDMOND

(Continued from page 1)

That was a great thing to say of any member, he continued, but it was the greatest thing to say of a candidate who was engaged in one of the fiercest controversies of our time. There might be difference of opinion as to the policy which he stood for, but there was absolutely no difference of opinion as to the ability, judgment, dignity and honorability with which he devoted to the policy.

### PERSONALS

### NOTHING TO DO WITH PRESS STATEMENT

London, Mar. 6.—(Delayed)—Chancellor Andrew Bonar Law said in the House of Commons today: "The premier has assured me privately that he has absolutely nothing to do with anything that has appeared in the press regarding Admiral Jellicoe, and that the suggestion is entirely unfounded that any member of the government either the premier or Sir Edward Grey, had taken such a deplorable course."

### AGED 102 YEARS DIES OF FIRST ILLNESS

Leominster, Mass., Mar. 7.—Joseph Bush, 102 years old, died here last night after an illness of ten days. Relatives said it was the first time he had been ill. He was born in St. Hyacinthe, Que. He is survived by eight children, thirty-eight grandchildren and twenty-five great-grandchildren.

### VOICE OF HOLLAND HEARD

Amsterdam, Mar. 6.—In an obviously inspired article the semi-official Norddeutsche Allgemeine Zeitung warns neutrals in connection with the negotiations by the United States to accept a neutral position and argues that vessels so acquired assume a hostile character and must be treated as such, no matter whether the tonnage is employed within or without the barred zone.

### Geldart-Horsman.

At the home of Mr. and Mrs. Lather Harris in Salisbury, on March 4, Miss Hattie Horsman, daughter of Christopher Geldart, of Stevens Mountain, N. B., and Geldart, son of Mr. and Mrs. Moses Geldart, of Little River, Albert County.

### THE BEST QUALITY AT A REASONABLE PRICE

### Good Looking Watches and More

When you buy a Watch, buy something more than a mere appearance. The case should be good, and a good case will look well. But the movement and its reliability as a timekeeper is the essential consideration.

When you buy a Watch here you get a reliable timepiece, one that you can depend upon to tell you the exact time, a watch that is outside beauty and inside quality.

You are cordially invited to come in and see our stock of watches.

### GEN'S NEW BILL

A PLEASING ONE

Robert Warwick Picture Gripping: Billy West Comedy and a Very Funny Comedienne

Three excellent features well entertained Gen patrons in the new programme presented last night. Outstanding was Robert Warwick, noted English actor, in "All Men."

The title itself is suggestive of the actor, but this which occurs in the unfolding of this story. The name of Robert Warwick is also very suggestive of the stage and before the campaign he has had since the campaign began eight months ago, 1915, recrus being sent to Canada, as compared with 888 the week previous.

### BOOM IN STATES IN RECRUITING FOR ARMIES OF BRITAIN AND CANADA

New York, Mar. 7.—Recruiting for the British and Canadian overseas forces has taken a decided jump in the States, probably due to the recent draft convention between the United States and Great Britain. Last week was the biggest week the British and Canadian recruiting mission has had since the campaign began eight months ago, 1915, recrus being sent to Canada, as compared with 888 the week previous.

### IN WALL STREET

Trading was extremely light and narrow in the first hour of today's stock market, irregular changes in a few instances exceeding small fractions. General Motors was the only striking exception, reacting three points. The inactivity was attributed largely to increasing uncertainties in the foreign situation. Shipments, copper and a few equipments were firm, but rails and futures yielded to moderate pressure. Liberty bonds were steady.

### CORN AND OATS

Chicago, Mar. 7.—Fresh strength developed in the corn market today, owing more or less to assertions that much corn acreage might be abandoned as a result of a serious shortage of seed corn throughout Illinois, Indiana, Iowa and Wisconsin. Complaints of a lack of cars in Iowa tended, also, to harden values. March delivery touched the maximum price allowed, \$1.28 a bushel. Opening quotations, which varied from the same as yesterday's close to a shade off, with May, \$1.27 1/8 to \$1.27 1/4, were followed by a slight general advance. Scarcities of arrivals gave an upturn to cents down to 1-8 to 1-4 up, with May 84 1-2 to 85 3-4 cents, the market scored moderate gains.

### MOUSE STIRS 5TH AVENUE

Crowds Watch Its Futile Fight for Life in Crowded Traffic.

(New York Times).

Sidewalk traffic on Fifth Avenue, between Thirty-seventh and Thirty-eighth streets, was seriously interfered with yesterday afternoon by a little, badly scared mouse. It was in the middle of the street, running hither and thither in search of safety from the mass of automobiles and other vehicles. As fast as it changed its course it was almost under the great tires going in another direction.

Its frantic efforts attracted the attention of passersby until they were standing two and in some places three deep watching the little animal, whose movements of the little animal, whose cost could with difficulty be distinguished from the asphalt. The chauffeurs could not see it, and its luck lasted for fully a quarter of an hour. Then a bus put an end to the incident and the crowd passed on.

### Fillal Support.

**Telltale Inventory.**  
A ballist went out to levy on the contents of a house. The inventory began in the attic and ended in the cellar. When the dining room was reached the tally of furniture ran thus:  
"One dining room table, oak."  
"One set of chairs, (six), oak."  
"One sideboard, oak."  
"Two bottles of whiskey, full."  
Then the word "full" was stricken out and replaced by "empty," and the inventory went on in a hand that straggled and lunched diagonally across the page until it closed with:  
"One revolving door mat."—Columbus (Ohio) Dispatch.

### SOMETHING FOR NOTHING.

Mr. Hopper, general manager for the power company, told the Public Utilities Commission yesterday that when the assets of the old company were sold in 1895 for \$96,000 they were worth at least half a million. The thought in his mind appears to be that even if the property only cost the company \$96,000 it should have the right to demand from the people interest on \$500,000 forever after. By the same process of reasoning, the New Brunswick Power Company could invest \$8,500,000 or less, and be justified in asking the people to pay interest and dividends on \$5,000,000 for all time. In other words, no matter how little the property cost, the company, by asserting a certain value perhaps many times as great, should be permitted to compel the public to provide dividends on that valuation. This will not do. The people are willing to pay a fair profit on a real investment, provided they get satisfactory service. That is all they should be asked to do. The power company is not a private corporation working under competitive conditions. It has a monopoly which could only be secured by consent of the people. It has no right to speculate and make them pay enormous profits to a favored group of individuals. The whole matter of power company finance must be probed to the bottom and the people's rights protected.

### THE LEGISLATURE.

For many years the speech from the throne at the opening of the New Brunswick legislature has been a very barren document. The Foster government has instituted a healthy change, that will be appreciated by the people. The speech which is printed today tells of real work in progress and in prospect, and of policies which if properly pursued will be of great benefit to New Brunswick.

The proposed legislation in regard to public health takes precedence in importance, for this matter has been too long neglected, and it is time the operation of life assumed its proper place in the field of progressive politics. The Hall report furnishes an excellent basis for action and for the introduction of an enlightened policy designed to safeguard and promote public health from the earliest childhood of the future citizen.

St. John will be especially interested in the paragraphs relating to steel-ship-building, and whatever measure may be proposed to co-operate with the federal government and secure the establishment of a plant in this province. It is rightly said that this province possesses ideal advantages for the building of steel ships, and these have been recognized by great shipping firms of the mother country. But for a change of government at Ottawa at a critical time St. John would be building steel ships today. The federal government having decided upon a broad policy for the creation of a fleet of steel vessels, New Brunswick should do its part to ensure the establishment of a plant on the shores of the Bay of Fundy.

A new highway act is announced, and this measure will also be of universal interest and importance, for the need of improved legislation has been urged year after year without getting satisfactory results. The Foster government made an excellent beginning last year in constructing some portions of permanent road, and doing a great deal of needed repair work. It is understood that Hon. Mr. Veniot has made plans for a continuance of this policy on broader lines, and so far as financial conditions will permit the policy of good roads should be carried vigorously forward.

With regard to the settlement of soldiers on the land there has been a good deal of doubt as to whether any considerable proportion of the returned men would care to settle down on the land. In Ontario and the western provinces, however, the governments appear to be confident from what has already developed that it will be well worth while to make provision for a goodly number of soldier farmers, and New Brunswick cannot do less than provide the most favorable conditions for such settlement in this province.

Reference is made in the speech to the great need of increasing food production, and in this the agricultural department, which did so much valuable work last year, is organized for still more effective work in the present year. The legislature will endorse the policy, and the people throughout the province should give the fullest measure of co-operation. Food will win the war.

Of course the St. John Valley Railway comes in for a share of attention. The assurance is given that this road will be completed by next fall. It is believed that in the carrying out of the new railway policy of the Dominion government the province will be relieved

of the burden of this line, and that is the goal to which the legislature should press forward. In the meantime the line must be completed. In this connection the house should certainly endorse the government policy of endeavoring to secure the return of moneys wrongfully obtained from the company by exponents of high finance. A salutary lesson is needed if we are to have an end of grafting in New Brunswick.

Reference is made in the speech to the beneficial results of prohibition, and these will be still more apparent after the first of April, when the importation of liquor from Quebec and elsewhere is entirely prohibited. The measures relating to workmen's compensation and amendment of the forest laws will be of much importance. It is to be regretted that woman suffrage is not added to the list of government measures. Surely the session will not close without the passage of an act giving the franchise to the women of New Brunswick.

### THE EGG PROFITTEERS.

The Toronto Globe tells a story that ought to have some effect at Ottawa. It says:

"A little over two weeks ago a citizen of Toronto purchased some eggs at a local grocery, paying for them sixty cents a dozen. Pencilled upon some of the eggs he discovered the name T. J. Urton, Duck Lake, Saskatchewan. With the idea of finding out something as to the history of the eggs he wrote to Mr. Urton. The reply was rather startling. The eggs in question were shipped about fourteen months ago from a store in which Mr. Urton was at that time employed, and were sold for twenty cents per dozen. 'You can tell your grocer,' added the Duck Lake man, 'that he is sure making use of the high cost of living.' He is. But there must be others. The retailer did not get the two hundred per cent profit all to himself. Who participated in it? Where were the eggs held during the fourteen months that elapsed between the time they were shipped from Duck Lake and their appearance in the Toronto grocery? That man O'Connor might find out something worth while as to the ways of egg-storage concerns by following the trail of the Duck Lake eggs across the continent."

What is wrong with the food-control department? It has taken some action—but the profiteer is still doing business.

The Y. M. C. A. campaign for funds yesterday was another wonderful success, and a splendid tribute to the generosity of the people of St. John. The Y. M. C. A. has shown great activity in the last year or two, and has got closer to the people. President Barbour and the other directors are to be congratulated on the open road to greater service now before them. Mr. George L. Warwick, who captained the teams in yesterday's drive had marshalled his forces well, and the clever publicity campaign directed by Mr. F. G. Spencer was not less effective. St. John people have got the habit of giving, and every worthy cause finds quick and responsive sympathy.

There is infinite pathos in the confession of Mr. John E. Redmond that he died a broken-hearted man. All his hopes for a happy future for Ireland, to whose welfare his life was devoted, were not only unfulfilled but in the hour of his death the forces of disorder were gathering themselves to make less hopeful the deliberations of the Irish Convention. Come what may, the name of John E. Redmond will rank high in Irish history, and when brighter days dawn the value of his services will be more clearly seen by his fellow-countrymen.

Winnipeg Tribune. We have too long accepted the private interests cry of public incapacity. A people with faith in themselves are on the high road to a solution of many national problems. That public confidence era is with us and the goal is public ownership all along the line.

When the St. John Railway Company owned the plant there was a burden of \$119,000 on the business. When the New Brunswick Power Company took it over this was increased to \$182,000 annually. The public got no additional value. The poor public.

**GRAND ORANGE LODGE OF WESTERN ONTARIO**  
Chatham, Ont., Mar. 6.—Litigation connected with Regulation 17 drugs along" said H. C. Hocken, M. P., grand master, at the opening of the Grand Orange Lodge of Western Ontario, here today. In the meantime these schools were not obeying the law as they should. In some districts fairly satisfactory progress had been made; but taking the province as a whole, there was reason for disappointment. The provincial government had not receded from its position. Still it had not secured the results that the speaker had reason to expect by this time. The explanation for this state of affairs was that the French school trustees had appealed to the courts, and by doing so held in abeyance the enforcement of the regulation. It was to be hoped that the government will find a means of compelling the observance of its regulations by the recalcitrant trustees. It had been worked out in Manitoba by the appointment of an official

**WILSON AGAINST BARGAIN PEACE**

His Next Utterance, it is indicated, Will Call for Victory by Arms

Washington, Mar. 7.—There are clear intimations that President Wilson's next utterance on the international situation will be a call for arms. The president will show the country that victory on the battlefield is the only means to be relied on for forcing German militarism to accept a just and lasting peace.

One member of the cabinet said that the government fully recognizes the danger of peace discussion because of the effect that it may have on the American people to relax their efforts to win the war. It also was realized that this purpose was to be achieved by the president's next utterance. The president's next utterance may dissociate any impression which the exchange of views may have aroused as to the possibility of peace by compromise.

It would not surprise any one here if the president's next utterance on the subject will be more belligerent in its tone than the recent addresses and will show the American people that peace cannot come by bargain with the present German military leaders.

Facilitate and peace by compromise advocates here are profiting by the lull in the international situation to launch one of their insidious campaigns. Reports were in circulation from the pacifist quarters Monday that a peace move had actually begun. The president was relying more on the hope of making a bargain with Germany or Austria than on the nation's military plans.

These so-called peace moves have come and gone in waves and generally have left no impression, but in this case the reappearance of this agitation has taken the form of professing to give President Wilson's own ideas in support of it. In place of the peace at any price advocates there is now in evidence a peace by compromise group which interprets the president's last address to mean that he favors peace by compromise.

The president is represented by these advocates as following a double-barrelled policy of war and peace in regard to the Central Powers. It is said that the president counts on the war programme as an emergency measure to use if peace plans fail, but that for the present his main reliance is on the exchange of views now going on publicly between the United States and the Central Powers. It is expected here that the president will upset this effort to misrepresent him at once and will leave no doubt as to the nation's determination to force Germany to terms by a military victory.

**Alkali in Shampoos Bad for the Hair**

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary unperfumed coconut oil (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get unperfumed coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

**A Never Failing Way to Banish Ugly Hairs (Aids to Beauty.)**

No woman is immune to superfluous growths, and because these are likely to appear at any time, it is advisable to always have some delicate powder handy to use when the occasion arises. A paste is made with some of the powder and water and spread upon the hairy surface; in about 2 minutes this is carefully removed and the skin washed. You will then find that your skin is entirely free from hair or fuzz. Be sure, however, to get real delicate.

**GERMANS SEND MORE TO WEST**

Significant Statement is Made by General Maurice as to Situation

London, March 6.—The Germans are still adding to the number of their divisions on the western front, General F. B. Maurice, chief director of military operations at the war office, declared in his weekly talk with the Associated Press today. The Germans now have sixteen divisions more than the Allies in the west, he said, but this did not mean that they were in superior strength, as the allied divisions were numerically larger.

General Maurice said the Entente forces still held the superiority in rifles, guns and aircraft, but that this superiority was diminishing.

"I have said heretofore that a German offensive was not immediately likely, because the Germans required time to prepare new troops," said General Maurice, "but these major preparations are now more or less complete and the enemy can attack whenever he completes his local preparations."

Washington, March 6.—Renewed possibilities of a new Austro-Hungarian stroke on the Italian front are being reported by the Associated Press today. Important movements of enemy troops were effected during February. Formation by the enemy of a new tactical group similar to that adopted for the offensive of November last has been detected by the Italians.

**Ireland's Part**

(Halifax Chronicle)

John E. Redmond, the leader of the Irish Nationalists, whose fine patriotism has been one of the greatest assets of Great Britain in the war, gives, in a recent article, some facts and figures which show that Ireland has not always received proper credit for the contribution in men which she has made to the cause. Ireland, it is to be remembered, is and has been throughout a voluntary basis and both Unionists and Nationalists have opposed the application of conscription to that portion of the British Empire which she comprises. Mr. Redmond says that "from Ireland, according to the latest figures, 178,772 Irishmen are serving in the navy and army, representing all classes and creeds amongst our people. Careful inquiries made through the churches in the north of England and Scotland and from other sources, show that Ireland has contributed through the Irish race, most of them born in Ireland, have joined the colors in Great Britain. It is a pathetic circumstance that these Irishmen in non-Irish regiments are almost forgotten, except when their names appear in the casualty lists. Some of the Irish papers have for a considerable time past been publishing special lists of killed and wounded under the heading, 'Irish Casualties in British Regiments.'"

"As showing the extent to which Scottish regiments at the front are made up of Irishmen, one newspaper quotes the names from the casualty lists issued on four successive days in one week. All the names are Irish, all the addresses are Scotch, and all other officers of a regiment raised in Vancouver, commanded by Irishmen and composed of Irishmen. They call themselves 'The Vancouver Irish Fusiliers.' Then, not long since, in Cape Town, green flags were presented by General Botha's wife—a member of the historic Emmet family—to an Irish regiment raised there. Then there is that remarkable Irish battalion of the Canadian Expeditionary Force, the Irish Canadian Rangers, which is composed

**Roumania Giving Up The Fight**

Amsterdam, March 6.—A preliminary peace treaty between Roumania and the Central Powers was signed yesterday evening, says a despatch from Bucharest.

Under the terms of the plenipotentiary peace agreement Roumania cedes the province of Dobruja as far as the Danube to the Central Powers. Roumania also undertakes to further the transport of Teutonic troops through Moldavia and Bessarabia to Odessa.

An official German statement last night said Roumania had accepted the conditions of the Germans for an armistice. Apparently the signing of a plenipotentiary treaty followed almost immediately.

of Irish Catholics and Irish Protestants in equal numbers commanded by officers more than half of whom are Catholics and having a Catholic chaplain and a Protestant chaplain. The Irish race is represented in this war by at least half a million of men, who have voluntarily joined the colors."

Having thus made out a very good case for the Irish, Mr. Redmond declares that "I am proud of the Ulster regiments as I am of the Nationalist regiments. I do not want to boast of their valor. We Irishmen are inclined to take it as a matter of course. These Irish regiments—Unionist and Nationalist—merely keep up the tradition of our race. But I say that Lord Kitchener's words remain true—the words that he wrote to the viceregal recruiting conference in Dublin in 1915, when he said that in the matter of recruiting, 'Ireland's performance has been magnificent.' Let me ask any fair-minded man this question: If five years ago anyone had predicted that in a great war in which the empire was engaged 178,772 men would have been raised in Ireland, and that there would be more than half a million Irishmen with the colors, would he not have been looked upon as a lunatic? It is the free offering of Ireland. Surely it must be regarded as a proud and astonishing record."

**SHE DARKENED HER GRAY HAIR**

Well Known Lady Tells How She Darkened Her Gray Hair By a Simple Home Made Remedy.

Mrs. E. H. Booth, a well known resident of Buchanan County, Ia., who darkened her gray hair by a simple home-made remedy made the following statement:

"Any lady or gentleman can darken their gray or faded hair, and make it soft and glossy with this simple recipe, which they can mix at home. To half a pint of water add 1 ounce of bay rum, one small box of Orifex Compound and 1-4 ounce of glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the gray hair is darkened sufficiently. It does not color the scalp; it is not sticky or greasy and does not rub off. It will make a gray haired person look 10 to 20 years younger."

ENTERED WAR BECAUSE THEY WANTED PEACE

Only Way United States Could Achieve Ideals

"CAUSES OF THE WAR"

The United States entered the war with Germany because it wanted peace in the world, according to Professor Andrew C. McLaughlin, head of the department of History at the University of Chicago.

H. M. HOPPER AGAIN ON STAND

Says Half Million Plant Bought For \$96,000 in 1894

His Explanation of the Payment of \$10,000 to Himself and Loan of \$50,000 Made to F. R. Taylor

H. M. Hopper was on the stand at the New Brunswick Power Company inquiry yesterday afternoon.

At the opening of the afternoon session Mr. Powell continued his direct examination of Mr. Hopper in part as follows:

Mr. Powell—Respecting the January, 1918, earnings, have you any explanation you wish to make?

Mr. Hopper—I would like to call the attention of the commissioners to the fact that the earnings set down for January would not represent a full month at the increased prices. We could not start with July 1 and bill people \$1.50 for use of the system of continuous reading of our meters and therefore the bills would be half at one price and half at the other, that is half at the increased rate and half at the old rate.

The Taylor Transaction. Q—In the matter of Mr. Taylor's transaction involving \$50,000? A—We had heard that McGill Uni-

Too Nervous To Sleep

Nerves Wrecked by Accident Was Alighted On in Crowd at His Cure.

Much sympathy was felt in this city for Mr. Dorey, who met with a distressing accident when his foot was smashed in an elevator.

This shock to his nervous system was so great that Mr. Dorey was in a pitiable condition for long time. He was like a child in that he required his mother's care nearly all the time. He feared a crowd, could not stay alone and could not sleep because of the weakness and excited condition of his nerves.

Doctors doctors did what they could for him, but he could not get back his strength and vigor until he fortunately heard of Dr. Chase's Nerve Food.

It is no mere accident that Dr. Chase's Nerve Food proves to be exactly what is needed in so many cases of exhausted nerves. It is composed of the ingredients which nature requires to form new blood and create new nerve force. For this reason it cannot fail and for this reason it succeeds where ordinary medicine fails.

Mr. Lawrence E. Dorey, 89 Stanley street, London, Ont., writes: "About three years ago I got my foot smashed in an elevator in Detroit, which completely wrecked my nerves. I doctored with the doctors there, but they did not seem to be able to help me. My nerves were in such a state that I could not go down town alone or go any place where there was a crowd. Sometimes my mother would have to sit and watch over me at night, and sometimes I could not get any sleep at all. But one day last winter I commenced using Dr. Chase's Nerve Food, and before I had completely used the first box I could see a difference in my condition. I continued using these pills for some time. The result was splendid. I feel so much better, can sleep well at night, can go out on the street and attend gatherings like the rest of people. I am so pleased to be able to tell you what Dr. Chase's Nerve Food has done for me, and to recommend it to other people."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.75, at all dealers or Edmondson, Bates & Co., Limited, Toronto. Do not be misled into accepting a substitute. Imitations only disappoint.

ENO'S FRUIT SALT

versity was dissatisfied with their holdings of St. John Railway bonds, as they could get bonds giving better interest, and that they would be willing to sell at a discount. We offered to purchase \$50,000 of \$5,000 worth ninety-dvys, but they refused to sell, saying that they had paid more than par for them and would not sell them at less than par.

That was some time in November. In December the board of directors authorized me to try to effect a loan at five per cent, with good collateral security. That was general and not in connection with Mr. Taylor.

I tried to arrange a loan with a couple of brokers, but could not, and so reported back to the board. Mr. Taylor then stated that if I could not do better he would transfer a loan which he had with the Bank of British North America to the company, and I accepted it and so reported to the board of directors, and the loan was made.

Mr. Powell—That loan went to pay the Bank of British North America? A—That is what I transferred to the Bank of Montreal, and I consider the security was ample.

Q—There was about enough of the stock of the company to make sufficient security? A—Yes. There was nearly as much more.

Q—That secured the company beyond the amount of the loan? A—Yes.

Q—Another matter which is referred to by the MacIntyre report was the \$10,000 that was voted to yourself. When was that \$10,000 first talked about? A—It was talked about previous to 1914, and was passed by a meeting of the shareholders in 1914. It was originally voted in bonds and in event of my death should be paid to my heirs.

Q—That was in trust for me and I drew the interest and was to continue to do so until I severed my connection with the company, and these bonds were to remain in trust. If I severed my connection with the company they were to be handed over. Previous to the transfer at the last meeting of the shareholders in 1917 they changed it from bonds to cash as the new company did not want any more bonds issued. The cash was paid to me.

In further direct examination at this point evidence given at the morning session was referred to by Mr. Hopper. Commissioner Connell—What amounts are you attempting to pay interest and dividends on? Mr. Hopper—\$1,750,000 bonds at five per cent; \$1,000,000 preferred at seven per cent; \$500,000 second preferred at seven per cent; the first preferred are accumulative and the second preferred are non-accumulative.

Mr. Powell asked the witness if he knew what amounts were taken in to take care of the water powers at Lepreau and Maguadavie, but Mr. Hopper replied that he had no idea.

Q—You got nothing out of the transfer for except 140 for your stock? A—I held very little stock at the time of the transfer. I sold 138 two months before.

Retracting the statement by the witness of the various stocks and debentures on which the company desired to pay interest and dividend, Mr. Baxter opened his cross-examination with the question, "Can you show me in this change of ownership what there is representing such an increased capital value?"

Old Plant Underestimated. Mr. Hopper—There is the value of the St. John Railway Company represented by the amount they had received for their stock and there is the water powers.

Dr. Baxter—They are the same physical assets that were held by the St. John Railway Company before? Mr. Hopper—Yes.

Dr. Baxter—There would be the addition of the value of the water powers but nothing more? A—That is all.

Q—At all events the water power privileges are not an earning factor at the present time? A—No.

Q—Do you say that the physical assets of the St. John Railway Company before the transfer had a value of more than \$2,657,600? A—Yes.

Q—How much more than that value would you place on the physical assets of the company? A—That is a matter for appraisal.

Q—This transfer had taken place and people do not do these things without knowing what they are doing. What is your mind the physical value at that time? A—That is a matter for appraisal.

Commissioner Connell—Can you say how much it was, if so you should say.

the transfer from one company to another that the burden on the business was changed from \$12,880 to \$128,000 annually, that was more than \$20,000. There is no more railway to be built, and there is nothing except the undeveloped water powers.

Mr. Hopper—I would like to have a statement handed in which would show how many more railway miles are being taken into consideration the railway and electric department as well as the water powers.

Mr. Hopper—That this would be a long and involved task, and he could not possibly do it in a couple of days. Mr. Baxter argued that it would not be so difficult and that the increased price of coal and iron would be easily taken into account in such a statement.

It was finally decided that a rough estimate be made up covering the business apparent for the year 1918 by comparison with 1917 business and apply the new rates.

Mr. Hopper stated that the railway earnings would be less in 1918 than in the previous year.

Dr. Baxter—I presume that is because the company has cut down some of the lines. "The cars have been taken off," replied Mr. Hopper, "but of course it is down on labor charges and that about balanced."

Dr. Baxter—Here is the expenses in the railway department from December, 1917, as compared with January, 1918. It is a jump of about \$2,850 in the cost of coal and the balance wages.

Dr. Baxter—Are the boilers and machinery which produce electric power for the railway power absolutely separate from the machinery which produces power for the electric light?

Mr. Hopper—They are connected. The cost of each department is charged to that department.

Dr. Baxter—Does the element of profit in the machinery department depend on the amount of power used by each department charged to that department?

Mr. Hopper—No, it is put in at the cost of production; no overhead expense is taken in either.

Dr. Baxter asked for an explanation of \$85,872 in the auditor's report charged to special deductions, and the \$85,872 in what he charged to depreciation and special deductions charged to operating accounts.

Mr. Hopper—Ask Mr. MacIntyre; there is no account on our books like that. These are not taken off our books; they are and do not appear on our books in that way. I cannot see why it is you ask me to explain Mr. MacIntyre's report.

Mr. Powell objected to this question being urged, but Chairman O'Byrne overruled the objection, saying that if Mr. Hopper could explain any part of it there was no reason why he should not do so.

Mr. Hopper—Then I am not explaining this as being a part of our books. Dr. Baxter said that the total as shown in one account was \$85,116.37 as a total for the year, and the \$85,872 in special deductions, while in the statement of earnings, operating expenses and profits, these special deductions were shown as \$85,872.

Mr. Hopper in his explanation said that the depreciation and \$25,870 for the old pumping plant.

Dr. Baxter—Is any part of that attributed to the gas? Mr. Hopper—None of that \$25,000. Dr. Wallace then took up the cross-examination as follows:

Q—Who composed the New Brunswick Investment Company? A—I do not know anything about that.

Q—Did the New Brunswick Investment Company really have the St. John Railway Company for more than an hour? A—I do not know.

Q—Do you know what the New Brunswick Investment Company got? A—I do not know.

Q—Did the New Brunswick Investment Company get anything in addition to the bonds and stock that they got at par and if so, did they pocket the difference in what they paid and the price they disposed of them at? A—I know nothing whatever about it.

It was decided to adjourn the session until a week from Friday so that a gas expert might be present to give evidence before the commission.

BEAT OFF U-BOAT IN 2 1/2 HOUR FIGHT

Chief Gunner's Mate Groves, on Duty on the Nyanza, is Commended

Washington, Mar. 6.—The story of an engagement lasting two and a half hours between an American steamer and a German submarine in which the U-boat was destroyed, has become known through the action of the secretary of the navy in commending the chief petty officer of the United States navy who was in command of the armed guard on the steamer.

Chief Gunner's Mate Benjamin H. Groves is the man commended for seal and efficiency in the performance of duty.

The engagement occurred on Jan. 13, when the steamer Nyanza encountered a torpedo headed for the ship. The Nyanza saw a periscope about 1,000 yards away and at the same time sighted a submarine. The Nyanza fired at the submarine and the latter fired back. The Nyanza fired rapidly, then came to the surface, started her oil engines and gave chase. At about 7,000 yards the U-boat opened fire with two guns, using shrapnel, and signalling in order to get both guns at the same time. This manoeuvre caused her to drop stern, but she came up to the merchantman again, approaching to within 5,000 yards.

After a number of shots had fallen short the U-boat got the range and the Nyanza was hit five times. One shot passed through the after-gun platform, through the wood shelter house and the iron deck, breaking a deck beam and causing a hole in the side of the ship. One shot exploded in the armed guards' messroom, wrecking it.

The U-boat fired a second shot, but it missed the ship, but did not go through.

"At about 11:15 the submarine had our range again," Groves says. "At the same time I had his range, and fired four shells quickly, causing him to come broadside and keel over, then suddenly disappear just as he had our range good. This leads me to think he did not quit from choice but from necessity."

"The engagement lasted two hours and thirty minutes. The Nyanza fired ninety-two rounds and the submarine approximately 200. The gun's crew throughout the engagement behaved coolly, doing their duty, and gaining experience which I think will be manifested in the next attack. Three men of the gun's crew had their clothes torn more or less by the shrapnel. One engineer, cutter was wounded and taken to hospital on arrival in port."

The navy department's announcement is prepared to carry out the announcement of commendation says:

"The promptness with which the periscope was picked up and the accuracy with which it denotes an efficiency on the part of the armed guard for which Groves, commanding officer, was responsible. Groves enlisted in the navy Nov. 6, 1910, at Newport, R. I. His father, David Groves, lives at 199 Dean street, New Bedford, Mass."

RED JERSEYS IN FRANCE. To leave this country and go to France is to go to scenes of equal activity with the public. The time for political juggling on any question has gone by.

Mr. Hopper—No, it is put in at the cost of production; no overhead expense is taken in either.

Dr. Baxter—Does the element of profit in the machinery department depend on the amount of power used by each department charged to that department?

If Kidneys Act Bad Take Salts

Says Backache is sign you have been eating too much meat

When you wake up with headache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority.

Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and laggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's uric acid also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure, and makes a delightful, effervescent lithia-water drink.

When you wake up with headache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority.

Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and laggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's uric acid also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure, and makes a delightful, effervescent lithia-water drink.

IMPORTANT LEGISLATION FOR PROVINCE IS PROMISED IN SPEECH FROM THE THRONE

Shipbuilding, Health Provisions, Forestry Act, New Highway Policy, Workmen's Compensation—Text of the Speech

LIEUTENANT-GOVERNOR FUGLESTAD, WHO DELIVERED SPEECH FROM THRONE

Fredricton, Mar. 7.—At the opening of the New Brunswick legislature this afternoon Hon. Wm. Fuglestad, lieutenant-governor, delivered the speech from the throne as follows: Mr. Speaker and gentlemen of the Legislative Assembly: It gives me much pleasure to welcome you to the second session of the seventh legislative assembly of the province of New Brunswick.

LIVER TROUBLE and HEARTBURN CURED BY MILBURN'S LAXA-LIVER PILLS

When the liver is torpid and inflamed it cannot furnish bile to the bowels causing them to become bound and constive. The symptoms are a feeling of fullness or weight in the right side, and shooting pains in the same region, pains between the shoulders, yellowness of the skin and eyes, floating specks before the eyes, coated tongue, bad taste in the morning, heartburn, water-brash, etc.

Wash That Itch Away

There is absolutely no sufferer from eczema who is ever cured by the simple wash D. D. D. and did not feel immediately that wonderfully cool, cool sensation that comes when the itch is taken away.

DANGER TO SYSTEM UNLESS ACTION IS TAKEN

Ignorance alone can excuse neglect of the health when all indications point to kidney trouble. Everyone should know that from the hour the kidneys fail to remove the poisons from the blood, these poisons are accumulating ready to cause sickness, pain and suffering.

BEST FOR LIVER, BOWELS, STOMACH HEADACHE, COLDS

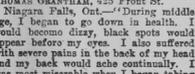

They lighten the liver and bowels and straighten you right up. Don't be bilious, constipated, sick, with breath bad and stomach sour

Tonight sure! Take Cascarets and enjoy the finest, gentlest liver and bowel cleansing you ever experienced. Wake up with your head clear, stomach sweet, breath right and feeling fine.

NURSING THE WOUNDED It takes strength and courage to nurse the wounded. Every woman should make herself fit for the call at home or abroad. Health and strength are within the reach of every woman.

At some period in her life, a woman requires a special tonic. If you're a tired or afflicted woman, turn to Favorite Prescription, you will find it never fails to benefit.

Niagara Falls, Ont.—During middle age, I began to grow old. My hair would become gray, black spots would appear before my eyes. I also suffered with severe pains in the back of my head and my back would ache continually.

Your Liver Is the Best Beauty Doctor

A dull, yellow, lifeless skin, or pimples and eruptions, are twin brothers to constipation. Bile, nature's own laxative, is getting into your blood instead of passing out of your system as it should.
